LUCAS COUNTY

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE YEAR ENDED DECEMBER 31, 2022**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Lucas County, Ohio (the County) under programs of the federal government for the year ended December 31, 2022. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The County has elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D – SUBRECIPIENTS

The County passes certain federal awards received from U.S. Department of Agriculture, U.S. Department of Labor, U.S. Department of Justice, U.S. Department of Treasury, U.S. Department of Education and U.S. Department of Health and Human Services to other governments or not-for-profit agencies (subrecipients). As Note B describes the County reports expenditures of Federal awards to subrecipients when paid in cash.

As a pass-through entity, the County has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award’s performance goals.

NOTE E – MATCHING REQUIREMENTS

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

NOTE F – CHILD NUTRITION CLUSTER

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

NOTE G – TRANSFERS BETWEEN FEDERAL PROGRAMS

During fiscal year 2022, the County made allowable transfers of \$2,737,456 from the Temporary Assistance for Needy Families (TANF) (93.558) program to the Social Services Block Grant (SSBG) (93.667) program. The Schedule shows the County spent approximately \$15,796,580 on the TANF program. The amount reported for the TANF program on the Schedule excludes the amount transferred to the SSBG program. The amount transferred to the SSBG program is included as SSBG expenditures when disbursed. The following table shows the gross amount drawn for the TANF program during fiscal year 2022 and the amount transferred to the SSBG program.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Lucas County
One Government Center, Suite 600
Toledo, Ohio 43604

To the Board of County Commissioners:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Lucas County, Ohio (the County) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated May 31, 2023. Our report includes a reference to other auditors who audited the financial statements of Lucas County Land Reutilization Corporation, and Lucas County Transportation Improvement District, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. Our report also includes a reference to other auditors who audited the financial statements of Toledo Mud Hens Baseball Club, Inc., Preferred Properties, Inc. and Affiliates, and Toledo Arena Sports, Inc. as described in our report on the County's financial statements. The financial statements of Toledo Mud Hens Baseball Club, Inc., Preferred Properties, Inc. and Affiliates, and Toledo Arena Sports, Inc. were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or compliance and other matters associated with Toledo Mud Hens Baseball Club, Inc., Preferred Properties, Inc. and Affiliates, and Toledo Arena Sports, Inc. or that are reported on separately by those auditors who audited the financial statements of Toledo Mud Hens Baseball Club, Inc., Preferred Properties, Inc. and Affiliates, and Toledo Arena Sports, Inc.. We also noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the County.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Lucas County
One Government Center, Suite 600
Toledo, Ohio 43604

To the Board of County Commissioners:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Lucas County, Ohio's (County) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of Lucas County's major federal programs for the year ended December 31, 2022. Lucas County's major federal programs are identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings.

In our opinion, Lucas County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

The County's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely-presented component units, each major fund and the aggregate remaining fund information of Lucas County, Ohio (County) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our unmodified report thereon dated May 31, 2023. Our report refers to other auditors whom audited the financial statements of the Toledo Mud Hens Baseball Club, Inc., Preferred Properties, Inc. and Affiliates, Toledo Arena Sports, Inc., Lucas County Land Reutilization Corporation, and Lucas County Transportation Improvement District, discretely presented component units, as described in our report of the County's financial statements. Our Opinion also noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the County. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

LUCAS COUNTY BOARD OF COMMISSIONERS AND CITIZENS OF LUCAS COUNTY

As Auditor of Lucas County, I am pleased to present the Annual Comprehensive Financial Report (ACFR) for the fiscal year ended December 31, 2022.

This report contains basic financial statements, management's discussion and analysis, supplemental financial statements, and other financial and statistical information which provide a complete and full disclosure of all financial aspects material to Lucas County. This ACFR conforms to Generally Accepted Accounting Principles (GAAP) generally accepted in the United States of America as set forth by the Governmental Accounting Standards Board (GASB).

Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including, all disclosures, lies with the management of the County, and in particular, the Office of the Lucas County Auditor. In fulfilling this responsibility, the Lucas County Auditor's Office has prepared the accompanying financial statements, schedules, and tables. We believe this data fairly reflects the financial position of the County and the results of its operations.

This transmittal letter should be read in conjunction with the *Management's Discussion and Analysis*, which provides a narrative introduction, overview, and analysis of the basic financial statements.

THE COUNTY

Lucas County was formed by an Act of the Ohio General Assembly on June 20, 1835, in honor of then Governor of Ohio, Robert Lucas. Lucas County's elected three-member Board of County Commissioners functions as both the legislative and executive branch of the County. Each Commissioner serves a term of four years. In addition to the County Auditor, who serves as Chief Fiscal Officer, there are seven elected administrative officials, each of which operates independently as set forth by Ohio law. These officials are: Clerk of Courts, Coroner, Engineer, Prosecutor, Recorder, Sheriff, and Treasurer. All of these officials serve four-year terms. The following judges are elected on a county-wide basis to oversee the County's judicial system: Common Pleas Court, Domestic Relations Court, Juvenile Court, Probate Court, and Court of Appeals. Judges are elected to six-year terms.

REPORTING ENTITY AND SERVICES

All governmental departments, agencies, institutions, commissions, public authorities, and other governmental organizations for which the County has significant financial accountability, are included in this ACFR for financial reporting purposes. Financial accountability is determined by the County's ability to appoint a voting majority of the Board, or financial interdependence.

The County provides general governmental services to its citizens, to include: public and health assistance, community related services, civil and criminal justice systems, road and bridge maintenance, sewer and waterline construction and maintenance, and other general legislative and administrative support services. The County also operates and maintains the water supply and wastewater treatment systems. A further discussion of the reporting entity and its services may be found in Note 2 of the Notes to the Basic Financial Statements.

ECONOMIC CONDITION AND OUTLOOK

Located on the western coast of Lake Erie, Lucas County is strategically situated in the important trade area comprised of 16 counties in Northwest Ohio and Southeast Michigan and is populated with nearly 1.5 million people. Lucas County is in the Toledo Metropolitan Statistical Area (MSA) and is advantageously located in the Midwest at key highways, railways, and waterways. Our country's most-traveled interstates – I-80/90 and I-75 – are located within the Lucas County to provide a key transportation connector to more than 93 million people in a one-day drive.

Though the county's economy has been historically associated with the glass, automotive, and manufacturing industries, it has become increasingly diversified, especially in the solar and alternative energy sectors, transportation and logistics, and medical services. Lucas County is home to the global corporate headquarters of Owens Corning, a Fortune 500 company specializing in building products; Dana, Inc.; Libbey LLC, and ProMedica, a healthcare system, which functions as the largest employer in the region. The headquarters of Owens-Illinois, a leading glass productions manufacturer, is located within metro Toledo. In addition, Stellantis (formerly Fiat Chrysler Automobiles) and General Motors (GM) continue to support the regional economy with manufacturing facilities in Lucas County.

Site Selection Magazine, a leading publication in the economic development industry, again recognized the Toledo MSA, comprised of Lucas, Wood, and Ottawa counties, for its robust performance in development. As part of its annual Governor's Cup Awards, the magazine ranked the region in the top ten for mid-size markets for development activity in 2022. The Toledo MSA attracted over \$1.4 billion in capital investment for projects leading to the creation and retention of over 1,200 jobs. This accomplishment contributed to the remarkable ranking of the State of Ohio, which placed second for the number of new projects in 2022.

The success of any local economy relies on regional cooperation that transcends county and governmental borders to reveal particular regional competitive advantages. To enhance our global competitiveness, Lucas County joined Wood and Ottawa counties in 2020 to update to the Comprehensive Economic Development Strategy (CEDS) for our region, which was initially passed in 2014. The Toledo Region CEDS provides our community with an effective means to coordinate infrastructure, workforce, business, and other capital investments and policies into a regional vision and plan of action, whereby projects, activities, and decisions are prioritized and integrated to maximize economic development outcomes. Significant strides toward achievement of the objectives were included in the CEDS. Convened by the Bowling Green State University Center for Regional Development, the new CEDS was adopted in 2021.

Hensville, a \$19 million mixed-use entertainment district that opened in spring of 2016, continues to provide additional shopping, dining, and a concert venue, adding to the downtown Toledo area's growing desirability and renaissance as a place to live, work, and play. This private-public partnership complements the nearby Huntington Center and Fifth Third Field, which together attract an estimated one million visitors to downtown annually. To bolster tourism and convention travel to the region, Lucas County redeveloped the former SeaGate Convention Centre, and rebranded it in 2022 to the Glass City Center, which was expanded with a state-of-the-art 16,000-square-foot ballroom that can be divided into three separate rooms. The county also collaborated with private partners to renovate the former Park Inn Hotel, which opened in 2022 as the new Hilton Garden Inn and Homewood Suites, a double-brand, 309-room hotel adjacent to the convention center. These investments will support the flourishing regional tourism industry, which accounts for more than \$2 billion annually in spending in the local economy.

In 2020, the downtown Imagination Station, a science center oriented to the community's youth, completed a major expansion. This upgrade, an \$11 million investment, features a new 300-seat, 8,200-square-foot KeyBank Discovery IMAX Theater. These assets further enhance the ability of our region to attract conventions, concerts, fundraising events, exhibitions, and sporting events, which strengthen the ability of other Lucas County destinations, such as the Toledo Zoo and Aquarium and the Toledo Museum of Art, to draw more visitors to the community.

The international success of the Jeep brand's vehicle lineup and longstanding history in the Toledo region has fueled the wildly successful Toledo Jeep Fest, a genuine tourist event that continues to build momentum every year since its inception in 2017. In 2022, the festival brought more than 70,000 people from 39 states as well as Canada, Mexico, and the Netherlands to our community, delivering an estimated \$5 million in economic activity.

In addition to increasing entertainment options, Toledo's Central Business District has seen a tremendous boon in investment. In 2021, the City of Toledo completed the redesign of Summit Street to create a pedestrian-friendly corridor with wider landscaped medians, slower traffic, more curbside parking, bump-outs for outdoor dining, and brick-faced crosswalks. In one city block alone, over \$140 million in renovations and redevelopment projects have been completed. In the block west of Summit Street, is the newly renovated Levis Square Park, which hosts the weekly "Lunch at Levis" during the summer, featuring food trucks, music, and other entertainment.

Interest in downtown attractions and a growing number of employers and businesses has led to a surge in the demand for market-rate housing and commercial space in the downtown area. Two historic early 20th century warehouses have been converted into market-rate apartments and the 28-story Tower on the Maumee – the former Owens Corning headquarters – has been refurbished into 105 residential apartments. The street-level space beneath the four-story parking garage of the Tower on the Maumee was redeveloped into a mixed use of retail and dining space that includes the successful Toledo-born Asian-fusion style restaurant, Balance Pan-Asian Grille, and its state-of-the-art aquaponics farm, a fitness facility, and a credit union branch. Opened in 2019, Balance Farms' 8,100-square-foot aquaponics farm furnishes the restaurant chain's five locations with fresh vegetables and sells surplus quantities to area grocery stores. Additional market-rate apartments are currently in development, signaling continued robust demand.

These investments spurred other downtown redevelopment, including the \$70 million renovation of Fort Industry Square into nearly 100 market-rate apartments and commercial and retail space. Located across from the Hilton Garden Inn and Homewood Suites, the refurbished 125-year-old, one-block structure began leasing in 2021. Also in downtown Toledo, ProMedica is partnering with Bitwise Industries, a California-based technology company, to redevelop the long dormant Jefferson Center into the headquarters for Bitwise Toledo. Built in 1911 as Toledo's central post office and placed on the National Register of Historic places in 1972, the Jefferson Center building will become an innovation center and technology hub. The addition of Bitwise will not only introduce a technology-based business to the commercial landscape in our community, but it will create over 300 new jobs and provide workforce development opportunities for residents where they can acquire new skills in a high-demand industry.

The appeal of the urban lifestyle has spurred new development across the Maumee River on the city's east side as well. The long-awaited Marina Lofts project, which broke ground in spring of 2019, is fully leased. The \$70 million residential and commercial project along the Maumee River is complemented by the first phase of the newly opened Glass City Metropark, which includes an event center for public use. Phase 2 of the project, set to open in spring 2023, will include a 1,000-foot long ice-skating ribbon that converts to a children's water splash area for kids in the summer, three nature-themed playgrounds, a plaza, and all-purpose trails for walking and biking. The first leg of the new Riverwalk construction will also begin in the spring of 2023, and a campground is expected to open in 2024.

Automotive manufacturing remains a steadfast industry in Lucas County. Stellantis expanded production of the next generation Jeep Wrangler model in 2017 to substantial fanfare. Consistent robust demand for the sports-utility vehicle spurred the addition of a diesel version in 2020 and a plug-in gasoline-electric hybrid in 2021. Stellantis also renovated and retooled a portion of the Toledo Assembly Complex to produce the highly anticipated Jeep Gladiator, the first pickup truck for the iconic brand since 1992, which was named the North American Truck of the Year at the North American International Auto Show in Detroit in 2020. With the continuing strength in the demand for the Wrangler and the addition of the Gladiator, Stellantis continues to add workers at the Toledo Assembly Complex. Stellantis also acquired the former Textileather brownfield adjacent to its Toledo North Assembly Plant, investing \$23 million for the construction of a 300,000-square-foot addition to the facility to respond to the robust demand for Wrangler and Gladiator customization.

The global appeal of these vehicles has created opportunities for several tier-one auto suppliers to operate their own facilities in Lucas County, adding to the overall regional workforce. In addition to the Dana Inc. and Detroit Manufacturing Systems plants that have employed over 400 people at the Overland Industrial Park since 2017, HP Pelzer Automotive Systems, Inc. opened a new facility in Oregon, OH with a total fixed asset investment of over \$39 million. Pelzer, an engineer and manufacturer of acoustic and thermal components for the automotive systems, opened in 2020, employing 79 full-time individuals.

Though the healthcare and automotive industries are fundamental to the local economy, the community has taken great strides toward diversification. In east Toledo, Cliffs Natural Resources Inc. located its first hot briquetted iron production plant at the Ironville Terminal. This project added 160 permanent jobs and represents a \$700 million investment in the Toledo Region. In South Toledo, a \$25 million investment transformed a brownfield site of a former mall into an Amazon distribution facility, employing 400 people.

The robust economic growth in Lucas County has led to shrinking availability of “Class A” industrial space. To remedy this problem, private investors and the county have collaborated with the Regional Growth Partnership and JobsOhio to develop industrial land adjacent to the Toledo Express Airport in western Lucas County. Land-Air, LLC invested \$7 million to redevelop over 200 acres and add a speculative building with a private slip onto the Ohio Turnpike at the Land-Air Industrial Park in Swanton Township. JobsOhio provided a \$750,000 grant and a \$2 million loan for construction of infrastructure to the site. Clarios, a manufacturer of automotive batteries, leased the 107,000-square-foot pre-cast concrete “Class A” space in the industrial park and now stores and distributes its products to customers throughout the United States through the facility. In 2022, another 113,000-square-foot building broke ground at the site that will serve as a manufacturing and distribution facility supporting 230 full-time jobs.

MAJOR COUNTY INITIATIVES

Lucas County continues to provide a variety of services required to meet the needs of its constituents in the most cost-effective and efficient manner possible. The following activities have led to significant economic progress and have been made possible by Lucas County residents and their government:

- Launched in 2014, the WorkReady Lucas County initiative utilizes a comprehensive assessment called WorkKeys to measure the skills of the region’s workforce. In September 2018, the program reached a major milestone, earning the status as a Certified Work Ready Community for Lucas County. The designation was issued by ACT Inc., the company widely known for their college readiness assessments. The certification illustrates not only the quality of workers in the region, but support for a skilled workforce from hundreds of area businesses. WorkReady Lucas County quantifies and improves the skill levels of the local workforce through a standardized skill credential that measures, identifies, and closes skills gaps between job seekers and available employment opportunities in the region. Participants in the program earn the ACT National Career Readiness Certificate (NCRC), a stackable and transferrable credential used by job seekers to demonstrate their job skills to employers across the United States. Upon becoming certified, the County entered the maintenance phase of the process and by the end of 2020, Lucas County achieved 92 percent of the maintenance goals with nearly 6,000 people earning their NCRC certification despite a halt to testing due to COVID-19. Nevertheless, 339 businesses remain in support of a skilled and certified workforce.
- In response to the COVID-19 pandemic, Congress enacted the American Rescue Plan Act (ARPA), which was signed into law on March 11, 2021. A key feature of ARPA was the inclusion of State and Local Fiscal Recovery Funds (SLFRF). The SLFRF program provided an infusion of funds directly to state, territorial, local, and Tribal governments to facilitate a robust recovery from the public health and economic impacts of the public health emergency. With its allocation, Lucas County has made strategic investments in diverse initiatives including vaccination programs, pre-kindergarten early learning services, and support for the tourism and hospitality industry. Lucas County has also made substantial investments in badly needed affordable housing projects throughout the county, including family, senior, and permanent supportive housing developments.
- In 2023, Lucas County will begin construction on a new facility to house the operations of Canine Care and Control. Located in uptown Toledo, the new structure will occupy more than 33,000 square feet, replacing the 22,000 square foot facility the department currently inhabits. The new state-of-the-art, ventilated building will provide indoor kennel space to accommodate at least 140 dogs and will provide multiple outdoor play areas for the enrichment of the dogs.
- Lucas County is in the architectural and design phase of a planned new Lucas County Detention Center. The approximately 217,000 square foot new facility is anticipated to have 430 beds and will offer increased security and operational savings to taxpayers.
- In August, 2022, the Lucas County Commissioners joined construction partners and business and community leaders to celebrate the grand opening of the renovated Glass City Center and brand-new ballroom in downtown Toledo. The ballroom is 16,000 square feet, can seat over 900 people for events, and includes a large outdoor terrace overlooking Monroe Street with sweeping views of Fifth Third Field and the Hensville entertainment district.

The 75,000-square-foot exhibit hall on the main floor of the center has been refreshed with new lighting and paint, and conference rooms on the upper floors have been renovated with new lighting, carpeting, paint, and wireless capabilities. In partnership with The Arts Commission, the Commissioners integrated \$1.5 million in art throughout the new Glass City Center, building upon our communities' strong tradition of art in public places.

The convention center connects to the newly renovated Hilton Garden Inn and Homewood Suites, another public-private partnership spearheaded by the Lucas County Commissioners as part of Toledo's continued revitalization. The project added more than 300 luxury accommodations to the downtown. Combined with the Renaissance hotel just a few blocks down the street, Toledo now has over 550 first-class hotel rooms to support the flourishing regional tourism industry, which already contributes \$2 billion annually to the local economy. The hotel features a new restaurant, NAPA Kitchen + Bar Toledo, and a new "Pocket Park" located at the corner of Jefferson and Summit features an attractive green space and public art installation.

This entire development is within walking distance of many cultural and entertainment attractions, including a revitalized Promenade Park, Huntington Center, Fifth Third Field, Hensville, and the newly expanded Imagination Station, offering stunning views of the Maumee River and all of downtown. Both projects significantly enhance the Lucas County Convention and Visitors Bureau's ability to attract events and visitors to the region and compete with convention centers in similar sized Midwest markets

- In 2019, the Board of County Commissioners facilitated the study and vote to merge and consolidate 911 services in Lucas County. Consolidation of these services from six primary public safety answering points to a singular entity provides a safer, more effective, and more efficient countywide system. Consolidation ensures residents receive a standardized service that meets or exceeds industry best practices no matter where the 9-1-1 call originates in Lucas County. Additionally, consolidation is projected to result in a \$5.2 million, or 34 percent, reduction of 911 operational costs countywide, including \$1.8 million in direct savings for the County's General Fund.
- The Lucas County Commissioners are steadfast in their advocacy for the health of Lake Erie, which is critical not only as a primary source of fresh, potable water for the entire region, but also as an economic development driver. It offers a large source of fresh water to industry and serves as a tourism and hospitality destination for the entire coastline. For nearly a decade, the lake has suffered toxic algae outbreaks nearly every summer as a result of phosphorus runoff into the Maumee watershed.

In April 2019, the Commissioners joined the Chicago-based Environmental Law & Policy Center as co-plaintiffs in a federal lawsuit filed against the U.S. Environmental Protection Agency to force the Ohio EPA to comply with the Clean Water Act and seek solutions to reduce agriculture pollution entering Lake Erie. The lawsuit forced the Ohio EPA to develop a Total Maximum Daily Load (TMDL) plan for the watershed. Under the terms in a proposed consent decree to settle the lawsuit, a June 30, 2023 deadline has been set for the Ohio EPA to finalize the TMDL, which will then be submitted to the U.S. EPA for approval.

- In September 2021, The Lucas County Commissioners cut the ribbon to their new Shared Services Building at 3737 W. Sylvania Ave., keeping a promise to consolidate essential social services and workforce development offerings under one roof. The Lucas County Economic Development Corp. acquired the former Medical Mutual of Ohio complex in West Toledo in 2020 and redesigned and remodeled the space to house Lucas County Job and Family Services, the county Child Support Enforcement Agency, OhioMeansJobs Lucas County, and the county's Planning and Development Department. It also serves as the new home for the Lucas County Board of Elections and the Early Vote Center, providing additional convenience to county residents.

The new Shared Services Building features a bright lobby staffed with people who can help clients access the services they need. There's a resource room for teens and adults to use computers to look for jobs or participate in workforce development programs, as well as a phone bank for people to use to check the status of their cases. The Toledo Area Regional Transit Authority also ensured direct service to 3737 Sylvania Ave. through routes 2 and 19 so clients can easily access the new hub.

ACCOUNTING SYSTEM

The County's day-to-day accounting records are maintained on a basis other than GAAP. For financial reporting purposes, the accounting records for all governmental funds are converted to the modified accrual basis, whereby revenues are recognized, when measurable and available within the business cycle (within 60 days after year end), and expenditures are recognized when the related fund liability is incurred. The accounting records for the proprietary funds and government-wide financial statements are converted to the accrual basis, whereby revenues are recognized when measurable and earned, and expenses are recognized as incurred.

A further discussion of the three methods of accounting (non-GAAP, modified accrual, and accrual) and a reconciliation of budget basis to GAAP basis of accounting may be found in Notes 2 and 13, respectively, of the *Notes to the Basic Financial Statements*.

BUDGETARY CONTROLS

Under Ohio law, the Lucas County Board of Commissioners must adopt an appropriations budget by January 1 of each year, or adopt a temporary appropriation measure with final passage of a permanent budget by April 1. No expenditure can be made from any budgetary account without the Certificate of the County Auditor certifying that funds are available or in the process of collection. When a purchase order is issued or a contract is entered into by any County department or agency, the County Auditor encumbers the necessary funds to pay for the expenditure. Contracts or purchase orders are invalid under Ohio law if sufficient funds are not available to permit the County Auditor to certify the transaction. A further discussion of the budgetary accounting system and its controls may be found in Note 2 of the *Notes to the Basic Financial Statements*.

The County Auditor makes monthly financial reports available to the Board of Commissioners and to all departments and agencies, indicating the monthly and year-to-date expenditures, encumbrances, and cash balances, as well as unencumbered balances by fund, department and account.

LONG-TERM FINANCIAL PLANNING AND THE DISTINGUISHED BUDGET PRESENTATION AWARD

Lucas County is committed to maintaining a strong fiscal environment. To achieve this end, it is the policy of the Board of County Commissioners to maintain a minimum of 15% of the available general fund revenue as an unappropriated cash reserve. This reserve is designated as a budget stabilization tool to assist in alleviating financial stress in the event of an economic downturn and to promote a favorable bond rating for the County. In 2022, the County's uninsured outstanding general obligation bonds were rated "Aa2" by Moody's Investors Service, and "AA" by Standard & Poor's Rating Services. The County maintains significant leeway within the direct debt limitation for additional general obligation debt.

The Lucas County Office of Management and Budget prepares a five-year budget and plan, for which it has received a Distinguished Budget Presentation Award from the Government Finance Officers Association (GFOA) for the last twenty-three years (2000—2022). The Distinguished Budget Presentation Award is valid for a period of one year. The County believes that the current budget presentation meets GFOA guidelines and continues to submit its budget to the GFOA to determine current eligibility for this award. The County's budget presentation is located online at www.co.lucas.oh.us/omb.

The County also prepares a Capital Improvements Plan, a flexible document that is used to prioritize, rank, and determine the annual allocation of available capital improvement funds. Rankings may move up or down within the plan, based on changing needs, assessments, and additional project information. It is the policy of the Board of County Commissioners to allocate 8% of estimated general fund revenue for capital improvement projects annually, while also to maintain an 8% unappropriated capital improvement reserve for unanticipated capital needs.

INTERNAL CONTROL

The management of the County is responsible for establishing and maintaining internal control, designed to provide reasonable, but not absolute assurance that the assets of the County are protected from loss, theft, or misuse. Management also ensures that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The design of the internal control also recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the County is responsible for ensuring not only that adequate internal controls are in place, but also that the County has complied with applicable laws and regulations related to those programs. This internal control is subject to periodic evaluation by management.

INDEPENDENT AUDIT

As part of the annual preparation of a Annual Comprehensive Financial Report, the County conducts an annual independent audit of its basic financial statements. Based in part on observations of the independent auditors, the County continually strengthens the accounting, budgetary, and internal control of its financial and operational systems. The Ohio Auditor of State's office audited the financial statements of the County. The unmodified opinion of the Ohio Auditor of State with respect to the basic financial statements of the County as of and for the year ended December 31, 2022 is included on pages 11 - 14 of this report.

EXCELLENCE IN FINANCIAL REPORTING

The County prepared its first ACFR in 1984 in accordance with the program guidelines for the Certificate of Achievement for Excellence in Financial Reporting (the Certificate), awarded by the GFOA. Each annual report must also satisfy GAAP and disclose applicable legal compliance requirements. The County has been awarded the Certificate for 38 straight years, 1984-2021. The Certificate is valid for a period of one year. We believe that our current report continues to conform to the stringent guidelines and requirements of the program, and the County continues to submit a ACFR to the GFOA to determine its current eligibility.

The County also prepares a Popular Annual Financial Report (PAFR) in accordance with GFOA guidelines. The County has been awarded a GFOA certificate for its PAFR for 24 straight years, 1997-2020. The PAFR Certificate is valid for a period of one year, and the County believes that the current PAFR meets GFOA guidelines and is submitting it to the GFOA to determine current eligibility for this award.

Both of the financial reports on the previous page can be located on the County's Auditor's website at: www.co.lucas.oh.us/auditor under the "Finance" button.

ACKNOWLEDGMENTS

This report is the result of the continued cooperation and combined services of the elected officials and management of Lucas County. I would specifically like to thank the Lucas County Commissioners for insight into the *Economic Outlook* and *County Initiatives* portion of this transmittal. Finally, I would like to express special appreciation for members of my staff who have exercised exceptional proficiency and dedication instrumental in the arduous task of issuing a publication of this magnitude and significance:

Finance Department: *Tony Stechschulte and Ellen Lauderman*

Public Information Department: *Ryan Reiter and Valerie White*

Your continued interest in and support of this vital financial reporting function is much appreciated.

A photograph of the Libbey Glass Co. Pavilion for the World's Columbian Exposition of 1893 in Chicago, Illinois (aka the Chicago World's Fair). The architect of the pavilion was David L. Stine, a well known Toledo architect. The pavilion included a working glass factory with a 10-pot furnace and could hold up to 2,000 people. Edward Drummond Libbey secured exclusive rights to be the only American glass firm represented at the Exposition by agreeing to build the fully operational glass factory, at which 40 glass blowers from the Toledo glass plant worked to create glassware on location. By the end of the 6 month Exposition, over 2 million people entered the Libbey Glass Co. Pavilion and an estimated 20 box cars worth of glass had sold, plus extensive national media attention had been focused on the Libbey Glass Co., helping to secure the reputation of the company for decades to come. INDEPENDENT AUDITOR'S REPORT

Lucas County
One Government Center, Suite 600
Toledo, Ohio 43604

To the Board of County Commissioners:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Lucas County, Ohio (the County), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of December 31, 2022, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General, Mental Health and Recovery, Children Services Board, Board of Developmental Disabilities, and American Rescue Plan funds for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Toledo Mud Hens Baseball Club, Inc., Preferred Properties, Inc. and Affiliates, Toledo Arena Sports, Inc., Lucas County Land Reutilization Corporation, and Lucas County Transportation Improvement District, which represent 49 percent, 71 percent, and 77 percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units as of December 31, 2022, and the respective changes in financial position, thereof for the year then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Toledo Mud Hens Baseball Club, Inc., Preferred Properties, Inc. and Affiliates, Toledo Arena Sports, Inc., Lucas County Land Reutilization Corporation, and Lucas County Transportation Improvement District, is based solely on the report of other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of Toledo Mud Hens Baseball Club, Inc., Preferred Properties, Inc. and Affiliates, and Toledo Arena Sports, Inc., were not audited in accordance with Government Auditing Standards.

Emphasis of Matter

As discussed in Note 22 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the County. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis* and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors, as applicable, have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The financial section's combining statements, individual fund statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the financial section's combining statements, individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 31, 2023, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Local Union No. 81, of the A. F. G. W. U.

THE first union of glassworkers was organized in Toledo, Aug. 20, 1888. The members forming the new local came to Toledo to accept positions in the blowing department of the Libbey Glass Works. The majority of the men had been employed by the Libbey Company at their former location, Boston, Mass., for a number of years. A number also came from various parts of the country, all being furnished with transfer cards from the local union under whose jurisdiction they had formerly worked. The organization of a local union is merely a matter of form, as the most of the workmen in the glass industry are members of the union, there being but few exceptions. A meeting of the workmen is called, at which officers and committees are elected, when the cards of each workman, if properly signed and sealed, are accepted. None are allowed or permitted to work, except apprentices, unless presenting a regulation card. The first president of L. U. No. 81 was Mr. M. J. Owens, afterwards promoted to the position of foreman of the blowing department, but now having charge of that department at the World's Fair. Mr. D. J. Crowley was selected to look after the financial affairs of the local, and succeeded himself in that position a number of terms as financial secretary. Mr. Crowley has, with the exception of a few terms, ably filled the position until the past few months. When M. J. Owens was transferred to Chicago, Mr. Crowley was requested to accept the position of foreman and did so. The fact of the Libbey Glass Company selecting the most prominent union men to act as foremen demonstrates that a workman can become a zealous union advocate and still retain the respect and good-will of his employers. The members of No. 81 included all the journeymen in the blowing department and mould-making department also. Shortly after the organization of No. 81 the members became interested in the affairs of the other trades throughout the city, and elected delegates to the Central Labor Union. Prominent among the delegates at that time were Mr. Thomas Manion and J. J. Lorden. Mr. Manion has since retired from the glass business, but still retains his membership in No. 81. J. J. Lorden became a very enthusiastic worker in the interests of unionism, and was twice elected to serve as presiding officer of the Central Labor Union. Mr. Lorden also creditably filled the position of president of No. 81 more than one term. Mr. M. B. McCarthy filled the position of recording and corresponding secretary of No. 81 for several terms; was also a delegate to the Central Labor Union and was elected as recording secretary of that body; served as president of No. 81 also. Mr. McCarthy is the president of the Central Labor Union at the present time. Local Union No. 81 have had no serious trouble since their organization, all difficulties having been amicably adjusted between the factory committee and the company. A sick benefit of six dollars per week is paid to members when sick or disabled.

A union pamphlet from approximately 1894 which briefly details the history of many unions in the Toledo area, including the American Flint Glass Workers' Union (AFGWU). This pamphlet was likely distributed at a multi-union gathering. The first glassworkers union was organized in Toledo on August 20, 1888 to organize Libbey Glass Works. MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (UNAUDITED)

The management's discussion and analysis of the financial performance of Lucas County, Ohio (the "County") provides an overall review of the County's financial activities for the year ended December 31, 2022. The intent of this discussion and analysis is to look at the County's financial performance as a whole. Readers should also review the transmittal letter and the basic financial statements to enhance their understanding of the County's financial performance.

Financial Highlights

Key financial highlights for 2022 are as follows:

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the year ended December 31, 2022, by \$665,253 thousand (net position).
- The County's total net position increased by \$128,082 thousand or 23.84%, from December 31, 2021.
- At the end of the current year, the County's governmental funds reported a combined ending fund balance of \$396,366 thousand, an increase of \$53,685 thousand from the prior year. Of this amount, \$47,826 thousand is available for spending on behalf of its citizens.
- At the end of the current year, the unassigned fund balance for the General Fund was \$48,505 thousand. This amount represents 33.36% of total general fund expenditures in 2022.
- The County's total long-term liabilities (including bonds and loans) decreased by \$32,928 thousand, primarily due to the decrease of the County's net pension liability. The County's net pension/OPEB liability/asset is discussed in Note 11 and Note 12, respectively, and the net pension is reported in Note 10.

Overview of the Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Lucas County as a financial whole or as an entire operating entity. The statements also provide an increasingly detailed look at specific financial conditions.

The County's basic financial statements are comprised of three components: 1) County-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. In addition to the basic financial statements, this report also contains statistical information that may assist in evaluating the County's demographics and potential economic activity.

Component units, legally separate organizations for which the County is financially accountable, are discretely presented for the Toledo Mud Hens Baseball Club, Inc., Lucas County Land Reutilization Corporation, Lucas County Transportation Improvement District, Preferred Properties, Inc. and Affiliates, Toledo Arena Sports, Inc., Toledo-Lucas County Convention and Visitors Bureau, and Lucas County Economic Development Corporation. Separate statements are prepared for each of these component units. To obtain copies of their statements, refer to Note 2.A of this document.

County-Wide Financial Statements

The County-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

LUCAS COUNTY, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (UNAUDITED)

Statement of Net Position and the Statement of Activities

The statement of net position presents information on all of the County's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, with the difference between these reported as net position. The statement of activities presents information showing how the County's net position changed during the current year. These statements include all assets and deferred outflows of resources and liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by private sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when the cash is received or paid. These two statements report the County's net position and the change in that position. The change in net position is important because it tells the reader whether, for the County as a whole, the financial position of the County has improved or diminished. However, in evaluating the overall position of the County, non-financial information such as changes in the County's tax base and the condition of County capital assets will also need to be evaluated.

In the statement of net position and the statement of activities, the County is divided into three kinds of activities:

- **Governmental Activities** - Most of the County's services are reported in this category including public safety, social services programs, administration, and all departments with the exception of the Water, Sewer and Wastewater Treatment funds.
- **Business-type Activities** - These services have a charge based upon the amount of usage. The County charges fees to recoup the cost of the entire operation of its Water, Sewer and Wastewater Treatment Plants, as well as all capital expenses associated with these facilities.
- **Component Units** - The County includes financial data of the various discretely presented component units. The County's component units are detailed on the previous page. The component units are separate and may buy, sell, lease, and mortgage property in their own names and can sue or be sued in their own names. More information on the component units, including contact information on how to obtain access to their individual financial statements, can be found in Note 2.A to the Basic Financial Statements.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objects. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Fund financial statements provide detailed information about the County's major funds. Based on restriction on the use of monies, the County has established many funds which account for the multitude of services provided to County residents. However, these fund financial statements focus on the County's most significant funds. In the case of Lucas County, the major funds are the General Fund, Mental Health and Recovery Fund, Children Services Board Fund, Board of Developmental Disabilities Fund, American Rescue Plan Fund, Debt Service Fund, Capital Improvements Fund, Water Supply System Fund, Sewer System Fund, and Wastewater Treatment Fund.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating government's near-term financing requirements.

LUCAS COUNTY, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (UNAUDITED)

Because the focus of governmental funds is narrower than the County-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopts an annual appropriated budget for all funds requiring a legally adopted budget. The basic financial statements present budgetary comparison statements for the General Fund and the major special revenue funds.

Proprietary Funds: The County maintains two different types of proprietary funds: enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its water supply, sewer and wastewater treatment operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its self-insurance programs, vehicle maintenance, telecommunications, central supplies, and workers' compensation programs. Because these services predominantly benefit governmental rather than business-type functions, they have primarily been included with governmental activities in the County-wide financial statements.

Fiduciary Funds: Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The County's fiduciary funds are custodial funds.

Component Units: The County has seven discretely presented component units as described in Note 2.A to the financial statements.

Notes to the Basic Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the County-wide and fund financial statements.

Required Supplementary Information (RSI): The RSI contains information regarding the County's proportionate share of the Ohio Public Employees Retirement System's (OPERS) net pension liability/net pension asset and net OPEB liability/asset and the County's schedule of contributions to OPERS for pension and OPEB.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements and schedules.

County-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a County's financial position. The County's assets plus deferred outflows of resources exceeded liabilities plus deferred inflows of resources by \$665,253 thousand (\$547,163 thousand in governmental activities and \$118,090 thousand in business-type activities) as of December 31, 2022. This is an increase of \$122,398 thousand or 28.82% for governmental activities and an increase of \$5,684 thousand, or 5.06%, for business-type activities.

The table below provides a summary of the County's net position at December 31, 2022 and 2021. Certain amounts for 2021 have been restated as described in Note 3.A.

The County's current and other assets increased \$32,933 thousand. This change is primarily due to an increase in the County's net OPEB asset, which is outside of the County's control. The County makes its required contributions to the pension systems. Additionally, the County entered into a \$5 million naming rights agreement with Promedica to name the downtown convention center.

Capital assets, net increased as capital assets acquired during 2022 exceeded depreciation expense. Capital assets increased due to the convention center remodel.

Deferred outflows increased primarily due to a change in assumptions used by Ohio Public Employees Retirement System (OPERS) in the calculation of the retirement system's net pension liability and net OPEB asset. The County reports its proportionate share of these liabilities in the financial statements.

LUCAS COUNTY, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (UNAUDITED)

Current and other liabilities decreased \$45,918 thousand, or 27.38%, from 2021. The decrease was primarily in notes payable as the County paid off a note through the issuance of long-term bonds.

Long-term liabilities decreased approximately \$32,928 thousand primarily in the area of net pension liability (\$69,753 thousand decrease). The decrease in the net pension liability is the result of the overall pension system's liability decrease and the County reporting its proportional share of that decrease. The County's net pension are discussed below. In addition the County issued \$41,580 thousand in general obligation bonds. The County continued to make its required debt service payments.

The net pension liability/asset is reported pursuant to Governmental Accounting Standards Board (GASB) Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The net other postemployment benefits (OPEB) liability is reported pursuant to GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the County's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability, and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net pension asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability/asset* or *net OPEB liability/asset*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability/asset and the net OPEB liability to equal the County's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the County is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide health care to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

LUCAS COUNTY, OHIO

*MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2022
(UNAUDITED)*

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the County's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability/asset and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

Deferred inflows related to pension increased primarily due to an increase in net difference between projected and actual earnings on pension plan investments reported by OPERS. Deferred inflows related to OPEB also increase primarily due to an increase in differences between expected and actual experience on OPEB plan investments and in the net difference between projected and actual earnings on OPEB plan investments reported by OPERS.

As of December 31, 2022, the County is able to report positive net position in both the governmental and business-type activities of \$547,163 thousand and \$118,090 thousand, respectively. The table on the next page provides a summary of the changes in net position for the years ended December 31, 2022 and 2021.

By far, the largest portion of the County's net position (45.17%) reflects its investment in capital assets, which includes land, construction in progress, buildings, machinery and equipment, infrastructure, and intangible right to use assets less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position (30.88%) represents resources that are subject to restrictions on how they can be used. The primary increase in restricted net position was in the area of health programs which saw an increase in \$13,309 thousand from 2021. Health related programs include the operations of Mental Health and Recovery and the Board of Developmental Disabilities.

The remaining balance of unrestricted net position is a balance of \$159,324 thousand (23.95%). Unrestricted net position improved from a balance of \$79,295 thousand at the end of 2021 to a balance of \$159,324 thousand at the end of 2022. This increase results from many factors including a decrease in the net pension liability and an increase in the net OPEB asset.

LUCAS COUNTY, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (UNAUDITED)

Governmental Activities

Tax revenues account for \$253,962 of the \$575,721 thousand total revenues for governmental activities, or 44.11%, of total revenues. Tax revenues increased \$4,410 thousand, or 1.77%, from the prior year due to increases in sales tax (\$2,708 thousand) revenue.

Operating grants and contributions were the largest component of program revenues accounting for \$203,051 thousand, or 35.27%, of total governmental revenues. Operating grants and contributions increased \$33,524 thousand, or 19.78% due to the County receiving ARPA grant monies. Operating grants and contributions supporting human services programs totaled \$121,365 thousand, or 59.77%, of total operating grants and contributions.

The County's direct charges to users of governmental services made up \$59,279 thousand, or 10.30%, of total governmental revenues. These charges are for fees for real estate transfers, fees associated with the collection of property taxes, fines and forfeitures related to judicial activity, rent, and licenses and permits associated with building inspections. The revenues from these charges increased \$1,842 thousand, or 3.21% from 2021 due primarily to increases in fees received for legislative and executive programs.

Expenses of the governmental activities increased \$141,536 thousand or 45.36%. The increase is attributable to the County spending money received from the ARPA program. Additionally, expenses increased primarily due to normal wage and benefit increases.

Health accounts for \$72,859 thousand of the \$453,583 thousand total expenses for governmental activities, or 16.06%, of total expenses. Health expenses increased \$7,560 thousand, or 11.58%, from the prior year. The largest health programs are the operations of Mental Health and Recovery and the Board of Developmental Disabilities.

The largest program is human services, which accounts for \$144,112 thousand, which represents 31.77% of total governmental expenses. This is an increase of \$69,908 thousand, or 94.21%, from the prior year. The largest human services program are the operations of the Children Services Board and ARPA programs.

Business-Type Activities

The net position for the business-type activities for the County increased by \$5,684 thousand from the prior year. During 2022, program revenues increased \$4,906 thousand, or 13.92%. The increase in program revenues was primarily due to an increase in capital grants and contribution related to sewer system capital projects. Total expenses increased \$6,022 thousand, or 21.34%, from 2021 due to an increase in the expense related to contracted services. Solid waste expenses were the primary reason for the increase in expenses, increasing \$1,775 thousand from 2021 due to increased contract services. The County assesses the rates and charges necessary to provide for these services. Net position of the business-type activities increased \$5,684 thousand in 2022 and increased \$6,630 thousand in 2021.

Financial Analysis of the County's Funds

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the year.

LUCAS COUNTY, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (UNAUDITED)

The General Fund is the chief operating fund of the County. At the end of the current year, the unassigned fund balance of the General Fund was \$48,505 thousand while total fund balance was \$64,948 thousand, a decrease of 20.21%. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 33.36% of total 2022 General Fund expenditures while total fund balance represents 44.66% of total 2022 General Fund expenditures. The fund balance of the General Fund reported a decrease of \$16,453 thousand from the prior year's fund balance.

Key factors contributing to the increase in the General Fund follows:

- Total revenues increased \$24,771 thousand compared to 2021. In detail, the major increase of \$35,721 thousand occurred in intergovernmental revenue as a result receiving more aid from the State and Federal governments for general purposes.
- Expenditures increased \$13,199 thousand, or 9.98%. The primary area of increase was in legislative and executive, judicial, and public safety operations, increasing \$11,371 thousand due to expenditures related to the annual wages and benefits increases for the County's employees. All other expenditure line items remained comparable to the prior year.
- Transfers out to other funds increased \$38,376 thousand from 2021 to 2022.

The fund balance of the Mental Health and Recovery Fund increased \$993 thousand to \$23,154 thousand. In 2022, real property and other taxes revenue increased by \$351 thousand and intergovernmental revenues decreased \$1,435 thousand. Expenditures decreased \$2,273 thousand in 2022 versus 2021. The decrease was primarily in operating charges and services expenditures. In 2022, total revenues exceeded total expenditures by \$993 thousand. For 2021, total expenditures exceeded total revenues by \$786 thousand.

The fund balance of the Children Services Board Fund decreased \$1,565 thousand to \$16,572 thousand. In 2022, property tax revenues increased by 2.13% and intergovernmental revenues increased by 4.51%. The Children Services Board Fund received more state and federal funding in 2022 versus 2021. Charges for services revenues decreased \$94 thousand. Expenditures increased by \$4,103 thousand, or 8.04%, due to increased costs for services provided. For 2022, total expenditures exceeded total revenues by \$1,565 thousand. This was a decrease from 2021 when total revenues exceeded total expenditures by \$1,560 thousand.

The fund balance of the Board of Developmental Disabilities Fund increased \$7,084 thousand to \$103,076 thousand. In 2022, real property and other taxes revenue increased by 2.15% while intergovernmental revenues decreased by 33.16%. The Board of Developmental Disabilities received decreased funding from federal and state sources. Expenditures increased by \$4,419 thousand, or 10.49% due to increased costs for services provided. For 2022, total revenues exceeded total expenditures by \$7,084 thousand. For 2021, total revenues exceeded expenditures by \$20,785 thousand.

The fund balance of the American Rescue Plan Fund did not change for the year. In 2022, the County received \$46,845 thousand in ARPA grant money. Of this amount \$33,318 is reported as unearned revenue. Expenditures were \$46,845 thousand. For 2022, total revenues were equal total expenditures.

The Debt Service Fund has a fund balance of \$12,497 thousand which represents an increase of \$4,782 thousand from December 31, 2021. The Debt Service Fund received \$5,446 thousand of transfers in from the General Fund, Water Supply System Fund, and the Sewer System Fund combined during 2022. For 2022, total revenues and other financing sources exceeded expenditures and other financing uses by \$4,782 thousand. For 2021, total revenues and other financing sources exceeded total expenditures by \$745 thousand.

LUCAS COUNTY, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (UNAUDITED)

The Capital Improvements Fund has a fund balance of \$90,079 thousand which represents an increase of \$62,135 thousand from December 31, 2021. The Capital Improvements Fund received \$55,236 thousand of transfers in from the General Fund during 2022. During 2022, the Capital Improvements Fund issued \$38,655 thousand in notes and \$41,580 thousand in bonds. For 2022, total revenues and other financing sources exceeded total expenditures by \$62,135 thousand. For 2021, total expenditures exceeded total revenues and other financing sources by \$19,743 thousand.

Enterprise Funds

The County's enterprise funds provide the same type of information found in the government-wide financial statements, but in more detail. Net position of the Water Supply System Fund at the end of the year amounted to \$43,473 thousand, the Wastewater Treatment Fund amounted to \$16,686 thousand, and the Sewer System Fund amounted to \$37,453 thousand. The total change in net position for these funds included an increase of \$816 thousand, a decrease of \$753 thousand, and an increase of \$2,929 thousand, respectively.

Operating revenues of the Water Supply System Fund, Wastewater Treatment Fund and Sewer System Fund were a decrease from the prior year of \$588 thousand, a decrease of \$68 thousand and a decrease of \$429 thousand, respectively. Operating expenses of the Water Supply System Fund decreased \$91 thousand, the Wastewater Treatment Fund increased \$2,640 thousand and Sewer System Fund decreased \$245 thousand. For 2022, the operating loss of the Water Supply System Fund was \$922 thousand which represents a decrease of \$496 thousand from the operating loss of \$426 thousand reported for 2021. For 2022, the operating loss of the Wastewater Treatment Fund was \$209 thousand which represents a decrease of \$2,707 thousand from the operating income of \$2,498 thousand reported for 2021. For 2022, the operating loss of the Sewer System Fund was \$1,149 thousand which represents a decrease of \$184 thousand from the operating loss of \$965 thousand reported for 2021.

General Fund Budgetary Highlights

Final budgeted revenues and other financing sources were \$209,052 thousand, which is an increase of \$45,848 thousand from the original budget revenues and other financing sources of \$163,203 thousand. Actual revenues were \$6,273 thousand less than estimated in the final budget. The County received \$7,000 thousand less in transfers in than in the final budget.

Final budgeted expenditures and other financing uses were \$228,632 thousand, or 35.75%, higher than original budgeted expenditures and other financing uses. Actual expenditures and other financing uses were \$11,085 thousand less than estimated in the final budget. Legislative and executive functions reported the largest positive variance with the final budget of \$3,515 thousand, followed by judicial operations which reported a positive variance of \$2,426 thousand and public safety operations which reported a positive variance of \$1,910 thousand. The actual expenditures for all other functions remained comparable to the final budgeted amounts.

In the original budget, the County expected to transfer \$22,092 thousand to other funds. This amount was increased to \$74,960 thousand in the final budget. Actual transfers for 2022 were \$72,510 thousand.

The County budgets on a very conservative basis, as can be seen by the positive variance amounts within the budget.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (UNAUDITED)

Capital Assets and Debt Administration

Capital assets: The County's capital assets for its governmental and business-type activities as of December 31, 2022, amount to \$461,743 thousand (net of accumulated depreciation). The amount of net position, net investment in capital assets was \$300,488 thousand at December 31, 2022. Capital assets include: land, construction in progress, buildings structures and improvements, furniture, fixtures, equipment, infrastructure, and intangible right to use assets. The total increase in the County's capital assets for the current year was 6.82% (a 7.83% increase for governmental activities and a 1.07% increase for business-type activities.)

During 2022, for governmental activities, the County expended approximately \$41,325 thousand on construction projects that were in progress at year end. These projects include infrastructure projects and buildings supporting legislative, executive and judicial operations. The County completed projects of approximately \$56,434 thousand.

Additional information on the County's capital assets can be found in Note 8.

Long-term debt: At the end of the current year, the County had total bonded debt outstanding of \$134,865 thousand. Of this total, \$130,830 thousand is general obligation bonds backed by the full faith and credit of the County; \$3,458 thousand is special assessment bonds for which the County is liable in the event of default by the property owners subject to the assessment; and \$577 thousand is revenue bonds. Repayment of revenue bonds is secured by the revenue generated by the project. The County also had outstanding Ohio Water Development Authority (OWDA) loans of \$22,112 thousand and Ohio Public Works Commission (OPWC) loans of \$6,757 thousand. The County also has \$2,611 thousand in leases payable and \$97 thousand in financed purchase note payable.

In addition to the long-term debt above, the County has \$51,102 thousand in short-term construction notes outstanding. These notes bear interest rates of 5.25% (\$37,455 thousand), 5.125% (\$1,200 thousand), and 3.875% (\$12,318 thousand) which mature on October 13, 2023.

The County maintained 'AA' and 'Aa2' ratings from both Standard and Poor's and Moody's, respectively, for general obligation debt. The ratings for the baseball stadium bonds were maintained at 'A+' and 'Aa3' by Standard & Poor's and Moody's, respectively.

The County's total bonded debt increased \$37,834 thousand during the year. State statutes limit the amount of unvoted general obligation debt the County may issue to 1% of its total assessed valuation. Additional information on the County's long-term debt can be found in Note 10, information on the short-term notes can be found in Note 9, and information on the legal debt margin is located in Table 15 of the statistical section.

Economic Factors and Next Year's Budgets and Rates

The 2022 average unemployment for the County was 4.4%, which is a decrease from 6.2% for 2021. For 2022, the state average unemployment rate was 4.0%, and the national average was 3.6%.

Inflationary trends in the region compare favorably to national indices. These factors were considered in preparing the County's budget for the 2022 year.

At the end of the current year, fund balance in the General Fund, on the modified accrual basis of accounting, was \$64,948 thousand as compared to \$81,401 thousand at December 31, 2021.

RECONCILIATION OF FUND BALANCES GOVERNMENTAL FUNDS TO
NET POSITION OF GOVERNMENTAL ACTIVITIES
DECEMBER 31, 2022

| | | | |
|---|----|---------------------|---------------------------|
| Total governmental fund balances | | \$ | 396,365,604 |
| Amounts reported for governmental activities on the statement of net position are different because: | | | |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds. | | | 352,212,127 |
| Other long-term assets are not available to pay for current period expenditures and therefore are deferred inflows in the governmental funds. | | | |
| Sales taxes receivable | \$ | 12,105,233 | |
| Delinquent property taxes receivable | | 14,563,501 | |
| Accounts receivable | | 7,849,548 | |
| Special assessments receivable | | 14,390,680 | |
| Accrued interest receivable | | 946,445 | |
| Intergovernmental receivable | | <u>24,736,898</u> | |
| Total | | | 74,592,305 |
| Internal service funds are used by management to charge the cost of insurance and other services to individual funds. The assets, liabilities, deferred inflows and deferred outflows of the internal service funds are included in governmental activities in the statement of net position, less \$654,722 of net capital assets included above as capital assets used in governmental activities, plus \$80,039 for compensated absences included below, plus \$653,497 and \$27,693 for net pension asset/liability and net OPEB asset and related deferred inflows/outflows, respectively, included below. | | | 54,923,791 |
| When consolidating internal service funds, the portion of the operating income or loss allocated to business-type activities is eliminated from the governmental activities and is reported as a component of internal balance. | | | (662,307) |
| On the statement of net position, interest is accrued on outstanding bonds and notes payable, whereas in governmental funds, interest is accrued when due. | | | (761,490) |
| Unamortized deferred outflows of resources on refunding transactions are not recognized in the governmental funds. | | | 4,360,365 |
| Unamortized premiums on bond issuances are not recognized in governmental funds. | | | (5,045,141) |
| Unamortized discounts on bond issuances are not recognized in governmental funds. | | | 430,919 |
| The net pension asset/liability is not due and receivable/payable in the current period; therefore, the asset, liability and related deferred inflows/outflows are not recognized in the governmental funds. | | | |
| Deferred outflows of resources - pension | | 38,017,537 | |
| Deferred inflows of resources - pension | | (116,012,633) | |
| Net pension asset | | 3,953,900 | |
| Net pension liability | | <u>(90,205,731)</u> | |
| Total | | | (164,246,927) |
| The net OPEB asset is not due and receivable in the current period; therefore, the asset and related deferred inflows/outflows are not recognized in the governmental funds. | | | |
| Deferred outflows of resources - OPEB | | 204,338 | |
| Deferred inflows of resources - OPEB | | (34,648,837) | |
| Net OPEB asset | | <u>31,995,333</u> | |
| Total | | | (2,449,166) |
| Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. | | | |
| Compensated absences | | (22,997,874) | |
| Lease payable | | (2,460,411) | |
| Landfill obligations | | (350,000) | |

RECONCILIATION OF NET CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO CHANGES IN NET POSITION OF GOVERNMENTAL ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2022

| | | |
|---|---------------------|---------------------------|
| Net change in fund balances - total governmental funds | \$ | 53,685,252 |
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation/amortization expense. This is the amount by which depreciation expense exceeds capital outlays in the current period (excluding internal service funds): | | |
| Capital outlay - nondepreciable capital assets | \$ 42,077,069 | |
| Capital outlay - depreciable capital assets | 3,900,235 | |
| Current year depreciation/amortization | <u>(19,256,132)</u> | |
| Total | | 26,721,172 |
| The net effect of various miscellaneous transactions involving capital assets (i.e. sales, disposals, trade-ins, and donations) is to decrease net position (excludes internal service funds activity). | | (1,067,566) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds: | | |
| Sales tax revenue | 506,559 | |
| Property tax revenue | 1,420,876 | |
| Special assessment revenue | (1,989,529) | |
| Intergovernmental and other revenues | <u>5,224,801</u> | |
| Total | | 5,162,707 |
| The issuances of bonds and loans are reported as an other financing source in the funds; however, in the statement of activities, they are not reported as revenues as they increase the liabilities on the statement of net position. | | (41,819,513) |
| Repayment of bond and loan principal is an expenditure in the governmental funds, but the repayment reduces liabilities on the statement of net position (excluding internal service funds activity): | | |
| Bond principal payments | 3,745,900 | |
| Loan principal payments | 200,774 | |
| Lease payable principal payments | <u>279,092</u> | |
| Total | | 4,225,766 |
| Repayment of the landfill liability is an expenditure in the funds, but the repayment reduces long-term liabilities on the statement of net position. | | (46,086) |
| In the statement of activities, interest is accrued on outstanding bonds; whereas in the funds, an interest expenditure is reported when due. The following items contributed to less interest being reported in the statement of activities: | | |
| Decrease in accrued interest payable | (214,677) | |
| Premiums incurred in the current year | (1,953,360) | |
| Discounts incurred in the current year | 378,941 | |
| Amortization of bond premiums | 239,138 | |
| Amortization of bond discounts | (5,098) | |
| Amortization of deferred outflow of resources resulting from debt refundings | <u>(275,049)</u> | |
| Total | | (1,830,105) |
| Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. The following represents the decrease in the compensated absences liability (excluding internal service funds). | | 93,136 |
| The internal service fund used by management to charge insurance and other services to individual funds is not reported in the County-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service funds, including internal balance activity of (\$91,807) and including (\$234,095) and (\$149,454) of net pension and net OPEB contributions/expense, respectively, reported below, is allocated among governmental activities. | | 1,918,666 |
| Contractually required pension contributions are reported as expenditures in the governmental funds; however, the statement of net position reports these amounts as deferred outflows. | | 21,768,770 |
| Except for amounts reported as deferred inflows/outflows, changes in the net pension asset/liability are reported as pension expense in the statement of activities. | | 22,780,363 |
| Contractually required OPEB contributions are reported as expenditures in the governmental funds; however, the statement of net position reports these amounts as deferred outflows. | | 191,485 |
| Except for amounts reported as deferred inflows/outflows, changes in the net OPEB asset/liability are reported as OPEB expense in the statement of activities. | | <u>30,614,106</u> |
| Change in net position of governmental activities | \$ | <u>122,398,153</u> |

LUCAS COUNTY, OHIO

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022

NOTE 1 - DESCRIPTION OF THE COUNTY

Lucas County, Ohio (the "County") is a political subdivision of the State of Ohio. The County was formed by an act of the Ohio General Assembly in 1835. The three-member Board of County Commissioners is the legislative and executive body of the County. The County Auditor is the chief fiscal officer. In addition, there are seven other elected administrative officials, each of whom is independent as set forth by Ohio law. These officials are: Clerk of Courts, Coroner, Engineer, Prosecutor, Recorder, Sheriff, and Treasurer. There are also ten Common Pleas Court Judges, two Domestic Relations Court Judges, two Juvenile Court Judges, one Probate Court Judge and five Court of Appeals Judges elected on a County-wide basis to oversee the County's judicial system.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The most significant of the County's accounting policies are described below.

A. Reporting Entity

A reporting entity is composed of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the County consists of all funds, departments, boards, and agencies that are not legally separate from the County. For Lucas County, this includes; the Board of Developmental Disabilities, the Job and Family Services Department, and all departments and activities that are operated directly by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; or (3) the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the County is obligated for the debt of the organization. Component units may also include organizations for which the County approves the budget, the issuance of debt, or the levying of taxes or whose relationship with the County is such that to exclude their activity would be misleading. Based on the criteria described, the County has seven discretely presented component units whose financial activities have been reflected in the accompanying financial statements.

In addition, the County has four related organizations and is a participant in three jointly governed organizations which are described below.

FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

DISCRETELY PRESENTED COMPONENT UNITS

Toledo Mud Hens Baseball Club, Inc. (the "Mud Hens")

The Mud Hens were organized to own, manage, and operate a professional baseball club. Upon dissolution, any remaining net position would become the property of the Board of County Commissioners and new appointments to the Board of Directors require concurrence of the Commissioners. The County receives rent from the Mud Hens to retire non-tax revenue bonds issued to finance the construction of the baseball stadium. The Mud Hens are reported on a fiscal year ending October 31. Complete financial statements for the component unit may be obtained from its administrative office at Fifth Third Field, 406 Washington St., Toledo, Ohio 43604.

Toledo-Lucas County Convention and Visitors Bureau, Inc. (TLCCVB)

The TLCCVB operates the Seagate Centre, a convention and convocation center in the City of Toledo, and the Huntington Center, the County's multipurpose arena. The primary purpose of the TLCCVB is to encourage and promote the utilization of convention, restaurant, hotel, motel, and entertainment facilities in the County. The TLCCVB has been determined to be a discrete component unit of the County as the County appoints the TLCCVB's Board of Trustees and the County is financially accountable for, and provides significant subsidies to, the TLCCVB and its component unit, the Destination Toledo Convention and Visitors Bureau, annually. TLCCVB's year end is December 31. Complete financial statements for the component unit can be obtained from its administrative office at 401 Jefferson Avenue, Toledo, Ohio 43604.

Lucas County Land Reutilization Corporation (LCLRC)

The LCLRC is a community improvement corporation designed to strengthen neighborhoods in the County by returning vacant and abandoned properties back to the tax rolls through strategic real estate acquisitions and community partnerships in the redevelopment of Lucas County properties. Pursuant to provisions in the Ohio Revised Code, the LCLRC is a legally separate organization that receives funding through the collection of delinquent taxes. The appointing members of the LCLRC Board are, by State statute, County officeholders (namely the County Treasurer and two County Commissioners); therefore, the County appoints a voting majority of the LCLRC Board. In addition, the County is able to impose its will on the LCLRC. LCLRC's year end is December 31. Complete financial statements of the LCLRC may be obtained from its administrative office at One Government Center, #500, Toledo, Ohio 43604.

Toledo Arena Sports, Inc. (TASI)

The TASI is a nonprofit corporation organized to own, manage, and operate sports teams and thereby promotes, encourages and stimulates an interest in sports teams as recreational activities for the residents of Lucas County, Ohio. New appointments to the Board of Directors require concurrence of the Commissioners. The County receives rent from TASI in order to retire debt issued to finance the construction of the Lucas County Arena.

Due to the nature and significance of TASI's relationship with the County, it would be misleading to exclude TASI from the County's financial reporting entity and as such, TASI warrants inclusion in the County's financial statements as a discretely presented component unit. The TASI fiscal year end is June 30. Complete financial statements for the component unit may be obtained from its administrative office at 406 Washington Street, Toledo, Ohio 43604.

LUCAS COUNTY, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Preferred Properties, Inc. and Affiliates (“Preferred Properties”)

Preferred Properties is a nonprofit corporation organized to provide affordable and accessible housing to persons with disabilities. One third of the board of the Preferred Properties is appointed by the LCBDD. Funds for the purchase of housing are received from the LCBDD, which come from board funds and pass-through of funds from Community Assistance Projects administered by the Ohio Department of Developmental Disabilities. Based upon the significant services and resources provided by the County to Preferred Properties and due to the material significance and general nature of the County’s relationship with Preferred Properties, it would be misleading to exclude Preferred Properties from the County’s financial reporting entity and, as such, Preferred Properties warrants inclusion in the County’s financial statements as a discretely presented component unit. Preferred Properties fiscal year end is June 30. Complete financial statements for the component unit may be obtained from its administrative office at 5555 Airport Highway, Toledo, Ohio 43615.

Lucas County Transportation Improvement District (LCTID)

The LCTID is a body politic and corporate, created for the purpose of financing, constructing, maintaining, repairing, and operating selected transportation projects. The LCTID was specifically created pursuant to Chapter 5540 of the Ohio Revised Code, as amended. The LCTID was created by action of the Board of Lucas County Commissioners on April 22, 2014. The LCTID is governed by a Board of Trustees that acts as the authoritative and legislative body of the entity. The Board is comprised of seven members of whom five are voting and two are non-voting. Each Board member serves a term of two years and there are no term limits for reappointment. The five voting Board members are appointed by the Board of Lucas County Commissioners. In addition, the County is able to impose its will on the LCTID. LCTID’s year end is December 31. Complete financial statements of the LCTID may be obtained from its Secretary-Treasurer at 1049 S. McCord Road, Holland, Ohio 43604.

Lucas County Economic Development Corporation (LCEDC)

The LCEDC is a legally separate organization created for the purpose of promoting, advancing and encouraging the industrial, economic, commercial and civic development of the County and the surrounding area. The LCEDC is governed by a Board of Directors that acts as the authoritative and legislative body of the entity. The Board is comprised of no less than three and no more than eleven members which are appointed by the County Commissioners. Each Board member serves a term of three years. In addition, the County is able to impose its will on the LCEDC. The LCEDC’s fiscal year end is December 31. During 2022, the County contributed \$320,000 to the LCEDC. Information can be obtained from the LCEDC, 1 Government Center, Suite 800, Toledo, Ohio 43604.

RELATED ORGANIZATIONS

Toledo-Lucas County Public Library (the “Library”)

The Library is a legally separate organization that is governed by a seven-member Board of Trustees. Four of the Trustees are appointed by the Lucas County Commissioners and three are chosen by the Lucas County Common Pleas Court Judges. The Library determines and operates its own budget. Control and management of the Library is governed by sections 3375.33 to 3375.39 of the Ohio Revised Code. The Library provides no financial benefit to or burden on the County.

LUCAS COUNTY, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Toledo Area Metropolitan Park District (the "Park District")

The Park District is a legally separate organization that is governed by a three-member Board of Park Commissioners. The Lucas County Probate Court appoints all three members of the Board of Park Commissioners. Appointments are for three-year terms. The District is dedicated to the conservation of natural resources and wildlife, while providing various recreational facilities and services. These activities are directly controlled by the Board of Park Commissioners through the budgetary process. The Park District provides no financial benefit to or burden on the County.

Lucas Metropolitan Housing Authority (the "Authority")

The Authority is a legally separate organization that is governed by a five-member Board of Commissioners. Three of the five Board members are appointed by County officials. The Probate Court, Common Pleas Court, and Board of County Commissioners appoint one board member each. The remaining two Board members are appointed by the Mayor of the City of Toledo. The Authority provides no financial benefit to or burden on the County.

Toledo Area Sanitary District (the "Sanitary District")

The Sanitary District is a body corporate and politic established to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District was established September 27, 1945, by the Common Pleas Court of Lucas County following a petition to the court for the establishment of the District for the abatement and control of mosquitoes. In accordance with the State statute, responsibility for policy determination for the District resides with the Director which is appointed by the judges of the Common Pleas Court. The Sanitary District provides no financial benefit to or burden on the County.

JOINTLY GOVERNED ORGANIZATIONS

Corrections Commission of Northwest Ohio (CCNO)

CCNO is a jointly governed organization among Defiance, Fulton, Henry, Lucas, and Williams counties. The CCNO was established to provide jail space for convicted criminals in the five counties and to provide a correctional center for the inmates. The CCNO was created in 1987 and occupancy started in 1990. The commission team consists of twelve members, including a chief law enforcement officer and one county commissioner or administrative official from each entity. The commission team exercises total control over the operation of the CCNO including budgeting, contracting, and designating management.

Each entity is responsible for a portion of the capital and operating budget as follows:

| | |
|-----------------|----------------|
| Lucas County | 48.62% |
| Defiance County | 15.11% |
| Fulton County | 13.10% |
| Williams County | 13.85% |
| Henry County | <u>9.32%</u> |
| Totals | <u>100.00%</u> |

LUCAS COUNTY, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In 2022, the County contributed \$4,663,468 for the CCNO's operations, which represents 47.74% of total contributions. All debt for the construction of the jail was incurred by the participating governmental agencies and is not a liability of the Corrections Commission of Northwest Ohio. Lucas County has no bonds outstanding at year end for construction of the regional jail. Financial information can be obtained from Tonya Justus, Fiscal Manager, Corrections Commission of Northwest Ohio, 03151 County Road 24.25 RT. 1, Box 100-A, Stryker, Ohio 43557.

Lucas County Family and Children First Council (the "Council")

The Council is a legally separate organization whose mission is to coordinate a publicly accountable, cost effective system of services that supports health, education, and well being of families in Lucas County. The Council is a jointly governed organization. The operations of the Lucas County Family and Children First Council are controlled by an oversight committee. The oversight committee includes various officials from the County. The Lucas County Auditor is the fiscal agent for the Council and the activity of the Council is reported in a custodial fund on the County's financial statements. During 2022, the County made no contributions to the Council. Financial information can be obtained from the Lucas County Auditor's Office, One Government Center, Suite 600, Toledo, Ohio 43604-2255.

Toledo-Lucas County Port Authority (the "Port Authority")

The Port Authority is a legally separate organization created under the Ohio Revised Code. The Port Authority is a jointly governed organization between Lucas County and the City of Toledo. The Port Authority conducts port operations and economic development activities. The Port Authority is governed by a thirteen-member Board of Directors, six of whom are appointed by the Mayor of the City of Toledo with approval of City Council, six by the Lucas County Commissioners, and one by joint action of the City of Toledo and Lucas County. The Board exercises total control over the operation of the corporation including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. During 2022, the County made no contributions to the Port Authority. Information can be obtained from the Toledo-Lucas Port Authority, One Maritime Plaza, Suite 701, Toledo, Ohio 43604-1866.

Lucas County 911 Regional Council of Governments

The Lucas County 911 Regional Council of Governments (the "COG") is a jointly governed organization between Lucas County and the other subdivisions located in Lucas County (the "members"). Formed as a Council of Governments as permitted under Ohio Revised Code Section 167.01, the intent of the COG is for the members to share in providing the financial resources and infrastructure needed to operate a safe, effective, and efficient 911 system for Lucas County and all of the subdivisions within its jurisdictional territory. The COG is controlled by a Governing Board of Directors consisting of the Sheriff of Lucas County, police chiefs, and fire chiefs from the County. The degree of control exercised by any member is limited to its representation on the Governing Board of Directors. Each member is annually assessed a required contribution based on its utilization of the computer aided dispatch system. In accordance with GASB Statement No. 14 as amended by GASB Statement No. 61, the County does not have any equity interest in the COG. Financial information may be obtained by writing to the Lucas County Auditor's office, at One Government Center, Suite 600, Toledo, OH 43604, or by calling 419-213-4406.

OneOhio Recovery Foundation Region 4 (the "Foundation")

The Foundation is a jointly governed organization among the governments located in Lucas County. The Foundation was established to designate recipients of the regions statewide opioid settlement allocations and to appoint a representative to the statewide OneOhio Recovery Foundation. The Foundation is governed by a seven-member Board of Directors, three of whom are appointed by the Lucas County Commissioners, two of whom represent the City of Toledo, one representative is appointed by a simple majority of municipalities of Lucas County, excluding any municipality that already has a seat, and one representative appointed by a simple majority of the townships of Lucas County. The Board determines how opioid settlement funds should be disbursed. Each participant's degree of control is limited to its representation on the Board. During 2022, the County made no contributions to the Foundation.

POTENTIAL COMPONENT UNITS REPORTED AS CUSTODIAL FUNDS

The County Treasurer, as the custodian of public funds, invests all public monies held on deposit in the County treasury. In the case of the separate agencies, boards, and commissions listed below, the County serves as fiscal agent, but is not financially accountable for their operations. Accordingly, the following entities are presented as custodial funds within the financial statements since the County acts as fiscal agent and holds monies on their behalf at year end:

Lucas County Board of Health
Lucas County Family and Children First Council (a jointly governed organization)
Lucas County Soil and Water Conservation District
The Olander Park District
Lucas County Local Emergency Planning Commission

B. Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, the fund financial statements, which provide a more detailed level of financial information, and the notes to the basic financial statements.

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the County as a whole. The activities of the internal service funds are eliminated to avoid "doubling up" revenues and expenses. These statements include the financial activities of the primary government except for fiduciary funds.

The statement of net position presents the financial condition of the County at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department; therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, along with grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each function is self-financing or draws from the general revenues of the County.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the County's water and sewer function and various other functions of the County. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements - During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at a more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service funds are combined and presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

C. Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions of the County are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between the assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the governmental funds is reported as fund balance.

The following are the County's major governmental funds:

General Fund - The General Fund is used to account for and report all financial resources not accounted for and reported in another fund. The unassigned general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Mental Health and Recovery Fund - This fund accounts for and reports a County-wide property tax levy, state grants, and reimbursements that are restricted for mental health programs and alcohol and drug recovery programs.

Children Services Board Fund - This fund accounts for and reports a County-wide property tax levy, state grants, and reimbursements that are restricted for County child care programs.

Board of Developmental Disabilities Fund - This fund accounts for and reports a County-wide property tax levy, state grants, and reimbursements that are restricted for care and services for developmentally disabled individuals.

American Rescue Plan Fund - This fund accounts for and reports federal grants received to help offset the financial effects of the COVID-19 pandemic.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Debt Service Fund - This fund accounts for and reports financial resources that are committed for expenditures of principal and interest on general long-term debt.

Capital Improvements Fund - This fund accounts for and reports financial resources that are committed for expenditures of capital improvements and acquisitions.

The other governmental funds of the County account for grants and other resources whose use is restricted, committed, or assigned for a particular purpose.

Proprietary Funds - The County's proprietary funds consist of enterprise funds and internal service funds. Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. These funds are used to account for operations that provide services which are financed primarily by user charges or activities where periodic measurement of income is appropriate for capital maintenance, public policy, management control or other purposes.

The County reports the following major enterprise funds:

Water Supply System Fund - This fund accounts for the distribution of treated water to individuals and commercial users of Lucas County.

Wastewater Treatment Fund - This fund accounts for wastewater treatment services provided to the Sanitary Engineer, cities of Maumee and Sylvania, Village of Waterville, Sylvania Township, other portions of Lucas County, and portions of Wood County.

Sewer System Fund - This fund accounts for sanitary sewer services provided to individuals and commercial users in Lucas County and portions of Wood County.

Other enterprise funds of the County are used to account for (1) sanitary engineer operations related to the administrative costs of operating the water supply system, wastewater treatment system, and sewer system, (2) administration of solid waste disposal county-wide, and (3) operation of parking facilities. These funds are nonmajor funds whose activity has been aggregated and presented in a single column in the fund financial statements.

Additionally, the County reports internal service funds which account for the goods or services provided by certain County departments to other funds, departments and other governmental units, on a cost reimbursement basis. The County's internal service funds include activities related to the following operations: imaging lab, central supplies, vehicle maintenance, telecommunications, self-funded health insurance program, centralized drug testing, risk retention insurance program, self-funded workers' compensation program, self-funded prescription drugs program, and a self-funded dental insurance program.

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension and other employee benefit trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund.

LUCAS COUNTY, OHIO

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The County's custodial funds account for licenses, permits, and fees distributed to other political subdivisions and assets held by the County for political subdivisions in which the County acts as fiscal agent, which include the Lucas County Board of Health, Lucas County Family and Children First Council, Lucas County Soil and Water Conservation District, The Olander Park District, Lucas County 911 Regional Council of Governments, and the Lucas County Local Emergency Planning Commission and for taxes, State-levied shared revenues and fines and forfeitures collected and distributed to other political subdivisions.

D. Measurement Focus

Government-Wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the County are included on the statement of net position.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current deferred outflows of resources, current liabilities and current deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Therefore, governmental fund financial statements include reconciliations with brief explanations that better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the proprietary funds are accounted for on a flow of economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its enterprise and internal service funds activities.

Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from custodial funds.

E. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources and deferred outflows of resources, and in the presentation of expenses versus expenditures.

LUCAS COUNTY, OHIO

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Revenues - Exchange and Non-Exchange Transactions - Revenues resulting from exchange transactions in which each party gives and receives essentially equal value are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within sixty days of year end.

Non-exchange transactions in which the County receives value without directly giving equal value in return include sales taxes, property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the taxes are levied (see Note 6). Revenues from sales taxes are recognized in the period in which the taxable sale takes place (see Note 7). Revenue from grants, entitlements, and donations are recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements in which the County must provide local resources to be used for a specified purpose, and expenditure requirements in which the resources are provided to the County on a reimbursement basis.

On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: delinquent property taxes and special assessments, sales taxes, grants, interest, fees and charges for services.

Deferred Outflows of Resources and Deferred Inflows of Resources - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. See Notes 11 and 12 for deferred outflows of resources related to net pension liability/asset and net OPEB liability/asset, respectively. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2022, but which were levied to finance 2023 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. Unavailable revenue includes, but is not limited to, delinquent property taxes, special assessments, and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

LUCAS COUNTY, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

See Notes 11 and 12 for deferred inflows of resources related to net pension liability/asset and net OPEB liability/asset, respectively. These deferred inflows of resources are only reported on the government-wide statement of net position.

Allowance for Uncollectibles - Real property and other taxes receivable are reported net of an allowance for uncollectibles. The amounts of the allowance for the County's funds are as follows:

| | General | Mental Health and Recovery | Children Services Board | Board of Developmental Disabilities | Nonmajor Governmental |
|--|----------------------|----------------------------------|-------------------------------|---|--------------------------|
| Gross taxes receivable | \$ 19,453,894 | \$ 20,537,074 | \$ 30,258,228 | \$ 49,382,641 | \$ 27,132,829 |
| Less: allowance for doubtful accounts | <u>(790,361)</u> | <u>(825,532)</u> | <u>(1,206,488)</u> | <u>(1,938,421)</u> | <u>(1,083,205)</u> |
| Net taxes receivable | <u>\$ 18,663,533</u> | <u>\$ 19,711,542</u> | <u>\$ 29,051,740</u> | <u>\$ 47,444,220</u> | <u>\$ 26,049,624</u> |

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

F. Budgetary Process

Under Ohio law, the Board of County Commissioners must adopt an appropriations budget by January 1st of a given year or adopt a temporary appropriation measure with final passage of a permanent budget by April 1st for all funds, except custodial funds. Budgets are legally required for each organizational unit by object (personal services, materials and supplies, charges for services, and capital outlays and equipment).

The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the County Commissioners may appropriate. The appropriation resolution is the County Commissioners' authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Commissioners.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the County Auditor. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate that was in effect at the time the final appropriations were passed by the County Commissioners.

LUCAS COUNTY, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The appropriation resolution is subject to amendment by the Commissioners throughout the year with the restriction that appropriations may not exceed estimated revenues by fund. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Commissioners during the year.

Each County department prepares a budget that is approved by the Board of County Commissioners. Modifications to the original budget within expenditure objects can be made by the budget manager in the Auditor's Office. The County maintains budgetary control within an organizational unit and fund by not permitting expenditures and encumbrances to exceed appropriations at the object level (the legal level of control). Unencumbered and unexpended appropriations lapse at year end. Encumbered and unpaid appropriations (reserved for encumbrances) are carried forward to the next year as authority for expenditures. The Clerk of Courts Investment Pool fund and the miscellaneous fund do not have legally adopted budgets.

G. Cash Equivalents and Investments

To improve cash management, cash received by the County is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the County's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Investments" on the financial statements.

During 2022, investments were limited to nonnegotiable certificates of deposit, Federal Farm Credit Bank (FFCB) securities, Federal Home Loan Bank (FHLB) securities, Federal Home Loan Mortgage Corporation (FHLMC) securities, Federal National Mortgage Association (FNMA) securities, Agricultural Government Mortgage (AGM) securities, commercial paper, foreign government bonds, Corporate bonds, negotiable certificate of deposit, Municipal bonds, U.S. Treasury Notes, State Treasury Asset Reserve of Ohio (STAR Ohio), and U.S. government money market funds. Except for investments in STAR Ohio and nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as nonnegotiable certificates of deposit, are reported at cost.

During 2022, the County invested in STAR Ohio. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The County measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2022, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice for deposits and withdrawals of \$100 million or more is encouraged. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

LUCAS COUNTY, OHIO

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Under existing Ohio statutes, all investment earnings are assigned to the General Fund unless statutorily required to be credited to a specific fund. Interest revenue credited to the General Fund during 2022 amounted to \$4,777,538 which includes \$4,375,272 assigned from other County funds, as not all funds of the County receive interest earnings.

For purposes of the statement of cash flows, investments with an original maturity of three months or less and investments of the cash management pool are considered to be cash equivalents.

H. Inventories of Materials and Supplies

Inventory is valued at cost using the first-in, first-out method. Inventory is recorded as an expenditure/expense when consumed. Governmental fund balance has been presented as nonspendable equal to the balance of the inventory at year end.

I. Capital Assets

Capital assets, including property, plant, equipment, intangible assets and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$25,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

In the case of the initial capitalization of infrastructure assets (i.e., those reported by governmental activities), the County chose to include all such items regardless of their acquisition date. The County's intangible assets include right of way and internally generated computer software. Donated capital assets are recorded at their acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of proprietary capital assets is included as part of the capitalized value of the assets constructed.

All reported capital assets, except land, right of way and construction in progress, are depreciated using the straight-line method over the following estimated useful lives, and these estimated useful lives may be periodically reviewed:

| <u>Description</u> | <u>Estimated Useful Lives</u> |
|---|-------------------------------|
| Furniture, fixtures and equipment | 5 - 20 years |
| Computer software | 5 years |
| Buildings, structures, improvements | 20 - 40 years |
| Land improvements (water and sewer lines) | 40 years |
| Bridges and culverts (components of infrastructure) | 50 years |
| Roads (a component of infrastructure) | 20 - 40 years |
| Intangible leased assets | 5 - 20 years |

The County is reporting intangible right to use assets related to leased equipment and buildings. The intangible assets are being amortized in a systematic and rational manner of the shorter of the lease term or the useful life of the underlying asset.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

J. Grants and Other Intergovernmental Revenues

Local government fund revenues are recorded as receivables and revenues when measurable and available. Assistance awards made on the basis of entitlement are recorded as intergovernmental receivables and revenues when entitlement occurs. Federal and State reimbursement-type grants for the acquisition or construction of capital assets are recorded as receivables and capital contributions revenue when the related expenses are incurred. All other Federal and State reimbursement-type grants are recorded as receivables and revenues when the related expenditures/expenses are incurred. In the governmental funds, the portion of the receivable that will not be received in the available period is reported as a deferred inflow of resources.

K. Interfund Transactions

During the normal course of operations, the County has numerous transactions between funds. These transactions include charges for services provided by certain internal service funds to other funds and transfers. Transfers represent transfers of resources from a fund receiving revenue to a fund through which those resources will be expended and are recorded as other financing sources (uses) in governmental fund types and as transfers in proprietary funds.

The internal service funds record charges for services to all County funds and departments and other governmental units as operating revenue. Both governmental and proprietary funds record these payments to the internal service funds as operating expenditures/expenses. The County uses internal service funds to account for self-funded insurance programs, risk retention insurance, central supplies, vehicle maintenance, telecommunications, and centralized drug testing and imaging.

L. Compensated Absences

A liability for vacation leave, sick leave, and compensatory time is accrued if: a) the employee's rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. A liability for sick leave is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to receive termination payments, as well as those employees expected to become eligible in the future. Sick leave benefits are accrued using the "vesting" method.

Normally, all vacation time is to be taken in the year available. Unused vacation is payable upon termination of employment. Unused sick time may be accumulated until retirement. Employees with a minimum of ten years of service are paid one fourth of accumulated sick time with a maximum of 30 days; however, this limit is subject to the policy of each elected office, agency board, or the collective bargaining agreement in force. In general, employees are eligible to be paid for unused compensatory time upon termination of employment. All sick, vacation, and compensatory payments are made at employees' current wage rates.

The County records accumulated unpaid vacation, overtime pay, and vested sick time benefits as accrued compensated absences payable when earned by employees. The entire compensated absences liability is reported on the governmental-wide financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

M. Self-Funded Insurance

The County is self-funded for health, dental, and prescription drug benefits. Each of these activities is reported in a separate internal service fund. The programs are administered by third-party administrators that provide claims review and processing services. Each County fund is charged a proportionate share of the cost for covered employees. Payment of these benefits is accounted for in an internal service fund. The County records a liability for incurred but unreported claims at year end based upon an actuarial estimate provided by Oliver Wyman, third-party actuary. See Note 18 for further information regarding the County's self-funded health, dental, and prescription drug program.

The County's Self-Funded Workers' Compensation Fund (an internal service fund) accounts for and finances its uninsured risks of loss for workers' compensation claims. The County participated in an individual retrospective rating plan for years 2008-2014. The County began participating in a group retrospectively rated policy in 2015. Under the individual retrospective rating plan, the Self-Funded Workers' Compensation Fund provides coverage for up to a maximum of \$300,000 for each workers' compensation claim. Under the group retrospective rating plan, the County pays a premium to the Ohio Bureau of Workers' Compensation (BWC) and BWC pays the cost of all claims. The County will pay premiums to the State of Ohio Bureau of Workers' Compensation for claims in excess of coverage provided by the fund. In addition, the fund will pay assessments to the Bureau of Workers' Compensation for administration and payment of claims.

All funds of the County participate in the program and make payments to the Self-Funded Workers' Compensation Fund based on their program usage to cover actuarial estimates of the amounts needed to pay current-year claims. A future retrospective premium liability of \$307,760 is reported in the fund at December 31, 2022 based on the requirements that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. This liability includes an amount for future retrospective premium payments related to the County's individual retrospective rating plan for years 2008-2014. The estimated future retrospective premiums approximate the claims liability.

Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Liabilities for losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their nominal value.

The County's Risk Retention Fund (an internal service fund) accounts for and manages liability insurance County-wide. County departments are billed based upon the cost of the insurance policies obtained from commercial carriers. This fund accounts for the claims and administration of the liability insurance coverage.

There have been no significant reductions in coverage from the prior year and settled claims have not exceeded commercial coverage in any of the last three years.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

N. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable in the general fund, unclaimed monies and year end balances of materials and supplies inventory and prepayments.

Restricted - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Commissioners (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the Board of Commissioners removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted nor committed. In the general fund, assigned amounts represent intended uses established by policies of the Board of Commissioners, which includes giving the County Auditor the authority to constrain monies for intended purposes. The Board of Commissioners has, by resolution, authorized the County Auditor to assign fund balances for encumbrances outstanding at year end.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The County applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) resources are available. Similarly, within unrestricted resources, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted resources could be used. See Note 14 for further detail on the components of fund balance classifications at year end.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

O. Prepayments

Payments made to vendors for services that benefit future periods are recorded as prepayments in both government-wide and fund financial statements. A current asset for the prepaid amount is recorded at the time of purchase, and the expenditure is reported in the year in which services are consumed. Governmental fund balance has been presented as nonspendable equal to the balance of the prepayments at year end.

P. Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water Supply System Fund, the Wastewater Treatment Fund, the Sewer System Fund, the nonmajor enterprise funds, and of the County's internal service funds are charges to customers for sales and services. The County also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Q. Interfund Balances

On fund financial statements, receivables and payables resulting from the routine lag between the dates interfund goods and services are provided or reimbursable expenditures occur are classified as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the year are referred to as "interfund receivable/interfund payable." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as a component of the internal balance reported on the statement of net position.

R. Net Position

Net position represents the difference between assets plus deferred outflows of resources less liabilities and deferred inflows of resources. The County's net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt are also included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use, either through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

S. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only for amounts due to employees who have separated at year end. Bonds, leases, financed purchase note payables, and long-term loans are recognized as a liability on the governmental fund financial statements when due. Net pension/asset/liability and net OPEB asset/liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

T. Bond Issuance Costs, Bond Premiums and Discounts, Accounting Gain or Loss

On both the government-wide financial statements and the fund financial statements, bond issuance costs are recognized in the period in which these items are incurred.

On the government-wide financial statements, bond premiums and discounts are amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds and bond discounts are presented as a reduction to the face amount of the bonds. On the governmental fund financial statements, bond premiums and discounts are recognized in the period in which these items are incurred. The reconciliation between the face value of bonds and the amount reported on the statement of net position is presented in Note 10.

For current and advance refundings resulting in the defeasance of debt reported in the government-wide financial statements and enterprise funds, the difference between the reacquisition price and the net carrying amount of the old debt is amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred inflow of resources or a deferred outflow of resources.

U. Contributions of Capital

Contributions of capital in proprietary fund financial statements and for the business-type activities arise from contributions of capital assets or from grants or outside contributions of resources restricted to capital acquisition and construction. Capital contributions are reported as capital contributions revenue in the proprietary fund financial statements and as capital grants and contributions on the statement of activities.

V. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

W. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, net pension asset, net OPEB asset, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For 2022, the County has implemented GASB Statement No. 87, "Leases", GASB Implementation Guide 2019-3, "Leases", GASB Implementation Guide 2020-1, "Implementation Guide Update - 2020", GASB Statement No. 91, "Conduit Debt Obligations", GASB Statement No. 92, "Omnibus 2020", GASB Statement No. 93, "Replacement of Interbank Offered Rates", GASB Statement No. 97, "Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32" and certain paragraphs of GASB Statement No. 99, "Omnibus 2022".

GASB Statement No. 87 and GASB Implementation Guide 2019-3 enhance the relevance and consistency of information of the government's leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

These changes were incorporated in the County's 2022 financial statements. The County recognized \$2,739,503 in governmental activities and \$7,236 in business-type activities in leases payable at January 1, 2022; however, this entire amount was offset by the intangible asset, right to use lease - equipment. In the business-type activities, the County recategorized \$210,793 in capital leases to leases payable and \$264,231 in capital assets, net from the equipment category to intangible leased equipment.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

GASB Implementation Guide 2020-1 provides clarification on issues related to previously established GASB guidance. The implementation of GASB Implementation Guide 2020-1 did not have an effect on the financial statements of the County.

GASB Statement No. 91 provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The implementation of GASB Statement No. 91 did not have an effect on the financial statements of the County.

GASB Statement No. 92 enhances comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The implementation of GASB Statement No. 92 did not have an effect on the financial statements of the County.

GASB Statement No. 93 establishes accounting and financial reporting requirements related to the replacement of Interbank Offered Rates (IBORs) in hedging derivative instruments and leases. It also identifies appropriate benchmark interest rates for hedging derivative instruments. The implementation of GASB Statement No. 93 did not have an effect on the financial statements of the County.

GASB Statement No. 97 is to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The implementation of GASB Statement No. 97 did not have an effect on the financial statements of the County.

GASB Statement No. 99 is to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The implementation of GASB Statement No. 99 did not have an effect on the financial statements of the County.

B. Deficit Fund Balances

Fund balances at December 31, 2022 included the following individual fund deficits:

| <u>Nonmajor funds</u> | <u>Deficit</u> |
|-----------------------|----------------|
| Workforce development | \$666,451 |
| Miscellaneous | 12,942 |

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

C. Restatement of Net Position

The following correction of an error had an effect on the net position as reported at December 31, 2021 for the County's component units:

| | <u>Component Units</u> |
|--|----------------------------|
| Net position as previously reported | \$66,170,145 |
| Current liabilities | <u>2,206,283</u> |
| Restated net position at January 1, 2022 | <u>\$68,376,428</u> |

NOTE 4 - POOLED CASH, CASH EQUIVALENTS AND INVESTMENTS

State statutes classify monies held by the County into two categories, as described below.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the County Treasurer has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Inactive monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

3. Written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio or its political subdivisions provided that such political subdivisions are located wholly or partly within the County, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts, including, but not limited to, passbook accounts, in any eligible institution mentioned in section 135.32 of the Revised Code;
6. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool, the State Treasury Asset Reserve of Ohio (STAR Ohio);
8. Securities lending agreements in which the County lends securities and the eligible institution agrees to exchange either securities described in division (1), (2), cash, or both securities and cash, equal value for equal value;
9. High grade commercial paper issued by companies incorporated under the laws of the United States that are rated in the highest classification established by at least two nationally recognized standard rating services. Commercial paper notes are limited to final maturities of 270 days after the date of purchase and must not exceed ten percent of the aggregate value of the outstanding commercial paper of the issuing corporation and not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met; and
10. Bankers acceptances of banks that are insured by the Federal Deposit Insurance Corporation (FDIC). Bankers acceptances are limited to final maturities of 180 days after the date of purchase and must be eligible for purchase by the Federal Reserve System and not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met.

Protection of the deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the County and must be purchased with the expectation that it will be held to maturity.

NOTE 4 - POOLED CASH, CASH EQUIVALENTS AND INVESTMENTS - (Continued)

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian. Also, investments in foreign nations that are diplomatically recognized by the United States are limited to 1% of the total average portfolio.

A. Cash on Hand

At year end, the County had \$5,750 in undeposited cash on hand and \$11,750 in undeposited cash in segregated accounts held outside of the County's internal investment pool. This amount is included on the financial statements of the County as part of "equity in pooled cash and investments."

B. Cash in Segregated Accounts

At year end, the County had \$9,722,046 of cash and cash equivalents deposited separate from the County's internal investment pool. This amount is included in the amount of "Deposits with Financial Institutions" and "Investments" below.

C. Restricted Equity in Pooled Cash and Investments

At year-end, the County had \$7,007,595 on deposit with a financial institution for monies set aside for debt service payments and a debt service reserve related to bonds held by the Port Authority. The amount held by the Trustee is included in the County's depository balance below.

D. Deposits with Financial Institutions

At December 31, 2022, the carrying amount of all County deposits was \$25,092,431 and the bank balance was \$29,429,896. Of the bank balance, \$11,626,574 was covered by the FDIC and \$17,803,322 was collateralized by the Ohio Pooled Collateral System.

Custodial credit risk is the risk that, in the event of bank failure, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. The County has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the County and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2022, the County was in the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the County to a successful claim by the FDIC.

The County categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The County's investments in U.S. government money market mutual funds are valued using quoted market prices in active markets (Level 1 inputs). The County's investments in federal agency securities (FFCB, FHLB, FHLMC, FNMA, AGM), U.S. Treasury notes, foreign government bonds, commercial paper, corporate bonds, negotiable CDs, and municipal bonds are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments with interest rates that are fixed for longer periods are likely to be subject to more variability in their fair values as a result of future changes in interest rates. The County's investment policy minimizes interest rate risk by diversifying assets and maturity dates while maintaining adequate liquidity to meet current obligations without a sale of securities.

LUCAS COUNTY, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 4 - POOLED CASH, CASH EQUIVALENTS AND INVESTMENTS - (Continued)

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit quality information - as commonly expressed in terms of the credit ratings issued by the nationally recognized statistical rating organizations (NRSRO's) such as Moody's Investors Service, Standard & Poor's, or Fitch Ratings, provides a current depiction of potential variable cash flows and credit risk. The County's investments in federal agency securities and U.S. Treasury Notes were rated AA+ by Standard & Poor's and Aaa by Moody's. Standard & Poor's has assigned STAR Ohio and the U.S. Government Money Market Mutual Funds an AAAM money market rating. The foreign government bonds are rated AA- by Standard & Poor's and A1 by Moody's. The investments in commercial paper were rated A-1 and A1+ by Standard & Poor's and P-1 by Moody's. The investments in corporate bonds were rated AA+ by Standard & Poor's and Aa1 by Moody's. The investments in municipal bonds were rated SP-1+ by Standard & Poor's and were not rated by Moody's. The investments in negotiable CDs were not rated.

Foreign Currency Risk: Lucas County has a formal policy regarding foreign government investment, limiting this investment to one percent of the total average portfolio. Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. At December 31, 2022, the County had exposure of approximately \$2,500,000 to foreign currency risk (Israeli currency - shekel).

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counter party, the County will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. All of the County's investments are insured or registered, or the securities are held by the County or its agent in the County's name. The County's investment policy minimizes credit risk and custodial credit risk by (1) diversifying assets by issuer and (2) ensuring that required, minimum credit quality ratings exist prior to the purchase of commercial paper and bankers acceptances. At December 31, 2022, the County was not subject to custodial credit risk on investments.

Transfers are used to (1) move revenues from the fund required by statute or budget to collect them to the fund required by statute or budget to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the Debt Service Fund as debt service payments become due, and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds.

The transfer from the nonmajor governmental funds to the general fund is to close certain departments and combine with a general fund department. The transfers from the water supply system and sewer system major enterprise funds is to provide funds for debt service payments. The transfer from the nonmajor governmental funds to the nonmajor governmental funds is to provide funds to the County 911 system and EMS services.

Interfund transfers between governmental funds are eliminated for reporting on the Statement of Activities. Residual transfers between governmental activities and business-type activities are reported on the Statement of Activities.

- B. Amounts “due to other funds” and “due from other funds” consisted of the following at December 31, 2022, as reported on the fund financial statements:

| <u>Due To Other Funds</u> | <u>Due From Other Funds</u> | <u>Amount</u> |

NOTE 5 - INTERFUND TRANSACTIONS - (Continued)

Balances due to/due from other funds resulted from the routine lag between the dates interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in accounting system, and payments between funds are made.

Amounts due to/from other funds between governmental funds are eliminated on the Statement of Net Position. Amounts due to/from other funds between governmental activities and business-type activities are reported as a component of the internal balance reported on the Statement of Net Position.

NOTE 6 - TAXES

A. Property Taxes

Property taxes include amounts levied against all real and public utility property located in the County. Taxes collected from real property taxes (other than public utility) in one calendar year are levied in the preceding calendar year on the assessed value as of January 1 of that preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revaluated every six years. Real property taxes are payable annually or semi-annually. If paid annually or semi-annually in 2022, the first payment was due January 31, 2022 and the remainder was payable by July 31, 2022.

Public utility real taxes are collected in one calendar year and levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. Public utility property taxes became a lien December 31, 2021, are levied after October 1, 2022, and are collected in 2023 with real property taxes. Public utility property taxes are payable on the same dates as real property taxes described previously. Whereas collectible delinquent property taxes have been accrued as revenue on a full accrual basis, it is classified as deferred inflow of resources on a modified accrual basis.

State law eliminated the current assessment of tangible personal property after 2010. Therefore, tangible personal property tax revenues received in calendar year 2011 and beyond (other than public utility property) represent delinquent collections.

Provisions of House Bill No. 66 (HB 66) signed into law on June 30, 2005 required "reimbursement" payments through 2017 for the phase out of the tangible personal property tax. The phase-out payments associated with HB 66 were accelerated by the State through its biennial budget, passed June 30, 2011. Effects on Lucas County will include the elimination of most levy-funded reimbursements after 2012. However, reimbursements will continue in a reduced form and extend through 2030 for the following County levies and agencies: Board of Developmental Disabilities, Board of Mental Health, Children Services Board, and the Senior Services levy.

NOTE 6 - TAXES - (Continued)

The full tax rate for all County operations for the year ended December 31, 2022 was \$17.42 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2022 property tax receipts were based are as follows:

| | |
|-------------------------------|------------------|
| <u>Real Property</u> | |
| Residential/Agricultural | \$ 6,442,628,380 |
| Commercial/Industrial/Mineral | 2,083,509,730 |

| Real | 31,065,650 |
| Personal | 506,177,340 |
| Total Assessed Value | \$ 9,063,381,100 |

Ohio law prohibits taxation of property from all taxing authorities in excess of 10.00 mills of assessed value without a vote of the people. Presently, the County levies 2.00 mills within the 10.00 mill limit for the General Fund. An additional 15.42 mills have been levied for voted millage. A summary of the voted and unvoted millage collected in 2022 is as follows:

| <u>Purpose</u> | Voter Authorized Rate (a) | <u>Effective Rate Levied for 2022 Collection Year (b)</u> | | Final Collection Year |

(a) Dollars per \$1,000 of assessed valuation.

(b) Ohio law provides for a reduction of certain voted levies to offset inflation in the value of real property. Levy rates are subject to change.

B. Tax Abatements

As of December 31, 2022, the County provides tax abatements through two programs - Community Reinvestment Area (CRA) and Enterprise Zone (Ezone). These programs relate to the abatement of property taxes.

LUCAS COUNTY, OHIO

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

NOTE 6 - TAXES - (Continued)

CRA - Under the authority of Ohio Revised Code (ORC) Section 3735.67, the CRA program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. CRA's are areas of land in which property owners can receive tax incentives for investing in real property improvements. Under the CRA program, local governments petition to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing is desired. Once an area is confirmed by the ODSA, local governments may offer real property tax exemptions to taxpayers that invest in that area. Property owners in the CRA can receive temporary tax abatements for renovation of existing structures and new construction in these areas. Property owners apply to the local legislative authority for approval to renovate or construct in the CRA. Upon approval and certification of completion, the amount of the abatement is deducted from the individual or entity's property tax bill.

Ezone - Under the authority of ORC Sections 5709.62 and 5709.63, the Ezone program is an economic development tool administered by municipal and county governments that provides real and personal property tax exemptions to businesses making investments in Ohio. An Ezone is a designated area of land in which businesses can receive tax incentives in the form of tax exemptions on qualifying new investment. An Ezone's geographic area is identified by the local government involved in the creation of the zone. Once the zone is defined, the local legislative authority participating in the creation must petition the OSDA. The OSDA must then certify the area for it to become an active Enterprise Zone. The local legislative authority negotiates the terms of the Enterprise Zone Agreement (the "Agreement") with the business, which may include tax sharing with the Board of Education. Legislation must then be passed to approve the Agreement. All Agreements must be finalized before the project begins and may contain provisions for the recoupment of taxes should the individual or entity fail to perform. The amount of the abatement is deducted from the business's property tax bill.

The County has entered into agreements to abate property taxes through these programs. During 2022, the County's property tax revenues were reduced as a result of these agreements as follows:

| <u>Tax Abatement Program</u> | <u>County Taxes Abated</u> |
|------------------------------|--------------------------------|
| CRA | \$ 9,314 |
| Ezone | <u>29,892</u> |
| Total | <u>\$ 39,206</u> |

NOTE 6 - TAXES - (Continued)

The County also incurs a reduction in property taxes by agreements entered into by other governments that reduce the County's taxes. The County's property taxes were reduced by the same programs mentioned above that were entered into by other governments. During 2022, the County's property tax revenues were reduced under agreements entered into by other governments as follows:

| <u>Government Entering Into Agreement</u> | <u>Tax Abatement Program</u> | | <u>County Taxes Abated</u> |

| Total | \$ 2,062,452 | \$ 443,063 | \$ 2,505,515 |

NOTE 7 - PERMISSIVE SALES AND USE TAX

In 1970, the County Commissioners, by resolution, imposed a .5% tax on all retail sales, including motor vehicles, made in the County. In 1982, the County Commissioners increased the sales tax by .5% to 1%. In November 1993, Lucas County voters approved a permanent increase of .25% to 1.25% in the sales tax. In April 2015, the County Commissioners increased the sales tax by .25% to 1.50%.

Vendor collections of the tax are paid to the State Treasurer by the 23rd day of the month following collection. The State Tax Commissioner certifies to the State Office of Budget and Management (OBM) the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within 45 days after the end of each month. The OBM then has five days in which to draw the warrant payable to the County.

Proceeds of the tax are credited entirely to the General Fund. Amounts that have been collected by the State and are to be received within 60 days of year end are measurable and considered to be available and are accrued as revenue. Sales tax revenue reported in the General Fund for 2022 amounted to \$123,277,466.

NOTE 10 - LONG-TERM DEBT AND OTHER OBLIGATIONS

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

General Obligation Bonds

General obligation bonds are secured by the County's ability to levy a voted or unvoted property tax within limitations of Ohio Law. All long-term debt issued for governmental purposes of the County and special assessment bonds are retired from the Debt Service Fund.

On September 30, 2011, the County issued \$4,395,000 of Series 2011 Court of Appeals Refunding Bonds for the purpose of currently refunding the outstanding balance of the Series 2003 Court of Appeals Bonds. The County deposited bond proceeds and other local monies in the amount of \$4,422,869 with an escrow agent to refund the bonds. The Series 2011 Court of Appeals refunding bonds bear annual interest ranging from 2.25-4.00% and mature December 1, 2023. Principal payments are due December 1 of each year and interest payments are due June 1 and December 1 of each year.

The reacquisition price exceeded the net carrying value of the old debt by \$92,869. This amount is being amortized against interest expense over the life of the refunding bonds. The unamortized balance of the deferred charge on debt refunding is reported as a deferred outflow of resources on the government-wide financial statements.

On December 28, 2016, the County issued \$39,815,000 of Series 2016 Tax-Exempt Refunding Bonds for the purpose of advance refunding the callable portion of the Series 2010 Various Purpose Tax-Exempt Arena Improvement and Convention Center Bonds (\$31,750,000) and the Series 2010 Taxable Arena Improvement Bonds (\$5,000,000). The County deposited bond proceeds in the amount of \$40,473,384 with an escrow agent to refund the bonds. The refunded bonds are not included in the County's outstanding debt since the County has satisfied its obligations through the refunding. The assets held in trust as a result of the refunding are not included in the financial statements. At December 31, 2022, the balance of the refunded Series 2010 Various Purpose Tax-Exempt Arena Improvement and Convention Center Bonds and the Series 2010 Taxable Arena Improvement Bonds were \$31,750,000 and \$4,720,000, respectively. The Series 2016 Tax-Exempt Refunding Bonds bear annual interest ranging from 2.00-4.00% and mature October 1, 2040. Proceeds of the refunding bonds are reported in the Debt Service fund with principal payments due October 1 of each year and interest payments due April 1 and October 1 of each year.

NOTE 10 - LONG-TERM DEBT AND OTHER OBLIGATIONS - (Continued)

On June 18, 2019, the County issued \$5,000,000 in Series 2019 Various Purpose Bonds. The bonds were issued to finance (1) a portion of the cost of constructing, reconstructing, widening, improving, grading, draining, paving, and extending roads, highways, expressways, freeways, streets, curbs and gutters, and related bridges, viaducts, overpasses, underpasses, service and access highways, with all necessary appurtenances thereto, and (2) the property owners' portion, in anticipation of the collection of special assessments heretofore levied. The Series 2019 Various Purpose Bonds mature on December 1, 2029. Principal payments are due December 1 of each year and interest payments are due June 1 and December 1 of each year.

On October 15, 2020, the County issued \$17,000,000 in Series 2020 Capital Facilities Improvement Bonds. The bonds were issued to finance the cost of acquiring, remodeling, renovating, furnishing, equipping, and otherwise improving facilities and improving the site thereof. The Series 2020 Capital Facilities Improvement Bonds mature on December 1, 2040. Principal payments are due December 1 of each year and interest payments are due June 1 and December 1 of each year.

On October 13, 2022, the County issued \$41,580,000 in Series 2022 Long Term General Obligation Bonds. The bonds were issued to finance the cost of remodeling, renovating, furnishing, equipping, and otherwise improving facilities and improving the site of the Convention Center. The Series 2022 Long Term General Obligation Bonds mature on December 1, 2052. Principal payments are due December 1 of each year and interest payments are due June 1 and December 1 of each year.

Special Assessment Bonds with Governmental Commitment

Special assessment bonds are secured by an unvoted property tax levy; however, each bond resolution provides for principal and interest to also be paid from special assessments levied for the projects financed by those bonds and consequently those bonds are treated as "self-supporting."

Revenue Bonds

The County has pledged future revenues, net of specified operating expenses, to repay \$725,700 in Series 2006 revenue bonds. Revenue bonds do not represent a general obligation debt or a pledge of the full faith and credit or taxing power of the County. Proceeds of the bonds were used to construct a portion of sanitary sewer number 772 in Jerusalem Township. The Series 2006 sewer construction bonds are payable from S.S.772 revenues and are payable through 2046. The 2022 principal and interest payments on the bonds required 100% of net revenues. The total principal and interest remaining to be paid on the Series 2006 revenue bonds is \$955,832. Principal and interest paid for the current year and total net revenues were \$39,868 and \$42,521 respectively.

Ohio Public Works Commission (OPWC) Loans

The County has issued OPWC loans to finance various road improvements (governmental activities) and various wastewater and sewer system improvements (business-type activities). The OPWC loans are interest free loans. Debt service payments on governmental activities OPWC loans are made from the Motor Vehicle and Gas Tax fund (a nonmajor governmental fund) and debt service payments from business-type activities OPWC loans are made from the Wastewater Treatment Fund, the Sewer System Fund, and the Water Supply Fund.

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 10 - LONG-TERM DEBT AND OTHER OBLIGATIONS - (Continued)

OPWC loans are direct borrowings that have terms negotiated directly between the County and the OPWC and are not offered for public sale. In the event of default, the OPWC may (1) charge an 8% default interest rate from the date of the default to the date of the payment and charge the County for all costs incurred by the OPWC in curing the default, (2) in accordance with Ohio Revised Code 164.05, direct the county treasurer of the county in which the County is located to pay the amount of the default from funds that would otherwise be appropriated to the County from such county's undivided local government fund pursuant to ORC 5747.51-5747.53, or (3) at its discretion, declare the entire principal amount of loan then remaining unpaid, together with all accrued interest and other charges, become immediately due and payable.

Ohio Water Development (OWDA) Loans

The County has issued OWDA loans to finance various construction and improvement projects related to the governmental and business-type activities. The OWDA loans bear interest rates ranging from 2.45% to 6.72%. Debt service payments on OWDA loans are made from the following enterprise funds: Water Supply System Fund, Wastewater Treatment Fund, Sewer System Fund, and Solid Waste Fund (a nonmajor enterprise fund).

OWDA loans are direct borrowings that have terms negotiated directly between the County and the OWDA and are not offered for public sale. In the event of default, the OWDA may declare the full amount of the then unpaid original loan amount to be immediately due and payable and/or require the County to pay any fines, penalties, interest, or late charges associated with the default.

| Compensation | 993,539 | 13,808 |
| Total | \$ 22,997,874 | \$ 579,623 |

Accrued compensated absences will be paid from the fund from which the employee is paid. The governmental activities compensated absence liability will be paid primarily from the following governmental funds: General Fund, Children Services Board Fund, Board of Developmental Disabilities Fund, Job and Family Services Fund (a nonmajor governmental fund), and Child Support Enforcement Custodial fund (a nonmajor governmental fund). The business-type activities compensated absence liability will be paid from the following enterprise funds: Wastewater Treatment Fund, Sanitary Engineer Fund (a nonmajor enterprise fund), and Solid Waste Fund (a nonmajor enterprise fund).

Landfill Obligation

The liability for the landfill obligation is described in Note 16.

Claims Payable

The liability for the claims payable is described in Note 18.

Financed Purchase Note Payable

The liability for the financed purchase note payable is described in Note 19.

Net Pension Liability and Net OPEB Liability

The County pays obligations related to employee compensation from the fund benefitting from their services. The governmental activities net pension and net OPEB liability will be paid primarily from the following governmental funds: General Fund, Children Services Board Fund, Board of Developmental Disabilities Fund, Job and Family Services Fund (a nonmajor governmental fund), and Child Support Enforcement Custodial fund (a nonmajor governmental fund). The business-type activities net pension and net OPEB liability will be paid from the following enterprise funds: Wastewater Treatment Fund, Sanitary Engineer Fund (a nonmajor enterprise fund), and Solid Waste Fund (a nonmajor enterprise fund). NOTE 10 - LONG-TERM DEBT AND OTHER OBLIGATIONS - (Continued)

Lease Payable

The County has entered into lease agreements for the use of right to use buildings and equipment. Due to the implementation of GASB Statement No. 87, the County will report an intangible capital asset and corresponding liability for the future scheduled payments under the leases. The lease payments will be paid from the general fund and the countywide communication system nonmajor special revenue fund.

The County has entered into lease agreements for buildings and equipment at varying years and terms as follows:

| <u>Purpose</u> | <u>Lease Commencement Date</u> | <u>Years</u> | <u>Lease End Date</u> | <u>Payment Method</u> |
|----------------|--|--------------|-------------------------------|---------------------------|
| Building | 2006 - 2017 | 5 - 30 | 2029 - 2036 | Monthly |
| Vehicles | 2020 | 3 - 6 | 2023 - 2026 | Monthly |

The following is a schedule of future lease payments under the lease agreements:

| <u>Fiscal Year</u> | <u>Principal</u> | <u>Interest</u> | <u>Total</u> |
|--------------------|---------------------|-------------------|---------------------|
| 2023 | \$ 320,841 | \$ 125,249 | \$ 446,090 |

Component Units

The County's component units have the following long-term obligations due at December 31, 2022:

At December 31, 2022, the Toledo Mud Hens has a long-term deferred compensation liability of \$544,151. Of this total, \$530,021, is considered due in more than one year and \$14,130 is due within one year.

The Lucas County Transportation Improvement District has a long-term SIB loan. Interest on the loan accrues at 3.00% and is due semi-annually. At December 31, 2022, the balance of the SIB loan is \$7,338,906. Of this amount \$363,444 is due within one year and \$6,975,462 is due in more than one year.

The Lucas County Economic Development Corporation has a long-term loan agreement and line of credit promissory note payable. Interest on the note accrues at 3.25% and is due quarterly. At December 31, 2022, the balance of the long-term note payable is \$40,366,401.

NOTE 10 - LONG-TERM DEBT AND OTHER OBLIGATIONS - (Continued)

Conduit Debt Obligations

From time to time, the County has issued Industrial Revenue Bonds, Hospital Facilities Bonds and Commercial Housing Revenue Bonds to provide financial assistance to private, profit and nonprofit sector entities for the acquisition and construction of industrial, hospital and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received from the private sector entities served. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the County, the State of Ohio, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2022, there were 17 conduit obligations outstanding. The aggregate principal amount payable for all conduit obligations totaled \$620,130,000, including \$594,055,000 for hospitals, \$8,000,000 for industrial development, economic, and school facilities, and \$18,075,000 for housing.

NOTE 11 - DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Asset and Net OPEB Asset

The net pension liability/asset and the net OPEB asset reported on the statement of net position represents a liability or asset to employees for pensions and OPEB, respectively.

Pensions and OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions and OPEB are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability/asset and the net OPEB asset represent the County's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost-of-living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the County's obligation for this liability to annually required payments. The County cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the County does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

LUCAS COUNTY, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

GASB 68/75 assumes the liability/asset is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability. Resulting adjustments to the net pension/OPEB liability would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require, the retirement systems to provide health care to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension/OPEB liability/asset on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in due to other governments on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the pension disclosures. See Note 12 for the OPEB disclosures.

Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - County employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Report referenced above for additional information, including requirements for reduced and unreduced benefits):

| Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013 | Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013 | Group C Members not in other Groups and members hired on or after January 7, 2013 |

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost of living adjustment is 3 percent. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.00%.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Beginning in 2022, the Combined Plan will be consolidated under the Traditional Pension Plan (defined benefit plan) and the Combined Plan option will no longer be available for new hires beginning in 2022.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

| | State and Local | Public Safety | Law Enforcement |
|--|--------------------|------------------|--------------------|
| 2022 Statutory Maximum Contribution Rates | | | |
| Employer | 14.0 % | 18.1 % | 18.1 % |

| Total Employer | 14.0 % | 18.1 % | 18.1 % |
| Employee | 10.0 % | 12.0 % | 13.0 % |

- * This rate is determined by OPERS' Board and has no maximum rate established by ORC.
- ** This employer health care rate is for the traditional and combined plans. The employer contribution for the member-directed plan is 4.00%.
- *** This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.
- **** Member contributions within the combined plan are not used to fund the defined benefit retirement allowance

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The County's contractually required contribution for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan was \$22,460,885 for 2022. Of this amount, \$958,966 is reported as due to other governments.

Net Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability and net pension asset for OPERS were measured as of December 31, 2021, and the total pension liability or asset used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability or asset was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities.

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2021, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2021, are presented below.

| | |
|--|--|
| Wage inflation | |
| Current measurement date | 2.75% |
| Prior measurement date | 3.25% |
| Future salary increases, including inflation | |
| Current measurement date | 2.75% to 10.75% including wage inflation |
| Prior measurement date | 3.25% to 10.75% including wage inflation |
| COLA or ad hoc COLA | |
| Current measurement date | Pre 1/7/2013 retirees: 3.00%, simple Post 1/7/2013 retirees: 3.00%, simple through 2022, then 2.05% simple |
| Prior measurement date | Pre 1/7/2013 retirees: 3.00%, simple Post 1/7/2013 retirees: 0.50%, simple through 2021, then 2.15% simple |
| Investment rate of return | |
| Current measurement date | 6.90% |
| Prior measurement date | 7.20% |
| Actuarial cost method | Individual entry age |

In July 2021, the OPERS Board adopted a change in COLA for Post-January 7, 2013 retirees, changing it from 0.50% simple through 2021 then 2.15% simple to 3.00% simple through 2022 then 2.05% simple.

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

The most recent experience study was completed for the five-year period ended December 31, 2020.

During 2021, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was a gain of 15.3% for 2021.

The allocation of investment assets within the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic real rates of return were provided by the Board's investment consultant.

For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2021, these best estimates are summarized in the following table:

| <u>Asset Class</u> | <u>Target Allocation</u> | <u>Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)</u> |
|------------------------|------------------------------|---|
| Fixed income | 24.00 % | 1.03 % |

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

Discount Rate - The discount rate used to measure the total pension liability/asset was 6.90%, post-experience study results, for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan. The discount rate used to measure total pension liability prior to December 31, 2021 was 7.20%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability/Asset to Changes in the Discount Rate - The following table presents the proportionate share of the net pension liability/asset calculated using the current period discount rate assumption of 6.90%, as well as what the proportionate share of the net pension liability/asset would be if it were calculated using a discount rate that is one-percentage-point lower (5.90%) or one-percentage-point higher (7.90%) than the current rate:

Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

LUCAS COUNTY, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. Currently, Medicare-eligible retirees are able to select medical and prescription drug plans from a range of options and may elect optional vision and dental plans. Retirees and eligible dependents enrolled in Medicare Parts A and B have the option to enroll in a Medicare supplemental plan with the assistance of the OPERS Medicare Connector. The OPERS Medicare Connector is a relationship with a vendor selected by OPERS to assist retirees, spouses and dependents with selecting a medical and pharmacy plan. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are deposited into an HRA. For non-Medicare retirees and eligible dependents, OPERS sponsors medical and prescription coverage through a professionally managed self-insured plan. An allowance to offset a portion of the monthly premium is offered to retirees and eligible dependents. The allowance is based on the retiree's years of service and age when they first enrolled in OPERS coverage.

Medicare-eligible retirees who choose to become re-employed or survivors who become employed in an OPERS-covered position are prohibited from participating in an HRA. For this group of retirees, OPERS sponsors secondary coverage through a professionally managed self-insured program. Retirees who enroll in this plan are provided with a monthly allowance to offset a portion of the monthly premium. Medicare-eligible spouses and dependents can also enroll in this plan as long as the retiree is enrolled.

OPERS provides a monthly allowance for health care coverage for eligible retirees and their eligible dependents. The base allowance is determined by OPERS.

The health care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

Effective January 1, 2022, OPERS discontinued the group plans currently offered to non-Medicare retirees and re-employed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. Current retirees eligible (or who became eligible prior to January 1, 2022) to participate in the OPERS health care program will continue to be eligible after January 1, 2022. Eligibility requirements will change for those retiring after January 1, 2022, with differing eligibility requirements for Medicare retirees and non-Medicare retirees. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2022, state and local employers contributed at a rate of 14.00% of earnable salary and public safety and law enforcement employers contributed at 18.10%. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2022, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2022 was 4.00%.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The County's contractually required contribution was \$197,574 for 2022. Of this amount, \$8,435 is reported as due to other governments.

Net OPEB Assets, OPEB Expense, and Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB asset and total OPEB asset for OPERS were determined by an actuarial valuation as of December 31, 2020, rolled forward to the measurement date of December 31, 2021, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. The County's proportion of the net OPEB asset was based on the County's share of contributions to the retirement plan relative to the contributions of all participating entities.

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2020, rolled forward to the measurement date of December 31, 2021.

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five-year period ended December 31, 2020.

NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

During 2021, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was a gain of 14.3% for 2021.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2021, these best estimates are summarized in the following table:

| <u>Asset Class</u> | <u>Target Allocation</u> | <u>Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)</u> |

NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

Discount Rate - A single discount rate of 6.00% was used to measure the total OPEB liability on the measurement date of December 31, 2021. A single discount rate of 6.00% was used to measure the total OPEB liability on the measurement date of December 31, 2021. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on the actuarial assumed rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 1.84%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through the year 2121. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2121, the duration of the projection period through which projected health care payments are fully funded.

Sensitivity of the County's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate - The following table presents the proportionate share of the net OPEB asset calculated using the single discount rate of 6.00%, as well as what the proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is one-percentage-point lower (5.00%) or one-percentage-point higher (7.00%) than the current rate:

| | 1% Decrease | Current Discount Rate | 1% Increase |
|---|---------------|--------------------------|---------------|
| County's proportionate share of the net OPEB asset | \$ 19,414,503 | \$ 33,012,590 | \$ 44,299,216 |

Sensitivity of the County's Proportionate Share of the Net OPEB Asset to Changes in the Health Care Cost Trend Rate - Changes in the health care cost trend rate may also have a significant impact on the net OPEB asset. The following table presents the net OPEB asset calculated using the assumed trend rates, and the expected net OPEB asset if it were calculated using a health care cost trend rate that is 1.00% lower or 1.00% higher than the current rate.

Retiree health care valuations use a health care cost trend assumption with changes over several years built into that assumption. The near-term rates reflect increases in the current cost of healthcare; the trend starting in 2022 is 5.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health care cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

NOTE 13 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts and disbursements.

The statement of revenues, expenditures, and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund and major special revenues funds are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and the GAAP basis are:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned, committed or restricted fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis);
- (e) Investments are reported at fair value (GAAP basis) rather than cost (budget basis); and,
- (f) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements (as reported in the fund financial statements) to the budgetary basis statements for all governmental funds for which a budgetary basis statement is presented:

| | Net Change in Fund Balance | | | | |
|---|-----------------------------------|----------------------------------|-------------------------------|---|----------------------------|

NOTE 15 - OTHER COMMITMENTS

The County utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the County's commitments for encumbrances in the governmental funds (not already included in payables) were as follows:

| <u>Fund</u> | <u>Year-End Encumbrances</u> |
|-------------------------------------|----------------------------------|
| General | \$ 1,331,550 |
| Children Services Board | 5,784 |
| Board of Developmental Disabilities | 1,814 |
| Capital Improvements | 9,773,388 |
| Nonmajor Governmental Funds | <u>2,945,763</u> |
| Total | <u>\$ 14,058,299</u> |

NOTE 16 - CONTINGENCIES

The County owns and operates a landfill site located in the western portion of the County. The site accepted solid waste from a number of private and industrial waste haulers from 1954 to its closure in 1976. A solid waste transfer station was operated from May, 1980 through July, 1991. This site is now closed and the County no longer operates a landfill. State and federal laws require the County to clean up, monitor, and maintain the site.

The County engaged a consultant to complete a study regarding the cleanup, monitoring, and maintenance of the site. This study will be subject to review by the Ohio Environmental Protection Agency (Ohio EPA). During 2016, the Ohio EPA approved the County's Work Plan for the landfill which estimates that \$350,000 will be required to clean up, monitor, and maintain the site. In 2022, the County revised its estimated cost to clean up the landfill increasing the estimate by \$46,086. Approximately \$70,000 of the costs are to be incurred in the next year. The current liability of \$70,000 is included in the long-term liability due within a year with the remaining \$280,000 recorded as a long-term liability due in more than one year. The actual cost may be higher due to inflation, changes in technology, or changes in regulations. Funding is expected to be obtained from the issuance of General Obligation notes or bonds and from the State Infrastructure Bond Fund. Other potential sources of revenue include indemnification by generators for response costs incurred. The estimated costs decreased from the prior year primarily due to a decrease in estimated costs associated with engineered cap with active gas venting.

The County is a defendant in a number of other claims and lawsuits which may be classified as routine litigation. In addition, the County is a defendant in numerous other claims and lawsuits ranging from tort liability to civil rights litigation. Management believes that any settlement related to these claims and lawsuits will not have a material adverse effect on the financial position of the County.

The County participates in a number of Federal and State assisted grant programs. These programs are subject to financial and compliance audits by grantors or their representatives. The ultimate obligations that may arise from cost disallowances or noncompliance with program requirements cannot be estimated.

NOTE 18 - RISK MANAGEMENT

Self-Funded Insurance: The County is self-funded for health, dental, and prescription drug benefits. The programs are administered by a third party who provides claims, review, and processing services. Each County fund is charged for its proportionate share of the cost for covered employees. Payment of these benefits is accounted for in internal service funds. The County records a liability for incurred but unreported claims at year end based upon an actuarial estimate provided by Benefits Comprehensive, Inc., a third-party actuary. The County also maintains a Self-Funded Workers' Compensation Fund and a Risk Retention Insurance Fund to manage liability insurance County-wide. Settled claims have not materially exceeded coverage in any of the last three years and there was no significant reduction in coverage from the prior year.

NOTE 18 - RISK MANAGEMENT - (Continued)

The claims liability of \$4,439,778 reported in the internal service funds at December 31, 2022 is based on the requirements of GASB Statement No. 10, as amended, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred, but not reported claims, be reported (see table below). Changes in the funds' claims liability amounts for 2022 and 2021 were:

| | <u>Balance at Beginning of Year</u> | <u>Current Year Claims</u> | <u>Change in Provision for Workers' Compensation Claims</u> | <u>Claim Payments</u> | <u>Balance at End of Year</u> |
|------|---|------------------------------------|---|---------------------------|---------------------------------------|
| 2022 | \$ 4,424,366 | \$ 34,357,487 | \$ 106,340 | \$ (34,448,415) | \$ 4,439,778 |
| 2021 | 5,822,440 | 35,955,140 | 1,721,307 | (39,074,521) | 4,424,366 |

Effective January 1, 2016, the Ohio Bureau of Workers' Compensation transitioned to a prospective billing system for public employers. The 2022 "Change in Provision for Workers' Compensation Claims" includes a \$2,074,418 calendar year 2023 premium payment made in 2022 related to this transition.

The County estimates that \$4,227,804 of the claims payable liability at December 31, 2022 will be paid within one year with the remaining balance, \$211,974, due in more than one year.

NOTE 19 – FINANCED PURCHASE NOTE PAYABLE

In 2020, the County entered into a financed purchase note payable (note payable) agreement with the Huntington National Bank to purchase a sewer operation vector truck. The note payable was in the amount of \$478,229 and matures on November 1, 2023. The note payable carries an interest rate of 2.88%. Principal and interest payments are made from the Sewer System Fund and due on November 1.

The following are the future debt payments of the note payable:

| | <u>Financed purchase note payable</u> | |

FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 20 – LOAN RECEIVABLE

On October 15, 2022, the County issued \$37,455,000 of Taxable Economic Development Revenue Notes-Series 2022 (see Note 9) to provide funds necessary to loan to the Lucas County Economic Development Corporation (LCEDC) for the purpose of paying a portion of the costs of the acquisition and redevelopment of the site generally known as the “Park Inn By Radisson Hotel” located on land situated at the intersection of Summit and Monroe Streets in the City of Toledo adjacent to the facility currently known as the SeaGate Convention Centre. Improvements will include (i) conversion of the existing hotel into a dual branded Hilton Garden Inn with approximately 216 rooms and Hilton Homewood Suites with 93 rooms, (ii) an approximately 120-seat restaurant, (iii) acquisition of parking rights sufficient to provide parking by guests, invitees and customers of the converted hotel, (iv) clearing, improving and equipping its site and related sites, and (v) all sidewalks, access ways and utility connections necessary for the improvements (the “Project”).

On July 22, 2020, the LCEDC entered into an Operating Agreement with Toledo PI Acquisitions, and Continental/FHG Toledo Hotel, LLC. On October 15, 2020, the County and the LCEDC entered into a Loan Agreement whereby the LCEDC is required to make loan payments to the extent the LCEDC receives distributions of Operating Cash Flow pursuant to and defined in the Operating Agreement, and (2) as distributions of Capital Events Cash Flow pursuant and defined in the Operating Agreement. The interest rate on the LCEDC loan, with respect to the period for which the LCEDC interest rate is being determined, shall be the effective annual rate of interest calculated and determined with reference to all interest costs payable by the County on the notes. The LCEDC interest rate may change from time to time to reflect the rates of interest on such debt, as refinanced in whole or in part.

In 2020, the County passed through \$35,955,000 in note proceeds to the LCEDC to fund the hotel project. In 2021, the County passed through an additional \$1,500,000 in note proceeds to the LCEDC for the hotel project. In accordance with the Loan Agreement and the Operating Agreement, the LCEDC will repay the \$37,455,000 loan through funds generated from the renovated hotel operations.

In 2022, the County used the Taxable Economic Development Revenue Notes-Series 2022 to pay off a portion of the Taxable Economic Development Revenue Notes-Series 2021.

A summary of the County’s outstanding loan receivable as of December 31, 2022 follows:

| Loan | Balance 12/31/2021 | New Loans | Repayments | Balance 12/31/2022 |
|--|-----------------------|--------------|-----------------------|-----------------------|
| Lucas County Economic Development Corporation - Hotel Renovation | <u>\$ 38,455,000</u> | <u>\$ -</u> | <u>\$ (1,000,000)</u> | <u>\$ 37,455,000</u> |

NOTE 21 – GUARANTEE AGREEMENT RECEIVABLE/PAYABLE

In 2021, the Lucas County Transportation Improvement District (TID) closed on an \$8,000,000 SIB loan agreement with the State of Ohio through the Ohio Department of Transportation (ODOT). The term of the loan is for 20 years and carries a 3% interest rate. The loan matures on December 1, 2038. The proceeds were used as the local share of the Dorr Street and I 475/US 23 Interchange project that is being constructed by ODOT.

LUCAS COUNTY, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022*

NOTE 21 – GUARANTEE AGREEMENT RECEIVABLE/PAYABLE - (Continued)

In conjunction with this loan, the County and ODOT have entered into a Guarantee Agreement whereby the County provides a guarantee from its Motor Vehicle Gas Tax Fund (a nonmajor governmental fund) securing repayment of the SIB loan. The TID and the County entered into an Intergovernmental Agreement where the County will make semi-annual payments to the TID in the exact amounts of the debt service due on the SIB loan. The TID is the recipient of the SIB loan while the County, under the Guarantee Agreement, serves as the substantive third-party guarantor of the loan.

In addition to the above, the County entered into an agreement with Springfield Township (Township) where the County bills the Township for the debt service on the SIB loan annually.

The County has recorded a Guarantee Agreement receivable for the amount due from Springfield Township and a Guarantee Agreement payable for the amount due to the TID at December 31, 2022. During 2022, the County paid \$352,781 and \$269,891 in principal and interest to the TID and received the same amounts from the Township.

A summary of the County’s outstanding guarantee agreement receivable/payable as of December 31, 2022 follows:

| Loan | Balance 12/31/2021 | Issues | Repayments | Balance 12/31/2022 |
|--|-----------------------|-------------|---------------------|-----------------------|
| Guarantee agreement receivable/payable | <u>\$ 7,691,687</u> | <u>\$ -</u> | <u>\$ (352,781)</u> | <u>\$ 7,338,906</u> |

NOTE 22 - COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio’s state of emergency ended in June, 2021 while the national state of emergency ended in April 2023. During 2022, the County received COVID-19 funding. The financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the County. The impact on the County’s future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated.

The County’s investment portfolio fluctuates with market conditions, and due to market volatility, the amount of gains or losses that will be realized in subsequent periods, if any, cannot be determined.

NOTE 23 - MISCELLANEOUS REVENUE

Debt service miscellaneous receipts are primarily from suite revenues from the Huntington Center and other county proportional shares of annual debt service. Capital Project miscellaneous receipts consisted primarily of suite revenues from the Huntington Center and naming rights revenues for the SeaGate Convention Center.

LUCAS COUNTY, OHIO

Nonmajor Governmental Funds – Fund Descriptions

Special revenue funds are used to account for the proceeds of specific revenue sources (other than for major capital projects or expendable trusts) that are legally restricted to expenditures for specific purposes. Following is a description of the County's nonmajor special revenue funds:

Job and Family Services Fund

To account for various federal and state grants and reimbursements as well as transfers from the General Fund used for human service programs.

Real Estate Assessment Fund

To account for state mandated county-wide real estate reappraisals that are funded by charges to the County's political subdivisions.

Motor Vehicle and Gas Tax Fund

To account for revenues derived from the sale of motor vehicle licenses and gasoline taxes. Expenditures are restricted by state law to county road and bridge repair/improvement programs.

Emergency Medical Services Fund

To account for emergency medical care financed by a county-wide sales tax.

Emergency Telephone Service Fund

To account for a property tax levy used for emergency telephone assistance.

Child Support Enforcement Fund

To account for poundage fees on child support payments and other local, state, and federal revenues used to administer the County Child Support Enforcement Agency.

Zoo Operating Fund

To account for a property tax levy. Monies are distributed to the Toledo Zoological Society.

Law Library Resources Fund

This accounts for the advancement of legal knowledge and better and more convenient discharge of professional duties. Major funding comes from court fines and penalties.

Senior Services Fund

To account for a property tax levy used for senior services.

Workforce Development Fund

To account for revenues and expenditures associated with the Workforce Investment Act of 1998.

Community Development Grant Fund

To account for grant revenues used for community development.

Stormwater Utility Fund

To account for stormwater utility operations. Prior to 2011, these operations were reported in an enterprise fund.

Disaster Services Emergency Management Agency (EMA) Fund

To account for state monies and local revenues used to operate the County emergency program.

Dog and Kennel Fund

To account for the dog warden's operation that is financed by sales of dog tags and kennel permits, and fine collections.

Hotel Lodging Tax Fund

To account for monies collected and distributed related to the "County Bed Tax."

Domestic Violence Prevention Fund

To account for monies collected for marriage licenses.

Indigent Guardianship Fund

To account for court fees charged according to Section 2101.16(B) of the Ohio Revised Code. These monies are used for attorney fees, evaluations, and investigation expenditures related to indigent individuals.

LUCAS COUNTY, OHIO

Nonmajor Governmental Funds – Fund Descriptions (Continued)

Domestic Relations Court Special Fund

To account for monies collected for special projects.

Coroner Laboratory Fund

To account for revenues received and expenses associated with the laboratory.

Toxicology Lab Fund

To account for revenues received and expenses associated with the laboratory.

Motor Vehicle Enforcement and Education Fund

To account for elimination and prevention of motor accidents through inspections, rules and regulations for operation.

Indigent Drivers Alcohol Treatment Fund

These are court fines from conviction for operating a motor vehicle under the influence. Such monies are used for treatment of offenders charged with OVI who would otherwise not be able to afford such services.

Sheriff Policing Fund

To account for contract fees collected for services which include patrols and dispatching.

Concealed Handgun Fund

To account for fees collected and expenses for the concealed handgun program.

Countywide Communication System Fund

To account for the operation of the county's enhanced 911 system.

DETAC Fund

To account for all fees collected for delinquent real estate taxes, personal property taxes, and manufactured home taxes for the purpose of collecting delinquent real estate taxes.

Tax Certificate Administration Fund

To account for all monies collected by the Treasurer for subsequent transfer of tax certificates or issuing a duplicate.

Nonmajor Enterprise Funds – Fund Descriptions

Enterprise funds are established to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public be financed or recovered primarily through user charges.

The County operates the following *Nonmajor Enterprise Funds* :

Sanitary Engineer Fund

To account for the administrative costs of operating water supply system, wastewater treatment system, and sewer system.

Solid Waste Fund

To account for the administrative costs of County-wide solid waste disposal.

Parking Facilities Fund

To account for the operation of the parking facilities.

Internal Service Funds – Fund Descriptions

Internal service funds account for the financing of goods or services provided by one department to other departments of the government unit, or to other governmental units and agencies on a cost reimbursement basis. The following are the internal service funds which Lucas County operates:

Imaging Lab Fund

To account for salaries, fringe benefits, and various operating costs associated with the conversion of old paper files to more permanent digital files. Users are billed for costs incurred.

Central Supplies Fund

To account for supplies, mailing, and copying services provided to County departments and other governmental units. Users are billed for costs incurred.

Vehicle Maintenance Fund

To account for vehicle maintenance services provided to various County departments and other governmental units. Users are billed for costs incurred.

Telecommunications Fund

To account for interdepartmental charges for the use of the telephone system. Users are billed for costs incurred.

Self-Funded Health Insurance Fund

To account for claims and administration of the health insurance program for covered County employees and eligible dependents. County departments are billed according to the employee's coverage selection.

Self-Funded Dental Insurance Fund

To account for claims and administration of the dental insurance program for covered County employees and eligible dependents. County departments are billed according to the employee's coverage selection.

Risk Retention Insurance Fund

To account for the claims and administration of liability insurance for County departments. The departments are billed based on the cost of the insurance policies.

Self-Funded Workers' Compensation Fund

To account for the claims and administration of workers' compensation for county departments. The departments are billed based on their portion of total covered payroll and usage of the program.

Self-Funded Prescription Drug Fund

To account for claims and administration of the prescription drug program for covered County employees and eligible dependents. County departments are billed according to the employee's coverage selection.

A photo of Princess Infanta Eulalia of Spain wearing a dress made of spun glass from approximately 1893. The dress was on display at the 1893 Chicago World Fair, which the Princess Infanta attended. The price of the dress was \$2,500 and it was created with thin fiberglass interwoven with silk. The Libbey Glass Company created the fabric and the dress was created in partnership with Madam Vitorene, a seamstress from New York. Photo courtesy of the Lucas County Libraries Archives.

Custodial Funds – Fund Descriptions

Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. These funds do not account for the County's own source revenue. The following is a description of the County's custodial funds.

Undivided Taxes Fund

To account for the collection of various taxes. These taxes are periodically distributed to local governments in the County excluding Lucas County itself.

Local Government Fund

To maintain and account for the accumulation and disbursement of state revenue sharing monies.

Recorder's Housing Fees Fund

This accounts for the collection of low and moderate income housing fees as specified by the ORC. Such fees shall be paid to the Treasurer of State pursuant to section 319.63 of ORC.

Estate Tax Fund

To account for the collection of estate taxes. These taxes are periodically distributed to local governments in the County excluding Lucas County itself.

Other Funds

To maintain and account for resources and uses for: taxes, research, deposits, licenses, auto title fees, County court, juvenile court and probate court related receipts, and estate. Other Custodial funds include:

| | |
|------------------------------|--------------------|
| Payment in lieu of Taxes | Bankruptcy Claims |
| Grain Tax | Cigarette Licenses |
| Escheated Estates | Children's Trust |
| Coroner Escrow | Advance Payments |
| Recorder's Housing Trust Fee | Intangibles |
| Auto Title fees | County Courts |
| Candidacy Fees | Miscellaneous |

Lucas County Family and Children First Council Fund

To process the accounting transactions as the administrative agent for the council.

Lucas County Soil and Water Conservation District Fund

To process the accounting transactions as the administrative agent for the soil and water conservation district.

The Olander Park District Fund

To process the accounting transactions as the administrative agent for the park district.

Lucas County Local Emergency Planning Commission Fund

To process the accounting transactions as the administrative agent for the local emergency planning commission.

Lucas County Board of Health Fund

To process the accounting transactions as the administrative agent for the board of health.

Lucas County 911 Council of Governments (COG)

To process the accounting transactions as the administrative agent for the Lucas County 911 Council of Governments.

Tax Installment Payment Plan (T.I.P.P.) Fund

To account for real estate taxes paid on an installment basis until they can be applied to a current tax bill.

EDWARD FORD PLATE GLASS COMPANY

THIS concern manufactures and markets polished plate glass for building purposes, mirrors, show cases and wind shields. Also for closed bodies of automobiles. The company became a corporation in 1899 and has a capital stock of \$4,000,000. This immense plant occupies a ground space of seventy acres and affords a working space of 1,108,000 square feet. The twelve hundred employes receive annually the sum of \$1,250,000 in salaries and wages. Every year 609,000 tons of raw material are used in turning out 30,000 tons of the finished product. The

equipment of the various departments of this company's plant is all that modern inventions and scientific practice can make it. Many of the handsomest residences and public buildings in the city are adorned with Ford plate glass. A complete organization has been consummated, every branch of which works in harmony, guided by one policy. The Edward Ford Plate Glass Company reflects great credit on the city and is doing much to carry the name of Toledo to the remotest parts of the business world and to bring it into prominence as a manufacturing center.

A rendering of the Edward Ford Plate Glass Company on page 44 of the book *Toledo, Ohio: A Presentation of Her Resources, Achievements, and Possibilities* from 1915. The plant occupied 70 acres and employed 1200 employees with an annual total sum of \$1,250,000 in salaries and wages. In 1930, the Edward Ford Plate Glass Company merged with the Libbey-Owens Sheet Glass Company to become the Libbey-Owens-Ford Glass Company. Artists work on a piece of blown glass during a glass blowing demonstration at the Toledo Museum of Art's Glass Pavilion. The Toledo Museum of Art was founded by Edward Drummond Libbey and Florence Scott and continues to be funded in large part by endowments started by them. The Glass Pavilion opened in 2006 as a state of the art facility to care for, study, and display its large glass collection. It also serves to educate future glass blowers and regular people who are interested in watching demonstrations. Photo courtesy of the Toledo Museum of Art.
