

The background of the top two-thirds of the page is a blue-toned collage of financial data. It features several line graphs with fluctuating lines, a bar chart with vertical bars of varying heights, and a candlestick chart. The text 'STAR OHIO' is centered over this background. The word 'STAR' is on the left, 'OHIO' is on the right, and a white silhouette of the state of Ohio is positioned between them. Two white five-pointed stars are placed above and below the Ohio map silhouette.

STAR OHIO

ANNUAL REPORT 2014

JOSH MANDEL
STATE TREASURER OF OHIO

Dave Yost • Auditor of State

Josh Mandel, State Treasurer of Ohio
State Treasury Asset Reserve of Ohio
30 East Broad Street
9th Floor
Columbus, Ohio 43215-3461

We have reviewed the *Independent Auditors' Report* of the State Treasury Asset Reserve of Ohio, Franklin County, prepared by Cohen & Company, for the audit period July 1, 2013 through June 30, 2014. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The State Treasury Asset Reserve of Ohio is responsible for compliance with these laws and regulations.

A handwritten signature in cursive script that reads "Dave Yost".

JOSH MANDEL
STATE TREASURER OF OHIO

Dear Public Funds Managers,

I am pleased to present the State Treasury Asset Reserve of Ohio (STAR Ohio) 2014 annual report for the fiscal year that ended on June 30, 2014. As State Treasurer of Ohio and the STAR Ohio fund administrator, I am dedicated to managing the State's finances as well as protecting and investing taxpayer dollars in the local government investment pool (LGIP).

STAR Ohio provides governmental subdivisions with an investment alternative that offers safety and liquidity at an attractive yield. With over 3,000 accounts, STAR Ohio strives to strategically invest funds while preserving principal. As record low interest rates have continued to create challenges in the financial markets, STAR Ohio has managed to deliver competitive returns relative to other money market instruments. STAR Ohio maintains its AAAM rating, first achieved in 1995, which is Standard and Poor's highest investment rating possible for an LGIP.

My office is continuously working to improve the STAR Ohio program, and we take pride in making STAR a convenient investment option for Ohio governmental subdivisions. Recently added enhancements to the program have been well received and our STAR Plus program, which began in June of 2012, has also been a highly utilized option for STAR Ohio participants.

As always, we value your feedback and invite you to share your ideas on ways that STAR Ohio and the Treasurer's office might better serve you and your constituents' needs.

For questions about STAR Ohio, please contact us via email at info@starohio.com or by phone at **1-800-648-STAR (7827)**.

Sincerely,

A handwritten signature in blue ink that reads "Josh Mandel".

Josh Mandel
State Treasurer of Ohio

MANAGEMENT'S DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (UNAUDITED)

BACKGROUND

The State Treasury Asset Reserve of Ohio ("STAR Ohio" or the "Fund") is a statewide investment pool managed and administered by the State Treasurer of Ohio (the "Treasurer"). Participation is offered to Ohio's political subdivisions as a means to invest in a portfolio of short-term investment securities. The objectives of STAR Ohio are the preservation of capital, the maintenance of liquidity, and providing current income. STAR Ohio is similar in concept to a registered investment company, commonly called a "money market mutual fund." Our discussion and analysis below is based upon currently known facts and conditions that we judge to have had a material effect on STAR Ohio's financial condition and results of operations.

The Treasurer is committed to maintaining STAR Ohio as a top-rated investment option for all government subdivisions of the State. As such, the level of safety in the Fund is attributed to the constant monitoring of credit ratings for issuers of investments held by STAR Ohio. An additional level of safety is the custodial arrangement requiring the Fund's assets be held in a specific trust account at the Depository Trust & Clearing Corporation designated for STAR Ohio. Both measures ensure that the underlying assets of STAR Ohio are highly rated, secure, and readily available to its investors.

OVERVIEW OF FINANCIAL CONDITION

STAR Ohio's net position decreased by approximately \$510.6 million, or 14.6%, during the fiscal year ended June 30, 2014, due to redemptions. For the sixth straight year, redemptions exceeded purchases. As the economy continues to stabilize and interest rates remain historically low, STAR Ohio's objectives of safety and liquidity have made the Fund a valuable investment vehicle for Ohio's public fund managers. STAR Ohio maintains its AAAM rating from Standard and Poor's, the highest rating possible for a Local Government Investment Pool.

OVERVIEW OF OPERATIONS

The Federal Funds' target rate remained between 0 and 25 basis points (0.00% - 0.25%) during STAR Ohio's Fiscal Year 2014. STAR Ohio's average yield for Fiscal Year 2014 was 0.02%. The Treasurer's office suspended its management fee effective April 15, 2014, resulting in an approximate 0.018% annualized increase in yield. As of June 30, 2014, STAR Ohio held approximately 25% of its portfolio in overnight investments with approximately 2% in FDIC-insured bank deposits. STAR Ohio revised its investment policy during Fiscal Year 2014 to modify allowable investments and/or percentages per investment type.

The Honorable Dave Yost
Ohio Auditor of State

The Honorable Josh Mandel
State Treasurer of Ohio

Independent Auditors' Report

We have audited the accompanying statement of assets and liabilities, including the statement of investments, of the State Treasury Asset Reserve of Ohio ("STAR Ohio") as of June 30, 2014, and the related statements of operations and changes in net position and the financial highlights for each of the two years in the period then ended and the related notes to the financial statements, which collectively comprise STAR Ohio's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements and financial highlights in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements and financial highlights that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements and financial highlights. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements and financial highlights, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements and financial highlights in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of STAR Ohio as of June 30, 2014, and the changes in financial position and financial highlights for each of the two years in the period then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on page 3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 20, 2014 on our consideration of STAR Ohio's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering STAR Ohio's internal control over financial reporting and compliance.

NOTE A - SUMMARY OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Section 135.45 of the Ohio Revised Code permits the State's political subdivisions to pool their public funds into an investment fund managed by the State Treasurer of Ohio. The State Treasury Asset Reserve of Ohio (STAR Ohio) provides units of local government with an investment option for their public funds.

Participation is offered to Ohio political subdivisions as defined in Section 135.45(F)(2)(a) of the Ohio Revised Code. The investment objectives of STAR Ohio are the preservation of capital, maintenance of liquidity, and providing current income. There can be no guarantee that this will be achieved.

The State Treasurer of Ohio, Josh Mandel, through the Treasurer's Investment Department, 30 East Broad Street, 9th Floor, Columbus, Ohio 43215-3461, serves as investment advisor and administrator to STAR Ohio. The advisor manages the investment and reinvestment of STAR Ohio's assets in accordance with STAR Ohio's investment objectives and policies, subject to the general limitations of Section 135.143 of the Ohio Revised Code. In addition, an advisor is responsible for the overall management of STAR Ohio's business affairs. STAR Ohio compensates the advisor with a flat management fee of \$500,000 per year. Effective April 15, 2014, the Treasurer's office suspended their advisory fee, which was previously reinstated on March 15, 2013.

Public Funds Administrators, Dublin, Ohio, is the co-administrator for STAR Ohio and provides certain clerical and administrative services for STAR Ohio. Compensation to the co-administrator is based on a percentage of daily net assets with a minimum annual fee of \$800,000.

Huntington National Bank, Columbus, Ohio, is the dividend and transfer agent for STAR Ohio and also serves as custodian of its portfolio. Compensation is based on a percentage of daily net assets.

United American Capital Corporation, Worthington, Ohio, is an investment consultant for STAR Ohio. Compensation is based on a percentage of daily net assets.

Meeder Asset Management, Inc., Dublin, Ohio, is an investment consultant for STAR Ohio. Compensation is based on a percentage of daily net assets.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses, and disclosure of both contingent assets and liabilities. Actual results could differ from those estimates.

STAR Ohio is not registered with the Securities Exchange Commission (SEC) as an investment company, but maintains a policy to operate as a “2a-7 like pool” in a manner consistent with the Governmental Accounting Standards Board, Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investments Pools*. Subsequent to the SEC’s issuance of a revised Rule 2a-7, as promulgated under the Investment Company Act of 1940, as amended, on June 24, 2010, GASB issued Statement No. 59, *Financial Instruments Omnibus*. Statement No. 59 provides guidance that a “2a-7 like pool”, as described in Statement No. 31, is an external investment pool, that operates in conformity with SEC Rule 2a-7, as amended.

NOTE B – INVESTMENT SECURITIES

Investment securities, other than money market funds, are valued according to the amortized cost method (which approximates fair value) whereby a security is valued at cost adjusted for the amortization of any premiums or accretion of any discounts over the period until maturity. Investments in money market funds are valued at quoted market values.

Security transactions are accounted for on the trade date (the day that the order to buy or sell is executed). Interest income is determined on an accrual basis, with earned discounts (including original issue and market discount) accreted and paid premiums amortized. Any realized gains or losses on sales of securities are calculated on the specific identification basis.

STAR Ohio is permitted to invest in commercial paper, but commercial paper holdings shall not exceed 25 percent of the Total Average Portfolio (the average of the daily balances for the prior 12-month period as calculated on the first day of the month). As of June 30, 2014, commercial paper holdings represented approximately 23.0 percent of the Total Average Portfolio.

All repurchase agreements are fully collateralized by United States Government or Federal Agency securities, pursuant to Section 135.143 of the Ohio Revised Code, and such collateral is in the possession of STAR Ohio’s custodian on a daily basis. STAR Ohio evaluates collateral daily to ensure its market value plus accrued interest exceeds the delivery value of the repurchase agreement at maturity. At June 30, 2014, STAR Ohio had an investment in one repurchase agreement with a value of \$400,000,000, which is included as part of investments at fair value on the Statement of Assets and Liabilities. The value of the related collateral that STAR Ohio received for this agreement exceeded the value of the repurchase agreement at June 30, 2014. STAR Ohio may enter into reverse repurchase (borrowing) agreements. For the fiscal year ended June 30, 2014, STAR Ohio did not enter into any reverse repurchase agreements.

STAR Ohio may purchase securities on a forward settlement basis. Payment and delivery may take place after the customary settlement period for the respective securities. The price of the underlying securities and the date when the securities will be delivered and paid for are fixed at the time the transaction is negotiated. Where applicable, the values of the securities purchased on a forward settlement basis are identified as such in the Schedule of Investments. Losses may arise due to changes in the value of the underlying securities, if the counterparty

does not perform under the contract's terms, or if the issuer does not issue the securities due to political, economic, or other factors. As of June 30, 2014, STAR Ohio did not transact in any purchases on a forward settlement basis.

STAR Ohio maintains a stable net asset value per share by using the amortized cost method of portfolio valuation. STAR Ohio has established procedures to stabilize the net asset value per share, as computed for the purpose of purchase and redemption, at a single value of \$1.00. The mark-to-market of the portfolio is used to monitor the appropriateness of the amortized cost method and is calculated using available market quotations.

As of June 30, 2014, STAR Ohio had the following investments and maturities:

Investment Type	Value	Investment Maturities (in Years)	
		Less than 1	1-5
Bank Deposit Instruments	\$ 116,378,250	\$ 116,378,250	
Commercial Paper	774,706,682	774,706,682	
Corporate Bonds	112,457,946	112,457,946	
Federal Agency Issues and U.S. Treasury Obligations	1,376,618,088	1,301,617,651	75,000,437
Money Market Funds	204,076,300	204,076,300	
Repurchase Agreements	400,000,000	400,000,000	
	<u>\$ 2,984,237,266</u>	<u>\$ 2,909,236,829</u>	<u>\$ 75,000,437</u>

Interest Rate Risk: Through its investment policy, STAR Ohio manages its exposure to fair value losses arising from increasing interest rates by limiting the final stated maturity on any investment to 397 days (762 days for floating and variable rate government obligations) and limiting the weighted average maturity WAM(R) of the portfolio to 60 days and WAM(F) of the portfolio to 90 days. WAM(R) uses the interest rate reset date as the effective maturity in calculating the WAM, whereas WAM(F) is calculated based on the stated final maturity for each security. WAM(F) is also known as weighted average life. At June 30, 2014, STAR Ohio WAM(R) and WAM(F) were 51 and 81 days, respectively. Federal Agency Issues include callable bonds, which have maturity dates ranging from January 9, 2015 to April 24, 2015 and callable dates ranging from July 2, 2014 to September 26, 2014, and floating rate notes with daily, weekly, monthly, and quarterly reset dates based on the Federal Funds Overnight Rate, the 1 and 3 month U.S. LIBOR, and the 91 day U.S. Treasury Bill. STAR Ohio's portfolio at June 30, 2014 had 4.6% of illiquid investments based on average net assets (as defined by the STAR Ohio investment policy) consisting of: \$50,000,000 in the Federally Insured Cash Account (FICA®) with a July 9, 2014 maturity date and \$87,639,493 invested in a 31 day put commercial paper with U.S. Bank.

Credit Risk: STAR Ohio’s investment policy requires money market funds to be rated AAAM by Standard & Poor’s Corporation, and all other securities held by STAR Ohio be rated the equivalent of A-1+ or A-1. For issuers of bank deposits, collateralization of the investment is required to secure a rating of AAAM. As of June 30, 2014, STAR Ohio’s investment in Federal Agency Issues and the money market funds were rated AA+ and AAAM, respectively, by Standard and Poor’s and Aaa by Moody’s Investor Services. All commercial paper holdings were rated A-1/P-1 and above. Corporate bonds had the following long-term ratings at issuance:

Standard & Poor’s	Moody’s	Corporate Bonds
AA+	A1	\$12,623,798
AA	Aa2	\$13,931,077
A+	A1	\$19,348,137
A+	A2	\$11,562,097
A	A2	\$40,931,486
A	A3	\$14,061,351

These corporate bonds were purchased within 13 months of maturity, with appropriate credit ratings, and therefore are in accordance with the STAR Ohio investment policy.

Concentration of Credit Risk: STAR Ohio, through its investment policy, follows the diversification guidelines for Standard & Poor’s Principal Stability Fund Rating (PSFR) criteria for AAAM rated money market funds and Section 135.143 of the Ohio Revised Code. Through its investment policy, STAR Ohio further limits its investments in municipal bonds to 10 percent of the net assets. STAR Ohio limits the maximum exposure per issuer to 5 percent of net assets, except U.S. Treasury and Federal Agency Obligations, overnight bank deposits (including uninvested cash), instruments that are at least 100 percent collateralized, and investments in other rated funds. STAR Ohio’s investment policy further limits the total holdings of an issuer’s corporate obligations to no more than one half of one percent of the total portfolio at the time of purchase.

As of June 30, 2014, STAR Ohio had 5 percent or more of its net assets invested in the following issuers:

Federal Farm Credit Bank	8%
Federal Home Loan Bank	29%
RBC Capital Markets Repurchase Agreement	13%

Foreign Currency Risk: STAR Ohio does not have exposure to foreign exchange risk.

Custodial Credit Risk: STAR Ohio’s investments are not exposed to custodial credit risk, as defined by GASB Statement No. 40. Securities in STAR Ohio are insured, registered, held by STAR Ohio, or held in a specific trust account designated for STAR Ohio. At June 30, 2014, bank deposits of \$66,378,250 were secured by collateral pools of eligible securities deposited with a qualified trustee and pledged to secure repayment of all public monies deposited in the financial institution, whose market value at all times exceed the requirements needed based on the financial institutions’ ratings. The remaining bank deposits of \$50,000,000 were insured by the Federal Deposit Insurance Corporation. The carrying amount of cash was zero and the bank balance was less than zero.

NOTE C – SECURITIES LENDING

Pursuant to Section 135.143 of the Ohio Revised Code, the Pool may lend up to 25 percent of its securities to any eligible financial institution that is a member of the Federal Reserve System or any recognized United States government securities dealer.

The Pool follows strict levels of collateralization governed by daily mark-to-market analysis, a review of the credit worthiness of securities’ dealers and banks, and strict monitoring of their respective credit limits. This is done to control exposure due to possible credit loss resulting from a reduction in the underlying collateral value or non-performance by a security dealer or bank. Either the Pool or the borrower can terminate all security loans on demand.

For the fiscal year ended June 30, 2014, STAR Ohio did not participate in security lending transactions.

NOTE D – INCOME DISTRIBUTIONS

Each business day STAR Ohio declares a distribution of its net investment income and realized capital gains, if any. Such distributions are automatically reinvested in additional shares or paid in cash to shareholders at the end of each month.

NOTE E – CAPITAL SHARES

Transactions in capital shares (all at \$1.00 per share) were as follows:

	Year ended June 30,	
	2014	2013
Shares Sold	11,629,568,218	12,667,215,671
Shares Issued for Distributions	653,779	2,374,616
	11,630,221,997	12,669,590,287
Shares Redeemed	(12,140,799,451)	(12,690,988,863)
Capital Shares Transactions Net Decrease	(510,577,454)	(21,398,576)

STANDARD & POOR'S RATING OF STAR OHIO

Standard & Poor's has assigned an AAAM money market rating, its highest rating, to STAR Ohio. By obtaining a AAAM rating, STAR Ohio is considered to have a superior capacity to maintain principal (\$1.00 per share value) and limit exposure to loss. The rating is based on an analysis of STAR Ohio's management, investment guidelines, portfolio holdings and market price exposure.

SUMMARY OF INVESTMENT OBJECTIVES AND ALL PERMITTED & ELIGIBLE INVESTMENTS

The investment objectives of STAR Ohio are the preservation of capital, maintenance of liquidity, and providing current income. STAR Ohio seeks to achieve these objectives by investing only in certain high-grade short-term investment instruments, which are authorized for investment by the State of Ohio as specified in Section 135.143 of the Ohio Revised Code. Instruments in which STAR Ohio may invest include:

- (1) United States Treasury bills, notes, bonds or any other obligations or securities issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- (2) Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality;
- (3) Written repurchase agreements with any eligible Counterparties domiciled or registered in the United States subject to the guidelines in STAR Ohio's Investment Policy;
- (4) STAR Ohio may invest in reverse repurchase agreements with a maximum maturity of 30 days, provided the securities have been fully paid for and are owned by STAR Ohio at the time of sale and subject to the guidelines in STAR Ohio's Investment Policy;
- (5) The Ohio Treasurer of State also may sell any securities, listed in items (1) or (2) above, regardless of maturity or time of redemption of the securities, under the same terms and conditions for repurchase, provided that the securities have been fully paid for and are held in trust by the Ohio Treasurer of State at the time of the sale;
- (6) Securities lending agreements with any eligible financial institution that is a member of the Federal Reserve System or Federal Home Loan Bank or any recognized United States government securities dealer, under the terms of which agreement the Ohio Treasurer of State lends securities and the eligible financial institution or dealer agrees to simultaneously exchange similar securities or cash, equal value for equal value;
- (7) Various forms of commercial paper, maturing in 270 days or less, issued by any corporation that is incorporated under the laws of the United States or a state, which such notes are rated in the two highest categories by two nationally recognized rating agencies, provided that the

total amount invested in commercial paper at any time shall not exceed 25 percent of the Total Average Portfolio which is defined as the average daily balances for the prior 12-month period as calculated on the first day of the month;

(8) Corporate Obligations of domestic corporations that, at the time of purchase must be rated in the three highest categories by two nationally recognized rating agencies provided that the total amount invested in corporate obligations at any time shall not exceed 25 percent of the state's Total Average Portfolio;

(9) Municipal Bonds and other direct obligations of STAR Ohio issued by the State Treasurer, the Ohio Public Facilities Commission, the Ohio Building Authority and the Ohio Housing Finance Agency;

(10) Banker's acceptances, maturing in 270 days or less, which are eligible for purchase by the Federal Reserve System, provided that the total amount invested in the banker's acceptances at any time shall not exceed 10 percent of the Total Average Portfolio, as determined and calculated by the Ohio Treasurer of State;

(11) Bank deposits, certificates of deposits, and savings in eligible institutions applying for interim monies as provided in Section 135.08 of the Ohio Revised Code; and

(12) Registered Investment Companies, open-end, no-load money market mutual funds consisting exclusively of obligations described in (1) or (2) of this section and commercial paper and repurchase agreements secured by such obligations.

**Independent Auditors' Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with Government Auditing Standards**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the statement of assets and liabilities, including the statement of investments, of the State Treasury Asset Reserve of Ohio ("STAR Ohio") as of June 30, 2014, and the related statements of operations and changes in net position and the financial highlights for each of the two years in the period then ended and have issued our report thereon dated August 20, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered STAR Ohio's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of STAR Ohio's internal control. Accordingly, we do not express an opinion on the effectiveness of STAR Ohio's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether STAR Ohio's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with the *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

THE HONORABLE DAVE YOST
OHIO AUDITOR OF STATE

THE HONORABLE JOSH MANDEL
STATE TREASURER OF OHIO

Independent Auditors' Report

We have audited the accompanying statement of assets and liabilities of the State Treasury Asset Reserve of Ohio Investment Trust Fund ("Trust Fund") as of June 30, 2014, and the related statements of operations and changes in net position for each of the two years in the period then ended and the related notes to the financial statements, which collectively comprise the Trust Fund's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Trust Fund as of June 30, 2014, and the results of its operations and changes in net position for each of the two years in the period then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on page 5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Emphasis of Matters

As discussed in Note 1, the financial statements present only the State Treasury Asset Reserve of Ohio Investment Trust Fund and do not purport to, and do not, present fairly the financial position of the State Treasury Asset Reserve of Ohio as of June 30, 2014, or the results of its operations and changes in its net position for each of the two years in the period then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

As discussed in Note 2 to the financial statements, the 2013 statements of operations and changes in net position have been restated for a change in reporting entity. Our opinion is not modified with respect to that matter.

Restriction on Use

This report is intended solely for the information and use of the State Treasurer of Ohio, the Ohio Auditor of State, and the Ohio Office of Budget and Management and is not intended to be and should not be used by anyone other those specific parties.

Cohen & Company Ltd.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS (UNAUDITED)**

Background

The State Treasury Asset Reserve of Ohio ("STAR Ohio" or the "Pool") is a statewide investment pool managed and administered by the State Treasurer of Ohio ("Treasurer"). Participation is offered to Ohio political subdivisions as a means to invest in a portfolio of short-term investment securities. The objectives of STAR Ohio are preservation of capital, the maintenance of liquidity, and providing current income. STAR Ohio is similar in concept to a registered investment company commonly called a "money market mutual fund."

The Treasurer is committed to maintaining STAR Ohio as a top-rated investment option for all government subdivisions of Ohio. As such, the level of safety in the Pool is attributed to the constant monitoring of credit ratings for issuers of investments held by STAR Ohio. An additional level of safety is the custodial arrangement requiring the Pool's assets be held in a specific trust account at the Depository Trust & Clearing Corporation designated for STAR Ohio. Both measures ensure that the underlying assets of STAR Ohio are highly rated, secure and readily available to its investors.

The external portion of STAR Ohio, the State Treasury Asset Reserve of Ohio Investment Trust Fund ("Trust Fund"), is the portion that belongs to legally separate entities that are not part of the State of Ohio's financial reporting entity. STAR Ohio does not have separate investments or activities for the external portion of STAR Ohio. As a result, the statement of assets and liabilities of the Trust Fund has been prepared by prorating the assets and liabilities related to the external portion. Additionally, the statements of operations and changes in net position are prepared by prorating investment income and expenses related to the external portion using average daily balances. Our discussion and analysis below is based upon currently known facts and conditions that we judge to have had a material effect on the Trust Fund's financial condition and results of operations.

Overview of Financial Condition

STAR Ohio's net position decreased by approximately \$510.6 million, or 14.6%, during the fiscal year due to redemptions. For the sixth straight year, redemptions exceeded purchases. As the economy continues to stabilize and interest rates remain historically low, STAR Ohio's objectives of safety and liquidity have made STAR Ohio a valuable investment vehicle for Ohio's public fund managers. STAR Ohio maintained its AAAM rating from Standard and Poor's, the highest rating possible for a Local Government Investment Pool.

Overview of Operations

The Federal Funds target rate range remained between 0 and 25 basis points (0.00% - 0.25%) for STAR Ohio's Fiscal Year 2014. STAR Ohio's average yield for Fiscal Year 2014 was 0.02%. The Treasurer's office suspended its management fee effective April 15, 2014, resulting in an approximate .018% annualized increase in yield. As of June 30, 2014, STAR Ohio held approximately 25% of its portfolio in overnight investments with approximately 2% in FDIC insured bank deposits. STAR Ohio revised its investment policy during Fiscal Year 2014 to modify allowable investments and/or percentages per investment type.

The accompanying notes are an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF ORGANIZATION

Description of Fund

The State Treasury Asset Reserve of Ohio ("STAR Ohio" or "Pool") is a statewide investment pool managed by the State Treasurer of Ohio ("Treasurer"). Participation is offered to Ohio political subdivisions as defined in Section 135.45(F)(2)(a) of the Ohio Revised Code. STAR Ohio offers these subdivisions a means of investing in a portfolio of investment instruments. The investment objectives of STAR Ohio are the preservation of capital, maintenance of liquidity, and providing current income. There can be no guarantee that this will be achieved.

In accordance with Governmental Accounting Standards Board ("GASB") Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the State of Ohio ("State") reports the external portion of STAR Ohio as a separate investment trust fund. The external portion of STAR Ohio, the State Treasury Asset Reserve of Ohio Investment Trust Fund ("Trust Fund") is the portion that belongs to legally separate entities that are not part of the State's financial reporting entity. The STAR Ohio investment pool does not have separate investments or activities for the external portion. The statement of assets and liabilities of the Trust Fund has been prepared by prorating the assets and liabilities of STAR Ohio related to the external portion. Additionally, the statements of operations and changes in net position of the Trust Fund were prepared by prorating investment income and expenses of STAR Ohio related to the external portion using average daily balances.

Legal Authority

Section 135.45 of the Ohio Revised Code permits the State's political subdivisions to pool their public funds into an investment fund managed by the Treasurer. STAR Ohio provides units of local government with an alternative investment option for their public funds.

STAR Ohio is not registered with the Securities and Exchange Commission (SEC) as an investment company, but maintains a policy to operate as a "2a-7 like pool" in a manner consistent with GASB Statement No. 31. Subsequent to the SEC's issuance of a revised Rule 2a-7, as promulgated under the Investment Company Act of 1940, as amended, on June 24, 2010, GASB issued Statement No. 59, *Financial Instruments Omnibus*. Statement No. 59 provides guidance that a "2a-7 like pool" as described in Statement No. 31, is an external investment pool, that operates in conformity with SEC Rule 2a-7, as amended.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF ORGANIZATION (Continued)

Investment Advisor and Administrator

The State Treasurer of Ohio, Josh Mandel, through the Treasurer's Investment Department, 30 East Board Street, Ninth Floor, Columbus, Ohio 43215-3461, serves as investment advisor and administrator to STAR Ohio. The advisor manages the investment and reinvestment of STAR Ohio's assets in accordance with STAR Ohio's investment objectives and policies, subject to the general limitations of Section 135.143 of the Ohio Revised Code. In addition, the advisor is responsible for the overall management of STAR Ohio's business affairs. STAR Ohio compensates the advisor with a flat management fee of \$500,000 per year. Effective April 15, 2014, the Treasurer's office suspended their advisory fee, which was previously reinstated on March 15, 2013.

Co-Administrator

Public Funds Administrators, Dublin, Ohio, is the co-administrator for STAR Ohio and provides certain clerical and administrative services for STAR Ohio. Compensation to the co-administrator is based on a percentage of daily net assets of STAR Ohio with a minimum annual fee of \$800,000.

Custodian, Transfer Agent and Investment Consultant

Huntington National Bank, Columbus, Ohio, is the dividend and transfer agent for STAR Ohio and also serves as custodian of its portfolio. Compensation is based on a percentage of daily net assets.

United American Capital Corporation, Worthington, Ohio, is an investment consultant for STAR Ohio. Compensation is based on a percentage of daily net assets.

Meeder Asset Management, Inc., Dublin, Ohio, is an investment consultant for STAR Ohio. Compensation is based on a percentage of daily net assets.

2. CHANGE IN REPORTING ENTITY

As of July 1, 2013, the State of Ohio determined that the Ohio Water Development Authority (OWDA) was no longer considered an internal account of the State of Ohio's financial reporting entity and therefore OWDA's investments are now considered a part of the Trust Fund. In accordance with accounting principles generally accepted in the United States of America, this determination is accounted for as a change in reporting entity. Therefore, the 2013 financial statements have been retroactively adjusted for the change, which resulted in an increase in net investment income of \$62,672 for the year ended June 30, 2013. Net position as of July 1, 2012, has been adjusted for the effect of the retroactive application as presented at the Statements of Operations and Changes in Net Position.

NOTES TO THE FINANCIAL STATEMENTS

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Security Valuations

Investment securities, other than money market funds, are valued according to the amortized cost method (which approximates fair value) whereby a security is valued at cost adjusted for the amortization of any premiums or accretion of any discounts over the period until maturity. Investments in money market funds are valued at quoted market values.

Security Transactions and Related Investment Income

Security transactions are accounted for on the trade date (the day the order to buy or sell is executed). Interest income is determined on an accrual basis with earned discounts (including original issue and market discount) accreted and paid premium amortized. Any realized gains or losses on sales of securities are calculated on the specific identification basis.

Mark-to-Market Procedures

The Pool maintains a stable net asset value per share by using the amortized cost method of portfolio valuation. The Pool has established procedures to stabilize the net asset value per share, as computed for the purpose of purchase and redemption, at a single value of \$1.00. The mark-to-market of the portfolio is used to monitor the appropriateness of the amortized cost method and is calculated using available market quotations.

Federal Income Taxes

STAR Ohio is not subject to income taxes.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses, and disclosure of both contingent assets and liabilities. Actual results could differ from those estimates.

4. INVESTMENT SECURITIES

Repurchase Agreements and Commercial Paper

STAR Ohio is permitted to invest in commercial paper, but the commercial paper holdings shall not exceed 25 percent of the Total Average Portfolio (the average of the daily balances for the prior 12-month period as calculated on the first day of the month). As of June 30, 2014, commercial paper holdings represented 23.0 percent of the Total Average Portfolio.

NOTES TO THE FINANCIAL STATEMENTS

4. INVESTMENT SECURITIES (Continued)

Repurchase Agreements and Commercial Paper (Continued)

All repurchase agreements are fully collateralized by United States Government or Federal Agency securities, pursuant to Section 135.143 of the Ohio Revised Code, and such collateral is in the possession of STAR Ohio's custodian on a daily basis. STAR Ohio evaluates collateral daily to ensure its market value plus accrued interest exceeds the delivery value of the repurchase agreement at maturity. At June 30, 2014, STAR Ohio had an investment in one repurchase agreement, which is included as a part of investments on the statement of assets and liabilities. The value of the related collateral that STAR Ohio received for this agreement exceeded the value of the repurchase agreement at June 30, 2014. STAR Ohio may enter into reverse repurchase (borrowing) agreements. For the fiscal year ended June 30, 2014, STAR Ohio did not enter into any reverse repurchase agreements.

Forward Settlement

STAR Ohio may purchase securities on a forward settlement basis. Payment and delivery may take place after the customary settlement period for the respective securities. The price of the underlying securities and the date when the securities will be delivered and paid for are fixed at the time the transaction is negotiated. Losses may arise due to changes in the value of the underlying securities, if the counter party does not perform under the contract's terms, or if the issuer does not issue the securities due to political, economic, or other factors. At June 30, 2014, STAR Ohio did not transact any purchases on a forward settlement basis.

As of June 30, 2014, the Trust Fund had the following pro-rated share of the Pool's investments and maturities:

Investment Type	Value	Investment Maturities (in Years) Less Than 1	Investment Maturities (in Years) 1-5	Principal Amount	Range of Interest Rates
Federal Agency Issues and U.S. Treasury Obligations	\$ 1,055,381,067	\$ 997,882,156	\$ 57,498,911	\$1,055,519,554	0.05% - 2.00%
Commercial Paper	593,927,082	593,927,082		593,837,628	0.08% - 0.24%
Corporate Bonds	86,215,624	86,215,624		86,591,036	0.28% - 3.70%
Money Market Funds	156,454,622	156,454,622		156,454,622	0.01% - 0.04%
Repurchase Agreements	306,659,073	306,659,073		306,659,073	0.05%
Bank Deposits	<u>89,221,116</u>	<u>89,221,116</u>		89,221,116	0.10% - 0.12%
Total	<u>\$ 2,287,858,584</u>	<u>\$ 2,230,359,673</u>	<u>\$ 57,498,911</u>		

NOTES TO THE FINANCIAL STATEMENTS

4. INVESTMENT SECURITIES (Continued)

Interest Rate Risk

Through its investment policy, STAR Ohio manages its exposure to fair value losses arising from increasing interest rates by limiting the final stated maturity on any investment to 397 days (762 days for floating and variable rate government obligations) and limiting the weighted average maturity WAM(R) of the portfolio to 60 days and WAM(F) of the portfolio to 90 days. WAM(R) uses the interest rate reset date as the effective maturity date in calculating the WAM, whereas WAM(F) is calculated based on the stated final maturity for each security. WAM(F) is also known as weighted average life. At June 30, 2014, STAR Ohio WAM(R) and WAM(F) were 51 and 81 days, respectively. Federal Agency Issues include callable bonds, which have maturity dates ranging from January 9, 2015 to April 24, 2015, and callable dates ranging from July 2, 2014 to September 26, 2014, and floating rate notes with daily, weekly, monthly, and quarterly reset dates based on Federal Funds Overnight Rate, the 1 and 3 month U.S. LIBOR, and the 91 day U.S. Treasury Bill. STAR Ohio's portfolio at June 30, 2014, had 4.6 percent of illiquid investments based on average net assets (as defined by the STAR Ohio investment policy) consisting of: a Federally Insured Cash Account with a July 9, 2014, maturity date and a 31 day put commercial paper with U.S. Bank.

Credit Risk

STAR Ohio's investment policy requires money market funds to be rated at AAAm by Standard & Poor's Corporation, and all other securities held by STAR Ohio be rated the equivalent of A-1+ or A-1. Bank deposits up to \$250,000 are covered by FDIC Deposit Insurance. Bank deposits that STAR Ohio places in excess of \$250,000 per bank are required to be collateralized. For issuers of bank deposits, collateralization of the investment is required to secure a rating of AAAm. As of June 30, 2014, STAR Ohio's investments in Federal Agency Issues and the money market funds were rated AA+ and AAAm, respectively, by Standard & Poor's and Aaa by Moody's Investor Services. All commercial paper holdings were rated A-1/P-1 and above.

The corporate bonds had the following long-term ratings at issuance:

Standard and Poor's	Moody's	Percentage of Corporate Bond Holdings
AA+	A1	11%
AA	Aa2	12%
A+	A1	17%
A+	A2	10%
A	A2	36%
A	A3	14%

These corporate bonds were purchased within 13 months of maturity, with appropriate credit ratings, and therefore, are in accordance with the STAR Ohio investment policy.

NOTES TO THE FINANCIAL STATEMENTS

4. INVESTMENT SECURITIES (Continued)

Concentration of Credit Risk

STAR Ohio, through its investment policy, follows the diversification guidelines for Standard and Poor's Principal Stability Fund Rating (PSFR) criteria for AAAM rated money market funds and Section 135.143 of the Ohio Revised Code. Through its investment policy, STAR Ohio further limits its investments in municipal bonds to 10 percent of net assets. STAR Ohio limits the maximum exposure per issuer to 5 percent of net assets, except U.S. Treasury and Federal Agency Obligations, overnight bank deposits (including uninvested cash), instruments that are at least 100 percent collateralized, and investments in other rated funds. STAR Ohio's investment policy further limits the total holdings of an issuer's corporate obligations to no more than one half of one percent of the total portfolio at the time of purchase. As of June 30, 2014, STAR Ohio had 5 percent or more of its net assets in the Federal Farm Credit Bank, the Federal Home Loan Bank, and RBC Capital Markets Repurchase Agreement. These investments are 8, 29, and 13 percent, respectively, of the Pool's net assets.

Foreign Currency Risk

STAR Ohio does not have exposure to foreign exchange risk.

Custodial Credit Risk

STAR Ohio's investments are not exposed to custodial credit risk, as defined by GASB Statement No. 40. Securities owned by STAR Ohio are insured, registered, held by STAR Ohio, or held in a specific trust account designated for STAR Ohio. At June 30, 2014, 57 percent of bank deposits were secured by collateral pools of eligible securities deposited with a qualified trustee and pledged to secure repayment of all public monies deposited in the financial institution, whose market value at all times exceed the requirements needed based on the financial institutions' rating. The remaining 43 percent of bank deposits were insured under the Federal Deposit Insurance Corporation.

The carrying amount of cash was zero and the bank balance was less than zero.

5. SECURITIES LENDING

Pursuant to Section 135.143 of the Ohio Revised Code, the Pool may lend up to 25 percent of its securities to any eligible financial institution that is a member of the Federal Reserve System or any recognized United States government securities dealer.

The Pool follows strict levels of collateralization governed by daily mark-to-market analysis, a review of the credit worthiness of securities dealers and banks, and strict monitoring of their respective credit limits. This is done to control exposure due to possible credit loss resulting from a reduction in the underlying collateral value or non-performance by a security dealer or bank. Either the Pool or the borrower can terminate all security loans on demand.

For the fiscal year ended June 30, 2014, STAR Ohio did not participate in security lending transactions.

NOTES TO THE FINANCIAL STATEMENTS

6. INCOME DISTRIBUTIONS

Each business day, STAR Ohio declares a distribution of its net investment income and realized capital gains, if any. Such distributions are automatically reinvested in additional shares or paid in cash to shareholders at the end of each month.

7. CAPITAL SHARES

Transactions in capital shares (all at \$1.00 per share) were as follows:

	Year Ended June 30	
	2014	2013*
Shares Sold	10,594,288,372	11,522,682,526
Shares Issued for Reinvestment of Distributions	<u>537,326</u>	<u>1,932,461</u>
	10,594,825,698	11,524,614,987
Shares Redeemed and Other Transactions	<u>(10,976,194,969)</u>	<u>(11,588,131,749)</u>
Capital Share Transactions – Net Change	<u>(381,369,271)</u>	<u>(63,516,762)</u>
