NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Medina County (the County) under programs of the federal government for the year ended December 31, 2021. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE C - INDIRECT COST RATE

The County has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - SUBRECIPIENTS

The County passes certain federal awards received from the Ohio Department of Job and Family Services, the Ohio Department of Mental Health and Addiction Services, and the U.S. Department of Housing and Urban Development to other governments or not-for-profit agencies (subrecipients). As Note B describes, the County reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the County has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

NOTE E - CHILD NUTRITION CLUSTER

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

NOTE F - FOOD DONATION PROGRAM

The County reports commodities consumed on the Schedule at the fair value. The County allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE G - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) and HOME INVESTMENT PARTNERSHIPS PROGRAM (HOME) GRANT PROGRAMS with REVOLVING LOAN CASH BALANCE

The current cash balance on the County's local program income account as of December 31, 2021 is \$36,498.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED DECEMBER 31, 2021 (Continued)

NOTE H - MATCHING REQUIREMENTS

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

NOTE I - MEDICAID

During the calendar year, the Medina County Board of Developmental Disabilities received a MAC settlements for the 2017 and 2018 Cost Reports from DODD for the Medicaid Program (CFDA#93.778) in the amounts of \$19,289 and \$34,698, respectively. The Cost Report settlement was for settlement of the difference between the statewide payment rate and the rate calculated based upon actual expenditures for Medicaid services. The revenue is not listed on the County's Schedule of Expenditures of Federal Award since the underlying expenses occurred in prior reporting periods.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Medina County 144 North Broadway Street Medina, Ohio 44256

To the County Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Medina County, Ohio (the County) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated August 31, 2022, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the County.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purposes of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of findings as item 2021-001 that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on the County's response to the finding identified in our audit and described in the accompanying corrective action plan. The County's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Medina County 144 North Broadway Street Medina, Ohio 44256

To the County Commissioners:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Medina County's (the County) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of Medina County's major federal programs for the year ended December 31, 2021. Medina County's major federal programs are identified in the Summary of Auditor's Results section of the accompanying schedule of findings.

In our opinion, Medina County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2021.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

The County's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the County's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report
 on internal control over compliance in accordance with the Uniform Guidance, but not for the
 purpose of expressing an opinion on the effectiveness of the County's internal control over
 compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with Uniform Guidance and which is described in the accompanying schedule of findings as item 2021-002. Our opinion on the major federal program is not modified with respect to this matter.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiency in internal control over compliance that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings as item 2021-002 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the County's response to the internal control over compliance finding identified in our audit described in the accompanying schedule of findings corrective action plan. The County's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the Medina County, Ohio (the County) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our unmodified report thereon dated August 31, 2022, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the County. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2021-001

Material Weakness - Financial Statement Errors

In our audit engagement letter, as required by AU-C Section 210, Terms of Engagement, paragraph .06, management acknowledged its responsibility for the preparation and fair presentation of their financial statements; this responsibility includes designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements free from material misstatement, whether due to fraud or error as discussed in AU-C Section 210 paragraphs .A14 & .A16. Governmental Accounting Standards Board (GASB) Cod. 1100 paragraph.101 states a governmental accounting system must make it possible both: (a) to present fairly and with full disclosure the funds and activities of the governmental unit in conformity with generally accepted accounting principles, and (b) to determine and demonstrate compliance with finance-related legal and contractual provisions.

Due to deficiencies in internal control, the following financial statement error was identified and adjusted to the financial statements by management:

 Contracts payable and capital outlay expenditures in the County Capital Improvements Fund were each overstated by \$1,201,367 due to invoiced expenditures related to fiscal year 2022 being improperly included as payable at fiscal year-end. Additionally, contracts payable and general government expenditures for Governmental Activities were overstated by an equal amount due to the same error.

In addition to the adjustment listed above, we also certain other immaterial errors which were either adjusted by management at their discretion or reported as unadjusted differences.

Failure to properly record transactions in the accounting records, properly classify fund balances, and of management to review the draft journal entries and financial statements hinders management's ability to monitor financial performance and may result in financial statement errors.

Finding for Recovery Repaid Under Audit - Noncompliance and Significant Deficiency – Unallowable Cost

45 CFR 75.405(a) indicates a cost is allocable to a particular Federal award or other cost objective if the goods or services involved are chargeable or assignable to that Federal award or cost objective in accordance with relative benefits received. This standard is met if the cost:

- (1) Is incurred specifically for the Federal award;
- (2) Benefits both the Federal award and other work of the non-Federal entity and can be distributed in proportions that may be approximated using reasonable methods; and
- (3) Is necessary to the overall operation of the non-Federal entity and is assignable in part to the Federal award in accordance with the principles in this subpart.

Due to an oversight in the invoice review process, the County was invoiced twice for Family Peer Support fees for the month of September 2021 and both invoices were subsequently approved and paid.

In accordance with the above facts, and pursuant to Ohio Rev. Code § 117.28, a Finding for Recovery for public money illegally expended is hereby issued against the vendor in the amount of \$1,541 and in favor of Medina County's ADAMH Board - Federal Programs Fund.

The County was reimbursed \$1,541 on August 24, 2022 by the vendor.

The County should implement procedures to ensure vendors are paid in accordance with the grant requirements and approved allocations.

Medina County Auditor

MIKE KOVACK

144 North Broadway St. • Medina, Ohio 44256

August 31, 2022

To the Citizens of Medina County,

As Medina County Auditor, I am pleased to once again present Medina County's Annual Comprehensive Financial Report for the year ended December 31, 2021. This report conforms to Generally Accepted Accounting Principles (GAAP) as applicable to government entities and is reported as promulgated by GASB Statement No. 34. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the County Auditor. To the best of my knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly and completely the financial position and results of the county's financial activities.

This report enables the County to comply with Ohio Administration Code Section 117-2-03 (B), which requires reporting on a GAAP basis, and Ohio Revised Code Section 117.38 which requires counties reporting on a GAAP basis to file unaudited basic financial statements with the Auditor of State within 150 days of year end.

I assume full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that we have established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the object is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complement this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The County of Medina has operated under the Board of County Commissioners since being incorporated in 1818. It is located in the northeastern part of the State, which is considered one of the top growth areas in the State. The County of Medina is empowered to levy a property tax on both real and public utility personal property located within its boundaries. It is also empowered by State statute to extend the boundaries of cities, villages and townships by annexation, which it has done from time to time.

The Board of County Commissioners is required to adopt a final budget by no later than the first day of April of the current year. This annual budget is prepared to the object level within each department for all funds. Any budgetary modification at this level may only be made by resolution of the County Commissioners.

The County provides its citizens with a wide range of services including general government (both legislative and executive as well as judicial), public safety, public works, human services, health, conservation and recreation, water and sewer services, and solid waste management. A Court of Appeals situated in Summit County serves Medina County. For financial reporting purposes, the County (the primary government) includes all agencies, department and organizations that are not legally separate from the County. The Medina County Alcohol, Drug Addiction, and Mental Health Services Board and the Medina County Board of Developmental Disabilities are included as part of the primary government.

Local Economy

Once you have visited Medina County, you will find it is a community rich in traditions and history, and the kind of area you can move to, become a part of, and stay for a lifetime.

Medina County is located in northeast Ohio and is part of the greater Cleveland and Akron metropolitan areas. In 2001, the population of the County was 154,630. By 2021, the population had grown to 183,092. The area is 425 square miles. Medina County includes the entire boundaries of three cities, six villages, and seventeen townships.

Medina County has the sixth lowest poverty rate (only 6.5 percent) in the State and has the fifth highest median family income in Ohio at \$77,784. Medina County is also one of the fastest growing counties in the State, currently ranking 16th in population. Much of our growth is due to the proximity to the interstate systems, coupled with our experienced workforce, cooperative business environment and outstanding public schools.

The County exhibits a moderate balance between residential/agricultural lands and commercial/industrial lands. Currently, approximately 84 percent of real property taxes are paid by residential/agricultural owners and 16 percent of taxes are paid by industries.

Medina County is fortunate to have the Medina County Economic Development Corporation (MCEDC) which aggressively acts to ensure a positive and supportive economic outlook in the County. In conjunction with the County and local government and business leaders throughout the County, the MCEDC is constantly addressing the issue of growth and the demands it places upon the County services and infrastructure.

Medina County has been successful in attracting industry to the area to help pay for the education and service requirements of our expanding population. The objective of MCEDC is "Quality jobs for quality people in quality industries." Medina County has been very successful in meeting that objective.

Long-Term Financial Planning

In order to make sound financial decisions now and in the future, the Medina County Board of Commissioners has established principles for budget and financial management. These principles provide guidance for budget development, financial and debt management, and reserves. County agencies are encouraged to maximize the use of State and Federal revenues so as to help preserve general revenues for other needs.

Relevant Financial Policies

The budget must be structurally balanced so that continuing revenues support continuing expenditures. Budgetary appropriations may not exceed estimated resources, with a balanced budget maintained in each fund. Agency budget requests are submitted in a program-based format in conjunction with strategic business plans outlining the goals for the following year. Agencies funded through tax levies are required to maintain expenditures at or below the estimated revenue collections.

The budget is controlled at the object code level within a fund and any changes at this level may only be made by a resolution of the County Commissioners. The budget may be amended or supplemented at any time during the year upon formal action of the Commissioners. Transfers of cash between funds require the Commissioners' authorization. Encumbered appropriation amounts automatically carry over from prior years. The Commissioners adopted the County's 2021 operating budget in December of 2020. Additional information on the County's budgetary process can be found in Note 2 to the basic financial statements.

Major Initiatives

Current Projects

The County is currently in the process of constructing a new courthouse complex, including the renovation of the current 1841 courthouse, to house the Medina County Court of Common Pleas and related court operations. The County contracted with Gilbane to act as the Construction Manager at Risk for this project, which commenced in May of 2021. This project consists of constructing a new courthouse (Phase 1), which is expected to be completed in December of 2022, and the renovation of the 1841 courthouse, which is expected to be completed during the second quarter of 2023. To cover the cost of this project, the County issued \$32 million in bonds dated April 14, 2021. The bond proceeds will cover the estimated \$30 million in construction costs and \$2 million in soft costs for this project. These bonds will mature in 2055.

The American Rescue Plan Act (ARPA) of 2021 was signed into law on March 11, 2021, to provide additional relief to address the continued impact of COVID-19 on the economy, public health, State and local governments, individuals, and businesses, and Section 9901 of ARPA amended Title VI of the Social Security Act to add section 603, which establishes the Coronavirus Local Fiscal Recovery Fund (CLFRF). A separate Local Fiscal Recovery Fund was established by resolution for the purpose of receiving ARPA monies and to track allocations and expenditures consistent with the requirements of ARPA. The County applied to, and received its allocation directly from the U.S. Department of Treasury. The first tranche was received on June 2, 2021 in the amount of \$17,456,777, with receipt of a second matching tranche expected in June 2022. All CLFRF monies must be obligated by December 31, 2024 and expended by December 31, 2026.

In 2021, in accordance with the ARPA Interim Final Rule, the Commissioners approved and allocated ARPA funding to five projects (1) a sub grant to the Medina County Fair Board in the amount of \$125,000; (2) Conferencing Equipment for various County departments to facilitate remote meetings in the amount of \$124,000; (3) HVAC improvements to the Medina County Jail in the amount of \$595,496; (4) HVAC improvements to the Medina County Home in the amount of \$742,584, and (5) established a County Employee Compensation Program if Unable to Work Due to Isolation/Quarantine due to COVID-19. Through year end 2021, expenditures included the full \$125,000 sub grant allocation to the Medina County Fair Board, \$63,681 (51.3 percent) on the conferencing equipment, and \$98,887 (49.4 percent) for employees Unable to Work Due to Isolation/Quarantine due to COVID-19. HVAC system components were ordered for the Medina County Jail and the Medina County Home, each to improve air volume and quality in congregate settings, with delivery and installations continuing into 2022. The total obligation reported to the U.S. Treasury for 2021 was \$1,787,080. The Commissioners also approved a project for the relocation of an existing sanitary sewer; however, the project scope was revised, and the project was cancelled after an initial \$1,500 in expenditure for preliminary site survey and design work. Following the cancellation of this project, the \$1,500 will be paid back into the CLFRF fund for reallocation.

The Medina County Port Authority and the Medina County Fiber Network have assumed board positions with Broadband Access Ohio, a consortium of community networks across Ohio that has partnered to promote public-private partnerships leveraging community network infrastructure. Medina County Fiber Network has expanded its public-private partnerships to include a third partner for the construction of a residential fiber network in the Lorain-Medina Rural Electric service area within the western part of Medina County. This is the first telecommunications partnership between government, a private

organization and a rural electric in the State of Ohio. This partnership is part of an ARPA project where Medina County is contributing \$11 million over two years for broadband expansion in western Medina and the Guilford Township areas. Lit Communities, who is building fiber to the home services throughout Medina County, is contributing \$11 million toward the project. With this additional capital investment, Lit Communities has committed approximately \$60 million to bring high speed fiber services to Medina County residents.

The County will be resurfacing the parking lot located at the Medina County Jail and Sheriff's Office and the Medina County Human Services Center. The combined estimated cost of these two projects is \$1 million and will be paid for using monies set aside in the County's Reserve Fund.

The Medina County Sanitary Engineer (MCSE) continues to construct utility projects to meet growing utility demand and provide quality potable water and sanitary sewer services, and has initiated engineering efforts for the construction of a new elevated water storage tank to improve water volumes and pressures to support growth in the northern part of Medina County at an estimated cost of \$8 million. July 1, 2021, will represent a milestone in the MCSE's sanitary \$8.5 million force main construction project in Sharon Township to direct Medina County customer wastewater to the County's largest wastewater treatment plant representing a cost-savings to the County and to its customers in dissolving a long-standing contractual relationship for wastewater treatment at another non-County facility.

The Medina County Auditor's Office

Department Focus Auditor Mike Kovack serves as the Chief Fiscal Officer of Medina County. As the guardian of all County funds, the Auditor maintains the official records of all receipts, disbursement and funds available.

Real Estate The Medina County Auditor's Office serves as the assessor of all property within Medina County and, under Ohio law, must view and appraise each of the more than 84,000 parcels of real estate in the County every six years.

Areas of Responsibility Auditor Kovack's Office handles a variety of responsibilities vital to the healthy operation of the County. These responsibilities include:

- *Tax Settlements
- *Presentation of the annual tax budgets of the 50 districts in the County
- *Weights and Measures accuracy

Eligibility for Tax Reductions Auditor Kovack determines the eligibility of homeowners for various tax reductions under the Homestead Exemption Act, Current Agricultural Use Value, forestry and other tax reduction programs. The Auditor's Office makes every effort to keep the residents of the County apprised of the tax reduction programs available.

Boards The auditor oversees the Budget Commission which is responsible for reviewing and approving the budget for the county, cities, villages, townships and schools. He also oversees the Board of Revision which reviews taxpayers' requests for revaluation of real estate. He also serves as the Secretary on the Data Processing Board.

Independent Audit

The Auditor of State's Office, has issued an unmodified ("clean") opinion on the Medina County financial statements for year ended December 31, 2021. The Independent Auditor's report is located at the front of the financial section of this report.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Medina County, Ohio, for its annual comprehensive financial report for the year ended December 31, 2020. This marked the thirty-sixth consecutive year that the County has received this award.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized annual comprehensive financial report whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility to receive the certificate.

The publication of this report represents an important achievement in the ability of Medina County to provide significantly enhanced financial information and accountability to the citizens of Medina County, its elected officials, County management, and investors. This report continues the aggressive program of the County Auditor's Office to improve the County's overall financial accounting, management, and reporting capabilities.

Acknowledgments

This report would not have been possible without the dedication, determination and high professional standards of Sharon Creswell and Kyle Dickel.

I would also like to recognize the cooperation of each of the agencies and departments of the County, especially Scott Miller, County Administrator, and Amy Lyons-Galvin, Assistant County Administrator.

Finally, I would like to acknowledge the invaluable contributions made by Auditor of State Keith Faber, Local Government Services Section.

Sincerely,

MIKE E. KOVACK Medina County Auditor

INDEPENDENT AUDITOR'S REPORT

Medina County 144 North Broadway Street Medina, Ohio 44256

To the County Commissioners:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Medina County, Ohio (the County), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Medina County, Ohio as of December 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund, Achievement Center Fund, Local Fiscal Recovery Fund, School Sales Tax Fund, and Pubic Assistance Fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 32 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the County. We did not modify our opinion regarding this matter.

Efficient • Effective • Transparent

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the County's ability to continue as a going concern for a reasonable
 period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis* and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Medina County Independent Auditor's Report Page 4

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we will also issue our report dated August 31, 2022, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Year Ended December 31, 2021 Unaudited

The discussion and analysis of Medina County's financial performance provides an overall review of the County's financial activities for the year ended December 31, 2021. The intent of this discussion and analysis is to look at the County's financial performance as a whole. Readers should also review the transmittal letter, financial statements and notes to the basic financial statements to enhance their understanding of the County's financial performance.

Financial Highlights

Key financial highlights for 2021 are:

- Total net position increased by \$75,104,414 during 2021. Governmental activities had an overall increase of \$58,918,171, primarily due to assumptions related to the net OPEB liability and increased capitalized expenses. Business-type activities also experienced an increase of \$16,186,243 for similar reasons.
- County general fund revenues amounted to \$50,337,652 in 2021, with property tax and sales tax revenues making up 57.87 percent of total revenues. Sales tax revenues have grown approximately 30.27 percent over the past five years and make up the largest portion (33.33 percent) of general fund revenues.
- The County ended 2021 with a general fund carryover balance of \$18 million that covered approximately 35 percent of total expenditures and other financing uses in the fund on a budget basis. The County continues to be committed to meeting ongoing service needs of its residents and businesses through prudent budget planning and flexibility.

Using this Annual Comprehensive Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are prepared and organized so the reader can understand Medina County as a financial whole and entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial conditions.

The statement of net position and statement of activities provide information about the whole County, presenting both an aggregate view of the County's finances and a longer-term view of those finances. Major fund financial statements provide the next level of detail. For government funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The fund financial statements also look at the County's most significant funds with all other nonmajor funds presented in total in one column. In the case of Medina County, the general fund is by far the most significant fund when it comes to the operations of the County. The achievement center, local fiscal recovery, school sales tax, and public assistance special revenue funds, county capital improvements capital projects fund, Medina County sewer district, Medina County water district and solid waste management enterprise funds are also included as major funds.

Reporting the County as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the information about funds used by the County to provide programs and activities for our citizens, the view of the County as a whole looks at all financial transactions and asks the question: "How did we do financially during 2021?" The statement of net position and the statement of activities answer this question; these statements include all (non-fiduciary) assets and deferred outflows of resources and liabilities and deferred inflows of resources using the full accrual basis of accounting similar to the accounting used by private-sector companies. The full accrual basis of accounting method took into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the County's net position and changes in net position. The change in net position is important because it tells the reader whether the financial position of the County as a whole has improved or diminished. To evaluate the overall position of the County, financial information such as changes in the County's tax base, current property tax laws in Ohio restricting revenue growth, and the condition of the County's capital assets will also need to be reviewed.

The Statement of Net Position and the Statement of Activities are divided into the following categories:

- Assets
- Deferred Outflows of Resources
- Liabilities
- Deferred Inflows of Resources
- Net Position
- Program Revenue and Expenses
- General Revenues
- Net Position Beginning of Year and Year End

In the statement of net position and the statement of activities, the County is divided into three distinct kinds of activities:

Governmental Activities – Most of the County's programs and services are reported here including general government, public safety, public works, health, human services, and economic development and assistance services. These services are funded primarily by taxes and intergovernmental revenues including Federal and State grants and other shared revenues.

Business-Type Activities – These services are provided on a charge for goods or services basis intended to recover all of the expenses or costs of the goods or services provided.

Component Units – The County includes financial data for the Medina County Port Authority (the "Port Authority").

The Port Authority is a legally separate, non-profit organization, which provides and promotes employment and economic development within the County. The Port Authority is included in the County's reporting entity because the County Commissioners appoint a voting majority of the Board of Directors and due to its financial benefit/burden relation with the County. The component unit is separate and may buy, sell, lease and mortgage property in their own name and can sue or be sued in their own name.

Reporting on the County's Most Significant Funds

Fund Financial Statements

The presentation of the County's major funds begins on page 20. Fund financial reports provide detailed information about the County's major funds based on the restrictions on the use of monies. The County has established many funds which account for the multitude of services, facilities and infrastructure provided to our residents; however, these fund financial statements focus on the County's most significant funds. In the case of Medina County, the major funds are the general, achievement center, local fiscal recovery, school sales tax, public assistance, county capital improvements, Medina County sewer district, Medina County water district and solid waste management.

Governmental Funds

Most of the County's activities are reported in the governmental funds which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods. Governmental funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that are expected to be readily converted to cash. The governmental fund statements provide a detailed short-term view of the County's general operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future on services provided to our residents. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds

The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses several enterprise funds to account for various operations. The County's major enterprise funds are the Medina County sewer district, Medina County water district, and the solid waste management. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. Specifically, the internal service funds account for the medical benefit self-insurance program and the workers' compensation program for employees of the County.

The County as a Whole

The statement of net position looks at the County as a whole. Table 1 provides a summary of the County's net position for 2021 compared to 2020.

Management's Discussion and Analysis For the Year Ended December 31, 2021 Unaudited

The net pension liability (NPL) is the largest single liability reported by the County at December 31, 2021. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange; however, the County is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

Total assets increased in 2021, primarily due to increases in cash, capital assets, and the net OPEB asset. Cash increased primarily due to unspent bond proceeds and unspent Federal grants related to COVID-19. Capital assets for governmental activities increased primarily due to the County Courthouse project that is in progress. Cash increased for business-type activities due to increased charges for services and decreased operating expenses. Capital assets for business-type activities increased due to sewer and water line additions. The net OPEB asset increased primarily due to changes in assumptions by the Ohio Public Employee Retirement System (OPERS).

Total liabilities decreased primarily due to decreases related to the net OPEB liability, which was partially offset from the increase in unearned revenue related to unspent grants related to the local fiscal recovery fund. The decrease in the net OPEB liability relates to the change in assumptions by OPERS, which now recognizes a net OPEB asset, as mentioned prior. Liabilities related to long-term debt increased during the year as the County issued \$32,000,000 in bonds for the County Courthouse project.

Overall, net position of the County increased from the prior year due to the reasons discussed previously.

Governmental Activities

The overall financial strength of the County remained stable. Total governmental activities revenue for the County for 2021 decreased from 2020. Overall, program revenues decreased from the prior year by \$4,178,090, which was primarily due to COVID-19 grant monies received in the prior year. General revenues increased over the prior year. The increase was primarily due to increased sales tax revenue as the County's economy recovered from the pandemic.

Total 2021 governmental activities expenses for the County decreased by \$42,243,660. Most of the decreases were due to the net OPEB liability. For the governmental activities, approximately 71 percent of the expenses were covered by direct charges to users of the services and grants. A portion of those charges are for fees charged for septic and solid waste sites and for the collection of license and permit fees throughout the County.

Business-Type Activities

Business-type activities 2021 revenues for the County decreased from 2020. The decrease was largely due to decreased program revenues, as capital grants and contributions decreased due to a decrease in developer-donated sewer and water lines during the year. These funds also received operating grants in 2020 due to COVID-19 related funding.

Business-type activities 2021 expenses for the County decreased from 2020, primarily due to the OPERS net OPEB liability and contractual services in the sewer and solid waste funds.

Table 3 presents a summary for governmental activities, the total cost of services and the cost of providing these services as of December 31, 2021 as compared to 2020.

Table 3

Of the County's \$93,120,499 in governmental expenses, \$66,103,943 was covered by program revenues consisting of charges for services, operating grants and contributions and capital grants and contributions. The remaining expenses had to be paid from property and sales taxes, property transfer taxes, unrestricted grants, interest and miscellaneous revenues.

The County's Funds

Governmental Funds

Medina County uses fund accounting as mandated by governmental legal requirements. The importance of accounting and reporting using this method is to demonstrate compliance with these finance related requirements.

Information about the County's governmental funds begins on page 20. These funds are accounted for using the modified accrual basis of accounting.

The most significant fund is the general fund with a year-end fund balance of \$29,669,987, which included an unassigned fund balance of \$16,823,022, compared to annual expenditures of \$43,720,957. The fund had a positive net change, primarily due to increased sales tax, charges for services, and intergovernmental revenues over the prior year. Expenditures increased with the predominant increase being for public safety, which is primarily related to personal services and contractual services.

The achievement center revenues, with the majority being property taxes, allowed for the operations of a school for the developmentally disabled. While the fund's revenue increased by \$2.6 million over the prior year, it also had increased expenditures of \$2 million, primarily due to increased contractual services.

The local fiscal recovery fund was a new fund for the County in 2021 that recognized money received and spent in relation to the American Rescue Plan Act.

The school sales tax revenues increased due to increased sales taxes revenue during the year, which correlates with the increase in expenditures as this money is distributed to school districts.

The public assistance fund saw its revenues slightly decrease during the year, but also had decreased expenditures due primarily to lower personal services.

The county capital improvements fund saw an increase in fund balance during the year as it issued \$32,000,000 in bonds for the County Courthouse project.

Business-Type Funds

The County has three business-type activities funds: Medina County sewer district, Medina County water district and solid waste management. Total net position increased overall from 2020 to 2021; however, the solid waste management individually had a decrease, although revenues increased over the prior year, narrowing the operating deficit.

Long-term liabilities decreased in 2021 due to decreases related to the net OPEB and long-term debt liabilities.

General Fund Budgeting Highlights

The County's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund. During the course of 2021, the County amended its general fund budget several times. At the direction of County Commissioners, all capital projects and requests for capital type purchases must be reviewed and approved individually by the Commissioners, although the County's legal level of control is at the object level for all funds and any budget modifications may only be made by resolution of the County Commissioners.

Management's Discussion and Analysis For the Year Ended December 31, 2021 Unaudited

The general fund supports many major activities such as the sheriff's department, building and planning departments, as well as the legislative and most executive activities. Some major capital projects are funded with general fund dollars. By resolution, these funds are transferred from the general fund to capital projects funds where the revenue and expenditures for the capital improvement are tracked and monitored. Although some of the original appropriations were gradually increased during the year, the County continued to maintain a respectable level of liquidity in the general fund by maintaining unrestricted cash at year end.

During the course of 2021, the County closely monitored its final budgeted projections. While the Budget Commission processed multiple adjustments to both the original estimated resources and original appropriations, these changes decreased estimated revenues and other sources by \$266,813 and increased appropriations and other uses by \$2,686,685.

Certain revenue line items had increases of actual revenue being brought into the County, as compared to what was projected. For the general fund, final budgeted revenues were \$48,329,026 and actual revenue collections were \$51,660,890. The increase was due to the receipt of increased revenues of most line items. Actual expenditures were \$6,420,692 less than final budgeted appropriations due to the County spending less on personal services and contractual services than projected.

Capital Assets and Debt Administration

Capital Assets

Total capital assets for Medina County as of December 31, 2021, were \$374,350,034, an increase of \$16,469,396 over 2020. The increase was due to additions for both governmental and business-type activities being higher than amounts for depreciation. Capital assets increased for governmental activities, primarily due to additions for the County Courthouse project. Capital assets for business-type activities increased due to sewer and water line additions. For additional information see Note 12 to the basic financial statements.

The County Commissioners are committed along with the administration to maintain its capital assets at a condition acceptable to provide the best possible service for all residents.

During the year, \$5,390,381 in sewer lines and \$2,739,404 in water lines were donated by developers. Capital contributions also include amounts for tap-in fees.

The administration continues to seek grants for infrastructure projects as well as improving County facilities and services. The County expects to continue to apply for and receive Community Development Block Grant money to help fund various qualifying projects in the future.

Debt Administration

On December 31, 2021, Medina County had various general obligation and special assessment bonds outstanding. In the event of payment default by the property owner for the special assessments, the County would be responsible for the debt service payments. All bonds are backed by the full faith and credit of the County. The County also had various loans outstanding with OPWC and OWDA, as well as a Rural Lorain County water loan.

Management's Discussion and Analysis For the Year Ended December 31, 2021 Unaudited

During 2021, Medina County's governmental long-term debt increased as the County issued new debt related to the County Courthouse project. Business-type activities saw a decrease due to debt service exceeding new issuances. The loan proceeds are being used for Sharon Township and Medina Road water improvements and the solid waste building renovation. They are being repaid primarily from charges for services from the business-type activities funds and a portion of the debt is also being repaid from special assessments charged to the benefited property owners.

The County had an overall debt margin of \$118,077,373 and an unvoted debt margin of \$26,378,094.

In addition to the above mentioned debt, County long-term obligations include compensated absences, a capital lease, and net pension and OPEB liabilities. Additional information on the County's long-term obligations can be found in Notes 14, 15, 16, 27, and 28 of the notes to the basic financial statements.

Current Financial Related Activities

The County's 2022 budget was adopted on December 21, 2021. The general fund had cash balances at the end of fiscal years 2020 and 2021 of \$18,189,861 and \$19,951,860, respectively, and it is projected the general fund will end year 2022 with an ending cash fund balance of \$8,269,000. While general fund revenues decreased by 5.1 percent and expenditures increased by 7.9 percent in 2021 on a cash basis, revenues still exceeded the expenditures. The County continues to be fiscally conservative in its fiscal policies and setting its annual budget and expects revenues to again exceed expenditures for 2022.

The County issued bonds in the amount of \$32,000,000 dated April 15, 2021 for the purpose of constructing a new County Courthouse to house the County Court of Common Pleas and all related court operations. The cost of this Courthouse is estimated to be \$30,000,000. Brandstetter Carroll, Incorporated designed the Courthouse and Gilbane is acting as the Construction Manager at Risk. The Courthouse complex is scheduled to be completed in July of 2023 and is currently on schedule and within budget. In December of 2021, the County retired a 2009 bond issuance early that would have matured in 2029, saving approximately \$225,988 in interest costs. The County again plans to retire a 2015 Energy Conservation Bond in December of 2022 that is scheduled to mature in 2030, saving approximately \$426,000 in interest costs.

Medina County residents voted for a 1.0-mill tax levy passed by voters in November of 2019. This levy funds County social service agencies, specifically the Alcohol Drug Addiction and Mental health Board, Jobs and Family Services, and the Office for Older Adults. The levy generates approximately \$5.4 million per year and replaces \$1.8 million in subsidies previously provided to these agencies by the general fund. This levy is a 5 year levy expiring in 2024. It is expected that this levy will be placed on the ballot for renewal in November of 2023.

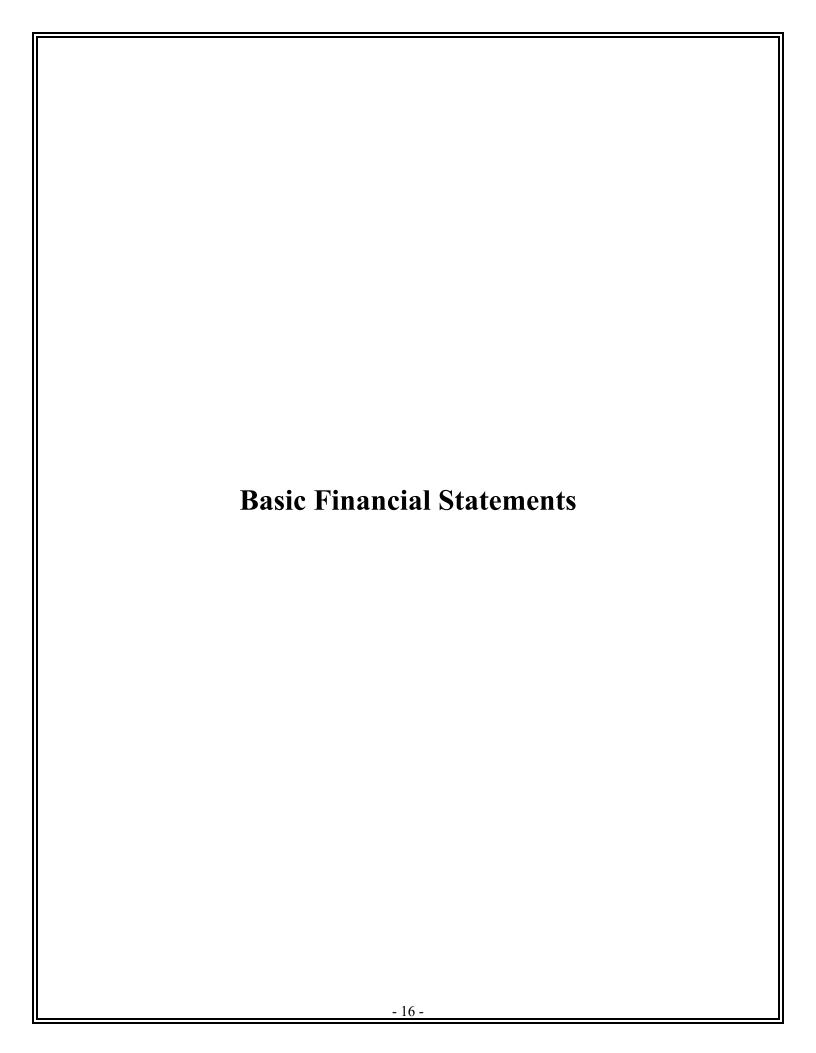

Medina County's economy surged in 2021 after a brief pandemic-induced slowdown in 2020 and the vast majority of businesses located within the County continue to remain stable and in many cases are expanding. The County's increase in sales tax collections during 2021 over those in 2020, increased housing sales, increased real estate values, and increased employment opportunities are reflective of economic growth. The County's average annual unemployment rate for 2020 was at 8.1 percent and decreased to 3.7 percent in 2021 (less than the State annual average of 5.1 percent in 2021). As evidenced by the number of building permits and sublot creations, the County continues to grow with an estimated 183,092 residents, an increase of 10,760 residents since the 2010 census. In 2021, the County saw the expansion of 148 businesses, which made capital investments totaling approximately \$265 million. These companies announced the creation of 362 new jobs with \$9.3 million in new annual payroll, the retention of 670 existing jobs, and the absorption of just over 530,000 square feet of space. In addition, the Medina County Port Authority conceptualized a partnership with the Medina County Commissioners and Lorain Medina Rural Electric Cooperative (LMRE)

Management's Discussion and Analysis For the Year Ended December 31, 2021 Unaudited

with the goal of issuing a Request for Proposals in 2022 to identify a residential broadband provider who could construct an expansion of the Port Authority's fiber network to serve residents in LMRE territory in western Medina County. The investment in this fiber expansion project is expected to total \$22 million.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Note 1 – Reporting Entity

Medina County, Ohio (the County) was created in 1818. The County is governed by a Board of three commissioners elected by the voters of the County. The County Commissioners serve as the taxing authority, the contracting body, and the chief administrators of public services for the County. Other officials elected by the voters of the County that manage various segments of the County's operations are the County Auditor, County Treasurer, Recorder, Clerk of Courts, Coroner, Engineer, Prosecuting Attorney, Sheriff, two Common Pleas Court Judges, a Probate and Juvenile Court Judge, and a Domestic Relations Judge.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading.

The primary government of the County consists of all funds, departments, boards and agencies that are not legally separate from the County. For Medina County, this includes the Alcohol, Drug Addiction and Mental Health (ADAMH) Board, the Board of Developmental Disabilities (DD), and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the County in that the County approves the budget, the issuance of debt or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

Discretely Presented Component Unit The County's only component unit is the Medina County Port Authority (the Authority).

Medina County Port Authority The Medina County Port Authority is a statutorily created political subdivision of the State under the authority of the Ohio Revised Code Sections 4582.21 through 4582.59. The Authority was established to assist the County of Medina in carrying out its purpose of promoting projects that will provide for the creation of jobs and employment opportunities and improve the economic welfare of the people residing in the County, as well as to encourage projects to enhance, foster, aid, provide or promote transportation, economic development, housing, recreation, education, governmental operations, culture, and research within the territory served by the Authority. The County Commissioners appoint a voting majority of the Authority's nine Board of Director members and a financial benefit/burden exists. As a result, the Authority is reported as a discretely presented component unit of Medina County in accordance with Governmental Accounting Standards Board (GASB) Statement No. 61, The Financial Reporting Entity – An Amendment of GASB Statements No. 14 and No. 34 and Statement No. 80, Blending Requirements for Certain Component Units An Amendment of GASB Statement No. 14. Separately issued financial statements can be obtained from the Medina County Port Authority, 144 North Broadway, Medina, Ohio 44256.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The County is associated with certain organizations which are defined as Joint Ventures, Jointly Governed Organizations, Risk Sharing Pool, and Related Organizations. These organizations are presented in Notes 20, 21, 22, and 23 to the basic financial statements. These organizations are:

Medina-Lorain Water Consortium
Northeast Ohio Areawide Coordinating Agency (NOACA)
Medina County Family First Council
North East Ohio Network (NEON)
Medina County Council of Governments on Drug Enforcement
Summit and Medina Workforce Area Council of Governments
County Risk Sharing Authority, Incorporated (CORSA)
Medina County Library District
Medina Metropolitan Housing Authority (MMHA)

As the custodian of public funds, the County Treasurer invests all public monies held on deposit in the County Treasury. In the case of the separate agencies, boards and commissions listed below, the County serves as fiscal agent, but the organizations are not considered part of Medina County. Accordingly, the activities of the following entities are presented as custodial funds within Medina County's financial statements:

Medina County Health District
Medina County Park District
Medina County Drug Task Force
Medina County Family First Council
Medina County Soil and Water Conservation District
Medina County Transportation Improvement District

Information in the following notes to the basic financial statements is applicable to the primary government. Information for the component unit is presented in Note 31.

Note 2 – Summary of Significant Accounting Policies

The financial statements of Medina County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described as follows.

Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities. The activities of the internal service funds are eliminated to avoid "doubling up" revenues and expenses.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The statement of net position presents the financial condition of the governmental and business-type activities of the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for business-type activities of the County.

Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental activity is self-financing or draws from the general revenues of the County.

Fund Financial Statements During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service funds are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources is reported as fund balance. The following are the County's major governmental funds:

General Fund The general fund is the operating fund of the County and is used to account for and report all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Ohio.

Achievement Center Special Revenue Fund The achievement center special revenue fund accounts for and reports the operation of a school for the mentally challenged and developmentally disabled. Revenue sources restricted for this purpose are a County-wide property tax levy, Federal and State grants, and subsidies from the Ohio Department of Education and the Ohio Department of Developmental Disabilities.

Local Fiscal Recovery Fund The local fiscal recovery fund accounts for and reports restricted American Rescue Plan Act grant monies, which were provided to support the County's response to and recovery from the COVID-19 public health emergency.

School Sales Tax Special Revenue Fund The school sales tax special revenue fund accounts for and reports a .5 percent restricted sales tax collection within the County and the distribution of this tax to School Districts within the County.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Public Assistance Special Revenue Fund The public assistance special revenue fund accounts for and reports various restricted Federal and State grants and transfers from the general fund used to provide general relief to eligible recipients, pay for medical assistance and to pay for various social services.

County Capital Improvements Fund The county capital improvements capital projects fund accounts for and reports the bond issuances and Federal grants for the acquisition and renovation of County buildings, as well as to reflect the restricted costs associated with various miscellaneous capital improvements.

The other governmental funds of the County account for grants and other resources whose use is restricted or assigned to a particular purpose.

Proprietary Funds Proprietary funds focus on the determination of operating income, changes in net position, financial position and cash flows and are classified as enterprise or internal service.

Enterprise Funds Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The County's major enterprise funds are:

Medina County Sewer District Fund The Medina County sewer district fund accounts for sanitary sewer services provided to County individual and commercial users in various parts of Medina County.

Medina County Water District Fund The Medina County water district fund accounts for distribution of treated water to individual and commercial users in various parts of Medina County.

Solid Waste Management Fund The solid waste management fund accounts for revenues generated from the charges for use of the central processing facility for disposal of waste materials.

Internal Service Funds The internal service funds accounts for the financing of services provided by one department or agency to other departments or agencies of the County on a cost reimbursement basis. The County's internal service funds accounts for the self-insurance program which provides medical, surgical, prescription drug, and dental benefits to County employees and workers' compensation.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangement that has certain characteristics. The County's only fiduciary funds are custodial funds, which are used to collect and distribute taxes and various State and Federal monies to local governments within the County and to account for funds of the County Health District, the County Park District, the County Drug Task Force, the Family First Council, the Soil and Water Conservation District, and the County Transportation Improvement District, and other miscellaneous purposes.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the County are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources, generally, are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary and fiduciary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of fund net position. In fiduciary funds, a liability to the beneficiaries of fiduciary activity is recognized when an event has occurred that compels the government to disburse fiduciary resources. Fiduciary fund liabilities other than those to beneficiaries are recognized using the economic resources measurement focus.

For proprietary funds, the statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from custodial funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for the proprietary funds and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues – **Exchange and Non-Exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within sixty days of year end.

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, property transfer fees, grants, entitlements and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the sale occurs. Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 7). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: sales and use tax (See Note 8), interest, federal and state grants and subsidies, state-levied locally shared taxes (including motor vehicle license fees and gasoline taxes), fees and rentals.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the County, deferred outflows of resources include a deferred charge on refunding, pension, and OPEB reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 27 and 28.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized until that time. For the County, deferred inflows of resources include property taxes, pension, OPEB, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2021, but which were levied to finance 2022 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the County, unavailable revenue includes delinquent property taxes, charges for services, fines and forfeitures, intergovernmental grants, special assessments, and loan interest from component unit. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities found on page 21. Deferred inflows of resources related to pension and OPEB are reported on the government-wide statement of net position (See Notes 27 and 28).

Expenditures/Expenses On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Data

All funds, other than custodial funds, are legally required to be budgeted and appropriated. These custodial funds are not required to be budgeted and appropriated and therefore are not included in the Accountability and Compliance note (Note 4). The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the County Commissioners may appropriate.

The appropriation resolution is the Commissioners' authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of budgetary control is at the object level within each department for all funds. Any budgetary modifications at this level may only be made by resolution of the County Commissioners.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the County Auditor. The amounts reported as the original and final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate that was in effect at the time the original and final appropriations were passed by the County Commissioners.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations may not exceed estimated resources by fund. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Commissioners during the year, including all supplemental appropriations.

The convention and visitors bureau, radio systems donations, and sheriff commissary special revenue funds do not have any budgetary activity in 2021; therefore, budgetary information is not provided.

Cash and Investments

To improve cash management, cash received by the County is pooled. Cash balances, except cash held by a fiscal agent or held in segregated accounts are pooled and invested in short-term investments in order to provide improved cash management. Individual fund integrity is maintained through the County's records. Interest in the pool is presented as "equity in pooled cash and cash equivalents".

The general fund made advances to various funds to eliminate the funds' negative cash balances. These funds have an interfund payable for the amount of the advance received from the general fund and the general fund has an interfund receivable for the same amount on the balance sheet.

Cash held for the County by a financial institution for the payment of debt principal and interest as they come due is included on the financial statements as "cash and cash equivalents with fiscal agents". The County has segregated bank accounts for monies held separate from the County's central bank account. These amounts are presented as "cash and cash equivalents in segregated accounts" since they are not required to be deposited into the County treasury.

The County utilizes a jointly governed organization (NEON) to service mentally disabled and developmentally disabled residents within the County. The balances in these accounts are presented on the balance sheet as "cash and cash equivalents with fiscal agents" and represents monies held for the County.

During 2021, investments were limited to commercial paper, STAR Ohio, money market accounts, federal national mortgage association bonds, federal home loan bank bonds, federal farm credit bank bonds, federal home loan mortgage corporation bonds, federal agricultural mortgage corporation bonds, negotiable certificates of deposit, treasury notes, foreign holdings, corporate holdings, and municipal holdings. Investments, except for commercial paper and STAR Ohio, are reported at fair value. The County's commercial paper is measured at amortized cost, as it is a highly liquid debt instrument with a remaining maturity at the time of purchase of less than one year.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, Certain External Investment Pools and Pool Participants. The County measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

For 2021, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, twenty-four hours advance notice is appreciated for deposits and withdrawals of \$100 million or more. STAR Ohio reserves the right to limit the transaction to \$250 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. Interest revenue credited to the general fund during 2021 amounted to (\$882,201), which includes (\$808,200) assigned from other County funds. The fair value of investments declined during 2021, resulting in negative investment earnings.

Investments with original maturities of three months or less at the time of purchase and investments of the cash management pool are presented on the financial statements as cash equivalents.

Restricted Assets

Assets are reported as restricted when limitations on their use change in nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws or other governments or imposed by law through constitutional provisions. Restricted assets in the general fund represent money set aside for unclaimed monies and guarantee deposits related to an electric aggregation program.

Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption.

Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. These assets generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and are updated for additions and retirements during the year. The County was able to estimate the historical cost for the initial reporting of infrastructure by backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their acquisition values as of the date received. The County maintains a capitalization threshold of \$5,000 with the exemption of land as land is listed regardless of cost. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

| Description | Estimated Lives |
|---------------------------------------------|-----------------|
| Buildings (includes Sewer and Water plants) | 50 years |
| Improvements, Other than Buildings | 50 years |
| Equipment | 3 - 20 years |
| Bridges | 50 years |
| Roads | 5 - 30 years |
| Culverts | 50 years |
| Signals | 15 years |
| Water Lines | 50 years |
| Sewer Lines | 50 years |

The County's infrastructure consists of bridges, roads, culverts, signals, water, and sewer lines and includes infrastructure acquired prior to December 31, 1980.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets and tap-in fees to the extent they exceed the cost of connection to the system.

Interfund Balances

On fund financial statements, outstanding interfund loans and unpaid amounts for interfund services are receivables and payables resulting from short-term interfund loans are reported as "interfund receivables/payables." Interfund loans which do not represent available expendable resources are classified as nonspendable fund balance. These amounts are eliminated in the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Deferred inflows of resources and deferred outflows of resources from the change in internal proportionate share related to pension items are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts between governmental and business-type activities. These residual amounts are eliminated in the total column of the entity wide statement of net position.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the County will compensate the employees for the benefits through paid time off or some other means. The County records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the County's past experience of making termination payments.

The entire compensated absences liability is reported on the governmental-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employee who has accumulated unpaid leave is paid.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds; however, claims and judgments and compensated absences that will be paid from governmental funds are reported as liabilities in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liabilities should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plans' fiduciary net position is not sufficient for payment of those benefits.

Net Position

Net position represents the difference between all other elements of the statement of net position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes included resources which will be used for delinquent tax collections, public safety, and human services.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans and loans receivable unless the use of the proceeds from the collection of those receivables is restricted, committed, or assigned.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by the highest level formal action (resolution) of the County Commissioners. Those committed amounts cannot be used for any other purpose unless the County Commissioners remove or change the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by the Commissioners. In the general fund, assigned amounts represent intended uses established by the County Commissioners or a County official delegated that authority by County Resolution, or by State Statute. State statute authorized the County Auditor to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The County Commissioners assigned fund balance to cover a gap between 2022's estimated revenues and appropriated budget.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are for county sewer, county water, solid waste recycling and self-insurance programs. Operating expenses are necessary costs that have been incurred in order to provide the goods or services that are the primary activity of the funds. Any revenues and expenses not meeting the definitions of operating are reported as non-operating.

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental activities are eliminated on the government-wide financial statements.

Internal events that are allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Premiums

On the government-wide financial statements, bond premiums are deferred and amortized for the term of the bonds using the straight-line method. Bond premiums are presented as an increase of the face amount of the bonds payable. On governmental fund statements, bond premiums are receipted in the year the bonds are issued. Under Ohio law, premiums on the original issuance of debt are to be deposited to the bond retirement fund to be used for debt retirement and are precluded from being applied to the project fund. Ohio law does allow premiums on refunding debt to be used as part of the payment to the bond escrow agent.

Deferred Charges on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources on the statement of net position.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 - Changes in Accounting Principles and Restatement of Fund Balance and Net Position

Changes in Accounting Principles

For 2021, the County implemented the Governmental Accounting Standards Board's (GASB) Statement No. 98, *The Annual Comprehensive Financial Report*. GASB 98 establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. The County is also implementing *Implementation Guide No. 2019-1*. These changes were incorporated in the County's 2021 financial statements; however, there was no effect on beginning net position/fund balance.

Restatement of Fund Balance and Net Position

During the year, it was determined that the County's transportation improvement district special revenue fund was its own legally separate entity, which Medina County serves as fiscal agent for. This change had the following effect on fund balance and net position:

| | | | | | | County | Other | Total |

Note 4 – Accountability and Compliance

Accountability

The following funds had a deficit fund balance as of December 31, 2021:

| Special Revenue Funds: | |
|--------------------------------------|----------|
| Community Oriented Policing Services | \$33,113 |
| Juvenile Detention Center Donations | 14,416 |
| Sheriff Special Projects | 336,839 |
| Title IV-D | 91,196 |
| Victim Assistance | 1,866 |
| Debt Service Fund: | |
| Special Assessment Bond Retirement | 467,988 |
| Internal Service Fund: | |
| Self Insurance Healthcare | 822,858 |

These deficits are the result of the recognition of payables in accordance with generally accepted accounting principles as well as short-term interfund loans from the general fund needed for operations until the receipt of grant monies. The general fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

Compliance

The County had negative cash balances in the following funds indicating that revenue from other sources were used to pay obligations of these funds, contrary to Ohio Revised Code Section 5705.10:

| Special | Revenue | Funds: |
|---------|---------|--------|
|---------|---------|--------|

| Community Oriented Policing Services | \$30,219 |
|--------------------------------------|----------|
| Juvenile Detention Center Donations | 14,416 |
| Sheriff Special Projects | 331,978 |
| Title IV-D | 82,783 |
| Victim Assistance | 1,251 |
| bt Service Fund: | |

Special Assessment Bond Retirement 49,956

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

These cash deficits are a result of monies being expended with the expectation that the County will be reimbursed during 2022.

Although the cash violations were not corrected by year end, management has indicated that these will be closely monitored to ensure no future violations.

Note 5 – Budgetary Basis of Accounting

While reporting financial position, results of operations and changes in fund balance/net position on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statements of Revenues, Expenditures and Changes in Fund Balances- Budget (Non-GAAP Basis) and Actual are presented in the basic financial statements for the general fund and major special revenue funds.

The major differences between the budget basis and the GAAP basis are:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Investments are reported at fair value (GAAP) rather than cost (budget).
- 3. Unrecorded cash represents amounts received but not reported by the County on the operating statements (budget), but which is reported on the GAAP basis operating statements.
- 4. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 5. Outstanding year end encumbrances are treated as expenditures (budget) rather than as restricted, committed or assigned fund balance (GAAP).

Adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund and major special revenue funds are as follows:

| | Net Change in Fund Balance | | | | |
|-------------------------------------------------|----------------------------|-----------------------|--------------------------|---------------------|----------------------|
| | General | Achievement Center | Local Fiscal Recovery | School Sales Tax | Public Assistance |
| GAAP Basis | \$1,853,288 | \$236,780 | \$0 | \$165,795 | \$280,229 |
| Net Adjustment for Revenue Accruals | (708,444) | (11,146) | 16,805,806 | (235,133) | 7,073 |
| Beginning Fair Value Adjustment for Investments | 2,105,145 | 0 | 0 | 0 | 0 |
| Ending Fair Value Adjustment for Investments | (3,284) | 0 | 0 | 0 | 0 |
| Beginning Unrecorded Cash | 11,934 | 0 | 0 | 0 | 200 |
| Ending Unrecorded Cash | (82,113) | 0 | 0 | 0 | (27) |
| Net Adjustment for Expenditure Accruals | (1,414,527) | (546,696) | 367,773 | 466,883 | (342,519) |
| Encumbrances | (1,938,518) | (793,292) | (154,656) | 0 | (446,518) |
| Budget Basis | (\$176,519) | (\$1,114,354) | \$17,018,923 | \$397,545 | (\$501,562) |

Note 6 – Deposits and Investments

Monies held by the County are classified by State statute into two categories. Active monies are public monies determined to be necessary to meet current demands upon the County treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Monies held by the County which are not considered active are classified as inactive. Inactive monies may be deposited or invested with certain limitations in the following securities provided the County has filed a written investment policy with the Ohio Auditor of State:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States, or any book entry, zero-coupon United States treasury security that is a direct obligation of the United States;
- Bonds, notes, debentures, or any other obligations or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of this state or the political subdivisions of this state, provided the bonds or other obligations of political subdivisions mature within ten years from the date of settlement;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts, in eligible institutions pursuant to ORC sections 135.32;
- 6. No-load money market mutual funds rated in the highest category at the time of purchase by at least one nationally recognized standard rating service or consisting exclusively of obligations described in (1) or (2) above; commercial paper as described in ORC section 135.143 (6); and repurchase agreements secured by such obligations, provided these investments are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio);
- 8. Securities lending agreements in which the County lends securities and the eligible institution agrees to simultaneously exchange either securities or cash, equal value for equal value, within certain limitations;
- 9. Up to forty percent of the County's average portfolio, if training requirements have been met in either of the following:
 - a. Commercial paper notes in entities incorporated under the laws of Ohio, or any other State, that have assets exceeding five hundred million dollars, which are rated in the highest classification established by two nationally recognized standard rating services, which do not exceed ten percent of the value of the outstanding commercial paper of the issuing corporation, which mature within 270 days after purchase, and the investment in commercial paper notes of a single issuer shall not exceed the aggregate five percent of interim monies available for investment at the time of purchase.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

- b. Bankers' acceptances of banks that are insured by the federal deposit insurance corporation and that mature not later than 180 days after purchase.
- 10. Up to fifteen percent of the County's average portfolio in notes issued by U.S. corporations or by depository institutions doing business under authority granted by the U.S. or any state provided the notes are rated in the three highest categories by at least two nationally recognized standard rating services at the time of purchase and the notes mature not later than three years after purchase;
- 11. A current unpaid or delinquent tax line of credit, provided certain conditions are met related to a County land reutilization corporation organized under ORC Chapter 1724; and,
- 12. Up to two percent of the County's average portfolio in debt interests rated at the time of purchase in the three highest categories by two nationally recognized standard rating services and issued by foreign nations diplomatically recognized by the United States government, subject to certain limitations. All interest and principal shall be denominated and payable in United States funds.

Reverse repurchase agreements, investments in derivatives, and investments in stripped principal or interest obligations that are not issued or guaranteed by the United States, are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of settlement, unless matched to a specific obligation or debt of the County, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. At December 31, 2021, \$2,082,776 of the County's total bank balance of \$51,655,897 was exposed to custodial credit risk because those deposits were uninsured and uncollateralized. Two of the County's financial institutions participate in the Ohio Pooled Collateral System (OPCS) and were approved for a reduced collateral floor of 50 percent, resulting in the uninsured and uncollateralized balance.

The County has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the County and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

At December 31, 2021, the County's Achievement Center special revenue fund had a cash balance of \$104,048 with NEON, a jointly governed organization (See Note 21). The money is held by NEON in a pooled account which is representative of numerous entities and therefore cannot be classified by risk under GASB Statement 40. Any risk associated with the cash and cash equivalents and investments with NEON as a whole may be obtained from their audit report. To obtain financial information, write to the North East Ohio Network, 5121 Mahoning Avenue, Suite 102, Austintown, Ohio 44515-1895.

Investments

Investments, except commercial paper and STAR Ohio, are reported at fair value. As of December 31, 2021, the County had the following investments:

| | Measurement | | Standard & Poor's | Percent of Total |
|-------------------------------------------------|---------------|-----------------------|----------------------|---------------------|
| Measurement/Investment | Amount | Maturity | Rating | Investments |
| Amortized Cost: | | | | |

| Total Investments | \$157,109,816 | | | |

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The preceding chart identifies the County's recurring fair value measurements as of December 31, 2021. The money market accounts are measured at fair value and is valued using quoted market prices (Level 1 inputs). The County's remaining investments measured are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. (Level 2 inputs).

Interest Rate Risk As a means of limiting its exposure to fair value losses caused by rising interest rates, the County's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the County's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

Custodial Credit Risk For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County has no investment policy dealing with investment custodial credit risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Credit Risk Commercial paper carries ratings from A-1 to A-1+ by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The Federal National Mortgage Association Bonds, Federal Home Loan Bank Bonds, Federal Farm Credit Bank Bonds, Federal Home Loan Mortgage Corporation Bonds, Federal Agricultural Mortgage Corporation Bonds, and United States Treasury Notes all carry a rating of AA+ by Standard & Poor's. Money market accounts, negotiable certificates of deposit, and foreign, corporate and municipal holdings are unrated. The County has no investment policy that addresses credit risk.

Concentration of Credit Risk The County places no limit on the amount it may invest in any one issuer.

Note 7 – Property Taxes

Property taxes include amounts levied against all real and public utility property located in the County. Property tax revenue received during 2021 for real and public utility property taxes represents collections of 2020 taxes.

2021 real property taxes were levied after October 1, 2021, on the assessed value as of January 1, 2021, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2021 real property taxes are collected in and intended to finance 2022.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2021 public utility property taxes which became a lien December 31, 2020, are levied after October 1, 2021, and are collected in 2022 with real property taxes.

The full tax rate for all County operations for the year ended December 31, 2021, was \$8.07 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2021 property tax receipts were based are as follows:

| Category | Assessed Value |
|--------------------------|-----------------|
| Real Estate | |
| Residential/Agricultural | \$4,829,856,430 |
| Other Real Estate | 933,632,950 |
| Personal Property | |
| Public Utility | 449,795,850 |
| Total Valuation | \$6,213,285,230 |

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portion of the taxes collected. Collections of the taxes and remittance of them to the taxing districts are accounted for in various custodial funds of the County. Property taxes receivable represents real and tangible personal property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2021, and for which there is an enforceable claim. In governmental funds, the portion of the receivable not levied to finance 2021 operations is offset to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Note 8 – Sales and Use Tax

In 1971, the County Commissioners by resolution imposed a one-half of one percent tax on all retail sales, except sales of motor vehicles, made in the County, and on the storage, use, or consumption in the County of tangible personal property, including automobiles, not subject to the sales tax. During 2007, the voters of the County passed an additional one-half percent tax to be used for capital improvements at all school districts within the County. Collection began in October 2007. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the Office of Budget Management the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five days after the end of the month. The Tax Commissioner shall then, on or before the twentieth day of the month in which certification is made, provide for payment to the County.

Proceeds of the sales tax are credited to the general and achievement center funds. Proceeds of the school sales tax are credited to the school sales tax special revenue fund. A receivable is recognized at year end for amounts that will be received from sales which occurred during 2021.

Note 9 – Receivables

Receivables at December 31, 2021, consisted of property taxes, sales taxes, interest, loans, special assessments, accounts (billings for user charged services, including unbilled utility services) and intergovernmental receivables arising from grants, entitlements and shared revenues. All receivables are considered collectible in full, including accounts receivable which, if delinquent, may be certified and collected as special assessment, subject to foreclosure for nonpayment. All receivables, except property taxes, loans and special assessments, are expected to be collected within one year. Property taxes, although ultimately collectable, include some portion of delinquencies that will not be collected within one year.

Special assessments expected to be collected in more than one year amount to \$3,497,906 in the special assessment bond retirement fund. The amount of delinquent special assessments outstanding at year-end is \$92,765.

In order to enhance the security for the Port Authority's Series 2010 Bonds related to the construction of its fiber optic cable network, the County has entered into a Bond Reserve Fund Non-Tax Revenue Contribution Agreement with the Port Authority, a discreetly presented component unit of the County. According to the terms of this agreement, the County will contribute, subject to appropriation, Non-Tax Revenues of the County in an amount sufficient to restore the balance in the Port Authority's Bond Reserve Fund to the Bond Reserve Requirement in the event that the Trustee draws amounts from the Bond Reserve Fund to pay Bond Service Charges on the Series 2010 Bonds when due, all in accordance with this Agreement and Trust Indenture. The Port Authority agrees to repay the County, with interest at a rate per annum based on the net average cost of funds to the Port Authority on the Series 2010 Bonds provided. All principal and interest shall be due and payable on June 1, 2031. As of year-end, the outstanding balance of the Port Authority's Series 2010 Bonds was \$9,990,000. The total amount contributed by the general fund of the County was \$6,863,779 at December 31, 2021, of which all is due in more than one year. Outstanding amounts will require repayment at an interest rate of 5.42 percent. The balance outstanding at December 31, 2021, includes accumulated interest of \$1,323,300, of which \$962,490 is the County's portion. To date, the County has not received any payments from the Port Authority. The entire balance is due in more than one year and is considered collectible in full.

The revolving loan program fund loaned monies to various businesses and has a receivable of \$210,084, of which \$158,629 is due in more than one year.

Receivables and payables on the County's financial statements are recorded to the extent that the amounts are determined significant and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability. Using this criterion, the County has elected not to record child support arrearages within the special revenue and custodial fund types. These amounts, while potentially significant, are not considered measurable, and because collections are often significantly in arrears, the County is unable to determine a reasonable value.

Note 10 – Tax Abatements

As of December 31, 2021, 9 subdivisions within the County provide tax abatements through Community Reinvestment Area (CRA) Tax Abatements.

Community Reinvestment Area (CRA)

Pursuant to Ohio Revised Code Chapter 5709, nine subdivisions of the County have established Community Reinvestment Areas to provide property tax abatements to encourage revitalization of existing buildings and the construction of new structures. Abatements are obtained through application by the property owner, including proof that the improvements have been made. The amount of the abatement is a reduction in taxable assessed valuation.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

County property taxes revenues were reduced as follows under agreements entered into by overlapping governments:

| | Amount of 2021 |

Note 11 – Supplemental Nutrition Assistance Program (SNAP)

The Medina County Department of Job and Family Services administers the federally funded nutrition assistance program to eligible Medina County residents under the guidance of the State of Ohio. The program is intended to aid as a recurring monthly supplement towards the family or individual's food source. The value of the monthly SNAP allotment is not reflected in the accompanying financial statements as the only economic interest related to these benefits rest with the eligible recipient. SNAP benefits are issued on an Ohio Direction Card.

Note 12 – Capital Assets

Capital asset activity for the year ended December 31, 2021, was as follows:

Note 13 – Risk Management

Property and Liability

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During 2021, the County contracted with County Risk Sharing Authority, Incorporated (CORSA), a risk sharing pool (See Note 22), for liability and property insurance, medical/professional liability at the County Home, and coverage of foster parents. Coverage provided by CORSA is as follows:

| | Limits of Coverage |
|----------------------------------------|--------------------|
| General Liability | \$1,000,000 |
| Law Enforcement Professional Liability | 1,000,000 |
| Automobile Liability | 1,000,000 |
| Errors and Omissions | 1,000,000 |
| Privacy and Security Liability | 4,000,000 |
| Excess Liability | 5,000,000 |
| Property | 399,850,038 |
| Equipment Breakdown | 100,000,000 |
| Crime | 1,000,000 |
| County Home Medical Liability | 2,000,000 |
| Jail Medical Liability | 1,000,000 |
| Foster Parents | 6,000,000 |
| Underground Fiber Optic Lines | 5,000,000 |

Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Insurance Benefits

The County established a limited risk management program in 1987 for employee health insurance benefits. A third party administrator, Medical Mutual of Ohio, reviews and pays all claims on behalf of the County. During 2021, depending on the type of coverage the employee selects, the monthly premium paid by the County ranged from \$304 to \$852 for single coverage, from \$842 to \$2,023 for single plus-one coverage, and from \$1,200 to \$3,186 for family coverage. Employee contributions ranged from \$0 to \$139 for single coverage, from \$0 to \$350 for single plus-one coverage, and from \$0 to \$519 for family coverage. An excess coverage insurance policy covers individual claims in excess of \$175,000 and aggregate claims in excess of \$13,611,562.

The liability for unpaid claims costs of \$1,675,243 reported in the fund at December 31, 2021, was estimated by the third party administrator and is based on the requirements of GASB No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Interfund premiums are based primarily upon the insured funds' claims experience.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Changes in the fund's claims liability amount in 2020 and 2021 were:

| | Balance at | Current Year | Claims | Balance at |
|------|-------------------|--------------|-------------|-------------|
| Year | Beginning of Year | Claims | Payments | End of Year |
| 2020 | \$1,692,952 | \$9,016,492 | \$9,636,095 | \$1,073,349 |
| 2021 | 1,073,349 | 11,155,612 | 10,553,718 | 1,675,243 |

Workers' Compensation

On December 1, 2008, the County was approved for self-insured status by the Bureau of Workers' Compensation and began to administer its own workers' compensation program (the program). The County has established a workers' compensation internal service fund to account for assets set aside for claim settlements and related liabilities associated with the program. Liabilities of the fund are reported when an employee injury has occurred, it is probable that a claim will be filed under the program, and the amount of the claim can be reasonably estimated. The County utilizes the services of Sedgwick Claims Management Services, the third party administrator, to review, process, and pay employee claims. The County also maintains excess insurance coverage which would pay the portion of claims that exceed \$500,000 per occurrence for all employees.

The claims liability of \$25,733 reported in the fund at December 31, 2021, is based on an estimate by the County Auditor's Office and Sedgwick Claims Management Services. The claims liability reported in the workers' compensation internal service fund at December 31, 2021, is based on the requirements of GASB statement No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses.

Changes in the fund's claims liability amount for 2020 and 2021 were:

| *** | Balance at | Current | Claim | Balance at |
|------|-------------------|-------------|-----------|-------------|
| Year | Beginning of Year | Year Claims | Payments | End of Year |
| 2020 | \$16,521 | \$111,581 | \$118,333 | \$9,769 |
| 2021 | 9,769 | 123,947 | 107,983 | 25,733 |

Note 14 – Compensated Absences

County employees earn vacation and sick leave at varying rates depending on length of service and department policy. All accumulated, unused vacation time is paid upon separation if the employee has at least one year of service with the County. Vacation time may not exceed two years' accrual without the approval of management. Upon retirement or death, unused sick leave up to a maximum of 960 hours is paid at varying rates depending on length of service.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Note 15 – Capital Lease

During 2019, the County entered into a capital lease with Huntington Public Capital Corporation for voting machines, which will end in 2022. The lease meets the criteria for capital leases. The assets were capitalized at the present value of the minimum lease payments at the time the lease was entered into. The lease is secured by the related property.

The assets acquired through the capital lease is as follows:

| | Governmental Activities |
|--------------------------------|-------------------------|
| Asset: | |
| Voting Machines | \$1,031,059 |
| Less: Accumulated Depreciation | (249,172) |
| Total | \$781,887 |

Such agreements provide for minimum, annual lease payments as follows:

| | Governmental Activities |
|----------------------------------------|-------------------------|
| 2022 Lease Payment | \$269,079 |
| Less: Amount Representing Interest | (7,837) |
| Present Value of Minimum Lease Payment | \$261,242 |

Loans reported in the enterprise funds will be paid from charges for services revenue in the enterprise funds. General obligation bonds will be retired from the general obligation debt service fund using general property tax revenue. Special assessment bonds will be paid from the proceeds of special assessments levied against benefited property owners. In the event that a property owner would fail to pay the assessment, payment would be made by the County. Governmental OPWC loans will be paid out of the auto and gas tax fund. The capital lease will be paid out of the general fund. Compensated absences will be paid from the fund from which the employee is paid. These funds include the general, achievement center, public assistance, ADAMH, auto and gas tax, child support enforcement, community safety awareness, computer, courthouse security, dog and kennel, DRETAC emergency management, law library, office for older adults, real estate assessment, shelter care and youth services, sheriff special projects, title IV-D, transportation program, victim assistance, sewer, water, solid waste, and workers' compensation funds. There are no repayment schedules for the net pension and OPEB liabilities; however, employer contributions are made from the same funds as compensated absences. See Notes 27 and 28 for additional information related to the net pension and OPEB liabilities and assets.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

All bonded debt is a general obligation supported by the full faith and credit of the County. OWDA and OPWC loans grant neither security nor property interest to OWDA or OPWC in any property of the County, and do not pledge the general credit of the County.

During 2009, the County issued \$4,865,000 in general obligation refunding bonds at interest rates varying from 2 percent to 5 percent. Proceeds were used to refund \$3,670,000 of the outstanding county facilities improvements, prosecutor's renovations, and department of human services bonds to take advantage of lower interest rates. On December 31, 2021, \$570,000 of the defeased bonds are still outstanding. The bonds were issued at a \$53,505 premium. The County paid the bonds off early in 2021.

The term bonds for the general obligation refunding bonds were issued for a 20 year period with a final maturity at December 1, 2029. The bonds are being retired from the general obligation bond retirement fund.

During 2012, the County issued \$1,499,918 in general obligation permanent improvement bonds consisting of serial, term, and capital appreciation bonds, which carry interest rates varying from 1.5 percent to 3 percent. Proceeds were used to fund various capital improvements within the County. The County paid the bonds off early in 2021.

During 2015, the County issued \$5,400,000 in various purpose bonds at interest rates varying from 1 percent to 4 percent. Proceeds were used for energy conservation projects and sheriff's department systems upgrades. The bonds were issued at a \$247,383 premium and will mature in 2030.

During 2016, the County issued \$1,800,000 in various purpose bonds through direct placement at interest rates varying from 1 percent to 2.35 percent. Proceeds were used for jail and tuckpointing projects. The bonds will mature in 2026.

During 2021, the County issued \$6,295,000 serial and \$25,705,000 term general obligation courthouse facility improvement bonds at interest rates varying from 2.125 percent to 5 percent. Proceeds are being used for the construction, furnishing, and equipping a new courthouse facility adjacent to the existing courthouse complex and the renovation, remodeling, furnishing, equipping, and improving existing courthouse facilities and clearing, preparing, equipping, and improving their sites. As of December 31, 2021, \$25,868,659 of the bonds were unspent. The bonds were issued at a \$1,399,450 premium.

The term portions of the 2021 general obligation courthouse facility improvement bonds are subject to mandatory redemption requirements. The term bonds maturing on December 1, 2033, 2035, 2037, 2041, 2046, 2051, and 2055, respectively, will be subject to mandatory redemption, pursuant to mandatory sinking fund requirements at a redemption price of 100 percent of the principal amount redeemed plus interest accrued to the redemption date, on December 1 in each of the years and in the principal amounts set forth as follows:

The remaining principal amount of the term bonds (\$775,000, \$820,000, \$870,000, \$955,000, \$1,145,000, \$1,310,000 and \$1,450,000) will mature at the stated maturity.

The County's outstanding OWDA loans from direct borrowings of \$67,862,187 related to business-type activities contain provisions that in an event of default (1) the amount of such default shall bear interest at the default rate from the due date until the date of payment, (2) if any of the charges have not been paid within 30 days, in addition to the interest calculated at the default rate, a late charge of 1 percent on the amount of each default shall also be paid to the OWDA, and (3) for each additional 30 days during which the charges remain unpaid, the County shall continue to pay an additional late charge of 1 percent on the amount of the default until such charges are paid.

The County's outstanding OPWC loans from direct borrowings of \$61,432 related to governmental activities and \$1,330,893 related to business-type activities contain provisions that in an event of default (1) OPWC may apply late fees of 8 percent per year, (2) loans more than 60 days late will be turned over to the Attorney General's office for collection, and as provided by law, the OPWC may require that such payment be taken from the County's share of the County undivided local government fund, and (3) the outstanding amounts shall, at OPWC's option, become immediately due and payable.

The County has entered into contractual agreements for construction loans from the Ohio Water Development Authority (OWDA). Under the terms of these agreements, the OWDA will reimburse, advance or directly pay the construction costs of approved projects. The OWDA will capitalize administrative costs and construction interest and then add them to the total amount of the final loan.

Lines of credit have been established with the Ohio Water Development Authority and the Ohio Public Works Commission in the amount of \$11,460,709 for various water and solid waste projects. Since the loan repayment schedule has not yet been finalized, a repayment schedule is not included in the schedule of debt service requirements. Until a final repayment schedule is available, the County is paying based on estimates.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The Ohio Revised Code provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors shall never exceed one percent of the total assessed valuation of the County. The Code further provides that the total voted and unvoted net debt of the County less the same exempt debt shall never exceed a sum equal to three percent of the first \$100,000,000 of the assessed valuation, plus one and one-half percent of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000, plus two and one-half percent of such valuation in excess of \$300,000,000.

The effects of the debt limitations described above at December 31, 2021, are an overall debt margin of \$118,077,373 and an unvoted debt margin of \$26,378,094.

Note 17 – Conduit Debt Obligations

From time to time, the County has issued Healthcare Revenue Bonds to provide financial assistance to health care organizations and Economic Development Bonds for the private-sector entities for the acquisition and construction of facilities deemed to be in the public interest. Servicing these debts is the sole obligation of the entities which received the debt proceeds. Neither the County, the State, nor any political subdivision thereof, is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of December 31, 2021, \$202,415,000 of these bonds had been issued. Of the \$93,255,000 issued after December 31, 1995, \$41,660,000 was still outstanding.

Note 18 – Contingent Liabilities

Grants

The County has received Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the County Commissioners believe such disallowances, if any, will be immaterial.

Litigation

Several claims and lawsuits are pending against the County. The amount of the liability, if any, cannot be reasonably estimated at this time.

Note 19 – Solid Waste Central Processing Facility

The County operates a solid waste central processing facility including a transfer station and class I and class IV compost facilities at 8700 Lake Road, Seville, Ohio. The facilities have been in operation since 1993 and are used by residents and businesses to dispose of solid waste, which is then transported to a commercial landfill outside of the County.

In accordance with Ohio Environmental Protection Agency regulations promulgated in the Ohio Administrative Code, the County annually provides the required financial assurance through the local government financial test for final closure of these facilities. Since the initiation of said regulations, the County completed the local government financial test and met the required financial assurances.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

When using the local government financial test mechanism, the Ohio Environmental Protection Agency does not require a liability to be recognized provided the County meets the requirements of the financial test. Further, the County has no plan to close or move the facility. Therefore, no liability is recognized (actual or contingent) in the accompanying financial statements, for the cost to perform and complete central processing and class I compost facilities closure activities.

Note 20 – Joint Venture

Medina-Lorain Water Consortium

The County is a member of the Medina-Lorain Water Consortium (the Consortium), which is a joint venture between the City of Avon Lake, the Rural Lorain County Water Authority, Medina County and the City of Medina. The Consortium was created in 1999 for the purpose of construction, operation and maintenance of a water transmission line to serve the members of the Consortium, and for the purpose of bulk water delivery from the City of Avon Lake. There is an ongoing financial responsibility for all parties for the maintenance and repair of the project. The Consortium is governed by representatives of the member parties. The City of Avon Lake serves as the fiscal agent for the Consortium. As of December 31, 2021, the County's equity interest in the Consortium was \$5,801,611, which represents 28.57 percent of the total equity in the Consortium. The Consortium is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit to or burden on the County. Financial information can be obtained from the City of Avon Lake Finance Director, 150 Avon Beldon Road, Avon Lake, Ohio 44012.

Note 21 – Jointly Governed Organizations

Northeast Ohio Areawide Coordinating Agency (NOACA)

Northeast Ohio Areawide Coordinating Agency (NOACA) was created by the County Commissioners of Cuyahoga, Geauga, Lake, Lorain and Medina Counties and is responsible for transportation and environmental planning in the five County region. NOACA is controlled by 45 members including the three Medina County Commissioners. The Board exercises total control over the operation of the Agency including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the board. During 2021, the County contributed \$78,378 to NOACA.

Medina County Family First Council

The mission of the Medina County Family First Council (Council) is dedicated to strengthening the Medina County community by coordinating and supporting health, human, and social services. The Council is made up of approximately 42 individuals from various organizations including 10 from the County. The Council's Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. During 2021, the County did not contribute to the Council.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

North East Ohio Network (NEON)

NEON is a council of governments formed to provide a regional effort in administrating, managing and operating programs for certain individuals with developmental disabilities. Participating counties include Medina, Trumbull, Columbiana, Geauga, Lake, Mahoning, Portage, Ashtabula, Lorain, Summit, Wayne, Richland and Stark Counties. NEON operation is controlled by their board which is comprised of the superintendents of Developmental Disabilities of each participating County. NEON's Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. During 2021, NEON received sufficient revenues from State grant monies and no additional funds were needed from the participants. (See Note 6 for information on the County's cash balance on hand at NEON).

Medina County Council of Governments on Drug Enforcement

The Medina County Council of Governments on Drug Enforcement was formed to provide the necessary planning, cooperation, direction, and administration to help combat drug abuse and illegal drug trafficking and related crimes within the County. The Council is comprised of multiple levels of government within the County. The Council's Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. The governing board consists of two County commissioners, one representative from the cities of Brunswick, Medina, and Wadsworth, one village representative chosen by a caucus of the villages, and three township representatives chosen by a caucus of the townships. The governing board's duties are to adopt and amend bylaws, propose and initiate studies and polices, resolve questions, make an annual report, review and amend the Council's budget, and approve the employment and termination of the Council's staff. The Council also has an operating board, which consists of the County sheriff, the chiefs of police from the cities of Brunswick, Medina, and Wadsworth, one village chief of police chosen by a caucus of all village chiefs of police, and two township chiefs of police chosen by a caucus of all township chiefs of police. The operating board's duties are to approve studies and plans for activities related to the Council, handle routine matters and expenditures within the authorized budget, submit minutes of its proceedings to the governing board, appoint special committees, propose a budget to the governing board, submit recommendations to employ or terminate staff to the governing board, and handle disciplinary matters. During 2021, the County did not contribute any funding to the Council.

Summit and Medina Workforce Area Council of Governments

Summit and Medina Counties together form Ohio's Local Workforce Area 2. Area 2 is governed by the Summit and Medina Workforce Area Council of Governments (SAMWA COG) and represented by the Summit/Medina Workforce Development Board (WDB). The Workforce Innovation and Opportunity Act of 2014 (WIOA) requires the establishment of local workforce areas within the states based on geographic, industrial, educational, and other regional economic factors. The SAMWA COG is comprised of the County Executive (Summit) and a Commissioner (Medina). The main roles of the SAMWA COG include adopting of resolutions related to Local Workforce Area-wide finances, budgets, programs, and policies. Appointing members of the WDB and providing the structural mechanisms to staff the WDB. During 2021, the County did not contribute to the SAMWA COG.

Note 22 - Risk Sharing Pool

The County Risk Sharing Authority, Incorporated, (CORSA) is a risk sharing pool made up of 66 counties and 38 county-related entities in Ohio. CORSA was formed as an Ohio nonprofit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverage provided by CORSA. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of CORSA are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County does not have an equity interest in CORSA. The County's payment for insurance to CORSA in 2021 was \$491,111.

Note 23 – Related Organizations

Medina County Library District

The County Commissioners are responsible for appointing a voting majority of the Medina County Library District Board; however, the County cannot influence the Library's operation nor does the Library represent a potential financial benefit or burden on the County. The County serves in a ministerial capacity as the taxing authority for the Library. Once the Library determines to present a levy to the voters, including the determination of its rate and duration, the County must place the levy on the ballot. The Library may issue debt and determines its own budget. The Library did not receive any funding from the County during 2021.

Medina Metropolitan Housing Authority

The Medina Metropolitan Housing Authority ("MMHA") is a legally separate body politic. The majority of the MMHA board is appointed by Medina County. The MMHA board is composed of five representatives who include: one member appointed by the Medina County Court of Common Pleas Judge; one member appointed by the Medina County Probate Court Judge; one member appointed by the Medina County Commissioners; and two members appointed by the Mayor of the City of Brunswick. The County is not able to impose its will on the MMHA and no financial benefit and/or burden relationship exists. The MMHA is responsible for approving its own budget, appointing personnel and accounting and finance related activities. The general purpose of the MMHA is to provide decent, safe, and sanitary housing for qualified persons within the County. During 2021, the County contributed \$15,000 to the operations of the MMHA.

Note 24 – Interfund Activity

Interfund Balances

During 2021, the general fund had an interfund receivable in the amount of \$2,770,774. \$1,750,000 represents manuscript debt that was issued by the county capital improvements fund. \$908,859 represents advances to offset deficit cash. The remaining balances of \$111,915, \$5,378, \$4,324, \$72,059, and \$19,809 in the general, achievement center, public assistance, other funds, and Medina County sewer district, respectively, resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting records, and (3) payments between funds are made. All are expected to be paid within one year.

On May 31, 2018, the County issued various purpose bond anticipation notes of \$2,750,000 for a five year period at 3.1 percent interest in order to finance the purchase and renovation of a building for the Medina County Courthouse. The notes mature on June 1, 2023. The County has purchased this note. The County has identified the county capital improvements fund as the fund that received the proceeds and the general fund as the fund that purchased the notes. During 2021, there was a payment of \$250,000, resulting in a balance of \$1,750,000 at December 31, 2021. For reporting purposes, these transactions are reflected as an interfund payable and an interfund receivable in the respective funds.

Interfund Transfers

During 2021, the general fund transferred \$187,448 to the public assistance fund, \$3,320,896 to the county capital improvements fund, and \$1,266,414 to other governmental funds. The achievement center special revenue fund transferred \$4,745,657 to the achievement center construction fund for various projects. The county capital improvements fund transferred \$21,128 to the bond retirement fund to close the building renovation sub-fund. The general obligation bond retirement fund transferred \$310,063 to the county capital improvements fund to make payment for the manuscript debt. The coronavirus relief fund transferred \$143,858 and \$984 to cover expenditures in the courthouse security fund and office for older adults fund, respectively. The emergency planning commission fund transferred \$40,564 to the emergency management fund for the purpose of distributing monies for local emergency planning committee contracts, hazardous materials, and director vehicle payments. The safe communities fund transferred \$17,890 to the community oriented policing services fund to move revenue that was improperly posted in the prior year. The social services levy fund transferred \$1,577, \$2,629, and \$1,051 to the ADAMH, children's services, and office for older adults funds, respectively, to cover additional costs in those funds. The solid waste fund

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

transferred \$172,829 to the water fund to correct a deposit made in the prior year. Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; to move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to provide additional resources for current operations or debt service; to repay another fund for that fund's share of project expenditures; and to return money to the fund from which it was originally provided once a project is completed.

Internal Balances - Change in Proportionate Share

The County uses an internal proportionate share to allocate its net pension liability and corresponding deferred outflows/inflows of resources and pension expense to its various funds. This allocation creates a change in internal proportionate share. The effects of the internal proportionate share are eliminated from the pension deferred outflows/inflows of resources in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts between governmental and business-type activities. These residual amounts are eliminated in the total column of the entity wide statement of net position, thus allowing the total column to present the change in proportionate share for the County as a whole.

Balances related to the internal proportionate share for pension at December 31, 2021, were as follows:

| Deferred Outflows | Deferred Inflows |
|-------------------|-----------------------------|
| \$3,915 | \$131,767 |
| | |
| 2,242 | 42,345 |

Note 25 - Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are as follows:

| | Fund Balances | General | Achievement Center | School Sales Tax | Public Assistance | County Capital Improvements | Other Governmental Funds | Total |

Note 26 – Significant Commitments

Contractual Commitments

The County has entered into a contract with Brandstetter Carroll, Incorporated, for the design of a courthouse, which will house the Medina County Court of Common Pleas and all associated operations, as well as the Medina City Municipal Court and related operations. The total contract for the design and related construction services is \$2,297,000, and as of December 31, 2021, the County has paid Brandstetter Carroll, Incorporated, a total of \$1,787,218.

In addition to Brandstetter Carroll, the County entered into a contract with Gilbane Construction Company to act as the Construction Manager at Risk for the construction of the new Medina County Courthouse Complex. The total cost of this contract is \$29,589,410, and as of December 31, 2021, the County has paid Gilbane \$4,471,046.

The amounts remaining on these contracts were encumbered at year end. The amount of \$177,583 in retainage payable for business-type activities has been capitalized.

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

Governmental Funds:

Note 27 - Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability (Asset)/Net OPEB Liability (Asset)

The net pension liability (asset) and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions/OPEB are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represents the County's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the County's obligation for this liability to annually required payments. The County cannot control benefit terms or the manner in which pensions are financed; however, the County does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide health care to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a *net pension/OPEB asset* or a long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 28 for the required OPEB disclosures.

Plan Description – Ohio Public Employees Retirement System (OPERS)

County employees, other than certified teachers, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 56 with 15 years of service credit

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost—of—living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost of living adjustment is 3 percent. For those retiring on or after January 7, 2013, beginning in calendar year 2019, the adjustment is based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Beginning in 2022, the Combined Plan will be consolidated under the Traditional Pension Plan (defined benefit plan) and the Combined Plan option will no longer be available for new hires beginning in 2022.

Funding Policy – The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

| | State and Local | Law Enforcement |
|-------------------------------------------|--------------------|--------------------|
| 2021 Statutory Maximum Contribution Rates | | |
| Employer | 14.0 % | 18.1 % |
| Employee * | 10.0 % | ** |
| 2021 Actual Contribution Rates | | |
| Employer: | | |
| Pension *** | 14.0 % | 18.1 % |
| Post-employment Health Care Benefits *** | 0.0 | 0.0 |
| Total Employer | 14.0 % | 18.1 % |
| Employee | 10.0 % | 13.0 % |

- * Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.
- ** This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.
- *** These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

For 2021, the County's contractually required contribution was \$6,798,466 for the traditional plan, \$296,490 for the combined plan and \$121,071 for the member-directed plan. Of these amounts, \$113,023 is reported as an intergovernmental payable for the traditional plan, \$4,928 for the combined plan, and \$2,009 for the member-directed plan.

Plan Description – State Teachers Retirement System (STRS)

County licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad Street, Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2026, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit regardless of age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2021 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For 2021, the full employer contribution was allocated to pension.

The County's contractually required contribution to STRS was \$187,827 for 2021. Of this amount, \$3,158 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability (asset) for OPERS was measured as of December 31, 2020, and the net pension liability for STRS was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of the respective measurement dates. The County's proportion of the net pension liability (asset) was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities. The following is information related to the proportionate share and pension expense:

| | OPERS | OPERS | | |

2021 pension expense for the member-directed defined contribution plan was \$123,732. The aggregate pension expense for all pension plans was (\$262,296) for 2021.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

At December 31, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to defined benefit pensions from the following sources:

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2020, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2020, are presented as follows:

| Wage Inflation |
|-------------------------------|
| Future Salary Increases, |
| including inflation |
| COLA or Ad Hoc COLA: |
| Pre-January 7, 2013 Retirees |
| Post-January 7, 2013 Retirees |

In October 2020, the OPERS Board adopted a change in COLA for Post-January 7, 2013 retirees, changing it from 1.4 percent simple through 2020 then 2.15 simple to .5 percent simple through 2021 then 2.15 percent simple.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic real rates of return were provided by the Board's investment consultant. For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2020, these best estimates are summarized in the following table:

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

| Asset Class | Target Allocation | Weighted Average Long-Term Expected Real Rate of Return (Arithmetic) |
|------------------------|----------------------|-------------------------------------------------------------------------------|
| Fixed Income | 25.00 % | 1.32 % |
| Domestic Equities | 21.00 | 5.64 |
| Real Estate | 10.00 | 5.39 |
| Private Equity | 12.00 | 10.42 |
| International Equities | 23.00 | 7.36 |
| Other investments | 9.00 | 4.75 |
| Total | 100.00 % | 5.43 % |

Discount Rate The discount rate used to measure the total pension liability was 7.2 percent for the traditional plan and the combined plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the traditional pension plan, combined plan and member-directed plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate The following table presents the County's proportionate share of the net pension liability (asset) calculated using the current period discount rate assumption of 7.2 percent, as well as what the County's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (6.2 percent) or one-percentage-point higher (8.2 percent) than the current rate:

Actuarial Assumptions – STRS

Key methods and assumptions used in the June 30, 2021, actuarial valuation compared to those used in the June 30, 2020, actuarial valuation are presented as follows:

| | June 30, 2021 | June 30, 2020 |
|-----------------------------------|---------------------------------------------------------------|---------------------------------------------------------------|
| Inflation | 2.50 percent | 2.50 percent |
| Projected salary increases | 12.50 percent at age 20 to | 12.50 percent at age 20 to |

| Payroll Increases | 3.00 percent | 3.00 percent |
| Cost-of-Living Adjustments (COLA) | 0.0 percent, effective July 1, 2017 | 0.0 percent, effective July 1, 2017 |

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Post-retirement mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2021, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

| Asset Class | Target Allocation | Long-Term Expected Rate of Return * |
|----------------------|-------------------|-------------------------------------|
| Domestic Equity | 28.00 % | 7.35 % |
| International Equity | 23.00 | 7.55 |
| Alternatives | 17.00 | 7.09 |
| Fixed Income | 21.00 | 3.00 |
| Real Estate | 10.00 | 6.00 |
| Liquidity Reserves | 1.00 | 2.25 |
| Total | 100.00 % | |

^{* 10} year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent, but does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total pension liability was 7.00 percent as of June 30, 2021, and was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2021. Therefore, the long-term expected rate of return on pension plan investments of 7.00 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2021.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the County's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00 percent) or one-percentage-point higher (8.00 percent) than the current rate:

Changes Between the Measurement Date and the Reporting date In February 2022, the Board approved changes to demographic measures that will impact the June 30, 2022, actuarial valuation. These demographic measures include retirement, salary increase, disability/termination and mortality assumptions. In March 2022, the STRS Board approved benefit plan changes to take effect on July 1, 2022. These changes include a one-time three percent cost-of-living increase (COLA) to be paid to eligible benefit recipients and the elimination of the age 60 requirement for retirement age and service eligibility that was set to take effect in 2026. The effect on the net pension liability is unknown.

Note 28 – Defined Benefit OPEB Plans

See Note 27 for a description of the net OPEB liability (asset).

Plan Description – Ohio Public Employees Retirement System (OPERS)

The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement (HRA) to qualifying benefit recipients of both the traditional pension and the combined plans. Currently, Medicare-eligible retirees are able to select medical and prescription drug plans from a range of options and may elect optional vision and dental plans. Retirees and eligible dependents enrolled in Medicare Parts A and B have the option to enroll in a Medicare supplemental plan with the assistance of the OPERS Medicare Connector. The OPERS Medicare Connector is a relationship with a vendor selected by OPERS to assist retirees, spouses and dependents with selecting a medical and pharmacy plan. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are deposited into an HRA. For non-Medicare retirees and eligible dependents, OPERS sponsors medical and prescription coverage through a professionally managed self-insured plan. An allowance to offset a portion of the monthly premium is offered to retirees and eligible dependents. The allowance is based on the retiree's years of service and age when they first enrolled in OPERS coverage.

Medicare-eligible retirees who choose to become re-employed or survivors who become employed in an OPERS-covered position are prohibited from participating in an HRA. For this group of retirees, OPERS sponsors secondary coverage through a professionally managed self-insured program. Retirees who enroll in this plan are provided with a monthly allowance to offset a portion of the monthly premium. Medicare-eligible spouses and dependents can also enroll in this plan as long as the retiree is enrolled.

OPERS provides a monthly allowance for health care coverage for eligible retirees and their eligible dependents. The base allowance is determined by OPERS.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The heath care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

Effective January 1, 2022, OPERS will discontinue the group plans currently offered to non-Medicare retirees and reemployed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses. These changes are reflected in the December 31, 2020, measurement date health care valuation.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. Current retirees eligible (or who become eligible prior to January 1, 2022) to participate in the OPERS health care program will continue to be eligible after January 1, 2022. Eligibility requirements will change for those retiring after January 1, 2022, with differing eligibility requirements for Medicare retirees and non-Medicare retirees. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced later for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy – The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2021, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2021, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2021 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The County's contractually required contribution was \$48,428 for 2021. Of this amount, \$804 is reported as an intergovernmental payable.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Plan Description – State Teachers Retirement System (STRS)

The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the year ended December 31, 2021, STRS did not allocate any employer contributions to post-employment health care.

OPEB Assets and Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. For STRS, the net OPEB liability (asset) was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an independent actuarial valuation as of that date. The County's proportion of the net OPEB liability (asset) was based on the County's share of contributions to the respective retirement systems relative to the contributions of all participating entities. The following is information related to the proportionate share and OPEB expense:

\$48,428 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability or an increase to the net OPEB asset in 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Actuarial Assumptions – OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Postretirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Postretirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic rates of return were provided by OPERS investment consultant. For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2019, these best estimates are summarized in the following table:

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

| Asset Class | Target Allocation | Weighted Average Long-Term Expected Real Rate of Return (Arithmetic) |
|------------------------------|----------------------|----------------------------------------------------------------------|
| Fixed Income | 34.00 % | 1.07 % |
| Domestic Equities | 25.00 | 5.64 |
| Real Estate Investment Trust | 7.00 | 6.48 |

| Total | 100.00 % | 4.43 % |

Discount Rate A single discount rate of 6.0 percent was used to measure the OPEB liability on the measurement date of December 31, 2020. A single discount rate of 3.16 percent was used to measure the OPEB liability on the measurement date of December 31, 2019. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 2.00 percent (Fidelity Index's "20-Year Municipal GO AA Index"). The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2120. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2120, the duration of the projection period through which projected health care payments are fully funded.

Sensitivity of the County's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Discount Rate The following table presents the County's proportionate share of the net OPEB liability (asset) calculated using the single discount rate of 6.00 percent, as well as what the County's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (5.00 percent) or one-percentage-point higher (7.00 percent) than the current rate:

| | Current | | |
|----------------------------------------------------------------|---------------------|-----------------------|---------------------|

| County's proportionate share of the net OPEB liability (asset) | (\$1,490,647) | (\$5,994,822) | (\$9,697,616) |

Sensitivity of the County's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability (asset). The following table presents the net OPEB liability (asset) calculated using the assumed trend rates, and the expected net OPEB liability (asset) if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2021 is 8.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health plan cost trend will decrease to a level at, or near,

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

Changes between the Measurement Date and the Reporting Date During 2021, the OPERS Board made various changes to assumptions for the actuarial valuation as of December 31, 2021. The effects of these changes are unknown.

Actuarial Assumptions – STRS

Key methods and assumptions used in the June 30, 2021, actuarial valuation and the June 30, 2020 actuarial valuation are presented as follows:

| | June 30, 2021 | June 30, 2020 |
|----------------------------|---------------------------------------------------------------|---------------------------------------------------------------|
| Projected salary increases | 12.50 percent at age 20 to | 12.50 percent at age 20 to |

| Pre-Medicare | 6.50 percent initial, 4 percent ultimate | 6.50 percent initial, 4 percent ultimate |
| Medicare | 29.98 initial, 4 percent ultimate | 11.87 initial, 4 percent ultimate |

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2021, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

The non-Medicare subsidy percentage was increased effective January 1, 2022 from 2.055 percent to 2.1 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2022. The Medicare Part D Subsidy was updated to reflect it is expected to be negative in CY 2022. The Part B monthly reimbursement elimination date was postponed indefinitely.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 27.

Discount Rate The discount rate used to measure the total OPEB liability was 7.00 percent as of June 30, 2021, and was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2021. Therefore, the long-term expected rate of return on health care plan investments of 7.00 percent was used to measure the total OPEB liability as of June 30, 2021.

Sensitivity of the County's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2021, calculated using the current period discount rate assumption of 7.00 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

| | | Current | |
|----------------------------------------------------|-------------|---------------|-------------|
| | 1% Decrease | Discount Rate | 1% Increase |

| County's proportionate share of the net OPEB asset | (\$250,594) | (\$222,718) | (\$188,249) |

Changes Between the Measurement Date and the Reporting date In February 2022, the Board approved changes to demographic measures that will impact the June 30, 2022, actuarial valuation. The effect on the net OPEB liability is unknown.

Note 29 – Operating Leases

The County, as a lessor, has entered into agreements with the existing tenants of the Courthouse Commons property when the County took possession of the building. The monthly lease payments range from \$900 to \$3,848 over the next two years. The following schedule provides an analysis of the leased property at December 31, 2021:

| | Courthouse |
|--------------------------------------|-------------|
| | Commons |
| | Property |
| Building | \$1,784,293 |
| Less: Accumulated Depreciation | (127,874) |
| Leased Property, net of Depreciation | \$1,656,419 |

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The following is a schedule by years of minimum future rentals on the operating leases as of December 31, 2021:

| | Courthouse |
|------------------------------|------------|
| | Commons |
| | Property |
| 2022 | \$56,412 |
| 2023 | 23,988 |
| Total Minimum Lease Payments | \$80,400 |

Note 30 – Asset Retirement Obligations

The Governmental Accounting Standard Board's (GASB) Statement No. 83, Certain Asset Retirement Obligations, provides guidance related to asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. The Ohio Revised Code Section 6111.44 requires the County to submit any changes to their sewage system to the Ohio EPA for approval. Through this review process, the County would be responsible to address any public safety issues associated with their wastewater treatment facilities. At this time, due to limitations associated with the existing plant's age and building materials within the plant, the engineer consulted would not have a reasonable estimate to calculate a liability for this year.

Note 31 – Medina County Port Authority

Description of the Reporting Entity

Under the authority of the Ohio Revised Code Sections 4582.21 through 4582.59, Medina County, Ohio (the County) has by Resolution of the Board of County Commissioners created the Medina County Port Authority (the Authority), a body corporate and politic duly organized and validly existing under the laws of the State of Ohio. The Authority was established to assist the county of Medina in carrying out its purposes of promoting projects that will provide for the creation of jobs and employment opportunities and improve the economic welfare of the people residing in Medina County, as well as to encourage projects to enhance, foster, aid, provide or promote transportation, economic development, housing, recreation, education, governmental operations, culture or research within the territory served by the Authority. The Authority is a discreetly presented component unit of the County, as defined pursuant to Governmental Accounting Standards and Statement No. 61, *The Financial Reporting Entity – An Amendment of GASB Statements No. 14 and No. 34* and Statement No. 80, *Blending Requirements for Certain Component Units An Amendment of GASB Statement No. 14*. The Authority is governed by nine Board of Director members.

Summary of Significant Accounting Policies

The Medina County Port Authority's financial information is presented on the statement of net position and statement of activities using the full accrual basis of accounting and the economic resources measurement focus. This basis of accounting and measurement focus is described in the County's summary of significant accounting policies. The Authority uses a single enterprise fund to maintain its financial records during the year.

Restricted Cash

Under the 2020 Revenue Refunding Bonds Trust Indentures, the Authority will cause the Bond Reserve Fund to be funded with the proceeds of each of the debt issuances in an amount equal to the Bond Reserve Requirement of the Series 2020 Refunding Bonds, respectively. The Trustee is authorized to draw on the Bond Reserve Fund to the extent necessary to provide moneys sufficient to pay Bond Service Charges on any Interest Payment Date or

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Principal Payment Date, as applicable. The County has agreed, subject to appropriation, to reinstate the Bond Reserve Fund after any draw to pay Bond Service Charges from available non-tax revenues of the County pursuant to a Bond Reserve Fund Non-Tax Revenue Contribution Agreements 2022 Series). As of 2021, the carrying amount of the Bond Reserve Fund (\$871,721) is reported as Restricted Cash on the statement of net position.

Property, Plant, Equipment and Depreciation

Capital assets utilized by the Authority are reported on the statement of net position. All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. In addition, interest costs on financing during construction are capitalized. Donated capital assets are reported at their acquisition value as of the date received. The Authority maintains a capitalization threshold of \$2,500. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Depreciation is computed using the straight-line method over the following useful lives:

Fiber Network 30 Years Equipment 10 Years

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Investments

The Medina County Port Authority follows the same statutory requirements for deposits and investments as the primary government (See Note 6).

Deposits Protection of the Authority's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Cash with County Some monies received by the Authority are held by the County which serves as fiscal agent. At year-end, cash with County totaled \$191,925. The money is held by the County in a pooled account with other County funds and therefore cannot be classified by risk under GASB Statement 40. Any risk associated with the cash of the County as a whole may be obtained from their audit report or by contracting the County Auditor's office directly.

Investments As of June 30, 2021, the Authority investments are in the Morgan Stanley Institutional Liquidity Treasury Security Institute Fund with a measurement value of \$1,440,783. The difference as compared to the carrying value represents outstanding reconciling items cleared in the subsequent year.

Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries; and natural disasters.

Per the Master Service Agreement the Authority shall, at its own expense, obtain and keep in full force and effect at all times for the duration of the Agreement, on an occurrence basis with a carrier or carriers having a Best Rating Service rating of A-/X or better and licensed to do business in the State where the services are to be delivered, insurance policies of the following kinds and in the following amounts, with Customer (as defined in the Master Service Agreement) to be named as an additional insured as its interest may appear:

- (a) Workers' Compensation Insurance in accordance with all applicable laws and regulations applicable to the employees who are engaged in the performance of this Agreement;
- (b) Employer's liability insurance with limits for employer's liability of \$500,000 per accident/occurrence;
- (c) Commercial general liability insurance, covering comprehensive bodily injury and property damage liability insurance, including automobile insurance, contractual liability insurance, and claims for bodily injury, death and property damage, including comprehensive form, premises and operations, independent contractors, products and completed operations, personal injury, and broad form property damage liability coverage, in at least the following amounts:

| Bodily injury to any one person | \$1,000,000 |
|-------------------------------------|-------------|
| Bodily injury aggregate | 1,000,000 |
| Property damage in any one accident | 2,000,000 |
| Property damage aggregate | 2,000,000 |
| Umbrella, or excess liability | 5,000,000 |

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Upon request of Customer, the Authority shall furnish Customer certificates of such insurance, and each policy shall make commercially reasonable efforts to provide that no decrease, non-renewal, or cancellation shall become effective except upon thirty (30) days' prior notice to Customer of such decrease non-renewal, or cancellation. The Authority shall obtain a waiver of rights of subrogation for commercial general liability insurance from its insurer in favor of Customer.

Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Long-Term Obligations

In 2010, the Medina County Port Authority issued a total of \$14,435,000 in revenue bonds. Those bonds were made up of \$5,090,000 Taxable Development Revenue Bonds, Series 2010A (Medina County Fiber Network Project) (Recovery Zone Economic Development Bonds) ("Series 2010A Bonds"), \$7,925,000 Development Revenue Bonds, Series 2010B (Medina County Fiber Network Project) (Recovery Zone Facility Bonds) ("Series 2010B Bonds") and \$1,420,000 Taxable Development Revenue Bonds, Series 2010C (Medina County Fiber Network Project) ("Series 201OC Bonds", and, together with the Series 2010A Bonds and Series 2010B Bonds, "Series 2010 Bonds") were issued under a Trust Indenture dated as of December 1, 2010 (the "Trust Indenture" or the "'Indenture") between the Authority and the Trustee, and resolutions of the Board of Directors of the Authority, including Resolution No. 2010-06 adopted by the Board of Directors on August 17, 2010, as supplemented and amended The Series 2010 Bonds were issued to pay the costs of the acquisition, construction, installation, equipment and development of an approximately 154- mile fiber optic cable network in Medina County, Ohio (the "Project"). The Series 2010 Bonds are secured under the Indenture by certain pledged revenues, including (i) a pledge of certain revenues, including rent paid under one or more leases or use agreements, (ii) a pledge and assignment by the Authority to the Trustee of federal subsidy payments related to the Series 2010A Bonds received by the Authority and (iii) a bond reserve fund established under the Indenture (the "Bond Reserve Fund") into which the Authority will deposit proceeds of the Series 2010 Bonds equal to the maximum annual debt service of the Series 2010 Bonds.

The bonds are made up of the following:

\$5,090,000 Series 2010A Bonds

\$1,370,000 6.750% Term Bonds due December 1, 2020 \$3,720,000 8.000% Term Bonds due December 1, 2030

\$7,925,000 Series 2010B Bonds

\$1,710,000 5.125% Term Bonds due December 1, 2020 \$2,495,000 5.625% Term Bonds due December 1, 2025 \$3,720,000 6.000% Term Bonds due December 1, 2030

\$1,420,000 Series 2010C Bonds

\$1,420,000 5.500% Term Bonds due June 1, 2016

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

In order to enhance the security for the Series 2010 Bonds, and thereby enhance the ability of the Port Authority to issue the Series 2010 Bonds and finance and construct the Project, and thereby aid, promote and enable community and economic development in the County, better and more efficient government operations, the creation and preservation of jobs and employment opportunities within the County and the improvement of the economic welfare of the people of the County and the State, the Port Authority has requested that the County enter into a Bond Reserve Fund Non-Tax Revenue Contribution Agreement to contribute, subject to appropriation, Non-Tax Revenues of the County in an amount sufficient to restore the balance in the Bond Reserve Fund to the Bond Reserve Requirement in the event that the Trustee draws amounts from the Bond Reserve Fund to pay Bond Service Charges on the Series 2010 Bonds when due, all in accordance with this Agreement and Trust Indenture.

The County shall at all times maintain a County Contribution Fund in its annual operating budget as a separate line item supporting the appropriation of funds for paying any amounts and in any year pursuant to this Agreement. The County Contribution Fund shall be used to replenish the Bond Reserve Fund as principal and interest payments are drawn by the Trustee. The County Contribution Fund shall be held and maintained in the custody of the County as a trust fund for the benefit of the Trustee (and the holders of the Series 2010 Bonds) and shall be accounted for separately from all other funds of the County.

Each payment by the County to the Trustee pursuant to this agreement is made for the benefit of the Port Authority in order to satisfy its obligations under the Trust Indenture and shall be deemed to be a loan by the County to the Port Authority for the Project ("County Loan"). The Port Authority hereby agrees to repay each County Loan, with interest at a rate per annum based on the net average cost of funds to the Port Authority on the Series 2010 Bonds provided, however, that (1) such principal and interest shall be payable in accordance with the Trust Indenture solely from Pledged Revenues or, after payment and retirement of all of the Series 2010 Bonds, from any remaining funds held by the Trustee under the Trust Indenture; (2) the payment of such principal and interest shall be subordinated to the payment of Bond Service Charges on the Series 2010 Bonds and the funding of all required reserves under the Trust Indenture; (3) all principal and interest thereon shall be due and payable on June 1, 2031, the first Interest Payment Date following the payment of all scheduled debt service on the Series 2010 Bonds; and (4) in accordance with the Trust Indenture, so long as any County Loan shall be outstanding, the Port Authority shall pay or prepay on or before the fifteenth (15th) day after the December 1 Interest Payment Date all or a portion of the amounts accrued on the County Loans (with all interest to be paid before prepayment of any principal) to the extent there are surplus Pledged Revenues after the funding of all required reserves under the Trust Indenture.

On September 30, 2020, the Medina County Port Authority issued \$9,990,000 of Development Revenue Refunding Bonds, Series 2020A and Recovery Zone Facility Refunding Bonds, Series 2020B. The bonds were issued to refund \$3,865,000 of Taxable Development Revenue Bonds, Series 2010A and \$6,415,000 of Development Revenue Bonds, Series 2010B. The bonds were issued for an eleven year period with final maturity December 31, 2030 and interest rate of 1.69 and 1.71 percent, respectively.

At the date of refunding, \$10,755,970 (including \$765,970 held in the 2010 Series Bond Reserve Fund) was used to pay off old debt. As a result, \$3,865,000 of the Taxable Development Revenue Bonds, Series 2010A and \$6,415,000 of the Development Revenue Bonds, Series 2010B are considered to be defeased. The liability of the bonds was removed from the financial statements at the time of the refunding. The issuance resulted in a difference (savings) between the cash flows required to service the old debt and the cash flows required to service the new debt of \$3,271,802 and resulted in an economic gain of \$2,546,391. The \$10,280,000 of the defeased bonds were called on December 1, 2020.

As of year-end, the total amount contributed by the County is \$5,540,479. Amounts contributed will require repayment at an interest rate of 5.42 percent. Accumulated interest owed at year-end is \$1,323,300.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Changes in long-term obligations of the Authority during the year ended December 31, 2021 consisted of the following:

| | Balance January 1, | | | Balance December 31, | Amount Due In |
|-------------------------|-----------------------|-----------|-----------|-------------------------|------------------|
| Issuance | 2021 | Additions | Deletions | 2021 | One Year |
| Refunding Revenue Bonds | \$9,990,000 | \$0 | \$0 | \$9,990,000 | \$375,000 |
| Loans Payable | 6,639,338 | 224,441 | - 0 | 6,863,779 | 0 |
| Total | \$16,629,338 | \$224,441 | \$0_ | \$16,853,779 | \$375,000 |

The annual requirements to retire debt are as follows:

| | Principal | Interest | Total |
|-----------|-------------|-----------|--------------|
| 2022 | \$375,000 | \$169,173 | \$544,173 |
| 2023 | 1,070,000 | 159,871 | 1,229,871 |
| 2024 | 1,110,000 | 141,374 | 1,251,374 |
| 2025 | 1,145,000 | 122,275 | 1,267,275 |
| 2026 | 1,180,000 | 102,492 | 1,282,492 |
| 2027-2030 | 5,110,000 | 200,301 | 5,310,301 |
| Total | \$9,990,000 | \$895,486 | \$10,885,486 |

As noted above, all accumulated principal and interest amounts owed to the County will be due on June 1, 2031, thus excluded from the table above.

The Authority has pledged future net customer revenue to repay \$9,990,000 in refunding revenue bonds. Current year principal and interest payments, as a percentage of net customer revenues, on all revenue bonds were 24 percent. The total principal and interest remaining to be paid on all revenue bonds is \$10,885,486. Principal and interest paid for the current year and total net available revenue were \$170,694 and \$705,807, respectively.

Operating Leases

Lessee Agreement In July 2014 The Authority entered into a 10 year non-cancelable lease for the use of fiber for operations. For 2020, the Authority incurred a monthly lease payment of \$2,000 per month.

Lessor Agreement The Authority leases 96 of the 144 strands of the fiber network to the Medina County Economic Finance Authority. The cost and accumulated depreciation of these assets are \$6,318,375 and \$1,985,821, respectively.

Conduit Debt Obligations

From time to time, the Port Authority has issued a variety of revenue bonds to provide financial assistance to health care organizations, private-sector entities and other local governments for the acquisition and construction of facilities and roadways deemed to be in the public interest. Servicing these debts is the sole obligation of the entities which received the debt proceeds. Neither the Port Authority, the State, nor any political subdivision thereof, is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

The amounts outstanding as of December 31, 2021 is not readably available; however, will be reported in subsequent years.

Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Note 32 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio's state of emergency ended in June, 2021 while the national state of emergency continues. During 2021, the County received COVID-19 funding. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the County. The impact on the County's future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated. The County's investment portfolio fluctuates with market conditions, and due to market volatility, the amount of gains or losses that will be realized in subsequent periods, if any, cannot be determined.

Changes in Assumptions - OPERS Pension - Traditional Plan

Amounts reported beginning in 2019 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in prior years are presented as follows:

| | 2019 | 2018 and 2017 | 2016 and prior |
|-------------------------------|--------------------------|--------------------------|--------------------------|
| Wage Inflation | 3.25 percent | 3.25 percent | 3.75 percent |

| | then 2.15 percent, simple |
| 2016 and prior | 3.0 percent, simple through 2018 |
| | then 2.80 percent, simple |

Amounts reported beginning in 2017 use pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

Amounts reported for 2016 and prior use mortality rates based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

Notes to the Required Supplementary Information For the year ended December 31, 2021

Changes in Assumptions - OPERS Pension - Combined Plan

For 2021 and 2020, the Combined Plan had the same change in COLA or Ad Hoc COLA for Post-January 2, 2013 retirees as the Traditional Plan. For 2019, the investment rate of return changed from 7.5 percent to 7.2 percent.

Changes in Assumptions – STRS Pension

Amounts reported beginning in 2017 incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in 2016 and prior are presented below:

| _ | 2017 | 2016 and Prior |
|----------------------------|---------------------------------|------------------------------------------|
| Inflation | 2.50 percent | 2.75 percent |
| Projected salary increases | 12.50 percent at age 20 to | 12.25 percent at age 20 to |
| | 2.50 percent at age 65 | 2.75 percent at age 70 |
| Investment Rate of Return | 7.45 percent, net of investment | 7.75 percent, net of investment |
| | expenses, including inflation | expenses, including inflation |
| Payroll Increases | 3 percent | 3.5 percent |
| Cost-of-Living Adjustments | 0.0 percent, | 2 percent simple applied as follows: |
| (COLA) | effective July 1, 2017 | for members retiring before |
| | | August 1, 2013, 2 percent per year; |
| | | for members retiring August 1, ,2013, |
| | | or later, 2 percent COLA commences |
| | | on fifth anniversary of retirement date. |

Beginning in 2021, the investment rate of return was decreased from 7.45 percent to 7.00 percent.

Beginning in 2017, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For 2016 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

For 2021, the discount rate was decreased from 7.45 percent to 7.00 percent.

For 2018, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

Changes in Benefit Terms - OPERS OPEB

On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in 2021.

Changes in Benefit Terms – STRS OPEB

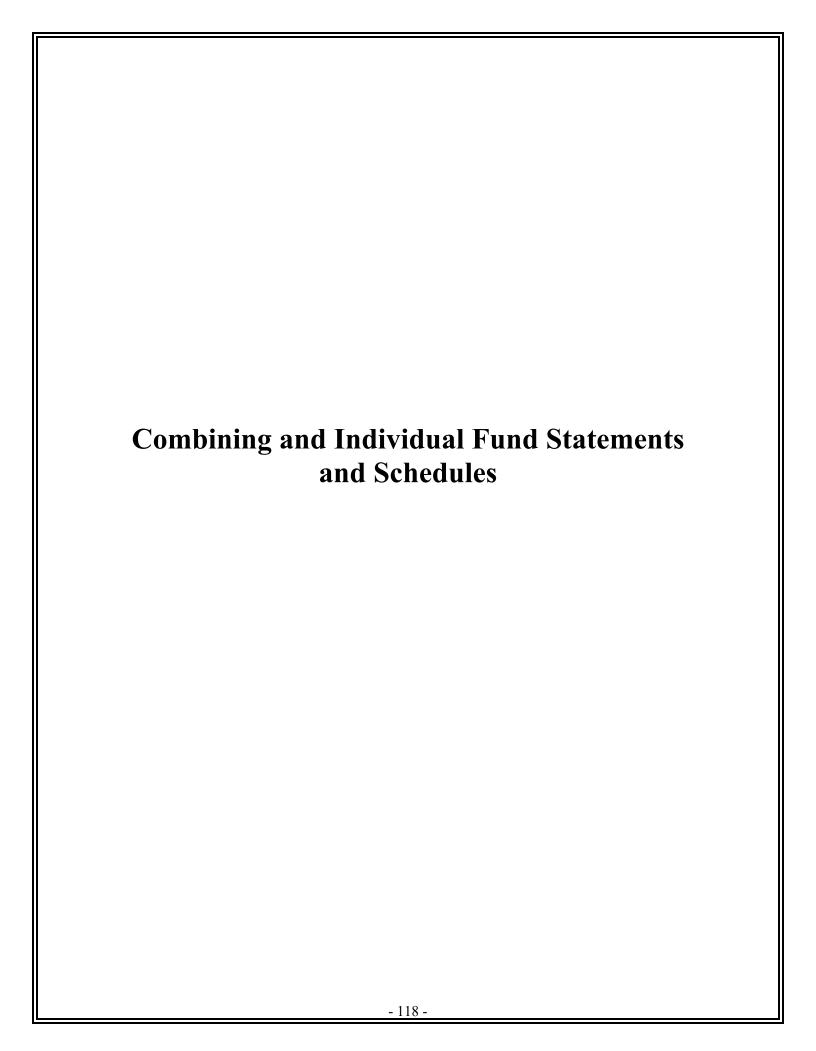

For 2021, the non-Medicare subsidy percentage was increased effective January 1, 2022 from 2.055 percent to 2.1 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2022. The Medicare Part D Subsidy was updated to reflect it is expected to be negative in CY 2022. The Part B monthly reimbursement elimination date was postponed indefinitely.

Notes to the Required Supplementary Information For the year ended December 31, 2021

For 2020, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

For 2019, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020, to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020, from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For 2018, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019, and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

Fund Descriptions – Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. The following are descriptions of the County's nonmajor special revenue funds:

Fund Descriptions – Fiduciary Funds

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and custodial funds. These funds do not account for the County's own source revenue. All County fiduciary funds are custodial.

Custodial Funds

Undivided State Levied Shared Monies Fund – To account for the collection of shared revenues within the State of Ohio that represent a portion of State income taxes, State sales taxes, motor vehicle taxes, and library support fund monies. These monies are collected and distributed for the benefit of other governments.

Undivided Taxes and Special Assessments Fund – To account for the collection of property and related taxes, homestead and rollback, manufactured homes taxes and special assessments collected from real estate owners. These monies are collected and distributed for the benefit of other governments.

County Levied Taxes Fund – To account for the collection and distribution of taxes levied on estates, cigarettes, and lodging within the County for the benefit of other governments.

County Court Fund – To account for various fines and fees collected and distributed through the courts for the benefit of others.

Medina County Health District Fund – To account for revenues and expenses for the benefit of the Health District for which the County serves as fiscal agent.

Medina County Park District Fund – To account for revenues and expenses for the benefit of the Park District for which the County serves as fiscal agent.

Medina County Drug Task Force Fund – To account for forfeited funds for the use by the Medina County Drug Task Force to cover various expenses incurred in drug interdiction operations.

Medina County Family First Council Fund – To account for revenues and expenses for the benefit of the Family First Council for which the County serves as fiscal agent.

Medina County Soil and Water Conservation District Fund – To account for revenues and expenses for the benefit of the Soil and Water Conservation District for which the County serves as fiscal agent.

Medina County Transportation Improvement District Fund – To account for revenues and expenses for the benefit of the Transportation Improvement District for which the County serves as fiscal agent.

Ohio Housing Trust Fund – To account for housing trust fees collected for the benefit of the State of Ohio.

Child Support Enforcement Agency Fund – To account for the collection of alimony and child support payments and the distribution of these monies to the court-designated recipients.

Other Custodial Funds – To account for monies held by the County to be distributed for the benefit of others.

Notes: The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

The County's basic property tax rate may be increased only by a majority vote of the County's residents.

Real property tax rates for voted levies are reduced so that inflationary increases in value do not generate additional taxes.

Overlapping rates are those of local and county governments that apply to property owners within the County.

Debt Service levies are designed to raise a fixed amount of revenue each year. A rate is set each year so that when it is applied to the total assessed value, the fixed amount is generated.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property.

The tangible personal property values associated with each year were the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by a 10 percent and a 2 1/2 percent rollback, and homestead exemptions before being billed.

Note: The County's current reporting system does not track delinquency tax collections by tax year. Outstanding delinquencies are tracked in total by the date the parcel is first certified delinquent. Penalties and interest are applied to the total outstanding delinquent balance. The presentation will be updated as new information becomes available.

- (1) State reimbursement of rollback and homestead exemptions are included.
- (2) Penalties and interest are included, since by Ohio law they become part of the tax obligation as assessment occurs.
