INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Medina County
144 North Broadway Street
Medina, Ohio 44256

To the Board of County Commissioners:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Medina County, Ohio, (the County) as of and for the year ended December 31, 2006, which collectively comprise the County's basic financial statements and have issued our report thereon dated July 13, 2007, wherein we noted the County restated the fund balance/net assets of its Governmental Activities, Business-Type Activities, Achievement Center Fund, Sewer District Fund, Water District Fund and Solid Waste Fund. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinion on the financial statements but not to opine on the effectiveness of the County's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the County's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Government's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the County's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the County's internal control will not prevent or detect a material financial statement misstatement.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all internal control deficiencies that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

We noted certain matters that we reported to the County's management in a separate letter dated July 13, 2007.

Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note certain noncompliance or other matters that we reported to the County's management in a separate letter dated July 13, 2007.

We intend this report solely for the information and use of the audit committee, management, the Board of County Commissioners, and federal awarding agencies, and pass-through entities. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Medina County
144 North Broadway
Medina, Ohio 44256

To the Board of County Commissioners:

Compliance

We have audited the compliance of Medina County, Ohio, (the County) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that apply to each of its major federal programs for the year ended December 31, 2006. The summary of auditor's results section of the accompanying Schedule of Findings identifies the County's major federal programs. The County's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, Medina County, Ohio, complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended December 31, 2006.

In a separate letter to the County's management dated originally dated July 13, 2007 (reissued July 7, 2008), we reported other matters related to federal noncompliance not requiring inclusion in this report.

Internal Control Over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *control deficiency* in internal control over compliance exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent or detect noncompliance with a federal program compliance requirement on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that the entity's internal control will not prevent or detect more-than-inconsequential noncompliance with a federal program compliance requirement.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that the County's internal control will not prevent or detect material noncompliance with a federal program's compliance requirements.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Federal Awards Receipts and Expenditures Schedule

We have audited the financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of Medina County, Ohio, as of and for the year ended December 31, 2006, and have issued our report thereon dated July 13, 2007, wherein we noted the County restated the fund balance/net assets of its Governmental Activities, Business-Type Activities, Achievement Center Fund, Sewer District Fund, Water District Fund, and Solid Waste Fund. Our audit was performed to form opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying Federal Awards Receipts and Expenditures Schedule provides additional information as required by OMB Circular A-133 and is not a required part of the basic financial statements. We subjected this information to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The accompanying Schedule of Findings replaces the Schedule of Findings in Medina County's year ended December 31, 2006 report. The Schedule of Findings was revised to remove a noncompliance citation related to the Community Development Block Grant (CFDA 14.228) major federal program, which was not material noncompliance.

We intend this report solely for the information and use of the management, the Board of County Commissioners, the Audit Committee, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

**NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE
FISCAL YEAR ENDED DECEMBER 31, 2006**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) summarizes activity of the County's federal award programs. The Schedule has been prepared on the cash basis of accounting, except receipts and expenditures of assistance passed through the Workforce Investment Act (WIA) Area 2 which are presented on an accrual basis.

NOTE B - SUBRECIPIENTS

The County passes-through certain Federal assistance received from Ohio Department of Development and Ohio Department of Mental Health to other governments or not-for-profit agencies (subrecipients). As described in Note A, the County records expenditures of Federal awards to subrecipients when paid in cash.

The subrecipient agencies have certain compliance responsibilities related to administering these Federal Programs. Under Federal Circular A-133, the County is responsible for monitoring subrecipients to help assure that Federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements, and that performance goals are achieved.

NOTE C - CHILD NUTRITION CLUSTER

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

NOTE D – FOOD DONATION PROGRAM

Program regulations do not require the County to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture; however the County has elected to track these contributions which are reported on the Schedule at the fair market value of the commodities received and consumed.

NOTE E - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) REVOLVING LOAN PROGRAMS

The County has established a revolving loan program to provide low-interest loans to businesses to create jobs for persons from low-moderate income households and to eligible persons and to rehabilitate homes. The Federal Department of Housing and Urban Development (HUD) grants money for these loans to the County passed through the Ohio Department of Development. The initial loan of this money is recorded as a disbursement on the accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule). Loans repaid, including interest, are used to make additional loans. Such subsequent loans are subject to certain compliance requirements imposed by HUD, but are not included as disbursements on the Schedule.

These loans are collateralized by mortgages on the property and by other guarantees. At December 31, 2006, the gross amount of loans outstanding under this program was \$196,661. There are no delinquent amounts due.

NOTE F - MATCHING REQUIREMENTS

Certain Federal programs require that the County contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

Medina County Auditor

MICHAEL E. KOVACK

144 North Broadway St. Medina, Ohio 44256

July 13, 2007

To the Citizens of Medina County
and to The Board of County Commissioners:
the Honorable Patricia G. Geissman,
the, Honorable Stephen D. Hambley, and
the Honorable Sharon A. Ray,

As Medina County Auditor, I am pleased to present the Comprehensive Annual Financial Report (CAFR) of Medina County for the year ended December 31, 2006. This CAFR conforms to Generally Accepted Accounting Principles (GAAP) as applicable to government entities and is reported as promulgated by GASB Statement No. 34. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the County Auditor. To the best of my knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly and completely the financial position and results of the County's financial activities.

This report enables the County to comply with Ohio Administrative Code Section 117-2-03 (B), which requires reporting on a GAAP (Generally Accepted Accounting Principles) basis, and Ohio Revised Code Section 117.38 which requires counties reporting on a GAAP basis to file unaudited basic financial statements with the Auditor of State within 150 days of fiscal year end.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the object is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Management's discussion and analysis (MD&A) immediately follows the independent accountant's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complement this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The County of Medina has operated under the Board of County Commissioners since being incorporated in 1818. It is located in the northeastern part of the State, which is considered one of the top growth areas in the State. The County of Medina is empowered to levy a property tax on both real and personal property located within its boundaries. It is also empowered by State statute to extend the boundaries of cities, villages and townships by annexation, which it has done from time to time.

The Board of County Commissioners is required to adopt a final budget by no later than the close of the fiscal year. This annual budget serves as the foundation for Medina County's financial planning and control. The budget is prepared to the object level within each department for all funds. Any budgetary modifications at this level may only be made by resolution of the County Commissioners.

The County provides its citizens with a wide range of services including general government (both legislative and executive as well as judicial), public safety, public works, human services, health, conservation and recreation, water and sewer services, and solid waste management. A Court of Appeals situated in Summit County serves Medina County. For financial reporting purposes, the County (the primary government) includes all agencies, department and organizations that are not legally separate from the County. The Medina County Alcohol, Drug Addiction, and Mental Health Services Board and the Medina County Board of Mental Retardation and Developmental Disabilities are included as part of the primary government.

Local Economy

Once you have visited Medina County, you will find it is a community rich in traditions and history, and the kind of area you can move to, become a part of, and stay for a lifetime. One of the many questions residents of Medina County may be asking themselves, responding to our changing County is, "Where have we been and where are we going?"

Medina County is located in northeast Ohio and is part of the greater Cleveland and Akron metropolitan areas. After the 2000 Census was completed, the population of the County was 151,095. By 2006, the population had grown to 170,200. The area is 425 square miles. Medina County includes the entire boundaries of three cities, six villages, and seventeen townships.

Medina is the fastest growing county in northeast Ohio and the fifth fastest growing county of Ohio's eighty-eight counties. It is the second wealthiest county in the State. Much of our growth is due to the proximity to the interstate systems, coupled with our experienced workforce and cooperative business environment. With our current "wave" of new growth (23.49 percent from 1990 per the 2000 Census) specifically in the residential sector, we are seeing increased pressures on the County, townships, cities, and villages.

The County exhibits a moderate balance between residential/agricultural lands and commercial/industrial lands. Currently, approximately 84 percent of taxes are paid by residential/agricultural owners and 16 percent of taxes are paid by industries.

Medina County is fortunate to have the Medina County Economic Development Corporation (MCEDC) which aggressively acts to ensure a positive and supportive economic outlook in the County. In conjunction with County and local government and business leaders throughout the County, the MCEDC is constantly addressing the issue of growth and the demands it places upon the County services and infrastructure.

Medina County has been successful in attracting industry to the area to help pay for the education and service requirements of our expanding population. The objective of MCEDC is "Quality jobs for quality people in quality industries." Medina County has been very successful in meeting that objective.

Long-Term Financial Planning

In order to make sound financial decisions now and in the future, the Medina County Board of Commissioners has established principles for budget and financial management. These principles provide guidance for budget development, financial and debt management, and reserves. One-time surpluses may not be used to expand continuing expenditures. Rather, they may be used for one-time expenditures, such as capital projects. County agencies are encouraged to maximize the use of state and federal revenues so as to help preserve general revenues for other needs.

Relevant Financial Policies

The budget must be structurally balanced so that continuing revenues support continuing expenditures. Budgetary appropriations may not exceed estimated resources, with a balanced budget maintained in each fund. Agency budget requests are submitted in a program-based format in conjunction with strategic business plans outlining the goals for the following year. The County's goal is to maintain a fund balance in the general fund that is 20 percent of total general fund revenues. This balance is to ensure sufficient funds are available for operational purposes should economic factors negatively impact revenue growth. Agencies funded through tax levies are required to maintain expenditures at or below the estimated revenue collections.

The budget is controlled at the object code level within a fund and any changes at this level may only be made by a resolution of the County Commissioners. The budget may be amended or supplemented at any time during the year upon formal action of the Commissioners'. Transfers of cash between funds require the Commissioners' authorization. Encumbered appropriation amounts automatically carry over from prior years. The Commissioners adopted the County's 2006 operating budget on March 20, 2006. Additional information on the County's budgetary process can be found in Note 2 to the basic financial statements.

Major Initiatives

Current Projects:

Preliminary planning for an expansion and renovation of the County's courthouse complex is now complete. The Board of County Commissioners will now begin a detailed review of construction options that will ideally provide an economic and efficient reconfiguration of space usage for the County's judicial offices. The estimated budget for this project is \$8-\$9 million and financing will require the issuance of County general obligation bonds.

Medina County voters recently approved the levy of an additional 0.5% permissive sales and use tax for the purpose of funding school district permanent improvements. The passage of this tax levy represents the first time in the State's history that an Ohio county will utilize this funding method for the benefit of local schools. Corresponding to the tax enactment, the Board of County Commissioners has created, and appointed a member to, a Community Improvements Board. This board will be responsible for reviewing funding requests, recommending grant awards, and administering the tax program. The levy will commence October, 2007 and will generate revenues for school improvements for the next thirty years. The current annual collection amount from this funding source is estimated to be \$10 million.

The Board of County Commissioners continues to work on other, important projects, including: the design and construction of a County-wide fiber optic network; development of a university and technology park; a housing assistance program; a prescription assistance program; railroad crossing safety improvements; and, expanded public transit services.

Future Projects:

The Medina County Sanitary Engineer is examining the possibility of expanding water and sewer services in the southwest quadrant of the County. This expansion project may also entail servicing the water needs of the Village of Burbank in Wayne County. It is anticipated that this project will allow for increased economic development opportunities in the area. In connection with this project review, the Board of County Commissioners hopes to work with regional representatives to discuss water services and policies that will benefit the area and its residents in the long term.

The Board of County Commissioners has entered into discussion and negotiations with the Medina County Society for the Prevention of Cruelty to Animals (MCSPCA) for the construction of a new animal shelter and medical facility on County-owned property. It is envisioned that this facility will be co-located with the County's animal shelter and permit both the County and the MCSPCA to offer, in combination, an expanded array of adoption, spay/neuter, and protective services for the County's animal population.

Department Focus: The Medina County Auditor's Office

Department Focus. Auditor Michael E. Kovack serves as the Chief Fiscal Officer of Medina County. He is responsible for the custody and disbursement of over \$674,000,000 in funds received each year by the County. As the guardian of all county funds, the Auditor maintains the official records of all receipts, disbursements and funds available.

Real Estate. The Medina County Auditor's Office serves as the assessor of all property within Medina County and, under Ohio law, must view and appraise each of the more than 81,236 parcels of real estate in the county every six years.

Areas of Responsibility. Auditor Kovack's Office handles a variety of responsibilities vital to the healthy operation of the County. These responsibilities include:

- * Tax Settlements
- * Presentation of the annual tax budgets of the 48 districts in the County
- * Weights and Measures accuracy

Eligibility for Tax Reductions. Auditor Kovack determines the eligibility of homeowners for various tax reductions under the Homestead Exemption Act, Current Agricultural Use Value, Forestry and other tax reduction programs. The Auditor's Office makes every effort to keep the residents of the County apprised of the tax reduction programs available.

Boards. The Auditor is a voting member of the Budget Commission which is responsible for reviewing and approving the budget for the County, cities, villages, townships and schools. He is a voting member of the Board of Revision which reviews taxpayers' requests for revaluation of real estate. He also serves as the Secretary on the Data Processing Board. This Board oversees the operations of the County Data Center.

Independent Audit:

The Independent Auditor, Mary Taylor, CPA, Auditor of State's Office, has issued and unqualified ("clean") opinion on the Medina County financial statements for year ended December 31, 2006. The Independent Auditor's report is located at the front of the financial section of this report.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Medina County, Ohio, for its comprehensive annual financial report for the year ended December 31, 2005. This marked the twenty-first consecutive year that the County has received this award.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility to receive the certificate.

The publication of this CAFR represents an important achievement in the ability of Medina County to provide significantly enhanced financial information and accountability to the citizens of Medina County, its elected officials, county management, and investors. This report continues the aggressive program of the County Auditor's Office to improve the County's overall financial accounting, management, and reporting capabilities.

Acknowledgments

This report would not have been possible without the dedication, determination and high professional standards of Anna Wagar, Director of Financial Reporting. The technical assistance given by Sharon Creswell and Sylvia McQuown was invaluable in the completion of this project.

I would also like to recognize the cooperation of each of the agencies and departments of the County, especially Darryl Kozich, Accounting Manager of the Sanitary Engineer's Office.

In addition, I would like to express my appreciation to the Medina County Board of Commissioners for their support in this endeavor, to the late John Stricker, Jr., then County Administrator, and Christopher Jakab, then Finance Director, currently County Administrator.

Finally, I would like to acknowledge the invaluable contributions made by Auditor of State Mary Taylor, CPA, Local Government Services Section.

Sincerely,

MICHAEL E. KOVACK
Medina County Auditor

INDEPENDENT ACCOUNTANTS' REPORT

Medina County
144 North Broadway Street
Medina, Ohio 44256

To the Board of County Commissioners:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Medina County, Ohio, (the County) as of and for the year ended December 31, 2006, which collectively comprise the County's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Medina County, Ohio, as of December 31, 2006, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General, Public Assistance, Achievement Center and ADAMH Board funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated July 13, 2007, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

As further described in Note 3 to the basic financial statements, the County restated fund balance/net assets of its Governmental Activities, Business-Type Activities, Achievement Center Fund, Sewer District Fund, Water District Fund, and Solid Waste Fund. These restatements are to account for prior year understatement and overstatement of certain liabilities and the understatement of a certain prior year assets.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining nonmajor fund statements and schedules and statistical tables provide additional information and are not a required part of the basic financial statements. We subjected the combining nonmajor fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical tables to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

A handwritten signature in cursive script that reads "Mary Taylor".

Medina County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2006
Unaudited

The discussion and analysis of Medina County's financial performance provides an overall review of the County's financial activities for the year ended December 31, 2006. The intent of this discussion and analysis is to look at the County's financial performance as a whole. Readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the County's financial performance.

Financial Highlights

Key financial highlights for 2006 are:

- Total assets increased by \$2,688,806 over 2005, or .62 percent.
- Total net assets increased by \$5,441,084 over 2005, or 1.96 percent.
- Total capital assets increased by \$3,012,980 over 2005, or .93 percent.
- Total outstanding liabilities decreased by \$2,752,278 from 2005, or 1.73 percent.
- For governmental activities, general revenues accounted for \$48,747,547 in revenue or 47.63 percent of all revenues. Program specific revenues in the form of charges for services, grants and contributions accounted for \$53,594,216 or 52.37 percent of total revenues of \$102,341,763.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are prepared and organized so the reader can understand Medina County as a financial whole and entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial conditions.

The *Statement of Net Assets* and *Statement of Activities* provide information about the whole County, presenting both an aggregate view of the County's finances and a longer-term view of those assets. Major fund financial statements provide the next level of detail. For governments funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The fund financial statements also look at the County's most significant funds with all other nonmajor funds presented in total in one column. In the case of Medina County, the General Fund is by far the most significant fund. The Achievement Center, ADAMH Board and Public Assistance special revenue funds, Medina County Sewer District, Medina County Water District and Solid Waste Management enterprise funds are also included as major funds.

Reporting the County as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the information about funds used by the County to provide programs and activities for our citizens, the view of the County as a whole looks at all financial transactions and asks the question: "How did we do financially during 2006?" The *Statement of Net Assets* and the *Statement of Activities* answer this question; these statements include all assets and liabilities using the full accrual basis of accounting similar to the accounting used by private-sector companies. The full accrual basis of accounting method took into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the County's net assets and changes in those assets. The changes in net assets are important because it tells the reader whether the financial position of the County as a whole has improved or diminished. To evaluate the overall position of the County, financial information such as changes in the County's tax base, current property tax laws in Ohio restricting revenue growth, and the condition of the County's capital assets will also need to be reviewed.

The *Statement of Net Assets* and the *Statement of Activities* are divided into the following categories:

- Assets
- Liabilities
- Net Assets (Assets minus Liabilities)
- Program Revenue and Expenses
- General Revenues
- Transfers
- Net Assets Beginning of Year and Year End

Reporting on the County's Most Significant Funds

Fund Financial Statements

The presentation of the County's major funds begins on page 16. Fund financial reports provide detailed information about the County's major funds based on the restrictions on the use of monies. The County has established many funds which account for the multitude of services, facilities and infrastructure provided to our residents. However, these fund financial statements focus on the County's most significant funds. In the case of Medina County, the major funds are the General, Achievement Center, ADAMH Board, Public Assistance, Medina County Sewer District, Medina County Water District, and Solid Waste Management.

Government Funds

Most of the County's activities are reported in the governmental funds which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods. Governmental funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that are expected to be readily converted to cash. The governmental fund statements provide a detailed short-term view of the County's general operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future on services provided to our residents. The relationship (or differences) between governmental activities (reported in the *Statement of Net Assets* and the *Statement of Activities*) and governmental funds is reconciled in the financial statements.

Proprietary Funds

Proprietary funds have historically operated as enterprise funds using the same basis of accounting as business-type activities; therefore, these statements will essentially match the information provided in the government-wide financial statements. The County uses several enterprise funds to account for various operations. The County's major enterprise funds are the Medina County Sewer District, Medina County Water District, and the Solid Waste Management.

Total assets increased by \$2,688,806 from 2005 to 2006. The increase was primarily due to the addition of donated water and sewer lines during 2006. There was over \$5,770,232 in OWDA loan proceeds that were used to develop the water system expansion, waterline extensions, State Route 18 waterline relocation, State Route 57 and 162 waterline relocation, Hinckley Township water tank planning, water meters and meter shop, Valley City sanitary pump station replacement, reservoir sewer replacement and Boston Road sanitary sewer.

Total liabilities decreased by \$2,752,278, mainly due to principal payments on the County's long-term obligations reducing the amount outstanding at the end of the year. Additional decreases were also accounted for in contracts payable, interest payable, intergovernmental payable, deferred revenue and claims payable at year-end.

Total net assets increased \$5,441,084 with governmental net assets increasing by \$1,917,600 and business-type activities increasing by \$3,523,484 of the amount.

Governmental Activities

The overall financial strength of the County remained stable despite the ongoing economic concerns throughout the Country as a whole.

Total governmental activities revenue for the County for 2006 was \$102,341,763. Operating grants and contributions of \$37,255,891 accounted for 36.40 percent, property taxes of \$25,376,043 accounted for 24.80 percent and charges for services of \$14,847,391 accounted for 14.51 percent. Sales taxes made up 9.34 percent, while the remaining 14.95 percent consisted of capital grants and contributions, property transfer taxes, grants and entitlements, investments and miscellaneous revenues.

Operating grants and contributions increased from \$35,596,954 in 2005 to \$37,255,891 in 2006 mostly due to the increase in State and Federal funding.

Capital grants and contributions decreased from \$3,104,370 in 2005 to \$1,490,934 in 2006 as a result of fewer funds from the State for the Issue II project.

Grants and entitlements increased from \$4,787,343 in 2005 to \$5,318,593 in 2006 mostly due to additional State and Federal funds available to the County for various programs.

Revenues provided by the State and federal governments included \$37,255,891 for operations, \$1,490,934 for capital improvement or acquisitions and \$5,318,593 that was not restricted to a particular program or purpose. As the Statement of Activities shows, the majority of the intergovernmental revenues are grants and subsidies to provide health and human services, including services provided to clients of the Mental Retardation Board, and Child Support Enforcement Agency activities during 2006.

Total governmental activities expenses for the County for 2006 were \$100,424,163. Health represents the highest expense at \$23,384,900 or 23.29 percent. Public safety expenses at \$19,695,138 or 19.61 percent and human services expenses at \$20,429,586 or 20.34 percent are the next two largest. These three, being the major County expense categories, cover the Achievement Center, ADAMH Board, Children's Services, Crippled Children, Dog and Kennel, Public Assistance, Sheltered Care and Youth Services, Transportation and the County Sheriff Department activities among others.

Health and Human services accounted for \$43,814,486 in expenses out of \$100,424,163 total expenses for the governmental activities; \$28,607,443 was covered by direct charges to users of the services and grants. A portion of those charges are for fees charged for septic and solid waste sites and for the collection of license and permit fees throughout the County.

Public safety charges for services include fees for boarding prisoners and for special details.

Legislative and executive expenses accounted for \$15,158,112 during 2006. The maintenance department saw increases in utility costs and contract services work expenses.

Business-type Activities

Business-type activities revenues for the County for 2006 were \$36,245,181. Charges for services of \$24,128,274 accounted for 66.57 percent, capital grants and contributions of \$9,816,432 accounted for 27.08 percent and the remaining 6.35 percent consisted of operating grants and contributions, interest and miscellaneous revenues.

Charges for services had a slight decrease of \$135,853 or .56 percent over 2005. Capital grants and contributions decreased \$5,895,542, or 37.52 percent due to less State and Federal monies received for various water and sewer projects.

Business-type activities expenses for the County for 2006 were \$32,721,697. Sewer represents the largest share of the expenses at \$16,919,163 or 51.71 percent. Water expenses represent \$8,393,574 or 25.65 percent and solid waste expenses represent \$7,408,960 or 22.64 percent.

Table 3 presents a summary for governmental activities, the total cost of services and the cost of providing these services as of December 31, 2006 as compared to 2005.

Of the County's \$100,424,163 in governmental expenses \$53,594,216 were covered by program revenues consisting of charges for services, operating grants and contributions and capital grants and contributions. The remaining \$46,829,947 in expense had to be paid from property and sales taxes, property transfer taxes, unrestricted grants, interest and miscellaneous revenues.

The County's Funds

Governmental Funds

Medina County uses fund accounting as mandated by governmental legal requirements. The importance of accounting and reporting using this method is to demonstrate compliance with these finance related requirements.

Information about the County's governmental funds begins on page 16. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$104,376,763 and expenditures of \$101,436,311.

The most significant fund is the general fund with a year-end fund balance of \$13,935,610, which included an unreserved fund balance of \$12,891,533, compared to annual expenditures of \$36,683,618. While revenues exceeded expenditures by \$3,792,382, the majority of the excess was transferred to other funds. These transferred funds enabled the County to fund capital projects and grant programs.

The Achievement Center revenues of \$18,391,278, 60.19 percent of which are from property taxes, allowed for the operations of a school for the mentally retarded and developmentally disabled. These operating expenditures were \$16,385,911 for 2006.

The ADAMH Board revenues of \$6,684,606, 95.51 percent of which are from State and Federal grants, allowed for the Board to contract with local mental health agencies to provide services for the residents of the County. The operating expenditures for those services were \$6,338,320 for 2006. The Board received nearly double the amount of grant monies in 2006 due to the increased amount available from the State and Federal programs.

The Public Assistance revenues of \$11,294,848, 98.23 percent of which are from State and Federal grants, allowed for the County to run various programs to help those in need. These operating expenditures were \$12,333,683 for 2006.

Business-Type Funds

The County has three business-type activities funds; Medina County Sewer District, Medina County Water District and Solid Waste Management. Total assets increased by \$4,141,772 from 2005 to 2006. The increase is attributed to the sewer and water line additions to capital assets. Ending cash decreased from \$18,639,698 in 2005 to \$17,431,196 in 2006 or 6.48 percent.

Long-term liabilities increased from \$103,794,897 in 2005 to \$104,400,074 in 2006, due to new OWDA loans issued for various water and sewer projects within the County offset by current year principal payments for outstanding debt.

Overall revenues in 2006 decreased by \$5,389,649, due mainly to \$5,895,542 less received in capital grants and contributions offset by increases of \$271,684 in investment income and \$373,330 in miscellaneous revenue.

Operating expenses increased by \$2,190,532 in total for 2006 over 2005, from \$26,454,863 to \$28,645,395. This increase is due to larger amounts for materials and supplies and contract services related to the various maintenance and repair projects going on throughout the County. The sewer district had the biggest increase in operating expenses for 2006 with an increase of \$881,047.

General Fund Budgeting Highlights

The County's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund. During the course of 2006, the County amended its general fund budget several times. At the direction of County Commissioners, all capital projects and requests for capital type purchases must be reviewed and approved individually by the Commissioners, although the County's legal level of control is at the object level for all funds and any budget modifications may only be made by resolution of the County Commissioners.

The General Fund supports many major activities such as the sheriff's department, building and planning departments as well as the legislative and most executive activities. Some major capital projects are funded with general fund dollars. By resolution, these funds are transferred from the General Fund to Capital Projects Funds where the revenue and expenditures for the capital improvement are tracked and monitored. Although the original appropriations were gradually increased during the year, the County continued to maintain a respectable level of liquidity in the General Fund by maintaining unrestricted cash at year end.

During the course of 2006, the County was very conservative about increasing its final budgeted projections. Although the budget commission processed multiple adjustments to both the original estimated revenues and original appropriations, these changes only increased estimated revenues and appropriations by \$371,188 and \$496,127, respectively.

As a result, certain revenue line items had significant increases of actual revenue being brought into the County, as to what was projected. For the General Fund, final budgeted revenues were \$37,061,113 and actual revenue collections were \$39,632,629. The majority of this was due to the receipt of increased charges for services, sales tax and property tax collections. Final expenditures were \$2,235,445 less than budgeted appropriations.

Total capital assets for Medina County as of December 31, 2006 were \$328,135,174, an increase of \$3,012,980 over 2005. Additions of \$12,479,979 were offset by \$9,416,892 of depreciation expense and \$50,107 in net disposals. For additional information see Note 11 to the basic financial statements.

County Commissioners are committed along with the administration to maintain its capital assets at a condition acceptable to provide the best possible service for all residents. New equipment of \$1,319,868 for governmental activities and \$145,787 for business-type activities were purchased during 2006. Bridges were improved or replaced in the amount of \$416,097. During the year, \$785,690 in obsolete equipment was discarded or sold.

Construction in progress for business-type activities included \$5,774,997 in various water and sewer projects. During the year, \$2,134,033 in water lines and \$2,411,750 in sewer lines were donated by developers.

The administration continues to seek grants for infrastructure projects as well as improving County facilities and services. The County expects to continue to apply for and receive Community Development Block Grant money to help fund various qualifying projects in the future.

Debt

On December 31, 2006, Medina County had total general obligation bonded debt outstanding of \$9,053,402, net of outstanding discount. Outstanding special assessment bonds totaled \$1,781,228. In the event of payment default by the property owner the County would be responsible for the debt service payments. All bonds are backed by the full faith and credit of the County.

During the 2006 year, Medina County's long-term debt decreased by \$2,195,762 or 1.85 percent. The governmental activities debt obligations decreased by \$2,712,801 as issues were being paid. Business-type activities saw an increase of \$517,039 in long-term debt due to new OWDA loans being issued.

The County maintains an "AA" credit rating on its long-term bonds from Standard & Poor's Rating Group and "Aa2" from Moody's Investors Service, Inc. State Statute limits the total amount of debt a governmental entity can issue.

The County has loans outstanding to the Ohio Water Development Authority (OWDA). During 2006, \$5,574,035 was retired during the year and the County had \$5,770,232 in proceeds. The outstanding balance at year-end was \$104,932,049. The loan proceeds were used for ongoing water system improvements and for various improvements to the Liverpool Treatment facility. They are being repaid primarily from charges for services from the business-type activities funds and a portion of the debt is also being repaid from special assessments charged to the benefited property owners.

The County has loans outstanding to the Ohio Public Works Commission (OPWC). During 2006, \$95,090 was retired. The outstanding balance at year-end was \$499,360. The loan proceeds were originally used to construct the water loop system and various bridge and road replacements.

For the governmental activities, the general obligation bonds outstanding at December 31, 2006 were \$8,694,637 with \$2,036,869 being retired during the year. For the business-type activities general obligation bonds outstanding at December 31, 2006 were \$358,765 with \$59,712 being retired during the year. All bonds are backed by the full faith and credit of the County.

In addition to the bonded debt, County long-term obligations include compensated absences. Additional information on the County's long-term debt can be found in Notes 15 and 17 of the notes to the basic financial statements.

Current Financial Related Activities

There is major residential and commercial development taking place within the County which will add to the financial stability. New businesses and new residential developments will add to the tax base by bringing in new jobs and people to the County. The need for increased services will be a welcome prospect.

The unemployment rate for the County is currently 4.9 percent, which increased from a rate of 4.6 percent a year ago. This rate is below the State's average unemployment rate of 5.4 percent and above the national average of 4.6 percent.

These factors, along with inflationary trends, were considered in preparing the County's budget for the 2006 year. At the end of the 2006 year, the fund balance in the general fund increased by \$1,369,954.

*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended December 31, 2006*

Net Change in Fund Balances - Total Governmental Funds \$2,971,266

Amounts reported for governmental activities in the statement of activities are different because

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.

Capital Assets Additions	2,013,412	
Current Year Depreciation	(4,063,750)	
Total		(2,050,338)

Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. (50,107)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Delinquent Property Taxes	59,651	
Intergovernmental Revenues	(1,547,346)	
Special Assessments	(547,305)	
Total		(2,035,000)

Repayment of bond and loan principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets 2,715,932

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.

Accrued Interest	19,450	
Bond Discount	(3,131)	
Deferred Charges	(6,500)	
Total		9,819

Compensated Absences expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as an expenditure in governmental funds. (549,817)

The internal service funds used by management to charge the costs of insurance to individual funds are not reported in the entity-wide statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the internal service funds are allocated among the governmental activities. 905,845

Change in Net Assets of Governmental Activities \$1,917,600

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Note 1 - Reporting Entity

Medina County, Ohio (the County) was created in 1818. The County is governed by a Board of three commissioners elected by the voters of the County. The County Commissioners serve as the taxing authority, the contracting body, and the chief administrators of public services for the County. Other officials elected by the voters of the County that manage various segments of the County's operations are the County Auditor, County Treasurer, Recorder, Clerk of Courts, Coroner, Engineer, Prosecuting Attorney, Sheriff, two Common Pleas Court Judges, a Probate and Juvenile Court Judge, and a Domestic Relations Judge.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading.

The primary government of the County consists of all funds, departments, boards and agencies that are not legally separate from the County. For Medina County, this includes the Alcohol, Drug Addiction and Mental Health Board (ADAMH), the Board of Mental Retardation and Developmental Disabilities (MRDD), and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units also include organizations that are fiscally dependent on the County in that the County approves the budget, the issuance of debt or the levying of taxes. The County has no component units.

The following organizations are not part of the County's reporting entity and are excluded from the accompanying financial statements. All are legally separate from the County. None are fiscally dependent on the County. The County is not financially accountable for any of these entities:

Medina County Educational Service Center
Medina County Historical Society
Medina County Law Library
Medina County Agricultural Society
Wadsworth and Medina Municipal Courts

The County is associated with certain organizations which are defined as a Joint Venture, Jointly Governed Organizations, Risk Sharing Pool, Related Organizations or Insurance Purchasing Pool. These organizations are presented in Notes 20, 22, 23, 24 and 25 to the basic financial statements. These organizations are:

Medina County Emergency Management Agency
Northeast Ohio Areawide Coordinating Agency (NOACA)
Medina County Family First Council
Lorain Medina Community Based Correctional Facility Judicial Corrections Board
North East Ohio Network (NEON)
County Risk Sharing Authority, Inc. (CORSA)
Medina County Library District
Medina County Park District

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Medina Metropolitan Housing Authority (MMHA)
County Commissioners Association of Ohio (CCAO)

As the custodian of public funds, the County Treasurer invests all public monies held on deposit in the County Treasury. In the case of the separate agencies, boards and commissions listed below, the County serves as fiscal agent, but the organizations are not considered part of Medina County. Accordingly, the activity of the following entities is presented as agency funds within Medina County's financial statements:

Medina County General Health District
Medina County Soil and Water Conservation District
Local Emergency Planning Commission
Medina County Family First Council
Medina County Park District

Note 2 - Summary of Significant Accounting Policies

The financial statements of Medina County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The County also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its enterprise funds unless those pronouncements conflict with or contradict GASB pronouncements. The County has elected not to apply FASB statements and interpretations issued after November 30, 1989, to its business-type activities and enterprise funds. The more significant of the County's accounting policies are described below.

A. Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net assets and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses.

The statement of net assets presents the financial condition of the governmental and business-type activities of the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for business-type activities of the County. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental activity is self-financing or draws from the general revenues of the County.

Fund Financial Statements During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented on the face of the proprietary fund statements. Fiduciary funds are reported by type.

B. Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the County's major governmental funds:

General Fund The general fund is the operating fund of the County and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Ohio.

Achievement Center Special Revenue Fund To account for the operation of a school for the mentally retarded and developmentally disabled. Revenue sources are a County-wide property tax levy, Federal and State grants, and subsidies from the Ohio Department of Education and the Ohio Department of Mental Retardation and Developmental Disabilities.

ADAMH Board Special Revenue Fund To account for Federal and State grants and transfers from the general fund that are expended by the Alcohol, Drug and Mental Health Board, primarily to pay the costs of contracts with local mental health agencies that provide services to the public at large.

Public Assistance Fund Special Revenue Fund To account for various Federal and State grants and transfers from the General Fund used to provide general relief to eligible recipients, pay for medical assistance and to pay for various social services.

The other governmental funds of the County account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Funds Proprietary funds focus on the determination of changes in net assets, financial position and cash flows and are classified as enterprise or internal service.

Enterprise Funds Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The County's major enterprise funds are:

Medina County Sewer District Fund This fund accounts for sanitary sewer services provided to County individual and commercial users in various parts of Medina County.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Medina County Water District Fund This fund accounts for distribution of treated water to individual and commercial users in various parts of Medina County.

Solid Waste Management Fund This fund accounts for revenues generated from the charges for use of the central processing facility for disposal of waste materials. County waste is directed to the facility where recyclables are recovered from the waste stream.

Internal Service Fund The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the County on a cost reimbursement basis. The County's only internal service fund accounts for the self-insurance program which provides medical, surgical, prescription drug, and dental benefits to County employees.

Fiduciary Funds Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the County's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The County's only fiduciary funds are agency funds which are used to collect and distribute taxes and various State and Federal monies to local governments within the County and to account for funds of the County General Health District, the Soil and Water Conservation District, the Emergency Planning Commission, Family First Council and the County Park District.

C. Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the County are included on the statement of net assets. The statement of activities present increases (e.g., revenues) and decreases (e.g., expenses) in total net assets.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (e.g., revenues and other financing sources) and uses (e.g., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all the proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of revenues, expenses and changes in fund net assets presents increases (e.g., revenues) and decreases (e.g., expenses) in net total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Governmental

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within sixty days of year end.

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, property transfer fees, grants, entitlements and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the sale occurs. Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 7). Revenue from property transfer fees, grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: sales tax (See Note 8), interest, federal and state grants and subsidies, state-levied locally shared taxes (including motor vehicle license fees and gasoline taxes), fees and rentals.

Deferred Revenue Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of December 31, 2006, but which were levied to finance year 2007 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The enterprise debt service fund is budgeted as part of the debt service fund and is included with the appropriate enterprise funds on the GAAP basis. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

estimated resources establishes a limit on the amount that the County Commissioners may appropriate. The appropriation resolution is the Commissioner's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of budgetary control is at the object level within each department for all funds. Any budgetary modifications at this level may only be made by resolution of the County Commissioners.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the County Auditor. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate that was in effect at the time the final appropriations were passed by the County Commissioners.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations may not exceed estimated revenues by fund. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Commissioners during the year, including all supplemental appropriations.

F. Cash and Investments

To improve cash management, cash received by the County is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through County's records. Interest in the pool is presented as "equity in pooled cash and cash equivalents".

The general fund made an advance to various special revenue and enterprise funds to eliminate the funds' negative cash balances. These various funds have an interfund payable for the amount of the advance received from the general fund and the general fund has an interfund receivable for the same amount on the balance sheet.

The County utilizes a financial institution to service bonded debt as principal and interest payments come due. The County has segregated bank accounts for monies held separate from the County's central bank account. These amounts are presented as "cash and cash equivalents in segregated accounts" since they are not required to be deposited into the County treasury.

The County utilizes a jointly governed organization (N.E.O.N.) to service mentally disabled and developmentally disabled residents within the County. The balances in these accounts are presented on the combined balance sheet as "cash and cash equivalents with fiscal agents" and represents monies held for the County.

During 2006, investments were limited to Federal Home Loan Bank Notes, Federal National Mortgage Association Notes, Federal Home Loan Mortgage Corporation Notes and STAROhio.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on December 31, 2006.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. Interest revenue credited to the general fund during 2006 amounted to \$3,675,919 which includes \$3,100,087 assigned from other County funds.

Investments with original maturities of three months or less at the time of purchase and investments of the cash management pool are presented on the financial statements as cash equivalents.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2006, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount at the time of the purchase and reflecting the expenditure/expense in the year in which services are consumed.

H. Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies.

I. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The County was able to estimate the historical cost for the initial reporting of infrastructure by backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their fair market values as of the date received. The County maintains a capitalization threshold of \$5,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of proprietary fund capital assets is also capitalized.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacements. Depreciation is computed using the straight-line method over the following useful lives:

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Description	Estimated Lives
Buildings (including sewage and water treatment plants)	50 years
Improvements, Other than Buildings	50 years
Equipment	3 - 20 years
Bridges	50 years
Roads	5 - 30 years
Culverts	50 years
Signals	15 years
Water Lines	50 years
Sewer Lines	50 years

The County's infrastructure consists of bridges, roads, culverts, signals, water and sewer lines and includes infrastructure acquired prior to December 31, 1980.

J. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns on the statement of net assets, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the County will compensate the employees for the benefits through paid time off or some other means. The County records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the County's past experience of making termination payments.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary funds financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and long-term loans are recognized as a liability on the governmental fund financial statements when due.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

balances of any borrowing used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through constitutional provisions or the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Net assets restricted for other purposes include resources restricted for child support enforcement, computer operations, drug enforcement, prisoner housing, and transportation improvement operations.

The government wide statement of net assets reports \$43,274,235 of restricted net assets. None of which is restricted by enabling legislation.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

N. Fund Balance Reserves

The County records reservations for those portions of fund equity which are legally segregated for a specific future use or which do not represent available, spendable resources and therefore, are not available for appropriations for expenditures. Undesignated fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, loans receivable (revolving loan monies loaned to local businesses), and unclaimed monies. Under Ohio law, unclaimed monies are not available for appropriation until they have remained unclaimed for five years. These amounts are presented as reserved for unclaimed monies.

O. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are for county sewer, county water, solid waste recycling and self-insurance programs. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the funds. All revenues and expenses not meeting these definitions are reported as non-operating.

P. Interfund Activity

Internal events that are allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities.

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Q. Bond Discount/Issuance Cost

Bond discounts and issuance cost for governmental and business-type activities are deferred and amortized over the term of the bonds using the straight-line method since the results are not significantly different from the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable whereas issuance costs are reported as deferred charges.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the County and that are either unusual in nature or infrequent in occurrence.

S. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 - Changes in Accounting Principles and Restatement of Prior Year Balance/Net Assets

For 2006, the County has implemented GASB Statement No. 47, "Accounting for Termination Benefits." GASB Statement No. 47 establishes standards of accounting and financial reporting for termination benefits.

The implementation of GASB Statement No. 47 did not materially affect the presentation of the financial statements of the County.

During 2006, it was determined that the achievement center special revenue fund had an understatement of cash with fiscal agent of \$2,809,173, which represents the cash on deposit with Northeast Ohio Network (NEON). General obligation bonds payable and OPWC loans payable in the governmental activities were understated at December 31, 2005.

It was also determined that OWDA loans payable were understated and capital assets were overstated in business-type activities.

The restatement for the understatement of cash with fiscal agent resulted in fund balance of the achievement center special revenue major fund to increase from \$11,458,086 to \$14,267,259.

These restatements had the following effect on net assets at December 31, 2005:

	Governmental Activities
Net Assets, December 31, 2005	\$98,483,894
Cash with Fiscal Agent	\$2,809,173
General Obligation Bonds Payable	(1,070,000)
OPWC Loans Payable	(325,742)
Adjusted Net Assets, December 31, 2005	\$99,897,325

Medina County, Ohio

Capital Assets	7,259,005	(7,862,021)	(1,419,334)	(2,022,350)
OWDA Loans Payable	(1,353,735)	1,344,438	0	(9,297)

Note 4 - Compliance and Accountability

A. Legal Compliance

The County had negative cash fund balances in the following funds indicating that revenue from other sources were used to pay obligations of these funds, contrary to Ohio Revised Code Section 5705.10:

Special Revenue Funds

Community Development Block Grant	\$68,455
Ohio Criminal Justice Service	833
Safe Communities	7,110
Title VI-D	83,208
Transportation Program	201,973
Workforce Development	463,658

Capital Projects Fund

County Capital Improvements	183,701
-----------------------------	---------

In order to eliminate these deficits, the County will be closely monitoring the drawdown of grant funds and make advances during the year.

Contrary to Section 5705.41B, Ohio Revised Code, the following account had expenditures plus encumbrances in excess of final appropriations:

	Final Appropriations	Expenditures Plus Encumbrances	Excess
<i>Capital Projects Fund</i>			
State Issue II			
Capital Outlay	\$0	\$1,390,569	\$1,390,569

Contrary to Ohio Revised Code Section 5705.39, the following fund had original appropriations in excess of certified available resources.

	Original Revenues Plus Carryover Balances	Original Appropriations	Excess
Special Revenue Fund			
Community Development Block Grant	\$808,703	\$813,884	\$5,181

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Also, contrary to Ohio Revised Code Section 5705.39, the following fund had final appropriations in excess of certified available resources at December 31, 2006.

	Final Revenues Plus Carryover Balances	Appropriations	Excess
Special Revenue Fund			
Community Development Block Grant	\$808,822	\$814,003	\$5,181

Although these budgetary violations were not corrected by year-end, management has indicated that appropriations will be closely monitored to ensure no future violations.

B. Fund Deficits

The following funds had a deficit fund balance or deficit net assets as of December 31, 2006:

<i>Major Special Revenue Fund</i>	
Public Assistance	\$556,127
<i>Non Major Funds</i>	
<i>Special Revenue Funds</i>	
Community Development Block Grant	110,564
Ohio Criminal Justice Service	11,066
Safe Communities	7,110
Title VI-D	59,968
Transportation Program	247,665
Workforce Development	56,166
<i>Capital Projects Fund</i>	
County Capital Improvements	226,075
<i>Proprietary Fund</i>	
Self Insurance	953,570

The deficits in the special revenue funds and capital project fund resulted from the recognition of accrued liabilities. The general fund is responsible to cover deficit fund balances by means of a transfer. However, this is done when cash is needed rather than when accruals occur.

The deficit in the internal service fund resulted from an adjustment for accrued liabilities. The County continues to examine ways to maintain the self-insurance fund and have set rate increases for the portion paid by the employees beginning in 2006.

Note 5 - Budgetary Basis of Accounting

While reporting financial position, results of operations and changes in fund balance/net assets on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances, Budget (Non-GAAP basis) and Actual are presented in the basic financial statements for the general fund and major special revenue funds. The major differences between the budget basis and the GAAP basis are:

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Outstanding year end encumbrances are treated as expenditures (budget) rather than as a reservation of fund balance (GAAP).
4. Investments reported at fair value (GAAP) rather than cost (budget).
5. Unreported cash represents amounts received but not included on the budgetary statement, but reported on the operating statement prepared using GAAP.

Adjustments necessary to convert the results of operations at the end of the year on the Budget basis to the GAAP basis are as follows:

	General	Achievement Center	ADAMH Board	Public Assistance
GAAP Basis	\$1,369,954	\$1,855,367	\$477,612	(\$434,061)
Net Adjustment for Revenue Accruals	(600,525)	(414,125)	722,818	158,159
Unrecorded Cash - End of Year	(2,880)	0	0	0
Fair Value Investments - Beginning of Year	(216,423)	0	0	0
Fair Value Investments - End of Year	(23,543)	0	0	0
Net Adjustment for Expenditure Accruals	(188,244)	(375,616)	(659,614)	400,601
Encumbrances	(1,506,496)	(411,516)	(915,682)	(268,648)
Budget Basis	<u>(\$1,168,157)</u>	<u>\$654,110</u>	<u>(\$374,866)</u>	<u>(\$143,949)</u>

Note 6 - Deposits and Investments

Monies held by the County are classified by State statute into two categories, active and inactive. Active monies are public monies determined to be necessary to meet current demand upon the County treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Protection of the County's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of public monies deposited with the institution.

Monies held by the County, which are not considered active, are classified as inactive. Inactive monies may be deposited or invested in the following securities provided a written investment policy has been filed with the Ohio Auditor of State:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States; or any book entry, zero-coupon United States treasury security that is a direct obligation of the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home

- Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
 4. Bonds and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly with the County;
 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) above and repurchase agreements secured by such obligations, provided that these investments are made only through eligible institutions;
 7. The State Treasurer's investment pool (STAROhio);
 8. Securities lending agreements in which the County lends securities and the eligible institution agrees to simultaneously exchange similar securities or cash, equal value for equal value;
 9. Up to twenty-five percent of the County's average portfolio in either of the following:
 - a. Commercial paper notes in entities incorporated under the laws of Ohio or any other State that have assets exceeding five hundred million dollars rated at the time of purchase, which are rated in the highest qualification established by two nationally recognized standard rating service, which do not exceed ten percent of the value of the outstanding commercial paper of the issuing corporation and which mature within 270 days after purchase;
 - b. Bankers acceptances eligible for purchase by the federal reserve system and which mature within 180 days after purchase.
 10. Fifteen percent of the County's average portfolio in notes issued by U.S. corporations or by depository institutions that are doing business under authority granted by the U.S. provided that the notes are rated in the second highest or higher category by at least two nationally recognized standard rating services at the time of purchase and the notes mature within two years from the date of purchase.
 11. No-load money market mutual funds rated in the highest category at the time of purchase by at least one nationally recognized standard rating service consisting exclusively of obligations guaranteed by the United States, securities issued by a federal government agency or instrumentality, and/or highly rated commercial paper.
 12. One percent of the County's average portfolio in debt interests rated at the time of purchase in the three highest categories by two nationally recognized standard rating services and issued by foreign nations diplomatically recognized by the United States government.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Reverse repurchase agreements, investments in derivatives, and instruments in stripped principal or interest obligations that are not issued or guaranteed by the United States, are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Other than corporate notes, commercial paper, and bankers acceptances, an investment must mature within five years from the date of statement unless matched to a specific obligation or debt of the County. Investments must be purchased with the expectation that they will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial Credit Risk Custodial credit risk for deposits is the risk that in the event of bank failure, the County will not be able to recover deposits or collateral securities that are in possession of an outside party. At year end, \$53,727,742 of the County's bank balance of \$55,150,195 was uninsured and uncollateralized. Although the securities were held by the pledging financial institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the County to a successful claim by the FDIC.

The County has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the County or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

At December 31, 2006, the County's Achievement Center Special Revenue Fund had a cash balance of \$3,067,383 with NEON, a jointly governed organization (See Note 22). The money is held by NEON in a pooled account which is representative of numerous entities and therefore cannot be classified by risk under GASB Statement 40. Any risk associated with the cash and cash equivalents and investments with NEON as a whole may be obtained from their audit report. To obtain financial information, write to the North East Ohio Network, Tom Kuchinka, Director of Business, 5121 Mahoning Avenue, Suite 102, Austintown, Ohio 44515-1895.

Investments

Investments are reported at fair value. As of December 31, 2006, the County had the following investments:

	<u>Fair Value</u>	<u>Maturity</u>
Federal Home Loan Bank Notes	\$12,991,040	November 21, 2008
Federal Home Mortgage Association Notes	3,993,080	December 31, 2007
Federal Home Loan Mortgage Corporation Notes	4,988,270	December 31, 2007
STAR Ohio	<u>777,958</u>	39 Days - Average
Total	<u><u>\$22,750,348</u></u>	

Interest Rate Risk As a means of limiting its exposure to fair value losses caused by rising interest rates, the County's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the County's investment

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity. To date, no investments have been purchased with a life greater than two years.

Custodial Credit Risk For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal Home Loan Bank Notes, the Federal Home Mortgage Association Notes and the Federal Home Loan Mortgage Corporation Notes are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent but not in the County's name. The County has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Credit Risk The Federal Home Loan Bank Notes, the Federal Home Mortgage Association Notes and the Federal Home Loan Mortgage Corporation Notes carry a rating of AAA by Standard & Poor's and STAR Ohio also carries a rating of AAAM by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The County has no investment policy that would further limit its investment choices.

Concentration of Credit Risk The County places no limit on the amount it may invest in any one issuer. The following is the County's allocation as of December 31, 2006:

Investment	Percentage of Investments
Federal Home Loan Bank Notes	57.10%
Federal National Mortgage Association Notes	17.55%
Federal Home Loan Mortgage Corporation Notes	21.93%
STAR Ohio	3.42%

Note 7 - Property Taxes

Property taxes include amounts levied against all real, public utility and tangible personal property located in the County. Property tax revenue received during 2006 for real and public utility property taxes represents collections of 2005 taxes. Property tax payments received during 2006 for tangible personal property (other than public utility property) are for 2006 taxes.

2006 real property taxes are levied after October 1, 2006, on the assessed value as of January 1, 2006, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2006 real property taxes are collected in and intended to finance 2007.

Real property taxes are payable annually or semi-annually. If paid annually, the payment is due by December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed as 35 percent of true value. 2006 public utility property taxes which became a lien December 31, 2005, are levied after October 1, 2006, and are collected in 2007 with real property taxes.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

2006 tangible personal property taxes are levied after October 1, 2005, on the value as of December 31, 2005. Collections are made in 2006. Tangible personal property assessments are being phased out – the assessment percentage for all property including inventory for 2006 is 18.75 percent. This will be reduced to 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The full tax rate for all County operations for the year ended December 31, 2006, was \$7.21 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2006 property tax receipts were based are as follows:

Real Property	\$4,017,344,980
Public Utility Personal Property	102,264,740
Tangible Personal Property	<u>135,681,115</u>
Total Valuation	<u>\$4,255,290,835</u>

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portions of the taxes collected. Property taxes receivable represents real and tangible personal property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2006 and for which there is an enforceable legal claim. In the General Fund, Achievement Center, County Home Donations, Drug Enforcement and the General Obligation Bond Retirement Funds, the entire receivable has been offset by deferred revenue since the current taxes were not levied to finance 2006 operations and the collection of delinquent taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as revenue, while the remainder of the tax receivable is deferred.

Note 8 - Sales and Use Tax

In 1971, the County Commissioners by resolution imposed a one-half of one percent tax on all retail sales, except sales of motor vehicles, made in the County, and on the storage, use, or consumption in the County of tangible personal property, including automobiles, not subject to the sales tax. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the State Auditor the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five days after the end of each month. The State Auditor then has five days in which to draw the warrant payable to the County.

A receivable is recognized at year end for amounts that will be received from sales which occurred during 2006. On a modified accrual basis, the amount of the receivable expected to be received outside the available period is deferred. On a full accrual basis, the full amount of the receivable is recognized as revenue.

Note 9 - Receivables

Receivables at December 31, 2006, consisted of property taxes, sales taxes, interest, special assessments, accounts (billings for user charged services, including unbilled utility services) and intergovernmental receivables arising from grants, entitlements and shared revenues. All receivables are considered

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

collectible in full, including accounts receivable which, if delinquent, may be certified and collected as special assessment, subject to foreclosure for nonpayment. All receivables are expected to be received within one year.

Special assessments expected to be collected in more than one year amount to \$2,920,312 in the special assessment bond retirement fund. The amount of delinquent special assessments outstanding at year-end is \$208,491.

A summary of the principal items of intergovernmental receivables follows:

Governmental Activities	
ADAMH Grants and Subsidies	\$3,472,248
Local Government	2,291,967
Homestead and Rollback	1,413,636
Auto and Gas Grants and Subsidies	1,979,057

Revolving Loan	40,111
ODOT Grant	1,019
Ohio Criminal Justice Services Grants and Subsidies	2,692
Safe Communities Grants and Subsidies	7,110
Drug Enforcement Grants and Subsidies	6,613
Other	212,608
<i>Total Governmental Activities</i>	<i>\$12,019,607</i>
Business-Type Activities	
Solid Waste Grants	\$2,237

Loans expected to be collected in more than one year amount to \$109,665 in the revolving loan special revenue fund. At December 31, 2006 there were no delinquent loans.

Receivables and payables on the County's financial statements are recorded to the extent that the amounts are determined significant and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectibility. Using this criteria, the County has elected not to record child support arrearages within the special revenue and agency fund types. These amounts, while potentially significant, are not considered measurable, and because collections are often significantly in arrears, the County is unable to determine a reasonable value.

Note 10 - Federal Food Stamp Program

The County's Department of Job and Family Services (Welfare) distributes, through contracting issuance centers, federal food stamps to entitled recipients within Medina County. The receipt and issuance of these stamps have the characteristics of federal "grants"; however, Job and Family Services merely acts in an intermediary capacity. Therefore, the inventory value of these stamps is not reflected in the accompanying financial statements as the only economic interest related to these stamps rests with the ultimate recipient. No activity was reported in 2006 due to the installation of an automated system. A supply of paper food stamps is kept on hand at Job and Family Services in case of an emergency with the automated system. The federal food stamp balance for the year ending December 31, 2006 is \$403.

Note 12 - Defined Benefit Retirement Plans

A. Ohio Public Employees Retirement System

All County employees, other than teachers, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the member directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The combined plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan. Under the combined plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar to the traditional plan benefit. Member contributions, whose investment is self-directed by the member, accumulate retirement assets in a manner similar to the member directed plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the traditional and combined plans. Members of the member directed plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that may be obtained by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-5601 or 800-222-7377.

For the year ended December 31, 2006, the members of all three plans, except those in law enforcement participating in the traditional plan, were required to contribute 9 percent of their annual covered salaries. Members participating in the traditional plan who were in law enforcement contributed 10.1 percent of their annual covered salary. The County's contribution rate for pension benefits for 2006 was 13.7 percent, except for those plan members in law enforcement or public safety. For those classifications, the County's pension contributions were 16.93 percent of covered payroll. The Ohio Revised Code provides statutory authority for member and employer contributions.

The County's required contributions for pension obligations to the traditional and combined plans for the years ended December 31, 2006, 2005, and 2004 were \$4,703,238, \$4,649,417 and \$4,365,539, respectively; 98.21 percent has been contributed for 2006 and 100 percent has been contributed for 2005 and 2004. Contributions to the member-directed plan for 2006 were \$126,524 made by the County and \$83,118 made by the plan members.

B. State Teachers Retirement System of Ohio (STRS Ohio)

The County participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad Street, Columbus, OH 43215-3371 or by calling (614) 227-4090 or by visiting the STRS Ohio website at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the year end December 31, 2006, plan members were required to contribute 10 percent of their annual covered salaries. The County was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations, for the current and prior year. For 2005, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The County's required contributions for pension obligations to the DB Plan for the years ended December 31, 2006, 2005, and 2004 were \$149,969, \$157,452 and \$159,954, respectively; 80.31 percent has been contributed for 2006 and 100 percent has been contributed for 2005 and 2004. There were no contributions made to the DC and Combined Plans for 2006 by the County or by the plan members.

Note 13 - Postemployment Benefits

A. Ohio Public Employees Retirement System (OPERS)

The Ohio Public Employees Retirement System (OPERS) provides postretirement health care coverage to age and service retirees with ten or more years of qualifying Ohio service credit with either the traditional or combined plans. Health care coverage for disability recipients and qualified survivor benefit recipients is available. Members of the member-directed plan do not qualify for postretirement health care coverage. A portion of each employer's contribution to the traditional or combined plans is set aside for the funding of postretirement health care based on authority granted by State statute. The 2006 local government employer contribution rate was 13.7 percent of covered payroll (16.93 percent for public safety and law enforcement); 4.5 percent of covered payroll was the portion that was used to fund health care.

Benefits are advance-funded using the individual entry age actuarial cost method. Significant actuarial assumptions, based on OPERS's latest actuarial review performed as of December 31, 2005, include a rate of return on investments of 6.50 percent, an annual increase in active employee total payroll of 4.00 percent compounded annually (assuming no change in the number of active employees) and an additional increase in total payroll of between .50 percent and 6.3 percent based on additional annual pay increases.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Health care costs were assumed to increase between .50 and 6.00 percent annually for the next nine years and 4.00 percent annually after nine years.

All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used. Assets are adjusted to reflect 25 percent of unrealized market appreciation or depreciation on investment assets annually, not to exceed a 12 percent corridor.

The number of active contributing participants in the traditional and combined plans was 369,214. The number of active contributing participants for both plans used in the December 31, 2005, actuarial valuation was 358,804. Actual employer contributions for 2006 which were used to fund postemployment benefits were \$2,232,043. The actual contribution and the actuarially required contribution amounts are the same. OPERS's net assets available for payment of benefits at December 31, 2005, (the latest information available) were \$11.1 billion. The actuarially accrued liability and the unfunded actuarial accrued liability were \$31.3 billion and \$20.2 billion, respectively.

On September 9, 2004 the OPERS Retirement Board adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. To improve the solvency of the Health Care Fund, OPERS created a separate investment pool for health care assets. Member and employer contribution rates increased as of January 1, 2006, and January 1, 2007, which will allow additional funds to be allocated to the health care plan.

B. State Teachers Retirement System of Ohio (STRS Ohio)

The County provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System of Ohio (STRS Ohio). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The System is on a pay-as-you-go basis.

All STRS Ohio benefit recipients and sponsored dependents are eligible for health care coverage. The STRS Ohio Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. By law, the cost of coverage paid from STRS Ohio funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2006, the STRS Ohio Board allocated employer contributions equal to one percent of covered payroll to the Health Care Stabilization Fund. For the County, this amount equaled \$11,536 for 2006.

STRS Ohio pays health care benefits from the Health Care Stabilization Fund. At June 30, 2006, the balance in the Fund was \$3.5 billion. For the year ended June 30, 2006, net health care costs paid by STRS Ohio were \$282,743,000 and STRS had 119,184 eligible benefit recipients.

Note 14 - Risk Management

A. Property and Liability

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During 2006, the County contracted with County Risk Sharing Authority, Inc. (CORSA), a risk sharing pool (See Note 23), for liability, property and crime insurance. Medical/professional liability for the County Home, the County Jail and the Juvenile Detention Center is covered by CORSA. Coverage provided by CORSA is as follows:

Medina County, Ohio

Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

B. Workers' Compensation

For 2006, the County participated in the County Commissioners Association of Ohio (CCAO) for the Ohio Workers' Compensation Group Rating Plan (the Plan), an insurance purchasing pool, (See Note 25). The Plan is intended to achieve lower workers' compensation rates while establishing safer working conditions and environments for the participants. The workers compensation experience of the participating County is calculated as one experience and a common premium rate is applied to all participants in the Plan.

Each participant pays its workers' compensation premium to the State on the rate for the Plan rather than its individual rate. In order to allocate the savings derived by formation of the Plan, and to maximize the number of participants in the Plan, the Plan's executive committee annually calculates the total savings which accrued to the Plan through its formation. This savings is then compared to the overall savings percentage of the Plan. The Plan's executive committee then collects rate contributions from or pays rate equalization rebates to the various participants. Participation in the Plan is limited to counties that can meet the Plan's selection criteria. The firm of Comp Management, Inc. provides administrative, cost control and actuarial services to the Plan. Each year, the County pays an enrollment fee to the Plan to cover the costs of administering the program.

The County may withdraw from the Plan if written notice is provided sixty days prior to the prescribed application deadline of the Ohio Bureau of Workers' Compensation. However, the participant is not relieved of the obligation to pay any amounts owed to the Plan prior to withdrawal, and any participant leaving the Plan allows representatives of the Plan to access loss experience for three years following the last year of participation.

C. Insurance Benefits

The County established a limited risk management program in 1987 for employee health insurance benefits. A third party administrator, Medical Mutual of Ohio, reviews and pays all claims on behalf of the County. During 2006, depending on the type of coverage the employee selects, the monthly premium paid by the County ranged from \$238 to \$273 for single coverage, from \$502 to \$572 for single plus one coverage, and from \$836 to \$956 for family coverage. Employee contributions ranged from \$13 to \$30 for single coverage, from \$26 to \$65 for single plus one coverage, and from \$44 to \$105 for family coverage. An excess coverage insurance policy covers individual claims in excess of \$150,000 and aggregate claims in excess of \$6,603,760.

The liability for unpaid claims costs of \$2,727,529 reported in the fund at December 31, 2006, was estimated by the third party administrator and is based on the requirements of GASB No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Interfund premiums are based primarily upon the insured funds' claims experience.

Changes in the fund's claims liability amount in 2005 and 2006 were:

Year	Balance at Beginning of Year	Current Year Claims	Claims Payments	Balance at End of Year
2005	\$2,291,749	\$7,776,883	\$7,358,582	\$2,710,050
2006	2,710,050	7,238,125	7,220,646	2,727,529

Note 15 - Compensated Absences

County employees earn vacation and sick leave at varying rates depending on length of service and department policy. All accumulated, unused vacation time is paid upon separation if the employee has at least one year of service with the County. Vacation time may not exceed two years' accrual without the approval of management. Accumulated, unused sick leave is paid at varying rates depending on length of service to employees who retire.

Note 16 - Contractual Commitments

As of December 31, 2006, the County had contractual commitments for the following project:

Project	Contractual Commitment	Expended	Balance 12/31/2006
Roof repairs at the County Home	\$2,000	\$400	\$1,600
Air conditioning repair at the Courthouse	25,000	17,650	7,350

Special assessment debt will be paid from the proceeds of special assessments levied against benefited property owners. In the event that a property owner would fail to pay the assessment, payment would be made by the County. Special assessment debt was not included in net assets invested in capital assets net of related debt for governmental activities, with the exception of the County improvement bonds. This is due to the fact that these bonds were used to construct business-type capital assets. Revenue debt and OWDA loans reported in the enterprise funds will be paid from charges for services revenue in the enterprise funds. General obligation bonds will be retired from the general obligation debt service fund, using general property tax revenue.

All bonded debt is a general obligation supported by the full faith and credit of the County. OWDA loans grant neither security nor property interest to OWDA in any property of the County, and do not pledge the general credit of the County.

Compensated absences will be paid from the fund from which the employee is paid. These funds include the General Fund, Achievement Center, ADAMH, Auto and Gas, Child Support Enforcement Agency, Dog and Kennel, DRETAC, Drug Enforcement, Office of Older Adults, Public Assistance, Real Estate, Shelter Care, Title VI-D, Transportation, Sewer, Water and Solid Waste Funds.

The County office building is occupied by the sanitary engineering department, which manages all County enterprise operations, and the County engineering department, which is a governmental fund operation. One half of the general obligation bonded indebtedness for the construction of the building is paid from enterprise fund revenues; the remainder is paid from unvoted property tax revenue.

The County has entered into contractual agreements for construction loans from the Ohio Water Development Authority (OWDA). Under the terms of these agreements, the OWDA will reimburse, advance or directly pay the construction costs of approved projects. The OWDA will capitalize administrative costs and construction interest and then add them to the total amount of the final loan. These loans will not have an accurate repayment schedule until the loans are finalized and, therefore, are not included in the schedule of future annual debt service requirements.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

The balance of these loans is as follows:

Enterprise Funds	
Medina County Sewer District	\$2,153,896
Medina County Water District	<u>13,993,791</u>
Total	<u><u>\$16,147,687</u></u>

The Ohio Revised Code provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors shall never exceed one percent of the total assessed valuation of the County. The Code further provides that the total voted and unvoted net debt of the County less the same exempt debt shall never exceed a sum equal to three percent of the first \$100,000,000 of the assessed valuation, plus one and one-half percent of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000, plus two and one-half percent of such valuation in excess of \$300,000,000.

The effects of the debt limitations described above at December 31, 2006, are an overall debt margin of \$97,855,188 and a margin on unvoted debt of \$35,525,825.

Note 18 - Conduit Debt Obligations

From time to time, the County has issued Healthcare Revenue Bonds to provide financial assistance to health care organizations and Economic Development Bonds for the private-sector entities for the acquisition and construction of facilities deemed to be in the public interest. Servicing these debts is the sole obligation of the entities which received the debt proceeds. Neither the County, the State, nor any political subdivision thereof, is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2006, \$202,415,000 of these bonds had been issued. Of the \$93,255,000 issued after December 31, 1995, \$73,310,000 was still outstanding.

Note 19 - Contingent Liabilities

A. Grants

The County has received Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the County Commissioners believe such disallowances, if any, will be immaterial.

B. Litigation

Several claims and lawsuits are pending against the County. The amount of the liability, if any, cannot be reasonably estimated at this time.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Note 20 - Joint Venture

The County participates in the Medina County Emergency Management Agency which is a statutorily created political subdivision of the State. The Agency is a joint venture among the County, three cities, seventeen townships and six villages all located wholly within the County. Of the nine member board, the County appoints four members. The degree of control exercised by any participating government is limited to its representation on the board. The Agency establishes a program for emergency management that includes development of an emergency operations plan and is applicable to all political subdivisions that have entered into the county-wide agreement. Continued existence of the Agency is dependent on the County's continued participation; however, the County does not have an equity interest in the Agency. The Agency is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit to or burden on the County. In 2006, the County contributed \$72,620 to the Agency, which represents 48 percent of total contributions. Complete financial statements can be obtained from the Emergency Management Agency, Medina, Ohio.

Note 21 - Interfund Activity and Balances

A. Interfund Transfers

Interfund transfers for the year ended December 31, 2006, consisted of the following:

<u>Transfer To</u>	<u>Transfer From</u>			<u>Total</u>
	<u>General Fund</u>	<u>Achievement Center</u>	<u>Other Governmental Funds</u>	
ADAMH Board	\$131,326	\$0	\$0	\$131,326

Other Governmental Funds	1,717,142	150,000	496,488	2,363,630
Total	<u>\$2,453,242</u>	<u>\$150,000</u>	<u>\$496,488</u>	<u>\$3,099,730</u>

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; to move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to provide additional resources for current operations or debt service; to repay another fund for that fund's share of project expenditures; and to return money to the fund from which it was originally provided once a project is completed.

B. Interfund Balances

Interfund balances at December 31, 2006, consisted of the following amounts and represent advances to offset deficit cash. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting records, and (3) payments between funds are made. All are expected to be paid within one year.

Note 22 - Jointly Governed Organizations

A. Northeast Ohio Areawide Coordinating Agency (NOACA)

Northeast Ohio Areawide Coordinating Agency (NOACA) was created by the County Commissioners of Cuyahoga, Geauga, Lake, Lorain and Medina Counties and is responsible for transportation and environmental planning in the five County region. NOACA is controlled by 37 members including the three County Commissioners. The Board exercises total control over the operation of the agency including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the board. During 2006, the County contributed \$47,205 to NOACA.

B. Medina County Family First Council

The mission of the Medina County Family First Council is to support and strengthen families by providing or facilitating family centered, coordinated, community-based, preventive and comprehensive services that identify and respond to the health, human, and social services needs of Medina County families. The Board of Trustees is made up of 40 to 45 individuals from various organizations including 8 from the County. During 2006, the County contributed \$3,375 to the Council.

C. Lorain Medina Community Based Correctional Facility Judicial Corrections Board

The Lorain Medina Community Based Correctional Facility Judicial Corrections Board consists of the general division judges of the common pleas court, four from Lorain County and two from Medina County. This Board reviews the implementation of the operations of the correctional and rehabilitation programs at the correctional facility based in Lorain County. During 2006, the County did not contribute any funding to the Board.

Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

D. North East Ohio Network (NEON)

NEON is a council of governments formed to provide a regional effort in administrating, managing and operating programs for certain individuals with developmental disabilities. Participating counties include Medina, Trumbull, Columbiana, Geauga, Lake, Mahoning, Portage, Ashtabula, Lorain, Summit, Wayne and Stark Counties. NEON operation is controlled by their board which is comprised of the superintendents of Mental Retardation and Developmental Disabilities of each participating County. NEON adopts its own budget, authorized expenditures and hires and fires its own staff. During 2006, NEON received sufficient revenues from State grant monies and no additional funds were needed from the participants.

Note 23 - Risk Sharing Pool

The County Risk Sharing Authority, Inc., (CORSA) is a risk sharing pool made up of fifty-five counties in Ohio. CORSA was formed as an Ohio nonprofit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverage provided by CORSA. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of the Corporation are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County does not have an equity interest in CORSA. The County's payment for insurance to CORSA in 2006 was \$447,639.

Note 24 - Related Organizations

A. Medina County Library District

The County Commissioners are responsible for appointing a voting majority of the Medina County Library District Board; however, the County cannot influence the Library's operation nor does the Library represent a potential financial benefit or burden on the County. The County serves in a ministerial capacity as the taxing authority for the Library. Once the Library determines to present a levy to the voters, including the determination of its rate and duration, the County must place the levy on the ballot. The Library may issue debt and determines its own budget. The Library did not receive any funding from the County during 2006.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

B. Medina County Park District

The three Park District Commissioners are appointed by the Probate Judge of the County. The Park District administers its own staff and does not rely on the County to finance deficits. The County is not financially accountable for the Park District nor is the Park District financially dependent on the County. The Park District serves as its own budgeting, taxing and debt issuance authority. The Park District did not receive any funding from the County in 2006.

C. Medina Metropolitan Housing Authority

The Medina Metropolitan Housing Authority (“MMHA”) is a legally separate body politic. The majority of the MMHA board is appointed by Medina County. The MMHA board is composed of five representatives who include: one member appointed by the Medina County Court of Common Pleas Judge; one member appointed by the Medina County Probate Court Judge; one member appointed by the Medina County Commissioners; and two members appointed by the Mayor of the City of Brunswick. The County is not able to impose its will on the MMHA and no financial benefit and/or burden relationship exists. The MMHA is responsible for approving its own budget, appointing personnel and accounting and finance related activities. The general purpose of the MMHA is to provide decent, safe, and sanitary housing for qualified persons within the County. During 2006, the County did not have any financial contributions to the operation of the MMHA.

Note 25 - Insurance Purchasing Pool

The County is participating in a group rating plan for workers’ compensation as established under Section 4123.29 of the Ohio Revised Code. The County participates in the Ohio Workers’ Compensation Group Rating Plan that was established through the County Commissioners Association of Ohio (CCAO) as a group purchasing pool. A group executive committee is responsible for calculating annual rate contributions and rebates, approving the selection of a third party administrator, reviewing and approving proposed third party fees, fees for risk management services and general management fees, determining ongoing eligibility of each participant and performing any other acts and functions which may be delegated to it by the participating employers. The group executive committee consists of seven members. Two members are the president and treasurer of CCAO; the remaining five members are representatives of the participants. These five members are elected for the ensuing year by the participants at a meeting held in the month of December each year. No participant can have more than one member of the group executive committee in any year, and each elected member shall be a County Commissioner.

Fund Descriptions – Fiduciary Funds

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations or other governments and are therefore not available to support the County's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations.

Agency Funds

Local Government-Shared Revenue Fund - To account for the collection of shared revenues within the State of Ohio that represent a portion of state income taxes, state sales taxes, and corporate franchise taxes. These monies are apportioned to various local governments on a monthly basis.

Property Taxes Fund - To account for the collection of property taxes, homestead and rollback, manufactured homes taxes and special assessments collected from real estate owners. These taxes and special assessments are periodically apportioned to local governments in the County, including Medina County itself.

County Levied Taxes Fund - To account for the collection of taxes levied on estates, cigarettes, and lodging within the County and the distribution of this tax to local governments and the State.

Courthouse Agency Fund - To account for the receipt and expenses of various court monies that do not run through the County's accounting system.

Emergency Management Fund – To account for the fund controlled by Disaster Services, as established by Section 5915.07, Revised Code, for which the County Auditor is fiscal agent. Money is received from a federal grant to be used for maintaining an emergency management services department.

Medina County General Health District Fund - To account for revenues and expenses for the Health District for which the County serves as fiscal agent.

Medina County Park District Fund - To account for the activities of the park board, which include the receipt of grant monies and or the acquisition, expansion and maintenance of County park land and park facilities.

Payroll Fund - To account for the net payroll, payroll taxes, social security/medicare, and other related payroll deductions accumulated from the governmental, proprietary, and fiduciary funds for distribution to employees, other governmental units and private organizations.

Recorder Housing Fund – To account for monies collected to pay for prisoner housing during their stay in the County jail system.

Child Support Enforcement Agency - To account for the collection of alimony and child support payments and the distribution of these monies to the court-designated recipients.

Note: The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

The County's basic property tax rate may be increased only by a majority vote of the County's residents.

Real property tax rates are reduced so that inflationary increases in value do not generate additional taxes.

Overlapping rates are those of local and county governments that apply to property owners within the County.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for machinery and equipment and 23 percent for inventories. The general business tangible personal property tax is being phased out beginning in 2006. The listing percentage is 18.75 percent for 2006, 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10 percent rollback for commercial/industrial property has been eliminated.
