#### CENTERVILLE CITY SCHOOL DISTRICT MONTGOMERY COUNTY

#### NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE FISCAL YEAR ENDED JUNE 30, 2017

#### NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Centerville City School District (the District's) under programs of the federal government for the year ended June 30, 2017. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

#### NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

#### NOTE C – SUB-RECIPIENTS

The District passes certain federal awards received from the U.S. Department of Education to other governments or not-for-profit agencies (sub-recipients). As Note B describes, the District reports expenditures of Federal awards to sub-recipients when paid in cash.

As a sub-recipient, the District has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these sub-awards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that sub-recipients achieve the award's performance goals.

#### **NOTE D - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

#### NOTE E – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

#### NOTE F - TRANSFERS BETWEEN PROGRAM YEARS

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The District transferred the following amount from the 2016 to 2017 program:

Program Title	CFDA Number	Amt. Transferred
Special Education_Grants to States	84.027	\$7,597

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Centerville City School District Montgomery County 111 Virginia Avenue Centerville, Ohio 45458

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Centerville City School District, Montgomery County, (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 19, 2017.

#### Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

#### Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Centerville City School District Montgomery County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

#### Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Dave Yost · Auditor of State

#### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Centerville City School District Montgomery County 111 Virginia Avenue Centerville, Ohio 45458

To the Board of Education:

#### Report on Compliance for the Major Federal Program

We have audited Centerville City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect Centerville City School District's major federal program for the year ended June 30, 2017. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

#### Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Centerville City School District Montgomery County Independent Auditor's Report On Compliance With Requirements Applicable To The Major Federal Program And On Internal Control Over Compliance Required By The Uniform Guidance Page 2

#### **Opinion on the Major Federal Program**

In our opinion, Centerville City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2017.

#### **Report on Internal Control Over Compliance**

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on the major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Centerville City School District Montgomery County Independent Auditor's Report On Compliance With Requirements Applicable To The Major Federal Program And On Internal Control Over Compliance Required By The Uniform Guidance Page 3

#### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the major fund and the aggregate remaining fund information of Centerville City School District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 19, 2017. We conducted our audit to opine on the District's' basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

December 19, 2017

To the Citizens and Board of Education of the Centerville City School District:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Centerville City School District (District) for the fiscal year ended June 30, 2017. This report represents the commitment of the District to adhere to nationally recognized standards of excellence in financial reporting.

The report contains financial statements, supplemental statements and other financial and statistical information to provide complete and full disclosure of all material financial aspects of the District. Responsibility for the accuracy, completeness and fairness of this report rests with the District and more specifically, the Office of the Treasurer. To the best of our knowledge and belief, this report and the enclosed data are accurate in all material aspects. Our report is designed to present fairly the financial position, results of operation and budgetary comparisons of the District. This report is prepared in conformance with generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB) and other recognized authoritative services and is representative of the District.

Management is required to provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report within the financial section.

Copies of this report will be distributed throughout the District. A copy will be sent to all school buildings, the Washington-Centerville Libraries, and other interested parties.

#### DISTRICT PROFILE

The District serves an area of 32 square miles in the southeastern part of Montgomery County, Ohio, encompassing the City of Centerville and Washington Township. The area is located approximately 8 miles south of the City of Dayton and 46 miles north of the City of Cincinnati on U.S. Interstate 675. U.S. Interstate 75 and U.S. Interstate 70 are 3 miles and 15 miles, respectively, from the area. With these major thoroughfares, Centerville and Washington Township provide a desirable location for many families who work in the Dayton and Cincinnati metropolitan areas.

The current charter as the District was adopted in 1969; yet, the first formal education in Washington Township was offered in 1803 to children from first to sixth grades. Additional higher education grades were added in 1848 with the first high school being built in 1885. Today, the District provides opportunities for its students to excel in academic, co-curricular, and community based activities.

Centerville, Ohio 45458

#### Blue Ribbon School District

The District has five schools that have been recognized nationally as Blue Ribbon Schools by the U.S. Department of Education. This national recognition reflects the excellence that exists throughout the District. The District's Blue Ribbon schools are: Centerville High School (1984, 1993); Normandy Elementary (1992); Centerville Kindergarten Village [now Centerville Primary Village North] (1997); Tower Heights Middle School (1998); and Weller Elementary School (1999).

In 2014 Primary Village North (PVN) was designated a State and National School of Character.

#### **Primary Villages**

There are two primary villages housing preschool, kindergarten and grade one. The Centerville Preschool is an early childhood program that serves children with and without special needs who range in age from 3-5. The licensed program provides a comprehensive preschool experience to enhance each child's social skills, independence, communication, physical and academic growth. Both villages offer regular kindergarten programs in addition to Young 5s and Extended Day to provide developmentally appropriate programs for children ages five and six. The grade one program is similar to the elementary program.

#### **Elementary**

There are six elementary schools housing grades two through five. Students are taught reading, language arts, science, social studies, math and health by the classroom teacher with art, music and physical education being taught by specialists in those areas. Teachers work in grade level teams and there are regular grade level team meetings for horizontal coordination and subject area meetings for vertical subject coordination.

#### Middle School

The three middle schools house students in grades six through eight. Each middle school is divided into four family teams made up of a teacher in each of the academic areas as in the elementary program. The "school within a school" concept is designed to provide students the ability to change classes for each academic area while having closer personal contact with their "family" teachers as students spend all three years with the same family of students and teachers. Students also receive instruction in art, music, physical education and can take German, French or Spanish.

#### <u>High School</u>

Centerville High School is a comprehensive, four-year school that stresses academic excellence and physical and social development. Courses are offered in the fine and applied arts, business, career education, tech-prep and all academic areas.

#### ECONOMIC CONDITION AND OUTLOOK

#### <u>Community</u>

The estimated population (2010 U.S. Census data) of this area is 80,606 residents as Centerville (23,999)-Washington Township (56,607) is primarily a residential area. Both Centerville and Washington Township attracts white-collar professionals, particularly doctors and managers. The Community (City of Centerville and Washington Township) has grown rapidly over the past twenty years and, given its attractiveness as the residence and business location of choice in the region, it will continue to grow well into the next several decades.

The Centerville area continues to see growth in real estate and business development. Built on a diversified base of small businesses, Centerville continues to be well positioned and appears to be on a solid economic path.

#### <u>District</u>

Every year academic and co-curricular highlights are included in an annual report to the community and includes state and national recognition, student achievements and community contributions. Centerville staff and students excel in an extraordinary array of activities, including the following sampling.

#### Academic Achievements

- 2018 National Merit Finalist 7
- 2018 National Merit Commended 14
- 2017 National Merit Finalist 19
- 2017 National Merit Commended 13
- 2017 541 students took 1,175 AP exams and 84% scored 3 or higher on AP exams
- 2016 543 students took 1,169 AP exams and 84% scored 3 or higher on AP exams

#### Athletic Achievements

- Girls Cross Country: GWOC East Champ, District Runner-Up, Regional Champ, State Champion (3<sup>rd</sup> Year in a Row)
- Boys Golf: GWOC East Champ, GWOC Overall Champ, Sectional Champ, District Champ, State Qualifier (7<sup>th</sup>)
- Girls Golf: GWOC East Champ, Overall GWOC Champ, Sectional Champ, District Champ, State Qualifier (9<sup>th</sup>)
- Girls Volleyball: GWOC East Champ, Sectional Champ, District Runner-Up
- Boys Soccer: District Runner-Up
- Girls Soccer: GWOC East Champ, District Runner-Up
- Girls Tennis: GWOC East Champ
- Cheer: State Champs, National Runner-Up
- Boys Basketball: District Runner-Up
- Girls Bowling: State Qualifier (5<sup>th</sup>)
- Gymnastics: Individual State Qualifier

- Boys Bowling: GWOC East Champs, District Runner-Up, State Qualifier (3<sup>rd</sup>)
- Boys Swimming: GWOC Est Champ, Overall GWOC Champ, State Qualifier (28<sup>th</sup>)
- Girls Swimming: GWOC East Champ, Overall GWOC Champ, State Qualifier (10<sup>th</sup>)
- Wrestling: Individual State Qualifiers
- Baseball: District Champ
- Softball: GWOC East Champ
- Boys Tennis: GWOC east Champs, Overall GWOC Champs, Six District Qualifiers
- Boys Track: District Champ
- Girls Track: GWOC East Champ, District Champ
- Boys Volleyball: State Qualifier (8<sup>th</sup>)
- Coeds: State Champs in Pm Category

#### Individual Student Achievements

- 175 seniors were inducted into the National Honor Society.
- 223 seniors earned the State of Ohio Honors Diploma.
- 233 seniors earned the President's Award for Educational Excellence or President's Award of Achievement by maintaining a 3.5 GPA.
- 131 seniors earned Scholar-Athlete status by earning a varsity letter and maintaining a 3.2 GPA.
- 93.3% of the Class of 2016 have been accepted to either two or four year institutions of higher learning.

Many more Centerville students and staff achieved levels of success we can celebrate. It is evident our students continue to pay a high return on your investment in their education. For them, we thank you for your continued support.

#### Major Initiatives

The mission of the District, a community of learners, is to provide diverse educational opportunities that develop the skills, attitudes, knowledge, and ethics needed to reach individual potential and create a foundation for lifelong learning. Toward that end, the District developed a Continuous Improvement Plan similar to a Strategic Plan to help focus our efforts. The four main goals from this plan document that are the guiding goals are as follows.

- Goal 1: We will encourage and advance community collaboration.
- Goal 2: The curricular and instruction program will prepare students to achieve their full potential in regards to academics, thinking and reasoning, and responsible citizenship.
- Goal 3: The District will annually demonstrate excellence.
- Goal 4: We will support comprehensive and purposeful staff development opportunities which foster professional growth to enhance classroom instruction and student learning.

#### **FINANCIAL INFORMATION**

#### **District Organization and Reporting Entity**

The operations of the District are managed by the Board of Education (Board) that is made up of five citizens who are elected by voters to serve four-year terms. The Board is a body politic and corporate as defined by Ohio Revised Code Section 3313.02, and derives its authority from federal and state law. The Board's major function is to develop operating policies that will best service the needs of the students. In addition, the Board acts as the taxing authority, contracting body, the approver of the annual appropriation resolution, as well as ensuring that all other general laws of the State of Ohio are followed in the expenditure of the District's tax dollars. The Board also employs the Superintendent to execute policies and provide leadership to the staff. The Board also employs the Treasurer to act as Chief Financial Officer to maintain financial records and invest funds of the District as specified by Ohio law.

The various funds of the District are used to account for the District's governmental assets, liabilities, fund balances, and results of operations (or revenues over/(under) expenditures) for those activities. In addition to the aforementioned services and general activities, the District acts as fiscal agent for State funds distributed to private schools located within the District's boundaries. This activity is included in the reporting entity as a special revenue fund due to the District's involvement in the distribution of funds. The parochial/private schools served are Church of the Incarnation, Miami Valley School, Spring Valley Academy, Montessori School of Centerville, and Alexandria Montessori. Although these organizations share operational and service similarity with the District, each is a separate and distinct entity. Because of their independent nature, none of these organizations' financial statements are included in this report.

#### Government-wide Financial Statements

These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the District that are governmental in nature and those that are considered business-type activities in nature. The District did not have any business-type activities during fiscal year 2017.

#### Fund Financial Statements

These statements present information for individual major funds rather than by fund type. Funds, which are not classified as major funds are presented in one column, titled "Other Governmental Funds". Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the government-wide financial statements. The fiduciary funds are presented using the accrual basis of accounting.

#### Schedule of Budgetary Comparisons

These schedules present comparison of actual information to both the original and final amended budgets legally adopted by the District for the General Fund and any major special revenue funds. The District has no major special revenue funds. The budgetary basis, as provided by Ohio Law, is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

#### Internal Accounting and Budgetary Control

Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation. The management of the District is responsible for establishing and maintaining an internal control environment that provides reasonable assurance the District's financial statements are reliable, the District complied with applicable laws and regulations and the District is operating effectively and efficiently.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

The District maintains its accounts and accounting records to facilitate budgetary control as outlined by Ohio Revised Code. Before October 1<sup>st</sup> of each fiscal year the Board adopts its annual appropriation measure. These appropriations may be amended as needed by Board action. Annual appropriations and any amendments may not exceed the County Budget Commissions official estimate of resources. The County Auditor must certify that the Board's appropriation measures do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level. All purchase order requests must be approved by the building principal, department supervisor, or appropriate central office director and must be certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriations are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports which detail month and year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. Each administrator and school principal has access to view the status of the budget accounts for which they are responsible. As an additional safeguard, a blanket bond covers all employees; a separate, higher limit bond covers certain individuals in policy-making roles. Additional information on the District's budgetary accounts can also be found in notes to the required supplementary information.

#### **Relevant Financial Policies**

In July, 2009, the Ohio's Governor signed HB 1, the state biennium budget bill. Included in this bill was a complete overhaul of the school funding model for all school districts in Ohio. This Evidence-Based Model (OEBM) replaced a long-standing foundation formula that was declared unconstitutional by the Ohio Supreme Court. Unfortunately, this Pathway to Student Success (PASS) funding formula, using the OEBM that started in FY10 was never fully funded and State revenue to the Centerville School District has declined.

On June 30, 2011, Ohio's Governor signed HB 153, the state biennium budget bill. The impact of this bill continued the same path of reductions to the Centerville School District. The funding mechanism for FY12 and FY13 basically guaranteed the same basic flat funding level.

On June 30, 2013, Ohio's Governor signed HB59, the state biennium budget bill. The Centerville School District did receive 6.25% increased funding in basic aid for FY14 and a projected 10.5% increase for FY15. There are some additional restrictions to this additional funding. Still, this potential increase in funding over the two year budget did not replace the lost revenue from the previous biennial budget.

On June 30, 2015, Ohio governor signed HB64 the newest state biennium budget bill. The Centerville City School District lost over \$500,000 over two years. Line item vetoes by the governor was the major reason for this loss of funding.

#### Auditor of State

Included in this report is the unmodified opinion rendered on the District's basic financial statements as of and for the year ended June 30, 2017 by State of Ohio Auditor's Office. An annual independent audit of the District's financial statements is a requirement of Ohio statute, as well as an integral part of the annual preparation of a CAFR. This annual audit will continue to review, comment on and thereby strengthen the District's accounting and budgetary control.

#### AWARD FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Centerville City School District for its comprehensive annual financial report for the fiscal year ended June 30, 2016. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

#### ACKNOWLEDGEMENTS

Sincere appreciation is extended to the many people who have contributed their time and effort to prepare this report. The members of the Treasurer's Office Staff are to be especially commended for their input and commitment. And, appreciation is extended to the District's Board of Education, Centerville Schools Administration and the Centerville Schools community for its continuing support.

Respectfully submitted,

mith Biederman

# **FINANCIAL SECTION**

# Dave Yost • Auditor of State

#### INDEPENDENT AUDITOR'S REPORT

Centerville City School District Montgomery County 111 Virginia Avenue Centerville, Ohio 45458

To the Board of Education:

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Centerville City School District, Montgomery County, Ohio (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Centerville City School District Montgomery County Independent Auditor's Report Page 2

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of Centerville City School District, Montgomery County, Ohio, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis, required budgetary comparison schedule,* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Centerville City School District Montgomery County Independent Auditor's Report Page 3

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2017, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

in your

Dave Yost Auditor of State Columbus, Ohio

December 19, 2017

The discussion and analysis of Centerville City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's performance.

#### **Financial Highlights**

Key financial highlights for 2017 are as follows:

- Net position of governmental activities decreased \$4,872,527 which represents a 5% decrease from 2016.
- General revenues accounted for \$97,206,214 in revenue or 89% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$11,654,413 or 11% of total revenues of \$108,860,627.
- The District had \$113,733,154 in expenses related to governmental activities; \$11,654,413 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$97,206,214 were also used to provide for these programs.

#### **Overview of the Financial Statements**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* and the *Statement of Activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The General Fund is the major fund of the District.

#### **Government-wide Financial Statements**

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2017?" The Government-wide Financial Statements answer this question. These statements include *all asset and deferred outflows of resources* and *liabilities and deferred inflows of resources* using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net* position and changes in the net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Government-wide Financial Statements, the overall financial position of the District is presented in the following manner:

• Governmental Activities – Most of the District's programs and services are reported here including instruction, support services, operation of non-instructional services, extracurricular activities, interest and fiscal charges and unallocated depreciation.

#### Fund Financial Statements

The analysis of the District's major funds is presented in the Fund Financial Statements (see Table of Contents). Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

**Governmental Funds** Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* is reconciled in the financial statements.

**Proprietary Funds** The District maintains two proprietary internal service funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District's internal service fund accounts for self insurance of the District's workers' compensation benefits and medical insurance benefits.

*Fiduciary Funds* Fiduciary funds are used to account for resources held for the benefits of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the District's own programs.

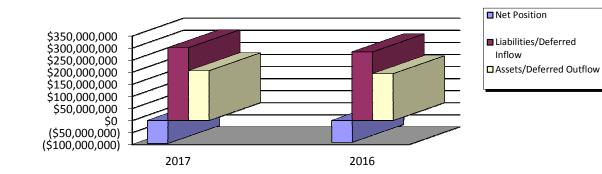

#### The District as a Whole

As stated previously, the Statement of Net Position looks at the District as a whole. Table 1 provides a summary of the District's net position for 2017 compared to 2016:

## Centerville City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 (Unaudited)

## Table 1 Net Position

	Governmental Activities		
	2017	2016	
Assets:			
Current and Other Assets	\$121,815,557	\$118,315,651	
Capital Assets	46,597,298	48,820,343	
Total Assets	168,412,855	167,135,994	
Deferred Outflows of Resources:			
Deferred Charge on Refunding	5,072,558	5,370,944	
Pension	32,657,906	21,284,867	
Total Deferred Outflows of Resources	37,730,464	26,655,811	
Liabilities:			
Other Liabilities	11,438,784	10,673,262	
Long-Term Liabilities	227,728,969	195,321,996	
Total Liabilities	239,167,753	205,995,258	
Deferred Inflows of Resources:			
Property Taxes	62,056,381	62,423,378	
Grants and Other Taxes	100,000	100,000	
Pension	0	15,581,457	
Total Deferred Inflows of Resources	62,156,381	78,104,835	
Net Position:			
Net Investment in Capital Assets	(117,507)	1,055,858	
Restricted	8,385,062	8,851,343	
Unrestricted	(103,448,370)	(100,215,489)	
Total Net Position	(\$95,180,815)	(\$90,308,288)	

#### 6

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2017, the District's liabilities and deferred inflows exceeded assets and deferred outflows by \$95,180,815.

At year-end, capital assets represented 28% of total assets. Capital assets include land, construction in progress, buildings and improvements, equipment and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2017, was (\$117,507). These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$8,385,062 represents resources that are subject to external restriction on how they must be used. The external restriction will not affect the availability of fund resources for future use.

Current and Other Assets increased mainly due to an increase in cash and investments. Long-term liabilities increased due to the increase in Net Pension Liabilities.

Table 2 shows the changes in net position for fiscal years 2017 and 2016.

## Table 2

#### Changes in Net Position

	Government	al Activities
	2017	2016
Revenues:		
Program Revenues		
Charges for Services	\$4,891,449	\$5,369,468
Operating Grants, Contributions	6,762,964	6,103,276
General Revenues:		
Property Taxes	75,569,112	72,824,579
Grants and Entitlements	21,370,295	22,060,076
Investment Earnings	12,392	686,962
Other	254,415	720,929
Total Revenues	108,860,627	107,765,290
Program Expenses:		
Instruction	62,602,532	53,625,448
Support Services:	0_,00_,00_	00,020,110
Pupil and Instructional Staff	12,110,533	10,589,038
School Administrative, General	, , ,	-,,
Administration, Fiscal and Business	11,665,656	10,737,332
Operations and Maintenance	6,854,411	6,820,755
Pupil Transportation	8,823,566	7,146,201
Central	718,031	735,117
Operation of Non-Instructional Services	5,659,174	4,900,984
Extracurricular Activities	1,559,888	1,672,175
Unallocated Depreciation	1,668,555	1,606,780
Interest and Fiscal Charges	2,070,808	776,971
Total Program Expenses	113,733,154	98,610,801
Changes in Net Position	(4,872,527)	9,154,489
Net Position - Beginning of Year	(90,308,288)	(99,462,777)
Net Position - End of Year	(\$95,180,815)	(\$90,308,288)

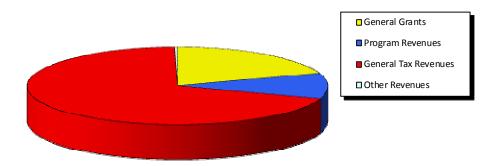

The District's revenues are mainly from two sources. Property taxes levied for general, debt service and capital projects purposes and grants and entitlements comprised 89% of the District's revenues for governmental activities.

The District depends greatly on property taxes as a revenue source. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenues generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Thus Ohio districts do not receive additional property tax revenue from increases in appraisal values and must regularly return to the voters to maintain a constant level of service. Property taxes made up 69% of revenue for governmental activities for the District in fiscal year 2017.

## Governmental Activities Revenue Sources

Revenue Sources	 2017	Percentage
General Grants	\$ 21,370,295	19.6%
Program Revenues	11,654,413	10.7%
General Tax Revenues	75,569,112	69.4%
Other Revenues	 266,807	0.3%
Total Revenue Sources	\$ 108,860,627	100.0%

Instruction comprises 55% of governmental program expenses. Support services expenses were 35% of governmental program expenses. All other expenses including interest and fiscal charges were 10%. Interest expense was attributable to the outstanding bond and borrowings.

Total revenues increased mainly due to an increase in property tax revenue received during the fiscal year. Total expenses increased primarily due to an increase in instruction expenses.

## **Government Activities**

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

## Centerville City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 (Unaudited)

# Table 3

## **Governmental Activities**

	Total Cost	Total Cost of Services		Total Cost of Services Net Cost o		f Services
	2017	2016	2017	2016

Unallocated Depreciation	1,668,555	1,606,780	(1,668,555)	(1,606,780)		
Interest and Fiscal Charges	2,070,808	776,971	(2,070,808)	(776,971)		
Total Expenses	\$113,733,154	\$98,610,801	(\$102,078,741)	(\$87,138,057)		

#### The District's Funds

The District has one major governmental fund: the General Fund. Assets of this fund comprise \$103,979,386 (88%) of the total \$118,145,670 governmental funds' assets.

*General Fund*: Fund balance at June 30, 2017 was \$36,643,229 including \$30,849,461 of unassigned balance. Fund balance increased from 2016 due mainly to an increase in property tax revenue.

#### **General Fund Budgeting Highlights**

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

For the General Fund, original budget basis revenue and final budget basis revenue were both \$96,736,069, while the actual revenue had a difference of (\$1,002,391) from the final budget basis revenues due to overestimating for taxes and intergovernmental revenue.

The District's ending unobligated fund balance was \$40,534,231, which is \$3,658,095 above the final budgeted amount.

#### **Capital Assets and Debt Administration**

#### **Capital Assets**

At fiscal year end, the District had \$46,597,298 invested in land, construction in progress, buildings and improvements, equipment, and vehicles. Table 4 shows fiscal year 2017 balances compared to fiscal year 2016:

# Table 4 Capital Assets at Year End (Net of Depreciation)

	Governmental Activities		
	2017	2016	
Land	\$2,420,016	\$2,420,016	
Construction in Progress	561,887	337,407	
Buildings and Improvements	40,197,190	41,591,732	
Equipment	750,318	1,100,520	
Vehicles	2,667,887	3,370,668	
Total Net Capital Assets	\$46,597,298	\$48,820,343	

The decrease in capital assets from 2016 to 2017 is mainly due to current year additions being less than 2017 depreciation expense and disposals.

See Note 6 in the Notes to the Basic Financial Statements for further details on the District's capital assets.

#### Debt

At fiscal year end, the District had \$52,525,730 in debt outstanding, \$1,179,539 due within one year. Table 5 summarizes debt outstanding.

## Table 5

Outstanding Debt at Year End

	Governmental Activities		
	2017	2016	
General Obligation Bonds			
2013 Refunding Bonds			
Current Interest	\$46,510,000	\$47,560,000	
Capital Appreciation - Principal	480,531	480,531	
Capital Appreciation - Interest	738,367	517,725	
Add: Bond Premium	4,494,559	4,758,945	
2016 Field Turf Lease	302,273	335,953	
Total Long-Term Debt	\$52,525,730	\$53,653,154	

See Note 10 in the Notes to the Basic Financial Statements for further details on the District's long-term obligations.

## For the Future

The Community (City of Centerville and Washington Township) has grown consistently over the past twenty-five years and, given its attractiveness as the residence and business location of choice in the region, it will continue to grow well into the future. The land to support past growth has been consumed at an increasing rate and will be exhausted, if present trends continue, within the next 10 years as the Community is 90% developed (95% city and 85% township). Eventually the Community will have matured, with redevelopment as the only option to accommodate growth and change. How this limited supply of land is used will dictate everything from fiscal health, to Community appearance, and ultimately its continued attractiveness as a place to live, work, and play.

The Community is in an excellent position today to make informed choices. Land use decisions can now be made in light of their fiscal consequences and their impact on the economic viability of the downtown area. Continued growth outward, extending utilities, continuously widening roads and consuming all the "vacant land" available is not the only alternative development pattern available. Building inward, looking first at underutilized and undeveloped land already served with infrastructure, is another approach the Community has indicated as a preference. This involves creating incentives to rebuild and, at the same time, selectively saying no to the relentless pressure to expand outward, one isolated subdivision at a time.

On June 30, 2017, Ohio's Governor signed HB49, the State biennium budget bill. The District is projected to gain \$420,079 in fiscal year 2018 and then be reduced \$312,114 in fiscal year 2019. Line item vetoes by the Governor impacted State revenue negatively. This has been a material trend for the Centerville School District.

The new report card data shows that the District continues to rank among the top 15% in overall performance among Ohio schools.

#### **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information contact the Treasurer's Office at Centerville City School District, 111 Virginia Avenue, Centerville, OH 45458 or call (937) 433-8841.

Centerville City School District, Ohio Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2017		
Net Change in Fund Balance - Total Governmental Funds		\$4,153,718
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital asset additions as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of the difference between capital asset additions and depreciation in the current period.		
Capital assets used in governmental activities Depreciation Expense	991,709 (3,055,162)	
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. The amount of the proceeds must be removed and the gain or loss on the disposal of capital assets must be recognized. This is the amount of the difference between the proceeds and the gain or loss.		(2,063,453) (159,592)
Governmental funds report district pension contributions as expenditures. However in the Statement of Activites, the cost of pension benefits earned net of employee contributions is reported as pension expense.		
District pension contributions Cost of benefits earned net of employee contributions	8,318,801 (14,443,628)	
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		(6,124,827)
Delinquent Property Taxes Interest	225,274 7,801	
Intergovernmental	(118,227)	114,848
Repayment of bond principal and accretion is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		1,083,680
In the Statement of Activities interest expense is accrued when incurred; whereas, in governmental funds an interest expenditure is reported		1,003,000
when due.		3,126
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Compensated Absences Amortization of Bond Premium Amortization of Deferred Charge on Refunding Bond Accretion	(508,352) 264,386 (298,386) (220,642)	
The internal service fund used by management to charge back costs to individual funds is not reported in the entity-wide Statement of Activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.		(762,994)

#### Note 1 - Description of the District and Reporting Entity

The Centerville City School District (the "District") is a body politic and corporate located in Montgomery County and encompasses the City of Centerville and Washington Township. The District serves an area of approximately 32 square miles. The District ranks as the 24<sup>th</sup> largest by enrollment among school districts in the State of Ohio, and it is the 2<sup>nd</sup> largest school district located within Montgomery County.

The District operates under a locally elected five-member Board form of government and provides educational services as authorized by its charter and further mandated by state and/or federal agencies. This Board controls the District's instructional/support programs located at twelve instructional facilities and staffed by 368 non-certificated employees and 643 certified employees, who provide services to nearly over 8,000 students and other community members.

#### **Reporting Entity**

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the District are not misleading.

The primary government consists of all funds and departments, not legally separate from the District, which provide various services including instruction, student guidance, extracurricular activities, educational media and care and upkeep of grounds and buildings. The operation of each of these activities is directly controlled by the Board of Education.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing body and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations for which the District approves the budget, the issuance of debt or the levying of taxes. The District does not have any component units.

The District is associated with four organizations, which are defined as jointly governed and another organization that is classified as a related organization. These organizations are:

Jointly Governed Organizations: Miami Valley Career Technology Center Southwestern Ohio Educational Purchasing Council Metropolitan Educational Technology Association

Related Organization: Washington-Centerville Public Library

These organizations are presented in Note 12 and 13 to the basic financial statements.

#### Note 2 - Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

#### **Basis of Presentation**

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

#### **Government-Wide Financial Statements**

The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end. The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

#### Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

#### Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental, proprietary and fiduciary.

#### **Governmental Funds**

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows, and liabilities and deferred inflows is reported as fund balance. The General Fund is the District's major fund:

<u>General Fund</u> - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the District account for grants and other resources, debt service, and capital projects of the District whose uses are restricted to a particular purpose.

#### Proprietary Funds

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The District has no enterprise funds. The following is a description of the District's internal service fund:

<u>Internal Service Funds</u> - The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the district, or to other governments, on a cost-reimbursement basis. The internal service funds of the District account for self-insurance programs which provide workers' compensation benefits and medical insurance benefits to employees.

#### Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District has two private purpose trust funds (Scholarship Trust Fund and Memorial Scholarship Trust Fund) established to provide scholarships to its students. The District has one Agency Fund, the Student Managed Activities Agency Fund, which accounts for assets and liabilities generated by student managed activities.

#### Measurement Focus

#### **Government-wide Financial Statements**

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the Statement of Net Position. Private-purpose trust and agency funds are not included in entity-wide statements.

#### **Fund Financial Statements**

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for government funds. The private purpose trust funds are reported using the economic resources measurement focus. Agency funds do not have a measurement focus.

#### **Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed to be both measurable and available: property taxes available as an advance, grants, and other taxes.

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. The deferred outflows of resources related to a deferred charge on

refunding and pension are reported on the governmental-wide statement of net position. For more pension related information, see Note 8.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, grants and other taxes (which includes tax incremental financing 'TIF'), and investment earnings. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2017, but which were levied to finance year 2018 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Other taxes (TIF) have been recorded as deferred inflows on both the governmental fund financial statements. Grants and investment earnings are reported only on the governmental fund financial statements.

Unearned revenue represents amounts under the accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are recorded when the related liability is incurred, if measurable. Principal and interest on long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year. The costs of accumulated unpaid vacation and sick leave are reported as fund liabilities in the period in which they will be liquidated with available financial resources rather than in the period earned by the employee. Allocation of costs, such as depreciation and amortization, are not recognized in governmental funds.

The accrual basis of accounting utilized on the government-wide financial statements and by privatepurpose trust funds recognizes revenues when they are earned, and expenses are recognized at the time they are incurred. The fair value of donated commodities received during the year is reported as an expense with a like amount reported as operating grants and contributions.

#### **Equity in Pooled Cash and Investments**

The District maintains a cash and investment pool used by all funds. The cash and investment pool has the same characteristics as demand deposits. Each fund's portion of this pool is displayed in the financial statements as pooled cash and cash equivalents. The monies are either maintained in a central bank account or used to purchase legal investments.

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost. Investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase are reported at cost or amortized cost. The Ohio Revised Code authorizes the District to invest in United States and State of Ohio bonds, notes, and other obligations; bank certificate of deposits; banker's acceptances; commercial paper notes rated prime and issued by United States Corporations; and STAR Ohio.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2017, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

Following State statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Investment earnings are to be credited to the specified funds based on the month end fund balance. Interest was recorded in the General Fund, Other Governmental Funds, and Private Purpose Trust Funds in the amounts of \$0, \$4,591, and \$94, respectively.

For purposes of the statement of cash flows, the internal service portion of pooled cash and investments is considered a cash equivalent because the District is able to withdraw resources from the internal service funds without prior notice or penalty.

#### Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of food held for resale and consumable supplies.

#### **Restricted Assets**

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other government or imposed by enabling legislation. Restricted assets include the amount required by state statute to be set aside to create a reserve for budget stabilization.

#### <u>Estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### **Capital Assets and Depreciation**

General capital assets generally result from expenditures in the governmental funds. These assets are reported within the governmental activities on the government-wide statement of net position but are not reported in the fund statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements throughout the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of five thousand dollars (\$5,000). The District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also not capitalized. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value.

All reported capital assets except for land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives.

Description_	Estimated Lives
Buildings and Improvements	20 - 80 years
Equipment	5 - 50 years
Vehicles	8 - 30 years

#### Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivables" and "Interfund Payables". These amounts are eliminated on the governmental activities columns of the statement of net position.

As a general rule the effect of interfund (internal) activity has been eliminated from the governmentwide statement of activities. The interfund services provided and used are not eliminated in the process of consolidation.

#### **Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned when both of these conditions are met:

1. The employees' rights to receive compensation are attributable to services already rendered.

2. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

A liability for sick leave is accrued using the vesting method which states that the District will estimate its liability based on sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments as specified by the retirement system as well as other employees who are expected to become eligible in the future to receive such payments. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy. The District records a liability for accumulated sick leave for all employees after fifteen years of current service with the District.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that represents severance payments to individuals who retired prior to the end of the fiscal year, but did not receive payment until after year-end. These amounts are recorded in the account "compensated absences" in the fund from which the employees who have accumulated leave are paid. The non-current portion of the liability is not reflected in the fund statements.

#### Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences, special termination benefits, and judgments and claims that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

#### Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

#### **Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the internal service fund. For the District, these revenues are charges for services for the primary activity of the fund. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. Of the District's \$8,385,062 in restricted net position, none was restricted by enabling legislation.

#### Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions,* the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the School District Board of Education or approved through the District's formal purchase order procedure by the Superintendent and the Treasurer.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts which had been restricted, committed or assigned for said purposes.

The District considers restricted, committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

#### Note 3 - Equity in Pooled Cash and Investments

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the District into three categories:

<u>Active Monies</u> - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the District. Such monies must, by law, be maintained either as cash in the District treasury, in depository accounts payable or withdrawable on demand.

<u>Inactive Monies</u> – Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

<u>Interim Monies</u> – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested or deposited in the following securities:

- (1) Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest.
- (2) Bonds, notes, debentures, or other obligations or securities issued by any federal governmental agency.
- (3) No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
- (4) Interim deposits in the eligible institutions applying for interim monies to be evidenced by time certificates of deposit maturing not more than five years from date of deposit, or by savings or deposit accounts, including, but not limited to, passbook accounts.
- (5) Bonds, and other obligations of the State of Ohio.
- (6) The Ohio State Treasurer's investment pool (STAROhio).
- (7) Commercial paper and banker's acceptances which meet the requirements established by Ohio Revised Code, Sec. 135.142.
- (8) Under limited circumstances, corporate debt interests in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution, by a line of credit, or by a single collateral pool established by the financial institution to secure the repayment of all uninsured public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

#### Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's policy for deposits is any balance not covered by depository insurance will be collateralized by the financial institutions with pledged securities or a line of credit. As of June 30, 2017, \$4,435,539 of the District's bank balance of \$4,685,539 was exposed to custodial risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

Ohio Revised Code Chapter 135, Uniform Depository Act, authorizes pledging of pooled securities in lieu of specific securities. Specifically, a designated public depository may pledge a single pool of eligible securities to secure repayment of all uninsured public monies deposited in the financial institution, provided that all times the total value of the securities so pledged is at least equal to 105% of the total amount of all public deposits secured by the pool, excluding the portion of such deposits covered by any federal deposit insurance.

#### Investments

As of June 30, 2017, the District had the following investments:

#### Centerville City School District, Ohio Notes to the Basic Financial Statements For The Fiscal Year Ended June 30, 2017

		Fair	
		Value	Weighted Average
Investment Type	Fair Value	Hierarchy	Maturity (Years)
Money Market Mutual Funds	\$203,823	N/A	0.00
STAR Ohio	433,045	N/A	0.12
Federal Home Loan Bank	13,537,354	Level 2	1.49
Federal Farm Credit Banks	10,748,761	Level 2	1.30
Federal Home Loan Mortgage Corporation	7,882,143	Level 2	1.28
Negotiable CD's	8,693,442	Level 2	1.15
Federal National Mortgage Association	10,558,597	Level 2	1.31
Total Fair Value	\$52,057,165		
Portfolio Weighted Average Maturity			1.31

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the District's recurring fair value measurements as of June 30, 2017. STAR Ohio is reported at its share price (Net Asset Value per share). All other investments of the District are valued using quoted market prices.

Interest Rate Risk – The District shall not purchase any security that has a remaining term to final maturity of more than five years. Through STAR Ohio's investment policy, it manages its exposure to fair value losses arising from increasing interest rates by limiting the final stated maturity on any investment not to exceed 397 days or that will cause the weighted average maturity of the portfolio to exceed 60 days.

Credit Risk – It is the District's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have the highest credit quality rating issued by nationally recognized statistical rating organizations. The District's investments in Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation and Federal National Mortgage Association were rated AA+ by Standard and Poor's and Aaa by Moody's Investment Service. Investments in STAR Ohio were rated AAAm by Standard & Poors. Money Market Funds and Negotiable CDs were not rated.

Concentration of Credit Risk – The District should normally seek to diversify its holdings of other investments by avoiding concentration of specific issuers. The District has invested less than 1% in Money Market Mutual Funds, 1% in STAR Ohio, 26% in Federal Home Loan Bank, 21% in Federal Farm Credit Bank, 17% in Negotiable CDs, 15% in Federal Home Loan Mortgage Corporation, and 20% in Federal National Mortgage Association.

Custodial Credit Risk - Custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral

securities that are in the possession of an outside party. All of the District's securities are either insured and registered in the name of the District or at least registered in the name of the District.

#### Note 4 - Property Taxes

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on tangible personal property at 88 percent of true value (with certain exceptions) and on real property at 35 percent of true value.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. The District receives property taxes from Montgomery County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2017, are available to finance fiscal year 2018 operations. The amount available for advance can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, and public utility taxes that became measurable as of June 30, 2017. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations.

The assessed values upon which the fiscal year 2017 taxes were collected are as follows:

	2017 First Half Collections	2016 Second Half Collections
Agricultural/Residential		
and Other Real Estate	\$1,689,585,930	\$1,667,220,530
Public Utility Personal	33,394,210	31,054,260
Total Assessed Property Value	\$1,722,980,140	\$1,698,274,790

#### Note 5 – Receivables

Receivables at June 30, 2017, consisted of taxes, interest, intergovernmental grants, and interfund. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

#### Note 6 - Capital Assets

Capital asset activity for the year ended June 30, 2017 was as follows:

	Beginning Balance	Additions	Deletions	Ending Balance
Governmental Activities				
Capital Assets, not being depreciated:				
Land	\$2,420,016	\$0	\$0	\$2,420,016
Construction in Progress	337,407	561,887	337,407	561,887
Total Capital Assets, not being				
depreciated	2,757,423	561,887	337,407	2,981,903
Capital Assets, being depreciated:				
Buildings and Improvements	92,273,678	680,027	0	92,953,705
Equipment	7,875,175	5,355	252,489	7,628,041
Vehicles	9,715,955	81,847	92,300	9,705,502
Total Capital Assets, being depreciated:	109,864,808	767,229	344,789	110,287,248
Totals at Historical Cost	112,622,231	1,329,116	682,196	113,269,151
Less Accumulated Depreciation:				
Buildings and Improvements	50,681,946	2,074,569	0	52,756,515
Equipment	6,774,655	195,965	92,897	6,877,723
Vehicles	6,345,287	784,628	92,300	7,037,615
Total Accumulated Depreciation	63,801,888	3,055,162	185,197	66,671,853
Governmental Activities Capital Assets, Net	\$48,820,343	(\$1,726,046)	\$496,999	\$46,597,298

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$570,975
Special	1,010
Vocational	1,973
Support Services:	
Instructional Staff	1,500
School Administration	5,716
Operations and Maintenance	224,624
Pupil Transportation	576,859
Operation of Non-Instructional Services	3,712
Extracurricular Activities	238
Unallocated Depreciation	1,668,555
Total Depreciation Expense	\$3,055,162

Unallocated depreciation is depreciation of the individual school buildings throughout the District that essentially serve all functions/programs, and therefore is not included as a direct expense of any functions or program but disclosed as a separate expense.

#### Note 7 - Risk Management

The District is exposed to various risks of loss related to torts, thefts-of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters for which the District carries commercial insurance. During fiscal year 2017, the District contracted with Liberty Mutual Insurance for these various risks. Coverage terms provided by Liberty Mutual Insurance are as follows:

Buildings and Contents - replacement cost (\$5,000 deductible)	\$232,249,081
Employee Dishonesty - Money in Security	100,000
Automotive Liability (\$500/vehicle and \$500/bus deductible)	1,000,000
Uninsured Motorist Bodily Injury Liability	1,000,000
General Liability (Per Occurrence)	1,000,000
Data Compromise	250,000
Defense and Liability	250,000
Equipment Breakdown	250,000
Violent Event Response	1,000,000
Flood	1,000,000
Commercial Computer Coverage	7,000,000
Umbrella Policy	10,000,000

Settled claims have not exceeded this commercial coverage in any of the past five years. There has not been any significant reduction in insurance coverage from the previous year.

Beginning in August 2010, the District began to self-insure its workers' compensation costs. The District contracts with Hunter Consultants for the service. Expenses for claims are recorded on the current basis based on an actuarially determined charge per employee. The District accounts for the activities of this program in an internal service fund in accordance with GASB Statement No. 10.

A summary of the changes in self-insurance workers' compensation claims liability is as follows:

	2017	2016
Claims Liability at Beginning of Year	\$38,188	\$6,971
Claims Incurred	152,365	301,709
Claims Paid	(174,808)	(270,492)
Claims Liability at End of Year	\$15,745	\$38,188

Beginning in January 2012, the District began to self-insure its medical health-insurance costs. The District contracts with Anthem for the service. Expenses for claims are recorded on the current basis based on an actuarially determined charge per employee. The District accounts for the activities of this program in an internal service fund in accordance with GASB Statement No. 10.

A summary of the changes in self-insurance health insurance claims liability is as follows:

#### Centerville City School District, Ohio Notes to the Basic Financial Statements For The Fiscal Year Ended June 30, 2017

2017	2016
\$1,491,421	\$1,745,413
15,138,548	13,336,445
(14,834,487)	(13,590,437)
\$1,795,482	\$1,491,421
	\$1,491,421 15,138,548 (14,834,487)

#### Note 8 - Defined Benefit Pension Plans

#### **Net Pension Liability**

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the employer's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the obligation for this liability to annually required payments. The employer cannot control benefit terms or the manner in which pensions are financed; however, the employer does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in accrued wages and benefits on both the accrual and modified accrual bases of accounting.

#### Plan Description - School Employees Retirement System (SERS)

Plan Description – Non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required

supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit Age 65 with 5 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30 or \$86.00 multiplied by the years of service credit. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the employer is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2017, the allocation to pension, death benefits, and Medicare B was 14.00 percent. None of the 14 percent contribution rate was allocated to the Health Care Fund.

The contractually required contribution to SERS was \$2,040,449 for fiscal year 2017. Of this amount \$436,760 is reported as accrued wages and benefits.

#### Plan Description - State Teachers Retirement System (STRS)

Plan Description – Licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a standalone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement increased effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2017, plan members were required to contribute 14 percent of their annual covered salary. The employer was

required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2017 contribution rates were equal to the statutory maximum rates.

The contractually required contribution to STRS was \$6,278,352 for fiscal year 2017. Of this amount \$1,067,264 is reported as accrued wages and benefits.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The proportion of the net pension liability was based on the share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

_	SERS	STRS	Total
Proportionate Share of the Net Pension Liability	\$32,292,823	\$138,288,531	\$170,581,354
Proportion of the Net Pension Liability	0.44121440%	0.41313438%	
Pension Expense	4,118,096	10,325,532	14,443,628

At June 30, 2017, reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$435,556	\$5,587,521	\$6,023,077
Changes of assumptions	2,155,723	0	2,155,723
Net difference between projected and actual earnings			
on pension plan investments	2,663,689	11,481,663	14,145,352
Changes in employer proportionate share of net			
pension liability	443,904	1,571,049	2,014,953
Contributions subsequent to the measurement date	2,040,449	6,278,352	8,318,801
Total Deferred Outflows of Resources	\$7,739,321	\$24,918,585	\$32,657,906
Deferred Inflows of Resources			
Changes in employer proportionate share of net			
pension liability	\$0	\$0	\$0
Total Deferred Inflows of Resources	\$0	\$0	\$0

\$8,318,801 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Fiscal Year			
Ending June 30:	SERS	STRS	Total
2018	\$1,499,631	\$3,120,974	\$4,620,605
2019	1,497,711	3,120,974	4,618,685
2020	1,935,828	7,526,811	9,462,639
2021	765,702	4,871,474	5,637,176
Total	\$5,698,872	\$18,640,233	\$24,339,105

#### **Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2016, are presented below:

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.50-18.20 percent
COLA or Ad Hoc COLA	3.00 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement. The most recent experience study was completed June 30, 2010. The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

#### **Discount Rate**

The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

#### Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	Current		
	1% Decrease	Discount Rate	1% Increase
	(6.50%)	(7.50%)	(8.50%)
Proportionate share of the net pension liability	\$42,753,685	\$32,292,823	\$23,536,646

#### **Actuarial Assumptions - STRS**

The total pension liability in the July 1, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses, including inflation
Cost-of-Living Adjustments	2 percent simple applied as follows: for members retiring before
(COLA)	August 1, 2013, 2 percent per year; for members retiring August 1, 2013,
	or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2016, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2016. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2016. Therefore, the long-term expected rate of return on pension plan

investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2016.

#### Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	Current				
			1% Increase (8.75%)		
Proportionate share of the net pension liability	\$183,774,220	\$138,288,530	\$99,918,670		

#### **Changes Between Measurement Date and Report Date**

In March 2017, the STRS Board adopted certain assumption changes which will impact their annual actuarial valuation prepared as of June 30, 2017. The most significant change is a reduction in the discount rate from 7.75 percent to 7.45 percent. In April 2017, the STRS Board voted to suspend cost of living adjustments granted on or after July 1, 2017. Although the exact amount of these changes is not known, the overall decrease to the net pension liability is expected to be significant.

#### Note 9 - Post Employment Benefits

#### School Employees Retirement System

Health Care Plan Description – Sections 3309.375 and 3309.69 of the Ohio Revised Code permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The Ohio Revised Code provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plan.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer 14% contribution to the Health Care Fund in accordance with the funding policy. For the year ended June 30, 2017, the health care allocation is 0.00%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. By statute no employer shall pay a health care surcharge greater than 2.0% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the

total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2017, the minimum compensation level was established at \$23,500. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contributions assigned to health care for the years ended June 30, 2017, 2016, and 2015 were \$0, \$0, and \$365,368, respectively.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports of SERS' Health Care plan are included in its Comprehensive Annual Financial Report. That report can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

#### State Teachers Retirement System

Plan Description – The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2017, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2017, 2016, and 2015 were \$0, \$0, and \$0, respectively.

This space intentionally left blank

#### Note 10 - Long-Term Obligations

#### Changes in Long-Term Liabilities

Long- term liability activity for the year ended June 30, 2017, was as follows:

		Beginning				Due in One
General Obligation Bonds:	Interest Rate	Balance	Additions	Deletions	Ending Balance	Year
2013 Refunding Bonds	<u></u> .					
Current Interest	2.00% - 5.00%	\$47,560,000	\$0	\$1,050,000	\$46,510,000	\$1,145,000
Capital Appreciation - Principal		480,531	0	0	480,531	0
Capital Appreciation - Interest		517,725	220,642	0	738,367	0
Bond Premium		4,758,945	0	264,386	4,494,559	0
Subtotal Bonds		53,317,201	220,642	1,314,386	52,223,457	1,145,000
2016 Field Turf Lease		335,953	0	33,680	302,273	34,539
Compensated Absences	N/A	4,166,811	1,181,627	726,553	4,621,885	744,075
Subtotal Bonds and Other Amounts		57,819,965	1,402,269	2,074,619	57,147,615	1,923,614
Net Pension Liability:						
STRS		112,639,636	25,648,895	0	138,288,531	0
SERS		24,862,394	7,430,429	0	32,292,823	0
Total Net Pension Liability		137,502,030	33,079,324	0	170,581,354	0
Total Long-Term Obligations		\$195,321,995	\$34,481,593	\$2,074,619	\$227,728,969	\$1,923,614

Compensated absences represent the long-term portion of the accrued liability associated with sick and vacation leave. These items will be repaid from the funds from which the employees work to whom the liability is associated with or the General Fund if no such funds are available. Net pension liability represents the long-term portion of the accrued liability associated with STRS and SERS pension liability. These items will be repaid from the funds from which the employees work to whom the liability is associated with or the General Fund if no such funds are available.

The general obligation bonds balance at June 30, 2017 of \$51,485,090 is used in the calculation of net investment in capital assets. This amount equals total general obligation bonds of \$52,223,457 minus accreted interest of \$738,367.

This space intentionally left blank

#### Annual Debt Service Requirements

•		, ,	•	
	General Obligation Bonds		Capital Appre	ciation Bonds
Fiscal Year				
Ending June 30	Principal	Interest	Principal	Interest
2018	\$1,145,000	\$1,772,075	\$0	\$0
2019	1,405,000	1,738,638	0	0
2020	780,000	1,716,400	169,903	540,097
2021	0	1,704,700	310,628	1,274,372
2022	1,820,000	1,668,300	0	0
2023-2027	12,155,000	6,948,950	0	0
2028-2032	19,190,000	3,895,700	0	0
2033-2034	10,015,000	411,900	0	0
Total	\$46,510,000	\$19,856,663	\$480,531	\$1,814,469

#### Annual debt service requirements to maturity for the general obligation bonds are as follows:

#### Note 11 – Capitalized Leases - Lessee

In December 2015 the District entered into a capitalized lease for the installation of athletic field turf. The cost of building improvements under capital lease at June 30, 2017 is \$378,200. The lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases", which defines a capital lease generally as one that transfers benefits and risks of ownership to the lessee at the conclusion of the lease term. Capital lease payments have been reclassified and are reflected as debt service in the basic financial statements for the governmental funds.

The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2017.

Fiscal Year	
Ending June 30	Amount
2018	\$42,247
2019	\$42,247
2020	\$42,247
2020	\$42,247
2022	42,247
2023-2025	126,741
Total Minimum Lease Payments	337,977
Less: Amounts representing interest	35,704
Present Value of Minimum Lease Payments	\$302,273

#### Note 12 - Jointly Governed Organizations

#### Miami Valley Career Technology Center

The Miami Valley Career Technology Center (MVCTC) is a separate body politic and corporate, established by the Ohio Revised Code (ORC). The Board is comprised of one representative from each of the seven participating Districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information write to the Miami Valley Career Technical Center at 6800 Hoke Road, Clayton, Ohio 45315.

#### Southwestern Ohio Educational Purchasing Council

The District is a member of the Southwestern Ohio Educational Purchasing Council (SOEPC). The purpose of the cooperative is to obtain lower prices for supplies and materials commonly used by the member districts. The members are obligated to pay all fees, charges, and assessments as established by SOEPC.

Each member district has one voting representative. Title to any and all equipment and supplies purchased by SOEPC is held in trust for the member districts by the fiscal agent. Any district withdrawing from SOEPC shall forfeit its claim to any and all SOEPC assets. One year's prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member organizations. Payments to SOEPC are made from the District's General Fund. Financial information may be obtained from SOEPC by contacting the Director, at 303 Corporate Drive, Suite 208, Vandalia, OH 45377.

#### Metropolitan Educational Technology Association

The District is a participant in the Metropolitan Educational Technology Association (META). META is an association of public school districts within the boundaries of Darke, Greene, Miami and Montgomery Counties. The organization was formed for the purpose of applying modern technology (with the aid of computers and other electronic equipment) to administrative and instructional functions among member school districts. The governing board of META consists of one representative from each member school district plus one representative from the fiscal agent. Financial information can be obtained from the Executive Director of META at 225 Linwood Street, Dayton, Ohio 45405.

#### Note 13 - Related Organizations

#### Washington-Centerville Public Library

The Washington-Centerville Public Library (the Library) is a related organization to the District. The District's Board of Education is responsible for appointing Trustees and approving the budget of the Library as a ministerial function to the Library. The operations of the Library are managed by its Trustees, including the determination of the budget amounts necessary for operations. The Library does not receive any funding from the District.

#### Note 14 – Contingencies

#### Foundation Funding

District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2017 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2017 financial statements is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of, the District.

#### Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2017.

#### Litigation

The District's attorney estimates that any potential claims against the District not covered by insurance resulting from all other litigation would not materially affect the financial statements of the District.

#### Note 15 - Statutory Reserves

The District is required by State statute to annually set aside monies for the purchase of capital improvements. Amounts not spent by year-end or reduced by offsetting credits must be held in cash at year-end and carried forward to be used for the same purpose in future years.

During the fiscal year ended June 30, 2017, the reserve activity (cash-basis) was as follows:

	Capital Improvements	Budget Stabilization
Set Aside Reserve Balance as of June 30, 2016	\$0	\$141,886
Current Year Set Aside Requirement	1,312,046	0
Current Year Offsets	(54,184,156)	0
Total	(\$52,872,110)	\$141,886
Balance Carried Forward to Fiscal Year 2018	(\$52,872,110)	\$0
Set Aside Reserve Balance as of June 30, 2017	\$0	\$141,886

For capital acquisitions, the extra amount was a result of bond or note issuances, which will be used to offset set-aside requirements in future years.

#### Note 16 – Accountability

The following funds had deficit fund balances/net position at June 30, 2017:

Fund	Deficit
Other Governmental Funds:	
Title VI-B	\$82,442
Reducing Class Size	5,213
Title I	79,625
Vocational Education	3,612
Miscellaneous State Grants	1,645

The deficits in these Special Revenue funds resulted from adjustments for accrued liabilities. Management expects the deficits in these funds to be corrected in early fiscal year 2018. The General Fund is liable for any deficit in these funds and provides transfers when cash is required, not when the accruals occur.

#### Note 17 - Interfund Balances

Interfund transactions at June 30, 2017, consisted of the following individual fund receivables and payables:

	Interfund			
	Receivable Payable			
General Fund	\$16,028	\$0		
Other Governmental Funds	0	16,028		
Total All Funds	\$16,028	\$16,028		

Interfund balance/transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorization; to segregate and to return money to the fund from which it was originally provided once a project is completed.

All interfund balances are expected to be paid within one year.

#### Note 18 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

#### Centerville City School District, Ohio Notes to the Basic Financial Statements For The Fiscal Year Ended June 30, 2017

		Other Governmental	
Fund Balances	General	Funds	Total
Restricted for:

Total Assigned	5,793,768	0	5,793,768
Unassigned (Deficit)	30,849,461	(172,537)	30,676,924
Total Fund Balance	\$36,643,229	\$8,350,382	\$44,993,611

Encumbrances (assigned) will be used for \$90,821 for regular instruction, \$5,023 for special instruction, \$14,059 for other instruction, \$4,809 for pupil support services, \$9,945 for instructional staff support services, \$17,841 for school administration support services, \$328 for business support services, \$22,768 for transportation support services, and \$65,735 for operations and maintenance support services.

#### Note 19 – Implementation of New Accounting Principles

For the fiscal year ended June 30, 2017, the District has implemented Governmental Accounting Standards Board (GASB) Statement No. 77, *Tax Abatement Disclosures*, and GASB Statement No. 80, *Blending Requirements For Certain Component Units – An Amendment of GASB No. 14.* 

GASB Statement No. 77 establishes improved financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. Disclosure of information about the nature and magnitude of tax abatements will make these transactions more transparent to financial statement users. As a result, users will be better equipped to understand (1) how tax abatements affect a government's future ability to raise resources and meet its financial obligations and (2) the impact those abatements have on a government's financial position and economic condition. The implementation of GASB Statement No. 77 did not have an effect on the financial statements of the District.

GASB Statement No. 80 amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. The implementation of GASB Statement No. 80 did not have an effect on the financial statements of the District.

#### Note 20 – Tax Abatements Entered Into By Other Governments

Other governments entered into property tax abatement agreements with property owners under the Ohio Community Reinvestment Area ("CRA") and Enterprise Zone Agreement ("EZA") programs with the taxing districts of the District. The CRA program is a directive incentive tax exemption program benefiting property owners who renovate or construct new buildings. Under this program, the other governments designated areas to encourage revitalization of the existing housing stock and the development of new structures. The EZA program is an economic development tool administered by municipal and county governments that provides real and personal property tax exemptions to businesses making investments in the community. Within the taxing districts of the District, the City of Centerville has entered into CRA and EZA agreements. Under these agreements the District's property taxes were reduced by \$148,834.

See accompanying notes to the required supplementary information.

#### Note 1 - Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the appropriations resolution and the certificate of estimated resources which are prepared on the budgetary basis of accounting. The certificate of estimated resources establishes a limit on the amount that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during fiscal year 2017.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year. At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual (Non-GAAP Budgetary Basis) presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as an assignment or restriction of fund balance for governmental fund types and expendable trust funds (GAAP basis).
- 4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.
- 5. Some funds are reported as part of the general fund (GAAP basis) as opposed to the general fund being reported alone (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis to the budgetary basis for the general fund.

Net Change in Fund Balance

	General Fund
GAAP Basis	\$4,593,394
Revenue Accruals	793,231
Expenditures Accruals	(850,097)
Advances In	4,151
Advances Out	(16,028)
Encumbrances	(565,120)
Funds Budgeted Elsewhere	(20,350)
Budget Basis	\$3,939,181

#### NONMAJOR GOVERNMENTAL FUNDS

#### **Special Revenue Funds**

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

#### **Debt Service Fund**

The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds. The District has only one Debt Service Fund for the current fiscal year.

#### **Capital Projects Funds**

The Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

#### NONMAJOR SPECIAL REVENUE FUNDS

#### **Fund Descriptions**

**Other Grants** - A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

**District Managed Student Services** - To account for local funds generated to assist student activities, which are managed by District personnel. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

**Auxiliary Services** - A fund used to account for monies which provide services and materials to pupils attending non-public schools within the District.

**Network Connect** - A fund used to account for monies for the purpose of accessing the Ohio Education Computer Network.

**Miscellaneous State Grants** - To account for revenues received from state agencies which are not classified elsewhere.

**Title VI-B** - To account for monies received under a federal grant to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full education opportunities to handicapped children at the elementary and secondary levels.

**Vocational Education** - A fund used to account for revenues provided to boards of education, teacher training instructions, and the state administering agency for cooperating in development of vocational education programs in the following categories: secondary, post-secondary adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, construction of area vocational schools, ancillary services, research, advisory committees, and work-study projects.

**Title III** - To account for federal grant monies used to support the District's ESL population.

**Title I** - To account for monies received under a federal grant to assist schools in meeting the special needs of educationally deprived children.

**EHA Pre-School** - A fund used to account for federal grant dollars to improve and expand the services for handicapped children ages three to five years.

**Reducing Class Size** - A fund used to account for monies to hire additional classroom teachers in grades one through three, so that the number of students per teacher will be reduced.

**Miscellaneous Federal Grants -** To account for monies received under federal grants which are not classified elsewhere.

**Food Service** - To account for the financial transactions related to the food service operations of the District.

# **NONMAJOR DEBT SERVICE FUND**

# **Fund Description**

**Bond Retirement Fund** - The bond retirement fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in bond retirement funds. The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance are included in the Nonmajor Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures and Changes in Fund Balance. The Schedule of Revenues, Expenditures and Changes in Fund Balance. The Schedule of Revenues, Expenditures and Changes in Fund Balance. The Schedule of Revenues, Expenditures and Changes in Fund Balance.

# NONMAJOR CAPITAL PROJECTS FUNDS

# **Fund Description**

**Permanent Improvement** - The Permanent Improvement Fund is used to account for financial resources, specifically property and other local taxes generated by the District's permanent improvement levy, to be used to maintain the District's facilities, as well as provide for major equipment and instructional material purchases.

**Building** - The Building Fund is used to account for all transactions related to all special bond funds in the District. Proceeds from the issuance of bonds are paid into this fund.

# **OTHER GENERAL FUNDS**

With the implementation of GASB Statement No. 54, certain funds that the District prepares legally adopted budgets for no longer meet the definition to be reported as Special Revenue funds and have been included with the General Fund in the governmental fund financial statements. The District has only presented the budget schedules for these funds.

# **Fund Descriptions**

**Public School Support** - To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sale of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

**Uniform School Supply** - To account for the purchase and sale of school supplies as adopted by the Board of Education for use in the District.

**Special Enterprise -** To account for monies used for the District's special enterprise fund.

		Public School Support Fund

# NONMAJOR FUNDS

# **Fiduciary funds**

Fiduciary fund types are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds.

# **Fund Descriptions**

**Scholarship Trust Fund** - To account for restricted donations, where the donations themselves may be used, to provide scholarships to selected students graduating from the District.

**Memorial Scholarship Trust Fund** - To account for the restricted donations, where the corpus of the donations may not be used, which were provided in memory of individuals to provide scholarships to selected District students.

**Agency Fund – Student Managed Activities** - To account for the resources belonging to the various student groups in the District. The fund accounts for sales and other revenue generating activities by student activity programs that have students involved in the management of the program.

# **STATISTICAL SECTION**

# **Statistical Section**

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

#### CONTENTS

#### Financial Trends

These schedules contain trend information to help the reader understand how the District's financial position has changed over time.

#### Revenue Capacity

These schedules contain information to help the reader understand and assess the factors affecting the District's ability to generate its most significant local revenue source(s), the property tax.

#### Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

#### Economic and Demographic Information

These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

#### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

#### Sources

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.
