

TALAWANDA CITY SCHOOL DISTRICT, OHIO

Single Audit Reports

June 30, 2007

Mary Taylor, CPA
Auditor of State

Board of Education
Talawanda City School District
131 West Chestnut Street
Oxford, Ohio 45056

We have reviewed the *Independent Auditors' Report* of the Talawanda City School District, Butler County, prepared by Clark, Schaefer, Hackett & Co., for the audit period July 1, 2006 through June 30, 2007. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Talawanda City School District is responsible for compliance with these laws and regulations.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS:

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The schedule of expenditures of federal awards has been prepared on the cash basis of accounting.

NOTE B - FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair value of the commodities received and disbursed.

NOTE C - MATCHING REQUIREMENTS

Certain Federal programs require that the District contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Education
Talawanda City School District, Ohio:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Talawanda City School District, Ohio (the School District) as of and for the year ended June 30, 2007, which collectively comprise the School District's basic financial statements and have issued our report thereon dated January 25, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness on the School District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance And Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the management of the School District in a separate letter dated January 25, 2008.

This report is intended solely for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133**

To the Board of Education
Talawanda City School District, Ohio:

Compliance

We have audited the compliance of Talawanda City School District, Ohio (the School District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2007. The School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in

order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is a more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in a more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District as of and for the year ended June 30, 2007, and have issued our report thereon dated January 25, 2008. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than those specified parties.

Introductory Section

(Bogan Elementary Construction in Progress)

January 25, 2008

To the Citizens and Board of Education of the Talawanda School District:

Ohio law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Talawanda School District for the year ended June 30, 2007.

This report consists of management's representations concerning the finances of the Talawanda School District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Talawanda School District has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Talawanda School District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Talawanda School District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Talawanda School District's financial statements have been audited by Clark, Schaefer, Hackett & Co., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Talawanda School District for the year ended June 30, 2007, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the Talawanda School District's financial statements for the year ended June 30, 2007, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the Talawanda School District was part of a broader, federally mandated “Single Audit” designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only to the fair presentation of the financial statements, but also on the audited government’s internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the Talawanda School District’s separately issue Single Audit Report.

Generally accepted accounting principals (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Talawanda School District’s MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE SCHOOL DISTRICT

The Talawanda School District is located in the northwestern section of Butler County, Ohio, and encompasses the City of Oxford. The School District has an area of 145 square miles and an approximate residential population of 18,968 and an approximate University population of 16,000. The School District is primarily a residential and farming community. The Talawanda School District had 3,043 students enrolled in its two elementary schools, middle school, and high school during the year ended June 30, 2007. In addition to the schools listed, the School District maintained and operated a transportation facility, maintenance building, central office building, and several sports fields.

A five member Board of Education serves as the taxing authority, contracting body, and policy maker for the Talawanda School District. The Board adopts the annual operating budget, tax budget and approves all expenditures of School District tax moneys. The Superintendent is the chief executive officer of the School District, responsible to the Board for total education and support operations. The Treasurer is the chief financial officer of the School District, responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the School District, acting as custodian of all School District funds and investment of idle funds as specified by Ohio law. Other Board appointed officials, reporting to the Superintendent, are an Assistant Superintendent, building principals, and directors of various educational and support services.

The Talawanda School District provides a full range of traditional and non-traditional educational programs and services. These include elementary and secondary curriculum offerings at the general and college preparatory levels; a broad range of co-curricular and extra curricular activities; adult and community education offerings; special education programs and facilities; and community recreation facilities. In addition to providing these general activities, the School District acts as fiscal agent for State funds distributed to private schools located within the School District boundaries; therefore this activity is included in the reporting entity. The McGuffey Foundation School is the only school served. While the McGuffey Foundation shares operational and service similarities with the School District, each are separate and distinct entities. Because of its independent nature, the McGuffey Foundation School's financial statements are not included in this report.

FACTORS AFFECTING FINANCIAL CONDITION:

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Talawanda School District operates.

Local Economy:

The School District is located in the Miami Valley Region of Southwest Ohio. The School District is midway between Cincinnati and Dayton in rapidly growing Butler County and borders the Indiana State line. The area served by the School District is primarily an industrial and agricultural area.

The community is primarily an outgrowth of the development of Miami University, a state university. Miami University continues to play a prominent role in the development of the community. The property of the University is tax exempt and thus does not support the School District. As the largest employer, the University, its students and its faculty have the primary impact on the economy. The University continues to enjoy a healthy financial outlook.

The School District's economy is not solely tied to the University. Besides manufacturing and healthcare employers, many of our residents commute to the Cincinnati and Dayton areas each day. In general, the economy of the School District continues to hold steady with moderate growth in new home construction. Commercial development is also occurring in the Southeast corner of the School District and within Oxford. In 1999, Oxford created a Community Improvement Corporation (CIC) to promote economic development within the City and Oxford Township.

Long-Term Financial Planning:

During the 2006-2007 school year the Talawanda School District continued its participation in the Ohio School Facilities Commission Expedited Local Partnership Program Assessment Plan. This program enabled a group of architects employed by the Ohio School Facilities Commission to assess the condition of School District facilities to allow for state funding for school facilities. As a result of this study the Talawanda Board of Education developed a facilities master plan to meet the needs of the School District for the next several years. The Talawanda School District will continue to seek voter approval to fund the much needed facility renovations as outlined in the plan. Based on the School District's wealth factor the state would provide a 24% match on all approved projects. While the state does not anticipate that funding would be available for the Talawanda School District until 2010, the School District would be permitted to proceed under the Expedited Local Partnership Program with the understanding that state funding would be credited in the future.

The Talawanda School District prepares a five-year forecast outlining operational revenues and expenditures based on current assumptions. The five-year forecast must be filed with the Ohio Department of Education in October of each year and then revised the following May. The five-year forecast is used as a management tool in determining the operational needs of the School District. Ohio law prohibits a school district from closing its doors due to lack of funds. It is the responsibility of the Board of Education to ensure the School District presents a balanced budget on an annual basis. The five-year forecast provides management with essential information needed to seek additional revenue or to reduce services in order to maintain a balanced budget.

AWARDS AND ACKNOWLEDGEMENTS:

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting (Certificate of Achievement) to the School District for its Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2006. This was the sixteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ASBO Certificate of Excellence

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting for the year ended June 30, 2006 to the School District. The Certificate of Excellence is the highest form of recognition for excellence in school district financial reporting and was awarded for this School District's sixteenth annual report produced under Generally Accepted Accounting Principles.

This award certifies that the Comprehensive Annual Financial Report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. The award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials. Management believes that the Comprehensive Annual Financial Report for the year ended June 30, 2007, will also conform to its principles and standards.

Acknowledgments

The preparation and publication of this report on a timely basis could not have been possible without the cooperation of the entire Treasurer's Staff.

Finally, this report would not have been possible without the foresight of the Board of Education who approved the resources to achieve this project. Without their leadership and commitment to excellence this report would not be possible.

Sincerely,

Michael S. Davis
CFO/Director of Business Affairs

Dr. Philip F. Cagwin

INDEPENDENT AUDITORS' REPORT

To the Board of Education
Talawanda School District, Ohio:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Talawanda School District, Ohio (the School District), as of and for the year ended June 30, 2007, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2007, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2008, on our consideration of School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the budgetary comparison information on pages 3 through 11 and 44 through 45, respectively, are not a required part of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedule and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

This discussion and analysis provides key information from management highlighting the overall financial performance of the Talawanda School District for the year ended June 30, 2007. This is meant to be an easily readable summary of the most important financial information regarding the accompanying financial statements. Please read it in conjunction with the School District's financial statements.

Financial Highlights

Major financial highlights for fiscal year 2007 are listed below:

- ✓ The assets of the School District exceeded its liabilities at year-end by \$20,144,220. Of this amount, \$8,854,255 may be used to meet the government's ongoing obligations to citizens and creditors.
- ✓ In total, net assets increased by \$892,331.
- ✓ The School District had \$32,574,105 in expenses related to governmental activities; only \$3,159,249 of these expenses were offset by program specific charges for services, grants or contributions. General revenue of \$30,307,187, made up primarily of property taxes and State Foundation payments, was used to provide for these programs.
- ✓ The General Fund balance increased by \$1,842,616 from \$7,085,637 at June 30, 2006 to \$8,928,253 at June 30, 2007.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the School District's basic financial statements. The School District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

TALAWANDA SCHOOL DISTRICT, OHIO
Management's Discussion and Analysis
Year Ended June 30, 2007
Unaudited

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the School District's finances in a manner similar to a private-sector business.

The statement of net assets presents information on all of the School District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years (e.g. uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the School District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the School District include instruction, support services, administration, operation and maintenance of plant, and extracurricular activities. The School District has no business-type activities.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the School District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

TALAWANDA SCHOOL DISTRICT, OHIO
Management's Discussion and Analysis
Year Ended June 30, 2007
Unaudited

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for government activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between government funds and governmental activities.

The School District accounts for its activities using many individual governmental funds. The most significant funds, known as major funds, are reported in separate columns in the governmental fund financial statements. These statements provide detailed information about the individual major funds – unlike the government-wide financial statements, which report on the School District as a whole. The School District has one major fund: the General Fund. Data for the other governmental funds is combined into a single aggregated presentation.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the School District's own programs.

Notes to the basic financial statements. The notes provide information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also contains required supplementary information concerning the budget for the General Fund. The combining statements for nonmajor governmental funds are presented immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

A. Net assets at year-end

The following table presents a condensed summary of the School District's overall financial position at June 30, 2007 and 2006:

Governmental Activities

		<u>FY07</u>	<u>FY06</u>
Current and other assets	\$	30,590,311	30,392,950
Capital assets		<u>21,670,253</u>	<u>21,690,917</u>
Total assets		<u>52,260,564</u>	<u>52,083,867</u>
Long-term liabilities outstanding		13,397,137	13,725,631
Other liabilities		<u>18,719,207</u>	<u>19,106,347</u>
Total liabilities		<u>32,116,344</u>	<u>32,831,978</u>
Net assets:			
Invested in capital assets, net of debt		9,960,126	10,925,808
Restricted:			
For capital projects		537,139	405,075
For debt service		488,013	424,080
For other purposes		304,687	309,048
Unrestricted		<u>8,854,255</u>	<u>7,187,878</u>
Total net assets	\$	<u><u>20,144,220</u></u>	<u><u>19,251,889</u></u>

The largest portion of the School District's net assets (49%) reflects its investment in capital assets, less any related debt to acquire those assets that is still outstanding. The School District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. The balance of unrestricted net assets (\$8,854,255) may be used to meet the government's ongoing obligations to citizens and creditors.

Current assets edged up slightly due to an increase in operating results and increased taxes receivable – both of which were primarily related to school district income tax that was passed in 2004. Long-term liabilities declined due to normal scheduled payments. Other liabilities declined due to the completion of Bogan Elementary school which was placed in service in August 2006.

B. Governmental Activities during fiscal year 2007

The following table presents a condensed summary of the School District's activities during fiscal year 2007 and 2006 and the resulting change in net assets:

	<u>FY07</u>	<u>FY06</u>
Revenues:		
Program revenues:		
Charges for services and sales	\$ 1,386,564	1,323,035
Operating grants and contributions	1,739,737	1,683,805
Capital grants and contributions	<u>32,948</u>	<u>19,745</u>
Total program revenues	<u>3,159,249</u>	<u>3,026,585</u>
General revenues:		
Taxes	18,824,523	18,064,442
Grants and entitlements	10,299,542	10,256,911
Investment earnings	674,980	567,201
Miscellaneous	<u>508,142</u>	<u>457,746</u>
Total general revenues	<u>30,307,187</u>	<u>29,346,300</u>
Total revenues	<u>33,466,436</u>	<u>32,372,885</u>
Expenses:		
Instruction	17,600,318	16,644,645
Support services:		
Pupil	1,735,100	1,402,300
Instructional staff	1,808,410	1,851,673
Board of Education	107,231	37,029
Administration	1,988,368	1,845,575
Fiscal	1,013,792	866,779
Business	12,122	7,778
Operation and maintenance of plant	3,678,198	3,045,403
Pupil transportation	2,053,020	1,985,823
Central	96,650	104,377
Non-instructional services	727,258	496,928
Interest on long-term debt	602,893	471,917
Food services	<u>1,150,745</u>	<u>1,066,655</u>
Total expenses	<u>32,574,105</u>	<u>29,826,882</u>
Change in net assets	\$ <u><u>892,331</u></u>	<u><u>2,546,003</u></u>

TALAWANDA SCHOOL DISTRICT, OHIO
Management's Discussion and Analysis
Year Ended June 30, 2007
Unaudited

Of the total governmental activities revenues of \$33,466,436, (\$3,159,249) is from program revenue. This means that the government relies on general revenues to fund the majority of the cost of services provided to the citizens. Of those general revenues, \$18,824,523 (62%) comes from property and income taxes and \$10,299,542 (34%) is from state and federal funding. The School District's operations are reliant upon its property tax levy, income taxes and the state's foundation program.

The School District experienced an increase in taxes due to the school district income tax. Total expenditures increased 9% primarily to scheduled salary increases for certified and classified staff; higher fuel costs; and increased maintenance costs for the School District's older buildings.

Governmental Activities

The following table presents the total cost of each of the government's primary services, and the comparative net cost after deducting the revenues generated by each function. Approximately 10% of the cost of the general government programs was recouped in program revenues. Instruction costs were \$17,600,318 but program revenue contributed to fund 7% of those costs. Thus, general revenues of \$16,349,690 were used to support the remainder of the instruction costs.

Governmental Activities

		<u>Total Cost of Services</u>	<u>Program Revenue</u>	<u>Revenues as a % of Total Costs</u>	<u>Net Cost of Services</u>
Instruction	\$	17,600,318	1,250,628	7%	16,349,690
Support services		12,492,891	728,626	6%	11,764,265
Non-instructional services		727,258	143,242	20%	584,016
Food service		1,150,745	1,036,753	90%	113,992
Interest on long-term debt		<u>602,893</u>	<u>-</u>	0%	<u>602,893</u>
Total	\$	<u>32,574,105</u>	<u>3,159,249</u>	<u>10%</u>	<u>29,414,856</u>

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S INDIVIDUAL FUNDS

Governmental funds

The School District has one major governmental fund: the General Fund. Assets of this fund comprise \$26,070,734 (85%) of the total \$30,504,285 governmental funds assets.

TALAWANDA SCHOOL DISTRICT, OHIO
Management's Discussion and Analysis
Year Ended June 30, 2007
Unaudited

General Fund. Fund balance at June 30, 2007 was \$8,928,253, including \$7,956,289 of unreserved balance, which represents 30% of expenditures for fiscal year 2007. The primary reason for the increase in fund balance is due to increased revenues associated with the school district income tax.

GENERAL FUND BUDGETARY HIGHLIGHTS

The schedule comparing the School District's original and final budgets and actual results are included in the required supplementary information. Significant differences between the original and final budget are as follows:

Interest income increased 109% due to higher cash balances and higher interest rates. Regular instruction decreased due to a reclassification of teachers from regular instruction to special instruction. Also, the salary mix related to scheduled increases for certified staff was lower than expected. Board of Education expenditures increased by 69% due to increased board meetings for facilities planning and increased legal expenses for a bond issues and other legal matters. Operation and maintenance of plant decreased 8% due to lower than expected maintenance needs of the district. Capital outlay was 60% lower due to funds from the Permanent Improvement Fund. Advances out were lower by 82% due to fewer federal funds needing advances.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. At June 30, 2007, the School District had invested in a broad range of capital assets, including land, buildings, equipment and vehicles. See Note 7 to the financial statements for more detail.

Governmental Activities
Capital Assets at Year-End
(Net of Depreciation)

		<u>FY07</u>	<u>FY06</u>
Land	\$	1,251,619	1,251,619
Construction in progress		-	10,603,318
Land improvements		446,677	520,640
Buildings and improvements		18,796,260	8,074,785
Furniture and equipment		1,038,964	1,061,139
Vehicles		<u>136,733</u>	<u>179,416</u>
Total	\$	<u><u>21,670,253</u></u>	<u><u>21,690,917</u></u>

TALAWANDA SCHOOL DISTRICT, OHIO
Management's Discussion and Analysis
Year Ended June 30, 2007
Unaudited

Major capital asset events during the current fiscal year included completion of the new Bogan Elementary school which was placed in-service in August 2006. Also, there was some improvement of other facilities district wide.

Debt

As of June 30, 2007, the balance of outstanding capital leases was \$2,997,000.

As of June 30, 2007 the balance of outstanding general obligation bonds is \$8,640,000.

See Note 12 to the financial statements.

ECONOMIC FACTORS

A challenge facing the School District is the future of state funds. On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The Court found the state's school funding system unconstitutional but declined to retain jurisdiction of the matter meaning the decision included no timeline for compliance or accountability for lack of compliance. The School District is currently unable to determine what effect, if any, this decision will have on its future State funding and on its financial operations.

The School District is projecting flat to 1% enrollment increases for the foreseeable future. The School District is currently receiving the same amount of state aid as it did in 1998. Due to higher property valuations and lower enrollment, the School District is on the guarantee by nearly \$2 million. Unless significant changes are made to the state funding formula, any costs associated with enrollment growth will come without state support.

In November 2004, the School District passed a 1% School District Income Tax that is expected to generate about \$5 million annually. The School District is working hard to produce a balanced budget through the 2008-09 school year. In an attempt to identify alternative revenue, the Talawanda Board of Education implemented a policy to accept students from other school districts through open enrollment at the middle school and high school level for 2005-06. This initiative generated approximately \$186,900 during FY2007. The Talawanda Board of Education voted to accept open enrollment at the elementary schools in 2006-07 with the opening of the new elementary school.

TALAWANDA SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements

Year Ended June 30, 2007

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Talawanda School District, Ohio (the "School District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989 in its government-wide financial statements provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

A. Reporting Entity

The School District is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The School District operates under a locally elected Board of Education (five members) and is responsible for the education of the residents of the School District.

The reporting entity is comprised of the primary government, which consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, and student related activities. Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District has no component units.

The School District is associated with five organizations, two of which are defined as jointly governed organizations and three as insurance purchasing pools. These organizations include Southwestern Ohio Computer Association, Butler County Technology and Career Development Schools, the Ohio School Boards Association Workers' Compensation Group Rating Plan, the Ohio School Plan, and the Butler County Health Plan. These organizations are presented in Notes 13 and 14.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

B. Basis of Presentation

Government-wide Financial Statements The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The School District has no business-type activities.

The government-wide statements are prepared using the economic resources measurement focus, which differs from the manner in which the governmental fund financial statements are prepared. Therefore, the governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements Fund financial statements report detailed information about the School District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

C. Fund Accounting

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the School District are grouped into the categories governmental and fiduciary.

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the School District's major governmental fund:

General Fund - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Fiduciary Funds report on net assets and changes in net assets. The School District's fiduciary funds consist of a private-purpose trust fund and agency funds. The School District's private-purpose trust funds account for scholarship programs for students. These assets are not available for the School District's use. Agency funds, used for student activities and unclaimed monies, are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

D. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements and relates to the timing of the measurements made.

The modified accrual basis of accounting is used by the governmental funds. On a modified accrual basis, revenues are recorded when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period for the School District is sixty days after fiscal year end. Under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available for advance, interest, tuition, student fees, and grants.

TALAWANDA SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements

Year Ended June 30, 2007

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable except for unmatured principal and interest on general long-term debt which is recognized when due. Allocations of cost, such as depreciation, are not recognized in the governmental funds.

Government-wide financial statements are prepared using the accrual basis of accounting. Also, fiduciary funds utilize accrual accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Revenues - Exchange and Non-exchange transactions. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Non-exchange transactions, in which the School District receives value without directly giving value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes were levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Deferred Revenue Deferred revenues arise when a potential revenue does not meet both the measurable and available criteria recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the balance sheet and revenue is recognized. Property taxes measurable as of June 30, 2007 which are intended to finance fiscal year 2008 operations have been recorded as deferred revenue. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

TALAWANDA SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements

Year Ended June 30, 2007

Tax Budget Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the Butler County Budget Commission for rate determination.

Estimated Resources Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2007.

Appropriations Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund levels of expenditures, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolutions, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at the level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education. The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. The budget figures, which appear in the statements of budgetary comparisons, represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions. The Board passed supplemental appropriations during the fiscal year.

Encumbrances As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

Lapsing of Appropriations At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

F. Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled in a central bank account. Monies for all funds are maintained in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the balance sheet. During fiscal year 2007, the School District's investments were limited to US Treasury notes, US Agency securities and the State Treasury Assets Reserve of Ohio (STAR Ohio). STAR Ohio is an investment pool managed by the State Treasurer's Office that allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2007.

The Governmental Accounting Standards Board Statement No. 31 (GASB 31), "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", requires that investments, with certain exceptions, be recorded at their fair value and that changes in the fair value be reported in the operating statement. The School District recorded investments held at June 30, 2007 at fair value.

Under existing Ohio statutes, all investment earnings accrue to the general fund except those specifically related to agency funds, certain trust funds, and those other funds individually authorized by Board resolution. Interest earnings are allocated to these funds based on average monthly cash balance.

G. Inventory

Inventories of governmental funds are stated at cost, determined on a first-in, first-out basis and recorded as expenditures in the governmental funds when consumed.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. The School District defines capital assets as those with an individual cost of more than \$1,000 and an estimated useful life in excess of one year. All capital assets are capitalized at cost or estimated historical cost where no historical records exist. Donated capital assets are recorded at their estimated fair values as of the date received. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

When capital assets are purchased, they are capitalized and depreciated in the government-wide statements. Capital assets are reported as expenditures of the current period in the governmental fund financial statements.

All reported capital assets except land are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

Buildings	30-50 years
Land improvements	10-20 years
Building improvements	10-40 years
Equipment and furniture	5-20 years
Vehicles	5-10 years

I. Interfund Balances

On fund financials, receivables and payables resulting from short-term interfund loans are classified as "interfund receivable/payable." These amounts are eliminated in the governmental activities column of the statement of net assets. The effect of interfund activity has been eliminated from the government-wide financial statements.

J. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, a liability is recorded for compensated absences only if they have matured, for example, as a result of employee resignations and/or retirements.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. Governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources with the exception of compensated absences as noted above.

L. Fund Balance Reserves

The School District records reservations for portions of fund equity that are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balances indicate that portion of fund equity that is available for appropriation in future periods. Fund equity reserves are established for encumbrances, property taxes, prepaids, supplies inventory and budget reserve set-asides.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriations under State statutes. The reserve for budget stabilization represents money set-aside to protect against cyclical changes in revenues and expenditures.

M. Restricted Assets

Restricted assets in the general fund represent cash and cash equivalents set aside to establish a budget stabilization reserve. A corresponding fund balance reserve has also been established.

N. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

O. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

2. DEFICIT FUND BALANCES

At June 30, 2007, the following funds a deficit fund balance:

Nonmajor governmental funds:	
Title VIB Fund	\$14,881
Title I Fund	\$16,292
Drug Free Schools Fund	\$552
EHA Preschool Handicapped Fund	\$986
Class Size Reduction Grant Fund	\$7,999

This deficit balances were created by the application of generally accepted accounting principles. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

3. DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the Treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current two-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies that are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including pass book accounts.

TALAWANDA SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements

Year Ended June 30, 2007

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution. Interim monies are permitted to be deposited or invested in the following securities:

1. United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by the federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements" and amended by GASB Statement No. 40 "Deposit and Investment Risk Disclosures":

Deposits

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a custodial credit risk policy. At year-end, \$852,637 of the School District's bank balance of \$952,637 was exposed to custodial credit risk since it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the School District's name.

Investments

The School District's investments at June 30, 2007 are as summarized as follows:

	<u>Fair Value</u>	<u>Average Maturity (Years)</u>
STAR Ohio	\$ 177,365	n/a
U.S. Money Market Fund	33,398	n/a
FHLB	4,440,295	0.95
FNMA	998,282	1.36
FHLMC	<u>1,736,698</u>	0.32
	<u>\$ 7,386,038</u>	

Credit Risk. It is the School District's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have a credit quality rating of the top 2 ratings by nationally recognized statistical rating organizations. The School District's investments in FHLB, FNMA and FHLMC securities were rated AAA by Standard & Poor's and Aaa by Moody's. The School District's investments in the U.S. Money Market Funds were rated AAA by Standard & Poor's. Investments in STAR Ohio were rated AAAM by Standard & Poor's.

Concentration of Credit Risk. The School District's investments in FHLB, FNMA and FHLMC securities represented 60%, 14% and 24%, respectively, of its total investments at June 30, 2007.

TALAWANDA SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements

Year Ended June 30, 2007

Custodial Credit Risk. Custodial credit risk is the risk that in the event of a failure of a counter party, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's investment securities are registered in the name of the School District.

Interest Rate Risk. In accordance with the investment policy, the School District manages its exposure to declines in fair value by limiting the weighted average maturity of its investment portfolio to five years.

4. PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and tangible personal property (used in business) located in the School District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Public utility property taxes are assessed on tangible personal property at varying percentages of true value and on real property at 35% of true value.

Tangible personal property taxes are levied after April 1 on the value as of December 31 of the current year. In prior years, tangible personal property was assessed at twenty-five percent of true value for capital assets and twenty-three percent of true value for inventory. The tangible personal property tax is being phased out – the assessment percentage for all property including inventory for 2006 was 18.75 percent. This will be reduced to 12.5 percent for 2007, 6.25 percent for 2008, and zero for 2009. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

The School District receives property taxes from Butler County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2007, are available to finance fiscal year 2007 operations. The amount available for advance can vary based on the date the tax bills are sent.

TALAWANDA SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements

Year Ended June 30, 2007

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes that became measurable as of June 30, 2007. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amounts available as advances at June 30, 2007, were \$272,100, and \$41,500 in the General Fund and Other Governmental Funds, respectively.

The assessed values upon which fiscal year 2007 taxes were collected are:

	<u>2006 Second- Half Collections</u>		<u>2007 First- Half Collections</u>	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/Residential and Other Real Estate	\$ 559,668,460	93.86%	575,235,730	94.66%
Tangible Personal Property	<u>36,598,098</u>	6.14%	<u>32,480,156</u>	5.34%
Total Assessed Value	\$ <u><u>596,266,558</u></u>	100.00%	<u><u>607,715,886</u></u>	100.00%
Tax rate per \$1,000 of assessed valuation	\$53.40		\$53.40	

5. INCOME TAXES

In November 2004, the voters of the School District passed a 1% school income tax on wages earned by residents of the School District. The taxes are collected by the State Department of Taxation in the same manner as the state income tax. In the fiscal year ended June 30, 2007, the School District recorded income tax revenue of \$5,237,252 in the entity-wide financials and a receivable as of June 30, 2007 of \$2,694,493.

6. INTERFUND TRANSACTIONS

On the fund financial statements, the General Fund has a receivable of \$66,334 due from Other Governmental funds. These interfund loans were made to provide operating capital.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

7. CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2007 was as follows:

	Balance 7/1/06	Additions	Disposals	Balance 6/30/07
<i>Governmental Activities</i>				
Nondepreciable:				
Land	\$ 1,251,619	-	-	1,251,619

Extracurricular activities		20,443
Food service		92,465
		<hr/>
Total depreciation expense	\$	<u>1,498,292</u>

8. RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2007, the School District participated in the Ohio School Plan, a risk sharing pool (Note 14) for liability, property, auto, and crime insurance to address these various types of risk. Settled claims have not exceeded coverage in any of the past three years. There has been no significant reduction in the coverage from last year.

9. DEFINED BENEFIT PENSION PLANS

School Employees Retirement System

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost sharing multiple employer public employee retirement system administered by the School Employees Retirement Board. SERS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available financial report that includes financial statements and required supplementary information for SERS. The report may be obtained by writing to the SERS, 300 East Broad, Columbus, Ohio 43215.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

Plan members are required to contribute 10% of their annual covered salary and the School District is required to contribute at an actuarially determined rate, which is currently 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts by the SERS' Retirement Board. The School District's required contributions to SERS for the fiscal years ended June 30, 2007, 2006, and 2005 were approximately \$525,000, \$507,000, and \$482,000 respectively; 29% has been contributed for 2007 and 100% for fiscal years 2006 and 2005.

State Teachers Retirement System

The School District participates in the State Teachers Retirement System of Ohio (STRS), a cost-sharing, multiple-employer public employee retirement system. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371 or by calling (614) 227-4090.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

TALAWANDA SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements

Year Ended June 30, 2007

Plan members are required to contribute 10% of their annual covered salary and the School District is required to contribute 14%. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. The School District's required contributions for pension obligations to STRS for the years ended June 30, 2007, 2006, and 2005 were approximately \$1,928,000, \$1,849,000 and \$1,818,000 respectively; 83% has been contributed for fiscal year 2007 and 100% for fiscal years 2006 and 2005. The unpaid contribution for fiscal year 2007 is recorded as a liability within the respective funds.

Social Security System

Effective July 1, 1991, all employees not otherwise covered by SERS or STRS have an option to choose Social Security or SERS/STRS. The School District's liability is 6.2% of wages paid.

10. POSTEMPLOYMENT BENEFITS

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by state statute and are funded on a pay-as-you-go basis.

STRS has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14% of covered payroll. For the year ended June 30, 2007, the board allocated employer contributions equal to 1.00% of covered payroll to the Health Care Reserve Fund. For the School District, this amount was approximately \$138,000 during fiscal year 2007. STRS pays health care benefits from the Health Care Reserve Fund. The balance in the fund was \$3.5 billion at June 30, 2006. For the year ended June 30, 2006, net health care costs paid by STRS were \$282.7 million and STRS had 119,184 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more years of qualifying service credit, disability, and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75% of the premium. For this fiscal year, employer contributions to fund health care benefits were 3.42% of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2007, the minimum pay has been established at \$35,800. The surcharge rate added to the unallocated portion of the 14% employer contribution rate provides for maintenance of the asset target level for the health care fund.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

The target level for the health care reserve is 150% of annual health care expenses. Expenses for health care for the year ended June 30, 2006 were \$158.8 million and the target level was \$200.6 million. At June 30, 2006, SERS' net assets available for payment of health care benefits was \$295.6 million. SERS has approximately 59,492 participants currently receiving health care benefits. For the School District, this amount to fund health care benefits, including the surcharge, was approximately \$129,000 during the 2007 fiscal year.

11. EMPLOYEE BENEFITS

Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Non-certified employees earn five to twenty-five days of vacation per fiscal year, depending upon length of service while administrators receive twenty days of vacation per year. Accumulated, unused vacation time is paid to non-certified employees and administrators upon termination of employment. Teachers do not earn vacation time. Teachers, administrators, and non-certified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to maximum of 260 days for administrators and 188 days for teachers and classified staff. Upon retirement, payment is made for twenty-five percent of the employee's accumulated sick leave.

12. LONG-TERM OBLIGATIONS

The changes in the School District's long-term obligations during fiscal year 2007 were as follows:

	Principal Outstanding 7/1/06	Additions	Reductions	Principal Outstanding 6/30/07	Amounts Due in One Year
Governmental Activities:					
General obligation bonds	\$ 8,865,000	-	(225,000)	8,640,000	220,000
Add premium on issuance	238,879	-	(13,392)	225,487	-
Lease-purchase agreement	3,085,000	-	(88,000)	2,997,000	83,000
Compensated absences	1,536,752	245,562	(247,664)	1,534,650	176,371
Total	\$ 13,725,631	245,562	(574,056)	13,397,137	479,371

General Obligation School Improvement Bonds - On May 15, 2004, the School District issued voted general obligation bonds for the purpose of school improvements. The bonds pay interest at rates ranging from 2% to 5.25% and fully mature on December 1, 2030. These bonds will be repaid from the Debt Service Fund.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

Principal and interest requirements to retire the general obligations bonds outstanding at June 30, 2007 are as follows:

Fiscal Year <u>Ending June 30,</u>		<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2008	\$	220,000	402,515	622,515
2009		225,000	396,781	621,781
2010		230,000	390,123	620,123
2011		240,000	382,658	622,658
2012		245,000	374,470	619,470
2013-2017		1,375,000	1,719,954	3,094,954
2018-2022		1,710,000	1,360,125	3,070,125
2023-2027		2,190,000	873,294	3,063,294
2028-2031		<u>2,205,000</u>	<u>239,007</u>	<u>2,444,007</u>
Total	\$	<u>8,640,000</u>	<u>6,138,927</u>	<u>14,778,927</u>

Lease-purchase Agreements – During 2005, the Board authorized financing in the amount of \$614,000 for HVAC upgrades and the acquisition of land for the new elementary school with a lease-purchase agreement through the Ohio Association of School Business Official’s Expanded Asset Pooled Financing Program. During 2006, the Board authorized financing in the amount of \$2,593,000 for the construction of a new elementary school with a lease-purchase agreement through the Ohio Association of School Business Official’s Expanded Asset Pooled Financing Program. The future minimum payments for both lease-purchase agreements as of June 30, 2007 were as follows:

Fiscal Year <u>Ending June 30,</u>		
2008	\$	227,058
2009		285,527
2010		283,805
2011		280,837
2012		279,658
2013-2017		1,247,453
2018-2022		1,059,668
2023-2026		<u>856,551</u>
Total		4,520,557
Less amount representing interest		<u>(1,523,557)</u>
Present value of minimum lease payments	\$	<u>2,997,000</u>

All general obligation debt is supported by the full faith and credit of the School District. Compensated absences will be paid from the fund from which the employees' salaries are paid. The School District's overall legal debt margin was \$46,054,430 with an unvoted debt margin of \$607,716 at June 30, 2007.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

13. JOINTLY GOVERNED ORGANIZATIONS

Butler County Technology and Career Development Schools

The Butler County Technology and Career Development Schools (BCTCDS), a jointly governed organization, is a distinct political subdivision of the State of Ohio operated under the direction of a Board, consisting of one representative from each of the participating school districts' elected board. The Board possesses its own budgeting and taxing authority as a separate body politic and corporate, established by the Ohio Revised Code. BCTCDS was formed for the purpose of providing vocational education opportunities to the students of the member school districts which includes the students of the School District. The School District has no ongoing financial interest in nor responsibility for BCTCDS. To obtain financial information, write to BCTCDS, at 3603 Hamilton-Middletown, Hamilton, Ohio 45011.

Southwestern Ohio Computer Association

The Southwestern Ohio Computer Association (SWOCA) was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. Each of the member schools of the three county consortium supports SWOCA based upon per pupil charge dependent upon the software package utilized. SWOCA is governed by a board of directors consisting of the superintendents and treasurers of member school districts. The degree of control exercised by any participating School District is limited to its representation on the Board. To obtain financial information, write to SWOCA, at 3603 Hamilton-Middletown, Hamilton, Ohio 45011.

14. INSURANCE PURCHASING POOLS

Butler County Health Plan

The School District participates in the Butler County Health Plan (BCHP), an insurance purchasing pool, formed to provide affordable and desirable dental, life, medical, and other disability group insurance for member's employees, eligible dependents and designated beneficiaries. The Board of Directors consists of one representative from each of the participating members and is elected by the vote of a majority of the member school districts. Financial information can be obtained from BCHP at P. O. Box 526, Middletown, Ohio 45042.

Ohio School Plan

The Ohio School Plan (OSP) is an insurance purchasing pool among school districts in Ohio formed for the purpose of establishing a group primary and excess insurance/self-insurance and risk management program. Members agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverage provided by OSP. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance. The affairs of the corporation are managed by a 13-member Board of Directors made up of school administrators. The School District does not have an equity interest in OSP.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

Ohio School Boards Association Workers' Compensation Group Rating Plan

The School District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

15. CONTINGENCIES

Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2007.

Litigation

The School District is party to legal proceedings. The School District is of the opinion that the ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

16. REQUIRED SET-ASIDES

The School District is required by State statute to annually set aside in the general fund an amount based on the statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

TALAWANDA SCHOOL DISTRICT, OHIO
Notes to the Basic Financial Statements
Year Ended June 30, 2007

The following cash basis information describes the change in the year-end set aside amounts for textbooks and capital acquisition. Disclosure of this information is required by State statute.

		<u>Textbooks</u>	<u>Capital Improvements</u>	<u>Budget Stabilization</u>
Set-aside balance as of June 30, 2006	\$	-	-	202,876
Current year set-aside requirement		419,545	419,545	-
Less qualifying disbursements		<u>(527,632)</u>	<u>(589,727)</u>	<u>-</u>
Total		<u>(108,087)</u>	<u>(170,182)</u>	<u>202,876</u>
Balance carried to FY2008		<u>-</u>	<u>-</u>	<u>202,876</u>
Cash balance as of June 30, 2007	\$	<u>-</u>	<u>-</u>	<u>202,876</u>

Since the School District had offsets and qualifying disbursements during the year that reduced the set aside amount for textbooks and instructional materials to below zero, these extra amounts could be used to reduce the set aside requirements of future years but the School District has elected not to carry the excess forward. However, the excess qualifying disbursements of the capital improvement set-aside may not be used to reduce the capital improvement set aside requirements of future years.

The Ohio General Assembly eliminated the requirement for the budget stabilization reserve and effective April 10, 2001, the Board of Education could choose to eliminate the reserve with the exception of rebates received from the Bureau of Workers Compensation. The School District chose not to reduce its budget stabilization reserve.

TALAWANDA SCHOOL DISTRICT, OHIO

Notes to Required Supplementary Information

Year Ended June 30, 2007

Note A Budgetary Basis of Accounting

While the District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Budgetary Basis) is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).

Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).

Encumbrances are treated as expenditures for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP statements and the budgetary basis schedule:

	<u>General</u>
Net change in fund balance - GAAP Basis	\$ 1,842,616
Increase / (decrease):	
Due to revenues	(72,594)
Due to expenditures	80,353
Due to other sources (uses)	159,771
Due to encumbrances	<u>(472,153)</u>
Net change in fund balance - Budget Basis	\$ <u>1,537,993</u>

(THIS PAGE INTENTIONALLY LEFT BLANK)

SUPPLEMENTAL SECTION
COMBINING STATEMENTS
AND INDIVIDUAL FUND SCHEDULES

Talawanda School District, Ohio

Non-major Special Revenue Funds:

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than private-purpose trusts or major capital projects) that are legally restricted to expenditure for specified purposes. The description of each Special Revenue Fund follows:

The **Public School Support Fund** accounts for specific local revenue sources generated by the individual school buildings. Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

The **Athletic Fund** accounts for student activity programs which have student participation in the activity, but do not have student management of the programs.

The **Auxiliary Service Fund** accounts for state funds which provide services and materials to pupils attending non-public schools within the boundaries of the School District as provided for in state law. Expenditures are primarily for educational supplies, materials, and testing.

The **Entry Year Teacher Fund** accounts for state funds which are provided for entry-year program.

The **Management Information Systems Fund** accounts for state funds which are provided to assist the School District in implementing a staff, student and financial reporting system as mandated by the Omnibus Education Reform Act of 1989.

The **State Connectivity Fund** accounts for state funds for networking connectivity.

The **Schoolnet Professional Development Fund** accounts for state funds which are provided for staff development in the area of technology.

The **Ohio Reads Grant Fund** accounts for state funds designated for reading programs.

The **Summer School Subsidy Fund** accounts for state funds to provide for summer school instruction. No budget was adopted for this fund in fiscal year 2007.

The **High Schools That Work Fund** accounts for state funds used for instructions.

Talawanda School District, Ohio

Non-major Special Revenue Funds (continued):

The **Miscellaneous State Grants Fund** accounts for state funds which are designated for specific purposes but which are not classified elsewhere. No budget was adopted for this fund in fiscal year 2007.

The **Poverty Based Assistance Fund** accounts for state funds which are designated to assist economically disadvantaged children in the learning process.

The **Title VI-B Fund** accounts for federal funds used to provide full educational opportunities to handicapped children at the preschool, elementary and secondary levels, assist in the training of teachers, supervisors and other specialists in providing educational services to the handicapped.

The **Title I Fund** accounts for federal funds for services provided to meet special educational needs of educationally deprived children.

The **Title VI Fund** accounts for federal funds for programs for the at-risk students, instruction materials to improve the quality of instruction, programs of professional development, and programs to enhance personal excellence of students and student achievement.

The **Drug Free Schools Fund** accounts for federal funds supporting the establishment, operation and improvement of programs for drug abuse prevention, early intervention, rehabilitation referral and education in schools.

The **EHA Preschool Handicapped Fund** accounts for federal funds for programs for preschool handicapped children.

The **Critical Transitions Fund** accounts federal funding for improving ninth grade achievement and retention.

The **Class Size Reduction Fund** accounts for federal funds designed to reduce class size.

The **Miscellaneous Federal Grants Fund** accounts for various grants received from the federal government that are not classified elsewhere.

The **Special Revenue Fund** accounts for various local grants and contributions.

Talawanda School District, Ohio

Non-major Special Revenue Funds (continued):

The **Food Services Fund** accounts for the financial transactions related to the food service operation of the School District.

The **Uniform School Supply Fund** accounts for the purchase and sale of school supplies as adopted by the Board of Education for use in the School District.

Non-major Debt Service Fund:

The **Debt Service Fund** accounts for the accumulation of resources for, and the payment of, general long-term obligation principal, interest, and related costs.

Non-major Capital Projects Funds:

The Capital Projects Funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings, additions to existing school buildings, or for major renovation projects, including equipment purchases:

The **Permanent Improvement Fund** accounts for major improvements or renovations to existing facilities.

The **Building Construction Fund** accounts the activity related to the construction of a new elementary school.

Private-purpose trust funds are used to report trust arrangements under which principal and income benefit individuals, private organizations or other governments.

The **Special Trust Fund** accounts for donations that are received to provide scholarships and awards to students.

Talawanda School District, Ohio

Agency funds are used to account for assets held in a custodial capacity.

The **Student Activities Funds** account for the resources that belong to various student groups in the District. The funds account for sales and other revenue generating activities by student groups which have students involved in the management of the program.

The **Unclaimed Monies Fund** accounts for unclaimed funds from outstanding checks in excess of one year old.

Statistical Section

(Bogan Elementary Groundbreaking)

Statistical Section

This part of Talawanda School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the School District's financial position has changed over time.

Revenue Capacity

These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local revenue source(s), the property tax (and the income tax).

Debt Capacity

These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.

Economic and Demographic Information

These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The School District implemented GASB Statement 34 in fiscal year 2003; schedules presenting government-wide information include information beginning in that fiscal year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax is being phased out beginning in 2006. The listing percentage is 18.75 percent for 2006, 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.

Notes:

Rates were not available in this format for years prior to 2006.

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Residential/Agricultural & Commercial/Industrial & Public Utility Real are expressed at their effective rate.
 General Business and Public Utility Personal are expressed at the full voted rate.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.

(1) Ohio Bond Law sets a limit of 9% for overall debt and 1/10 of 1% for unvoted debt.

Note: The amount of debt presented as subject to the limit should be the balances used to compute the margin as specified by statute, i.e. the gross balances, not amounts that are net of premiums or discounts. On deep discount or capital appreciation bonds, this would be the original issue amount.

Note: The definition of tax valuation for the purpose of calculating the debt margin was modified by H.B. 530, effective 3/30/06, to exclude tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, or personal property owned or leased by a railroad company and used in railroad operations.
