CLEARVIEW LOCAL SCHOOL DISTRICT LORAIN COUNTY, OHIO

AUDIT REPORT

For the Year Ended June 30, 2016

Dave Yost • Auditor of State

Board of Education Clearview Local School District 4700 Broadway Ave. Lorain, Ohio 44052

We have reviewed the *Independent Auditor's Report* of the Clearview Local School District, Lorain County, prepared by Charles E. Harris & Associates, Inc., for the audit period July 1, 2015 through June 30, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Clearview Local School District is responsible for compliance with these laws and regulations.

INDEPENDENT AUDITOR'S REPORT

Clearview Local School District Lorain County 4700 Broadway Avenue Lorain, Ohio 44052

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying cash-basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Clearview Local School District, Lorain County, Ohio (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with the cash accounting basis Note 2 describes. This responsibility includes determining that the cash accounting basis is acceptable for the circumstances. Management is also responsible for designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Clearview Local School District, Lorain County, Ohio, as of June 30, 2016, and the respective changes in cash financial position and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting basis described in Note 2.

Clearview Local School District Lorain County Independent Auditor's Report Page 2

Accounting Basis

Ohio Administrative Code § 117-2-03(B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. We draw attention to Note 2 of the financial statements, which describes the basis applied to these statements. The financial statements are prepared on the cash basis of accounting, which is a basis other than generally accepted accounting principles. We did not modify our opinion regarding this matter.

Other Matters

Supplemental Information

Our audit was conducted to opine on the financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

We applied no procedures to Management's Discussion & Analysis as listed in the table of contents. Accordingly, we express no opinion or any other assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 26, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Charles Having Association

Charles E. Harris & Associates, Inc. November 26, 2016

This discussion and analysis of the Clearview Local School District's (the School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2016, within the limitations of cash basis accounting. Readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

Financial Highlights

Key highlights for 2016 are as follows:

In total, net position increased \$3,102,369 or a 184.4% change from the prior fiscal year. The School District's general receipts are primarily property taxes and unrestricted state entitlements, which make up 69.6% of the total cash received. Dependence on these two revenue sources is significant.

Using the Basic Financial Statements

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the School District's cash basis of accounting.

Report Components

The statement of net position and the statement of activities provide information about the cash activities of the School District as a whole.

Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the School District as a way to segregate money whose use is restricted to a particular specified purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the financial statements are an integral part of the government-wide and fund financial statements and provide explanation and detail regarding the information reported in the statements.

Basis of Accounting

The basis of accounting is a set of guidelines that determine when financial events are recorded. The School District has elected to present its financial statements on a cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Under the School District's cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the cash basis of accounting.

Reporting the School District As A Whole

The statement of net position and the statement of activities reflect how the School District did financially during 2016, within the limitations of cash basis accounting. The statement of net position presents the cash balances of the governmental activities of the School District at fiscal year end. The statement of activities compares cash disbursements with program receipts for each function or program of the School District's governmental activities. A function is a group of related activities designed to accomplish a major service or regulatory program for which the School District is responsible. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function draws from the School District's general receipts.

These statements report the School District's cash position and the changes in cash position. Keeping in mind the limitations of the cash basis of accounting, you can think of these changes as one way to measure the School District's financial health. Over time, increases or decreases in the School District's cash position is one indicator of whether the School District's financial health is improving or deteriorating When evaluating the School District's financial condition, you should also consider other nonfinancial factors such as the School District's property tax base, the condition of the School District's capital assets and infrastructure, the extent of the School District's debt obligations, the reliance on non-local financial resources for operations and the need for continued growth in the major local revenue sources such as property taxes.

In the statement of net position and the statement of activities, all of the School District activities are presented as governmental activities. All of the School District's programs and services are reported here including instruction, support services, non-instructional services, food services, extracurricular activities, and capital outlay disbursements.

Reporting the School District's Most Significant Funds

Fund financial statements provide detailed information about the School District's major funds – not the School District as a whole. The School District establishes separate funds to better manage its many activities and to help demonstrate that money that is restricted as to how it may be used is being spent for the intended purpose. The funds of the School District are split into two categories: governmental and fiduciary.

Governmental Funds – All of the School District's activities are reported in governmental funds. The governmental fund financial statements provide a detailed view of the School District's governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent to finance the School District's programs.

The School District's significant governmental funds are presented on the financial statements in separate columns. The information for non-major funds (funds whose activity or balances are not large enough to warrant separate reporting) is combined and presented in total in a single column. The School District's major governmental fund is the General Fund.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources of these funds are not available to support the School District's programs.

The School District as a Whole

Table 1 provides a comparison of the School District's net position for fiscal year 2016 with fiscal year 2015:

Table 1

A	2016	2015
Assets	• • • • • • • • •	* 4 000 4 7 0
Equity in pooled cash	\$ 4,784,545	\$ 1,682,176
Total assets	4,784,545	1,682,176
Net position

Program receipts represent only 30.1% in fiscal year 2016 and 32.5% in fiscal year 2015 of total receipts and are primarily represented by restricted intergovernmental receipts, charges for tuition and fees, extracurricular activities, and food service sales. General receipts represent 69.9% of total receipts in fiscal year 2016 and 67.5% in fiscal year 2015, and of this amount, 77.1% for fiscal year 2016 and 74.6% for fiscal year 2015 is the result of unrestricted grants and entitlements, which primarily represents State foundation resources. Property taxes make up 22.4% in fiscal year 2016 and 24.5% in fiscal year 2015 of the School District's general receipts. Other receipts are very insignificant and somewhat unpredictable revenue sources.

The major program disbursements for governmental activities are for instruction, which accounts for 60.4% of all governmental disbursements in fiscal year 2016 and 59.5% in fiscal year 2015. Other programs which support the instruction process, including pupil and instructional staff, administrative, maintenance, and pupil transportation account for approximately 28.9% of governmental disbursements in fiscal year 2015.

Governmental Activities - If you look at the Statement of Activities on page 12, you will see that the first column lists the major services provided by the School District. The next column identifies the costs of providing these services. The next two columns of the Statement of Activities entitled Program Cash Receipts identify amounts paid by people who are directly charged for the service and grants received by the School District that must be used to provide a specific service. The Net (Disbursements) column compares the program receipts to the cost of the service. This "Net Cost" amount represents the cost of the service which ends up being paid from money provided by local taxpayers. These net costs are paid from the general receipts which are presented at the bottom of the Statement. A comparison between the total cost of services and the net cost is presented in Table 3.

Total expenses	\$ 16,758,604	\$ 17,042,176	\$(10,788,456)	\$(11,229,131)

Table 3

The dependence upon property taxes and other general receipts is apparent as 64.4% in fiscal year 2016 and 65.9% in fiscal year 2015 of governmental activities are supported through these general receipts. In fiscal year 2016, 53.4% and in fiscal year 2015, 55.6% of instruction activities are supported through taxes and other general revenues. Operation of food services was primarily funded by program revenues. In fiscal year 2016 and 2015, 33.7% and 31.4%, respectively, of extracurricular activities expenses are covered by program revenues. It is apparent that the community, as a whole, is the primary support for the School District.

The School District's Funds

The School District's governmental funds are accounted for using the cash basis of accounting. Total governmental funds had receipts of \$ 19,859,779, disbursements of \$ 16,758,604 and net other financing sources and uses of \$ 1,194, resulting in an increase in fund balances of \$ 3,102,369.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2016, the School District amended its General Fund budget several times to reflect changing circumstances. Final budgeted receipts including other financing sources were budgeted at \$12,797,807 while actual receipts were \$17,083,976. The difference between final budgeted receipts and actual receipts was primarily due to lower taxes and higher intergovernmental receipts and tuition and fees being collected.

Final disbursements including other financing uses were budgeted at \$14,586,356 while actual disbursements were \$14,326,639. The School District was able to restrict spending below what was anticipated. The School District experienced lower than expected expenditures of \$168,319 and \$84,209 for instruction and support services, respectively. The School District appropriates conservatively in order to cover expenditures.

Debt Administration

Outstanding debt obligations of the School District consisted of:

	2016		2016 2015		
General obligation bonds	\$	3,312,982	\$	3,571,356	
Tax anticipation note		-		62,500	
	\$	3,312,982	\$	3,633,856	

Current Issues

The challenge for all School Districts is to provide quality education to the public while staying within the restrictions imposed by limited, and in some cases shrinking, funding. We rely heavily on local taxes and have very little industry to support the tax base. Our newly prepared financial forecast predicts a deficit for fiscal year 2020.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to reflect the School District's accountability for the monies it receives. If you have any questions about this report or need additional financial information, contact Sean Nuccio, CPA, Treasurer at Clearview Local District, 4700 Broadway Ave. Lorain, Ohio 44052.

NOTE 1 - REPORTING ENTITY

Clearview Local District (the School District) was established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The School District is a local school district as defined by Section 3311.03 of the Ohio Revised Code. The School District operates under an elected Board of Education consisting of five members and is responsible for providing public education to residents of the School District.

The School District is located in Lorain County and includes all of Sheffield Township and portions of the City of Lorain. It is staffed by 81 classified employees, 102 certified teaching personnel, and 13 administrative employees who provide services to 1,725 students and other community members. The School District currently operates three instructional buildings, one bus garage and one administrative facility.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organizations' governing board and, 1) the School District is able to significantly influence the programs or services performed or provided by the organization; or 2) the School District is legally entitled to or can otherwise access the organizations' resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provided financial support to the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes.

Blended component units, although legally separated entities are, in substance, part of the School District's operations and so data from these units are combined with data of the School District. The School District has no component units.

The School District is associated with Metropolitan Educational Technology Association (META), the Lake Erie Regional Council of Governments, the Lorain County Joint Vocational School District, and the Ohio Schools Council Association, which are considered to be jointly governed organizations. These organizations and their relationships with the School District are described in more detail in Note 15 to these financial statements.

The School District's management believes these financial statements present all activities for which the School District is financially accountable.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in the Basis of Accounting section of this note, these financial statements are presented on a cash basis of accounting. This cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. Following are the more significant of the School District's accounting policies.

A. BASIS OF PRESENTATION

The School District's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net position presents the cash balance of the governmental activities of the School District at fiscal year end. The statement of activities compares disbursements with program receipts for each function or program of the School District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the government is responsible. Program receipts include charges paid by the recipient of the program's goods or services, grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on a cash basis or draws from the School District's general receipts.

Fund Financial Statements

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. FUND ACCOUNTING

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the School District are divided into the categories of governmental and fiduciary.

Governmental Funds

The School District classifies funds financed primarily from taxes, intergovernmental receipts (e.g. grants), and other nonexchange transactions as governmental funds. The following is the School District's major fund:

<u>General Fund</u> - The General Fund accounts for and reports all financial resources not accounted for and reported in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the School District account for and report grants and other resources whose use is restricted, committed or assigned to a particular purpose.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are not available to support the School District's own programs. The School District has no trust funds. Agency funds are custodial in nature. The School District's agency funds account for various student-managed activities and unclaimed monies.

C. BASIS OF ACCOUNTING

The School District's financial statements are prepared using the cash basis of accounting. Receipts are recorded in the School District's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred. Any such modifications made by the School District are described in the appropriate section in this note.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. BUDGETARY PROCESS

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on cash disbursements plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board at the fund level for all funds.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in receipts are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts reported as the final budgeted amounts on the time final appropriations were passed by the Board.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

E. CASH AND INVESTMENTS

To improve cash management, cash received by the School District is pooled and invested. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

Investments of the School District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or negative receipts (contra revenue), respectively.

The School District's investment in the State Treasury Asset Reserve of Ohio (STAR Ohio) is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company and is recognized as an external investment pool by the School District. The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. CASH AND INVESTMENTS

For the fiscal year 2016, there were no limitation or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes. At June 30, 2016 the School District did not have deposits in STAR Ohio.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest receipts credited to the General Fund during fiscal year 2016 was \$ 2,669 which included \$ 491 assigned from other School District funds.

F. <u>RESTRICTED ASSETS</u>

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation.

G. INVENTORY AND PREPAID ITEMS

The School District reports disbursements for inventory and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

H. CAPITAL ASSETS

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

I. INTERFUND RECEIVABLES/PAYABLES

The School District reports advances-in and advances-out for interfund loans. These items are not reflected as assets and liabilities in the accompanying financial statements.

J. ACCUMULATED LEAVE

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the School District's cash basis of accounting.

K. PENSION PLANS

For purposes of measuring the net pension liability, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

L. LONG-TERM OBLIGATIONS

The School District's cash basis financial statements do not report liabilities for bonds and other long-term obligations. Proceeds of debt are reported when cash is received and principal and interest payments are reported when paid. Since recording a capital asset when entering into a capital lease is not the result of a cash transaction, neither an other financing source nor a capital outlay expenditure is reported at inception. Lease payments are reported when paid.

M. NET POSITION

Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for building maintenance.

The School District's policy is to first apply restricted resources when a cash disbursement is incurred for purposes for which both restricted and unrestricted net position are available.

N. FUND BALANCE

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

<u>Restricted</u> - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education. Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

O. INTERFUND TRANSACTIONS

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular cash disbursements to the funds that initially paid for them are not presented in the financial statements.

NOTE 3 – CHANGE IN ACCOUNTING PRINCIPLES

GASB Statement No. 72, "Fair Value Measurement and Application" The objective of this Statement is to improve financial reporting by clarifying the definition of fair value for financial reporting purposes, establishing general principles for measuring fair value, providing additional fair value application guidance, and enhancing disclosures about fair value measurements. These improvements are based in part on the concepts and definitions established in Concepts Statement No. 6, Measurement of Elements of Financial Statements, and other relevant literature. The implementation of GASB Statement No. 72 did not have an effect on the financial statement of the School District.

GASB Statement No. 73, "Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68." The principal objective of this Statement is to improve the usefulness of information for decisions made by the various users of the general purpose external financial reports (financial reports) of governments whose employees—both active employees1 and inactive employees—are provided with pensions that are not within the scope of Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended. One aspect of that objective is to provide information about the effects of pension-related transactions and other events on the elements of the basic financial statements of state and local governmental employers. This information will assist users in assessing the relationship between a government's inflows of resources and its total cost (including pension expense) of providing government services each period. Another aspect of that objective is to provide users with information about the government's pension obligations. The implementation of GASB Statement No. 73 did not have an effect on the financial statement of the School District.

GASB Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments." The objective of this Statement is to identify—in the context of the current governmental financial reporting environment—the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with generally accepted accounting principles (GAAP) and the framework for selecting those principles. The implementation of GASB Statement No. 76 did not have an effect on the financial statement of the School District.

NOTE 4 – <u>COMPLIANCE</u>

Ohio Administrative Code, Section 117-2-03 (B), requires the School District to prepare its annual financial report in accordance with generally accepted accounting principles. However, the School District prepared its financial statements on a cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The accompanying financial statements omit assets, liabilities, net position/fund balances, and disclosures that, while material, cannot be determined at this time. The School District can be fined and various other administrative remedies may be taken against the School District.

NOTE 5 - BUDGETARY BASIS OF ACCOUNTING

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budgetary Basis presented for the general fund (and each major special revenue fund) is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference between the budgetary basis and the cash basis is outstanding year end encumbrances are treated as cash disbursements (budgetary basis) rather than as assigned fund balance (cash basis). The following table summarizes the adjustments necessary to reconcile the cash basis statements to the budgetary basis statements for the General Fund.

Net Change in Fund Balance									
General									
	Fund								
Budget basis	dget basis \$ 2,757,337								
Adjustments, increase (decrease)									
Encumbrances		96,145							
Funds budgeted elsewhere **		(8,858)							
Cash basis, as reported	\$	2,844,624							

** As part of Governmental Accounting Standards Board Statement No. 54, "Fund Balance Reporting", certain funds that are legally budgeted in separate special revenue funds are considered part of the General Fund for financial statement presentation purposes. This includes the Special Trust Fund, Public School Support Fund, Uniform School Supplies Fund, and the Latchkey Fund.

NOTE 6 – DEPOSITS AND INVESTMENTS

A. LEGAL REQUIREMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts, including passbook accounts.

Interim monies may be invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2% and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Commercial paper and bankers' acceptances (if authorized by the Board of Education), and
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

NOTE 6 - DEPOSITS AND INVESTMENTS (continued)

A. LEGAL REQUIREMENTS (continued)

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

At fiscal year end, the School District had \$3,100 in cash on hand which is included on the statement assets and fund balances – cash basis of the School District as part of "Equity in pooled cash".

B. <u>DEPOSITS</u>

At fiscal year end, the carrying amount of the School District's deposits was \$4,842,747 and the bank balance was \$4,861,919. Of the bank balance, \$496,813 was covered by federal depository insurance and \$4,365,106 was uninsured. Of the remaining balance, \$4,365,106 was collateralized with securities held by the pledging institution's trust department not in the School District's name. Although the securities were held by the pledging financial institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the School District to a successful claim by the FDIC.

Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned. According to state law, public depositories must give security for all public funds on deposit in excess of those funds that are insured by the federal deposit insurance corporation (FDIC) or by any other agency or instrumentality of the federal government. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC, or may pledge a pool of government securities valued at least 105% of the total value of public monies on deposit at the institution. The School District's policy is to deposit money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

NOTE 7 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar 2016 represents collections of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed value listed as of January 1, 2015, the lien date. Assessed values for real property taxes are established by State law at 35% of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2016 represents collections of calendar year 2015 taxes. Public utility real and tangible personal property taxes received in calendar year 2016 became a lien December 31, 2014, were levied after April 1, 2015 and are collected in 2016 with real property taxes. Public utility real property is assessed at 35% of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Lorain County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2016, are available to finance fiscal year 2016 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

The assessed values upon which the fiscal year 2016 taxes were collected are:

	2015 Seco Half Collect		2016 Firs Half Collect	
	 Amount	%	Amount	%
Agricultural Residential				
Real Estate	\$ 53,118,840	66.96 %	\$ 51,998,740	66.68 %
Other Commercial	22,405,970	28.24	21,940,300	28.13
Public Utility				
Tangible Personal Property	 3,810,270	4.80	4,046,490	5.19
	\$ 79,335,080	100.00 %	\$ 77,985,530	100.00 %
Tax Rate per \$ 1,000 of Assessed Valuation:	\$ 59.97		\$ 60.91	

NOTE 8 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors, and omissions, injuries to employees and natural disasters. The District has a comprehensive property and casualty policy with the Ohio Schools Risk Authority. All board members, administrators, and employees are covered under a school district liability policy with the Ohio Schools Risk Authority. The limits of this coverage are \$ 15,000,000 per occurrence and \$ 17,000,000 aggregate. The District provides medical and life insurance to employees through commercial insurance coverage. The treasurer is covered with a surety bond for \$ 50,000. Remaining employees who handle money are covered by a commercial coverage crime policy in the amount of \$ 50,000. This coverage is provided by the Westfield Insurance Company. The District has contracted with the Lake Erie Regional Council of Governments (LERC) to provide health and medical benefits. LERC is a fully insured consortium. The District provides medical, vision and dental benefits to most employees. The premium varies with employee depending on marital status and employee classification.

For fiscal year 2016, the District participated in the Sheakley Workers' Compensation Group rating Program. The program is intended to reduce premiums for the participants. The workers' compensation experience of the participating members is calculated as one experience and a common premium rate is applied to all members in the program. Each participant pays its rate. Participation in the program is limited to members that can meet the program's selection criteria. The districts apply for participation each year. Sheakley Co. provides administrative, cost control, and actuarial services to the program. Each year the District pays an enrollment fee to the program to cover the costs of administration.

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in insurance coverage from the prior fiscal year.

NOTE 9 - LONG-TERM OBLIGATIONS

The original issue date, interest rate, original issue amount and maturity date for each of the School District's long-term obligations follows:

	Original Issue Date	Interest Rate	Original Issue Amount	Date of Maturity		
General obligation bonds						
School Improvement	1999	6.125%	\$ 3,260,000	2024		
Building construction	2001	5.280%	\$ 2,410,000	2023		
Refunding bonds	2006	4.000%	\$ 1,780,000	2024		
Refunding						
Term and serial	2011	2.90% - 3.75%	\$ 720,000	2024		
Capital appreciation	2011	3.900%	\$ 54,999	2020		

In 2006, \$ 1,780,000 of the 1999 school improvement bonds were advanced refunded.

The changes in the School District's long-term debt during fiscal year 2016 were as follows:

		Delense						Delense	A	mounts
		Balance						Balance		Due In
	June 30, 2015		Increase		Decrease		Ju	ne 30, 2016	One Year	
Bonds payable	\$	3,534,999	\$	-	\$	270,000	\$	3,264,999	\$	300,000
Accretion on capital appreciation bonds		36,357		11,626		-		47,983		-
Tax anticipation note		62,500		-		62,500		-		-
	\$	3,633,856	\$	11,626	\$	332,500	\$	3,312,982	\$	300,000

Bonds payable will be repaid from the Debt Service Fund.

NOTE 9 – LONG-TERM OBLIGATIONS (continued)

Principal and interest requirements to retire long-term obligations outstanding at June 30, 2016, were as follows:

Bonds Payable							
	Principal		Interest				
\$	300,000	\$	167,974				
	320,000		148,720				
	345,000		130,069				
	279,999		213,856				
	390,000		94,416				
	1,630,000		171,664				
\$	3,264,999	\$	926,699				
		Principal \$ 300,000 320,000 345,000 279,999 390,000 1,630,000	Principal \$ 300,000 \$ 320,000 \$ 345,000 279,999 390,000 1,630,000				

NOTE 10 - BONDS PAYABLE

Bonds payable at year end consisted of:

	Outstanding June 30, 2015 Additions Deductions		Outstanding June 30, 2016		Due within 1 year				
General obligation bonds									
School Improvement, (1999)									
6.125% through 2024	\$	985,000	\$	-	\$ -	\$	985,000	\$	165,000
Building construction, (2001)									
5.280% through 2023		515,000		-	115,000		400,000		120,000
Refunding bonds, (2006)									
4.000% through 2024		1,310,000		-	145,000		1,165,000		5,000
Refunding bonds, (2011)									
Term and serial bonds									
2.9% - 3.8% through 2024		670,000		-	10,000		660,000		10,000
Capital appreciation bonds									
3.9% - 3.8% through 2020		54,999		-	-		54,999		-
Accretion on capital appreciation bonds		36,357	_	11,626	 -		47,983	_	-
	\$	3,571,356	\$	11,626	\$ 270,000	\$	3,312,982	\$	300,000

At June 30, 2016, \$ 1,180,000 of the 1999 general obligation bonds and \$ 775,000 of the 2001 general obligation bonds are considered to be defeased.

NOTE 11 - NOTES PAYABLE

Notes payable during the year consisted of the following tax anticipation notes:

	standing 30, 2015	Addit	tions	De	ductions	anding 0, 2016
Long-term						
Tax anticpation note, 3.36%						
issued 6/30/2013, due 7/10/2015	\$ 62,500	\$	-	\$	62,500	\$ -

NOTE 12 – <u>LEASES</u>

The School District leases certain equipment under non-cancelable leases. The School District disbursed \$41,919 to pay lease costs for the fiscal year ended June 30, 2016. Future lease payments are as follows:

Year ending	
June 30,	Amount
2017	\$ 60,216
2018	60,217
2019	60,217
2020	42,615
2021	 42,615
Total	\$ 265,880

NOTE 13 - SET-ASIDE REQUIREMENTS

The School District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year end. These amounts must be carried forward and used for the same purposes in future years. The following cash basis information identifies the changes in the fund balance reserves for capital maintenance during fiscal year 2016.

	Capital		
	Maintenance		
Balance, July 1, 2015	\$	229,383	
Required set aside		295,861	
Offsetting credits		(163,224)	
Qualifying expenditures		(53,793)	
Balance June 30, 2016	\$	308,227	

The amount required by State statute to be set aside to create a reserve for capital maintenance is limited to the pooled cash balance in the General Fund.

NOTE 14 - FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

	Nonmajor					
	General		Governmental			
Fund balances		Fund		Funds		Total
Restricted for						
Debt service	\$	-	\$	291,770	\$	291,770
Food service operations		-		367,744		367,744
Extracurricular		-		39,377		39,377
State grants		-		2,700		2,700
Federal grants		-		14,865		14,865
Capital outlay		-		62,612		62,612
Other donations		-		15,196		15,196
Capital maintenance		-		169,998		169,998
Set aside for capital						
maintenance		308,227		-		308,227
Total restricted		308,227		964,262		1,272,489

	Ψ	0,020,200	Ψ	507,202	Ψ	7,707,070

NOTE 15 - JOINTLY GOVERNED ORGANIZATIONS

A. METROPOLITAN EDUCATIONAL TECHNOLOGY ASSOCIATION

The School District is a participant in Metropolitan Educational Technology Association (META) which is a computer consortium that was the result of a merger between Tri-Rivers Educational Computer Association (TRECA) and the Metropolitan Educational Council (MEC). META develops, implements and supports the technology and instructional needs of schools in a cost-effective manner. META provides instructional, core, technology and purchasing services for its member districts. The Board of Directors consists of the Superintendents from eight of the member districts. During fiscal year 2016, the School District paid META \$ 42,925 for services. Financial information can be obtained from Metropolitan Educational Technology Association, 100 Executive Drive, Marion, Ohio 43302.

NOTE 15 - JOINTLY GOVERNED ORGANIZATIONS (continued)

B. LAKE ERIE REGIONAL COUNCIL OF GOVERNMENTS (LERC)

The Lake Erie Regional Council of Governments (LERC) is a jointly governed organization among fourteen districts. The jointly governed organization was formed for the purpose of promoting cooperative agreements and activities among its members in dealing with problems of mutual concern such as a media center, gas consumption, food service and insurance. Each member provided operating resources to LERC on a per pupil or usage charge except for insurance. The LERC assembly consists of a superintendent or designated representative from each participating district and the fiscal agent. LERC is governed by a board of directors chosen from the general membership. The degree of control exercised by any participating district is limited to its representation on the board. Financial information can be obtained by contacting the Treasurer at the Educational Service Center of Lorain County, which serves as fiscal agent, located at 1885 Lake Avenue, Elyria, Ohio 44035. During the year ended June 30, 2016, the School District paid \$ 1,664,508 to LERC.

C. LORAIN COUNTY JOINT VOCATIONAL SCHOOL DISTRICT

The Lorain County Joint Vocational School District is a separate body politic and corporate, established by the Ohio Revised Code to provide vocational and special education needs of the students. The Board of the Lorain County Joint Vocational School District is comprised of representatives from each participating school district and is responsible for approving its own budgets, appointing personnel, accounting, and financing related activities.

Each School District's control is limited to its representation on the Board. The Clearview Local School District's students may attend the Lorain County Joint Vocational School District. Financial information can be obtained by contacting the Lorain County Joint Vocational School District, 15181 State Route 58, Oberlin, Ohio 44074.

D. OHIO SCHOOLS COUNCIL

The Ohio Schools Council (Council) is a jointly governed organization among 196 school districts. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member's superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board is the policy making authority of the Council. The Board meets monthly September to June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. Financial information can be obtained by contacting the Executive Director at the Ohio Schools Council at 6393 Oak Tree Blvd., Suite 377, Independence, Ohio 44131.

The School District participates in the natural gas purchase program. This program allows the School District to purchase natural gas at reduced rates. Compass Energy has been selected as the supplier and program manager. There are currently 151 participants in the program. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing. During the year ended June 30, 2016, the School District paid \$ 36,762 to the Ohio Schools Council.

NOTE 16 - INTERFUND TRANSFERS AND ADVANCES

Interfund transfers during the year ended June 30, 2016 consisted of the following:

	Transfer from:		
	Gen	eral Fund	
Transfer to:			
Nonmajor governmental funds	\$	65,621	

Interfund transfers to the nonmajor governmental funds were made for debt service principal and interest payments.

Interfund advances during the year ended June 30, 2016 consisted of the following:

	Advance from:					
	Nonmajor					
			Gove	ernmental		
	Gen	eral Fund		Funds		Total
Advance to:						
General Fund	\$	-	\$	10,450	\$	10,450
Nonmajor governmental funds		22,440		-		22,440
	\$	22,440	\$	10,450	\$	32,890

NOTE 17 - DEFINED BENEFIT PENSION PLANS

A. <u>NET PENSION LIABILITY</u>

Pensions are a component of exchange transactions--between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension liability represents the School District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

B PLAN DESCRIPTION - SCHOOL EMPLOYEES RETIREMENT SYSTEM (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multipleemployer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <u>www.ohsers.org</u> under Employers/Audit Resources.

NOTE 17 - DEFINED BENEFIT PENSION PLANS (continued)

B PLAN DESCRIPTION - SCHOOL EMPLOYEES RETIREMENT SYSTEM (SERS) (continued)

Age and service requirements for retirement are as follows:

	Eligible to retire on or before	Eligible to retire on or after
	August 1, 2017*	August 1, 2017*
Full benefits	Any age with 30 years if service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially reduced benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017 will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 14 percent. None of the employer contribution rate was allocated to the Health Care Fund.

The School District's contractually required contribution to SERS was \$ 245,402 for fiscal year 2016.

C. PLAN DESCRIPTION - STATE TEACHERS RETIREMENT SYSTEM (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

NOTE 17 - DEFINED BENEFIT PENSION PLANS (continued)

C. PLAN DESCRIPTION - STATE TEACHERS RETIREMENT SYSTEM (STRS) (continued)

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five year of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five year of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was \$ 950,215 for fiscal year 2016.

NOTE 17 - DEFINED BENEFIT PENSION PLANS (continued)

D. NET PENSION LIABILITY

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share:

	SERS	STRS	Total
Proportionate share of the net pension liability	\$ 3,763,000	\$ 18,087,753	\$ 21,850,753
Proportion of the net pension liability	0.065947%	0.065447%	

E. ACTUARIAL ASSUMPTIONS - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage inflation Future salary increases, including inflation COLA or Ad Hoc COLA Investment rate of return Actuarial cost method 3.25 percent 4.00 percent to 22 percent 3 percent 7.75 percent of net of investments expense, including inflation Early age normal

NOTE 17 - DEFINED BENEFIT PENSION PLANS (continued)

E. ACTUARIAL ASSUMPTIONS - SERS (continued)

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a buildingblock approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00%	0.00%
US Stocks	22.50%	5.00%
Non-US Stocks	22.50%	5.50%
Fixed Income	19.00%	1.50%
Private Equity	10.00%	10.00%
Real Assets	10.00%	5.00%
Multi-Asset Strategy	15.00%	7.50%
Total	100.00%	

<u>Discount Rate</u> - The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

NOTE 17 - DEFINED BENEFIT PENSION PLANS (continued)

E. <u>ACTUARIAL ASSUMPTIONS – SERS</u> (continued)

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	Current					
	1% Decrease		Dis	scount Rate	19	% Increase

of the net pension liability	\$	5,217,928	\$	3,763,000	\$	2,537,830

F. ACTUARIAL ASSUMPTIONS - STRS

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment rate of return	7.75 percent, net of investment expenses
Cost-of-living adjustments	2 percent simple applied as follows: for members retiring before
(COLA)	August 1, 2013. 2 percent per year; for members retiring August 1, 2013,
	or later, 2 percent COLA commencing on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

NOTE 17 - DEFINED BENEFIT PENSION PLANS (continued)

F. <u>ACTUARIAL ASSUMPTIONS – STRS</u> (continued)

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

	Target	10 Year Expected
Asset Class	Allocation	Real Rate of Return *
Domestic equity	31.00%	8.00%
International equity	26.00%	7.85%
Alternatives	14.00%	8.00%
Fixed income	18.00%	3.75%
Real estate	10.00%	6.75%
Liquidity reserves	1.00%	3.00%
Total	100.00%	

<u>Discount Rate</u> - The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

<u>Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u> - The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	Current					
	1% Decrease		Discount Rate		1% Increase	
		(6.75%)		(7.75%)		(8.75%)
School District's proprotionate share						
of the net pension liability	\$	25,125,253	\$	18,087,753	\$	12,136,497

NOTE 18 - POSTEMPLOYMENT BENEFITS

A. SCHOOL EMPLOYEE RETIREMENT SYSTEM

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2016, none of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2016, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the District's surcharge obligation was \$34,696.

The District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$34,696, \$19,992, and \$19,224, respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

NOTE 18 - POSTEMPLOYMENT BENEFITS (continued)

B. STATE TEACHERS RETIREMENT SYSTEM

Plan Description – The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2016, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$ 0, \$ 0, and \$ 70,479 respectively. The full amount has been contributed for fiscal years 2016, 2015, and 2014.

NOTE 19 - CONTINGENCIES

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies.

Any disallowed claims resulting from such audits could become the responsibility of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2016.

NOTE 20 – CONTRACTUAL COMMITMENTS

At June 30, 2016 the School District had contractual commitments of \$ 91,335 for an asphalt repair and replacement project.

NOTE 21 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date that the financial statements were available to be issued.

CLEARVIEW LOCAL SCHOOL DISTRICT LORAIN COUNTY

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED JUNE 30, 2016

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Clearview Local School District (the District) under programs of the federal government for the year ended June 30, 2016. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in, as applicable, either [1] the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments* (codified in 2 CFR Part 225), or [2] Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE D – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE E - TRANSFERS BETWEEN PROGRAM YEARS

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The District transferred the following amounts from 2015 to 2016 programs:

Program Title	<u>CFDA</u> Number	 <u>Amount</u> Transferred	
Title II A	84.367	\$ 2,587

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Clearview Local School District Lorain County 4700 Broadway Avenue Lorain, Ohio 44052

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Clearview Local School District, Lorain County, (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 26, 2016, wherein we noted that District uses a special purpose framework other than generally accepted accounting principles.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matter that we must report under *Government Auditing Standards*, which is described in the accompanying schedule of findings as item 2016-001.

Clearview Local School District Lorain County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

District's Response to Finding

The District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER <u>COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE</u>

Clearview Local School District Lorain County 4700 Broadway Avenue Lorain, Ohio 44052

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited the Clearview Local School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the District's major federal program for the year ended June 30, 2016. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, the Clearview Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2016.

Clearview Local School District Lorain County Independent Auditor's Report on Compliance with Requirements Applicable to the Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance Page 2

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on the major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

1. SUMMARY OF AUDITOR'S RESULTS

CLEARVIEW LOCAL SCHOOL DISTRICT LORAIN COUNTY

SCHEDULE OF FINDINGS 2 CFR § 200.515 JUNE 30, 2016

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2016-001

Noncompliance

Ohio Rev. Code Section 117.38 provides that each public office shall file a financial report for each fiscal year. The Auditor of State may prescribe forms by rule or may issue guidelines, or both, for such reports. If the Auditor of State has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office.

Ohio Administrative. Code Section 117-2-03(B) requires the District to prepare its annual financial report in accordance with generally accepted accounting principles. Pursuant to Ohio Rev. Code Section 117.38, the School District may be fined and subject to various other administrative remedies for its failure to file the required financial report.

The District did not report the financial activity of the District in accordance with generally accepted accounting principles for fiscal year ending June 30, 2016. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time.

The Board of Education should review the standards and ensure preparation of its financial statements in accordance with AICPA's Audit and Accounting Guide Audits of State and Local Governments. The Board of Education should ensure the financial statements are prepared in accordance with the Ohio Administrative Code and the Ohio Revised Code. Implementation of these procedures would help ensure accurate and timely financial statements are available to the District's community.
