# Findlay City School District Findlay, Ohio

## **COMPREHENSIVE ANNUAL**

## FINANCIAL REPORT

For Fiscal Year Ended June 30, 2016

Board of Education Findlay City School District 1100 Broad Avenue Findlay, Ohio 45840

We have reviewed the *Independent Auditor's Report* of the Findlay City School District, Hancock County, prepared by Julian & Grube, Inc., for the audit period July 1, 2015 through June 30, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Findlay City School District is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

## Findlay City Schools

December 27, 2016

Members of the Board of Education and Residents of the Findlay City School District:

We are pleased to submit to you the Comprehensive Annual Financial Report of the Findlay City School District. This Comprehensive Annual Financial Report (CAFR) provides full disclosure of the financial operation of the Findlay City School District (the "District") for the fiscal year ended June 30, 2016. The CAFR, which includes an opinion from the Independent Public Accounting Firm that performed the District's audit, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. This CAFR will provide the taxpayers of the District with comprehensive financial data in a format which will enable them to gain an understanding of the District's financial affairs. Copies will be made available to the Chamber of Commerce, the Findlay Public Library, financial rating services, and other interested parties.

The Comprehensive Annual Financial Report is presented in three sections:

- The Introductory Section, which is unaudited, includes a Table of Contents, this Letter of Transmittal, a List of Principal Officials, an Organizational Chart, the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) for the 2015 CAFR, and the Certificate of Excellence in Financial Reporting from the Association of School Business Officials International (ASBO) for the 2015 CAFR.
- 2. The Financial Section, which includes the Independent Auditor's Report, the Management's Discussion and Analysis, the Basic Financial Statements, the Notes to the Basic Financial Statements, Required Supplementary Information, and the Combining Statements and Individual Fund Schedules.
- 3. The Statistical Section, which is unaudited, includes various tables which reflect financial and demographic information, financial trends, and the fiscal capacity of the District.

#### SCHOOL DISTRICT ORGANIZATION

Findlay City School District is one of 969 public school districts and community schools in the State of Ohio and one of eight school districts in Hancock County. It provides education to approximately 5,885 students in pre-kindergarten through grade 12. The District is located in northwestern Ohio, approximately 65 miles south of the City of Toledo. 98 percent of the District's territory is within the City of Findlay, the county seat. The District serves an area of approximately 37 square miles.

Statutorily, the District operates under standards prescribed by the Ohio State Board of Education as provided in Division (D) of Section 3301.47 and Section 110.01 of the Ohio Revised Code, to provide educational services authorized and mandated by State or Federal agencies.

The Board of Education serves as the taxing authority, contracting body, and policy maker for the District. The Board adopts the annual operating budget and approves all expenditures of District monies. The superintendent is the chief administrative officer of the District, responsible for both education and support operations. The treasurer is the chief financial officer, responsible for maintaining records of all financial matters, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds, and investing of funds as specified by Ohio law.

#### THE REPORTING ENTITY

The District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity", and as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34". In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments, and organizations making up the District (the primary government) and its potential component units.

Excluded from the reporting entity, because they are fiscally independent of the District, are the City of Findlay, the Parent-Teacher Association, and the Booster Clubs. The Northwest Ohio Area Computer Services Cooperative (NOACSC) is reported as a jointly governed organization.

#### **ECONOMIC OUTLOOK**

With a total assessed valuation of \$783,376,510 and a tax rate of \$64.94 per \$1,000.00 of assessed valuation, the District has a sound financial base. A sexennial reappraisal of all real property was completed in 2010. This resulted in a valuation loss of approximately five percent. The Findlay community continues to explore solutions to frequent flooding issues that were most notable from the August 2007 flood and another large flood that hit in February 2008. The District is concerned with the ability and willingness of its taxpayers to support future levies given the financial hardships that voters may be experiencing as a result of past and future flooding; however, taxpayers did step up to approve a 5.9 mill replacement levy in November 2008; and a 4.3 mill, 28 year bond levy in November 2009 after a failed attempt in August 2009. Voters also passed a 4.9 mill, 5 year renewal levy in March 2012 as well as a 5.9 mill continuing levy in May 2014—both by historically large margins.

The District's financial condition continues to be an area of focus for the Board of Education and Administration and is closely monitored through the five-year forecast. To begin the 2015-2016 school year, the Governor and General Assembly passed a new biennium budget which attempted to restructure the funding formula from many past attempts. The District benefited from the new formula which is based on various components; however a large portion of property tax allocation is being phased out and offsetting new formula gains. The District continues to be locally proactive in cost containment and is not optimistic for any solutions from the State given the history of school funding's susceptibility to political whims. State Foundation funding is typically dependent on the number of students enrolled in the District. In recent years, enrollment has remained fairly static and this trend is expected to continue into the foreseeable future.

Total budgeted general fund revenues for fiscal year 2017 are forecast to remain about the same. The District's total expected expenditures for fiscal year 2017 will be about \$1.2 million more than the actual expenditures of fiscal year 2016. This is due to negotiated salary increases as well as additional costs for school choice where the District must pay at least \$6,000 for each student going to other districts or charter schools.

Ohio school districts cannot generate significant additional revenue from taxes except by the vote of the people. On May 6, 2014 voters renewed an expiring 5.9 mill levy for a continuous basis. On March 6, 2012, the voters elected to replace an expiring 4.9 mill levy for five years. Resources of the general fund will be impacted in the future by the struggling economy and past Ohio tax reforms including the recent elimination of tangible personal property taxes, as well as increasing health care costs, although the District continually looks for ways to contain those increasing costs.

#### MAJOR INITIATIVES

The District focuses on the six strategic objectives approved by the Board of Education as part of its Strategic Plan, which was redeveloped in 2015:

- <u>Strategic Objective 1:</u> 100% of students will graduate on time.
- <u>Strategic Objective 2:</u> 100% of graduates will be enrolled in post-secondary or in the workforce within six months of their program.
- <u>Strategic Objective 3:</u> Findlay City Schools will provide safe educational facilities that foster positive learning environments.
- <u>Strategic Objective 4:</u> Findlay City Schools will develop and implement plans to ensure sufficient funding for current and future operations, programs, and facilities.
- <u>Strategic Objective 5:</u> Findlay City Schools will create learning environments in which all students, staff and families will feel physically and emotionally safe, valued, and engaged.
- <u>Strategic Objective 6:</u> Findlay City Schools will serve as a partner in addressing root issues in Hancock County through collaborative efforts.

The District continues to implement solutions to its facility needs. The passage of a 2.5 mill permanent improvement levy in May 2006 has helped to alleviate many facility needs. However, the biggest improvement to the District's facility needs was made possible in November 2009, when voters approved a 4.3 mill, 28-year bond levy which pays the debt service on \$54,195,000 that was needed to cover the local share and locally funded initiatives used to build two (2) middle schools and a career tech building. The District consolidated the south, north, and east campuses of Millstream Career Center into one location. The District also converted its three (3) small middle schools into two (2) larger, more efficient, newly constructed middle schools. The Millstream Career Center was completed for the start of the 2012-13 school year, while the new middle schools first accepted students in January 2013.

The District now supports one high school, two middle schools, and eight elementary buildings along with Millstream Career Center for vocational education, and a former elementary school that now serves as a preschool and central administration building and houses the Findlay Learning Center, which offers blended learning. The District also owns and operates a newly renovated transportation facility. These district buildings range in age from 45 to 89 years old, except for those that are newly built.

#### RELEVANT FINANCIAL POLICIES

The District's primary management tool for monitoring its fiscal health is the Five-Year Forecast, which is a document that focuses on the general fund's past three years of actual expenditures, the current fiscal year, and the following four fiscal years. The District has set targets for certain financial ratios based on this document. A key ratio is the District's "true days cash" ratio. True days cash is the concept that calculates how many days the District can operate with the amount of cash available at the end of the year. The calculation takes the available cash balance at the end of the year and divides it by the year's average daily operating expense. The District has set an immediate target to maintain forty true days cash with the expectation for that figure to gradually grow. This ratio is used when negotiating future labor contracts and in determining the need for future levies.

#### FINANCIAL INFORMATION

The District's accounting system is organized on a fund basis. Each fund is a distinct self-balancing accounting entity. Governmental funds are presented on the modified accrual basis, whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. Proprietary and fiduciary funds are presented on the accrual basis, whereby revenues are recognized when earned and expenses when incurred.

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from the implementation.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended official certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund and function level of expenditures in the general fund and at the fund level of expenditures for all other funds. All funds, other than agency funds, are legally required to be budgeted and appropriated. All purchase order requests must be approved by the Superintendent or his designee and certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation, plus any additional appropriations made to date. In addition to interim financial statements, each administrator and school principal has access to ongoing reports showing the status of the budget accounts for which they are responsible.

As an additional safeguard, all employees are covered by a blanket bond, and certain individuals in policy-making roles are covered by a separate, higher limit bond.

The basis of accounting and the funds utilized by the District are fully described in Note 2 to the Basic Financial Statements. Additional information on the District's budgetary accounting can also be found in Note 2 to the Basic Financial Statements.

#### FINANCIAL HIGHLIGHTS

Management is responsible for preparing a Management's Discussion and Analysis of the District. This discussion follows this letter of transmittal, providing an assessment of the District's finances for fiscal year 2016 and the outlook for the future. Because that discussion focuses on major funds, the financial highlights provided in this letter focus on certain nonmajor funds of the District.

<u>Internal Service Fund</u> - The only internal service fund of the District is the Employee Benefits Self Insurance Fund. This internal service fund had a deficit net position balance of \$224,358 at June 30, 2016, compared to a balance of net position of \$571,141 at June 30, 2015, reflecting a decrease in net position of \$795,499.

<u>Fiduciary Funds</u> - The fiduciary funds account for assets held by the District in a trustee capacity, or as an agent, for other funds, governments, organizations, or individuals. The District maintains a private-purpose trust fund and an agency fund. The private-purpose trust fund had net position of \$26,054 at June 30, 2016, compared to net position of \$30,789 at June 30, 2015.

#### LONG-TERM FINANCIAL PLANNING

The District will continue to implement new courses of study in an ongoing effort to meet, and exceed, the national and state standards to affect student outcomes in order to achieve an A grade on the Ohio Report Card. Part of this effort is the adoption of a more rigorous high school program, all day every day kindergarten and the expansion of preschool to serve a larger population. However, the District will remain financially prudent and will not offer courses without sufficient demand.

Full implementation of the overall Strategic Plan will keep the District focused on student learning through high-quality instruction, efficiency and effectiveness of district operations and vibrant school-community partnerships.

Ongoing support through permanent improvement tax dollars and the Ohio School Facilities Commission will help ensure the viability of the physical plants within the District. With the full implementation of these plans and directives, the District will remain poised to retain the full academic excellence and fiscal accountability standards that the community has come to expect of the Findlay City School District.

#### **USE OF THIS REPORT**

This report is published to provide to the Board of Education, as well as our citizens and other interested persons, detailed information concerning the financial condition of the District, with particular emphasis placed on the utilization of resources during the past fiscal year. It is also intended that this report will serve as a guide in formulating policies and in conducting the District's future day-to-day activities. We believe the information, as presented, is accurate in all material aspects, that it is presented in a manner designed to fairly set forth the financial activity of its various funds, and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs have been included.

In today's bond market environment, it is increasingly important that public agencies prepare soundly conceived annual financial reports which are independently audited by a qualified firm or agency. It has become almost required practice that such reports are prepared in accordance with GAAP, and the major bond rating agencies review the data presented in such reports before determining a public agency's bond rating. The District's bond rating is Aa3 from Moody's.

#### INDEPENDENT AUDIT

Provisions of State statute require the District's Basic Financial Statements to be subjected to an annual examination by an independent auditor. Those provisions have been satisfied and the opinion of the District's independent auditors is included herein. The single audit report is not included in this CAFR, but is located in a separate report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all units of local education agencies in Ohio. The District adopted and has been in conformance with that system effective with its annual financial report for the 1979 fiscal year.

#### **AWARDS**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Findlay City School District for its comprehensive annual financial report for the fiscal year ended June 30, 2015. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The District has received this award for the past twenty-five (25) years. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The District has also received a Certificate of Excellence in Financial Reporting in School Districts from the Association of School Business Officials International (ASBO) for the District's CAFR for the fiscal year ended June 30, 2015. The award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials. The District has received this award for the past twenty-five (25) years. We believe that our current report continues to conform to the Certificate of Excellence program requirements, and we are submitting it to ASBO to determine its eligibility for another certificate.

#### **ACKNOWLEDGMENTS**

The publication of this report significantly increases the accountability of the District to the taxpayers. This accomplishment would not have been possible without the support and efforts of the staff of the Treasurer's office and various administrators and employees of the District. Assistance of the County Auditor's office staff and other outside agencies made possible the fair presentation of statistical data.

Special appreciation is expressed to Ms. Brandi Smart, of Julian & Grube, Inc., who compiled this report in compliance with GAO guidance, and to the auditors of Julian & Grube, Inc., who audited this report.

Finally, sincere appreciation is extended to the Board of Education for its interest in and support of this project, and to the taxpayers and voters of the District, who have continued to show their faith in education and in the Findlay City School District.

Respectfully,

Independent Auditor's Report

Findlay City School District Hancock County 1100 Broad Avenue Findlay, Ohio 45840

To the Board of Education:

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, its major fund, and the aggregate remaining fund information of the Findlay City School District, Hancock County, Ohio, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Findlay City School District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Findlay City School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Findlay City School District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, its major fund, and the aggregate remaining fund information of the Findlay City School District, Hancock County, Ohio, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General fund thereof for the fiscal year then ended in accordance with the accounting principles generally accepted in the United States of America.

Independent Auditor's Report Findlay City School District

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### Supplementary and Other Information

Our audit was conducted to opine on the Findlay City School District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

#### Other Reporting Required by Government Auditing Standards

Julian & Sube Enc

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2016, on our consideration of the Findlay City School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Findlay City School District's internal control over financial reporting and compliance.

Julian & Grube, Inc. December 27, 2016

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

The management's discussion and analysis of the Findlay City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, basic financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

#### **Financial Highlights**

Key financial highlights for fiscal year 2016 are as follows:

- In total, net position of governmental activities increased \$406,773 which represents a 2.31% increase from 2015's net position.
- General revenues accounted for \$59,762,593 in revenue or 81.27% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$13,773,674 or 18.73% of total revenues of \$73,536,267.
- The District had \$72,393,537 in expenses related to governmental activities; only \$13,773,674 of these expenses was offset by program specific charges for services, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$59,762,593 were adequate to provide for these programs.
- The District's major governmental fund is the general fund. The general fund had \$60,844,533 in revenues and \$60,896,092 in expenditures. During fiscal year 2016, the general fund's fund balance decreased \$51,559 from a balance of \$12,820,151 to a balance of \$12,768,592.

#### Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *statement of net position* and *statement of activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund is the most significant fund, and the only governmental fund reported as a major fund.

#### Reporting the District as a Whole

#### Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2016?" The statement of net position and the statement of activities answer this question. These statements include *all assets, deferred outflows, liabilities, deferred inflows, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

These two statements report the District's *net position* and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, the governmental activities include the District's programs and services, including instruction, support services, operation of non-instructional services, extracurricular activities, interest on fiscal charges, and food service operations.

#### Reporting the District's Most Significant Funds

#### **Fund Financial Statements**

Fund financial reports provide detailed information about the District's major fund. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental fund is the general fund.

#### Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the statement of net position and the statement of activities) and governmental *funds* is reconciled in the basic financial statements.

#### **Proprietary Funds**

The District maintains a proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District's internal service fund accounts for self-insurance.

#### Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals. These activities are reported in an agency fund. All of the District's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

#### Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

#### Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's net pension liability.

#### The District as a Whole

The table below provides a summary of the District's net position at June 30, 2016 and June 30, 2015.

	Net Po	osition
	Governmental	Governmental
	Activities	Activities
	2016	2015
Assets		
Current and other assets	\$ 54,956,315	\$ 58,500,304
Capital assets, net	95,872,056	93,101,982
Total assets	150,828,371	151,602,286
<b>Deferred Outflows of Resources</b>		
Pension	9,106,793	5,471,111
<u>Liabilities</u>		
Current liabilities	8,609,010	7,872,374
Long-term liabilities:		
Due within one year	2,372,485	2,593,428
Due in more than one year:		
Net pension liability	85,029,707	74,308,160
Other amounts	50,184,707	51,385,924
Total liabilities	146,195,909	136,159,886
<b>Deferred Inflows of Resources</b>		
Property taxes and PILOTs levied for next year	25,590,505	25,137,724
Pensions	5,387,833	13,421,643
Total deferred inflows of resources	30,978,338	38,559,367
Net Position		
Net investment in capital assets	47,538,520	43,804,562
Restricted	6,411,757	9,259,238
Unrestricted (deficit)	(71,189,360)	(70,709,656)
Total net position (deficit)	\$ (17,239,083)	\$ (17,645,856)

During a prior fiscal year, the District adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," and GASB Statement 71 "Pension Transition for Contributions made subsequent to the measurement date—an Amendment of GASB Statement No.68," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2016, the District's liabilities and deferred inflows exceeded assets and deferred outflows by \$17,239,083. Of this total \$6,411,757 is restricted in use. This includes \$1,743,192 restricted for capital projects.

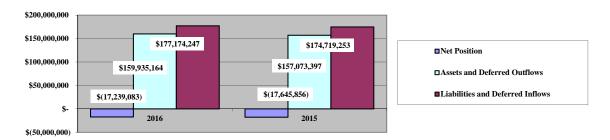

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

At year-end, capital assets represented 63.56% of total assets. Capital assets include land, construction in progress, land improvements, buildings and improvements, equipment and furniture and vehicles. The District's net investment in capital assets at June 30, 2016, was \$47,538,520. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$6,411,757, represents resources that are subject to external restriction on how they may be used.

The graph below shows the District's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position at June 30, 2016 and June 30, 2015.

#### **Governmental Activities**

The table below shows the change in net position for fiscal years 2016 and 2015.

#### **Change in Net Position**

	Governmental	Governmental
	Activities	Activities
	2016	2015
Revenues

Net position (deficit), end of year	\$ (17,239,083)	\$ (17,645,856)	

#### **Governmental Activities**

Net position of the District's governmental activities increased \$406,773. Total governmental expenses of \$72,393,537 were offset by program revenues of \$13,773,674 and general revenues of \$59,762,593. Program revenues supported 19.03% of the total governmental expenses.

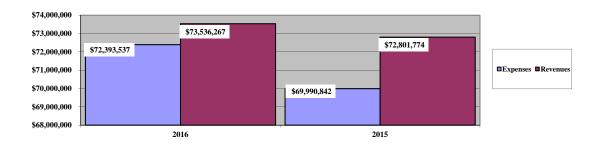

The primary sources of revenue for governmental activities are derived from property taxes, and grants and entitlements. These revenue sources represent 79.41% of total governmental revenue. Real estate property is reappraised every six years.

The largest expense of the District is for instructional programs. Instruction expenses totaled \$43,081,300 or 59.51% of total governmental expenses for fiscal year 2016.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

The graph below presents the District's governmental activities revenues and expenses for fiscal years 2016 and 2015.

#### Governmental Activities - Revenues and Expenses

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

#### **Governmental Activities**

	Total Cost of Services  2016	Net Cost of Services 2016	Total Cost of Services 2015	Net Cost of Services 2015

Extracurricular activities	1,309,874	648,977	1,374,947	796,381
Interest and fiscal charges	2,869,740	2,869,740	2,889,685	2,889,685
Total expenses	\$ 72,393,537	\$ 58,619,863	\$ 69,990,842	\$ 56,211,855

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

The dependence upon tax and other general revenues for governmental activities is apparent; as 79.57% of instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 80.97%. The District's taxpayers, and unrestricted grants and entitlements are the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2016 and 2015.

#### Governmental Activities - General and Program Revenues

#### The District's Funds

The District's governmental funds reported a combined fund balance of \$19,803,876, which is less than last year's total of \$22,706,031. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2016 and 2015.

	Fund Balance June 30, 2016	Fund Balance June 30, 2015	(Decrease)
General Other Governmental	\$ 12,768,592 7,035,284	\$ 12,820,151 9,885,880	\$ (51,559) (2,850,596)
Total	\$ 19,803,876	\$ 22,706,031	\$ (2,902,155)

This section intentionally left blank

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

#### General Fund

The District's general fund balance decreased \$51,559. This decrease was primarily the result of increasing instruction and support service expenditures outpacing the slight increase in total revenues.

	2016	2015	Percentage
	Amount	Amount	Change
Revenues			
Taxes and payments in lieu of taxes	\$ 25,516,653	\$ 24,981,359	2.14 %
Tuition	2,739,118	2,446,199	11.97 %
Earnings on investments	218,121	225,606	(3.32) %
Intergovernmental	30,814,542	30,649,956	0.54 %
Other revenues	1,556,099	1,071,888	45.17 %
Total	\$ 60,844,533	\$ 59,375,008	2.47 %
<b>Expenditures</b>			
Instruction	\$ 39,684,438	\$ 38,531,092	2.99 %
Support services	20,092,026	19,133,134	5.01 %
Operation of non-instructional services	188,809	151,915	24.29 %
Extracurricular activities	919,673	778,791	18.09 %
Facilities acquisition and construction	11,146	8,485	31.36 %
Total	\$ 60,896,092	\$ 58,603,417	3.91 %

Tax revenues increased from fiscal year 2015 to fiscal year 2016 due to an increase in the amount of tax advances available. The amount of taxes collected and available as an advance is recorded as tax revenue on the modified accrual basis of accounting and can vary depending upon when tax bills are sent out by the County Auditor. Tuition revenue increased due to an increase in open enrollment foundation revenues and tuition received from other districts. Earnings on investments decreased from fiscal year 2015 to fiscal year 2016 due a decrease in funds being invested. Intergovernmental revenues increased primarily due to increases in State foundation revenues. Expenditures related to instruction and support services increased primarily due to fluctuations in personal costs. All other revenues and expenditures remained consistent with the prior year.

#### General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2016, the District amended its general fund budget numerous times. For the general fund, final budgeted revenues and other financing sources were \$58,870,756, which was more than the original budget estimate of \$58,635,267. This increase is due to higher estimates regarding property taxes. Actual revenues and other financing sources for fiscal year 2016 were \$59,973,328. This represents a \$1,102,572 increase from final budgeted revenues. The increase was primarily a result of increases in state and federal intergovernmental revenue and refund of prior year expenditures outpacing a decrease in property taxes.

General fund original appropriations (appropriated expenditures plus other financing uses) of \$61,516,267 were increased to \$63,711,267 in the final budget. Actual budget basis expenditures and other financing uses for fiscal year 2016 totaled \$62,271,049, which was \$1,440,218 less than the final budget appropriations. The decrease was primarily a result of decreases in instruction and support service expenditures.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

#### **Capital Assets and Debt Administration**

#### Capital Assets

At the end of fiscal year 2016, the District had \$95,872,056 invested in land, construction in progress, land improvements, buildings and improvements, equipment and furniture and vehicles, net of accumulated depreciation. This entire amount is reported in governmental activities. The following table shows fiscal year 2016 balances compared to 2015:

## Capital Assets at June (Net of Depreciation)

	Governmental Activities		
	2016	2015	
Land	\$ 1,722,570	\$ 1,646,894	
Construction in progress	1,862,968	60,955	
Land improvements	3,053,071	3,238,288	
Buildings and improvements	82,313,846	82,557,868	
Equipment and Furniture	5,075,369	3,728,190	
Vehicles	1,844,232	1,869,787	
Total	\$ 95,872,056	\$ 93,101,982	

Total additions to capital assets for fiscal year 2016 were \$5,594,558. The overall increase in capital assets of \$2,770,074 is primarily due to additions relating to ongoing projects exceeding the recording of \$2,819,949 in depreciation expense and disposals of \$4,535 (net of accumulated depreciation) for fiscal year 2016. See Note 9 to the basic financial statements for additional information on the District's capital assets.

#### Debt Administration

At June 30, 2016, the District had \$48,151,037 in general obligation bonds outstanding. Of this total, \$1,395,000 is due within one year and \$46,756,037 is due in greater than one year. The following table summarizes the debt obligations outstanding.

#### **Outstanding Debt, at Year End**

	Governmental	Governmental
	Activities	Activities
	2016	2015
General obligation bonds	\$ 48,151,037	\$ 49,270,593

See Note 10 to the basic financial statements for additional information on the District's debt administration.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

#### **Current Financial Related Activities**

The District has carefully managed its finances in order to maximize the dollars spent on educating students; however, unpredictable costs and limited revenue streams continue to make it difficult. The biggest challenge for the District is the uncertainty of the economy and the impact it will have on revenues, especially the revenue that comes from the State of Ohio, which amounts to nearly one-half of the District's general fund. The District is also paying special attention to its enrollment to attract and retain students while adjusting operations accordingly. For instance the District has added modular classrooms and teachers to reduce teacher ratios in the primary grades.

The passage of a 2.5 mill permanent improvement levy in May 2006 has helped to alleviate many facility needs. However, the biggest improvement to the District's facility needs was made possible in November 2011, when voters approved a 4.3 mill, 28-year bond levy which will pay the debt service on \$54,195,000 that was needed to cover the local share and locally funded initiatives to build two middle schools and a career tech building. The District has consolidated the south, north, and east campuses of Millstream Career Center into one location. The District has also converted its three small middle schools into two larger, more efficient, newly constructed middle schools. The Millstream Career Center was completed for the start of the 2012-13 school year while both new middle schools accepted students in January 2013.

In May 2015 the District's five-year 5.9 mill operating levy collections was renewed on a continuous basis. This levy amounts to \$4.5 million per year. The District also has a five-year 4.9 mill operating levy for which collections will end in December 2017.

In order to meet ongoing challenges, the District developed and implemented a fiscal health plan in 2006 and continues to update it with the last update taking place in June, 2015. The plan includes strategies for diversifying revenue sources and reducing expenditures. The District will continue to implement and update the plan as it remains fiscally vigilant and works through the present national economic recession. The District has committed itself to educational and financial excellence, and the District's Board and management team will continue to work with the community it serves to provide the best education and the best resources possible to its students, teachers, employees and community.

#### **Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Mr. Michael T. Barnhart, Treasurer, Findlay City School District, 1100 Broad Avenue, Findlay, Ohio 45840.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2016

Net change in fund balances - total governmental funds	,		\$ (2,909,961)
Amounts reported for governmental activities in the statement of activities are different because:			
Governmental funds report capital outlays as expenditures.  However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.			
Capital asset additions Current year depreciation Total	\$	5,594,558 (2,819,949)	2,774,609
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net position.			(4,535)
Governmental funds report expenditures for inventory when purchased. However, in the statement of activities, they are reported as an expense when consumed.			7,806
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.			
Property taxes Tuition Earnings on investments Intergovernmental		(342,232) (26,337) (14,007) (351,346)	
Total  Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position. Principal payments during the year were:			(733,922) 1,245,000
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in additional interest being reported in the statement of activities:  Decrease in accrued interest payable  Accreted interest on capital appreciation bonds  Amortization of bond premiums  Total		3,551 (125,444) 18,303	(103,590)
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of activities reports these amounts as deferred outflows.			5,199,837
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.			(4,251,892)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.			(21,080)
An internal service fund used by management to charge the costs of insurance to individual funds is not reported in the district-wide statement of activities. Governmental fund			
expenditures and the related internal service fund revenues are eliminated. The net expense of the internal service fund is allocated among the governmental activities.			(795,499)
Change in net position of governmental activities			\$ 406,773

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Findlay City School District (the "District") is located in Hancock County in northwest Ohio. The District is located in a prosperous community, which includes most of the City of Findlay.

The District operates under a locally elected, five-member Board and provides educational services as authorized by its charter or further mandated by State and/or federal agencies. The Board controls the District's fourteen instructional facilities and one support facility staffed by 433 certified teaching personnel, 430 classified support personnel, and 49 administrators.

The District is organized under Sections 2 and 3, Article VI of the Constitution of the State of Ohio. Under such laws, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the District is vested in the Board of Education, consisting of five members elected at large for staggered four year terms.

It currently operates 9 elementary schools, 2 middle schools, 1 high school, and a vocational center, to provide services to approximately 5,885 students in grades K-12 and various community groups.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

#### A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "<u>The Financial Reporting Entity</u>" as amended by GASB Statement No. 39, "<u>Determining Whether Certain Organizations Are Component Units</u>" and GASB Statement No. 61, "<u>The Financial Reporting Entity</u>: <u>Omnibus an amendment of GASB Statements No. 14 and No. 34</u>". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has one component unit. The basic financial statements of the reporting entity include only those of the District (the primary government) and the component unit.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following organizations are described due to their relationship to the District:

#### DISCRETELY PRESENTED COMPONENT UNIT

#### Findlay Digital Academy

The Findlay Digital Academy (the "Academy") is a Conversion Community School established pursuant to Ohio Revised Code, Chapter 3314. The Academy is sponsored by the District to serve ninth through twelfth grade students living in the District. The Academy's mission is to enhance and facilitate student learning by combining state-of-the-art digital curriculum with access to local school resources to complement that instruction and prepare students to become lifelong learners and productive citizens. The Academy is governed by a seven-member Board of Directors, the majority of which are public officials or public sector employees who have a professional interest in furthering the establishment of the Academy, the District's Superintendent, who serves as the non-voting Board President, and can also include one or more parents of enrolled students and community civic leaders. The Academy's Treasurer serves as a non-voting ex-officio member of the Board. The Academy issues a publicly available, stand-alone financial report that includes basic financial statements and supplementary information. This report may be obtained by writing to Greg Spiess, Treasurer, Findlay Digital Academy at 7746 County Road 140, Findlay, Ohio 45840.

The Academy is included as a component unit of the District because the District appoints the Academy's Board of Directors. Therefore, the District is able to significantly influence the programs or services performed or provided by the organization. In addition, through contractual arrangements, the District is able to access a significant portion of the Academy's resources. Based on the District's relationship with the Academy and due to the significant resources and services provided by the District to the Academy, it would be misleading to exclude the Academy from the District's financial reporting entity and as such, the Academy warrants inclusion in the District's financial statements as a discretely presented component unit.

#### JOINTLY GOVERNED ORGANIZATION

#### Northwest Ohio Area Computer Services Cooperative

The District is a participant in the Northwest Ohio Area Computer Services Cooperative (NOACSC) which is a computer consortium. NOACSC is an association of public school districts within the boundaries of Allen, Hancock, Paulding, Putnam, and Van Wert counties, and the cities of St. Marys and Wapakoneta. The organization was formed for the purpose of applying modern technology (with the aid of computers and other electronic equipment) to administrative and instructional functions among member school districts.

The Governing Board of NOACSC consists of two representatives from each county elected by majority vote of all charter member school districts within each county plus one representative from the fiscal agent school district. Financial information can be obtained from Ray Burden, who serves as Director, at 645 South Main Street, Lima, Ohio 45804.

#### PUBLIC ENTITY RISK POOL

#### Workers' Compensation Retrospective Ratings Plan

The District participates in the Bureau of Workers' Compensation Retrospective Rating Plan. See Note 11.B. for further details on this alternative rating plan.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### **B.** Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

#### GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows and liabilities and deferred inflows is reported as fund balance. The following is the District's major governmental fund:

<u>General fund</u> - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition of construction of capital facilities and other capital assets, (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects, (c) financial resources that are restricted, committed, or assigned to expenditure for principal and interest and (d) resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the District's programs.

#### PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector. The District has no enterprise funds. The following is a description of the District's internal service fund:

<u>Internal service fund</u> - The internal service fund is used to account for the financing of services provided by one fund or department to other funds or departments of the District, or to other governments, on a cost-reimbursement basis. The only internal service fund of the District accounts for a self-insurance program which provides insurance benefits to employees.

#### FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. The District's fiduciary funds include a private-purpose trust fund and agency funds. Trust funds account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's programs. The District's only trust fund is a private-purpose trust which accounts for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds account for student activities and activities of individuals, private organizations, and other governmental units.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### C. Measurement Focus

<u>Government-wide Financial Statements</u> - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund operating activity is eliminated to avoid overstatement of revenues and expenses.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows and all liabilities and deferred inflows associated with the operation of the District are included on the statement of net position.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column and all nonmajor funds are aggregated into one column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows and current liabilities and deferred inflows generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and deferred outflows and all liabilities and deferred inflows associated with the operation of this fund are included on the statement of fund net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's internal service fund are charges for services. Operating expenses for internal service funds include claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The private-purpose trust fund is reported using the economic resources measurement focus. The agency fund does not report a measurement focus as it does not report operations.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

<u>Revenues - Exchange and Nonexchange Transactions</u> - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6).

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

<u>Deferred Outflows of Resources and Deferred Inflows of Resources</u> - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, see Note 12 for deferred outflows of resources related the District's net pension liability.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance fiscal year 2017 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

For the District, see Note 12 for deferred inflows of resources related to the District's net pension liability. This deferred inflow of resources is only reported on the government-wide statement of net position.

<u>Expenses/Expenditures</u> - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the fiscal year is reported in the financial statements as an expense with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

#### E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control is at the fund and first two digits of function level for the general fund and at the fund level for all other funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education.

#### Tax Budget:

A budget of estimated cash receipts is submitted to the County Auditor, as Secretary of the County Budget Commission, by January 20 of each year, for the period July 1 to June 30 of the following year.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### **Estimated Resources:**

By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to July 1, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the original and final amended certificate of estimated resources issued during the fiscal year.

#### **Appropriations:**

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at the legal level of control. Any revisions that alter the first two digits of function level in the general fund or the fund level for all other funds must be approved by the Board of Education.

The Board may pass supplemental fund appropriations as long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, all supplemental appropriations were legally enacted.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budget amounts reflect the first appropriation for that fund which covered the entire fiscal year, including amounts automatically carried over from prior year. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

Unencumbered appropriations lapse at year end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Cash disbursements may not legally exceed budgeted appropriations at the legal level of control.

#### F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the basic financial statements.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

During fiscal year 2016, investments were limited to nonnegotiable certificates of deposits, negotiable certificates of deposit, federal agency securities, U.S. government money market mutual funds, and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as nonnegotiable certificates of deposit, are reported at cost.

The District has invested funds in STAR Ohio during fiscal year 2016. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2016.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund or the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2016 amounted to \$218,121, which includes \$61,117 assigned from other District funds.

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at fiscal year-end is provided in Note 4.

#### G. Inventory

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis. Inventories are accounted for using the purchase method on the governmental fund financial statements and using the consumption method on the government-wide financial statements.

Inventory consists of general supplies, purchased food and donated food.

#### H. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and deletions during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$2,500. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental
	Activities
Description	Estimated Lives
Land improvements	20 years
Buildings and improvements	25 - 50 years
Equipment and furniture	5 - 20 years
Vehicles	5 - 10 years

#### I. Compensated Absences

Compensated absences of the District consist of vacation leave and sick leave to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination (severance) payments. A liability for sick leave is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at June 30, 2016, by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for sick leave on employees expected to become eligible to retire in the future, employees age 50 with at least 10 years of service and any employees with at least 15 years of service regardless of their age were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2016 and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

#### J. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the internal service fund are reported on the proprietary fund financial statements.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, loans and capital lease obligations are recognized as a liability on the fund financial statements when due.

#### K. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable.

<u>Restricted</u> - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Board of Education has by resolution authorized the treasurer to assign fund balance, the Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### L. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents amounts restricted for food service operations and a special trust.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

#### M. Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets on the balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed.

#### N. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

#### O. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Interfund services provided and used are not eliminated in the government-wide statement of activities. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in the proprietary fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic financial statements.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### P. Parochial Schools

St. Michael's Elementary and Heritage Christian School are operated within the District boundaries. Current state legislation provides funding to state chartered parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial school. The receipt and expenditure of these state monies by the District are reflected in a nonmajor governmental fund for financial reporting purposes.

#### Q. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. During fiscal year 2016, the District reported a special item of \$735,957 as a repayment of construction funds that were due back to the Ohio Facilities Construction Commission (OFCC) as a result of the closeout of the District's project.

#### R. Bond Premium

Bond premiums are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds.

On the government-wide and fund financial statements, bond issuance costs are expensed during the fiscal year in which they are incurred.

#### S. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

#### T. Fair Market Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

#### A. Change in Accounting Principles

For fiscal year 2016, the District has implemented GASB Statement No. 72, "Fair Value Measurement and Application", GASB Statement No. 73 "Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68", GASB Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments", and GASB Statement No. 79, "Certain External Investment Pools and Pool Participants".

GASB Statement No. 72 addresses accounting and financial reporting issues related to fair value measurement. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The implementation of GASB Statement No. 72 did not have an effect on the financial statements of the District.

GASB Statement No. 73 improves the usefulness of information about pensions included in the general purposes external financial reports of state and local governments for making decisions and assessing accountability. The implementation of GASB Statement No. 73 did not have an effect on the financial statements of the District.

GASB Statement No. 76 identifies - in the context of the current governmental financial reporting environment - the hierarchy of generally accepted accounting principles (GAAP). This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. The implementation of GASB Statement No. 76 did not have an effect on the financial statements of the District.

GASB Statement No. 79 establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The implementation of GASB Statement No. 79 did not have an effect on the financial statements of the District.

#### **B.** Deficit Fund Balance

Fund balances at June 30, 2016 included the following individual fund deficit:

Nonmajor fund	<u>Deficit</u>
IDEA Part-B	\$ 195,493
Vocational education	26,548
Improving teacher quality	32,495

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 4 - DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than five years from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasury Asset Reserve of Ohio (STAR Ohio) investment pool;
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)**

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

#### A. Cash on Hand

At fiscal year end, the District had \$3,427 in undeposited cash on hand which is included on the financial statements of the District as part of "equity in pool cash and investments".

#### **B.** Deposits with Financial Institutions

At June 30, 2016, the carrying amount of all District deposits was \$2,129,360. A liability was not recorded for the negative carrying amount of deposits because there was no actual overdraft, due to the "zero-balance" of the District's bank accounts. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2016, \$1,159,658 of the District's bank balance of \$3,011,456 was covered by the Federal Deposit Insurance Corporation, while \$1,851,798 was exposed to custodial risk as discussed below.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)**

#### C. Investments

As of June 30, 2016, the District had the following investments and maturities:

			Investment Maturities							
		Fair	6	months or		7 to 12	13 to 18	19 to 24		More than
<u>Investment</u>	_	Value	_	less	_	months	months	months	-	24 months
FNMA	\$	2,452,748	\$	-	\$	-	\$ -	\$ 1,000,162	\$	1,452,586
FHLB		3,602,488		-		-	-	-		3,602,488
FFCB		5,705,777		-		-	-	-		5,705,777
FHLMC		1,753,522		-		803,256	-	-		950,266
U.S. Government money markets		385,495		385,495		-	-	-		-
Negotiable CD's		7,336,648		-		150,432	348,327	2,356,031		4,481,858
STAR Ohio		8,067		8,067	_					
Total	\$	21,244,745	\$	393,562	\$	953,688	\$ 348,327	\$ 3,356,193	\$	16,192,975

The weighted average maturity of investments is 3.44 years.

The District's investments in federal agency securities, negotiable certificates of deposit and U.S. Government money markets are valued using quoted market prices (Level 1 inputs).

Interest Rate Risk: Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. The District's investment policy addresses interest rate risk by requiring the consideration of cash flow requirements and market conditions in determining the term of an investment and limiting investment portfolio maturities to five years or less.

Credit Risk: The District's investments, except for STAR Ohio, were rated AA+ and AAA by Standard & Poor's and Moody's Investor Services, respectively. Standard & Poor's has assigned STAR Ohio an AAAm money market rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The negotiable CDs are fully covered by the FDIC. The District's investment policy does not specifically address credit risk beyond the adherence to Chapter 135 of the Ohio Revised Code, of which all relevant provisions are described previously in this note disclosure (Note 4).

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent, but not in the District's name. State statute prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee. The District's investment policy does not specifically address custodial credit risk beyond the adherence to this requirement.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)**

Concentration of Credit Risk: The District's investment policy addresses concentration of credit risk by requiring investments to be diversified in order to reduce the risk of loss resulting from the over concentration of assets in a specific type of security, the erosion of market value, or by default. However, the District's investment policy does not place any limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2016:

		Fair	Percent
<u>Investment</u>	_	Value	of Total
FNMA	\$	2,452,748	11.55
FHLB		3,602,488	16.96
FFCB		5,705,777	26.86
FHLMC		1,753,522	8.25
U.S. Government money markets		385,495	1.81
Negotiable CD's		7,336,648	34.53
STAR Ohio		8,067	0.04
Total	\$	21,244,745	100.00

#### D. Reconciliation of Cash and Investments to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the note disclosure above to cash and investments as reported on the statement of net position as of June 30, 2016:

Cash and investments per note disclosure	
Carrying amount of deposits	\$ 2,129,360
Investments	21,244,745
Cash on hand	 3,427
Total	\$ 23,377,532
Cash and investments per statement of net position	
Governmental activities	\$ 23,222,908
Private-purpose trust funds	31,924
Agency funds	 122,700
Total	\$ 23,377,532

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 5 - INTERFUND TRANSACTIONS**

**A.** Interfund transfers for the fiscal year ended June 30, 2016 consisted of the following transfers, as reported in the fund financial statements:

Amount

Transfers from nonmajor governmental fund to:

Nonmajor governmental funds

\$ 2,256,437

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The \$25,377 transfer is from the permanent improvement fund (a nonmajor governmental fund) to the classroom facilities maintenance fund (a nonmajor governmental fund) in accordance with the OFCC agreement requirement.

As a result of the closeout of the District's OFCC project, an additional \$751,411 was transferred from the classroom facilities fund (a nonmajor governmental fund) to the permanent improvement fund (a nonmajor governmental fund) and \$1,479,649 was transferred from the classroom facilities fund (a nonmajor governmental fund) to the building fund (a nonmajor governmental fund).

All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16. Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

**B.** Interfund balances at June 30, 2016, as reported on the fund statements, consist of the following amounts due to/from other funds:

Receivable fund	Payable fund	Amount
General fund	Nonmajor governmental funds	\$ 16,128

The primary purpose of the interfund balances is to cover negative cash balances in specific funds where revenues were requested, but were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received.

Interfund balances between governmental funds are eliminated on the government-wide financial statements.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 6 - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2016 represent the collection of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed values as of January 1, 2015, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2016 represent the collection of calendar year 2015 taxes. Public utility real and personal property taxes received in calendar year 2016 became a lien on December 31, 2014, were levied after April 1, 2015, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Hancock County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2016, are available to finance fiscal year 2016 operations. The amount available as an advance at June 30, 2016 was \$3,913,614 in the general fund, \$481,095 in the bond retirement fund (a nonmajor governmental fund) and \$286,499 in the permanent improvement fund (a nonmajor governmental fund). This amount is recorded as revenue. The amount available for advance at June 30, 2015 was \$3,821,312 in the general fund, \$478,558 in the bond retirement fund (a nonmajor governmental fund) and \$284,549 in the permanent improvement fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2016 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 6 - PROPERTY TAXES - (Continued)**

The assessed values upon which the fiscal year 2016 taxes were collected are:

	2015 Second			2016 First			
		Half Collect	ions	Half Collec	Half Collections		
	_	Amount	Percent	Amount	Percent		
Agricultural/residential							
and other real estate	\$	739,502,700	95.64	\$ 744,674,000	95.06		
Public utility personal		33,679,160	4.36	38,702,510	4.94		
Total	\$	773,181,860	100.00	\$ 783,376,510	100.00		
Tax rate per \$1,000 of assessed valuation for:							
General operations		\$58.25		\$58.25			
Permanent improvements		2.50		2.50			
Bond retirement		4.20		4.20			

#### **NOTE 7 - PAYMENT IN LIEU OF TAXES**

According to State law, Hancock County has entered into agreements with property owners under which Hancock County has granted property tax abatements to those property owners and agreed to construct certain infrastructure improvements. The property owners have agreed to make payments to Hancock County to help pay the costs of the infrastructure improvements. The amount of those payments generally reflects all or a portion of the property taxes which the property owners would have paid if their taxes had not been abated. The property owners' contractual promise to make these payments in lieu of taxes generally continues until the costs of the improvement have been paid or the agreement expires, whichever occurs first. Future development by those owners or others may result in subsequent agreements to make payments in lieu of taxes and may therefore spread the costs of the improvements to a larger number of property owners. The District received \$170,058 in payments in lieu of taxes during fiscal year 2016, and a receivable of \$133,996 has been reported on the statement of net position.

#### **NOTE 8 - RECEIVABLES**

Receivables at June 30, 2016 consisted of property taxes, payments in lieu of taxes (PILOT), accounts (billings for user charged services and student fees), accrued interest and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds. A summary of the receivables reported on the statement of net position follows:

#### **Governmental activities:**

Property taxes	\$ 31,015,242
PILOT	133,996
Accounts	16,045
Intergovernmental	264,548
Accrued interest	75,123
Total	\$ 31,504,954

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 8 - RECEIVABLES - (Continued)**

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected in the subsequent year.

#### **NOTE 9 - CAPITAL ASSETS**

Capital asset activity for the fiscal year ended June 30, 2016 was as follows. Beginning balances have been reclassified to correctly state asset balances between asset classes. There was no effect on net position.

	(Restated)			
	Balance			Balance
Governmental activities:	06/30/15	Additions	<u>Deductions</u>	06/30/16
Capital assets, not being depreciated:				
Land	\$ 1,646,894	\$ 75,676	\$ -	\$ 1,722,570
Construction in progress	60,955	1,802,013		1,862,968
Total capital assets, not being depreciated	1,707,849	1,877,689		3,585,538
Capital assets, being depreciated:

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)**

See Note 12 for details of the Net Pension Liability.

Compensated absences will be paid out of the fund from which the employee is paid, which is primarily the general fund for the District.

#### **B.** General obligation bonds

On January 21, 2010, the District issued general obligation bonds (Series 2010, School Facilities Improvement Bonds) for construction and renovation of District buildings as part of the Ohio School Facilities Commission project. These bonds are general obligations of the District, for which its full faith and credit is pledged for repayment. On the fund financial statements, payments of principal and interest relating to these bonds will be recorded as expenditures in the bond retirement fund (a nonmajor governmental fund). On the government-wide financial statements, principal payments reduce the liability reported on the statement of net position.

This issue was comprised of current interest bonds, present value \$53,975,000, and capital appreciation bonds, par value \$217,135. The capital appreciation bonds mature December 1, 2017 (stated interest 20%) at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the capital appreciation bonds is \$965,000. Total accreted interest of \$508,902 has been included on the statement of net position at June 30, 2016.

Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final maturity stated on this issue is December 1, 2037.

Principal and interest requirements to retire the long-term bonds are as follows:

Fiscal Year	Cui	rent Interest Bo	onds	Capital	Appreciation	n Bonds
Ending June 30,	<u>Principal</u>	Interest	Total	Principal	Interest	Total
2017	\$ 1,395,000	\$ 2,715,143	\$ 4,110,143	\$ -	\$ -	\$
2018	470,000	2,676,440	3,146,440	217,135	747,865	965,000
2019	1,450,000	2,633,347	4,083,347	-	-	
2020	1,555,000	2,563,818	4,118,818	-	-	
2021	1,600,000	2,488,475	4,088,475	-	-	
2022 - 2026	9,370,000	11,078,209	20,448,209	-	-	
2027 - 2031	11,385,000	8,100,068	19,485,068	-	-	
2032 - 2036	13,845,000	4,217,968	18,062,968	-	-	
2037 - 2038	6,355,000	401,094	6,756,094			
Total	\$ 47,425,000	\$ 36,874,562	\$ 84,299,562	\$ 217,135	\$ 747,865	\$ 965,000

# C. Legal Debt Margins

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

# **NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)**

The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations.

The effects of these debt limitations at June 30, 2016 are a voted debt margin of \$24,217,329 (including available funds of \$1,355,578), and an unvoted debt margin of \$783,377.

#### **NOTE 11 - RISK MANAGEMENT**

#### A. Comprehensive

The District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2016, the District contracted with the McGowan Governmental Underwriters for property and general liability insurance.

Professional liability is provided by the Argonaut Insurance Company with a \$7,000,000 annual aggregate (includes \$4,000,000 umbrella coverage) / \$1,000,000 single occurrence limit and a \$5,000 deductible. Vehicles are covered by the Argonaut Insurance Company and carry a \$1,000 deductible for comprehensive and a \$1,000 deductible for collision. Automobile liability has a \$1,000,000 combined single limit of liability.

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant reduction in the amount of insurance coverage from last year.

#### **B.** Workers' Compensation

The District has participated in the Ohio Bureau of Workers' Compensation (Bureau) Retrospective Rating Plan since 2006. The alternative rating program requires the District to pay only administrative charges to the Bureau, and in turn the District assumes the responsibility of paying all claims incurred during the policy period for up to ten years. After the tenth year, the Bureau will assume any existing claim for its duration. The District's stop-loss coverage through the plan is limited to \$200,000 per claim stop-loss coverage with an annual aggregate.

The District's Workers' Compensation program is accounted for in the general fund which pays for all claims, claim reserves and administrative costs of the program. The general fund generates revenues by charging each fund a percentage rate determined by the Bureau for the payroll during the reporting period. The claims liability is recorded based on an actuarial determination of future claims. The claims liability is expected to be paid within one year. Changes in claims activity for current and prior fiscal year are as follows:

Fiscal Year	Balance at Beginning of Year	Current Year Claims and Changes in Estimates	Claims Payments	Balance at End of Year
2016	\$ 8,506	\$ 24,693	\$ (21,400)	\$ 11,799
2015	41,106	17.760	(50,360)	8,506

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 11 - RISK MANAGEMENT - (Continued)**

# C. Employee Health Insurance

The District's health insurance is funded through a self-insurance program. The District maintains a self-insurance internal service fund to account for and finance its uninsured risks of loss in this program. The District offers three comprehensive medical/surgical plans: Original Plan, Option B Plan and Option C (HSA) Plan. About half participate in the original plan while the other half participated in Option C and very few are on Option B. The Original Plan retains a deductible of \$200 for family coverage and \$100 for single coverage for all out of network providers. The District's Original Plan is a preferred Provider Program through the Anthem network, which has co-pays ranging from \$20 to \$50. Maximum out-of-pocket expenses for employees are \$900 in addition to the deductibles. The District purchases stop-loss coverage of \$125,000 per employee. The District and employees pay into the self-insurance internal service fund. The District's monthly portion of the original plan is \$1,270 for family coverage and \$488 for single coverage. The employee's monthly portion of the majority employees is \$317 for family coverage and \$122 for single coverage. For Option C (HSA) the District's monthly portion is \$1,032 for family coverage and \$397 for single coverage. However, employees are responsible for a \$2,000 per individual deductible with a \$4,000 per family out-of-pocket maximum. The premiums are paid by the fund that pays the salary for the employees and is based on historical cost information.

Dental and vision coverage is also provided on self-insured basis through Employee Benefit Consultants (EBC). Premiums for its coverage are \$96.06 monthly for family coverage and \$36.94 for single coverage. The District is responsible for payment of all claim amounts in excess of the employee payment percentages established in the plan document.

The claims payable liability of \$1,711,001 reported in the Employee Benefits Self Insurance fund at June 30, 2016 is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", and as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability be reported for unpaid claims costs, including estimates of costs relating to incurred but not reported claims. The claims liability is based on an estimate supplied by the District's third party administrator. Changes in the claims payable liability for the current and prior fiscal years are as follows:

Fiscal	Balance at	Current Year Claims	Claims	Balance at
Year	Beginning of Year	and Changes in Estimates	Payments	End of Year
2016	\$ 1,524,190	\$ 6,115,323	\$ (5,928,512)	\$ 1,711,001
2015	1,442,681	5,968,948	(5,887,439)	1,524,190

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 12 - DEFINED BENEFIT PENSION PLANS**

#### Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *pension and postemployment benefits payable* on both the accrual and modified accrual bases of accounting.

# Plan Description - School Employees Retirement System (SERS)

Plan Description –District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <a href="https://www.ohsers.org">www.ohsers.org</a> under Employers/Audit Resources.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)**

Age and service requirements for retirement are as follows:

	Eligible to	Eligible to
	Retire on or before	Retire after
	August 1, 2017 *	August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

<sup>\*</sup> Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the entire 14 percent was allocated to pension, death benefits, and Medicare B and no portion of the employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$1,386,934 for fiscal year 2016. Of this amount, \$139,810 is reported as pension and postemployment benefits payable.

### Plan Description - State Teachers Retirement System (STRS)

Plan Description –District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <a href="https://www.strsoh.org">www.strsoh.org</a>.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)**

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$3,812,903 for fiscal year 2016. Of this amount, \$645,700 is reported as pension and postemployment benefits payable.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

# NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportionate share of the net pension liability	\$ 16.648.000	\$ 68,381,707	\$ 85,029,707
Proportion of the net pension	φ 10,010,000	φ σσ,εσ1,.σ.	φ σε,σ23,7σ7
liability	0.291758100%	0.247427440%	
Pension expense	\$ 1,170,327	\$ 3,081,565	\$ 4,251,892

At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred outflows of resources			
Differences between expected and			
actual experience	\$ 265,696	\$3,115,754	\$3,381,450
Changes in proportionate share	318,736	206,770	525,506
District contributions subsequent to the			
measurement date	1,386,934	3,812,903	5,199,837
Total deferred outflows of resources	\$1,971,366	\$7,135,427	\$9,106,793
<b>Deferred inflows of resources</b> Net difference between projected and			
actual earnings on pension plan investments	\$ 500,408	\$4,887,425	\$5,387,833
Total deferred inflows of resources	\$ 500,408	\$4,887,425	\$5,387,833

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

\$5,199,837 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Eigeal Voor Ending June 20.	 SERS	STRS	 Total
Fiscal Year Ending June 30:			
2017	\$ (82,630)	\$ (1,048,482)	\$ (1,131,112)
2018	(82,630)	(1,048,482)	(1,131,112)
2019	(82,631)	(1,048,482)	(1,131,113)
2020	 331,915	 1,580,545	1,912,460
Total	\$ 84,024	\$ (1,564,901)	\$ (1,480,877)

#### **Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation 3.25 percent

Future Salary Increases, including inflation 4.00 percent to 22.00 percent

COLA or Ad Hoc COLA 3 percent

Investment Rate of Return 7.75 percent net of investments expense, including inflation

Actuarial Cost Method Entry Age Normal

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return		
Cash US Stocks	1.00 % 22.50	0.00 % 5.00		
Non-US Stocks	22.50	5.50		
Fixed Income Private Equity	19.00 10.00	1.50 10.00		
Real Assets Multi-Asset Strategies	10.00 15.00	5.00 7.50		
Total	100.00 %			

**Discount Rate** - The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)**

	Current			
	1% Decrease	Discount Rate	1% Increase	
	(6.75%)	(7.75%)	(8.75%)	
District's proportionate share				
of the net pension liability	\$ 23,084,794	\$ 16,648,000	\$ 11,227,689	

### **Actuarial Assumptions - STRS**

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments	2 percent simple applied as follows: for members retiring before
(COLA)	August 1, 2013, 2 percent per year; for members retiring August 1, 2013,
	or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return		
Domestic Equity	31.00 %	8.00 %		
International Equity	26.00	7.85		
Alternatives	14.00	8.00		
Fixed Income	18.00	3.75		
Real Estate	10.00	6.75		
Liquidity Reserves	1.00	3.00		
Total	100.00 %			

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Discount Rate - The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	Current			
	1% Decrease	Discount Rate	1% Increase	
	(6.75%)	(7.75%)	(8.75%)	
District's proportionate share				
of the net pension liability	\$ 94,987,349	\$ 68,381,707	\$ 45,882,669	

# **NOTE 13 - POSTEMPLOYMENT BENEFITS**

#### A. School Employees Retirement System

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at <a href="https://www.ohsers.org">www.ohsers.org</a> under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, number of qualified years of service, Medicare eligibility and retirement status.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 13 - POSTEMPLOYMENT BENEFITS - (Continued)**

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2016, none of the employer contribution was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2016, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the District's surcharge obligation was \$147,572.

The District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$147,572, \$211,212, and \$143,976, respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

#### **B.** State Teachers Retirement System

Plan Description – The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting <a href="https://www.strsoh.org">www.strsoh.org</a> or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal years 2016 and 2015, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$0, \$0, and \$253,797, respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 14 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Investments are reported at fair value (GAAP basis) rather than cost (budget basis); and,
- (e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

# **Net Change in Fund Balance**

	General fund
Budget basis	\$ (2,297,721)
Net adjustment for revenue accruals	(96,710)
Net adjustment for expenditure accruals	847,233
Net adjustment for other sources/uses	(512,008)
Funds budgeted elsewhere*	(123,070)
Adjustment for encumbrances	2,130,717
GAAP basis	\$ (51,559)

\*Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the special trust fund, the uniform school supplies fund, the rotary fund, the public school support fund, the special enterprises fund and management information system fund.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 15 - CONTINGENCIES**

#### A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds; however, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District at June 30, 2016.

#### B. Litigation

The District is not involved in pending litigation that would have a material effect on the financial condition of the District.

#### C. Foundation Funding

District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2015-2016 school year, traditional Districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2016 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

# **NOTE 16 - SET-ASIDES**

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

		Capital provements
Set-aside balance June 30, 2015	\$	-
Current year set-aside requirement		970,509
Current year offsets	(	(1,946,882)
Total	\$	(976,373)
Balance carried forward to fiscal year 2017	\$	_
Set-aside balance June 30, 2016	\$	_

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 17 - OTHER COMMITMENTS**

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

		Year-End
Fund Type	En	<u>icumbrances</u>
General fund	\$	1,900,691
Nonmajor governmental funds		560,844
Total	\$	2,461,535

#### NOTE 18 - FINDLAY DIGITAL ACADEMY

Findlay Digital Academy (the "Academy") is a Conversion Community School established pursuant to Ohio Revised Code Chapter 3314, and sponsored by the Findlay City Schools (FCS) to serve ninth through twelfth grade students living in the Findlay City School District. The Academy's mission is to enhance and facilitate student learning by combining state-of-the-art digital curriculum with access to local school resources to complement that instruction and prepare students to become lifelong learners and productive citizens.

# A. Description of the Digital Academy

The Academy is an innovative program operated as a cooperative effort between the Digital Academy Board of Directors and the Findlay City School District ("FCSD"). The Academy was approved for operation under a contract with the Findlay City School District (the "Sponsor") commencing on April 1, 2004 and expiring on June 30, 2008. Another contract was signed in June 2008 that went through June 30, 2013. In June 2013, the Academy approved the current contract with the Sponsor that begins July 1, 2013 and expires June 30, 2018. The Academy enrolled its first students in January 2005. The Sponsor is responsible for evaluating the performance of the Academy and has the authority to deny renewal of the contract at its expiration or terminate the contract prior to its expiration.

The Academy is governed by a seven-member Board of Directors. The majority of the Board is composed of public officials or public sector employees who have a professional interest in furthering the establishment of the Academy. The Board may also include one or more parents of enrolled students and community civic leaders. The FCSD Treasurer serves as a Sponsor Representative.

The Academy uses distance-learning technology to deliver instruction via computers to students, either in their homes or a group-learning environment such as a computer classroom at school. Although the Academy cannot exercise control over the home environments in which instruction will be received, it attempts to take reasonable steps to ensure compliance with health and safety standards deemed available to its students and within the Academy's control.

The Academy has entered into a purchased services agreement contract with the META Solutions ("META") for technology and services. See Note 18.K for detail on the Academy's purchased services agreement contract with META.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 18 - FINDLAY DIGITAL ACADEMY - (Continued)**

# B. Summary of Significant Accounting Policies

The financial statements of the Academy have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units and nonprofit organizations. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Academy's significant accounting policies are described below.

<u>Basis of Presentation:</u> The Academy's basic financial statements consist of a statement of net position; a statement of revenue, expenses, and changes in net position; and a statement of cash flows. Enterprise fund reporting focuses on the determination of the change in net position, financial position, and cash flows.

<u>Measurement Focus:</u> Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities are included on the statement of net position. The statement of changes in net position presents increases (i.e. revenues) and decreases (i.e. expenses) in total net position. The statement of cash flows provides information about how the Academy finances and meets the cash flow needs of its enterprise activities.

<u>Basis of Accounting:</u> Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The Academy's financial statements are prepared using the accrual basis of accounting.

Non-exchange transactions, in which the Academy receives value without directly giving equal value in return, include grants, entitlements, and donations. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Academy must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Academy on a reimbursement basis.

Expenses are recognized at the time they are incurred.

<u>Budgetary Process</u>: Unlike other public schools located in the State of Ohio, community schools are not required to follow budgetary provisions set forth in the Ohio Revised Code Chapter 5705, unless specifically provided in the contract between the Academy and its sponsor. The contract between the Academy and its Sponsor does not prescribe a budgetary process for the Academy; therefore no budgetary information is presented in the financial statements.

<u>Cash and Investments:</u> To improve cash management, cash received by the Academy is pooled and reported as "cash and cash equivalents" or "investments". Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the Academy's records.

During fiscal year 2016, investments were limited to Federal Home Loan Bank (FHLB) bonds, Federal National Mortgage Association (FNMA) bonds, Federal Farm Credit Bank (FFCB), negotiable certificates of deposit (negotiable CD's), and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Investments are reported at fair value which is based on quoted market prices.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 18 - FINDLAY DIGITAL ACADEMY - (Continued)**

The Academy has invested funds in STAR Ohio during fiscal year 2016. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2016.

For presentation on the financial statements, investments with original maturities of three months or less at the time they are purchased by the Academy are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments. Investments are further classified on the statement of net position as either current or non-current. Current investments have a maturity date in the subsequent fiscal year while non-current investments have a maturity date beyond the subsequent fiscal year.

At June 30, 2016, investments are reported at fair value. The fluctuation in the fair value of investments is reported as a component of interest revenue. From June 30, 2015 to June 30, 2016, the fair value of investments increased \$4,712 and accrued interest receivable on investments increased \$1,394. Interest revenue reported on the statement of revenue, expenses and changes in net position was \$9,355 while interest receipts reported on the statements of cash flows was \$13,432. Although the fair value of investments can fluctuate, it's the Academy's policy to hold investments till maturity.

An analysis of the Academy's deposits and investments at fiscal year-end is provided in Note 18.D.

<u>Prepaid Items</u>: Payments made to vendors for services that will benefit periods beyond June 30, 2016, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expense is reported in the year in which services are consumed.

<u>Capital Assets:</u> Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market value as of the date received. The Academy maintains a capitalization threshold of five hundred dollars. The Academy does not possess any infrastructure. Depreciation of furniture and equipment is computed using the straight-line method over an estimated useful life of five years.

<u>Net Position:</u> Net position represents the difference between assets and liabilities. The net position component "investment in capital assets," consists of capital assets, net of accumulated depreciation. The Academy had no outstanding balances of borrowings used for the acquisition, construction or improvement of its capital assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the Academy or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The Academy applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 18 - FINDLAY DIGITAL ACADEMY - (Continued)**

Operating Revenues and Expenses: Operating revenues are those revenues that are generated directly from the primary activities. For the Academy, these revenues are primarily foundation payments from the State. Operating expenses are necessary costs which are incurred to provide the good or service that is the primary activity of the Academy. Revenues and expenses not meeting this definition are reported as non-operating.

<u>Intergovernmental Revenues:</u> The Academy currently participates in the State Foundation Program, the IDEA Part B grant, the Title I School Improvement grant and the Title II Improving Teacher Quality grant. Revenue from the State Foundation Program is recognized as operating revenue in the accounting period in which all eligibility requirements have been met. Amounts awarded under State Foundation Program for fiscal year 2016 school year, excluding all other State and Federal grants, totaled \$1,075,373.

Revenues received from the remaining programs are recognized as non-operating revenues in the accompanying financial statements. Grants and entitlements are recognized as non-operating revenues in the accounting period in which all eligibility requirements have been met. State and Federal grants revenue for fiscal year 2016 was \$101,259.

<u>Estimates</u>: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

<u>Fair Market Value</u>: The Academy categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

#### C. Changes in Accounting Policies

For fiscal year 2016, the Academy has implemented GASB Statement No. 72, "Fair Value Measurement and Application", GASB Statement No. 73 "Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68", GASB Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments", and GASB Statement No. 79, "Certain External Investment Pools and Pool Participants".

GASB Statement No. 72 addresses accounting and financial reporting issues related to fair value measurement. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The implementation of GASB Statement No. 72 did not have an effect on the financial statements of the Academy.

GASB Statement No. 73 improves the usefulness of information about pensions included in the general purposes external financial reports of state and local governments for making decisions and assessing accountability. The implementation of GASB Statement No. 73 did not have an effect on the financial statements of the Academy.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 18 - FINDLAY DIGITAL ACADEMY - (Continued)**

GASB Statement No. 76 identifies - in the context of the current governmental financial reporting environment - the hierarchy of generally accepted accounting principles (GAAP). This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. The implementation of GASB Statement No. 76 did not have an effect on the financial statements of the Academy.

GASB Statement No. 79 establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The implementation of GASB Statement No. 79 did not have an effect on the financial statements of the Academy.

#### D. Deposits and Investments

The Academy's investment policy allows the Treasurer to invest in instruments authorized by Ohio Revised Code Chapter 135. The Academy had the following deposits and investments at year-end:

*Deposits:* At June 30, 2016, the carrying amount of the Academy's deposits was \$137,370. Based on the criteria described in GASB Statement No. 40, "<u>Deposits and Investment Risk Disclosures</u>", as of June 30, 2016, the Academy's bank balance of \$162,838 was completely covered by the FDIC.

Investments: At June 30, 2016, the Academy had the following investment and maturities:

				Investment Maturities									
			61	months or		7 to 12	1	13 to 18		19 to 24	Gr	eater than	
Investment type	<u>_F</u>	air Value		less		months	1	months	_	months	_24	l months	
FNMA	\$	150,068	\$	_	\$	-	\$	-	\$	150,068	\$	-	
FHLB		150,471		-		-		-		150,471		-	
FFCB		174,860		-		-		-		-		174,860	
Negotiable CD		703,547		98,045		200,183		-		-		405,319	
STAR Ohio		262,780		262,780				_					
	\$	1,441,726	\$	360,825	\$	200,183	\$		\$	300,539	\$	580,179	

The weighted average maturity of investments is 1.59 years. Investments in negotiable CD's and federal agency securities can be sold prior to maturity on the secondary market if immediate cash flow is needed.

The Academy's investments in federal agency securities and negotiable certificates of deposit are valued using quoted market prices (Level 1 inputs).

*Interest Rate Risk* - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the investment policy, the Academy manages its exposure to declines in fair value of an investment.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 18 - FINDLAY DIGITAL ACADEMY - (Continued)**

Credit Risk - The Academy's investments in federal agency securities were rated AA+ and Aaa by Standards & Poor's and Moody's Investor Services, respectively. The Academy's investment in STAR Ohio obtained an AAAm money market rating by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized rating agency. The negotiable certificates of deposit were fully covered by the FDIC. The Academy's investment policy does not specifically address credit risk beyond requiring the Academy to only invest in securities authorized by State statute.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Academy will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent. The Academy's investment policy does not specifically address custodial risk beyond the requirement in State statute.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Academy places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the Academy at June 30, 2016:

<u>Investment type</u>	_F	air Value	% of Total
FNMA	\$ 150,068		10.40
FHLB		150,471	10.44
FFCB		174,860	12.13
Negotiable CD		703,547	48.80

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net position as of June 30, 2016:

Cash and investments per note Carrying amount of deposits Investments	\$	137,370 1,441,726
Total	\$	1,579,096
Cash and investments per statement of net position Cash and cash equivalents Investments - current Investments - noncurrent	<u>on</u> \$	400,150 98,045 1,080,901
Total	\$	1,579,096

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

# **NOTE 18 - FINDLAY DIGITAL ACADEMY - (Continued)**

#### E. Receivables

Receivables at June 30, 2016 consisted of accrued interest in the amount of \$4,237 and an intergovernmental receivable in the amount of \$2,548. These receivables are expected to be collected in the subsequent year.

# F. Capital Assets

Capital asset activity for the fiscal year ended June 30, 2016 follows:

	Balance	Additions Reductions		Balance 06/30/16
Capital assets, being depreciated:				
Furniture and equipment	\$ 392,307	\$ 18,977	\$ (77,825)	\$ 333,459
Less: accumulated depreciation	(205,336)	(65,088)	72,275	(198,149)
Capital assets, net	\$ 186,971	\$ (46,111)	\$ (5,550)	\$ 135,310

# G. Risk Management

The Academy is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Academy is covered under the liability and property policies of the Findlay City School District.

Insurance coverage for the Academy follows:

Property:	\$ 187,679,464
General Liability:	
Per Occurrence	1,000,000
Aggregate	3,000,000
Educators Legal Liability	3,000,000

Settled claims have not exceeded commercial insurance coverage in any of the past three fiscal years and there has been no significant reduction in insurance coverage from the previous year.

#### H. Purchased Service Expenses

For fiscal year ended June 30, 2016, purchased services expenses were as follows:

Total	\$ 999,402
Tuition and similar payments	 19,016
Travel mileage/meeting expenses	6,000
Property services	51,055
Professional and technical services	\$ 923,331

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 18 - FINDLAY DIGITAL ACADEMY - (Continued)**

# I. Payments to Sponsor / Related Party Transaction

The Academy has entered into a Sponsorship Contract with the FCSD, its Sponsor, as described in Note 1. The Sponsorship Contract states that the FCSD may direct its Treasurer to serve as the Academy's fiscal officer. For fiscal year 2016, the Academy contracted its Treasurer functions from the Hancock County Educational Service Center. The Treasurer of the Academy performs the following functions for the Academy:

- A. Assumes responsibility for receipt, safekeeping and disbursement of all Academy funds;
- B. Directs and manages all financial accounting programs and systems; and
- C. Completes and files all forms, reports, papers and other requirements as prescribed by the Auditor of State, Department of Education, or other state or local agencies.

In addition, the Sponsorship Contract states that the Academy shall secure the services of an Executive Director who shall be the chief operating officer of the Academy. This position is filled by the retired Secondary Curriculum Director of the Academy's Sponsor, the FCSD.

In addition to the Treasurer, the Academy contracts through the Hancock County Educational Service Center the services of the Academy Coordinator and the Secretary/EMIS Coordinator.

The Sponsor contracts out all employees to the Academy, including the Teachers, except as mentioned above.

During the year ended June 30, 2016, the Academy incurred \$467,209 in expenses payable to its Sponsor, the FCSD, for:

Salaries and benefits	\$ 301,199
Other (computers/rent/supplies)	46
Millstream Career Center	133,776
Sponsor fees	 32,188
Total	\$ 467,209

#### J. Contingencies

Grants: The Academy receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the Academy. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the Academy.

<u>State Funding:</u> The Ohio Department of Education conducts reviews of enrollment data and full-time equivalency (FTE) calculations made by the schools. These reviews are conducted to ensure the schools are reporting accurate student enrollment data to the State, upon which State foundation funding is calculated. As a result of the 2015 and 2016 reviews, the Academy owed ODE \$49,665 and ODE owed the Academy \$2,548. These amounts are reflected as intergovernmental payable and intergovernmental receivable, respectively, on the basic financial statements.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **NOTE 18 - FINDLAY DIGITAL ACADEMY - (Continued)**

<u>Litigation:</u> The Academy is not party to legal proceedings that, in the opinion of management, would have a material effect on the financial statements.

# K. Contract with META

The Academy entered into a contract on July 29, 2015, for fiscal year 2016, with META. Under the contract, the following terms were agreed upon:

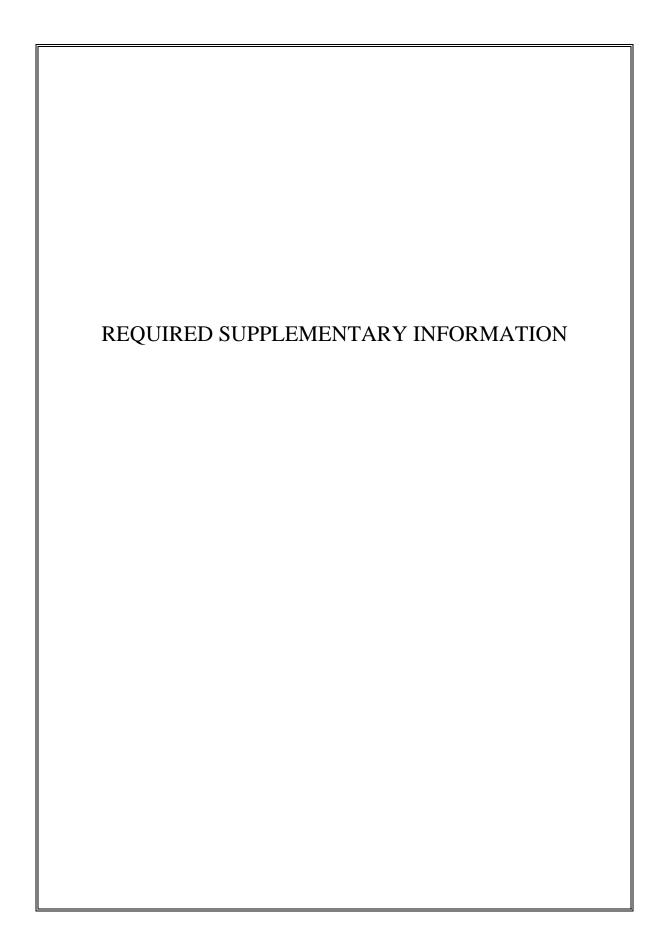

- META shall provide the Academy with instructional, administrative, staff training, and technical services sufficient to substantially implement the Academy's educational plan and the Academy's assessment and accountability plan.
- All personnel providing services to the Academy on behalf of META under the agreement shall be employees of META and META shall be solely responsible for all payroll functions, including retirement system contributions and all other legal withholding and/or payroll taxes, with respect to such personnel. All shall possess any certification or licensure which may be required by law.
- The technical services provided by META to the Academy shall include access to, and the use of, computer software, computer hardware, networking hardware, network services, and the services of technical support personnel necessary to implement the plan of operation.
- The Academy shall secure the services of an Executive Director, who shall be the chief operating officer of the Academy, with primary responsibility for day-to-day operation of the Academy.
- Curricular services provided by META shall be limited to the basic standardized curriculum developed by META. Basic services do not include special education and related services.
- In exchange for the services and support (including equipment) provided by META, the Academy shall pay to META \$5,250 per full-time student enrolled in the Academy for the 2015-2016 school year. Part-time students may be enrolled on such terms as agreed to by the parties.
- In the case of students enrolled in the Academy who are Disabled or Suspected Disabled, as defined in the Exhibit entitled "META Enhancement Services and Special Education Obligations of the Academy and META," the Academy shall additionally pay to META the fees and costs described in Section II of such exhibit.

For fiscal year 2016, \$202,482 was paid to META. There were no payables to META at June 30, 2016 or June 30, 2015. To obtain META's audited June 30, 2015 financial statements please contact David Varda, Chief Financial Officer, at 2100 City Gate Drive, Columbus, Ohio 43219.

#### L. Operating Lease

The Sponsor entered into a lease agreement on June 24, 2013 with TLB Corporate Center, LLC to lease office space located at the TLB Corporate Center at 1219 West Main Cross Street, Findlay, Ohio. The agreement is for three years, ending on September 30, 2016 and requiring a monthly lease payment of \$4,217. In accordance with the lease agreement, the Academy shall have use of leased space for office purposes only. The Academy makes payments related to the lease agreement directly to the TLB Corporate Center, LLC. Lease payments in fiscal year 2016 totaled \$50,605.

# FINDLAY CITY SCHOOL DISTRICT COMBINING STATEMENTS - GOVERNMENTAL FUND DESCRIPTIONS

#### **MAJOR GOVERNMENTAL FUNDS**

#### **General Fund**

The general fund accounts for and reports all financial resources not accounted for and reported in another fund. These general fund's activities include, but are not limited to, general instruction, pupil services, operation and maintenance of facilitates, student transportation and administration.

#### NONMAJOR GOVERNMENTAL FUNDS

#### **Nonmajor Special Revenue Funds**

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. The term proceeds of specific revenue sources establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. A description of the District's special revenue funds follows:

Food Service Fund Section 3313.81, Revised Code

A fund used to account for financial transactions related to food service operations.

Special Trust Fund Section 5705.09, Revised Code

A fund used to account for assets held by a school system in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds.

Other Grants Fund Sections 5705.09 and 5705.13, Revised Code

A fund used to account for the proceeds of specific revenue sources (except for state and federal grants) that are legally restricted to expenditures for specified purposes.

#### **Classroom Facilities Maintenance Fund**

Section 3318.06. Revised Code

A fund used to account for the proceeds of a levy for the maintenance of facilities.

# **District Managed Activity Fund**

Section 3313.062, Revised Code

A fund used to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund usually includes athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

#### **Auxiliary Services Fund**

Current Budget Bill. appropriation line item 200-511

A fund used to account for receipts and expenditures incurred in providing services and materials to pupils attending non-public schools within the District.

#### **Entry Year Programs Fund**

Section 3317.024(T) Revised Code

A fund used to account for implement of entry-year programs.

# **Data Communication Fund**

Section 5705.09, Revised Code

A fund used to account for monies appropriated for the costs incurred in connecting schools to the Ohio Educational Computer Network.

### **SchoolNet Professional Development Fund**

State Line Item Appropriations 200-426

A fund used to account for a limited number of professional development subsidy grants.

# FINDLAY CITY SCHOOL DISTRICT COMBINING STATEMENTS - GOVERNMENTAL FUND DESCRIPTIONS

#### Nonmajor Special Revenue Funds - (Continued)

# **Ohio Reads Fund**

State Line Item Appropriations 200-566

A fund used to account for monies intended 1) to improve reading outcomes, especially on the fourth grade reading proficiency test and 2) for volunteer coordinators in public school buildings, for educational service centers for costs associated with volunteer coordination, for background checks for volunteers, to evaluate the Ohio Reads Program, and for operating expenses associated with administering the program.

### **Miscellaneous State Grants Fund**

Section 5705.12, Revised Code

A fund used to account for various monies received from State agencies not classified elsewhere.

Race to the Top Fund CFDA #84.395A

To establish a new program or expand an existing program aligned to an approved scope of work. An approved scope of work must support Race to the Top initiatives in the areas of Standard and Assessments, Using Data to Improve Instruction, Great Teachers and Leaders, Turning Around the Lowest Achieving Schools.

#### **IDEA Part B Grants Fund**

Education of the Handicapped Act, PL 91-230 CFDA #84.027 & CFDA #84.391

A fund used to account for Federal monies which assist states in the identification of handicapped children, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

#### **Vocational Education Fund**

Carl D. Perkins Vocational Education Act of 1984, PL 98-524

CFDA #84.048

A fund used to account for the provision of funds to boards of education, teacher training institutions, and the state administering agency for cooperating in development of vocational education programs in the following categories: secondary, post-secondary, adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, construction of area vocational schools, ancillary services, research, advisory committees, and work-study projects, including sex equity grants. Funds are administered by the Ohio Department of Education, Division of Vocational and Career Education.

#### Stimulus Title II D Fund

American Recovery and Reinvestment Act

CFDA #84.318

Grant focus on Professional Development and Student Learning. Through sustained, collaborative, job-embedded professional development and the use of research-based methods, teachers will experience new models and strategies for teaching and learning.

# **Limited English Proficiency Fund**

CFDA #84.365

A fund to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

### Title I Disadvantaged Children Fund

PL 97-35; Title I EESA 1965

CFDA #84.010 & CFDA #84.389

A fund used to provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children. Included are the Even Start and Comprehensive School Reform programs.

#### **IDEA Preschool-Handicapped Fund**

Education of the Handicapped Act Amendments,

PL 99-457. Catalog of Federal Domestic Assistance #84.173

& CFDA #84.392

A fund used to account for the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

# FINDLAY CITY SCHOOL DISTRICT COMBINING STATEMENTS - GOVERNMENTAL FUND DESCRIPTIONS

# Nonmajor Special Revenue Funds - (Continued)

# **Improving Teacher Quality Fund**

CFDA #84.340

A fund used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

#### Miscellaneous Federal Grants Fund

Section 5705.12, Revised Code

A fund used to account for various monies received from the federal government directly or through state agencies which are not classified elsewhere.

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis). These funds are not included in the combining statements for the nonmajor special revenue funds since they are reported in the general fund (GAAP basis); however, the budgetary schedules for these funds are presented in this section.

#### **Uniform School Supplies Fund**

Section 3313.81, Revised Code

A fund used to account for the purchase and sale of school supplies for use in the District. Profits derived from such sales are used for school purposes or activities connected with the school.

#### **Special Services Rotary Fund**

Section 5705.12, Revised Code

A fund used to account for income and expenses made in connection with goods and services provided by the District. Activities using this fund tend to be curricular in nature.

#### **Internal Services Rotary Fund**

Section 5705.12, Revised Code

A fund provided to account for operations that provide goods or services to other governmental units on a cost-reimbursement basis. The use of the fund may be applied to situations where the district acts as fiscal agent for a multi-district program.

### **Public School Support Fund**

Section 5705.12, Revised Code

A fund used to account for specific local revenue sources (i.e.: profits from vending machines, etc.), other than taxes or expendable trusts, that are restricted to expenditures for specified purposes approved by Board resolution. Such expenditures may include curricular and extra-curricular related purposes.

Special Enterprise Fund Section 755.14, Revised Code

A fund used to account for the financial transactions related to before and after school childcare operations.

### **Special Trust General Fund**

Section 5705.09, Revised Code

A fund used to account for assets for specific local revenue sources that are used for expenditures for specified purposes assigned by the District treasurer.

#### **Management Information System Fund**

Am. Sub. HB 111

A fund used to account for monies associated with the state-wide requirements of the Education Management Information System (EMIS).

### FINDLAY CITY SCHOOL DISTRICT COMBINING STATEMENTS - GOVERNMENTAL FUND DESCRIPTIONS

#### **Nonmajor Debt Service Fund**

Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt servicefunds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds. A description of the District's nonmajor debt service fund follows:

Bond Retirement Fund Section 5705.09, Revised Code

The bond retirement fund is used to account for the retirement of serial bonds and short term loans. All revenues derived from general or special levies, either within or exceeding the statutory unvoted ten-mill limitation, which is levied for debt service on bonds or loans paid into this fund. Since the District maintains only one debt service fund, no combining statements are presented.

#### Nonmajor Capital Projects Fund

Capital project funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital project funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments. A description of the District's nonmajor capital projects fund follows:

#### **Permanent Improvement Fund**

Section 5705.10, Revised Code

A fund used to account for all transactions related to the acquisition or construction of such permanent improvements as are authorized by Chapter 5705 of the Revised Code.

Building Fund Section 5705.09, Revised Code

This building fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities or and other capital assets.

#### **Classroom Facilities Fund**

Section 3318.080 and 3318.15, Revised Code

A fund provided to account for monies received and expended in connection with contracts entered into by the school district and the Ohio Department of Education for the building and equipping of classroom facilities.

#### **Nonmajor Permanent Fund**

Permanent funds should be used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs - that is, for the benefit of the government or its citizenry. Permanent funds do not include private-purpose trust funds, which should be used to report situations in which the government is required to use the principal or earnings for the benefit of individuals, private organizations, or other governments. A description of the District's nonmajor permanent fund follows:

Endowment Fund Section 5705.09, Revised Code

The endowment fund is used to account for revenues which have been set aside as an investment for public school purposes. Interest revenue may be expended, but the principal must remain intact. The interest revenue is used to support scholarships. Since the District maintains only one permanent fund, no combining statements are presented.

## FINDLAY CITY SCHOOL DISTRICT PROPRIETARY FUND DESCRIPTION

#### **Nonmajor Internal Service Fund**

#### **Employee Benefits Self Insurance Fund**

Section 5705.09, Revised Code

The employee benefits self insurance fund is used to account for monies received from other funds as payment for providing medical, hospitalization, life, dental, vision, and any other similar employee benefits. Since the District maintains only one internal service fund, no combining statements are presented.

		Budgeted Amounts						
	Original		Final		Actual		Variance with Final Budget	
<b>Employee Benefits Self Insurance Fund</b>

### FINDLAY CITY SCHOOL DISTRICT FIDUCIARY FUND DESCRIPTIONS

#### **Private Purpose Trust Fund**

#### Scholarship Fund Section 5705.09, Revised Code

The scholarship fund is used to account for local revenues donated to support scholarships. Since the District maintains only one private purpose trust fund, no combining statements are presented.

#### **Agency Fund**

#### **Student Managed Activity Fund**

Section 3313.062, Revised Code

A fund used to account for those student activity programs which have student participation in the activity and have student involvement in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

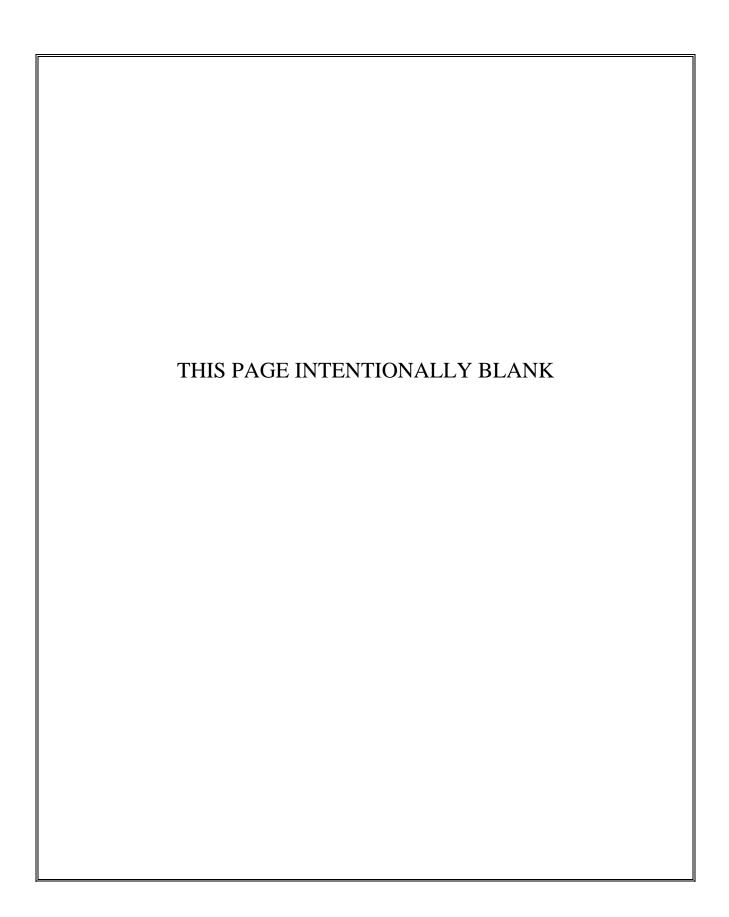

<u>District Agency Fund</u> Section 3313.062, Revised Code

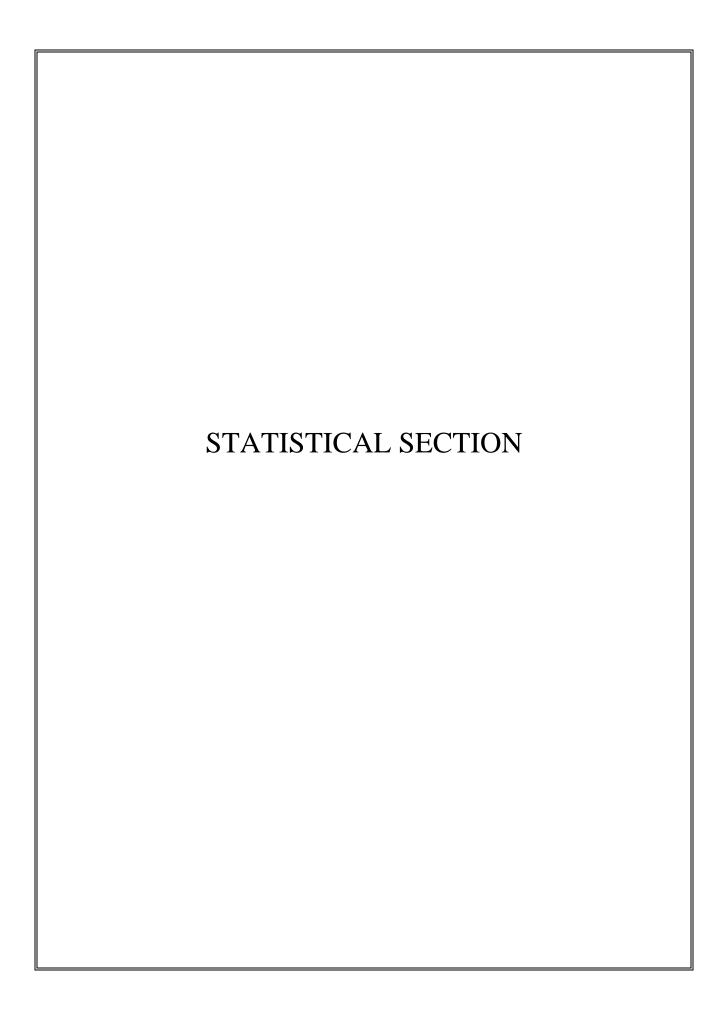

A fund used to account for assets held by the District as an agent for individuals, private organizations, and other governmental units.

#### STATISTICAL SECTION

This part of the Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial position.

<u>Contents</u>	<u>Page</u>
Financial Trends: These schedules present trend information to demonstrate how the District's financial position and financial performance have changed over time.	S2 - S13
<b>Revenue Capacity:</b> These schedules present information to identify the capacity of the District's most significant local revenue source, property taxes.	S14 - S21
<b>Debt Capacity:</b> These schedules present information to assess the capacity of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	S22 - S25
<b>Demographic and Economic Information:</b> These schedules present information to show demographic and economic indicators of the environment within which the District's financial operations occur.	S26 - S27
<b>Operating Information:</b> These schedules present information about how the District's basic financial statements relate to the programs and services the District provides and the activities it performs.	S28 - S36

**Sources:** Sources are noted on the individual schedules.

#### NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS:

- OAKS did not assign pass-through numbers for fiscal year 2016. This schedule includes the federal award activity of the Findlay City School District under programs of the federal government for the fiscal year ended June 30, 2016 and is prepared in accordance with the cash basis of accounting. The information on this schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected the operations of the Findlay City School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Findlay City School District.

  The Food Donation Program is a non-cash, in kind, federal grant. Commodities are reported at the entitlement value.
- (C) (D)
- (E) (F)
- Included as part of "Child Nutrition Grant Cluster" in determining major programs.

  Commingled with state and local revenue from sales of lunches; assumed expenditures were made on a first-in, first-out basis.

  Included as part of "Special Education Grant Cluster" in determining major programs.

  CFR 200.414 allows a non-federal entity that has never received a negotiated indirect cost rate to charge a de minimis rate of 10% of modified total direct (**G**) costs to indirect costs. Findlay City School District has not elected to use the 10% de minimus indirect cost rate.

## Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Findlay City School District Hancock County 1100 Broad Avenue Findlay, Ohio 45840

#### To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the discretely presented component unit, its major fund, and the aggregate remaining fund information of the Findlay City School District, Hancock County, Ohio, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Findlay City School District's basic financial statements and have issued our report thereon dated December 27, 2016.

#### Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Findlay City School District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the Findlay City School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Findlay City School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Board of Education Findlay City School District

#### Compliance and Other Matters

As part of reasonably assuring whether the Findlay City School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

### Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Findlay City School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Findlay City School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance With Requirements Applicable to the Major Federal Program and on Internal Control Over Compliance and Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Findlay City School District Hancock County 1100 Broad Avenue Findlay, Ohio 45840

To the Board of Education:

#### Report on Compliance for the Major Federal Program

We have audited the Findlay City School District's compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Findlay City School District's major federal program for the fiscal year ended June 30, 2016. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the Findlay City School District's major federal program.

#### Management's Responsibility

The Findlay City School District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to opine on the Findlay City School District's compliance for the Findlay City School District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the Findlay City School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the Findlay City School District major program. However, our audit does not provide a legal determination of the Findlay City School District's compliance.

#### Opinion on the Major Federal Program

In our opinion, the Findlay City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the fiscal year ended June 30, 2016.

Board of Education Findlay City School District

### Report on Internal Control Over Compliance

The Findlay City School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the Findlay City School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the Findlay City School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the discretely presented component unit, its major fund and the aggregate remaining fund information of the Findlay City School District as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Findlay City School District's basic financial statements. We issued our unmodified report thereon dated December 27, 2016. We conducted our audit to opine on the Findlay City School District's' basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Julian & Grube, Inc. December 27, 2016
