INDEPENDENT AUDITOR'S REPORT

Tuslaw Local School District
Stark County
1835 Manchester Avenue NW
Massillon, Ohio 44647

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Tuslaw Local School District, Stark County, Ohio (the School District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the School District, as of June 30, 2021, and the respective changes in financial position and the budgetary comparison for the General fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during fiscal year 2021, the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. In addition, as discussed in Note 22 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the School District. We did not modify our opinion regarding these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the School District's basic financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 7, 2022, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Tuslaw Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

The discussion and analysis of Tuslaw Local School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the financial statements and notes to those respective statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2021 are as follows:

- The School District sold \$7,765,000 of refunded bonds on September 3, 2020. This transaction refinanced a portion of the School District's bonds that were sold in 2011. The new bonds have a final maturity date of December 1, 2030, and carry an interest rate of 1.35 percent.
- The School District saw property values increase from \$235,303,410 to \$240,825,850 in fiscal year 2021, which is consistent with the prior two years' increases. Seventeen percent of this increase is due to new construction, which has trended up over the last five fiscal years.
- After consultation with community members, on November 9, 2020, the Board of Education passed a resolution that designated 0.38 of a mill of the District's inside millage for permanent improvements. By resolution, the Board of Education also authorized the Treasurer and Stark County Auditor to take action as necessary to raise the operating millage by 0.38 mills back up to the 20 mill floor. This had a neutral impact on property taxes for property owners because of the savings realized from the refunded bonds.
- The District received \$171,463 in COVID-19 related funding to help offset expenses that would be drawn from the general fund.

Using these Basic Financial Statements

This annual report consists of a series of financial statements and notes pertaining to those statements. These statements are organized so the reader can understand the School District as a financial whole, or complete operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* and the *Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate and longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements explain how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the School District, the general fund by far is the most significant fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains all the funds used by the School District to provide programs and activities, the view of the School District as a whole considers all financial transactions and asks the question, "How did we do financially during fiscal year 2021?" The statement of net position and the statement of activities answer this question. These statements include all non-fiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting, similar to the accounting used by most private-sector companies. Accrual accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's performance, demographic and socioeconomic factors and willingness of the community to support the School District.

On the other hand, financial factors may include the School District's financial position, liquidity and solvency, fiscal capacity and risk and exposure.

In the statement of net position and the statement of activities, the School District is classified into governmental activities. All of the School District's non-fiduciary programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, operation of non-instructional services and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 10. Fund financial statements provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions; however, these fund financial statements focus on the School District's most significant funds. The School District's only major governmental fund is the general fund.

Governmental Funds

Most of the School District's activities are reported as governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending in future periods. These funds are reported using an accounting method called *modified accrual accounting*, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

<i>Total Net Position</i>	<u>\$4,618,139</u>	<u>\$4,899,602</u>	<u>(\$281,463)</u>

The net pension liability (NPL) is the largest liability reported by the School District at June 30, 2021. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange; however, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Tuslaw Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained previously, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

Total assets decreased in fiscal year 2021, primarily due to decreases in capital assets as the current year depreciation exceeded the capitalized expenses for the year by \$924,100.

Liabilities decreased in fiscal year 2021. The category primarily responsible for this decrease was due to the retirement and refunding of debt.

The School District's expense per pupil has historically been one of the lowest in the State. The School District has always spent funds cautiously. Due to the unresolved funding issue of the State and the School District continually being required to implement unfunded State and Federal mandates, the School District is reliant upon additional property tax dollars to cover operating costs. The School District's voters passed a 7.0 mill renewal levy which was on the November 2014 ballot. This renewal levy generates approximately \$1.2 million annually for the purpose of current operating expenses.

The vast majority of revenue supporting all governmental activities is general revenue. General revenue totaled \$13,739,805 of the total revenue. The most significant portion of the general revenue is local property tax and State support. The remaining amount of revenue received was in the form of program revenues, which equated to \$3,287,248 of total revenue.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for 2021 and 2020.

Table 2
Changes in Net Position

	Governmental Activities

Governmental Activities

The School District carefully plans its financial existence by forecasting its revenues and expenses for the next five years. The School District has a continuous levy for a total of 7.5 mills, which currently generates an estimated \$974,815 in revenue annually and was renewed during fiscal year 2018. The School District passed a ten year emergency levy in May 2014 that generates approximately \$1.2 million annually. Although the School District relies heavily upon local property taxes to support its operations, the School District does actively solicit and receive additional grant and entitlement funds to help offset some operating costs.

As one can see, approximately 58 percent of the School District's total expenses are instructional expenses. Additional support services for pupils, staff and business operations encompass an additional 32 percent. The remaining amount of program expenses, 10 percent, is to facilitate other obligations of the School District such as the food service program, numerous extracurricular activities, and interest and fiscal charges.

The largest governmental activities expenses are related to instruction, mainly regular instruction. Overall, expenses were in line with the prior fiscal year, with a slight increase of \$18,134.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

The statement of activities shows the total net cost of program services. Table 3 shows the total cost of services for governmental activities and the net cost of those services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3
Governmental Activities

	Total Cost of Services 2021	Net Cost of Services 2021	Total Cost of Services 2020	Net Cost of Services 2020
Governmental Activities:				
Instruction:

Instructional Staff	401,484	(357,128)	369,736	(307,685)
Board of Education	19,480	(17,295)	46,378	(42,793)
Administration	1,327,330	(1,188,279)	1,595,570	(1,416,571)
Fiscal	278,275	(258,770)	296,296	(274,537)
Business	29,390	(27,221)	39,019	(35,935)
Operation and Maintenance of Plant	1,451,901	(1,301,309)	1,556,893	(1,355,794)
Pupil Transportation	882,665	(747,998)	958,902	(805,505)
Central	66,570	(61,656)	52,659	(48,497)
Operation of Non-Instructional Services	586,611	27,426	591,430	(183,713)
Extracurricular Activities	720,000	(509,283)	747,159	(412,515)
Interest and Fiscal Charges	377,588	(377,588)	445,122	(445,122)
Total	\$17,308,516	(\$14,021,268)	\$17,290,382	(\$14,191,936)

As one can see, the reliance upon local tax revenues for governmental activities is crucial. Approximately 43 percent of total revenues are comprised of local property taxes. Grants and entitlements make up another 36 percent while program revenues only account for 19 percent of all governmental revenues. The other 2 percent is generated through investment income and other miscellaneous revenues.

The School District's Funds

Information regarding the School District's major funds can be found beginning on page 16. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had revenues totaling \$16,992,083 and expenditures totaling \$16,829,016. The general fund balance increased by \$298,211 while recognizing an increase in revenue of \$84,919 and a decrease in expenditures of \$241,992 from the prior fiscal year.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant fund to be budgeted is the main operating fund of the School District, the general fund.

The School District uses a site-based style of budgeting and has in place systems that are designed to tightly control disbursements but provide flexibility for site based decision and management.

For the general fund, there was a decrease estimated resources during the fiscal year, which was primarily due to tuition and fees. Actual revenues were higher than final budget basis revenues, primarily due to higher property taxes, intergovernmental, and miscellaneous revenues. The original budget basis expenditures are temporarily appropriated in June and subsequently finalized in September of each year with adjustments, if needed, made at that time. During the fiscal year, the final budget was reduced by approximately \$972,000, which was mainly attributed to the School District anticipating decreased instruction and support services across the board.

The School District's general fund unencumbered ending cash balance totaled \$7,224,521, which was more than the final budgeted amount of \$6,588,495, due to conservative budgeting.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2021, the School District had \$21,947,588 invested in land, land improvements, buildings and improvements, furniture and fixtures, and vehicles, net of accumulated depreciation. All capital assets are reported at historical cost. For more information on capital assets refer to Note 9 of the basic financial statements.

Debt Administration

During fiscal year 2010, \$878,000 in energy conservation bonds were issued for the purpose of purchasing and installing energy conservation measures throughout the School District. This debt will be fully repaid in fiscal year 2025.

The School District sold \$9,404,960 of refunding bonds on November 17, 2011. This transaction refinanced a portion of the School District's bonds that were originally sold in 2002. The new bonds have a final maturity of December 1, 2030, and carry an interest rate of 3.2 percent.

The School District sold \$7,765,000 of refunding bonds on September 3, 2020. This transaction refinanced a portion of the School District's bonds that were originally sold in 2011. The new bonds have a final maturity of December 1, 2030, and carry an interest rate of 1.35 percent.

During fiscal year 2018, the School District entered into a lease-purchase financing in the amount of \$2.5 million for the replacement of the Tuslaw High School roof. This debt will be repaid over a ten-year period with a final payment being made in fiscal year 2028.

The School District's overall debt margin is \$13,156,265 and the unvoted debt margin is \$240,826. For more information on debt, refer to Note 15 of the basic financial statements.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

School District Outlook

The Board of Education and administration closely monitor School District revenues and expenditures in accordance with its financial forecast. The financial future of the School District is faced with challenges, which are both internal and external in nature. The internal challenges are ongoing, as the School District must rely heavily on local property taxes to fund its operations. External challenges continue to evolve as the State of Ohio continues to address revenue shortfalls and adequately funding schools, as well as working out the new funding formula that will go into effect in December of 2021. The COVID-19 pandemic only added to the problems that are faced by the School District, State, and Federal government.

Fluctuations in real and public utility personal property taxes are attributed to changes in market values due to reappraisal and updates. The School District receives real and public utility personal property tax revenues from both Stark and Wayne Counties. Stark County conducted its reappraisal of properties in the County in 2021, which will impact 2022 taxes. Tangible personal property taxes were phased out in fiscal year 2012.

The School District relies heavily on its property taxpayers to support its operations and the community is supportive of school initiatives. The School District's five-year emergency levy, which yields \$1.2 million annually, expired in December 2015. In November 2014, the community renewed this levy, including increasing its term to 10 years; therefore, the levy renewal will continue to be collected beginning in fiscal year 2016 and beyond. The School District's five-year limited levy, which yields \$974,815 annually, expired in December 2018. The voters approved the renewal of this levy in November 2017, and it will continue to be collected beginning in fiscal year 2019 and beyond.

Additional revenue and/or reductions in expenditures will be necessary to avoid negative general fund balances in future years. The School District has communicated to the community that it relies upon their support for the major part of its operations, and will continue to work diligently to plan expenditures, staying carefully within the School District's 5-year financial plan.

The State funding for schools is based on several factors all of which are subject to deliberations and approval of the Ohio General Assembly. School funding was recently established as part of the State's biennial budget for fiscal years 2020 and 2021. State funding for fiscal years 2022 and 2023 requires the Department of Education to pay school districts an amount equal to the district's payments for fiscal year 2019, which provides some stability while continuing to deal with the COVID-19 pandemic. The State of Ohio is phasing in a new Base Cost per Pupil formula that starts with fiscal year 2022 and will be phased in until it is fully implemented in fiscal year 2025. Management is required to plan carefully and prudently to provide adequate resources to meet student needs in the future so these changes are being tracked closely. Additionally, Federal COVID dollars are being utilized to help in covering expenses related to the COVID-19 pandemic.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information contact the Treasurer's Office at Tuslaw Local School District, 1835 Manchester Avenue NW, Massillon, Ohio 44647.

*Reconciliation of Total Governmental Fund Balances to
 Net Position of Governmental Activities
 June 30, 2021*

Total Governmental Fund Balances \$7,887,170

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. 21,947,588

Other long-term assets are not available to pay for current-period expenditures and therefore are unavailable revenue in the funds:

Delinquent Property Taxes	280,464	
Intergovernmental	47,421	
Tuition and Fees	71,556	
<i>Total</i>	399,441	399,441

In the Statement of Activities, interest is accrued on outstanding bonds and notes, whereas in governmental funds, an interest expenditure is reported when due. (16,047)

Long-term liabilities, including bonds and compensated absences payable are not due and payable in the current period:

Energy Conservation Bonds	(263,626)	
General Obligation Bonds	(7,765,000)	
Deferred Gain on Refunding	(161,348)	
Lease-Purchase	(1,827,000)	
Compensated Absences	(1,350,914)	
<i>Total</i>	(11,367,888)	(11,367,888)

The net OPEB asset and net pension and OPEB liabilities are not due and payable in the current period; therefore, the liabilities and related deferred inflows/outflows are not reported in the governmental funds:

Net OPEB Asset	832,426	
Deferred Outflows - Pension	2,616,559	
Deferred Outflows - OPEB	354,807	
Net Pension Liability	(14,832,247)	
Net OPEB Liability	(1,143,748)	
Deferred Inflows - Pension	(396,139)	
Deferred Inflows - OPEB	(1,663,783)	
<i>Total</i>	(14,232,125)	(14,232,125)

Net Position of Governmental Activities \$4,618,139

Tuslaw Local School District
*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2021*

Net Change in Fund Balances - Total Governmental Funds \$245,343

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlay as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period:

Capital Outlay	211,190	
Depreciation	(1,135,290)	
<i>Total</i>		(924,100)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Delinquent Property Taxes	138,498	
Intergovernmental	(109,918)	
Tuition and Fees	6,390	
<i>Total</i>		34,970

Other financing sources in the governmental funds, such as the issuance of general obligation refunding bonds, increase long-term liabilities in the statement of net position. (7,765,000)

Repayment of bond principal, lease purchase, and interest accretion is an expenditure in the governmental funds, but the repayment and accretion reduces long-term liabilities in the statement of net position:

Bond Principal Retirement	480,178	
Lease Purchase	241,000	
Capital Appreciation Bonds Interest	217,357	
Payment to Refunded Bond Escrow Agent	7,682,724	
<i>Total</i>		8,621,259

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:

Bond Accretion	(20,723)	
Amortization of Premium	30,928	
Amortization of Deferred Charge on Refunding	(22,605)	
Accrued Interest	13,743	
<i>Total</i>		1,343

Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. (114,970)

Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows:

Pension	1,108,091	
OPEB	34,768	
<i>Total</i>		1,142,859

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB asset and liabilities are reported as pension/OPEB expense in the statement of activities:

Pension	(1,598,687)	
OPEB	75,520	
<i>Total</i>		(1,523,167)

Changes in Net Position of Governmental Activities (\$281,463)

See accompanying notes to the basic financial statements

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 1 – Description of the School District and Reporting Entity

Tuslaw Local School District (the “School District”) is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by State statute and/or Federal guidelines.

The School District serves an area of approximately forty-four square miles. It is located in Stark and Wayne Counties and includes portions of Lawrence, Tuscarawas, and Perry Townships, and the City of Massillon. It is staffed by 69 classified employees, 85 certified teaching personnel, and 12 administrative employees who provide services to 1,344 students and other community members. The School District currently operates three instructional buildings.

Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Tuslaw Local School District this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization’s governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization’s resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. There are no component units of the Tuslaw Local School District.

The School District is associated with organizations which are defined as jointly governed organizations and public entity risk pools. These organizations include the Stark Portage Area Computer Consortium, Stark County Area Joint Vocational School, Stark County Schools Council of Government and the Ohio School Plan. These organizations are presented in Notes 16 and 17 to the basic financial statements.

Note 2 – Summary of Significant Accounting Policies

The financial statements of Tuslaw Local School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following are the more significant of the School District’s accounting policies.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government. These statements usually distinguish those activities of the School District that are governmental and those that are considered business-type. The School District, however, has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are all governmental.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following is the School District's major governmental fund:

General Fund The general fund is the general operating fund of the School District and is used to account and report for all financial resources except those required to be accounted for or reported in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed, or assigned to a particular purpose.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. “Available” means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 7). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, grants, investment earnings, tuition and fees, and rentals.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for pension and OPEB plans. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 12 and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include deferred gains on refunding, property taxes, pension, OPEB plans and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2021, but which were levied to finance fiscal year 2022 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Deferred gains on refunding represent the difference between the requisition price and the net carrying amount of the School District refunded debt. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, intergovernmental revenue, and tuition and fees. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the reconciliation of total governmental fund balances to net position of governmental activities fund on page 17. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position (see Notes 12 and 13).

Expenditures/Expenses On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Process

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. The Treasurer has been given authority to allocate Board appropriations to the function and object levels within each fund.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original and final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate that was in effect at the time the original and final appropriations were passed by the Board of Education.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The appropriation resolution is subject to amendment by the Board of Education throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during fiscal year 2021.

Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the financial statements.

During fiscal year 2021, the School District invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB) Statement No. 79, "Certain External Investment Pools and Pool Participants." The School District measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For fiscal year 2021, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice is appreciated for deposits and withdrawals of \$100 million or more. STAR Ohio reserves the right to limit the transaction to \$250 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

As authorized by State statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2021 amounted to \$12,375, which includes \$1,380 assigned from other School District funds.

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2021, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which the services are consumed.

Inventory

Inventories are presented at the lower of cost or market value and donated commodities are presented at their entitlement value. Inventories are presented on a first-in, first-out basis and are expended/expensed when used. Inventories consist of materials and supplies held for consumption and donated and purchased food held for resale.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Capital Assets

All capital assets of the School District are classified as general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The School District was able to estimate the historical cost for the initial reporting of capital assets by back trending (i.e., estimating the current replacement cost of the assets to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of two thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets, other than land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land Improvements	20 - 50 Years
Buildings and Improvements	20 - 50 Years
Furniture and Fixtures	5 - 20 Years
Vehicles	8 - 15 Years

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused sick leave and vacation leave benefits when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave benefits is made to the extent that it is probable that benefits will result in termination payments. The liability is based on an estimate of the amount of accumulated sick leave that will be paid as a termination benefit.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds; however, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liabilities should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plans' fiduciary net position are not sufficient for payment of those benefits.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Net Position

Net position represents the difference between all other elements of the statement of net position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the School District Board of Education or a School District official delegated that authority by resolution by State statute. State statute authorizes the Treasurer to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The Board of Education also assigned fund balance for latchkey and public school support.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Internal Activity

Transfers between governmental funds are eliminated on the government-wide financial statements. Internal events that are allocations of overhead expenses from one function to another or within the same function are eliminated on the statement of activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans and unpaid amounts for interfund services provided and used are classified as “interfund receivables/payables.” These amounts are eliminated in the governmental activities columns of the statement of net position.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

Deferred Charge on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources on the statement of net position.

Bond Premium

On the government-wide financial statements, bond premiums are deferred and amortized for the term of the bonds using the straight-line method since the results are not significantly different from the effective interest method. Bond premiums are presented as an increase of the face amount of the bonds payable. On governmental fund statements, bond premiums are received in the year the bonds are issued.

Under Ohio law, premiums on the original issuance of debt are to be deposited to the bond retirement fund to be used for debt retirement and are precluded from being applied to the project fund. Ohio law does allow premiums on refunding debt to be used as part of the payment to the bond escrow agent.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Note 3 – Change in Accounting Principles

For fiscal year 2021, the School District implemented the Governmental Accounting Standards Board’s (GASB) *Implementation Guide No. 2019-1*. These changes were incorporated in the School District’s 2021 financial statements; however, there was no effect on beginning net position/fund balance.

For fiscal year 2021, the School District implemented GASB Statement No. 84, “Fiduciary Activities”. GASB Statement No. 84 established specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the School District will no longer be reporting agency funds. The School District reviewed its agency funds and one fund will be reported in the new fiduciary fund classification of custodial funds while the other fund has been reclassified as a governmental fund. These fund reclassifications resulted in the restatement of the School District’s financial statements.

Restatement of Fund Balance and Net Position

The implementation of GASB Statement No. 84 had the following effect on fund balance as of June 30, 2020:

	General	Other Governmental Funds	Total Governmental Funds
Fund Balance at June 30, 2020	\$6,158,554	\$1,349,730	\$7,508,284
Adjustment:			
GASB 84	9,212	124,331	133,543
Restated Fund Balance at June 30, 2020	\$6,167,766	\$1,474,061	\$7,641,827

The implementation of GASB Statement No. 84, had the following effect on net position as of June 30, 2020:

	Governmental Activities
Net Position at June 30, 2020	\$4,766,059
Adjustment:	
GASB 84	133,543
Restated Net Position at June 30, 2020	\$4,899,602

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The implementation of GASB Statement No. 84 had the following effect on fiduciary net position as of June 30, 2020:

	Fiduciary Funds	
	Scholarships	Agency
Net Position June 30, 2020	\$36,846	\$0
Adjustments:		
Assets	0	(96,697)
Liabilities	0	(96,697)
Net Position	(36,846)	0
Restated Net Position June 30, 2020	\$0	\$0

Note 4 – Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The statement of revenues, expenditures, and changes in fund balance - budget and actual (budget basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and the modified accrual basis of generally accepted accounting principles are that:

1. Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Advances In are operating transactions (budget) as opposed to balance sheet transactions (GAAP).
3. Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
4. Budgetary revenues and expenditures of the latchkey and public school support funds are reclassified to the general fund for GAAP reporting.
5. Encumbrances are treated as expenditures (budget basis) rather than as restricted, committed, or assigned fund balance (GAAP basis).

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statement for the general fund.

<i>GAAP Basis</i>	\$298,211
Net Adjustment for Revenue Accruals	(162,280)
Advances In	13,940
Net Adjustment for Expenditure Accruals	(313,527)
Perspective Differences:	
Latchkey	(9,783)
Public School Support	4,078
Adjustment for Encumbrances	<u>(291,979)</u>
<i>Budget Basis</i>	<u><u>(\$461,340)</u></u>

Note 5 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental fund and all other governmental funds are presented as follows:

Fund Balances	General Fund	Other Governmental Funds	Total
<i>Nonspendable:</i>			
Inventory	\$0	\$7,954	\$7,954
Prepaid Items	20,857	0	20,857
<i>Total Nonspendable</i>	<u>20,857</u>	<u>7,954</u>	<u>28,811</u>
<i>Restricted for:</i>			
Capital Outlay	0	19,067	19,067
Debt Service	0	810,312	810,312
Food Service	0	179,989	179,989
Scholarships	0	22,975	22,975
Facilities Maintenance	0	220,428	220,428
Student Activities	0	85,757	85,757
Athletics and Music	0	72,127	72,127
State Grants	0	15,585	15,585
Federal Grants	0	2,513	2,513
<i>Total Restricted</i>	<u>0</u>	<u>1,428,753</u>	<u>1,428,753</u>
<i>Assigned to:</i>			
Purchases on Order	146,161	0	146,161
Latchkey	31,050	0	31,050
Public School Support	81,897	0	81,897
<i>Total Assigned</i>	<u>259,108</u>	<u>0</u>	<u>259,108</u>
<i>Unassigned (Deficit)</i>	<u>6,186,012</u>	<u>(15,514)</u>	<u>6,170,498</u>
<i>Total Fund Balances</i>	<u><u>\$6,465,977</u></u>	<u><u>\$1,421,193</u></u>	<u><u>\$7,887,170</u></u>

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 6 – Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio); and

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim moneys available for investment at the time of purchase.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Investments As of June 30, 2021, the School District's only investment was STAR Ohio, which is measured at net asset value per share.

Credit Risk State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and that an investment must be purchased with the expectation that it will be held to maturity. The School District has no investment policy that addresses credit risk.

Note 7 – Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2021 represents collections of calendar year 2020 taxes. Real property taxes received in calendar year 2021 were levied after April 1, 2020, on the assessed value listed as of January 1, 2020, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2021 represents collections of calendar year 2020 taxes. Public utility real property taxes received in calendar year 2021 became a lien December 31, 2019, were levied after April 1, 2020, and are collected in calendar year 2021 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Stark and Wayne Counties. The County Auditors periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the counties by June 30, 2021, are available to finance fiscal year 2021 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Accrued property taxes receivable includes delinquent taxes outstanding and real property and public utility property taxes which were measurable as of June 30, 2021, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations and are reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes.

The amount available as an advance at June 30, 2021, was \$133,610 in the general fund, \$17,309 in the debt service fund, and \$1,935 in the permanent improvement fund. The amount available as an advance at June 30, 2020, was \$141,895 in the general fund and \$18,281 in the debt service fund. The difference was in timing and collection by the County Auditors. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

The assessed values upon which the fiscal year 2021 taxes were collected are as follows:

	2020 Second Half Collections		2021 First Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$209,767,280	89.15 %	\$212,974,530	88.44 %
Public Utility Personal	25,536,130	10.85	27,851,320	11.56
Total	\$235,303,410	100.00 %	\$240,825,850	100.00 %
Tax Rate per \$1,000 of Assessed Value	\$62.60		\$62.40	

The School District’s full tax rate decreased from the prior year due the increase in assessed values in order for the emergency levy to collect its fixed amount.

Note 8 – Receivables

Receivables at June 30, 2021, consisted primarily of property taxes, accrued interest and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. All receivables other than delinquent taxes are expected to be collected within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year. A summary of the principal items of intergovernmental receivables follows:

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Governmental Activities	Amounts
Title VI-B	\$109,506
Foundation	\$71,556
Elementary and Secondary School Emergency Relief	64,071
Food Service	57,107
Title I	44,570
Miscellaneous Federal Grants	4,042
Title II-A	3,686
	\$354,538
<i>Total Intergovernmental Receivables</i>	

Note 9 – Capital Assets

Capital asset activity for the fiscal year ended June 30, 2021, was as follows:

	Balance 06/30/20	Additions	Deductions	Balance 06/30/21
<i>Capital Assets not being Depreciated:</i>				
Land	\$438,937	\$0	\$0	\$438,937
Construction in Progress	0	0	0	0
<i>Total Capital Assets not being Depreciated</i>	438,937	0	0	438,937
<i>Capital Assets being Depreciated:</i>

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

* Depreciation expense was charged to governmental activities as follows:

Instruction:	
Regular	\$683,957
Special	50,109
Vocational	3,555
Support Services:	
Pupils	34,223
Instructional Staff	14,135
Administration	46,812
Operation and Maintenance of Plant	57,600
Pupil Transportation	157,718
Operation of Non-Instructional Services	57,229
Extracurricular Activities	29,952
Total Depreciation Expense	<u><u>\$1,135,290</u></u>

Note 10 – Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year 2021, the School District contracted with Leonard Insurance Services for property and fleet coverage and Hylant Administrative Services, LLC through the Ohio School Plan for liability coverage. There has not been a significant reduction in coverage from the prior year and settled claims have not exceeded this commercial coverage in any of the past three years. Coverage type, limits and deductibles are as follows:

<u>Type of Coverage</u>	<u>Coverage</u>	<u>Deductible</u>
Buildings and Contents	\$62,676,461	\$5,000
Inland Marine Coverage	Various	500
Automobile Liability	1,000,000	0
Uninsured Motorists	100,000	0
Medical Payments	5,000	0
Crime - Employee Dishonesty	1,000,000	10,000
Crime - Forgery or Alterations	500,000	5,000
General Liability:		
Per occurrence	4,000,000	0
Aggregate	6,000,000	0
Educational Legal Liability	4,000,000	2,500
Violence	1,000,000	0
Cyber	1,000,000	10,000
Pollution	1,000,000	0

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The School District participates in a worker's compensation program jointly sponsored by the Ohio Association of School Business Officials (OASBO) and the Ohio School Board Association (OSBA), known as SchoolComp. CompManagement, Incorporated (CMI) is the program's third-party administrator. SchoolComp serves to group its members' risks for the purpose of obtaining a favorable experience rating to determine its premium liability to the Ohio Bureau of Workers' Compensation (OBWC) and the Ohio Workers' Compensation Fund. This may be accomplished through participation in a group rating program or through group retrospective rating. The School District has chosen to participate in the group rating program for fiscal year 2021. Participation in SchoolComp is restricted to members who meet enrollment criteria and are jointly in good standing with OASBO and OSBA. OASBO and OSBA are certified sponsors recognized by OBWC.

The School District has contracted with the Stark County Schools Council of Government's Health Benefits Program to provide employee medical/surgical, vision, and dental benefits. Rates are set through an annual calculation process. The School District pays a monthly contribution which is paid in a common fund from which claim payments are made for all participants regardless of claims flow. The board of directors has the right to return monies to an exiting school district subsequent to the settlements of all expenses and claims. The School District pays premiums of \$2,210.89 for family coverage and \$908.22 for single coverage per employee per month.

Note 11 – Employee Benefits

Compensated Absences

The criteria for determining vested vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn 10 to 20 days of vacation per year, depending upon length of service and hours worked. Accumulated unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers and principals do not earn vacation time. Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. There is a limit of 345 days of sick leave that may be accumulated for certified employees and classified employees. Upon retirement employees receive payment for one-fourth of the total sick leave accumulation, up to a maximum accumulation of 73 days.

Life Insurance

The School District provides life insurance and accidental death and dismemberment insurance to most employees. Life insurance is provided through the Stark County Schools Council of Government's Health Benefits Program.

Note 12 – Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

The net pension liability and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions/OPEB are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The net pension/OPEB liability (asset) represent the School District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

The Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide health care to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a *net OPEB asset* or long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 13 for the required OPEB disclosures.

School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first 30 years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. In 2020, the Board of Trustees approved a 0.5 percent cost of living adjustment (COLA) for eligible retirees and beneficiaries in 2021.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2021, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2021, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District’s contractually required contribution to SERS was \$259,733 for fiscal year 2021. Of this amount, \$20,018 is reported as an intergovernmental payable.

State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS’ fiduciary net position. That report can be obtained by writing to STRS, 275 East Broad Street, Columbus, Ohio 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at www.strsoh.org.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be 5 years of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be 5 years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50 and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2021 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2021, the full employer contribution was allocated to pension.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The School District's contractually required contribution to STRS was \$848,358 for fiscal year 2021. Of this amount, \$129,055 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the Net Pension Liability:			
Prior Measurement Date	0.05163080%	0.04671521%	
Current Measurement Date	<u>0.05097790%</u>	<u>0.04736424%</u>	
Change in Proportionate Share	<u>-0.00065290%</u>	<u>0.00064903%</u>	
Proportionate Share of the Net Pension Liability	\$3,371,786	\$11,460,461	\$14,832,247
Pension Expense	\$344,040	\$1,254,647	\$1,598,687

At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between expected and actual experience	\$6,550	\$25,714	\$32,264
Changes of assumptions	0	615,206	615,206
Net difference between projected and actual earnings on pension plan investments	214,040	557,324	771,364
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	0	89,634	89,634
School District contributions subsequent to the measurement date	<u>259,733</u>	<u>848,358</u>	<u>1,108,091</u>
Total Deferred Outflows of Resources	<u>\$480,323</u>	<u>\$2,136,236</u>	<u>\$2,616,559</u>
Deferred Inflows of Resources			
Differences between expected and actual experience	\$0	\$73,282	\$73,282
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	<u>37,625</u>	<u>285,232</u>	<u>322,857</u>
Total Deferred Inflows of Resources	<u>\$37,625</u>	<u>\$358,514</u>	<u>\$396,139</u>

\$1,108,091 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Fiscal Year Ending June 30:	SERS	STRS	Total
2022	(\$29,468)	\$212,094	\$182,626
2023	56,203	143,023	199,226
2024	89,217	298,748	387,965
2025	67,013	275,499	342,512
Total	\$182,965	\$929,364	\$1,112,329

Actuarial Assumptions – SERS

SERS’ total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee’s entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2020, are presented as follows:

Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
COLA or Ad Hoc COLA	2.5 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	2.00 %	1.85 %
US Stocks	22.50	5.75
Non-US Stocks	22.50	6.50
Fixed Income	19.00	2.85
Private Equity	12.00	7.60
Real Assets	17.00	6.60
Multi-Asset Strategies	5.00	6.65
Total	<u>100.00 %</u>	

Discount Rate The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
School District's proportionate share of the net pension liability	\$4,618,935	\$3,371,786	\$2,325,404

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2020, actuarial valuation are presented as follows:

Inflation	2.50 percent
Projected Salary Increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Discount Rate of Return	7.45 percent
Payroll Increases	3 percent
Cost of Living Adjustments (COLA)	0.0 percent, effective July 1, 2017

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2020, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return *</u>
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	<u>100.00 %</u>	

* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent, but do not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Discount Rate The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described previously. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2020.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current rate:

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of the net pension liability	\$16,317,702	\$11,460,461	\$7,344,355

Note 13 – Defined Benefit OPEB Plans

See Note 12 for a description of the net OPEB liability (asset).

School Employees Retirement System (SERS)

Health Care Plan Description – The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides health care benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2021, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2021, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer’s SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2021, the School District’s surcharge obligation was \$34,768.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District’s contractually required contribution to SERS was \$34,768 for fiscal year 2021, which is reported as an intergovernmental payable.

State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians’ fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – The Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for postemployment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2021, STRS did not allocate any employer contributions to postemployment health care.

OPEB Liabilities (Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability (asset) was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the Net OPEB Liability (Asset):			
Prior Measurement Date	0.05246130%	0.04671521%	
Current Measurement Date	<u>0.05262656%</u>	<u>0.04736424%</u>	
 Change in Proportionate Share	 <u>0.00016526%</u>	 <u>0.00064903%</u>	
 Proportionate Share of the:			
Net OPEB Liability	\$1,143,748	\$0	\$1,143,748
Net OPEB (Asset)	\$0	(\$832,426)	(\$832,426)
OPEB Expense	(\$6,245)	(\$69,275)	(\$75,520)

At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between expected and actual experience	\$15,022	\$53,337	\$68,359
Changes of assumptions	194,969	13,741	208,710
Net difference between projected and actual earnings on OPEB plan investments	12,888	29,173	42,061
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	0	909	909
School District contributions subsequent to the measurement date	<u>34,768</u>	<u>0</u>	<u>34,768</u>
Total Deferred Outflows of Resources	<u>\$257,647</u>	<u>\$97,160</u>	<u>\$354,807</u>
 Deferred Inflows of Resources			
Differences between expected and actual experience	\$581,675	\$165,808	\$747,483
Changes of assumptions	28,808	790,664	819,472
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	<u>32,231</u>	<u>64,597</u>	<u>96,828</u>
Total Deferred Inflows of Resources	<u>\$642,714</u>	<u>\$1,021,069</u>	<u>\$1,663,783</u>

\$34,768 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability or an increase to the net OPEB asset in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Tuslaw Local School District

2025	(82,886)	(187,385)	(270,271)
2026	(62,063)	(38,663)	(100,726)
Thereafter	(21,109)	(40,073)	(61,182)
Total	(\$419,835)	(\$923,909)	(\$1,343,744)

Actuarial Assumptions – SERS

The total OPEB liability is determined by SERS’ actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2020, are presented as follows:

Inflation	3.00 percent
Wage Increases	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	2.45 percent
Prior Measurement Date	3.13 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation:	
Measurement Date	2.63 percent
Prior Measurement Date	3.22 percent
Medical Trend Assumption:	
Medicare	5.25 to 4.75 percent
Pre-Medicare	7.00 to 4.75 percent

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan (see Note 12).

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2020 was 2.63 percent. The discount rate used to measure total OPEB liability at June 30, 2019, was 3.22 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024, and the Fidelity General Obligation 20-year Municipal Bond Index rate of 2.45 percent, as of June 30, 2020 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the School District's proportionate share of the net OPEB liability for SERS and what the School District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.63 percent) and higher (3.63 percent) than the current discount rate (2.63 percent). Also shown is what the School District's proportionate share of the net OPEB liability would be based on health care cost trend rates that are one percentage point lower (6.00 percent decreasing to 3.75 percent) and higher (8.00 percent decreasing to 5.75 percent) than the current rate.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

	1% Decrease (1.63%)	Current Discount Rate (2.63%)	1% Increase (3.63%)
School District's proportionate share of the net OPEB liability	\$1,399,918	\$1,143,748	\$940,092

	1% Decrease (6.00 % decreasing to 3.75%)	Current Trend Rate (7.00 % decreasing to 4.75%)	1% Increase (8.00 % decreasing to 5.75%)
School District's proportionate share of the net OPEB liability	\$900,614	\$1,143,748	\$1,468,879

Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2020, actuarial valuation are presented as follows:

Projected Salary Increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3 percent
Discount Rate of Return	7.45 percent
Health Care Cost Trends:	
Medical:	
Pre-Medicare	5.00 percent initial, 4 percent ultimate
Medicare	-6.69 percent initial, 4 percent ultimate
Prescription Drug:	
Pre-Medicare	6.50 percent initial, 4 percent ultimate
Medicare	11.87 percent initial, 4 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2020, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan (see Note 12).

Discount Rate The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2020.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the School District's proportionate share of the net OPEB asset as of June 30, 2020, calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the School District's proportionate share of the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of the net OPEB asset	(\$724,265)	(\$832,426)	(\$924,197)
	1% Decrease	Current Trend Rate	1% Increase
School District's proportionate share of the net OPEB asset	(\$918,500)	(\$832,426)	(\$727,574)

Note 14 – Contingencies

Grants

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds; however, in the opinion of management, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2021, if applicable, cannot be determined at this time.

School Foundation

In fiscal year 2021, School District foundation funding was based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. The final adjustment was not material and is not reflected in the accompanying financial statements.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Litigation

The School District is not a party to legal proceedings that, in the opinion of management, would have a material adverse effect on the financial statements.

Note 15 – Long-Term Obligations

Changes in long-term obligations of the School District during fiscal year 2021 were as follows:

	Balance 6/30/20	Additions	Deductions	Refunded	Balance 6/30/21	Amounts Due in One Year
<i>HB 264 Qualified School Construction Bonds:</i>						
\$878,000 6.15% Energy Conservation Bonds	\$326,161	\$0	\$62,535	\$0	\$263,626	\$63,856
<i>2012 OSFC High School Bonds (#1 Refunding):</i>						
\$9,235,000, 3.2% Serial Bonds	8,140,000	0	375,000	7,765,000	0	0
\$169,960, 21.15% Capital Appreciation Bonds	42,643	0	42,643	0	0	0
Accretion on Capital Appreciation Bonds	196,634	20,723	217,357	0	0	0
Premium	324,745	0	30,928	293,817	0	0
<i>Total 2012 OSFC High School Bonds</i>	<u>8,704,022</u>	<u>20,723</u>	<u>665,928</u>	<u>8,058,817</u>	<u>0</u>	<u>0</u>
<i>2021 General Obligation Refunding Bonds:</i>						
\$7,765,000, 1.35% Term Bonds	0	7,765,000	0	0	7,765,000	708,000
<i>2018 Lease-Purchase</i>	<u>2,068,000</u>	<u>0</u>	<u>241,000</u>	<u>0</u>	<u>1,827,000</u>	<u>251,000</u>
<i>Compensated Absences</i>	<u>1,235,944</u>	<u>196,638</u>	<u>81,668</u>	<u>0</u>	<u>1,350,914</u>	<u>140,842</u>
<i>Net Pension Liability:</i>						
SERS	3,089,162	282,624	0	0	3,371,786	0
STRS	10,330,788	1,129,673	0	0	11,460,461	0
<i>Total Net Pension Liability</i>	<u>13,419,950</u>	<u>1,412,297</u>	<u>0</u>	<u>0</u>	<u>14,832,247</u>	<u>0</u>
<i>Net OPEB Liability:</i>						
SERS	1,319,293	0	175,545	0	1,143,748	0
<i>Total Governmental Activities Long-Term Liabilities</i>	<u>\$27,073,370</u>	<u>\$9,394,658</u>	<u>\$1,226,676</u>	<u>\$8,058,817</u>	<u>\$27,182,535</u>	<u>\$1,163,698</u>

Compensated absences payments are paid from the general fund and food service, student wellness, elementary and secondary school emergency relief, title VI-B, and title I special revenue funds. There is no repayment schedule for the net pension liability and net OPEB liability; however, employer pension and OPEB contributions are made from the general fund and food service, student wellness, elementary and secondary school emergency relief, title VI-B, and title I special revenue funds. For additional information related to the net pension liability and net OPEB liability, see Notes 12 and 13.

During fiscal year 2010, \$878,000 in energy conservation bonds were issued for the purpose of purchasing and installing energy conservation measures throughout the School District. This debt will be fully repaid in fiscal year 2025.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

During fiscal year 2012, the School District issued \$9,404,960 in general obligation bonds to refund a portion of the Ohio School Facilities Commission general obligation bonds in order to take advantage of lower interest rates. The bonds included serial and capital appreciation (deep discount) bonds in the amount of \$9,235,000 and \$169,960, respectively. The bonds were issued for a nineteen year period with a final maturity at December 1, 2030. The accretion recorded for 2021 was \$20,723.

The bonds were sold at a premium of \$590,211. Net proceeds of \$9,836,375 were placed in an irrevocable trust with an escrow agent to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the School District's financial statements. On June 30, 2021, \$7,830,000 of the defeased bonds are still outstanding.

During fiscal year 2021, the School District issued general obligation refunding bonds, in the amount of \$7,765,000, to refund the 2012 general obligation refunding bonds in order to take advantage of lower interest rates. The bonds were issued with an interest rate of 1.35 percent. The bonds were issued for a 10 year period with a final maturity on December 1, 2030. The bonds will be retired through the general obligation bond retirement fund. Net proceeds of \$7,682,724 were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments on the refunded bonds. As a result, \$7,765,000 of these bonds was considered defeased and the liability for the refunded bonds has been removed from the School District's financial statements. As of June 30, 2021, \$7,765,000 of the defeased bonds remain outstanding. The refunding resulted in a total debt service savings of \$843,065. The School District also incurred an economic gain (difference between the present values of the old and new debt service payments) of \$782,128 and incurred a difference on refunding of \$161,348 (difference between amount paid to bond escrow agent and the refunding amount), that will be amortized over the shorter of the life of the refunded bonds or the refunding bonds, which is shown in the following table:

Refunded Bonds:	
<i>General Obligation Bonds:</i>	
\$9,235,000, 3.2% Serial Bonds	\$7,765,000
Premium	293,817
Accounting Loss	<u>(214,745)</u>
Total Refunded Bonds	7,844,072
Amount Paid to Refunded Bond Escrow Agent	<u>(7,682,724)</u>
2021 Refunding Difference	<u><u>\$161,348</u></u>

Mandatory Sinking Fund Redemption The 2021 general obligation refunding term bonds maturing on December 1, 2030, are subject to mandatory sinking fund redemption at a redemption price of 100 percent of the principal amount to be redeemed, plus accrued interest to the date of redemption, on December 1 of the years and in the respective principal amounts as follows:

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

<u>Year (December 1)</u>	<u>Principal Amount to be Redeemed</u>
2021	\$708,000
2022	744,000
2023	754,000
2024	762,000
2025	775,000
2026	786,000
2027	791,000
2028	804,000
2029	815,000

The remaining principal amount of the bond (\$826,000) will mature at stated maturity on December 1, 2030.

During fiscal year 2018, the School District entered into a lease-purchase financing in the amount of \$2.5 million for the replacement of the Tuslaw High School roof. As of June 30, 2021, \$322,184 of the proceeds were unspent and transferred to the debt service fund for future debt payments. This debt will be repaid over a ten-year period with a final payment being made in fiscal year 2028.

The School District's overall debt margin is \$13,156,265 and the unvoted debt margin is \$240,826. The following is a summary of the School District's future annual principal and interest requirements to retire the general obligation bonds:

<i>Fiscal Year</i> <i>Ending June 30,</i>	<i>2011 Energy Construction Bonds</i>		<i>2021 Refunding Bonds</i>		<i>2018 Lease-Purchase</i>	
	<i>Principal</i>	<i>Interest</i>	<i>Principal</i>	<i>Interest</i>	<i>Principal</i>	<i>Interest</i>
2022	\$63,856	\$5,203	\$708,000	\$100,049	\$251,000	\$74,482
2023	65,203	3,855	744,000	90,248	261,000	61,216
2024	66,580	2,477	754,000	80,136	272,000	50,524
2025	67,987	1,072	762,000	69,903	283,000	39,407
2026	0	0	775,000	59,528	295,000	27,824
2027-2031	0	0	4,022,000	137,146	465,000	18,954
<i>Total</i>	\$263,626	\$12,607	\$7,765,000	\$537,010	\$1,827,000	\$272,407

Note 16 – Jointly Governed Organizations

Stark Portage Area Computer Consortium

Stark-Portage Area Computer Consortium (SPARCC) is a jointly governed organization among 30 School Districts. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. Each of the governments of these schools supports SPARCC based on a per pupil charge. SPARCC is governed by a board consisting of superintendents from all participating school districts. This board has the responsibility to study, review and approve SPARCC's annual budget and ascertain that costs are divided equally among participating school districts. During fiscal year 2021, the School District paid \$77,718 to SPARCC for services rendered. Financial information can be obtained by contacting the Treasurer at the Stark County Educational Service Center, which serves as fiscal agent, located at 6057 Strip Avenue NW, North Canton, Ohio 44720.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Stark County Area Joint Vocational School

The Stark County Area Joint Vocational School is a distinct political subdivision of the State of Ohio operated under the direction of a seven member Board, consisting of one representative from each of the six participating school district's elected boards and one board member that rotates from each participating school district. The Stark County Area Joint Vocational School possesses its own budgeting and taxing authority. The Stark County Area Joint Vocational School provides vocational instruction to students of participating districts. To obtain financial information write to the Stark County Area Joint Vocational School, 2800 Richville Drive, S.E., Massillon, Ohio 44646.

Note 17 – Public Entity Risk Pools

Stark County Schools Council of Government

The Stark County Schools Council of Government (Council) is a shared risk pool which is governed by an assembly which consists of one representative from each participating member. The assembly elects officers for one year terms to serve as the Board of Directors. The assembly exercises control over the operation of the Council. All Council revenues are generated from charges for services. The Council has a Health Benefits Program which is a shared risk pool.

Ohio School Plan

The Ohio School Plan (Plan) is a shared liability, property and fleet insurance risk pool which is governed by a board of thirteen school superintendents, business managers and treasurers. OSBA, BASA and OASBO executive directors serve as ex-officio members. Approximately 280 educational entities are members of the Plan. The Plan's board elects officers for two year terms to serve as the Board of Directors. The assembly exercises control over the operation of the Plan. All Plan revenues are generated from charges for services. For more information write to the Ohio School Plan, Hylant Administrative Services, 811 Madison Avenue, Toledo, Ohio 43604.

Note 18 – Set-Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements.

The following cash basis information describes the set aside amount for capital acquisition. Disclosure of this information is required by State statute.

	Capital Acquisition
<i>Set-Aside Reserve Balance as of June 30, 2020</i>	\$0
Current Year Set-Aside Requirement	247,036
Qualifying Disbursements	(304,865)
<i>Total</i>	(\$57,829)
<i>Set-Aside Balance Carried Forward to Future Years</i>	\$0
<i>Set-Aside Reserve Balance as of June 30, 2021</i>	\$0

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Although the School District had qualifying disbursements and offsets during the fiscal year that reduced the capital acquisition set-aside amounts below zero, these extra amounts will not be used to reduce the set-aside requirements of future years. The negative amounts will not be presented as being carried forward to the next fiscal year.

Note 19 – Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year-end, the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

General Fund	\$291,979
Other Governmental Funds	94,741

Total	\$386,720

Note 20 – Interfund Activity

Interfund Balances

Interfund balances at June 30, 2021, consisted of the following:

	Interfund Balances	
	June 30, 2021	
	Receivables	Payables
<i>Governmental Activities:</i>		
General	\$98,084	\$0
<i>Special Revenue:</i>		
ESSER	0	52,900
Title VI-B	0	32,478
Title I	0	12,188
Title II-A	0	518
<i>Total Special Revenue</i>	0	98,084
<i>Total Governmental Activities</i>	\$98,084	\$98,084

The advances from the general fund to the special revenue funds were made to support the activities of those funds due to the timing of grant collections. The balances are anticipated to be repaid within one year.

Interfund Transfers

Transfers of \$379,909 were made from the building capital projects fund to the bond retirement debt service fund to cover debt obligations of the School District.

Tuslaw Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 21 – Deficit Fund Balances

Fund balances at June 30, 2021, included the following individual fund deficits:

Nonmajor Funds	Deficit
Elementary and Secondary School Emergency Relief	(\$11,171)
Miscellaneous Federal Grants	(4,343)

These deficits are the result of the recognition of payables in accordance with generally accepted accounting principles as well as short-term interfund loans from the general fund needed for operations until the receipt of grant monies. The general fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

Note 22 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio’s state of emergency ended in June of 2021 while the national state of emergency continues. During fiscal year 2021, the School District received Coronavirus Aid, Relief, and Economic Security (CARES) Act funding. The School District’s investment portfolio and the investments of the pension and other employee benefit plans in which the School District participates fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the School District’s future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated. Additional funding has been made available through the Consolidated Appropriations Act, 2021, passed by Congress on December 21, 2020 and/or the American Rescue Plan Act, passed by Congress on March 11, 2021.

Note 23 – Subsequent Event

For fiscal year 2022, School District foundation funding received from the state of Ohio will be funded using a direct funding model. Under this new model, community school, STEM school, scholarship, and open enrollment funding will be directly funded by the State of Ohio to the respective educating schools. For fiscal year 2021 and prior, the amounts related to students who were residents of the School District were funded to the School District who, in turn, made the payment to the educating school. For fiscal year 2021, the School District reported \$890,814 in revenue and expenditures/expense related to these programs. Also during fiscal year 2021, the school district reported \$759,819 in tuition and fees from the resident school districts which will be direct funded to the School District as the educating entity in fiscal year 2022. This new funding system calculates a unique base cost and a unique “per-pupil local capacity amount” for each School District. The School District’s state core foundation funding is then calculated. Any change in funding will be subject to a phase in percentage of 16.67 percent for fiscal year 2022 and 33.33 percent for fiscal year 2023.

Net Pension Liability

Changes in Assumptions – SERS

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc COLA. Prior to 2018, an assumption of 3 percent was used.

Beginning with fiscal year 2017, amounts reported incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. These assumptions compared with those used in fiscal year 2016 and prior are presented as follows:

	<u>Beginning in Fiscal Year 2017</u>	<u>Fiscal Year 2016 and Prior</u>
Wage Inflation	3.00 percent	3.25 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent	4.00 percent to 22.00 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation	7.75 percent net of investments expense, including inflation

Beginning with fiscal year 2017, mortality assumptions use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

Changes in Assumptions – STRS

Beginning with fiscal year 2018, amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2017 and prior are presented as follows:

	<u>Beginning in Fiscal Year 2018</u>	<u>Fiscal Year 2017 and Prior</u>
Inflation	2.50 percent	2.75 percent
Projected Salary Increases	12.50 percent at age 20 to 2.50 percent at age 65	12.25 percent at age 20 to 2.75 percent at age 70
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation	7.75 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3.5 percent
Cost of Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

Tuslaw Local School District
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2021

Beginning with fiscal year 2018, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022 – Scale AA) for males and females. Males’ ages are set back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set-back from age 80 through 89, and no set-back from age 90 and above.

Net OPEB Liability (Asset)

Changes in Assumptions – SERS

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented as follows:

Municipal Bond Index Rate:	
Fiscal year 2021	2.45 percent
Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Fiscal year 2021	2.63 percent
Fiscal year 2020	3.22 percent
Fiscal year 2019	3.70 percent
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent

Changes in Assumptions – STRS

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB *Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45 percent.

Tuslaw Local School District
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2021

Changes in Benefit Terms – STRS

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For fiscal year 2021, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

**TUSLAW LOCAL SCHOOL DISTRICT
STARK COUNTY**

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE YEAR ENDED JUNE 30, 2021**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Tuslaw Local School District (the School District) under programs of the federal government for the year ended June 30, 2021. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position or changes in net position of the School District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The School District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

NOTE E – FOOD DONATION PROGRAM

The School District reports commodities consumed on the Schedule at the entitlement value. The School District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Tuslaw Local School District
Stark County
1835 Manchester Avenue NW
Massillon, Ohio 44647

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Tuslaw Local School District, Stark County, (the School District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated June 7, 2022, wherein we noted the School District adopted new accounting guidance in Governmental Accounting Standards Board Statement No. 84, *Fiduciary Activities*. We also noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the School District.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Tuslaw Local School District
Stark County
1835 Manchester Avenue NW
Massillon, Ohio 44647

To the Board of Education:

Report on Compliance for Each Major Federal Programs

We have audited Tuslaw Local School District's (the School District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect Tuslaw Local School District's major federal programs for the year ended June 30, 2021. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the School District's major federal programs.

Management's Responsibility

The School District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the School District's compliance for the School District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the School District's major programs. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on the Major Federal Program

In our opinion, Tuslaw Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
