INDEPENDENT ACCOUNTANTS' REPORT

Hope Academy - Broadway Campus Community School
Cuyahoga County
3398 East 55th Street
Cleveland, Ohio 44127

To the Board of Trustees:

We have audited the accompanying financial statements of the Hope Academy Broadway Campus Community School, Cuyahoga County, Ohio, (the Community School) as of and for the years ended June 30, 2000 and 1999, as listed in the table of contents. These financial statements are the responsibility of the Community School's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Hope Academy Broadway Campus Community School, Cuyahoga County, Ohio, as of June 30, 2000 and 1999, and the results of its operations and its cash flows for the years then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 6, 2001 on our consideration of the Community School's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

CUYAHOGA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2000 AND 1999**

1. DESCRIPTION OF THE SCHOOL AND REPORTING ENTITY

Hope Academy Broadway Campus (the School) is a state nonprofit corporation established pursuant to Ohio Rev. Code Chapters 3314 and 1702 to maintain and provide a school exclusively for any educational, literary, scientific and related teaching services. The School, which is part of the State's education program, is independent of any school district. The School may sue and be sued, acquire facilities as needed, and contract for any services necessary for the operation of the School.

The School contracts with White Hat Management, LLC, for a variety of services including management consulting, Ohio Department of Education consulting, Educational Management Information System (EMIS) monitoring and consulting, technology and operational support, teacher training, and assistance in grant applications.

The School was approved for operation under contract with the Ohio State Board of Education (Sponsor) for a period of five years commencing July 1, 1998. The School began operations on July 1, 1999. The School operates under a self-appointing four-member Board of Trustees (the Board). The School's Code of Regulations specify that vacancies that arise on the Board are filled by the appointment of a successor trustee by a majority vote of the then existing trustees. The Board is responsible for carrying out the provisions of the contract with the Sponsor which includes, but is not limited to, state-mandated provisions regarding student population, curriculum, academic goals, performance standards, admission standards, and qualifications of teachers. The School has one instructional/support facility staffed by 13 non-certified and 12 certified full-time teaching personnel who provide services to 274 students. The Board also operates other Hope Academies at the Cathedral Campus, Chapelside Campus, Lincoln Park Campus and the Life Skills Center of Cleveland. All Schools are located in the City of Cleveland.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental nonprofit organizations. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, provided they do not conflict with or contradict GASB pronouncements. The more significant of the School's accounting policies are described below.

A. BASIS OF PRESENTATION

Enterprise accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/ or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

B. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities are included on the balance sheet. Equity consists of the accumulated deficit. Operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The accrual basis of accounting is utilized for reporting purposes. Revenues are recognized when they are earned, and expenses are recognized when they are incurred.

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2000 AND 1999**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. BUDGETARY PROCESS

Unlike other public schools located in the state of Ohio, community schools are not required to follow budgetary provisions set forth in Ohio Rev. Code Section 5705, unless specifically provided in the School's contract with its Sponsor. The contract between the School and its Sponsor requires a detailed school budget for each year of the contract, however the budget does not have to follow the provisions of Ohio Rev. Code Section 5705.

The School's Board adopts a formal budget at the beginning of the school year. Spending limits are set based on projected revenue from the State of Ohio and other known sources. The Board's adoption of the budget states that actual expenditures are "not to exceed" budget amounts. The School Principal and Business Manager are responsible for ensuring that purchases are made within these limits. However, any variances from the budget are presented to the Board for subsequent approval.

D. CASH AND CASH EQUIVALENTS

All cash received by the School is maintained in demand deposit accounts.

For purposes of the Statement of Cash Flows and for presentation on the Balance Sheet, investments with an original maturity of three months or less at the time they are purchased are considered to be cash equivalents.

E. FIXED ASSETS AND DEPRECIATION

Fixed assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market value as of the date received. The School maintains a capitalization threshold of \$1,000. The School does not have any infrastructure.

Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are expensed.

Depreciation of furniture and fixtures, textbooks, and equipment is computed using the MACRS half-year convention over estimated useful lives of five to ten years. Leasehold improvements are depreciated over an estimated useful life of 39 or 40 years.

F. INTERGOVERNMENTAL REVENUES

The School currently participates in the State Foundation Program and the State Disadvantaged Pupil Impact Aid (DPIA) Program. These programs are recognized as operating revenues in the accounting period in which they are earned and measurable.

Additionally, the school has applied and received approval for federal grant monies. Amounts recognized under federal programs for the 2000 fiscal year totaled \$172,004.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. ACCRUED EXPENSES

Payroll (\$78,690), rent (\$19,917), management fees (\$33,195), and advertising & promotion fees (\$9,958) which are due but unpaid as of June 30, 2000, are reported as Accrued Expenses in the accompanying Balance Sheet.

I. USE OF ESTIMATES

In preparing the financial statements, management is sometimes required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. ACCUMULATED DEFICIT

The School had an accumulated deficit of \$10,074 for the year ended June 30, 2000 and \$8,140 for the year ended June 30, 1999.

The School's deficit has been guaranteed by White Hat Management, LLC. This guarantee is considered an advance under the School's revolving loan note. All amounts advanced under this Deficit Coverage Guaranty Agreement are subject to the provisions of the Revolving Loan and Security Agreement agreed to by the School and White Hat Management LLC. Operating surpluses shall be applied to the reduction of the advances and interest due. Amounts guaranteed are limited to the School's available funds under the loan agreement.

4. DEPOSITS

At fiscal year-end June 30, 2000, the carrying amount of the School's deposits was \$5,138, and the bank balance was \$22,036. For the fiscal year-end June 30, 1999 the carrying amount of the School's deposits was \$194 and the bank balance was \$194. All of the bank balance was covered by federal depository insurance for fiscal years ended June 30, 2000 & June 30, 1999.

5. INTERGOVERNMENTAL RECEIVABLES

The School has recognized on its balance sheet an "Intergovernmental Receivable" for the amount that is estimated to be refunded to the School by the Ohio Department of Education based on the difference in the actual student full-time equivalent (FTE) enrollment as determined at the end of the year, compared to the October 1999 enrollment that the School's monthly funding was based upon. The receivable reflects that the School was funded on a lower estimated enrollment figure throughout the year than what the actual FTE enrollment figure was calculated to be at year end.

6. NOTES PAYABLE

The School has a \$300,000 Revolving Loan and Security Agreement (the Loan) with White Hat Management, LLC to fund working capital and other operating needs. The Loan was due on demand or in the absence of earlier demand, on June 30, 2000 and June 30, 1999. The loan was renewed for an additional one-year period for each of the fiscal years. The balance outstanding was \$66,000 at June 30, 2000 and \$8,334 at June 30, 1999. Interest expense of \$3,589 was paid at a rate of 10% for the year ended June 30, 2000 and \$792 was payable to White Hat Management at June 30, 2000. Interest was waived during fiscal year-end June 30, 1999.

Benefits are established by Chapter 3309 of the Ohio Revised Code. NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2000 & JUNE 30, 1999
(Continued)**

12. DEFINED BENEFIT PENSION PLANS (Continued)

A. School Employees Retirement System (Continued)

Plan members are required to contribute 9 percent of their annual covered salary and the School is required to contribute 14 percent; for fiscal year 2000, 5.5 percent was the portion to fund pension obligations. The contribution rates are not determined actuarially, but are established by SERS' Retirement Board within the rates allowed by Ohio statute. The adequacy of the contribution rates is determined annually. The School's required contribution for pension obligations to SERS for the fiscal year ended June 30, 2000 was \$16,716, of which \$1,036 was payable at June 30, 2000.

B. State Teachers Retirement System

The School also contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

Plan members are required to contribute 9.3 percent of their annual covered salary and the School is required to contribute 14 percent; 6 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The School's required contribution for pension obligations to STRS for the fiscal year ended June 30, 2000 was \$25,622, of which \$1,192 was payable at June 30, 2000.

13. POST EMPLOYMENT BENEFITS

The School provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physician's fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and contribution rates are established by the Systems based on authority granted by State statute. Both Systems are on pay-as-you-go basis.

For STRS, all benefit recipients are required to pay a portion of health care costs in the form of a monthly premium. By Ohio Law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14 percent of covered payroll. The Board currently allocates employer contributions equal to 8 percent of covered payroll to the Health Care Reserve Fund for which payments for health care benefits are paid. For the School during the 2000 fiscal year, this amount equaled \$34,162 of which \$3,576 was payable at June 30, 2000.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

For fiscal year 2000, employer contributions to fund health care benefits were 8.5 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, prorated for partial service credit. For fiscal year 2000, the minimum pay was established at \$12,400 for the School during the 2000 fiscal year, the amount to fund health care benefits, including surcharge, equaled \$33,229 of which \$1,899 was payable at June 30, 2000.

On August 17, 1998, the School entered into a five-year Management Consulting, Technology Support, and License Agreement (Consulting Agreement) and a Deficit Coverage Guaranty Agreement (Deficit Coverage Agreement) with White Hat Management, LLC (WHM), which is an education consulting and management company.

The Consulting Agreement's term coincides with the School's charter agreement and allows the School to utilize WHM's proprietary systems, manuals, forms, names and to receive advice on funding and reimbursement; special education programs; consulting and liaison services with the Ohio Department of Education and other governmental agencies; EMIS monitoring and consulting; grant writing assistance; technology procurement, implementation assistance, and other services and consultation as requested. WHM is compensated at a rate of 10% of qualified gross revenues plus an incentive fee equal to 25% of excess revenues over expenditures as defined in the agreement. For the year ended June 30, 2000, \$167,298 was expensed by the School under the Consulting Agreement and \$33,195 was payable to WHM at June 30, 2000. Amounts payable, if any, under the incentive fee arrangement have been waived as of June 30, 2000. The Consulting Agreement also required the School to pay WHM a front end-fee of \$50,001 for assistance in obtaining the School's charter agreement with the Ohio Department of Education. In addition, the Consulting Agreement also requires the School to fund an advertising and recruitment program fee at a rate of 3% of qualified gross revenues, which amounted to \$50,189 of which \$9,958 was payable to WHM at June 30, 2000. No fees were expensed under the Consulting Agreement for fiscal year-end June 30, 1999.

The School has also entered into a Deficit Guaranty Agreement as detailed in Note 3 and a Revolving Loan and Security Agreement as detailed in Note 6 with WHM.

15. CONTINGENCIES

Grants - Amounts received from grantor agencies are subject to audit and adjustment by the grantor. Any disallowed costs may require refunding to the grantor. Amounts which may be disallowed, if any, are not presently determinable. However, in the opinion of the School, any such disallowed claims will not have a material adverse effect on the financial position of the School.

16. STATE SCHOOL FUNDING DECISION

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio school funding plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the Ohio General Assembly to design a plan to remedy the perceived defects in the system. Declared unconstitutional was the State's "school foundation program", which provides significant amounts of monetary support to the School. During the fiscal year ended June 30, 2000, the School earned \$1,125,600 in school foundation revenue.

Since the Supreme Court ruling, numerous pieces of legislation have been passed by the Ohio General Assembly in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County has reviewed the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, "...the mandate of the [Ohio] Constitution has not been fulfilled." The Court's majority recognized efforts by the Ohio General Assembly taken in response to

16. STATE SCHOOL FUNDING DECISION (Continued)

the Court's March 27, 1997, decision, however, it found seven "...major areas warrant[ing] further attention, study, and development by the General Assembly...", including the State's reliance on local property tax funding, the state's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took the place of the unconstitutional emergency school loan assistance program.

The Court decided to maintain jurisdiction over these issues and continued the case at least until June 15, 2001.

As of the date of these financial statements, the School is unable to determine what effect, if any, this ongoing litigation will have on its future State funding under this program and on its financial operations.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY GOVERNMENT AUDITING STANDARDS

Hope Academy - Broadway Campus Community School
Cuyahoga County
3398 East 55th Street
Cleveland, Ohio 44127

To the Board of Trustees:

We have audited the financial statements of the Hope Academy Broadway Campus Community School, Cuyahoga County, Ohio, (the Community School) as of and for the years ended June 30, 2000 and 1999, and have issued our report thereon dated February 6, 2001. We conducted our audits in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Community School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted an immaterial instance of noncompliance that we have reported to management of the School in a separate letter dated February 6, 2001.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Community School's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However we noted other matters involving the internal control over financial reporting that did not require inclusion in this report, that we have reported to the management of the Community School in a separate letter dated February 6, 2001.

This report is intended for the information and use of management and the Board of Trustees, and is not intended to be and should not be used by anyone other than these specified parties.
