Statement of Revenues and Expenses

1. We obtained the Statement, as prepared by the Department of Athletics of the University (Athletics), for the year ended June 30, 2022. Expenses

25. *Athletic Student Aid* - We obtained the detailed listing of athletic student aid and performed the following procedures, noting no exceptions:
- a. We compared the detail amounts of athletic student aid to the total per the Statement and to the NCAA Membership Financial Reporting System, noting no exceptions.
 - b. As the University utilized the NCAA Compliance Assistance software during Spring and Fall terms, we selected a sample of 10% of student athletes for these terms. A total sample of 20 were selected from the listings of the University's student athlete aid recipients. We obtained the individual student account detail for each selection and compared the total aid per student's account detail to the student's aid detail in the NCAA's Membership Financial Reporting System, noting no exceptions.
 - c. We compared the student aid information for each student selected above to their information in the NCAA Membership Financial Reporting System utilizing required NCAA guidelines, including the following, noting no exceptions:
 - i. The equivalency value for each student athlete in all sports, including head-count sports, needs to be converted to a full-time equivalency value. The full-time equivalency value is calculated using the athletic grant amount reported as the numerator and the full grant amount, which is the total cost for tuition, fees, course-related books, room and board for an academic year as the denominator.
 - ii. Grants-in-aid is calculated by using the revenue distribution equivalencies by sport and in aggregate. (Athletic grant amount divided by the full grant amount).
 - iii. Other expenses related to attendance (also known as gap money or cost of attendance) should not be included in grants-in-aid revenue distribution equivalencies. Only tuition, fees, room, board and course-related books are countable for grants-in-aid revenue distribution per Bylaw 20.02.07.
 - iv. The full grant amount should always be the full cost of tuition for an academic year, not semester.
 - v. Student-athletes are to be counted once and should not receive a revenue distribution equivalency value greater than 1.00.
 - vi. Athletic grants are valid for revenue distribution purposes only in sports in which the NCAA conducts championships competition, emerging sports for women and bowl subdivision football.
 - vii. Grants-in-aid are valid for revenue distribution purposes in NCAA sports that do not meet the minimum contests and participants' requirements of Bylaw 20.9.6.3.
 - viii. Institutions providing grants to student-athletes labeled as "exhausted eligibility (fifth-year)" or "medical" receive credit in the grants-in-aid component.

- ix. The athletics and equivalency cannot exceed maximum equivalency limits. However, the total revenue distribution equivalency can exceed maximum equivalency limits due to exhausted eligibility and medical equivalencies (Bylaw 15.5.3.1).
 - x. If a sport is discontinued and the athletic grant(s) are still being honored by the institution, the grant(s) are included in student athlete aid for revenue distribution purposes.
 - xi. All equivalency calculations should be rounded to two decimal places.
 - xii. If a selected student received a Pell Grant, the value of the grant should not be included in the calculation of equivalencies or the total dollar amount of student athletic aid expense for the institution.
 - xiii. If a selected student received a Pell Grant, the student's grant should be included in the total number and total dollar value of Pell Grants reported for revenue distribution purposes in the NCAA Membership Financial Reporting System.

Additional Minimum Agreed-Upon Procedures

48. We compared and agreed the sports sponsored reported in the NCAA Membership Financial Reporting System to the records of the University, noting no discrepancies. Additionally, we compared the grants-in-aid revenue distribution equivalencies to prior year's submission noting a variance of 4.22%. Per management, this variance is due to the following factors:
 - a. Men's and Women's Tennis: This program was cut in 2020-2021. The University has been honoring scholarships until the tennis students-athletes have graduated. There was 1 student remaining on athletic aid in 2021-2022.
 - b. Softball: This program was cut in 2020-2021. The University has been honoring scholarships until the softball student-athletes have graduated. There was 1 student remaining on athletic aid in 2021-2022.

49. We obtained the University's Sports Sponsorship and Demographics Forms Report for the fiscal year and noted if the countable sports reported by the University met the minimum requirements set forth in Bylaw 20.9.6.3 for the number of contests and the number of participants in each contest that is counted toward meeting the minimum contest requirement, noting no discrepancies. However, we did note that women's basketball had fewer countable contests than the minimum required due to the COVID-19 global pandemic. This was not reported as an exception in accordance with a waiver provided for Women's Basketball by the NCAA.
50. We compared the countable sports per the Sports Sponsorship Demographics Forms Report to the NCAA Membership Financial Reporting System, noting no discrepancies.
51. We agreed the total number of student-athletes who received a Pell Grant award during the academic year and the total value of these Pell Grants reported in the System to a report generated from the University's student financial aid system, noting no discrepancies. Additionally, we compared the current year Pell Grant totals to the prior year reported total per the Membership Financial Report submission noting no variances greater than 20 grants.

However, we were able to agree the total fair market value of endowments to supporting documentation and the Foundation's audited financial statements, without exception, as described at item 56 below.
56. *Value of Institutional Endowments* - We agreed the total fair market value of endowments held by the Foundation for the benefit of the University to supporting documentation, the Foundation's general ledger and the Foundation's audited financial statements, without exception.

Wright State University
Notes to Statement of Revenues and Expenses
June 30, 2022

Note 1: Summary of Presentation Policies

The amounts in the accompanying statement of revenues and expenses were obtained from Wright State University's (University) general ledger, which is maintained on an accrual basis. All revenues and expenses directly related to various sports were disclosed as such, except items which were not applicable. The primary purpose of the agreed-upon procedures report is to ensure the president of the University is made aware of all financial activity (both internal and external) for athletics purposes and to assist the University in exercising control over the financial activity made by or on behalf of the intercollegiate athletics program.

Note 2: Property, Plant and Equipment

Capital assets include land, land improvements, infrastructure, buildings, machinery, equipment, software, library books, publications and construction in progress. They are recorded at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. Building renovations that materially increase the value or extend the useful life of the structure are also capitalized. Normal repairs and maintenance are expensed in the year in which the expenses are incurred. The threshold for capitalizing moveable equipment with an estimated useful life of more than one year is \$5,000. Using the straight-line method, capital assets are depreciated over their estimated useful lives; generally, 40 years for buildings, 30 years for land improvements and infrastructure, 15 years for library books and publications, and 5 to 10 years for machinery and equipment. The University does not capitalize works of art or historical treasures that are held for exhibition, education, research and public service. These collections are not encumbered or sold for financial gain. Consequently, such collections are not recognized in the financial statements. The capitalization threshold for the purchase of moveable equipment may be waived when the acquisition is related to a major project. Moveable equipment items attributable to a major project may be capitalized and depreciated over a five-year useful life. A major project is defined as a project in which: (1) the total construction cost (building improvement, land improvement, infrastructure, etc.) is anticipated to be \$100,000 or more and the moveable capital equipment expenditures are expected to be at least \$100,000; or (2) although the construction costs are anticipated to be less than \$100,000, the total project costs, including moveable equipment, are anticipated to be at least \$200,000.

Note 3: Contributions From the Wright State University Foundation, Inc.

The Wright State University Foundation, Inc. (Foundation) receives gifts and contributions that are restricted for the related athletics programs. These funds are used when additional funds are needed for current expenses and/or special projects. Foundation revenues are recorded in the Statement in an amount equal to the amount expended during the fiscal year. There was one amount greater than 10% of total contributions for athletics which consisted of financial assets provided by the Foundation for a total of \$96,338.
