**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE YEAR ENDED JUNE 30, 2016**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Fairview Park City School District (the District's) under programs of the federal government for the year ended June 30, 2016. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments* (codified in 2 CFR Part 225), or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimus indirect cost rate as allowed under the Uniform Guidance.

NOTE C – CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE D – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE E – TRANSFERS BETWEEN PROGRAM YEARS

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The District transferred the following amounts from 2015 to 2016 programs:

<u>PROGRAM TITLE</u>	<u>CFDA NUMBER</u>	<u>AMT. TRANSFERRED</u>
Title I Grants to Local Educational Agencies	84.010	\$56,634
Special Education – Grants to States	84.027	\$55,069

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Fairview Park City School District
Cuyahoga County
21620 Mastick Road
Fairview Park, Ohio 44126

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Fairview Park City School District, Cuyahoga County, Ohio (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 27, 2016.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE, AND THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Fairview Park City School District
Cuyahoga County
21620 Mastick Road
Fairview Park, Ohio 44126

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited the Fairview Park City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Fairview Park City School District's major federal program for the year ended June 30, 2016. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, the Fairview Park City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2016.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Fairview Park City School District, Cuyahoga County, Ohio (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 27, 2016. We conducted our audit to opine on the District's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Board of Education Members and
Residents of the Fairview Park City School District

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Fairview Park City School District (the "District") for the fiscal year ended June 30, 2016. This CAFR includes an opinion from the State of Ohio Auditor and conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rest with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. This report will provide the taxpayers of the District with comprehensive financial data in a format which will enable them to gain an understanding of the District's financial affairs.

The Reporting Entity

The District has reviewed its reporting entity definition in order to ensure conformance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34". In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments and organizations making up the Fairview Park City School District (the primary government) and its potential component units. The District has no component units.

The District is associated with one insurance purchasing pool and three jointly governed organizations. The Great Lakes Regional Council of Governments is an insurance purchasing pool that deals with medical, dental and life insurance benefits. Connect, the Ohio Schools' Council Association and the Polaris Career Center are jointly governed organizations. The District's relationship with these organizations is described in Note 1 to the basic financial statements. A complete discussion of the District's reporting entity is provided in Note 1 to the basic financial statements.

Profile and Organizational Structure

The District covers approximately 4.77 square miles and is located approximately 10 miles west of downtown Cleveland, Ohio. The District provides education to 1,845 students in grades kindergarten through twelfth. The District provides general education, special education and vocational type academic programs. The District's enrollment has remained relatively flat over the last several years and is projected to slightly increase in the foreseeable future.

Statutorily, the District operates under the standard prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 of the Ohio Revised Code, to provide educational services prescribed by State and Federal agencies. The Board of Education is made up of five members elected at large, for overlapping four-year terms. The Board of Education elects its President and Vice President annually, and appoints two officials: the Superintendent, who serves as the Chief Executive Officer (CEO), and the Treasurer, who serves as the Chief Financial Officer (CFO).

MISSION STATEMENT

The Fairview Park City Schools are committed to provide superior services and academic programs that challenge the mind and instill the joy of lifelong learning and responsible citizenship.

Local Economy and Relevant Financial Policies

There has been stable commercial/business growth during 2016 with some new openings, but also closings of existing establishments. In the past year, the following new businesses have opened in the City of Fairview Park:

HR Hospitality Restaurants	Gold Fish Swim School
Dollar Tree	Sauced Wood Fire Pizza
Diamanti Salon	Paint Your Own Pottery
East Coast Custard	

While economic development is good for the community as a whole, including the District, the benefits to the local District are not as great as one might imagine. The City of Fairview Park has a tax abatement program for which applicants can receive tax exemptions up to 100 percent on any remodeling or new construction for up to seven years. The school districts are not involved in the decision making of the abatement process. The school districts do receive additional revenue when the land value increases, but not on the land improvements (i.e. new buildings) until the abatement period expires.

The Cuyahoga County Fiscal Office property re-appraisal was completed in CY12, which caused in the district's Class I – residential real estate property values to be reduced by 3.97%. Furthermore, the district's Class II property value decreased in values by 2.21% from the previous year. Due to the improvement in the housing market in Northeast Ohio and across the country, the district has included a slight increase of .035% for CY14 and .35% the CY15 County triennial update and an additional increase of 2% in property values for the CY18 County property re-appraisal. The district will monitor the "Residential Median Market to Price Ratio" data published by the Ohio Department of Taxation [O.D.T.] on an annual basis to determine if these projections need to be adjusted should the data fluctuate. The 2015 valuation data for residential range in Fairview Park from 3-15% increases based on a neighborhood map.

Annually, the District prepares a five-year financial forecast. The financial forecast is the foundation for the District's operations and is used as a financial planning tool to assist the District in determining its ability to meet certain financial obligations and plan future funding needs. The forecast shows revenue and expenditures for the general operating fund for the past three fiscal years and projects revenue and expenditures for the ensuing five-year period. Through a collaborative process, the administration assists the Board of Education in determining and prioritizing the needs of the District. In accordance with State law, the Board of Education approves the financial forecast and submits it to the Ohio Department of Education prior to October 31 and reviews it again prior to May 31.

The funding structure of public education in Ohio is such that school districts receive very little revenue growth as a result of inflationary increases in their tax base. This is a result of House Bill 920, which mandates that any reappraised property increase results in an approximately equal value decrease in millage. As a result, school districts throughout Ohio must place operating funding issues on the ballot at regular intervals to keep pace with inflation and added programming.

Beginning in FY2017, the per pupil funding amounts are increased from the FY2016 level of \$5,900 to \$6,000. However, the table below illustrates how with the application of the State Share %, Fairview Park actually will be receiving only \$53 additional per pupil than the prior year. New funding components have been added to target Wealth Based factors, Agricultural Assistance, Transportation Supplement and Capacity Funding based on comparisons of local data to State established benchmarks. Fairview Park City Schools does not qualify for any of the above listed components.

Additionally, the real property tax system in Ohio does not permit school districts to receive additional tax revenue solely as a result of reassessment or reappraisal. Consequently, the primary means of increasing revenue for the District is through additional operating levies or through the passage of a School District Income Tax. Historically, the District has been forced to go back to the taxpayers, on average, once every three years for new money. With careful, fiscal planning and management's ability to offset increases in cost with cost saving initiatives, the Board of Education has expanded the cycle to a minimum of ten years.

MISSION STATEMENT

The Fairview Park City Schools are committed to provide superior services and academic programs that challenge the mind and instill the joy of lifelong learning and responsible citizenship.

Major Initiatives

The District continues to be committed to providing “superior services and academic programs that challenge the mind and instill the joy of lifelong learning and responsible citizenship” as stated in the mission statement. The District’s goals for fiscal year 2016 were as follows:

- Provide first class facilities, which entail the best possible learning environments to the students and residents of the Fairview Park City School District. A committee screened qualifications for design and master planning service to determine ongoing facility needs during FY15 and FY16. With input for the community to the committee’s recommendation in May, 2016, the board approved a master plan estimated at \$32.5 million. There are three components to the plan: \$10 million Certificate of Participation (COPs) funding to be repaid from current cash reserves. The current district facilities include:

Classroom Building Facility	Year Construction/Improvement	Number of Classrooms
Fairview Park Early Education Center (daycare, Pre-K, K)	Original 1950/1959/1966/2010	6
Gilles-Sweet Elementary (1 to 5)	2006	34
L.F. Mayer Middle (6 to 8)	Original 1955/1959/1966/2009	18
Fairview High School (9 to 12)	Original 1928/1949/1952/1956/1959/1968/1979/2009	34

One non-instructional facility was purchased in 2011 that had served as the New Hope Church. This building now houses the operational offices for transportation and serves the community in a number of ways by providing space for groups to meet.

- There has been an emphasis on teaching and learning with the addition of a Director of Teaching and Learning to the leadership team in FY16 and a full time Director at the Early Education Center (EEC). The Director at the EEC has facilitated the Step Up to Quality initiative for our youngest learners as well as planning for first year of all day tuition free kindergarten for all students in the district for FY17. With a focus on academic performance, the Director of Teaching and Learning has guided an evaluation of curriculum resources and alignment across all grades. Additional teaching staff has been strategically placed in grades 9-12 to assure that all students are ready for the next phase of their lives upon graduation for FY17 based findings from FY16 academic progress.
- The district revealed the Strategic Plan to the community in early FY16 with subgroups beginning the work of laying out the steps to achieving and maintaining these initiatives in the district. Goals for focus include Learning, Readiness, Resources and Engagement.

Long-Term Financial Planning

As part of the District’s long-term planning, the Treasurer/CFO prepares a five-year financial forecast. This document provides a snapshot of historical and projected revenues and expenses over the next five years and is accompanied by financial assumption notes. The Board of Education reviews this document on a quarterly basis for changes that might impact their financial decisions.

During the 2016 fiscal year, the District continued the practice of closely monitoring the student population and student needs and adjusting the staffing to the fluctuations accordingly. These comparisons allow the District to keep a streamlined organization. As a result of these monitoring efforts, the District has been able to maintain a relatively low increase in operating expenditures and a balanced budget.

Financial Information

Internal Accounting and Budgetary Control

In developing the District’s accounting system much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

MISSION STATEMENT

The Fairview Park City Schools are committed to provide superior services and academic programs that challenge the mind and instill the joy of lifelong learning and responsible citizenship.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual audit of each voucher prior to payment, ensures the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Fiscal Officer of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Fiscal Officer must certify that the Board of Education's appropriation measure, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level for all funds. All purchase order requests must be approved by the Superintendent and certified by the CFO/Treasurer; necessary funds are then encumbered and purchase orders are released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. Each administrator and school principal is furnished with monthly reports showing the status of the budget accounts for which they are responsible. In addition, an on-line inquiry system is available at each cost center site. The basis of accounting and the various funds utilized by Fairview Park City School District are fully described in Note 2 of the basic financial statements. Additional information on the District's budgetary accounting can also be found in Note 2.

Financial Presentation

The District's basic financial statements consist of the following:

Government-wide financial statements: These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish those activities of the District that are governmental in nature.

Fund financial statements: These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparisons: These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

Management is responsible for preparing a Management Discussion and Analysis (MD&A) of the District. This discussion follows the Independent Auditor's Report, providing an assessment of the District's finances for fiscal year 2016 and a discussion of current issues affecting the District in the future. The MD&A should be read in conjunction with this letter of transmittal.

Independent Audit

State statutes require the District to be subjected to an annual examination by an independent auditor. An annual audit serves to maintain and strengthen the District's accounting and budgetary controls. Independent auditor **Dave Yost**, Auditor of State, was selected to render an opinion on the District's financial statements as of and for the year ended June 30, 2016. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all school governments in Ohio. The District adopted and has been in conformance with that system beginning with its financial report for the 1979 year.

MISSION STATEMENT

The Fairview Park City Schools are committed to provide superior services and academic programs that challenge the mind and instill the joy of lifelong learning and responsible citizenship.

Awards

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Fairview Park City School District for its CAFR for the fiscal year ended June 30, 2015. The Certificate of Achievement is the highest form of recognition in the area of governmental financial reporting.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such a report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

The Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

ASBO Certificate of Excellence in Financial Reporting

The Association of School Business Officials International (ASBO) awards a Certificate of Excellence in Financial Reporting to school districts that publish Comprehensive Annual Financial Reports which substantially conform to the principles and standards of financial reporting as recommended and adopted by the Association of the School Business Officials. The award is granted only after an intensive review of the financial report by an all-expert panel of certified public accountants and practicing school business officials.

The District received the Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2015. The District believes that the Comprehensive Annual Financial Report for fiscal year June 30, 2016, which will be submitted to ASBO for review, will conform to ASBO's principles and standards.

Acknowledgments

The publication of this report is a significant step toward professionalizing the District's financial reporting. It enhances the District's accountability to the residents of the Fairview Park City School District.

The preparation of this report would not have been possible without the assistance and support of the staff of the CFO/Treasurer's office, various administrators and staff members of the District. Special appreciation is expressed to the accounting firm of Julian & Grube, Inc. for assistance in designing and reviewing this financial report.

Finally, sincere appreciation is extended to the Board of Education for their support on this project.

Respectfully Submitted,

Amy L. Hendricks
Treasurer/CFO

INDEPENDENT AUDITOR'S REPORT

Fairview Park City School District
Cuyahoga County
21620 Mastick Road
Fairview Park, Ohio 44126

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Fairview Park City School District, Cuyahoga County, Ohio (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Fairview Park City School District, Cuyahoga County, Ohio, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund schedules, and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016
(UNAUDITED)**

The management's discussion and analysis of Fairview Park City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, the notes to the basic financial statements and basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2016 are as follows:

- In total, net position increased \$1,701,993. Net position of governmental activities increased \$1,612,376, which represents a 74.26% increase from 2015. Business-type activities net position increased \$89,617 over 2015.
- General revenues accounted for \$23,915,818 of revenue or 91.49% of governmental activities revenues. Program specific revenues in the form of charges for services and sales and operating grants and contributions accounted for \$2,223,291 or 8.51% of governmental activities revenues.
- Total revenues for fiscal year 2016 were \$27,408,584. Of this total, \$26,139,109 was reported in the governmental activities and \$1,269,475 in the business-type activities.
- The District had \$24,526,733 in expenses related to governmental activities; only \$2,223,291 of these expenses was offset by program specific charges for services and sales and operating grants and contributions resulting in a net cost of \$22,303,442 for the District. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of 23,915,818 were adequate to provide for these programs.
- The District's major governmental funds are the general fund and the bond retirement fund. The District's major proprietary funds are the daycare services fund and the food service fund. The general fund had \$22,930,833 in revenues and \$21,740,442 in expenditures and other financing uses. During fiscal year 2016, the general fund's fund balance increased \$1,190,391 from a balance of \$19,619,055 to \$20,809,446.
- The bond retirement fund had \$2,038,088 in revenues and \$1,751,759 in expenditures. During fiscal year 2016, the bond retirement fund's fund balance increased \$286,329 from \$2,970,985 to \$3,257,314.
- The food service fund had \$206,770 in operating revenues, \$199,368 in non-operating grants and \$374,766 in expenses. During fiscal year 2016, the food service's fund balance increased \$31,372 from a deficit balance of \$91,717 to a deficit balance of \$60,345.
- The day care services fund had \$863,337 in operating revenues and \$805,092 in expenses. During fiscal year 2016, the day care services' fund balance increased \$58,245 from a deficit balance of \$759,745 to a deficit balance of \$701,500.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

**FAIRVIEW PARK CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016
(UNAUDITED)**

The statement of net position and statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund and bond retirement fund are by far the most significant funds, and the only governmental funds reported as major funds.

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2016?" The statement of net position and the statement of activities answer this question. These statements include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current fund's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, the District is divided into two distinct kinds of activities:

Governmental activities - Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, and extracurricular activities.

Business-type activities - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The District's food service and day care services are reported as business activities.

The District's statement of net position and statement of activities can be found on pages 19-21 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page 13 and the analysis of the District's major enterprise funds begins on page 15. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund and bond retirement fund.

(UNAUDITED)**

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements. The basic governmental fund financial statements can be found on pages 22-26 of this report.

Proprietary Funds

Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match information provided in the statements for the District as a whole. Both the food service fund and daycare services fund are major funds. The basic proprietary fund financial statements can be found on pages 27-29 of this report.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in an agency fund. The District's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position on pages 30 and 31. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 33-73 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's net pension liability. The required supplementary information can be found on pages 76-82 of this report.

During fiscal year 2015, the District adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," and GASB Statement 71 "Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement No. 68," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016
(UNAUDITED)

Under the new standards required by GASB 68, the net pension liability equals the District's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting.

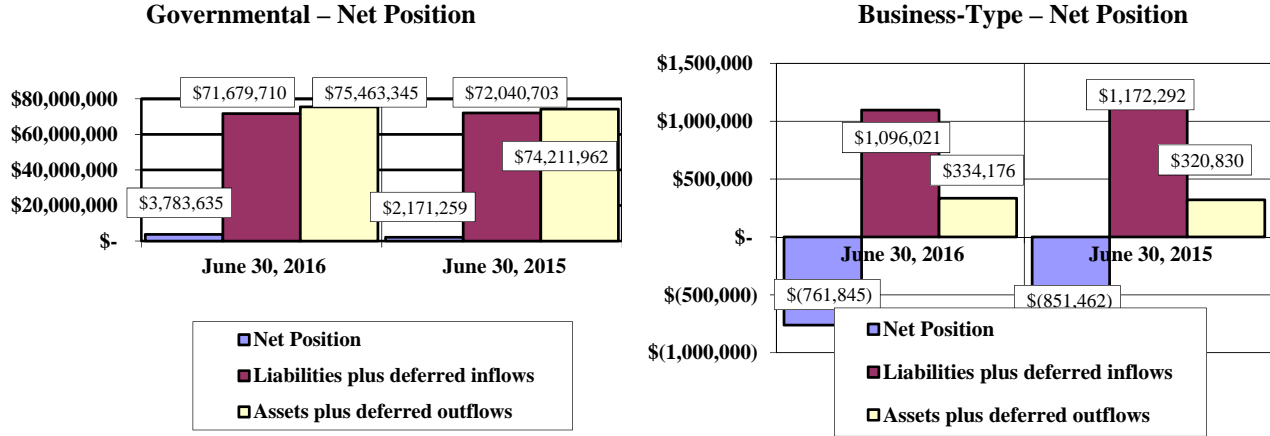

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2016, the District's assets plus deferred outflows exceeded liabilities plus deferred inflows by \$3,783,635 in the governmental activities.

At year-end, capital assets represented 43.74% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture, fixtures and equipment, vehicles and textbooks. The net investment in capital assets at June 30, 2016, was \$7,804,184. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$2,902,144 represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net position is a deficit of \$7,684,538. The graphs below show the assets plus deferred outflows, liabilities plus deferred inflows and net position of the governmental activities and business-type activities at June 30, 2016 and 2015.

The graph below presents the District's governmental activities revenue and expenses for fiscal year 2016 and 2015.

Governmental Activities - Revenues and Expenses

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services for fiscal years 2016 and 2015. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

The dependence upon tax revenues during fiscal year 2016 for governmental activities is apparent, as 90.34% of 2016 instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 90.94%. The District's taxpayers and unrestricted grants and entitlements from the State of Ohio, are the primary support for District's students.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016
(UNAUDITED)

The graph below presents the District's governmental activities revenue for fiscal years 2016 and 2015.

Governmental Activities - General and Program Revenues

Business-type Activities

Business-type activities include day care, preschool and after school programs and the food service operation. Management reviews these programs to develop policies to allow these services to become self-supporting.

Food service operations had \$206,770 in operating revenue, \$199,368 in grants and subsidies and had total expenses of \$374,766. Food service program revenues were sufficient to support food service expenses.

The day care services fund had \$863,337 in operating revenue and \$805,092 in expenses. Day care services revenues were sufficient to support day care services expenses by \$58,245.

The District's Funds

The District's governmental funds (as presented on the balance sheet on page 22) reported a combined fund balance of \$24,855,415, which is \$1,690,932 more than last year's fund total of \$23,164,483.

The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2016 and 2015.

	Fund Balance June 30, 2016	Fund Balance June 30, 2015	Change

General Fund

The District's general fund balance increased \$1,190,391.

The table that follows assists in illustrating the financial activities and fund balance of the general fund.

	<u>2016</u> <u>Amount</u>	<u>2015</u> <u>Amount</u>	<u>Change</u>	<u>Change</u>
<u>Revenues</u>				
Property taxes	\$ 16,880,819	\$ 15,777,552	\$ 1,103,267	6.99 %

Total	<u>\$ 22,930,833</u>	<u>\$ 21,334,310</u>	<u>\$ 1,596,523</u>	7.48 %

Property tax revenue increased partially due to an increase in appraisal values of property located within the District. Property tax revenue represents 73.62 % of all general fund revenue. The District received an increase in State Foundation funding, which is included in the intergovernmental revenue. The combined value of property taxes and intergovernmental revenue represent 95.97% of the general fund revenues.

The table that follows assists in illustrating the expenditures of the general fund.

	<u>2016</u> <u>Amount</u>	<u>2015</u> <u>Amount</u>	<u>Change</u>	<u>Change</u>

Bond Retirement Fund

The bond retirement fund had \$2,038,088 in revenues and \$1,751,759 in expenditures. During fiscal year 2016, the bond retirement fund's fund balance increased \$286,329 from \$2,970,985 to \$3,257,314. The bond retirement fund receives property tax and homestead and rollback revenue. The fund is used to pay principal and interest on the District's outstanding general obligation bonds.

Food Service Fund

The food service fund had \$206,770 in operating revenues, \$199,368 in non-operating grants and \$374,766 in expenses. During fiscal year 2016, the food service's fund balance increased \$31,372 from a deficit balance of \$91,717 to a deficit balance of \$60,345.

Day Care Services Fund

The day care services fund had \$863,337 in operating revenues and \$805,092 in expenses. During fiscal year 2016, the day care services fund's fund balance increased \$58,245 from a deficit balance of \$759,745 to a deficit balance of \$701,500.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

Throughout fiscal year 2016, the District routinely made amendments to the general fund budget. These amendments were necessary to accompany initiatives that were established and needed funding throughout the fiscal year. The District uses a modified site-based budgeting technique which is designed to tightly control total site budgets, but also provide flexibility for site management.

For the general fund, the final budgeted revenue and other financing sources was \$17,815,439. The original budgeted revenue was \$17,461,869. Actual revenue and other financing sources was \$21,409,218. Actual revenues and other financing sources were \$3,593,779 higher than the final budgeted revenues and other financing sources.

Total actual expenditures and other financing uses on the budget basis (cash outlays plus encumbrances) were \$21,876,028. This amount was \$836,087 less than the final budgeted amounts. The final budgeted expenditures and other financing uses were the same as the original budgeted amounts. Overall, fund balance on the budget basis decreased \$466,810 over the prior year.

Overall governmental capital assets, net of accumulated depreciation, decreased \$1,383,708 from June 30, 2015 to June 30, 2016. Depreciation expense in the governmental activities of \$1,410,446 exceeded capital outlays of \$42,566 during the year. The District had disposals, net of accumulated depreciation of \$15,828. See Note 11 to the basic financial statements for more detail on the District's capital assets.

Debt Administration

At June 30, 2016, the District has \$22,204,154 in long-term debt outstanding. Of this total, \$1,138,241 is due within one year and \$21,065,913 is due in greater than one year. The following table summarizes outstanding long-term debt:

MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016
(UNAUDITED)

Current Financial Related Activities

The District currently has one 8.20 mill, \$2,690,000 emergency levy that was renewed in November of 2012. The last full collection year for this levy will be calendar year 2018. As a result, the district will need to renew this levy prior to December 31, 2018 (fiscal year 2019) to avoid a decrease in revenue. The passage of this renewal levy by the residents of Fairview Park preserved a significant portion of the district revenue sources for the foreseeable future.

The Cuyahoga County Fiscal Office property re-appraisal was completed in calendar year 2012, which caused in the district’s Class I – residential real estate property values to be reduced by 3.97%. Furthermore, the district’s Class II property value decreased in values by 2.21% from the previous year. Due to the improvement in the housing market in Northeast Ohio and across the country, the district has included a slight increase of .035% for calendar year 2014 and .35% the calendar year 2015 County triennial update and an additional increase of 2% in property values for the calendar year 2018 County property re-appraisal. The district will monitor the “Residential Median Market to Price Ratio” data published by the Ohio Department of Taxation [O.D.T.] on an annual basis to determine if these projections need to be adjusted should the data fluctuate. The 2015 valuation data for residential range in Fairview Park from 3-15% increases based on a neighborhood map. Once the abstract is available, updates will be made.

Assessed Valuation

The following table shows the recent assessed valuations of property subject to ad valorem taxes levied by the District.

Collection Year	Real(a)	Public Utility(b)	Total Assessed Valuation

2013(c)	336,463,920	4,011,650	340,475,570
2014	340,827,800	4,394,500	345,222,300
2015	334,796,640	4,598,810	339,395,450

- (a) Other than real property of railroads. The real property of public utilities, other than railroads, is assessed by the County Fiscal Officer. Real property of railroads is assessed, together with tangible personal property of all public utilities, by the State Tax Commissioner.
- (b) Tangible personal property of all public utilities and real property of railroads; see footnotes (a), (b) and (c).
- (c) Reflects sexennial reappraisal.
- (d) Reflects triennial adjustment.

Source: County Fiscal Officer.

Beginning in fiscal year 2017, the per pupil funding amounts are increased from the fiscal year 2016 level of \$5,900 to \$6,000. However, the table below illustrates how with the application of the State Share %, Fairview Park actually will be receiving only \$53 additional per pupil than the prior year.

A guarantee of funding not less than fiscal year 2015 is in legislation for fiscal year 2016 and fiscal year 2017. However, based on political sentiment toward funding guarantees, a 2% drop per year is projected for fiscal year 2018 through fiscal year 2021.

Growth caps have also been applied to the next two years of the budget that maximize the year over year (YOY) increase at 7.5%. Beyond the current budget term, a more conservative 5% growth cap has been used to forecast. The table below also illustrates the loss of funding to our local district due to the growth caps.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

Net change in fund balances - total governmental funds	\$	1,690,932
<i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.		
Capital asset additions	\$ 42,566	
Current year depreciation	(1,410,446)	
Total		(1,367,880)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net position.		
		(15,828)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Property taxes	68,766	
Earnings on investments	(3,808)	
Intergovernmental	(106,567)	
Total		(41,609)
Repayment of bond and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position. Principal payments during the year were:		
Bonds	1,057,000	
Capital leases	146,620	
Total		1,203,620
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in additional interest being reported in the statement of activities:		
Decrease in accrued interest payable	(318)	
Accreted interest on capital appreciation bonds	(266,109)	
Amortization of bond premiums	164,795	
Amortization of deferred charges	(53,072)	
Total		(154,704)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
		(54,478)
Contractually required pension contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.		
		1,792,705
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.		
		(1,616,350)
An internal service fund used by management to charge the costs of insurance to individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net expense of the internal service fund is allocated among the governmental activities.		
		175,968
Change in net position of governmental activities	\$	1,612,376

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 1 - DESCRIPTION OF THE DISTRICT AND THE REPORTING ENTITY

The Fairview Park City School District (the “District”) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is located in Fairview Park, Ohio, Cuyahoga County. The District operates under a locally elected five-member Board form of government and provides educational services as mandated by State and/or federal agencies. The Board of Education controls the District’s instructional/support facilities staffed by 65 classified employees, 115 certificated full-time teaching personnel, and 14 administrators who provide services to 1,845 students and other community members.

The Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, “The Financial Reporting Entity” as amended by GASB Statement No. 39, “Determining Whether Certain Organizations Are Component Units” and GASB Statement No. 61, “The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34”. The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Within the District’s boundaries the elementary schools of St. Angela Merici, Messiah Lutheran, and Murton’s Child Development Center operate as non-public schools. Current State legislation provides funding to these schools. These monies are received and distributed on behalf of the schools by the Treasurer/ CFO of the District as directed by the schools. The activity of these State monies by the District is reflected in a special revenue fund for financial reporting purposes.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization’s Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization’s resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government’s financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only the financial activity of the District (the primary government).

NOTE 1 - DESCRIPTION OF THE DISTRICT AND THE REPORTING ENTITY - (Continued)

The following organizations are described due to their relationship to the District.

JOINTLY GOVERNED ORGANIZATIONS

Connect

Connect, formerly known as the North Coast Council, is a jointly governed organization serving twenty-four school districts and two educational service centers. Connect was organized pursuant to Ohio Revised Code Chapter 167 as a regional council of governments for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among the member districts. Connect operates as an information technology center pursuant to ORC 3301.075. Each of the governments of these schools supports Connect based on a per pupil charge dependent upon the software packages used. The District contributed \$59,546 to Connect during fiscal year 2016. Connect is governed by a four-member Board of Directors consisting of the Superintendent of the Educational Service Center of Cuyahoga County, the Superintendent of the Educational Service Center of Lorain County, the Superintendent of the Educational Service Center of Medina County, and the Executive Director of the Ohio Schools Council. Financial information can be obtained by contacting the Treasurer at the Cuyahoga County Educational Service Center, who serves as fiscal agent, at 5700 West Canal Road, Valley View, Ohio 44125.

Polaris Career Center

The Polaris Career Center is a separate body politic and corporate, established by the Ohio Revised Code to provide for the vocational and special needs of the students. The Board of Education consists of representatives from the Board of each participating school district, independent of the District. The Board is responsible for approving its own budgets, appointing personnel, and accounting and finance related activities. District students may attend the vocational school. Each school district's control is limited to its representation on the Board. Financial information may be obtained by contacting the Polaris Career Center, 7285 Old Oak Blvd., Middleburg Heights, Ohio 44130.

Ohio Schools' Council Association

The Ohio Schools Council (Council) is a jointly governed organization among 126 school districts. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member's superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board is the policy making authority of the Council. The Board meets monthly September to June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. In fiscal year 2016, the District paid \$13,305 to the Council for annual membership and other fees. Financial information can be obtained by contacting Dr. Bill Zelei, the Executive Director of the Ohio Schools Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

The District participates in the natural gas purchase program. This program allows the District to purchase natural gas at reduced rates. Compass Energy is the natural gas supplier and program manager. There are currently 143 participants in the program including the Fairview Park City School District. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

INSURANCE PURCHASING POOLS

Great Lakes Regional Council of Governments

The District participates in the Great Lakes Regional Council of Governments (COG), an insurance purchasing pool. The COG contracts with Medical Mutual, LLC. to process and pay health benefit claims incurred by its members. The District is the fiscal agent for the COG. The COG activity is accounted for in an agency fund.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The most significant of the District's accounting policies are described below.

A. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories of governmental, proprietary, and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as fund balance.

The following are the District's major governmental funds:

General fund - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

**FAIRVIEW PARK CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Bond retirement fund - The bond retirement fund is used to account for and report resources that are restricted, committed or assigned to expenditure for principal and interest related to retirement of serial bonds and short term loans. All revenue derived from general or special levies, either within or exceeding the ten-mill limitation, which is levied for debt charges on bonds or loans, shall be paid into this fund.

Other governmental funds of the District are used to account for (a) financial resources that are restricted or committed to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets and (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

PROPRIETARY FUNDS

Proprietary funds focus on the determination of operating income/loss, changes in net position, financial position and cash flows and are classified as either enterprise or internal service.

Enterprise funds - Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The District's enterprise funds account for the financial transactions related to the food service operations and day care services. Both the food service operations and the day care services funds are major funds.

Internal service funds - Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District on a cost-reimbursement basis. The District's internal service funds account for a flexible spending account for employee benefits and self-insurance for employee medical and dental benefits.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust fund is a private purpose trust which accounts for money set aside for scholarships. The income from such a fund may be expended, but the principal must remain intact. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds are student managed activities, Great Lakes Regional Council of Governments and workers' compensation.

B. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

**FAIRVIEW PARK CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Government-wide Financial Statements - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid “doubling up” revenues and expenses. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. Generally, interfund transactions are eliminated for reporting on the government-wide financial statements; however, interfund services provided and used are not eliminated for reporting on the government-wide financial statements.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District’s governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service funds are aggregated and presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets, current deferred outflows of resources, current liabilities and current inflows of resources, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

**FAIRVIEW PARK CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The fiduciary funds are reported using the economic resources measurement focus. Agency funds do not report a resources measurement focus as they do not report operations.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences between the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Deferred Outflows of Resources and Deferred Inflows of Resources - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, see Note 12 for deferred outflows of resources related the District's net pension liability. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance fiscal year 2017 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

For the District, see Note 12 for deferred inflows of resources related to the District's net pension liability. This deferred inflow of resources is only reported on the government-wide statement of net position.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

D. Equity in Pooled Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the financial statements.

During fiscal year 2016, investments included Farm Federal Credit Bank (FFCB) securities, Federal Home Loan bank (FHLB) securities, Federal Home Loan Mortgage Corporation (FHLMC) securities, Federal National Mortgage Association (FNMA) securities, U.S. Government treasury notes, U.S. Government money market mutual funds, negotiable certificates of deposit, nonnegotiable certificates of deposit and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as nonnegotiable certificates of deposit, are reported at cost.

Following Ohio statutes, the Board of Education has specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2016 amounted to \$337,821 which includes \$59,150 assigned from other funds.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

During fiscal year 2016, the School District invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For the fiscal year 2016, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

E. Inventory

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method. Inventory consists of expendable supplies held for consumption, donated food and purchased food.

F. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the assets or materially extend an asset's life are not.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

G. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund loans receivable/payable”. These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances. The District’s policy of internal service activity in the government-wide statement of activities indicates that interfund services provided and used are eliminated in the process of consolidation and any residual balance of the internal service activity is allocated on a pro-rata basis to the activities and functions participating in the internal service fund.

H. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees’ rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service and salary related payments, if applicable.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees’ wage rates at fiscal year end, taking into consideration any limits specified in the District’s termination policy. The District records a liability for accumulated unused sick leave for classified, certified, and administrative employees after eight years of current service with the District.

The entire compensated absences liability is reported on the government-wide statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

I. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

**FAIRVIEW PARK CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current expendable available financial resources. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

J. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes, but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education. The Board of Education assigns fund balance by resolution. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year’s appropriated budget.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

K. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component “net investment in capital assets,” consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

L. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

M. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are charges for food service, fees for day care service, health insurance charges and charges for a flexible benefits plan for employees. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund, including claims payments for health insurance. Revenues and expenses not meeting this definition are reported as non-operating.

N. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

O. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the District and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2016.

CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

P. Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents are the tax budget, the appropriation resolution, and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate in effect at the time the final appropriations were passed prior to fiscal year end.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

Q. Issuance Costs/Bond Premiums and Discounts and Accounting Gain or Loss on Debt Refunding

On the governmental fund financial statements, issuance costs, bond premiums, bond discounts, and deferred charges from debt refunding are recognized in the current period.

On the government-wide financial statements, issuance costs are recognized in the current period and are not amortized. Bond premiums and discounts are amortized over the term of the bonds using the straight-line method. Unamortized bond premiums are presented as an addition to the face amount of the bonds reported on the statement of net position. Unamortized bond discounts are presented as a reduction to the face amount of the bonds reported on the statement of net position. The reconciliation between the bonds face value and the amount reported on the statement of net position is presented in Note 17.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred outflow of resources.

R. Budget Stabilization Arrangement

The District has established a budget stabilization reserve in accordance with authority established by State law. Additions to the budget stabilization reserve can only be made by formal resolution of the Board of Education. Expenditures out of the budget stabilization reserve can only be made to offset future budget deficits. At June 30, 2016, the balance in the budget stabilization reserve was \$373,830. This amount is included in unassigned fund balance of the general fund and in unrestricted net position on the statement of net position.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

S. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

T. Fair Market Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2016, the District has implemented GASB Statement No. 72, "Fair Value Measurement and Application", GASB Statement No. 73 "Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68", GASB Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments", and GASB Statement No. 79, "Certain External Investment Pools and Pool Participants".

GASB Statement No. 72 addresses accounting and financial reporting issues related to fair value measurement. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The implementation of GASB Statement No. 72 did not have an effect on the financial statements of the District.

GASB Statement No. 73 improves the usefulness of information about pensions included in the general purposes external financial reports of state and local governments for making decisions and assessing accountability. The implementation of GASB Statement No. 73 did not have an effect on the financial statements of the District.

GASB Statement No. 76 identifies - in the context of the current governmental financial reporting environment - the hierarchy of generally accepted accounting principles (GAAP). This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. The implementation of GASB Statement No. 76 did not have an effect on the financial statements of the District.

GASB Statement No. 79 establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The implementation of GASB Statement No. 79 did not have an effect on the financial statements of the District.

B. Deficit Fund Balances / Net Position

Fund balances / net position at June 30, 2016 included the following individual fund deficits:

<u>Major funds</u>	<u>Deficit</u>
Food Service	\$ 60,345
Daycare Services	701,500
<u>Nonmajor funds</u>	
IDEA Part B Special Education	41,406
Title I	62,040

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances/net position resulted from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in such securities described are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Deposits

At June 30, 2016 the carrying amount of the District's deposits was \$4,714,809, including \$1,259,906 in non-negotiable certificate of deposits and \$319 in STAR Plus. Based on criteria described in GASB Statement No. 40, *Deposits and Investments Risk Disclosures*, as of June 30, 2016, \$2,003,083 of the District's \$5,162,880 bank balance was covered by Federal Depository Insurance (FDIC) and \$3,159,797 was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

CUYAHOGA COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

B. Investments

As of June 30, 2016, the District had the following investments and maturities:

<u>Investment type</u>	<u>Fair Value</u>	<u>Investment Maturities</u>				
		<u>6 months or less</u>	<u>7 to 12 months</u>	<u>13 to 18 months</u>	<u>19 to 24 months</u>	<u>Greater than 24 months</u>

Total	\$ 22,983,411	\$ 8,828,289	\$ 276,068	\$ 4,455,677	\$ 817,610	\$ 8,605,767

The weighted average maturity of investments is 1.59 years.

The District's investments in federal agency securities and U.S. Treasury notes are valued using quoted market prices (Level 1 input). The U.S. Government money market and STAR Ohio are valued using net asset value.

The District has a formal investment policy. The District follows GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, and records all its investments at fair value. At June 30, 2016, the increase in fair value of investments was \$71,017 which is reported as a component of investment earnings on the financial statements. Fair value is determined by quoted market prices and acceptable other pricing methodologies.

C. Interest Rate Risk

As a means of limiting its exposure to fair value of losses caused by rising interest rates, the District's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the District's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

D. Credit Risk

The District's investments in federal agency and U.S. Treasury securities were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. The District's investments in U.S. Government money market mutual funds and STAR Ohio were rated AAAm by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The negotiable certificates of deposit were fully covered by the FDIC.

E. Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities and U.S. Treasury securities are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty's trust department or agent but not in the District's name. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

F. Concentration of Credit Risk

The District places no limit on the amount it may invest in any one issuer. The District's investments in federal agency securities, negotiable CD's, U.S. Treasury bills and notes and U.S. government money market mutual funds represent 83.18 percent of the District's total investments. All other investments not explicitly guaranteed by the U.S. government are 16.82 percent of the District's total investments.

Investments at year end were as follows:

<u>Investment type</u>	<u>Fair Value</u>	<u>% of Total</u>
FFCB	\$ 256,012	1.11
FHLB	947,347	4.12

NOTE 5 - INTERFUND TRANSFERS AND BALANCES

A. Interfund Transfers

During fiscal year 2016, interfund transfers were as follows:

Transfers from general fund to:

Nonmajor governmental fund	<u>\$ 1,600,000</u>
----------------------------	---------------------

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund transfers between governmental funds are eliminated on the government-wide financial statements; therefore, no transfers are reported on the statement of activities.

NOTE 5 - INTERFUND TRANSFERS AND BALANCES - (Continued)

B. Interfund Balances

Interfund balances on fund financial statements at June 30, 2016 consist of the following:

<u>Receivable fund</u>	<u>Payable fund</u>	<u>Amount</u>
General fund	Nonmajor governmental funds	\$ 104,100
Total		<u>\$ 104,100</u>

The primary purpose of interfund balances is to cover costs in a specific fund where revenues were not received by June 30 but are expected to be received within the next year. This interfund balance will be repaid once the anticipated revenues are received.

Interfund balances between governmental funds are eliminated on the government-wide financial statements.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2016 represent the collection of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed values as of January 1, 2015, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2016 represent the collection of calendar year 2015 taxes. Public utility real and personal property taxes received in calendar year 2016 became a lien on December 31, 2014, were levied after April 1, 2015, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Cuyahoga County. The County Fiscal Officer periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2016, are available to finance fiscal year 2016 operations. The amount available as an advance at June 30, 2016 was \$5,151,346 in the general fund and \$554,952 in the bond retirement fund. This amount is recorded as revenue. The amount available for advance at June 30, 2015 was \$3,682,428 in the general fund and \$400,482 in the bond retirement fund. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

NOTE 6 - PROPERTY TAXES - (Continued)

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2016 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

The assessed values upon which the fiscal year 2016 taxes were collected are:

	2015 Second Half Collections		2016 First Half Collections	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/residential and other real estate	\$ 334,796,640	98.64	\$ 361,371,420	98.71

Total	<u>\$ 339,395,450</u>	<u>100.00</u>	<u>\$ 366,076,910</u>	<u>100.00</u>
Tax rate per \$1,000 of assessed valuation	\$96.47		\$96.17	

NOTE 7 - RECEIVABLES

Receivables at June 30, 2016 consisted of property taxes, accounts (rent and billings for user charged services), accrued interest, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

A summary of the principal items of receivables reported on the statement of net position follows:

Governmental activities:	
Property taxes	\$ 17,734,998
Accounts	16,348
Intergovernmental	62,425

NOTE 8 - RISK MANAGEMENT

A. Property and Liability

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. In order to minimize these components of risk, the District has obtained a number of insurance packages.

The Argonaut Insurance Company, through the Governmental Underwriters of America, Inc., provides building and personal property insurance as well as miscellaneous unscheduled equipment insurance. The Argonaut Insurance Company, through the Governmental Underwriters of America, Inc., also provides public employee dishonesty coverage (commercial crime coverage). The Argonaut Insurance Company, through the Governmental Underwriters of America, Inc., provides commercial general liability insurance, employer's liability insurance, umbrella liability insurance, automobile liability insurance, and uninsured motorists insurance.

A \$100,000 public official bond for the Treasurer is maintained by Travelers Casualty and Surety Company of America Insurance Company. Other employees handling money are also covered by performance bonds provided by Travelers Casualty and Surety Company of America Insurance Company. During fiscal year 2016, the District had the following coverage in effect:

<u>Type of Coverage</u>	<u>Coverage Amount</u>
Building and Contents (\$2,500 deductible)	\$82,638,404
Miscellaneous Unscheduled Equipment (\$500 deductible)	100,000
Crime Insurance (\$500 deductible)	50,000
Vehicles (\$1,000 deductible)	1,000,000
General Liability (per occurrence)	1,000,000
General Liability (aggregate)	3,000,000
Uninsured Motorist (per occurrence)	1,000,000
Umbrella Liability (per occurrence)	4,000,000
Umbrella Liability (aggregate)	4,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no change from prior year coverage.

B. Workers' Compensation

The District participated in the Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool for calendar year 2016. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "equity pooling fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to districts that can meet the GRP's selection criteria. The firm of CompManagement provides administrative, cost control, and actuarial services to the GRP.

C. Employee Group Medical/Surgical, Dental and Life Insurance

Medical/surgical and dental insurance is offered to employees through a self-insurance internal service fund. The District is a member of the Great Lakes Regional Council of Governments, an insurance purchasing pool, in which monthly premiums are paid to the fiscal agent who in turn pays the claims on the District's behalf. The claims liability of \$333,017 reported in the internal service fund at June 30, 2016 is based on an estimate provided by the third party administrator and the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claim costs, including estimates of costs relating to incurred, but not reported claims, be accrued at the estimated ultimate cost of settling the claims.

Changes in claims activity for the past fiscal year is as follows:

	<u>Beginning of Year</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Balance at End of Year</u>
2016	\$ 313,997	\$ 2,892,622	\$ (2,873,602)	\$ 333,017
2015	199,300	2,911,363	(2,796,666)	313,997

Medical coverage was provided through Medical Mutual. For full-time certified employees and administrators, the District paid 85% of the monthly premium. The District's required monthly premium for single, two-person and family coverage was \$509.60, \$972.29 and \$1,688.73, respectively, in fiscal year 2016. For full-time classified employees, the District paid 89.80% of the monthly premium. The District's required monthly premium for single, two-person and family coverage was \$538.38, \$1,027.20 and \$1,784.09, respectively, in fiscal year 2016. For part-time classified employees, who are eligible for coverage, the District's portion of the monthly insurance premium varied depending upon the number of hours worked per day by the employee. For day care employees, the District paid 100% of the monthly cost of coverage which, for a single individual, was \$599.53 in fiscal year 2016.

Dental coverage was provided through MetLife. For full-time certified employees and administrators, the District paid over 87% of the single monthly premium, over 86% for two-person coverage and over 87% of the family monthly premium. The District's required monthly premium for single, two-person and family coverage was \$26.43, \$52.26 and \$91.52, respectively, in fiscal year 2016. For full-time classified employees and administrators, the District paid over 84% of the single monthly premium, over 91% for two-person coverage and over 95% of the family monthly premium. The District's required monthly premium for single, two-person and family coverage was \$26.43, \$52.26 and \$91.52, respectively, in fiscal year 2016. For part-time classified employees, who are eligible for coverage, the District's portion of the monthly insurance premium varied depending upon the number of hours worked per day. For day care employees, the District paid 100% of the monthly cost of coverage which, for a single individual, was \$31.43 in fiscal year 2016.

Life insurance coverage was provided through MetLife. Classified and certified employees received \$50,000 in coverage with the District paying 100% of the monthly premium which was \$5.00 for fiscal year 2016. Administrators received \$125,000 in coverage with the District paying 100% of the monthly premium which was \$10.00 for fiscal year 2016. Day care employees received \$13,000 in coverage with the District paying 100% of the monthly premium which was \$1.30 for fiscal year 2016.

NOTE 9 - EMPLOYEE BENEFITS

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws.

A. Vacation Leave

Only administrative and school support personnel accumulate annual vacation leave. Accumulated unused vacation time is paid upon termination of employment.

School support personnel accumulate annual vacation leave as follows:

<u>Completed Service</u>	<u>Vacation Leave</u>
After 1 year	2 weeks
6 thru 9 years	3 weeks
10 thru 24 years	4 weeks
25 or more years	5 weeks

Administrative personnel accumulate 20 days vacation leave. The Superintendent and Treasurer's vacation accumulation is dictated by their contracts.

FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 9 - EMPLOYEE BENEFITS - (Continued)

B. Sick Leave

Each professional staff member is entitled to fifteen (15) days sick leave with pay for each year under contract. The sick leave accrues at the rate of one and one fourth (1- 1/4) days for each calendar month under contract. Upon retirement, an administrative or certified employee receives payment for 25% of their accumulated but unused sick leave balance up to a maximum of 40 days. Upon retirement, a classified employee receives payment for 50% of their accumulated but unused sick leave up to a maximum of 80 days.

C. Retirement Incentive

In place of the “1/4 and 40 day” limitation, administrators and certified employees electing to retire in their first year of eligibility who meet the eligibility requirements for retirement with either: **a)** twenty-five years of service and age 55 or over, **b)** five years of service and age 60 or over, or **c)** any age with thirty years of service shall be eligible for an extended severance pay benefit. This extended severance pay benefit shall be equal to the employee’s daily rate of pay times 100 percent of the employee’s first 165 days for both certified and classified employees of accrued but unused sick leave. The extended severance pay benefit is only available for employees on step 14 or higher of the salary schedule at the time of retirement and the 165 days of payment is reduced to 82.5 days for employees who are on step 14 to 18 at the date of retirement. Payment of the extended severance pay benefit will be made in two equal installments. The first payment will be made on or after January 1st and no later than January 15th of the year following retirement, and the second payment will be made between January 1st and January 15th of the second year following retirement. The District paid the remaining liability during fiscal year 2016.

NOTE 10 - OTHER COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District’s commitments for encumbrances in the governmental funds were as follows:

<u>Fund</u>	<u>Year-End Encumbrances</u>

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

NOTE 12 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *pension and postemployment benefits payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description –District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the entire 14 percent was allocated to pension, death benefits, and Medicare B and no portion of the employer contribution rate was allocated to the Health Care Fund.

The District’s contractually required contribution to SERS was \$491,789 for fiscal year 2016. Of this amount, \$56,323 is reported as pension and postemployment benefits payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description –District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$1,377,082 for fiscal year 2016. Of this amount, \$168,962 is reported as pension and postemployment benefits payable.

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate share of the net pension liability	\$ 6,477,356	\$ 24,204,332	\$ 30,681,688
Proportion of the net pension liability	0.11351640%	0.08757921%	
Pension expense	\$ 445,424	\$ 1,156,664	\$ 1,602,088

At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred outflows of resources			
Differences between expected and actual experience	\$ 103,602	\$ 1,098,679	\$ 1,202,281
Changes in employer's proportionate percentage/ difference between the employer's contributions and the employer's proportionate share of contributions	97,208	640,771	737,979
District contributions subsequent to the measurement date	<u>491,789</u>	<u>1,377,082</u>	<u>1,868,871</u>
Total deferred outflows of resources	<u>\$ 692,599</u>	<u>\$ 3,116,532</u>	<u>\$ 3,809,131</u>
Deferred inflows of resources			
Net difference between projected and actual earnings on pension plan investments	<u>\$ 199,003</u>	<u>\$ 1,649,798</u>	<u>\$ 1,848,801</u>
Total deferred inflows of resources	<u>\$ 199,003</u>	<u>\$ 1,649,798</u>	<u>\$ 1,848,801</u>

\$1,868,871 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22.00 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
Total	100.00 %	

Discount Rate - The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
District's proportionate share of the net pension liability	\$ 8,981,765	\$ 6,477,356	\$ 4,368,437

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	<u>1.00</u>	3.00
Total	<u>100.00 %</u>	

Discount Rate - The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

NOTE 13 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2016, none of the employer contribution was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2016, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the District's surcharge obligation was \$56,350.

The District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$56,350, \$82,508, and \$58,268, respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

B. State Teachers Retirement System

Plan Description – The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal years 2016 and 2015, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$0, \$0, and \$88,732, respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

NOTE 14 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

B. Litigation

The District is involved in no material litigation as either plaintiff or defendant.

C. Foundation Funding

District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional Districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2016 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

NOTE 15 - ENDOWMENT

In fiscal years 2002 and 2003, the District received a three million dollar endowment from a former school graduate to create two annual scholarships. At June 30, 2016, the balance of the endowment was \$3,656,903 and no amount was available for expenditure. The principal of the endowment is reported as “held in trust for scholarships” on the statement of fiduciary net position. The endowment is accounted for as a private purpose trust with 55 percent of interest earned to be used for scholarships and 45 percent to be added to existing principal.

NOTE 16 - CAPITALIZED LEASES - LESSEE DISCLOSURE

In the prior year, the District entered into capital leases for the acquisition of computer equipment. Capital lease payments have been reclassified and are reflected as debt service expenditures in the fund financial statements for the governmental funds. These expenditures are reflected as program/function expenditures on a budgetary basis.

Capital assets acquired by lease have been capitalized in the statement of net position for governmental activities in the amount of \$455,079, which is equal to the present value of the minimum lease payments at the time of acquisition. Accumulated depreciation on these assets at June 30, 2016, was \$227,539 and the carrying value was \$227,540. A corresponding liability has been recorded as a long-term obligation.

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the future minimum lease payments as of June 30, 2016:

<u>Year Ending June 30</u>	<u>Amount</u>

NOTE 17 - LONG-TERM OBLIGATIONS - (Continued)

All bonds outstanding are general obligation bonds of the District to which the full faith and credit of the District is pledged for repayment. Payments of principal and interest relating to the general obligation bonds are recorded as expenditures in the bond retirement fund.

Series 2012 and Series 2013 Refunding General Obligation Bonds

On July 18, 2012 and January 3, 2013, the District issued a total of \$16,539,980 of general obligation bonds (Series 2012 and Series 2013 Refunding Bonds) to advance refund the callable of the Series 2005 School Improvement current interest bonds (both term and serial bonds). This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position. There is no remaining defeased debt outstanding.

The refunding issue is comprised of both current interest bonds, par value \$16,420,000, and capital appreciation bonds par value \$119,980. The interest rates on the current interest bonds range from 1.00% to 3.50%. The capital appreciation bonds mature on December 1 of each year 2013 through 2022 and on December 1, 2029 (coupon rates ranging from 1.047% to 2.40% and effective interest rates ranging from 61.3% to 78.6%) at redemption prices equal to 100% of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the remaining capital appreciation bonds is \$3,315,000. Total accreted interest of \$388,796 has been included in the statement of net position at June 30, 2016.

Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final maturity stated in the issue is December 1, 2033.

The reacquisition price exceeded the net carrying amount of the old debt by \$2,043,176. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Series 2014 Refunding General Obligation Bonds

On October 16, 2013, the District issued \$6,901,000 of general obligation bonds to advance refund a portion of the Series 2005 School Improvement current interest bonds. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position. The balance of the refunded current interest bonds at June 30, 2016, is \$6,056,000.

The refunding issue is comprised of current interest bonds, par value \$6,901,000. The interest rates on the bonds is 3.75%.

Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final maturity stated in the issue is December 1, 2022.

The reacquisition price exceeded the net carrying amount of the old debt by \$377,438. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2016, are a voted debt margin of \$14,149,217 (including available funds of \$3,257,314) and an unvoted debt margin of \$366,077.

NOTE 18 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);

FOR THE FISCAL YEAR ENDED JUNE 30, 2016

NOTE 18 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis); and,
- (e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

	<u>General Fund</u>
Budget basis	\$ (466,810)
Net adjustment for revenue accruals	1,615,131
Net adjustment for expenditure accruals	(381,161)
Net adjustment for other sources/uses	99,562
Funds budgeted elsewhere	149,656
Adjustment for encumbrances	174,013
GAAP basis	<u>\$ 1,190,391</u>

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. These include the special trusts fund, the public school support fund, the summer school fund and the termination benefits fund.

NOTE 19 - SET-ASIDES

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year. The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

DESCRIPTION OF FUNDS

General Fund

The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Other Major Fund

Bond Retirement - The bond retirement fund is used to account for and report resources that are restricted, committed or assigned to expenditure for principal and interest related to retirement of serial bonds and short term loans. All revenue derived from general or special levies, either within or exceeding the ten-mill limitation, which is levied for debt charges on bonds or loans, shall be paid into this fund.

DESCRIPTION OF FUNDS

Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for and report specific revenue sources that are restricted or committed to an expenditure for a specific purpose. Following is a description of the District's nonmajor special revenue funds:

Other Grants - This fund is used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

District Managed Student Activity - This fund is used to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps and other similar types of activities.

Auxiliary Services - This fund accounts for monies which provide services and materials to pupils attending non-public schools within the District.

Data Communication - This fund accounts for money appropriated for Ohio Educational Computer Network Connections.

IDEA, Part B Special Education - The purpose of this federal program is to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least-restrictive, alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool elementary and secondary levels.

Limited English Proficiency - This program is designed to help meet the educational needs of children of limited English proficiency.

Title I - The purpose of this federal program is to provide financial assistance to state and local education agencies to meet the special needs of educationally deprived children.

Early Childhood Education Development - This fund accounts for federal monies which partially support the preschool program focusing on the early education of handicapped children.

Improving Teacher Quality - This fund provides for improved instruction through better use of technology.

DESCRIPTION OF FUNDS

Nonmajor Special Revenue Funds

(Continued)

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis). These funds are not included in the combining statements for the nonmajor special revenue funds since they are reported in the general fund (GAAP basis); however, the budgetary schedules for these funds are presented in this section.

Public School Support - This fund is used for the general support of the school building, staff and students.

Summer School - This fund is used to account for operations of the District's summer school program.

Termination Benefits - This fund is used to accumulate cash for paying termination benefits or for paying salaries when the number of pay periods exceeds the usual and customary for a year.

Special Trusts - This fund is used to account for assets held by the school district for various activities of the District which there are no external restrictions on the use of resources and for which the Board of Education has not placed any constraints on the use of the resources.

FAIRVIEW PARK CITY SCHOOL DISTRICT

DESCRIPTION OF FUNDS

Nonmajor Capital Projects Funds

Capital Projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities or/and other capital assets. Following is a description of the nonmajor capital projects funds:

Permanent Improvement - This fund accounts for all transactions related to the acquiring, constructing, or improving of facilities.

Building - This fund accounts for and reports resources that are restricted, committed or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets. All proceeds from the sale of bonds, notes or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

FAIRVIEW PARK CITY SCHOOL DISTRICT

DESCRIPTION OF FUNDS

Major Enterprise Funds

Enterprise Funds are established to account for operations that are financed and operated in a manner similar to private sector business where the interest is the expense (including depreciation) of providing goods or services primarily or solely to the general public to be financed or recovered primarily through user charges.

Food Services - This fund accounts for the provision of food service to the high school, middle school and elementary school.

Day Care Services - This fund accounts for services provided primarily to the general public for day care services, which are financed or recovered through user charges.

Internal Service Funds

An Internal Service Fund is used to account for the financing of services provided by one department to the other departments of the government or to other districts on a cost reimbursement basis.

Employee Flex Benefits Plan - This fund accounts for a flexible benefits plan offered to District employees.

Health Self Insurance Fund - A fund provided to account for monies received from other funds as payment for providing medical employee benefits.

Fiduciary Funds

Fiduciary funds are used to account for assets when a governmental unit is functioning either as a trustee or an agent for another party. Because the governmental unit is functioning in a fiduciary capacity, the authority to employ, dispose of, or otherwise use the assets is determined not by a legislative body or oversight board but by the public laws and private agreements that create the trustee or agency relationship.

Private Purpose Trust Fund

Endowment Trust - This fund accounts for money set aside for scholarships. 55% of interest earned is to be used for scholarships and 45% of interest earned is added to existing principal.

Since there is only one private-purpose trust, no combining financial statements are required.

Agency Funds

Workers' Compensation - This fund is used for Workers' Compensation Self-Insurance receipts and expenditures.

Student Managed Activities - This fund accounts for resources that belong to the student bodies of the various schools, accounting for sales and other revenue generating activities.

FAIRVIEW PARK CITY SCHOOL DISTRICT

DESCRIPTION OF FUNDS

Agency Funds - (Continued)

Great Lakes Regional Council of Governments - This fund accounts is accounts for an insurance purchasing pool in which the District is fiscal agent.

Note: The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for everything except inventories, which are assessed at 23 percent. Property is assessed annually. General business tangible personal property tax was being phased out in 2006. The listing percentage is 18.75 percent for 2006, 12.5 percent for 2008, 6.25 percent for 2008 and zero for 2009.

Note: The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated by the property tax revenue to be received in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent, and homestead exemptions before being billed. Beginning in 2006 collection year, the 10 percent for commercial/industry property has been eliminated.

(1) The effective tax rate has been replaced by the direct tax rate for all years covered by this schedule.
