Board
State Treasury Asset Reserve of Ohio (STAR Ohio)
30 East Broad Street
Columbus, Ohio 43215-3461

We have reviewed the *Independent Auditors' Report* of the State Treasury Asset Reserve of Ohio (STAR Ohio), Franklin County, prepared by Plante & Moran, PLLC, for the audit period July 1, 2018 through June 30, 2019. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The State Treasury Asset Reserve of Ohio (STAR Ohio) is responsible for compliance with these laws and regulations.

Keith Faber
Auditor of State
Columbus, Ohio

ROBERT SPRAGUE

OHIO TREASURER

Dear Public Funds Managers,

It is my pleasure to provide the State Treasury Asset Reserve of Ohio (STAR Ohio) annual report for the fiscal year ending June 30, 2019. As the chief administrator of the STAR Ohio fund, I am committed to protecting public monies and investing wisely in Ohio's future.

STAR Ohio is an innovative and secure investment option for public funds managers across Ohio. The program provides government subdivisions – from municipalities to school districts – the ability to invest in a highly rated public investment pool. Since 1995, STAR Ohio has maintained Standard & Poor's highest rating (AAAm), demonstrating a long history of soundness and security.

Last year saw STAR Ohio continue to grow and mark new territory. For the first time since its inception, the fund exceeded \$12.5 billion in assets while participation in the program grew from 2,450 accounts to more than 2,600.

In addition to STAR Ohio, the Treasurer's office also administers the STAR Plus program. STAR Plus provides participating government subdivisions with full FDIC insurance coverage on deposits. This supplemental program can assist public fund managers seeking to improve overall portfolio performance.

My office is committed to building on last year's success, and we are continuously working to improve the STAR Ohio and STAR Plus programs. That is why your feedback is important to us. We invite you to share your thoughts and ideas about the STAR Ohio and STAR Plus programs.

For questions about these programs, please contact us via email at info@starohio.com or by phone at **1-800-648-STAR (7827)**.

Sincerely,

Robert Sprague
Ohio Treasurer of State

MANAGEMENT'S DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (UNAUDITED)

BACKGROUND

The State Treasury Asset Reserve of Ohio (“STAR Ohio” or the “Fund”) is a statewide investment pool (“Pool”) managed and administered by the State Treasurer of Ohio (the “Treasurer”). Participation is offered to Ohio’s political subdivisions as a means to invest in a portfolio of short-term investment securities. The objectives of STAR Ohio are the preservation of capital, the maintenance of liquidity, and providing current income. STAR Ohio is similar in concept to a registered investment company, commonly called a “money market mutual fund”. Our discussion and analysis below is based upon currently known facts and conditions that we judge to have had a material effect on STAR Ohio’s financial condition and results of operations.

The Treasurer is committed to maintaining STAR Ohio as a top-rated investment option for all government subdivisions of the State. As such, the level of safety in the Fund is attributed to the constant monitoring of credit ratings for issuers of investments held by STAR Ohio. An additional level of safety is the custodial arrangement requiring the Fund’s assets be held in a specific trust account at the Depository Trust & Clearing Corporation designated for STAR Ohio. Both measures ensure that the underlying assets of STAR Ohio are highly rated, secure, and readily available to the Fund.

OVERVIEW OF FINANCIAL CONDITION

STAR Ohio’s net position increased by approximately \$2.2 billion, or 20.7%, during the fiscal year ended June 30, 2019, due to net subscriptions. Toward the end of the fiscal year, the U.S. economy had moderated keeping interest rates relatively stable to slightly lower. As a result, the yield of STAR Ohio remained within a consistent range. STAR Ohio’s objectives of safety and liquidity have made the Fund a valuable investment vehicle for Ohio’s public fund managers. STAR Ohio maintains its AAAM rating from Standard and Poor’s, the highest rating possible for a Local Government Investment Pool.

OVERVIEW OF OPERATIONS

The Federal Funds’ target rate ranged between 200 and 250 basis points (2.00% - 2.50%) during STAR Ohio’s Fiscal Year 2019. STAR Ohio’s average yield for Fiscal Year 2019 was 2.36%. For the fiscal year ended June 30, 2019, the advisor was paid a management fee in the amount of \$2,000,000. As of June 30, 2019, STAR Ohio held approximately 40% of its portfolio in overnight investments, which included approximately 5% in collateralized bank deposits.

Independent Auditors' Report

To the Treasurer of the State of Ohio, Robert Sprague
State Treasury Asset Reserve of Ohio

Report on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the statement of investments, of State Treasury Asset Reserve of Ohio (STAR Ohio) as of and for the year ended June 30, 2019 and the related statements of operations and changes in net position, the financial highlights for each of the two years in the period then ended, and the related notes to the financial statements, which collectively comprise State Treasury Asset Reserve of Ohio's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of State Treasury Asset Reserve of Ohio as of June 30, 2019 and the results of its operations, changes in net position, and financial highlights for each of the two years in the period then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on page 3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise State Treasury Asset Reserve of Ohio's basic financial statements. The appendix is presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The appendix has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on it.

Report on Summarized Comparative Information

We have previously audited State Treasury Asset Reserve of Ohio's June 30, 2018 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated August 14, 2018. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2018 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 14, 2019 on our consideration of State Treasury Asset Reserve of Ohio's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering State Treasury Asset Reserve of Ohio's internal control over financial reporting and compliance.

Plante & Moran, PLLC

NOTE A – SUMMARY OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Section 135.45 of the Ohio Revised Code permits the State's political subdivisions to pool their public funds into an investment fund managed by the State Treasurer of Ohio. The State Treasury Asset Reserve of Ohio (STAR Ohio) provides units of local government with an investment option for their public funds.

Participation is offered to Ohio political subdivisions as defined in Section 135.45(F)(2)(a) of the Ohio Revised Code. The investment objectives of STAR Ohio are the preservation of capital, maintenance of liquidity, and providing current income. There can be no guarantee that this will be achieved.

The State Treasurer of Ohio, Robert Sprague, through the Treasurer's Investment Department, 30 East Broad Street, 9th Floor, Columbus, Ohio 43215-3461, serves as investment advisor and administrator to STAR Ohio. The advisor manages the investment and reinvestment of STAR Ohio's assets in accordance with STAR Ohio's investment objectives and policies, subject to the general limitations of Section 135.143 of the Ohio Revised Code. In addition, an advisor is responsible for the overall management of STAR Ohio's business affairs. For the fiscal year ended June 30, 2019, STAR Ohio compensated the advisor with a management fee of \$2,000,000 per year.

Public Funds Administrators ("PFA"), Dublin, Ohio, is the co-administrator for STAR Ohio and provides certain clerical and administrative services for STAR Ohio. Compensation to the co-administrator is based on a percentage of daily net assets with a minimum annual fee of \$800,000.

Huntington National Bank, Columbus, Ohio, serves as custodian of STAR Ohio. Compensation to the custodian is based upon the month-end net asset value and is charged monthly in arrears.

Ultimus Fund Solutions, Cincinnati, Ohio, serves as the dividend and transfer agent for STAR Ohio. Compensation to the transfer agent is based on a percentage of daily net assets with a minimum annual fee of \$400,000.

Meeder Asset Management, Inc. ("Meeder"), Dublin, Ohio, acquired substantially all of the assets of United American Capital Corporation, a former investment consultant for STAR Ohio, in November 2018. Meeder continues to serve as an investment consultant for STAR Ohio and is compensated based on a percentage of daily net assets.

STAR Ohio applies GASB Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements. Since STAR Ohio qualifies for reporting at amortized cost under GASB Statement No. 79, the applicability of GASB Statement No. 72 is limited to the disclosures referenced within GASB Statement No. 79.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses, and disclosure of both contingent assets and liabilities. Actual results could differ from those estimates. The financial statements include certain prior-year comparative information, but not at the level of detail required for a presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with STAR Ohio's annual report for the year ended June 30, 2018.

STAR Ohio is not registered with the Securities Exchange Commission (SEC) as an investment company, but has adopted Governmental Accounting Standards Board ("GASB"), Statement No. 79, *Accounting and Financial Reporting for Certain External Investment Pools and Pool Participants*, which establishes accounting and financial reporting standards for qualifying external investment pools that elect to measure for financial reporting purposes all of their investments at amortized cost. This Statement also establishes accounting and financial reporting standards for state and local governments that participate in a qualifying external investment pool that measures for financial reporting purposes all of its investments at amortized cost. This Statement applies to all state and local governments. This Statement amends GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investments Pools*, and GASB Statement No. 59, *Financial Instruments Omnibus*. For the fiscal year ended June 30, 2019, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemptions gates. However, twenty-four hours advance notice to PFA is appreciated for deposits and withdrawals of \$25 million or more. STAR Ohio reserves the right to limit the transactions to \$100 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

NOTE B – FAIR VALUE MEASUREMENT

STAR Ohio's investments on the statement of assets and liabilities are presented at amortized cost, in accordance with GASB Statement No. 79. Information regarding the fair value of investments held by STAR Ohio is presented below in accordance with GASB Statement No. 72.

STAR Ohio categorizes the fair value measurements within the fair value hierarchy established by Generally Accepted Accounting Principles ("GAAP"). The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances where inputs used to measure fair value fall into different levels in the below fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. STAR Ohio's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

A description of the valuation techniques applied to STAR Ohio's major categories of assets when measured at fair value follows:

Investments in registered open-end investment companies, including money market funds, are valued at the daily redemption value as reported by the underlying fund and are categorized in level 1 of the fair value hierarchy.

Short-term notes (including Federal agency issues, U.S. Government agency obligations, U.S. Treasury obligations, commercial paper, corporate obligations, and municipal bonds) - Short-term notes held in STAR Ohio are valued using fair valuation methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, and offers. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. The fair value of these securities is determined primarily based on these level 2 inputs and are categorized as such.

For the period ended June 30, 2019, STAR Ohio did not hold any assets at any time in which significant unobservable inputs were used in determining fair value. Therefore, there are no level 3 securities. The following table summarizes the inputs used to value STAR Ohio's assets when measured at fair value as of June 30, 2019.

Investments by Fair Value Level	Fair Value at June 30, 2019	Level 1	Level 2	Level 3	Value at Amortized Cost
Federal Agency Issues and U.S. Treasury Obligations	\$1,096,785,369	\$ —	\$1,096,785,369	\$ —	\$1,096,794,369
Commercial Paper	4,726,935,643	—	4,726,935,643	—	4,725,986,005
Corporate Bonds	1,727,573,338	—	1,727,573,338	—	1,725,811,523
Municipal Bonds	10,390,000	—	10,390,000	—	10,390,000
Money Market Funds	3,504,770,487	3,504,770,487	—	—	3,504,064,926
Repurchase Agreements	850,000,000	—	850,000,000	—	850,000,000
Totals	\$11,916,454,837	\$3,504,770,487	\$8,411,684,350	\$ —	\$11,913,046,823

As of June 30, 2019, STAR Ohio invested in bank deposits in the amount of \$620,221,223, which are not included in the table above. Total investments on the statement of assets and liabilities totaled \$12,533,268,046.

NOTE C – INVESTMENT SECURITIES

Investment securities, other than money market funds, are valued according to the amortized cost method (which approximates fair value) whereby a security is valued at cost adjusted for the amortization of any premiums or accretion of any discounts over the period until maturity. The difference between the amortized cost and the fair value of the portfolio was approximately \$3,408,000 as of June 30, 2019. Investments in money market funds are valued at quoted market values.

Security transactions are accounted for on the trade date (the day that the order to buy or sell is executed). Interest income is determined on an accrual basis, with earned discounts (including original issue and market discount) accreted and paid premiums amortized. Any realized gains or losses on sales of securities are calculated on the specific identification basis.

STAR Ohio is permitted to invest in commercial paper, but commercial paper holdings shall not exceed 40 percent of the Total Average Portfolio (the average of the five highest daily balances for the prior 12-month period as calculated on the first day of the month). As of June 30, 2019, commercial paper holdings represented approximately 37.7 percent of the Total Average Portfolio. The Total Average Portfolio calculation is subject to change by the State Treasurer of Ohio.

All repurchase agreements are fully collateralized by United States Government or Federal Agency securities, pursuant to Section 135.143 of the Ohio Revised Code, and such collateral is in the possession of STAR Ohio's custodians on a daily basis. STAR Ohio evaluates collateral daily to ensure its market value plus accrued interest exceeds the delivery value of the repurchase agreement at maturity. At June 30, 2019, STAR Ohio invested in three separate repurchase agreements on a tri-party basis totaling \$850,000,000, which is included as part of investments at fair value on the Statement of Assets and Liabilities. The value of the related collateral that STAR Ohio received for the agreements exceeded the value of the repurchase agreements at June 30, 2019. STAR Ohio may enter into reverse repurchase (borrowing) agreements. For the fiscal year ended June 30, 2019, STAR Ohio did not enter into any reverse repurchase agreements.

STAR Ohio may purchase securities on a forward settlement basis. Payment and delivery may take place after the customary settlement period for the respective securities. The price of the underlying securities and the date when the securities will be delivered and paid for are fixed at the time the transaction is negotiated. Where applicable, the values of the securities purchased on a forward settlement basis are identified as such in the Statement of Investments. Losses may arise due to changes in the value of the underlying securities, if the counterparty does not perform under the contract's terms, or if the issuer does not issue the securities due to political, economic, or other factors. As of June 30, 2019, STAR Ohio did not transact in any purchases on a forward settlement basis.

STAR Ohio maintains a stable net asset value per share by using the amortized cost method of portfolio valuation. STAR Ohio has established procedures to stabilize the net asset value per share, as computed for the purpose of purchase and redemption, at a single value of \$1.00. The mark-to-market of the portfolio is used to monitor the appropriateness of the amortized cost method and is calculated using available market quotations.

As of June 30, 2019, STAR Ohio had the following investments and maturities:

Investment Type	Value	Investment Maturities (in Years)	
		Less than 1	1-5
Bank Deposits	\$ 620,221,223	\$ 620,221,223	
Commercial Paper	4,725,986,005	4,725,986,005	
Corporate Bonds	1,725,811,523	1,661,209,641	\$ 64,601,882
Federal Agency Issues and U.S. Treasury Obligations	1,096,794,369	774,781,494	322,012,875
Money Market Funds	3,504,064,926	3,504,064,926	
Repurchase Agreements	850,000,000	850,000,000	
	<u>\$12,522,878,046</u>	<u>\$12,136,263,289</u>	<u>\$ 386,614,757</u>

STAR Ohio also invested in Municipal Bonds as of June 30, 2019 in the amount of \$10,390,000 with final maturities ranging from October 1, 2034 through September 1, 2050.

Interest Rate Risk: Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. Through its investment policy, STAR Ohio manages its exposure to fair value losses arising from increasing interest rates by limiting the final stated maturity on any investment to 397 days (762 days for floating and variable rate government obligations) and limiting the weighted average maturity WAM(R) of the portfolio to 60 days and WAM(F) of the portfolio to 90 days. WAM(R) uses the interest rate reset date as the effective maturity in calculating the WAM, whereas WAM(F) is calculated based on the stated final maturity for each security. WAM(F) is also known as weighted average life. At June 30, 2019, STAR Ohio WAM(R) and WAM(F) were 53 and 88 days, respectively. Federal Agency Issues include callable bonds, which have maturity dates ranging from April 3, 2020 to June 19, 2020 and callable dates ranging from July 3, 2019 to September 19, 2019, and floating rate notes with daily, weekly, monthly, and quarterly reset dates based on the Federal Funds Overnight Rate, the Federal Reserve Bank Prime Loan Rate, the 1- and 3-month U.S. LIBOR, and the 91-day U.S. Treasury Bill rate. There were no illiquid securities held in STAR Ohio's portfolio at June 30, 2019.

Credit Risk: STAR Ohio's investment policy requires money market funds to be rated AAAM by Standard & Poor's Corporation, and all other securities held by STAR Ohio be rated the equivalent of A-1+ or A-1. Collateralization of bank deposit investments is required to secure a rating of AAAM. As of June 30, 2019, STAR Ohio's investment in Federal Agency Issues and

the money market funds were rated AA+ and AAAm, respectively, by Standard and Poor's. All commercial paper holdings were rated A-1/P-1 and above. Corporate bonds had the following long-term ratings at issuance:

Standard & Poor's	Moody's	Corporate Bonds
AA+	Aa1	\$54,692,214
AA	Aa2	70,748,857
AA	A1	33,114,941
AA-	Aa1	99,842,638
AA-	Aa3	90,431,748
AA-	A1	21,458,654
A+	Aa3	228,561,689
A+	A1	8,755,262
A	A1	148,823,555
A	A2	681,332,742
A	A3	188,831,233
A-	Aa1	99,217,990

These corporate bonds were purchased within 13 months of maturity, with appropriate credit ratings, and therefore are in accordance with the STAR Ohio investment policy.

Concentration of Credit Risk: STAR Ohio, through its investment policy, follows the diversification guidelines for Standard & Poor's Principal Stability Fund Rating (PSFR) criteria for AAAM rated money market funds and Section 135.143 of the Ohio Revised Code. Through its investment policy, STAR Ohio further limits its investments in municipal bonds to 10 percent of the net assets. STAR Ohio limits the maximum exposure per issuer to 5 percent of net assets, except U.S. Treasury and Federal Agency Obligations, overnight bank deposits (including uninvested cash), instruments that are at least 100 percent collateralized, and investments in other rated money market funds.

As of June 30, 2019, STAR Ohio had 5 percent or more of its net assets invested in the following issuers:

Federated Funds	6.8%
Dreyfus Funds	6.8%
Morgan Stanley Funds	6.8%

Foreign Currency Risk: STAR Ohio does not have exposure to foreign exchange risk.

Custodial Credit Risk: STAR Ohio's investments are not exposed to custodial credit risk, as defined by GASB Statement No. 40. Securities in STAR Ohio are insured, registered, held by STAR Ohio, or held in a specific trust account designated for STAR Ohio. At June 30, 2019, a bank deposit of \$413,960,116 was collateralized by Federal Home Loan Bank of Boston letter

of credit. The carrying amount of cash and bank balance was zero. A second bank deposit of \$203,686,498 was collateralized by various Federal National Mortgage Association Pools as of June 30, 2019. The carrying amount of cash and bank balance was zero.

NOTE D – SECURITIES LENDING

Pursuant to Section 135.143 of the Ohio Revised Code, the Pool may lend up to 25 percent of its securities to any eligible financial institution that is a member of the Federal Reserve System or any recognized United States government securities dealer.

The Pool follows strict levels of collateralization governed by daily mark-to-market analysis, a review of the credit worthiness of securities’ dealers and banks, and strict monitoring of their respective credit limits. This is done to control exposure due to possible credit loss resulting from a reduction in the underlying collateral value or non-performance by a security dealer or bank. Either the Pool or the borrower can terminate all security loans on demand.

For the fiscal year ended June 30, 2019, STAR Ohio did not participate in security lending transactions.

NOTE E – INCOME DISTRIBUTIONS

Each business day STAR Ohio declares a distribution of its net investment income and realized capital gains, if any. Such distributions are automatically reinvested in additional shares or paid in cash to shareholders at the end of each month.

NOTE F – CAPITAL SHARES

Transactions in capital shares (all at \$1.00 per share) were as follows:

	Year ended June 30,	
	2019	2018
Shares Sold	28,233,517,065	25,245,354,273
Shares Issued for Distributions	245,342,123	129,043,164
	28,478,859,188	25,374,397,437
Shares Redeemed	(26,328,386,484)	(24,360,079,750)
Capital Shares Transactions Net Increase (Decrease)	2,150,472,704	1,014,317,687

STANDARD & POOR'S RATING OF STAR OHIO

Standard & Poor's has assigned an AAAm money market rating, its highest rating, to STAR Ohio. By obtaining a AAAm rating, STAR Ohio is considered to have a superior capacity to maintain principal (\$1.00 per share value) and limit exposure to loss. The rating is based on an analysis of STAR Ohio's management, investment guidelines, portfolio holdings and market price exposure.

SUMMARY OF INVESTMENT OBJECTIVES AND ALL PERMITTED & ELIGIBLE INVESTMENTS

The investment objectives of STAR Ohio are the preservation of capital, maintenance of liquidity, and providing current income. STAR Ohio seeks to achieve these objectives by investing only in certain high-grade short-term investment instruments, which are authorized for investment by the State of Ohio as specified in Section 135.143 of the Ohio Revised Code. Instruments in which STAR Ohio may invest include:

- (1) United States Treasury bills, notes, bonds or any other obligations or securities issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- (2) Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality;
- (3) Written repurchase agreements with any eligible counterparties domiciled or registered in the United States subject to the guidelines in STAR Ohio's Investment Policy;
- (4) STAR Ohio may invest in reverse repurchase agreements with a maximum maturity of 30 days, provided the securities have been fully paid for and are owned by STAR Ohio at the time of sale and subject to the guidelines in STAR Ohio's Investment Policy;
- (5) The Ohio Treasurer of State also may sell any securities, listed in items (1) or (2) above, regardless of maturity or time of redemption of the securities, under the same terms and conditions for repurchase, provided that the securities have been fully paid for and are held in trust by the Ohio Treasurer of State at the time of the sale;
- (6) Securities lending agreements with any eligible financial institution that is a member of the Federal Reserve System or Federal Home Loan Bank or any recognized United States government securities dealer, under the terms of which agreement the Ohio Treasurer of State lends securities and the eligible financial institution or dealer agrees to simultaneously exchange similar securities or cash, equal value for equal value;
- (7) Various forms of commercial paper, maturing in 270 days or less, issued by any corporation that is incorporated under the laws of the United States or a state, which such notes are rated in the two highest categories by two nationally recognized rating agencies, provided that the

total amount invested in commercial paper at any time shall not exceed 40 percent of the Total Average Portfolio which is defined as the average of the five highest daily balances for the prior 12-month period as calculated on the first day of the month (the Total Average Portfolio calculation is subject to change by the State Treasurer of Ohio);

(8) Corporate Obligations of domestic corporations that, at the time of purchase must be rated in the three highest categories by two nationally recognized rating agencies provided that the total amount invested in corporate obligations at any time shall not exceed 25 percent of the Total Average Portfolio;

(9) Municipal Bonds and other direct obligations of any state or political subdivision, provided that the total amount invested in municipal bonds at any time shall not exceed 10 percent of the value of STAR Ohio;

(10) Banker's acceptances, maturing in 270 days or less, which are eligible for purchase by the Federal Reserve System, provided that the total amount invested in the banker's acceptances at any time shall not exceed 10 percent of the Total Average Portfolio, as determined and calculated by the Ohio Treasurer of State;

(11) Bank deposits, certificates of deposits, and savings in eligible institutions applying for interim monies as provided in Section 135.08 of the Ohio Revised Code; and

(12) No-load money market mutual funds rated in the highest category by one nationally recognized standard rating service or consisting exclusively of obligations described in (1), (2), or (7) of this section and repurchase agreements secured by such obligations.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To Management and the Treasurer of the
State of Ohio, Robert Sprague
State Treasury Asset Reserve of Ohio

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of State Treasury Asset Reserve of Ohio (STAR Ohio), which comprise the statement of assets and liabilities, including the statement of investments, as of June 30, 2019 and the related statements of operations and changes in net position, the financial highlights for the period then ended, and the related notes to the financial statements, and have issued our report thereon dated August 14, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered STAR Ohio's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of STAR Ohio's internal control. Accordingly, we do not express an opinion on the effectiveness of STAR Ohio's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of STAR Ohio's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether STAR Ohio's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management and the Treasurer of the
State of Ohio, Robert Sprague
State Treasury Asset Reserve of Ohio

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of STAR Ohio's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering STAR Ohio's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

To the Treasurer of the State of Ohio, Robert Sprague
State Treasury Asset Reserve of Ohio Investment
Trust Fund

Report on the Financial Statements

We have audited the accompanying statement of net position of the State Treasury Asset Reserve of Ohio Investment Trust Fund (the "Trust Fund") as of June 30, 2019 and the related statement of operations and changes in net position for each of the two years in the period then ended, and the related notes to the financial statements, which collectively comprise the Trust Fund's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the State Treasury Asset Reserve of Ohio Investment Trust Fund as of June 30, 2019 and the results of its operations and changes in net position for each of the two years in the period then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the State Treasury Asset Reserve of Ohio Investment Trust Fund and do not purport to, and do not, present fairly the financial position of the State Treasury Asset Reserve of Ohio as of June 30, 2019 or the results of its operations and changes in its net position for each of the two years in the period then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

To the Treasurer of the State of Ohio, Robert Sprague
State Treasury Asset Reserve of Ohio Investment
Trust Fund

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on page 3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Summarized Comparative Information

We have previously audited the State Treasury Asset Reserve of Ohio Investment Trust Fund's June 30, 2018 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated September 5, 2018. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2018 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 5, 2019 on our consideration of the State Treasury Asset Reserve of Ohio Investment Trust Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State Treasury Asset Reserve of Ohio Investment Trust Fund's internal control over financial reporting and compliance.

Management's Discussion and Analysis (Unaudited)

June 30, 2019

Background

The State Treasury Asset Reserve of Ohio (STAR Ohio or the "Fund") is a statewide investment pool managed and administered by the State Treasurer of Ohio (the "Treasurer"). Participation is offered to Ohio's political subdivisions as a means to invest in a portfolio of short-term investment securities. The objectives of STAR Ohio are the preservation of capital, the maintenance of liquidity, and providing current income. STAR Ohio is similar in concept to a registered investment company, commonly called a "money market mutual fund." Our discussion and analysis below is based upon currently known facts and conditions that we judge to have had a significant effect on STAR Ohio's financial condition and results of operations.

The Treasurer is committed to maintaining STAR Ohio as a top-rated investment option for all government subdivisions of the State. As such, the level of safety in the Fund is attributed to the constant monitoring of credit ratings for issuers of investments held by STAR Ohio. An additional level of safety is the custodial arrangement requiring the Fund's assets be held in a specific trust account at the Depository Trust & Clearing Corporation designated for STAR Ohio. Both measures ensure that the underlying assets of STAR Ohio are highly rated, secure, and readily available to the Fund.

The external portion of STAR Ohio, the Trust Fund, is the portion that belongs to legally separate entities that are not part of the State of Ohio's financial reporting entity. STAR Ohio does not have separate investments or activities for the external portion of STAR Ohio. As a result, the statement of net position of the Trust Fund has been prepared by prorating the assets and liabilities related to the external portion. Additionally, the statement of operations and changes in net position is prepared by prorating investment income and expenses related to the external portion using average daily balances.

Overview of Financial Condition

The Trust Fund's net position increased by approximately \$1.9 billion or 21.66%, during the fiscal year ended June 30, 2019, due to net subscriptions. Toward the end of the fiscal year, the U.S. economy had moderated, keeping interest rates relatively stable to slightly lower. As a result, the yield of STAR Ohio remained within a consistent range. STAR Ohio's objectives of safety and liquidity have made the Fund a valuable investment vehicle for Ohio's public fund managers. STAR Ohio maintains its AAAM rating from Standard and Poor's, the highest rating possible for a Local Government Investment Pool.

Overview of Operations

The federal funds' target rate ranged between 200 and 250 basis points (2.00% to 2.50%) during STAR Ohio's fiscal year 2019. STAR Ohio's average yield for fiscal year 2019 was 2.36%. For the fiscal year ended June 30, 2019, the advisor was paid a management fee in the amount of \$2,000,000. As of June 30, 2019, STAR Ohio held approximately 40% of its portfolio in overnight investments, which includes approximately 5% in collateralized bank deposits.

June 30, 2019 and 2018

Note 1 - Summary of Organization

Description of Fund

The State Treasury Asset Reserve of Ohio (STAR Ohio or the "Pool") is a statewide investment pool managed by the state treasurer of Ohio (the "Treasurer"). Participation is offered to Ohio political subdivisions, as defined in Section 135.45(F)(2)(a) of the Ohio Revised Code. STAR Ohio offers these subdivisions a means of investing in a portfolio of investment instruments. The investment objectives of STAR Ohio are the preservation of capital, maintenance of liquidity, and providing current income. There can be no guarantee that they will be achieved.

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the State of Ohio (the "State") reports the external portion of STAR Ohio as a separate investment trust fund. The external portion of STAR Ohio, the State Treasury Asset Reserve of Ohio Investment Trust Fund (the "Trust Fund"), is the portion that belongs to legally separate entities that are not part of the State's financial reporting entity. The STAR Ohio investment pool does not have separate investments or activities for the external portion. The statement of net position of the Trust Fund has been prepared by prorating the assets and liabilities of STAR Ohio related to the external portion. Additionally, the statement of operations and changes in net position of the Trust Fund was prepared by prorating investment income and expenses of STAR Ohio related to the external portion using average daily balances.

Legal Authority

Section 135.45 of the Ohio Revised Code permits the State's political subdivisions to pool their public funds into an investment fund managed by the Treasurer. STAR Ohio provides units of local government with an alternative investment option for their public funds.

STAR Ohio is not registered with the Securities and Exchange Commission (SEC) as an investment company, but has adopted Governmental Accounting Standards Board (GASB) Statement No. 79, *Accounting and Financial Reporting for Certain External Investment Pools and Pool Participants*, which establishes accounting and financial reporting standards for qualifying external investment pools that elect to measure for financial reporting purposes all of their investments at amortized cost. This statement also establishes accounting and financial reporting standards for state and local governments that participate in a qualifying external investment pool that measures for financial reporting purposes all of its investments at amortized cost. This statement applies to all state and local governments. This statement amends GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investments Pools*, and GASB Statement No. 59, *Financial Instruments Omnibus*. For the fiscal year ended June 30, 2019, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours' advance notice to Public Funds Administrators is appreciated for deposits and withdrawals of \$25 million or more. STAR Ohio reserves the right to limit the transaction to \$100 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Investment Advisor and Administrator

The state treasurer of Ohio, Robert Sprague, through the Treasurer's Investment Department, 30 East Broad Street, 9th Floor, Columbus, OH 43215-3461, serves as investment advisor and administrator to STAR Ohio. The advisor manages the investment and reinvestment of STAR Ohio's assets in accordance with STAR Ohio's investment objectives and policies, subject to the general limitations of Section 135.143 of the Ohio Revised Code. In addition, an advisor is responsible for the overall management of STAR Ohio's business affairs. For the fiscal year ended June 30, 2019, STAR Ohio compensated the advisor with a management fee of \$2,000,000 per year.

June 30, 2019 and 2018

Note 1 - Summary of Organization (Continued)

Co-administrator

Public Funds Administrators (PFA), Dublin, Ohio, is the co-administrator for STAR Ohio and provides certain clerical and administrative services for STAR Ohio. Compensation to the co-administrator is based on a percentage of daily net assets of STAR Ohio, with a minimum annual fee of \$800,000.

Custodian, Transfer Agent, and Investment Consultant

Huntington National Bank in Columbus, Ohio serves as custodian of STAR Ohio. Compensation to the custodian is based upon the month-end net asset value and is charged monthly in arrears.

Ultimus Fund Solutions in Cincinnati, Ohio serves as the dividend and transfer agent for STAR Ohio. Compensation to the transfer agent is based on a percentage of daily net assets, with a minimum annual fee of \$400,000.

Meeder Asset Management, Inc. (Meeder) in Dublin, Ohio acquired substantially all of the assets of United American Capital Corporation, a former investment consultant for STAR Ohio, in November 2018. Meeder continues to serve as an investment consultant for STAR Ohio and is compensated based on a percentage of daily net assets.

Note 2 - Significant Accounting Policies

Security Valuations

Investment securities, other than money market funds, are valued according to the amortized cost method (which approximates fair value), whereby a security is valued at cost adjusted for the amortization of any premiums or accretion of any discounts over the period until maturity. Investments in money market funds are valued at quoted market values.

Security Transactions and Related Investment Income

Security transactions are accounted for on the trade date (the day the order to buy or sell is executed). Interest income is determined on an accrual basis with earned discounts (including original issue and market discount) accreted and paid premium amortized. Any realized gains or losses on sales of securities are calculated on the specific identification basis.

Mark-to-market Procedures

The Pool maintains a stable net asset value per share by using the amortized cost method of portfolio valuation. The Pool has established procedures to stabilize net asset value per share, as computed for the purpose of purchase and redemption, at a single value of \$1.00. The mark-to-market of the portfolio is used to monitor the appropriateness of the amortized cost method and is calculated using available market quotations.

Federal Income Taxes

STAR Ohio is not subject to income taxes.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

State Treasury Asset Reserve of Ohio Investment Trust Fund

Notes to Financial Statements

June 30, 2019 and 2018

Note 2 - Significant Accounting Policies (Continued)

Summarized Comparative Information

The financial statements include certain prior year comparative information, but not at the level of detail required for a presentation in accordance with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Trust Fund's 2018 financial statements, from which the summarized information was derived.

Note 3 - Investment Securities

Commercial Paper

STAR Ohio is permitted to invest in commercial paper, but commercial paper holdings shall not exceed 40 percent of the total average portfolio (the average of the five highest daily balances for the prior 12-month period, as calculated on the first day of the month). As of June 30, 2019, commercial paper holdings represented approximately 37.7 percent of the total average portfolio.

Repurchase Agreements

All repurchase agreements are fully collateralized by United States government or federal agency securities, pursuant to Section 135.143 of the Ohio Revised Code, and such collateral is in the possession of STAR Ohio's custodian on a daily basis. STAR Ohio evaluates collateral daily to ensure its market value plus accrued interest exceeds the delivery value of the repurchase agreement at maturity. At June 30, 2019, STAR Ohio invested in three separate repurchase agreements on a tri-party basis. At June 30, 2019, for the Trust Fund, these repurchase agreements totaled \$722,151,810, which is included as part of investments at fair value on the statement of net position. The value of the related collateral that STAR Ohio received for the agreement exceeded the value of the respective repurchase agreement at June 30, 2019. STAR Ohio may enter into reverse repurchase (borrowing) agreements. For the fiscal year ended June 30, 2019, STAR Ohio did not enter into any reverse repurchase agreements.

Forward Settlement

STAR Ohio may purchase securities on a forward settlement basis. Payment and delivery may take place after the customary settlement period for the respective securities. The price of the underlying securities and the date when the securities will be delivered and paid for are fixed at the time the transaction is negotiated. Losses may arise due to changes in the value of the underlying securities, if the counterparty does not perform under the contract's terms, or if the issuer does not issue the securities due to political, economic, or other factors. At June 30, 2019, STAR Ohio did not transact any purchases on a forward settlement basis.

Schedule of Investments by Type and Maturity

As of June 30, 2019, the Trust Fund had the following prorated share of the Pool's investments and maturities:

	Investment Maturities (in Years)				Range of Interest Rates
	Total	Less Than 1	1 - 5	Principal Amount	
Bank deposits	\$ 526,933,975	\$ 526,933,975	\$ -	\$ 526,933,975	2.40%-2.49%
Commercial paper	4,015,152,174	4,015,152,174	-	4,034,330,897	2.16%-3.11%
Corporate bonds	1,466,232,842	1,411,347,705	54,885,137	1,467,848,318	0.88%-5.00%
Federal agency issues and U.S. Treasury obligations	931,825,928	658,246,892	273,579,036	932,858,717	2.10%-2.60%
Money market funds	2,977,019,800	2,977,019,800	-	2,977,019,800	2.25%-2.45%
Repurchase agreements	722,151,810	722,151,810	-	722,151,810	2.48%-2.63%
Total	<u>\$ 10,639,316,529</u>	<u>\$ 10,310,852,356</u>	<u>\$ 328,464,173</u>	<u>\$ 10,661,143,517</u>	

State Treasury Asset Reserve of Ohio Investment Trust Fund

Notes to Financial Statements

June 30, 2019 and 2018

Note 3 - Investment Securities (Continued)

The Trust Fund also invested in municipal bonds as of June 30, 2019 in the amount of \$8,827,244, with final maturities ranging from October 1, 2034 through September 1, 2050 and interest rates of 2.36 percent. The principal amount on the municipal bonds was \$8,827,244 at June 30, 2019.

Interest Rate Risk

Through its investment policy, STAR Ohio manages its exposure to fair value losses arising from increasing interest rates by limiting the final stated maturity on any investment to 397 days (762 days for floating and variable-rate government obligations) and limiting the weighted-average maturity WAM(R) of the portfolio to 60 days and WAM(F) of the portfolio to 90 days. WAM(R) uses the interest rate reset date as the effective maturity date in calculating the WAM, whereas WAM(F) is calculated based on the stated final maturity for each security. WAM(F) is also known as weighted-average life. At June 30, 2019, STAR Ohio WAM(R) and WAM(F) were 53 and 88 days, respectively. Federal agency issues include callable bonds, which have maturity dates ranging from April 3, 2020 to June 19, 2020 and callable dates ranging from July 3, 2019 to September 19, 2019, and floating rate notes with daily, weekly, monthly, and quarterly reset dates based on federal funds overnight rate, the Federal Reserve Bank prime loan rate, the one- and three-month U.S. LIBOR, and the 91-day U.S. Treasury bill rate. There were no illiquid securities held in STAR Ohio's portfolio at June 30, 2019.

Credit Risk

STAR Ohio's investment policy requires money market funds to be rated at AAAM by Standard & Poor's Corporation and all other securities held by STAR Ohio to be rated the equivalent of A-1+ or A-1. For issuers of bank deposits, collateralization of the investment is required to secure a rating of AAAM. As of June 30, 2019, STAR Ohio's investments in federal agency issues and the money market funds were rated AA+ and AAAM, respectively, by Standard & Poor's. All commercial paper holdings were rated A-1/P-1 and above.

The corporate bonds had the following long-term ratings at issuance:

Standard and Poor's	Moody's	Corporate Bonds
AA+	Aa1	\$ 46,465,978
AA	Aa2	60,107,547
AA	A1	28,134,136
AA-	Aa1	84,825,343
AA-	Aa3	76,829,942
AA-	A1	18,231,066
A+	Aa3	194,183,809
A+	A1	7,438,386
A	A1	126,439,058
A	A2	578,853,733
A	A3	160,429,196
A-	Aa1	84,294,648

Concentration of Credit Risk

STAR Ohio, through its investment policy, follows the diversification guidelines for Standard & Poor's Principal Stability Fund Rating (PSFR) criteria for AAAM-rated money market funds and Section 135.143 of the Ohio Revised Code. Through its investment policy, STAR Ohio further limits its investments in municipal bonds to 10 percent of net assets. STAR Ohio limits the maximum exposure per issuer to 5 percent of net assets, except U.S. Treasury and federal agency obligations, overnight bank deposits (including uninvested cash), instruments that are at least 100 percent collateralized, and investments in other rated money market funds.

June 30, 2019 and 2018

Note 3 - Investment Securities (Continued)

As of June 30, 2019, STAR Ohio had 5 percent or more of its net assets invested in the following issuers:

Federated funds	6.80 %
Dreyfus funds	6.80
Morgan Stanley funds	6.80

Foreign Currency Risk

STAR Ohio does not have exposure to foreign exchange risk.

Custodial Credit Risk

STAR Ohio's investments are not exposed to custodial credit risk, as defined by GASB Statement No. 40. Securities in STAR Ohio are insured, registered, held by STAR Ohio, or held in a specific trust account designated for STAR Ohio. At June 30, 2019, for the Trust Fund, a bank deposit of \$351,696,526 was collateralized by the Federal Home Loan Bank of Boston letter of credit. The carrying amount of cash was zero, and the bank balance was less than zero. A second bank deposit of \$173,050,086 was collateralized by various Federal National Mortgage Association pools as of June 30, 2019. The carrying amount of cash was zero, and the bank balance was less than zero.

Note 4 - Fair Value Measurements

STAR Ohio's investments on the statement of net position are presented at amortized cost in accordance with GASB Statement No. 79. Information regarding the fair value of investments held by STAR Ohio is presented below in accordance with GASB Statement No. 72.

STAR Ohio categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances whereby inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The STAR Ohio's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

A description of the valuation techniques applied to STAR Ohio's major categories of assets when measured at fair value is as follows:

Investments in registered open-end investment companies, including money market funds, are valued at the daily redemption value, as reported by the underlying fund and are categorized in Level 1 of the fair value hierarchy.

Short-term Notes (Including Federal Agency Issues, U.S. Government Agency Obligations, U.S. Treasury Obligations, Commercial Paper, Corporate Obligations, and Municipal Bonds)

Short-term notes held in STAR Ohio are valued using fair valuation methodologies that incorporate market inputs, such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, and offers. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. The fair value of these securities is determined primarily based on these Level 2 inputs and is categorized as such.

State Treasury Asset Reserve of Ohio Investment Trust Fund

Notes to Financial Statements

June 30, 2019 and 2018

Note 4 - Fair Value Measurements (Continued)

For the period ended June 30, 2019, STAR Ohio did not hold any assets at any time in which significant unobservable inputs were used in determining fair value. Therefore, there are no Level 3 securities. The following table summarizes the inputs used to value the Trust Fund's assets when measured at fair value as of June 30, 2019:

Assets Measured at Fair Value on a Recurring Basis at June 30, 2019					
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at June 30, 2019	Value at Amortized Cost
Assets					
Debt securities:					
Federal agency issues and U.S. Treasury obligations	\$ -	\$ 931,818,282	\$ -	\$ 931,818,282	\$ 931,825,928
Commercial paper	-	4,015,958,979	-	4,015,958,979	4,015,152,174
Corporate bonds	-	1,467,729,663	-	1,467,729,663	1,466,232,842
Municipal bonds	-	8,827,244	-	8,827,244	8,827,244
Total debt securities	-	6,424,334,168	-	6,424,334,168	6,422,038,188
Money market funds	2,977,619,238	-	-	2,977,619,238	2,977,019,800
Repurchase agreements	-	722,151,810	-	722,151,810	722,151,810
Total investments by fair value level	\$ 2,977,619,238	\$ 7,146,485,978	\$ -	\$ 10,124,105,216	\$ 10,121,209,798

As of June 30, 2019, the Trust Fund invested in bank deposits in the amount of \$526,933,975, which is not included in the table above. Total investments on the statement of net position totaled \$10,648,143,773.

Note 5 - Securities Lending

Pursuant to Section 135.143 of the Ohio Revised Code, the Pool may lend up to 25 percent of its securities to any eligible financial institution that is a member of the Federal Reserve System or any recognized United States government securities dealer.

The Pool follows strict levels of collateralization governed by daily mark-to-market analysis, a review of the creditworthiness of securities dealers and banks, and strict monitoring of their respective credit limits. This is done to control exposure due to possible credit loss resulting from a reduction in the underlying collateral value or nonperformance by a security dealer or bank. Either the Pool or the borrower can terminate all security loans on demand.

For the fiscal year ended June 30, 2019, STAR Ohio did not participate in security lending transactions.

Note 6 - Income Distributions

Each business day, STAR Ohio declares a distribution of its net investment income and realized capital gains, if any. Such distributions are automatically reinvested in additional shares or paid in cash to stockholders at the end of each month.

State Treasury Asset Reserve of Ohio Investment Trust Fund

Notes to Financial Statements

June 30, 2019 and 2018

Note 7 - Capital Shares

Transactions in capital shares (all at \$1.00 per share) were as follows:

Capital shares transactions - Net increase	<u>\$ 1,898,778,908</u>	<u>\$ 683,989,206</u>

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To Management and the Treasurer of the
State of Ohio, Robert Sprague
State Treasury Asset Reserve of Ohio
Investment Trust Fund

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the State Treasury Asset Reserve of Ohio Investment Trust Fund (the "Trust Fund") as of and for the year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise the Trust Fund's basic financial statements, and have issued our report thereon dated September 5, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Trust Fund's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Trust Fund's internal control. Accordingly, we do not express an opinion on the effectiveness of the Trust Fund's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Trust Fund's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Trust Fund's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management and the Treasurer of the
State of Ohio, Robert Sprague
State Treasury Asset Reserve of Ohio
Investment Trust Fund

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Trust Fund's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Trust Fund's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
