INDEPENDENT AUDITOR'S REPORT

Constellation Schools: Old Brooklyn Community Elementary Cuyahoga County 4430 State Road Cleveland, OH 44109

5730 Broadview Rd Parma. OH 44134

To the Board of Directors:

Report on the Financial Statements

We have audited the accompanying financial statements of Constellation Schools: Old Brooklyn Community Elementary, Cuyahoga County, Ohio (the School), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

Efficient • Effective • Transparent

Constellation Schools: Old Brooklyn Community Elementary Cuyahoga County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Constellation Schools: Old Brooklyn Community Elementary, Cuyahoga County, Ohio as of June 30, 2019, and the changes in its financial position and its cash flows for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2019, on our consideration of the School's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

Keith Faber Auditor of State

Columbus, Ohio

November 20, 2019

Management's Discussion and Analysis For the Year Ended June 30, 2019 (Unaudited)

The discussion and analysis of Constellation Schools: Old Brooklyn Community Elementary (OBCE) financial performance provides an overall review of financial activities for the fiscal year ended June 30, 2019. The intent of this discussion and analysis is to look at the financial performance of OBCE as a whole. Readers should also review the Notes to the Financial Statements and the Financial Statements to enhance their understanding of the financial performance of OBCE.

Financial Highlights

Key financial highlights for 2019 include the following:

- In total, net position increased \$206,223, representing a 7.34% increase from 2018. Increases in revenues and changes in pension liabilities and OPEB liability/asset were offset by operating expense increases during the year.
- Total assets and deferred outflow of resources increased \$11,860, which represents a 0.12% increase from 2018. This is due to increases in cash, accounts receivable, bond reserve accounts and bond escrow accounts offset by reductions of due from other governments, prepaid expenses, capital assets and deferred outflows of resources
- Total liabilities and deferred inflow of resources decreased \$194,363, which represents a 1.55% decrease from 2018. Increases in payroll payable and deferred inflow of resources were offset by decreases in interest payable, net pension and OPEB liability, due to other governments, unearned revenues, bonds payable, and equipment leases payable during the year.
- Operating revenues increased by \$50,218 which represents a 1.50% increase from 2018. This
 increase is a result of increases in state foundation revenue, casino tax distributions and direct
 student services charged to other schools.
- Expenses increased by \$1,052,162 which represents a 42.77% increase from 2018. Increases are due to the change in net pension and OPEB liability/asset, fringe benefits, materials and supplies, depreciation, and other expenses with partially offsetting decreases in salaries, purchased services, and capital outlay.
- Non-operating revenues increased by \$20,645, which represents a 7.00% increase from 2018. This is due to increased federal entitlement program funding, private contributions and interest income.

Using this Financial Report

This report consists of four parts: the Management's Discussion and Analysis, the Financial Statements, Notes to the Financial Statements and Required Supplementary Information. The Financial Statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Net Position and a Statement of Cash Flows.

Management's Discussion and Analysis For the Year Ended June 30, 2019 (Unaudited)

Statement of Net Position

The Statement of Net Position looks at how well OBCE has performed financially through June 30, 2019. This statement includes all of the assets, deferred outflow of resources, liabilities, deferred inflow of resources and net position using the accrual basis of accounting, which is the accounting method used by most private-sector companies. This basis of accounting takes into account all revenues earned and expenses incurred during the year, regardless as to when the cash is received or expended. The following schedule provides a summary Statement of Net Position for fiscal years ended June 30, 2019 and 2018 for OBCE.

	2019	2018	Change	<u></u> %
Assets and Deferred Outflow of Resources				
Cash	\$1,095,307	\$933,578	\$161,729	17.32%

Net Position: End of Year	(\$2,604,277)	(\$2,810,500)	\$206,223	7.34%

Management's Discussion and Analysis For the Year Ended June 30, 2019 (Unaudited)

The most significant change in revenues from 2018 to 2019 include increases of \$25,766 in state foundation and poverty based assistance revenues and \$24,064 in other revenues in part due to increases in services provided to other schools. Other increases include \$8,626 in federal funding to OBCE through the state of Ohio; \$6,963 in interest income; \$5,056 in private grants and contributions; and various amounts in other collections, such as field trips receipts, materials fees, and Casino Tax Distributions.

Expenses increased \$1,052,162 from 2018 to 2019. This is a direct result of changes in net pension and OPEB liabilities/assets, direct student services staff that was shared and subsequently billed to other schools as well as regular annual cost increases. Salaries and Fringe Benefits increased \$7,002 from normal salary increases, and benefit changes. The change in Net Pension and OPEB liability/asset expense totaling \$1,065,345 is due to recognition of pension and OPEB liabilities/assets per GASB 68 and 75. Purchased Services decreased \$67,835 due to decreases in technology support, facilities costs and equipment leasing. Materials and Supplies increased \$31,536 due to increased purchases of online intervention and instructional workbooks. Capital Outlay decreased \$16,915 due to reductions in building improvements that were not capitalized. Depreciation increased \$2,004 due to capital assets placed in service during the year.

Capital Assets

As of June 30, 2019, OBCE had \$4,892,359 invested in land, construction in process, building, building improvements, technology and software, and furniture and equipment, net of depreciation. This is a \$177,014 decrease from June 30, 2018. The following schedule provides a summary of Capital Assets as of June 30, 2019 and 2018 for OBCE.

	2019	2018	Change	<u></u> %
Capital Assets (net of depreciation)				
Land	\$80,800	\$80,800	\$0	0.00%
Construction in Process	0	10,000	(10,000)	-100.00%
Building	544,999	568,273	(23,274)	-4.10%
Building Improvements	4,235,091	4,358,280	(123,189)	-2.83%
Technology and Software	24,868	40,720	(15,852)	-38.93%
Furniture and Equipment	6,601	11,300	(4,699)	-41.58%
Net Capital Assets	\$4,892,359	\$5,069,373	(177,014)	-3.49%

For more information on capital assets see the Notes to the Financial Statements.

Bond Debt Service

On April 10, 2014 OBCE shared in the closing of a multi-school, multi-property bond financing arrangement with the Cleveland Cuyahoga County Port Authority (CCCPA). A portion of the proceeds, along with escrow and reserve deposits from a 2008 bond issue, were deposited into an escrow account with US Bank, National Association for the purpose of advance refunding the prior bonds when they

Management's Discussion and Analysis For the Year Ended June 30, 2019 (Unaudited)

come due. The CCCPA bond refinance allowed OBCE to reacquire title to the land and building in which it operates, to improve ongoing financial reporting requirements and to complete renovation projects at OBCE. OBCE provided a mortgage on the land, building and improvements from US Bank, National Association. Financing was achieved through the issuance of a series of bonds maturing annually beginning on January 1, 2015 and continuing until January 1, 2044. Interest, which is paid semi-annually on January 1 and July 1, varies from a rate of 5.00% per annum to 7.75%. As of June 30, 2019, the outstanding principal balance, net of unamortized original bond discount, is \$7,757,822. For more information on debt service see the Notes to the Financial Statements.

Equipment Lease

During September 2015 OBCE entered into a lease agreement with Winthrop Resources Corporation for \$10,064 worth of technology equipment. The lease value has been recorded as capital equipment to recognize the asset, and as capital equipment lease payable to recognize the lease debt. The lease term is for a total of 48 months, carries an interest rate of 6.46% per annum and will expire in September 2019 at which time the equipment will have minimal value.

During the 2017 fiscal year, the school entered into another lease agreement with Winthrop to acquire \$53,342 of technology equipment. This lease is for a term of 48 months and expires in April 2021 at which time the equipment will have minimal value. The lease value has been recorded as capital equipment to recognize the asset, and as capital equipment lease payable to recognize the lease debt.

The outstanding principal value as of June 30, 2019 on the lease payable is \$26,497.

Net Pension and OPEB Liabilities

The net pension liability and OPEB is the second largest single liability reported by OBCE at June 30, 2019 and is reported pursuant to GASB Statement 68, Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27 and GASB Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which significantly revises accounting for costs and liabilities related to pension and other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of OBCE's actual financial condition by adding deferred inflow related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflow related to pension and OPEB and net OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability/asset*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Management's Discussion and Analysis For the Year Ended June 30, 2019 (Unaudited)

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability/asset to equal OBCE's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, OBCE is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, OBCE's statements include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability/asset, respectively, not accounted for as deferred inflow/outflow.

Management's Discussion and Analysis For the Year Ended June 30, 2019 (Unaudited)

Current Financial Issues

OBCE opened in the fall of 1998 as one of the first community schools in the State of Ohio. OBCE has grown from 30 students, two teaching staff members and expenses of \$181,928 to a total of 327 students, 35 teaching staff members and expenses of \$3,512,407, (including a reduction of \$210,824 for Change in Net Pension Liability/Asset). On March 1, 2006, grades 5 through 8 were split off to form Old Brooklyn Community Middle School. This is providing more flexibility in the curriculum for each student. During this time, we purchased our own educational facility and have constructed a substantial addition to accommodate increasing enrollment and allow both schools to cohabit the same property.

The Board of Directors, school management and school staff continue to work diligently to ensure that OBCE maintains the highest level of educational services and financial integrity that we have always provided. Our goal continues to be providing a strong educational product for our students and families and to maintain the reputation we have developed during our previous years.

Contacting OBCE's Financial Management

This financial report is designed to provide our constituents with a general overview of the finances for OBCE and to show accountability for the monies it receives. If you have any questions about this report or need additional information please contact Caroline Zito, Treasurer, by mail at Constellation Schools LLC, 5730 Broadview Road, Parma, Ohio 44134; by e-mail at zito.caroline@constellationschools.com; by calling 216.712.7600; or by faxing 216.712.7601.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

I. Description of the School and Reporting Entity

Constellation Schools: Old Brooklyn Community Elementary (OBCE), is a nonprofit corporation established on February 3, 1997 pursuant to Ohio Revised Code Chapters 3314 and 1702 to maintain and provide a school exclusively for any educational, literary, scientific and related teaching service that qualifies as an exempt organization under § 501(c)(3) of the Internal Revenue Code. On December 19, 1997, OBCE (under the name Archwood Montessori School) received a determination letter confirming tax-exempt status with the Internal Revenue Service under section 501(c)(3) of the Internal Revenue Code. Management is not aware of any course of action or series of events that have occurred that might adversely affect the tax-exempt status of OBCE. OBCE, which is part of Ohio's education program, is independent of any school district. OBCE may sue and be sued, acquire facilities as needed, and contract for any services necessary for the operation of OBCE.

OBCE was approved for operation as Old Brooklyn Montessori School under a contract between the Governing Authority (Board) of OBCE and the Ohio Department of Education as the sponsor for a period of five years commencing in the fall of 1998. The contract was subsequently renewed in 2003 for a two-year period. On October 16, 2003 Lucas County Educational Service Center (LCESC) replaced the Ohio Department of Education. The contract with LCESC, now known as ESC of Lake Erie West (ESCLEW), has been renewed with a current expiration date of June 30, 2022. Under the terms of the contract ESCLEW will provide sponsorship services for a fee. See Note XV for further discussion of the sponsor services.

OBCE entered into an agreement with Constellation Schools (CS) to provide legal, financial, business and educational management services for the fiscal year. See Note XV for further discussion of this management agreement).

OBCE operates under a five member Board which is responsible for carrying out the provisions of the contract, including, but not limited to, state mandated provisions regarding student population, curriculum, academic goals, performance standards, admission standards, and qualification of teachers. The Board controls the instructional facility for OBCE, which is staffed by 35 certificated full time personnel and 5 support staff who provide services to 327 students in grades kindergarten through four. The Board for OBCE also serves as the Board for Constellation Schools: Parma Community, Constellation Schools: Elyria Community, and Constellation Schools: Lorain Community Elementary.

II. Summary of Significant Accounting Policies

The financial statements of OBCE have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental nonprofit organizations. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of OBCE's accounting policies are described below.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

1. Basis of Presentation

Enterprise accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

2. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by its measurement focus. Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflow of resources and all liabilities and deferred inflow of resources are included on the Statement of Net Position. Operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total position.

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. OBCE prepares financial statements using the accrual basis of accounting. Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded when the exchange takes place. Revenues resulting from non-exchange transactions, in which OBCE receives value without directly giving equal value in return, such as grants and entitlements, are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when the use is first permitted; matching requirements, in which OBCE must provide local resources to be used for a specified purpose; and expenditure requirements, in which resources are provided to OBCE on a reimbursement basis. Expenses are recognized at the time they are incurred.

3. Implementation of New Accounting Principles

For the fiscal year ended June 30, 2019, the School has implemented Governmental Accounting Standards Board (GASB) Statement No. 83, Certain Asset Retirement Obligations and GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements.

GASB Statement No. 83 establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for asset retirement obligations. The implementation of GASB Statement No. 83 did not have an effect on the financial statements of the School.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

GASB Statement No. 88 establishes additional financial statement note disclosure requirements related to debt obligations of governments, including direct borrowings and direct placements. These changes were incorporated in the School's fiscal year 2019 financial statements; however, there was no effect on beginning net position.

4. Cash

All monies received by OBCE are deposited in demand deposit accounts.

5. Budgetary Process

Pursuant to Ohio Revised Code Chapter 5705.391 OBCE prepares and adopts an annual budget which includes estimated revenues and expenditures for the fiscal year and a five year forecast of revenues and expenditures. OBCE will from time to time adopt budget revisions as necessary.

6. Due From Other Governments

Monies due to OBCE for the year ended June 30, 2019 are recorded as Due From Other Governments. A current asset for the receivable amount is recorded at the time of the event causing the monies to be due.

7. Capital Assets and Depreciation

Capital assets are capitalized at cost and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the dates received. All items with a useful life of one year or greater and a value of \$2,500 or more are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All capital assets are depreciated except for land. Depreciation of buildings, building improvements, technology and software, and furniture and equipment is computed using the straight line method over their estimated useful lives. Improvements to capital assets are depreciated over the remaining useful lives of the related capital assets or less. Estimated useful lives are as follows:

Capital Asset Classification	
Building Building Improvements Technology & Software	40 10 to 40 3 to 5
Furniture and Equipment	10

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

8. Intergovernmental Revenues

OBCE currently participates in the State Foundation Program, the State Poverty Based Assistance Program, Community Schools Facilities Allocation and Casino Tax Distribution. Revenues received from these programs are recognized as operating revenues in the accounting period in which all eligibility requirements have been met. OBCE also participates in Federal Entitlement Programs, the Federal Lunch Reimbursement Program and various State Grant Programs. State and Federal Grants and Entitlements are recognized as non-operating revenues in the accounting period in which all eligibility requirements have been met. Amounts awarded under the above named programs for the 2019 school year totaled \$2,886,811.

9. Private Grants and Contributions

OBCE received grants and contributions from private sources to support OBCE's programs. Private grants and contributions are recognized as non-operating revenues in the accounting period in which they are received. OBCE received a total of \$6,381 in private grants and contributions for the 2019 fiscal year.

10. Compensated Absences

Vacation is taken in a manner which corresponds with the school calendar; therefore, OBCE does not accrue vacation time as a liability.

Sick leave benefits are earned at the rate of one and one-quarter day per month and can be accrued up to a maximum of one hundred twenty days. OBCE will accept the transfer of sick days from another school district up to the maximum accrual amount. No financial accrual for sick time is made since unused sick time is not paid to employees upon employment termination.

11. Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. The unearned revenue for OBCE consists of enrollment application fees received in the current year which pertains to the next school year.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

12. Pensions and Other Post-Employment Benefits

For purposes of measuring the net pension/OPEB liability/asset, deferred outflow of resources and deferred inflow of resources related to pension/OPEB, and pension/OPEB expense; information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

13. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the financial statements. In general, payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations. However, claims and judgments, compensated absences that will be paid from available funds are reported as a liability in the financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liability should be recognized to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

14. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from these estimates.

15. Deferred Outflow of Resources and Deferred Inflow of Resources

A deferred outflow of resources is a consumption of assets by OBCE that is applicable to a future reporting period and will not be recognized as an outflow of resources (expense/expenditure) until then. The deferred outflow of resources related to pension and OPEB is described in Note XII and Note XIII.

A deferred inflow of resources is an acquisition of assets by OBCE that is applicable to a future reporting period and will not be recognized as an inflow of resources (revenue) until that time. The deferred inflow of resources related to pension and OPEB is described in Note XII and Note XIII.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

When utilizing the accrual basis of accounting, unamortized deferred charges on debt refinancing are reported as a deferred outflow of resources. Deferred charges on refunding result from the difference in the carrying value of refunded debt to its reacquisition price. This amount is deferred and amortized over the shorter period of the life of the refunded debt or of the refunding debt.

16. Net Position

Net position represents the difference between assets and deferred outflow of resources and liabilities and deferred inflow of resources. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by OBCE or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

OBCE applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

17. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activities of the School. For the School, these revenues are primarily the State Foundation program. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the School. All revenues and expenses not meeting this definition are reported as non-operating.

III. Deposits

At fiscal year end June 30, 2019, the carrying amount of OBCE's deposits totaled \$1,095,307 and its bank balance was \$1,098,078. Based on the criteria described in GASB Statement No. 40, "Deposit and Investment Risk Disclosure," as of June 30, 2019, \$848,078 of OBCE's bank balance was exposed to custodial risk as discussed below, while \$250,000 was covered by the Federal Depository Insurance Corporation.

Escrow and reserve accounts held in trust on behalf of OBCE and the Cleveland Cuyahoga County Port Authority totaled \$1,175,118 at fiscal year end June 30, 2019. The escrow accounts are invested in the US Treasury and are 100% backed by the full faith and credit of the United States government. Reserve accounts are invested in U.S. Bank Open Commercial Paper instruments.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

OBCE has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred and five percent of the deposits being secured. Effective July 1, 2017, the Ohio Pooled Collateral System (OPCS) was implemented by the Office of the Ohio Treasurer of State. Financial institutions can elect to participate in the OPCS and will collateralize at one hundred and two percent or a rate set by the Treasurer of State. Financial institutions opting not to participate in OPCS will collateralize utilizing the specific pledge method at one hundred and five percent.

IV. Purchased Services

Purchased Services during fiscal year 2019 include the following:

Instruction	\$127,067
Pupil Support Services	5,028
Staff Development & Support	36,471
Administrative	461,547
Occupancy Costs	133,016
Food Services	50,879
Transportation	7,080
Student Activities	894
Total Purchased Services	\$821,983

CONSTELLATION SCHOOLS: OLD BROOKLYN COMMUNITY ELEMENTARY - A Community School Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

V. Capital Assets

A summary of capital assets at June 30, 2019 follows:

	Balance 7/1/2018	Additions	Deletions	Balance 6/30/2019
Capital Assets Not Being	17172010	Additions	Deletions	0/00/2010
Depreciated:				•
Land	\$80,800	\$0	\$0	\$80,800
Construction in Process	10,000	0	(10,000)	0

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

VI. Capital Equipment Lease Payable

In September 2015, OBCE entered into a four-year lease for technology equipment. During fiscal year 2017, OBCE entered into another forty-eight-month lease for additional technology equipment with Winthrop Leasing. These leases meet the criteria of capital leases as defined by accounting standards, which defines a capital lease generally as one which transfers the benefits and risks of ownership of the lessee.

Assets of technology equipment totaling \$10,064 for the first lease and \$53,342 for the second lease have been capitalized (accumulated depreciation as of June 30, 2019 is \$9,645 and \$28,894, respectively). These amounts represent the actual purchase price of the equipment and is the same as the net present value of the minimum lease payments at the time of acquisition. Principal payments during fiscal year 2019 totaled \$15,729 and interest paid totaled \$1,956. Future minimum lease payments for principal and interest under the capital lease are as follows:

Year	Principal	Interest Total		
2020	\$14,452	\$2 , 162	\$16,614	
2021	12,045	306	12,351	
Total	\$26,497	\$2,468	\$28,965	

VII. Dawning School Building Purchase

On July 1, 2002, OBCE moved its operations to the former Dawning School located at 4430 State Road, Cleveland, which it purchased on November 12, 2002. The purchase price of \$950,000 and other purchase costs totaling \$61,759 have been capitalized and are being depreciated over a forty year period. All operations of OBCE are located at this site.

In order to finance a multi-million dollar expansion project, OBCE sold the building and land which it occupies to The Industrial Development Authority of the County of Pima (IDA) on January 23, 2008 as part of a bond financing deal. OBCE leased the property from IDA under a capitalized lease arrangement. On April 10, 2014 the bond issue was refinanced and title for the property was returned to the ownership of OBCE (See Note VIII). The original purchase price, other purchase costs and building improvements continue to be recognized as capital assets and are being depreciated over their remaining useful life.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

VIII. Capital Lease Bond Notes Payable

On April 10, 2014 OBCE closed a \$30,790,000 multi-school, multi-property bond financing arrangement with the Cleveland Cuyahoga County Port Authority (CCCPA). Underwriters' discounts totaling \$538,825 and original bond discounts of \$163,934 were deducted from the bond proceeds at issuance. A portion of the proceeds, along with escrow and reserve deposits from a prior bond issue, were deposited into an escrow account with US Bank, National Association for the purpose of advance refunding the prior bonds when they come due (See Note IX). In addition, \$4,953,849 of the CCCPA bonds is financing multi-million dollar building acquisition, renovation and expansion projects to meet increasing demand for enrollment for the participating schools.

The properties are managed through annual lease and sub-lease arrangements. OBCE and the CCCPA secured a mortgage on the land, building and improvements from US Bank, National Association. Financing was achieved through the issuance of a series of bonds maturing annually beginning on January 1, 2015 and continuing until January 1, 2044. Interest, which is paid semi-annually on January 1 and July 1, is at the rate of 5.00% per annum for the bonds maturing between 2015 and 2017 (Series B); 5.75% for the bonds maturing between 2018 and 2024 (Series A); 6.50% for the bonds maturing between 2025 and 2034(Series A); and 7.75% for the bonds maturing between 2035 and 2044 (Series A). The outstanding principal balance, net of unamortized bond discount, as of June 30, 2019 is \$7,757,822 and interest payable due July 1, 2019 is \$264,297. Interest paid during 2019 totaled \$517,937. Changes in the Capital Lease Bond Notes Payable during the year consist of the following:

	Balance 7/1/2018	Additions	Reductions	Balance 6/30/2019	Due In One Year
Series A	\$7,887,807	\$0	(\$95,803)	\$7,792,004	\$133,060
Bond Discount	(35,980)	0	1,798	(34,182)	0
TOTALS	\$7,851,827	\$0	(\$94,005)	\$7,757,822	\$133,060

These lease obligations meet the criteria of a capital lease as defined by accounting standards and has been recorded in the financial statements. Land, Building, Other Purchase Costs, and Building Improvements in existence at the date of the bond issuance continue to be recognized as capital assets and are being depreciated over their remaining useful life. OBCE's share of bond issuance costs totaling \$366,117 were expensed at the time of the bond issuance. The reacquisition price exceeded the net carrying amount of the 2008 debt by \$1,007,875. Loss on refinancing is reported as "Unamortized Deferred Charges on Bond Refinancing" and is being amortized through annual charges to interest for the remaining life of the 2008 bond issue. The original bond discount, which totaled \$43,626 for OBCE, is being amortized through annual charges to interest for the remaining life of the 2008 bond issue. As of June 30, 2019 the unamortized balances for the cost to refinance and the bond discount are \$789,675 and \$34,182 respectively.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

The Bond Indenture requires OBCE to meet certain covenants. As of June 30, 2019 OBCE is in compliance with those covenants. The Bond Indenture also requires all of the participating schools to meet certain covenants. As of June 30, 2019 three of the schools did not meet the required debt service coverage ratio (DSCR). Unless waived by the owners of a majority of the principal amount of bonds outstanding, the school may be required to hire a management consultant to make recommendations with respect to increasing revenues, decreasing expenses or other financial matters of the school which are relevant to increasing the DSCR to at least 1.00 or 1.10.

As part of the agreements for the leases, monies were deposited into several escrow accounts with US Bank, N.A. Payments for renovation and financing activities have been paid from these accounts through June 30, 2019. Lease payments were made by OBCE to cover bond interest and administrative fees and to make deposits into reserve accounts. Funds were deposited from initial bond proceeds into a Debt Service Reserve Account to meet future debt service needs. Lease payments made during 2019 to fund interest, reserves and bond expenses totaled \$666,584. The balances of escrow and reserve accounts as of June 30, 2019 are as follows:

Bond Debt Service Account	\$324,313
Expense Fund	29,211
Total Bond Escrow Accounts	\$353,524
Debt Service Reserve	\$661,040
Operating Reserve	160,554
Total Bond Reserve Accounts	\$821,594

The assets refinanced through the capital lease as of June 30, 2019 are as follows:

Land	\$80,800
Building	930,959
Building Improvements	5,141,692
Sub-Total	6,153,451
Accumulated Depreciation	(1,715,091)
Net Book Value	\$4,438,360

CONSTELLATION SCHOOLS: OLD BROOKLYN COMMUNITY ELEMENTARY - A Community School -

Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

Future minimum lease payments for principal and interest on the face value of the Series 2014 bonds (does not include amortization of the loss to refinance the Series 2008 bonds or the bond discount on the Series 2014 bonds) under the capital lease are as follows:

Year		Principal	Interest	Total	
2020			\$133,060	\$512,428	\$645,488
2021			141,044	504,777	645,821
2022			150,358	496,667	647,025
2023			158,342	488,022	646,364
2024			167,656	478,917	646,573
2025	-	2029	1,013,918	2,223,223	3,237,141
2030	-	2034	1,397,132	1,846,908	3,244,040
2035	-	2039	1,933,364	1,319,212	3,252,576
2040	-	2044	2,697,130	570,329	3,267,459
Total			\$7,792,004	\$8,440,483	\$16,232,487

IX. Refunded Capital Lease Bond Notes Payable

On April 10, 2014 OBCE closed a \$30,790,000 multi-school, multi-property bond financing arrangement with the Cleveland Cuyahoga County Port Authority (CCCPA). A portion of the proceeds, \$22,004,213, along with escrow and reserve deposits from a prior bond issue, \$5,245,493, were used to advance refund the entire Constellation Schools Series 2008 Bonds issued by The Industrial Development Authority of the County of Pima (See Note VII). The refunding portion of the issue, along with the escrow and reserve accounts from the 2008 issue, were deposited into an escrow account with US Bank, National Association for the purpose of advance refunding the bonds when they come due.

X. Facility Lease

OBCE leases space to Constellation Schools: Old Brooklyn Community Middle (OBCM). Under the terms of the sub-lease OBCM made monthly lease payments of \$23,958. OBCE charged OBCM a total of \$287,500 during the year. As of June 30, 2019 all lease payments were collected from OBCM.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

XI. Risk Management

1. Property and Liability Insurance

OBCE is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For fiscal year 2019, OBCE contracted with Traveler's Property Casualty Company of America for property insurance, The Hanover Insurance Company for liability insurance and errors and omissions insurance and Allamerica Financial Benefit Insurance Company for Automobile insurance.

General property and liability is covered at \$10,000,000 single occurrence limit and \$11,000,000 aggregated. Hired and Non-Owned Vehicles are covered at \$1,000,000 combined single limit of liability. Other coverage includes Employee Crime, School Leaders Errors & Omissions, Sexual Abuse and Misconduct, Electronic Data Processing, Cyber Liability and Business Interruption. Settled claims have not exceeded this coverage in any of the past three years, nor has there been any significant reduction in insurance coverage from the prior year.

2. Workers' Compensation

OBCE makes premium payments to the Ohio Workers' Compensation System for employee injury coverage. There have been two claims filed by OBCE employees with the Ohio Workers' Compensation System between January 1, 2014 and June 30, 2019. The total payments made for these claims have been \$1,997. In the opinion of management, these claims will not have a material adverse effect on the overall financial position of OBCE as June 30, 2019.

3. Employee Medical, Dental, Vision and Life Benefits

OBCE provides medical, dental, vision and life insurance benefits to all full time employees. Employees participate in premium payments through pretax payroll deductions. Total insurance benefits paid by OBCE for the fiscal year is \$194,034.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

XII. Defined Benefit Pension Plans

1. Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents OBCE's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits OBCE's obligation for this liability to annually required payments. OBCE cannot control benefit terms or the manner in which pensions are financed; however, OBCE does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in due to other governments.

2. Plan Description - School Employees Retirement System (SERS)

Plan Description – OBCE non-teaching employees participate in SERS, a statewide, cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits to plan members and beneficiaries.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire before	Eligible to Retire on or after
	August 1, 2017*	August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or
		Age 57 with 30 years of service credit
Actuarially Reduced	Age 60 with 5 years of service credit	Age 62 with 10 years of service credit; or
Benefits	Age 55 with 25 years of service credit	Age 60 with 25 years of service credit

^{*}Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first 30 years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and OBCE is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2019, the allocation to pension, death benefits, and Medicare B was 13.5 percent. SERS allocated 0.5 percent of employer contributions to the Health Care Fund for fiscal year 2019.

OBCE's contractually required contribution to SERS was \$40,479 for fiscal year 2019.

3. Plan Description - State Teachers Retirement System (STRS)

Plan Description – OBCE licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. For the DB Plan, from August 1, 2015–July 1, 2017, any member could retire with reduced benefits who had (1) five years of service credit and age 60; (2) 26 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Effective August 1, 2017–July 1, 2019, any member may retire with reduced benefits who has (1) five years of service credit and age 60; (2) 27 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Eligibility changes will continue to be phased in through August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60. Retirement eligibility for reduced benefits will be five years of service credit regardless of age.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. Effective July 1, 2017, employer contributions of 9.53 percent are placed in the investment accounts and the remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent is applied to the DB Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund a defined benefit payment. A member's defined benefit is determined by multiplying one percent of the member's final average salary by the member's years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50 and termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2019, plan members were required to contribute 14 percent of their annual covered salary. OBCE was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2019 contribution rates were equal to the statutory maximum rates.

OBCE's contractually required contribution to STRS was \$188,075 for fiscal year 2019.

4. Pension Liabilities, Pension Expense, and Deferred Outflow of Resources and Deferred Inflow of Resources Related to Pensions

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an independent actuarial valuation as of that date. OBCE's employer allocation percentage of the net pension liability was based on the employer's share of employer contributions in the pension plan relative to the total employer contributions of all participating employers. Following is information related to the proportionate share and pension expense:

	,	SERS		STRS	Total
Proportion of the Net Pension Liability:					
Current Measurement Date	0.0	00870307%	0	.01242120%	
Prior Measurement Date	0.0	00973528%	0	.01101233%	
Change in Proportionate Share	-0.0	0103221%	0	.00140887%	
Proportionate Share of the Net					
Pension Liability	\$	498,441	\$	2,731,144	\$ 3,229,585
Pension Expense	\$	77,875	\$	355,044	\$ 432,919

Deferred outflow/inflow of resources represent the effect of changes in the net pension liability due to the difference between projected and actual investment earnings, differences between expected and actual actuarial experience, changes in assumptions and changes in OBCE's proportion of the collective net pension liability. The deferred outflow and deferred inflow are to be included in pension expense over current and future periods. The difference between projected and actual investment earnings is recognized in pension expense using a straight line method over a five year period beginning in the current year. Deferred outflow and deferred inflow resulting from changes in sources other than differences between projected and actual investment earnings are amortized over the average expected remaining service lives of all members

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

(both active and inactive) using the straight line method. Employer contributions to the pension plan subsequent to the measurement date are also required to be reported as a deferred outflow of resources.

At June 30, 2019 OBCE reported deferred outflow of resources and deferred inflow of resources related to pensions from the following sources:

	SERS		STRS		Total	
Deferred Outflows of Resources						
Differences between Expected and						
Actual Experience	\$	27,334	\$	63,043	\$	90,377
Changes of Assumptions		11,256		484,010		495,266
Changes in Proportion and Differences between						
OBCE Contributions and Proportionate						
Share of Contributions		36,187		456,190		492,377
OBCE Contributions Subsequent to the						
Measurement Date		40,479		188,075		228,554
Total Deferred Outflows of Resources	\$	115,256	\$	1,191,318	\$	1,306,574
Deferred Inflows of Resources						
Differences between Expected and						
Actual Experience	\$	0	\$	17,837	\$	17,837
Net Difference between Projected and						
Actual Earnings on Pension Plan Investments		13,810		165,612		179,422
Changes in Proportion and Differences between OBCE Contributions and Proportionate						
Share of Contributions		31,575		41,573		73,148
Total Deferred Inflows of Resources	\$	45,385	\$	225,022	\$	270,407

\$228,554 reported as deferred outflows of resources related to pension resulting from OBCE contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total	
Fiscal Year Ending June 30:	 			
2020	\$ 51,892	\$ 330,558	\$	382,450
2021	(1,906)	295,379		293,473
2022	(16,357)	135,473		119,116
2023	 (4,237)	 16,811		12,574
	\$ 29,392	\$ 778,221	\$	807,613

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

5. Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2018, are presented below:

Wage Inflation 3.00 percent

Future Salary Increases, including inflation 3.50 percent to 18.20 percent

Investment Rate of Return 7.50 percent net of investment expense, including inflation

Actuarial Cost Method Entry Age Normal (Level Percent of Payroll)

COLA or Ad Hoc COLA 2.50 percent, on and after April 1, 2018, COLA's for future

retirees will be delayed for three years following

commencement

For post-retirement mortality, the table used in evaluating allowances to be paid is the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, with 120 percent of male rates and 110 percent of female rates used. The RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years is used for the period after disability retirement.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS'

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The asset allocation, as used in the June 30, 2015 five-year experience study, is summarized as follows:

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00 %	0.50 %
US Equity	22.50	4.75
International Equity	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Discount Rate Total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 26-year amortization period of the unfunded actuarial accrued liability. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of OBCE's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents OBCE's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what OBCE's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	Current									
		Decrease	Dis	count Rate	1% Increase					
OBCE's Proportionate Share										
of the Net Pension Liability	\$	702,092	\$	498,441	\$	327,694				

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

6. Actuarial Assumptions - STRS

The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50 percent

Projected Salary Increases 12.50 percent at age 20 to 2.50 percent at age 65

Investment Rate of Return 7.45 percent, net of investment expenses, including inflation

Projected Payroll Growth 3.00 percent Cost-of-Living Adjustments 0.00 percent

Post-retirement mortality rates are based on RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016; pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

The actuarial assumptions used in the July 1, 2018 valuation, were adopted by the board from the results of an actuarial experience study for July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long Term Expected
Asset Class	_Allocation*	Real Rate of Return**
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

^{*}Target weights will be phased in over a 24-month period concluding on July 1, 2019.

^{**}Ten year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

Discount Rate The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2018. The projection of cash flows used to determine the discount rate assumes that employer and member contributions will be made at statutory contribution rates of 14 percent each. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2018. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2018.

Sensitivity of OBCE's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents OBCE's proportionate share of the net pension liability as of June 30, 2018, calculated using the current period discount rate assumption of 7.45 percent, as well as what OBCE's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current assumption:

		Current							
	_ 1%	Decrease	Dis	scount Rate	1% Increase				
OBCE's Proportionate Share				_					
of the Net Pension Liability	\$	3,988,476	\$	2,731,144	\$	1,666,983			

XIII. Defined Benefit – Other Post-Employment Benefits (OPEB)

1. Net Other Post-Employment Benefits Liability/(Asset)

The net OPEB asset/liability reported on the statement of net position represents an asset or liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB asset/liability represents OBCE's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB asset/liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits OBCE's obligation for this liability to annually required payments. OBCE cannot control benefit terms or the manner in which OPEB are financed; however, OBCE does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the asset/liability is solely that of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees, which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB asset/liability. Resulting adjustments to the net OPEB asset/liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term net OPEB asset/ liability. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in due to other governments.

2. Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - OBCE contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eliqible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a selfinsured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2019, 0.5 percent of covered payroll was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2019, this amount was \$21,600. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2019, OBCE's surcharge obligation was \$2,086.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. OBCE's contractually required contribution to SERS was \$3,585 for fiscal year 2019. Of this amount \$2,086 is reported as an accounts payable.

3. Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30,

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

2019, STRS did not allocate any employer contributions to post-employment health care.

4. OPEB Liabilities, OPEB Expense, and Deferred Outflow of Resources and Deferred Inflow of Resources Related to OPEB

The net OPEB asset/liability was measured as of June 30, 2018, and the total OPEB asset/liability used to calculate the net OPEB asset/liability was determined by an actuarial valuation as of that date. OBCE's proportion of the net OPEB asset/liability was based on OBCE's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

		SERS		STRS	Total
Proportion of the Net OPEB Liability/(Asset):					
Current Measurement Date	0.	00796806%	0	.01242120%	
Prior Measurement Date	0.00893600%			.01101233%	
Change in Proportionate Share	-0.	00096794%	0	.00140887%	
Proportionate Share of the Net					
OPEB Liability/(Asset)	\$	221,056	\$	(199,596)	\$ 21,460
OPEB Expense	\$	4,177	\$	(415,781)	\$ (411,604)

At June 30, 2019, OBCE reported deferred outflow of resources and deferred inflow of resources related to OPEB from the following sources:

Total Deferred Inflow of Resources	\$ 45,025	\$ 306,396	\$	351,421	

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

\$3,585 reported as deferred outflows of resources related to OPEB resulting from OBCE contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability/asset in the year ending June 30, 2020. Other amounts reported as deferred outflow of resources and deferred inflow of resources related to OPEB will be recognized in OPEB expense as follows:

	 SERS STRS				Total
Fiscal Year Ending June 30:

5. Actuarial Assumptions - SERS

The total OPEB liability was determined by an actuarial valuation as of June 30, 2018. The actuarial assumptions used in the valuation are based on results from the most recent actuarial experience study, which covered the five-year period ending June 30, 2015. The experience study report is dated April 2016. The total OPEB liability used the following assumptions and other inputs:

Wage Inflation 3.00 percent

Future Salary Increases, including inflation 3.50 percent to 18.20 percent

Investment Rate of Return 7.50 percent net of investment expense, including inflation

Municipal Bond Index Rate

Measurement Date 3.62 percent
Prior Measurement Date 3.56 percent

Single Equivalent Interest Rate

Measurement Date 3.70 percent, net of plan investment expense, including price inflation Prior Measurement Date 3.63 percent, net of plan investment expense, including price inflation

Health Care Cost Trend Rate

Medicare5.375 percent - 4.75 percentPre-Medicare7.25 percent - 4.75 percent

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The long-term expected rate of return on plan factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

inherent in current market data, and a long-normal distribution analysis in which bestestimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00 %	0.50 %
US Equity	22.50	4.75
International Equity	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2018 was 3.70 percent. The discount rate used to measure total OPEB liability prior to June 30, 2018 was 3.63 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 2.00 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.62 percent, as of June 30, 2018 (i.e., municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

Sensitivity of OBCE's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability and what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.70 percent) and higher (4.70 percent) than the current discount rate (3.70 percent). Also shown is what the net OPEB liability would be based on health care cost trend rates that are one percent lower (6.25 percent decreasing to 3.75 percent) and one percent higher (8.25 percent decreasing to 5.75 percent) than the current rate.

	Current									
	1%	1% Decrease Discount Rate								
OBCE's Proportionate Share of the Net OPEB Liability	\$	268,234	\$	221,056	\$	183,699				
	1%	Decrease		Current end Rate	1%	Increase				
OBCE's Proportionate Share of the Net OPEB Liability	\$	178,351	\$	221,056	\$	277,604				

6. Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2018, actuarial valuation are presented below:

Inflation

2.50 percent

2.50 percent

12.50 percent at age 20 to 2.50 percent at age 65

Investment Rate of Return

Payroll Increases

3.00 percent

Health Care Cost Trend Rates

2.50 percent, and age 20 to 2.50 percent at age 65

7.45 percent, net of investment expenses, including inflation

3.00 percent

-5.23 percent to 9.62 percent, initial, 4.00 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

Actuarial assumptions used in the June 30, 2018, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long Term Expected
Asset Class	Allocation*	Real Rate of Return**
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

^{*}Target weights will be phased in over a 24-month period concluding on July 1, 2019.

**Ten year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total OPEB asset/liability was 7.45 percent as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2018. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total OPEB liability as of June 30, 2018.

Sensitivity of OBCE's Proportionate Share of the Net OPEB Asset/Liability to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset/liability as of June 30, 2018, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset/liability would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB liability/asset as of June 30, 2018, calculated

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1%	Current 1% Decrease Discount Rate 19								
OBCE's Proportionate Share of the Net OPEB Liability/(Asset)	\$	(171,073)	\$	(199,596)	\$	(223,569)				
	1%	Decrease		Current rend Rate	19	6 Increase				
OBCE's Proportionate Share of the Net OPEB Liability/(Asset)	\$	(222,215)	\$	(199,596)	\$	(176,624)				

XIV. Contingencies

1. Grants

OBCE received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs requires compliance with terms and conditions, specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of OBCE. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of OBCE at June 30, 2019.

2. School Foundation

School foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. However, there is an important nexus between attendance and enrollment for Foundation funding purposes. Community schools must provide documentation that clearly demonstrates students have participated in learning opportunities. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end.

Under Ohio Rev. Code Section 3314.08, ODE may also perform a FTE Review subsequent to the fiscal year end that may result in an additional adjustment to the enrollment information as well as claw backs of Foundation funding due to a lack of evidence to support student participation and other matters of noncompliance. ODE did not perform such a review on OBCE for fiscal year 2019.

As of the date of this report, additional ODE adjustments for fiscal year 2019 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2019

- A Community School - Cuyahoga County, Ohio

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

financial statements is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of OBCE.

In addition, OBCE's contracts with their Sponsor, ESC of Lake Erie West and their management company, Constellation Schools require that a portion of their fees be calculated as a percentage of Foundation revenues received by the school from the State (See Note XV). As discussed above, FTE adjustments for fiscal year 2019 are not finalized. Until such adjustments are finalized by ODE, the impact on the fiscal year 2019 financial statements, related to fee calculation changes necessary with these contracts, is not determinable. Management believes this may result in either an additional receivable to, or liability of, OBCE.

XV. Sponsorship and Management Agreements

OBCE entered into an agreement with the ESC of Lake Erie West, (ESCLEW) formerly Lucas County Educational Service Center, to provide sponsorship and oversight services as required by law. The agreement was renewed at the end of the fiscal year and continues until June 30, 2022. Sponsorship fees were calculated as 2.50% of the Fiscal Year 2019 Foundation payments received by OBCE from the State of Ohio. The total amount due ESCLEW from OBCE for fiscal year 2019 was \$62,270, all of which was paid prior to June 30, 2019.

OBCE entered into an agreement with Constellation Schools (CS) to provide legal, financial, business and educational management services for fiscal year 2019. The agreement was for a period of one year, effective July 1, 2017. Management fees are calculated as 6.25% of the Fiscal Year 2019 Foundation payments received by OBCE from the State of Ohio plus a fixed fee of \$182,500. The total fee cannot exceed twice the fixed fee. The total amount due CS from OBCE for the fiscal year ending June 30, 2019 was \$342,917 all of which was paid prior to June 30, 2019.

XVI. Net Restricted for Debt Purposes

Net restricted for debt purposes represents the combination of Escrow Accounts and Bond Reserve Accounts, net of the outstanding portion of Bonds Payable used to finance these assets. The Project Fund, which is included in Escrow Accounts, is being held for construction purposes and was partially liquidated during the fiscal year. The Bond Debt Service Account and the Expense Fund, which are included in Escrow Accounts, along with the Debt Service Reserve and Operating Reserve Accounts, which are being held for bond financing reserve requirements, will continue to be funded until January 1, 2044.

Changes in Assumptions - SERS

For fiscal year 2017, the SERS Board adopted the following assumption changes:

- Assumed rate of inflation was reduced from 3.25 percent to 3.00 percent
- Payroll Growth Assumption was reduced from 4.00 percent to 3.50 percent
- Assumed real wage growth was reduced from 0.75 percent to 0.50 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females.
- Mortality among service retired members, and beneficiaries was updated to RP-2014
 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent
 of male rates, and 110 percent of female rates.
- Mortality among disabled members was updated to RP-2000 Disabled Mortality Table,
 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

Changes in Benefit Terms - SERS

For fiscal year 2018, the cost-of-living adjustment was changed from a fixed 3.00 percent to a cost-of-living adjustment that is indexed to CPI-W not greater than 2.50 percent with a floor of zero percent beginning January 1, 2018. In addition, with the authority granted the Board under HB 49, the Board has enacted a three-year COLA suspension for benefit recipients in calendar years 2018, 2019 and 2020.

Changes in Assumptions – STRS

For fiscal year 2018, the Retirement Board approved several changes to the actuarial assumptions in 2017. The long term expected rate of return was reduced from 7.75 percent to 7.45 percent, the inflation assumption was lowered from 2.75 percent to 2.50 percent, the payroll growth assumption was lowered to 3.00 percent, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25 percent due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

Changes in Benefit Terms - STRS

For fiscal year 2018, the cost-of-living adjustment (COLA) was reduced to zero.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2019

Note 2 - Net OPEB Liability

Changes in Assumptions - SERS

Amounts reported for fiscal year 2019 incorporate changes in key methods and assumptions used in calculating the total OPEB liability. The Municipal Bond Index Rate increased from 3.56 percent to 3.62 percent. Single Equivalent Interest Rate, net of plan investment expense, including price inflation, increased from 3.63 percent to 3.70 percent. The health care cost trend assumptions changed as follows:

Pre-Medicare

7.50 percent initially, decreasing to 5.00 percent Fiscal year 2018 Fiscal year 2019

7.25 percent initially, decreasing to 4.75 percent

Medicare

Fiscal year 2018 5.50 percent initially, decreasing to 5.00 percent

5.375 percent initially, decreasing to 4.75 percent Fiscal year 2019

Amounts reported for fiscal year 2018 incorporate changes in key methods and assumptions used in calculating the total OPEB liability. The Municipal Bond Index Rate increased from 2.92 percent to 3.56 percent. Single Equivalent Interest Rate, net of plan investment expense, including price inflation, increased from 2.98 percent to 3.63 percent.

Changes in Benefit Terms - SERS

There have been no changes to the benefit provisions.

Changes in Assumptions – STRS

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45 percent. Valuation year per capita health care costs were updated. Health care cost trend rates ranged from 6.00 percent to 11 percent initially and a 4.50 percent ultimate rate for fiscal year 2018 and changed for fiscal year 2019 to a range of -5.20 percent to 9.60 percent, initially and a 4.00 ultimate rate.

For fiscal year 2018, the blended discount rate was increased from 3.26 percent to 4.13 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Constellation Schools: Old Brooklyn Community Elementary Cuyahoga County 4430 State Road Cleveland, OH 44109

5730 Broadview Rd Parma, OH 44134

To the Board of Directors:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of Constellation Schools: Old Brooklyn Community Elementary, Cuyahoga County, Ohio (the School) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School's basic financial statements and have issued our report thereon dated November 20, 2019.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the School's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Efficient • Effective • Transparent

Constellation Schools: Old Brooklyn Community Elementary Cuyahoga County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the School's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

Kuth John

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School's internal control and compliance. Accordingly, this report is not suitable for any other purpose.
