Independent Auditors' Report

Board of Education  
Huber Heights City School District  
4954 Longford Rd  
Huber Heights, Ohio 45424

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Huber Heights City School District (the District) as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Huber Heights City School District, as of June 30, 2007, and the respective changes in financial position thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2007, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 3 through 10 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, and is also not a required part of the basic financial statements of the District. The schedule of expenditures of federal awards has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2007**

**Unaudited**

---

The discussion and analysis of Huber Heights City School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2007. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

## **FINANCIAL HIGHLIGHTS**

Key financial highlights for 2007 are as follows:

- In total, net assets increased \$4,805,974, which represents a 14% increase from 2006.
- General revenues accounted for \$62,226,452 in revenue or 90% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$7,083,592 or 10% of total revenues of \$69,310,044.
- The District had \$64,504,070 in expenses related to governmental activities; only \$7,083,592 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$62,226,452 were adequate to provide for these programs.
- The District's only major fund, the general fund, had \$62,210,780 in revenues and \$57,593,000 in expenditures. The general fund's fund balance increased \$4,580,689 to \$19,877,699.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of two parts – management's discussion and analysis and the basic financial statements. The basic financial statements include two kinds of statements that present different views of the District:

These statements are as follows:

1. *The Government-Wide Financial Statements* – These statements provide both long-term and short-term information about the District's overall financial status.
2. *The Fund Financial Statements* – These statements focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

## **Government-wide Statements**

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net assets and how they have changed. Net-assets (the difference between the District's assets and liabilities) is one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District you need to consider additional nonfinancial factors such as the property tax base, current property tax laws, student enrollment growth and facility conditions.

The government-wide financial statements of the District reflect the following category for its activities:

*Governmental Activities* – Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

## **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's most significant funds, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

***Governmental Funds*** – Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

**Fiduciary Funds** – The District is the trustee, or fiduciary, for various student managed activity programs, various scholarship programs and other items listed as agency. It is also responsible for other assets that, due to a trust arrangement can only be used for the trust beneficiaries. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

### **FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE**

The following table provides a summary of the District's net assets for 2007 compared to 2006.

	Governmental Activities		Increase (Decrease)
	2007	Restated 2006	
Current and other assets	\$57,362,916	\$50,642,430	\$6,720,486

Total net assets	\$38,132,394	\$33,326,420	\$4,805,974

Total assets of the District's governmental activities increased 10% compared to the prior year. The majority of this increase can be attributed to an increase in cash and investments. Total liabilities increased 5% compared to the prior year. A decrease in compensated absences and long term debt was offset by a significant increase in the deferred tax levy.

### **Governmental Activities**

Net assets of the District's governmental activities increased \$4,805,974. Decreases in transportation fees as well as tuition from other districts resulted in the decrease in charges for service. The passage of a new replacement levy contributed to the increase in taxes. Increases in intergovernmental revenue can be attributed to State reimbursements related to the personal property tax phase out. Increased costs for salaries and benefits resulted in the increase in expenditures for instruction and staff.

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. In general, the overall revenue generated by the levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Property taxes made up 43% of revenues for governmental activities for Huber Heights City Schools in fiscal year 2007. The District's reliance upon tax revenues is demonstrated by the following graph:

Revenue Sources	2007	Percent of Total
Intergovernmental, Unrestricted	\$31,051,406	44.80%
Program Revenues	7,083,592	10.22%
General Tax Revenues	29,860,132	43.08%
General Other	1,314,914	1.90%
Total Revenue	<u>\$69,310,044</u>	<u>100.00%</u>

### **FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS**

The District's governmental funds reported a combined fund balance of \$20,548,461, which is above last year's total of \$16,322,010. The schedule below indicates the fund balance and the total change in fund balance by fund type as of June 30, 2007 and 2006.

	Fund Balance June 30, 2007	Restated Fund Balance June 30, 2006	Increase (Decrease)
General	\$19,877,699	\$15,297,010	\$4,580,689
Other Governmental	670,762	1,025,000	(354,238)
Total	<u>\$20,548,461</u>	<u>\$16,322,010</u>	<u>\$4,226,451</u>

The District's Other Governmental Funds balance decreased 35%. Federal Grants increased substantially, while capital outlays for school building improvements decreased from the previous year. The General Fund balance increase, which is due to several factors, is illustrated below.

Total	\$62,210,780	\$58,070,097	\$4,140,683

General Fund revenues in 2007 increased approximately 7% compared to revenues in fiscal year 2006. The passage of a new levy contributed to the increase in taxes. Higher invested balances contributed to the increase in investment earnings. Increases in intergovernmental revenue can be attributed to State reimbursements related to the personal property tax phase out.

Expenditures increased \$3,638,462 or 7% compared to the prior year. Increased costs for salaries and benefits resulted in the increase in expenditures for instruction and staff.

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2007 the District amended its General Fund budget several times, none significant.

For the General Fund, budget basis revenue was \$62 million, which did not significantly change from original or final budget estimates. The General Fund had an adequate fund balance to cover expenditures.

### **CAPITAL ASSETS AND DEBT ADMINISTRATION**

#### ***Capital Assets***

At the end of fiscal 2007 the District had \$18,864,585 net of accumulated depreciation invested in land, improvements, buildings, equipment and vehicles. The following table shows fiscal year 2007 and 2006 balances:

	<u>Governmental Activities</u>		<u>Increase (Decrease)</u>
	<u>2007</u>	<u>2006</u>	
Land	\$978,013	\$978,013	\$0
Land Improvements	1,196,745	1,051,645	145,100
Buildings and Improvements	25,655,975	25,500,212	155,763
Machinery and Equipment	3,839,113	3,831,408	7,705

Less: Accumulated Depreciation	(16,087,505)	(15,427,192)	(660,313)
Totals	<u>\$18,864,585</u>	<u>\$18,963,475</u>	<u>(\$98,890)</u>

The increase in buildings and improvements was the result of fire alarm upgrades, while the increase in land improvements can be attributed to track resurfacing. The acquisition of buses resulted in the increase in vehicles.

Additional information on the District's capital assets can be found in Note 9.

## **Debt**

At June 30, 2007, the District had \$2.8 million in notes, leases and compensated absences outstanding, \$517,435 due within one year. The following table summarizes the District's debt outstanding as of June 30, 2007 and 2006:

	<u>2007</u>	<u>2006</u>
Governmental Activities:		
Energy Conservation Notes:		
School Improvement	\$337,470	\$462,385
Capital Leases Payable	467,042	445,205
Compensated Absences	<u>2,037,091</u>	<u>2,210,577</u>
Totals	<u>\$2,841,603</u>	<u>\$3,118,167</u>

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% of the total assessed value of real and personal property. At June 30, 2007, the District's outstanding debt was below the legal limit. Additional information on the District's long-term debt can be found in Note 11.

## **ECONOMIC FACTORS**

The District is strong financially, but with the possible loss of manufacturing plants in the area the economic health of the community is uncertain coupled with increased health care cost the District will face budget challenges in the up coming years.

The Huber Heights City School District receives approximately 44% of its funding from the State and the remaining 56% from local sources

In conclusion, the Huber Heights City School District has committed itself to financial excellence for many years.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. Net Change in Fund Balances - Total Governmental Funds \$ 4,262,271

***Amounts reported for governmental activities in the statement of activities are different because***

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period (79,815)

Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the loss on the disposal of capital assets net of proceeds received. (19,075)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Change in Deferred Revenues	398,971	
Change in Inventory	<u>(35,820)</u>	363,151

The issuance of long-term debt provides current financial resources to governmental funds, but has no effect on net assets. In addition, repayment of long term note and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

Energy Conservation Note Principal Payment	124,915	
Capital Lease Principal Payment	185,813	
New Capital Lease	<u>(207,650)</u>	103,078

In the statement of activities, interest is accrued on outstanding long term debt, whereas in governmental funds, an interest expenditure is reported when due. 2,878

Some expenses reported in the statement of activities, such as compensated absences do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. 173,486

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

#### **A. Reporting Entity**

Huber Heights City School District, Ohio (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is governed by a locally elected five member Board of Education (the Board) which provides educational services. The Board controls the District's instructional support facilities staffed by approximately 318 non-certified and approximately 463 certified teaching personnel and administrative employees providing education to 6,651 students.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "*The Financial Reporting Entity*," in that the financial statements include all organizations, activities, functions and component units for which the District (the reporting entity) is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either the District's ability to impose its will over the organization or the possibility that the organization will provide a financial benefit to, or impose a financial burden on, the District. There were no potential component units that met the criteria imposed by GASB Statement No. 14 to be included in the District's reporting entity. Based on the foregoing, the reporting entity of the District includes the following services: instructional (regular, special education, vocational), student guidance, extracurricular activities, food service, pupil transportation and care and upkeep of grounds and buildings.

The District is associated with four organizations, which are defined as jointly governed, and one public entity risk pool. These organizations include the Metropolitan Dayton Educational Computer Association (MDECA), the Southwestern Ohio Educational Purchasing Council, the Miami Valley Career Technical Center, Southwestern Ohio Instructional Technology Association and the Southwestern Ohio Educational Purchasing Cooperative Employee Benefit Plan Trust.

The accounting policies and financial reporting practices of the District conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of its significant accounting policies.

#### **B. Basis of Presentation - Fund Accounting**

The accounting system is organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. The various funds are grouped into the categories governmental and fiduciary.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **B. Basis of Presentation - Fund Accounting** (Continued)

***Governmental Funds*** - These are funds through which most governmental functions typically are financed. The acquisition, use and balances of the District's expendable financial resources and the related current liabilities are accounted for through governmental funds. The measurement focus is upon determination of "financial flow" (sources, uses and balances of financial resources). The following is the District's only major governmental fund:

**General Fund** - This fund is the general operating fund of the district and is used to account for all financial resources except those accounted for in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

***Fiduciary Funds*** - Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary category is split into two classifications: private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations or other governments and therefore not available to support the District's own programs. The District's only trust fund is a private purpose trust that accounts for scholarship programs, gifts and awards for specific students. State law permits the District to appropriate for purposes consistent with the endowment's intent, net appreciation, both realized and unrealized. The District's agency fund accounts for various student-managed activity programs. The agency fund is custodial in nature (assets equal liabilities) and does not involve the measurement of results of operation.

#### **C. Basis of Presentation - Financial Statements**

**Government-wide Financial Statements** - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The government-wide statements are prepared using the economic resources measurement focus. Governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

## ***Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007***

---

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### **C. Basis of Presentation – Financial Statements (Continued)**

**Fund Financial Statements** – Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

Fiduciary funds are reported using the economic resources measurement focus.

#### **D. Basis of Accounting**

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the District is considered to be 60 days after fiscal year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt which is recognized when due.

Revenue considered susceptible to accrual at year end includes property taxes available for advance, tuition, grants, student fees, and interest on investments.

Current property taxes measurable at June 30, 2007, of which are not intended to finance fiscal 2007 operations, have been recorded as deferred revenues. Delinquent property taxes measurable and available (received within 60 days) and amounts available as an advance on future tax settlements are recognized as revenue at year end. Taxes available for advance and recognized as revenue but not received by the District prior to June 30, 2007 are reflected as a reservation of fund balance for future appropriations. The District is prohibited by law from appropriating this revenue in accordance with ORC Section 5705.35, since an advance of revenue was not requested or received prior to the fiscal year end.

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### **D. Basis of Accounting (Continued)**

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis.

#### **E. Budgetary Process**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year.

All funds other than agency funds are legally required to be budgeted and appropriated; however, only governmental funds are required to be reported. The primary level of budgetary control is at the function level in the General Fund and fund level for all other funds. Budgetary modifications may only be made by resolution of the Board of Education.

##### **1. Tax Budget**

By January 15, the Superintendent and Treasurer submit an annual operating budget for the following fiscal year to the Board of Education for consideration and passage. The adopted budget is submitted to the County Auditor, as Secretary of the County Budget Commission, by January 20 of each year for the period July 1 to June 30 of the following fiscal year.

##### **2. Estimated Resources**

Prior to March 15, the Board accepts by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during fiscal year 2007.

#### **E. Budgetary Process (Continued)**

##### **3. Appropriations**

A temporary appropriation measure to control expenditures may be passed on or about July 1 of each year for the period July 1 through September 30. An annual appropriation resolution must be passed by October 1 of each year for the period July 1 through June 30. The appropriation resolution establishes spending controls at the function level in the General Fund and fund level for all other funds. The appropriation resolution may be amended during the year as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources as certified. The allocation of appropriations among departments and objects within a fund may be modified during the year with approval of the Board. During the year, several supplemental appropriations were necessary to budget the use of contingency funds. Administrative control is maintained through the establishment of more detailed line-item budgets. The budgetary figures which appear in the "Statement of Revenues, Expenditures, and Changes in Fund Balances-Budget and Actual" are provided on the budgetary basis to provide a comparison of actual results to the final budget, including all amendments and modifications.

##### **4. Lapsing of Appropriations**

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be reappropriated.

##### **5. Budgetary Basis of Accounting**

The District's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on a cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting.

Budget Basis	<u><u>\$4,374,173</u></u>

##### **F. Cash and Cash Equivalents**

During fiscal year 2007, cash and cash equivalents included amounts in demand deposits, money market mutual funds, and repurchase agreements.

The District pools its cash for investment and resource management purposes. Each fund's cash and cash equivalents on the balance sheet represents the balance on hand as if each fund maintained its own cash account. See Note 4, "Cash, Cash Equivalents and Investments."

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### **G. Investments**

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the District records all its investments at fair value except for nonparticipating investment contracts (repurchase agreements) which are reported at cost. See Note 4, "Cash, Cash Equivalents and Investments."

#### **H. Inventory**

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased.

#### **I. Capital Assets and Depreciation**

Capital assets are defined by the District as assets with an initial, individual cost of more than \$5000.

##### **1. Property, Plant and Equipment - Governmental Activities**

Governmental capital assets are those that are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds. These assets are capitalized at cost (or estimated historical cost for assets not purchased in recent years) within the governmental activities in the government-wide statement of net assets but are not reported in the fund financial statements.

Contributed capital assets are recorded at fair market value at the date received. The District does not possess any infrastructure. Historical costs for governmental activities capital asset values were initially determined by identifying historical costs where such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

**I. Capital Assets and Depreciation (Continued)**

**2. Depreciation**

All capital assets are depreciated excluding land and construction in progress. Depreciation has been provided using the straight-line method over the following estimated useful lives:

Description	Governmental Activities Estimated Lives (in years)
Land Improvements	25
Buildings and Improvements	25 – 100
Machinery and Equipment	5 - 20
Vehicles	5

**J. Long-Term Obligations**

Long-term liabilities are being repaid from the following funds:

Obligation	Fund
Energy Conservation Notes	General Fund
Capital Leases Payable	Permanent Improvement Fund
Compensated Absences	General Fund, Food Services Fund, and Latchkey Fund

**K. Compensated Absences**

In accordance with GASB Statement No. 16, “*Accounting for Compensated Absences*,” vacation benefits are accrued as a liability when an employee’s right to receive compensation is attributable to services already rendered, and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments at termination or retirement. Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee’s wage rates at fiscal year end, taking into consideration any limits specified in the School District’s termination policy. For governmental funds, the School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service. The School District records a liability for accumulated unused sick leave for classified employees after 20 years of current service with the School District and for certified employees and administrators after 20 years of service.

## ***Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007***

---

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### **K. Compensated Absences (Continued)**

For governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported in the fund financial statements. In the government wide statement of net assets, "Compensated Absences Payable" is recorded within the "Due within one year" account and the long-term portion of the liability is recorded within the "Due in more than one year" account.

#### **L. Net Assets**

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. At June 30, 2007 there were no net assets restricted by enabling legislation.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

#### **M. Pensions**

The provision for pension costs is recorded when the related payroll is accrued and the obligation is incurred.

#### **N. Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

#### **O. Restricted Assets**

Restricted assets in the general fund represent cash and cash equivalents set aside to establish a textbook and instructional materials reserve. Cash with fiscal agent represents cash and cash equivalents restricted in use for the retirement of matured bonds and interest payable as well as for the purchase of bricks for a memorial courtyard. Fund balance reserves have been established for these amounts.

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### **P. Reservations of Fund Balance**

Reserves indicate that a portion of fund balance is not available for expenditure or is legally segregated for a specific future use. Fund balances are reserved for property taxes, supplies inventory, textbook and instructional materials, restricted donations and encumbered amounts which have not been accrued at year end. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles, but not available for appropriation under State statute. The reserve for textbook and instructional materials is required by State statute.

#### **Q. Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### **R. Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. The District had no extraordinary or special items during fiscal year 2007.

### **NOTE 2 – RESTATEMENT OF NET ASSETS**

Certain adjustments were necessary to account for the reclassification of the permanent fund. As a result of the restatement, the private purpose trust fund beginning balance increased \$1,579 to \$8,747 and the governmental funds beginning balance decreased \$1,579 to a balance of \$16,322,010. The District's Governmental Activities net assets at June 30, 2006 decreased \$1,579 to a restated amount of \$33,326,420.

### **NOTE 3 - COMPLIANCE AND ACCOUNTABILITY**

*Fund Deficits* - The fund deficits at June 30, 2007 of \$370,546 in the Food Service Fund, \$71,672 in the Uniform School Supply Fund, \$37,267 in the Latchkey Fund, \$7,456 in the Immigrant Fund, \$7,728 in the Preschool Grant Fund, \$30,497 in the Title VI-B Fund, \$10,846 in the Chapter I Fund, \$8,555 in the Title VI Fund and \$23,856 in the Class Size Reduction Fund (special revenue) arose from the recognition of expenditures on the modified accrual basis which are greater than expenditures recognized on the budgetary basis. A deficit does not exist under the budgetary basis of accounting.

#### **NOTE 4 – CASH, CASH EQUIVALENTS AND INVESTMENTS**

Cash resources of several individual funds are combined to form a pool of cash, cash equivalents and investments.

Statutes require the classification of funds held by the District into three categories. Category 1 consists of “active” funds - those funds required to be kept in a “cash” or “near cash” status for immediate use by the District. Such funds must be maintained either as cash in the District Treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of “inactive” funds - those funds not required for use within the current five year period of designation of depositories. Inactive funds may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

Category 3 consists of “interim” funds - those funds which are not needed for immediate use but, which will be needed before the end of the current period of designation of depositories. Interim funds may be invested or deposited in the following securities:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Interim deposits in eligible institutions applying for interim funds;
- Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions, and
- The State Treasury Asset Reserve of Ohio (STAR Ohio).

#### **NOTE 4 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)**

##### **A. Deposits**

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned. Protection of District cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the District places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year end the carrying amount of the District's deposits was \$3,725,901 and the bank balance was \$3,947,286. Federal depository insurance covered \$300,000 of the bank balance and \$3,647,286 was uninsured. Of the remaining uninsured bank balance, the District was exposed to custodial risk as follows:

	<u>Balance</u>
Uninsured and collateralized with securities held by the pledging institution's trust department not in the District's name	\$3,647,286
Total Balance	\$3,647,286

##### **B. Investments**

The District's investments at June 30, 2007 were as follows:

	<u>Fair Value</u>	<u>Credit Rating</u>	<u>Investment Maturities (in Years)</u>		
			<u>less than 1</u>	<u>1-3</u>	<u>3-5</u>
Repurchase Agreements	\$16,707,000	N/A	\$16,707,000	\$0	\$0

#### **B. Investments** (Continued)

<sup>1</sup> Standard & Poor's

<sup>2</sup> Moody's Investor Service

*Interest Rate Risk* – The Ohio Revised Code generally limits security purchases to those that mature within five years of settlement date.

*Concentration of Credit Risk* – The District places no limit on the amount the District may invest in one issuer. Of the District's total investments, 73% are repurchase agreements, 2% are United States Treasury Notes, 1% are FFCB, 6% are FNMA, 12% are FHLB, and 6% are FHLMC.

*Custodial Credit Risk* – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Of the District's investment in repurchase agreements, the entire balance is collateralized by underlying securities pledged by the investment's counterparty, not in the name of the District.

#### **C. Reconciliation of Cash, Cash Equivalents and Investments**

The classification of cash, cash equivalents and investments on the financial statements is based on criteria set forth in GASB Statement No. 9. Certificates of deposit with an original maturity of three months or less are treated as cash equivalents. The classification of cash and cash equivalents (deposits) for purposes of this note are based on criteria set forth in GASB Statement No. 3.

	<u>Cash and Cash Equivalents</u>	<u>Investments</u>
Per Financial Statements	\$20,432,901	\$6,268,232

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2007 amounted to \$1,184,182, which includes \$80,601 assigned from other District funds.

### **NOTE 5 - PROPERTY TAXES**

Property taxes include amounts levied against all real estate and public utility property, and tangible personal property used in business and located in the District. Real property taxes (other than public utility) collected during 2007 were levied after April 1, 2006 on assessed values as of January 1, 2006, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be reappraised every six years and equalization adjustments made the third year following reappraisal. The last revaluation was completed in 2002, and equalization adjustments were made in 2005. Real property taxes are payable annually or semi-annually. The first payment is due January 20, with the remainder payable by June 20.

Taxes collected from tangible personal property (other than public utility) in one calendar year are levied in the prior calendar year on assessed values during and at the close of the most recent fiscal year of the taxpayer, and at the tax rates determined in the preceding year. In prior years, tangible personal property used in business (except for public utilities) was assessed for ad valorem taxation purposes at 25 percent of its true value. As part of a phase out of the personal property tax, the assessment percentage for personal property was reduced to 12.5 percent in 2007. The rate will be reduced to 6.25 percent for 2008 and finally to zero in 2009. Amounts paid by multi-county taxpayers are due September 20 of the year assessed. Single county taxpayers may pay annually or semi-annually, the first payment is due April 30; with the remainder payable by September 20.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property is currently assessed at 100 percent of its true value. Public utility property taxes are payable on the same dates as real property described previously.

The County Treasurer collects property taxes on behalf of all taxing districts in the County including Huber Heights City School District. The County Auditor periodically remits to the District its portion of the taxes collected. The assessed value upon which the fiscal year 2007 receipts were based are:

	2006 Second Half Collections	2007 First Half Collections
Agricultural/Residential and Other Real Estate	\$702,638,290	\$719,003,930
Public Utility Personal	13,633,980	12,950,060
Tangible Personal Property	41,794,305	26,228,034
Total Assessed Value	<u>\$758,066,575</u>	<u>\$758,182,024</u>
Tax rate per \$1,000 of assessed valuation	\$63.06	\$63.02

#### **NOTE 10 - DEFINED BENEFIT PENSION PLANS**

All of the District's full-time employees participate in one of two separate retirement systems which are cost-sharing, multiple-employer defined benefit pension plans.

##### **A. School Employees Retirement System of Ohio (SERS of Ohio)**

All non-certified employees of the District, with minor exceptions, performing duties that do not require a certificate issued by the Ohio Department of Education are eligible to participate in the School Employees Retirement System of Ohio, a cost-sharing, multiple-employer public employee retirement system.

The SERS of Ohio provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. The SERS of Ohio issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information for the SERS of Ohio. Interested parties may obtain a copy by making a written request to SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling (800) 878-5853. It is also posted on SERS' website, [www.ohsers.org](http://www.ohsers.org), under Forms and Publications.

The Ohio Revised Code provides statutory authority for District and employee contributions of 14% and 10% respectively. The contribution rates are determined actuarially, and are established and may be amended, up to statutory amounts, by the School Employees Retirement Board (Retirement Board) within the rates allowed by State statute. The required employer contribution rate is allocated to basic retirement benefits and health care by the Retirement Board. At June 30, 2006, (latest information available) 10.58% was allocated to fund the pension benefit and 3.42% to fund health care. The District's contributions to the SERS of Ohio for the years ending June 30, 2007, 2006, and 2005 were \$1,084,704, \$1,088,160, and \$1,116,438, respectively, which were equal to the required contributions for each year.

The Ohio Revised Code gives SERS the discretionary authority to provide postretirement health care to retirees and their dependents. Coverage is made available to service retirees with ten or more years of qualifying service credit, disability and survivor benefit recipients. Effective January 1, 2004, all retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based on years of service, Medicare eligibility, and retirement status. The portion of the 2006 employer contribution rate (latest information available) that was used to fund health care for the year 2006 was 3.42%. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between minimum pay and the member's pay, prorated for partial service credit. For fiscal year 2007, the minimum pay has been established as \$35,800. The surcharge, added to the unallocated portion of the 14% employer contribution rate, provides for maintenance of the asset target level for the health care fund. The amount contributed to fund health care benefits, including the surcharge amounted to \$391,286.

#### **NOTE 10- DEFINED BENEFIT PENSION PLANS (Continued)**

##### **A. School Employees Retirement System of Ohio (SERS of Ohio) (Continued)**

Health care benefits are financed on a pay-as-you-go basis. Net health care costs for the year ended June 30, 2006 were \$158,751,207. The target level for the health care reserve is 150% of the projected claims less premium contributions for the next fiscal year. As of June 30, 2006, the value of the health care fund was \$295.6 million, which is about 221% of next year's projected net health care costs. On the basis of actuarial projections, the allocated contributions will be insufficient, in the long term, to provide for a health care reserve equal to at least 150% of estimated annual net claim costs. The number of participants eligible to receive benefits is 59,492.

##### **B. State Teachers Retirement System of Ohio (STRS of Ohio)**

All certified employees of the District are eligible to participate in the State Teachers Retirement System of Ohio, a cost-sharing, multiple-employer public employee retirement system.

The STRS of Ohio provides retirement and disability benefits, annual cost-of-living adjustments and survivor benefits based on eligible service credit to plan members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. The STRS of Ohio issues a stand-alone financial report that includes financial statements and required supplementary information for the STRS of Ohio. Interested parties may obtain a copy by making a written request to STRS Ohio, 275 East Broad Street, Columbus, Ohio 43215-3371, or by calling (614) 227-7877 or by visiting the STRS Ohio Web site at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation among various investment choices. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

#### **NOTE 10- DEFINED BENEFIT PENSION PLANS (Continued)**

##### **B. State Teachers Retirement System of Ohio (STRS of Ohio) (Continued)**

The Ohio Revised Code provides statutory authority for District and employee contributions of 14% and 10%, respectively. The contribution requirements of plan members and the District are established and may be amended by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. At June 30, 2006, (latest information available) 13% was allocated to fund the pension benefit and 1% to fund health care. The District's contributions to the STRS of Ohio for the years ending June 30, 2007, 2006, and 2005 were \$3,938,712, \$3,900,744, and \$4,141,296, respectively, which were equal to the required contributions for each year.

STRS provides postemployment health care benefits to retirees who participated in the DB or Combined Plans and their dependents. Coverage includes hospitalization, physician fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. All benefit recipients and sponsored dependents are eligible for health care coverage. Pursuant to the Revised Code, the State Teachers Retirement Board has discretionary authority over how much, if any, of the health care cost will be absorbed by STRS. All benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, health care benefits are not guaranteed.

Benefits are funded on a pay-as-you-go basis through an allocation of employer contributions to the Health Care Stabilization Fund. For the fiscal year ended June 30, 2006, (latest information available) the board allocated employer contributions are equal to 1% of covered payroll to the Health Care Stabilization Fund, which amounted to \$281,337 for the District. The balance of the Health Care Stabilization Fund was \$3.5 billion at June 30, 2006. For the fiscal year ended June 30, 2006, the net health care costs paid by STRS were \$282,743,000. There were 119,184 eligible benefit recipients.

#### **NOTE 12 - CAPITALIZED LEASE**

The District is obligated under several leases accounted for as capital leases. The cost of the leased assets is accounted for in the Governmental Activities Capital Assets and the related liability in the Governmental Activities Other Long-Term Obligations. The original cost of the assets under capital lease was \$1,206,943.

The following is a schedule of future minimum lease payments under the capital lease together with the present value of the net minimum lease payments as of June 30, 2007:

Year Ending June 30,	Capital Lease
2008	\$186,966
2009	162,734
2010	87,345
2011	48,030
2012	24,015
Minimum Lease Payments	509,090
Less: Amount representing interest at the District's incremental borrowing rate of interest	(42,048)
Present Value of minimum lease payments	\$467,042

#### **NOTE 13 – STATUTORY RESERVES**

The District is required by state law to set aside certain general fund revenue amounts, as defined, into various reserves. During the fiscal year ended June 30, 2007, the reserve activity (cash-basis) was as follows:

	Textbook Reserve	Capital Acquisition Reserve	Total
Set-aside Cash Balance as of June 30, 2006	\$511,491	\$0	\$511,491
Current Year Set-Aside Requirement	992,146	992,146	1,984,292
Qualifying Disbursements	(520,715)	(1,624,253)	(2,144,968)
Total	\$982,922	(\$632,107)	\$350,815
Cash Balance Carried Forward to FY 2008	\$982,922	\$0	\$982,922
Amount Restricted for Textbooks			\$982,922

Although the District had offsets and qualifying disbursements during the year that reduced the set-aside amounts below zero, the extra amount for capital acquisition may not be used to reduce the set-aside requirements of future years. Negative amounts for capital acquisition are therefore not presented as being carried forward to the next fiscal year.

#### **NOTE 14 - RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The District contracted with Indiana Insurance Company for building and property insurance. This policy has a limit of insurance in the amount of \$81,308,700 for property. Property has a \$500 deductible. Both Vehicle and General liability insurance is under Indiana Insurance. The base policy has a \$1,000,000 per occurrence and a \$2,000,000 aggregate limit. An additional "umbrella" policy has \$10,000,000 per occurrence and \$10,000,000 aggregate limit. The superintendent, treasurer, messengers, athletic director and all principals are bonded.

There has been no significant reduction in insurance coverages from coverages in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverages in any of the past three fiscal years.

Workers' compensation claims are covered through the District's participation in the State of Ohio's program. The District pays the State Workers' Compensation System a premium based upon a rate per \$100 of payroll. The rate is determined based on accident history and administrative costs.

The District is a member of the Southwestern Ohio Educational Purchasing Council (SOEPC). The council contracts with Comp Management to provide an insurance purchasing pool for workers compensation. The intent of the pool is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the pool. The workers compensation experience of the participation school districts is calculated as one experience and a common premium rate is applied to all school districts in the pool. Each participant pays this rate. Total savings is then calculated and each participants individual performance is compared to the overall savings percentage of the pool. A participant will then either receive money from or be required to contribute to the pool. This equity pooling arrangement insures that each participant shares equally in the overall performance of the pool. Participation in the pool is limited to school districts that can meet the pool's selection criteria. Comp Management provides administrative cost control and actuarial services to the SOEPC.

The District has elected to provide employee medical benefits through United Health Care as part of an insurance purchasing pool through the SOEPC. The employees share the cost of the monthly premium with the board for single and family plans. The board pays 90 percent of the premium.

The District provides life insurance to employees through Great American Life Insurance.

#### **NOTE 15 - JOINTLY GOVERNED ORGANIZATION**

*Metropolitan Dayton Educational Computer Association* – The District is a member of the Metropolitan Dayton Educational Computer Association (MDECA), which is a computer consortium. MDECA is an association of public school districts within the boundaries of Montgomery, Miami, and Darke Counties and the Cities of Dayton, Troy and Greenville. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative instructional functions among member districts.

#### **NOTE 15 - JOINTLY GOVERNED ORGANIZATION (Continued)**

The governing board of MDECA consists of seven Superintendents of member school districts, with six of the Superintendents elected by majority vote of all member schools districts except the Montgomery County Educational Service Center. The seventh Superintendent is from the Montgomery County Educational Service Center. The District paid MDECA \$186,243 for services provided during the year. Financial information can be obtained from Jerry Woodyard, who serves as Director, at 201 Riverside Drive, Suite 1C, Dayton, Ohio 45405.

*Southwestern Ohio Educational Purchasing Council* – The District participates in the Southwestern Ohio Educational Purchasing Council (SOEPC). The purpose of the council is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges or other assessments as established by the SOEPC. Each member district has one voting representative. Any district withdrawing from the SOEPC shall forfeit its claim to any and all SOEPC assets. One year prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member obligations during the one year period. Payments to SOEPC are made from various funds. During fiscal year 2007, the District paid \$405,978 to SOEPC. To obtain financial information, write to Southwestern Ohio Educational Purchasing Council, Ken Swink, Director, at 303 Corporate Center Drive, Suite 208, Vandalia, Ohio 45377.

*Miami Valley Career Technical Center* – The Miami Valley Career Technical Center is a district political subdivision of the State of Ohio operated under the direction of a Board consisting of seventeen members elected from twenty-seven participating school districts. The Board possesses its own budgeting and taxing authority.

*Southwestern Ohio Instructional Technology Association (SOITA)* - SOITA is a not-for-profit corporation formed under section 1702.01 of the Ohio Revised Code. The purpose of SOITA is to serve the educational needs of the area through television programming for the advancement of educational programs.

The Board of Trustees is comprised of twenty-one representatives of SOITA member schools or institutions. Nineteen representatives are elected from within the counties by the qualified members of those counties i.e. Auglaize, Butler, Champaign, Clark, Clifton, Darke, Fayette, Green, Hamilton, Logan, Mercer, Miami, Montgomery, Preble, Shelby, and Warren. Montgomery, Green, and Butler counties shall elect two representatives per area. All others shall elect one representative per area. All superintendents except for those from educational service centers vote on the representatives after a nomination committee nominates individuals to run. One at-large non-public representative shall be elected by the non-public school SOITA members as the State assigned SOITA service area. One at-large higher education representative shall be elected by higher education SOITA members from within the State assigned SOITA service area.

All member districts are obligated to pay all fees, charges, or other assessments as established by the SOITA. Upon dissolution, the net assets shall be distributed to the federal government, or to a state or local government for a public purpose. Payments to SOITA are made from the general fund. During fiscal year 2007, the School District paid \$2,831 to SOITA. To obtain financial information, write to the Southwestern Ohio Instructional Technology Association at 150 East Sixth Street, Franklin, Ohio 45005.

#### **NOTE 16 – INSURANCE PURCHASING POOL**

*Southwestern Ohio Educational Purchasing Cooperative Employee Benefit Plan* – The EPC Benefit Plan Trust (the Plan) is a group purchasing pool consisting of public school districts who are members of the Southwestern Ohio Educational Purchasing Cooperative. The purpose of a group purchasing pool is for members to pool funds or resources to purchase group insurance products to provide health benefits to participants at a lower rate than if the individual districts acted independently. Each district pays a monthly premium to the Trust fund for insurance coverage which is provided by Anthem Blue Cross or United Healthcare. Districts may also contribute monthly to the Trust fund for dental benefits provided through a self-funded dental plan administered by CoreSource. The Plan is governed by a Board of Trustees elected in accordance with the Trust Agreement and voted on by participating EPC member districts. In fiscal year 2007, The District contributed \$7,019,509, which represented 7.08 percent of total contributions to the Trust. Financial information can be obtained from Barbara Coriell, who serves as administrator, at EPC Benefits Office, 303 Corporate Center Drive, Suite 208, Vandalia, Ohio 45377.

#### **NOTE 17 - CONTINGENCIES**

##### **A. Grants**

The District receives financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2007.

##### **B. Litigation**

The District is not a party to various legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects as of June 30, 2007.

#### **NOTE 18 – SUBSEQUENT EVENT**

On November 20, 2007, the District passed a 1.5 mill replacement capital improvement levy that is expected to generate an additional \$138,000 in revenue annually.

#### **NOTE 19 – BUDGETARY COMPLIANCE**

The District had expenditures in excess of appropriations at the function level in the General Fund.

Notes to the Schedule of Expenditures of Federal Awards  
For the Year Ended June 30, 2007

---

### **NOTE A – SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Schedule of Expenditures of Federal Awards summarizes the activity of the School District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

### **NOTE B – U.S. DEPARTMENT OF AGRICULTURE PROGRAMS**

Non-monetary assistance, such as food received from the U.S. Department of Agriculture, is reported in the Schedule of Expenditures of Federal Awards at the fair market value of the commodities received and consumed. Cash receipts from the U.S. Department of Agriculture are commingled with State and Local funds. It is assumed federal monies are expended first. At June 30, 2007, the School District had no significant food commodities in inventory.

### **NOTE C – MATCHING REQUIREMENTS**

Certain federal programs require the School District to contribute non-federal funds (matching funds) to support federally-funded programs. The District has complied with the matching requirements. The expenditure of non-federal (matching) funds is not included on the Schedule of Expenditures of Federal Awards.

Report on Internal Control Over Financial Reporting and on Compliance and  
Other Matters Based on an Audit of Financial Statements Performed in  
Accordance with *Government Auditing Standards*

Board of Education  
Huber Heights City School District  
5954 Longford Rd  
Huber Heights, Ohio 45424

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Huber Heights City School District (the District), as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 31, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2007-001 to be a significant deficiency in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies, and accordingly would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we do not believe that the significant deficiency described above is a material weakness.

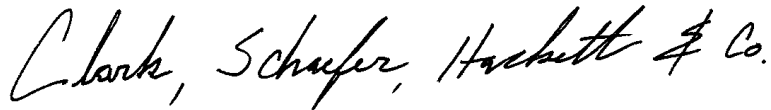

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the District, in a separate letter dated December 31, 2007.

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the audit committee, management, Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements Applicable to Each  
Major Program and on Internal Control Over Compliance in  
Accordance with OMB Circular A-133.

Board of Education  
Huber Heights City School District  
5954 Longford Rd  
Huber Heights, Ohio 45424

Compliance

We have audited the compliance of Huber Heights City School District, with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2007. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Huber Heights City School District, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or a combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management, Board of Education and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED  
TO BE REPORTED IN ACCORDANCE WITH GAGAS

**FINDING NUMBER: 2007-001**

During fiscal year 2007, the District entered into capital leases for buses. The accounting for this transaction for the year-end financial statements did not properly include the new capital leases. Additionally, in calculating taxes receivable for its financial statements, the District did not include the new permanent improvement levy in the taxes receivable calculation understating taxes receivable and deferred revenue on the financial statements. Audit adjustments were necessary to correct these issues in the financial statements.

The District should review its financial statements to ensure all assets and liabilities are properly reported

*Management Response*

The District has implemented procedures to ensure assets and liabilities are properly reported.

3. FINDINGS RELATED TO THE DISTRICT'S FEDERAL AWARDS

None noted
