Defiance County  
500 Second Street, Suite 301  
Defiance, Ohio 43512

We have reviewed the *Independent Auditor's Report* of Defiance County prepared by Julian & Grube, Inc., for the audit period January 1, 2024 through December 31, 2024. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Defiance County is responsible for compliance with these laws and regulations.

## Independent Auditor's Report

Defiance County  
500 Court Street, Suite A  
Defiance, Ohio 43512

To the Members of the Board of Commissioners:

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Defiance County, Ohio, as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise Defiance County's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Defiance County, as of December 31, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of Defiance County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Emphasis of Matter***

As discussed in Note 3 to the financial statements, Defiance County restated beginning net position as a result of a change in accounting principle by implementing GASB Statement No. 101, "Compensated Absences". Our opinions are not modified with respect to this matter.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Defiance County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Defiance County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Defiance County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of net pension and other postemployment benefit assets and liabilities and pension and other postemployment benefit contributions, and budgetary comparison information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Defiance County's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 13, 2025 on our consideration of Defiance County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Defiance County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Defiance County's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

The management's discussion and analysis of Defiance County's (the "County") financial performance provides an overall review of the County's financial activities for the year ended December 31, 2024. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the notes to the basic financial statements and the basic financial statements to enhance their understanding of the County's financial performance.

#### **Financial Highlights**

Key financial highlights for 2024 are as follows:

- The total net position of the County increased \$9,574,302 over the 2023's restated net position of \$142,489,560. Net position of governmental activities increased \$8,417,988, which represents an 8.29% increase from the 2023 restated net position of \$101,515,660. Net position of business-type activities increased \$1,156,314 or 2.82% over the 2023 restated net position of \$40,973,900.
- General revenues accounted for \$24,018,926 or 49.68% of total governmental activities revenue. Program specific revenues accounted for \$24,329,742 or 50.32% of total governmental activities revenue.
- The County had \$39,930,680 in expenses related to governmental activities; \$24,329,742 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes) of \$24,018,926 were adequate to provide for these programs.
- The general fund, the County's largest major governmental fund, had revenues of \$18,972,668 in 2024. The general fund had expenditures and other financing uses of \$14,219,719 in 2024. The fund balance of the general fund increased \$4,752,949 from the 2023 fund balance of \$12,111,308.
- The developmental disabilities (DD) fund, a major governmental fund, had revenues of \$6,031,368 in 2024. The DD fund had expenditures of \$7,315,959 in 2024. The DD fund balance decreased \$1,284,591 from 2023 to 2024.
- The motor vehicle license and gas tax fund, a major governmental fund, had revenues and other financing sources of \$8,157,486 in 2024. The motor vehicle license and gas tax fund had expenditures of \$8,642,867 in 2024. The motor vehicle license and gas tax fund balance decreased \$485,381 from 2023 to 2024.
- The emergency 911 fund, a major governmental fund, had revenues of \$1,309,829 in 2024. The emergency 911 fund had expenditures of \$1,168,545 in 2024. The emergency 911 fund balance increased \$141,284 from 2023 to 2024.
- The senior center fund, a major governmental fund, had revenues of \$1,772,661 in 2024. The senior center fund had expenditures of \$1,751,509 in 2024. The senior center fund balance increased \$21,152 from 2023 to 2024.
- The capital projects and improvements fund, a major governmental fund, had expenditures of \$65,723 in 2024 resulting in a decrease of \$65,723 in fund balance from 2023 to 2024.
- The wastewater capital improvements fund, a major governmental fund, had revenues and other financing sources of \$1,263,363 in 2024. The wastewater capital improvements fund had expenditures of \$21,618 in 2024. The wastewater capital improvements fund balance increased \$1,241,745 from 2023 to 2024.
- Net position for the business-type activities, which consists of the landfill and sewer enterprise funds, increased in 2024 by \$1,156,314. This increase is mainly due to charges for services continuing to outpace the enterprise fund expenses.
- In the general fund, the actual revenues and other financing sources were \$3,824,666 greater than originally budgeted, and actual expenditures and other financing uses were \$5,769,723 less than originally budgeted. These positive variances are a result of the County's conservative budgeting process.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

#### **Using the Basic Financial Statements (BFS)**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the County as a whole operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole County, presenting both an aggregate view of the County's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the County's most significant funds with all other nonmajor funds presented in total in one column. In the case of the County, there are seven major governmental funds. The general fund is the largest major governmental fund.

#### **Reporting the County as a Whole**

##### ***Statement of Net Position and the Statement of Activities***

The statement of net position and the statement of activities answer the question, "How did the County do financially during 2024?" These statements include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the County's net position and changes in net position. The change in net position is important because it tells the reader that, for the County as a whole, the financial position of the County has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the County's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, and other factors.

In the statement of net position and the statement of activities, the County is divided into two distinct kinds of activities:

**Governmental activities** - Most of the County's programs and services are reported here including human services, health, public safety, public works and general government. These services are funded primarily by taxes and intergovernmental revenues including federal and State grants and other shared revenues.

**Business-type activities** - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided.

#### **Reporting the County's Most Significant Funds**

##### ***Fund Financial Statements***

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other State and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Fund financial reports provide detailed information about the County's major funds. The County uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the County's most significant funds. The County's major governmental funds are the general fund, developmental disabilities (DD) fund, motor vehicle license and gas tax fund, emergency 911 fund, senior center fund, capital projects and improvements fund, and wastewater capital improvements fund. The County's major enterprise funds are the landfill fund and sewer fund.

## DEFIANCE COUNTY, OHIO

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

#### ***Governmental Funds***

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation.

#### ***Proprietary Funds***

The County maintains proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its landfill and sewer operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County's internal service fund accounts for the activities of the self-insurance program for employee health care benefits. It also accounts for the activities of the County clinic.

#### ***Fiduciary Funds***

Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Custodial funds are the County's only fiduciary fund type.

#### ***Notes to the Basic Financial Statements***

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### ***Required Supplementary Information***

The required supplementary information provides detailed information regarding the County's budgetary schedules, the County's proportionate share of the net pension liability/asset and net OPEB liability/asset of the retirement systems, and a ten-year schedule of the County's contributions to the retirement systems to fund pension and OPEB obligations.

#### **Government-Wide Financial Analysis**

The statement of net position provides the perspective of the County as a whole. For the table below, amounts for 2024 have been presented in accordance with the provisions of GASB Statement No. 101 (see Note 3) while amounts for 2023 have been presented in accordance with previous guidance. The table below provides a summary of the County's net position at December 31, 2024 and December 31, 2023.

The net pension liability/asset is reported pursuant to Governmental Accounting Standards Board (GASB) Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The net other postemployment benefits (OPEB) liability/asset is reported pursuant to GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the County's actual financial condition by adding deferred inflows related to pension and OPEB and the net pension/OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB, net pension/OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability/asset or net OPEB liability/asset. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

## DEFIANCE COUNTY, OHIO

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

GASB 68 and GASB 75 require the net pension liability/asset and the net OPEB liability/asset to equal the County's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the County is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the County's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability/asset and net OPEB liability/asset, respectively, not accounted for as deferred inflows/outflows.

Over time, net position can serve as a useful indicator of a government's financial position. At December 31, 2024, the County's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$152,063,862. This amounts to \$109,933,648 in the governmental activities and \$42,130,214 in the business-type activities. This is an indication that the County's finances remained strong during 2024.

Capital assets reported on the government-wide statements represent the largest portion of the County's assets. At year-end, capital assets represented 49.58% of total governmental and business-type assets. Capital assets include land, easements, construction in progress, land improvements, buildings and improvements, machinery and equipment, vehicles, infrastructure, and intangible right to use assets. The County's net investment in capital assets at December 31, 2024 was \$93,408,512. These capital assets are used to provide services to citizens and are not available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

As of December 31, 2024, the County was able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

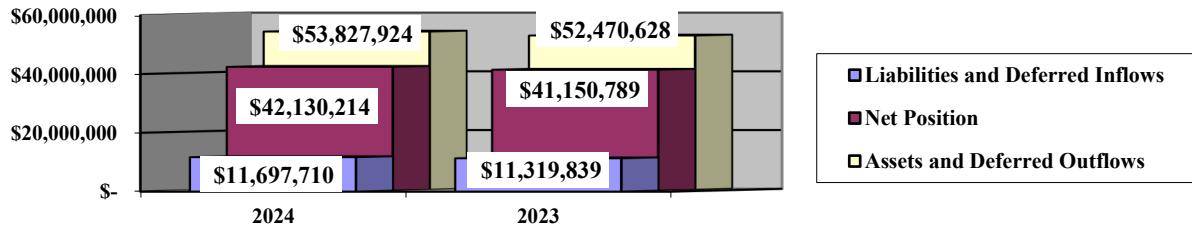

A portion of the County's net position, \$18,720,005 or 12.31%, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position of \$39,935,345 or 26.26% may be used to meet the government's ongoing obligations to citizens and creditors.

The graphs below illustrate the County's assets and deferred outflows of resources, liabilities and deferred inflows of resources, and net position at December 31, 2024 and December 31, 2023 for the governmental activities and business-type activities.

## DEFIANCE COUNTY, OHIO

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

#### Governmental Activities

Governmental activities net position increased by \$8,417,988 from the 2023 restated net position. The net position of the governmental activities increased mainly due to an increase in charges for services and sales, capital grants and contributions, property and sales taxes, and unrestricted grants during 2024.

Overall, expenses of the governmental activities decreased \$3,467,077 or 7.99%. The County's 2024 governmental expenses are comparable to the 2022 governmental expenses. This decrease is also the result of a decrease in pension expense. Pension expense decreased \$1,024,409.

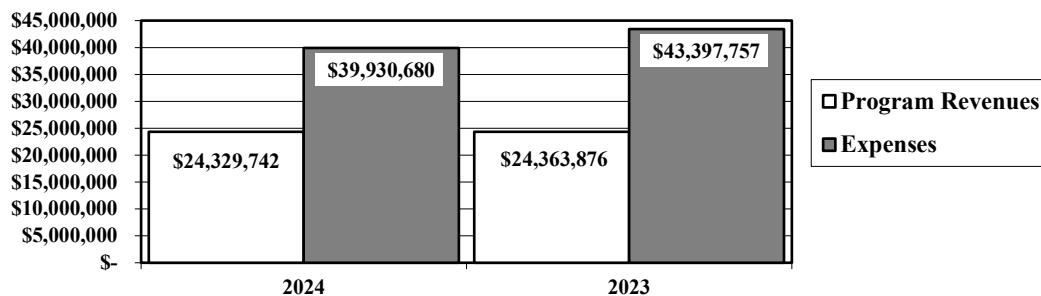

Public works expenses largely support the operations of the engineer's department, and accounts for \$10,786,191 or 27.01% of the total governmental expenses of the County. These expenses were funded by \$413,624 in direct charges to users, \$8,636,103 in operating grants and contributions, and \$2,601,584 in capital grants and contributions during 2024. General government expenses, which include legislative and executive and judicial programs, accounted for \$13,193,552 or 33.04% of the total governmental expenses of the County. General government expenses were covered by \$3,636,037 in direct charges to users and \$3,695,107 in operating grants and contributions during 2024.

The State and federal government contributed to the County revenues of \$16,463,693 in operating grants and contributions and \$2,601,584 in capital grants and contributions. These revenues are restricted to a particular program or purpose. Operating grants and contributions of \$2,834,242 or 17.22% subsidized County health programs. Operating grants and contributions of \$8,636,103 or 52.46%, as well as the entire amount of capital grants and contributions, subsidized public works projects.

General revenues totaled \$24,018,926 and amounted to 49.68% of the total revenues of \$48,348,668. These revenues primarily consist of property and sales tax revenue of \$16,875,960 or 70.26% of total general revenues in 2024. The other primary source of general revenues is grants and entitlements not restricted to specific programs, with operating grants consisting of local government and local government revenue assistance, making up \$2,314,933 or 9.64% of the total general revenues. Additionally, investment income for 2024 was \$3,773,372 and amounted to 15.71% of total general revenues.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following graph and table show, for governmental activities, the total cost of services and the net cost of services for 2024 and 2023. That is, it identifies the cost of these services supported by general revenues (such as tax revenue and unrestricted State grants and entitlements). As can be seen in the graph below, the County is reliant upon general revenues to finance operations as program revenues are not sufficient to cover total expenses.

The dependence upon general revenues for governmental activities is apparent, with 39.07% of expenses supported through taxes and other general revenues during 2024.

The graph below illustrates the County's reliance upon general revenues for 2024 and 2023.

#### Governmental Activities – General and Program Revenues

#### **Business-type Activities**

The landfill fund and sewer fund are the County's enterprise funds. These operations had program revenues of \$6,824,951, general revenues of \$576,523 and expenses of \$6,245,160 during 2024. The net position of the enterprise funds increased \$1,156,314 or 2.82% during 2024.

#### **Financial Analysis of the Government's Funds**

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### ***Governmental Funds***

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements.

## DEFIANCE COUNTY, OHIO

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

The County's governmental funds reported a combined fund balance of \$44,412,974, which is \$7,536,210 more than last year's total of \$36,876,764.

The table below indicates the fund balance and the total change in fund balance as of December 31, 2024 and December 31, 2023 for all major and nonmajor governmental funds.

#### ***General Fund***

The County's general fund balance increased \$4,752,949 from the 2023 balance. Revenues outpaced expenditures in the general fund during the current year. The table that follows assists in illustrating the revenues of the general fund.

	2024	2023	Increase/ (Decrease)	Percentage Change

Overall revenues of the general fund increased \$266,088 or 1.42%. Tax revenues increased mainly due to an increase in property tax revenues. Charges for services decreased mainly due to a decrease in auditor and recorder fees and indirect costs. Licenses and permits decreased due to a decrease in vendors licenses and title fees. Fines, forfeitures, and settlements decreased mainly due to a decrease in clerk of court fines. Intergovernmental revenue increased mainly due to an increase in revenue from grants and other governments. Investment income decreased due to the fair value adjustment recorded at December 31, 2024. Rental and other income decreased due to an increase in rental income offset with a larger decrease in miscellaneous revenues.

Total	<u>\$ 12,914,830</u>	<u>\$ 15,776,426</u>	<u>\$ (2,861,596)</u>	<u>(18.14) %</u>

Overall expenditures of the general fund decreased \$2,861,596 or 18.14%. Legislative and executive expenditures decreased due to fluctuations in payments made by the County Commissioners. Judicial expenditures increased due to an increase in payments related to court costs, primarily probate court and common pleas. Public safety expenditures decreased primarily due to a decrease in regional jail costs. Public works expenditures decreased mainly due to a decrease in costs related to the County's renovation and reconstruction projects. Health expenditures increased due to an increase in miscellaneous health costs. Human services expenditures decreased which can be primarily attributed to fluctuations in expenditures associated with child services provided by the Defiance-Paulding Consolidated Job and Family Services (DPCJFS). The County Commissioners contribute monies to DPCDJFS for child services. Economic development expenditures remained comparable to the prior year. Other expenditures increased which can be attributed to fluctuations in miscellaneous costs. Capital outlay expenditures decreased due to the inception of lease agreements during 2023. Debt service expenditures also increased as a result of the principal and interest on the lease agreements being paid from the general fund.

## DEFIANCE COUNTY, OHIO

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

The graphs below illustrate the expenditures of the general fund for 2024 and 2023.

#### ***Developmental Disabilities (DD) Fund***

The developmental disabilities (DD) fund, a major governmental fund, had revenues of \$6,031,368 in 2024. The DD fund had expenditures of \$7,315,959 in 2024. The DD fund balance decreased \$1,284,591 from 2023 to 2024, which is mainly attributable to an increase in expenditures as well as a decrease in revenues in 2024 compared to 2023.

#### ***Motor Vehicle License and Gas Tax Fund***

The motor vehicle license and gas tax fund, a major governmental fund, had revenues and other financing sources of \$8,157,486 in 2024. The motor vehicle license and gas tax fund had expenditures of \$8,642,867 in 2024. The motor vehicle license and gas tax fund balance decreased \$485,381 from 2023 to 2024, which is primarily due to an increase in public work expenditures.

#### ***Emergency 911 Fund***

The emergency 911 fund, a major governmental fund, had revenues of \$1,309,829 in 2024. The emergency 911 fund had expenditures of \$1,168,545 in 2024. The emergency 911 fund balance increased \$141,284 from 2023 to 2024, which is primarily due to a decrease in public safety expenditures.

#### ***Senior Center Fund***

The senior center fund, a major governmental fund, had revenues of \$1,772,661 in 2024. The senior center fund had expenditures of \$1,751,509 in 2024. The senior center fund balance increased \$21,152 from 2023 to 2024, which is primarily due to an increase in charges for service revenues.

#### ***Capital Projects and Improvements Fund***

The capital projects and improvements fund, a major governmental fund, had expenditures of \$65,723 in 2024 resulting in a decrease of \$65,723 to the fund balance.

#### ***Wastewater Capital Improvements Fund***

The wastewater capital improvements fund, a major governmental fund, had revenues and other financing sources of \$1,263,363 and expenditures of \$21,618 in 2024. The wastewater capital improvements fund balance increased \$1,241,745 from 2023 to 2024.

## DEFIANCE COUNTY, OHIO

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

#### ***Budgeting Highlights - General Fund***

The County's budgeting process is prescribed by the Ohio Revised Code (ORC). Essentially the budget is the County's appropriations, which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the ORC. Therefore, the County's plans or desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity, then the appropriations can be adjusted accordingly.

Budgetary information is presented for the general fund, DD fund, motor vehicle license and gas tax fund, emergency 911 fund, and the senior center fund. In the general fund, the original budgeted revenues and other financing sources were \$15,815,495 and were increased to \$18,972,828 in the final budget. Actual revenues and other financing sources of \$19,640,161 were more than the final budgeted revenues and other financing sources by \$667,333 or 3.52%. In the general fund, the original budgeted appropriations and other financing uses were \$24,262,308. These were increased to \$27,721,486 in the final budget. Actual expenditures and other financing uses of \$18,492,585 were less than final budgeted amounts by \$9,228,901 or 33.29%. This variance is a result of the County's conservative budgeting practices.

#### ***Proprietary Funds***

The County's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, but in more detail.

#### **Capital Assets and Debt Administration**

##### ***Capital Assets***

At the end of 2024, the County had \$96,569,633 (net of accumulated depreciation/amortization) invested in land, easements, construction in progress, land improvements, buildings and improvements, machinery and equipment, vehicles, infrastructure, and intangible right to use assets. Of this total, \$73,262,917 was reported in governmental activities and \$23,306,716 was reported in business-type activities.

The following table shows December 31, 2024 capital asset balances compared to December 31, 2023.

## DEFIANCE COUNTY, OHIO

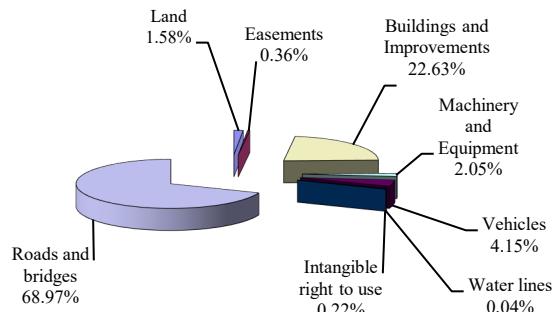

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

The following graphs show the breakdown of governmental activities capital assets by category at December 31, 2024 and December 31, 2023.

**Capital Assets – Governmental Activities 2024**

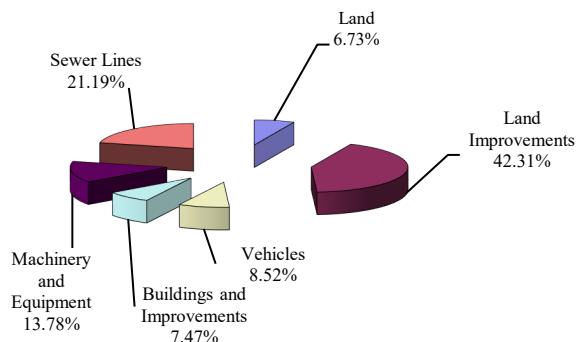

**Capital Assets – Governmental Activities 2023**

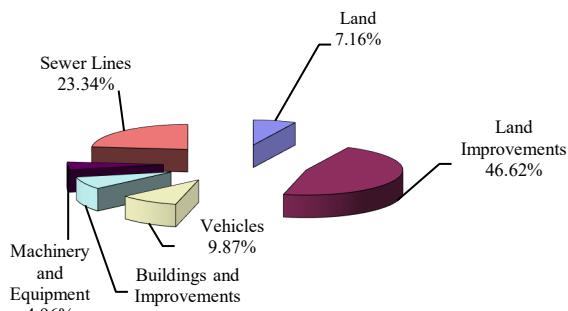

The County's largest governmental activities capital asset category is infrastructure, which includes roads and bridges. These items are immovable and of value only to the County, however, the annual cost of purchasing these items is quite significant. The net book value of the County's roads and bridges (cost less accumulated depreciation/amortization) represents approximately 68.52% of the County's total governmental activities capital assets.

The following graphs show the breakdown of business-type activities capital assets by category at December 31, 2024 and December 31, 2023.

**Capital Assets – Business-type 2024**

**Capital Assets – Business-type 2023**

The County's largest business-type activities capital asset category is land improvements. These items play a vital role in the income producing ability of the business-type activities. The net book value of the County's land improvements (cost less accumulated depreciation) represents approximately 42.31% of the County's total business-type activities capital assets.

#### ***Debt Administration***

At December 31, 2024, the County had long-term obligations of \$6,592,000 in general obligation bonds, lease obligations of \$113,489, and closure and postclosure liability outstanding of \$8,252,469. Of this total, \$494,351 is due within one year and \$14,463,607 is due in more than one year.

## DEFIANCE COUNTY, OHIO

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2024 (UNAUDITED)

The following table summarizes the long-term obligations outstanding at December 31, 2024 and December 31, 2023.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES  
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2024**

**Net change in fund balances - total governmental funds** \$ 7,536,210

*Amounts reported for governmental activities in the  
statement of activities are different because:*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets are allocated over their estimated useful lives as depreciation/amortization expense. This is the amount by which capital outlays exceeded depreciation/amortization expense in the current period.

Capital outlay	\$ 7,713,380	
Depreciation/amortization expense	<u>(4,790,136)</u>	
Total	2,923,244	

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net position. (108,642)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes	1,052,814	
Sales taxes	13,726	
Special assessments	(188,940)	
Intergovernmental	(877,028)	
Investment income	548,300	
Other	<u>354,297</u>	
Total	903,169	

The issuance of bonds are recorded as an other financing source in the funds, but increase long-term liabilities on the statement of net position. (4,069,000)

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in less interest being reported in the statement of activities.

Increase in accrued interest payable	(11,264)	
Amortization of bond premium	47,973	
Amortization of deferred charges on refundings	<u>(11,967)</u>	
Total	24,742	

Principal payments are expenditures in the governmental funds, but the repayments reduce long-term liabilities on the statement of net position.

General obligation bonds payable	662,000	
Leases payable	37,982	
Total	699,982

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES  
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES (CONTINUED)  
FOR THE YEAR ENDED DECEMBER 31, 2024**

Contractually required pension/OPEB contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.

Pension	1,850,659
OPEB	20,554
Total	1,871,213

Except for amounts reported as deferred inflows/outflows, changes in the net pension asset/liability and net OPEB asset/liability are reported as pension/OPEB expense in the statement of activities.

Pension	(2,190,758)
OPEB	87,961
Total	(2,102,797)

Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. 693,246

The internal service fund used by management to charge the cost of insurance to individual funds is not reported in the government-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund (less the \$34,336 internal activity) is allocated among the governmental activities. 46,621

**Change in net position of governmental activities** \$ 8,417,988

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 1 - DESCRIPTION OF THE COUNTY

##### A. The County

Defiance County, Ohio (the "County") was created in 1845. The County is governed by a Board of three Commissioners elected by the voters of the County. Other officials elected by the voters of the County that manage various segments of the County's operations are the Auditor, Treasurer, Recorder, a Common Pleas Court Judge, a Juvenile/Probate Court Judge, Engineer, Clerk of Courts, Coroner, Prosecuting Attorney and Sheriff. Although the elected officials manage the internal operations of their respective departments, the County Commissioners authorize expenditures as well as serve as the budget and taxing authority, contracting body and chief administrators of public services for the entire County.

##### B. Reporting Entity

A reporting entity is composed of the primary government, component units and other organizations that are included to ensure the financial statements are not misleading.

The County's reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34". The basic financial statements include all funds, agencies, boards, commissions and component units for which the County and the County Commissioners are "accountable". Accountability as defined in GASB Statement No. 14, GASB Statement No. 39 and GASB Statement No. 61 was evaluated based on financial accountability, the nature and significance of the potential component unit's (PCU) relationship with the County and whether exclusion would cause the County's basic financial statements to be misleading or incomplete. Among the factors considered were separate legal standing; appointment of a voting majority of the PCU's Board; fiscal dependency and whether a benefit or burden relationship exists; imposition of will; and the nature and significance of the PCU's relationship with the County. The County does not have any component units.

The primary government of the County consists of all funds, departments, boards, and agencies that are not legally separate from the County. For the County, this includes the Board of Developmental Disabilities and all departments and activities that are operated directly by the elected County officials.

The County participates in ten jointly governed organizations, the Northwest Ohio Juvenile Detention, Training, and Rehabilitation Center; Four County Board of Alcohol, Drug Addiction and Mental Health Services; Corrections Commission of Northwest Ohio; Four County Solid Waste District; Multi-Area Narcotics Task Force; Quadco Rehabilitation Center; Maumee Valley Planning Organization; the Community Improvement Corporation of Defiance County; Northwest Ohio Waiver Administration Council and Defiance-Paulding Consolidated Department of Job and Family Services (See Note 17).

The County participates in two insurance pools, the County Commissioners Association Service Corporation and the Northern Buckeye Health Plan – Northwest Division of Optimal Health Initiative Consortium (See Note 18).

The County is associated with one related organization, the Defiance County Regional Airport Authority (See Note 19).

The financial statements of Defiance County have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following are the more significant of the County's accounting policies.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### A. Basis of Presentation

***Government-Wide Financial Statements*** - The County's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental in nature and those that are considered business-type activities. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses.

The statement of net position presents the financial condition of the governmental and business-type activities of the County at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the County.

***Fund Financial Statements*** - During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the proprietary fund financial statements. Fiduciary funds are reported by type.

##### B. Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the County are reported in three categories: governmental, proprietary and fiduciary.

***Governmental Funds*** - Governmental funds are those through which most governmental functions of the County are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities and deferred inflows of resources are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the County's major governmental funds:

**General fund** - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

**Developmental Disabilities fund** - This fund accounts for State monies and tax levy monies used to support Good Samaritan School and help the developmentally disabled within the County in a residential and group home environment. It also provides aid to families who have developmentally disabled family members with challenges such as providing handicap accessibility and associated programs.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

*Motor Vehicle License and Gas Tax fund* - This fund accounts for revenues derived from the sale of motor vehicle licenses, gasoline taxes and interest which are restricted by State law to county road and bridge repair/improvement programs. This fund also accounts for court fines collected for the county engineer for road and bridge improvements.

*Emergency 911 fund* - This fund accounts for tax levy monies used for the operation and maintenance of the County's 911 system.

*Senior Center fund* - This fund accounts for tax levy monies, donations, and federal, State and local monies used for senior citizen programs.

*Capital Projects and Improvements fund* - This fund accounts for monies used for various capital projects and improvements throughout the County.

*Wastewater Capital Improvements fund* - This fund accounts for monies used for wastewater infrastructure and improvements.

Other governmental funds of the County are used to account for:

*Nonmajor special revenue funds* - Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

*Nonmajor capital projects funds* - Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

*Nonmajor debt service funds* - Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

**Proprietary Funds** - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows.

**Enterprise Funds** - Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the County's major enterprise funds:

*Landfill fund* - This fund accounts for the operations of the County landfill.

*Sewer fund* - This fund accounts for the provision of wastewater treatment services to residential and commercial users within the County.

**Internal Service Fund** - The internal service fund accounts for the financing of services provided by one department to other departments of the County on a cost reimbursement basis. The County's internal service fund accounts for the activities of the self-insurance program for employee health care benefits.

**Fiduciary Funds** - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The County did not have any trust funds in 2024. The County's custodial funds account for assets held by the County for political subdivisions in which the County acts as fiscal agent, and for taxes, State-levied shared revenues and fines and forfeitures collected and distributed to other political subdivisions.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

##### C. Measurement Focus

**Government-Wide Financial Statements** - The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the County are included on the statement of net position. The statement of activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total net position.

**Fund Financial Statements** - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide financial statements and the fund financial statements for governmental funds.

Like the government-wide financial statements, the proprietary funds are accounted for using a flow of economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of fund net position. The statement of revenues, expenses, and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows reflects how the County finances and meets the cash flow needs of its proprietary activities.

##### D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; proprietary funds and fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources and deferred outflows of resources, and in the presentation of expenses versus expenditures.

**Revenues - Exchange and Nonexchange Transactions** - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within thirty-one days after year end.

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include property taxes, sales taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the year for which the taxes are levied (See Note 7). Revenue from sales taxes is recognized in the year in which the sales are made (See Note 6). Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the County must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Under the modified accrual basis, the following revenue sources are considered both measurable and available at year end: sales taxes, charges for services, fines and forfeitures, State-levied locally shared taxes (including gasoline tax and motor vehicle license tax), grants and interest.

***Deferred Outflows of Resources and Deferred Inflows of Resources*** - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. See Notes 12 and 13 for deferred outflows of resources related to net pension liability/asset and net OPEB liability/asset, respectively. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to asset retirement obligations is originally measured at the amount of the corresponding liability. This amount is amortized in a systematic and rational manner over the tangible asset's useful life.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2024, but which were levied to finance 2025 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. Unavailable revenue includes, but is not limited to, delinquent property taxes, sales taxes, intergovernmental grants, special assessments, and accrued interest. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The deferred inflow of resources for leases is related to the lease receivable and is being amortized to lease revenue in a systematic and rational manner over the term of the lease.

See Notes 12 and 13 for deferred inflows of resources related to net pension liability/asset and net OPEB liability/asset, respectively. These deferred inflows of resources are only reported on the government-wide statement of net position.

***Expenses/Expenditures*** - On the accrual basis, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

#### E. Budgetary Process

All funds, except custodial funds, are legally required to be budgeted and appropriated. Budgetary information for the juvenile probation accounts and an account held for a child in custodial care are not reported in the general fund because they are not included in the entity for which the "appropriated budget" is adopted. The major documents prepared are the certificate of estimated resources and the appropriations resolution, both of which are prepared on the budgetary basis of accounting.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The certificate of estimated resources establishes a limit on the amount the County Commissioners may appropriate. The appropriations resolution is the County Commissioners' authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the County Commissioners. The legal level of control has been established by the County Commissioners at the fund, program, department and object level for all funds.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the County Auditor. The amounts reported as the original budgeted amounts on the budgetary schedules reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary schedules reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the County Commissioners.

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the County Commissioners during the year.

#### F. Cash and Investments

To improve cash management, cash received by the County is pooled and invested. Individual fund integrity is maintained through County records. Interest in the pool is presented as "equity in pooled cash and cash equivalents".

Cash and cash equivalents that are held separately within departments of the County and not included in the County Treasury are recorded as "cash and cash equivalents in segregated accounts".

During 2024, the County invested in nonnegotiable certificates of deposit, U.S. government money market mutual funds, municipal bonds, federal agency securities, U.S. Treasury notes, and commercial paper. Investments are reported at fair value, except for nonnegotiable certificates of deposits, which are reported at cost and the U.S. government money market mutual funds which are reported at the Net Asset Value (NAV) per share the mutual funds report. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value. Fair value is based on quoted market prices.

Interest earnings are allocated to County funds according to State statutes, grant requirements, or debt related restrictions. Interest revenue credited to the general fund during 2024 was \$3,220,038, which includes \$2,260,160 assigned from other County funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time of purchase are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

#### G. Fair Value Measurements

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

## **DEFIANCE COUNTY, OHIO**

### **NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024**

#### **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

##### **H. Prepaid Items**

Payments made to vendors for services that will benefit periods beyond December 31, 2024 are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. Prepaid items are equally offset by nonspendable fund balance in the governmental funds. This indicates that prepaid items do not constitute available expendable resources even though they are a component of net current assets.

##### **I. Inventory**

Inventory is presented at cost on a first-in, first-out basis, and is expensed/expended when used. Inventory consists of expendable supplies held for consumption. Inventory is equally offset by nonspendable fund balance in the governmental funds. This indicates that inventory does not constitute available expendable resources even though it is a component of net current assets.

##### **J. Loans Receivable**

Loans receivable represent the right to receive repayment for certain loans made by the County. These loans are based upon written agreements between the County and the various loan recipients. Loans receivable are reported net of allowance for doubtful accounts on the basic financial statements. Reported loans receivable is offset by nonspendable fund balance in the governmental funds for the long-term portion not expected to be collected in the subsequent year. This indicates that it does not constitute available expendable resources even though it is a component of net current assets.

##### **K. Restricted Assets**

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other governments, or imposed by enabling legislation. Restricted assets in the landfill fund represent amounts required by the Environmental Protection Agency (EPA) to be set-aside for closure and post-closure costs.

##### **L. Capital Assets**

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in governmental funds. General capital assets are reported in the governmental activities column on the government-wide statement of net position, but are not reported on the fund financial statements. Capital assets used by the proprietary funds are reported in both the business-type activities column on the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and disposals during the year. Donated capital assets are recorded at their acquisition value on the date donated. The County maintains a capitalization threshold of five thousand dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. In addition, assets having an estimated useful life of more than one year that are below the \$5,000 threshold and not considered repair or maintenance costs are collectively capitalized on the financial statements when the aggregate of those assets are considered significant.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All capital assets are depreciated/amortized, except for land, easements, and construction in progress. Improvements are depreciated/amortized over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation/amortization is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>	<u>Business-Type Activities Estimated Lives</u>
Land improvements	N/A	50 years
Buildings and improvements	20 - 150 years	50 years
Roads and bridges	15 - 100 years	N/A
Machinery and equipment	5 - 20 years	5 - 20 years
Vehicles	8 - 15 years	8 - 15 years
Sewer lines	N/A	50 years
Waterlines	50 years	N/A
Intangible right to use assets	3 - 5 years	N/A

The County is reporting intangible right to use assets related to leased equipment and vehicles and Subscription Based Information Technology Arrangements (SBITAs). The intangible assets are being amortized in a systematic and rational manner of the shorter of the lease/subscription term or the useful life of the underlying asset.

#### M. Interfund Receivables/Payables

On fund financial statements, outstanding interfund loans and unpaid amounts for interfund services are reported as "interfund loans receivable/payable" and "due from/to other funds", respectively. Interfund balances are eliminated on the statement of net position, except for any net residual amounts due between governmental activities and business-type activities. These amounts are presented as "internal balances".

#### N. Compensated Absences

The City recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled during or upon separation from employment. Based on the criteria listed, two types of leave qualify for liability recognition for compensated absences – vacation and sick leave. The liability for compensated absences is reported as incurred in the government-wide and proprietary fund financial statements. A liability for compensated absences is recorded in the governmental funds only if the liability has matured because of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

##### Vacation

The County's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment at the employee's current pay rate upon separation from employment.

##### Sick Leave

The County's policy permits employees to accumulate earned but unused sick leave. All sick leave lapses when employees leave the employment of the County and, upon separation from service, the employee receives compensation in accordance with the severance policy. A liability for the estimated value of sick leave that will be used by employees as time off and at separation is included in the liability for compensated absences.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

##### **O. Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from the proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims, judgements and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. General obligation bonds, special assessment bonds, bond anticipation notes, various loans, and leases paid from governmental funds are recognized as liabilities on the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

On the government-wide financial statements, bond premiums are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of applicable bond premiums.

##### **P. Net Position**

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation/amortization, reduced by the outstanding balances of any borrowing or liabilities used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through constitutional provisions or enabling legislation adopted or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes primarily consists of CDBG, ditch maintenance and revolving loans.

The County's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

##### **Q. Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

*Nonspendable* - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term portion of loans receivable and interfund loans receivable.

*Restricted* - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Commissioners (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the Board of Commissioners removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the Board of Commissioners.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The County applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### R. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for landfill and sewer services, as well as charges for health insurance in the internal service fund. Operating expenses are the necessary costs incurred to provide the service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating.

#### S. Interfund Transactions

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

#### T. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. The County reported neither type of transaction during 2024.

#### U. Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

##### **V. Bond Issuance Costs/Bond Premium and Discount/Accounting Gain or Loss**

On both the government-wide financial statements and the fund financial statements, bond issuance costs are recognized in the period in which these items are incurred.

On the government-wide financial statements, bond premiums and discounts are amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds and bond discounts are presented as a reduction to the face amount of the bonds. On the governmental fund financial statements, bond premiums and discounts are recognized in the period in which these items are incurred. The reconciliation between the face value of bonds and the amount reported on the statement of net position is presented in Note 15.

For current and advance refunding's resulting in the defeasance of debt reported in the government-wide financial statements and enterprise funds, the difference between the reacquisition price and the net carrying amount of the old debt is amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred inflow of resources or a deferred outflow of resources.

##### **W. Pensions/Other Postemployment Benefits (OPEB)**

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

##### **X. Asset Retirement Obligations**

The County owns and maintains underground storage tanks. The County and the State of Ohio follow federal financial responsibility rules for underground storage tanks. In accordance with GASB Statement No. 83, an asset retirement obligation liability in the amount of \$80,000 was recorded on the Statement of Net Position based on construction estimates and was offset with a deferred outflow of resources. The storage tanks do not have an estimated date for remediation.

##### **Y. Unearned Revenue**

Unearned revenue represents amounts under the accrual and modified accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because the amounts have not yet been earned. The County recognizes unearned revenue for intergovernmental revenue from grants received before the eligibility requirements are met.

#### NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

##### **A. Change in Accounting Principles**

For 2024, the County has implemented certain paragraphs from GASB Implementation Guide No. 2021-1, certain paragraphs of GASB Statement No. 99, "Omnibus 2022", GASB Statement No. 100, "Accounting Changes and Error Corrections - an amendment of GASB Statement No. 62", Implementation Guide No. 2023-1 and GASB Statement No. 101, "Compensated Absences".

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

GASB Implementation Guide 2021-1 provides clarification on issues related to previously established GASB guidance. The implementation of GASB Implementation Guide 2021-1 did not have an effect on balances previously report by the County.

GASB Statement No. 99 is to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The implementation of GASB Statement No. 99 did not have an effect on the financial statements of the County.

GASB Statement No. 100 is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. These changes were incorporated into the County's 2024 financial statements.

GASB Implementation Guide 2023-1 provides clarification on issues related to previously established GASB guidance. The implementation of GASB Implementation Guide 2023-1 did not have an effect on the financial statements of the County.

GASB Statement No. 101 is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. These changes were incorporated into the County's 2024 financial statements.

#### B. Deficit Fund Balances

Fund balances at December 31, 2024 included the following individual fund deficits:

<u>Nonmajor governmental funds</u>	<u>Deficit</u>
IDEP High Visibility Enforcement special revenue fund	\$ 4,918
Wellness Grant special revenue fund	12,000
Ridge Ditch capital project fund	7,126
Ridge Ditch St. Mike's Tile capital project fund	15,450
Lake Shore capital project fund	119,854
Haymaker Drive capital project fund	87,340

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

#### C. Change within the Financial Reporting Entity

For 2024, the County's American Rescue Plan Act fund presentation was adjusted from major to nonmajor due to no longer meeting the quantitative threshold for a major fund. Additionally, the County's County Improvement capital projects fund was adjusted from major to nonmajor due to the County's discretion. These changes are separately displayed in the financial statements.

For 2024, the County's Wastewater Capital Improvements fund presentation was adjusted from nonmajor to major due to now meeting the quantitative threshold for a major fund. Additionally, the County's Capital Projects and Improvements fund was adjusted from nonmajor to major due to the County's designation as a major fund. These changes are separately displayed in the financial statements.

#### NOTE 4 - DEPOSITS AND INVESTMENTS

Monies held by the County are classified by State statute into two categories. Active monies are public monies determined to be necessary to meet current demand upon the County treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Monies held by the County which are not considered active are classified as inactive. Inactive monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio, and, with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. The State Treasurer's investment pool State Treasury Asset Reserve of Ohio (STAR Ohio); and,

#### NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

7. No-load money market mutual funds consisting exclusively of obligations described in items 1 and 2 above, and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
8. Certain banker's acceptance and commercial paper notes for a period not to exceed one-hundred-eighty days and two hundred seventy days, respectively, from the purchase date in an amount not to exceed forty percent of the interim monies available for investment at any one time if training requirements have been met.

Protection of the deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the County, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the County Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

#### A. Cash on Hand

At year end, the County had \$533,356 in undeposited cash on hand, which is included on the financial statements of the County as part of "equity in pooled cash and cash equivalents".

#### B. Cash in Segregated Accounts

At year end, the County had \$1,237,263 in cash and cash equivalents deposited separate from the County's internal investment pool. This amount is included in the amount of deposits with financial institutions below.

#### C. Deposits with Financial Institutions

At December 31, 2024, the carrying amount of all County deposits was \$26,816,066 and the bank balance of all County deposits was \$28,323,018. Of the bank balance, \$27,392,718 was covered by the FDIC and \$930,300 was covered by the Ohio Pooled Collateral System (OPCS). Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the County to a successful claim by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. The County has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the County's and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the OPCS, a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

The weighted average maturity of investments is 2.89 years.

The County's investments in Federal Agency Securities (FHLB, FFCB, FHLMC, and FNMA), Municipal Bonds, U.S. Treasury Notes, and Commercial Paper are valued using quoted market prices (Level 2 inputs).

*Interest Rate Risk:* As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the County's investment policy limits investment portfolio maturities to five years or less.

State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the County and that an investment must be purchased with the expectation that it will be held to maturity. State statute limits investments in commercial paper to a maximum of 270 days from the date of purchase.

*Credit Risk:* The County's investments in Federal Agency Securities (FHLB, FFCB, FHLMC, and FNMA) were rated by AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. The County's investments in municipal bonds were rated AA to AAA by Standard & Poor's and A1 to Aa2 by Moody's Investor Services. The U.S. Treasury Notes were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. The County's investments in commercial paper were rated A-1+ and A-1 by Standard & Poor's and P-1 by Moody's Investor Services. The U.S. government money market mutual funds carry a rating of AA+ by Standard & Poor's and Aaa-mf by Moody's. The County has no investment policy dealing with investment credit risk beyond the requirements in State statute.

*Custodial Credit Risk:* For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County has no investment policy dealing with investment custodial credit risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

*Concentration of Credit Risk:* The County places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the County at December 31, 2024:

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 6 - PERMISSIVE SALES AND USE TAX

In 1987, the County Commissioners, by resolution, imposed a one percent sales tax on all retail sales made in the County, except sales of motor vehicles, and on the storage, use, or consumption of tangible personal property, including motor vehicles not subject to the sales tax. As required by State statute, the County Commissioners established how the sales tax proceeds would be allocated prior to implementation. The collection of the sales tax went into effect on January 1, 1988, and the proceeds of the tax were credited entirely to the general fund.

Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The Ohio Department of Taxation certifies payment amounts to the Ohio Department of Budget and Management (OBM) so that OBM can issue the amount of the tax to be returned to the County. The Ohio Department of Taxation's certification must be made within forty-five days after the end of each month.

#### NOTE 7 - PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the County. Taxes collected from real property taxes (other than public utility) in one calendar year are levied in the preceding calendar year on the assessed value as of January 1 of that preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revaluated every six years. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2024 public utility property taxes became a lien December 31, 2023, are levied after October 1, 2024, and are collected in 2025 with real property taxes. Public utility property taxes are payable on the same dates as real property taxes described previously.

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portion of the taxes collected. The collection and distribution of taxes for all subdivisions within the County itself, is accounted for through custodial funds. Property taxes receivable represents real property taxes, public utility taxes, delinquent tangible personal property taxes and other outstanding delinquencies which are measurable as of December 31, 2024 and for which there is an enforceable legal claim. In the governmental funds, the current portion receivable has been offset by a deferred inflow of resources since the current taxes were not levied to finance 2024 operations and the collection of delinquent taxes has been offset by a deferred inflow of resources since the collection of the taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on a modified accrual basis the revenue is considered a deferred inflow of resources.

The full tax rate for all County operations for the year ended December 31, 2024 was \$9.31 per \$1,000 of assessed value. The assessed values of real and public utility personal property upon which 2024 property tax receipts were based are as follows:

##### Real property

Residential/agricultural	\$ 970,613,290
Commercial/industrial/mineral	141,316,300

##### Public utility

Real	894,100
Personal	261,652,210

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 9 - INTERFUND TRANSACTIONS

A. Interfund transfers for the year ended December 31, 2024 consisted of the following, as reported on the fund financial statements:

<u>Transfers from general fund to:</u>	<u>Amount</u>
Motor vehicle license and gas tax fund	\$ 10,000
Wastewater capital improvements fund	1,253,608
Nonmajor governmental funds	<u>41,281</u>
Total	<u>\$ 1,304,889</u>

Transfers are used to (1) move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and (4) to move residual equity amounts. Transfers between governmental funds are eliminated on the government-wide financial statements. All transfers were made in accordance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

B. Due from/to other funds consisted of the following at December 31, 2024, as reported on the fund financial statements:

<u>Receivable fund</u>	<u>Payable fund</u>	<u>Amount</u>
General fund	Developmental disabilities fund	\$ 22,706
General fund	Motor vehicle license and gas tax fund	18,968
General fund	Emergency 911 fund	32,559
General fund	Senior center fund	6,261
General fund	Nonmajor governmental funds	20,561
General fund	Landfill fund	9,913
General fund	Sewer fund	1,612
Motor vehicle license and gas tax fund	General fund	28,090
Motor vehicle license and gas tax fund	Landfill fund	2,167
Motor vehicle license and gas tax fund	Nonmajor governmental funds	664
Nonmajor governmental funds	General fund	<u>2,092</u>
Total		<u>\$ 145,593</u>

Amounts due from/to other funds represent amounts owed between funds for goods or services provided. The balances resulted from the time lag between the dates that payments between the funds are made. Interfund balances between governmental funds are eliminated on the government-wide financial statements. Interfund balances between governmental activities and business-type activities are reported as an internal balance on the statement of net position.

#### NOTE 9 - INTERFUND TRANSACTIONS - (Continued)

C. Interfund loans receivable/payable consisted of the following at December 31, 2024, as reported on the fund financial statements:

<u>Receivable fund</u>	<u>Payable fund</u>	<u>Amount</u>
General fund	Sewer fund	\$ 239,483
General fund	Wastewater capital improvements fund	2,765,000
General fund	Nonmajor governmental funds	712,753
Emergency 911	Nonmajor governmental funds	13,000
Nonmajor governmental funds	Nonmajor governmental funds	10,000
Landfill fund	Nonmajor governmental funds	<u>228,369</u>
Total		<u>\$ 3,968,605</u>

The interfund loan balances result from resources provided by the receivable fund to the payable fund to provide cash flow resources until anticipated revenues are received.

The entire balance of interfund loans receivable is reported as nonspendable fund balance as it is not expected to be received within one year. Interfund balances between governmental funds are eliminated on the government-wide financial statements. Interfund balances between governmental activities and business-type activities are reported as an internal balance on the statement of net position.

#### NOTE 10 - RISK MANAGEMENT

##### A. General Liability

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County has contracted with the County Risk Sharing Authority (CORS) for the following coverage:

Property	\$119,261,212
Equipment Breakdown	100,000,000
General Liability	1,000,000
Commercial Crime	1,000,000
Excess Liability	10,000,000
Automobile Liability	1,000,000
Law Enforcement Liability	1,000,000
Errors and Omission Liability	1,000,000

Settled claims have not exceeded this commercial coverage in any of the last three years, and there has not been any significant reduction in coverage from the prior year.

##### B. Health Benefits

The County has established a limited risk management program for employee health care benefits. A third party administrator processes the claims that the County pays. The internal service fund allocates the cost of claims payments by charging a monthly premium to each individual enrolled in the health insurance program. These premiums, along with the premium the County pays for each employee enrolled in the program, are paid into the internal service fund. Claims are paid from the internal service fund.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### **NOTE 10 - RISK MANAGEMENT - (Continued)**

Under the health insurance program, the internal service fund provides coverage for up to a maximum lifetime benefit of \$2,500,000 per individual. An excess coverage policy covers annual individual claims in excess of \$75,000.

Claims payable is based on the requirements of Governmental Accounting Standards Board Statement No. 30 “Accounting and Financial Reporting for Risk Financing and Related Insurance Issues”, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred, but not reported claims, be reported if information prior to issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount can be reasonably estimated. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Claims payable at December 31, 2024 is estimated by a third party administrator at \$297,300. The changes in the claims payable liability for 2024 and 2023 were as follows:

	Balance at Beginning of Year	Claims and Changes in Estimates	Claims Payments	Balance at End of Year
2024	\$ 705,680	\$ 3,292,663	\$ (3,701,043)	\$ 297,300
2023	\$ 506,283	\$ 4,692,902	\$ (4,493,505)	\$ 705,680

#### **C. Workers' Compensation**

For 2024, the County participated in the County Commissioners Association Service Corporation (CCAOSC), a workers' compensation insurance purchasing pool. CCAOSC is intended to achieve lower workers' compensation rates while establishing safer working conditions and environments for the participants. The workers' compensation experience of the participating counties is calculated as one experience and a common premium rate is applied to all participants in CCAOSC. Each participant pays its workers' compensation premium to the State based on the rate for CCAOSC rather than its individual rate. In order to allocate the savings derived by formation of CCAOSC, and to maximize the number of participants in CCAOSC, annually CCAOSC's Executive Committee calculates the total savings which accrued to CCAOSC through its formation. This savings is then compared to the overall savings percentage of CCAOSC. CCAOSC's Executive Committee then collects rate contributions from, or pays rate equalization rebates to, the various participants.

Participation in CCAOSC is limited to counties that can meet CCAOSC's selection criteria. The firm of Sedgwick provides administrative, cost control, and actuarial services to CCAOSC. Each year, the County pays an enrollment fee to CCAOSC to cover the costs of administering the program.

Participants may withdraw from CCAOSC if written notice is provided sixty days prior to the prescribed application deadline of the Ohio Bureau of Workers' Compensation. However, participants are not relieved of their obligation to pay any amounts owed to CCAOSC prior to withdrawal, and any participant leaving CCAOSC allows representatives of CCAOSC to access loss experience for three years following the last year of participation.

#### NOTE 12 - DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

##### *Net Pension Liability (Asset) and Net OPEB Asset*

The net pension liability (asset) and the net OPEB asset reported on the statement of net position represents a liability or asset to employees for pensions and OPEB, respectively.

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represents the County's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the County's obligation for this liability to annually required payments. The County cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the County does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### **NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)**

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension/OPEB liability (asset) on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in due to other governments on both the accrual and modified accrual basis of accounting.

The remainder of this note includes the pension disclosures. See Note 13 for the OPEB disclosures.

#### ***Plan Description - Ohio Public Employees Retirement System (OPERS)***

Plan Description - County employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS is a cost-sharing, multiple employer public employee retirement system which administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Effective January 1, 2022, new members may no longer select the Combined Plan, and current members may no longer make a plan change to this plan. In October 2023, the legislature approved House Bill (HB) 33 which allows for the consolidation of the combined plan with the traditional plan with the timing of the consolidation at the discretion of OPERS. As of December 31, 2023, the consolidation has not been executed. (The latest information available.) Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group.

Traditional plan state and local members who retire before meeting the age-and-years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The amount of a member's pension benefit vests at retirement.

Law enforcement and public safety members who retire before meeting the age-and-years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

Combined plan members retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### **NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)**

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

When a traditional plan benefit recipient has received benefits for 12 months, the member is eligible for an annual cost of living adjustment (COLA). This COLA is calculated on the member's original base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost-of-living adjustment is 3.00%. For those retiring on or after January 7, 2013, beginning in calendar year 2019, the adjustment is based on the average percentage increase in the Consumer Price Index, capped at 3.00%.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20.00% each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options and will continue to be administered by OPERS), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

\*\*\* This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.

\*\*\*\* These pension and employer health care rates are for the traditional and combined plans.

The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension; however, effective July 1, 2022, a portion of the health care rate is funded with reserves.

Employer contribution rates are actuarially determined within the constraints of statutory limits for each division and expressed as a percentage of covered payroll.

The County's contractually required contribution for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan was \$1,910,419 for 2024. Of this amount, \$267,048 is reported as due to other governments.

#### ***Plan Description - State Teachers Retirement System (STRS)***

Plan Description - Licensed teachers participate in STRS, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans: a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined (CO) Plan. Benefits are established by Ohio Revised Code Chapter 3307.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### **NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)**

The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. The calculation is 2.2% of final average salary for the five highest years of earnings multiplied by all years of credited service. Effective Aug. 1, 2023, any member can retire with unreduced benefits with 34 years of service credit at any age; or five years of service credit and age 65. Effective June 1, 2025 - July 1, 2027, any member can retire with unreduced benefits with 33 years of service credit at any age; or five years of service credit and age 65. Effective on or after Aug. 1, 2027, any member can retire with unreduced benefits with 34 years of service credit at any age; or five years of service credit and age 65.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits effective Aug. 1, 2023, can retire with 29 years of service credit at any age; or five years of service credit and age 60. Effective June 1, 2025 - July 1, 2027, retirement eligibility for reduced benefits is 28 years of service credit at any age; or five years of service credit and age 60. Effective on or after Aug. 1, 2027, retirement eligibility for reduced benefits is 29 years of service credit at any age; or five years of service credit and age 60.

The DC Plan allows members to place all of their member contributions and 11.09% of the 14% employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 2.91% of the 14% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12% of the 14% member rate is deposited into the member's DC account and the remaining 2% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50 and after termination of employment.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS Ohio plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS Ohio bearing the risk of investment gain or loss on the account. STRS Ohio therefore has included all three plan options in the GASB 68 schedules of employer allocations and pension amounts by employer.

A DB or Combined Plan member with five or more years of credited service, who is determined to be disabled, may qualify for a disability benefit. New members, on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance.

**Funding Policy -** Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2024 employer and employee contribution rate of 14% was equal to the statutory maximum rates. For 2024, the full employer contribution was allocated to pension.

***Net Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

The net pension liability (asset) for OPERS was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. STRS's total pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability (asset) was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities.

#### ***Actuarial Assumptions - OPERS***

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2023, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2023, compared to the December 31, 2022 actuarial valuation, are presented below.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five-year period ended December 31, 2020.

During 2023, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Defined Contribution portfolio and the Health Care portfolio. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was a gain of 11.20% for 2023.

The allocation of investment assets within the Defined Benefit portfolio is approved by the Board as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric real rates of return were provided by the Board's investment consultant.

For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2023, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Geometric)
Fixed income	24.00 %	2.85 %
Domestic equities	21.00	4.27
Real estate	13.00	4.46
Private equity	15.00	7.52
International equities	20.00	5.16
Risk Parity	2.00	4.38
Other investments	5.00	3.46
Total	<u><u>100.00 %</u></u>	

**Discount Rate** - The discount rate used to measure the total pension liability was 6.90% for the Traditional Pension Plan, Combined Plan and Member-Directed Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

##### ***Actuarial Assumptions - STRS***

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2024 and June 30, 2023, actuarial valuations are presented below:

	June 30, 2024	June 30, 2023
Inflation	2.50%	2.50%
Projected salary increases	Varies by service from 2.50% to 8.50%	Varies by service from 2.50% to 8.50%
Investment rate of return	7.00%, net of investment expenses, including inflation	7.00%, net of investment expenses, including inflation
Discount rate of return	7.00%	7.00%
Payroll increases	3.00%	3.00%
Cost-of-living adjustments (COLA)	0.00%	0.00%

For the June 30, 2024 actuarial valuation, post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For the prior measurement date, post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024 valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### **NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)**

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation*	Long-Term Expected Real Rate of Return **
Domestic Equity	26.00 %	6.90 %
International Equity	22.00	7.70
Alternatives	19.00	9.10
Fixed Income	22.00	4.50
Real Estate	10.00	5.10
Liquidity Reserves	1.00	2.40
<b>Total</b>	<b>100.00 %</b>	

\* Final target weights reflected at October 1, 2022.

\*\*10-Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.40% and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with the rates described previously. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on pension plan investments of 7.00% was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2024.

**Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** - The following table represents the proportionate share of the net pension liability as of June 30, 2024, calculated using the current period discount rate assumption of 7.00%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current assumption:

	Current		
	1% Decrease	Discount Rate	1% Increase
County's proportionate share of the net pension liability	\$ 1,834,535	\$ 1,137,220	\$ 547,411

**Assumption and Benefit Changes Since the Prior Measurement Date** - The discount rate remained at 7.00% for June 30, 2024 valuation.

#### NOTE 13 - POSTEMPLOYMENT BENEFITS

##### *Net OPEB Asset*

See Note 12 for a description of the net OPEB asset.

##### *Plan Description - Ohio Public Employees Retirement System (OPERS)*

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust. The 115 Health Care Trust (115 Trust or Health Care Trust) was established in 2014, under Section 115 of the Internal Revenue Code (IRC). The purpose of the 115 Trust is to fund health care for the Traditional Pension, Combined and Member-Directed plans. The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code. Retirees in the Traditional Pension and Combined plans may have an allowance deposited into a health reimbursement arrangement (HRA) account to be used toward the health care program of their choice and other eligible expenses. An OPERS vendor is available to assist with the selection of a health care program.

With one exception, OPERS-provided health care coverage is neither guaranteed nor statutorily required. Ohio law currently requires Medicare Part A equivalent coverage or Medicare Part A premium reimbursement for eligible retirees and their eligible dependents.

OPERS offers a health reimbursement arrangement (HRA) allowance to benefit recipients meeting certain age and service credit requirements. The HRA is an account funded by OPERS that provides tax free reimbursement for qualified medical expenses such as monthly post-tax insurance premiums, deductibles, co-insurance, and co-pays incurred by eligible benefit recipients and their dependents.

OPERS members enrolled in the Traditional Pension Plan or Combined Plan retiring with an effective date of January 1, 2022, or after must meet the following health care eligibility requirements to receive an HRA allowance:

**Age 65 or older Retirees** Minimum of 20 years of qualifying service credit

**Age 60 to 64 Retirees** Based on the following age-and-service criteria:

**Group A** 30 years of total service with at least 20 years of qualified health care service credit;

**Group B** 31 years of total service credit with at least 20 years of qualified health care service credit;

**Group C** 32 years of total service credit with at least 20 years of qualified health care service credit.

**Age 59 or younger** Based on the following age-and-service criteria:

**Group A** 30 years of qualified health care service credit;

**Group B** 32 years of qualified health care service credit at any age or 31 years of qualified health care service credit and at least age 52;

**Group C** 32 years of qualified health care service credit and at least age 55.

Retirees who do not meet the requirement for coverage as a non-Medicare participant can become eligible for coverage at age 65 if they have at least 20 years of qualifying service.

See the Age and Service Retirement section of the OPERS ACFR for a description of Groups A, B and C.

Eligible retirees may receive a monthly HRA allowance for reimbursement of health care coverage premiums and other qualified medical expenses. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are provided to eligible retirees, and are deposited into their HRA account.

The base allowance is determined by OPERS and is currently \$1,200 per month for non-Medicare retirees and \$350 per month for Medicare retirees. The retiree receives a percentage of the base allowance, calculated based on years of qualifying service credit and age when the retiree first enrolled in OPERS health care. Monthly allowances range between 51.00% and 90.00% of the base allowance for both non-Medicare and Medicare retirees.

Retirees will have access to the OPERS Connector, which is a relationship with a vendor selected by OPERS to assist retirees participating in the health care program. The OPERS Connector may assist retirees in selecting and enrolling in the appropriate health care plan.

When members become Medicare-eligible, recipients enrolled in OPERS health care programs must enroll in Medicare Part A (hospitalization) and Medicare Part B (medical).

OPERS reimburses retirees who are not eligible for premium-free Medicare Part A (hospitalization) for their Part A premiums as well as any applicable surcharges (late-enrollment fees). Retirees within this group must enroll in Medicare Part A and select medical coverage, and may select prescription coverage, through the OPERS Connector. OPERS also will reimburse 50.00% of the Medicare Part A premium and any applicable surcharges for eligible spouses. Proof of enrollment in Medicare Part A and confirmation that the retiree is not receiving reimbursement or payment from another source must be submitted. The premium reimbursement is added to the monthly pension benefit.

Participants in the Member-Directed Plan have access to the Connector and have a separate health care funding mechanism. A portion of employer contributions for these participants is allocated to a retiree medical account (RMA). Members who elect the Member-Directed Plan after July 1, 2015, will vest in the RMA over 15 years at a rate of 10.00% each year starting with the sixth year of participation. Members who elected the Member-Directed Plan prior to July 1, 2015, vest in the RMA over a five-year period at a rate of 20.00% per year. Upon separation or retirement, participants may use vested RMA funds for reimbursement of qualified medical expenses.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### **NOTE 13 - POSTEMPLOYMENT BENEFITS - (Continued)**

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2024, state and local employers contributed at a rate of 14.00% of earnable salary. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2024, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan. Beginning July 1, 2022, there was a 2.00% allocation to health care for the Combined Plan which has continued through 2024. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2024 was 4.00%. Effective July 1, 2022, a portion of the health care rate was funded with reserves which has continued through 2024.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The County's contractually required contribution was \$21,912 for 2024. Of this amount, \$3,063 is reported as due to other governments.

#### ***Plan Description - State Teachers Retirement System (STRS)***

Plan Description - The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Health care premiums were reduced by a Medicare Part B premium credit beginning in 2023. The Plan is included in the report of STRS which can be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

Funding Policy - Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For 2024, STRS did not allocate any employer contributions to post-employment health care.

#### ***Net OPEB Liabilities (Assets), OPEB Expense, and Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB***

The net OPEB liability (asset) and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2022, rolled forward to the measurement date of December 31, 2023, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. STRS's total OPEB asset was measured as of June 30, 2024, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of that date. The County's proportion of the net OPEB liability was based on the County's share of contributions to the retirement plan relative to the contributions of all participating entities.

***Actuarial Assumptions - OPERS***

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2022, rolled forward to the measurement date of December 31, 2023.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 13 - POSTEMPLOYMENT BENEFITS - (Continued)

The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation	
Current measurement date	2.75%
Prior Measurement date	2.75%
Projected Salary Increases, including inflation	
Current measurement date	2.75 to 10.75% including wage inflation
Prior Measurement date	2.75 to 10.75% including wage inflation
Single Discount Rate:	
Current measurement date	5.70%
Prior Measurement date	5.22%
Investment Rate of Return	
Current measurement date	6.00%
Prior Measurement date	6.00%
Municipal Bond Rate	
Current measurement date	3.77%
Prior Measurement date	4.05%
Health Care Cost Trend Rate	
Current measurement date	5.50% initial, 3.50% ultimate in 2038
Prior Measurement date	5.50% initial, 3.50% ultimate in 2036
Actuarial Cost Method	Individual Entry Age

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five-year period ended December 31, 2020.

During 2023, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Defined Contribution portfolio and the Health Care portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was a gain of 14.00% for 2023.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### **NOTE 13 - POSTEMPLOYMENT BENEFITS - (Continued)**

The allocation of investment assets within the Health Care portfolio is approved by the Board as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. The System's primary goal is to achieve and maintain a fully funded status for benefits provided through the defined benefit pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric real rates of return were provided by the Board's investment consultant.

For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2023, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Geometric)
Fixed Income	37.00 %	2.82 %
Domestic equities	25.00	4.27
Real Estate Investment Trusts (REITs)	5.00	4.68
International equities	25.00	5.16
Risk parity	3.00	4.38
Other investments	<u>5.00</u>	2.43
Total	<u><u>100.00 %</u></u>	

**Discount Rate** - A single discount rate of 5.70% was used to measure the total OPEB liability on the measurement date of December 31, 2023; however, the single discount rate used at the beginning of the year was 5.22%. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on the actuarial assumed rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 3.77%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through the year 2070. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2070, and the municipal bond rate was applied to all health care costs after that date.

**Sensitivity of the County's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Discount Rate**  
- The following table presents the proportionate share of the net OPEB liability (asset) calculated using the single discount rate of 5.70%, as well as what the proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (4.70%) or one-percentage-point higher (6.70%) than the current rate:

	Current		
	1% Decrease	Discount Rate	1% Increase
County's proportionate share of the net OPEB liability/(asset)	\$ 355,915	\$ (647,625)	\$ (1,478,912)

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### **NOTE 13 - POSTEMPLOYMENT BENEFITS - (Continued)**

***Sensitivity of the County's Proportionate Share of the Net OPEB Asset to Changes in the Health Care Cost Trend Rate*** - Changes in the health care cost trend rate may also have a significant impact on the net OPEB asset. The following table presents the net OPEB asset calculated using the assumed trend rates, and the expected net OPEB asset if it were calculated using a health care cost trend rate that is 1.00% lower or 1.00% higher than the current rate.

Retiree health care valuations use a health care cost trend assumption with changes over several years built into that assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2024 is 5.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health care cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

	Current Health Care Trend Rate Assumption		
	1% Decrease	Assumption	1% Increase
County's proportionate share of the net OPEB asset	\$ (674,516)	\$ (647,625)	\$ (617,110)

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 13 - POSTEMPLOYMENT BENEFITS - (Continued)

For the June 30, 2024 actuarial valuation, for healthy retirees the post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For the prior measurement date, for healthy retirees the post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024 valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

**Assumption Changes Since the Prior Measurement Date** - The discount rate remained unchanged at 7.00% for the June 30, 2024 valuation.

**Benefit Term Changes Since the Prior Measurement Date** - Healthcare trends were updated to reflect emerging claims and recoveries experience as well as benefit changes effective January 1, 2025. The larger Medicare trends for Years 2027 and 2028 reflect the assumed impact of the expiration of current Medicare Advantage contract on December 31, 2028.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation*	Long-Term Expected Real Rate of Return **
Domestic Equity	26.00 %	6.90 %
International Equity	22.00	7.70
Alternatives	19.00	9.10
Fixed Income	22.00	4.50
Real Estate	10.00	5.10
Liquidity Reserves	1.00	2.40
Total	100.00 %	

\* Final target weights reflected at October 1, 2022.

\*\*10-Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.40% and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** - The discount rate used to measure the total OPEB liability was 7.00% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on health care fund investments of 7.00% was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2024.

#### NOTE 14 - OTHER BENEFITS

##### A. Compensated Absences

The criteria for determining vacation leave and sick leave benefits are derived from negotiated agreements and State laws.

County employees earn and accumulate vacation leave at varying rates depending on length of service. Current policy credits vacation leave on an employee's anniversary date. Accumulated vacation leave cannot exceed three times the annual accumulation rate for an employee. Employees are paid for 100 percent of earned unused vacation leave upon termination.

Sick leave is earned at various rates as defined by County policy and union contracts. There is no limit on the amount of sick leave that may be accumulated. Sick leave benefits are paid upon retirement based on various rates and maximums depending on the contract.

##### B. Health Care Benefits

Health care benefits are provided to most employees through the County's self-insurance program. The employees share the cost of the monthly premium with the County.

The employees paid from the developmental disabilities major special revenue fund are provided health care, vision, and dental benefits through the Northern Buckeye Health Plan - Northwest Division of Optimal Health Initiative Consortium.

**A. General Obligation Bonds**

Various Purpose General Obligation Refunding Bonds, Series 2021

On April 27, 2021, the County issued general obligation bonds (Various Purpose General Obligation Refunding Bonds, Series 2021) to advance refund the Various Purpose General Obligation Bonds, Series 2005, Various Purpose General Obligation Bonds, Series 2010, Various Purpose General Obligation Refunding Bonds, Series 2010, special assessment refunding bonds, Series 2010, Platters Creek special assessment bonds, Green Acres Revenue Bonds, Auglaize Sewer Revenue Bonds, Stuckman Ditch Project bonds, and DeGryse Ditch Project bonds. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

The series 2021 refunding issue is comprised of serial bonds, par value \$2,985,000 and term bonds, par value \$1,510,000. The interest rate on the series 2021 bonds ranges from 2.00 – 3.00%. Principal payments are due December 1 of each year and interest payments on the series 2021 bonds are due June 1 and December 1 each year.

The reacquisition price exceeded the net carrying amount of the old debt by \$67,275. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt as a deferred outflow of resources. This advance refunding was undertaken to reduce total debt service payments by \$273,418 and resulted in an economic gain of \$233,620.

General obligation bonds are direct obligations of the County for which its full faith and credit are pledged for repayment.

#### C. Compensated Absences Payable

The compensated absences liability will be paid from the fund from which the employees' salaries are paid. These funds include the general fund, developmental disabilities fund, motor vehicle license and gas tax fund, emergency 911 fund, senior center fund, various nonmajor governmental funds, landfill enterprise fund and sewer enterprise fund.

#### D. Net Pension Liability

See Note 12 for detail. The County pays obligations related to employee compensation from the benefitting from their service which for the County, is primarily the general fund.

#### E. Net OPEB Liability

See Note 13 for detail. The County pays obligations related to employee compensation from the benefitting from their service which for the County, is primarily the general fund.

#### F. Legal Debt Margin

The Ohio Revised Code provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors should not exceed 1% of the total assessed valuation of the County. The Ohio Revised Code further provides that the total voted and unvoted net debt of the County less the same exempt debt should not exceed a sum equal to 3% of the first \$100,000,000, plus 1.5% of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000, plus 2.5% of such valuation in excess of \$300,000,000.

The effect of the debt limitations described above is an overall legal debt margin of \$29,563,876 at December 31, 2024.

#### G. Conduit Debt

In 2005, the County issued \$700,000 in Ohio Economic Development Revenue Bonds for the purpose of making a loan to assist the Defiance Area YMCA in financing a portion of the cost of acquiring, constructing, improving, installing, and equipping gymnasiums and related facilities. The County is not obligated in any way to pay the debt charges on the bonds from any of its funds, and therefore, the debt has been excluded entirely from the County's debt presentation. As of December 31, 2024, \$222,863 of these bonds was outstanding.

In 2007, the County issued \$1,407,600 in Health Care Facilities Revenue Bonds. The proceeds were used to provide hospital facilities at the lowest possible cost to service the residents of the Public Hospital Agencies, which hospital facilities will be available for the service of the general public. The County is not obligated in any way to pay the debt charges on the bonds from any of its funds, and therefore, the debt has been excluded entirely from the County's debt presentation. As of December 31, 2024, \$245,592 of these bonds was outstanding.

## DEFIANCE COUNTY, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### **NOTE 15 - LONG-TERM OBLIGATIONS - (Continued)**

In 2009, the County issued \$11,355,000 in Multifamily Housing Mortgage Revenue Bonds. The proceeds were loaned to Defiance County Health Partners, LLC to finance the acquisition, construction, and equipping of an assisted living multifamily residential housing rental housing facility. The County is not obligated in any way to pay the debt charges on the bonds from any of its funds, and therefore, the debt has been excluded entirely from the County's debt presentation. As of December 31, 2024, \$9,155,000 of these bonds was outstanding.

The County provides a limited commitment to maintain the tax-exempt status of the above conduit debt.

#### **NOTE 16 - CLOSURE AND POSTCLOSURE CARE COSTS**

State and federal laws and regulations require the County to place a final cover on the landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date the landfill stops accepting waste, the County reports a portion of these costs as an operating expense in each period based on landfill capacity used as of each balance sheet date.

The \$8,252,469 reported as landfill closure and postclosure costs payable at December 31, 2024 represents the cumulative amount reported to date based on the use of 50% of the estimated capacity of the landfill. The County will recognize the remaining estimated costs of closure and postclosure of \$7,939,557 and \$2,904,874, respectively, as the remaining estimated capacity is filled. This amount is based on what it would cost to perform all closure and postclosure care in 2024. For financial assurance purposes, Ohio Environmental Protection Agency (EPA) requires closure and postclosure costs to be reported based on the worst case scenario of when closure will occur. For 2024, the liabilities total \$4,911,943 for closure and \$3,340,526 for postclosure costs. The County expects the landfill to have a remaining life of 43 years. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The County is required by State and federal laws and regulations to either make annual contributions to an EPA controlled trust fund or demonstrate financial assurance through the "Local Government Financial Test". For 2024, the County met the "Local Government Financial Test" requirements.

The County expects to set aside monies for closure and postclosure care obligations at a rate in line with the daily waste consumption of the landfill. The County expects that future inflation costs will be paid from interest earnings on these annual contributions. However, if interest earnings are inadequate or additional postclosure care requirements are determined (due to changes in technology or applicable laws or regulations), these costs may need to be covered by charges to future landfill users or from future tax revenue.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 19 - RELATED ORGANIZATION

The Defiance County Regional Airport Authority (the “Airport Authority”) was created by resolution of the County Commissioners under the authority of Chapter 308 of the Ohio Revised Code. The Airport Authority is governed by a five-member Board of Trustees appointed by the County Commissioners. The Board of Trustees has the authority to exercise all of the powers and privileges provided under the law. These powers include the ability to sue or be sued in its corporate name; the power to establish and collect rates, rentals, and other charges; the authority to acquire, construct, operate, manage, and maintain airport facilities; the authority to buy and sell real and personal property; and the authority to issue debt for acquiring or constructing any facility or permanent improvement. The Airport Authority serves as custodian of its own funds and maintains all records and accounts independent of Defiance County. Based on the nature of the financial activities of the Airport Authority and the County, there is no benefit/burden relationship between the two entities, thus designating the Airport Authority as a related organization of the County. Although the County has no obligation to provide financial resources to the Airport Authority, the County Commissioners have in prior years and the current year allocated certain funds to the Airport Authority. In 2024, the County contributed \$25,200 to the Airport Authority.

#### NOTE 20 - CONTINGENT LIABILITIES

##### A. Litigation

The County is not a party to legal proceedings that, in the opinion of management, would have a material adverse effect on the financial statements.

##### B. Federal and State Grants

For the period January 1, 2024 to December 31, 2024, the County received federal and State grants for specific purposes that are subject to review and audit by the grantor agencies or their designees. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the County believes such disallowances, if any, would be immaterial.

#### NOTE 21 - OTHER COMMITMENTS

The County utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the County’s commitments for encumbrances in the governmental funds were as follows:

<u>Fund</u>	<u>Year-End Encumbrances</u>
General fund	\$ 66,121
Developmental disabilities fund	99,962

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2024**

**NOTE 23 - TAX ABATEMENTS**

The County was part of multiple Enterprise Zone (EZ) tax abatement agreements with local businesses. Enterprise zones are designated areas of land in which businesses can receive tax incentives in the form of tax exemptions on eligible new investment. The Enterprise Zone Program provides tax exemptions for a portion of the value of new real property when the investment is made in conjunction with a project that includes job creation or job retention. These tax abatements reduce assessed value by a percentage agreed upon by all parties that authorize these types of agreements. Taxes can be abated up to 100% for up to 12 years. A majority of the County's abatements are for 10 years or less and are 70-75% abated. The total value of real property subject to exemption for 2024 was \$17,139,370. The total value of taxes abated for 2024 was \$47,305.

### NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED DECEMBER 31, 2024

#### NOTE 1 - BUDGETARY PROCESS

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The schedule of revenues, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund and major special revenue funds are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis); and
- (d) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis is as follows:

#### Net Change in Fund Balance

	General	Developmental Disabilities	Motor Vehicle License and Gas Tax	Emergency 911	Senior Center
Budget basis	\$ 1,147,576	\$ (1,295,974)	\$ (278,946)	\$ 157,665	\$ 29,074
Net adjustment for revenue accruals	(243,003)	(88,626)	(106,489)	(18,527)	(20,822)
Net adjustment for expenditure accruals	423,085	47	(213,883)	2,146	(7,300)
Net adjustment for other sources/uses	3,391,310	-	-	-	-
Funds budgeted elsewhere	(84,499)	-	-	-	-
Adjustments for encumbrances	118,480	99,962	113,937	-	20,200
GAAP Basis	<u>\$ 4,752,949</u>	<u>\$ (1,284,591)</u>	<u>\$ (485,381)</u>	<u>\$ 141,284</u>	<u>\$ 21,152</u>

As part of Governmental Accounting Standards Board Statement No. 54, "Fund Balance Reporting", certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund. This includes the unclaimed monies fund, technology fund, trust fund, retirement payoffs fund, certificate of title administration fund, budget stabilization fund, and the payroll fund.

## **DEFIANCE COUNTY**

### **NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR § 200.510(b)(6) FOR THE YEAR ENDED DECEMBER 31, 2024**

#### **NOTE 1 – BASIS OF PRESENTATION & SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Defiance County (the County) under programs of the federal government for the year ended December 31, 2024. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County. Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be limited as to reimbursement.

#### **NOTE 2 – DE MINIMIS INDIRECT COST RATE**

The County has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

#### **NOTE 3 – CHILD NUTRITION CLUSTER**

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

#### **NOTE 4 – COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) and HOME INVESTMENT PARTNERSHIPS PROGRAM (HOME) GRANT PROGRAMS with REVOLVING LOAN CASH BALANCE**

The current cash balance on the County's local program income account as of December 31, 2024, is \$276,482.

#### **NOTE 5 – MATCHING REQUIREMENTS**

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

**Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other  
Matters Based on an Audit of Financial Statements Performed in Accordance With  
*Government Auditing Standards***

Defiance County  
500 Court Street, Suite A  
Defiance, Ohio 43512

To the Members of the Board of Commissioners:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Defiance County, Ohio, as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise Defiance County's basic financial statements, and have issued our report thereon dated June 13, 2025, wherein we noted as described in Note 3 to the financial statements, Defiance County restated beginning net position as a result of a change in accounting principle by implementing GASB Statement No. 101, "Compensated Absences".

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Defiance County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Defiance County's internal control. Accordingly, we do not express an opinion on the effectiveness of Defiance County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of Defiance County's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings as items 2024-001 and 2024-002 that we consider to be significant deficiencies.

Defiance County

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters

Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Defiance County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Defiance County's Responses to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on Defiance County's responses to the findings identified in our audit and described in the accompanying corrective action plan. Defiance County's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Defiance County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Defiance County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance**

Defiance County  
500 Court Street, Suite A  
Defiance, Ohio 43512

To the Members of the Board of Commissioners:

### **Report on Compliance for Each Major Federal Program**

#### ***Opinion on Each Major Federal Program***

We have audited Defiance County's compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of Defiance County's major federal programs for the year ended December 31, 2024. Defiance County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings.

In our opinion, Defiance County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

#### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the "Auditor's Responsibilities for the Audit of Compliance" section of our report.

We are required to be independent of Defiance County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Defiance County's compliance with the compliance requirements referred to above.

#### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Defiance County's federal programs.

#### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Defiance County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Defiance County

Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance

Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Defiance County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Defiance County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Defiance County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Defiance County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

**Report on Internal Control over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the "Auditor's Responsibilities for the Audit of Compliance" section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**2. FINDINGS RELATED TO THE BASIC FINANCIAL STATEMENTS  
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

Finding Number	2024-001
----------------	----------

Significant Deficiency - Financial Statement Presentation

Management is responsible for preparing complete and accurate financial statements in accordance with the applicable financial reporting framework. Control and monitoring activities typically associated with the period-end financial reporting process include reviewing and approving manual journal entries, consolidating entries, and any entries that are recorded directly to the financial statements. For the County, this could also include reviewing the year-end system reports to ensure activity is reported in the correct line items and fund balances are properly classified.

Adjustments were made to the financial statements to properly record intergovernmental receivables. Additionally, certain other immaterial adjustments were made by the financial statement compiler to the Governmental Activities Net Position classifications.

- The following adjustments to the Governmental Activities were necessary:

**2. FINDINGS RELATED TO THE BASIC FINANCIAL STATEMENTS  
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS (CONTINUED)**

Finding Number	2024-001 (Continued)
----------------	----------------------

- Decrease the Intergovernmental Receivables by \$1,643,921.
- Decrease the Operating Grants and Contributions - Economic Development by \$1,394,678.
- Decrease the Operating Grants and Contributions - Human Services by \$249,243.
- Decrease the Net Position - Net Investment in Capital Assets by \$423,108.
- Decrease the Net Position - Capital Projects by \$3,645,892.
- Decrease the Net Position - Other Purposes by \$1,394,678.
- Increase the Net Position - Unrestricted by \$3,819,757.
- The following adjustments to the Nonmajor Governmental Funds were necessary:
  - Decrease the Intergovernmental Receivables by \$1,643,921 (\$1,394,678 related to the CDBG Fund and \$249,243 related to the Child Support Enforcement Fund).
  - Decrease the Deferred Inflows of Resources - Intergovernmental Revenue Not Available by \$1,626,100 (\$1,365,328 related to the CDBG Fund and \$260,772 related to the Child Support Enforcement Fund).
  - Decrease the Intergovernmental Revenue by \$17,821 (\$29,350 related to the CDBG Fund and (\$11,529) related to the Child Support Enforcement Fund).

The financial statements and related notes have been adjusted to properly report the activity.

A lack of proper policies and procedures for control and monitoring activities associated with the period-end financial reporting process could lead to financial statement and note disclosure adjustments, which if uncorrected, could lead to a misrepresentation of the County's activity.

We recommend the County implement additional control procedures that enable management to more timely prevent or detect and correct potential misstatements in the basic financial statements prior to filing them in the Hinkle system.

**Significant Deficiency – Clerk of Court's Office Leave**

The County has various formal leave policies within the various collective bargaining units that employees are members of as well as within the policies established by the various departments of the County for which prescribe any and all allowable leave practices/procedures and for which employees it applies to.

Within the Clerk of Court's office, the former Clerk of Courts, who's term ended January 5, 2025, was allowing for certain leave practices/procedures for which no formal policy could be provided. This resulted in the majority of the employees in the Clerk of Court's office having their leave balances reduced/corrected. This matter has been referred to the Auditor of State's office.

Not establishing or following formal leave polices could result in improper usage or accrual of leave.

We recommend that the County ensure that leave practices/procedures for all employees be evidenced by a clear, concise, and formal leave policy.
