OAK HILLS LOCAL SCHOOL DISTRICT HAMILTON COUNTY

SINGLE AUDIT

FOR THE YEAR ENDED JUNE 30, 2023

88 East Broad Street Columbus, Ohio 43215 IPAReport@ohioauditor.gov (800) 282-0370

Board of Education Oak Hills Local School District 6325 Rapid Run Road Cincinnati, Ohio 45233

We have reviewed the *Independent Auditor's Report* of Oak Hills Local School District, Hamilton County, prepared by Plattenburg & Associates, Inc., for the audit period July 1, 2022 through June 30, 2023. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Oak Hills Local School District is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

OAK HILLS LOCAL SCHOOL DISTRICT HAMILTON COUNTY NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2023

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Oak Hills Local School District (the District) under programs of the federal government for the year ended June 30, 2023. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE E – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Board of Education
Oak Hills Local School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Oak Hills Local School District (the District), as of and for the year ended June 30, 2023 and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 22, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Board of Education
Oak Hills Local School District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Oak Hills Local School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2023. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and
 perform audit procedures responsive to those risks. Such procedures include examining, on a test
 basis, evidence regarding the District's compliance with the compliance requirements referred to
 above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report on
 internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of
 expressing an opinion on the effectiveness of the District's internal control over compliance.
 Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated December 22, 2023, which contained unmodified opinions on those financial statements. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

(513) 574-3200 Fax: (513) 598-2947

Jeffrey T. Brandt, Superintendent Steven R. Bain, Treasurer

December 22, 2023

To the Citizens and Board of Education of the Oak Hills Local School District:

We are pleased to present the Annual Comprehensive Financial Report of the Oak Hills Local School District (District) for the fiscal year ended June 30, 2023. This report was prepared by the Treasurer's Office in conformance with generally accepted accounting principles (GAAP) as set forth by the Governmental Accounting Standards Board (GASB) and includes an unmodified opinion from Plattenburg & Associates, CPAs. Responsibility for accurate, complete and fair representation of data, including all disclosures, rests with the District. This report will provide the taxpayers of the Oak Hills Local School District with comprehensive financial data in a format which will enable them to gain an understanding of the District's financial affairs. Copies will be available upon request to taxpayers, financial rating services, banking institutions and other interested parties.

Generally accepted accounting principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the independent auditor's report.

The District provides a full range of traditional and 21st century educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory, advance placement, gifted, special education and vocational levels; a broad range of co-curricular and extra-curricular activities; and adult and community education offerings and community recreation activities.

In addition to these general activities, the District acts as the fiscal agent for State funds distributed to non-public parochial schools located within the District boundaries. This activity is included in the District's reporting entity as Auxiliary Services, a special revenue fund, because the District has administrative involvement in the programs. The schools served are: Our Lady of Victory, Our Lady of Visitation, St. Aloysius Gonzaga, St. Dominic and St. Jude. While these organizations are similar in operations and services provided, each is distinct and separate entities whose financial statements are not included in this report.

ECONOMIC CONDITION AND OUTLOOK

The District is located in southwestern Ohio, a suburb of Cincinnati, in the southwestern part of Hamilton County. Approximately 87% of the District's tax base consists of residential and agricultural properties with the remainder composed of a wide range of commercial and other business properties. The overall economic outlook for the area remains stable with relatively low unemployment rates and low inflationary pressures.

The Oak Hills school community has high expectations for the District. We strive to provide the best educational opportunities to every student with the resources we are provided. Because of the worldwide COVID-19 pandemic, the state report card for 2020-21 only included reports of the District's data but did not include any letter grades that would indicate the District's overall performance. The District historically has earned high state ratings while maintaining one of the lowest expenditures per pupil in Hamilton County and maintaining a cost per pupil lower than the state average.

The funding of K-12 public schools in Ohio is a joint effort between the state and local school districts. Since the 1970s through FY 2009, with the exception of a few years, Ohio's funding formula was foundation based by means of which a per pupil amount determined by the General Assembly as the per-pupil resource for provision of a basic adequate education was multiplied by the number of pupils to determine the base funding of the school districts. From this product, the local share of the basic adequate amount or the charge off was subtracted to arrive at the state share of the base funding. Additional funding was also provided for services targeted to categories of pupils such as handicapped, vocational, gifted, and economically disadvantaged as well as some adjustments and funding guarantees.

The 2010-11 biennial budget (Am. Sub. HBl of the 128th General Assembly) established another new funding formula called the Evidence-Based Model (EBM). Am. Sub. HB 153 of the 129th General Assembly repealed the EBM and implemented a temporary funding formula, the Bridge Formula, for the 12-13 school year as a new funding formula was developed. The State revised the funding model in June, 2013 and adopted HB 59, the FY 14 and FY 15 biennium budget which again changed our funding formula, but not our funding. Under this new model, the District received minimal increases in State Funding.

The District has a residential tax base that represents 87% of the constituency. In June, 2016 Governor Kasich signed House Bill 64 (FY 2016-17). Having a large residential tax base was critical in the House Bill 64 budget as many districts with larger commercial tax bases experienced reductions in State Funding. House Bill 64 provided the District increases of 2.3% and 3% in fiscal year 2016 and 2017, respectively. For fiscal years 2018 and 2019, the District received approximately a 3% increase in gross funding under House Bill 49. House Bill 49 considers enrollment and valuation when determining allocations to each school district.

Fiscal years 2020 & 2021 experienced unprecedented volatility with State funding. The district's state revenue was \$28.9m, \$27.5m, and \$28.7m for fiscal years, 2019, 2020, and 2021, respectively. As presented, the loss in revenue from fiscal year 2019 and 2020 was 5% & 1% over the 2 year budget. Stimulus funds were received, however these were federal funds. The district has received over \$14m in stimulus funding, however a portion of these funds are restrictive in nature. The district has until September 2024 to fully spend these stimulus funds.

House Bill 110 was signed by Governor Dewine on June 30 and was a landmark bill with regards to funding K 12 public education. The fiscal year 2022 & 2023 budget will include funding students where they are being educated (this includes community school, open enrollment, Peterson Scholarship students and Autism Scholarship students). While the projected increase in state funding is nearly flatlined, HB 110 will help our district in that no longer will we be deducted for students that do not attend an Oak Hills LSD building. The projection will net out the deductions, therefore, state aid will be much less than prior years. State funding represents 40% of the District's overall funding.

HB 33 was signed by Governor Dewine on July 1, 2023. The fair school funding model was included in this bill, however projected increases from the state continue to be minimal for FY24 & FY25.

Given the uncertainty of the school funding formula and the economic conditions within the State, the level at which the State will fund schools in the future remains uncertain. The District remains concerned about the instability of the state economy and the political ramifications of changing the funding formula every two years. We plan carefully and prudently to provide resources to meet the needs of our students but the uncertainty of state funding challenges our planning.

THE DISTRICT AND ITS FACILITIES

The Oak Hills Local School District represents a prior consolidation of three elementary districts: Bridgetown, Delhi and Springmyer. The consolidation was finalized by the Hamilton County Board of Education on April 23, 1956 in order to equalize educational opportunities throughout the area. Today, the District operates under current standards as prescribed by the State of Ohio Board of Education, as provided in Division (D) of Section 3301.07 and Section 110.01 of the Ohio Revised Code.

The District serves an area of 28 square miles, encompassing Delhi and Green Townships in Hamilton County. The total District population is reported at 87,880 by census data. During the 2022-23 school year, the District served approximately 7,189 students enrolled in five elementary schools, three middle schools and the one of the largest high school's in the State of Ohio (over 2,000 students). Enrollment has remained stable over the last decade and is projected to vary only slightly over the next five years. See schedule 19 for additional information (age, capacity, etc.) on the District's school buildings.

The District also operates a variety of other facilities, including: a district office administration building, a maintenance building, a bus compound, and several athletic stadiums across the District.

ORGANIZATION OF THE SCHOOL DISTRICT

The Board of Education of the Oak Hills Local School District is a five member body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code. The Board: (1) serves as the taxing authority, contracting body and policy maker, (2) ensures that all the general laws of the State of Ohio are followed in the expenditures of the District's tax dollars, (3) approves the annual appropriation resolution and tax budget.

The Board members represent a cross section of professions in the community. The board members on June 30, 2022, were as follows:

Board Member Term Years on Board

Mrs. Jan Hunter 01/01/20 - 12/31/23 21.5

Mr. Bart West 01/01/22 – 12/31/25 1.5

Mrs. Mischelle Philpot 01/01/22 – 12/31/25 1.5

Mr. Rich Haffey 01/01/22 – 12/31/25 1.5

- * Mrs. Jeannie Schoonover 01/01/22 12/31/23 13.5
- * Appointed January, 2022

The Superintendent is the chief executive officer of the District, responsible directly to the Board for all educational and support operations. Mr. Jeff Brandt was appointed Superintendent effective January 2, 2017. Mr. Brandt's current contract expires on July 31, 2025. Mr. Brandt received a Bachelor of Science Degree from Northern Kentucky University and a Master of Education degree from Xavier University. Prior to being named Superintendent, Mr. Brandt served in several administrative positions in the District.

The Treasurer is the chief financial officer of the District, responsible directly to the Board for maintaining all financial records, issuing all payments, maintaining custody of all District funds and assets and investing idle funds as specified by Ohio Law. Mr. Steven R. Bain was appointed Treasurer on August 1, 2014. The Board of Education approved a 5 year contract to retain Mr. Bain through July 31, 2028. Mr. Bain received his B.A. degree from the College of Mt. St. Joseph, and has an Ohio Treasurer License. Mr. Bain served as the Assistant Treasurer for Oak Hills Local School District from 2005-2013, as well as the Treasurer of Southwest Local School District for the 2013-14 school year.

EMPLOYEE RELATIONS

The District has over 800 full and part-time employees. This number has decreased slightly over the past few years as part of a concentrated effort to reduce expenditures. There are two organizations representing the certificated and classified employees. The District's administrative employees are not currently represented.

The Oak Hills Education Association (OHEA), an affiliate of the Ohio Education Association (OEA), represents all certificated employees of the District. The collective bargaining agreement between the OHEA and the District included a term of 3 years for fiscal years 2018, 2019, & 2020. OHEA was provided a 2.25% increase (plus steps) for each year of the current contract. In the spring of 2020, OHEA agreed to a 2% base wage increase, plus a 1% pickup on their retirement for fiscal years 2021, 2022, and 2023. OHEA agreed to a 2.5% base wage increase, plus steps, as well as a 1% pickup for staff reaching Step 20 or greater for 2024, 2025 and 2026.

Classified employees are represented by Chapter 200 of the Ohio Association of Public School Employees (OAPSE), an affiliate of the American Federation of State, County and Municipal Employees (AFSCME). OAPSE Chapter 200 represents food service employees, custodians, maintenance employees, building secretaries, mechanics, bus drivers, educational assistants and system support technicians. The collective bargaining agreement between OAPSE Chapter 200 and the District includes a 1 year agreement, ending on June 30, 2020. Wages for fiscal year 2020 include an increase of 2.25% plus steps. In the spring of 2020, OAPSE agreed to a 2% base wage increase for fiscal years 2021, 2022, and 2023. OAPSE agreed to market adjustments for several positions in 2024 & all other positions are to receive a 2.5% base wage increase, plus steps, for 2024, 2025 and 2026.

SERVICES PROVIDED

The District offers regular instructional programs daily to students in grades Pre-K-12. 290 students participate in specific trades offered through the vocation education program at Great Oaks Institute of Technology and Career Development. Approximately 1,330 students receive special services due to physical or mental disabilities. In grades K-12, we service 660 gifted students.

The District provides a wide variety of education and support services, as mandated by the Ohio Revised Code and as directed by the Board to meet the needs of all students. Student services include guidance, psychological, speech therapy, physical and occupational therapy, transportation, and school lunch. Limited health services are also provided under the guidance of registered nurses throughout the District.

During the 2022-23 school year, the accounting department processed over 2,700 purchase orders and issued over 3,000 checks for good and/or services for the District. Those goods and services include utilities, instructional supplies, computers, software, textbooks, building maintenance, and tuition.

The payroll department issued over 20,000 payroll checks to employees entitled to remuneration for services rendered, while approximately 750 agency deduction checks were also issued for payroll-associated costs such as taxes, retirement, and insurance.

MAJOR CURRENT AND FUTURE INITIATIVES

Curriculum Initiatives

"All students attending the Oak Hills Local School District achieve success by graduating with individual skills for career and college readiness and global competence" is the mission statement for the District. As such, we offer rigorous academics and relevant educational experiences. Relationships formed with the larger community help prepare our students for a 21st century global marketplace.

Educational opportunities abound for students with advanced placement, dual enrollment, gifted programs, special education services, vocational options, and community education. These successful programs are guided by caring, highly qualified teachers and supported by staff that understand and are committed to meeting the needs of each and every child. Among the best, we continue to strive for better.

The District has adopted the Ohio Learning Standards and increased the rigor of curriculum, instruction and assessment. The District revised its curriculum maps and provided professional learning for staff to meet these more rigorous standards. There has also been a significant increase of technology being used to improve teaching and learning.

Due to a competitive global economy and the growing need for a highly skilled workforce, the District is dedicated to ensuring that all students graduate career and college ready. In grades 6-12, the District continued the process of aligning curriculum, instruction, and assessment to Ohio's learning standards. Our high school is proud to offer a variety of College Board Advanced Placement courses where students can earn both high school and college credit in all available academic disciplines. We have also partnered with Cincinnati State and the University of Cincinnati to offer courses taught by adjunct faculty in the District. Students can earn college and high school credit in these College Credit Plus courses. In addition to course offerings, we offer a variety of Educational Pathways that provide students with an opportunity to focus in a concentrated academic field that could lead to potential college majors or careers.

The expansion of eLearning continues to be a key initiative for the District. The District offers eLearning opportunities for students, including online courses. The District has also implemented a 1:1 student to device ratio.

RELEVANT FINANCIAL POLICIES AND LONG-TERM FINANCIAL PLANNING

The District placed a 4.82 mill emergency general fund operating levy (5 year term) in November 2013. The community supported the 4.82 mill levy in November 2013, and as a result the levy passed. This 4.82 mill levy was the first tax increase since the millage transfer in 2007 which established a permanent improvement fund to set aside funds for facility, transportation, curriculum, technology and maintenance needs. Collection for the November 2013 4.82 mill levy began in January 2014. The increases in the general property tax line item from Fiscal Year 2013 to Fiscal Year 2015 are a direct reflection of the passage of the 4.82 mill levy in November 2013.

In May 2017, the District requested a 4.82 mill substitute levy from the community. The results of this vote indicated that 48 of 50 precincts supported the substitute levy & the levy passed by a wide margin. Assuming the property valuation of the taxpayer remains stable; *the substitute levy will not increase taxes*. The emergency levy supported in 2013 will expire in 2018 & the substitute levy will begin collection in 2019 (meaning there will be a seamless transition to the property tax line item). The substitute levy will be a continuous levy.

The District is grateful for the community's support of the 4.82 mill substitute levy in May 2017. The support of our community will allow the District to continue to move forward providing the excellent education our students deserve. The current forecast as indicated in prior years indicated deficit spending beginning in fiscal year 2020 (which held accurate) and continuing for future fiscal years.

In an effort to address the projected deficit spending levels and to address the concern of student safety, the District placed a 4.9 mill operating levy on the August 7, 2018 election. The operating levy was defeated. The District will evaluate all programs, including staffing levels, and make recommendations on a request from the community and/or reductions to budgets. The district has received over \$14m in federal stimulus funding as a result of the pandemic. Using these funds for PPE, and continuity of services will stretch the district's cash balance for 12-24 months and the district will await the Hamilton County reappraisal results (due by the end of 2023).

FINANCIAL INFORMATION

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records for general governmental operations are maintained on a budgetary basis system of accounting as prescribed by State statute. The budgetary basis accounting differs from generally accepted accounting principles [GAAP] as promulgated by the Governmental Accounting Standards Board [GASB].

INTERNAL ACCOUNTING AND BUDGETARY CONTROL

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. Appropriations are monitored, changed and amended/adopted on a monthly basis.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level. All purchase order requests must be approved by the individual program managers and certified by the Treasurer; necessary funds are then encumbered and purchase orders are released to vendors.

The basis of accounting and the various funds utilized by the District are fully described in the notes to the basic financial statements. Additional information on the District's budgetary accounts can also be found in the notes to the required supplementary information.

INDEPENDENT AUDIT

The State of Ohio requires an annual audit by either the Auditor of State or by an independent public accounting firm. Plattenburg & Associates, Inc. performed the audit for the fiscal year ended June 30, 2023. The auditor's unmodified opinion rendered on the District's basic financial statements is included in the financial section of this Annual Comprehensive Financial Report.

AWARDS

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2022. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA.

ACKNOWLEDGEMENTS

The preparation of the fiscal year 2023 Annual Comprehensive Financial Report of the Oak Hills Local School District was made possible by the combined efforts of the District Treasurer's Office staff and Plattenburg & Associates, Inc. Sincere appreciation is extended for the time and effort they contributed to prepare this report. Appreciation is also extended to the Board of Education, the District Administrative Team and the Oak Hills school community for their continued support.

The publication of this Annual Comprehensive Financial Report for the District is a major step in reinforcing the accountability of the District to the taxpayers of the community.

INDEPENDENT AUDITOR'S REPORT

Board of Education
Oak Hills Local School District

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Oak Hills Local School District (the District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule and schedules of pension information and other postemployment information to be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2023, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Oak Hills Local School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

The discussion and analysis of Oak Hills Local School District's (the District's) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2023. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's performance.

Financial Highlights

Key financial highlights for 2023 are as follows:

- Net position of governmental activities increased \$2,467,575 which represents a 19% increase from 2022.
- General revenues accounted for \$81,008,048 in revenue or 77% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$23,557,640 or 23% of total revenues of \$104,565,688.
- The District had \$102,098,113 in expenses related to governmental activities; \$23,557,640 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$81,008,048 were also used to provide for these programs.

Overview of the Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Government-wide Financial Statements provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The General Fund is the major fund of the District.

Government-Wide Financial Statements

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2023?" The Government-wide Financial Statements answer this question. These statements include all assets and deferred outflows of resources, and liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

Oak Hills Local School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

These two statements report the District's net position and changes in net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Government-wide Financial Statements, the overall financial position of the District is presented as Governmental Activities – All of the District's programs and services are reported as Governmental Activities including instruction, support services, operation of noninstructional services, extracurricular activities, and interest and fiscal charges.

Fund Financial Statements

The analysis of the District's major fund is presented in the Fund Financial Statements. Fund financial reports provide detailed information about the District's major fund. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

Governmental Funds Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Fiduciary Funds Fiduciary Funds are used to account for resources held for the benefits of parties outside the government. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

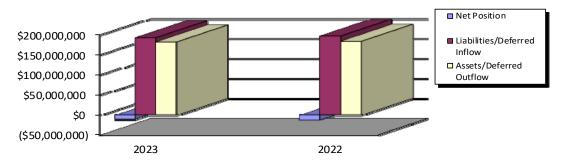

The District as a Whole

As stated previously, the Statement of Net Position looks at the District as a whole. Table 1 provides a summary of the District's net position for 2023 compared to 2022:

This Space Intentionally Left Blank

Table 1
Net Position

	Governmental Activities		
	2023	2022	
Assets:			
Current and Other Assets	\$95,896,833	\$98,943,761	
Net OPEB Asset	8,977,039	7,440,272	
Capital Assets	52,496,034	51,139,826	
Total Assets	157,369,906	157,523,859	
Deferred Outflows of Resources:			
Pension	23,390,531	24,267,813	
OPEB	2,137,441	2,658,847	
Deferred Outflows of Resources	25,527,972	26,926,660	
Liabilities:			
Other Liabilities	10,444,801	9,473,684	
Long-Term Liabilities	121,296,373	89,773,903	
Total Liabilities	131,741,174	99,247,587	
Deferred Inflow of Resources:			
Property Taxes	21,840,000	24,743,615	
Deferred Gain on Refunding	309,797	413,063	
Revenue in Lieu of Taxes	16,400,000	15,000,000	
Pension	9,998,214	45,861,623	
OPEB	13,073,235	12,116,778	
Total Deferred Inflows of Resources	61,621,246	98,135,079	
Net Position:			
Net Investment in Capital Assets	36,306,839	31,209,242	
Restricted	15,592,005	7,093,985	
Unrestricted	(62,363,416)	(51,235,374)	
Total Net Position	(\$10,464,572)	(\$12,932,147)	

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2023, the District's liabilities and deferred inflows exceeded assets and deferred outflows by \$10,464,572.

At year-end, capital assets represented 33% of total assets. Capital assets include land, construction in

progress, buildings and improvements, and equipment. Net investment in capital assets at June 30, 2023, was \$36,306,839. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$15,592,005 represents resources that are subject to external restriction on how they must be used. The external restriction will not affect the availability of fund resources for future use.

Total assets decreased slightly from the prior year mainly due to a decrease in taxes receivable. Long-term liabilities increased due to a large increase in net pension liability.

Table 2 shows the changes in net position for fiscal years 2023 and 2022.

Table 2

Changes in Net Position

	Governmental Activities

Change in Net Position	2,467,575	12,656,185	
Net Position - Beginning of Year	(12,932,147)	(25,588,332)	
Net Position - End of Year	(\$10,464,572)	(\$12,932,147)	

The District revenues are mainly from two sources. Property taxes levied for general, debt service and capital projects purposes and grants and entitlements comprised 60% of the District's revenues for governmental activities.

The District depends greatly on property taxes as a revenue source. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenues generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

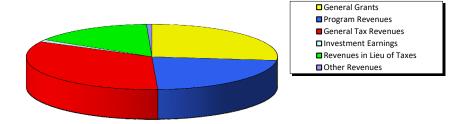

Thus Ohio districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Property taxes made up 33% of revenue for governmental activities for the District in fiscal year 2023.

Governmental Activities Revenue Sources

Total Revenue Sources

	2023	Percentage
General Grants	\$27,973,940	26.7%
Program Revenues	23,557,640	22.5%
General Tax Revenues	34,983,505	33.4%
Investment Earnings	1,128,629	1.1%
Revenues in Lieu of Taxes	16,281,819	15.6%
Other Revenues	727,709	0.7%

\$104,653,242

100%

Instruction comprises 57% of governmental program expenses. Support services expenses were 34% of governmental program expenses. All other expenses including interest and fiscal charges were 9%. Interest expense was attributable to the outstanding bond and borrowing for capital projects.

Total revenues increased from the prior year due to a increase in Revenue in Lieu of Taxes. Total expenses increased primarily due to changes in assumptions and benefits by the Statewide pension systems which caused the appearance of a slight decrease in overall expenses.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. These services are mainly supported by tax revenue and unrestricted State entitlements.

Table 3
Governmental Activities

Total Expenses	\$102,098,113	\$88,505,735	(\$78,540,473)	(\$65,964,283)

The District's Funds

The District has one major governmental fund: the General Fund. Assets of the General Fund comprised \$78,706,849 (82%), of the total \$95,914,833 governmental funds assets.

General Fund: Fund balance at June 30, 2023 was \$35,570,383 including \$30,057,246 of unassigned balance. The District had a increase in fund balance of \$60,710. The primary reason for the increase in fund balance was due to a increase in property tax revenues.

General Fund Budgeting Highlights

The District's Budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. During the course of the year, the District revised the Budget in an attempt to deal with unexpected changes in revenues and expenditures.

For the General Fund, final budget basis revenue was \$78,751,094, compared to original budget estimates of \$77,449,617, while the actual revenue had a variance of \$0 from the final budget basis revenues.

The District's unobligated cash balance for the General Fund was \$32,868,160.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2023, the District had \$52,496,034 net of depreciation invested in land, construction in progress, buildings and improvements, and equipment. Table 4 shows fiscal year 2023 balances compared to fiscal year 2022:

Oak Hills Local School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

Table 4
Capital Assets at Year End
(Net of Depreciation)

	Governmental Activities		
	2023 2022		
Land	\$2,781,550	\$2,781,550	
Buildings and Improvements	44,705,334	43,952,084	
Furniture and Equipment	5,009,150	4,406,192	
Total Net Capital Assets	\$52,496,034	\$51,139,826	

Total Net Capital Assets increased in 2023 as compared to 2022 because depreciation expense and disposals were less than current year additions. See Note 6 to the Basic Financial Statements for further details on the District's capital assets.

Debt

At June 30, 2023, the District had \$15,879,398 in debt outstanding, \$3,499,000 due within one year. Table 5 summarizes total debt outstanding.

Table 5
Outstanding Debt at Year End

	2023	2022
General Obligation Bonds Payable:

Refunding Bonds:		
Current Interest Bonds –		
School Improvement 2016	10,140,000	13,110,000
Premium on Bonds 2016	885,341	1,180,456
Notes Payable	2,155,000	2,210,000
,		
Total Outstanding Debt at Year End	\$15,879,398	\$19,517,521

See Note 7 to the Basic Financial Statements for further details on the District's obligations.

Economic Outlook

The Ohio Department of Education explains the school funding model in Ohio as follows:

The funding of K-12 public schools in Ohio is a joint effort between the state and local school districts. Since the 1970's through FY 2009, with the exception of a few years, Ohio's funding formula was foundation based by means of which a per pupil amount determined by the General Assembly as the per-pupil resource for provision of a basic adequate education was multiplied by the number of pupils to determine the base funding of the school districts. From this product, the local share of the basic

Oak Hills Local School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

adequate amount or the charge off was subtracted to arrive at the state share of the base funding. Additional funding was also provided for services targeted to categories of pupils such as handicapped, vocational, gifted, and economically disadvantaged as well as some adjustments and funding guarantees.

The 2010-11 biennial budget (Am. Sub. HBl of the 128th General Assembly) established another new funding formula called the Evidence-Based Model (EBM). Am. Sub. HB 153 of the 129th General Assembly repealed the EBM and implemented a temporary funding formula, the Bridge Formula, for the 12-13 school year as a new funding formula was developed. The State revised the funding model in June, 2013 and adopted HB 59, the FY 14 and FY 15 biennium budget which again changed our funding formula, but not our funding. Under this new model, the District received minimal increases in State Funding.

The District has a residential tax base that represents 88% of the constituency. In June, 2016 Governor Kasich signed House Bill 64 (FY 2016-17). Having a large residential tax base was critical in the most the House Bill 64 budget as many districts with larger commercial tax bases experienced reductions in State Funding. House Bill 64 provided Oak Hills LSD increases of 2.3% and 3% in Fiscal Year 2016 and 2017, respectively. For fiscal years 2018 and 2019, the District received approximately a 3% increase in gross funding under House Bill 49. House Bill 49 considers enrollment and valuation when determining allocations to each school district. The projected increase for the current biennium budget (House Bill 166) was 1.8% for fiscal year 2020 and 0.7% for fiscal year 2021, however due to the coronavirus pandemic, the State of Ohio reduced our funding by 5%, or \$1.5m. As of the time of this report, the State projected no increase in our state funding with the new baseline being \$1.5m less than original projections at the beginning of the biennium budget. Of importance, readers of this document must understand that these increases are gross increases in revenues. The State also deducts from school districts for voucher students, community school students and open enrollment students. After deducting funds for these students, the District has averaged less than a 1% increase in annual funding from the State. State funding represents 40% of the District's overall funding. Governor Dewine signed HB33 into law in June, 2023. The budget continues the phase-in of the fair school funding model, however, Oak Hills still is on the "guarantee" meaning the formula is not working as intended for our district, and many other districts. Oak Hills anticipates continued sluggish growth with state funding moving forward.

Given the uncertainty of the school funding formula and the economic conditions within the State, the level at which the State will fund schools in the future remains uncertain. Oak Hills remains concerned about the instability of the state economy and the political ramifications of changing the funding formula every several years. We plan carefully and prudently to provide resources to meet the needs of our students but the uncertainty of state funding challenges our planning.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Treasurer, Steven R. Bain at Oak Hills Local School District, 6325 Rapid Run Rd, Cincinnati, Ohio 45233 (513-574-3200) or visit ohlsd.us.

Note 1 - Description of the District

The Oak Hills Local School District ("the District") represents a prior consolidation of three elementary districts: Bridgetown, Delhi and Springmyer. The consolidation was finalized by the Hamilton County Board of Education on April 23, 1956, in order to equalize educational opportunities throughout the area. Today, the District operates under current standards as prescribed by the Ohio State Board of Education, as provided in Division (D) of Section 3301.07 and Section 110.01 of the Ohio Revised Code.

The District operates under a locally elected five-member board form of government and provides educational services. The Board controls the District's instructional programs and support facilities, staffed by approximately 490 certificated teaching, 41 administrative personnel and approximately 316 non-certificated personnel. To provide services to the adult population in the community, Oak Hills has developed one of the largest community education programs in Hamilton County, Ohio.

The District is the third largest in Hamilton County with 7,586 students for the 2022-23 school year. The District currently operates five (5) elementary schools (grades K-5), three (3) middle schools (grades 6-8), and one (1) comprehensive high school (grades 9-12).

Note 2 - Summary of Significant Accounting Policies

Reporting Entity

The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments.

There are no component units combined with the District for financial statement presentation purposes, and it is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing body is financially accountable. The District's major operations include education, pupil transportation, food service, and maintenance of District facilities.

The District is associated with two organizations that are defined as jointly governed organizations. These organizations include

Jointly Governed Organizations:
Hamilton Clermont Cooperative Information Technology Center
Great Oaks Career Campuses

These organizations are presented in Note 11.

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District's accounting policies are described below.

Measurement Focus

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government except for fiduciary funds. The activity of the internal service funds is eliminated to avoid doubling up revenues and expenses. The interfund services provided and used are not eliminated in the consolidation.

The government-wide statements are prepared using the economic resources measurement focus, which differs from the manner in which the governmental fund financial statements are prepared. Therefore, the governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

Custodial Funds are reported using the economic resources measurement focus.

Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental, proprietary, and fiduciary. The focus of government fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

Governmental Funds

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows, and liabilities and deferred inflows is reported as fund balance. The following is the District's major governmental fund:

<u>General Fund</u> – The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Proprietary Funds

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The District has no enterprise funds. The following is a description of the District's internal service fund:

<u>Internal Service Fund</u> - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the district, or to other governments, on a cost-reimbursement basis. The internal service fund of the District accounts for a self-insurance program which provides workers' compensation benefits to employees.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The District has an Ohio High School Athletic Association events fund to account for assets and liabilities of OHSAA athletic events of the District.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Proprietary funds also use the accrual basis of accounting. Differences in the actual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially

equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, included property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: property taxes available for advance, grants, and other taxes.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources includes pension and other post employment benefits. These amounts are reported on the government-wide statement of net position. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 8 and 9.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, OPEB, revenue in lieu of taxes (tax incremental financing), deferred gain on refunding, investment earnings, grants and other taxes, and pension. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2023, but which were levied to finance year 2024 operations. These property tax amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements, and are deferred and recognized as inflows of resources in the period the amounts become available. Revenue in lieu of taxes ('TIF') has been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Deferred gain on refunding has been recorded as deferred inflow on the government-wide statement of net position. Grants and investment earnings are recorded as deferred inflows on the governmental fund financial statements. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. For more pension and OPEB related information, see

Notes 8 and 9.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Equity in Pooled Cash and Investments

Cash received by the District is pooled for investment purposes. Interest in the pool is presented as "Equity in Pooled Cash and Investments" on the financial statements.

Investments are reported at fair value which is based on quoted market prices.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

There were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice is appreciated for deposits and withdrawals of \$100 million or more. STAR Ohio reserves the right to limit the transaction to \$250 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2023 amounted to \$979,015 and \$130,062 in Other Governmental Funds.

For purposes of the statement of cash flows, the internal service portion of pooled cash and investments is considered a cash equivalent because the District is able to withdraw resources from the internal service funds without prior notice or penalty.

Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventories are accounted for using the purchase method on the fund level statements and using the

consumption method on the government-wide statements.

On the fund financial statements, reported material and supplies inventory is equally offset by a restricted fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food and purchased food.

Capital Assets

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets, donated works of art and similar items, and capital assets received in a service conession arrangement should be reported at acquisition value rather than fair value. The District maintains a capitalization threshold of five thousand dollars (\$5,000). The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also capitalized.

All reported capital assets are depreciated, except land. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is allocated using the straight-line method over the following useful lives:

<u>Description</u>	Estimated Lives
Buildings and Improvements Furniture and Equipment	45-50 years 5-20 years

Compensated Absences

The District reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time, when earned, for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The entire compensated absence liability is reported on the government-wide financial statements.

The compensated absences liability is recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. Compensated absences are reported in governmental funds only if they have matured.

The District's policies regarding compensated absences are determined by the state laws and/or negotiated agreements. In summary, the policies are as follows:

<u>Vacation</u> How Earned	<u>Certified</u> Not Eligible	Administrators Hired before 8/1/12 25 days at the start of each contract year	Non-Certificated 5-20 days for each service year, depending on length of service
Maximum Accumulation	Not Applicable	37.5 days; can be paid for 5 days at year end	30 days
Vested	Not Applicable	As Earned	As Earned
Termination Entitlement	Not Applicable	Paid upon termination	Paid upon termination
Sick Leave How Earned	1 1/4 days per month of employment (15 days per year)	1 1/4 days per month of employment (15 days per year)	1 1/4 days per month of employment (15 days per year)
Maximum Accumulation	252 days	300 days	255 days
Vested	As Earned	As Earned	As Earned
Termination Entitlement	Per contract	Per contract	Per contract

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other

governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Of the District's \$15,592,005 in restricted net position, none was restricted by enabling legislation.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column on the Statement of Net Position.

As a general rule the effect of interfund (internal) activity has been eliminated from the government-wide statement of activities. The interfund services provided and used are not eliminated in the process of consolidation.

Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that can be used only for the specific purposes imposed by a formal action (board resolution) of the District's Board of Education. The Board of Education is the highest level of decision making authority for the District. Those committed resources cannot be used for any other purpose unless the District's Board of Education removes or changes the specified use by taking the same type of action (board resolution) it employed to previously commit those resources.

Assigned – resources intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In the general fund, assigned amounts are intended to be used for specific purposes as approved through the District's formal purchase order procedure by the Superintendent and the Treasurer. The adoption of the board appropriation resolution is the established policy, which gives the authorization to assign

resources for a specific purpose.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts which had been restricted, committed or assigned for said purposes.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Restricted Resources

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the governmental-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences that will be paid from the governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for the payment the current year. Bonds are recognized as a liability on the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that the benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the District, these revenues are for the self-insurance program (internal service fund) which provides workers' compensation benefits to employees. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund.

<u>Estimates</u>

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Restricted Assets

Restricted assets in the general fund represent Equity in Pooled Cash and Investments set aside to establish a budget stabilization reserve.

Note 3 - Equity in Pooled Cash and Investments

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the District into three categories:

<u>Active Monies</u> - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the District. Such monies must by law be maintained either as cash in the District treasury, in depository accounts payable or withdrawable on demand.

<u>Inactive Monies</u> – Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

<u>Interim Monies</u> – Interim monies held by the District can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States.
- Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities.
- 3. Written repurchase agreements in the securities listed above provided the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.
- 4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met.
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts.
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.

- 7. The State Treasurer's investment pool (STAR Ohio).
- 8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements".

Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. As of June 30, 2023, \$800,546 of the District's bank balance of \$2,482,518 was exposed to custodial credit risk because it was uninsured and collateralized.

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105% of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102% of the deposits being secured or a rate set by the Treasurer of State.

Investments

As of June 30, 2023, the District had the following investments:

	Fair	Fair Value	Weighted Average
Investment Type	Value	Hierachy	Maturity (Years)
Negotiable CDs	\$2,149,768	Level 2	1.24
Commercial Paper	8,062,974	Level 2	0.49
Federal Home Loan Bank	5,249,106	Level 2	1.25
Federal Home Loan Mortgage Corporation	2,965,976	Level 2	1.53
Federal Farm Credit Bank	1,157,204	Level 3	2.08
US Treasury Notes	2,993,015	Level 2	0.83
STAR Ohio	16,370,037	N/A	0.11
Money Market Fund	831,230	N/A	0.00
Total Investments	\$39,779,310		
Portfolio Weighted Average Maturity			0.63

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Inputs to the valuation techniques used in fair the measurement for Level 2 include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are significant unobservable inputs. The above table identifies the District's recurring fair value measurements as of June 30, 2023. STAR Ohio is reported at its share price (Net Asset Value per share).

Interest Rate Risk - In accordance with the investment policy, the District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to three years.

Credit Risk – It is the District's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have a credit quality rating of the top 2 ratings issued by nationally recognized statistical rating organizations. Investments in Commercial Paper were rated A-1+ by Standard and Poor's and P-1 by Moody's Investors Service. The District's investments in Federal Home Loan Mortgage Corporation, Federal Home Loan Bank, Federal Farm Credit Bank, and in Federal National Mortgage Association were rated AA+ by Standard & Poor's and Aaa by Moody's Investors Service. Investments in STAR Ohio were rated AAAm by Standard & Poor's. Negotiable CDs and Money Market Funds are not rated.

Concentration of Credit Risk – The District's investment policy allows investments in Federal Agencies or Instrumentalities. The District has invested less than 2% of the District's investments in Money Market Funds, 41% in STAR Ohio, 5% in Negotiable CDs, 8% in Federal Home Loan Mortgage Corporation, 8% in U.S. Treasury Notes, 3% in Federal Farm Credit Bank, 13% in Federal Home Loan Bank, and 20% in Commercial Paper.

Custodial Credit Risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the District's securities are either insured and registered in the name of the District or at least registered in the name of the District.

Note 4 - Property Taxes

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on tangible personal property at 88 percent of true value (with certain exceptions) and on real property at 35 percent of true value.

Tangible personal property tax revenue received during calendar year 2023 (other than public utility property tax) represents the collection of 2023 taxes levied against local and interexchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, and furniture and fixtures is no longer levied and collected. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. The District receives property taxes from the County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2023, are available to finance fiscal year 2024 operations. The amount available for advance can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, personal property and public utility taxes which became measurable at June 30, 2023. Delinquent property taxes collected within 60 days are included as a receivable and tax revenue as of June 30, 2023 on the fund financial statements. The entire amount of delinquent taxes receivable is recognized as revenue in the government-wide financial statements. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is available to finance current year operations. The receivable is, therefore, offset by a credit to deferred inflows of resources for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2023, was \$11,500,000 for General Fund, \$1,960,000 for Permanent Improvement Fund, and \$1,100,000 for Debt Service Fund, and is recognized as revenue.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the current fiscal year taxes were collected are:

	Amount		
Real Property	\$1,171,752,910		
Public Utility Personal	72,627,350		
Total	\$1,244,380,260		

Note 5 – Receivables

Receivables at June 30, 2023, consist of taxes, accounts, interest, intergovernmental and interfund. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

Note 6 - Capital Assets

Capital asset activity for the fiscal year ended was as follows:

	Beginning			Ending
	Balance	Additions	Deletions	Balance
Governmental Activities				
Capital Assets, not being depreciated:				
Land	\$2,781,550	\$0	\$0	\$2,781,550
Capital Assets, being depreciated:				
Buildings and Improvements	89,223,087	3,248,996	0	92,472,083
Furniture and Equipment	14,399,920	1,485,440	509,371	15,375,989
Totals at Historical Cost	106,404,557	4,734,436	509,371	110,629,622
Less Accumulated Depreciation:				
Buildings and Improvements	45,271,003	2,495,746	0	47,766,749
Furniture and Equipment	9,993,728	882,482	509,371	10,366,839
Total Accumulated Depreciation	55,264,731	3,378,228	509,371	58,133,588
Governmental Activities Capital Assets, Net	\$51,139,826	\$1,356,208	\$0	\$52,496,034

Depreciation expense was charged to governmental functions as follows:

This Space Intentionally Left Blank

Instruction:	
Regular	\$709,430
Special	10,135
Support Services:	
Instructional Staff	641,862
School Administration	3,378
Fiscal	3,378
Operations and Maintenance	1,655,332
Pupil Transportation	304,040
Operation of Non-Instructional Services	33,782
Extracurricular Activities	16,891
Total Depreciation Expense	\$3,378,228

Note 7 - Long-Term Liabilities

Long-Term Liabilities

	Maturity Date	Interest Rate	Beginning Balance	Additions	Deductions	Ending Balance	Due In One Year
Governmental Activities:							
General Obligation Bonds:							
HB 264 Debt - Series 2015	12/1/29	1.0-3.5%	\$2,335,000	\$0	\$265,000	\$2,070,000	\$270,000
Premium on HB264 Debt			80,065	0	10,008	70,057	0
Refunding Bonds - Series 2016			13,110,000	0	2,970,000	10,140,000	3,125,000
Premium Refunding Bonds			1,180,456	0	295,115	885,341	0
Zions Bank Loan - Series 2019		_	602,000	0	43,000	559,000	44,000
Subtotal Bonds			17,307,521	0	3,583,123	13,724,398	3,439,000
Notes Payable - Auditorium			2,210,000	0	55,000	2,155,000	60,000
Compensated Absences			6,352,602	1,754,435	482,220	7,624,817	793,922
Subtotal Bonds & Other Amounts		_	25,870,123	1,754,435	4,120,343	23,504,215	4,292,922
Net Pension Liability			57,428,195	36,003,561	0	93,431,756	0
Net OPEB Liability		_	6,475,585	0	2,115,183	4,360,402	0
Total Government Activities		_	\$89,773,903	\$37,757,996	\$6,235,526	\$121,296,373	\$4,292,922

General obligation bonds will be paid from the debt service and permanent improvement funds. Notes payable will be paid from the permanent improvement funds. Compensated absences will be paid from the fund from which the person is paid (usually general and special revenue funds). Net pension liability and OPEB liability represents the long-term portion of the accrued liability associated with STRS and SERS pension liability. These items will be repaid from the funds from which the employees work to whom the liability is associated with or the General Fund if no such funds are available.

In February of 2019 the District issued \$728,400 in a long term general obligation direct loan from Zions Bank. The loan matures in Fiscal Year 2034, has an interest rate of 2.91% and will be paid from the Permanent Improvement Fund.

In November of 2015 the District issued \$2,520,000 in a long term direct note payable. The note matures in Fiscal Year 2046, has an interest rate between 2.00% and 5.00% and will be paid from the Permanent Improvement Fund.

Principal and interest requirements to retire general obligation debt and notes payable outstanding at year end are as follows:

Fiscal Year	General Obligation Bonds		
Ending June 30	Principal	Interest	
2024	\$3,439,000	\$509,463	
2025	3,740,000	336,368	
2026	3,926,000	150,913	
2027	343,000	49,878	
2028	354,000	37,967	
2029-2033	909,000	51,021	
2034	58,000	844	
	-		
Total	\$12,769,000	\$1,136,454	

Fiscal Year	Notes Payable		
Ending June 30	Principal	Interest	
2024	\$60,000	\$89,300	
2025	60,000	86,900	
2026	60,000	84,500	
2027	65,000	82,000	
2028	65,000	79,400	
2029-2033	380,000	351,900	
2034-2038	475,000	251,650	
2039-2043	585,000	140,900	
2044-2046	405,000	24,700	
Total	\$2,155,000	\$1,191,250	

Note 8 - Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represent the District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The remainder of this note includes the required pension disclosures. See Note 9 for the required OPEB disclosures.

Plan Description - School Employees Retirement System (SERS)

Plan Description

District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

^{*} Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2% for the first thirty years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount

on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5% and with a floor of 0.0%. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. The Retirement Board approved a 2.5% COLA for calendar year 2023.

Funding Policy

Plan members are required to contribute 10.0% of their annual covered salary and the District is required to contribute 14.0% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10.0% for plan members and 14.0% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2023, the allocation to pension, death benefits, and Medicare B was 14.0%. For fiscal year 2023, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The District's contractually required contribution to SERS was \$1,707,811 for fiscal year 2023. Of this amount \$268,907 is reported as accrued wages and benefits.

<u>Plan Description - State Teachers Retirement System (STRS)</u>

Plan Description

District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0.0% upon a determination by its actuary that it was necessary to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective July 1, 2022, an ad-hoc COLA of 3.0% of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2023 as long as they retired prior to July 1, 2018. Eligibility changes will be phased in August 1, 2023, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 34 years of service credit and any age. Further adjusting to five years of service and age 65, or 35 years of service credit and any age as of August 1, 2028.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit regardless of age.

The DC Plan allows members to place all their member contributions and 9.53% of the 14.0% employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47% of the 14.0% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12.0% of the 14.0% member rate is deposited into the member's DC account and the remaining 2.0% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy

Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2023 employer and employee contribution rate of 14.0% was equal to the statutory maximum rates. For 2023, the full employer contribution was allocated to pension.

The District's contractually required contribution to STRS was \$6,758,352 for fiscal year 2023. Of this amount \$1,126,392 is reported as accrued wages and benefits.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability (asset) was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

<u>-</u>	SERS	STRS	Total
Proportionate Share of the Net Pension Liability	\$16,361,423	\$77,070,333	\$93,431,756
Proportion of the Net Pension Liability:			
Current Measurement Date	0.30249760%	0.34669319%	
Prior Measurement Date	0.33359790%	0.35288407%	
Change in Proportionate Share	-0.03110030%	-0.00619088%	
Pension Expense	\$752,343	\$8,731,254	\$9,483,597

At June 30 2023, reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	662,651	986,599	\$1,649,250
Changes of assumptions	161,441	9,223,003	9,384,444
Net difference between projected and			
actual earnings on pension plan investments	0	2,681,879	2,681,879
Changes in employer proportionate share of net			
pension liability	282,771	926,024	1,208,795
Contributions subsequent to the measurement date	1,707,811	6,758,352	8,466,163
Total Deferred Outflows of Resources	\$2,814,674	\$20,575,857	\$23,390,531
Deferred Inflows of Resources			
Differences between expected and actual experience	107,409	294,819	\$402,228
Changes of assumptions	0	6,942,270	6,942,270
Net difference between projected and			
actual earnings on pension plan investments	570,939	0	570,939
Changes in employer proportionate share of net			
pension liability	1,156,793	925,984	2,082,777
Total Deferred Inflows of Resources	\$1,835,141	\$8,163,073	\$9,998,214

\$8,466,163 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

This Space Intentionally Left Blank

Fiscal Year			
Ending June 30:	SERS	STRS	Total
2024	(\$236,777)	\$350,494	\$113,717
2025	(\$624,710)	(\$323,439)	(948,149)
2026	(\$815,598)	(\$2,188,807)	(3,004,405)
2027	\$948,807	\$7,816,184	8,764,991
Total	(\$728,278)	\$5,654,432	\$4,926,154

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2022 and compared with June 30, 2021, are presented below:

	June 30, 2022	June 30, 2021
Inflation	2.40%	2.40%
Future Salary Increases, including inflation	3.25% to 13.58%	3.25% to 13.58%
COLA or Ad Hoc COLA	for future retirees will be delayed for	2.00%, on or after April 1, 2018, COLAs for future retirees will be delayed for three years following commencement
Investment Rate of Return	7.00% net of system expenses	7.00% net of system expenses
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and

set forward 2 years and adjusted 81.35% for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed for the five year period ended June 30, 2020.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Cash	2.00%	-0.45%
US Equity	24.75%	5.37%
Non-US Equity Developed	13.50%	6.22%
Non-US Equity Emerging	6.75%	8.22%
Fixed Income/Global Bonds	19.00%	1.20%
Private Equity	11.00%	10.05%
Real Estate/Real Assets	16.00%	4.87%
Multi-Asset Strategy	4.00%	3.39%
Private Debt/Private Credit	3.00%	5.38%
Total	100.00%	

Discount Rate

The total pension liability for 2022 was calculated using the discount rate of 7.00%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.00%). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.00%, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%), or one percentage point higher (8.00%) than the current rate.

	1%	Current	1%
	Decrease	Discount Rate	Increase
_	6.00%	7.00%	8.00%
Proportionate share of the net pension liability	\$24,083,234	\$16,361,423	\$9,855,903

Actuarial Assumptions - STRS

Key methods and assumptions used in the June 30, 2022, actuarial valuation compared to those used in the June 30, 2021, actuarial valuation are presented below:

	June 30, 2022	June 30, 2021
Inflation	2.50%	2.50%
Projected Salary Increases	From 2.50% to 8.50% based on age	12.50% at age 20 to 2.50% at age 65
Investment Rate of Return	7.00% net of investments expense, including inflation	7.00% net of investments expense, including inflation
Discount Rate of Return	7.00%	7.00%
Payroll Increases	3.00%	3.00%
Cost-of-Living Adjustments (COLA)	0.00%	0.00%

For 2022, post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110.0% for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95.0% for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For 2021, post-retirement mortality rates are based on RP-2014 Annuitant Mortality Table with 50.0% of rates through age 69, 70.0% of rates between ages 70 and 79, 90.0% of rates between ages 80 and 84, and 100.0% of rates, thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90.0% of rates for males and 100.0% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2022, valuation are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

This Space Intentionally Left Blank

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	26.00%	6.60%
International Equity	22.00%	6.80%
Alternatives	19.00%	7.38%
Fixed Income	22.00%	1.75%
Real Estate	10.00%	5.75%
Liquidity Reserves	1.00%	1.00%
Total	100.00%	

^{*} Final target weights reflected October 1, 2022.

Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2022. Therefore, the long-term expected rate of return on pension plan investments of 7.00% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2022.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00%) or one-percentage-point higher (8.00%) than the current rate:

	1%	Current	1%
	Decrease	Discount Rate	Increase
_	6.00%	7.00%	8.00%
Proportionate share of the net pension liability	\$116,425,216	\$77,070,333	\$43,788,286

Changes Between the Measurement Date and the Reporting Date

In May 2023, the Board approved the following:

1. Retirees who started receiving benefits on June 1, 2019, or earlier will receive a 1.0% cost-of-living adjustment (COLA) in fiscal year 2024. The increase will be added to the base benefit on the retirement date anniversary.

^{** 10} year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25%, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

2. For teachers now in the classroom, the current retirement eligibility rule requiring 34 years of service for an unreduced retirement has been extended five years through July 2028. The requirement was scheduled to increase to 35 years of service on August 1, 2023.

Any effect on the net pension liability is not known at this time.

Note 9 - Defined Benefit OPEB Plans

See Note 8 for a description of the net OPEB liability (asset).

<u>Plan Description - School Employees Retirement System (SERS)</u>

Health Care Plan Description

The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. The following types of credit purchased after January 29, 1981 do not count toward health care coverage eligibility: military, federal, out-of-state, municipal, private school, exempted, and early retirement incentive credit. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy

State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14.0% of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2023, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2023, this amount was \$25,000. Statutes provide that no employer shall pay a health care surcharge greater than 2.0% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2023, the District's surcharge obligation was \$226,601.

The surcharge, added to the allocated portion of the 14.00% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$226,601 for fiscal year 2023.

Plan Description - State Teachers Retirement System (STRS)

Plan Description

The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy

Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14.0% of covered payroll. For the fiscal year ended June 30, 2023, STRS did not allocate any employer contributions to post-employment health care.

Net OPEB Liabilities (Assets), OPEB Expense (Income), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability (asset) was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	SERS	STRS	Total
Proportionate Share of the Net OPEB Liability Proportionate Share of the Net OPEB (Asset)	4,360,402 0	\$0 (8,977,039)	\$4,360,402 (8,977,039)
Proportion of the Net OPEB Liability/Asset: Current Measurement Date Prior Measurement Date	0.31056760% 0.34215610%	0.34669319% 0.35288407%	
Change in Proportionate Share	-0.03158850%	-0.00619088%	
OPEB Expense	(354,818)	(1,592,638)	(\$1,947,456)

At June 30 2023, reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

This Space Intentionally Left Blank

	SERS	STRS	Total
<u>Deferred Outflows of Resources</u>			
Differences between expected and actual experience	\$36,655	\$130,141	\$166,796
Changes of assumptions	693,578	382,389	1,075,967
Net difference between projected and			
actual earnings on OPEB plan investments	22,663	156,268	178,931
Changes in employer proportionate share of net			
OPEB liability	437,599	51,517	489,116
Contributions subsequent to the measurement date	226,601	0	226,601
Total Deferred Outflows of Resources	\$1,417,096	\$720,315	\$2,137,411
Deferred Inflows of Resources			
Differences between expected and actual experience	\$2,789,233	\$1,348,189	\$4,137,422
Changes of assumptions	1,789,976	6,365,598	8,155,574
Changes in employer proportionate share of net			
OPEB liability	780,239	0	780,239
Total Deferred Inflows of Resources	\$5,359,448	\$7,713,787	\$13,073,235

\$226,601 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (adjustment to net OPEB asset) in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year			
Ending June 30:	SERS	STRS	Total
2024	(050.045)	(0.000.004)	(40.000.00=)
2024	(869,016)	(2,033,881)	(\$2,902,897)
2025	(862,248)	(2,018,873)	(2,881,121)
2026	(773,981)	(956,369)	(1,730,350)

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time

of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2022, compared with June 30, 2021, are presented below:

	June 30, 2022	June 30, 2021
Inflation	2.40%	2.40%
Future Salary Increases, Including Inflation		
Wage Increases	3.25% to 13.58%	3.25% to 13.58%
Investment Rate of Return	7.00% net of investment expense, including inflation	7.00% net of investment expense, including inflation
Fiduciary Net Position is Projected to be Depleted	2044	2042
Municipal Bond Index Rate:		
Measurement Date	3.69%	1.92%
Prior Measurement Date	1.92%	2.45%
Single Equivalent Interest Rate (SEIR), net of plan		
investment expense, including price inflation:		
Measurement Date	4.08%	2.27%
Prior Measurement Date	2.27%	2.63%
Health Care Cost Trend Rate:		
Medicare	5.125% to 4.40%	5.125% to 4.40%
Pre-Medicare	6.75% to 4.40%	6.75% to 4.40%
Medical Trend Assumption	7.00% to 4.40%	7.00% to 4.40%

Mortality rates among healthy retirees were based on the PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females. Mortality rates for contingent survivors were based on PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5% for males and adjusted 122.5% for females. Mortality rates for actives is based on PUB-2010 General Amount Weighted Below Median Employee mortality table.

The most recent experience study was completed for the five year period ended June 30, 2020.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2016 through 2020, and was adopted by the Board in 2021.

Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2020 five-year experience study, are summarized as follows:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Cash	2.00%	-0.45%
US Equity	24.75%	5.37%
Non-US Equity Developed	13.50%	6.22%
Non-US Equity Emerging	6.75%	8.22%
Fixed Income/Global Bonds	19.00%	1.20%
Private Equity	11.00%	10.05%
Real Estate/Real Assets	16.00%	4.87%
Multi-Asset Strategy	4.00%	3.39%
Private Debt/Private Credit	3.00%	5.38%
Total	100.00%	

Discount Rate

The discount rate used to measure the total OPEB liability at June 30, 2022 was 4.08%. The discount rate used to measure total OPEB liability prior to June 30, 2021, was 2.27%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50% of projected covered payroll each year, which includes a 1.50% payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make all projected future benefit payments of current System members by SERS actuaries. The Municipal Bond Index Rate is used in the determination of the SEIR for both the June 30, 2022, and the June 30, 2021 total OPEB liability. The Municipal Bond Index rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate is 3.69% at June 30, 2022 and 1.92% at June 30, 2021.

Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates

The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.08%) and higher (5.08%) than the current discount rate (4.08%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.40%) and higher (8.00% decreasing to 5.40%) than the current rate

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(3.08%)	(4.08%)	(5.08%)
Proportionate share of the net OPEB liability	\$5,415,684	\$4,360,402	\$3,508,501
	1% Decrease	Current Trend Rate	1% Increase
	(6.00% decreasing	(7.00% decreasing	(8.00% decreasing
	to 3.40%)	to 4.40%)	to 5.40%)
Proportionate share of the net OPEB liability	\$3,362,652	\$4,360,402	\$5,663,624

Actuarial Assumptions - STRS

Key methods and assumptions used in the June 30, 2022, actuarial valuation and the June 30, 2021 actuarial valuation are presented below:

	June 30, 2022	June 30, 2021
Projected salary increases	Varies by service from 2.50% to 8.50%	Varies by service from 2.50% to 12.50%
Investment Rate of Return	7.00%, net of investment expenses, including inflation	7.00%, net of investment expenses, including inflation
Payroll Increases	3.00%	3.00%
Discount Rate of Return	7.00%	7.00%
Health Care Cost Trends: Medical		
Pre-Medicare	7.50% initial, 3.94% ultimate	5.00% initial, 4.00% ultimate
Medicare	-68.78% initial, 3.94% ultimate	-16.18% initial, 4.00% ultimate
Prescription Drug		
Pre-Medicare	9.00% initial, 3.94% ultimate	6.50% initial, 4.00% ultimate
Medicare	-5.47% initial, 3.94% ultimate	29.98% initial, 4.00% ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For 2022, healthy retirees post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110.0% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95.0% for females, projected forward generationally using mortality improvement scale

MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For 2021, healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50.0% of rates through age 69, 70.0% of rates between ages 70 and 79, 90.0% of rates between ages 80 and 84, and 100.0% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90.0% of rates for males and 100.0% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2022, valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation *	Rate of Return **
Domestic Equity	26.00%	6.60%
International Equity	22.00%	6.80%
Alternatives	19.00%	7.38%
Fixed Income	22.00%	1.75%
Real Estate	10.00%	5.75%
Liquidity Reserves	1.00%	1.00%
Total	100.00%	

^{*} Target allocation percentage is effective as of July 1, 2022. Target weights will be phased in over a 3-month period concluding on October 1, 2022.

Discount Rate

The discount rate used to measure the total OPEB liability was 7.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2022. Therefore, the long-term expected rate of return on health care plan investments of 7.00% was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2022.

^{** 10} year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25%, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

Sensitivity of the Proportionate Share of the Net OPEB (Asset) to Changes in the Discount and Health Care Cost Trend Rate

The following table represents the net OPEB asset as of June 30, 2022, calculated using the current period discount rate assumption of 7.00%, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.00%)	(7.00%)	(8.00%)
Proportionate share of the net OPEB (asset)	(\$8,299,038)	(\$8,977,039)	(\$9,557,808)
	1%	Current	1%
	Decrease	Trend Rate	Increase
Proportionate share of the net OPEB (asset)	(\$9,311,375)	(\$8,977,039)	(\$8,555,025)

Changes Between the Measurement Date and the Reporting Date

In May 2023, the Board approved the following:

- 1. Retirees who started receiving benefits on June 1, 2019, or earlier will receive a 1.0% cost-of-living adjustment (COLA) in fiscal year 2024. The increase will be added to the base benefit on the retirement date anniversary.
- 2. For teachers now in the classroom, the current retirement eligibility rule requiring 34 years of service for an unreduced retirement has been extended five years through July 2028. The requirement was scheduled to increase to 35 years of service on August 1, 2023.

Any effect on the net OPEB asset is not known at this time.

Note 10 - Contingent Liabilities

School Foundation

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. The final adjustment was not material and is not reflected in the accompanying financial statements.

<u>Grants</u>

The District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements, and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other

applicable funds. However, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2023, if applicable, cannot be determined at this time.

Litigation

The District's attorney estimates that all other potential claims against the District not covered by insurance resulting from all other litigation would not materially affect the financial statements of the District.

Note 11 - Jointly Governed Organizations

Great Oaks Career Campuses, a jointly governed organization, is a distinct political subdivision of the State of Ohio which operates under the direction of a Board consisting of one representative from each participating school district's elected board. The Board possesses its own budgeting and taxing authority. Great Oaks Career Campuses provides academic preparation and job training which leads to employment and/or further education upon graduation from high school. The District has no ongoing financial interest in or responsibility for the Institute. To obtain financial information, write to Great Oaks Career Campuses at 3254 East Kemper Road, Cincinnati, Ohio 45241.

The District is a participant in the Hamilton Clermont Cooperative Information Technology Center (HCC). HCC is an association of public districts in a geographic area determined by the Ohio Department of Education. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. The Board of the School consists of one representative from each of the participating members. The degree of control exercised by any participating district is limited to its representation on the board. To obtain financial information, write to HCC, at 1007 Cottonwood Drive, Loveland, Ohio 45140.

Note 12 - Risk Management

The District is exposed to various risks of loss related to: torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The District carries insurance coverage with the following companies.

Coverage	<u>Company</u>
Automobile	Liberty Mutual
Property	Liberty Mutual
General Liability	Liberty Mutual

Limits and deductible amounts for the above policies vary accordingly.

<u>Coverage</u>	<u>Limits</u>	<u>Deductible</u>
Automobile	\$1,000,000 each occurrence	\$1,000 collision & Comprehensive
Property	\$176,457,612 blanket coverage	\$10,000 each loss
General Liability	\$2,000,000 general aggregate	
Employee Benefit Liability	\$1,000,000	\$1,000 each loss
Umbrella	\$10,000,000	
Sexual Misconduct	\$1,000,000 general aggregate	\$5,000 each loss
Law Enforcement	\$1,000,000 general aggregate	\$7,500 each loss
School Leaders E&O	\$1,000,000 general aggregate	\$10,000 each loss

There were no significant reductions in insurance coverage from the prior year. Also, there were no settlements that exceeded insurance coverage for the past three fiscal years.

The District is self-insured for its workers' compensation costs. Expenses for claims are recorded on the current basis based on an actuarially determined charge per employee. The District accounts for the activities of this program in an internal service fund in accordance with GASB Statement No. 10. A summary of the changes in self-insurance workers' compensation claims liability is as follows:

	2023	2022
Claims Liability at Beginning of Year	\$41,983	\$51,010
Claims Incurred	89,784	108,451
Claims Paid	(109,148)	(117,478)
Claims Liability at End of Year	\$22,619	\$41,983

Note 13 – Accountability

The following individual funds had a deficit in fund balance at year end:

Fund	Deficit	Proprietary Fund:	Deficit
Other Governmental Funds:		Internal Service	\$22,619
Title I	\$187,194		
Special Education	37,588		
IDEA Preschool Grant	3,322		
Auxiliary Services	44		
ESSER	189,900		

The deficit fund balances were caused by GAAP Accruals.

Note 14 – Set Asides

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for textbooks and capital acquisition. Disclosure of this information is required by State statute.

This Space Intentionally Left Blank

	Capital Acquisition	Budget Stabilization
Set Aside Reserve Balance as of June 30, 2022	\$0	\$380,716
Current Year Set Aside Requirement	1,625,422	0
Qualified Disbursements	(319,295)	0
Current Year Offsets	(1,306,127)	0
Set Aside Reserve Balance as of June 30, 2023	\$0	\$380,716
Restricted Cash as of June 30, 2023	\$0	\$380,716

The District had offsets credits of \$37,854,325 and qualifying disbursements during the year that reduced the set-aside amounts for capital maintenance reserve to below zero-extra qualified disbursement amounts may not be used to reduce the set-aside requrements of future years.

Note 15 - Interfund Balances

At fiscal year end, interfund receivables and payables, and transfers in and out were as follows:

	Interfund Receivable	Interfund Payable	Transfers In	Transfers Out
General Fund	\$18,000	\$0	\$0	\$225,000
Other Governmental Funds	0	18,000	225,000	0
Total all funds	\$18,000	\$18,000	\$225,000	\$225,000

Interfund balance are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorization; to segregate and to return money to the fund from which it was originally provided once a project is completed. All balances are expected to be repaid within one year.

Note 16 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

This Space Intentionally Left Blank

	Governmental			
Fund Balances	General	Funds	Total	
Restricted for:				
Student Managed Activity	\$0	\$514,299	\$514,299	
Food Servoce	0	2,077,276	2,077,276	
Student Activity	0	52,895	52,895	
Scholarships	0	593,226	593,226	
Debt Service	0	3,449,142	3,449,142	
Total Restricted	0	6,686,838	6,686,838	
Committed to:				
Capital Improvements	0	3,670,152	3,670,152	
Total Committed	0	3,670,152	3,670,152	
Assigned to:				
Public Schools	513,137	0	513,137	
Budgetary Resources	5,000,000	0	5,000,000	
Total Assigned	5,513,137	0	5,513,137	
Unassigned (Deficit)	30,057,246	(418,048)	29,639,198	
Total Fund Balance	\$35,570,383	\$9,938,942	\$45,509,325	

Note 17 – Tax Abatements entered Into By Other Governments

Other governments entered into property tax abatement agreements with property owners under the solar abatement programs with the taxing districts of the District. The program is a directive incentive tax exemption program benefiting property owners who renovated or constructed solar power improvements. Under this program, the other governments designated areas to encourage these solar power improvements that are 100% abated with no expiration, unless physically removed or the owner does not comply with provisions. Within the taxing districts of the District, other municipalities have entered into solar agreements. Under these agreements the District's property taxes were abated by \$0. The District is not receiving any amounts from this government in association with the forgone property tax revenue.

Note 18 – Implementation of New Accounting Principles

New Accounting Principles

For fiscal year 2023, the School District implemented Governmental Accounting Standards Board (GASB) Statement No. 91, Conduit Debt Obligations; GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements; GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs); and portions of GASB Statement No. 99, Omnibus 2022.

GASB Statement No. 91 clarifies the definition of a conduit debt obligation, establishing that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements

associated with conduit debt obligations; and improves required note disclosures. The implementation of GASB Statement No. 91 did not have an effect on the financial statements of the School District.

GASB Statement No. 94 primary objective is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement.

GASB Statement No. 94 also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The implementation of GASB Statement No. 94 did not have an effect on the financial statements of the School District.

GASB Statement No. 96 provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The implementation of GASB Statement No. 96 did not have an effect on the financial statements of the School District.

GASB Statement No. 99 addresses a variety of topics and includes clarification of provisions related to accounting and reporting of leases under GASB Statement No. 87, provides extension of the period which the London Interbank Offered Rate is considered appropriate benchmark interest rate, guidance on disclosure of nonmonetary transaction, accounting for pledges of future revenues when resources are not received by the pledging government under GASB Statement No. 48, and terminology updates related to certain provisions of GASB Statement No. 63 and No. 53. These topics under GASB Statement No. 99 provisions were implemented and did not have an effect on the financial statements of the School District.

Other topics in GASB Statement No. 99 includes classification of other derivative instruments within the scope of GASB Statement No. 53, clarification of provisions related to accounting and reporting of Public-Private and Public-Public Partnerships under GASB Statement No. 94, and clarification of provisions to accounting and reporting of subscription-based information technology arrangements under GASB Statement No. 96. These topics are effective for future fiscal years and have not been implemented by of the School District.

Note 1 – Budgetary Process

All funds, except custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriations resolution and the certificate of estimated resources which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Board. The legal level of control has been established by the Board at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the fiscal year 2023.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Combined Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as assigned to a fund balance for governmental fund types and expendable trust funds (GAAP basis).
- 4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.
- 5. Some funds are reported as part of the general fund (GAAP basis) as opposed to the general fund being reported alone (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis to the budgetary

Oak Hills Local School District, Ohio Notes to the Required Supplementary Information For The Year Ended June 30, 2023

basis for the general fund.

	General
GAAP Basis	\$60,710
Revenue Accruals	(2,377,151)
Expenditure Accruals	1,647,418
Budget Basis	(\$669,023)

Note 2 - Net Pension Liability

School Employees Retirement System (SERS)

Changes in Benefit Terms:

2023: There were no changes in benefit terms since the prior measurement period.

2022: Cost of Living Adjustments (COLA) increased from 0.50% to 2.50%.

2020-2021: There were no changes in benefit terms from the amounts reported for this fiscal year.

2019: With the authority granted the Board under Senate Bill 8, the Board has enacted a three year COLA delay for future benefit recipients commencing benefits on or after April 1, 2018.

2018: SERS changed from a fixed 3.00% annual increase to a Cost of Living Adjustments (COLA) based on the changed in the Consumer Price Index Index (CPI-W), with a cap of 2.50% and a floor of 0.00%.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

Changes in Assumptions:

2023: The following changes of assumptions affected the total pension liability since the prior measurement date:

(1) Cost of Living Adjustments (COLA) was increased from 2.00% to 2.50% for calendar year 2023.

2022: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.00% to 2.40%,
- (2) Payroll growth assumption was reduced from 3.50% to 1.75%,
- (3) Assumed real wage growth was increased from 0.50% to 0.85%,
- (4) Cost of Living Adjustments (COLA) was reduced from 2.50% to 2.00%,
- (5) The discount rate was reduced from 7.50% to 7.00%,
- (6) Rates of withdrawal, compensation, participation, spouse coverage assumption, retirement, and disability were updated to reflect recent experience, and,
- (7) Mortality among active members, service retirees and beneficiaries, and disabled members were updated.

2018-2021: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

Oak Hills Local School District, Ohio Notes to the Required Supplementary Information For The Year Ended June 30, 2023

2017: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.25% to 3.00%,
- (2) Payroll growth assumption was reduced from 4.00% to 3.50%,
- (3) Assumed real wage growth was reduced from 0.75% to 0.50%,
- (4) Rates of withdrawal, retirement and disability were updated to reflect recent experience,
- (5) Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females,
- (6) Mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates,
- (7) Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement, and
- (8) The discount rate was reduced from 7.75% to 7.50%.

2014-2016: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

State Teachers Retirement System (STRS)

Changes in Benefit Terms:

2019-2023: There were no changes in benefit terms from the amounts reported for these fiscal years.

2018: STRS decreased the Cost of Living Adjustment (COLA) to zero.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

Changes in Assumptions:

2023: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) Post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table:
 - a. Adjusted 110.0% for males, projected forward generationally using mortality improvement scale MP-2020
- (2) Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table:
 - a. Adjusted 95.0% for females, projected forward generationally using mortality improvement scale MP-2020
- (3) Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table:
 - a. Projected forward generationally using mortality improvement scale MP-2020
- (4) Projected salary increases changed from 2.50% to 12.50% to 2.50% to 8.50%

2022: There were changes in assumptions since the prior measurement date, which the discount rate was adjusted to 7.00% from 7.45%.

2019-2021: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

Oak Hills Local School District, Ohio Notes to the Required Supplementary Information For The Year Ended June 30, 2023

2018: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The long term expected rate of return was reduced from 7.75% to 7.45%,
- (2) The inflation assumption was lowered from 2.75% to 2.50%,
- (3) The payroll growth assumption was lowered to 3.00%,
- (4) Total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation,
- (5) The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016, and
- (6) Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

2014-2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

Note 3 - Net OPEB (Asset)/Liability

School Employees Retirement System (SERS)

Changes in Benefit Terms:

2017-2023: There were no changes in benefit terms from the amounts reported for these fiscal years.

Changes in Assumptions:

2023: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 2.27% Measurement Date 4.08%

(2) Municipal Bond Index Rate:

Prior Measurement Date 1.92% Measurement Date 3.69%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 2.27%
Measurement Date 4.08%

(4) Health care trend rates were updated.

2022: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 2.63% Measurement Date 2.27%

(2) Investment Rate of Return:

Prior Measurement Date 7.50% Measurement Date 7.00%

(3) Assumed Rate of Inflation:

Prior Measurement Date 3.00% Measurement Date 2.40%

For The Year Ended June 30, 2023

(4) Payroll Growth Assumption:

Prior Measurement Date 3.50% Measurement Date 1.75%

(5) Assumed Real Wage Growth:

Prior Measurement Date 0.50% Measurement Date 0.85%

(6) Municipal Bond Index Rate:

Prior Measurement Date 2.45% Measurement Date 1.92%

(7) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 2.63% Measurement Date 2.27%

- (8) Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- (9) Rate of health care participation for future retirees and spouses was updated to reflect recent.
- (10) Mortality among active members was updated to the following:
 - a. PUB-2010 General Amount Weighted Below Median Employee mortality table.
- (11) Mortality among service retired members was updated to the following:
 - a. PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females.
- (12) Mortality among beneficiaries was updated to the following:
 - a. PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5% for males and adjusted 122.5% for females.
- (13) Mortality among disabled member was updated to the following:
 - a. PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females.
- (14) Mortality rates are projected using a fully generational projection with Scale MP-2020.

2021: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 3.22% Measurement Date 2.63%

(2) Municipal Bond Index Rate:

Prior Measurement Date 3.13% Measurement Date 2.45%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 3.22% Measurement Date 2.63%

2020: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 3.70%
Measurement Date 3.22%

(2) Municipal Bond Index Rate:

For The Year Ended June 30, 2023

Prior Measurement Date 3.62% Measurement Date 3.13%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 3.70% Measurement Date 3.22%

2019: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 3.63% Measurement Date 3.70%

(2) Municipal Bond Index Rate:

Prior Measurement Date 3.56% Measurement Date 3.62%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 3.63% Measurement Date 3.70%

2018: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Fiscal Year 2018 3.63% Fiscal Year 2017 2.98%

(2) Municipal Bond Index Rate:

Fiscal Year 2018 3.56% Fiscal Year 2017 2.92%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Fiscal Year 2018 3.63% Fiscal Year 2017 2.98%

2017: The following changes of assumptions affected the total OPEB liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.25% to 3.00%,
- (2) Payroll growth assumption was reduced from 4.00% to 3.50%,
- (3) Assumed real wage growth was reduced from 0.75% to 0.50%,
- (4) Rates of withdrawal, retirement and disability were updated to reflect recent experience,
- (5) Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females,
- (6) Mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates, and
- (7) Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

State Teachers Retirement System (STRS)

Changes in Benefit Terms:

2023: Salary increase rates were updated based on the actuarial experience study for the period July 1, 2015 through June 30, 2021 and were changed from age based to service based. Healthcare trends were updated to reflect emerging claims and recoveries experience.

2022: The non-Medicare subsidy percentage was increased effective January 1, 2022 from 2.055% to 2.100%. The non-Medicare frozen subsidy base premium was increased effective January 1, 2022. The Medicare Part D subsidy was updated to reflect it is expected to be negative in CY2022. The Part B monthly reimbursement elimination date was postponed indefinitely.

2021: There was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year end 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

2020: There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

2019: The subsidy multiplier for non-Medicare benefit recipients was increased from 1.900% to 1.944% per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020. The Board is extending the current Medicare Part B partial reimbursement program for one year. Under this program, benefit recipients currently enrolled in the STRS Ohio Health Care Program and Medicare Part B receive \$29.90 per month to reimburse a portion of the Medicare Part B premium. The reimbursement was set to be reduced to \$0 beginning January 1, 2020. This impacts about 85,000 benefit recipients.

2018: The subsidy multiplier for non-Medicare benefit recipients was reduced from 2.10% to 1.90% per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2019.

2017: There were no changes in benefit terms from the amounts reported for this fiscal year.

Changes in Assumptions:

2023: The discount rate remained unchanged at 7.00% for the June 30, 2022 valuation.

2022: There were changes in assumptions since the prior measurement date, which the discount rate was adjusted to 7.00% from 7.45%.

Oak Hills Local School District, Ohio Notes to the Required Supplementary Information For The Year Ended June 30, 2023

2021: There were changes in assumptions during the measurement year, which decreased the total OPEB liability by approximately \$0.26 billion. The assumption changes included changes in healthcare costs and trends.

2020: There were changes in assumptions during the measurement year, which increased the total OPEB liability by approximately \$0.04 billion. The assumption changes included changes in healthcare costs and trends.

2019: The discount rate was increased from the blended rate of 4.13% to the long-term expected rate of return of 7.45% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB). Valuation year per capita health care costs were updated.

2018: The discount rate was increased from 3.26% to 4.13% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and the long term expected rate of return was reduced from 7.75% to 7.45%. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for this fiscal year.

This Space Intentionally Left Blank

Combining Statements and Individual Fund Schedules

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

Capital Project Fund

The Permanent Improvement Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition and construction of capital facilities and other capital assets. Capital project funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Debt Service Fund

The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds. The District has only one Debt Service fund for fiscal year 2023.

NONMAJOR SPECIAL REVENUE FUNDS

Fund Descriptions

Student Managed Activity – Fund used to account for student activity programs that do not have student management of the program, i.e. athletics, band, etc.

Auxiliary Services – Fund used to account for state funds used to provide services and materials to students attending non-public schools within the boundaries of the District.

Data Communications – State grant used to support technology used for non-instructional purposes, i.e. networking.

Miscellaneous State Grants – Fund used to account for state funds that are legally restricted to expenditures for specified purposes.

Special Education – Fund used to account for federal monies provided to support programs for students with disabilities.

Title I – Fund used to account for federal monies provided to support programs for educationally deprived students.

Drug-Free Schools – To offer a disciplined environment conducive to learning, by preventing violence in and around schools and strengthen programs that prevent the illegal use of alcohol, tobacco, and drugs, involve parents, and coordinated with related Federal, State, and community efforts and resources.

IDEA Preschool Grant – Fund used to account for federal monies provided to support programs for pre-school aged students with disabilities.

Improving Teacher Quality – Fund used to account for funds provided for staff development programs.

Miscellaneous Federal Grants – Fund used to account for federal funds that are legally restricted to expenditures for specified purposes.

Food Service – Fund used to record financial transactions related to the food service operation.

Title III – Funds to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

Student Activity - To account for revenues generated by student managed activities.

ESSER - To provide emergency relief grants to school districts related to the COVID-19 pandemic.

Scholarships – To account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments

NONMAJOR DEBT SERVICE FUND

Fund Description

Debt Service Fund – The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds. The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance for the Debt Service Fund has been included in the Nonmajor Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures and Changes in Fund Balance. The Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual (Non-GAAP Budgetary Basis) follows this page.

	Debt Service Fund		
	Final Budget	Actual	Variance from Final Budget

OTHER GENERAL FUNDS

With the implementation of GASB Statement No. 54, certain funds that the District prepares legally adopted budgets for no longer meet the definition to be reported as Special Revenue funds and have been included with the General Fund in the governmental fund financial statements. The District has only presented the budget schedules for these funds.

Fund Descriptions

Public School – Fund used to account for specific local revenue sources generated by individual school buildings. Expenditures include field trips, items to support co-curricular and extracurricular programs, and recognition programs.

State Subdivision – Fund used to account for state monies provided for the state subdivision programs.

Uniform School Supply – Fund to account for the purchase and sale of school supplies as adopted by the Board of Education for use in all schools of the District.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the District's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

CONTENTS

Financial Trends - These schedules contain trend information to help the reader understand how the District's financial position has changed over time.

Revenue Capacity - These schedules contain information to help the reader understand and assess the factors affecting the District's ability to generate its most significant local revenue source(s), the property tax (and the income tax).

Debt Capacity - These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Economic and Demographic Information - These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

Operation Information - These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Sources - Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Note: The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for everything except inventories, which are assessed at 23 percent. Property is assessed annually.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue to be received in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed. House Bill 66 phased out tangible personal property with the last collection during 2010. Telephone personal property was assessed at 10% for 2009, 5% for 2010, and eliminated in 2011.

^{(1) -} Assessed values shown in this schedule will not agree to amounts in the notes to the financial statements, since the schedules are shown on a calendar year basis, which is consitent with the method county auditors maintain this information
