*The accompanying notes to this schedule are an integral part of this schedule.*

**WESTERVILLE CITY SCHOOL DISTRICT  
FRANKLIN COUNTY**

**NOTES TO THE FEDERAL AWARDS OF RECEIPTS AND EXPENDITURES SCHEDULE  
FISCAL YEAR ENDED JUNE 30, 2015**

**NOTE A - SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Federal Awards of Receipts and Expenditures Schedule reports the Westerville School District's (the District's) federal award programs' receipts and disbursements. The schedule has been prepared on the cash basis of accounting.

**NOTE B - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the Government assumes it expends federal monies first.

**NOTE C – FOOD DONATION PROGRAM**

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Westerville City School District  
Franklin County  
936 Eastwind Drive  
Westerville, Ohio 43081

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Westerville City School District, Franklin County, (the District) as of and for the year ended, June 30, 2015 and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 2, 2015, wherein we noted, the District adopted the provisions of Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*.

### ***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be identifying significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133 AND ON THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES

Westerville City School District  
Franklin County  
936 Eastwind Drive  
Westerville, Ohio 43081

To the Board of Education:

### ***Report on Compliance for the Major Federal Program***

We have audited the Westerville City School District, Franklin County, Ohio (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the Westerville City School District's major federal program for the year ended June 30, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

### ***Management's Responsibility***

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

### ***Auditor's Responsibility***

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

### ***Opinion on the Major Federal Program***

In our opinion, Westerville City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2015.

### ***Report on Internal Control Over Compliance***

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on the major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

### ***Report on Schedule of Federal Awards Receipts and Expenditures Required by OMB Circular A-133***

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Westerville City School District, Franklin County, Ohio (the District) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 2, 2015, wherein we noted, the District adopted the provisions of Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. We conducted our audit to opine on the District's basic financial statements. The accompanying schedule of federal awards receipts and expenditures presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements.

Westerville City School District  
Franklin County

Independent Auditor's Report on Compliance With Requirements

Applicable to the Major Federal Program and on Internal Control Over Compliance Required by OMB  
Circular A-133 and on the Schedule of Federal Awards Receipts and Expenditures  
Page 3

We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

## Vision

Our vision is  
to be the benchmark  
of educational  
excellence.

December 2, 2015

To the Board of Education and Residents of the Westerville City School District:

As the Superintendent and the Treasurer of the Westerville City School District (the District), we are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2015. This CAFR is prepared by the Treasurer and in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA). Management is responsible for the contents of this report, and we believe the data presented is complete and accurate in all material respects.

## Mission

Our mission is  
to prepare students  
to contribute  
to the competitive  
and changing world  
in which we live.

In addition, this report is designed so that a reader can acquire the maximum understanding of the District's financial activity. This report is provided as a way for the District to communicate openly about the District's finances with its stakeholders. It is divided into three sections: Introductory, Financial, and Statistical. The Introductory section includes this letter of transmittal and organizational information. The Financial section includes the Auditor's report, the basic financial statements, which are prepared in accordance with GASB 34, and supplemental combining individual fund statements and budgetary comparison schedules. The Statistical section provides relevant financial and demographic data over the past ten years.

## Values

- Respect
- Inclusiveness
- Community
- Communication
- Collaboration
- Innovation
- Nurturing
- Trust
- Accountability

Management is also required to prepare a narrative introduction and overview of the financial statements in the form of Management's Discussion and Analysis, which can be found on page 15. This letter of transmittal is designed and should be read in conjunction with that analysis. Comments on the report are welcome and requests for additional financial information can be obtained by contacting the Office of the Treasurer.

This report will be posted on the District's website. A copy will be sent to financial rating services, and any other interested parties.

## WESTERVILLE CITY SCHOOL DISTRICT, OHIO

### *Letter of Transmittal*

*For the Fiscal Year Ended June 30, 2015*

---

#### **REPORTING ENTITY**

The District is an independent political subdivision of the State of Ohio and operates subject to the provisions of the Ohio Constitution and various sections of the Ohio Revised Code. Under such laws, there is no authority for the District to have a charter or adopt local laws. The District is not a part of, nor under the control of, the City of Westerville. The territory of the District is considerably larger than the territory of the City of Westerville.

The Westerville City School District (the District) is located in Central Ohio, immediately northeast of the City of Columbus. Encompassing 52 square miles, the District includes land in the City of Westerville, Village of Minerva Park, City of Columbus, Franklin County, and Delaware County. Westerville is a growing residential suburb with a school district enrollment of 14,722, and the District's estimated population is 93,829 (Mid Ohio Regional Planning Commission). The District is currently comprised of 22 schools: 1 preschool, 14 elementary schools, four middle schools, and three high schools. The District is culturally and economically diverse, and its residents are well educated and expect a high quality education for their children. Many residents are area leaders in business, the professions, and the arts. Westerville is the home of Otterbein University, a 4-year liberal arts institution.

The District provides a vast range of educational and support services as mandated by State statute and the desires of the community, which include but are not limited to, regular, special needs, and vocational educational programs, guidance and support services, extracurricular activities, food service activities, and various community programs.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and Statement No. 39, *Determining Whether Certain Organizations are Component Units*, in that the basic financial statements include all organizations, activities and functions for which the District is financially accountable. Financial accountability is defined as the appointment of a voting majority of a component unit's board and either (i) the District's ability to impose its will over a component unit, or (ii) the possibility that the component unit will provide a financial benefit or impose a financial burden on the District. On that basis, the reporting entity of the District includes the services of the District only (i.e. there are no component units).

#### **ORGANIZATION OF THE DISTRICT / PROFILE OF THE GOVERNMENT**

The Board of Education of the Westerville City School District (the Board) is a five-member body politic and corporate, as defined by Section 3313.02, Ohio Revised Code. The Board serves as the taxing authority, contracting body, policy maker, and ensures that all other general laws of the State of Ohio are followed in the expenditure of the District's tax dollars, and approves the annual appropriation resolution and tax budget.

Board members are elected at large for staggered four-year terms. The Board meets regularly on the second and fourth Monday of each month. At the first meeting of each year, the Board elects one of its members as president and one as vice-president to serve as such for one year. The Board members on June 30, 2015, were as follows:

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Letter of Transmittal*

*For the Fiscal Year Ended June 30, 2015*

---

Board Member	Service as a Board Member		
	Began	Expires	
Tracy Davidson	01/01/14	12/31/17	President
Rick Vilardo	01/01/14	12/31/17	Vice President

Dr. Carol French	01/01/12	12/31/15	Member
Dr. Nancy Nestor-Baker	01/01/14	12/31/17	Member

The Superintendent of Schools is the Chief Executive and Administrative Officer for the Westerville Board of Education. On July 1, 2013, John Kellogg, Ed.D. was appointed Superintendent. Dr. Kellogg, in this capacity, directs and supervises the work of all the schools, offices, and employees of the Board, except the Treasurer and the Treasurer's staff. Dr. Kellogg is in his 31<sup>st</sup> year of service to public education having served in the roles of teacher, administrator and Chief Executive Officer.

The Treasurer is the chief financial officer (CFO) of the District and is responsible directly to the Board for maintaining all financial records, issuing all payments, maintaining custody of all District funds and assets, and investing idle funds as specified by Ohio Law. Bart Griffith was appointed as Treasurer/CFO on August 15, 2011. Mr. Griffith has been in the government finance profession for 22+ years.

**ECONOMIC DEVELOPMENT AND OUTLOOK**

The City of Westerville is located in the northeast quadrant of Ohio's fastest growing metropolitan area and is a vital city of 37,000 residents within 11.5 square miles that abut the City of Columbus, Ohio's capital. The City has immediate access to I-71 and I-270. Settled in 1806, Westerville's historic legacy serves as a constant backdrop to its steady residential and corporate growth. New and existing businesses enjoy the character of the cobblestone streets in Uptown Westerville and a business climate poised for the 21<sup>st</sup> century.

Employment in Westerville has improved with unemployment in June of 2014 of approximately 4.9% decreasing to 3.7% as of June 2015. Employment in the District is diversified with a majority in the finance and insurance sector.

The District has an excellent relationship with the City of Westerville, which assures that development projects selected by the City are also highly desirable for the District. When the City of Westerville uses an incentive to attract a business, it primarily uses Community Reinvestment Areas (CRAs) or Tax Increment Financing (TIF) areas. In either case, the District is reimbursed for property taxes it would have collected through an income tax sharing agreement with the City of Westerville. In almost every case, the reimbursement is significantly more than the District would have collected without the incentive being in place. The District and City maintain a strong working relationship to attract desirable development to the community.

## WESTERVILLE CITY SCHOOL DISTRICT, OHIO

### *Letter of Transmittal*

*For the Fiscal Year Ended June 30, 2015*

---

#### **EMPLOYEE RELATIONS**

The District currently has approximately 1,750 full-time and part-time employees. Four organizations represent District employees. For collective bargaining purposes, the Westerville Education Association (WEA) represents certificated employees, which include teachers and educational specialists. Classified employees are divided into three bargaining unions: the bus drivers and mechanics are represented by Ohio Association of Public School Employees (OAPSE #719); the custodial/maintenance staff and food service staff are represented by Ohio Association of Public School Employees (OAPSE #138); and the clerical staff is represented by the Westerville Education Support Staff Association (WESSA). In the opinion of School District officials, labor relations are good.

#### Certified Staff

The teaching or certified staff is represented by the Westerville Education Association (WEA), which is affiliated with the Ohio Education Association (OEA) and the National Education Association (NEA). The Board has bargained with the WEA since September 1, 1997. The Board and the WEA signed a three-year agreement effective September 1, 2015 through August 31, 2018. The agreement provides a 2.0% raise and \$900 stipend effective for fiscal year 2015 through 2018.

#### Classified Staff

Classified employees are represented by three unions: bus drivers and mechanics are represented by the Ohio Association of Public School Employees (OAPSE #719), the custodial, maintenance and food service staff are represented by OAPSE #138, and the clerical staff is represented by Westerville Educational Support Staff Association (WESSA). In June of 2014, all three unions approved new four year agreements. The agreements provide a 2% raise for fiscal year 2015 through 2018.

#### **FINANCIAL INFORMATION**

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records are maintained during the fiscal year on a budgetary basis system of accounting as prescribed by State statute. Cash basis accounting differs from generally accepted accounting principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB).

#### Internal Controls

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of "reasonable assurance" recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management. Management believes the internal controls adequately meet the above objectives.

## WESTERVILLE CITY SCHOOL DISTRICT, OHIO

### *Letter of Transmittal*

*For the Fiscal Year Ended June 30, 2015*

---

#### **Budgetary Controls**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control required by Ohio Revised Code is at the fund level. The level of budgetary control imposed by the District (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level for all funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education. The District maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Unencumbered appropriation balances are verified prior to the release of purchase orders to ensure funds are available to meet the obligation created by the purchase order. Encumbered amounts at year-end are carried forward to succeeding fiscal years and are not re-appropriated.

#### **Financial Planning and Policies**

As required by Ohio Revised Code, the District adopts a five-year financial forecast annually to ensure long term financial success. It serves as a planning tool to certify if funds are available for future expenditures and to strategize when the District will need to return to voters for additional funds or to reduce expenditures accordingly. The most recent forecast, approved in October 2015, shows a positive available fund balance through 2020.

### **AWARDS AND ACKNOWLEDGEMENTS**

#### **GFOA Certificate of Achievement**

The Government Finance Officers Association of the United States and Canada awarded the Certificate of Achievement for Excellence in Financial Reporting to the Westerville City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2013. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current Comprehensive Annual Financial Report continues to meet the high standards required by the Certificate of Achievement program, and we are submitting it to GFOA to determine its eligibility for a certificate.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Letter of Transmittal*

*For the Fiscal Year Ended June 30, 2015*

---

**Independent Audit**

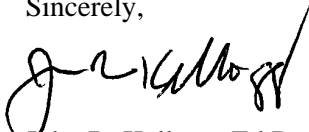

State statutes require a bi-annual audit by independent auditor's unless a single audit is required. The Ohio Auditor of State conducted the District's 2015 fiscal year audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report.

**Acknowledgments**

The preparation and publication of this Comprehensive Annual Financial Report on a timely basis would not have been possible without the cooperation of the entire Treasurer's Department. A special note of appreciation is extended to the District's Assistant Treasurer, Laura A. Hendricks, whose countless hours and dedication made this document a reality.

Finally, this report would not have been possible without the continued support of the Westerville Board of Education who values quality financial information with which to help make decisions. Without their leadership and commitment to excellence, this report would not be possible.

Sincerely,

  
John R. Kellogg, Ed.D

## INDEPENDENT AUDITOR'S REPORT

Westerville City School District  
Franklin County  
936 Eastwind Drive  
Westerville, Ohio 43081

To the Board of Education:

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Westerville City School District, Franklin County, Ohio (the District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Westerville City School District, Franklin County, Ohio, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

***Emphasis of Matter***

As discussed in Note 3 to the financial statements, during the year ended June 30, 2015, the District adopted Governmental Accounting Standard No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. We did not modify our opinion regarding this matter.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

*Supplementary and Other Information*

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2015, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Management's Discussion & Analysis*  
*For the Fiscal Year Ended June 30, 2015*  
*Unaudited*

---

The management of the Westerville City School District offers the readers of the District's Comprehensive Annual Financial Report this narrative overview and analysis of the financial activities for the year ended June 30, 2015. The District encourages readers to consider the information presented here in conjunction with additional information that has been furnished in the letter of transmittal, notes to the basic financial statements and the financial statements to enhance their understanding of the District's financial performance.

## **FINANCIAL HIGHLIGHTS**

The District's net position increased by \$32.1 million or 48.3%. Program revenues accounted for \$32.4 million or 15.8% of total revenues, and general revenues accounted for \$172.4 million or 84.2%.

The general fund reported a positive fund balance of \$90.8 million.

## **USING THIS COMPREHENSIVE ANNUAL FINANCIAL REPORT**

This comprehensive annual financial report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the Westerville City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's major funds with all other non-major funds presented in total in one column. The major fund for the Westerville City School District is the general fund. The District has also selected to present the debt service fund and the permanent improvement fund as major funds.

## **REPORTING THE DISTRICT AS A WHOLE**

### *Statement of Net Position and Statement of Activities*

While this document contains a large number of funds utilized by the School District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the questions, "How did the District perform financially in 2015?" The Statement of Net Position and the Statement of Activities help to answer this question. These statements include *all assets plus deferred outflows of resources* and *liabilities plus deferred inflows of resources* using the *accrual basis of accounting*, which is similar to the accounting used by private sector corporations. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net position* and change in net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The reader must also consider other non-financial factors such as the District's property tax base, current property tax laws, student enrollment growth, facility conditions and other factors in arriving at their conclusion regarding the overall health of the District.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Management's Discussion & Analysis*  
*For the Fiscal Year Ended June 30, 2015*  
*Unaudited*

---

In the Statement of Net Position and the Statement of Activities, all of the District's activities are reported as governmental including instruction, support services, operation and maintenance of plant, student transportation and extracurricular activities.

**REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS**

*Fund Financial Statements*

Our analysis of the District's major funds begins on page 23. The fund financial statements begin on page 29 and provide detailed information about the most significant funds – not the District as a whole. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's three types of funds, governmental, proprietary and fiduciary use different accounting approaches as further described in the notes to the financial statements.

*Governmental Funds*

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances remaining at year-end available for spending in future periods. These funds are reported utilizing an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

*Proprietary Funds*

Proprietary funds use the same basis of accrual basis of accounting, the same as on the entity-wide statements. The District uses an internal service fund to account for the Intra-District Services Fund which provides copy and print services to other funds, as well as an internal service fund to account for a self-insurance program and one for workers compensation insurance. The assets plus deferred outflows, liabilities plus deferred inflows, and net position of the internal service funds have been included within the governmental activities.

*Fiduciary Funds*

The District is the trustee, or fiduciary for various student managed activity programs, various scholarship programs and other items listed as agency and private purpose. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position on page 38-39. We exclude these activities from the District's other financial statements because the net position cannot be utilized by the District to finance its operations.

**FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets plus deferred outflows were less than liabilities plus deferred inflows by \$34.4 million at the close of the most recent fiscal year. This is due to the implementation of GASB 64 which is discussed below.

A significant portion of the District's net position, \$63.5 million, reflects its investment in capital assets less any related debt used to acquire those assets that is still outstanding. The District uses capital assets to provide

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
**Management's Discussion & Analysis**  
**For the Fiscal Year Ended June 30, 2015**  
**Unaudited**

services; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1 provides a comparative analysis of fiscal year 2015 to 2014.

(Table 1)  
Net Position

	Governmental Activities	
	2015	2014 (restated)
Current assets	\$228,352,802	\$201,671,459
Capital assets	<u>151,677,928</u>	<u>150,867,422</u>
Total assets	380,030,730	352,538,881
Deferred outflows	17,566,174	15,315,173
Current liabilities	19,505,012	16,319,257
Long term liabilities	293,042,661	336,070,459
Total liabilities	312,547,673	352,389,716
Deferred inflows	119,577,448	82,658,996
Net position:		
Net investment in capital assets	63,530,757	54,584,950
Restricted	19,876,123	20,473,399
Unrestricted	(117,935,097)	(142,253,007)
Total net position	<u>(\$34,528,217)</u>	<u>(\$67,194,658)</u>

An additional portion of the District's net position, \$19.9 million, represents resources subject to external restrictions on how they may be used.

During 2015, the School District adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Management's Discussion & Analysis*  
*For the Fiscal Year Ended June 30, 2015*  
*Unaudited*

---

governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the District's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the School District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the School District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2014, from \$145,408,272 to a deficit of \$67,194,658.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

**Unaudited**

---

*Governmental Activities*

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 functional expenses still include pension expense of \$10,950,998 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expense of \$7,829,081.

Consequently, in order to compare 2015 total program expenses to 2014, the following adjustments are needed:

Total 2015 program expenses under GASB 68	\$ 172,131,521
Pension expense under GASB 68	(7,829,081)
2015 contractually required contributions	<u>12,178,263</u>
Adjusted 2015 program expenses	176,480,703
Total 2014 program expenses under GASB 27	<u>161,549,689</u>
Increase in program expenses not related to pension	<u>\$ 14,931,014</u>

The net position of the District's governmental activities increased by \$32.6 million. Unrestricted net position reflects a negative balance of \$34.5 million. In 2015 the District began the process of developing its next strategic plan to best utilize the resources available and to preserve those resources as long as possible. As the financial outlook of the District has stabilized and our Five Year Forecast shows a positive ending cash balance through 2020, Board of Education began to reinstate some of the reductions in staff and programs that had remained in effect since the passage of an emergency levy in 2012 as well as implement some new programs. The most significant of these was all employee groups received raises for the first time in two years and Teaching and Learning Roadmap which is projected to spend ~\$9 million over five years on student devices, hardware and professional development with the goal of the District having a 2:1 device to student ratio.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The table below reflects the cost of program services and the net cost of those services after taking into account the program revenues for the governmental activities. The net cost of program services must be supported by general revenues including tax revenue, investment earnings and unrestricted State entitlements.

---

The District's reliance upon tax revenues is demonstrated by the graph below indicating 60.7% of total revenues from local taxes. The other large portion of general revenue support is the State Foundation program as 23.3% of total revenues. The reliance on general revenues is indicated by the net services column reflecting the need for \$139.8 million of support as well as the graph indicating general revenues comprise 84.2% of total revenues.

***The District's Funds***

The District's governmental funds (as presented on the Balance Sheet on page 29) reported a combined fund balance of \$110.5 million, which represents an increase of \$19.1 million. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2015 and 2014.

***General Fund***

The District's general fund balance has increased in each of the last two years due to revenues that continue to increase and exceed expenditures. Property tax revenue decreased \$6 million due the accrual process. A full year of collection of the 6.71 mill emergency property tax levy passed in March 2012 in FY 2014 increased the amount available for advance by \$6 million in FY 2014, but the amount remained the same for FY 2015. Intergovernmental – state revenue increased \$3.3 million due to increased State Aid. State Aid is based on a complex funding formula created by the State. Other revenue increased \$680K due to catastrophic aid reimbursement of ~\$340K as the District made a concentrated effort in 2015 to submit for all possible costs that were eligible for reimbursement. Also, the District received increased Medicaid reimbursements of \$325K due to more eligible students participating. The tables and graphs that follow assist in illustrating the financial activities and balance of the general fund.

(Table 4)

	<u>Fund Balance June 30, 2015</u>	<u>Fund Balance June 30, 2014</u>	<u>Increase</u>
General	\$ 90,790,558	\$ 71,136,642	\$ 19,653,916
Debt Service	8,418,185	8,293,123	125,062

*For the Fiscal Year Ended June 30, 2015*  
*Unaudited*

---

Expenditures have increased \$9.9 million over the prior year. Salaries and wages and fringe benefits have increased \$6.3 million due to salary increases and rising costs of medical insurance. In the previous two fiscal years no employee group received raises. In fiscal year 2015 all employees received raises and steps that averaged ~6%. Medical premiums increased ~7% in 2015. Supplies increased \$508K as the Board decided to purchase workbooks in 2015 that had previously been purchased by students and new curriculum software was purchased. Miscellaneous increased \$2.7 million due to the Board appropriating an additional \$440K to cover needed capital improvements that were not funded in the permanent improvement fund. An additional \$1.7 million was used to purchase Chromebooks, projectors and speakers to implement the District's Teaching and Learning Roadmap. Also, there was an increase of \$580K in aides and other staff purchased through the Educational Service Center of Central Ohio.

*Other Funds*

The District's debt service fund balance increased by \$125 thousand. The revenues of the fund are property taxes, calculated by the county auditor, and state homestead and rollback money computed as a percentage of the tax due to the fund. The expenses of the fund include debt principal and interest payments as well as county auditor and treasurer fees.

The permanent improvement fund had a decrease in fund balance of \$633 thousand. The revenues of the fund are property taxes, calculated by the county auditor, and state homestead and rollback money computed as a percentage of the tax due to the fund. The expenses of the fund were \$6.6 million for District facilities acquisition and construction costs and a transfer to the debt service fund of \$3 million to be used for debt repayment.

Other governmental funds consist of special revenue funds. The decrease in fund balance of \$10 thousand is primarily due to timing of expenditures in the State and Federal grants.

**General Fund Budget Information**

The District's budget is prepared in accordance with Ohio law and is based on the cash basis of accounting, utilizing cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

The District utilizes the five-year forecast as the original document from which to form the operating budget. After updating of the forecast for changes in revenue and expenditure assumptions the operating budget begins at the school level. Each school in the district receives a per pupil allocation augmented with resources for special education students in the specific buildings. The departments then receive the remainder of funds to bring the budget into balance with the five-year forecast. The site and department budgets are reviewed periodically to ensure management becomes aware of any significant variations during the year.

**Capital Assets**

The District has \$151.7 million invested in capital assets net of depreciation. Acquisitions totaled \$7.8 million and depreciation was \$7 million. Capital asset disposals, net of accumulated depreciation were \$52 thousand. The acquisitions were for various land and building improvements, equipment and buses.

For more detailed information regarding the District's capital assets, refer to Note 8 in the notes to the basic financial statements.

**Debt**

At June 30, 2015, the District had \$87.3 million in outstanding bonds. The District paid \$7.9 million in principal on bonds outstanding and \$3.3 million in interest during the fiscal year.

---

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% of the total assessed value of real and personal property. At June 30, 2015, the District's general obligation debt was below the legal limit.

For more detailed information regarding the District's debt, refer to Note 9 in the notes to the basic financial statements.

**Requests for Information**

This financial report is designed to provide a general overview of the Westerville City School District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Westerville City Schools, Office of the Treasurer, 936 Eastwind Drive, Westerville, Ohio, 43081.

RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO  
NET POSITION OF GOVERNMENTAL ACTIVITIES  
JUNE 30, 2015

<b>Total governmental fund balances</b>		\$	110,480,714
<i>Amounts reported for governmental activities on the statement of net position are different because:</i>			
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.			151,677,928
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred inflows in the funds.			
Property taxes receivable	\$	4,648,797	
Accrued interest receivable		96,729	
Intergovernmental receivable		1,636,551	
Total		6,382,077	6,382,077
An internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities on the statement of net position.			5,139,624
Unamortized premiums on bonds issued are not recognized in the funds.			(4,950,247)
Unamortized amounts on refundings are not recognized in the funds.			3,608,076
Accrued interest payable is not due and payable in the current period and therefore is not reported in the funds.			(260,133)
The net pension liability is not due and payable in the current period; therefore, liability and related deferred inflows are not reported in governmental funds.			
Deferred outflows - Pension		13,958,098	
Deferred Inflows - Pension		(34,168,569)	
Net pension liability		(188,043,277)	
Total		(208,253,748)	(208,253,748)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.			
General obligation bonds		(87,267,795)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

<b>Net change in fund balances - total governmental funds</b>	\$	19,135,204
<i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.		
Capital asset additions	\$ 7,831,668	
Current year depreciation	<u>(6,969,460)</u>	
Total		862,208
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net position.		
		(51,702)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Property taxes	(166,578)	
Earnings on investments	80,079	
Intergovernmental	<u>281,997</u>	
Total		195,498
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position.		
		7,915,000
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in additional interest being reported in the statement of activities:		
Decrease in accrued interest payable	24,537	
Accreted interest on capital appreciation bonds	(250,528)	
Amortization of bond premiums	976,400	
Amortization of deferred charges	<u>(756,099)</u>	
Total		(5,690)
Contractually required pension contributions are reported as expenditures in governmental funds; however, the statement of activities reports these amounts as deferred outflows.		
		12,178,263
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.		
		(7,829,081)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
		(128,028)
An internal service fund used by management to charge the costs of insurance to individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.		
		<u>394,769</u>
<b>Change in net position of governmental activities</b>	<b>\$</b>	<b><u>32,666,441</u></b>

## WESTERVILLE CITY SCHOOL DISTRICT, OHIO

### *Notes to Basic Financial Statements For the Fiscal Year Ended June 30, 2015*

---

#### **(1) DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY**

The Westerville City School District (the “District”) was organized in the early 1850’s and is a fiscally independent political subdivision of the State of Ohio. The District is a city district as defined by Section 3311.02 of the Ohio Revised Code. The District operates under a locally elected five-member board and is responsible for the provision of public education to residents of the District. The District encompasses 52 square miles and provides services to approximately 14,722 students.

The accompanying basic financial statements comply with GASB Statement No. 14, “The Financial Reporting Entity” as amended by GASB Statement No. 39, “Determining Whether Certain Organizations Are Component Units” and GASB Statement No. 61, The Financial Reporting Entity: Omnibus on Amendment of GASB Statements No. 14 and 34”. The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization’s Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization’s resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary governments financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

#### **(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District’s significant accounting policies are described below.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

---

**(a) Basis of Presentation**

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

*Government-wide Financial Statements* - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal Service fund activity is eliminated to avoid overstatement of revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation.

The government-wide statements are prepared using the economic resources measurement focus. All assets plus deferred outflows of resources and liabilities plus deferred inflows of resources associated with the operation of the District are included on the statement of net position. This is the same approach used in the preparation of proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the governmental activities in the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods and services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

*Fund Financial Statements* - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column, and all nonmajor funds are aggregated into one column. Internal Service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

## WESTERVILLE CITY SCHOOL DISTRICT, OHIO

### *Notes to Basic Financial Statements For the Fiscal Year Ended June 30, 2015*

---

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets plus deferred outflows of resources and current liabilities plus deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations of these funds are included on the statement of net position. Proprietary fund's operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net position.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's Internal Service funds are charges for services. Operating expenses for internal service funds include the cost of services. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The private purpose trust fund is accounted for using a flow of economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

#### **(b) Fund Accounting**

The District uses funds to report on its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district activities or functions.

#### **Governmental Funds**

Governmental funds are those through which most governmental functions of the District are financed. Governmental fund reporting focuses on the sources, uses and balance of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as fund balance. The following are the District's major governmental funds:

General Fund - This Fund is the general operating fund of the District and is used to account for and report all financial resources except those required to be accounted for and reported in another fund.

## WESTERVILLE CITY SCHOOL DISTRICT, OHIO

### *Notes to Basic Financial Statements For the Fiscal Year Ended June 30, 2015*

---

Debt Service Fund - This Fund is used to account for the accumulation of resources for, and the payment of, governmental long-term debt principal, interest, and related costs.

Permanent Improvement Fund - This Fund is used to account for financial resources to be used for the maintenance of capital facilities, technology and curriculum.

Other governmental funds of the District are used to account for specific revenue sources that are restricted or committed to an expenditure for specific purposes other than debt service or capital projects.

#### **Proprietary Funds**

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows.

Internal Service Funds - Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District on a cost reimbursement basis. Charges are intended only to recoup the total costs of such services.

Self Insurance Fund -The Self Insurance Fund is used to account for monies received from other funds as payment for providing medical and dental employee benefits.

Print Shop Fund - The Print Shop Fund is used to account for the monies received for printing and duplicating services provided by the Print Shop to all District departments and various community organizations.

Worker's Compensation Fund - The Worker's Compensation Fund is used to account for monies received from other funds as payment for providing Worker's Compensation benefits to employees.

#### **Fiduciary Funds**

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds.

Private-purpose Trust Fund - A private-purpose trust fund accounts for resources, including both principal and earnings, which must be expended according to the provisions of the student scholarship agreements and are not available to support the District's own programs.

Agency Funds - Agency funds are used to account for assets held by the District for staff, student activity programs that are managed by the students, and individuals for medical spending. Agency funds are purely custodial and thus do not involve measurement of results of operations.

WESTERVILLE CITY SCHOOL DISTRICT, OHIO

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

(c) ***Basis of Accounting***

The government-wide financial statements are reported using the *economic resources measurement focus* and *accrual basis of accounting*, as are the proprietary fund and private purpose trust fund of the fiduciary fund financial statements. The agency funds of the fiduciary funds do not have a measurement focus, but are reported using the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing related to cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and other similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the *current economic financial resources measurement focus* and *the modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available when they are collected within 60 days of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service principal expenditures, as well as expenditures related to compensated absences and claims and judgements, are recorded only when payment is due.

*Deferred Outflows of Resources and Deferred Inflows of Resources* - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources have been reported for the following two items related the District's net pension liability: (1) the difference between expected and actual experience of the pension systems, and (2) the District's contributions to the pension systems subsequent to the measurement date. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

---

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2015, but which were levied to finance fiscal year 2016 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

The District also reports a deferred inflow of resources for the net difference between projected and actual earnings on pension plan investments related to the District's net pension liability. This deferred inflow of resources is only reported on the government-wide statement of net position.

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets plus deferred outflows of resources and liabilities plus deferred inflows of resources at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**(d) Budgets**

The District is required by state statute to adopt an annual appropriated cash basis budget for all funds other than agency funds. The specific timetable for the fiscal year 2015 was as follows:

1. Prior to January 15 of the preceding year, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The purpose of this budget document is to reflect the need for existing (or increased) tax rates.
2. By no later than January 20, the Board-adopted budget is filed with the Franklin County Budget Commission for a tax rate determination. The original budget revenue amounts reported in the budgetary statement for the General Fund reflects the amounts set forth in this tax budget.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

3. Prior to March 15, the Board of Education accepts by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources (the Certificate), which states the projected revenue for each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate. On or about July 1, the Certificate is amended to include any unencumbered balances from the preceding year as reported by the District Treasurer. The Certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The final budget amounts reported in the budgetary statement reflect the amounts set forth in the final amended Certificate issued for fiscal year 2015.
4. By July 1, the annual appropriation resolution is legally enacted by the Board of Education at the fund level for all funds, which is the legal level of budgetary control. This appropriation then serves as a basis for the original budget expenditure amounts reported in the budgetary statements for all funds. State statute permits a temporary appropriation to be effective until no later than October 1 of each year. Resolution appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals.
5. Any revisions that alter the total of any fund appropriations must be approved by the Board of Education.
6. Formal budgetary integration is employed as a management control device during the year for all funds consistent with the general obligation bond indenture and other statutory provisions. All funds completed the year within the amount of their legally authorized appropriation.
7. Appropriation amounts are as originally adopted, or as amended by the Board of Education through the year by supplemental appropriations which either reallocated, decreased or increased the originally appropriated amounts. All supplemental appropriations were legally adopted by the Board during fiscal year 2015.
8. Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Expenditures plus encumbrances may not legally exceed budgeted appropriations at the fund level for all funds.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in governmental funds.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

9. The District prepares its budget on a basis of accounting that differs from GAAP. The actual results of operations are presented in the Statement of Revenues, Expenditures, and Changes in Fund Balances—Budget and Actual—General Fund in accordance with the budget basis of accounting. The major differences between the budgetary basis of accounting and GAAP are outlined.

	<u>Budget Basis</u>	<u>GAAP Basis</u>
Revenues are recorded	when received in cash	when susceptible to accrual
Expenditures are recorded	when paid in cash	when the liability is incurred
Encumbrances are recorded	as the equivalent of an expenditure	as an assignment or commitment of the fund balance

**(e) *Cash and Cash Equivalents***

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Investments".

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market rates. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

The State Treasury Asset Reserve of Ohio (STAR Ohio) is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the Securities Exchange Commission as an investment company, but does operate in a manner similar to Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2015.

Interim deposits are used by the District to purchase legal investments. The Ohio Revised Code authorizes the District to invest in United States and State of Ohio bonds, notes and other obligations: bank certificates of deposits; banker's acceptances; commercial paper notes rated prime and issued by United States corporations and STAR Ohio. During fiscal year 2015, investments were limited to federal agency securities, STAR Ohio, certificates of deposit, and U.S. Government money market accounts.

Under existing statutes, all investment earnings accrue to the General Fund except earnings specifically related to the Food Service, Worker's Compensation, Private Purpose Trust and Auxiliary Funds. Interest credited to the General Fund during fiscal year 2015 was \$220,537 which includes \$65,079 assigned from other funds.

Restricted assets in the debt service fund represent cash equivalents for which use is limited by legal requirements. Restricted assets include matured bonds for which payment has not been requested.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

---

**(f) Inventories**

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method which means that the costs of inventory items are recorded as expenditures in the governmental funds when consumed.

On the fund financial statements, reported material and supplies inventory is equally offset by nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food, purchased food and non-food supplies.

**(g) Prepaid Assets**

Payments made to vendors for services that will benefit periods beyond June 30, 2015 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is recorded in the year in which services are consumed.

**(h) Capital Assets and Depreciation**

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets are reported in the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for the cost of additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date donated. The District follows the policy of not capitalizing assets with a cost of less than \$2,500 and a useful life of less than 2 years. The District does not maintain any infrastructure.

All reported capital assets, with the exception of land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Useful Life</u>
Land Improvements	20 years
Buildings & Improvements	10-50 years
Furniture, Fixtures & Equipment	5-15 years
Vehicles	7-10 years

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

**(i) *Compensated Absences***

The District follows GASB Statement No. 16, *Accounting for Compensated Absences*, which requires that a liability be accrued for sick leave if it is probable that the employee will be compensated through cash payment. Upon retirement, District employees are paid their accumulated balances up to a fixed number of days. This number is determined by negotiated agreements or board policy depending on the employee's classification.

The entire compensated absence liability is reported in the government-wide financial statements. For governmental fund financial statements, the amount of accumulated vacation and sick leave of employees has been recorded as a current liability to the extent payments come due each period upon the occurrence of employee resignations or retirements. The balance of the liability is not recorded. For proprietary funds, the entire amount of compensated absences is recorded as an expense and liability of the fund.

**(j) *Bond Premium and Discount/Accounting Gain or Loss***

Bond premiums are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds.

For bond refunds resulting in the defeasance of the debt reported in the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred outflow of resources.

On the governmental fund financial statements, bond premiums are recognized in the current period.

**(k) *Accrued Liabilities and Long-Term Debt***

All accrued liabilities and long-term debt are reported in the entity-wide financial statements as well as the proprietary fund financial statements.

For governmental fund financial statements, the accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, claims and judgments and compensated absences paid from governmental funds are reported as a liability in the fund financial statements only for the portion due for payment during the current year. Long-term debt paid from governmental funds is not recognized as a liability in the fund financial statements until due.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

**(l) *Interfund Transactions***

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net position.

**(m) *Fund Balances***

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

*Nonspendable* - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable.

*Restricted* - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

*Committed* - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

*Assigned* - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the fund balance policy of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

***Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015***

---

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**(n) *Net Position***

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component “net investment in capital assets,” consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents amounts restricted for food service.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

**(o) *Pensions***

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

**(p) *Statement of Cash Flows***

For purposes of the statement of cash flows, the proprietary funds consider all highly liquid investments, with a maturity of three months or less when purchased, to be cash equivalents. In addition, all cash and investments of the pool are also considered to be cash equivalents, since they are available to the proprietary funds on demand.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

---

**(q) *Extraordinary and Special Items***

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. For the fiscal year 2015, the District reported no extraordinary or special items.

**(3) ACCOUNTABILITY AND COMPLIANCE**

**(a) Change in Accounting Principles/Restatement of Net Position**

For fiscal year 2015, the District has implemented GASB Statement No. 68, "*Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27*", GASB Statement No. 69 "*Government Combinations and Disposals of Government Operations*", and GASB Statement No. 71, "*Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68*".

GASB Statement No. 69 establishes accounting and financial reporting standards related to government combinations and disposals of government operations. The Statement improves the decision usefulness of financial reporting by requiring that disclosures be made by governments about combination arrangements in which they engage and for disposals of government operations. The implementation of GASB Statement No. 69 did not have an effect on the financial statements of the District.

GASB Statement No. 68 improves the accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The implementation of GASB Statement No. 68 affected the District's pension plan disclosures, as presented in Note 12 to the financial statements, and added required supplementary information which is presented on pages 82 through 88.

GASB Statement No. 71 improves the accounting and financial reporting by addressing an issue in GASB Statement No. 68, concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

---

A net position restatement is required in order to implement GASB Statement No 68 and 71. The governmental activities at July 1, 2014 have been restated as follows:

	Governmental Activities
Net position as previously reported	\$ 145,408,272
Deferred outflows - payments subsequent to measurement date	10,950,998
Net pension liability	(223,553,928)
Restated net position at July 1, 2014	\$ (67,194,658)

Other than employer contributions subsequent to the measurement date, the District made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available. The restatement had no effect on fund balances.

**(b) Deficit Fund Balances**

Fund balances at June 30, 2015 included the following individual fund deficits:

<u>Nonmajor funds</u>	<u>Deficit</u>
Straight A Grant	\$ 141
Miscellaneous State Grants	39
Refugee Children School Impact Aid	12,593
Title I	12,130
IDEA Preschool Grant	3,121

The general fund is liable for any deficit in this fund and provides transfers when cash is required, not when accruals occur. The deficit fund balance resulted from adjustments for accrued liabilities.

**(4) DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

**(a) Deposits with Financial Institutions**

At June 30, 2015, the carrying amount of all District deposits was \$22,882,099. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2015, \$4,751,346 of the District's bank balance of \$23,018,887 was exposed to custodial risk as discussed below, while \$18,267,541 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
**Notes to Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2015**

**(b) Investments**

As of June 30, 2015, the District had the following investments and maturities:

<u>Investment type</u>	<u>Fair Value</u>	<u>Investment Maturities</u>				
		<u>6 months or less</u>	<u>7 to 12 months</u>	<u>13 to 18 months</u>	<u>19 to 24 months</u>	<u>Greater than 24 months</u>
STAR Ohio	\$ 1,744,230	\$ 1,744,230	\$ -	\$ -	\$ -	\$ -
FHLB	16,334,979	-	-	1,903,679	2,008,880	12,422,420
FFCB	6,296,027	-	-	300,012	-	5,996,015
FHLMC	7,116,505	1,499,190	-	2,003,520	619,715	2,994,080
FNMA	6,002,180	-	-	-	-	6,002,180
FNR	104,865	-	-	-	-	104,865
U. S. Government Money Market	25,718,919	25,718,919	-	-	-	-
	<u>\$ 63,317,705</u>	<u>\$ 28,962,339</u>	<u>\$ -</u>	<u>\$ 4,207,211</u>	<u>\$ 2,628,595</u>	<u>\$ 27,519,560</u>

*Interest Rate Risk:* As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

*Credit Risk:* The District's investments in federal agency securities were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. Standard & Poor's has assigned STAR Ohio and the U.S. Government money market a AAAM money market rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District's investment policy does not specifically address credit risk beyond requiring the District to only invest in securities authorized by State statute.

*Custodial Credit Risk:* For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

*Concentration of Credit Risk:* The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2015:

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

<u>Investment Type</u>	<u>Fair Value</u>	<u>% to Total</u>
STAR Ohio	\$ 1,744,230	2.75
FHLB	16,334,979	25.8
FFCB	6,296,027	9.94
FHLMC	7,116,505	11.24
FNMA	6,002,180	9.48
FNR	104,865	0.17
U. S. Government Money Market	<u>25,718,919</u>	<u>40.62</u>
<b>Total</b>	<b><u><u>\$ 63,317,705</u></u></b>	<b><u><u>100.00</u></u></b>

The weighted average maturity of the District's investments is 1.60 years.

**(c) *Reconciliation of Cash and Investments to the Statement of Net Position***

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net position as of June 30, 2015:

<u>Cash and Investments per Note</u>	
Carrying Amount of Deposits	\$22,882,099
Investments	<u>63,317,705</u>
Total	<u><u>\$86,199,804</u></u>
 <u>Cash and Investments per Financial Statements</u>	
Governmental Activities	\$85,715,015
Private-Purpose Trust Fund	43,642
Agency Funds	<u>441,147</u>
Total	<u><u>\$86,199,804</u></u>

**(5) PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

---

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2015 represent the collection of calendar year 2014 taxes. Real property taxes received in calendar year 2015 were levied after April 1, 2014, on the assessed values as of January 1, 2014, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2015 represent the collection of calendar year 2014 taxes. Public utility real and personal property taxes received in calendar year 2015 became a lien on December 31, 2013, were levied after April 1, 2014, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Franklin and Delaware Counties. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2015, are available to finance fiscal year 2015 operations. The amount available as an advance at June 30, 2015 was \$40,097,146 in the general fund, \$2,915,644 in the bond retirement fund and \$2,953,530 in the permanent improvement fund. This amount is recorded as revenue. The amount available for advance at June 30, 2014 was \$40,788,992 in the general fund, \$2,137,063 in the bond retirement fund and \$2,512,623 in the permanent improvement fund. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2015 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

The assessed values upon which the fiscal year 2015 taxes were collected are:

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
**Notes to Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2015**

	2014 Second Half Collections		2015 First Half Collections	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/residential and other real estate	\$ 2,268,657,130	98.42	\$ 2,282,514,080	98.39
Public utility personal	<u>36,496,620</u>	<u>1.58</u>	<u>37,466,650</u>	<u>1.61</u>
Total	<u>\$ 2,305,153,750</u>	<u>100.00</u>	<u>\$ 2,319,980,730</u>	<u>100.00</u>

**(6) RECEIVABLES**

Receivables and due from other governments at June 30, 2015 consisted of taxes, accounts, payments in lieu of taxes, accrued interest and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds.

A summary of the principal items is as follows:

**Governmental Activities:**

Taxes - Current & Delinquent	\$ 133,476,773
Payment in Lieu of Taxes	2,547,223
Accounts	76,896
Accrued Interest	146,107
Intergovernmental	<u>5,306,947</u>
Total	<u>\$ 141,553,946</u>

**(7) INTERFUND TRANSACTIONS**

(a) Interfund balances at June 30, 2015 as reported on the fund statements, consist of the following amounts receivable/payable from other funds:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Nonmajor governmental fund	\$201,907

The primary purpose of the interfund balances is to cover negative cash balances in specific funds where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received. All interfund balances are expected to be repaid within one year.

Interfund balances between governmental funds are eliminated on the government-wide financial statements; therefore, no internal balances at June 30, 2015 are reported on the statement of net position.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

---

(b) Interfund transfers for the fiscal year ended June 30, 2015, consisted of the following, as reported on the fund statements:

<u>Transfers from:</u>	<u>Transfer to:</u>	<u>Amount</u>
General	Permanent Improvement	\$ 100,000
Permanent Improvement	Debt Service	<u>2,977,013</u>
Total		<u>\$ 3,077,013</u>

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Transfers consisted of \$100,000 from the general fund to the permanent improvement fund to establish funds for the future replacement of the artificial turf on the athletic fields and \$2,977,013 from the permanent improvement fund to the debt service fund in order to cover a debt payment.

Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

Community Services	18,362
Extracurricular Activities	<u>328,094</u>

Total depreciation expense \$ 6,969,460

**(9) LONG-TERM OBLIGATIONS**

All current obligation bonds outstanding were issued to provide funds for the acquisition and construction of equipment and facilities. The tax anticipation notes are related to various long-term capital projects and are accounted for as long-term obligations. All bonds and notes are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Payments of principal and interest relating to these liabilities are recorded as expenditures in the Debt Service Fund. Long-term obligations currently outstanding are reported as follows:

<u>Purpose</u>	<u>Date Issued</u>	<u>Interest Rate</u>	<u>Final Maturity</u>	<u>Original Amount</u>	<u>Balance at June 30, 2015</u>
Advance Bond Refunding (1)	12/14/06	4.13%	12/01/27	48,365,000	\$45,405,000
Tax Anticipation Notes (2)	03/23/10	2.82%	12/01/20	24,415,000	15,490,000
Advance Bond Refunding (3)	08/15/12	1.65%	12/01/22	27,320,000	<u>26,372,795</u>
					<u>\$87,267,795</u>

- (1) Refunded portions of bonds previously issued on 3/15/01.
- (2) Notes issued in anticipation of the collection of proceeds of the 3.95 mill permanent improvement levy approved by the electors of the school district at the election held May 5, 2009. Proceeds to be used for the acquisition and construction of various long-term permanent improvements projects.
- (3) Refunded portions of bonds previously issued on 04/07/04.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
**Notes to Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2015**

In December 2006, the District issued \$48,365,000 of general obligation refunding bonds, Series 2006 with interest rates ranging from 4% to 5% (maturing from December 2009 through December 2027) to advance refund a portion of the District's outstanding general obligation bonds. The District defeased these general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all the future debt service payments on the old bonds. The advance refunding represents both legal and in-substance defeasance and was accounted for in accordance with GASB Statement No. 7, *Advance Refundings Resulting in Defeasance of Debt*. Accordingly, the trust accounts assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2012, all of these bonds had matured.

In August 2012, the District issued \$27,320,00 of general obligation refunding bonds, Series 2012 with interest rates ranging from .45% to 3.04% (maturing from December 2012 through December 2022) to advance refund a portion of the District's outstanding general obligation bonds. This issue included an additional \$120,000 in capital appreciation bonds, with a stated interest of 65.58% (maturing December 2018). The accreted value at maturity for the capital appreciation bonds is \$4,165,000. Total accreted interest of \$462,795 on the capital appreciation bonds has been included on the statement of net position at June 30, 2015. The District defeased these general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. The advance refunding represents both legal and in-substance defeasance and was accounted for in accordance with GASB Statement No. 7, *Advance Refundings Resulting in Defeasance of Debt*. Accordingly, the trust accounts assets and the liability for the defeased bonds are not included in the District's financial statements. The balance of the refunded bonds was \$25,910,000 at June 30, 2015.

The reacquisition price exceeded the net carrying amount of the old debt by \$3,090,736. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

The following is a summary of the District's future annual debt service requirements to maturity for general obligation bonds and notes.

<u>Year ending June 30,</u>	<u>Interest rates</u>	<u>Principal</u>	<u>Interest</u>
2016	2.0 - 6.25	\$8,335,000	\$3,080,625
2017	2.25 - 6.25	8,475,000	2,904,364
2018	3.0 - 6.25	8,600,000	2,717,155
2019	3.7 - 6.25	4,745,000	6,573,121
2020	3.04 - 6.25	8,360,000	2,293,395
2021 - 2025	3.04 - 6.25	31,105,000	7,283,329
2026 - 2028	3.7 - 6.25	17,185,000	1,318,125
Total		\$86,805,000	\$26,170,114

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
**Notes to Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2015**

The ORC provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The ORC further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District.

The total voted and non-voted non-exempt debt of the District that could be issued subject to the 9% limitation described above is \$208,798,266. The total District debt (including the Notes) subject to this limitation is \$86,805,000. The total District unvoted debt that could be issued subject to the 1/10 of 1% limitation is \$2,319,981. The District has no debt subject to such limitation, leaving \$2,319,981, available for unvoted debt. Including the balance in the Debt Service Fund at June 30, 2015, the effects of these debt limitations at June 30, 2015 are a voted debt margin of \$130,411,451 and an unvoted debt margin of \$2,319,981.

The aggregate amount of the District's unvoted debt is also subject to overlapping debt restrictions with the Westerville Public Library (the Library). As of June 30, 2015, the District and the Library have complied with the requirement that unvoted overlapping debt must not exceed 1% (10 mills) of the assessed property value.

In the opinion of management, the District has complied with all bond covenants.

Payments of compensated absences are recorded as expenditures in the General Fund, except for those of food service employees, which are recorded in the Food Service (a nonmajor governmental fund).

See Note 12 for details on the net pension liability.

The long-term obligations at June 30, 2014 have been restated as described in Note 3.A. The following changes occurred in long-term liabilities during the year:

<i>Governmental Activities</i>	Restated			Balance at <u>June 30, 2015</u>	Amounts Due <u>In One Year</u>
	Balance at <u>June 30, 2014</u>	<u>Increase</u>	<u>Decrease</u>		
Net Pension Liability	\$233,553,928	\$0	\$(35,510,651)	\$188,043,277	\$0
General Obligation Bonds	94,932,267	250,528	(7,915,000)	87,267,795	\$8,335,000
Compensated Absences	11,657,617	2,203,288	(1,079,563)	12,781,342	2,075,200

Add: Unamortized Premiums				<u>4,950,247</u>	
Total on Statement of Net Position				<u>\$293,042,661</u>	

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

---

**(10) SET-ASIDE CALCULATIONS**

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year. The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State Statute.

	<u>Capital Improvements</u>
Set-Aside Balance, July 1, 2014	\$0
Current Year Set-Aside Requirement	2,362,448
Contributions in Excess of the Current Fiscal Year Set-Aside Requirement	0
Current Year Qualifying Expenditures	(803,332)
Excess Qualified Expenditures from Prior Years	0
Current Year Offsets	(8,923,227)
Waiver granted by ODE	0
Prior Year Offset from Bond Proceeds	0
Total	<u>\$ (7,364,221)</u>
Balance Carried Forward to Fiscal Year 2016	<u>\$ -</u>
Set-Aside Balance June 30, 2015	<u>\$ -</u>

**(11) BUDGET BASIS OF ACCOUNTING**

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

	<u>General fund</u>
Budget basis	\$ 21,025,631
Net adjustment for revenue accruals	(2,287,310)
Net adjustment for expenditure accruals	(398,564)
Net adjustment for other financing sources (uses)	(100,000)
Funds budgeted elsewhere	(18,869)
Adjustment for encumbrances	<u>1,433,028</u>
GAAP basis	<u>\$ 19,653,916</u>

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the uniform school supplies and the public school support fund.

**(12) PENSION PLANS**

*Net Pension Liability*

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
**Notes to Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2015**

---

Ohio Revised Code limits the District’s obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *pension obligation payable* on both the accrual and modified accrual bases of accounting.

***Plan Description - School Employees Retirement System (SERS)***

Plan Description –District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

---

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2015, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$2,171,638 for fiscal year 2015.

***Plan Description - State Teachers Retirement System (STRS)***

Plan Description –District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2015, plan members were required to contribute 12 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2015 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$10,006,625 for fiscal year 2015. Of this amount, \$1,600,460 is reported as pension obligation payable.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2015

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate share of the net pension liability	\$ 27,318,212	\$ 160,725,065	\$ 188,043,277
Proportion of the net pension liability	0.539785%	0.6607821%	
Pension expense	\$ 1,594,197	\$ 6,234,884	\$ 7,829,081

At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
<b>Deferred outflows of resources</b>			
Differences between expected and actual experience	\$ 232,507	\$ 1,547,328	\$ 1,779,835
District contributions subsequent to the measurement date	<u>2,171,638</u>	<u>10,006,625</u>	<u>12,178,263</u>
Total deferred outflows of resources	<u>\$ 2,404,145</u>	<u>\$ 11,553,953</u>	<u>\$ 13,958,098</u>
<b>Deferred inflows of resources</b>			
Net difference between projected and actual earnings on pension plan investments	<u>\$ 4,433,823</u>	<u>\$ 29,734,746</u>	<u>\$ 34,168,569</u>
Total deferred inflows of resources	<u>\$ 4,433,823</u>	<u>\$ 29,734,746</u>	<u>\$ 34,168,569</u>

\$12,178,263 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*

2018	(1,050,329)	(7,046,855)	(8,097,184)
2019	(1,050,329)	(7,046,853)	(8,097,182)
Total	\$ (4,201,316)	\$ (28,187,418)	\$ (32,388,734)

***Actuarial Assumptions - SERS***

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2014, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
**Notes to Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2015**

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	<u>15.00</u>	7.50
Total	<u><u>100.00 %</u></u>	

**Discount Rate** The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
**Notes to Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2015**

	1% Decrease (6.75%)	Discount Rate (7.75%)	1% Increase (8.75%)
District's proportionate share of the net pension liability	\$ 38,974,969	\$ 27,318,212	\$ 17,513,871

**Actuarial Assumptions - STRS**

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
**Notes to Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2015**

**Discount Rate** The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2014.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Discount Rate (7.75%)	1% Increase (8.75%)
District's proportionate share of the net pension liability	\$ 230,095,454	\$ 160,725,065	\$ 102,061,060

**(13) POSTEMPLOYMENT BENEFITS**

**(a) School Employees Retirement System**

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
*Notes to Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2015*

---

beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2015, 0.82 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2015, this amount was \$20,450. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2015, the District's surcharge obligation was \$274,117.

The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$409,231, \$305,169, and \$297,881, respectively. The full amount has been contributed for fiscal years 2015, 2014 and 2013.

**(b) State Teachers Retirement System**

Plan Description – The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2015, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$0, \$120,291, and \$121,545 respectively. The full amount has been contributed for fiscal years 2015, 2014 and 2013.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

**(14) CONTINGENCIES**

**(a) *Grants***

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

**(b) *Litigation***

There are currently a few matters in litigation with the District as a defendant. It is the opinion of management that the potential claims against the District not covered by insurance would not materially affect the financial statements.

**(c) *Foundation Funding***

District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional Districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

**(15) JOINTLY GOVERNED ORGANIZATIONS**

Meta Solutions

The District is a participant in Meta Solutions which is a computer consortium that was the result of a merger between Tri-Rivers Educational Computer Association (TRECA) and the Metropolitan Educational Council (MEC). Meta Solutions develops, implements and supports the technology and instructional needs of schools in a cost-effective manner. Meta Solutions provides instructional, core, technology and purchasing services for its member districts. The Board of Directors consists of the Superintendents from eight of the member districts. Financial information can be obtained from Scott Armstrong, who serves as Chief Financial Officer, 100 Executive Drive, Marion, Ohio 43302.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**

*Notes to Basic Financial Statements  
For the Fiscal Year Ended June 30, 2015*

---

**(16) RELATED ORGANIZATION**

The Westerville School District Library is a political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by Board of Trustees appointed by the Westerville City School District Board of Education. The Board of Trustees possesses its own contracting and budgetary authority, hires and fires personnel and does not depend on the School District for operating subsidies. Although the School District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the tax rate and purpose are discretionary decisions made solely by the Board of Trustees. Financial information may be obtained from the Westerville School District Library at 126 South State Street, Westerville, Ohio 43081.

**(17) RISK MANAGEMENT**

For fiscal year 2015, the District was enrolled in the retrospective rating plan for worker's compensation. The retrospective rating plan allows an employer to assume a portion of the risk in return for a possible reduction in premiums. The greater the assumed risk, the greater the potential reduction in premiums.

Employers who have a consistent claims history and proven safety practices will benefit most from the retrospective rating. The employer can customize the retrospective rating plan to control the amount of risk assumed and the potential savings by selecting the maximum premium and claims costs they are willing to pay. Employers may benefit from retrospective rating because of lower initial premiums and realized cash flow advantages, which increase as premiums are saved.

The District's Workers' Compensation program is accounted for in the workers' compensation internal service fund which pays for all claims, claim reserves and administrative costs of the program. The general fund generates revenues by charging each fund a percentage rate determined by the Bureau for the payroll during the reporting period. The claims liability of \$90,469 is recorded based on an actuarial determination of future claims. The claims liability is expected to be paid within one year.

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The District contracts with an insurance carrier for property insurance and general liability insurance. Professional liability is protected by a \$1,000,000 single occurrence limit, \$2,000,000 general aggregate limit, \$2,000,000 umbrella aggregate limit and no deductible. Vehicles are also covered and have a \$500 deductible for comprehensive and a \$2,000 deductible for collision. Automotive liability has a \$1,000,000 combined single limit of liability. Settlements have not exceeded coverage in any of the last three years, and there has been no reduction in coverage from the prior years.

Post employment health care is provided to plan participants or their beneficiaries through the respective retirement systems discussed in Note 13. As such, no funding is required by the District.

**WESTERVILLE CITY SCHOOL DISTRICT, OHIO**  
**Notes to Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2015**

The District provides life insurance and accidental death and dismemberment insurance to all employees in an amount related to the employee's position, ranging from \$30,000 to \$389,000.

The District has established a limited risk management program for hospital/medical and dental benefits. Premiums are paid into the Self-Insurance Fund by all other funds and are available to pay claims, claim reserves and administrative costs of the program. During fiscal year 2015, a total expense of \$1,143,681 was incurred in administrative costs. An excess coverage insurance policy covers individual claims in excess of \$150,000. The liability for unpaid claims of \$1,019,000 reported at June 30, 2015 is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred, but not reported claims, be accrued at the estimated ultimate cost of settling claims.

Changes in the fund's claims liability amount in 2015 was:

<u>Fiscal Year</u>	<u>Beginning Balance</u>	<u>Claims Incurred</u>	<u>Claims Payments</u>	<u>Ending Balance</u>
2015	\$ 943,000	\$ 16,317,032	\$ (16,241,032)	\$ 1,019,000
2014	643,000	13,409,908	(13,109,908)	943,000

**(18) CONTRACTUAL COMMITMENTS**

The District had the following outstanding contractual commitments at fiscal year end:

<u>Vendor</u>	<u>Purpose</u>	<u>Amount</u>
Design-Build Solutions, Inc	Renovations	\$ 685,459
Regal Plumbing & Heating Co.	Renovations	523,683

---

**(19) OTHER COMMITMENTS**

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

<u>Fund Type</u>	<u>Year-End Encumbrances</u>
General fund	\$ 970,775
Permanent Improvement Fund	3,775,422
Nonmajor Governmental Funds	<u>1,183,129</u>
 Total	 <u>\$ 5,929,326</u>

**Westerville, Ohio**

*(This page left intentionally blank)*

**WESTERVILLE CITY SCHOOL DISTRICT  
MAJOR FUNDS**

**General Fund**

The General fund accounts for and reports all Financial resources not accounted for and reported in another fund. These general fund's activities include, but are not limited to, general instruction, pupil services, operation and maintenance of facilities, student transportation and administration.

**Other Major Funds**

**Debt Service Fund**

The Debt Service Fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the District is obligated in some manner for the payment.

**Permanent Improvement Fund**

A fund provided to account for transactions related to the acquiring, constructing or improving of permanent improvements and the purchase of textbooks and computers as are authorized by Section 5705, Ohio Revised Code.

**WESTERVILLE CITY SCHOOL DISTRICT**

**WESTERVILLE CITY SCHOOL DISTRICT  
OTHER GOVERNMENTAL FUNDS**

Other Governmental Funds are established to account for revenues from specific sources, which legally, or otherwise, are restricted to expenditure for specific purposes. A description of the District's Other Governmental Funds follows:

**Food Service**

This fund is provided to account for financial transactions related to the District managed food service operation.

**Other Local**

This fund is used to account for proceeds of specific revenue sources except state and federal grants that are legally restricted to expenditures for specified purposes.

**District Managed**

This fund is provided to account for those student activity programs that have student participation in the activity, but do not have student management of the programs. This fund would usually include athletic programs but could also include band, cheerleaders, and other similar types of activities.

**Auxiliary Services**

This fund is provided to account for State of Ohio monies that provide services and materials to pupils attending non-public schools within the District.

**Data Communications**

This fund is provided to account for monies received from the State of Ohio for expenses supporting the establishment, maintenance and upgrade of data communication links from the schools to the Metropolitan Educational Council, data acquisition site, and further to the Ohio Department of Education.

**Alternative Schools**

A fund used to account for monies received from the State of Ohio for alternative educational programs for existing and new at-risk and delinquent youth.

**Straight A**

A fund used to account for monies received from the State of Ohio for new approaches that meet the learning needs of students, reduce the cost of running a school district or drive more dollars to the classroom.

**Other State**

This fund is used to account for various monies received from State of Ohio that are not classified elsewhere.

**IDEA, Part B**

This fund is provided to account for Federal monies which assist in providing an appropriate public education to all children with disabilities.

**Vocational Education: Carl D. Perkins**

This fund is provided to account for Federal monies received for expenses relating to the development of secondary vocational educational programs.

**WESTERVILLE CITY SCHOOL DISTRICT  
OTHER GOVERNMENTAL FUNDS**

**Nonmajor Special Revenue Funds (Continued)**

**Title III**

This fund is used to account for Federal monies to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

**Transition Program for Refugee Children**

This fund is used to account Federal monies to provide educational services to meet educational needs of refugee children who are enrolled in public elementary and secondary schools.

**Title I**

This fund is used to account for Federal monies to provide Local educational agencies to meet the special needs of educationally deprived children.

**Preschool Handicapped**

This fund is used to account for Federal monies which addresses the improvement and expansion of services for handicapped children ages three through five.

**Title II-A**

This fund is used to account for Federal monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis):

**Uniform School Supplies**

This fund is used to account for the purchase and sale of school supplies as adopted by the Board of Education for use in the schools of the District.

**Public School Support**

This fund is provided to account for specific extra-curricular revenue sources, other than taxes (i.e. profits from vending machines, sales of pictures, etc.), that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases.

**WESTERVILLE CITY SCHOOL DISTRICT  
INTERNAL SERVICE FUNDS**

Internal Service Funds are established to account for the financing of goods or services provided by one department or agency of the District to other departments or agencies on a cost reimbursement basis. Charges are intended only to recoup the total cost of such services. A description of the District's Internal Service Funds follows:

**Self Insurance**

A fund provided to account for monies received from other funds as payment for providing medical and dental employee benefits. The Self Insurance Fund may make payments for services provided to employees, for reimbursement to employees who have paid providers, to third party administrators for claim payment administration, for stop-loss coverage, or any other reinsurance or similar purposes.

**Print Shop**

This fund is used to account for monies received for printing and duplicating services provided by the Print Shop to all District departments and various community organizations.

**Worker's Compensation**

This fund is used to account for monies received from other funds as payment for providing Worker's Compensation benefits to employees.

**WESTERVILLE CITY SCHOOL DISTRICT  
AGENCY FUNDS**

Agency funds are established to account for assets held by the District on behalf of other individuals, staff or students. In an agency fund, assets equal liabilities, and the fund balance is zero. A description of the Agency Funds follows:

**District Agency**

A fund used to account for those assets held by a school district as an agency for individuals or staff.

**Student Managed Activity**

This fund is used to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This typically includes those student activities which consist of student body, student president, student treasurer and faculty advisor.

**Section 125 Cafeteria Plan**

This fund is used to account for deposits made by employees through payroll deductions who elect to use the plan as a medical spending account or for dependent childcare. Employees have until the end of March of the following year to spend the monies in their account. Any monies not spent become the property of the District. The District has determined it to be the best practice to retain the unspent monies from the prior years within this fund, to continue to finance the plan and to properly account for its intended use.

# STATISTICAL SECTION

This part of the Westerville City School District’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District’s overall financial health.

<b><u>Contents</u></b>	<b><u>Page</u></b>
<b>Financial Trends</b>	<b>118</b>
These schedules contain trend information to help the reader understand how the District’s financial performance and well-being have changed over time.	
<b>Revenue Capacity</b>	<b>112</b>
These schedules contain information to help the reader assess the affordability of the District’s most significant local revenue source, the property tax.	
<b>Debt Capacity</b>	<b>128</b>
These schedules present information to help the reader assess the affordability of the District’s current levels of outstanding debt and the District’s ability to issue additional debt in the future.	
<b>Demographic and Economic Information</b>	<b>132</b>
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District’s financial activities take place.	
<b>Operating Information</b>	<b>133</b>
These schedules contain service data to help the reader understand how the information in the District’s financial report relates to the services the District provides and the activities it performs.	

**Sources:** Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

(a) The assessed value of real property is fixed at 35% of true value and is determined pursuant to the rules of the State Tax Commissioner.

(b) General business tangible personal property was assessed in previous years at 25% for machinery and equipment and 23% for inventories. House Bill 66 phased out general business tangible personal property tax beginning in 2006. The listing percentage is 18.75% for 2006, 12.5% for 2007, 6.25% for 2008 and 0% for 2009. Additionally, telephone property was reclassified to general business and assessed at 10% for 2009, 5% for 2010 and eliminated in 2011.

(c) Assumes public utilities are assessed at true value which is 35%.

(d) Tax rates are per \$1,000 of assessed value.

Source: Franklin County Auditor - Data is presented on a Collection Year basis because that is the manner in which the information is maintained by the County Auditor

Figures for residential/agricultural (upper) and commercial/industrial (lower) for the current collection year only reflect "effective" millage. All other figures reflect voted millage.

Ohio Revised Code Sections 5705.02 and 5705.07 requires any millage exceeding the "unvoted" or "inside" millage can only be done by a vote of the people.
