INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

City of Fairfield
Butler County
5350 Pleasant Avenue
Fairfield, Ohio 45014

To the City Council:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fairfield, Butler County, (the City) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 30, 2016, wherein we noted the City adopted new accounting guidance in Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27 and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the City's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Therefore, unidentified material weaknesses or significant deficiencies may exist. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings that we consider a material weakness. We consider finding 2015-002 to be a material weakness.

Compliance and Other Matters

As part of reasonably assuring whether the City's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards*, which is described in the accompanying schedule of findings as item 2015-001.

City's Response to Findings

The City's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the City's response and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dave Yost
Auditor of State

Columbus, Ohio

June 30, 2016

**CITY OF FAIRFIELD
BUTLER COUNTY**

**SCHEDULE OF FINDINGS
DECEMBER 31, 2015**

**FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2015-001

Noncompliance

Ohio Rev. Code Section 5705.39, states that the total appropriation from each fund should not exceed the total estimated resources for the fund. Final appropriations (final approved appropriations at December 31, 2015) in the Fire Levy Fund of \$6,330,231 exceeded final estimated resources of \$5,791,463 by \$538,768. We recommend that the City monitor budgetary activity and make the necessary amendments to their official budgetary documents and system to comply with the requirement of Ohio Rev. Code Section 5705.39.

Officials' Response:

The City will make the necessary adjustments to the estimated revenues at year end.

FINDING NUMBER 2015-002

Material Weakness

Monitoring controls are regular management and supervisory activities established to oversee whether management's objectives are being achieved, covering operational and legal compliance, as well as financial control objectives. Effective monitoring controls should identify unexpected results or exceptions (including significant compliance exceptions), investigate underlying causes, and take corrective action.

When designing the system of internal controls and specific control activities, management should consider ensuring:

- a) Reliability of financial reporting;
- b) Effectiveness and efficiency of operations;
- c) Compliance with applicable laws and regulation.

The budgetary schedule included as Required Supplemental Information (RSI) in the financial statements did not reflect the approved final appropriations (final budget) of the City for the general fund:

	Budgetary Schedule	Final Approved	Variance to
Fund	Reported as RSI	Appropriations	Final
	Appropriations	Appropriations	Appropriations
General	\$ 35,113,068	\$ 31,212,067	\$ 3,901,001

The budget to actual statements should reflect only those appropriations and estimated resources approved by the City. Failure to use the approved appropriations and certificate of estimated resources increases the risk of relying on inaccurate information for monitoring compliance with applicable laws, operations, and proper reporting. We recommend the City enter accurate appropriation information onto their financial statements and schedules and implement controls over the financial reporting process.

The City adjusted their budgetary statements for the General fund to reflect the correct amount.

**FINDING NUMBER 2015-002
(Continued)**

Officials' Response:

The City acknowledges the variance was due to an error in a formula in the file submitted to the AOS at the end of May. Once the error was found, the formula and the related statement in the CAFR were corrected to reflect accurate information.

June 30, 2016

The Honorable Steve Miller, Mayor
Members of City Council
City of Fairfield
5350 Pleasant Avenue
Fairfield, Ohio 45014

The Comprehensive Annual Financial Report of the City of Fairfield, Ohio for the fiscal year ended December 31, 2015 is submitted herewith. The Department of Finance prepared the report. The responsibility for both the accuracy of the presented data and the completeness and the fairness of the presentation, including all disclosures, rests with the City of Fairfield, specifically with the Department of Finance. We believe that the enclosed data is accurate in all material respects; and is presented in a manner designed to fairly set forth the financial position and results of operations of the various funds of the City. We further believe that all disclosures necessary to enable the reader to gain an understanding of the City's financial activity have been included.

This Comprehensive Annual Financial Report incorporates GASB Statement No. 34 – Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments. Statement No. 34 was developed to make annual financial reports of state and local governments easier to understand and more useful to those who make decisions using governmental financial information. This report represents and reflects upon the City's financial operations and condition to the City's residents, its elected officials, management personnel, financial institutions, City bondholders, rating agencies and all other parties interested in the financial affairs of the City.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditor report.

City Overview

The City is located in the southwest portion of Ohio in Butler County, approximately 15 miles north of downtown Cincinnati, Ohio. Surrounded by rolling hills, Fairfield is rich in resources that include a population and government dedicated to progress and is strategically positioned for successful residential and commercial development.

Incorporated in 1955, the City operates under a charter and is served by a Council/City Manager form of

government. The legislative body of Fairfield consists of a mayor and seven council members who are responsible for the legislative affairs of the City. Council also makes appointments to various statutory and advisory boards and appoints the City Manager, Law Director and Clerk of Council. As chief executive officer, the City Manager is responsible for enforcement of all laws and ordinances, the efficient delivery of services, and preparation of capital and operating budgets.

The City provides many of the municipal services normally associated with a municipality, including emergency services, street construction and maintenance, engineering, building and planning services, economic development and recreational activities. In addition, water, sanitary sewer, solid waste collection and disposal, and recreation facilities are operated under an Enterprise fund concept with user charges set by City Council or the Park Board to ensure adequate coverage of expenses and payments on outstanding debt.

Economic Conditions and Outlook

The City of Fairfield's standards for services are considered excellent and its tax rates compare favorably to other area governments. Geographically, the City consists of approximately 20 square miles of residential neighborhoods, commercial and industrial developments. The City of Fairfield is located within minutes of four major interstates, I-75, I-71, I-74 and I-275.

The City's employer base continues to help provide a stable backbone for the City's main revenue stream, income tax. While many other communities experienced loss of jobs and/or industries, Fairfield has been fortunate to retain and attract desirable businesses and industries in the City.

To offset losses in State funding, the residents approved an income tax reapportionment of the 1.5% income tax in 2012. This reapportionment was effective in 2013 and reallocated monies to the General fund by reducing the Street and Capital Improvement funds each by 0.05%. It was understood at the time of the reapportionment should the General fund have available funds above the reserve balance, funds would be transferred back to the Street Improvement and Capital Improvement funds to replace the 0.05%. This will insure the continuation of the projects funded from the Street Improvement and Capital Improvement funds in the substantial five-year Capital Improvement Program.

Relevant Financial Policies

The State of Ohio legislative branch passed House Bill 5, a municipal tax uniformity bill, in 2015 and the Governor signed it on December 19, 2015. This bill contains language modifying the income basis on which a municipal government can levy an income tax on and how the municipal government can collect that income tax. Municipal representatives worked closely with the bill's sponsors and proponents to reach a consensus on the bill, which seeks more uniformity amongst Ohio's cities and villages levying an income tax. Most provisions of this bill will become effective in January 2016 for the 2016 tax year.

Legislative changes have been made to Section 181 of the City's Codified Ordinances to comply with the new State law. At this time the City is uncertain of the estimated financial impact these legislative changes will have on income tax receipts.

Major Initiatives

The following were among the many diverse activities and/or programs to which both the elected officials and staff devoted their energies in 2015:

- 1) The City completed work with outside vendors to add a generator at the Wastewater Plant. This generator will help maintain plant operations in the event of an emergency and is estimated to cost \$2.5 million. This project was financed through a 10 year lease.
- 2) Improvements to US 127 (Pleasant Avenue) at the southern end of Fairfield was completed in 2015. The addition of a center turn lane and lengthening of the southbound lane is expected help with the increased traffic on US 127. This project was estimated to cost \$900,000 with 90% funding from an Ohio Department of Transportation grant.
- 3) Improvements to Nilles Road and Gray Road which included storm sewers, guardrails, shoulder widening and pavement overlay were completed in 2015. These improvements cost approximately \$1.79 million with \$600,000 in outside funding.

Future Projects

Accomplishments and significant capital projects to look forward to in 2016 include the following:

- 1) State Route 4 at South Gilmore-Holden Intersection Improvements at a cost of \$1.86 million with \$1.52 million in outside grant funding. Right-of-way was completed in 2015 and construction will begin this year. This project is considered critical as this location is currently ranked as the City's most dangerous intersection. Construction is scheduled to begin in May of 2016 after the completion of the school year.
- 2) Water System Improvements for Route 4 at a cost of \$3.1 million with \$3 million in outside debt financing. The timing of the replacement of the water line from Nilles Road to By-Pass 4 in 2017 is crucial to the Route 4 Urban Paving project slated to begin in late 2017 into 2018. The Route 4 Urban Paving project is expected to cost \$3.56 million with \$1.8 million in outside state funding.

Internal Accounting and Budgetary Controls

We believe that the City's internal control structure adequately safeguarded assets and provided reasonable assurance of proper recording of financial transactions. It is further our intention to review these controls in depth on an ongoing basis for continued refinements and improvements.

Budgetary control is maintained at the department level by the use of encumbrances for purchase order amounts to vendors. Open encumbrances are reported as assignments of the fund balance for the governmental fund types at December 31, 2015.

City Income Tax

Under the Ohio Revised Code, Section 718, municipal governments can levy an income tax. Since 1960,

the City has levied an income tax on gross salaries, wages and other personal service compensation earned by residents, both in and out of the City and upon earnings of non-residents earned in the City. It also applies to net income of business organizations derived from business activities conducted in the City. The current income tax rate of 1.5% was approved by voters in 1971 and since then the allocation of the income taxes has changed 4 times. The latest voter approved allocation occurred in 2012, effective for 2013. The current allocation of the income tax is 1.2% to the General fund, 0.15% to the Street Improvement fund and 0.15% to the Capital Improvement fund.

Receipts from this tax are directly related to employment levels and the general economic conditions in the Cincinnati area. Gross collections and allocations for the past two years are as follows:

	2015	2014
General fund 1.2%	\$21,969,263	\$21,225,749
Street Improvement fund 0.15%	2,746,158	2,653,219
Capital Improvement fund 0.15%	<u>2,746,158</u>	<u>2,653,219</u>
 Gross Revenues	 <u>\$27,461,579</u>	 <u>\$26,532,187</u>

Independent Audit

The State of Ohio requires an annual audit by either the Auditor of State or by an independent public accounting firm. The Auditor of State has completed an audit of the financial statements. Their opinion on the City's financial statements is included in the financial section of this Comprehensive Annual Financial Report.

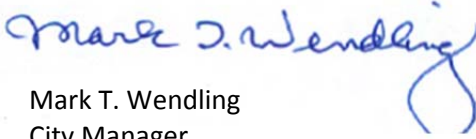

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Fairfield for its Comprehensive Annual Financial Report (CAFR) for the year ending December 31, 2014. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

Preparation of this report could not have been accomplished without the professional, efficient and dedicated services of the entire staff of the Finance Department and various department heads and employees who assisted and contributed to its preparation. Further appreciation is extended to the Mayor and City Council for their encouragement, assistance and approval. It is a sincere pleasure to be employed by a group of people who appreciate and respect principles of financial and budgetary restraint that prevails in the City of Fairfield.

Respectfully submitted,
CITY OF FAIRFIELD

INDEPENDENT AUDITOR'S REPORT

City of Fairfield
Butler County
5350 Pleasant Avenue
Fairfield, Ohio 45014

To the City Council:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Fairfield, Butler County, Ohio (the City), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fairfield, Butler County, Ohio, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 19 to the financial statements, during the year ended December 31, 2015, the City adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and also GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, *Required budgetary comparison schedules* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the City's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2016, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

City of Fairfield, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2015
(Unaudited)

The City of Fairfield's discussion and analysis of the annual financial reports provides a review of the financial performance for the fiscal year ending December 31, 2015. This is meant to be an easily readable summary of the most important financial information regarding the accompanying financial statements. Please read it in conjunction with the transmittal letter and the City's financial statements.

Financial Highlights

- The City's total net position increased \$355,982. Net position of governmental activities decreased \$34,750, net position of business-type activities increased by \$390,732.
- The general fund reported a fund balance of \$14,948,281.
- Business-type operations reflected operating income of \$208,229.
- The City had \$40,726,667 in expenses relating to governmental activities; program revenues offset \$8,306,256 of these expenses. General revenues of \$32,700,661 were also used to provide for these programs.

Overview of the Financial Statements

This annual report consists of a series of financial statements. These statements are presented so that the reader can understand the City's financial situation as a whole and also give a detailed view of the City's fiscal condition.

The Statement of Net Position and Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Major fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as the amount of funds available for future spending. The fund financial statements also look at the City's most significant funds with all other nonmajor funds presented in total in one column.

Government-wide Financial Statements

The analysis of the City as a whole begins with the Government-wide Financial Statements. These reports provide information that will help the reader to determine if the City of Fairfield is financially better off or worse off as a result of the year's activities. These statements include all assets, liabilities and deferred outflows/inflows of resources using the accrual basis of accounting similar to the accounting used by private sector companies. All current year revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes to that position. This change informs the reader whether the City's financial position, as a whole, has improved or diminished. In evaluating the overall financial health, the reader of these financial statements need to take into account non-financial factors that also impact the City's financial wellbeing. Some of these factors include the City's tax base and the condition of capital assets.

City of Fairfield, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2015
(Unaudited)

In the Government-wide Financial Statements, the City is divided into two kinds of activities.

- **Governmental Activities** - Most of the City's services are reported here including police, fire, street maintenance, parks and recreation, and general administration. Income taxes, property taxes, building permits and interest finance most of these activities.
- **Business-Type Activities** - These services include water, sewer, waste collection utilities and the operation of recreation facilities. Service fees for these operations are charged based upon the amount of usage or a usage fee. The intent is that the fees charged recoup operational costs.

Fund Financial Statements

The analysis of the City's major funds is presented later in the Management's Discussion and Analysis section. Fund financial statements provide detailed information about the City's major funds - not the City as a whole. Some funds are required by State law and bond covenants. Other funds may be established by the Finance Director, with approval of council, to help control, manage and report money received for a particular purpose or to show that the City is meeting legal responsibilities for use of grants. The City's major funds are General, Fire Levy, Street Improvement, Water Utility, Sewer Utility, Solid Waste Management and Recreation Facilities.

Governmental Funds - Most of the City's services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or less financial resources that can be spent in the near future on services provided to our residents. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds - When the City charges citizens for the services it provides, with the intent of recapturing operating costs, these services are generally reported in proprietary funds. Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match. Internal service funds are used to report activities that provide services to the City's other funds and departments.

Fiduciary Funds - The City is the fiscal agent for the Municipal Court, Warranty Bonds and Joint Economic Development District. The City's fiduciary responsibility is reported in the Statement of Fiduciary Assets and Liabilities. We exclude these balances from the City's other financial statements because the City cannot use these assets to finance its operations. The City is responsible for ensuring that the assets reported in this fund are used for their intended purposes.

The City as a Whole

As stated previously, the Statement of Net Position looks at the City as a whole. Table 1 provides a summary of the City's net position for 2015 compared to 2014.

Table 1
Net Position

	Governmental Activities		Business-Type Activities		Total	
	2015	2014 Restated	2015	2014 Restated	2015	2014 Restated

During 2015, the City adopted GASB Statement 68, “Accounting and Financial Reporting for Pensions— an Amendment of GASB Statement 27,” which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City’s actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

City of Fairfield, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2015
(Unaudited)

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the City's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the City's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

City of Fairfield, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2015
(Unaudited)

As a result of implementing GASB 68, the City is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at December 31, 2014, from \$103,182,231 to \$80,956,013 for governmental activities and from \$49,139,326 to \$46,126,310 for business-type activities.

Total net position of the City as a whole increased \$355,982. Net position of the City's governmental activities decreased \$34,750, while the net position of the City's business-type activities increased \$390,732 from 2014. The largest portion of the City's net position reflect its investment in capital assets, less any related debt to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens of the City. The City had an unrestricted net position balance of that may be used to meet the government's ongoing obligations to citizens and creditors. Capital Assets decreased mainly due to current year depreciation expense being greater than additions. Total Long-Term Liabilities decreased mainly due to the decrease in net pension liability.

Table 2 shows the changes in net position at year-end and revenue and expense comparisons to 2015.

Net Position - End of Year	\$80,921,263	\$80,956,013	\$46,517,042	\$46,126,310	\$127,438,305	\$127,082,323

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 expenses still include pension expense of \$2,846,846 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expenses of \$3,001,804. Consequently, in order to compare 2015 total expenses to 2014, the following adjustments are needed:

City of Fairfield, Ohio

Increase in program expenses not related to pension	\$1,351,892	\$590,311	\$1,942,203

Governmental Activities

The City had a decrease in revenues mainly due to a decrease in Capital Grants and Contributions that the City received in 2015. Total expenses increased mainly due to the City's general government services, that they provide, increased from 2014.

Revenues generated by the earnings tax represent approximately 78% of the City's governmental activities general revenues. During 2015, when most communities were faced with budget cuts due to the economic downturn of the economy, the City's 2015 earnings tax revenues increased approximately 7.3% when compared to 2014 earnings tax revenues.

City of Fairfield, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2015
(Unaudited)

General Government includes legislative and executive as well as judicial expenses. The City seeks to improve the quality and efficiency of existing services as well as consider additional services. Leaf and brush pickup, storm sewer projects, and aggressive street resurfacing program, amenities in the parks, and police and fire services all culminate into a full service city. Services in the City of Fairfield have increased over the years and this has been accomplished by the City Council and the City's work force.

Income Tax

This tax was originally levied in 1960, at a rate of 0.6%, to provide funds for street improvements, drainage improvements, and garbage collection. A 0.4% increase in 1966 was solely for the installation and operation of storm and sanitary sewers and the sewage disposal plant. A 0.5% increase in 1971, to the current 1.5% rate, was for the purpose of general operations, maintenance, and improvement of services.

The 1.5% locally levied tax applies to gross salaries, wages and other personal service compensation earned by residents, both in and out of the City and upon earnings of non-residents earned in the City. It also applies to net income of business organizations derived from business activities conducted in the City. In November of 1990, the citizens of Fairfield voted to change the distribution of the income taxes that allocated monies to the Sewer Funds. The 1.5% tax rate was subdivided into three components. The first 1.0% is used for operating expenses of the General Fund. Next, 0.3% is used for street construction, improvement and repair. Third, 0.2% of the tax is earmarked for capital improvements of a permanent nature.

In 2001, the City Council decided to begin an initiative to develop and revitalize the downtown area of Fairfield which consisted of constructing two new public buildings, a Community Arts Center and a Municipal Court and Polices Services Facility. In order to fund this major capital investment Council asked the voters to change the allocation of the Income Tax revenues. In November of 2002, the citizens of Fairfield approved the change which, beginning in January of 2004, the current tax rate allocates 1.1% for the operating expenses of the General Fund, 0.2% for street construction, improvement and repair and 0.2% for capital improvements of a permanent nature.

In 2012, Council asked the voters to change the allocation of the Income Tax revenues in order to maintain current service levels. The current economic conditions, coupled with losses in state revenue, had caused City income to decrease since 2008. The City trimmed the operational budget over that time, resulting in approximately \$1.5 million in cuts and was able to maintain services to the residents by drawing down on fund reserves. In 2012, those fund reserves were at a minimal acceptable level and continuing to draw them down further would put the City's financial situation in a non-sustainable position. In November 2012, the citizens of Fairfield approved the change which, beginning in January 2014, the current tax rate allocates 1.2% for the operating expenses of the General Fund, 0.15% for street construction, improvement and repair and 0.15% for capital improvements of a permanent nature.

Business-Type Activities

The City's business-type activities include Water Utility, Sewer Utility, Solid Waste Management and Recreation Facilities operations. The City's business-type activities had operating income of \$208,229 for 2015. The operating revenues for business-type activities were \$15,259,941, while operating

City of Fairfield, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2015
(Unaudited)

expenses were \$15,051,712 for 2015. The increase in operating income for 2015 was mainly due to an increase in the City's charges for services revenue, which was mainly due to an increase in water and sewer utilities collections in 2015 as compared to 2014.

Water – The City of Fairfield has been providing public water services to residents since 1958. The initial plant consisted of an ion exchange plant, with one train that could provide 750,000 gallons of water per day. A second train was constructed in 1965 provided a combined capacity of 1.5 million gallons of water per day.

For the next nearly twenty years, the City operated the ion exchange plant as its primary source of drinking water. But as the City grew, the supply was not sufficient to keep up with demand. As a result, the City entered into an agreement with the City of Hamilton to purchase supplemental water supplies, with more and more supplemental water required each year. In 1984, the City decided to become self-sufficient again for its water supply and initiated an expansion of the City's water plant. The expansion included construction of a separate wing providing treatment by lime/soda ash softening, as opposed to the existing process involving ion exchange treatment. This initial addition of the lime/soda ash plant consisted of a 4.5 MGD expansion. A second addition to the lime/soda ash plant was completed in 1990. Today, the plant has a combined capacity of 10.5 MGD day. This includes 1.5 MGD for the original ion exchange plant, and 4.5 MGD for each of the two phases of the lime/soda ash plant expansion.

Traditionally, engineering and design standards have been very conservative, with actual working capacities greatly exceeding design standards. Re-rating is a formal, regulatory process that allows the plant - with a few, low-capital intensive improvements to be rated for increased capacity. In 2003 the City petitioned the state of Ohio and was granted to have the capacity of the lime/soda ash plant re-rated from 9.0 to 13.5 million gallons per day. This should meet all potential demands for the City of Fairfield for the foreseeable future.

Today, the Fairfield Water Department serves nearly 11,400 residential and 900 commercial accounts. This represents a population base of nearly 47,000 people. This includes the operation of the treatment plant; five elevated water towers and 180 miles of water mains in its distribution system. The City also maintains emergency connections with cities of Hamilton and Cincinnati for providing back-up water supplies in the event of an emergency.

Wastewater – The City of Fairfield has been operating a public wastewater collection and treatment system since 1965. The Wastewater Treatment Plant is located on Groh Lane and discharges treated water to the Great Miami River. The Wastewater Treatment Plant consists of conventional activated sludge treatment process, with a treatment capacity of 10.0 million gallons per day (MGD) and a hydraulic capacity of 15.0 MGD. The flows average approximately 4.7 MGD.

As part of the treatment process, water solids-laden sludge is produced. The sludge, called bio-solids, has been stabilized to destroy infectious organisms and is used as a soil conditioner for managed farming operations. The bio-solids improve soil matrixes by adding nutrients and water retention capacities. In addition, they help to add bulking characteristics that help to aerate the soil. The bio-solids disposal program is coordinated with area farmers who are able to take advantage of the agronomic enriching characteristics.

City of Fairfield, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2015
(Unaudited)

In an effort to respond to increased flows induced during period of extended rainfall, the City embarked on an extensive sewer relief project to alleviate surcharging caused by storm water entering the sanitary sewer system. The relief sewer system captures potential overflows and conveys excess flows to off-line storage facilities at the Wastewater Treatment Plant. The excess flows can then be metered into the Treatment Plant once storm conditions subside.

The sanitary sewer collection system includes nearly 180 miles of sanitary sewer main, and 4,000 manholes. It also includes thirteen (13) lift stations to elevate collected wastewater to a height that it can resume a normal flow by gravity.

Waste Collection – The City contracts with Rumpke, a private organization, to provide waste removal and recycling services to residential customers in the City of Fairfield. In 2012, Council authorized a contract renewal for five additional years with Rumpke for Fairfield residents' waste and recycling collection services. Per the City's contract the 2014 rate was \$11.45 per month for curbside service and \$6.50 per month for dumpster service. The rates increased in September, 2014 to \$11.65 per month for curbside service and \$6.65 per month for dumpster service. The full costs of the services are passed-through to the residents. Annual increases are scheduled throughout the contract which will result in the curbside rate to be \$12.25 and the dumpster rate to be \$7.10 at the end of the five year contract.

Recreation Facilities- The City of Fairfield acquired the Pleasant Run Country Club in 1978, with assistance through the Land and Water Conservation Fund grant program and immediately re-named the facility the Pleasant Run Golf Course, since then the Golf Course was re-named to Fairfield South Trace Golf Course. With its acquisition, the City added an 18-hole championship golf course, clubhouse facility and 4-lane/25 meter swimming pool to its recreational inventory.

In the late 1980's the City retained the services of Hurdzan Golf Course Architects to provide a master plan for a series of improvements at the Fairfield South Trace Golf Course, in order to make the course more playable, enjoyable and safer for the golfer. These improvements were implemented over a five-year period.

In the late 1980's the City acquired approximately 55 acres north of the golf course to construct a flood detention basin. As the community grew, the need for recreational opportunities increased. In an early 1990's recreational needs assessment study, the replacement of the swimming pool was rated as a top priority. The City retained the services of Brandstetter/Carroll Architects to begin the design work on a new aquatic facility for the community. In summer of 1997, the City opened the Fairfield Aquatic Center. The center housed an eight-lane/25 meter competitive pool, diving area, children's wading pool, 90-foot water slide, zero depth entry, three in-water play features, grass beach area, concession building, bath house, sand volleyball courts, large sun deck, and two play structures.

As the community struggled with the maintenance of its flood detention projects an idea emerged to construct a 9-hole executive golf course within the detention basin adjacent to the existing 18-hole golf course. After researching the possible alternatives, the City again retained the services of Hurdzan Golf Course Architects to design of the 9-hole executive golf course. Since the City would be operating two golf courses, that were contiguous to each other but separate operations, it was necessary that both courses be easily recognizable but identifiable as separate golf courses. Therefore after careful study, the 18-hole golf course was re-named Fairfield Greens Golf Course/South Trace and the new golf course was named the Fairfield Greens Golf Course/North Trace.

(Unaudited)

The City's Funds

The City has three major governmental funds: the General Fund, Fire Levy Fund, and Street Improvement Fund. Assets of these funds comprised \$29,751,625 (70%) of the total governmental fund assets.

General Fund: Fund balance at December 31, 2015 was \$14,948,281, an increase in fund balance of \$564,462 from 2014. The general fund had an increase in fund balance mainly due to an increase in taxes revenue mainly due to an increase in income tax collections.

Fire Levy Fund: Fund deficit at December 31, 2015 was \$284,368, an increase in fund deficit of \$60,909 from 2014. The increase in fund deficit was mainly due to an increase in public safety expenditures.

Street Improvement Fund: Fund balance at December 31, 2015 was \$4,250,919, an increase in fund balance of \$5,922 from 2014. The Street Improvement Fund remained constant with the prior year.

General Fund Budgeting Highlights

The City's General Fund budget is formally adopted at the department and object level. Financial reports, which compare actual performance with the budget, are prepared monthly and presented to the Council so the Council is able to review the financial status and measure the effectiveness of the budgetary controls.

For the General Fund, the final budgeted expenditures were \$31,212,067 and the final actual expenditures were \$29,049,648. The difference was \$2,162,419. Variations from the final budgeted expenditures to the final actual expenditures are primarily due to the following: the City conservatively budgeted for the general services and the police expenditures for 2015. As the City completed the year, its General Fund balance reported an actual fund balance of \$13,300,334, on a Non-GAAP Budgetary Basis.

Capital Assets and Debt Administration

Capital Assets

At year end, the City had \$131,522,421 invested in land, construction in progress, buildings and improvements, equipment and infrastructure. Table 3 shows 2015 balances compared to 2014:

The unvoted Various Purpose General Obligation Bonds for street improvement will be paid with municipal income tax revenue. The Various Purpose General Obligation Bonds for other improvements and Community Arts Center Bonds will be paid with property tax revenues via transfers from the General Fund.

See Note 9 to the notes to the basic financial statements for further details on the City's long-term debt.

Economic Factors

The City of Fairfield has worked through the economic conditions over the past several years through good budgeting and internal controls. The City's main revenue source, income tax, has stabilized primarily due to the employers base in the City. As the economy has stabilized, those employers are either holding employment levels consistent or growing their employment levels which has contributed to the steady increase in withholding tax to the City.

Back in 2012 and 2013, the State operating budget cut local funding and eliminated the estate tax, the City lost approximately \$1,500,000 in revenue. At that time the City apportioned the income tax to the General, Street Improvement and Capital funds. Due to the loss of revenue, the City residents approved a reapportionment to replace the lost revenue in the General fund in 2013. The reapportionment of the income tax beginning in 2013 became 1.2% to the General fund and 0.15% each to the Street Improvement and Capital Improvement funds. It was understood at the time of the reapportionment

City of Fairfield, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2015
(Unaudited)

should the General fund have available funds above the reserve balance, funds would be transferred back to the Street Improvement and Capital Improvement funds to replace the 0.05%. This will insure the continuation of the projects funded from the Street Improvement and Capital Improvement funds in the substantial five-year Capital Improvement Program.

Contacting the City's Finance Department

This financial report is designed to provide our citizens, taxpayers, customers and investors, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Finance Director, City of Fairfield, 5350 Pleasant Avenue, Fairfield, Ohio 45014.

City of Fairfield, Ohio
 Reconciliation of Total Governmental Fund Balance to
 Net Position of Governmental Activities
 December 31, 2015

Total Governmental Fund Balance \$29,188,433

Amounts reported for governmental activities in the
 statement of net position are different because:

Capital assets used in governmental activities are not financial
 resources and, therefore, are not reported in the funds.

Capital assets used in the operation of Governmental Funds 87,921,816

Other long-term assets are not available to pay for current-
 period expenditures and, therefore, are deferred in the funds.

Income Taxes	3,633,720	
Delinquent Property Taxes	99,075	
Interest	24,125	
Intergovernmental	1,099,907	
Other Receivables	389,367	
Pension	136,430	
		5,382,624

An internal service fund is used by management to charge
 back costs to individual funds. The assets and
 liabilities of the internal service fund are included in
 governmental activities in the statement of net position.

Internal Service Net Position 1,686,003

In the statement of net position interest payable is accrued when
 incurred; whereas, in the governmental funds interest is
 reported as a liability only when it will require the use of
 current financial resources.

(58,556)

Some liabilities reported in the statement of net position do not
 require the use of current financial resources and, therefore,
 are not reported as liabilities in governmental funds.

Compensated Absences (4,561,482)

Deferred outflow of resources associated with long-term liabilities
 are not reported in the funds.

230,057

Deferred outflows and inflows or resources related to pensions
 are applicable to future periods and, therefore, are not
 reported in the funds.

Deferred outflows of resources related to pensions	3,857,344	
Deferred inflows of resources related to pensions	(130,486)	
		3,726,858

Long-term liabilities are not due and payable in the current
 period and, therefore, are not reported in the funds.

Net Pension Liability	(25,564,574)	
Other Amounts	(17,029,916)	
		(42,594,490)

Net Position of Governmental Activities \$80,921,263

See accompanying notes to the basic financial statements.

City of Fairfield, Ohio
 Reconciliation of the Statement of Revenues, Expenditures, and Changes
 in Fund Balance of Governmental Funds to the Statement of Activities
 For the Fiscal Year Ended December 31, 2015

Net Change in Fund Balance - Total Governmental Funds \$332,976

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital asset additions as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of the difference between capital asset additions and depreciation in the current period.

Capital assets used in governmental activities	3,223,393	
Depreciation Expense	<u>(4,770,243)</u>	(1,546,850)

Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. The amount of the proceeds must be removed and the gain or loss on the disposal of capital assets must be recognized. This is the amount of the difference between the proceeds and the gain or loss. (177,482)

Governmental funds report City pension contributions as expenditures. However in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.

City pension contributions	2,679,344	
Cost of benefits earned net of employee contributions	<u>(2,580,125)</u>	99,219

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Income Taxes	(614,438)	
Delinquent Property Taxes	23,958	
Interest	9,688	
Intergovernmental	(150,731)	
Other	<u>(452,182)</u>	(1,183,705)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 1,680,000

In the statement of activities interest expense is accrued when incurred; whereas, in governmental funds an interest expenditure is reported when due. 4,019

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Compensated Absences	(77,631)	
Amortization of Bond Premium	46,423	
Amortization of Deferred Charge on Refunding	(30,803)	
Pension	<u>136,430</u>	74,419

The internal service fund used by management to charge back costs to individual funds is not reported in the entity-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.

Change in Net Position - Internal Service Funds		<u>682,654</u>
---	--	----------------

Change in Net Position of Governmental Activities		<u><u>(\$34,750)</u></u>
---	--	--------------------------

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Note 1 – Description of the City and Reporting Entity

The City of Fairfield, Ohio (the “City”) was incorporated in 1955 and operates as a Home Rule City in accordance with Article XVIII of the Ohio Constitution under a City Manager-Council form of government.

Reporting Entity

Among the activities and services as authorized by the City of Fairfield’s charter are public safety/municipal court, recreation, sanitation, health and social services, public improvements, planning and zoning, highway and streets and general administrative services. Each of these services is under direct control of the City Manager-Council form of government, which appropriates for and finances the operation of service. Each is, therefore, included as part of the financial reporting entity.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization’s governing board; and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization’s resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organizations. Component units may also include organizations for which the City authorizes the issuance of debt or the levying of taxes, or determines the budget. There are no component units included as part of this report.

The City participates in a joint venture called the West Chester Township Joint Economic Development District (JEDD). This joint venture is presented in Note 17.

Note 2 – Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The most significant of the City’s accounting policies are described below.

Basis of Presentation

The City’s basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The services provided and used of the internal service fund are eliminated to avoid “doubling up” revenues and expenses. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

The statement of net position presents the financial condition of the governmental and business-type activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department, and therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The internal service funds are presented in a single column on the face of the proprietary fund statements. The City's only fiduciary funds are agency funds.

Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, liabilities and deferred outflows/inflows associated with the operation of the City are included on the Statement of Net Position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets, liabilities and deferred outflows/inflows associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows and liabilities and deferred inflows are reported as fund balance. The following are the City's major governmental funds:

General Fund - The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the City for any purpose provided it is expended or transferred according to the charter of the City and/or the general laws of Ohio.

Fire Levy Special Revenue Fund – This special revenue fund accounts for expenditures of property tax revenues and other resources in the operation of the City's Fire Department.

Street Improvement Capital Projects Fund - This capital projects fund accounts for the construction and repair of the City's streets. Financing has been derived from 0.15% of the City's income tax.

The other governmental funds of the City account for grants and other resources that are generally restricted to use for a particular purpose.

Proprietary Funds

Proprietary fund reporting focuses on changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

Enterprise Funds - Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major enterprise funds:

Water Utility Fund - The water fund accounts for the provision of water treatment and distribution to its residential and commercial users located within the City.

Sewer Utility Fund - The sewer fund accounts for the provision of sanitary sewer service to the residents and commercial users located within the City.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Recreation Facilities Fund – This fund accounts for operations of the City’s golf course, swimming pool and other recreational facilities, revenues from which come from customers, based on a rate authorized by the Parks Commission.

Internal Service Funds - Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis. The City’s internal service funds report on self-insured health care operations (Employees’ Benefits) and for the cost of maintaining the City’s equipment and automotive fleet (Municipal Garage).

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: agency funds, pension trust funds, investment trust funds and private-purpose trust funds. The City’s agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The City’s three agency funds are Warranty Bonds (used to account for warranty bonds collected), Municipal Court (used to account for funds collected by the court until such time as the funds can be distributed to individuals, private organizations, other governmental units and/or other funds) and Joint Economic Development District (used to account for various economic development projects). Trust funds are used to account for assets held under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City’s own programs. The City currently has no trust funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, available means expected to be received within thirty days of year-end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned. Revenue from property taxes is recognized in the year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the City must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: income tax, state-levied locally shared taxes (including gasoline tax), fines and forfeitures, interest, grants and fees.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources include a deferral on refunding and pension reported in the government-wide statement of net position and the proprietary statement of net position. A deferral on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 11.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes, income taxes, grants and other taxes, special assessments, investment revenue, pension, and accounts revenues. Property taxes and revenue in lieu of taxes represent amounts for which there is an enforceable legal claim as of December 31, 2015, but which were levied to finance year 2016 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 11.)

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Equity in Pooled Cash and Investments

To improve cash management the City's cash and investments are pooled. Monies for all funds, except cash and investments held in segregated accounts, are maintained in this pool. Individual fund integrity is maintained through City records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Investments" on the financial statements.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Investments are reported at fair value, which is based on quoted market prices, with the exception of nonparticipating repurchase agreements, which are reported at cost. For investments in open-end mutual funds, fair value is determined by the fund's share price.

For purposes of the statement of cash flows and for presentation on the statement of net position/balance sheet, investments with an original maturity of three months or less and investments of the cash management pool are considered to be cash equivalents.

The City has invested funds in the State Treasury Asset Reserve of Ohio (STAROhio) during the fiscal year. STAROhio is an investment pool managed by the State Treasurer's Office, which allows governments within the state to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for at fiscal year end.

Following the Ohio Revised Code, the City has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue during 2015 amounted to \$89,059 in the general fund, \$26 in the fire levy fund, \$16,825 in the street improvement fund and \$69,858 in other governmental funds.

Inventory

Inventories of proprietary funds are stated at cost. Cost is determined on a first-in, first-out basis. Inventories of the proprietary funds are expensed when used.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective proprietary funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City's infrastructure consists of bridges, culverts, curbs, sidewalks, storm sewers, streets, and water and sewer lines. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. The City will capitalize capital assets with a cost of \$1,000 or more, depending on the Asset Class.

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Improvements	20-50 years
Equipment	5-10 years
Infrastructure	10-50 years

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Compensated Absences

The City reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences." Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. Compensated absences are reported in governmental funds only if they have matured. The noncurrent portion of the liability is not reported. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and long-term loans are recognized as a liability on the fund financial statements when due.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the City classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – spendable resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – spendable resources that are constrained for specific purposes that are internally imposed by the government at its highest level of decision making authority, City Council. This is done by ordinance by City Council.

Assigned – resources that are intended to be used for specific purposes as approved through the City’s formal purchasing procedure by the Finance Director.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts, which had been restricted, committed or assigned for said purposes.

The City considers committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

Restricted Assets

Restricted assets consist of resources whose use is restricted by bond covenant agreements.

Net Position

Net position represents the difference between assets, and deferred outflows of resources, and liabilities and deferred inflows of resources. Net Investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Of the City’s \$16,915,448 in restricted net position, none was restricted by enabling legislation.

Operating Revenues and Expenses

The City, in its proprietary funds, distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the City’s enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

As a general rule, the effect of interfund (internal) activity has been eliminated from the government-wide statement of activities. The interfund services provided and used are not eliminated in the process of consolidation.

Gain/Loss on Refunding

On the government-wide and proprietary financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt (the gain/loss on refunding) is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old debt or the life of the new debt, whichever is shorter, using the effective interest method.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 – Equity in Pooled Cash and Investments

Cash resources of several individual funds are combined to form a pool of cash and investments. Each fund type's portion of this pool is displayed on the combined balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the City into three categories:

Active Monies - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the City. Such monies must by law be maintained either as cash in the City treasury, in depository accounts payable or withdrawable on demand.

Inactive Monies – Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Interim Monies – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested or deposited in the following securities:

- (1) Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest.
- (2) Bonds, notes, debentures, or other obligations or securities issued by any federal governmental agency.
- (3) No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
- (4) Interim deposits in the eligible institutions applying for interim monies to be evidenced by time certificates of deposit maturing not more than one year from date of deposit, or by savings or deposit accounts, including, but limited to, passbook accounts.
- (5) Bonds and other obligations of the State of Ohio.
- (6) The Ohio State Treasurer's investment pool (STAROhio).
- (7) Commercial paper and banker's acceptances, which meet the requirements established by Ohio Revised Code, Sec. 135.142.
- (8) Under limited circumstances, corporate debt interests in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's policy for deposits is any balance not covered by depository insurance will be collateralized by the financial institutions with pledged securities. As of December 31, 2015, \$8,514,283 of the City's bank balance of \$9,269,744 was exposed to custodial risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the City's name.

Ohio Revised Code Chapter 135, Uniform Depository Act, authorizes pledging of pooled securities in lieu of specific securities. Specifically, a designated public depository may pledge a single pool of eligible securities to secure repayment of all public monies deposited in the financial institution, provided that all times the total value of the securities so pledged is at least equal to 105% of the total amount of all public deposits secured by the pool, including the portion of such deposits covered by any federal deposit insurance.

Investments

As of December 31, 2015, the City had the following investments:

Investment Type	Fair Value	Weighted Average Maturity (Years)
Federal Home Loan Bank	\$4,972,595	1.93
Federal Home Loan Mortgage Corporation	4,482,690	2.23
Federal Farm Credit Bank	993,010	1.91
Federal National Mortgage Association	6,412,747	2.25
Negotiable CDs	3,743,445	1.27
STAROhio	12,000,000	0.14
Total Fair Value	\$32,604,487	
Portfolio Weighted Average Maturity		1.30

Interest Rate Risk - In accordance with the investment policy, the City manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to five years, unless matched to a specified obligation or debt of the City.

Credit Risk – It is the City's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments, which have the highest credit quality rating issued by nationally recognized statistical rating organizations. The City's investments in Federal Home Loan Bank, Federal National Mortgage Association, Federal Home Loan Mortgage Corporation and Federal Farm Credit Bank were rated AA+ by Standard and Poor's and Aaa by Moody's Investors Service. Investments in STAROhio were rated AAAM by Standard & Poors. Negotiable CDs are not rated.

Concentration of Credit Risk – The City's investment policy allows investments in Federal Government Securities or Instrumentalities. The City has invested 15% in Federal Home Loan Bank, 14% in Federal National Mortgage Association, 20% in Federal Home Loan Mortgage Corporation, 3% in Federal Farm Credit Bank, 12% in Negotiable CDs and 36% in STAROhio.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Custodial Credit Risk is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the City's securities are either insured and registered in the name of the City or at least registered in the name of the City.

Note 4 – Receivables

Receivables at year end, consisted primarily of municipal income taxes, property and other taxes, intergovernmental receivables arising from entitlements, interfund, shared revenues, accrued interest on investments, and accounts receivable.

No allowances for doubtful accounts have been recorded because uncollectible amounts are expected to be insignificant.

Property Taxes

Property taxes include amounts levied against all real estate and public utility. Real property taxes (other than public utility) collected during 2015 were levied after October 1, 2014 on assessed values as of January 1, 2014, the lien date. Assessed values were established by the County Auditor at 35% of appraised market value. All property is required to be revalued every six years. Real property taxes are payable annually or semi-annually. If paid annually, payment is due January 31; if paid semiannually, the first payment is due February and the remainder payable in July. Under certain circumstances, state statute permits later payment dates to be established.

Public utility real property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property is currently assessed at 100% of its true value. Public utility property taxes are payable on the same dates as real property described previously.

The assessed values of real and tangible personal property upon which current year property tax receipts were based are as follows:

Real Property	\$903,236,750
Public Utility	<u>38,373,230</u>
Total Valuation	<u><u>\$941,609,980</u></u>

Real property taxes are payable annually or semi-annually. If paid annually, the payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

The City receives property taxes from Butler County. The County Treasurer collects property taxes on behalf of all taxing districts in the counties. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2015, and for which there is an enforceable legal claim. In the funds, the entire receivable has been offset by deferred inflows of resources since the current taxes were not levied to finance 2015 operations and the collection of delinquent taxes during the available period is not subject to reasonable estimation. On an accrual basis, collectible delinquent

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

property taxes have been recorded as revenue while the remainder of the receivable is deferred.

Income Taxes

The City levies a 1.5% income tax on substantially all income earned within the City. If an individual pays income taxes to another municipality, a credit of up to one-half percent is allowed. Additional increases in the income tax rate require voter approval.

Employers within the City withhold income tax on employee compensation and remit at least quarterly. Corporations and other individual taxpayers pay estimated taxes quarterly and file an annual declaration.

Note 5 – Risk Management

Description

The City carries insurance to cover general liability risks, fire protection, police professional liability, automotive fleet and errors and omissions for public officials. The City has established an Employees Benefit Fund to account for the cost of the City's self-insured dental care claims and the payment of insurance premiums for medical benefits and worker's compensation. A third party administrator who furnishes claims review and processing administers the program. City Funds are charged a premium based on the number of employees participating in the Dental and Health Benefits Plan. The "premium" payments are accounted for as an expenditure in the paying fund and as a revenue in an internal service fund.

For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

Claim Liabilities

Beginning August 1, 2014, the City began to provide employee health insurance benefits through a self-insured program.

The City records an estimated liability for dental, health and worker's compensation claims against the City. Claims liabilities are based on estimates of the ultimate cost of reported claims and an estimate for claims incurred but not reported on historical experience. All claims payable are expected to be paid off in one year.

Unpaid Claim Liabilities

The following figures represent the changes in dental, health and worker's compensation claims liabilities for the City from January 1, 2014 to December 31, 2015:

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

<u>Dental</u>	
Claims Liability, 1/1/2014	\$12,971
Claims net of changes in estimates	259,951
Payments	<u>(259,090)</u>
Claims Liability, 12/31/2014	13,832
Claims net of changes in estimates	284,538
Payments	<u>(287,316)</u>
Claims Liability, 12/31/2015	<u><u>\$11,054</u></u>

<u>Health</u>	
Claims Liability, 12/31/2014	\$132,429
Claims net of changes in estimates	2,969,594
Payments	<u>(2,753,643)</u>
Claims Liability, 12/31/2015	<u><u>\$348,380</u></u>

<u>Worker's Compensation</u>	
Claims Liability, 1/1/2014	\$93,201
Claims net of changes in estimates	269,985
Payments	<u>(295,215)</u>
Claims Liability, 12/31/2014	\$67,971
Claims net of changes in estimates	198,439
Payments	<u>(173,957)</u>
Claims Liability, 12/31/2015	<u><u>\$92,453</u></u>

Community Development	7,086
Transportation	2,840,175
Total Depreciation Expense	<u>\$4,770,243</u>

Note 7 – Compensated Absences

Accumulated Unpaid Vacation

Vacation is accumulated based upon length of service at rates from 3.1 hours to 7.7 hours bi-weekly (80 hours) pay period for full time City employees. Vacation accumulation may not exceed three years. Any excess is eliminated from the employee's accumulated balance. In the case of death, termination, or retirement an employee (or his estate) is paid for his unused vacation to a maximum of the three year accrual.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Accumulated Unpaid Sick Leave

All full time City employees (except for police and fire) are credited with 96 sick hours at the beginning of each year. Sick leave accumulation may not exceed 960 hours. An excess over the 960 maximum is paid to the employee. In the case of death, termination, or retirement of an employee, depending on length of service with the City, is paid for his unused sick leave up to a maximum of 960 hours.

Police employees are credited with 102 sick hours at the beginning of each year. Sick leave accumulation may not exceed 1,020 hours. An excess over the 1,020 maximum is paid to the police employee. In the case of death, termination, or retirement of a police employee, depending on length of service with the City, is paid for his unused sick leave up to a maximum of 1,020 hours.

Fire employees are credited with 130 sick hours at the beginning of each year. Sick leave accumulation may not exceed 1,300 hours. An excess over the 1,300 maximum is paid to the fire employee. In the case of death, termination, or retirement of a fire employee, depending on length of service with the City, is paid for his unused sick leave up to a maximum of 1,300 hours.

Note 8 – Notes Payable

A summary of the note transactions for the current year end are as follows:

		Beginning Balance	Issued	Retired	Ending Balance
Street Improvement Fund:					
Exit 39 Winton / Gilmore	1.00%	\$750,000	\$0	(\$750,000)	\$0
Various Purpose Series	1.00%	0	250,000	0	250,000
Sewer Utility Fund:					
Sewer Expansion	1.00%	900,000	0	(900,000)	0
Various Purpose Series	1.00%	0	700,000	0	700,000
Total Notes Payable		<u>\$1,650,000</u>	<u>\$950,000</u>	<u>(\$1,650,000)</u>	<u>\$950,000</u>

In 2015 the City issued a combined \$950,000 in short-term bond anticipation notes for the purpose of financing the City's cost of construction improvements to the Winton Road Interchange Project, \$250,000, and for improvements to the City's wastewater system, \$700,000. The City's intent is to issue this bond anticipation note for a term of one year, which is the maximum allowed for short-term debt.

All of the notes are bond anticipation notes, are backed by the full faith and credit of the City, and mature within one year. The note liability is reflected in the fund, which received the proceeds.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

The City's bonds and loan will be paid from the General Bond Retirement Fund, Water Utility Fund, Sewer Utility Fund and Recreation Facilities Fund. Compensated Absences will be paid from the fund from which the person is paid. Historically, this is the General Fund, a Special Revenue Fund, or an Enterprise Fund.

Principal and interest requirements to retire the City's long-term obligations outstanding at year end are as follows:

Year Ending December 31	General Obligation Bonds		OWDA Loan	
	Principal	Interest	Principal	Interest
2016	\$2,170,000	\$774,038	\$934,997	\$61,722
2017	1,820,000	704,271	612,730	23,596
2018	1,565,000	634,727	175,970	5,923
2019	1,275,000	578,067	43,112	817
2020	1,320,000	527,246	0	0
2021-2025	5,610,000	1,872,409	0	0
2026-2030	4,385,000	693,873	0	0
Total	<u>\$18,145,000</u>	<u>\$5,784,631</u>	<u>\$1,766,809</u>	<u>\$92,058</u>

Note 10 – Defeasance of Bonds

Special Assessment Bonds

The Special Assessment Fund purchased special assessment sidewalk bonds issued by the City. The value of the bonds at December 31, 2015 was \$128,543. Bonds are issued for the purpose of providing funds to pay the property owners share of the cost of sidewalk repairs in the City. The transaction has been eliminated for the financial statement purposes by removing any proceeds from the issuance of debt from the operating statement and the investment.

Note 11 – Defined Benefit Pension Plans

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35
Public Safety	Public Safety	Public Safety
Age and Service Requirements: Age 48 with 25 years of service credit or Age 52 with 15 years of service credit	Age and Service Requirements: Age 48 with 25 years of service credit or Age 52 with 15 years of service credit	Age and Service Requirements: Age 52 with 25 years of service credit or Age 56 with 15 years of service credit
Law Enforcement	Law Enforcement	Law Enforcement
Age and Service Requirements: Age 52 with 15 years of service credit	Age and Service Requirements: Age 48 with 25 years of service credit or Age 52 with 15 years of service credit	Age and Service Requirements: Age 48 with 25 years of service credit or Age 56 with 15 years of service credit
Public Safety and Law Enforcement	Public Safety and Law Enforcement	Public Safety and Law Enforcement
Formula: 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25	Formula: 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25	Formula: 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

	State and Local	Public Safety	Law Enforcement
2015 Statutory Maximum Contribution Rates			
Employer	14.0 %	18.1 %	18.1 %
Employee	10.0 %	*	**
2015 Actual Contribution Rates			
Employer:			
Pension	12.0 %	16.1 %	16.1 %
Post-employment Health Care Benefits	2.0	2.0	2.0
Total Employer	<u>14.0 %</u>	<u>18.1 %</u>	<u>18.1 %</u>
Employee	<u>10.0 %</u>	<u>12.0 %</u>	<u>13.0 %</u>

- * This rate is determined by OPERS' Board and has no maximum rate established by ORC.
- ** This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City's contractually required contribution was \$1,680,884 for 2015. Of this amount, \$59,688 is reported as an accrued wage and benefits.

Plan Description – Ohio Police & Fire Pension Fund (OPF)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OPF), a cost-sharing, multiple-employer defined benefit pension plan administered by OPF. OPF provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OPF issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OPF fiduciary net position. The report that may be obtained by visiting the OPF website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OPF may retire and receive a lifetime monthly pension. OPF offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before after July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OPF benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>Police</u>	<u>Firefighters</u>
2015 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee:		
January 1, 2015 through July 1, 2015	11.50 %	11.50 %
July 2, 2015 through December 31, 2015	12.25 %	12.25 %
2015 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	<u>0.50</u>	<u>0.50</u>
Total Employer	<u>19.50 %</u>	<u>24.00 %</u>
Employee:		
January 1, 2015 through July 1, 2015	11.50 %	11.50 %
July 2, 2015 through December 31, 2015	12.25 %	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OPF was \$1,573,492 for 2015. Of this amount \$65,066 is reported as an accrued wage and benefits.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

In addition to current contributions, the City pays installments on a specific liability of the City incurred when the State of Ohio established the statewide pension system for police and fire fighters in 1967. As of December 31, 2015, the specific liability of the City was \$0 payable in semi-annual payments through the year 2035.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OPF's total pension liability was measured as of December 31, 2014, and was determined by rolling forward the total pension liability as of January 1, 2014, to December 31, 2014. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>OPERS-308200</u>	<u>OPERS-308208</u>	<u>OP&F - Police</u>	<u>OP&F - Fire</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability	\$1,502,454	\$9,787,235	\$11,358,271	\$6,778,814	\$29,426,774
Proportion of the Net Pension Liability	0.001246%	0.081147%	0.2192540%	0.1308546%	
Pension Expense	\$164,039	\$1,068,576	\$1,107,947	\$661,242	\$3,001,804

At December 31, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>OPERS-308200</u>	<u>OPERS-308208</u>	<u>OP&F - Police</u>	<u>OP&F - Fire</u>	<u>Total</u>
Deferred Outflows of Resources					
Net difference between projected and actual earnings on pension plan investments	\$80,164	\$522,217	\$489,531	\$292,161	\$1,384,073
City contributions subsequent to the measurement date	<u>223,726</u>	<u>1,457,158</u>	<u>980,663</u>	<u>592,829</u>	<u>3,254,376</u>
Total Deferred Outflows of Resources	<u>\$303,890</u>	<u>\$1,979,375</u>	<u>\$1,470,194</u>	<u>\$884,990</u>	<u>\$4,638,449</u>
Deferred Inflows of Resources					
Differences between expected and actual experience	<u>\$26,395</u>	<u>\$171,942</u>	<u>\$0</u>	<u>\$0</u>	<u>\$198,337</u>

\$3,254,375 reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

This Space Intentionally Left Blank

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

	<u>OPERS</u>	<u>OP&F</u>	<u>Total</u>
Year Ending December 31:			
2016	\$101,011	\$195,423	\$296,434
2017	101,011	195,423	296,434
2018	101,011	195,423	296,434
2019	<u>101,011</u>	<u>195,423</u>	<u>296,434</u>
Total	<u>\$404,044</u>	<u>\$781,692</u>	<u>\$1,185,736</u>

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Wage Inflation	3.75 percent
Future Salary Increases, including inflation	4.25 to 10.05 percent including wage inflation
COLA or Ad Hoc COLA	3 percent, simple
Investment Rate of Return	8 percent
Actuarial Cost Method	Individual Entry Age

Mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 6.95 percent for 2014.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2014 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	23.00 %	2.31 %
Domestic Equities	19.90	5.84
Real Estate	10.00	4.25
Private Equity	10.00	9.25
International Equities	19.10	7.40
Other investments	18.00	4.59
Total	100.00 %	5.28 %

Discount Rate The discount rate used to measure the total pension liability was 8 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the City’s proportionate share of the net pension liability calculated using the current period discount rate assumption of 8 percent, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (7 percent) or one-percentage-point higher (9 percent) than the current rate:

Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
City's proportionate share of the net pension liability-308200	\$21,764,084	\$1,502,453	\$439,857
City's proportionate share of the net pension liability-308208	18,005,708	9,787,235	2,865,301

Actuarial Assumptions – OPF

OPF's total pension liability as of December 31, 2014 is based on the results of an actuarial valuation date of January 1, 2014, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OPF's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2014, are presented below:

Valuation Date	January 1, 2014
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.25 percent
Projected Salary Increases	4.25 percent to 11 percent
Payroll Increases	3.75 percent
Inflation Assumptions	3.25 percent
Cost of Living Adjustments	2.60 percent and 3.00 percent

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed January 1, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OPF's target asset allocation as of December 31, 2014 are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash and Cash Equivalents	- %	(0.25) %
Domestic Equity	16.00	4.47
Non-US Equity	16.00	4.47
Core Fixed Income *	20.00	1.62
Global Inflation Protected *	20.00	1.33
High Yield	15.00	3.39
Real Estate	12.00	3.93
Private Markets	8.00	6.98
Timber	5.00	4.92
Master Limited Partnerships	8.00	7.03
Total	120.00 %	

* levered 2x

OPF's Board of Trustees has incorporated the "risk parity" concept into OPF's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate The total pension liability was calculated using the discount rate of 8.25 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.25 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.25 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.25 percent), or one percentage point higher (9.25 percent) than the current rate.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

	1% Decrease (7.25%)	Current Discount Rate (8.25%)	1% Increase (9.25%)
City's proportionate share of the net pension liability - police	\$15,710,208	\$11,358,271	\$7,673,505
City's proportionate share of the net pension liability - fire	9,376,125	6,778,814	4,579,681

Note 12 – Post Employment Benefits

Ohio Public Employees Retirement System

Plan Description

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan – a cost sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing multiple employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-employment health card coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by writing OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377, or by visiting the OPERS website at www.opers.org.

Funding Policy

The Ohio Revised Code provides the statutory authority requiring public employers to fund post retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care benefits.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2015, the City contributed at 14% of covered payroll. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14% of covered payroll. Active members do not make contributions to the OPEB Plan.

OPERS' Post Employment Health Care Plan was established under, and is administered in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Retirement Board determined the portion of the employer contribution rate that will be set aside for funding of post employment health care benefits. The portion of employer contributions allocated to the health care for members in the Traditional Plan was 1.0% during calendar year 2015. The portion of employer contributions allocated to health care for members in the Combined Plan was 1.0% during calendar year 2015. The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care coverage by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

Information from City's Records

The rates stated in Funding Policy, above, are the contractually required contribution rates for OPERS. The City's actual contributions for the current year, which were used to fund postemployment benefits, were \$240,030 for 2015, \$260,176 for 2014 and \$122,944 for 2013. The full amount has been contributed for 2013 and 2014 and 96% has been contributed for 2015.

OPERS Board of Trustees Adopt Changes to the Health Care Plan

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2015. With the recent passage of pension legislation under SB 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4 percent of the employer contributions toward the health care fund after the end of the transition period.

Ohio Police and Fire Pension Fund

Plan Description

The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment healthcare plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-retirement healthcare coverage for any person who receives or is eligible to receive a monthly service, disability, or survivor benefit check or is a spouse or eligible dependent child of such person. The healthcare coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide healthcare coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164, or by visiting the OP&F website at www.op-f.org.

Funding Policy

The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5% and 24.0% of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5% of the covered payroll for police employer units and 24.0% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and Section 401(h) account as the employer contribution for retiree healthcare benefits. The portion of employee contributions allocated to health care was 4.69% of covered payroll for January 1, 2015 through May 31, 2015, and 2.85% of covered payroll from June 1, 2015 through December 31, 2015. The amount of employer contributions allocated to the healthcare plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the healthcare plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

Information from City's Records

The City's contributions to OP&F for the year ending December 31, 2015 were \$25,497 (police) and \$12,449 (fire), for the year ending December 31, 2014 were \$25,320 (police) and \$12,176 (fire) and for the year ending December 31, 2013 were \$210,422 (police) and \$100,155 (fire); and were allocated to the healthcare plan. The actual contributions for 2014 and 2015 were 100% and 96% were actual contributions for 2015.

This Space Intentionally Left Blank

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Note 13 – Construction Commitments

The City had the following outstanding commitments at year end:

<u>Project</u>	<u>Spent-to-date</u>	<u>Commitment Remaining</u>
Nilles & Gray Rd. Improvements	\$1,101,886	\$517,097
Pleasant Ave. Water Main	76,481	268,719
Relining of Sanitary Sewers	0	155,756
Drainage Improvements	0	78,084
South Trace Irrigation Upgrade	0	70,479
Rt. 4/S. Gilmore/Holden Intersection	165,127	40,727
Total	<u>\$1,343,494</u>	<u>\$1,130,862</u>

Note 14 – Contingent Liabilities

Litigation

The City management is of the opinion that the ultimate disposition of claims and legal proceedings will not have a material effect, if any, on the financial condition of the City.

Federal and State Grants

The City participates in several federally assisted programs. These programs are subject to financial and compliance audits by the grantor or their representative. As of December 31, 2015, the audits of certain of these programs have not been completed. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the City believes such disallowance, if any, would be immaterial.

Note 15 – Interfund Activity

Interfund receivable and payables and transfers in and out for the year ended December 31, 2015, consisted of the following:

	<u>Interfund</u>		<u>Transfers</u>	
	<u>Receivable</u>	<u>Payable</u>	<u>In</u>	<u>Out</u>
Major Funds:				
General	\$239,169	\$0	\$0	\$3,800,000
Street Improvement	0	0	1,250,000	1,701,147
Fire Levy	0	0	850,000	0
Recreation Facilities	0	0	315,000	0
Internal Service	0	0	225,000	0
Other Governmental Funds	0	239,169	4,276,507	1,415,360
Totals	<u>\$239,169</u>	<u>\$239,169</u>	<u>\$6,916,507</u>	<u>\$6,916,507</u>

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Interfund balance/transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed.

The General Fund had an interfund receivable at year-end because the general fund covered the negative balances in the grant funds that did not receive reimbursement by year-end.

The City made various GAAP transfers from the Other Governmental Funds (Capital Improvement Fund and Debt Service Fund) and the Street Improvement Fund to the Debt Service Fund, the Street Improvement Fund and Recreational Facilities Fund to pay for debt service transactions.

Note 16 – Joint Venture

West Chester Township, the City of Fairfield, and the City of Springdale contracted to create the West Chester Township Joint Economic Development District (JEDD) for the purpose of facilitating economic development to create jobs and employment opportunities and to improve the economic welfare of the people in the State of Ohio and in the area of the contracting parties through facilitating economic development. The district is comprised of 43 acres located at the northwest corner of Union Centre Boulevard and Cincinnati-Dayton Road in West Chester. For more information and a copy of the financial statements, contact the City of Fairfield.

A 1.0% income tax was enacted for the JEDD. Imposition of tax began on September 15, 2010 and terminates December 31, 2049, with three five year extensions.

The City financial contributions to the JEDD will assist in facilitating the economic development within the District by assisting with marketing of the District.

Distribution of Gross Tax:

5% Service Fee for City of Fairfield to collect the income
2% Escrow payment for refunds
93% Net distribution

Net Distribution:

83% West Chester Township
7% City of Springdale
10% City of Fairfield

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

Note 17 – Compliance and Accountability

Compliance

Noncompliance – Appropriations in Excess of Estimated Resources.

Ohio Revised Code Section 5705.39 requires appropriations to be limited by estimated resources. Upon review of appropriations and estimated resources, it was noted that appropriations exceeded estimated resources during the year for the Fire Levy Fund at December 31, 2015.

Accountability

The following individual funds had deficit fund balances at year end:

Fire Levy	\$284,368
State Issue I	147,075
Municipal Garage	188,303

The deficits in fund balances were primarily due to accrual in GAAP. The general fund is liable for any deficit in these funds and will provide transfers when cash is required not when accruals occur.

Unassigned (Deficit)	14,274,603	(284,368)	0	(147,075)	13,843,160
Total Fund Balance	\$14,948,281	(\$284,368)	\$4,250,919	\$10,273,601	\$29,188,433

Note 19 – Change in Accounting Principle and Restatement of Net Position

For 2015, the City implemented the Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68." GASB 68 established standards for measuring and recognizing pension liabilities, deferred outflows

City of Fairfield, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended December 31, 2015

of resources, deferred inflows of resources and expense/expenditure. The implementation of this pronouncement had the following effect on net position as reported December 31, 2014:

	<u>Governmental Activities</u>	<u>Business -Type Activities</u>
Net position December 31, 2014	\$103,182,231	\$49,139,326
Adjustments:		
Net Pension Liability	(24,641,803)	(3,444,277)
Deferred Outflow - Payments Subsequent to Measurement Date	<u>2,415,585</u>	<u>431,261</u>
Restated Net Position December 31, 2014	<u>\$80,956,013</u>	<u>\$46,126,310</u>

	<u>Water Fund</u>	<u>Sewer Fund</u>	<u>Recreation Facilities Fund</u>	<u>Internal Service Fund</u>
Net position December 31, 2014	\$21,888,595	\$24,083,264	\$2,825,814	\$1,292,632
Adjustments:				
Net Pension Liability	(1,244,603)	(1,394,472)	(805,201)	(330,689)
Deferred Outflow - Payments Subsequent to Measurement Date	<u>155,838</u>	<u>174,603</u>	<u>100,820</u>	<u>41,406</u>
Restated Net Position December 31, 2014	<u>\$20,799,830</u>	<u>\$22,863,395</u>	<u>\$2,121,433</u>	<u>\$1,003,349</u>

Other than employer contributions subsequent to the measurement date, the City made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available.

City of Fairfield, Ohio
Notes to the Required Supplementary Information
For the Year Ended December 31, 2015

Note 1 – Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount Council may appropriate. The appropriations resolution is Council's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Council. The legal level of control has been established by Council at the department and object level for all funds. The Finance Director, with the approval of the City Manager and respective Department Heads, has been authorized to allocate appropriations to the function and object level within each fund. Council must approve any revisions that alter total fund appropriations.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Finance Director. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the year.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Council during the year.

While the City is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Budgetary Basis) presented for the general fund and fire levy fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than as an assignment of fund balance (GAAP).
4. Unreported cash represents amounts received but not included as revenue on the budget basis operating statements. These amounts are included as revenue on the GAAP basis operating statement.

City of Fairfield, Ohio
Notes to the Required Supplementary Information
For the Year Ended December 31, 2014

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund and fire levy fund.

Net Change in Fund Balance

	<u>General</u>	<u>Fire Levy</u>
GAAP Basis	\$564,462	(\$60,909)
Revenue Accruals	1,300,852	2,706
Expenditure Accruals	(1,652,526)	10,881
Transfers (Out)	(200,000)	0
Encumbrances	<u>(200,491)</u>	<u>0</u>
Budget Basis	<u>(\$187,703)</u>	<u>(\$47,322)</u>

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

Debt Service Funds

Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

Capital Projects Funds

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

NONMAJOR SPECIAL REVENUE FUNDS

Fund Descriptions

Street Construction, Maintenance and Repair - To account for 92.5% of the City's share of state gasoline taxes and motor vehicle license fees. State law requires that such monies be spent on street construction and maintenance.

State Highway Improvement - To account for the remaining 7.5% of the City's share of state gasoline taxes and motor vehicle license fees. State law requires that such monies be spent on state highways construction and improvements.

County Motor Vehicle Registration - To account for the City's share of motor vehicle registration fees. State law requires that such monies be spent on street construction and maintenance of certain specified roads.

Tax Recreation - To account for monies received from residential building permits specifically collected for the purpose of providing funds for recreational activities and facilities.

Law Enforcement - To account for monies received from the proceeds of the City's law enforcement activities, which participate with federal agencies in the arrest, and seizure of assets.

Municipal Motor Vehicle Registration - To account for the City's share of motor vehicle registration fees authorized by the City. State law requires that such monies be spent on street construction, operation and maintenance of City roads.

Law Enforcement and Education - To account for monies received from court fines imposed for drivers convicted of driving under the influence of drugs and alcohol. Monies generated under this fund shall be used for enforcement and education of the public of such dangers.

Drug and Alcohol Treatment - To account for monies received from court fines imposed for drivers convicted of driving under the influence of drugs and alcohol. Monies generated under this fund shall be used for treatment of chemically dependent drivers.

Local Law Enforcement - To account for monies received from the federal government under the Community Development Block Grant program for the renovation of public facilities.

Probation Services - To account for monies received from court fines. Monies generated under this fund shall be used for probation services provided by the Court.

Court Computer - To account for monies received from court fines. Monies generated under this fund shall be used for computer related expenses of the Court.

Special Projects - To account for monies received from court fines. Monies generated under this fund shall be used for special projects of the Court system.

Mediation Services - To account for monies received from court fines. Monies generated under this fund shall be used for mediation services of the Court system.

Tax Increment Equivalent - To account for the recording of revenues and expenditures related to the tax increment financing project with the Cincinnati Mills Mall.

Indigent Driver Interlock - To account for monies collected from court fines. Monies generated under this fund shall be used for electronic monitoring devices for indigent offenders in conjunction with treatment programs.

NONMAJOR CAPITAL PROJECTS FUNDS

Fund Descriptions

Capital Improvement - This capital projects fund accounts for the acquisition, construction, or the debt service thereupon, of assets with a useful life of five (5) years or more. Financing has been derived from two-tenths of the City's income tax.

Flood Protection – This capital project fund accounts for the construction of a flood protection project, which provides protection from stormwater runoff. Financing is derived from grants from the federal government, the state government and the issuance of notes.

State Issue I - This capital project fund accounts projects financed through the State of Ohio Public Works Commission. Financing is derived from grants from the stat government and local share participation.

Downtown Development - This capital projects fund accounts for expenditures of resources to construct major improvements to the City's downtown area.

Park Development - This capital projects fund accounts for the creation and development of Huffman Park.

STATISTICAL SECTION

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents

Financial Trends - These schedules contain trend information to help the reader understand how the City's financial position has changed over time.

Revenue Capacity - These schedules contain information to help the reader understand and assess the City's most significant local revenue sources, the income tax and property tax.

Debt Capacity - These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Economic and Demographic Information - These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

Operating Information - These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources - Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Source: County Auditor

(1) - Tangible Personal Property was eliminated by calendar year 2008. Between 2010 through 2017, the State has and will continue to reimburse 100% of this lost revenue.

Note: The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for everything except inventories, which are assessed at 23 percent. Property is assessed annually.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue to be received in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed.
