**NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE
FISCAL YEAR ENDED JUNE 30, 2010**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the Schedule) summarizes activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

NOTE C - FOOD DONATION PROGRAM

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the fair value of the commodities received.

NOTE D - MATCHING REQUIREMENTS

Certain Federal programs require that the District contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

NOTE E - MEDICAL ASSISTANCE PROGRAM

The District received \$12,694 for CAFS settlement. This amount relates to settlements for CAFS services provided during prior years.

Auditor of State

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Troy City School District
Miami County
500 North Market Street
Troy, Ohio 45373

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Troy City School District, Miami County, (the School District) as of and for the year ended June 30, 2010, which collectively comprise the School District's basic financial statements and have issued our report thereon dated December 15, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of opining on the effectiveness of the School District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the School District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note certain matters not requiring inclusion in this report that we reported to the School District's management in a separate letter dated December 15, 2010.

We intend this report solely for the information and use of management, the audit committee, Board of Education, and federal awarding agencies and pass-through entities, and others within the School District. We intend it for no one other than these specified parties.

A handwritten signature in cursive script that reads "Mary Taylor".

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Troy City School District
Miami County
500 North Market Street
Troy, Ohio 45373

To the Board of Education:

Compliance

We have audited the compliance of Troy City School District, Miami County, (the School District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of Troy City School District's major federal programs for the year ended June 30, 2010. The summary of auditor's results section of the accompanying schedule of findings identifies the School District's major federal programs. The School District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, the Troy City School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

**Internal Control Over Compliance
(Continued)**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Federal Awards Receipts and Expenditures Schedule

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Troy City School District as of and for the year ended June 30, 2010, and have issued our report thereon dated December 15, 2010. Our audit was performed to form opinions on the financial statements that collectively comprise the School District's basic financial statements taken as a whole. The accompanying federal awards receipts and disbursements schedule provides additional information required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the audit committee, management, Board of Education, others within the entity, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

Auditor of State

Independent Accountant's Report on Applying Agreed-Upon Procedures

Troy City School District
Miami County
500 North Market Street
Troy, Ohio 45373

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedures enumerated below, which were agreed to by the Board, solely to assist the Board in evaluating whether Troy City School District, Miami County (the District) has adopted an anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the Board. Consequently; we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

1. We noted the Board adopted an anti-harassment policy at its meeting on June 24, 2002 and was amended on July 19, 2010.
2. We read the policy, noting it included the following requirements from Ohio Rev. Code Section 3313.666(B):
 - (1) A statement prohibiting harassment, intimidation, or bullying of any student on school property or at school-sponsored events;
 - (2) A definition of harassment, intimidation, or bullying that includes the definition in division (A) of Ohio Rev. Code Section 3313.666;
 - (3) A procedure for reporting prohibited incidents;
 - (4) A requirement that school personnel report prohibited incidents of which they are aware to the school principal or other administrator designated by the principal;
 - (5) A requirement that parents or guardians of any student involved in a prohibited incident be notified and, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232q, as amended, have access to any written reports pertaining to the prohibited incident;
 - (6) A procedure for documenting any prohibited incident that is reported;

One First National Plaza / 130 W. Second St. / Suite 2040 / Dayton, OH 45402
Telephone: (937) 285-6677 (800) 443-9274 Fax: (937) 285-6688
www.auditor.state.oh.us

- (7) A procedure for responding to and investigating any reported incident;
- (8) A strategy for protecting a victim from additional harassment, intimidation, or bullying, and from retaliation following a report;
- (9) A disciplinary procedure for any student guilty of harassment, intimidation, or bullying, which shall not infringe on any student's rights under the first amendment to the Constitution of the United States;
- (10) A requirement that the district administration semiannually provide the president of the district board a written summary of all reported incidents and post the summary on its web site, if the district has a web site, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232q, as amended.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board and is not intended to be and should not be used by anyone other than these specified parties.

ADMINISTRATIVE OFFICES

937-332-6700

937-332-6771 Fax

December 15, 2010

To The Board of Education and Citizens of the
Troy City School District, Miami County, Ohio:

We are pleased to present the first Comprehensive Annual Financial Report (CAFR) of the Troy City School District, Miami County, Ohio (District) for the fiscal year ended June 30, 2010. Responsibility for both the accuracy of the presented data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. This report is prepared in conformance with generally accepted accounting principles (GAAP) as set forth by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources. We believe the enclosed data is fairly presented in all material aspects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. We further believe all disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. This report has been prepared by the Chief Fiscal Officer's Office and includes an opinion from the Auditor of the State of Ohio.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Accountants' Report.

The Comprehensive Annual Financial Report is divided into three sections:

The **Introductory Section** includes a table of contents, this transmittal letter, a list of principal officials, and the district's organizational chart. Also included are the District's major and future initiatives.

The **Financial Section** includes the independent accountants' report on the financial statements, management's discussion and analysis, basic financial statements, notes to the basic financial statements, and the combining statements for non-major funds and schedules that provide detailed information relative to the basic financial statements.

The **Statistical Section** includes selective financial, economic and demographic information, generally presented on a multi-year basis for comparative purposes.

This report includes all funds for which the District is financially accountable based on the criteria of financial accountability set forth in GASB Statement 14. The District is, however, affiliated with the Metropolitan Dayton Educational Cooperative Association and the Southwestern Ohio Educational Purchasing Council, which are jointly governed organizations. These organizations do not meet the

criteria of GASB Statement 14 and, therefore, are not included in the district's financial statements. The District included no component unit reports in the financial statements.

This report will be made available via the World Wide Web at <http://www.troy.k12.oh.us/>.

THE DISTRICT AND ITS FACILITIES

Located in Troy, Ohio USA just 20 miles north of Dayton, the Troy City School District serves a population of approximately 27,335 people in the City of Troy and Concord Township and covers an area of approximately 37 square miles. In addition, it also serves pupils from Monroe, Newton, Staunton, Union and Washington townships.

The District now houses students in one high school, one junior school, six kindergarten to grade five elementary schools, and one grade six elementary school.

Name of Bldg. Address	Grades Housed	Date Building Acquired	Enrollment
Concord Elementary 3145 W. State Route 718	K-5	1919	614
Cookson Elementary 921 Mystic Lane	K-5	1964	382
Forest Elementary 413 E. Canal Street	K-5	1949	294

Troy Memorial Stadium 255 N. Market Street	Stadium	2010	NA
Transportation Center 556 N. Adams Street	Bus Garage	1974	NA
Warehouse 523 E. Water Street	Warehouse	1973	NA

In August 2009, the City of Troy transferred ownership of the Troy Memorial Stadium to the District, subject to the terms and conditions included in the deed transfer. The transfer allows the City use of the premises for special events, such as the Troy Strawberry Festival, the Fourth of July Celebration and other community functions. While the City has owned the Stadium since being built in the 1950's, the District has been the primary user of this asset and paid for all of its on-going operating costs through a lease. In the past capital improvements have been funded by both the City and the District. Transferring ownership will not result in additional costs to the taxpayers, the City or the District but will help clarify ownership responsibility.

ECONOMIC CONDITION AND OUTLOOK

The City of Troy was selected as the county seat for Miami County in 1807. Troy is a very friendly small city where farming and industry go hand-in-hand. Employment opportunities exist in the agriculture, manufacturing, high technology, and healthcare industries. Troy is ideally situated along I-75 ten minutes north of the "Freedom Veterans Crossroads" interchange of Interstates I-75 and I-70.

The economic outlook for the next few years is very uncertain. The past two years have been characterized by high unemployment, major corporate bankruptcies, falling home prices, and a credit crisis. At the end of calendar year 2008, the nation officially entered a recession which can simply be defined as two consecutive quarters of negative growth in Gross Domestic Product (GDP). The economic downturn continued into 2009 and 2010. A combination of the recession and tax reform enacted in 2005 has caused state income taxes, sales taxes and investment revenues to suffer the sharpest decline in more than a half century. The five-year tax reform plan is phased in from FY 2006 through FY 2010. Personal income tax rates were to be reduced by 21% with five annual rate cuts of 4.2% each year. Due to the sluggish economy the fifth annual rate cut has been delayed. The state and regional economy continued to show slow progress in emerging from the national recession over the summer of 2010. Recent tax revenues performed better than estimated and the unemployment rate continued to decline slowly. The latest economic indicators continue to give mixed results making it difficult to project recovery timing.

Long-term Financial Planning

As required by Ohio law, the District approved a five-year financial forecast of operational revenues and expenditures along with assumptions in October 2010. Expenditures are projected to exceed revenues for each of the forecasted fiscal years. However, a solid level of general fund unreserved fund balance is expected to offset the excesses for the first three years of the forecast. Given the uncertainty of future state budgets, as well as local, state and national economic factors, years beyond fiscal year 2012 may deviate significantly from the forecast. Additional revenue and/or expenditure reductions will need to be considered in years where the unreserved fund balance is negative.

ORGANIZATION OF THE SCHOOL DISTRICT

The Board of Education is comprised of five members who are elected for overlapping four-year terms. The Board members on June 30, 2010 were as follows:

Board Member	Term Expires	Years as a Member	Profession
Joyce A. Reives President	12/31/2013	5	Vice President
Stephen G. Lucas Vice President	12/31/2013	9	Human Resource Manager
George E. Dearth	12/31/2011	11	Retired Teacher
Douglas D. Trostle	12/31/2011	11	Manufacturers Representative
*Vacant	12/31/2013	-	NA

*Thomas Yenney was appointed on July 23, 2010 to fill the seat vacated by the resignation, effective June 24, 2010, of Reverend James C. Wilson II due to him no longer being a resident of the school district.

Effective August 1, 2010, the Troy City Board of Education unanimously appointed Eric Herman Interim Superintendent. He replaced Tom Dunn who resigned after serving as Superintendent since 2005 to assume a similar position at Miami County ESC. Mr. Herman has worked in the education field for over 30 years with the last 12 years being with Troy. During his time in Troy, Eric has been a building principal at Hook Elementary, Troy Junior High, and Troy High School. Most recently, he served as Assistant Superintendent and prior to that as Director of Curriculum and Instruction and as Director of Technology. Mr. Herman received his administrative certification from Wright State University.

The Treasurer/CFO of the District is Craig A. Jones. He also has management responsibility for the District's buildings and grounds. Mr. Jones became treasurer of the District in July, 2010 after serving Lakota Local Schools in Butler County for over 9 years, both as Assistant Treasurer and Treasurer/CFO. He replaced Don Pence who retired from the district after eighteen years of dedicated service. Mr. Jones holds a Bachelor of Science degree in Business Administration, with a dual major in accounting and finance, from Ohio Northern University. He is a Certified Public Finance Officer as well as a Certified Government Financial Manager. Mr. Jones has been in school finance for over 25 years. Prior to joining Lakota, he served as Assistant Treasurer for Dayton City Schools and Treasurer/CFO for Jefferson Township Local Schools. He has produced a Comprehensive Annual Financial Report (CAFR) for the school districts which he has served since 1992.

Duties and responsibilities of the Board of Education are found in the laws governing public education in Ohio. The Board of Education directly employs the Superintendent and Treasurer/CFO and serves as the legislative body of the District. Board duties include:

- Informing the public concerning the progress and needs of the schools, and to solicit and weigh public opinion as it affects the schools.
- Considering and passing upon the recommendations of the Superintendent and Treasurer/CFO in all matters of policy, appointment or dismissal of employees, salary schedules or other

- personnel regulations, course of study, selection of textbooks, or other matters pertaining to the welfare of schools.
- Exercising its taxing power to provide funds for the operation of the District.
- Adopting an annual tax budget and appropriation measure.
- Approval of a five-year financial forecast as a tool in long-range planning.

The Superintendent is the chief executive officer of the School District and is responsible for administering policies adopted by the Board of Education. The Superintendent is expected to provide leadership in all phases of policy formulation and is the chief advisor to the Board on all aspects of the educational program and total operation of the School District.

The Treasurer serves as the chief fiscal officer of the School District and, with the president, executes all conveyances made by the Board of Education.

EMPLOYEE RELATIONS

The District currently has over 500 full-time and part-time employees.

The District's teachers are represented for collective bargaining purposes by the Troy City Education Association (TCEA), which is a labor organization affiliated with the Ohio Education Association. The District has a two-year collective bargaining agreement with TCEA which expires July 31, 2012.

The District's support staff is represented by the Troy City Support Staff Association (TCSSA), which is a labor organization affiliated with the Ohio Education Association. The District has a two year collective bargaining agreement which expires June 30, 2012.

The Board of Education employs all certified and classified employees only upon the nomination of the Superintendent.

SERVICES PROVIDED

The District offers regular instructional programs daily to students in grades K-12. About 170 students participated in the specific trades through the Upper Valley joint vocational program. Nearly 500 students receive special services, due to physical or mental handicapping conditions. The fiscal year 2011 October enrollment is 4,672.

The District provides a wide variety of education and support services, as mandated by the Ohio Revised Code or board directives.

The accounting department processes purchase orders, handles invoices and issues checks for goods and/or services for the District. Those goods and services include utilities, computers, software, instructional materials, maintenance and tuition.

The payroll department issues checks to employees entitled to remuneration for services rendered and for payroll-associated costs such as taxes, retirement and insurance.

In addition to accounting and payroll support services, the District also provides guidance, psychological, transportation, and limited health services free of charge to its students. The guidance services are designed to help students match their natural skills with vocational and/or academic programs to help them achieve their full potential in life. Psychological services include the testing and identification of students for special education programs.

MAJOR CURRENT AND FUTURE INITIATIVES

The 2009-2010 school year was one of continued transition and progress for Troy schools. For the second year in a row, Troy's annual report card has received an "EXCELLENT" rating from the Ohio Department of Education (ODE). The district earned 25 out of 26 indicators. Additionally, six out of nine district buildings were individually deemed "EXCELLENT".

During the fiscal year Troy City Schools developed and implemented an energy savings program. In our ongoing efforts to control costs and be good stewards of public tax dollars the district was able to reduce energy costs without cutting programs or laying off staff. A HB 264 energy conservation measure proposal was developed, submitted and approved by the Ohio School Facilities Commission (OSFC). The *goal* of the project was to make improvements to the educational environment that result in more comfortable classrooms which save energy, operational and maintenance costs.

Work on the project was completed during the summer of 2010. The scope of work included HVAC equipment, occupancy controls and lighting retrofit improvements. Bonds were issued to finance the improvements. The energy, operational and maintenance savings generated from the improvements will be used to repay the debt over a period not to exceed 15 years. Using funding from the American Recovery and Reinvestment Act (ARRA) of 2009 the district issued Qualified School Construction Bonds (QSCB) at 0% interest. Further savings were achieved by participation in the business rebate program offered by the Dayton Power and Light Company.

In order for Troy to successfully meet the needs of each child, we will incorporate scientifically-based research programs across all schools and departments. It is our immediate goal to maintain Ohio's Excellent report card rating. In addition, it is our long-range goal to integrate Response To Intervention (RTI) at all grade levels.

Future initiatives for the 2011 school year include beginning implementation of the Race to the Top (RttT) transformation plan designed to accelerate student success throughout the state over the next four years. Ohio's RttT strategy demonstrates a commitment to bold and innovative education reforms. The areas involved in the plan are training in the new academic standards, staff development for new assessments, defining an instructional improvement system, use of data, value added/growth measures, and teacher evaluations. Troy will be emphasizing staff training in value added information to improve instruction as well as staff development in research based instructional techniques aimed at improving our Average Yearly Progress (AYP) scores.

By 2014, Ohio's Race to the Top Plan will...

1. Increase high school graduation rates by 0.5% annually
2. Reduce graduation rate gaps by 50% between underrepresented and majority students
3. Reduce the performance gaps by 50% on national and statewide assessments
4. Reduce the gap between Ohio and the best-performing states by 50% on NAEP reading and mathematics
5. Double the projected increase in college enrollment of students ages 19 and younger

In addition, strategies are being developed for a ballot issue in the spring of 2011 for renewal of a 5.8 mill operating levy. This along with ongoing cost reduction efforts are designed to provide for the long term sustainability of our excellent educational programs.

RELEVANT FINANCIAL POLICIES

In July, 2009 after a series of three seven-day temporary budgets, the State of Ohio adopted Amended Substitute House Bill 1 (HB1), the FY 2010-2011 biennium budget bill. An entirely new method for funding K-12 education, known as the Ohio Evidence Based Model (OEBM), is a major part of the budget bill. The OEBM, which replaces the long-standing foundation formula that was declared unconstitutional by the Ohio Supreme Court, will be phased-in over 10 years. The OEBM provides funding based upon a series of education components rather than the traditional per pupil base cost amount from the old foundation funding formula. The budget included use of Federal economic stimulus funds for state fiscal stabilization purposes which are intended to help states maintain existing programs during the economic downturn. The stimulus funds are part of the American Recovery and Reinvestment Act (ARRA) introduced by President Barack Obama. The recipients and uses of ARRA funds must be transparent to the public, and the public benefits of these funds must be reported clearly, accurately, and in a timely manner. State funding levels beyond FY 2011 are unknown. This uncertainty could have a major impact on our instructional and operational programs. The need for additional revenue and or expenditure reductions will need to be monitored closely.

FINANCIAL INFORMATION

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records for general governmental operations are maintained on a budgetary basis system of accounting as prescribed by State statute. Cash basis accounting differs from generally accepted accounting principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB).

INTERNAL ACCOUNTING AND BUDGETARY CONTROL

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The District utilizes a fully automated accounting system as well as an automated system of control for fixed assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted within three months.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level. All purchase order requests must be approved by the individual program managers and certified by the Treasurer; necessary funds are then encumbered and purchase orders are released to vendors.

The accounting system used by the District provides financial reports, which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. In addition to the financial statements retained in the Treasurer's Office, each program manager can monitor their budgets by running interim financial reports.

As an additional safeguard, a blanket bond covers all employees involved with receiving and depositing funds and a separate, higher bond covers certain individuals in policy-making roles.

The basis of accounting and the various funds utilized by the District are fully described in the notes to the basic financial statements. Additional information on the District's budgetary accounts can also be found in the notes to the basic financial statements.

FINANCIAL CONDITION

The District has prepared financial statements following GASB Statement 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments." GASB 34 creates new basic financial statements for reporting on the school district's financial activities as follows:

Government-wide financial statements. These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

Fund financial statements. These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparisons. These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

INDEPENDENT AUDIT

Provisions of State statute require that the District's financial statements be subjected to an annual examination by an independent auditor. The unqualified opinion rendered by Mary Taylor, Ohio Auditor of State on the District's basic financial statements, combining statements and individual fund schedules, is included in the financial section of this Comprehensive Annual Financial Report. Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all units of local education agencies in Ohio. The District adopted and has been in conformance with that system effective with its annual financial report since the 1992 fiscal year.

AWARDS

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement to District's that meet its program standards and criteria.

The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report conforms to the Certificate of Achievement program requirements, and we are submitting it to the GFOA.

ASBO Certificate

The Association of School Business Officials International (ASBO) awards a Certificate of Excellence in Financial Reporting to school districts that publish Comprehensive Annual Financial Reports which substantially conform to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. The award is granted only after an intensive review of the financial report by an expert panel of certified public accountants and practicing school business officials.

The District believes that the current report which will be submitted to ASBO for review will conform to ASBO's principles and standards.

ACKNOWLEDGEMENT

The preparation of the 2010 Comprehensive Annual Financial Report of the Troy City School District was made possible by the combined efforts of the District's Treasurer's Office and Clark Schaefer Hackett & Company. The publication of this Comprehensive Annual Financial Report for the District is a major step in reinforcing the accountability and transparency of the District to the taxpayers of the community.

In closing, without the leadership and support of the Board of Education, preparation of this report would not have been possible.

Respectfully submitted,

Craig A. Jones
Treasurer/CFO

INDEPENDENT ACCOUNTANTS' REPORT

Troy City School District
Miami County
500 North Market Street
Troy, Ohio 45373

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Troy City School District, Miami County, (the School District), as of and for the year ended June 30, 2010, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Troy City School District, Miami County, as of June 30, 2010, and the respective changes in financial position and where applicable, cash flows, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2010, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require this presentation to include Management's discussion and analysis and required budgetary comparison schedule as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the School District's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information provides additional analysis and are not a required part of the basic financial statements. The financial section's combining statements, individual fund statements and schedules are management's responsibility, and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. These statements and schedules were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Mary Taylor, CPA
Auditor of State

December 15, 2010

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2010
Unaudited

The discussion and analysis of the Troy City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2010 are as follows:

Overall:

- Total net assets decreased by \$216,605, which represents a 1.16% decrease from fiscal year 2009.
- Total assets of governmental activities increased by \$1,139,968, attributed primarily to an increase in cash and investments and taxes receivable.
- General revenues accounted for \$41.9 million or 82.90% of total revenue. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$8.6 million or 17.10% of total revenues of \$50.5 million.
- Of the School District's \$50.7 million in expenses, only \$8.6 million were offset by program specific charges for services, grants or contributions. General revenues (primarily grants and entitlements, income taxes and property taxes) were used to cover the net expense of \$42.1 million.
- The General Fund had \$40.6 million in revenues and \$40.0 million in expenditures representing 80.08% and 77.94% of the total governmental funds revenues and expenditures, respectively.
- The School District's only major fund is the General Fund. The General Fund's balance increased \$0.5 million from the prior year.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Troy City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregated view of the School District's finances and a longer-term view of those statements. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of Troy City School District, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains a large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2010?" The Statement of Net Assets and the Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities. The School District does not have any business-type activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds, and therefore only the General Fund is presented separate from the other governmental funds.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

The School District as a Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net assets for 2010 and 2009:

TABLE 1
NET ASSETS, JUNE 30

	2010	2009
ASSETS:		
Current and Other Assets	\$ 33,289,870	32,086,483
Capital Assets	29,294,406	29,357,825
Total Assets	62,584,276	61,444,308
 LIABILITIES		
Current Liabilities	20,098,826	19,327,959
Noncurrent Liabilities	23,999,311	23,413,605
Total Liabilities	44,098,137	42,741,564
 NET ASSETS:		
Invested in Capital Assets, Net of Debt	9,138,324	9,593,036
Restricted	1,266,332	1,186,550
Unrestricted	8,081,483	7,923,158
Total Net Assets	\$ 18,486,139	18,702,744

The amount by which the School District's assets exceeded its liabilities is called net assets. As of June 30, 2010, the School District's net assets were \$18.5 million. Of that amount, approximately \$9.1 million was invested in capital assets, net of debt related to those assets. Another \$1.3 million was subject to external restrictions upon its use. The remaining \$8.1 million was unrestricted and available for future use as directed by the Board of Education and the School District's Administration.

Unaudited

Governmental Activities

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. Property taxes made up 31.25% of revenues for governmental activities for the Troy City School District for fiscal year 2010. The School District is extremely dependent upon intergovernmental revenues provided by the State of Ohio and the federal government; approximately 44.80% of the School District's total revenue was received from intergovernmental sources during fiscal year 2010.

Despite not having sought new operating funds through a property tax levy in the past six years, the School District has been able to regain stable financial footing after struggling through financial difficulties in the late 1990's. Careful management of expenses has allowed the School District to maintain a stable fund balance.

Instruction comprises 63.18% of the School District's expenses for fiscal year 2010. Support services expenses make up 27.70% of the expenses.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted state entitlements.

The School District's Funds

On the modified accrual basis of accounting, the School District's major governmental fund, the General Fund, had an ending fund balance totaling \$11.5 million, or 86.86% of the total fund balance for all governmental funds.

The School District's primary operating fund, the General Fund, ended the year with revenues exceeding expenditures by \$0.5 million. The unreserved, undesignated ending fund balance of the General Fund (\$9.7 million) represents approximately 24.32% of the total expenditures reported in the General Fund. The ending fund balance of the general fund increased \$0.5 million over the total balance reported at June 30, 2009 and the unreserved, undesignated fund balance increased by \$0.4 million due to the District's management of expenses.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

For the General Fund, budget basis revenue was \$40.7 million as compared to the original budget estimates of \$41.1 million. This difference included tax revenues initially budgeted at \$22.8 million with budget basis revenues coming in at \$22.4 million. Also included are tuition and fees revenue budgeted at \$.8 million with revenues coming in at \$1.1 million.

Total actual expenditures on the budget basis (cash outlays plus encumbrances) were \$40.5 million, \$125,964 below budget basis actual revenue, and \$2.1 million below final budget estimates.

As the budget for the General Fund is amended throughout the fiscal year for unanticipated revenues and expenditures, the final amended budget amounts approximate the actual budgetary results realized by the School District.

Capital Assets

At the end of fiscal year 2010, the School District had \$29.3 million invested in land, buildings, furniture and equipment, and vehicles in governmental activities.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2010
Unaudited

Table 4 shows fiscal year 2010 balances compared to 2009:

	2010	2009
Land	\$ 530,131	530,131
Buildings	30,213,886	30,198,833
Improvements	12,754,178	11,164,758
Furniture and Equipment	4,420,651	4,311,198
Textbooks	1,052,936	1,518,013
Vehicles	2,680,199	2,647,033
Less: Accumulated Depreciation	(22,357,575)	(21,012,141)
	\$ 29,294,406	29,357,825

Overall, net capital assets decreased approximately \$63,419 from fiscal year 2009. The decrease in capital assets results from the amount of depreciation during the year and asset disposals being a larger amount than the amount of capital outlay.

During fiscal year 2010, primary capital additions included various improvements to buildings totaling \$1.6 million and various other textbooks and equipment. Current year depreciation expense totaled \$1.83 million.

Costs associated with repair and maintenance of the School District's facilities and other assets that do not extend the useful life of the capitalized item is included within the operation and maintenance of plant function.

For more detailed disclosures regarding the School District's capital assets readers should refer to Note 7 to the basic financial statements.

Capital Lease/Debt Administration

At June 30, 2010, the School District had three separate debt issues. They had two separate capital leases with an outstanding balance of \$42,360, all of which is due within one year. This lease consists of equipment that was capitalized as capital assets within the governmental activities. Principal payments for fiscal year 2009 totaled \$127,438.

The second debt issue of the School District that was outstanding was the School Improvement Bonds in the amount of \$19,310,565. These bonds were issued during 2005 and were used to finance the cost of improvements, renovations, additions, and site improvements to Concord Elementary School, Forest Elementary School, Van Cleve Elementary School, and Troy High School. Principal payments made for the fiscal year ending June 30, 2010 were \$565,000 and \$595,000 of outstanding principal is due within one year.

The third debt issue was issued on September 24, 2009 for an original amount of \$1,103,964 for the purpose of upgrading select HVAC and lighting in the District to reduce the cost of energy consumption. Principal payments made during the fiscal year were \$20,232 resulting in an outstanding balance of \$1,083,732 at year end.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2010

Total Net Change in Fund Balances - Total Governmental Funds	\$ 484,061
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay expense exceeded depreciation in the current period.	
Capital Asset Additions	1,865,502
Current Year Depreciation	(1,829,117)
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the loss on the disposal of fixed assets.	
Loss on the disposal of capital assets	(99,804)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
	(258,275)
Repayment of bond and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.	
	712,670
Issuance of debt is an other financing source in the governmental funds, but the revenue increases long-term liabilities in the statement of net assets	
	(1,103,964)
Some expenses reported in the statement of activities, such as compensated absences and accrued interest, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Compensated Absences	(124,184)
Accrued Interest Payable	1,648
Interest Accrued on Capital Appreciation Bonds	(70,228)
The Internal Service fund is used by management to charge the cost of providing medical insurance to the individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenue is eliminated. The net revenue of the internal service fund is allocated among the governmental activities.

Net Assets, End of Year	\$	325,477

See accompanying notes to the basic financial statements.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 1 – DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Troy City School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution of the State of Ohio. The School District operates under a locally elected, five-member Board of Education (Board) to provide educational and other services as required and permitted by the laws and regulations of the State of Ohio and United States of America. The School District is not a part of, or under the control of, the City of Troy, Ohio.

Reporting Entity: A reporting entity is comprised of the primary government, component units and other organizations that are included to insure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Troy City School District, this includes general operations, food service, student guidance, extracurricular activities, educational media, care and upkeep of grounds and buildings, preschool and student related activities of the School District. The following activities are included within the reporting entity:

Hayner Cultural Center: About fifty years ago, title to the real and personal property which presently comprises the bulk of Hayner Cultural Center passed from the estate of Mary Jane Hayner to the School District under Mrs. Hayner's will. This facility is now being operated as a fine arts center to provide fine arts exhibits, educational opportunities, and meeting facilities for the citizens of Troy and its surrounding communities. The School District has provided for a Governing Board whose responsibility in part is to preserve, maintain, and operate the Center. The School District has the authority to reject the recommendations of the Governing Board. Likewise, there is a financial benefit and financial burden relationship between the School District and the Center. Accordingly, the Hayner Cultural Center's financial statements are included within the special revenue funds.

Parochial Schools: Within the School District boundaries are four parochial schools, which are operated as private schools. Current State legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the School District, as directed by the parochial schools. The activity of these State monies is reflected in a special revenue fund for financial reporting purposes.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has assumed responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the levying of taxes or the issuance of debt for the organization. The School District has no component units.

The School District is associated with two jointly governed organizations. These organizations are presented in Note 15 to the basic financial statements. These organizations are:

Jointly Governed Organizations:

Southwestern Ohio Educational Purchasing Council
Metropolitan Dayton Educational Cooperative Association

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Troy City School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its government-wide and proprietary activities provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund was eliminated to avoid the "doubling up" of revenues and expenses.

The statement of net assets presents the financial condition of the governmental activities of the School District at year-end. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the year, the School District segregated transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The General Fund is the only major fund of the School District:

General Fund – The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The general fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the School District account for grants and other resources and capital projects of the School District whose uses are restricted to a particular purpose.

Proprietary Fund

The proprietary fund focuses on the determination of the changes in net assets, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

Internal Service Fund – The internal service fund accounts for the financing of services provided by one department or agency to other department or agencies of the School District on a cost reimbursement basis. The School District has one internal service fund, which accounts for the self-insurance program which provides medical benefits to employees.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District has various funds established to provide scholarships to its students that are classified as private-purpose trust funds. Funds used to account for the activity of the numerous student-managed activities within the School District are classified as agency funds.

C. Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the Statement of Net Assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. “Measurable” means the amount of the transaction can be determined, and “available” means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within ninety days of fiscal year end for all revenues except property tax. For property tax revenue, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, grants, investment earnings, tuition, and student fees.

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2010, but which were levied to finance fiscal year 2011 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the operating statement as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budget Data

All funds, other than agency funds and the Auxiliary Services special revenue fund, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The Board has established the legal level of control at the function level within the individual funds, with the exception of the grant funds, which are at the special cost center level.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue, are identified by the School District. The amounts reported as the original budgeted amounts in the budgetary statement reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statement reflect the amounts in the final amended certificate issued during fiscal year 2010.

The appropriation resolution is subject to amendment by the Board throughout the school year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

F. Pooled Cash and Investments

To improve cash management, cash received by the School District is pooled. Monies for all funds, including proprietary and fiduciary funds, are maintained in this pool. Individual fund integrity is maintained through the School District's records. Each fund's interest in the pool is presented as "pooled cash and investments" on the financial statements.

During fiscal year 2010, investments included federal government agency bonds, money market funds, STAROhio, negotiable certificates of deposit and non-negotiable certificates of deposit.

Except for nonparticipating investment contracts, investments are reported at fair value that is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements are reported at cost.

The School District has invested funds in the State Treasury Assets Reserve of Ohio (STAROhio) during fiscal year 2010. STAROhio is an investment pool managed by the State Treasurer's Office that allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for on June 30, 2010.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2010 amounted to \$62,886, which includes the general fund allocation as well as the allocations of all funds not specified in the Board's resolution. Interest was also credited for the year ended June 30, 2010 to the Hayner Cultural Fund and the Auxiliary Services Fund in the amount of \$185 and \$905, respectively.

For purposes of the statement of cash flows and for presentation of the balance sheet, investments of the cash management pool are reported as pooled cash and investments.

G. Materials and Supplies Inventory

On government-wide financial statements, inventories are presented at the lower cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption, donated food, and purchased food. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Reported material and supplies inventory is equally offset by a fund balance reserve in the governmental funds, which indicates that it does not constitute available expendable resources even though it is a component of net current assets.

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2010, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure is reported in the year in which services are consumed.

I. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

J. Capital Assets and Depreciation

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported within the governmental activities on the government-wide statement of net assets but are not reported in the fund statements.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements throughout the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of two thousand five hundred dollars. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives.

Description	Estimated Lives
Buildings	40 years
Improvements	10 – 40 years
Furniture and Equipment	5 – 20 years
Textbooks	7 years
Vehicles	7 – 12 years

K. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures or expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources and uses in governmental funds. Repayments from funds responsible for particular expenditures or expenses to the funds that initially paid for them are not presented on the financial statement.

L. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave is accrued using the vesting method, whereby the liability is recorded on the basis of leave accumulated by employees eligible to receive termination payments as of the balance sheet date and on leave balances accumulated by other employees expected to become eligible in the future to receive payments.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Long-term notes, general obligation bonds, and capital leases are recognized as a liability on the governmental fund financial statements when due.

N. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments. The School District did not have any net assets restricted by enabling legislation.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

O. Fund Balance Reserves

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity that is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, materials and supplies inventory, prepaid items, and property taxes.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute.

P. Compounded Interest on Capital Appreciation Bonds

Capital appreciation bonds are accreted each year for the compounded interest accrued during the year. The compounded interest on the capital appreciation bonds are presented as an addition to the face amount of the bonds payable.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 3 – ACCOUNTABILITY

The following funds have fund equity deficits as of June 30, 2010:

		<u>Deficit Fund Equity</u>
Special Revenue Funds:		
Food Service Fund	\$	171,808
Miscellaneous State Grants	\$	3,943
IDEA B	\$	51,933
Title I	\$	33,490
Drug Free	\$	3,114
Reducing Class Size	\$	1,747

The deficits in the special revenue funds were created by the application of generally accepted accounting principles. The general fund is liable for any deficit in these funds and provides operating transfers when cash is required, not when accruals occur.

NOTE 4 – DEPOSITS AND INVESTMENTS

State statutes require the classification of monies held by the School District into three categories.

Active Monies – Those monies required to be kept in “cash” or “near-cash” statuses for the immediate use of the district. Such monies must be maintained either as cash in the treasury, in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive Monies – Those monies not required for use within the current five-year period of designation of depositories. Inactive monies may be deposited or invested as certificate of deposit maturing no later than the end of the current period of designation of depositories, or as savings or deposit accounts including, but not limited to, passbook accounts.

Interim Monies – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested in legal securities (see Note 2F).

Deposits

Custodial credit risk is the risk that in the event of bank failure, the School District’s deposits may not be returned to it. Protection of the School District’s deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. By Ohio law, financial institutions must collateralize all public deposits. The face value of the pooled collateral must equal at least 105 percent of public funds on deposit with that specific institution. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)

At year end, the carrying amount of the School District’s deposits was \$4,007,205 and the bank balance was \$4,605,450. Of the bank balance, \$412,074 was covered by federal depository insurance and \$4,193,376 was uninsured. The uninsured bank balance was collateralized with securities held by the pledging institution’s trust department but not in the School District’s name.

Investments

Investments are reported at fair value. As of June 30, 2010, the School District had the following investments:

	Fair Value	Maturity (in years)		Percent of Total Portfolio	Credit Rating
		less than 1	1-2		
FHLB	3,319,343	3,029,485	289,858	32.39%	AAA
FHLMC	3,369,701	2,817,388	552,313	32.89%	AAA
FNMA	1,217,249	1,217,249	-	11.88%	AAA
Federal Farm Credit	646,774	646,774	-	6.31%	AAA
US Treasury N/B	181,258	-	181,258	1.77%	N/A
Money Market	369,173	369,173	-	3.60%	AAAm
STAROhio	1,143,816	1,143,816	-	11.16%	AAAm
Total Investments	\$ 10,247,314	9,223,885	1,023,429		

The School District’s investment policy permits the purchase of any security specifically authorized by the Ohio Revised Code and includes the following:

Interest Rate Risk – An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Ohio Revised Code §135.14(B)(7)(a) limits commercial paper to those assigned the highest credit rating by two nationally recognized rating services.

Concentration of Credit Risk – The School District should normally seek to diversify its holdings of other investments by avoiding concentrations of specific issuers.

NOTE 5 – PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 5 – PROPERTY TAXES (Continued)

Property taxes include amounts levied against all real, public utility and tangible personal property located in the School District. Property tax revenue received during calendar 2010 for real and public utility property taxes represents collections of calendar 2009 taxes. Real property tax revenue received in calendar year 2010 are levied after April 1, 2009, on the assessed value as of January 1, 2009, the lien date. Assessed values are established by State law at thirty-five percent of appraised market value.

Public utility property tax revenue received in calendar year 2010 represents collections of calendar year 2009 taxes. Public utility real and tangible personal property taxes received in calendar year 2010 became a public lien December 31, 2008, are levied after April 1, 2009, and are collected in 2010 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property is assessed at varying percentages of value.

Tangible personal property tax revenue received during calendar year 2010 (other than public utility property) represents the collection of calendar year 2010 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, and furniture and fixtures is no longer levied or collected. The October 2008 tangible personal property tax settlement was the last property tax settlement for general personal property taxes. Tangible personal property taxes received from telephone companies in calendar year 2010 were levied after October 1, 2009, on the value as of December 31, 2009. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

The assessed values upon which fiscal year 2010 taxes were collected are:

	<u>2010 First Half Collections</u>		<u>2009 Second Half Collections</u>	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/Residential and Other Real Estate	\$ 646,365,210	97.54%	637,388,880	97.48%
Public Utility	<u>16,286,840</u>	2.46%	<u>16,482,000</u>	2.52%
Total Assessed Value	\$ <u>662,652,050</u>	<u>100.00%</u>	<u>653,870,880</u>	<u>100.00%</u>
Tax rate per \$1,000 of assessed valuation	<u>\$52.28</u>		<u>\$52.09</u>	

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 5 – PROPERTY TAXES (Continued)

The School District receives property taxes from Miami County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2010, are available to finance fiscal year 2010 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes that became measurable as of June 30, 2010. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. For the governmental fund financial statements, the receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations.

The amount available as an advance was recognized as revenue. On the Statement of Activities, the delinquent taxes that were levied in previous years are recognized as revenue.

The amount available as an advance at June 30, 2010, was \$1,358,757, \$32,937, \$132,944 and \$60,369 in the General, Hayner, Debt Service, and Capital Improvement funds, respectively.

NOTE 6 – RECEIVABLES

Receivables at June 30, 2010, consisted of current and delinquent property taxes, accounts (rent and student fees), intergovernmental grants, interest and interfund transactions. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. A summary of the principal items of intergovernmental receivables follows:

<u>Governmental Activities:</u>	<u>Amount</u>
Auxiliary Services	\$ 44,856
Title II - D	5,382
Title III	12,429

Operation of Non-Instructional Services	27,526
Extracurricular Activities	6,123
	<u>1,223,228</u>
Unallocated Depreciation	605,889
Total Depreciation Expense	<u>\$ 1,829,117</u>

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 7 – CAPITAL ASSETS (Continued)

Unallocated depreciation is depreciation of the individual school buildings throughout the District that essentially serve all functions/programs, and therefore is not included as a direct expense of any function or program but disclosed as a separate expense.

NOTE 8 – RISK MANAGEMENT

A. Property and Liability

The School District covers the remainder of its risk (property, liability, etc.) through commercial insurance. There were no significant changes in coverage’s, retentions or limits during the fiscal year. Settled claims have not exceeded the commercial coverage’s in any of the previous three years.

B. Health Insurance

The District provides health care coverage for its employees and is self-insured up to a stop loss limit of \$75,000 per employee for the cost of providing this coverage. This activity is accounted for in the General, Special Revenue, and Proprietary Funds. Paid claims are recorded as an expenditure/expense in the respective funds based on a per employee charge. For reporting purposes, this activity has been reclassified to the Employee Health Insurance Fund within the Internal Service Fund.

Expenses for claims are recorded as other expenditures/expenses when it is probable that an asset has been impaired or a liability has been incurred and the amount of loss can be reasonably estimated. The basis for estimating the liability for unpaid claims is based on past experience and large outstanding balances. The liability at June 30, 2010, is not discounted. An actuary was used in determining its liability. A summary of changes in self-insured claims for the year ended June 30, 2010, follows:

<u>Year</u>	<u>Balance at Beginning of Year</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Balance at End of Year</u>
2009	\$ 784,163	5,242,669	(5,235,990)	790,842
2010	\$ 790,842	4,418,883	(4,623,724)	586,001

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 9 – DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746, by calling (800) 878-5853 or by visiting the SERS website at ohsers.org.

Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2010, 12.78 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2010, 2009 and 2008 were \$854,982, \$564,300 and \$521,723, respectively; 34% has been contributed for fiscal year 2010 and 100% for fiscal years 2009 and 2008.

B. State Teachers Retirement System

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371, by calling (614) 227-4090, or by visiting the STRS Ohio web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment.

The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 9 – DEFINED BENEFIT PENSION PLANS (Continued)

A DB or Combined Plan member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2010, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2010, 2009, and 2008, were \$2,512,230, \$2,535,952 and \$2,425,830, respectively; 83% has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Retirement System. As of June 30, 2010, three members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

NOTE 10 – POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

The District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System (SERS) for non certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by SERS based on authority granted by State statute. The financial reports of both plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746, by calling (800) 878-5853 or by visiting the SERS website at ohsers.org.

State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For 2010, .46 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning

TROY CITY SCHOOL DISTRICT

For the Fiscal Year Ended June 30, 2010

NOTE 10 – POSTEMPLOYMENT BENEFITS (Continued)

less than an actuarially determined amount; for 2010, this amount was \$35,800.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care for the fiscal years ended June 30, 2010, 2009 and 2008 were \$123,476, \$350,952 and \$290,941, respectively; 34 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2010, this actuarially required allocation was .76 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2010, 2009 and 2008 were \$50,844, \$45,987 and \$41,243, respectively; 34 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

B. State Teachers Retirement System

The District contributes to the cost-sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371, by calling (614) 227-4090, or by visiting the STRS Ohio web site at www.strsoh.org.

Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2010, STRS Ohio allocated employer contributions equal to one percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for Health care for the fiscal years ended June 30, 2010, 2009 and 2008 were \$193,248, \$195,073 and \$186,602, respectively; 83 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

NOTE 11 – OTHER EMPLOYEE BENEFITS

A. Compensated Absences

Administrators and classified staff who work twelve-month contracts are granted vacation leave. The leave amount is based on length of service and position. Accrued vacation leave may, in some cases, be carried over from one contract year to another, for up to three years. The School District accrues vacation leave benefits as earned.

District employees earn sick leave at fifteen days per year. Upon retirement or termination an employee is paid 25% of the accrued sick leave days, not to exceed a total of 50 days' severance pay. Sick leave benefits are accrued as a liability using the vesting method.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 12 – CAPITALIZED LEASES – LESSEE DISCLOSURE

The Troy City School District entered into a capital lease for equipment. This lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments are made from the General Fund. Amortization applicable to assets acquired through capital lease arrangements is included with depreciation for financial statement presentation.

Capital assets acquired by lease have been capitalized in the statement of net assets for governmental activities in the amount of \$750,038, which is equal to the present value of the minimum lease payments at the time of acquisition. A corresponding liability was split between long-term liabilities due within a year and long-term liabilities due within more than one year on the statement of net assets for governmental activities. Principal payments in fiscal year 2010 totaled \$127,438. Capital lease obligations will be paid from the General Fund.

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the minimum lease payments as of June 30, 2010.

Year	Amount
2011	42,895
Less: Amount representing interest	(535)
Total Present value of minimum lease payments	\$ <u>42,360</u>

TROY CITY SCHOOL DISTRICT

NOTE 13 – LONG-TERM OBLIGATIONS

Changes in long-term obligations of the School District during fiscal year 2010 were as follows:

	Amount Outstanding <u>June 30, 2009</u>	<u>Increase</u>	<u>Decrease</u>	Amount Outstanding <u>June 30, 2010</u>	Amount Due Within <u>One Year</u>
Long-Term Obligations:					
General Obligation Bonds:					
2005 School Improvement Bonds:					
Serial - 3.00% - 5.00%	\$ 9,330,000	-	(565,000)	8,765,000	595,000
Term - 4.50% - 5.00%	9,980,000	-	-	9,980,000	-
Capital Appreciation - 13.707%	495,337	70,228	-	565,565	-
Energy Conservation Bonds 0.0%	-	1,103,964	(20,232)	1,083,732	58,214
Capital Leases	169,798	-	(127,438)	42,360	42,360
Compensated Absences	<u>3,438,470</u>	<u>269,417</u>	<u>(145,233)</u>	<u>3,562,654</u>	<u>304,000</u>
Total Governmental Activities	\$ <u>23,413,605</u>	<u>1,443,609</u>	<u>(857,903)</u>	<u>23,999,311</u>	<u>999,574</u>

Compensated absences will be paid from the fund from which the employees' salaries are paid. Capital lease obligations will be paid from the General Fund.

Annual debt service requirements to maturity for the general obligation bonds are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2011	653,214	819,090	1,472,304
2012	641,529	1,213,687	1,855,216
2013	780,964	796,340	1,577,304
2014	820,964	769,103	1,590,067
2015	925,964	737,203	1,663,167
2016-2020	4,914,821	3,114,913	8,029,734
2021-2025	3,911,841	2,244,729	6,156,570
2026-2030	4,500,000	1,289,550	5,789,550
2031-2033	<u>3,245,000</u>	<u>223,313</u>	<u>3,468,313</u>
	\$ <u>20,394,297</u>	<u>11,207,928</u>	<u>31,602,225</u>

As of June 30, 2010, the overall legal debt margin was \$40,869,691 with an unvoted debt margin of \$662,652.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 14 - INTERFUND ACTIVITY

Interfund transfers for the year ended June 30, 2010, consisted of the following:

	<u>Transfer In</u>	<u>Transfer Out</u>
General Fund	\$ -	62,054
Non-Major Governmental Funds	62,054	-
	<u>\$ 62,054</u>	<u>62,054</u>

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed.

The School District had no transfers that either do not occur on a regular basis or were inconsistent with the purpose of the fund making the transfer.

As of June 30, 2010, principal components of interfund balances were as follows:

<u>Fund Due To</u>	<u>Fund Due From</u>	<u>Amount</u>
General Fund	Miscellaneous State Grants	\$ 111
	IDEA B	233,372
	Title II - D	5,382
	Title III	9,278
	Title I	97,547
	Drug Free School Grant Fund	4,763
	Reducing Class Size	<u>14,968</u>
		<u>\$ 365,421</u>

The due to represents cash advances to grant funds for cash flow purposes by the General fund.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 15 – JOINTLY GOVERNED ORGANIZATIONS

Southwestern Ohio Educational Purchasing Council – The Southwestern Ohio Educational Purchasing Council (SOEPC) is a purchasing council made up of nearly 100 school districts in 12 counties. The purpose of the council is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC.

Each member district has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SOEPC is held in trust. Any district withdrawing from the SOEPC forfeits its claim to any and all SOEPC assets. One year prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member obligations. Payments to SOEPC are made from the general fund. During fiscal year 2010, the School District contributed \$3,440 to SOEPC. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Council, Ken Swink, who serves as Director, at 303 Corporate Drive, Suite 208, Vandalia, Ohio 45377.

Metropolitan Dayton Educational Cooperative Association – The School District is a participant in the Metropolitan Dayton Educational Cooperative Association (MDECA), which is a data acquisition site used by the School District. MDECA is an association of public school districts in a geographic area determined by the Ohio Department of Education. MDECA was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative instructional functions among member districts. During fiscal year 2010, the District contributed \$167,999 to MDECA. The Board of MDECA consists of one representative from each of the participating members. Complete financial information can be obtained from MDECA located in Dayton, Ohio.

NOTE 16 - CONTINGENCIES

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2010.

B. Litigation

The School District is party to legal proceedings. The School District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2010

NOTE 17 - SET-ASIDE CALCULATIONS AND FUND RESERVES

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for textbooks and capital acquisition. Disclosure of this information is required by State statute.

	Textbooks	Capital Acquisition
Set-aside Cash Balance, As of June 30, 2009	\$ (3,807,647)	-
Current Year Set-aside Requirement	706,838	706,838
Qualifying Disbursements	(869,402)	(1,791,041)
Total	(3,970,211)	(1,084,203)
Balance Carried Forward to FY 2011	\$ <u>(3,970,211)</u>	<u>-</u>

The School District had qualifying disbursements during the year that reduced the set-aside below zero for capital acquisition, the extra amounts may not be used to reduce the set-aside requirements of future years.

NOTE 18 – INCOME TAX

On January 1, 2007 the School District levied a voted 1.5 percent income tax on the earned income of individuals residing in the School District for the purpose of current expenses. The State makes quarterly distributions to the School District after withholding amounts for administrative fees and estimated refunds. For fiscal year 2010, this income tax generated \$8,516,770 of revenue in the General Fund.

NOTE 19 – CHANGE IN ACCOUNTING PRINCIPLES

For fiscal year 2010, the District implemented GASB Statement No. 51, “Accounting and Financial Reporting for Intangible Assets”, GASB Statement No. 53, “Accounting and Financial Reporting for Derivative Instruments”, and GASB Statement No. 58. “Accounting and Financial Reporting for Chapter 9 Bankruptcies.” The implementation of these statements had no effect on the District’s financial statements for fiscal year 2010.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2010

Basis of Budgeting

Basis of budgeting refers to when revenues and expenditures or expenses are recognized in the accounts. The Troy City School District's (the School District) budget for all legislated funds are prepared on a cash-encumbrance basis wherein transactions are recorded when cash is received or disbursed, or when a commitment has been recorded as an encumbrance against an applicable appropriation. Fund balances shown are unencumbered cash balances. This basis is utilized for all interim financial statements issued during the year.

The basis of budgeting differs from generally accepted accounting principles (GAAP) used for the School District's year-end financial statements contained in the basic financial statements. Under that basis of accounting, revenues are generally recognized when the obligation to the School District arises; the budget basis however, recognizes revenue only when cash has been received. In the basic financial statements, expenditures are generally recognized in the period in which they are incurred. Under that budget basis, expenditures are recognized when cash has been disbursed or when an encumbrance has been placed against an appropriation.

General Budget Policies

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All governmental funds are subject to annual expenditure budgets except for the Auxiliary Service Fund (Special Revenue Fund), which are deemed to be appropriated. The School District follows the procedures outlined below in establishing the expenditures budget data reported in the required supplementary information.

Prior to January 20, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the Miami County Budget Commission for rate determination.

By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2010.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2010

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education at the function level of expenditures within the individual funds, with the exception of the grant funds which are at the special cost center level. The level at which the Board of Education approves the annual appropriation resolution is the School District legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission.

Any revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund, must be approved by the Board of Education. The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant.

The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Encumbrances plus expenditures may not legally exceed appropriations at the legal level of control. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds.

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. The encumbered appropriations balance is carried forward to the subsequent fiscal year and need not be reappropriated.

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual – General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the fund liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2010

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

<u>Net Change in Fund Balances</u>	
	<u>General Fund</u>
GAAP Basis	\$ 541,055
Revenue Accruals	28,395
Expenditure Accruals	(1,068,323)
Encumbrances	545,648
Other Financing Sources (Uses)	<u>682,285</u>
Budget (Non-GAAP) Basis	\$ <u>729,060</u>

MAJOR GOVERNMENTAL FUNDS

The focus of the fund financial statements presented in the basic financial statements is on the School District's most significant funds (major funds). Therefore these fund financial statements present the major funds separate from the other governmental funds of the School District. As required by Generally Accepted Accounting Principles for state and local governments, budgetary comparison statements in the basic financial statements are limited to the General Fund and any major special revenue funds. The School District has no major special revenue funds.

General Fund

The General fund is used to account for all financial resources, except those required to be accounted for in another fund. The General fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of the State of Ohio.

Since the Statement of Revenues, Expenditures and Changes in Fund Balance presented in the basic financial statements for the General Fund presents budgetary compliance at the legal level of control established by the Board of Education, no additional schedules are necessary to demonstrate budgetary compliance.

COMBINING STATEMENTS – NONMAJOR GOVERNMENTAL FUNDS

NONMAJOR SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects or expendable trusts) that are legally restricted to expenditure for specified purposes. The following are descriptions of each Special Revenue Fund.

Uniform School Supplies

To account for the purchase and sale of school supplies as approved by the Board for use in the school buildings. Profit derived from such sales is to be used for school purposes or activities in connection with the school.

Hayner

To account for financial transactions related to activities of the Hayner Cultural Center.

Public School Support

To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sale of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

District Managed Student Activities

To account for local funds generated to assist student activities, which are managed by District personnel.

Auxiliary Services

To account for monies which provide services and materials to pupils attending non-public schools within the School District.

Management Information Systems

To account for state funds that are provided to assist the District in implementing a staff, student and financial information system as mandated by the Omnibus Education Reform Act of 1989.

Data Communications

To account for revenues received from the State to be used to install and provide support costs for data communication links to connect any school to the local A-site.

Miscellaneous State Grants

To account for revenues received from state agencies which are not classified elsewhere.

IDEA B Grant

To account for monies received under a federal grant to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full education opportunities to handicapped children at the elementary and secondary levels.

Education Stabilization Grant

To account for monies received from the American Reinvestment and Recovery Act to help stabilize state and local budgets in order to minimize and avoid reductions in education and other essential services.

Title II-D Grant

To account for federal monies received for professional development to enable teachers to create technology-enabled learning environments in which students will meet or exceed the state academic content standards and develop 21st century skills.

NONMAJOR SPECIAL REVENUE FUNDS (CONTINUED)

Title III Grant

To account for monies received under a federal grant to develop and carry out elementary and secondary school programs to meet the educational needs of children of limited English proficiency.

Title I Grant

To account for monies received under a federal grant to assist schools in meeting the special needs of educationally deprived children.

Drug Free Grant

To account for monies received under a federal program to support the implementation of programs for drug abuse education and prevention.

Reducing Class Size Grant

To account for grant providing funding to hire additional classroom teachers in grades one through three so that the number of students per teacher will be reduced.

Miscellaneous Federal Grants

To account for revenues received from federal agencies which are not classified elsewhere.

Food Service Fund

To account for the financial transactions related to the food service operation of the School District.

NONMAJOR CAPITAL PROJECT FUNDS

The Capital Projects Funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings and additions to existing buildings, or for major renovation projects. The following are descriptions of each Capital Projects Fund.

Permanent Improvement

To account for the monies received through the School District's permanent improvement levy that are used for the acquisition, construction or improvement of capital facilities.

Building Construction Project

To account for the receipts and expenditures of bond proceeds in the District. Expenditures represent the cost of acquiring or constructing capital facilities or improvements.

NONMAJOR DEBT SERVICE FUND

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general short-term and long-term debt principal and interest.

Bond Retirement Fund

To account for revenue derived from tax levy approved to pay for debt charges associated with the 2005 School Improvement Bonds.

FIDUCIARY FUNDS

PRIVATE PURPOSE TRUST FUND

Private purpose trust funds are used to account for assets held by the School District, which have been restricted so that the principal and income of the fund benefit individuals, private organizations, or other governments and are not available to support the operations of the School District

Scholarship Trust Fund

To account for restricted donations, where the donations themselves may be used to provide scholarships to selected students graduating from the School District.

AGENCY FUNDS

Agency funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds.

Student Managed Activities

To account for the resources that belongs to the various student groups in the District. The funds account for sales and other revenue generating activities by student activity programs, which have students, involved in the management of the program.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the School District's overall financial health.

Contents:

Financial Trends

These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time. These schedules can be found on pages 94-105

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the School District's most significant local revenue source, property tax. These schedules can be found on pages 106-113

Debt Capacity

These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt, as well as, the School District's ability to issue additional debt in the future. These schedules can be found on pages 114-118

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the School District's financial activities take place. These schedules can be found on pages 119-121

Operating Information

These schedules contain information about the School District's operation and resources to help the reader understand how the School District's financial information relates to the services provided and activities performed. These schedules can be found on pages 122-131

Sources: Unless otherwise noted, the information in these schedules is derived from the School District's annual financial reports for the relevant year. The School District implemented GASB Statement No. 34 in fiscal year 2003; schedules presenting government-wide information begin with that fiscal year.

Notes:

- (1) The School District implemented GASB Statement No. 34 in fiscal year 2003, therefore the amounts for fiscal years 2001 through 2002 includes general, special revenue and capital projects.
- (a) The increases in the reservation of fund balance, beginning in fiscal year 2003, is attributal to outstanding encumbrances related to the school facilities construction project as well as increase in reservation of fund balance for property taxes for associated levies.
- (b) Fund balance reported for the capital projects and debt service funds increased over the past six fiscal years due to the collection of property taxes and issuance of debt to provide financing for the school facilities construction project.

Source: Montgomery County Auditor - Data is presented on a calendar year basis because that is the manner in which the information is maintained by the Auditor.

Notes:

For fiscal years 1999 to 2000, real property assessed value was 35% of the estimated actual value, public utility assessed value was 88% of estimated actual value and personal property assessed value was 25% of the estimated actual value. For fiscal years 2001 through 2008, the actual property value were estimated by the Montgomery County Auditor's Office due to changes percentage of property subject to taxation.

<u>Governmental Unit</u>	<u>Net Debt Outstanding</u>	<u>Estimated Percentage Applicable (a)</u>	<u>Amount Applicable to School District</u>
Miami County	\$ 6,888,000	30.95%	\$ 2,131,836
City of Troy	10,346,130	97.59%	10,096,788
Upper Valley Career Center	7,287,961	29.33%	<u>2,137,559</u>
Subtotal, Overlapping Debt			14,366,183
School District Direct Debt			<u>19,029,991</u>
Total Direct and Overlapping Debt			<u><u>\$ 33,396,174</u></u>

Source: Ohio Municipal Advisory Council

Notes:

- (1) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the School District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the School District. This process recognizes that, when considering the School District's ability to issue and repay long-term debt, the entire burden borne by the residents and businesses should be taken into account.
- (a) Percentages were determined by dividing the assessed valuation of the subdivision located within the boundaries of the District by the total assessed value of the subdivision.
