Independent Auditor's Report on Internal Control Over	
Financial Reporting and on Compliance and Other Matters	
Required by Government Auditing Standards	49

Madeira Indian Hill Joint Fire District Hamilton County 6475 Drake Road Cincinnati, Ohio 45243

To the Board of Trustees:

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Madeira Indian Hill Joint Fire District, Hamilton County, Ohio (the District), as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Madeira Indian Hill Joint Fire District Hamilton County Independent Auditor's Report Page 2

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Madeira Indian Hill Joint Fire District, Hamilton County, Ohio as of December 31, 2016, and the respective changes in financial position thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's Discussion and Analysis*, *required budgetary comparison schedule* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2017, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Dave Yost Auditor of State

Columbus, Ohio

November 14, 2017

Madeira & Indian Hill Joint Fire District, Ohio Management's Discussion and Analysis For the Year Ended December 31, 2016 (Unaudited)

The discussion and analysis of Madeira & Indian Hill Joint Fire District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended December 31, 2016. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and the basic financial statements to enhance their understanding of the District's performance.

#### **Financial Highlights**

Key financial highlights for 2016 are as follows:

- In total, net position increased \$2,953,482.
- General revenues accounted for \$3,015,069 in revenue, or 44% of all revenues. Program specific revenues in the form of charges for services and sales and capital grants and contributions accounted for \$3,859,883, or 56% of total revenues of \$6,874,952.
- The District had \$3,921,470 in expenses related to governmental activities.

#### **Overview of the Financial Statements**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The General and Permanent Improvement Fund are the only major funds.

#### **Government-wide Financial Statements**

While this document contains information about the funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2016?" The Government-wide Financial Statements answers this question. These statements include all assets and deferred outflows of recources, and liabilities and deferred inflows of recources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in those assets. This change in net position is important because it tells the reader that, for the District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial.

Madeira & Indian Hill Joint Fire District, Ohio Management's Discussion and Analysis For the Year Ended December 31, 2016 (Unaudited)

In the Government-wide Financial Statements, the District presents:

• Governmental Activities – All of the District's programs and services are reported here as security of persons and property and interest and fiscal charges.

#### **Fund Financial Statements**

The analysis of the District's major funds are presented in the Fund Financial Statements. Fund financial reports provide detailed information about the District's major funds.

Governmental Funds Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

**Fiduciary Funds** Fiduciary Funds are used to account for resources held for the benefits of parties outside the government. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

#### The District as a Whole

Recall that the Statement of Net Position provides the perspective of the District as a whole.

Table 1 provides a summary of the District's net position for 2016 compared to 2015:

Table 1 Net Position

	Government	al Activities	
	2016	2015	
Assets			
Current and Other Assets	\$1,801,106	\$1,860,075	
Capital Assets	6,097,981	2,579,759	
Total Assets	7,899,087	4,439,834	
Deferred Outflows of Resources:			
Pension	1,137,607	522,320	
Liabilities			
Other Liabilities	627,699	426,151	
Long-Term Liabilities	5,096,054	4,200,435	
Total Liabilities	5,723,753	4,626,586	
Deferred Inflows of Resources:			
Pension	24,947	966	
Net Position			
Net Investment in Capital Assets	6,004,274	2,425,380	
Restricted	53	7	
Unrestricted	(2,716,333)	(2,090,875)	
Total Net Position	\$3,287,994	\$334,512	
			■ Net Position
\$8,000,000			■ Liabilities
\$6,000,000			■Assets
			■ Deferred Outflows
\$4,000,000			■ Deferred Inflows
\$2,000,000			

Over time, net position can serve as a useful indicator of a government's financial position. At December 31, 2016, the District's assets and deferred outflows exceeded liabilities and deferred inflows by \$3,287,994.

2015

2016

At year end, capital assets represented 77% of total assets. Capital assets include land, construction in progress, buildings and improvements, and equipment. The amount of net investment in capital assets

at December 31, 2016, was \$6,004,274. Net Capital Assets increase mainly due to the beginning of the District's construction of a new fire station (Indian Hill Fire Station) and the completion of the Madeira Fire Station.

Table 2 shows the change in net position for 2016 and 2015.

Table 2 Changes in Net Position

	<b>Governmental Activities</b>	
	2016	2015
Revenues:		
Program Revenues:		
Charges for Services and Sales	\$186,114	\$232,818
Capital Grants and Contributions	3,673,769	1,262,939
General Revenues:		
Grants and Entitlements, Not Restricted	2,986,357	2,702,535
Other Revenues	28,712	18,644
Total Revenues	6,874,952	4,216,936
Program Expenses:		
Security of Persons and Property	3,918,788	3,004,915
Interest and Fiscal Charges	2,682	4,093
Total Expenses	3,921,470	3,009,008
Change in Net Position	2,953,482	1,207,928
Net Position Beginning of Year	334,512	0
Net Position End of Year	\$3,287,994	(\$873,416)

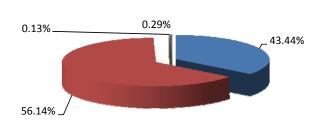

Security of persons and property comprises 99.9% of governmental program expenses. Total revenues increased in 2016 mainly due to monies received for the construction of the new fire houses. Total expenses for 2016 increased mainly due to the general and inflationary expenses.

#### **Governmental Activities**

The District revenues are mainly from two sources. Grants and entitlements (General Grants) comprised 43% of the District's total revenues for governmental activities.

# Madeira & Indian Hill Joint Fire District, Ohio Management's Discussion and Analysis For the Year Ended December 31, 2016 (Unaudited)

		Percent
Revenue Sources	2016	of Total
Program Revenues	\$3,859,883	56.14%
General Grants	2,986,357	43.44%
Investment Earnings	8,662	0.13%
Other Revenues	20,050	0.29%
	\$6,874,952	100.00%

The District's reliance upon Grants and Entitlements (General Grants) is demonstrated by the above graph. Program Revenues are higher due to the capital contributions for the construction of the two new fire stations.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by grants and entitlements.

Table 3
Governmental Activities

	Total Cost of Services		Net Cost of Services	
	2016 2015		2016	2015
Security of Persons and Property	\$3,918,788	\$3,004,915	(\$58,905)	(\$1,509,158)
Interest and Fiscal Charges	2,682	4,093	(2,682)	(4,093)
	\$3,921,470	\$3,009,008	(\$61,587)	(\$1,513,251)

#### The District's Major Fund

The District has two major governmental funds: the General and Permanent Improvement Funds. The assets of these two funds are the total governmental fund assets.

**General Fund**: Fund balance at December 31, 2016 was \$1,173,354. The decrease in fund balance was mainly due to the increase in accounts payable for 2016.

**Permanent Improvement Fund**: Fund balance at December 31, 2016 was \$53. The fund balance is due to interest received during the year.

#### **General Fund Budgeting Highlights**

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The only budgeted fund is the General Fund.

During the course of 2016, the District did not amend its General Fund budget. The District uses budgeting systems designed to tightly control budgets but provide flexibility for management.

For the General Fund, original and final budget basis revenue was \$3,188,365. The District's ending unobligated cash balance was \$1,446,067.

#### **Capital Assets and Debt Administration**

#### **Capital Assets**

At year end, the District had \$6,097,981 invested in land, construction in progress, buildings and improvements, and equipment. Table 4 shows 2016 balances compared to 2015:

Table 4 Capital Assets

	Government	Governmental Activities		
	2016	2015		
Land	\$24,096	\$24,096		
Construction in Progress	937,583	1,173,696		
Buildings and Improvements	3,749,310	97,260		
Equipment	1,386,992	1,284,707		
Total Net Capital Assets	\$6,097,981	\$2,579,759		

The increase in capital assets was due to the construction of two new firehouses. See Note 4 to the basic financial statements for further details on the District's capital assets.

#### Debt

At year end, the District had \$93,707 in Capital Lease payable, \$62,106 due within one year. Table 5 summarizes total long term debt outstanding at year end.

Table 5
Outstanding Debt, at Year End

	2016	2015
Capital Lease	\$93,707	\$154,379

See Note 6 and 7 of the Notes to the Basic Financial Statements for further details on the District's long-term obligations.

#### **Contacting the District's Financial Management**

This financial report is designed to provide citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Dianne Donlan, Clerk at Madeira & Indian Hill Joint Fire District, 6475 Drake Road, Cincinnati, Ohio 45243.

Fund Balance Beginning of Year	1,433,917	7	1,433,924
Fund Balance End of Year	\$1,173,354	\$53	\$1,173,407

Madeira & Indian Hill Joint Fire District, Ohio Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance of Governmental Fund to the Statement of Activities For the Fiscal Year Ended December 31, 2016

Net Change in Fund Balance - Total Governmental Fund		(\$260,517)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental fund reports capital asset additions as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of the difference between capital asset additions and depreciation in the current period.		
Capital assets used in governmental activities	3,814,436	
Depreciation Expense	(296,214)	3,518,222
Governmental funds report District pension contributions as expenditures. However in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.		
District pension contributions	328,825	
Cost of benefits earned net of employee contributions	(689,720)	(360,895)
		(300,033)
Repayment of general obligation debt principal is an expenditure in the governmental funds, but the repayment reduces long-term	ne	
liabilities in the statement of net position.		60,672
Some expenses reported in the statement of activities do not require use of current financial resources and therefore are not reported as expenditures in governmental fund.		
Compensated Absences	-	(4,000)
Change in Net Position of Governmental Activities	=	\$2,953,482

## Note 1 – Description of the District and Reporting Entity

Madeira & Indian Hill Joint Fire District (the "District") is a political body incorporated and established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District was established by the councils of the District of the Village of Indian Hill and the District of Madeira under the provisions of Section 505.371, Ohio Revised Code, on December 17, 1984, commencing operation as a District on January 1, 1985. The Fire District operates under the direction of a twelve member Board of Trustees, of which two members are council members of their respective Cities. The District provides the following services: fire protection, medical services, public safety and other public services.

#### **Reporting Entity**

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that financial statements are not misleading. The primary government of the District consists of all funds, departments, boards and agencies that are not legally separate from the District. The Board has direct responsibility for these activities.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board; and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organizations. Component units may also include organizations for which the District authorizes the issuance of debt or the levying of taxes, or determines the budget. There are no component units included as part of this report.

#### Note 2 – Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The most significant of the District's accounting policies are described below.

#### **Measurement Focus**

#### **Government-wide Financial Statements**

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements, which provide a more detailed level of financial information.

The government-wide statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, deferred inflows of resources associated with the operation of the District are included on the statement of net position. Fiduciary Funds are not included in entity-wide statements.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

#### **Fund Financial Statements**

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Private purpose trust funds are reported using the economic resources measurement focus.

#### **Fund Accounting**

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and fiduciary. The focus of government fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

#### **Governmental Funds**

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, deferred outflows of resources, liabilities, deferred inflows of resources is reported as fund balance. The following are the District's major governmental funds:

<u>General Fund</u> - The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Permanent Improvement Fund</u> – The Permanent Improvement Fund is provided to account for all transactions related to the acquiring, constructing, or improving of such permanent improvements.

#### **Fiduciary Funds**

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are custodian in nature (assets equal liabilities) and do not involve measurement of results of operations. The District has a medical reimbursement plan agency fund which accounts for assets, deferred outflows of resources, liabilities, deferred inflows of resources held for the District's employees covered under the medical reimbursement plan.

#### **Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources and in the presentation of expenses versus expenditures.

#### Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within thirty days of year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include grants and entitlements. Revenue from grants and entitlements is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

## **Deferred Outflows/Inflows of Resources**

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources

## Madeira & Indian Hill Joint Fire District, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2016

(expense/expenditure) until then. For the District, deferred outflows of resources have been reported for the following two items related the District's net pension liability: (1) the difference between expected and actual experience of the pension systems, and (2) the District's contributions to the pension systems subsequent to the measurement date.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The District also reports a deferred inflow of resources for the net difference between projected and actual earnings on pension plan investments related to the District's net pension liability. This deferred inflow of resources is only reported on the government-wide statement of net position.

## **Expenses/Expenditures**

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

#### **Equity in Pooled Cash and Investments**

To improve cash management the District's cash and investments are pooled. Monies for all funds, except cash and investments held in segregated accounts, are maintained in this pool. Individual fund integrity is maintained through District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Investments" on the balance sheet.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District also implemented GASB Statement No. 79 for 2016. The implementation of this GASB pronouncement had no effect on beginning net position/fund balance. The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2016, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

For presentation on the statement of net position/balance sheet, investments with an original maturity of three months or less and investments of the cash management pool are considered to be cash equivalents.

The General and Permanent Improvement Fund received investment earnings. Investment earnings credited to the General Fund amounted to \$8,616 and \$46 for the Permanent Improvement Fund.

#### **Prepaids**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids.

#### **Capital Assets**

General capital assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets are depreciated except for land and construction in progess. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	Estimated Lives
Buildings and Improvements	5-30 years
Equipment	5-20 years

#### **Compensated Absences**

The District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences." Compensated absences are accrued as a liability using the vesting method. The entire compensated absence liability is reported on the government-wide financial statements. For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

#### **Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

#### **Fund Balance**

In accordance with Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (prepaids) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that are reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – resources that are constrained for specific purposes that are internally imposed by the government at its highest level of decision making authority, the Board of Trustees. The commitment is rescinded or removed through resolution.

Assigned – resources that are intended to be used for specific purposes as approved through the District's formal purchasing procedure by the Clerk.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts which had been restricted, committed or assigned for said purposes.

The District applies restricted resources first when an expense is incurred for purposes which both restricted and unassigned fund balances are available. The District considers committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

#### **Net Position**

Net position represents the difference between assets, deferred outflows of resources, liabilities, deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The District did not have any net position restricted by enabling legislation.

#### **Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### Note 3 - Equity in Pooled Cash and Investments

Cash resources are combined to form a pool of cash and investments. This pool is displayed on the combined balance sheet as "Equity in Pooled Cash and Investments."

Statutes require the classification of funds held by the District into three categories.

<u>Active Monies</u> - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the District. Such monies must by law be maintained either as cash in the District treasury, in depository accounts payable or withdrawable on demand.

<u>Inactive Monies</u> – Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to, passbook accounts.

<u>Interim Monies</u> – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested or deposited in the following securities:

- (1) Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest.
- (2) Bonds, notes, debentures, or other obligations or securities issued by any federal governmental agency.
- (3) No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
- (4) Interim deposits in the eligible institutions applying for interim monies to be evidenced by time certificates of deposit maturing not more than one year from date of deposit, or by savings or deposit accounts, including, but limited to, passbook accounts.

- (5) Bonds, and other obligations of the State of Ohio.
- (6) The Ohio State Treasurer's investment pool (STAR Ohio).
- (7) Commercial paper and banker's acceptances which meet the requirements established by Ohio Revised Code, Sec. 135.142.
- (8) Under limited circumstances, corporate debt interests in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

#### **Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's policy for deposits is any balance not covered by depository insurance will be collateralized by the financial institutions with pledged securities. As of December 31, 2016, \$194,549 of the District's bank balance of \$444,549 was exposed to custodial risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

Ohio Revised Code Chapter 135, Uniform Depository Act, authorizes pledging of pooled securities in lieu of specific securities. Specifically, a designated public depository may pledge a single pool of eligible securities to secure repayment of all public monies deposited in the financial institution, provided that all times the total value of the securities so pledged is at least equal to 105% of the total amount of all public deposits secured by the pool, including the portion of such deposits covered by any federal deposit insurance.

#### **Investments**

As of December 31, 2016, the District had the following investments:

		Fair Value	
Investment Type	<u>Fair Value</u>	Hierarchy	
STAR Ohio	\$1,484,763	N/A	

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The Hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the District's recurring fair value measurements as of December 31, 2016. STAR Ohio is reported at its share price (Net Asset value per share).

Interest Rate Risk - In accordance with the investment policy, the District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to three years.

Credit Risk – It is the District's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have the highest credit quality rating issued by nationally recognized statistical rating organizations. Investments in STAROhio were rated AAAm by Standard and Poor's and Fitch ratings.

Concentration of Credit Risk – The District's investment policy allows investments in Federal Agencies or Instrumentalities. The District invested 100% in STAROhio.

Custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the District's securities are either insured and registered in the name of the District or at least registered in the name of the District.

#### Note 4 – Capital Assets

Capital asset activity for the current year end was as follows:

	Beginning			Ending
	Balance	Additions	Deletions	Balance
Governmental Activities				
Capital Assets, not being depreciated:				
Land	\$24,096	\$0	\$0	\$24,096
Construction in Progress	1,173,696	3,549,723	3,785,836	937,583
Capital Assets, being depreciated:	1,173,090	3,343,723	3,763,630	937,363
	626.064	2 705 026	F20 120	2 004 662
Buildings and Improvements	626,964	3,785,836	528,138	3,884,662
Equipment	2,537,390	264,713	192,481	2,609,622
Totals at Historical Cost	4,362,146	7,600,272	4,506,455	7,455,963
Less Accumulated Depreciation:				
Buildings and Improvements	529,704	133,786	528,138	135,352
Equipment	1,252,683	162,428	192,481	1,222,630
_4a.b				
Total Accumulated Depreciation	1,782,387	296,214	720,619	1,357,982
Total Accumulated Depleciation	1,702,307	230,214	720,019	1,337,382
	40	4= 004 0=0	40 =0= 000	ås 22 <b>=</b> 224
Governmental Activities Capital Assets, Net	\$2,579,759	\$7,304,058	\$3,785,836	\$6,097,981

Depreciation expense was charged to the governmental function as follows:

Security of Persons and Property \$296,214

#### Note 5 – Compensated Absences

Sick leave is accrued at the rate of 5.2 hours for each 80 regularly scheduled hours worked, to a maximum accrual of 136 hours in any calendar year. Upon retirement from active service with the District, employees may convert one-fourth of unused sick leave (maximum 720 hours) to pay. Employees cannot accumulate vacation but full-time employees may carry-over into the next year up to two vacation days, which carry-over days must be used in the following (carry-over) year. If any carry-over vacation days are not used in the following year, then said carry-over vacation days will be lost. Or, upon written request to the Fire Chief prior to December 1, and upon approval of the Fire Chief, full-time employees may be paid for unused vacation days up to a maximum amount of fifty percent of their annual vacation days.

#### Note 6 – Long-Term Debt

	Beginning Balance Outstanding	Additions	Deletions	Ending Balance Outstanding	Due In One Year
Governmental Activities:					
Capital Lease	\$154,379	\$0	\$60,672	\$93,707	\$62,106
Net Pension Liability	3,936,830	952,291	0	4,889,121	0
Compensated Absences	109,226	4,525	525	113,226	12,794
Total Governmental Activities	\$4,200,435	\$956,816	\$61,197	\$5,096,054	\$74,900

Compensated absences will be paid from the fund from which the employee is paid (the general fund). General Obligation Bonds and Capital Leases will be paid from the General Fund.

#### Note 7 - Capital Lease

The District entered into a capital lease for a fire truck in 2013.

The lease described above meets the criteria of capital lease as defined by statement of Financial Accounting Standards No. 13 "Accounting for Leases", which defines a capital lease generally as one that transfers benefits and risks of ownership to the lessee. Future capital lease payments will be made from the General Fund.

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the minimum lease payments as of fiscal year end.

Fiscal Year	Capital
Ending June 30	Leases
2017	\$63,945
2018	31,973
Total Minimum Lease Payments	95,918
Less: Amount Representing Interest	(2,211)
Present Value of Minimum Lease Payments	\$93,707

Capital assets acquired under capital leases in accordance with Statement of Financial Accounting Standards No. 13 are as follows:

Equipment \$509,000

#### Note 8 - Insurance

The District maintains comprehensive coverage with private carriers for real property, building contents and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. Real property and contents are 90 percent coinsured. Settled claims have not exceeded coverage in any of the past three years. There have been no significant changes in coverage from last year.

#### Note 9 - Defined Benefit Pension Plans

#### **Net Pension Liability**

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

#### Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - District employees, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. District employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial

for service years in excess of 25

statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <a href="https://www.opers.org/financial/reports.shtml">https://www.opers.org/financial/reports.shtml</a>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information, including requirements for reduced and unreduced benefits):

Survey B	Consum C
Group B	Group C
20 years of service credit prior to	Members not in other Groups

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

for service years in excess of 25

for service years in excess of 25

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent

simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State	Public	Law
	and Local	Safety	Enforcement
2016 Statutory Maximum Contribution Rates			
Employer	14.0 %	18.1 %	18.1 %
Employee	10.0 %	*	**
2016 Actual Contribution Rates			
Employer:			
Pension	12.0 %	16.1 %	16.1 %
Post-employment Health Care Benefits	2.0	2.0	2.0
Total Employer	14.0 %	18.1 %	18.1 %
Employee	10.0 %	12.0 %	13.0 %

- \* This rate is determined by OPERS' Board and has no maximum rate established by ORC.
- \*\* This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The District contractually required contribution was \$11,349 for 2016.

#### Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description - District full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at <a href="www.op-f.org">www.op-f.org</a> or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before after July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Police	Firefighters
2016 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %
2016 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	0.50	0.50
Total Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The District's contractually required contribution to OP&F was \$317,476 for 2016.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2015, and was determined by

rolling forward the total pension liability as of January 1, 2015, to December 31, 2015. The District proportion of the net pension liability was based on the District share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	OPERS	OP&F	Total
Proportionate Share of the Net			
Pension Liability	\$83,488	\$4,805,633	\$4,889,121
Proportion of the Net Pension			
Liability	0.0004820%	0.0747020%	
Pension Expense	\$17,040	\$672,680	\$689,720

At December 31, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS	OP&F	Total
Deferred Outflows of Resources:			
Net difference between projected and			
actual earnings on pension plan investments	\$24,540	\$782,173	\$806,713
Changes in proportion and differences			
between District contributions and proportionate			
share of contributions	2,069	0	2,069
District contributions subsequent to the			
measurement date	11,349	317,476	328,825
Total Deferred Outflows of Resources	\$37,958	\$1,099,649	\$1,137,607
Deferred Inflows of Resources:			
Differences between expected and			
actual experience	\$1,613	\$13,494	\$15,107
Changes in employer proportion and differences			
between contributions and proportionate			
share of contributions	0	9,840	9,840
Total Deferred Inflows of Resources	\$1,613	\$23,334	\$24,947

\$328,825 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending			
December 31:	OPERS	OP&F	Total
2017	\$6,322	\$201,471	\$207,793
2018	6,714	201,471	208,185
2019	6,407	201,471	207,878
2020	5,554	159,775	165,329
2021	0	(4,496)	(4,496)
Thereafter	0	(854)	(854)
Total	\$24,997	\$758,838	\$783,835

# **Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of the occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2015, using the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuations are presented below:

Key Methods a	nd Assumptions	Used in Valuation	of Total Pension	n Liahility
nev ivietilous a	HU ASSUHIDUOHS	OSEU III Valuatioii	i di Tutai Pelisidi	II LIADIIILV

Actuarial Information	Traditional Penion Plan	
Valuation Date	December 31, 2015	
Experience Study	5 year period ending December 31, 2010	
Actuarial Cost Method	Individual Entry Age	
Actuarial Assumptions:		
Investment Rate of Return	8.00%	
Wage Inflation	3.75%	
Projected Salary Increases	4.25% - 10.05% (includes wage inflation at 3.75%)	
Cost-of-Living Adjustments:		
Pre 1/7/2013 Retirees	3.00% Simple,	
Post 1/7/2013 Retirees	3.00% Simple,	
Through 2018, then	2.80% Simple.	

Mortality rates are the RP-2000 mortality table projected 20 years using Projection Scale AA. For males, 105% of the combined healthy male mortality rates were used. For females, 100% of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males, 120% of the disabled female

mortality rates were used, set forward two years. For females, 100% of the disabled female mortality rates were used.

The long term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefit portfolio, the 401(h) Health Care Trust portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan, and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money-weighted rate of return, net of investment expense, for the Defined Benefit portfolio is 0.4% for 2015.

The allocation of investment assets within the Defined Benefit portfolio is approved by the Board as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The following table displays the Board-approved asset allocation policy for 2015 and the long-term expected real rates of return:

		Weighted Average Long-Term Expected
	Target	Real Rate of Return
Asset Class	Allocation	(Arithmetic)
Fixed Income	23.00 %	2.31 %
Domestic Equities	20.70	5.84
Real Estate	10.00	4.25
Private Equity	10.00	9.25
International Equities	18.30	7.40
Other investments	18.00	4.59
Total	100.00 %	5.27 %

### **Discount Rate**

The discount rate used to measure the total pension liability was 8.0% for the Traditional Pension Plan, Combined Plan and Member-Directed Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the net pension liability or asset calculated using the discount rate of 8.0%, and the expected net pension liability or asset if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate:

	Current			
	1% Decrease	Discount Rate	1% Increase	
	7.00%	8.00%	9.00%	
District's proportionate share				
of the net pension liability:				
OPERS	\$133,018	\$83,488	\$41,712	

# **Actuarial Assumptions – OP&F**

OP&F's total pension liability as of December 31, 2015 is based on the results of an actuarial valuation date of January 1, 2015, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2015, are presented below:

Valuation Date	January 1, 2015
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.25%
Projected Salary Increases	4.25% through 11% percent
Payroll Increases	3.75%
Inflation Assumptions	3.25%
Cost of Living Adjustments	2.60% and 3.00%, simple

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed January 1, 2012.

The long-term expected rate of return on pension plan investments was determined using a buildingblock approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term

35

expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2015 are summarized below:

	Target	10 Year Expected	30 Year Expected
Asset Class	Allocation	Real Rate of Return**	Real Rate of Return**
Domestic Equity	16.00 %	4.47 %	7.80 %
Non-US Equity	16.00	4.47	8.00
Core Fixed Income*	20.00	1.62	5.35
Global Inflation Protected Securities*	20.00	1.33	4.73
High Yield	15.00	3.39	7.21
Real Estate	12.00	3.93	7.43
Private Markets	8.00	6.98	10.73
Timber	5.00	4.92	7.35
Master Limited Partnerships	8.00	7.03	10.75
Total	_120.00_%		

Note: Assumptions are geometric

OP&F's Board of Trustees has incorporated the "risk parity" concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

#### **Discount Rate**

The total pension liability was calculated using the discount rate of 8.25 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.25 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

# Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.25 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.25 percent), or one percentage point higher (9.25 percent) than the current rate.

<sup>\*</sup> levered 2x

<sup>\*\*</sup> Numbers include inflation

	1% Decrease (7.25%)	Current Discount Rate (8.25%)	1% Increase (9.25%)	
District's proportionate share of the net pension liability:		(====,		
OP&F	\$6,337,985	\$4,805,633	\$3,507,578	

#### Note 10 – Post Employment Benefits

# **Ohio Public Employees Retirement System**

# Plan Description

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan—a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan—a defined contribution plan; and the Combined Plan—a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan. In March 2016, OPERS received two favorable rulings from the Internal Revenue Service (IRS) allowing OPERS to consolidate all health care assets into the OPERS 115 Health Care Trust. Transition to the new health care trust structure was completed July 1, 2016. As of December 31, 2016, OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the Traditional Pension and the Combined plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including OPERS sponsored health care coverage. OPERS funds a Retiree Medical Account (RMA) for participants in the Member-Directed Plan. At retirement or refund, participants can be reimbursed for qualified medical expenses from their vested RMA balance.

In order to qualify for health care coverage, age-and-service retirees under the Traditional Pension and Combined plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45. Please see the Plan Statement in the OPERS 2015 CAFR for details. The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the OPERS Board of Trustees (OPERS Board) in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <a href="https://www.opers.org/financial/reports.shtml#CAFR">https://www.opers.org/financial/reports.shtml#CAFR</a>, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377. Funding Policy

The Ohio Revised Code provides the statutory authority requiring public employers to fund health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2016, State and Local employers contributed at a rate of 14.0% of earnable salary and Public Safety and Law Enforcement employers contributed at 18.1%. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 2.0% during calendar year 2016. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2017 decreased to 1.0% for both plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2016 was 4.0%.

# Information from District's Records

The rates stated in Funding Policy, above, are the contractually required contribution rates for OPERS. The District's actual contributions for the current year, which were used to fund postemployment benefits, were \$1,891 for 2016, \$1,653 for 2015, and \$1,116 for 2014. The full amount has been contributed for 2016, 2015 and 2014.

#### **Ohio Police and Fire Pension Fund**

# Plan Description

The District contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost sharing, multiple-employer defined post-employment healthcare plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-retirement healthcare coverage for any person who receives or is eligible to receive a monthly service, disability, or survivor benefit check or is a spouse or eligible dependent child of such person. The healthcare coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide healthcare coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164, or by visiting the OP&F website at <a href="https://www.op-f.org">www.op-f.org</a>. Funding Policy

The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5% and 24.0% of covered payroll for police and fire employers, respectively. The

Ohio Revised Code states that the employer contribution may not exceed 19.5% of the covered payroll for police employer units and 24.0% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and Section 401(h) account as the employer contribution for retiree healthcare benefits. The portion of employer contributions allocated to health care was .5% of covered payroll from January 1, 2016 thru December 31, 2016. The amount of employer contributions allocated to the healthcare plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the healthcare plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

# Information from District's Records

The District's contributions to OP&F for the year ending December 31, 2016 was \$6,809, December 31, 2015 was \$7,149; and December 31, 2014 was \$6,752. The actual contributions for 2016, 2015 and were 100%.

#### Note 11 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the General and Permanent Improvement Fund is presented below:

This Space Intentionally Left Blank

Fund Balances	General	Permanent Improvement	Total
N. 111			
Nonspendable: Prepaids	\$49,955	\$0	\$49,955
Total Nonspendable	49,955	0	49,955
Restricted for:			
Capital Projects	0	53	53
Total Restricted	0	53	53
Committed to: Compensated Absences	113,226	0	113,226
Assigned to: Subsequent Year Budget Capital Items	247,216 762,957	0	247,216 762,957
Total Assigned	1,010,173	0	1,010,173
Total Fund Balance	\$1,173,354	\$53	\$1,173,407

# Note 12 – Construction and Other Commitments

The District had the following outstanding commitments at year end:

Projects	Amount
Indian Hill Fire Station	\$4,300,216

#### Note 13 – Implementation of New Accounting Principles

For the fiscal year ended December 31, 2016, the District has implemented Governmental Accounting Standards Board (GASB) Statement No. 72, Fair Value Measurement and Application, GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments, GASB Statement No. 77, Tax Abatement Disclosures and GASB Statement No. 79, Certain External Investment Pools and Pool Participants.

GASB Statement No. 72 clarifies the definition of fair value for financial reporting purposes, establishes general principles for measuring fair value, provides additional fair value application guidance, and enhances disclosures about fair value measurements. These changes were incorporated in the District's note disclosures.

GASB Statement No. 73 establishes requirements for defined benefit pensions that are not within the scope of GASB Statement No. 68 as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within

the scope of Statement 68. It also clarifies the application of certain provisions of GASB Statements 67 and 68. The implementation of GASB Statement No. 73 did not have an effect on the financial statements of the District.

GASB Statement No. 76 reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. The implementation of GASB Statement No. 76 did not have an effect on the financial statements of the District.

GASB Statement No. 77 establishes improved financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. Disclosure of information about the nature and magnitude of tax abatements will make these transactions more transparent to financial statement users. As a result, users will be better equipped to understand (1) how tax abatements affect a government's future ability to raise resources and meet its financial obligations and (2) the impact those abatements have on a government's financial position and economic condition. The implementation of GASB Statement No 77 did not have an effect on the financial statements of the District.

GASB Statement No. 79 addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The implementation of GASB Statement No. 79 did not have an effect on the financial statements of the District.

## Note 1 – Budgetary Process

The District prepares its budget on a GAAP basis. All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the budget, the appropriations resolution and the certificate of estimated resources, which are also prepared on the GAAP basis of accounting. The certificate of estimated resources establishes a limit on the amount that the Board of Trustees may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures at the level of control selected by Board. The legal level of control has been established by the Board at the fund and function, and object level. Any budgetary modifications at this level may only be made by the resolution of the Board of Trustees.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Clerk. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the year 2016.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Board during the year.

As indicated above, the District prepares its budget on a GAAP basis. Therefore there are no differences between the budget basis and GAAP basis.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Madeira Indian Hill Joint Fire District Hamilton County 6475 Drake Road Cincinnati, Ohio 45243

To the Board of Trustees:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Madeira Indian Hill Joint Fire District, Hamilton County, Ohio (the District) as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 14, 2017.

# Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Madeira Indian Hill Joint Fire District Hamilton County Independent Auditor's Report on Internal Control Over Financial Reporting and On Compliance and Other Matters Required by *Government Auditing Standards* Page 2

# **Compliance and Other Matters**

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

# Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
