#### INDEPENDENT AUDITOR'S REPORT

Metropolitan Sewer District of Greater Cincinnati Hamilton County 1605 Gest Street Cincinnati, Ohio 45204

To the Hamilton County Board of Commissioners:

#### Report on the Financial Statements

We have audited the accompanying financial statements of the Metropolitan Sewer District of Greater Cincinnati, Hamilton County, Ohio (the District), as of and for the years ended December 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District, as of December 31, 2020 and 2019, and the changes in financial position andcash flows for the years then ended in accordance with the accounting principles generally accepted in the United States of America.

Metropolitan Sewer District of Greater Cincinnati Hamilton County Independent Auditor's Report Page 2

#### Emphasis of Matter

As discussed in Note 15 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. We did not modify our opinion regarding this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 27, 2021, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio May 27, 2021

### MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)

This section of the Metropolitan Sewer District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal years ended December 31, 2020 and December 31, 2019. Please read it in conjunction with the District's basic financial statements and footnotes, beginning on page 11.

#### FINANCIAL HIGHLIGHTS FOR THE YEAR

- Assets and deferred outflows exceeded liabilities and deferred inflows by \$1,076 million at the close of the 2020 fiscal year.
- The District's net position decreased by \$59.9 million in 2020, or -5.3%.
- During fiscal year 2020, the District's total assets increased \$28 million to \$2,367 million, a 1.2% increase.
- Total long-term liabilities increased \$124 million to \$1,325 million in fiscal year 2020.
- A refinance of the 2010A and 2010B Bonds occurred in November 2020, to a 2020A Revenue Bond, resulting in a Premium of \$18.9 million, and a net present value savings of 13.1 million.
- The District's debt service coverage ratio remains strong at 1.8 for fiscal year 2020.

#### FINANCIAL STATEMENTS OVERVIEW

Financial Reporting Entity— The Metropolitan Sewer District of Greater Cincinnati is a Hamilton County enterprise fund managed and operated by the City of Cincinnati. The District is operated pursuant to the authority of the Revised Code authorizing the formation of joint sewer districts, agreements between counties and municipal corporations. The District provides sewage treatment within a service area of approximately 400 square miles and encompasses portions of four counties in southwestern Ohio. The District provides wastewater removal and treatment to over 220,000 residential, commercial and industrial sewer connections and operates and maintains over 3,000 miles of sanitary and combined sewers, seven major wastewater treatment plants and 100 pump stations. As an enterprise fund, operations are reported on the full accrual basis of accounting: revenues are recognized when earned, and expenses are recognized when incurred. The County issues a separate Comprehensive Annual Financial Report which includes the District as a separate enterprise fund of the County. The financial statements of the District report information about the District using accounting methods similar to those used by private-sector companies. These statements provide both long-term and short-term information about the District's overall financial status.

#### Financial Statement Structure --

In addition to the Independent Auditor's Report, the annual financial report consists of three segments:

The Management's Discussion and Analysis provides explanations for and analysis of the
Department's financial activities based upon currently known facts, conditions, and decisions of
the Department's management. While primarily focused on current year results compared with
prior years, this discussion also addresses certain long-term issues, which may, in management's
opinion, impact the District's financial performance.

### MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)

- Basic Financial Statements, which depict the District's financial position as of December 31, 2020 and 2019, along with earnings performance and cash flow information. These statements include the Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position and the Statement of Cash Flows.
- The accompanying notes explain some of the financial statement data and provide more detailed information.

Required Basic Financial Statements -- The Statement of Net Position is the first required statement; it includes the District's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and nature and extent of obligations (liabilities) with the difference being reported as net position. It also provides the basis for computing the rates of return, evaluating the capital structure of the District, and assessing the liquidity and financial flexibility of the District. Over time, increases or decreases in the District's net position is one indicator of whether its financial health is improving or deteriorating. Other non-financial factors such as changes in economic conditions, population growth, and new or changed legislation also need to be considered in assessing the District's financial condition. The Statement of Revenues, Expenses, and Change in Net Position is the second required financial statement which demonstrates the changes in net position from one fiscal period to the next by accounting for revenues and expenditures and measuring the financial results of operations. This statement measures the profitability (i.e. change in net position) of the District's operations over the past year and can be used to determine whether the District has successfully recovered all of its costs through its user fees and other charges. The final required financial statement is the Statement of Cash Flows. The primary purpose of this statement is to provide information about the District's cash receipts, cash payments, and net changes in cash and cash equivalents resulting from operations, investing, and capital and noncapital financing activities. It also provides information regarding sources of cash, uses of cash, and changes in cash balances during the reporting period

Notes to the audited financial statements contain information essential to understanding them, such as the District's significant accounting policies and information about certain financial statement account balances

### MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)

#### FINANCIAL ANALYSIS

Table A below shows that in fiscal year 2020, 87.8% of the District's net position reflects its investment in capital assets (e.g., buildings, sewer laterals, and equipment), less related debt still outstanding used to acquire those assets. These capital assets are used primarily in the collection and treatment of wastewater throughout the District's service area.

- The related liabilities will be repaid with resources provided by system users through rates and fees. Long-term debt (net of the current portion) decreased by \$34.2 million in 2020, or -3.85%, and decreased by \$.6 million in 2019, or -0.7%.
- Net position decreased \$59.9 million in 2020, and decreased \$6.1 million in 2019. Percentage
  decreases over the two year period of -5.3%, and -0.5%, respectively. Total expenses in both years
  was due to fluctuations attributable to accounting for pensions.

### MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)

Table B below shows total operating revenues for fiscal year 2020 of \$257.5 million, a decrease of \$14.8 million, or -5.4%. Operating revenues were \$272.3 million, a decrease of .6 million, or -.2% in 2019. Meanwhile, total expenses increased \$33 million, or 10.9%, in 2020 and increased \$75.9 million, or 33.5%, in 2019. Increase in total expenses in both those years was due to fluctuations attributable to accounting for pensions.

| Change in net position   | \$  | (59,855)                               | 875.8%  | \$ | (6,134)                               | -109.4%   | \$ | 65,434                               | -49.0%  |
| Total Net Position, beginning  | 1   | ,135,697                               | -0.5%   |    | 1,141,831                             | 6.1%  |    | 1,076,397                            | 13.5%   |
| Total Net Position, ending   | \$1 | ,075,842                               | -5.3%   | \$ | 1,135,697                             | -0.5%   | \$ | 1,141,831                            | 6.1%  |

- Operating expenses, excluding depreciation, amortization and net pension expense, decreased by \$.9 million to \$125.2 million in 2020 from \$125.3 million in 2019. The decrease was due to a decrease in Utilities, fuel and supplies and Other Operating expenses. 2019 saw an increase of \$6.9 million, or 5.9%, over the prior year. The increase was due to purchased services and other expenses.
- Salary and wages increased \$.4 million to \$57.7 million in 2020 compared to \$57.3 million in 2019. This was a combination of Salary and Wages and Benefits.
- Depreciation expense decreased \$.2 million, or -0.3%, in 2020. Depreciation expense increased \$1.5 million, 2.3%, in 2019 compared to the prior year.

### MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)

- Non-operating expenses for 2020 were \$29.9 million in, a decrease of \$5.9 million or -16.4%. 2019 decreased \$.6 million, or -1.9%, due to changes in interest expense and the fair value of investments.
- The City of Cincinnati offered an Early Retirement Incentive Program (ERIP) in 2007. In 2016, MSD paid the City \$8,723,061, its share of the remaining liability to the City Retirement System. This amount represents in full the liability for the years 2015-2023 and is being amortized over 7 years. ERIP amortization expense was \$1,250 million in both 2020 and 2019.

Table C reflects year-end capital balances. As of December 31, the District's investment in capital assets (net of accumulated depreciation) amounted to \$1,828 million in 2020, \$1,757 million in 2019. Capital assets increased \$70.5 million, or 4.0%, on system improvement projects, land acquired for those projects and equipment replacement in 2020. Capital contributions were \$4.4 million and \$6.2 million in 2020 and 2019, respectively.

Capital construction and sewer improvement projects were 33.1% in 2020 and 15.6% of the program in 2019. Additional information on the District's capital assets can be found in Note 5 to the financial statements.

#### **Bond Issuances**

The District finances its construction program through a combination of revenue bonds, state revolving loans through the State of Ohio and cash, with the primary source being tax-exempt revenue bonds. The District's revenue bond rates are:

| • | Moody's Investors Services    | Aa2 |
|---|-------------------------------|-----|
| • | Standard & Poor's Corporation | AA+ |

### MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)

Revenue bond service Debt Coverage in 2020 was 271% and 271% in 2019, compared to an Agency policy of 150% (25% higher than indenture requirements). The total debt coverage for 2020 was 177% and 184% in 2019, compared to the indenture requirement of 125%.

Rate Increase - Hamilton County Commissioners have not approved a rate increase of the District's sewer fee for 2016 - 2021. The District's large capital program to meet Federal EPA requirements will likely necessitate a rate increase in the near future.

#### **GASB 68**

During 2015, the Metropolitan Sewer District of Greater Cincinnati adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," which significantly revised accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the Metropolitan Sewer District of Greater Cincinnati's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the standards required by GASB 68, the net pension liability equals the Metropolitan Sewer District of Greater Cincinnati's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the Metropolitan Sewer District of Greater Cincinnati is not responsible for certain key factors affecting the balance of this liability. The Metropolitan Sewer District of Greater Cincinnati employees are covered by two pension systems. They are the City of Cincinnati Retirement System (CRS), and the Ohio Public Employees Retirement System (OPERS). The City of Cincinnati Retirement System (CRS) is accounted for as a single employer defined benefit pension plan. For CRS, the employee shares the obligation of funding

### MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)

pension benefits with the employer. Both employer and employee contribution rates are set by the City of Cincinnati ordinance. The CRS system provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. The City of Cincinnati makes employer contributions based on a percentage of covered payroll of all CRS members. For Ohio PERS, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the Metropolitan Sewer District of Greater Cincinnati's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

The COVID-19 Crisis has MSD reassessing the 2021 budget expenditures.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### **NOTE 1 - ACCOUNTING POLICIES**

A summary of the significant accounting policies applied in the accompanying financial statements follows:

#### Organization

The Metropolitan Sewer District of Greater Cincinnati (MSD), an enterprise fund of the County of Hamilton, Ohio, collects and treats industrial and residential wastewater for municipalities and unincorporated areas of Hamilton County. MSD was formed on April 10, 1968, pursuant to resolutions of the Board of County Commissioners of Hamilton County and Ordinances of the City of Cincinnati, providing for a consolidation of the City Sewer Department and the County Sewer District. The two entities executed an agreement with an initial 50-year term. Per the agreement, the City is responsible for operational management. The original agreement was set to expire in April 2018 but has since been extended indefinitely by the Federal District Court. The parties remain in mediation in Federal District Court to resolve their remaining disputes.

Under a contract with the City of Cincinnati, the Board designated the City as its agent for the maintenance and operation of MSD. The annual budget, prepared on a non-GAAP budgetary basis of accounting, is approved by the Board and administered by the City. Budgetary control is exercised at the divisional level, and between personnel and all other costs. The County issues a separate Comprehensive Annual Financial Report which includes MSD as a separate enterprise fund of the County.

#### **Basis of Accounting**

The accompanying financial statements were prepared on the accrual basis of accounting, whereby revenues and expenses are recognized in the period earned or incurred.

#### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### **Statement of Cash Flows**

For purposes of the Statements of Cash Flows, all highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents. Pooled cash and investments held by the City of Cincinnati are considered cash equivalents by MSD.

#### **Investments**

MSD is required by Ohio law to invest in only United States obligations; federal agency securities; Ohio bonds and other obligations or such obligations of political subdivisions of the state, provided that the subdivisions are located within Hamilton County; time certificates of deposit or deposit accounts in an eligible institution; and no load money market mutual funds consisting only of investments mentioned above. Investments are required to mature within five years from the date of settlement, unless the investment is matched to a specific obligation or debt of MSD.

GASB Statement No. 72, Fair Value Measurement and Application, addresses accounting and financial reporting issues related to fair value measurements. This Statement provides guidance for determining a fair value measurement for financial reporting purposes for applying fair value to certain investments and disclosures related to all fair value measurements.

#### **Prepaids**

Payments made for services that will benefit periods beyond fiscal year end December 31, 2020, are recorded as prepaids using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expense is reported in the year in which services are consumed.

#### Inventory

Supplies and materials are stated at the lower of cost or market on a first-in, first-out (FIFO) basis.

#### **Capital Assets**

Capital assets include land, construction in progress, buildings, sewer laterals and mains, studies and equipment. Capital assets are defined as assets with an initial, individual cost of more than \$5,000.

Capital assets are stated at historical cost for assets acquired after MSD's inception in 1968. Assets which were acquired prior to 1968 and not identifiable with specific historical costs are not included in the capital assets balance. Assets acquired by MSD through contributions, such as contributions from land developers and federal and state grants, are capitalized and recorded in the plant records at the contributors' reported cost. Construction costs include the cost of in-force labor. See Note 5 for more information on capital assets.

Land acquired for MSD's use is titled to either the City of Cincinnati or Hamilton County. The cost of this land has been recorded on the books of MSD since it has the full benefit of the land as an economic resource.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

Depreciation expense is computed on the straight-line method over the estimated useful lives of the respective assets. The estimated lives are as follows:

Building40 yearsSewer Laterals40 yearsEquipment5-25 years

Any gain or loss arising from the disposal of capital assets has been credited or charged to income.

#### **Unamortized Financing Costs**

The unamortized financing costs include insurance, consulting and attorney fees incurred in connection with the revenue bond obligations. These amounts are being amortized on the straight-line method over the lives of the revenue bonds. Bond premiums and discounts are being amortized on the interest method over the lives of the revenue bonds.

#### **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until then. For MSD, deferred outflows of resources are reported on the statement of net position for deferred charges on refunding, pension and other postemployment benefits (OPEB). A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB are explained in Notes 9 and 10.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For MSD, deferred inflows of resources have been recorded in the statement of net position for pension and OPEB, as explained in Notes 9 and 10.

#### **Pension/OPEB Plans**

Employees participate in either the City of Cincinnati's Retirement System or the Ohio Public Employees Retirement System. For purposes of measuring the net pension and OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to pension and OPEB, and pension and OPEB expense, information about the fiduciary net position of the pension and OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The retirement systems report investments at fair values.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### **Compensated Absences**

Compensated absences include accrued vacation time, sick leave, compensatory time and other related payments. Compensatory time and vacation time are paid out in full upon termination and are expensed in the year earned. Sick leave is paid out at various levels. The liability for sick leave is computed with the Termination Payment Method using an historical average of total years worked and total amount paid. The current amounts are an average of the annual expenditures. The entire compensated absence liability is reported on the financial statements.

#### **Net Position**

Net positions are the difference between assets, deferred outflows, deferred inflows, and liabilities. Net investment in capital assets are capital assets less accumulated depreciation and any outstanding long-term debt related to the acquisition, construction or improvement of those assets. Net positions are reported as restricted when there are legal limitations that are imposed on their use by county legislation or external restrictions by other governments, creditors or grantors. Restricted net positions of the MSD relate to debt service.

MSD applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available. MSD does not have net position restricted by enabling legislation.

#### **Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the District, these revenues are charges for services for wastewater treatment. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the fund.

#### **Contributions of Capital**

Contributions of capital arise from outside contributions of capital assets or outside contributions of resources restricted to capital acquisition and construction.

#### **Customer Assistance Program (CAP)**

A Customer Assistance Program (CAP) was approved by the Board of Commissioners in April, 2019 to take effect on July 31, 2019. This program is a 25% discount on sewer bills offered to low income seniors over the age of 65. Depending on the number of customers that apply, the District estimates this could affect revenue in the amount of \$250,000 up to \$2.2 million, with 100% participation.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### **NOTE 2 - DEPOSITS AND INVESTMENTS**

#### **Deposits**

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District's Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the District has identified as not required for use within the current two-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by financial institution as security for repayment, by surety company bonds deposited with the finance director by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's policy for deposits is collateral is required for demand deposits and certificates of deposit at 105 percent, or 102 percent if the financial institution participates in the Treasurer of State's Ohio Pooled Collateral System, of all deposits not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities, school districts, and district corporations. Obligations pledged to secure deposits must be delivered to a bank other than the institution in which the deposit is made. Written custodial agreements are required. The District is required to categorize deposits and investments according to GASB Statement No. 3 *Deposits with Financial Institutions, Investments, and Reverse Purchase Agreements*. The carrying value of the District's cash and cash equivalent deposits was \$107,971,000 and \$153,250,000 at December 31, 2020 and 2019, respectively.

Amounts held by the City of Cincinnati are invested on MSD's behalf in accordance with the Cincinnati Municipal Code. Amounts held by the City are collateralized as part of the City's cash and investment balances. For GASB 40 disclosure requirements, refer to the financial statements as of June 30, 2020 for the City of Cincinnati.

Although the pledging bank has an investment and securities pool used to collateralize all public deposits, which are held in the financial institution's name, noncompliance with federal requirements could

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

potentially subject the District to a successful claim by the FDIC. The deposits not covered by federal depository insurance are considered uninsured and uncollateralized and subject to custodial credit risk.

#### Investments

State Statute, board of county commissioners resolutions, and the 1985 Trust Indenture as amended authorize the District to invest in obligations of U. S. Treasury, agencies and instrumentalities, certificates of deposit, repurchase agreements, money market deposit accounts, municipal depository funds, super NOW accounts, sweep accounts, separate trading of registered interest and principal of securities, mutual funds, bonds and other obligations of this State, and the State Treasurer's investment pool. Repurchase agreements are limited to 30 days and the market value of the securities must exceed the principal value of the agreement by at least 2 percent and be marked to market daily. Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the finance director or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian. The District has no investment policy that addresses interest rate risk.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal National Mortgage Association Notes, Federal Home Loan Mortgage Corporation Notes, and the Federal Home Loan Bank Notes are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty's trust department or agent but not in the District's name. The District has no investment policy dealing with investment custodial risk beyond the requirement in state statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Funds held by the trustee are eligible investments as defined by the Trust Agreement and are in the name of the trustee for the benefit of MSD.

Investments made by MSD are summarized below. Trustee account investments are categorized according to credit risk into the following categories: (1) insured or registered, or securities held by MSD or its agent (bank trust department) in the MSD's name; or (2) uninsured and unregistered, with securities held by the counterparty's trust department or agent in the MSD's name; or (3) uninsured, unregistered securities held by the counterparty, or its trust department or agent but not in MSD's name. Money market funds are unclassified investments since they are not evidenced by securities that exist in physical or book entry form. As stated in GASB Statement No. 40, obligations of the U. S. government or obligations explicitly guaranteed by the U. S. government are not considered to have credit risk and do not require disclosure of credit quality.

The money market funds are invested in a treasury obligation fund with a Moody's credit rating of Aaa.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

Concentration of Credit Risk: The Metropolitan Sewer District uses the City of Cincinnati's Investment Policy which addresses concentration of credit risk by requiring investments to be diversified to reduce risk of loss resulting from over concentration of assets in a specific issue or class of security. The following table includes the percentage of each investment type held by MSD at December 31, 2020.

| Investment Type                         | Fair Value | % of Total |
|---|------------|------------|
| Deposits held by the City of Cincinnati | \$107,971  | 22.49      |
| U.S. Agency Securities                  | 181,716    | 37.84      |
| U.S. Treasury Securities                | 120,811    | 25.16      |
| Money Market Funds                      | 69,665     | 14.51      |
|   | \$480,163  | 100.00     |

The classification of cash and cash equivalents and investments on the financial statements is based on criteria set forth in GASB Statement No. 9. A reconciliation between the classifications of cash and investments of the financial statements and the classification per GASB Statement No. 3 is as follows:

#### (all amounts in thousands)

| December 31, 2020                          | Cash and Cash<br>Equivalents | Investments         |
|--|------------------------------|---------------------|

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### **NOTE 4 - RESTRICTED ASSETS**

The Trust Agreement for the Series A Revenue Bonds (see Long-Term Debt Note) requires the establishment of certain trust accounts including a Bond Account, Bond Reserve Account, and a Surplus Account to be held by the Trustee. The Bond Account will be used to accumulate periodic principal and interest payments. The Bond Reserve Account will be funded in an amount equal to the highest annual future debt service requirement. The Surplus Account is available to be used for any other Sewer System purpose. The Trust Agreement also requires the creation of a Construction Account to be held by the City to pay for project costs. At December 31, 2020 and 2019 the following balances (at fair value) were maintained in the trust accounts:

#### (all amounts in thousands)

|                  | 2020      | 2019      |
|------------------|-----------|-----------|

#### **Revenue Bonds - Direct Placement**

Effective November 26, 2019, MSD issued \$107,970,000 Series A, Direct Placement Bond dated November 26, 2019. The proceeds from the 2019 Series A Bonds were used to defease the 2009B Revenue Bonds and pay for cost of issuance. The 2019 Series A Bonds were issued at a premium of \$23,045,166. The 2019A Bonds are special obligations of the District, payable solely from the new revenues of the District and were issued on parity with the 2009 and 2010, 2013, 2014, 2015 bonds, secured equally and ratably under the Trust Agreement.

#### **Revenue Bonds**

a) Effective November 17, 2020, MSD issued \$74,525,000 Series A, Sewer System Refunding Revenue Bonds dated November 17, 2020. The proceeds from the 2020 Series A Bonds were used to defease portions of the 2010A and 2010B revenue bonds and pay for the cost of issuance. The 2020 A bonds are special obligations of the District, payable solely from the net revenues of the District and were issued on parity with the 2010, 2013, 2014, 2015, 2019 bonds secured equally and ratable under the Trust Agreement.

A portion of the proceeds was used to purchase U.S. Government Securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt service to

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

refund \$101,000,000 of outstanding 2010A and 2010B Bonds. As a result, these bonds are considered defeased and the liability of those bonds removed from the balance sheet.

Although the refunding resulted in the recognition of an account premium of \$18,870,385, MSD has, in effect, reduced its aggregate debt service payments by \$18,190,000, and obtained a present value of savings of \$13,091,284.

b) Effective March 3, 2015, MSD issued \$52,520,000 Series A, Sewer System Refunding Revenue Bonds dated March 3, 2015. The proceeds from the 2015 Series A Bonds were used to defease portions of the 2005A revenue bonds and pay for the cost of issuance. The 2015A bonds are special obligations of the District, payable solely from the net revenues of the District and were issued on parity with the 1997, 2000, 2001, 2003A, 2003B, 2004, 2005A, 2005B, 2006, 2007, 2009A, and 2009B bonds, secured equally and ratably under the Trust Agreement.

A portion of the proceeds was used to purchase U.S. Government Securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt service to refund \$60,360,000 of outstanding 2005A Bonds. As a result, these bonds are considered defeased and the liability for those bonds removed from the balance sheet.

Although the refunding resulted in the recognition of an accounting loss of \$1,464,000 in accordance with GASB 23, Accounting and Financial Reporting for Refunding of Debt Reported by Proprietary Activities, MSD has, in effect, reduced its aggregate debt service payments by \$16,845,000, and obtained a present value of savings of \$6,363,000.

c) Effective November 19, 2014, MSD issued \$162,650,000 Series A, Sewer System Refunding Revenue Bonds dated November 19, 2014. The proceeds from the 2014 Series A Bonds were used to defease portions of the 2003, 2005, and 2006 revenue bonds and pay for the cost of issuance. The 2014A bonds are special obligations of the District, payable solely from the net revenues of the District and were issued on parity with the 1997, 2000, 2001, 2003A, 2003B, 2004, 2005A, 2005B, 2006, 2007, 2009A, and 2009B bonds, secured equally and ratably under the Trust Agreement.

A portion of the proceeds was used to purchase U.S. Government Securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt service to refund \$750,000 of outstanding 2003 Series A Bonds, \$61,190,000, of outstanding 2005 Series B Bonds, \$60,620,000 of outstanding 2006 Series A Bonds, \$52,505,000 of outstanding 2007 Series A Bonds, and \$6,790,000 of outstanding 2009 Series A Bonds. As a result, these bonds are considered defeased and the liability for those bonds removed from the balance sheet.

Although the refunding resulted in the recognition of an accounting loss of \$14,949,000 in accordance with GASB 23, Accounting and Financial Reporting for Refunding of Debt Reported by Proprietary Activities, MSD has, in effect, reduced its aggregate debt service payments by \$70,966,000, and obtained a present value of savings of \$24,543,000.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

d) Effective July 31, 2013, MSD issued \$178,760,000 Series A, Sewer System Refunding Revenue Bonds and \$79,935,000 Series B, Sewer System Refunding Revenue Bonds dated July 31, 2013. A portion of the proceeds from the 2013 Series A and 2013 Series B Bonds were used to defease portions of the 2003 and 2004 revenue bonds and pay for the cost of issuance. The 2013A bonds are special obligations of the District, payable solely from the net revenues of the District and were issued on parity with the 1997, 2000, 2001, 2003A, 2003B, 2004, 2005A, 2005B, 2006, 2007, 2009A, 2009B, 2010A, and 2010B bonds, secured equally and ratably under the Trust Agreement.

A portion of the proceeds was used to purchase U.S. Government Securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt service to refund \$112,720,000 of outstanding 2003 Series A Bonds, and \$28,470,000 of outstanding 2004 Series A Bonds. As a result, these bonds are considered defeased and the liability for those bonds removed from the balance sheet.

The remaining proceeds from the 2013 Series A and 2013 Series B bonds were used to permanently fund certain previous capital expenditures and fund the new bond reserve requirements.

e) Effective November 3, 2010, MSD issued \$43,595,000 Series A, Sewer System Refunding Revenue Bonds dated November 3, 2010. The proceeds from the 2010 Series A Bonds were used to defease portions of the 2000, 2001, and 2003 revenue bonds and pay for the cost of issuance. The 2010A bonds are special obligations of the District, payable solely from the net revenues of the District and were issued on parity with the 1997, 2000, 2001, 2003A, 2003B, 2004, 2005A, 2005B, 2006, 2007, 2009A, and 2009B bonds, secured equally and ratably under the Trust Agreement.

A portion of the proceeds was used to purchase U.S. Government Securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt service to refund \$2,730,000 of outstanding 2000 Series A Bonds, \$25,290,000 of outstanding 2001 Series A Bonds, and \$17,035,000 of outstanding 2003 Series A Bonds. As a result, these bonds are considered defeased and the liability for those bonds removed from the balance sheet.

Although the refunding resulted in the recognition of an accounting loss of \$3,379,000 in accordance with GASB 23, the District in effect reduced its aggregate debt service payments by \$8,824,000 and obtained and economic gain (difference between the present values of the old and new debt service payments) of \$5,304,000.

Effective November 3, 2010, MSD issued \$87,080,000 Series B Sewer System Improvement Revenue Bonds (Build America Bonds) dated November 3, 2010. The proceeds from the 2010 Series B bonds were used to permanently fund certain previous capital expenditures, fund the new bond reserve requirements and pay the cost of issuance. The 2010 Series B bonds are special obligations of the District, payable solely from the net revenues of the District and were issued on a parity with the 1997, 2000, 2001, 2003A, 2003B, 2004, 2005A, 2005B, 2006, 2007, 2009A, and 2009B bonds, secured equally and ratably under the Trust Agreement.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

The 2010 and 2009 bonds may be redeemed prior to their maturities in accordance with provisions of the bond resolutions. The redemption process for the bonds includes declining premiums up to 2 percent of principal.

At December 31, 2020, and December 31, 2019 the amount of defeased debt outstanding was \$318,320,000 and \$263,595,000, respectively.

Maturities for bonds over the next five years and thereafter are shown below:

#### (all amounts in thousands)

| 2036-2041 |               |               |               |               | 23,400        | \$ 23,400 |
|           | \$ 74,525     | \$107,970     | \$ 11,460     | \$ 124,365    | \$150,465     | \$468,785 |

Under the terms of the amended revenue bond trust indenture, MSD has agreed to certain covenants, among other things, to restrict additional borrowing, maintain rates sufficient to meet debt service requirements and maintain specified fund balances under trust agreements.

The Revenue bond issues as discussed above contain covenants which require MSD to maintain a level of debt service coverage. The following calculation reflects MSD's debt service coverage.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### **Ohio Water Development Authority Contracts**

All contracts between the Ohio Water Development Authority (OWDA) and the Metropolitan Sewer District require MSD to prescribe and charge such rates for sewer usage which are sufficient (after expenses of operation and maintenance) to pay principal and interest on OWDA contracts. The principal is repayable in equal semi-annual installments to maturity.

#### **Ohio Water and Sewer Rotary Commission**

Advances from Ohio Water and Sewer Rotary Commission represent tap-in fees and acreage assessments to be forwarded to the Commission upon collection from customers. Such advances do not bear interest unless they are determined to be in default.

#### **Ohio Public Works Commission**

The MSD has entered into agreements with the Ohio Public Works Commission (OPWC) for financing of certain qualified capital projects. As the projects progress the commitments are drawn down as funds are paid by OPWC directly to the contractors. The principal is repayable in semi-annual installments to the date of maturity for each project.

#### **Water Pollution Control Loan Fund**

The MSD has received low interest loan commitments from the Ohio Water Pollution Control Loan fund for certain qualified projects. As the projects progress the commitments are drawn down. The principal is repayable in semi-annual installments to the date of maturity for each project.

#### **Interest on Long-Term Obligations**

The following interest costs were incurred and expensed or capitalized as part of the cost of MSD's additions to capital assets.

(all amounts in thousands)

|                              | 2020 |        | <br>2019     |

| Interest expense             | \$   | 29,934 | \$<br>35,810 |

MSD has implemented the GASB 89 Accounting for Interest Cost incurred before the end of a construction period in 2018.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### **NOTE 7 – CAPITAL LEASE**

The District entered into a capital lease for a new engineering building in 2010. The lease obligation meets the criteria of a capital lease. The leased asset was capitalized at the amount of the present value of the minimum lease payments at inception of the lease. Capital asset acquired under capital lease is as follows:

Buildings \$15,000,000

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the minimum lease payments as of fiscal year end.

#### (all amounts in thousands)

| 2019 | \$ | 10,032  | \$ | 4,645   | \$ | 4,758  | \$ | 9,919  |

#### **NOTE 9 – DEFINED BENEFIT PENSION PLANS**

MSD employees are covered by one of two pension systems: the Ohio Public Employees Retirement System (OPERS) and the City of Cincinnati Retirement System (CRS). OPERS is a cost-sharing multi-employer defined benefit pension plan. CRS is accounted for as a single-employer defined benefit plan.

#### **Net Pension Liability**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The retirement systems report investments at fair value.

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions, between an employer and its employees, of salaries and benefits for employee services. Pensions are provided to an employee, on a deferred-payment basis, as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the MSD's actuarial present value (or with the OPERS cost-sharing, multiple-employer plan, MSD's proportionate share of the pension plan's collective actuarial present value) of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

other variables. While these estimates use the best information available, unknowable future events require adjusting this estimate annually. MSD's share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting.

#### A. Ohio Public Employees Retirement System (OPERS)

Ohio Revised Code limits the MSD's obligation for liabilities to OPERS to annually required payments. The MSD cannot control benefit terms or the manner in which pensions from the cost-sharing, multiple-employer plan is financed; however, the MSD does receive the benefit of employees' services in exchange for compensation including pension.

GASB Statement No. 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plan to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, the pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to net pension liability would be effective when the changes are legally enforceable.

#### Plan Description - OPERS

A limited number of the MSD employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan and the Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g., MSD employees) may elect the Member-Directed Plan or the Combined Plan, most employee members are in OPERS' Traditional Pension Plan; therefore, the following disclosures focus on the Traditional Pension Plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the Traditional Pension Plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code (ORC). OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to Ohio Public Employees Retirement System, 277 East Town Street, Columbus, OH 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three-member groups under the Traditional Pension Plan as

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

per the reduced benefits adopted by SB 343 (see OPERS' CAFR referenced above for additional information):

| re |  |  |
|----|--|--|

Eligible to retire prior to January 7, 2013 or five years after January 7, 2013

#### Group B

20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013

#### Group C

Members not in other Groups and members hired on or after January 7, 2013

#### State and Local

## Age and Service Requirements: Age 60 with 60 months of service

credit or Age 55 with 25 years of service credit

#### Formula:

2.2% of FAS multiplied by years ofService for the first 30 years and2.5% for service years in excess of 30

#### State and Local

Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

#### Formula:

2.2% of FAS multiplied by year of service for the first 30 years and 2.5% for service years in excess of 30

#### State and Local

**Age and Service Requirements:** Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

#### Formula:

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final average salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3%.

Funding Policy—The ORC provides statutory authority for member and employer contributions. For fiscal year 2020, member contribution rates were 10% of salary and employer contribution rates were 14%. Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The MSD's contractually required contribution was \$299,000 for 2020.

#### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related – OPERS

The net pension liability for OPERS was measured as of December 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The MSD's proportion of the net pension liability was based on the MSD's share of contributions to the pension plan relative to the contributions of all participating entities. The MSD's proportion, change in proportion and proportionate share of the net pension liability was 0.01564887%, a decrease of 0.000344%, and \$3,093,000, respectively. Pension expense for the MSD was \$85,000.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

At December 31, 2020, the MSD reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources (amounts in thousands):

|                                     |     | ferred<br>lows of | Defe<br>Inflo |              |            |

|                         | \$ | (607)            |  |  |

#### **Actuarial Assumptions – OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

of each valuation. The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Wage inflation 3.25%

Future salary increases, Including inflation 3.25% to 10.75%

COLA or Ad Hoc COLA Pre 1/7/2013 retirees: 3% simple;

Post 1/7/2013 retirees: 1.4% simple through

2020, then 2.15% simple

Investment rate of return 7.20%

Actuarial cost method Individual entry age

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Health Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 17.2% for 2019.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2019 and the long-term expected real rates of return:

|                        |                | Weighted Average    |
|------------------------|----------------|---------------------|
|                        |                | Long-Term Expected  |
|                        | Target         | Real Rate of Return |
| Asset Class            | Allocation     | (Arithmetic)        |
|                        |                |                     |
| Fixed Income           | 25.00%         | 1.83%               |
| Domestic Equities      | 19.00%         | 5.75%               |
| Real Estate            | 10.00%         | 5.20%               |
| Private Equity         | 12.00%         | 10.70%              |
| International Equities | 21.00%         | 7.66%               |
| Other Investments      | 13.00%         | 4.98%               |
| Total                  | <u>100.00%</u> | <u>5.61%</u>        |
|                        |                |                     |

**Discount Rate.** The discount rate used to measure the total pension liability was 7.20%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the MSD's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following table represents the MSD's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.20%, as well as what the MSD's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage point lower (6.20%) and one-percentage point higher (8.20%) than the current rate (amounts in thousands):

|                              |    | Current  |               |         |             |         |  |
|------------------------------|----|----------|---------------|---------|-------------|---------|--|
|                              | 1% | Decrease | Discount Rate |         | 1% Increase |         |  |

| MSD's proportionate share    |    |          |               |         |             |         |  |
| of the net pension liability | \$ | 5.102    | \$            | 3.093   | \$          | 1.288   |  |

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### **B. City of Cincinnati Retirement System (CRS)**

#### Plan Description – CRS

Employees who do not participate in OPERS participate in CRS. CRS is accounted for as a single-employer defined benefit pension plan. CRS provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. CRS is considered part of the City of Cincinnati's financial reporting entity and is included in the City's financial report as a pension trust fund.

The financial report that includes financial statements, required supplementary information and detailed information about CRS' fiduciary net position may be obtained by visiting <a href="http://www.cincinnation.gov/finance/cafr/">http://www.cincinnation.gov/finance/cafr/</a>. Article XV of the Administrative Code of the City of Cincinnati provides the statutory authority vesting the general administration and responsibility for the proper operation of the System in the Board of Trustees of the City of Cincinnati Retirement System.

Information in the remainder of this footnote is provided for the MSD's portion, being reported as an agency fund of the City, which also participates in and contributes to CRS, with a measurement date of June 30, 2020.

A major plan revision was approved by the City Council on March 16, 2011 and adopted by the CRS's Board. The plan allows for a two and half year transition period from July 1, 2011 to January 1, 2014. Active members who are eligible or become eligible to retire and elect to retire during this transition period can retire with 30 years of creditable service or at age 60 with at least five years of creditable service and will receive benefits according to the current plan as described below.

A Collaborative Settlement Agreement (CSA) was executed on May 7, 2015 and approved by the United States District Court on October 5, 2015. The CSA impacts employees who were retired on or before July 1, 2011 and employees who were in service on July 1, 2011 and who were vested (had 5 years' service credit) on that date. Employees who are members of the CRS who did not meet those criteria remained subject to the plan provisions adopted in Ordinances No 84-2011 and 85-2011.

The CSA implemented a number of changes to the CRS, including, but not limited to:

- Normal retirement eligibility;
- Early retirement eligibility;
- Retiree healthcare eligibility;
- Cost of living adjustments payable to retirees;
- Establishment of a Deferred Retirement Option Program (DROP);
- Creation of a 115 Trust for retiree healthcare benefits;
- Changes to the composition of the Board of Trustees; and
- Payoff of the 2007 Early Retirement Incentive Program (ERIP) liability.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

| Groups C & D Eligible to retire on or before July 1, 2011; or December 31, 2013        | <b>Group E</b> Eligible to retire on or before December 31, 2013  | Group F Hired before January 1, 2010 and not eligible for other groups  | <b>Group G</b> Hired on or after  January 1, 2010                                       |
|--|---|---|---|
| Normal Retirement: Age 60 with 5 years of service, or any age with 30 years of service | Normal Retirement: Age 60 with 5 years of service, or any age with 30 years of service  | Normal Retirement: Age 60 with 5 years of service, or any age with 30 years of service  | Normal Retirement: Age 67 with 5 years of service, or age 62 with 30 years of service   |
| Early Retirement: Age 55 with 25 years of service                                      | Early Retirement: Age 55 with 25 years of service   | Early Retirement: Age 55 with 25 years of service   | Early Retirement: Age 57 with 15 years of service                                       |
| Benefit Formula:  2.5% of AHC times years of service                                   | Benefit Formula: 2.5% of AHC times years of service up to greater of 20 years or years of service as of July 1, 2011, and 2.2% thereafter | Benefit Formula: 2.5% of AHC times years of service up to greater of 20 years or years of service as of July 1, 2011, and 2.2% thereafter | Benefit Formula:  2.2% of AHC times years of service up to 30 years; 2.0% over 30 years |

Average Highest Compensation (AHC) represents the average of the highest three consecutive years of earnings for Groups C and D. Group E will have a AHC with two separate components based upon the average of the highest three consecutive years of earnings for service through December 31, 2013 and the highest five consecutive years of earnings for service after January 1, 2014. Group F will have a AHC with two components based upon the average of the highest three consecutive years of earnings for service through June 30, 2011 and the highest five consecutive years of earnings for service after July 1, 2011. The AHC for Group G is based on the average of the highest five consecutive years of earnings. Upon retirement, members will not receive a cost-of-living-adjustment (COLA) for the first three retirement anniversary dates. Thereafter, a 3% simple COLA benefit will be provided. A COLA poverty exception is available for members who meet certain financial requirements.

Members of the Active Employee Class, under the Collaborative Settlement Agreement, who have a minimum of 30 years' service credit are eligible to participate in the deferred retirement option plan (DROP). Upon entry into DROP, the member's monthly pension benefit is calculated as if they retired on that date. DROP participants continue to work as a MSD employee and if eligible, may continue to be enrolled in a MSD sponsored employee healthcare plan. Maximum participation in the DROP is five years. Members who participate in DROP continue to contribute 9% of their pensionable earnings to CRS. The participant's monthly pension benefit amount (calculated as described above), as well as 75% of the participant's required CRS employee contributions, and interest earnings on their DROP account balance, accumulate tax-deferred in an account held in trust by the CRS. Participants do not have access to the funds in their DROP account while employed and participating in the DROP. The balance of the participant's DROP account is paid out in a lump sum or to another tax-qualified account (such as an IRA or 457 Deferred Compensation Plan) selected by the participant within 120 days of their retirement effective date.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

Membership in CRS as of the June 30, 2020 measurement date was as follows:

| Retirees and beneficiaries (optionees) receiving benefits Terminated plan members and beneficiaries (optionees) | 4,054 |
|---|-------|
| Entitled to future benefits   | 225   |
| Deferred retirement option plan (DROP) participants   | 222   |
| Active plan members:  |       |
| Full-time   | 2,903 |
| Part-time   | 1,143 |
| Total   | 8,547 |
|   |       |
| Inactive participants**   | 8,913 |

<sup>\*\*</sup> Participants who are former employees who have an employee account balance in the plan but are not otherwise vested in an employee provided benefit.

Funding Policy—Each member contributes at a rate of 9.0% of his pensionable wages for 2020. The percent contributed by employees is provided by Chapter 203 Section 73 of the Cincinnati Municipal Code. The MSD makes employer contributions based on a percentage of the covered payroll of all CRS members. For 2020, the contribution rate was 16.25%. The MSD's contributions to the City of Cincinnati Retirement System's Pension Fund for the year ending December 31, 2020 were \$6,531,000.

#### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to CRS

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2019. The MSD reported a net pension liability of \$425,757,000 and pension expense of \$148,466,000.

At December 31, 2020, the MSD reported deferred outflows of resources related to pension from the following sources (amounts in thousands):

|                                     | Deferred    |                 |
|-------------------------------------|-------------|-----------------|
|                                     | Outflows of |                 |
|                                     | <u>Re</u>   | <u>esources</u> |
| MSD contributions subsequent to the |             |                 |
| measurement date                    | \$          | 3,240           |
| Differences between expected and    |             |                 |
| actual experience                   |             | 2,484           |
| Net difference between projected    |             |                 |
| and actual investment earnings      |             | 23,467          |
| Change in proportion                |             | 368             |
| Change in assumptions               |             | 74,204          |
|                                     | \$          | 103,763         |
|                                     |             |                 |

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

\$3,240,000 reported as deferred outflows of resources related to pension resulting from MSD contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows of resources related to pension will be recognized in pension expense as follows (amounts in thousands):

|                  |                                |  | Deferred       |         |  |
|------------------|--------------------------------|--|----------------|---------|--|
|                  |                                |  | Outflows of    |         |  |
| Year Ended Decem | r Ended December 31: Resources |  | <u>sources</u> |         |  |
|                  |                                |  |                |         |  |
| 20               | 021                            |  | \$             | 80,581  |  |
| 20               | 022                            |  |                | 6,941   |  |
| 20               | 023                            |  |                | 7,481   |  |
| 20               | 023                            |  |                | 5,520   |  |
|                  |                                |  | \$             | 100,523 |  |
|                  |                                |  |                |         |  |

Actuarial Assumptions: Total pension liability was determined by the following actuarial valuations, using the following actuarial assumptions, applied to applicable periods included in the measurement:

| Inflation  | 2.75%          |
|--|----------------|
| Salary increases, including inflation  | 3.75% to 7.50% |
| Long-term investment rate of return, net of pension plan investment expense, including inflation | 7.50%          |
| Municipal bond index rate:   |                |
| Measurement date   | 2.21%          |
| Prior measurement date   | 3.50%          |
| Single equivalent interest rate, net of pension  |                |
| plan investment expense, including inflation   |                |
| Measurement date   | 3.56%          |
| Prior measurement date   | 5.56%          |

Active member mortality rates were based on the RP-2014 Mortality Table, with generational mortality improvement projections using the MP-2017 scale. Health inactive member mortality rates were based on the RP-2014 Mortality Table, with generational mortality improvement projections using the MP-2017 scale and set forward two years for both males and females. Disabled inactive member mortality rates were based on the RP-2014 Disabled Retiree Mortality Table, with generational improvement projections using the MP-2017 scale.

The actuarial assumptions used in the December 31, 2019 valuation were based on the results of the last actuarial experience study performed for the period January 1, 2012 to December 31, 2016, adopted on February 28, 2018.

Long Term Expected Rate of Return. The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

|                              | Target     |            | Long-Term Expected |         |  |  |
|------------------------------|------------|------------|--------------------|---------|--|--|
| Asset Class                  | Allocation | Allocation |                    | Return* |  |  |
| Core Bonds                   | 14.00 %    | 6          | 2.80               | %       |  |  |
| High Yield Bonds             | 3.00 %     | 6          | 4.90               | %       |  |  |
| Large-Cap Value Equity       | 7.00 %     | 6          | 7.20               | %       |  |  |
| Large-Cap Growth Equity      | 5.00 %     | 6          | 7.10               | %       |  |  |
| Mid-Cap Value Equity         | 4.00 %     | 6          | 7.50               | %       |  |  |
| Mid-Cap Core Equity          | 4.00 %     | 6          | 7.50               | %       |  |  |
| Small-Cap Value Equity       | 7.50 %     | 6          | 8.00               | %       |  |  |
| Non-U.S. Developed Large Cap | 10.00 %    | 6          | 7.40               | %       |  |  |
| Non-U.S. Small Cap           | 5.00 %     | 6          | 8.10               | %       |  |  |
| Emerging Markets All-Cap     | 5.00 %     | 6          | 8.50               | %       |  |  |
| EM Small-Cap                 | 3.00 %     | 6          | 8.50               | %       |  |  |
| Real Estate Core Equity      | 10.00 %    | 6          | 7.40               | %       |  |  |
| Infrastructure               | 7.50 %     | 6          | 7.80               | %       |  |  |
| Risk Parity                  | 5.00 %     | 6          | 4.10               | %       |  |  |
| Private Equity               | 10.00 %    | 6          | 11.10              | %       |  |  |
| Total                        | 100.00 %   | 6          |                    |         |  |  |

<sup>\*</sup> Geometric mean

Discount Rate. The discount rate used to measure the total pension liability was 3.56% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made as set out in the CSA. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current members through 2041. Projected benefit payments are discounted at the long-term expected return on assets of 7.50% to the extent the fiduciary net position is available to make the payments (through 2041) and at the municipal bond rate of 2.21% (Bond Buyer GO 20-year Municipal Bond Index as of June 30, 2020) to the extent they are not available (after 2041). Consequently, the single equivalent rate used to determine the total pension liability as of June 30, 2020 is 3.56%. By comparison, the single equivalent rate used to determine the total pension liability as of June 30, 2019 was 5.56%.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following chart represents the MSD financial reporting entity's proportionate share of the net pension liability calculated using the current period discount rate assumption of 3.56%, as well as the sensitivity to a 1% increase and 1% decrease in the current discount rate (amounts in thousands):

The total pension liability (TPL) at the end of the measurement year, June 30, 2020, is measured as of the valuation date of December 31, 2019 and projected to June 30, 2020. Valuations will be completed every year. Each valuation will be rolled forward six months to provide the GAAP basis liability. There were assumption changes during the period, which are reflected in the amounts. The TPL and service cost have been determined using the entry age actuarial cost method as required by GASB Statement No. 67.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### NOTE 10 – DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLANS

The two retirement systems MSD employees participate in provide defined benefit postemployment benefits other than pension. The Ohio Public Employees Retirement System (OPERS) is a cost-sharing multiple-employer defined benefit OPEB plans. The City of Cincinnati Retirement System (CRS) is accounted for as a single-employer defined benefit OPEB plan.

#### Net OPEB Liability/ (Asset)

For purposes of measuring the net OPEB liability/(asset), deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The retirement systems report investments at fair value.

The net OPEB liability reported on the statement of net position represents a liability to employees for OPEB. The net OPEB asset reported on the statement of net position represents an asset to fund employee OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB is provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability/(asset) represents the MSD's actuarial present value (or with the OPERS cost-sharing, multiple-employer plan, MSD's proportionate share of the OPEB plan's collective actuarial present value) of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability/(asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments, cost trends and other variables. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The MSD's share of each plan's unfunded benefits is presented as a long-term *net other post-employment* benefit liability or fully-funded benefits as long-term *net OPEB asset* on the accrual basis of accounting.

#### A. Ohio Public Employees Retirement System (OPERS)

Ohio Revised Code limits the MSD's obligation for liabilities to OPERS to annual required payments. The MSD cannot control benefit terms or the manner in which OPEB from the cost-sharing, multiple-employer plan is financed; however, the MSD does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB Statement No. 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

permits but does not require the cost-sharing, multiple-employer retirement system to provide health care to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

#### Plan Description — OPERS

The MSD contributes to the health care plans administered by OPERS. OPERS is a cost-sharing, multiple-employer public employee retirement system comprised of three separate pension plans; the Traditional Pension Plan, a defined benefit plan; the Combined Plan, a combination defined benefit/defined contribution plan; and the Member-Directed Plan, a defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member-directed plan participants may be eligible for reimbursement of qualified medical expenses for their vested RMA balance.

In order to quality for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of another post-employment benefit (OPEB) as described in GASB Statement No. 75. See OPERS' CAFR referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <a href="https://www.opers.org/financial/reports.shtm">https://www.opers.org/financial/reports.shtm</a>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy—The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, health care is not being funded.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2020, state and local employers contributed at a rate of 14% of earnable salary. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of Traditional Pension and Combined plans' employer contributions allocated to health care was zero in 2020. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2020 was 4%.

#### OPEB Liabilities, OPEB Expense, and Deferred Outflows and Inflows of Resources Related to OPEB—OPERS

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. The MSD's proportion of the net OPEB liability was based on the MSD's share of contributions to the respective retirement system relative to the contributions of all participating entities. The MSD's proportion change in proportion and proportionate share of the net OPEB liability was 0.01497864%, a decrease of 0.000523%, and \$2,069,000, respectively. OPEB expense for the MSD was \$148,000.

At December 31, 2020, the MSD reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (amounts in thousands):

|                                     | De  | eferred                |    | Deferred |            |

| Net difference between projected    |     |                        |    |          |            |
| and actual investment earnings      |     | -                      |    | (105)    | (105)      |
| Difference between expected and     |     |                        |    |          |            |
| actual experience                   |     | -                      |    | (189)    | (189)      |
| Change in assumptions               |     | 327                    |    | -        | 327        |
| Change in MSD's proportionate share |     | _                      |    | (91)     | <br>(91)   |
|                                     | \$  | 329                    | \$ | (385)    | \$<br>(56) |

\$2,000 reported as deferred outflows of resources related to OPEB resulting from MSD contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows (amounts in thousands):

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### **Actuarial Assumptions—OPERS**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan and include the types of coverages provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OBEB liability was determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB Statement No. 74:

| Wage inflation               | 3.25%                                     |
|------------------------------|---|
| Projected salary increases   | 3.25% to 10.75%, including wage inflation |
| Singe discount rate:         |   |
| Current measurement period   | 3.16%                                     |
| Prior measurement period     | 3.96%                                     |
| Investment rate of return    | 6.00%                                     |
| Municipal bond rate:         |   |
| Current measurement period   | 2.75%                                     |
| Prior measurement period     | 3.71%                                     |
| Health care cost trend rate: |   |
| Current measurement period   | 10.5% initial, 3.50% ultimate in 2030     |
| Prior measurement period     | 10.0% initial, 3.25% ultimate in 2029     |
| Actuarial cost method        | Individual entry age                      |

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was 19.7% for 2019.

The allocation of investment assets within the Health Care portfolio is approved by the OPERS Board as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the OPERS Board-approved asset allocation policy for 2019 and the long-term expected real rates of return.

|                        |                | Weighted Average    |
|------------------------|----------------|---------------------|

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

Discount Rate. A single discount rate of 3.16% was used to measure the OPEB liability on the measurement date of December 31, 2019. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 2.75%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the MSD's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates. The following table present the net OPEB liability calculated using the single discount rate of 3.16% and the expected net OPEB liability if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate (amounts in thousands):

|                           | Current                |       |               |         |             |       |  |
|---------------------------|------------------------|-------|---------------|---------|-------------|-------|--|
|                           | 1% Decrease<br>(2.16%) |       | Discount Rate |         | 1% Increase |       |  |
|                           |                        |       | (             | (3.16%) | (4.16%)     |       |  |
| MSD' proportionate share  |                        |       |               |         |             |       |  |
| of the net OPEB liability | \$                     | 2,708 | \$            | 2,069   | \$          | 1,558 |  |

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate. Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0% lower or 1.0% higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2020 is 10.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries' project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

|                           | Current Health |          |     |          |             |       |  |
|---------------------------|----------------|----------|-----|----------|-------------|-------|--|
|                           |                |          | Ca  | re Cost  |             |       |  |

| MSD' proportionate share  |                |          |     |          |             |       |  |
| of the net OPEB liability | \$             | 2,008    | \$  | 2,069    | \$          | 2,129 |  |

Changes Subsequent to the Measurement Date. On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and pre-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022 and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for pre-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are not reflected in the current measurement period, but are expected to decrease the associated OPEB liability

#### **B. City of Cincinnati Retirement System (CRS)**

#### Plan Description - CRS

CRS provides health care coverage to eligible retirees, their spouse and dependent children and is accounted for as a single-employer defined benefit OPEB plan. Active members in Group C who have earned fifteen years of membership service at the time of termination are eligible upon retirement. Other active members are eligible for retiree health care upon their retirement after reaching age 60 with 20 years of membership service, or any age with 30 years of service of which 20 years must be earned with CRS. Active members whose most recent membership enrollment date is on or after January 1, 2016 are not eligible for retiree health care benefits upon retirement.

CRS offers medical and prescription benefits to retirees before and during Medicare eligibility. Prescription benefits for Medicare eligible participants are provided through a Medicare Part D Employer Group Waiver Plan. CRS administers three health care plans that differ by deductibles, co-pays and out-of-pocket maximums. Two plans are closed groups. The third plan for eligible members who retire on or after January 1, 2016 follows the most advantageous plan offered to active MSD employees.

Membership in CRS as of the June 30, 2020 measurement date was as follows:

| Retirees and beneficiaries (optionees) receiving benefits* | 4,926 |
|--|-------|
| Terminated plan members and beneficiaries (optionees)      |       |
| Entitled to future benefits                                | 247   |
| Deferred retirement option plan (DROP) participants        | 217   |
| Active plan members:                                       |       |
| Full-time  | 2,151 |
| Part-time Part-time  | 330   |
| Total  | 7,871 |

<sup>\*</sup> OPEB members include 1,361 spouses currently receiving retiree health benefits.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

CRS is considered part of the City of Cincinnati's financial reporting entity and is included in the City's financial report as part of the pension trust fund. The financial report that includes the financial statements, required supplementary information and detailed information about CRS' fiduciary net position may be obtained by visiting <a href="http://cincinnati-oh.gov/finance/cafr/">http://cincinnati-oh.gov/finance/cafr/</a>. Information in the remainder of this footnote is provided for the MSD's portion, being reported as an agency fund of the City, which also participates in and contributes to the CRS, with a measurement date of June 30, 2020.

Funding Policy — Most retirees are subject to premiums that range from 0% to 10%. Other retiree premiums range from 5% to 75% depending on their date of hire, years of service and age at retirement. All members electing to participant in the dental and/or vision plan are required to pay the full cost of coverage. As such, it was assumed that CRS has no liability under GASB Statement No. 74 for these benefits.

#### OPEB (Asset), OPEB Expense, and Deferred Outflows and Inflows of Resources Related to OPEB—CRS

The MSD's net OPEB (asset) was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2019. The MSD reported a net OPEB asset of \$14,700,000 and negative OPEB expense of \$35,922,000.

At December 31, 2020, the MSD reported deferred inflows of resources related to OPEB from the following sources (amounts in thousands):

|                                  | Deferred<br>Outflows of<br><u>Resources</u> |        | Deferred<br>Inflows of<br><u>Resources</u> |          | <u>Net</u> |         |
|----------------------------------|---|--------|--|----------|------------|---------|
| Differences between expected and |   |        |  |          |            |         |
| actual experience                | \$  | 1,206  | \$   | (8,151)  | \$         | (6,945) |
| Net difference between projected |   |        |  |          |            |         |
| and actual investment earnings   |   | 6,744  |  | -        |            | 6,744   |
| Change in proportion             |   | -      |  | (479)    |            | (479)   |
| Change in assumptions            |   | 9,899  |  | (9,694)  |            | 205     |
|                                  | \$  | 17,849 | \$   | (18,324) | \$         | (475)   |

Amounts reported as deferred inflows of resources will be recognized in OPEB expense as follows (amounts in thousands):

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

| Year Ended December 31: | Out<br>(Infl | Deferred<br>tflows/<br>ows) of<br>sources |
|-------------------------|--------------|---|
| 2021                    | \$           | (904)                                     |

| 2024                    |              | 1,582                                     |
|                         | \$           | (475)                                     |

Actuarial Assumptions. The total OPEB liability in the following actuarial valuations were determined using the following actuarial assumptions, applied to the applicable periods included in the measurement:

| Inflation:                              |  |
|---|--|
| CPI                                     | 2.75%  |
| Medical CPI                             | 3.25%  |
| Salary increases, including wage        |  |
| inflation                               | 3.75% - 7.50%  |
| Long-term investment rate of            |  |
| return                                  | 7.50%  |
| Municipal bond index rate:              |  |
| Measurement date                        | 2.21%  |
| Prior measurement date                  | 3.50%  |
| Year of projected depletion:            |  |
| Measurement date                        | Projected future net position will not be depleted               |
| Prior measurement date                  | 2040   |
| Single equivalent interest rate, net of |  |
| OPEB plan investment expense,           |  |
| including price inflation               |  |
| Measurement date                        | 7.50%  |
| Prior measurement date                  | 5.07%  |
| Health care cost trends:                |  |
| Medicare supplement claims              |  |
| Pre-Medicare                            | 8.00% for 2019, decreasing to an ultimate rate of 4.00% by 2034. |
| Post-Medicare                           | 4.87% / 4.79% for Non-Model and Model Plans,                     |

The demographic actuarial assumptions used in the December 31, 2019 valuation were based on the results of the most recent actuarial experience study, adopted by the Board on March 1, 2018.

rate of 4.00% by 2034.

respectively, for 2019, decreasing to an ultimate

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

Pre-retirement mortality rates were based on RP-2014 healthy employee dataset mortality with fully generational projected mortality improvements using MP-2017. RP-2014 healthy employee dataset mortality rates for males and females have been set forward 2 years. Post-retirement mortality rates for health lives were based on RP-2014 total dataset mortality with fully generational projected mortality improvements using MP-2017. RP-2014 total dataset mortality rates for males and females have been set forward 2 years. For disabled lives, RP-2014 disabled retiree mortality with fully generational projected mortality improvements using MP-2017.

Of the CSA employee members eligible for DROP benefits, 60% are assumed to decline participation and 40% are assumed to be elect participation. Those electing to participate are assumed to remain in DROP for 3 years.

Of the vested members who terminate, it is assumed that 60% will leave their contributions in the plan in order to be eligible for a benefit at their normal retirement date while remaining 40% elect to withdraw their contributions.

Long Term Expected Rate of Return. Several factors were considered in evaluating the long-term rate of return assumption, including CRS' current asset allocations and a log-normal distribution analysis using the best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) for each major asset class compiled by Horizon Actuarial Services, LLC in its "Survey of Capital Market Assumptions, 2017 Edition". The long-term expected rate of return was determined by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized as follows:

|                              | Targe   | t   | Long-Term Expected   |
|------------------------------|---------|-----|----------------------|
| Asset Class                  | Allocat | ion | Real Rate of Return* |
| Core Bonds                   | 14.00   | %   | 2.80 %               |
| High Yield Bonds             | 3.00    | %   | 4.90 %               |
| Large-Cap Value Equity       | 7.00    | %   | 7.20 %               |
| Large-Cap Growth Equity      | 5.00    | %   | 7.10 %               |
| Mid-Cap Value Equity         | 4.00    | %   | 7.50 %               |
| Mid-Cap Core Equity          | 4.00    | %   | 7.50 %               |
| Small-Cap Value Equity       | 7.50    | %   | 8.00 %               |
| Non-U.S. Developed Large Cap | 10.00   | %   | 7.40 %               |
| Non-U.S. Small Cap           | 5.00    | %   | 8.10 %               |
| Emerging Markets All-Cap     | 5.00    | %   | 8.50 %               |
| EM Small-Cap                 | 3.00    | %   | 8.50 %               |
| Real Estate Core Equity      | 10.00   | %   | 7.40 %               |

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

Private Equity 10.00 % 11.10 % Total 100.00 %

Determination of Discount Rate (SEIR). The plan uses the Bond Buyer G.O. 20 Year Bond Municipal Bond Index to satisfy the requirements under paragraph 48 of GASB Statement No. 74. As this Index is issued weekly, the value closest to, but after the reporting date is used in determining the appropriate rate. Based on this practice, the municipal bond index rate at June 27, 2019 was 3.50% and 2.21% at June 30, 2020.

The discount rate used to measure the total OPEB liability as of June 30, 2020 was 7.50%. The projection of cash flows used to determine the discount rate was performed in accordance with GASB Statement No. 74. The projection's basis was an actuarial valuation performed as of December 31, 2019. In addition to the actuarial methods and assumptions of the December 31, 2019 actuarial valuation, the following actuarial methods and assumptions were used in the projection of cash flows:

- No future employee contributions were assumed to be made.
- No future employer contributions were assumed to be made.

Based on these assumptions, CRS' fiduciary net position was projected to never be depleted, as a result, the long-term expected rate of return was used in the determination of the single equivalent interest rate (SEIR). Here, the long-term expected rate of return of 7.50% on plan investments was applied to all periods, resulting in a SEIR at the measurement date of 7.50%

Sensitivity of the net OPEB (asset) to changes in the discount rate and healthcare cost trend rates. The following presents the net OPEB (asset) of the MSD, as well as what the MSD's net OPEB (asset) would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate. Similarly, the following also presents what the MSD's net OPEB (asset) would be if it were calculated using a healthcare cost trend rate that is 1% lower or 1% higher than the current rate (amounts in thousands):

|                               |    | Healthcare Cost Trend Rates |         |          |             |    |  |  |  |

The total OPEB liability as of June 30, 2020 is based on the actuarial valuation results as of December 31, 2019. The total OPEB liability as of June 30, 2020 was determined using standard projection (roll forward) techniques. The roll forward calculation adds the normal cost (also called the service cost) for the projection period—for experience and assumption changes, the first half of 2020, subtracts the expected net benefit payments for the period, and then applies the SEIR used to measure the total OPEB liability as of the valuation date. The roll forward calculation for the expected change is determined using a similar procedure, except that the total OPEB liability and service cost are based on GASB Statement No. 75 results as of the prior measurement date, one year projection period used, and actual net benefit payments are subtracted. The difference between this expected total OPEB liability and the projected total OPEB liability as of June 30, 2020 before reflecting any changes of assumptions or other inputs is the experience (gain) or loss for the period.

#### **NOTE 11 - RELATED PARTY TRANSACTIONS**

Cincinnati Water Works provides billing and collection services on customers' accounts for MSD. Fees for these services for 2020 and 2019 were \$6,693,664 and \$6,653,277, respectively. Fees are also paid to other municipalities and villages within Hamilton County for collection of sewerage bills.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

The City of Cincinnati provides "overhead" services to MSD, such as check disbursement, investment and legal services, etc. The fees for these services for 2020 and 2019 were \$2,582,066 and \$2,376,100, respectively. In addition, the City's Municipal Garage provides gasoline and repairs vehicles for MSD. Fees for these services were \$1,591,354 and \$1,639,842 for 2020 and 2019, respectively.

#### **NOTE 12 - COMMITMENTS AND CONTINGENCIES**

The City of Cincinnati and the Board of County Commissioners of Hamilton County, Ohio are parties to a Global Consent Decree, which was lodged in 2003 with the U.S. District Court for the Southern District of Ohio, Western Division. This decree focuses on combined sewer overflows, the implementation of the Sanitary Sewer Overflow Correction plan established in the Interim Partial Consent Decree, and other wet weather issues. The court approved the decrees on June 9, 2004. In August 2010, MSD's Revised Wet Weather Improvement Plan was approved by the federal government. The commitment was for MSD to complete a Phase 1 group of projects totaling \$1.145 billion (in 2006 dollars). Work on Phase 1 is over 94% complete and \$129 million under budget. Consent decree documents are posted on the MSD web site, msdgc.org, under consent decree.

As part of MSD's capital improvement program, MSD has entered into a number of contracts for construction, design, and other services. Commitments under these contracts aggregate approximately \$99.9 million as of December 31, 2019, and \$98.7 million as of December 31, 2020.

The State of Ohio Auditor's office released a Special Audit for the years 2009-2015. The Findings for Recovery amounted to \$779,164, of which \$22,619 and \$212,635 was recovered in 2019 and 2018, respectively. In 2019, the balance owed to MSD was turned over to the Hamilton County Prosecutor's office for review and disposition.

#### **NOTE 13 - RISK MANAGEMENT**

MSD is part of the City of Cincinnati Risk Management Program. The City purchases commercial insurance to cover losses due to: theft of, damage to, or destruction of assets and purchases general liability insurance for specific operations and professional liability insurance for certain operations. All other risks of loss are self-insured. Separately, MSD carries property insurance pursuant to an all-risk policy on MSD's buildings and equipment per the revenue bond trust agreement. There has been no reduction in insurance coverage from coverage in 2003. Insurance settlements for claims resulting from risks covered by commercial insurance have not exceeded the insurance coverage in any of the past four years.

#### NOTE 14 – PREPAID EXPENSES AND OTHER

The City of Cincinnati offered an Early Retirement Incentive Program (ERIP) in 2007. The City Retirement System was paid MSD's share of the remaining liability in the amount of \$8,723,061. This amount represents in full the liability for 2015-2023 years. The payment was processed and paid in March, 2016. The remaining prepaid expense balance was \$1,273,061 for 2020 and \$2,523,061 for 2019.

Prepaid Insurance was \$214,140, and Accrued Interest Receivable was \$1,961,715 at December 31, 2020, for a total Prepaid Expenses and Other of \$3,448,916.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

#### **NOTE 15 - SUBSEQUENT EVENTS**

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COV-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the District. The District's investment portfolio and investments of the pension and other employee benefit plan in which the District participates have incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact of the District's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

There is a separate Consent Decree for the City Retirement System Plan court case, which may require additional employer share of pension contribution payments, however the exact dollar amount is unknown at this time.

There was an incident on June 15, 2019, in which a newly constructed MSD stormwater infrastructure failed. The City and County are working with homeowners in resolving the situation. Individual damage claims amounts for this event are unknown at this time, and will be resolved in the coming months.

#### **Notes to Schedule:**

Change in assumptions . In 2017, changes in assumptions were made based upon an updated experience study that was completed for the five-year period ended December 31, 2015. Significant changes included a reduction of the discount rate from 8.0% to 7.5%, a reduction in the wage inflation rate from 3.75% to 3.25%, and transition from the RP-2000 mortality tables to the RP-2014 mortality tables.

In 2019, a reduction of the discount rate was made from 7.5% to 7.2%.

<sup>(1)</sup> Amounts presented for each year were determined as of MSD's measurement date, which is the prior year-end.

<sup>(2)</sup> Information prior to 2014 is not available.

See Notes to the Required Supplementary Pension Information.

## Metropolitan Sewer District (MSD),Hamilton County, Ohio Required Supplementary Information Notes to the Required Pension Information Cincinnati Retirement System Table 7

#### **Actuarial Assumptions:**

Actuarially determined contribution rates are calculated as of June 30, one year prior to the end of the fiscal year in which contributions are reported.

Actuarial cost method Entry age

Amortization method Level dollar

Amortization period Open 30 year period

Asset valuation method Five-year smoothed market value

Inflation 2.75%

Salary increases, including wage inflation 3.75% to 7.50%

Investment rate of return 7.50%, net of pension plan investment expense,

and including inflation

Municipal bond index rate 2.21% Single equivalent discount rate 3.56%

#### Changes of Benefit Terms:

In 2017, there were several changes in benefit provisions as a result of Ordinance 336-2016 adopted by the City Council on October 26, 2016. In addition to incorporating many of the changes mandated by the Collaborative Settlement Agreement (CSA), the Ordinance also:

- Established benefit and eligibility provisions for Group E and F members not covered under the CSA similar to employees who are covered under the CSA.
- Established a universal cost-of-living adjustment (COLA) suspension period for all members.
- Established a universal 3% simple COLA rate for all members

In 2016, there were several changes in benefit provisions as a result of the Collaborative Settlement Agreement (CSA) between the City and various plaintiff groups representing certain active and retired members of CRS as approved by the Court on October 5, 2015 and generally effective January 1, 2016.

#### Changes in Actuarial Assumptions and Methods:

In 2018, actuarial assumptions and methods were changed based on the results of the actuarial experience study dated February 28, 2018. These changes include reducing the price inflation assumption from 3.00% to 2.75%; updating the retirement, withdrawal and disability rates, updating the mortality rates for all members to a generational approach using the RP-2014 morality tables, updating the merit salary scale; increasing the assumed administrative expense as a percentage of payroll added to the normal cost from 0.75% to 0.80%; updating the assumed proportion of deferred vested members who elect to receive a deferred benefit and who will elect to withdraw their contributions; and updating the assumed percentage of members who are married for the purposes of valuing pre-retirement survivor benefits.

In 2019, the System's fiduciary net position was projected to be available to make projected future benefit payment for current members through 2046. Projected benefit payments beyond 2046 were discounted at the municipal bond rate of 3.50%, resulting in a single equivalent discount rate of 5.56%.

In 2020, the System's fiduciary net position was projected to be available to make projected future benefit payment for current members through 2041. Projected benefit payments beyond 2041 were discounted at the municipal bond rate of 2.21%, resulting in a single equivalent discount rate of 3.56%.

#### Actuarial Assumptions:

Actuarially determined contribution rates are calculated as of June 30, one year prior to the end of the fiscal year in which contributions are reported.

Actuarial cost method Entry age

Amortization method Level dollar

Amortization period Open 30 year period

Asset valuation method Five-year smoothed market value

Inflation CPI: 2.75%; Medical CPI: 3.25%

Salary increases, including wage inflation 3.75% to 7.50%

Investment rate of return 7.50%, net of pension plan investment expense,

and including inflation

Initial health care cost trend rates

Pre Medicare 8.00%

Medicare 4.87% (Non-Model Plan) / 4.79% (Model Plan)

Ultimate health care cost trend rates

Pre Medicare 4.00% Medicare 4.00%

Year ultimate health care cost trend rates reached

Pre Medicare 2034 Medicare 2034

#### Change of Benefit Terms:

In 2020, the Plan moved all Medicare Part A and Part B eligible, and Medicare Part B only eligible Plan participants to the new fully insured Medicare Advantage plan offered by Anthem, effective January 1, 2020.

In 2017, the Plan changes included in Ordinance 336-2016 were adopted by the City Council on October 26, 2016. In addition to incorporating many of the changes mandated by the CSA, the Ordinance also:

- Excluded members hired after December 31, 2015 from eligibility to receive retiree health benefits;
- Established benefit and eligibility provisions for Group E and F members, not covered under the CSA, similar to employees who are covered under the CSA.
- Specified eligibility and postemployment contribution requirements for the retiree health benefits payable to members and beneficiaries entitled to deferred benefits.
- Modified eligibility and postemployment contribution requirements to retiree health benefits paid as the result of an in-service death.

In 2016, there were several changes in benefit provisions as a result of the Collaborative Settlement Agreement (CSA) between the City and various plaintiff groups representing certain active and retired members of CRS as approved by the Court on October 5, 2015 and generally effective January 1, 2016.

## Metropolitan Sewer District (MSD), Hamilton County, Ohio Required Supplementary Information Notes to the Required OPEB Information Cincinnati Retirement System Table 10 (continued)

Changes in Actuarial Assumptions and Methods:

In 2020, the expected long-term rate of return of 7.50% was used for the discount rate with the projected future net position not being depleted. The claims assumptions and retiree contributions were updated to reflect actual 2020 premiums.

The medical trend assumptions were updated to include several factors. First, the initial trends for the Medicare Advantage plans were set at 0% for medical and 7% for drug, while the trends for the contribution rates for the plans were set at a -5.7% to account for the health insurance tax reduction. The ultimate health care trend was set at 4%, with each trend period set at 15 years.

The claim cost curves were updated based on the experience of the retirees in the Secure, Select and Model plans. The data provided claim experience for all covered members (retirees, covered spouses, and covered children) by age. Additional information was provided for the new Medicare Advantage Plans, which were applied to the 2020 claim curves above.

The percentage of members to not qualify for premium-free Medicare Part A coverage was lowered from 15% to 10%.

In 2019, the December 31, 2018 valuation included a change in the Municipal Bond Index Rate from 3.89% to 3.50%; a decrease in the discount rate (SEIR) from 6.13% to 5.07%, part-time employees were included in the Plan's population, and the health care cost trend rates were updated to reflect the current market place.

In 2018, actuarial assumptions and methods were changed based on recent plan experience done concurrently with the December 31, 2017 valuation, including a change in the Municipal Bond Index Rate from 3.65% to 3.89%; a decrease in the discount rate (SEIR) from 6.31% to 6.13%, a decrease in the price inflation assumption from 3.00% to 2.75%, an update of the retirement, withdrawal, and disability rates; an update of the mortality rates for all members to a generational approach using the RP-2014 mortality tables; an update of the merit salary scales; and updates to the following to better reflect the anticipated experience of the plan: assumed rates of health care inflation, assumed rats of health benefit plan participation, contribution rates for the Select Plan and the Model Plan, and DROP participation rates.

In 2017, future contribution rates for retiree health benefit recipients are now based upon the projected retiree health care costs associated with each projection year's closed group of participants.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Metropolitan Sewer District of Greater Cincinnati Hamilton County 1605 Gest Street Cincinnati, Ohio 45204

To the Hamilton County Board of Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the Metropolitan Sewer District of Greater Cincinnati, Hamilton, (the District) as of and for the years ended December 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated May 27, 2021. We also noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the District.

#### Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

#### **Compliance and Other Matters**

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Metropolitan Sewer District of Greater Cincinnati Hamilton County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by Government Auditing Standards Page 2

#### Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.
