Canal Winchester, Ohio 43110

We have reviewed the *Independent Auditor's Report* of the Canal Winchester Local School District, Franklin County, prepared by Wilson, Shannon & Snow, Inc., for the audit period July 1, 2013 through June 30, 2014. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Canal Winchester Local School District is responsible for compliance with these laws and regulations.

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE A - SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) is a summary of the activity of the District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

**NOTE B - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures in the Schedule, the District assumes it expends federal monies first.

**NOTE C – FOOD DONATION PROGRAM**

The District reports commodities consumed on the Schedule at fair value. The District allocated donated commodities to the respective program that benefited from use of those donated food commodities. The District used the services of DJ Co-ops to hold, process, and deliver its federal commodities at a nominal rate.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED  
BY GOVERNMENT AUDITING STANDARDS**

Canal Winchester Local School District  
Franklin County  
100 Washington Street  
Canal Winchester, Ohio 43110

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canal Winchester Local School District, Franklin County, (the District) as of and for the fiscal year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 19, 2014.

***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL  
OVER COMPLIANCE AND THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND  
EXPENDITURES REQUIRED BY OMB CIRCULAR A-133**

Canal Winchester Local School District  
Franklin County  
100 Washington Street  
Canal Winchester, Ohio 43110

To the Board of Education:

***Report on Compliance for Each Major Federal Program***

We have audited the Canal Winchester Local School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Canal Winchester Local School District's major federal programs for the fiscal year ended June 30, 2014. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal programs.

***Management's Responsibility***

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

(740) 345-6611

***Opinion on Each Major Federal Program***

In our opinion, the Canal Winchester Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the fiscal year ended June 30, 2014.

***Other Matters***

The results of our auditing procedures disclosed an instance of noncompliance which OMB Circular A-133 requires us to report, described in the accompanying schedule of findings as item 2014-001. This finding did not require us to modify our compliance opinion on each major federal program.

The District's response to our noncompliance finding is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

***Report on Internal Control Over Compliance***

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency, described in the accompanying schedule of findings as item 2014-001.

The District's response to the internal control over compliance finding we identified is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

***Report on Schedule of Federal Awards Receipts and Expenditures Required by OMB Circular A-133***

We have also audited the basic financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Canal Winchester Local School District, Franklin County (the District) as of and for the fiscal year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 19, 2014. We conducted our audit to opine on the District's basic financial statements. The accompanying schedule of federal awards receipts and expenditures presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**Eligibility – Noncompliance Finding / Significant Deficiency**

7 CFR sections 245.2, 245.3, and 245.6 states that children from households with incomes at or below 130 percent of the Federal poverty level are eligible to receive meals or milk free under the School Nutrition Programs. Children from households with incomes above 130 percent but at or below 185 percent of the Federal poverty level are eligible to receive reduced price meals. Persons from households with incomes exceeding 185 percent of the poverty level pay the full price. A child’s eligibility for free or reduced price meals under a Child Nutrition Cluster program may be established by the submission of an annual application or statement which furnishes such information as family income and family size.

11.67 percent of students tested were found to have an incorrect eligibility determination based on the supporting documentation and the determination was not corrected by the reviewer of the application. Failure to implement and follow the proper control procedures could result in students being provided free or reduced price meals when they do not meet the eligibility criteria.

We recommend the District ensures established control procedures are being followed and that student statuses are updated appropriately based on the documentation provided.

**Official’s Response and Corrective Action Plan:** The Treasurer will implement oversight procedures over the applications process which will include reviewing applications and performing eligibility recalculations to determine if proper enrollment of the household within the free/reduced nutrition cluster program. The Treasurer will be responsible for implementing the corrective action plan with the anticipated completion date of June 30, 2015.

*To the Board of Education and the Citizens of the Canal Winchester Local School District:*

As the Treasurer of the Canal Winchester Local School District (the “District”), I am pleased to submit to you this Comprehensive Annual Financial Report (CAFR) issued by the District. The CAFR for the fiscal year ended June 30, 2014 is prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association (GFOA).

The Office of the Treasurer is responsible for the accuracy of the data presented and the completeness and fairness of this presentation. We believe the data presented is accurate in all material aspects and that all disclosures necessary to enable the reader to acquire the maximum understanding of the District’s financial activity are included herein.

The basic financial statements of the District for the fiscal year ended June 30, 2014, were audited by Wilson, Shannon, & Snow, Inc. whose opinion thereon is included at the beginning of the Financial Section of this report.

In addition to the financial audit a single audit was performed as required by the Single Audit Act Amendments of 1996 and the provisions of OMB Circular A-133, “Audits of States, Local Governments, and Non-Profit Organizations”. The single audit report is not included in the CAFR.

This transmittal letter is designed to provide historical information about the District, as well as complement the required Management’s Discussion and Analysis (discussed below). Unless noted otherwise, the financial data in this transmittal letter is presented on the modified accrual basis of accounting. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A).

Management’s Discussion and Analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

## PROFILE OF THE DISTRICT

The District originated in the early 1800's, built its first building in 1862, and is a fiscally independent political subdivision in the State of Ohio. By statute the District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code to provide education services authorized by charter and further mandated by state and/or federal agencies. The District is in a suburb of Columbus, the state capital, and operates one high school, one middle school, and two elementary schools as of June 30, 2014. The District enrolled approximately 3,714 students during the 2013-14 school year.

The District provides a wide variety of educational and support services as mandated by State statute or public desires. These include general education programs which focus on college and career readiness, specific vocational/career instruction, special instructional programs for students with disabilities, special instructional programs for gifted students, special instructional programs for English Language Learners, student guidance and health services, as well as extracurricular activities. The District has a reputation of academic excellence as measured by student academic results on state-mandated assessments.

An elected five-member Board of Education serves as the taxing authority and policy maker for the District. The Board adopts the annual operating budget, tax budget, and approves all expenditures of District tax monies.

The Superintendent is the chief executive officer of the District, responsible to the Board for total educational and support operations. The Treasurer is the chief financial officer of the District, responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds, and investing idle funds as permitted by Ohio law. Other officials, reporting to the Superintendent, include the Assistant Superintendent, Curriculum Director, Coordinator of Student Activities, Director of Special Education, Technology Coordinator, Director of Assessment and Data, and the building principals.

### Internal Control:

In developing and revising the District's accounting and internal control system, consideration is given to the adequacy of internal controls to provide reasonable but not absolute assurance regarding:

1. Safeguarding of assets against loss from unauthorized use or disposition; and
2. Keeping reliable financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that:

1. The cost of a control should not exceed the benefits likely to be derived; and
2. The evaluation of costs and benefits required estimates and judgments by management.

Management believes that the internal controls adequately meet the above objectives.

### Budgetary Controls:

In addition to the internal controls mentioned above, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of all funds (except agency) are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the individual fund. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Unencumbered amounts lapse at year-end. A complete description of the District's budgetary process can be found in Note 2.E. to the basic financial statements.

### Instructional Organization:

The District provides a wide variety of educational and support services as mandated by State statute or public desires. These include general education programs which focus on college and career readiness, specific vocational/career instruction, special instructional programs for students with disabilities, special instructional programs for gifted students, special instructional programs for English Language Learners, student guidance and health services, as well as extracurricular activities. The District has a reputation of academic excellence as measured by student academic results on state-mandated assessments.

While rapid growth in student population over the past decade presented many challenges such as providing student housing, maintaining appropriate class sizes, and assuring the horizontal and vertical articulation of instruction, this growth provided the District with opportunities to build new facilities for our learners, to hire additional staff to support student needs and to work closely with our community to define services appropriate for our taxpayer wallet and student and family desires.

Over the years, our community has supported the District's need for new school facilities. November 1990 marked the beginning of our new construction projects which produced new schools for our students. This successful bond issue built phase II of the high school which included an academic wing, library/media center, office and cafeteria. Together with the first phase of the high school, the capacity for students equaled 750.

Again in November of 1997, district residents approved a bond issue which built Indian Trail Elementary School, a district K-2 building with the capacity to serve 825 students. This building featured a state-of-the art library/media center which is predominantly placed in the building, two gymnasiums, a cafetorium and 42 classrooms.

In March of 2000, district residents approved a bond issue that funded a significant renovation to the district's then historic Middle School, phase III of the high school, a stand-alone gymnasium, and another elementary school – Winchester Trail Elementary. These construction projects increased our high school capacity to 1,025 and created a mirror image school of Indian Trail in Winchester Trail to house up to 525 students in grades 3-4. Additionally, this bond allowed new residents to immediately pay at the same bond millage as current residents. This no new tax approach was available to only fewer than 10% of the highest growing districts in Ohio.

In November of 2004, the District passed another bond issue. This issue qualified the district for \$30 million in state matching future funds from the Ohio School Facilities Commission and its passage built a new Middle School which houses grades 6, 7 and 8 and added a new wing to Winchester Trail Elementary School which serves students grades 3-5. Because of the passage of the levy, the district was able to reconfigure grade levels and close the 5-6 Intermediate School. Unique to this bond issue was the fact that the school district and then Village of Canal Winchester, shared costs because the school was built next to a village recreational park.

Our district facilities support wireless communication, broad band internet, a strong arts program, solid "core" academic programs, vital latchkey partnerships with area churches and a very strong partnership with the Canal Winchester Recreation Organization.

While our school district enjoys a reputation of being a caring and academically sound district, we continue to expand our efforts to identify more ways to meet the needs of students. Included in these efforts have been the Success after school program in grades 3-5 and a strengthened standards-based gifted program.

### STUDENT ACHIEVEMENT

Scholastic Performance: For the 2013-2014 school year, each district and school building will be graded A-F in nine different areas, with NO overall grade until August 2015. The Canal Winchester students performed well, earning A's and B's in all areas. We earned a grade of A in: Indicators Met (23/24 or 95.8%), overall Value Added, lowest 20% in Achievement, and 4 year graduation rate (94.5%). We earned a grade of B in: Performance Index (102.7 or 85.5%), Progress in Gifted and Students with Disabilities, and in Annual Measurable Objectives (86.45). These are some of the highest scores the District has ever received.

## MAJOR INITIATIVES AND PROGRAM ACCOMPLISHMENTS

Data Analysis: The District Leadership Team, Building Leadership Teams and Teacher Based Teams analyze value-added and achievement results with all teachers. Data from Ohio Achievement Tests (administered to grades levels 3-8) and the Ohio Graduation Tests are analyzed by grade level, content area, and subgroups including standard, response type and item analysis. All of our teachers have received training on using data to inform instructional decisions in the classroom and now work together to determine the details of next instructional steps to move students at least one year of growth. Additionally, intervention, substantive practice and enrichment are planned for students based on data analysis. Teachers are also analyzing pre-assessment data to develop Student Learning Objectives (SLO) to use as part of the new teacher evaluation system.

Professional Development: Job-embedded professional development is provided to all teaching staff during data team meetings, two district-wide professional development days and state-granted waiver days. Professional development revolves around identified teacher needs which are surveyed and prioritized annually. Our professional learning foci are as follows: improving instructional strategies to meet the needs of all students by delivering instruction that is high in rigor and relevant to their needs, and providing learning opportunities in the area of technology integration across all disciplines, and Problem Based Learning.

Gifted & Talented Programs: In-house programs for gifted and talented students are provided at Winchester Trail Elementary School (grades 4-5) using inclusion, differentiation, and/or compacted in mathematics and English language arts curriculum in grades four and five. Two gifted intervention specialist staff the elementary building, providing an opportunity for these teachers to act as a gifted resource to all classroom teachers. Acceleration/enrichment courses for advanced students are provided for students at the middle school and high school.

ELL Program: Students in grades K-12 with Limited English Proficiency are provided intervention programs through the Districts' ELL (English Language Learners) teachers. The proficiency of English language is assessed annually through state mandated testing.

Foreign Languages: Eighth (8<sup>th</sup>) grade students are able to enroll in an elective study of Spanish to complete a first year high school credit. Spanish and French are offered at the high school. The inclusion of high school credit foreign language courses in eighth grade, permits students an opportunity to enroll in a fifth year of foreign language as seniors if they begin their foreign language studies at the junior high level.

High School Credit as an Option for Eighth Grade Students: Eighth grade students have the option of earning High School credits for Algebra 1, Spanish 1, Choir, and Band.

Arts Instruction: Visual and performing arts are a source of pride in the Canal Winchester Schools. Music and visual arts teachers provide instruction to students K-12. Every building in the district provides art, music, physical education teachers, and media and technology integration specialists. In grades K-6, the visual and performing arts are rotated into the weekly schedule, while middle school students in grades 7 and 8 receive art instruction on a semester rotation. Library/media and technology integration are integrated into the student's courses. Beginning in grades 7 and 8, students have the opportunity to enroll in instrumental music and vocal music as an elective. Students enroll in visual, vocal and instrumental music and performing arts programs at the high school level based on their interests and graduation requirement needs.

Integrated Technology Instruction: The District recognizes that technology has become an integral part of education. In addition, technology is a tool to facilitate the 21<sup>st</sup> Century skills for college and career readiness for all students. A comprehensive district plan embeds technology use into communication, instruction, intervention, data reporting and data analysis. Likewise, the District created a Help Desk making technical services and request for and from teachers more efficient.

The District continues to improve communications with parents by providing to students and parents on-line access to student's grades. Because of the web-based nature of this tool, teachers are also able to post class assignments, recorded lessons and class notes as well. Parents are invited to sign up for the district level and building level email blasts which communicate important district or building level news or event reminders. Lastly, the district purchased an emergency notification system to inform parents in a timely fashion of school emergencies or calamity days.

#### Summer Intervention

Summer intervention is provided to students who are not considered 'proficient' in reading during elementary school as determined by teacher recommendations for early learners and by the Ohio Achievement Assessment for students in grade 2. Summer intervention is also provided to students who are not considered 'proficient' in math during elementary school as determined by teacher recommendations for early learners and by the Ohio Achievement Assessment for students in grades 3-5. Summer intervention is available for high school students in all content areas in preparation for re-taking the Ohio Graduation Test. Intervention is provided for students in grades 1-5 during the regular school day through content specific and tiered instruction as well as after school reading and math programs.

#### Comprehensive Continuous Improvement Plan:

The District annually completes a needs assessment and develops a CCIP (Comprehensive Continuous Improvement Plan) as required by the Ohio Department of Education, Office of Federal Programs in order to receive federal funds, commonly known as "Title" monies. There are two major goals established in this plan for our District including: Improving Student Achievement and providing high quality professional development to our teaching staff. Strategies and action steps that support this goal are developed to provide a structure for expending funds for the following programs - Title I (Disadvantaged), Title I (School Improvement), Title II-A (Improving Teacher Quality), Title III (Limited English Proficient), and Part B-IDEA (Special Education). The District's current CCIP was approved by the Ohio Department of Education, Office of Federal Programs in July 2013.

Grants Programs: The District received two Straight A Grants from the State that totaled around \$1.1 million dollars. The grant monies are being used to increase student achievement and teach all students to think, innovate and use technology to improve student engagement and learning.

Special Education: The District's Special Education Programs provide a full continuum of services from Preschool through 12th grade based on the individual needs of its approximate 448 students on Individualized Education Programs (IEPs). Services are provided in all four buildings as well as in programs outside of the district. These services range from inclusion support to homebound/hospitalization services. Specialized, low-incidence classrooms include those for students with multiple disabilities, emotional disturbance, and autism, although categories of eligibility do not dictate placement in these classrooms. The District supports students in these rooms through smaller class sizes (based on state requirements), intensive related services support, and paraprofessionals. Canal Winchester currently has 7 low-incidence classrooms, including one classroom in the preschool area. In addition, some of our buildings also have cross-categorical classrooms that serve as a resource rooms for students. Students in these classrooms receive a range of services from content area instruction to general education support in terms of classroom teacher consultation. The District also offers inclusion support in all buildings. Intervention Specialists support and co-teach with general education teachers in the general education setting without pulling IEP students from the classroom. Canal Winchester has 23 teachers providing cross-categorical resource room services or inclusion support in the general classroom.

Canal Winchester's Special Education program is supported by a well-experienced related services staff consisting of 3 school psychologists, 4 speech therapists, .5 adaptive physical education teacher, 1 physical therapist, 1.5 occupational therapists, 1 behavior specialist, and 1 transition coordinator. Some of these services and additional services are contracted with other agencies as well. All of these classrooms, programs, and personnel are supervised and coordinated on a day-to-day basis by one special education administrator who oversees all the programs at the district level. Three district representatives also help cover meetings and oversee caseloads and department compliance. One special education secretary maintains special education records and enters critical information into the Education Management Information System (EMIS).

## ECONOMIC CONDITION AND OUTLOOK

The majority of the School District is located in Franklin County, with the remainder situated in Fairfield County. The District covers approximately 32 square miles in and around the City of Canal Winchester. Located approximately 15 miles southeast of downtown Columbus, Ohio, the District is largely rural/suburban in character and is considered a growing, middle-class suburb of Columbus. The Columbus area has maintained a strong economic climate, even during periods of recession. This is due to the fact that Columbus is the State capitol, and is national headquarters for many corporations and insurance companies. There are also a number of universities in the area which contribute to a stable local economy. This stability has contributed to the growth of the District.

In 1990, the community approved a school district income tax. It is anticipated that the income tax will continue to provide a better source of funding than the traditional property tax, because of its ability to grow as the District grows.

As can be seen in the financial statements, voters have routinely supported the District in its efforts to keep pace with increased student population. However due to state and local revenue losses and increasing costs, the District implemented substantial budget reductions for fiscal year 2012.

In December 2012, the Board reached a two-year agreement with the Canal Winchester Education Association, which enabled the District to operate for the 2013-14 and 2014-15 school year with a 1% increase in the salary schedule each year. In June 2013, the Board reached a two-year agreement with the Ohio Association of Public School Employees to operate for the 2013-14 and 2014-15 school year with a 1% increase in the salary schedule each year.

On May 6, 2014, District voters approved a renewal of the emergency levy. The levy commences in tax year 2014 with collections beginning January 2015. This levy generates \$5.83 million per year for five years, calendar year 2015 through 2019. The levy proceeds are used for current operating expenses. The District's leadership believes the passage of the levy along with conservative expenditure plans will provide much-improved financial stability for the District throughout the length of the levy.

Ohio House Bill 412 requires school districts to spend a certain portion of their revenues on specific categories of expenditures as specified in the law. In the event that the District does not meet the required expenditure level, the shortfall would be reserved and carried forward to the next fiscal year and would be expected to be spent in addition to any requirement for that fiscal year. This category of "set-asides" or reserve is pertinent to the District: the capital acquisition set-aside. The set-asides for the capital acquisition are required by State statute. For fiscal year 2014, the District had offsets and qualifying disbursements, which well exceeded the required set-asides. Given the District's current and anticipated expenditure patterns and levels, the board expects to exceed these requirements for the foreseeable future.

## AWARDS AND ACKNOWLEDGEMENTS

### Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2013. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. As such, the CAFR must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

Acknowledgments

The preparation of the CAFR was made possible by the diligence of the Treasurer's staff and the support of the Board of Education. Special thanks go to the Superintendent of the District for his input and assistance in this project. In the financial area, as in the instructional area, the goal of excellence is always with us.

Respectfully submitted,

A handwritten signature in blue ink that reads "Joyce A. Boyer". The signature is written in a cursive style with a large initial 'J'.

## INDEPENDENT AUDITOR'S REPORT

Canal Winchester Local School District  
Franklin County  
100 Washington Street  
Canal Winchester, Ohio 43110

To the Board of Education:

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canal Winchester Local School District, Franklin County, Ohio (the District), as of and for the fiscal year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Independent Auditor's Report

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Canal Winchester Local School District, Franklin County, Ohio, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General fund thereof for the fiscal year then ended in accordance with the accounting principles generally accepted in the United States of America.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

*Supplementary and Other Information*

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America.

Canal Winchester Local School District  
Franklin County  
Independent Auditor's Report

In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2014, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014  
UNAUDITED**

The management's discussion and analysis of Canal Winchester Local School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2014. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

**Financial Highlights**

Key financial highlights for 2014 are as follows:

- Net position of governmental activities increased \$4,707,071, which represents a 19.59 percent increase from 2013.
- General revenues accounted for \$38,493,614 in revenue or 83.65 percent of all governmental activities revenues. Program specific revenues in the form of specific charges for services and sales, grants and contributions accounted for \$7,523,542 or 16.35 percent of total governmental activities revenues of \$46,017,156.
- The District had \$41,310,085 in expenses related to governmental activities, \$7,523,542 of these expenses were offset by program specific charges for services, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$38,493,614 were adequate to provide for these programs.
- The District's major governmental funds are the general fund and debt service fund. The general fund had \$38,521,889 in revenues and other financing sources and \$34,195,897 in expenditures and other financing uses. The fund balance of the general fund increased \$4,325,992 from a balance of \$12,096,928 to \$16,422,920.
- The debt service fund had \$4,589,841 in revenues and other financing sources and \$4,303,374 in expenditures. The fund balance of the debt service fund increased \$286,467 from \$2,869,239 to \$3,155,706.

**Using the Financial Report**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The District has two major governmental funds: the general fund and debt service fund. The general fund is by far the most significant fund.

FOR THE FISCAL YEAR ENDED JUNE 30, 2014  
UNAUDITED

**Reporting the District as a Whole**

*Statement of Net Position and the Statement of Activities*

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2014?" The statement of net position and statement of activities answer this question. These statements include all non-fiduciary assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and statement of activities, the governmental activities include the District's programs and services, including instruction, support services, operation and maintenance of plant, pupil transportation, food service operations and extracurricular activities.

The District's statement of net position and statement of activities can be found on pages 26-27 of this report.

**Reporting the District's Most Significant Funds**

*Fund Financial Statements*

The analysis of the District's major governmental funds begins on page 21. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

*Governmental Funds*

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and statement of activities) and governmental funds is reconciled in the financial statements. The basic governmental fund financial statements can be found on pages 28-35 of this report.

*Proprietary Fund*

The District maintains one proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District's internal service fund activity accounts for self-insurance of the District's medical, dental and prescription drug benefits. The basic proprietary fund financial statements can be found on pages 36-38 of this report.

**Reporting the District's Fiduciary Responsibilities**

The District acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in an agency fund. The District's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities on page 39. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

**Notes to the Basic Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 41-80 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014  
UNAUDITED

The graph below presents the District's governmental assets and deferred outflows of resources, liabilities and deferred inflows of resources and net position for fiscal years 2014 and 2013.

The table below shows the changes in net position for fiscal years 2014 and 2013.

**Change in Net Position**

	Governmental Activities	
	2014	2013
<b>Revenues</b>		
Program revenues:		
Charges for services and sales	\$ 2,264,611	\$ 1,780,622
Operating grants and contributions	5,247,397	3,559,501
Capital grants and contributions	11,534	-
General revenues:		
Property taxes	19,556,707	18,400,124
Income taxes	3,668,255	3,636,920
Payments in lieu of taxes	258,647	248,668
Grants and entitlements	14,538,736	14,452,698
Investment earnings	25,098	37,645
Win-win settlement	320,585	641,170
Miscellaneous	125,586	198,856
<b>Total revenues</b>	<b>46,017,156</b>	<b>42,956,204</b>

In the area of program revenues, the increase was in operating grants and contributions which increased \$1,687,896. This increase is attributable primarily to increased monies received in the race to the top, Title I school improvement, and Title I disadvantaged children federal programs and monies received from State foundation restricted for transportation, career technical education, preschool special education and special education transportation.

The primary sources of revenue for governmental activities are derived from property taxes, income taxes, payments in lieu of taxes and unrestricted grants and entitlements. These revenue sources represent 82.63 percent of total governmental revenue. Real estate property is reappraised every six years.

UNAUDITED

The graph below presents the District's governmental activities revenue and expenses for fiscal years 2014 and 2013.

**Governmental Activities - Revenues and Expenses**

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services for 2014 and 2013. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014  
UNAUDITED**

The dependence upon tax revenues during fiscal year 2014 for governmental activities is apparent, as 81.74 percent of 2014 instructional activities are supported through taxes and other general revenues. The District's taxpayers and unrestricted grants and entitlements from the State, are by far the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2014 and 2013.

**The District's Governmental Funds**

The District's governmental funds (as presented on the balance sheet on pages 28-29) reported a combined fund balance of \$21,384,381, which is above last year's total of \$16,741,802. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2014 and 2013.

	Fund Balance <u>June 30, 2014</u>	Fund Balance <u>June 30, 2013</u>	<u>Increase</u>
General	\$ 16,422,920	\$ 12,096,928	\$ 4,325,992
Debt Service	3,155,706	2,869,239	286,467

Total	<u>\$ 21,384,381</u>	<u>\$ 16,741,802</u>	<u>\$ 4,642,579</u>

**General Fund**

The District's general fund balance increased \$4,325,992 during 2014. The following table assists in illustrating the revenues of the general fund.

	<u>2014 Amount</u>	<u>2013 Amount</u>	<u>Percentage Change</u>
<b><u>Revenues</u></b>			
Taxes	\$ 19,402,713	\$ 18,296,775	6.04 %

**CANAL WINCHESTER LOCAL SCHOOL DISTRICT  
FRANKLIN COUNTY, OHIO**

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014  
UNAUDITED**

Tax revenues increased as a result of an increase in the amount of property and income taxes collected at June 30, 2014 as compared to June 30, 2013. The District received more in State foundation revenue, which resulted in an increase in intergovernmental revenue of 11.54 percent. The increase in tuition revenues during fiscal year 2014 was due to open enrollment revenues of approximately \$380,000.

The table that follows assists in illustrating the expenditures of the general fund.

	<u>2014</u> <u>Amount</u>	<u>2013</u> <u>Amount</u>	<u>Percentage</u> <u>Change</u>
<b><u>Expenditures</u></b>			
Instruction	\$ 20,436,232	\$ 19,090,892	7.05 %
Support services	12,509,314	12,919,682	(3.18) %
Operation of non-instructional services	136,448	232,363	(41.28) %
Extracurricular activities	672,073	549,683	22.27 %
Capital outlay	80,045	135,167	(40.78) %
Debt service	<u>173,827</u>	<u>175,774</u>	(1.11) %
<b>Total</b>	<b><u>\$ 34,007,939</u></b>	<b><u>\$ 33,103,561</u></b>	<b>2.73 %</b>

The increase in instruction expenditures was primarily related to costs associated with annual increases in salaries, wages and benefits. The District spent more on extracurricular activities, such as athletic programs, during fiscal year 2014. The variance in capital outlay was a result of the fewer capital lease obligations entered into during fiscal year 2014 compared to fiscal year 2013.

***Debt Service Fund***

The debt service fund had \$4,589,841 in revenues and other financing sources and \$4,303,374 in expenditures. The fund balance of the debt service fund increased from \$2,869,239 to \$3,155,706.

***General Fund Budgeting Highlights***

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2014, the District amended its general fund budget several times. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. For the general fund, original budgeted revenues and other financing sources were \$34,641,497. Final budgeted revenues of \$34,696,153 were \$3,413,651, higher than actual revenues and other financing sources of \$38,109,804.

General fund original appropriations (appropriated expenditures plus other financing uses) were \$36,808,684 and final appropriations were \$37,401,204. The actual budget basis expenditures and other financing uses for fiscal year 2014 totaled \$35,112,961, which was \$2,288,243 less than the final budget appropriations.

**Current Financial Related Activities**

In uncertain times, it is crucial that we plan and prepare as much as we can for the unexpected. Maintaining current educational opportunities for our students in a reasonable manner for taxpayers is always at the forefront as we plan for the future.

The latest two-year State budget has been introduced and Gov. Kasich has proposed significant changes in the way the State funds public schools. Although it is still early in the process and we expect possible changes to this proposal, Canal Winchester Local Schools will be actively engaged with our legislative leaders to ensure our voice is heard as critical decisions are being made about our schools. As history has shown us, funding from the State and Federal government has dropped yet more is being asked of us. Mandates from State and Federal officials continue to put pressure on our District's operating budget and school districts are being asked to do more with less.

Adding to our revenue challenges is the fact that over 1/6<sup>th</sup> of our funding must be renewed by the voters on a nearly constant basis. That means our District runs the risk of losing millions in current operating funds if voters do not approve renewal levies every few years. In 2011, we came extremely close to this "fiscal cliff" and it not only placed vital programs and staff at risk, but it also could have impacted the long-term stability of our schools and community.

Canal Winchester Local Schools have weathered through these times in the past and will again be at a crossroad in the near future. In order to continue down a path of stability, it will be critical that the District and community continue working together for not just our students, but for the quality of life in our community as well.

**Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact: Ms. Joyce Boyer, Treasurer, Canal Winchester Local School District, 100 Washington Street, Canal Winchester, Ohio 43110.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES  
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

<b>Net change in fund balances - total governmental funds</b>	\$	4,642,579
<i>Amounts reported for governmental activities in the statement of activities because:</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeded capital outlay in the current period.		
Capital asset additions	\$ 854,263	
Current year depreciation	<u>(1,196,270)</u>	
Total		(342,007)
Governmental funds only report the gain from the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.		
		(96,647)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Property taxes	(101,778)	
Income taxes	(136,410)	
Earnings on investments	6,415	
Tuition	50	
Classroom materials and fees	(855)	
Rental income	(315)	
Other local revenues	(8,865)	
Intergovernmental	<u>208,106</u>	
Total		(33,652)
Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position.		
		2,090,289
The issuances of notes and capital lease obligations are recorded as other financing sources in the governmental funds; however, in the statement of activities, they are not reported as revenues as they increase long-term liabilities on the statement of net position.		
		(325,045)
Governmental funds report expenditures for interest when it is due. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. The following items resulted in more interest being reported in the statement of activities.		
Decrease in accrued interest payable	3,327	
Accreted interest on capital appreciation bonds	(796,999)	
Amortization of bond premiums	392,729	
Amortization of deferred charges	<u>(138,339)</u>	
Total		(539,282)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
		17,012
The internal service fund used by management to charge the costs of insurance to individual funds is not reported in the statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among governmental activities.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT**

The Canal Winchester Local School District (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a local District as defined by Section 3311.03 of the Ohio Revised code. The District operates under an elected Board of Education (5 members) and is responsible for the provision of public education to residents of the District.

Average daily membership (ADM) as of October 2013 was 3,714. The District employed 17 full-time administrators and coordinators, 226 full-time certified employees, and 127 full-time classified employees.

The District provides regular, vocational and special instruction. The District also provides support services for the pupils, instructional staff, general and school administration, business and fiscal services, facilities acquisition and construction services, operation and maintenance of plant, student transportation, food services, extracurricular activities and non-programmed services.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

**A. Reporting Entity**

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

The following organizations are described due to their relationship to the District:

*JOINTLY GOVERNED ORGANIZATIONS*

Metropolitan Educational Council

MEC is a not-for-profit educational council whose primary purpose and objective is to contribute to the educational services available to school districts in Franklin County and surrounding areas by cooperative action membership. MEC is established under the Ohio Revised Code Chapter 167 as a regional council of governments. The governing board of MEC consists of a representative from each of the Franklin County districts. Districts outside of Franklin County are associate members and each county selects a single district to represent them on the Governing Board. MEC is its own fiscal agent. MEC provides computer services to the District.

Financial information can be obtained from the offices of the Director, Metropolitan Educational Council, 2100 Citygate Drive, Columbus, Ohio.

South Central Ohio Insurance Consortium

The District is a member of the South Central Ohio Insurance Consortium (SCOIC), an insurance purchasing pool. The SCOIC's primary purpose and objective is establishing and carrying out a cost effective cooperative health program for its member organizations. The governing board consists of the superintendent, treasurer, or other designee appointed by each of the members of the SCOIC. Members include 12 school districts, plus the City of Lancaster. The Liberty Union-Thurston Local School District serves as fiscal agent for the SCOIC. To obtain financial information for the SCOIC, write to the fiscal agent, at 600 Washington Street, Baltimore, Ohio 43105. See Note 15.C for further information.

Canal Winchester Joint Recreation District

The District has joined with the City of Canal Winchester in the creation of a joint recreation district known as the Canal Winchester Joint Recreation District (Recreation District). The Recreation District is established under Ohio Revised Code Chapter 755.14(C). The District appoints two members to act as the School Board representatives on the Recreation District Board. The Recreation District Board consists of a Chairperson, Vice Chairperson, Director, Athletic Coordinator, two Board Members, a Member at Large and a Fiscal Officer. To obtain financial information for the Recreation District, write to the Fiscal Officer, at P.O. Box 753 Canal Winchester, Ohio, 43110.

**B. Fund Accounting**

The District uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district activities or functions. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category is divided into separate fund types.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

*GOVERNMENTAL FUNDS*

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the District's major governmental funds:

General fund - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt service fund - The debt service fund is used to account for the accumulation of resources and payment of general obligation bond and principal and interest from governmental resources when the government is obligated in some manner for payment. It is also used to account for the accumulation of resources and payment of general obligation bonds and notes payable.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets and (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

*PROPRIETARY FUNDS*

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The following is a description of the District's proprietary fund:

Internal Service Fund - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, or to other governments, on a cost-reimbursement basis. The District's internal service fund accounts for the health, medical, prescription drug and dental self-insurance program.

*FIDUCIARY FUNDS*

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District has no trust funds.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency fund accounts for student activities.

FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**C. Basis of Presentation and Measurement Focus**

*Government-wide Financial Statements* - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid “doubling up” revenues and expenses.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District’s governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows and all liabilities and deferred inflows associated with the operation of the District are included on the statement of net position.

*Fund Financial Statements* - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets/deferred outflows of resources and current liabilities/deferred inflows of resources generally are included on the governmental funds balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of this fund are included on the statement of fund net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operation. The principal operating revenues of the District’s internal service fund are charges for services. Operating expenses for the internal service fund include claims and purchased services expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

Agency funds do not report a measurement focus as they do not report operations.

**D. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

*Revenues - Exchange and Nonexchange Transactions* - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from income taxes is recognized in the period in which the income is earned (See Note 8). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, school district income taxes, interest, tuition, grants and student fees.

*Deferred Inflows of Resources and Deferred Outflows of Resources* - A deferred inflow of resources is an acquisition of net position by the District that is applicable to a future reporting period. A deferred outflow of resources is a consumption of net position by the District that is applicable to a future reporting period.

Property taxes for which there is an enforceable legal claim as of June 30, 2014, but which were levied to finance fiscal year 2015 operations, and other revenues received in advance of the fiscal year for which they were intended to finance, have been recorded as deferred inflows. Income taxes, payment in lieu of taxes and grants not received within the available period, grants and entitlements received before the eligibility requirements are met, and delinquent property taxes due at June 30, 2014, are recorded as deferred inflows on the governmental fund financial statements.

On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred inflows of resources.

FRANKLIN COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities used during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue. Unused donated commodities are reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**E. Budgets**

The District is required by State statute to adopt an annual appropriated cash basis budget for all funds (except agency). The specific timetable for fiscal year 2014 is as follows.

1. Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The purpose of this budget document is to reflect the need for existing (or increased) tax rates.
2. By no later than January 20, the Board-adopted budget is filed with the Franklin County Budget Commission for tax rate determination.
3. Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund. Prior to July 1, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as a basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered balances from the preceding year as reported by the District Treasurer.

The certificate of estimated resources may be further amended during the year if projected increases or decreases in revenues are identified by the District Treasurer. The amounts reported as the final budgeted amount in the budgetary statement reflect the amounts set forth in the original and final amended certificate of estimated resources issued for fiscal year 2014.

4. By July 1, the annual appropriation resolution is legally enacted by the Board of Education at the fund level of expenditures for all funds, which is the legal level of budgetary control. (State statute permits a temporary appropriation to be effective until no later than October 1 of each year.) Although the legal level of budgetary control was established at the fund level of expenditures, the District has elected to present budgetary statement comparisons at the fund and function level of expenditures. Resolution appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed appropriations totals.

FRANKLIN COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

5. All funds, other than agency funds, are legally required to be budgeted and appropriated. Short-term inter-fund loans are not required to be budgeted since they represent a temporary cash flow resource, and are not intended to be repaid.
6. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.
7. Formal budgetary integration is employed as a management control device during the year for all funds consistent with statutory provisions.
8. Appropriation amounts are as originally adopted, or as amended by the Board of Education throughout the year by supplemental appropriations, which either re-allocated or increased the original, appropriated amounts. The final budget figures, which appear in the statements of budgetary comparisons, represent the permanent appropriation amounts plus all supplemental appropriations legally enacted during the year.
9. At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the succeeding fiscal year and need not be re-appropriated.

**F. Cash and Investments**

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the basic financial statements.

During fiscal year 2014, the District's investments included non-negotiable certificates of deposit (CDs), negotiable CDs, Federal Home Loan Mortgage Corporation securities (FHLMC), U.S. government money markets, and STAR Ohio. Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts, such as non-negotiable CDs, are reported at cost.

The District has invested funds in STAR Ohio during fiscal year 2014. STAR Ohio is an investment pool, managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price, which is the price the investment could be sold for on June 30, 2014.

Under existing Ohio statutes all investment earnings are assigned to the general fund except for those specifically related to the auxiliary services fund, lunch room and trust fund authorized by Board resolution. Interest revenue credited to the general fund during fiscal year 2014 amounted to \$18,683, which includes \$4,158 assigned from other District funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

An analysis of the District’s investments at year end is provided in Note 4.

**G. Inventory**

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method.

Inventory consists of supplies, donated food and purchased food.

**H. Capital Assets**

General capital assets are those assets specifically related to governmental activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$1,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset life are not. Interest incurred during the construction of capital assets is also capitalized.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Land improvements	20-100 years
Buildings and improvements	15 - 100 years
Furniture and equipment	5 - 20 years
Vehicles	10 years

**I. Interfund Balances**

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables.” These amounts are eliminated in the governmental type activities columns of the statement of net position.

FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**J. Compensated Absences**

Compensated absences of the District consist of vacation leave and sick leave to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination (severance) benefits. A liability for sick leave is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at June 30, 2014, by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for sick leave on employees expected to become eligible to retire in the future, all employees with at least fifteen years of service were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2014, and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

Compensated absences are only reported in the governmental fund financial statements if they have matured. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid, which is primarily the general fund. The noncurrent portion of the liability is not reported.

**K. Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables and accrued liabilities payable from the internal service fund are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and other long-term obligations are recognized as a liability on the fund financial statements when due.

FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**L. Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

*Nonspendable* - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

*Restricted* - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

*Committed* - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

*Assigned* - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned amounts include all remaining amounts that are not classified as nonspendable and are neither restricted nor committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

*Unassigned* - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**M. Estimates**

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

FRANKLIN COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**N. Net Position**

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component “net investment in capital assets,” consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents amounts restricted for trusts and other grants.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

**O. Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

**P. Issuance Costs, Bond Premium and Discount and Accounting Gain or Loss on Debt Refunding**

On the governmental fund financial statements, issuance costs, bond premiums, bond discounts, and excess charges from debt refunding are recognized in the current period.

On the government-wide financial statements, issuance costs are recognized in the current period and are not amortized. Bond premiums and discounts are amortized over the term of the bonds using the straight-line method. Unamortized bond premiums are presented as an addition to the face amount of the bonds reported on the statement of net position. Unamortized bond discounts are presented as a reduction to the face amount of the bonds reported on the statement of net position. The reconciliation between the bonds face value and the amount reported on the statement of net position is presented in Note 13.A.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred outflow of resources.

**Q. Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2014.

**R. Parochial Schools**

World Harvest Church is within the District boundaries. Current State legislation provides funding to this parochial school. These monies are received and disbursed on behalf of the parochial school by the Treasurer of the District, as directed by the parochial school. The receipt and expenditure of these state monies by the District is reflected in a nonmajor governmental fund for financial reporting purposes.

**NOTE 3 - ACCOUNTABILITY AND COMPLIANCE**

**A. Change in Accounting Principles**

For fiscal year 2014, the District has implemented GASB Statement No. 70, "Accounting and Financial Reporting for Nonexchange Financial Guarantees".

GASB Statement No. 70 improves the recognition, measurement, and disclosures for state and local governments that have extended or received financial guarantees that are nonexchange transactions. The implementation of GASB Statement No. 70 did not have an effect on the financial statements of the District.

**B. Deficit Fund Balances**

Fund balances at June 30, 2014 included the following individual fund deficits:

<u>Nonmajor funds</u>	<u>Deficit</u>
Straight A fund	\$ 117,050
Title I disadvantaged children	3,557
IDEA Preschool - handicapped	1,548

The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

FRANKLIN COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 4 - DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described items in (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

**CANAL WINCHESTER LOCAL SCHOOL DISTRICT  
FRANKLIN COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)**

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities resending the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

**A. Cash with Fiscal Agent**

The District is self-insured through a fiscal agent. The money held by the fiscal agent cannot be identified as an investment or deposit, since it is held in a pool made up of numerous participants. The amount held by the fiscal agent at June 30, 2014 was \$2,640,697.

**B. Deposits with Financial Institutions**

At June 30, 2014, the carrying amount of all District deposits, including \$4,250,000 in non-negotiable CDs, was \$10,903,704. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2014, \$4,751,401 of the District's bank balance of \$11,254,467 was exposed to custodial risk as discussed below, while \$6,503,066 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

*Interest Rate Risk:* As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

*Credit Risk:* Standard & Poor's has assigned STAR Ohio an AAAM money market rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The investment in FHLMC carries a rating of Aaa by Moodys and AA+ by Standard & Poor's. The U.S. government money market and negotiable CDs were not rated. The District's investment policy does not specifically address credit risk beyond requiring the District to only invest in securities authorized by State Statute.

*Custodial Credit Risk:* For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District's investment policy does not specifically address custodial credit risk beyond the adherence to all relevant sections of the Ohio Revised Code.

*Concentration of Credit Risk:* The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2014:

<u>Receivable fund</u>	<u>Payable funds</u>	<u>Amount</u>
General	Nonmajor special revenue funds	\$ 487,632

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received. All interfund balances are expected to be repaid within one year. Interfund balances between governmental funds are eliminated on the government-wide financial statements.

- B.** Interfund transfers for the fiscal year 2014 consisted of the following, as reported on the fund statements:

<u>Transfers from general fund to:</u>	<u>Amount</u>
Debt service fund	\$ 187,958

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers between governmental funds are eliminated for reporting in the statement of activities. All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 6 - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2014 represent the collection of calendar year 2013 taxes. Real property taxes received in calendar year 2014 were levied after April 1, 2013, on the assessed values as of January 1, 2013, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2014 represent the collection of calendar year 2013 taxes. Public utility real and personal property taxes received in calendar year 2014 became a lien on December 31, 2012, were levied after April 1, 2013, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Franklin and Fairfield Counties. The County Auditors periodically advance to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2014, are available to finance fiscal year 2014 operations. The amount available as an advance at June 30, 2014 was \$5,061,328 in the general fund, \$1,257,595 in the debt service fund and \$49,744 in the classroom facilities maintenance nonmajor special revenue fund. This amount is recorded as revenue. The amount available for advance at June 30, 2013 was \$4,714,126 in the general fund, \$1,211,808 in the debt service fund and \$47,707 in the classroom facilities maintenance nonmajor special revenue fund. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2014 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

**NOTE 7 - PAYMENT IN LIEU OF TAXES**

According to State law, Fairfield County has entered into agreements with property owners under which Fairfield County has granted property tax abatements to those property owners and agreed to construct certain infrastructure improvements. The property owners have agreed to make payments to Fairfield County to help pay the costs of the infrastructure improvements. The amount of those payments generally reflects all or a portion of the property taxes which the property owners would have paid if their taxes had not been abated. The property owners' contractual promise to make these payments in lieu of taxes generally continues until the costs of the improvement have been paid or the agreement expires, whichever occurs first. Future development by those owners or others may result in subsequent agreements to make payments in lieu of taxes and may therefore spread the costs of the improvements to a larger number of property owners. The District received \$258,647 in payments in lieu of taxes as a result of these agreements during fiscal year 2014 and a receivable of \$582,076 has been reported on the statement of net position.

**NOTE 8 - INCOME TAX**

The District levies a voted tax of .75 percent for general operations on the income of residents and of estates. The tax was effective on January 1, 1991, and is a continuing tax. Employers of residents are required to withhold income tax on compensation and remit the tax to the state. Taxpayers are required to file an annual return. The state makes quarterly distributions to the District after withholding amounts for administrative fees and estimated refunds. Income tax revenue credited to the general fund and as reported on the statement of activities totaled \$3,804,665 and \$3,668,255, respectively, in fiscal year 2014.

**NOTE 9 - RECEIVABLES**

Receivables at June 30, 2014 consisted of taxes, payments in lieu of taxes, accounts (billings for user charged services and student fees), intergovernmental grants and entitlements and accrued interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds.

A summary of the principal items of receivables reported on the statement of net position follows:

**Governmental activities:**

Property taxes	\$ 20,909,652

**NOTE 11 - CAPITALIZED LEASES - LESSEE DISCLOSURE**

During fiscal year 2014 and in prior fiscal years, the District entered into capitalized leases for copier equipment. The lease agreements meet the criteria of a capital lease as defined by GASB, which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments are reflected as debt service expenditures in the financial statements for the governmental funds.

Capital lease payments are reflected as debt service expenditures in the financial statements for the governmental funds and in the budgetary statements. At June 30, 2014, the capital assets acquired by the capital lease obligations outstanding at fiscal year-end have been capitalized in the amount of \$306,212, which represents the present value of the future minimum lease payments at the time of acquisition. Accumulated depreciation as of June 30, 2014 was \$125,771, leaving a current book value of \$180,441.

A corresponding liability is recorded in the statement of net position. Principal and interest payments in fiscal year 2014 totaled \$68,497 and \$14,929, respectively, in the general fund.

**NOTE 12 - LEASE-PURCHASE AGREEMENT - LESSEE DISCLOSURE**

During fiscal year 2007, the District entered into a lease-purchase agreement with All Points Public Funding, LLC. The lease meets the criteria of a lease-purchase as defined by GASB, which defines a lease-purchase generally as one which transfers benefits and risks of ownership to the lessee. This lease was used to construct school district facilities, improvements to facilities, and equip the facilities with furniture and equipment. At June 30, 2014, capital assets acquired by lease purchase have been capitalized under buildings and improvements in the amount of \$1,073,171. Accumulated depreciation as of June 30, 2014 was \$75,279, leaving a current book value of \$997,892. Lease-purchase payments have been reflected as debt service expenditures in the general fund. Principal and interest payments in fiscal year 2014 totaled \$46,792 and \$43,609, respectively, in the general fund.

**B. General Obligation Bonds**

The District has seven outstanding general obligation bond issues at June 30, 2014. These bonds were issued for general governmental activities, specifically; construction, and/or renovation of school buildings, and the advance refunding of previous issues. These general obligation bonds are direct obligations of the district for which its full faith, credit, and resources are pledged and payable from taxes levied on all taxable property in the school district. Accordingly, such unmatured obligations of the District are accounted for in the statement of net position. Payments of principal and interest relating to these bonds are recorded as expenditures in the District's debt service fund.

**NOTE 13 - LONG-TERM OBLIGATIONS - (Continued)**

*Series 1998-B General Obligation Bonds*

On April 1, 1998, the District issued current interest general obligation bonds to finance the construction and equipping of a new elementary school and improving the site thereof. The issue is made up of current interest bonds, bears an interest rate of 5.300 percent and matures on December 1, 2025. On April 14, 2005, the District issued \$3,055,000 (Series 2005A Refunding Bonds) to advance refund the callable portion of the bonds. On March 27, 2007, the District advance refunded an additional \$7,150,000 (Series 2007 Refunding Bonds) of the callable portion of the bonds. The final principal and interest payments on the balance of the Series 1998-B General Obligation were made during fiscal year 2014. The balance of the refunded bonds at June 30, 2014, is \$6,365,000. FOR THE FISCAL YEAR ENDED JUNE 30, 2014

**NOTE 13 - LONG-TERM OBLIGATIONS - (Continued)**

**F. Legal Debt Margin**

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9 percent of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1 percent of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1 percent of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations.

The Ohio Revised Code further provides that when a board of education declares a resolution that the student population is not adequately served by existing facilities, and that insufficient capacity exists within the 9 percent limit to finance additional facilities, the State Department of Education may declare that district a "special needs" district. This permits the incurrence of additional debt based upon projected 5-year growth of the school district's assessed valuation. The Canal Winchester Local School District was determined to be a "special needs" district by the State Superintendent on October 14, 2004.

**NOTE 14 - COMPENSATED ABSENCES**

The criteria for determining vested vacation and sick leave components are derived from negotiated agreements and State laws. Only administrative and support personnel who are under a full year contract (11 and 12 months) are eligible for vacation time. The administrators accumulate vacation based upon the following schedule:

<u>Eleven Month Administrators</u>		<u>Twelve Month Administrators</u>	
Years Service	Vacation Days	Years Service	Vacation Days
0 - 15	15	0 - 15	20
16 - beyond	20	16 - beyond	25

Up to a total of thirty-five days may be carried over per year without Board approval. Additional days carried over require Board approval.

Classified employees earn ten to twenty days of vacation per year, depending upon length of service. Up to a total of twenty days may be carried over per year without Board approval. Additional days carried over require Board approval.

The classified personnel accumulate vacation based on the following schedule:

Years of Service	Vacation Days
0 - 5	10
6 - 10	12
11 - 15	15
16 - beyond	20

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 14 - COMPENSATED ABSENCES - (Continued)**

Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment.

Each employee earns sick leave at the rate of one and one-fourth days per month. Sick leave shall accumulate during active employment on a continuous year-to-year basis. Maximum sick leave accumulation for all employees is 250 days.

For all employees, retirement severance is paid to each employee retiring from the District at a per diem rate of the annual salary at the time of retirement if the employee has been employed by the District for a minimum of ten consecutive years at the time of retirement. Any employee receiving retirement severance pay shall be entitled to a dollar amount equivalent to one-fourth of all accumulated sick leave credited to that employee up to forty-five days. Compensated absences are primarily paid from the general fund.

For certified and classified employees, separation severance is paid to each employee upon resignation from the District at a per diem rate of the annual salary at the time of resignation if the employee has been employed by the District for a minimum of fifteen consecutive years at the time of resignation

**NOTE 15 - RISK MANAGEMENT**

**A. Property and Liability**

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to the employees and natural disasters. During fiscal year 2014, the District has contracted with commercial carriers for property and general liability insurance.

The District maintains replacement cost insurance on buildings and contents of \$107,434,472. General liability insurance is maintained in the amount of \$6,000,000 for each occurrence and \$6,000,000 in the aggregate. The District maintains fleet insurance in the amount of \$6,000,000 for any one accident or loss and \$6,000,000 in the aggregate.

Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in insurance coverage from the prior year.

**B. Workers' Compensation**

For the period July 1, 2013 through December 31, 2013, the District participated in the SchoolComp Group Retrospective Rating Program (Group Retro). The intent of the Group Retro is to reward participants that are able to keep their individual claim costs below a predetermined amount. The District continues to pay their individual premium; however, the District will have the opportunity to receive retrospective premium adjustments (refunds or assessments) at the end of the three evaluation periods. The group's retrospective premium will be calculated at 12, 24, and 36 months after the end of the policy year. At the end of each period, the Bureau of Workers Comp (BWC) will take a snapshot of the incurred claims losses for the entire group and calculate the group's retrospective premium. If the retrospective premium that is calculated is less than the group's total standard premium, all the participants will receive a refund. However, if the retrospective premium is greater than the group's total standard premium, an assessment will be levied by the BWC. CompManagement, Inc. provides administrative, cost control and actuarial services to the Group Retro program.

**NOTE 15 - RISK MANAGEMENT - (Continued)**

For calendar year 2014, the District is participating in a Workers' Compensation Group Rating Plan (GRP). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating districts is calculated as one experience and a common premium rate is applied to all districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. Participation in the GRP is limited to districts that can meet the GRP's selection criteria. The firm of CompManagement, Inc. provides administrative, cost control and actuarial services to the GRP.

**C. Health Insurance**

The District is a member of the South Central Ohio Insurance Consortium (SCOIC), an insurance purchasing pool. SCOIC is a risk sharing, claims servicing, and insurance purchasing pool for medical, dental, and prescription drug coverage on a self-insured basis. SCOIC contracts with Employees Benefits Management Corporation (EBMC) to service the claims of SCOIC members. The SCOIC members are considered self-insured and pay a monthly premium that is actuarially calculated based on the participants' actual claims experience which are utilized for the payment of claims within the claims servicing pool up to the self-insurance deductible limit; and for this portion of the plan, all plan participants retain their own risk. An additional fee is paid for participation in the internal pool that is based on claims of the internal pool in aggregate and is not based on individual claims experience. In the event of a deficiency in the internal pool, participants would be charged a higher rate for participations, and in the event of a surplus, the internal pool pays a dividend to the participants.

SCOIC members participated in the shared risk pool through the Jefferson Health Plan from \$100,000 to \$500,000. SCOIC members were then covered under stop loss coverage for claims over \$500,000. In the event that the District would withdraw from SCOIC, the District would be required to give 180 day notice prior to the end of their three year contract, be responsible for all run-out claims, and would have no rights to share any surplus funds of SCOIC. SCOIC will be staying with Jefferson Health Plan for stop-loss insurance through May 31, 2016.

A summary of changes in self-insurance claims for the fiscal years ended June 30, 2014 and June 30, 2013:

**NOTE 16 - PENSION PLANS**

**A. School Employees Retirement System**

Plan Description - The District contributes to the School Employees Retirement System (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement, disability, survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, [www.ohsers.org](http://www.ohsers.org), under "*Employers/Audit Resources*".

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2014, 13.05 percent and 0.05 percent of annual covered salary was the portion used to fund pension obligations and death benefits, respectively. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 14 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The District's required contributions for pension obligations and death benefits to SERS for the fiscal years ended June 30, 2014, 2013 and 2012 were \$525,021, \$516,579 and \$552,666, respectively; 100 percent has been contributed for fiscal years 2014, 2013 and 2012.

**B. State Teachers Retirement System of Ohio**

Plan Description - The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio website at [www.strsoh.org](http://www.strsoh.org), under "*Publications*".

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 16 - PENSION PLANS - (Continued)**

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For fiscal year 2014, plan members were required to contribute 11 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 14 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2014, 2013 and 2012 were \$2,018,581, \$1,981,349 and \$1,917,062, respectively; 83.10 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013 and 2012. Contributions to the DC and Combined Plans for fiscal year 2014 were \$109,227 made by the District and \$85,821 made by the plan members.

**C. Social Security System**

Effective July 1, 1991, all employees not otherwise covered by the SERS/STRS Ohio have an option to choose Social Security or the SERS/STRS Ohio. As of June 30, 2014 certain members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

**NOTE 17 - POSTEMPLOYMENT BENEFITS**

**A. School Employees Retirement System**

Plan Description - The District participates in two cost-sharing, multiple employer postemployment benefit plans administered by the School Employees Retirement System (SERS) for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Section 3309.69 of the Ohio Revised Code. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B monthly premium for calendar year 2014 was \$104.90 for most participants, but could be as high as \$335.70 per month depending on their income and the SERS' reimbursement to retirees was \$45.50. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, [www.ohsers.org](http://www.ohsers.org), under "Employers/Audit Resources".

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 17 - POSTEMPLOYMENT BENEFITS - (Continued)**

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For 2014, 0.14 percent of covered payroll was allocated to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the statewide SERS-covered payroll for the health care surcharge. For fiscal year 2014, the actuarially determined amount was \$20,250.

Active members do not contribute to the postemployment benefit plans. The Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care (including surcharge) for the fiscal years ended June 30, 2014, 2013 and 2012 were \$76,126, \$68,745 and \$89,408, respectively; 100 percent has been contributed for fiscal years 2014, 2013 and 2012.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For fiscal year 2014, this actuarially required allocation was 0.76 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2014, 2013, and 2012 were \$30,459, \$29,181 and \$32,638, respectively; 100 percent has been contributed for fiscal years 2014, 2013 and 2012.

**B. State Teachers Retirement System of Ohio**

Plan Description - The District contributes to the cost sharing, multiple employer defined benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting [www.strsoh.org](http://www.strsoh.org), under "Publications" or by calling (888) 227-7877.

Funding Policy - Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2014, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2014, 2013 and 2012 were \$155,275, \$152,411 and \$147,466, respectively; 83.10 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013 and 2012.

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

**NOTE 18 - BUDGETARY BASIS OF ACCOUNTING**

While reporting financial position, results of operations, and changes in fund balance on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis); and,
- (e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

**Net Change in Fund Balance**

	<u>General fund</u>
Budget basis	\$ 2,996,843
Net adjustment for revenue accruals	445,780
Net adjustment for expenditure accruals	(291,676)
Net adjustment for other sources/uses	375,123
Funds budgeted elsewhere *	53,831
Adjustment for encumbrances	746,091
GAAP basis	<u>\$ 4,325,992</u>

\*Certain funds that are legally budgeted in separate special revenue and agency funds are considered part of the general fund on a GAAP basis. This includes the public school support fund and district agency retirement fund.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

**NOTE 19 - CONTINGENCIES**

**A. Grants**

The District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. This also encompasses the Auditor of State's ongoing review of student attendance data; however, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2014, if applicable, cannot be determined at this time.

**B. Litigation**

The District is involved in no pending litigation that would have a material effect on the financial condition of the District.

**NOTE 20 - SET-ASIDES**

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

	<u>Capital Improvements</u>
Set-aside balance June 30, 2013	\$ -

**NOTE 21 - OTHER COMMITMENTS**

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At fiscal year end, the District's commitments for encumbrances in the governmental funds were as follows:

<u>Fund</u>	<u>Fiscal Year-End Encumbrances</u>
General fund	\$ 575,507
Other governmental	<u>350,683</u>
Total	<u>\$ 926,190</u>

**NOTE 22 - SIGNIFICANT SUBSEQUENT EVENTS**

On September 15, 2014, the Board of Education authorized the issuance of notes, not to exceed the amount of \$850,000, for the purpose of acquiring school buses. On September 19, 2014, the District passed a resolution authorizing the purchase of three passenger school buses in the amount of \$240,699. On September 23, 2014, the District passed a resolution authorizing the purchase of six additional passenger school buses in the amount of \$481,398 and one handicap bus with a wheelchair lift in the amount of \$91,362.

**FUND DESCRIPTIONS - MAJOR FUNDS**

**General Fund**

The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio. The general funds's activities include, but are not limited to, general instruction, pupil services, operation and maintenance of facilities, student transportation and administration.

Since there is only one general fund and the legal level of budgetary control is not greater than that presented in the basic financial statements, no additional financial statements are presented here.

**Debt Service Fund**

A fund used to account for the accumulation of resources and payment of general obligation bond principal and interest and certain long-term obligations from governmental resources when the government is obligated in some manner for payment. It is also used to account for the accumulation of resources and payment of general obligation bonds payable, as required by Ohio Law.

**Note:** Ohio Bond Law sets a limit of 9% for voted debt and 1/10 of 1% for unvoted debt. House Bill 530 became effective on March 30, 2006, which excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations.

**(A)** On March 28, 1996, the District was determined to be a "special needs" district, meaning the was permitted to exceed the voted debt limitation. This status was confirmed on October 14, 2004.

Voted Debt Margins are determined without reference to applicable monies in the District's debt service fund.
