# NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED DECEMBER 31, 2018

#### **NOTE A - BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Trumbull County (the County's) under programs of the federal government for the year ended December 31, 2018. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County.

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

#### NOTE C - INDIRECT COST RATE

The County has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

#### **NOTE D - SUBRECIPIENTS**

The County passes certain federal awards received from U.S. Department of Housing and Urban Development, Ohio Department of Jobs and Family Services, and the Ohio Supreme Court to other governments or not-for-profit agencies (subrecipients). As Note B describes, the County reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the County has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

#### **NOTE E - CHILD NUTRITION CLUSTER**

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

#### NOTE F - FOOD DONATION PROGRAM

The County reports commodities consumed on the Schedule at the fair value. The County allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

# NOTE G - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) with REVOLVING LOAN CASH BALANCE

The current cash balance on the County's local program income account as of December 31, 2018 is \$330,181.

## **NOTE H - MATCHING REQUIREMENTS**

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Trumbull County 160 High Street Warren, Ohio 44481

# To the Board of County Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Trumbull County, (the County), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated July 30, 2019, wherein we noted the County adopted Governmental Accounting Standards Board Statement 75. Our report refers to other auditors who audited the financial statements of the Fairhaven Industries Inc., as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that those auditors separately reported. The financial statements of Fairhaven Industries Inc. were not audited in accordance with *Government Auditing Standards*.

# Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the County's internal control. Accordingly, we have not opined on it.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Therefore, unidentified material weaknesses or significant deficiencies may exist. However, as described in the accompanying schedule of findings we identified certain deficiencies in internal control over financial reporting, that we consider material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or a combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the County's financial statements. We consider findings 2018-002 and 2018-003 described in the accompanying schedule of findings to be material weaknesses.

Trumbull County
Independent Auditor's Report On Internal Control Over
Financial Reporting and On Compliance And Other Matters
Required By Government Auditing Standards
Page 2

A significant deficiency is a deficiency, or a combination of internal control deficiencies less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider findings 2018-004 and 2018-005 described in the accompanying schedule of findings to be significant deficiencies.

## Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matter we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2018-001.

# County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and corrective action plan. We did not subject the County's responses to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them,

## Purpose of this Report

Keethe tobu

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

**Trumbull County** 160 High Street Warren, Ohio 44481

To the Board of County Commissioners:

# Report on Compliance for Each Major Federal Program

We have audited Trumbull County's (the County) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could directly and materially affect each of the Trumbull County's major federal programs for the year ended December 31, 2018. The Summary of Auditor's Results in the accompanying schedule of findings identifies the County's major federal programs.

## Management's Responsibility

The County's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

# Auditor's Responsibility

Our responsibility is to opine on the County's compliance for each of the County's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' Government Auditing Standards; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the County's major programs. However, our audit does not provide a legal determination of the County's compliance.

# Basis for Qualified Opinion on the Community Development Block Grant and Continuum of Care

As described in Findings 2018-006 through 2018-008 in the accompanying schedule of findings, the County did not comply with requirements regarding the following:

Trumbull County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Federal Program and on Internal Control Over
Compliance Required by the Uniform Guidance
Page 2

| Finding # | CFDA#  | Program (or Cluster) Name         | Compliance Requirement      |
|-----------|--------|-----------------------------------|-----------------------------|
| 2018-006  | 14.228 | Community Development Block Grant | Reporting                   |
| 2018-007  | 14.267 | Continuum of Care                 | Cash Management             |
| 2018-008  | 14.267 | Continuum of Care                 | Monitoring of Subrecipients |

Compliance with these requirements is necessary, in our opinion, for the County to comply with the requirements applicable to these programs.

# Qualified Opinion on the Community Development Block Grant and Continuum of Care

In our opinion, except for the noncompliance described in the *Basis for Qualified Opinion on the Community Development Block Grant and Continuum of Care* paragraph, Trumbull County complied, in all material respects, with the requirements referred to above that could directly and materially affect its *Community Development Block Grant and Continuum of Care Programs* for the year ended December 31, 2018.

# Unmodified Opinion on the Other Major Federal Programs

In our opinion, Trumbull County complied in all material respects with the requirements referred to above that could directly and materially affect its other major federal programs identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings for the year ended December 31, 2018.

The County's responses to our noncompliance findings are described in the accompanying schedule of findings and corrective action plan. We did not subject the County's responses to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

# Report on Internal Control over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the 's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the County's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Therefore, we cannot assure we have identified all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement.

Trumbull County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Federal Program and on Internal Control Over
Compliance Required by the Uniform Guidance
Page 3

A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program's compliance requirement will not be prevented, or timely detected and corrected. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings as items 2018-006 through 2018-008 to be material weaknesses.

The County's responses to our internal control over compliance findings are described in the accompanying schedule of findings and corrective action plan. We did not subject the County's responses to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

## Report on Federal Awards Expenditures Schedule Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Trumbull County, (the County), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our unmodified report thereon dated July 30, 2019, wherein we noted the County adopted Governmental Accounting Standards Board Statement 75. Our report refers to other auditors who audited the financial statements of the Fairhaven Industries Inc., as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that those auditors separately reported. The financial statements of Fairhaven Industries Inc. were not audited in accordance with Government Auditing Standards. We conducted our audit to opine on the County's' basic financial statements as a whole. We have not performed any procedures to the audited financial statements subsequent to July 30, 2019. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

# **Negative Fund Balances**

#### NONCOMPLIANCE

Ohio Rev. Code § 5705.10(I) requires that money paid into any fund shall be used only for the purposes for which such fund is established. Therefore, a negative fund cash balance in any fund indicates that money from another fund or funds has been used to pay the obligations of the fund carrying the deficit balance.

The Jobs and Family Services Fund had a deficit fund balances of (\$582,310) and (\$1,153,612) at the end of February and October, respectively. Negative fund balances could result in the use of restricted receipts for unallowable purposes. A procedure and control, such as the Commissioners' and/or County Auditor's periodic review of reports that show cash fund balances, and budgeted versus actual receipts and disbursements, should be implemented to identify those funds that may potentially develop a negative balance.

Advances or transfers should be made for these funds or appropriations modified to prevent a negative cash balance. The County should refer to Ohio Compliance Supplement (OCS) Chapter 1 and/or Auditor of State Bulletin 97-003 for information regarding the accounting treatment and approval process for advances.

Official's Response: Has been corrected.

# FINDING NUMBER 2018-002

#### **Cash Reconciliation Process Errors**

## MATERIAL WEAKNESS

Sound accounting practices require that when designing the public office's system of internal control and the specific control activities, management should ensure adequate security of assets and records, and verify the existence and valuation of assets and liabilities and periodically reconcile them to the accounting records.

The reconciliation of cash (bank) balances to accounting system records (book) to the accounting system is the most basic and primary control process performed. Lack of completing an accurate and timely reconciliation may allow for accounting errors, theft and fraud to occur without timely detection.

The County Auditor is responsible for reconciling the book (fund) balance to the County Treasurer's total bank balance on a monthly basis. Monthly bank to book reconciliations were not prepared or reviewed each month of 2018. The County Treasurer had a confirmed bank balance of \$149,849,945 compared to a Auditor book balance of \$151,732,825 as of December 31, 2018. The variance was book balance over bank balance by \$1,882,880. The variance was the result of withholding payments to an employee retirement system were being paid but not posted to the accounting system and outstanding checks were not known. Failure to reconcile monthly increases the possibility that the County will not be able to identify, assemble, analyze, classify, and record its transactions correctly or to document compliance with finance related legal and contractual requirements. Further, the lack of accurate monthly reconciliations increases the risk of theft/fraud over the cash cycle and could lead to inaccurate reporting in the annual financial statements.

Trumbull County Schedule of Findings Page 3

The County Auditor on June 21, 2019 was able to provide us with a reconciliation of County Auditor funds to the County Treasurer's bank balance. Outstanding check list was provided as well as documentation for reconciling items. The ending variance is book balance over bank balance by \$3,043.

The County Auditor should record all transactions and prepare monthly bank to book cash reconciliations, which include all bank accounts and all fund balances. Variances should be investigated, documented and corrected. In addition, the Commissioners should review the monthly cash reconciliations including the related support (such as reconciling items) and document the reviews.

Official's Response: Adjusting to new accounting system.

#### **Financial Statement Errors**

## MATERIAL WEAKNESS

In our audit engagement letter, as required by AU-C Section 210, *Terms of Engagement*, paragraph .06, management acknowledged its responsibility for the preparation and fair presentation of their financial statements; this responsibility includes designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements free from material misstatement, whether due to fraud or error as discussed in AU-C Section 210 paragraphs .A14 & .A16. Governmental Accounting Standards Board (GASB) Cod. 1100 paragraph .101 states a governmental accounting system must make it possible both: (a) to present fairly and with full disclosure the funds and activities of the governmental unit in conformity with generally accepted accounting principles, and (b) to determine and demonstrate compliance with finance-related legal and contractual provisions.

Property tax revenue was overstated by \$19,805,078 and permissive sales tax revenue was understated by \$19,805,078 on the Budget versus Actual Statement for the General Fund. The related budgeted revenues were also misstated for these line items. In addition, cash received from special assessments and cash received from other operations on the Water Fund *Cash Flow Statement* were misstated by \$867,346 and \$867,256, respectively. The financial statements were corrected for these errors.

The County did not have adequate controls in place to prevent or detect these errors.

The County should review the basic financial statements and GAAP compilation to help ensure all amounts are properly classified and recorded.

Official's Response: A mistake was done by flipping the numbers we will double check this in the future.

## Payroll Reconciliation

#### SIGNIFICANT DEFICIENCY

In 2018, the County switched to a new general ledger and payroll system. The general ledger system was switched over in January and the payroll system was switched over in October.

The County was not able to provide a reconciliation of the gross payroll amount recorded in the payroll system to the amount recorded in the County's general ledger. It was determined that withholding payments to an employee retirement system were being paid but not posted to the accounting system. The total amount of payments made that were not posted to the accounting system was \$3,644,010.

Trumbull County Schedule of Findings Page 4

There was also one credit for federal income tax that was reflected in payment, but not reflected in the accounting system in the amount of \$5,553.

The County did not have adequate controls in place to help prevent or detect this error.

The effect was the County's book and bank balances were not originally reconciled at December 31, 2018. The payroll system not agreeing to the general ledger could have an impact on the County's financial statements.

The County should ensure the payroll system reconciles to the general ledger system and post all payments made to the accounting system.

**Official's Response:** Adjusting to new accounting system.

#### IT – Documentation to Support Implementation of New Systems (Munis)

# SIGNIFICANT DEFICIENCY

Monitoring controls over the system implementation process are essential in helping to ensure the project was implemented according to management's intentions. Trumbull County implemented a new Human Capital Management module of the Munis system in October, 2018 and established various mechanisms to ensure a successful implementation. County Munis project managers along with County department personnel were responsible for ensuring that all account information, including account balances, were converted accurately from the legacy payroll application into the new Munis application.

Although these measures were taken, test documentation was not compiled or retained. Project managers who were interviewed, indicated that all critical components were operating, but did not have documentation to demonstrate the type or extent of testing performed. When adequate documentation of project milestones (i.e. user acceptance testing and final user acceptance) is not maintained, there is an increased risk that not all requirements will be adequately achieved.

Trumbull County should conduct a post-implementation review of the Munis project to highlight any issues and/or concerns with the process that may help minimize risks associated with any future development projects. The County should also develop an "Acquisition and Implementation Policy" to document the necessary control procedures and documentation procedures necessary for a successful implementation of new applications and systems.

**Official's Response:** County will retain the necessary documentation.

#### 3. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

# 1. Community Development Block Grant - Reporting Requirements

Finding Number: 2018-006

CFDA Number and Title: CFDA # 14.228 Community Development Block Grant

Federal Award Identification Number/Year: B-F-16-1CS-1 & B-F-17-1CS-1/ 2018

Federal Agency: U.S. Department of Housing and Urban Development

Agency

Compliance Requirement: Reporting Requirement

Pass-Through Entity: Ohio Development Services Agency

Repeat Finding from Prior Audit? No

# NONCOMPLIANCE AND MATERIAL WEAKNESS

**2 CFR § 200.327** states, "Unless otherwise approved by OMB, the Federal awarding agency may solicit only the standard, OMB-approved government-wide data elements for collection of financial information (at time of publication the Federal Financial Report or such future collections as may be approved by OMB and listed on the OMB Web site). This information must be collected with the frequency required by the terms and conditions of the Federal award, but no less frequently than annually nor more frequently than quarterly except in unusual circumstances, for example where more frequent reporting is necessary for the effective monitoring of the Federal award or could significantly affect program outcomes, and preferably in coordination with performance reporting."

When testing reporting requirements for the Community Development Block Grant (CDBG), it was determined that two out of four reports submitted to the Ohio Development Services Agency (ODSA), were submitted after the due date. One report was the final performance report which was due on October 31, 2018, but was submitted on November 15, 2018 and resubmitted on March 26, 2019. This report was resubmitted based on leverage amounts needing corrected, per ODSA. The other report was a project status report which was due on March 15, 2018, but was submitted March 27, 2018.

We also noted on the project status reports expenditures were overstated by \$20,600.

Reports should be submitted before deadlines for the CDBG Grant and proper amounts should be reported.

Official's Response: See the Corrective Action Plan

## 2. Continuum of Care - Cash Management

Finding Number: 2018-007

CFDA Number and Title: CFDA # 14.267 Continuum of Care

Federal Award Identification Number/Year: OH0163L5E071604 / 2018

Federal Agency: U.S. Department of Housing and Urban Development

Agency

Compliance Requirement: Cash Management Requirement

Pass-Through Entity: Ohio Department of Jobs and Family Services

Repeat Finding from Prior Audit?

#### NONCOMPLIANCE AND MATERIAL WEAKNESS

**2 CFR 200.305(b)** states that non-Federal entities must minimize the time elapsing between the transfer of funds from the U.S. Treasury or pass-through entity and disbursement by the non-Federal entity for direct program or project costs and the proportionate share of allowable indirect costs, whether the payment is made by electronic funds transfer, or issuance or redemption of checks, warrants, or payment by other means.

When testing cash management at Trumbull County Mental Health and Recovery Board for the Continuum of Care Grant, two out of eight transactions tested were not paid within 30 days of receiving the federal funds.

Trumbull County Mental Health and Recovery Board should minimize time between cash draws and expending of funds for the Continuum of Care Grant.

Trumbull County Schedule of Findings Page 6

**Official's Response:** While I recognize the 30 day payment expectation, our contract says "based on funding availability." Since the HUD Grant is a draw down through ELOCCS funding may not have been received those two months. I have, however, reviewed the payment processing expectations with staff and will ensure that future payments will be made within the 30 day time frame pursuant to funding availability.

## 3. Continuum of Care - Monitoring of Subrecipients

Finding Number: 2018-008

CFDA Number and Title: CFDA # 14.267 Continuum of Care

Federal Award Identification Number/Year: All / 2018

Federal Agency: U.S. Department of Housing and Urban Development

**Agency** 

Compliance Requirement: Monitoring of Subrecipients

Pass-Through Entity: Ohio Department of Jobs and Family Services

Repeat Finding from Prior Audit? No

## NONCOMPLIANCE AND MATERIAL WEAKNESS

Uniform Guidance in **2 CFR part 200** states a pass-through entity shall monitor the activities of subrecipients as necessary to ensure that federal awards are used for authorized purposes in compliance with laws, regulations, and provisions of contracts or grant agreements and that performance goals are achieved. A pass-through entity needs to establish an appropriate subrecipient monitoring process to decide what, if any, additional monitoring procedures may be necessary to ensure the subrecipient's compliance.

During 2018, the Mental Health and Recovery Board contracted with a subrecipient to provide services related to its Continuum of Care federal grant program. The Board did not perform or lacked documentation as to their monitoring procedures necessary under the Uniform Guidance over this subrecipient. It was also noted while testing the contract with the subrecipient, that no CFDA number was mentioned, and in the audit report of the subrecipient, the wrong CFDA number was mentioned.

The Mental Health and Recovery Board should review the Uniform Guidance in 2 CFR part 200, which lists its responsibilities as a pass-through entity, establish and maintain its own internal control procedures over compliance with grant requirements, and update its subrecipient monitoring policy to meet the Uniform Guidance audit requirements. The Board should also document its subrecipient monitoring controls and reviews, and maintain the documentation over the monitoring over its subrecipient.

**Official's Response:** We created a spreadsheet to track board staff's activity/oversight on the projects. Also, a staff will initial and date invoices prior to sending to fiscal for payment.

The Honorable Daniel E. Polivika
The Honorable Frank S. Fuda
The Honorable Mauro Cantalamessa

The Honorable Sam C. Lamancusa Trumbull County Treasurer

Citizens of Trumbull County:

It is my pleasure to present Trumbull County's Comprehensive Annual Report (CAFR) for the year ended December 31, 2018.

To the best of my knowledge the data presented herein, is completely accurate in all respects and has been reported in a manner designed to provide complete disclosure of the financial position and the results of operations of the County.

This report was prepared in complete accordance with Generally Accepted Accounting Principles (GAAP) as applicable to government entities and with the hope of receiving a twenty-third Certificate of Achievement for Excellence in Financial Reporting Guidelines of the Government Finance Officers Association (GFOA) in the history of Trumbull County.

This document represents full disclosure of all Trumbull County's financial activities during the aforementioned year. The Trumbull County Auditor's office, unless otherwise noted, takes full responsibility for the data contained herein. We believe that the report has been prepared in a manner which will easily enable the reader to gain valuable insights into Trumbull County's financial activity.

The preparation of this comprehensive document represents an ongoing commitment to excellence in terms of the financial management of Trumbull County. We intend to reflect this same commitment in ensuing years with similar practices and the continued attainment of this cherished award of achievement.

Yours Sincerely,

Adrian S. Biviano MBA, CPA, CGFM, CFE

Trumbull County Board of Commissioners 160 High Street Warren, Ohio 44481

### Citizens of Trumbull County:

I am pleased to submit the comprehensive annual financial report of Trumbull County for the year ended December 31, 2018.

This report enables the County to comply with Ohio Administrative Code Section 117-2-03 (B), which requires reporting on a GAAP (Generally Accepted Accounting Principles) basis, and Ohio Revised Code Section 117.38 which requires the counties reporting on a GAAP basis to file unaudited general purpose external financial statements with the Auditor of State within 150 days of year end.

Management assumes responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Keith Faber, Auditor of State, has issued an unmodified ("clean") opinion on Trumbull County's financial statements for the year ended December 31, 2018. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

### The County and the Form of Government

Trumbull County, created in 1800, is located in northeast Ohio, on the southern border of Ashtabula County, the eastern borders of Geauga and Portage Counties and the western border of the State of Pennsylvania. The County is approximately forty miles southeast of the City of Cleveland. The County encompasses 24 townships and eleven cities and villages, the largest of which is the City of Warren, the County Seat. The County is in the Youngstown-Warren, Ohio Metropolitan Statistical Area (MSA) comprised of Trumbull, Columbiana and Mahoning Counties, the 102nd largest of 382 MSA's in the United States.

The County is served by extensive and diversified transportation facilities. More than eighty motor freight carriers serve the area and 40 contract carriers maintain offices or terminals. The County is presently served by two railroad systems - Conrail and CSX. The Western Reserve Port Authority is

located within the County. Also, Wyman's Executive Airport is located within the County. Three airports within commuting distance of the County, Cleveland Hopkins International Airport, Akron-Canton Regional Airport and Pittsburgh International Airport, provide additional air transportation services.

One major interstate highway traversing the County, the Ohio Turnpike Interstate 80, is a major coast-to-coast route linking the area with such major national economic centers as New York and Chicago. I-80 and local spur I-680 provide quick access to Cleveland, Akron and Youngstown. In addition to federal highways, the County is crisscrossed with modern state highways. State Routes 11, 45, 46 and 82 and U.S. Route 422 facilitate travel within the County and link the County with the industries of the Ohio Valley Region.

The cities, villages and townships, together with various special districts and other governmental entities operating in the County, are responsible for many local governmental services and make significant expenditures to provide such services to County residents. The County, nonetheless, has significant responsibilities in the areas of general government, administration of justice, road and bridge maintenance, health care, sanitation, public welfare, social services and public assistance. The County also operates two enterprise funds that include a water system and wastewater system.

For financial reporting purposes, the County includes all funds, agencies, boards and commissions making up Trumbull County (the Primary Government) and its' Component Units, in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 14 "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34". The County's primary government includes the financial activities of Trumbull County Community Mental Health Board, Trumbull County Board of Developmental Disabilities (DD), Trumbull County Children Service's Board and all departments and activities that are directly operated by elected County officials.

Component units are legally separate organizations which are fiscally dependent on the County or for which the County is financially accountable. Fairhaven Industries, Inc. and the Trumbull County Land Bank have been included as discretely presented component units.

The County is associated with other organizations. These include the Geauga/Trumbull Solid Waste District which is a joint venture as discussed in Note 14; the County Risk Sharing Authority, Inc. (CORSA), a risk sharing pool discussed in Note 22; the Western Reserve Port Authority, the Family and Children First Council, the Northeast Ohio Community Alternative Program, the North East Ohio Network, and the Eastgate Regional Council of Governments which are jointly governed organizations discussed in Note 23; the Private Industry Council, the Trumbull County Public Library, the Trumbull County Tourism Board, the Trumbull County Metropolitan Park District and the Trumbull County Transit Board which are related organizations discussed in Note 24.

The County has only those powers, and powers incidental thereto, conferred upon it by the State constitution and statutes. A three-member Board of County Commissioners (the "Board") is the primary legislative and executive body of the County. The Board is elected at-large in even-numbered years for four-year overlapping terms. The Board is responsible for providing and managing the funds used to support the various County activities. The Board exercises its legislative powers in budgeting, appropriating monies, levying taxes, issuing bonds and notes and letting contracts for public works and services to provide this financial management. The Board has certain responsibilities for the management of most County facilities, including various court, correctional and administrative facilities, public assistance and social services facilities and general County facilities.

In addition to the Board, citizens elect eight other County administrative officials, each of whom is independent within the limits of State Statutes affecting the particular office. These officials, elected to four-year terms, are the County Auditor, County Treasurer, County Prosecutor, County Engineer, Coroner, Clerk of Courts, County Recorder and Sheriff. Common Pleas Judges, including the Domestic

Relations, Juvenile Court and Probate Court Judges, are also elected on a County-wide basis and serve six-year terms. Court of Appeals Judges are elected on a district-wide basis by the electors of the Counties included in the district for a six-year term.

The County Auditor serves as the chief fiscal officer for the County and the tax assessor for all political subdivisions within the County. As the chief fiscal officer, no contract or obligation involving the County can be made without the Auditor's certification that appropriations are sufficient and that funds are available, or are in the process of collection, to ensure that the contract or obligation can be paid. The Auditor is also the central disbursing agent of the County who, by the issuance of County warrants, distributes funds to creditors in payment of liabilities incurred by the County and its departments. In addition, the Auditor is responsible for the preparation of the County payroll and has statutory accounting responsibilities.

As tax assessor, the Auditor is responsible for establishing the tax rates for real estate, personal property and manufactured homes. Once these taxes are collected, the Auditor is responsible for distributing those collections to the other governmental entities in accordance with legally adopted rates. In addition to these duties, the Auditor is the secretary to the County Data Processing Board and serves as the secretary to the County Board of Revision and the County Budget Commission.

The County Auditor is also responsible for the development and implementation of an interdepartmental County-wide geographical information system (GIS). The Trumbull County Auditor's office has moved the County map information to a GIS system to provide the many benefits of these advanced mapping systems to their county governments. This system provides aerial photography, geodetic control, analytical triangulation, GIS photogram metric mapping and property conversion. This computerized system will provide the public as well as departments with valuable data and information about the County as a whole.

The County Treasurer is the custodian of all County funds. The Treasurer is responsible for the investment of idle County funds as specified by Ohio law. The Treasurer is also responsible for collecting all tax monies and applying those payments to the appropriate tax accounts. Daily reconciliations of the total County fund balances of the Auditor and the Treasurer are performed by the two offices, and reconciliations by fund are prepared monthly. The County Budget Commission is comprised of the County Treasurer, Auditor and Prosecutor. The Budget Commission plays an important function in the financial administration of the County government and all other local governments within the County.

The County Engineer, required by Ohio law to be a registered professional engineer and surveyor, serves as the civil engineer for the County and its officials. His primary responsibilities relate to the construction, maintenance and repair of County roads and bridges, related roadside drainage facilities and storm or surface runoff systems. The Board of Commissioners takes bids on and awards contracts for the projects recommended and approved by the County Engineer. The County Engineer also prepares tax maps for the County Auditor.

The Board of County Commissioners are required to adopt a final budget by the close of the fiscal year. This annual budget serves as the foundation for the Trumbull County's financial planning and control. The legal level of control has been established by the Commissioners at the object level within each department. Any budgetary modifications at this level may only be made by resolution of the County Commissioners.

### Administration of the Justice System

As a part of its justice system, the County maintains the Court of Appeals and the Common Pleas Court which include a Domestic Relations Division, a Juvenile Division and a Probate Division.

The County Prosecutor's office, the Juvenile Detention Center and the County Jail are also maintained by the County. In addition to the responsibilities as a prosecutor of criminal cases, the County Prosecutor is

designated by Ohio law as the chief legal counsel for all County officers, boards and agencies, including the Board of Commissioners, the County Auditor and the County Treasurer and all townships and local school districts. The County Prosecutor is also a member of the County Budget Commission.

The Clerk of Courts keeps all official records of the Common Pleas Court, and when the Court of Appeals holds sessions within the County, she also serves as Clerk of Courts of the Court of Appeals. The office of the Clerk of Courts operates on a system of fees charged for services and is essentially self-supporting.

The County Sheriff is the chief law enforcement officer of the County and provides certain specialized services which include maintaining a special staff of deputies whose duties are to assist local law enforcement officers upon their request and to enforce the law in unincorporated areas of the County. The Sheriff also operates and maintains the County jail and is responsible for its inmates, including persons detained for trial or transfer to other institutions. As an officer of the County courts, the Sheriff is in charge of the service of court documents.

### Industry, Commerce and Economic Development

Employment in the County and Metropolitan Statistical Area (MSA) is primarily in the trade, transportation, and utilities sectors with a close second in education and health services sector. According to the U.S. Department of Labor, Bureau of Labor Statistics, Midwest Information Office, as of May 1, 2019, there were 88,092 people employed in Trumbull County making an average weekly wage of \$789.

Trumbull County's collaborative economic development program helps existing companies grow and works to attract new businesses, industry, investment, and jobs. Trumbull County coordinates local, state, regional, and federal programs for businesses and industries expanding or locating in Trumbull County and takes advantage of state and federal programs such as Ohio's Enterprise Zone (EZ) and Community Reinvestment Area (CRA) programs, which permits tax incentives on new real property within designated areas; the Community Development Block Grant Economic Development (CDBG-ED) Program, which provides for jobs for low and moderate income persons; the CDBG Revolving Loan Fund (RLF), which provides low-interest loans to primarily small manufacturing facilities. Trumbull County is also a founding member of the Trumbull County Brownfield Coalition.

Trumbull County has one of the largest and most successful Enterprise Zone Programs in Ohio, encompassing most jurisdictions in the County's 625 square-mile area. The Enterprise Zone Program provides tax incentives for new industrial or manufacturing expansion projects in Trumbull County. In 2018, the Planning Commission had a total of 16 active Enterprise Zone Agreements in compliance with their agreements. As a result of the 16 active Enterprise Zone Agreements: 417 jobs were created; 563 jobs were retained; \$74,191,744 was invested in real property and \$701,103,870 was invested in personal property in Trumbull County.

In September, the Board of Commissioners approved an EZ Agreement with Ellwood Aluminum, LLC for a 75 percent abatement over a period of 10 years for the renovation of an existing 29,000 square foot building and the construction of a 63,000 square foot building for the expansion of their enterprise located at 7158 Hubbard Masury Road in the Township of Hubbard. The company plans to invest ranging from \$52,000,000-\$60,000,000 and create 34 full-time employment opportunities within three years.

The Community Reinvestment Area (CRA) Program allows a community to offer tax incentives on the increased value from improvements to properties within the boundaries of the CRA. CRAs are typically located in areas where investment has been discouraged. In 2016, the Planning Commission updated the City of Warren's Community Reinvestment Area. The City of Warren has an existing CRA that was originally certified in 1977.

In November, the Board of Commissioners approved a CRA Agreement with Belmont Liberty Development, LLC for a 50 percent abatement of a period of 10 years for the construction of a 965 square foot building to serve as a new Rally's restaurant located along Belmont Avenue in Liberty Township.

The company plans to invest \$1,067,500 and create 9 full-time and 39 part-time employment opportunities within three years.

Trumbull County has had one of the most successful Revolving Loan Funds in Ohio, with over \$4 million loaned to local companies since 1984, yielding 1,000 new jobs and thousands of jobs retained. The Revolving Loan Fund (RLF) provides low-interest loans to primarily small manufacturing facilities within Trumbull County. Trumbull County Planning Commission currently has three (3) active loans in the RLF and is proud to report that all performance and compliance criteria including job creation have been met and maintained for all loans. In addition, all payments have been received and are up to date.

### Income

According to the Department of Labor, Bureau of Labor Statistics most recent date (December 2016), the median household income for Trumbull County is estimated at \$45,380; the State median household income of \$52,407; and the United States median household income of \$57,652.

### Sanitary Engineer - Water and Sewer

The County, through the Sanitary Engineer's Department, is in the process of making various capital improvements which will be funded by various sources, including special assessments, through the business-type funds. Sewer projects that are in process include the Little Squaw Creek Interceptor (Phase 5), the Belmont Park project, the South Bedford Road project, the Swift Drive project, the Heaton Chute project, the State Road (Phase 2) project, the Scoville Drive project, the Logan Way pump Station Conversion, the Basswood, Beechwood and Elmwood project and the Jacobs Road sanitary sewer project. Wastewater Treatment projects in process include the Mosquito Creek Capital Improvement project and the Brookfield Capital Improvement project.

Water projects that are in process are the Blueprint To Prosperity Waterline, the Elm Road Waterline, Huntley Drive Waterline, Mineral Ridge Hydraulic improvement project and the Howland Water System Hydraulic improvement project.

### Long-term Financial Planning

Trumbull County has developed a five (5) year capital budget plan which is used as a plan for capital spending projects and is updated annually to maintain a five year outlook. This budget is meant to provide guidance by the Board of County Commissioners and other elected officials in determining the County's future capital needs.

Within the County's general fund operating budget, the Commissioners appropriate between \$500,000-\$1,000,000 in a contingency account for anticipated capital and other operating needs.

### Relevant Financial Policies

The County imposed an additional 0.25 percent sales tax levy for County operations, along with a 0.25 percent levy for public safety services in October 2005. The current annual revenues from these levies are estimated to be \$10.0 million.

### Acknowledgments

The publication of this CAFR represents an important achievement in the ability of Trumbull County to provide significantly enhanced financial information and accountability to the citizens of Trumbull County, its elected officials, County management and investors. This report continues the aggressive program of the County Auditor's office to improve the County's overall financial accounting, management and reporting capabilities.

I would like to acknowledge the efforts of the entire staff of the Trumbull County Auditor's office and Data Processing Department for their contributions to this report. Special thanks are extended to Trumbull County's accounting staff, for their effort and dedication to this project. The guidance given by Julian & Grube, Inc. was greatly appreciated. They provided valuable assistance in a most professional manner.

I would also like to recognize Trumbull County Treasurer Sam C. Lamancusa and his staff for their periodic assistance and to thank the Trumbull County Board of Commissioners for their support of this CAFR.

Lastly, I would like to thank all of the elected officials, department heads and their staffs for their assistance and cooperation with the preparation of this CAFR. I ask for their continued support of this project and of my efforts towards continuing the sound financial management for Trumbull County.

Sincerely,

Adrian S. Biviano, MBA, CPA, CGFM

### INDEPENDENT AUDITOR'S REPORT

**Trumbull County** 160 High Street Warren, Ohio 44481

To the Board of County Commissioners:

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Trumbull County, Ohio (the County), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of Fairhaven Industries Inc., which represent 17 percent, 12 percent, and 27 percent, respectively, of the assets, net position, and revenues of the discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amount included for Fairhaven Industries Inc., is based solely on the report of other auditors. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' Government Auditing Standards. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement. The other auditors audited the financial statements of Fairhaven Industries Inc. in accordance with auditing standards generally accepted in the United States of America and not in accordance with Government Auditing Standards.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

Trumbull County Independent Auditor's Report Page 2

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

### **Opinion**

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Trumbull County, Ohio, as of December 31, 2018, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General, Public Assistance, County Board of Developmental Disabilities, Community Mental Health, and Children Services funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

### Emphasis of Matter

As discussed in Note 3 to the financial statements, during 2018, the County adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. We did not modify our opinion regarding this matter.

### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

### Supplementary and Other Information

Our audit was conducted to opine on the County's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Trumbull County Independent Auditor's Report Page 3

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 30, 2019, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2018 (UNAUDITED)

The management's discussion and analysis of Trumbull County's (the "County") financial performance provides an overall review of the County's financial activities for the year ended December 31, 2018. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the County's financial performance.

### **Financial Highlights**

Key financial highlights for 2018 are as follows:

- Prior year net position amounts have been restated as described in Note 3. The total net position of the County decreased \$3,020,548. Net position of governmental activities decreased \$9,011,591 and net position of business-type activities increased \$5,991,043.
- General revenues accounted for \$71,726,836 or 45.21% of total governmental activities revenue. Program specific revenues accounted for \$86,911,427 or 54.79% of total governmental activities revenue.
- The County had \$168,171,101 in expenses related to governmental activities. \$86,911,427 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes) of \$71,726,836 were not adequate to provide for these programs.
- The County's major governmental funds are the general fund, public assistance fund, County Board of Developmental Disabilities fund, community mental health fund, children services fund and general obligation bond retirement fund. The general fund, the County's largest major fund, had revenues and other financing sources of \$54,283,875 in 2018, and expenditures and other financing uses of \$53,650,778. The general fund's fund balance increased \$633,097 or 4.80% from 2017 to 2018.

### Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the County as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole County, presenting both an aggregate view of the County's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the County's most significant funds with all other nonmajor funds presented in total in one column. In the case of the County, there are six major governmental funds. The general fund is the largest major fund.

### Reporting the County as a Whole

### Statement of Net Position and the Statement of Activities

The statement of net position and the statement of activities answer the question, "How did we do financially during 2018?" These statements include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the County's net position and changes in that position. This change in net position is important because it tells the reader that, for the County as a whole, the financial position of the County has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the County's property tax base, current property tax laws, facility conditions and other factors.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2018 (UNAUDITED)

In the statement of net position and the statement of activities, the County is divided into two distinct kinds of activities:

Governmental activities - Most of the County's programs and services are reported here including human services, health, public safety, public works and general government. These services are funded primarily by taxes and intergovernmental revenues including federal and State grants and other shared revenues.

Business-type activities - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided.

### **Reporting the County's Most Significant Funds**

### Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other State and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Fund financial reports provide detailed information about the County's major funds. The County uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the County's most significant funds. The County's major governmental funds are the general fund, public assistance fund, County Board of Developmental Disabilities fund, community mental health fund, children services fund and general obligation bond retirement fund. An analysis of the County's major governmental and proprietary funds begins on page 14.

### Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation.

### **Proprietary Funds**

The County maintains proprietary funds, including both enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its sewer and water operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses four internal service funds to account for its gasoline and telephone rotary operations and its self-insurance programs for medical benefits and workers' compensation.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2018 (UNAUDITED)

### Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

### Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's net pension liability and net OPEB liability. The required supplementary information can be found following the notes to the basic financial statements.

### **Government-wide Financial Analysis**

The statement of net position provides the perspective of the County as a whole. The table that follows provides a summary of the County's net position at December 31, 2018 and December 31, 2017. The net position at December 31, 2017 has been restated as described in Note 3.

The net pension liability (NPL) is the largest single liability reported by the County at December 31, 2018 and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." For 2018, the County adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the County's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2018 (UNAUDITED)

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability or net OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the County's proportionate share of each plan's collective:

- Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the County is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the County's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

As a result of implementing GASB 75, the County is reporting a net OPEB liability and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting. This implementation also had the effect of restating net position at December 31, 2017, from \$153,242,369 to \$111,084,763 for governmental activities and \$92,477,327 to \$90,078,877 for business-type activities.

Over time, net position can serve as a useful indicator of a government's financial position. At December 31, 2018, the County's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$198,143,092. This amounts to \$102,073,172 in governmental activities and \$96,069,920 in business-type activities.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2018 (UNAUDITED)

As of December 31, 2018, the County is able to report positive balances in all categories of net position for its business-type activities. The governmental activities report a deficit unrestricted net position as a result of the net effect of accounting for pensions.

The net investment in capital assets represents the largest portion of net position for the County. Capital assets are used to provide services to citizens and are not available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities. Capital assets are discussed further on page 16.

Restricted net position represents resources that are subject to external restrictions on how they may be used. Unrestricted net position may be used to meet the County's ongoing obligations to its citizens and creditors.

The following table shows the changes in net position for governmental and business-type activities for 2018 and 2017. The net position at December 31, 2017 has been restated as described in Note 3.

The information necessary to restate the 2017 beginning balances and the 2017 OPEB expense amounts for the effects of the initial implementation of GASB 75 is not available. Therefore, 2017 functional expenses still include OPEB expense of \$614,048 computed under GASB 45. GASB 45 required recognizing OPEB expense equal to the contractually required contributions to the plan. Under GASB 75, OPEB expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of OPEB expense. Under GASB 75, the 2018 statements report OPEB expense of \$2,624,640.

Consequently, in order to compare 2018 total program expenses to 2017, the following adjustments are needed:

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2018 (UNAUDITED)

### **Governmental Activities**

Net position decreased by \$9,011,591 (8.11%) due to a decrease in revenues and an increase in expenses. Total revenues decreased by \$2,349,872 (1.46%), which can mostly be attributed to an decrease in capital grants and contributions and unrestricted grants and entitlements. Capital grants and contributions primarily consist of funding from the Ohio Public Works Commission and Ohio Department of Transportation that is used to finance infrastructure improvements. Unrestricted grants and entitlements were higher in 2017 as a result of Medicaid sales tax reimbursements from the State. The State repealed its sales tax on Medicaid health insuring corporations (MHICs) but included additional funding to Counties in 2017 and 2018 in an effort to assist them in transitioning to a sales tax structure that excludes MHICs from the tax base. These reimbursements were phased out in 2018.

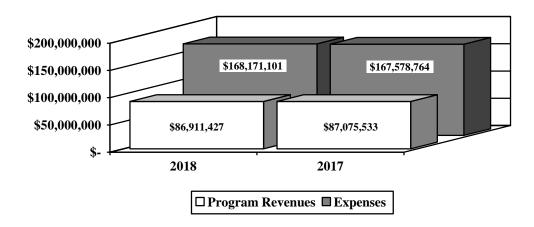

General revenues for the County primarily consist of property taxes and permissive sales tax revenue. These two revenues sources comprised 37.78% of total revenues in 2018. Both of these revenue sources remained steady compared to the prior year.

Total expenses for 2018 amounted to \$168,171,101, an increase of \$592,337 (0.35%) compared to the prior year. However, as the table on the prior page shows, expenses not related to OPEB actually saw a decrease. This is primarily due to a decrease in pension expense. Pension expense for governmental activities amounted to \$14,148,126 in 2018 compared to \$19,750,494 in 2017. This was partially offset by an increase in compensated absences, which represent the County's obligations to employees for outstanding sick and vacation leave balances.

The County's largest category of expenses in 2018 was human services. Human services, which supports the operations of the public assistance and children services programs, accounts for \$45,357,315 or 26.97% of total governmental expenses of the County. These operations were funded by \$3,755,372 in charges to users of services and \$26,753,775 in operating grants and contributions in 2018. Health expenses comprised another \$33,128,654 or 19.70% of total expenses in 2018. These expenses, which primarily support the operations of the County Board of Developmental Disabilities and community mental health programs, were funded by \$1,753,447 in charges to users of services and \$14,362,043 in operating grants and contributions.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services for 2018 and 2017. As can be seen in the graph below, the County is reliant upon general revenues to finance operations as program revenues are not sufficient to cover total expenses.

The following table shows, for governmental activities, the total cost of services and the net cost of services for 2018 and 2017. That is, it identifies the cost of these services supported by general revenues (such as tax revenue and unrestricted grants and entitlements).

The dependence upon general revenues for governmental activities is apparent, with 48.32% and 48.04% of expenses supported through taxes and other general revenues during 2018 and 2017, respectively. The following graph illustrates the County's reliance upon general revenues.

### Governmental Activities – General and Program Revenues

### **Business-type Activities**

The County's sewer fund and water fund are reported in the business-type activities. These programs had program revenues consisting of charges for services and sales of \$20,128,326, capital grants and contributions of \$5,422,823, general revenues of \$1,280,188 and expenses of \$20,319,047 for 2018. Revenues increased as a result of capital contributions for a waterline project and expenses were similar to the prior year. Net position of the business-type activities increased \$5,991,043 or 6.65% during 2018.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2018 (UNAUDITED)

### Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at year-end.

The County's governmental funds reported a combined fund balance of \$90,232,187, which is \$2,296,098 higher than last year's restated fund balance of \$87,936,089. See Note 3 for more detail regarding the fund balance restatement. The following schedule indicates the fund balance as of December 31, 2018 and December 31, 2017 for all major and nonmajor governmental funds.

The single largest source of revenue for the general fund is the permissive sales tax, accounting for 42.38% of total revenues in 2018. Sales tax revenue decreased slightly in 2018 due to a change in Ohio sales tax funding laws. This decrease was offset by additional intergovernmental funding from the State in 2017 which was intended to help reimburse the County for the lost sales tax revenue. However, most of this funding was accrued as revenue in 2017, which contributed to the decrease in intergovernmental revenues. Fines and forfeitures revenue increased which is a result of Sheriff's Department fines exceeding prior year levels.

The table that follows assists in illustrating the expenditures of the general fund during 2018 and 2017.

The primary cause for the increase in judicial expenditures is higher personal services expenditures for the County's Common Pleas Court as well as smaller increases for Juvenile Court and Probate Court operations. This was partially offset by a decrease in legislative and executive expenditures, which primarily resulted from an additional supplemental pay for 2017.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2018 (UNAUDITED)

### Public Assistance Fund

The public assistance fund, a County major fund, had revenues and other financing sources of \$16,105,411 and expenditures of \$15,421,810 in 2018. Fund balance decreased from a deficit of \$25,432 to a balance of \$658,169 at December 31, 2018 due to an increase in grant revenue.

### County Board of Developmental Disabilities Fund

The County Board of Developmental Disabilities fund, a County major fund, had revenues of \$28,159,487 and expenditures of \$24,876,517 in 2018, both of which represent slight increases compared to the prior year. Fund balance increased during the year from \$32,500,630 to \$35,783,590 at December 31, 2018 as revenues continue to exceed expenditures.

### Community Mental Health Fund

The community mental health fund, a County major fund, had revenues of \$6,390,605 and expenditures of \$6,923,918 in 2018. Expenditures increased slightly and as a result fund balance decreased from \$6,879,811 to \$6,346,498 at December 31, 2018.

### Children Services Fund

The children services fund, a County major fund, had revenues of \$16,882,542 and expenditures and other financing uses of \$17,322,703 in 2018, both of which are higher than the prior year. Revenues increased due to slightly higher grant funding and charges for services, and expenditures increased correspondingly. The children services fund also transferred out \$300,000 in 2018 to help finance capital improvements. Fund balance decreased from \$10,545,960 to \$10,105,799 at December 31, 2018.

### General Obligation Bond Retirement Fund

The general obligation bond retirement fund, a County major fund, had revenues and other financing sources of \$2,244,990 and expenditures of \$2,193,562 in 2018. Activity in this fund decreased due to a refunding bond issuance of approximately \$5 million that occurred in 2017. Fund balance during the year increased from \$1,379,492 to \$1,430,920 at December 31, 2018.

### Budgeting Highlights - General Fund

The County's budgeting process is prescribed by the Ohio Revised Code (ORC). Essentially the budget is the County's appropriations which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the ORC. Therefore, the County's plans or desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity then the appropriations can be adjusted accordingly.

Original budgeted revenues and other financing sources of \$46,556,422 were increased slightly to \$47,435,653 in the final budget. Actual revenues and other financing sources were \$52,644,889 or \$5,209,236 more than the final budget. Most of this variance is reflected in intergovernmental revenue which was \$3,477,179 more than the final budget as a result of additional funding from the State for Medicaid sales tax reimbursement. Investment income was \$1,488,731 more than the final budget due to improved interest rates on the County's investments.

Original budgeted expenditures and other financing uses of \$48,263,156 were increased slightly to \$49,416,391 in the final budget, mostly to account for an increase in employee wages and benefits. Actual expenditures and other financing uses of \$48,680,972 were less than final budgeted expenditures by \$735,419. This variance is a result of management's commitment to keeping costs as low as possible while still providing the level of services that County residents expect.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2018 (UNAUDITED)

### **Proprietary Funds**

The County's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, except in more detail. The County's major proprietary funds include the sewer fund and water fund. The sewer fund reported operating income of \$1,674,712 and an overall increase in net position of \$1,394,340. Revenues continued to exceed expenses, due in part to an increase in charges for services and special assessments revenue. The water fund reported an operating loss of \$595,543 due to stagnant revenues and a slight increase in expenses. However, the water fund reported an increase in net position of \$4,205,015 due to capital contributions for a new waterline project.

### **Capital Assets and Debt Administration**

### Capital Assets

At the end of 2018, the County had \$207,771,440 (net of accumulated depreciation) invested in land, construction in progress, buildings and improvements, equipment, furniture and fixtures, vehicles and infrastructure. The following table shows December 31, 2018 balances compared to December 31, 2017.

For the governmental activities, the overall decrease in capital assets is due to depreciation expense of \$8,163,439 and net disposals of \$451,835 exceeding capital acquisitions of \$6,291,001. Significant asset additions include road and bridge infrastructure improvements totaling approximately \$4.3 million, about \$2.3 million of which is included in construction in progress at year-end.

For the business-type activities, the overall increase in capital assets is due to acquisitions of \$7,800,982 exceeding depreciation expense in the amount of \$3,471,363 and net disposals of \$798. Most capital asset additions consist of various infrastructure improvement projects that are still in progress. The most significant of these is a project for a new waterline which added approximately \$4.7 million in 2018 for a total balance of \$5.4 million.

See Note 13 in the notes to the basic financial statements for detail on governmental activities and business-type activities capital assets.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2018 (UNAUDITED)

### **Debt Administration**

At December 31, 2018 the County had \$165,034,793 in long-term obligations outstanding. Of this total \$7,748,464 is due within one year and \$157,286,329 is due in greater than one year. As the table below illustrates, the main reason for the large decrease in long-term obligations is a significant decrease in the net pension liability. There were no significant new debt issuances in 2018. See Note 19 in the notes to the basic financial statements for detail on governmental activities and business-type activities long-term obligations.

The following table summarizes the outstanding long-term obligations at December 31, 2018 and 2017. The 2017 amounts have been restated to account for the net OPEB liability, as described in Note 3.

| Amounts reported for governmental activities in the statement of activities are different because:   |  |    |                             |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceed depreciation expense in the current period. #### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 1 - DESCRIPTION OF THE COUNTY

Trumbull County, Ohio (the "County") was created in 1800. The County is governed by a board of three Commissioners elected by the voters of the County. An elected County Auditor serves as chief fiscal officer. In addition, there are seven other elected administrative officials. These officials are: County Treasurer, Recorder, Clerk of Courts, Coroner, Engineer, Prosecuting Attorney and Sheriff. Also elected are three Common Pleas Court Judges, a Probate and Domestic/Juvenile Court Judge and two County (Area) Court Judges. Although these elected officials manage the internal operations of their respective departments, the County Commissioners serve as the budget and taxing authority, contracting body and the chief administrators of public services for the County, including each of these departments.

#### Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the County consists of all funds, departments, boards and agencies that are not legally separate from the County. For Trumbull County, this includes the Human Services Department, the Children Services Board, the Veterans Services Department, the Board of Developmental Disabilities, the Board of Alcohol Drug Addiction and Mental Health Services, the Emergency Management Agency and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance deficits of, or provide financial support to, the organization. Component units may also include organizations that are fiscally dependent on the County in that the County approves the budget, the issuance of debt or the levying of taxes and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government. Based on the criteria described, the County has two discretely presented component units whose financial activities have been reflected in the accompanying financial statements.

Fairhaven Industries, Inc. - Fairhaven Industries, Inc. (Workshop) is a legally separate, non-governmental non-profit organization, served by a self-appointing board of trustees. The Workshop, under a contractual agreement with the Trumbull County Board of Developmental Disabilities (DD), provides a comprehensive program of services, including employment for developmentally disabled citizens. The Trumbull County Board of DD provides the Workshop with money and personnel for operation of the Workshop including staff salaries and benefits and certain supplies and advertising. Based on the significant services and resources provided by the County to the Workshop and the Workshop's sole purpose of providing assistance to the handicapped adults of Trumbull County, it was determined that excluding the Workshop from the County's report would make the report incomplete. Separately issued financial statements can be obtained from Fairhaven Industries, Inc., 420 Lincoln Way, Niles, Ohio 44446.

#### **NOTE 1 - DESCRIPTION OF THE COUNTY - (Continued)**

The Trumbull County Land Reutilization Corporation (Land Bank) - The Land Bank is a county land reutilization corporation that was formed on November 10, 2010 when the Trumbull County Board of Commissioners authorized the incorporation of the Land Bank under Chapter 1724 of the Ohio Revised Code through resolution as a not-for-profit corporation under the laws of the State of Ohio. The purpose of the Land Bank is for reclaiming, rehabilitating or reutilizing economically nonproductive land throughout the County. The Corporation can potentially address parcels where the market value of the property has been greatly exceeded by the delinquent taxes and assessed liens and are therefore not economically feasible to initiate foreclosure actions upon. By establishing the Land Bank, the County can begin to address dilapidated housing issues in communities located in the County and also return properties to productive use. The Land Bank has been designated as the County's agent to further its mission to reclaim, rehabilitate, and reutilize vacant, abandoned, tax foreclosed and other real property in the County by exercising the powers of the County under Chapter 5722 of the Ohio Revised Code. The Board of Directors is primarily made up of elected officials of the County. Separately issued financial statements can be obtained from the Land Bank by contacting Sam Lamancusa, Trumbull County Treasurer, 160 High Street, Warren, OH 44481.

The County participates in a joint venture, risk sharing pool, jointly governed organizations and related organizations. These organizations are the Geauga/Trumbull Solid Waste District, the County Risk Sharing Authority, Inc. (CORSA), the Western Reserve Port Authority, the Family and Children First Council, the Northeast Ohio Community Alternative Program, the North East Ohio Network, the Eastgate Regional Council of Governments, the Private Industry Council, the Trumbull County Public Library, the Trumbull County Tourism Board, the Trumbull County Metropolitan Park District and the Trumbull County Transit Board. These organizations are presented in Notes 14, 22, 23 and 24 to the basic financial statements.

As the custodian of public funds, the County Treasurer invests all public monies held on deposit in the County Treasury. In the case of several legally separate agencies, boards and commissions, the County serves as fiscal agent, but the organizations are not considered a part of Trumbull County. Accordingly, the activity of the Metropolitan Park District, the Soil and Water Conservation District, Emergency Management Agency and the General Health District are presented as agency funds within the County's financial statements.

Information in the notes to the basic financial statements is applicable to the primary government. Information for the component units are presented in Notes 29 and 30 to the basic financial statements.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Trumbull County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The more significant of the County's accounting policies are described below.

#### A. Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activities of the internal service funds are eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the County that are governmental and those that are considered business-type.

The statement of net position presents the financial condition of the governmental and business-type activities of the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for the business-type activities of the County. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the County.

Fund Financial Statements - During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service funds are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

#### **B.** Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the County's major governmental funds:

<u>General Fund</u> - The general fund accounts for and reports all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Ohio

<u>Public Assistance Fund</u> - The public assistance fund accounts for and reports restricted Federal and State grants as well as transfers from the general fund for public assistance to general relief recipients and pay their providers of medical assistance and for certain public social services.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>County Board of Developmental Disabilities Fund</u> - The County board of developmental disabilities fund is used to account for and report the operations of a school and the costs of administering a workshop for the developmentally disabled. Restricted revenue sources include a restricted Countywide property tax levy and Federal and State grants.

<u>Community Mental Health Fund</u> - The community mental health fund accounts for and reports a restricted County-wide property tax levy and Federal and State grants that are expended primarily to pay the cost of contracts with local mental health agencies that provide services to the public.

<u>Children Services Fund</u> - The children services fund accounts for and reports a restricted County-wide property tax levy, Federal and State grants, support collections and VA and Social Security. Major expenditures are for foster homes, emergency shelters, medical care, school supplies, counseling and parental training.

<u>General Obligation Bond Retirement Fund</u> - The general obligation bond retirement fund accounts for and reports permissive sales tax and special assessment revenue collections restricted to the payment of general long-term and special assessment debt principal, interest and related costs.

The other governmental funds of the County account for grants and other resources whose use is restricted, committed or assigned to a particular purpose.

**Proprietary Funds** - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

**Enterprise Funds** - Enterprise funds may be used to account for and report any activity for which a fee is charged to external users for goods or services. The following are the County's major enterprise funds:

<u>Water Fund</u> - The water fund accounts for and reports revenues generated from the charges for distribution of water to the residential and commercial users of the County.

<u>Sewer Fund</u> - The sewer fund accounts for and reports sewer services to County individuals and commercial users in the County. The costs of providing these services are financed primarily through user charges.

*Internal Service Funds* - Internal service funds account for and report the financing of services provided by one department or agency to other departments or agencies of the County on a cost reimbursement basis. The County's internal service funds report on County departments' gasoline purchases, self-insurance programs for employee medical benefits, telephone communication system and workers' compensation.

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the County's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The County's fiduciary funds are all classified as agency funds. The agency funds account for assets held by the County as agent for the Board of Health and other districts and entities and for various taxes, assessments, and State shared resources collected on behalf of, and distributed to, other local governments.

#### C. Measurement Focus

Government-Wide Financial Statements - The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the County are included on the statement of net position. The statement of activities presents increases (e.g. revenues) and decreases (e.g. expenses) in total net position.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e. revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of fund net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e. expenses) in total net position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

#### D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for the proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources and in the presentation of expenses versus expenditures.

**Revenues - Exchange and Nonexchange Transactions** - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within thirty-one days of year-end.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include sales taxes, property taxes and grants, entitlements and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the sale occurred. Revenue from property taxes is recognized in the year for which the taxes are levied (see Note 7). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: sales taxes (see Note 8), interest, Federal and State grants and subsidies, State-levied locally shared taxes (including gasoline tax and motor vehicle license fees), fees and rentals.

**Deferred Outflows/Inflows of Resources** - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. See Notes 20 and 21 for deferred outflows of resources related the County's net pension liability and net OPEB liability, respectively. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the County, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2018, but which were levied to finance 2019 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the County, unavailable revenue includes, but is not limited to, sales taxes, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

See Notes 20 and 21 for deferred inflows of resources related to the County's net pension liability and net OPEB liability, respectively. This deferred inflow of resources is only reported on the government-wide statement of net position.

**Expenses/Expenditures** - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

#### E. Cash and Cash Equivalents

To improve cash management, cash received by the County is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the County's records. Interest in the pool is presented as "equity in pooled cash and cash equivalents."

The County has segregated bank accounts for monies held separate from the County's central bank account. These interest bearing depository accounts are reported as "cash and cash equivalents in segregated accounts" since they are not required to be deposited into the County Treasury.

The County utilizes a financial institution to service bonded debt as principal and interest payments come due. The balances in these accounts reported as "cash and cash equivalents with fiscal agents".

During 2018, investments were limited to federal agency securities and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio).

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The County measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2018, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$100 million, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Investment procedures are restricted by the provisions of the Ohio Revised Code. Interest revenue, including a decrease in the fair value of investments, credited to the general fund during 2018 amounted to \$1,588,840, which includes \$1,542,452 assigned from other County funds.

Investments with original maturities of three months or less at the time they are purchased and investments of the cash management pool are presented on the financial statements as cash equivalents.

#### F. Prepayments

Payments made to vendors for services that will benefit periods beyond December 31, 2018, are recorded as prepayments using the consumption method by recording a current asset for the prepaid amount at the time of purchase and reflecting the expenditure/expense in the year in which the services are consumed.

#### G. Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### H. Restricted Assets

Assets are reported as restricted when limitations on their use change in nature of normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments or imposed by law through constitutional provision. Restricted assets in the general fund represent money set aside for unclaimed monies.

#### I. Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The County was able to estimate the historical cost for the initial reporting of infrastructure by back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at acquisition value as of the date received. The County maintains a capitalization threshold of five thousand dollars with the exception of land as land was listed regardless of cost. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of proprietary fund capital assets is also capitalized.

All capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

|                                   | Governmental    | Business-Type   |
|-----------------------------------|-----------------|-----------------|
|                                   | Activities      | Activities      |
| Description                       | Estimated Lives | Estimated Lives |
| Buildings and Improvements        | 20 - 50 Years   | 20 - 50 Years   |
| Equipment, Furniture and Fixtures | 5 - 20 Years    | 5 - 20 Years    |
| Vehicles                          | 5 - 10 Years    | 5 - 10 Years    |
| Infrastructure                    | 10 - 50 Years   | 10 - 50 Years   |

For 2018, the County reported infrastructure consisting of roads, bridges and culverts, water lines and sewer lines, and includes infrastructure acquired prior to December 31, 1980.

#### J. Interfund Balances

On fund financial statements, outstanding interfund loans and unpaid amounts for interfund services are reported as "due to/from other funds". Interfund balance amounts are eliminated on the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The County records a liability for all accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the County has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees wage rates at year end, taking into consideration any limits specified in the County's termination policy.

The entire compensated absences liability is reported on the government-wide financial statements. On the governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employee who has accumulated unpaid leave is paid.

#### L. Bond Premium and Deferred Amounts on Refunding

On the government-wide financial statements, bond premiums are deferred and amortized over the term of the bonds using the straight-line method. Bond premiums are presented as an increase of the face amount of the bonds payable. On governmental fund statements, bond premiums are receipted in the year the bonds are issued.

For debt refunding, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the deferred amount on refunding, is being amortized as a component of interest expense. This amount is amortized over the remaining life of the old or new debt, whichever is shorter, and is presented as a deferred outflow of resources on the statement of net position.

#### M. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases and long-term loans and notes are recognized as a liability on the governmental fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### N. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as a follows:

<u>Nonspendable</u> - The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criteria includes items that are not expected to be converted to cash.

<u>Restricted</u> - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the County Commissioners. Those committed amounts cannot be used for any other purpose unless the County Commissioners removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. Assigned amounts represent intended uses established by the County Commissioners or a County official delegated that authority by resolution or by State Statute. State Statute authorizes the County Auditor to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. County Commissioners assigned fund balance to cover a gap between estimated revenue and appropriations in the 2019 appropriated budget. County Commissioners assigned fund balance for hillside administration.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### O. Net Position

Net position represents the difference between all other elements in a statement of net position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Net position restricted for other purposes include child support, indigent guardianship, dog warden operations, drug investigation and prosecution, alcohol treatment and probate court.

The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### P. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water, sewer, gasoline rotary, self-insurance programs, telephone rotary and workers' compensation. Operating expenses are necessary costs that have been incurred in order to provide the good or service that is the primary activity of the fund. Any revenues and expenses not meeting the definitions of operating are reported as nonoperating.

#### Q. Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets from the construction capital projects governmental fund, outside contributions of resources restricted to capital acquisition and construction and tap-in fees to the extent they exceed the cost of connection to the system.

#### R. Internal Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental activities are eliminated on the government-wide financial statements. Internal allocations of overhead expenses from one function to another or within the same function are eliminated in the statement of activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

#### S. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### T. Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Commissioners may appropriate. The appropriations resolution is the Commissioners' authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Commissioners. The legal level of control has been established by the Commissioners at the object level within each department. Any budgetary modifications at this level may only be made by resolution of the County Commissioners.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the County Auditor. The amounts reported as the original and final budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original and final appropriations were enacted by the Commissioners.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Commissioners during the year.

#### **U.** Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

#### V. Fair Value Measurements

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

#### NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

#### A. Change in Accounting Principles/Restatement of Net Position

For fiscal year 2018, the County has implemented GASB Statement No. 75, "<u>Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions</u>", GASB Statement No. 85, "<u>Omnibus 2017</u>" and GASB Statement No. 86, "<u>Certain Debt Extinguishments</u>".

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

GASB Statement No. 75 improves the accounting and financial reporting by state and local governments for postemployment benefits other than pensions (OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. The implementation of GASB Statement No. 75 effected the County's postemployment benefit plan disclosures, as presented in Note 21 to the basic financial statements, and added required supplementary information which is presented after the notes to the basic financial statements.

GASB Statement No. 85 addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and OPEB. The implementation of GASB Statement No. 85 did not have an effect on the financial statements of the County.

GASB Statement No. 86 improves consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources - resources other than the proceeds of refunding debt - are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The implementation of GASB Statement No. 86 did not have an effect on the financial statements of the County.

A net position restatement is required in order to implement GASB Statement No 75. The governmental activities and business-type activities at January 1, 2018 have been restated as follows:

|  | Governmental Activities | Sewer<br>Fund | Water<br>Fund | Internal<br>Service Funds |  |  |
|--|-------------------------|---------------|---------------|---------------------------|--|--|
| Net position as previously reported      | \$153,242,369           | \$ 73,582,573 | \$ 19,235,430 | \$ 5,931,473              |  |  |
| Deferred outflows - payments             |                         |               |               |                           |  |  |
| subsequent to measurement date           | 592,920                 | 20,905        | 10,769        | 3,093                     |  |  |
| Deferred inflows                         | (102,207)               | -             | =             | -                         |  |  |
| Net OPEB liability                       | (42,648,319)            | (1,603,882)   | (826,242)     | (237,338)                 |  |  |
| Restated net position at January 1, 2018 | \$111,084,763           | \$ 71,999,596 | \$ 18,419,957 | \$ 5,697,228              |  |  |

Other than employer contributions subsequent to the measurement date, the County made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available. The restatement had no effect on fund balances.

The County has restated beginning of the year fund balances for some governmental funds in order to reclassify certain funds to the correct classification per GAAP. The restatement had the following effect on fund balances:

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

|  |               | Nonmajor      |
|--|---------------|---------------|
|  |               | Governmental  |
|  | General       | Funds         |
| Fund balance as previously reported      | \$ 13,317,296 | \$ 23,338,332 |
| Effects of reclassifying funds           | (126,276)     | 126,276       |
| Restated fund balance at January 1, 2018 | \$ 13,191,020 | \$ 23,464,608 |

#### **B.** Deficit Fund Balances

Fund balances at December 31, 2018 included the following individual fund deficits:

| Nonmajor funds        | <u>Deficit</u> |
|-----------------------|----------------|
| Motor vehicle gas tax | \$ 90,487      |
| Workforce development | 101,200        |
| Safety grant          | 1,750          |
| Permanent improvement | 1,178,320      |

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from the advance spending of approved grant monies and adjustments for accrued liabilities.

Contrary to Ohio Revised Code Section 5705.10, the County had a deficit cash balance in the safety grant fund of \$1,750 at year-end. For GAAP purposes, this amount has been reported as a fund liability. The public assistance fund also had deficit cash balances of \$582,310 and \$1,153,612 at the end of February and October, respectively.

#### NOTE 4 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP basis), the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statements of Revenues, Expenditures, and Changes in Fund Balances - Budget (Non-GAAP basis) and Actual - are presented in the basic financial statements for the general fund and major special revenue funds.

The major differences between the budget basis and the GAAP basis (generally accepted accounting principles) and:

- a) Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- b) Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- c) Encumbrances are treated as expenditures (budget basis) rather than as restricted, committed or assigned fund balance (GAAP basis);
- d) Unrecorded cash, which consists of in-transit court cash and unrecorded interest is not reported by the County on the operating statements (budget basis), but is reported on the GAAP basis operating statements;

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 4 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

- e) Investments are reported at cost (budget basis) rather than fair value (GAAP basis); and,
- f) Budgetary revenues and expenditures of the Hillside Administration fund are reclassified to the general fund for GAAP reporting.

In addition, the County does not budget for various operations in the general fund. The activities of the various general accounts are included in the general fund on the GAAP financial statements.

The following tables summarized the adjustments necessary to reconcile the budgetary basis statements to the GAAP basis statements for the general fund and major special revenue funds.

|   | Public General Fund Assistance |            | County Board of Developmental <u>Disabilities</u> | Community <u>Mental Health</u> | Children Services |  |
|---|--------------------------------|------------|---|--------------------------------|-------------------|--|
| Budget basis                            | \$ 3,963,917                   | \$ 443,741 | \$ 3,016,680                                      | \$ (383,549)                   | \$ (968,898)      |  |
| Net adjustment for revenue accruals     | 1,638,986                      | (4,314)    | (426,721)   | (52,271)                       | (71,152)          |  |

#### **NOTE 5 - FUND BALANCE**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented in the following table.

#### NOTE 6 - DEPOSITS AND INVESTMENTS

Monies held by the County are classified by State statute into two categories, active and inactive. Active monies are public monies determined to be necessary to meet current demand upon the County treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 6 - DEPOSITS AND INVESTMENTS - (Continued)

Protection of the County's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of public monies deposited with the institution.

Monies held by the County, which are not considered active, are classified as inactive. Inactive monies may be deposited or invested in the following securities provided a written investment policy has been filed with the Ohio Auditor of State:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States; or any book entry, zero-coupon United States treasury security that is a direct obligation of the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly with the County;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) above and repurchase agreements secured by such obligations, provided that these investments are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio);
- 8. Securities lending agreements in which the County lends securities and the eligible institution agrees to simultaneously exchange similar securities or cash, equal value for equal value;
- 9. Up to twenty-five percent of the County's average portfolio in either of the following:
  - a. Commercial paper notes in entities incorporated under the laws of Ohio or any other State that have assets exceeding five hundred million dollars rated at the time of purchase, which are rated in the highest qualification established by two nationally recognized standard rating service, which do not exceed ten percent of the value of the outstanding commercial paper of the issuing corporation and which mature within 270 days after purchase; and,
  - b. Banker's acceptances eligible for purchase by the Federal Reserve System and which mature within 180 days after purchase.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### **NOTE 6 - DEPOSITS AND INVESTMENTS - (Continued)**

- 10. Fifteen percent of the County's average portfolio in notes issued by U.S. corporations or by depository institutions that are doing business under authority granted by the U.S. provided that the notes are rated in the second highest or higher category by at least two nationally recognized standard rating services at the time of purchase and the notes mature within two years from the date of purchase;
- 11. No-load money market mutual funds rated in the highest category at the time of purchase by at least one nationally recognized standard rating service consisting exclusively of obligations guaranteed by the United States, securities issued by a federal government agency or instrumentality, and/or highly rated commercial paper; and,
- 12. One percent of the County's average portfolio in debt interests rated at the time of purchase in the three highest categories by two nationally recognized standard rating services and issued by foreign nations diplomatically recognized by the United States government.

Reverse repurchase agreements, investments in derivatives, and instruments in stripped principal or interest obligations that are not issued or guaranteed by the United States, are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Other than corporate notes, commercial paper, and bankers acceptances, an investment must mature within five years from the date of statement unless matched to a specific obligation or debt of the County. Investments must be purchased with the expectation that they will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

#### A. Deposits

Custodial Credit Risk - At December 31, 2018, the carrying amount of all County deposits was \$42,350,631 and the bank balance of all County deposits was \$43,108,138. Of the bank balance, \$35,263,633 was exposed to custodial risk as discussed below because those deposits were uninsured and uncollateralized and \$7,844,505 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. The County has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the County's and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the OPCS, a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the County to a successful claim by the FDIC.

The County's investments measured at fair value are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs). The weighted average maturity of investments is 0.77 years.

Interest Rate Risk - As a means of limiting its exposure to fair value losses caused by rising interest rates, the County's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the County's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity. Repurchase agreements are limited to 30 days and the market value of the securities must exceed the principal value of the agreement by at least 2 percent and be marked to market daily.

*Credit Risk* - All investments of the County carry a rating of AA+ by Standard & Poor's. STAR Ohio carries a rating of AAAm by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The County has no investment policy that addresses credit risk.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The County has no investment policy dealing with investment custodial risk beyond the requirement in Ohio law that prohibits payments for investments prior to the delivery of the securities representing such investments to the Auditor or qualified trustee.

Concentration of Credit Risk - The County places no limit on the amount it may invest in any one issuer.

#### **NOTE 7 - PROPERTY TAXES**

Property taxes include amounts levied against all real and public utility property located in the County. Property tax revenue received during 2018 for real and public utility property taxes represents collections of the 2017 taxes.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

## **NOTE 7 - PROPERTY TAXES - (Continued)**

2018 real property taxes are levied after October 1, 2018 on the assessed value as of January 1, 2018, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2018 real property taxes are collected in and intended to finance 2018.

Real property taxes are payable annually or semi-annually. If paid annually, the payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2018 public utility property taxes became a lien December 31, 2017, are levied after October 1, 2018, and are collected in 2018 with real property taxes.

The full tax rate for all County operations for the year ended December 31, 2018, was \$12.30 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2018 property tax receipts were based are as follows:

## Real property

Total assessed value

| Residential/agricultural                 | \$<br>2,513,628,200 |
|--|---------------------|
| Commercial/industrial/mineral/other real | 644,020,480         |
| Public utility                           |                     |
| Personal                                 | <br>191,333,960     |
|  |                     |

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portion of the taxes collected. The collection and distribution of taxes for all subdivisions within the County, excluding the County itself, is accounted for through agency funds. The amount of the County's tax collections is accounted for within the applicable funds. Property taxes receivable represents real and public utility taxes and outstanding delinquencies which were measurable as of December 31, 2018, and for which there was an enforceable legal claim. In governmental funds, the portion of the receivable not levied to finance 2018 operations is offset to deferred inflows of resources - property taxes levied for the next fiscal year. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources - delinquent property tax revenue not available.

## **NOTE 8 - PERMISSIVE SALES AND USE TAX**

The County imposes a one percent tax on all retail sales made in the County, except sales on motor vehicles, and on the storage, use, or consumption in the County of tangible personal property, including automobiles, not subject to the sales tax. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection.

The State Tax Commissioner certifies to the Ohio Department of Budget and Management (OBM) the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five days after the end of the month. The OBM then has five days in which to draw the warrant payable to the County. Proceeds of the tax are credited to the general fund and the general obligation bond retirement debt service fund.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### **NOTE 9 - RECEIVABLES**

Receivables at December 31, 2018, consisted of permissive sales taxes, property taxes, accounts (billings for user charged services including unbilled utility services), special assessments, accrued interest, alimony and child support, due from other funds, loans and intergovernmental receivables arising from grants, entitlements, and shared revenues. Except for alimony and child support collected and distributed through an agency fund, receivables are considered collectible in full. All receivables, except property taxes, special assessments, and loans, are expected to be received within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year. Utility accounts receivable may be certified and collected as a special assessment, subject to foreclosure for nonpayment.

|                           | Accounts Receivable | Estimated Uncollectible | Net<br>Receivable |  |  |
|---------------------------|---------------------|-------------------------|-------------------|--|--|

Special assessments expected to be collected in more than one year amount to \$8,280,435 in the general obligation bond retirement fund. At December 31, 2018, delinquent special assessments were \$210,980.

Loans expected to be collected in more than one year amount to \$361,369 in the community development special revenue fund. At December 31, 2018, there were no delinquent loans.

A summary of the principal items of intergovernmental receivables follows:

| Governmental Activities           | <br>Amount       |  |  |  |

## **Payment in Lieu of Taxes**

According to State law, the County has established a tax incremental financing district within the County under which the County has granted property tax exemptions and agreed to construct certain infrastructure improvements. The property owners have agreed to make payments to the County to help pay the costs of the infrastructure improvements. The amount of those payments generally reflects all or a portion of the property taxes which the property owners would have paid if the property had not been declared exempt. The property owners' contractual promise to make these payments in lieu of taxes generally continues until the cost of the improvement has been paid or the agreement expires, whichever occurs first. Future development by these owners or others may result in subsequent agreements to make payments in lieu of taxes and may therefore spread the costs of the improvements to a larger number of property owners. The payment in lieu of taxes received by the County is due to the City of Youngstown for their agreement with V&M Star LP, and has been reported in the County's undivided payment in lieu of taxes agency fund.

#### **NOTE 10 - PENDING LITIGATION**

During 2002, the State of Ohio, Environmental Protection Agency (EPA), filed suit against the Trumbull County Board of Commissions as a result of an investigation from the Trumbull County Board of Health for areas in the county failing to have a sewer system which is causing violations in health standards.

Litigation between the State of Ohio, Environmental Protection Agency and the County Commissioners, named as third-party plaintiff and counter-claimant and the Board of Health named as third-party defendant was concluded in January 2007 through the filing of a Consent Judgment Entry. In accordance with the Consent Judgment Entry, the County was able to prioritize the project and set their own timetable for completion of the projects enumerated. It also allows the County to extend the project timetables if, after due diligence, the requisite funding for a specific project cannot be obtained. The County has committed to do the enumerated projects and commit funds of approximately \$50,000,000 from years 2010 through 2020. In the Consent Judgement Entry, the County agreed to sewer twelve unsewered areas to remediate unsanitary conditions by 2020. Currently, eight areas are complete and four are in the design process. The County is ahead of the agreed-upon schedule.

#### **NOTE 11 - GRANTS**

The County received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agency. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management such disallowed claims will not have a material adverse effect on the overall position of the County.

### **NOTE 12 - COMPENSATED ABSENCES**

County employees earn vacation and sick leave at varying rates depending on length of service and department policy. For all County employees, all accumulated, unused vacation time is paid upon separation if the employee has at least one year of service with the County. Upon retirement or death, unused sick leave is paid at varying rates depending on length of service.

### **NOTE 14 - JOINT VENTURE**

The Geauga/Trumbull Solid Waste District (the "District"), is a governmental joint venture between Geauga and Trumbull Counties providing services to dispose of industrial waste. The board of directors consists of six members, the three County Commissioners of each of the member counties. The degree of control exercised by any participating County is limited to its representation on the Board. The District does not have any outstanding debt. The continued existence of the District is dependent upon the County's continued participation; however, the County does not have an equity interest in the District. The District is not accumulating significant financial resources or experiencing fiscal stress that would cause additional financial benefit to or burden on the County. Due to sufficient revenues from the haulers, it was determined that additional contributions were not needed to operate in 2018. Complete financial statements can be obtained from the Geauga/Trumbull Solid Waste District, Geauga County, Ohio.

## **NOTE 15 - CAPITAL LEASES**

In prior years, the County has entered into several leases for equipment and vehicles. These lease obligations meet the criteria of a capital lease and have been recorded on the government-wide and business-type statements. The equipment and vehicles have been capitalized in the amount of \$1,206,857, which is the present value of the minimum lease payments at the inception of the lease.

Capital leases are paid from the general fund, motor vehicle gasoline tax fund, emergency 911 fund and hospitalization internal service fund. These expenditures/expenses are reflected as program expenditures/expenses on a budgetary basis and are reclassified and reflected as debt service in the fund financial statements.

## **NOTE 16 - RISK MANAGEMENT**

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. During 2018, the County contracted with the County Risk Sharing Authority, Inc. (CORSA), a risk sharing pool (See Note 22), for insurance coverage as follows:

Settled claims have not exceeded coverage in any of the last three years and there was no significant reduction in coverage from the prior year.

The County has elected to provide medical benefits through a self-insured program. The maintenance of these benefits is accounted for in the hospitalization internal service fund. Specific stop loss threshold covered per person of \$225,000 annual maximum per covered person. Incurred but not reported claims of \$940,952 have been accrued as a liability based on a review of January, 2018 billings provided by the County Auditor's Office. The claims liability reported in the hospitalization internal service fund at December 31, 2018, is based on the requirements of Governmental Accounting Standards Board Statement No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claims adjustment expenses. Changes in the fund's claims liability amounts for 2017 and 2018 were:

The County participates in the State Workers' Compensation retrospective rating and payment system. Once the County receives notice of the 2018 claims paid by the Bureau of Workers' Compensation, the County will reimburse the State for claims paid on the County's behalf. The payable is reclassified from claims payable to intergovernmental payable. This plan involves the payment of a minimum premium for administrative services and stop-loss coverage in addition to the actual claim costs for employees injured in 2018. The maintenance of these benefits is accounted for in the Workers' Compensation internal service fund.

Incurred but not reported claims and premium of \$2,236,741 have been accrued as a liability at December 31, 2018, based on an estimate by the County Auditor's Office and the Bureau of Workers' Compensation. This amount is made up of the claims liability amount of \$1,702,616 and due to other governments of \$534,125 for the current year claims cost. The claims liability reported in the workers' compensation internal service fund at December 31, 2018, is based on the requirements of Governmental Accounting Standards Board Statement No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claims adjustment expenses.

## **B.** Interfund Balances

Interfund balances at December 31, 2018, consisted of the following amounts and represent charges for services for reimbursable expenditures/expenses, or short-term loans to cover cash flow requirements. These remaining balances resulted from the time lag between dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting records and (3) payments between funds are made. All are expected to be paid within one year.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

## **NOTE 19 - LONG-TERM OBLIGATIONS - (Continued)**

During 2018, the County entered into loans with the Ohio Water Development Authority (OWDA) in the amount of \$150,192 and the Ohio Public Works Commission (OPWC) in the amount of \$83,000. The proceeds of these loans were used for sewer improvement, waterlines, and bridge replacement projects.

The County has entered into contractual agreements for construction loans from the OWDA. Under the terms of these agreements, the OWDA will reimburse, advance or directly pay the construction costs of approved projects. The OWDA will capitalize administrative costs and construction interest and then add them to the total amount of the final loan.

Lines of credit have been established for the OWDA in the amount of \$5,365,327 for sewer and water projects. Since the loan repayment schedules have not yet been finalized, repayment schedules are not included in the schedule of debt service requirements. Until a final repayment schedule is available, the County is paying based on estimates. The balance of these loans is as follows:

| <b>Business-Type Activities:</b>              | Decem | ber 31, 2018 | Lines of Credit |           |  |  |

In 2011, the County defeased various bond issues both general obligation and special assessment in order to take advantage of lower interest rates. The proceeds of the new bonds were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the County's financial statements. At December 31, 2018, the amount of defeased principal outstanding was \$1,330,000.

The County issued general obligation bonds in 2015 to acquire property and advance refund at a lower interest rate various portions of the County's outstanding 2004, 2006 and 2007 bond issues. The proceeds of the refunding bonds were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the County's financial statements. At December 31, 2018, the amount of defeased principal outstanding was \$2,755,000.

The County issued general obligation bonds in 2017 to currently and advance refund at a lower interest rate various portions of the County's Park-Porter and Brookfield Center general obligation bond issues, and each of the three revenue bond issues. The refunding resulted in future debt service savings of \$880,253 and an economic gain of \$661,434. The proceeds of the refunding bonds were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the County's financial statements. At December 31, 2018, the amount of defeased principal outstanding was \$4,845,000.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

## **NOTE 19 - LONG-TERM OBLIGATIONS - (Continued)**

General obligation bonds reported in governmental activities are a direct obligation of the County and will be paid from the general obligation bond retirement debt service fund using property tax revenues. Special assessment bonds will be paid from the proceeds of special assessments levied against benefited property owners. In the event that a property owner would fail to pay the assessment, payment would be made by the County. Business type activities general obligation bonds will be paid from user charges. The OWDA loans will be paid from revenues derived by the County from the operation of the water and sewer system as well as special assessments. The capital leases will be paid from the general fund, motor vehicle gas tax, community mental health and children services special revenue funds, the hospitalization internal service fund and the sewer fund.

Compensated absences will be paid from the fund from which the employees' salaries are paid. These funds include the general fund, public assistance, county board of developmental disabilities, community mental health, children services, motor vehicle gasoline tax, child support, emergency 911, elderly affairs, water, sewer and hospitalization funds.

The 5<sup>th</sup> Avenue Pump Station Replacement, Logan Arms Sewer Replacement, Newton Manor Sewer Replacement and Champion Avenue East Sanitary Sewer Project will be paid with user charges from the sewer fund. The Youngstown/Warren Regional Airport Waterline Project, Warren Township Meadowbrook Waterline Project, King Graves Waterline Project, Champion Water Tower and Braceville Robinson Road Water Main Project will be paid with user charges from the water fund. The Precast Structure Project Loan, the North Road Reconstruction Project, Rehabilitation Projects, Chestnut Ridge Road Bridge Project and Bailey Road & Palmyra Road Bridge Project will be paid from the motor vehicle gas tax special revenue fund.

The County had pledged future sales tax revenues to repay governmental activities revenue bonds. The revenue bonds matured in 2018.

The County has pledged future sewer revenues to repay revenue bonds, OPWC loans and OWDA loans. All the debt is payable solely from net revenues and are payable through 2049. Annual principal and interest payments on the sewer debt are expected to require approximately 28.62 percent of net revenues. The total principal and interest remaining to be paid on the debt is approximately \$14,394,984. Principal and interest paid for the current year amounted to \$1,110,989 and total net revenues were \$4,511,302.

The County has pledged future water revenues to repay OPWC loans and OWDA loans. All debt is payable solely from net revenues and are payable through 2049. Annual principal and interest payments on the water debt are expected to require approximately 67.35 percent of net revenues. The total principal and interest remaining to be paid on the debt is approximately \$1,729,364. Principal and interest paid for the current year amounted to \$171,729 and total net revenues were \$254,967.

The County was awarded a \$500,000 Local Governmental Innovation Fund (LGIF) loan from the Ohio Development Services Agency. Loan proceeds were used to finance the construction of a salt storage facility. The interest-free loan is payable in equal quarterly installments through 2025. Payments are made from the motor vehicle gasoline tax fund.

Additional detail regarding the County's capital leases and claims liability can be found in Notes 15 and 16. See Notes 20 and 21 for more information on the net pension liability and net OPEB liability.

The Ohio Revised Code provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors shall never exceed one percent of the total assessed valuation of the County. The Code further provides that the total voted and unvoted net debt of the County less the same exempt debt shall never exceed a sum equal to three percent of the first \$100,000,000 of the assessed valuation, plus one and one-half percent of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000, plus two and one-half percent of such valuation in excess of \$300,000,000.

The effects of the debt limitations described above at December 31, 2018, are an overall debt margin of \$68,650,079, including available funds of \$110,513, and unvoted debt margin of \$19,915,339.

## NOTE 19 - LONG-TERM OBLIGATIONS - (Continued)

#### **Industrial Development Revenue Bonds**

The County has three issues of industrial development revenue bonds in the aggregate outstanding principal amount of \$6,595,000 at December 31, 2018, for facilities used by private corporations or other entities. The County is not obligated in any way to pay debt charges on the bonds from any of its funds, and therefore they have been excluded entirely from the County's debt presentation. There has not been and is not any condition of default under the bonds or the related financing documents.

## NOTE 20 - DEFINED BENEFIT PENSION PLANS

# Net Pension Liability/Asset

The net pension liability/asset reported on the statement of net position represents a liability or asset to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability/asset represents the County's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the County's obligation for this liability to annually required payments. The County cannot control benefit terms or the manner in which pensions are financed; however, the County does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes any net pension liability/asset is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

# Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - County employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan and the Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. County employees) may elect the Member-Directed Plan and the Combined Plan, substantially all employee members are in OPERS' Traditional Pension Plan.

## NOTE 20 - DEFINED BENEFIT PENSION PLANS - (Continued)

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the Traditional Pension Plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <a href="https://www.opers.org/financial/reports.shtml">https://www.opers.org/financial/reports.shtml</a>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the Traditional Pension Plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

## NOTE 20 - DEFINED BENEFIT PENSION PLANS - (Continued)

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3.00% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 2.25%.

Benefits in the Combined Plan consist of both an age-and-service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, FAS, and years of service. Eligibility regarding age and years of service in the Combined Plan is the same as the Traditional Pension Plan. The benefit formula for the defined benefit component of the plan for State and Local members in transition Groups A and B applies a factor of 1.00% to the member's FAS for the first 30 years of service.

A factor of 1.25% is applied to years of service in excess of 30. The benefit formula for transition Group C applies a factor of 1.0% to the member's FAS and the first 35 years of service and a factor of 1.25% is applied to years in excess of 35. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit. The defined contribution portion of the benefit is based on accumulated member contributions plus or minus any investment gains or losses on those contributions. Members retiring under the Combined Plan receive a 2.25% COLA adjustment on the defined benefit portion of their benefit.

Defined contribution plan benefits are established in the plan documents, which may be amended by the OPERS's Board of Trustees. Member-Directed Plan and Combined Plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the Combined Plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. The amount available for defined contribution benefits in the Member-Directed Plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. For additional information, see the Plan Statement in the OPERS CAFR.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

## NOTE 20 - DEFINED BENEFIT PENSION PLANS - (Continued)

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The County's contractually required contribution for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan was \$7,854,478 for 2018. Of this amount, \$1,332,810 is reported as due to other governments.

# Plan Description - State Teachers Retirement System (STRS) of Ohio

Plan Description - Licensed teachers participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at <a href="https://www.strsoh.org">www.strsoh.org</a>.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. Effective July 1, 2017, the cost-of-living adjustment was reduced to zero. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 26 years of service, or 31 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

## NOTE 20 - DEFINED BENEFIT PENSION PLANS - (Continued)

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For 2018, plan members were required to contribute 14 percent of their annual covered salary. The County was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The 2018 contribution rates were equal to the statutory maximum rates.

The County's contractually required contribution to STRS was \$360,849 for 2018. Of this amount, \$15,380 is reported as due to other governments.

# Net Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability and net pension asset for the OPERS Traditional Pension Plan, Combined Plan and Member-Directed Plan, respectively, were measured as of December 31, 2017, and the total pension liability or asset used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date. STRS's total pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability or asset was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

### **Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2017, using the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 67.

3.25%

3.25% to 10.75% including wage inflation

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

## NOTE 20 - DEFINED BENEFIT PENSION PLANS - (Continued)

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2017, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 16.82% for 2017.

The allocation of investment assets with the Defined Benefit portfolio is approved by the OPERS Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2017 and the long-term expected real rates of return:

**Discount Rate** - The discount rate used to measure the total pension liability/asset was 7.50%, post-experience study results, for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

| Inflation                         | 2.50 percent  |
| Projected salary increases        | 12.50 percent at age 20 to 2.50 percent at age 65             |
| Investment rate of return         | 7.45 percent, net of investment expenses, including inflation |
| Payroll increases                 | 3 percent   |
| Cost-of-living adjustments (COLA) | 0.0 percent   |

For the July 1, 2018, actuarial valuation, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1 2018, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

## **NOTE 20 - DEFINED BENEFIT PENSION PLANS - (Continued)**

STRS Ohio's investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

| Asset Class          | Target _Allocation** | Long Term Expected<br>Real Rate of Return * |
|----------------------|----------------------|---|

<sup>\*10-</sup>Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2018. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2018. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2018.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the County's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### **NOTE 21 - DEFINED BENEFIT OPEB PLANS**

#### Net OPEB Liability/Asset

The net OPEB liability/asset reported on the statement of net position represents a liability/asset to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability/asset represents the County's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the County's obligation for this liability/asset to annually required payments. The County cannot control benefit terms or the manner in which OPEB are financed; however, the County does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability/asset is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term net OPEB liability/asset on the accrual basis of accounting. Any liability/asset for the contractually-required OPEB contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

# Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

## **NOTE 21 - DEFINED BENEFIT OPEB PLANS - (Continued)**

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' CAFR referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <a href="https://www.opers.org/financial/reports.shtml">https://www.opers.org/financial/reports.shtml</a>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, health care is not being funded.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2018, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 1.0 percent during calendar year 2017. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2018 decreased to 0 percent for both plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2018 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The County's contractually required contribution was \$36,507 for 2018. Of this amount, \$6,195 is reported as due to other governments.

# Plan Description - State Teachers Retirement System (STRS) of Ohio

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

## NOTE 21 - DEFINED BENEFIT OPEB PLANS - (Continued)

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the year ended December 31, 2018, STRS did not allocate any employer contributions to post-employment health care.

# Net OPEB Liabilities, OPEB Expense, and Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2016, rolled forward to the measurement date of December 31, 2017, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. STRS's total OPEB liability was measured as of June 30, 2018, and the total pension liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The County's proportion of the net OPEB liability was based on the County's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

## **Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2016, rolled forward to the measurement date of December 31, 2017. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

| Wage Inflation              | 3.25 percent                   |

## NOTE 21 - DEFINED BENEFIT OPEB PLANS - (Continued)

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2017, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio is 15.2 percent for 2017.

The allocation of investment assets with the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2017 and the long-term expected real rates of return:

## **NOTE 21 - DEFINED BENEFIT OPEB PLANS - (Continued)**

Discount Rate A single discount rate of 3.85 percent was used to measure the OPEB liability on the measurement date of December 31, 2017. A single discount rate of 4.23 percent was used to measure the OPEB liability on the measurement date of December 31, 2016. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.50 percent and a municipal bond rate of 3.31 percent. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the County's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate. The following table presents the County's proportionate share of the net OPEB liability calculated using the single discount rate of 3.85 percent, as well as what the County's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.85 percent) or one-percentage-point higher (4.85 percent) than the current rate:

|                              | Current             |            |     |                     |                     |  |

Sensitivity of the County's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2018 is 7.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.25 percent in the most recent valuation.

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2018, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Assumption Changes Since the Prior Measurement Date - The discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45 percent based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB). Valuation year per capita health care costs were updated.

**Benefit Term Changes Since the Prior Measurement Date** - The subsidy multiplier for non-Medicare benefit recipients was increased from 1.90 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

<sup>\*10-</sup>Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** - The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2017. A discount rate used to measure the total OPEB liability was 4.13 percent as of June 30, 2017. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Therefore, the long-term expected rate of return on health care plan investments of 7.45% was used to measure the total OPEB liability as of June 30, 2018.

Sensitivity of the County's Proportionate Share of the Net OPEB Liability to Changes in the Discount and Health Care Cost Trend Rate - The following table represents the net OPEB liability as of June 30, 2018, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB liability as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

#### NOTE 22 - RISK SHARING POOL

The County Risk Sharing Authority, Inc., (CORSA) is a risk sharing pool made up of 65 counties in Ohio. CORSA was formed as an Ohio nonprofit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverage provided by CORSA. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of CORSA are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County does not have an equity interest in CORSA. The County's payment for insurance to CORSA in 2018 was \$553,117.

#### NOTE 23 - JOINTLY GOVERNED ORGANIZATIONS

#### A. Western Reserve Port Authority ("Port Authority")

The Western Reserve Port Authority is statutorily created as a separate and distinct political subdivision of the State. The eight Port Authority Board Members are appointed equally by the Trumbull and Mahoning County Commissioners. The Board exercises total control over the operations of the Port Authority including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. As of January 2004, the County began collecting a 2 percent Hotel and Lodging Tax to fund the Port Authority's operation. In May 2005, the Board of Trumbull County Commissioners increased the rate to 4 percent and allocated the entire 4 percent collections of the Hotel Lodging Tax for the use by the Western Reserve Port Authority effective May 5, 2005. In addition, the County contributed \$150,000 to the Western Reserve Port Authority in 2004 and \$50,000 in 2009. The County did not contribute to the Western Reserve Port Authority in 2018. The Board of County Commissioners passed a new resolution effective as of May 1, 2006, allocating 2 percent of the 4 percent lodging tax to be paid to the Port Authority. On September 20, 2012, the Board of County Commissioners passed a resolution which increased the lodging tax by an additional one percent, with 3 percent of the 5 percent tax allocated to the Port Authority. The remaining 2 percent is paid to the Trumbull County Tourism Board.

#### B. Family and Children First Council

The Family and Children First Council provides services to multi-need youth in Trumbull County. Members of the Council include Trumbull County Board of Developmental disabilities, Mental Health Board, Warren City School District, Trumbull County Children Services Board, Trumbull County Board of Health, Ohio Department of Youth Services, Trumbull County Common Pleas Court, Trumbull County Human Services, Western Reserve Care System, City of Warren, Trumbull County Educational Service Center and Trumbull County Mental Health Center. The operation of the Council is controlled by an advisory committee which consists of a representative from each agency. Funding comes from each of the participants. The advisory committee exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each representative's degree of control is limited to its representation on the committee. In 2018, the County did not contribute to the Family and Children First Council.

#### C. Northeast Ohio Community Alternative Program (N.E.O.C.A.P.)

N.E.O.C.A.P. is a community based corrections facility that provided residents of the facility educational, vocational, substance abuse and support counseling services. The facility is administered by a Judicial Corrections Board consisting of seven common pleas court judges. The members consist of two judges each from Trumbull and Lake Counties and one judge each from Ashtabula, Geauga and Portage Counties. N.E.O.C.A.P.'s Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. Funding comes from the State. In 2018, the County did not make any contributions to N.E.O.C.A.P.

#### D. Northeast Ohio Network (N.E.O.N.)

N.E.O.N. is a council of governments formed to provide a regional effort in administering, managing and operating programs for certain individuals with developmental disabilities. Participating counties include Trumbull, Columbiana, Geauga, Lake, Mahoning, Medina, Portage, Ashtabula, Lorain, Summit, Wayne, Richland and Stark counties. N.E.O.N.'s operation is controlled by their board which is comprised of the superintendents of Developmental Disabilities of each participating County. N.E.O.N.'s Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. In 2018, the County did not make any contributions to N.E.O.N.

#### E. Eastgate Regional Council of Governments

The Eastgate Regional Council of Governments is a jointly governed organization created under the provisions of Chapter 167 of the Ohio Revised Code. Eastgate is organized as a voluntary organization of local government subdivisions in Ashtabula, Columbiana, Mahoning, and Trumbull counties. Each of the participating counties has equal representation and no financial responsibility. Eastgate's purpose is to foster a cooperative effort in regional planning, programming, and the implementation of regional plans and programs. It is a forum for the discussion and study of common problems of a regional nature and for the development of policy and action recommendations relating thereto. The Board exercises total control over the operations of Eastgate including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. The County did not contribute to Eastgate in 2018. Complete financial statements can be obtained from the Eastgate Regional Council of Governments, 100 East Federal Street, Suite 1000, Youngstown, Ohio 44503.

#### **NOTE 24 - RELATED ORGANIZATIONS**

#### A. Private Industry Council

The Private Industry Council is statutorily created under Section 1702.26 of the Ohio Revised Code. The twenty-eight members of the Private Industry Council are appointed by the Trumbull County Board of Commissioners. The County is not financially accountable for the Council nor is the Council financially dependent on the County. The Council adopts its own budget, authorizes expenditures, hires and fires staff and does not rely on the County to finance deficits. The Council did not receive any funding from the County during 2018.

#### **B.** Trumbull County Public Library

The Trumbull County Board of Commissioners is responsible for appointing a voting majority of the Trumbull County Public Library Board; however, the County cannot influence the Library's operation nor does the Library represent a potential financial benefit or burden on the County. The County serves in a ministerial capacity as the taxing authority for the Library. Once the Library determines to present a levy to the voters, including the determination of its rate and duration, the County must place the levy on the ballot. The Library determines its own budget. The Library did not receive any funding from the County during 2018.

#### C. Trumbull County Tourism Board

The Trumbull County Tourism Board was created during 2005 to take the place of the Trumbull County Convention and Visitors Bureau which was eliminated. The purpose of the Board is to encourage development for Trumbull County by promoting travel within the County. On May 5, 2005, the Trumbull County Board of Commissioners adopted a resolution establishing the Trumbull County Tourism Board as the designated recipient of 2 percent of the 5 percent lodging excise tax funds. The Trumbull County Tourism Board did not receive any funding from the County during 2018.

#### D. Trumbull County Metropolitan Park District ("District")

The Probate Judge of the County appoints the three Park District Commissioners. The District hires and fires staff, and does not rely on the County to finance deficits. The County is not financially accountable for the District nor is the District financially dependent on the County. The District serves as its own taxing and debt issuance authority and is a related organization of the County. The District did not receive any funding from the County during 2018.

#### E. Trumbull County Transit Board

The Trumbull County Transit Board was created to provide origin to destination transportation services available upon request. The Trumbull County Commissioners are responsible for appointing the Trumbull County Transit Board. The Transit Board does not present a potential financial benefit or burden on the County. The Transit Board determines its own budget. The Transit Board did not receive and funding from the County in 2018.

#### **NOTE 26 - TAX ABATEMENTS**

As of December 31, 2018, the County provides tax abatements through two programs—Community Reinvestment Area (CRA) and Enterprise Zone (Ezone). These programs relate to the abatement of property taxes.

<u>CRA</u> - Under the authority of Ohio Revised Code (ORC) Section 3735.67, the CRA program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. CRA's are areas of land in which property owners can receive tax incentives for investing in real property improvements. Under the CRA program, local governments petition to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing is desired. Once an area is confirmed by the ODSA, local governments may offer real property tax exemptions to taxpayers that invest in that area. Property owners in the CRA can receive temporary tax abatements for renovation of existing structures and new construction in these areas. Property owners apply to the local legislative authority for approval to renovate or construct in the CRA. Upon approval and certification of completion, the amount of the abatement is deducted from the individual or entity's property tax bill.

Ezone - Under the authority of ORC Sections 5709.62 and 5709.63, the Ezone program is an economic development tool administered by municipal and county governments that provides real and personal property tax exemptions to businesses making investments in Ohio. An Ezone is a designated area of land in which businesses can receive tax incentives in the form of tax exemptions on qualifying new investment. An Ezone's geographic area is identified by the local government involved in the creation of the zone. Once the zone is defined, the local legislative authority participating in the creation must petition the OSDA. The OSDA must then certify the area for it to become an active Enterprise Zone. The local legislative authority negotiates the terms of the Enterprise Zone Agreement (the "Agreement") with the business, which may include tax sharing with the Board of Education. Legislation must then be passed to approve the Agreement. All Agreements must be finalized before the project begins and may contain provisions for the recoupment of taxes should the individual or entity fail to perform. The amount of the abatement is deducted from the business's property tax bill.

#### **NOTE 26 - TAX ABATEMENTS - (Continued)**

The County incurs a reduction in property taxes by agreements entered into by other governments that reduce the County's taxes. The County's property taxes were reduced by the programs mentioned above that were entered into by other governments. During 2018, the County's property tax revenues were reduced under agreements entered into by other governments as follows:

On May 22, 2019, the County approved the issuance of tax-exempt revenue bonds in an amount not to exceed \$15,000,000 for use by the Trumbull Metro Housing Authority to finance a housing development project. The County acts as issuing authority for the bonds, but the bonds do not constitute a debt or pledge of the full faith and credit of the County for repayment.

#### NOTE 28 - RELATED PARTY TRANSACTIONS

During 2018, Trumbull County provided facilities, certain equipment, transportation and salaries for administration, implementation and supervision of its programs to Fairhaven Industries, Inc. (Workshop). The Workshop, a discretely presented component unit of Trumbull County, reported \$29,046 for such contributions. The Workshop recorded operating revenues and expenses at cost or fair market as applicable, to the extent the contribution is related to the vocational purpose of the Workshop.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 29 - FAIRHAVEN INDUSTRIES, INC.

#### A. Summary of Significant Accounting Policies

Fairhaven Sheltered Workshop, Inc. was incorporated in the State of Ohio in May, 1967. Effective January 23, 1996, the Secretary of the State of Ohio, recorded a name change for Fairhaven Sheltered Workshop, Inc. to Fairhaven Industries, Inc. (the Organization) provides labor skills training and employment as mandated by the State to be provided to developmentally disabled adults. Most of the services are provided directly through Trumbull County's 169 Board. Some of the costs associated with this program are paid directly by the 169 Board. This data is included as part of the statement of activities and changes in net position.

#### **B.** Income Taxes

The Organization is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation. The Organization's Form 990, *Return of Organization Exempt from Income Tax*, for the years ending December 31, 2016, 2017, and 2018, are subject to examination by the IRS, generally for three years after they are filed.

#### C. Method of Accounting

The financial statements have been prepared utilizing the accrual basis of accounting.

#### **NOTE 29 - FAIRHAVEN INDUSTRIES, INC. - (Continued)**

#### D. Basis of Presentation

The Organization adopted Statement of Financial Accounting Standards (SFAS) No. 117, "Financial Statements of Not-For-Profit Organizations." Under SFAS No. 117, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted and permanently restricted, based on the existence or absence of donor-imposed restriction. When a donor restriction expires (that is, when a stipulated time restriction ends or a purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statements of activities and changes in net assets as net assets released from restrictions.

Due to its fiscal dependence on Trumbull County Ohio, Fairhaven Industries, Inc. is a component unit of Trumbull County Ohio whose reporting is subject to basis of presentation as defined by the Governmental Accounting Standards Board (GASB). GASB statement 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, changed the reporting requirements for Not-For-Profit Organizations. The financial reporting of Fairhaven Industries, Inc. is included as a component unit in the financial reporting of Trumbull County Ohio and as such has been subjected to the reporting requirements of GASB 62 in that financial reporting.

#### E. Public Support and Revenue

The Organization's major source of income is from sales and services to the public and companies. The Organization grants credit to customers on open account (no collateral required), who are generally located in Northeast Ohio. Contributions from the general public are nominal. In addition, the Organization receives support from the Trumbull County 169 Board to cover some of the program costs. These costs, totaling \$1,120,034 as calculated by the 169 Board, are included in the statement of activities as support and in-kind contributions.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 29 - FAIRHAVEN INDUSTRIES, INC. - (Continued)

#### F. Estimates

The preparation of financial statement in conformity with generally accepted accounting principles requires the use of management's estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### G. Cash and Cash Equivalents

The Organization considers all highly liquid investments available for current use with a maturity of three months or less when purchased to be cash equivalents.

#### H. Investments

Investments are composed of certificates of deposit with maturities of greater than three months. Investments are stated at cost which approximates fair value.

#### I. Accounts Receivable

Accounts receivable represent amounts due from charge contracts for services. Substantially all amounts are considered collectible by management. An allowance for bad debts has not been established because it is not considered material.

#### J. Capital Assets

Capital assets are recorded at cost. Maintenance, repairs and minor renewals are charged to expense as incurred. When assets are sold, or otherwise disposed of, the related cost and accumulated depreciation are removed from the accounts and any profit or loss arising from such disposition is included as income or expense in the year in which sold. Assets with a cost of over \$500 are capitalized.

Depreciation is based on the estimated useful lives computed on the straight-line method. The estimated useful live for property and equipment is 5 - 7 years.

#### K. Advertising and Public Relations

Advertising and public relations costs are charged to operations in the year incurred and totaled \$1,053 in 2018.

#### L. Concentration of Credit Risk

Fairhaven Industries, Inc. maintains cash balances at several financial institutions located in Northeast Ohio. Accounts at each institution are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At December 31, 2018, the Organization had \$0 in excess of the FDIC insurance limits. It is the opinion of management that the solvency of the referenced financial institutions is not of particular concern at this time.

Concentration of credit risk with respect to accounts receivable include one customer which constitutes 40 percent of the Organization's total accounts receivable.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 29 - FAIRHAVEN INDUSTRIES, INC. - (Continued)

#### M. In-Kind

The value of in-kind services are calculated based in the method prescribed by the State of Ohio, Ohio Department of DD and received directly from the Trumbull County 169 Board and is reflected on the accompanying Statement of Activities.

#### NOTE 30 - TRUMBULL COUNTY LAND BANK

The Trumbull County Land Reutilization Corporation (Land Bank) is a county land reutilization corporation that was formed on November 10, 2010, when the Trumbull County Board of Commissioners authorized the incorporation of the Land Bank under Chapter 1724 of the Ohio Revised Code to exercise the powers and perform the duties of a county with respect to land reutilization under Chapter 5722 of the Ohio Revised Code. The purpose of the Land Bank is for the reclamation, rehabilitation and reutilization of vacant, abandoned, tax-foreclosed or other real property in the County.

#### Summary of Significant Accounting Policies

The basic financial statements of the Land Bank have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Land Bank's significant accounting policies are described below.

#### A. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Land Bank uses a single proprietary or enterprise fund to account for and report its financial activities, which are limited to *business-type activities* - i.e., activities that are financed in whole or in part by fees charged to external parties and are operated in a manner similar to private business where the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. The financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Property sales associated with the current fiscal period are all considered to be susceptible to accrual and as such have been recognized as revenues of the current fiscal period.

#### **B.** Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

#### C. Operating and Non-operating Revenues and Expenses

As a business-type activity, the Land Bank distinguishes operating revenues and expenses from non-operating items. Operating revenues are mostly comprised of revenues from the sales of property. Operating expenses generally result from the acquisition, demolition and renovation of properties, and general and administrative expenses in accordance with the Land Bank's mission. All revenues and expenses not meeting these definitions are reported as non-operating revenues and expenses.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 30 - TRUMBULL COUNTY LAND BANK - (Continued)

#### D. Cash and Cash Equivalents

All monies received by the Land Bank are deposited in a demand deposit account, with the exception of some deposits being made for the purchase of real estate which are placed into an interest on trust accounts (IOTA) escrow account to be held until the completion of certain objectives. The balance in the IOTA account was \$319,284 at December 31, 2018. Investments with an original maturity of three months or less at the time of purchase are presented on the financial statements as cash equivalents. The Land Bank had no investments during the year of or at the end of the year of 2018.

#### E. Restricted Net Position

Net position is reported as restricted when its use is restricted by grant agreements or requirements for the purchase of real estate. Restricted net position at December 31, 2018 is \$319,284.

#### F. Intergovernmental Receivables

Intergovernmental receivables are stated at their outstanding balance. The Land Bank considers all amounts to be fully collectible. If collection becomes doubtful, the Land Bank will either set up an allowance for doubtful accounts, or if deemed completely uncollectible, the amounts will be charged against income in the current period. Management does not believe a reserve for uncollectible receivables is necessary at December 31, 2018.

#### G. Land Contracts Receivable

Land contracts receivable are receivables from parcel sales and are stated at their outstanding balance. The Land Bank considers all amounts to be fully collectible. If amounts become uncollectible, the Land Bank will identify them and record them as bad debt in the period that they become uncollectible. There was no bad debt in 2018.

#### H. Inventory Asset

The Land Bank's inventory consists of any unsold parcels that have been transferred into the name of the Land Bank. The values placed on these parcels are based solely on the expense incurred by the Land Bank that directly pertains to said parcels not to exceed the expected net realizable value. Inventory value was \$1,609,900 at December 31, 2018.

#### I. Capital Assets

The Land Bank follows the practice of capitalizing expenses for property and equipment whose cost is in excess of \$250. The costs of additions and improvements which substantially extend the useful life of a particular asset are capitalized. Routine repair and maintenance costs are expensed in the period they are incurred.

The Land Bank's equipment and vehicles are depreciated primarily using the straight-line method. Estimated useful lives of assets are as follows:

Computer software 3 years
Computer equipment 5 years
Vehicles 5 years
Furniture & equipment 7 years

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### NOTE 30 - TRUMBULL COUNTY LAND BANK - (Continued)

Capital assets at December 31, 2018 consisted of a total cost of \$56,498, less accumulated depreciation of \$50,764 for a net book value of \$5.734.

#### J. Net Position

Equity is classified as net position and displayed in three components:

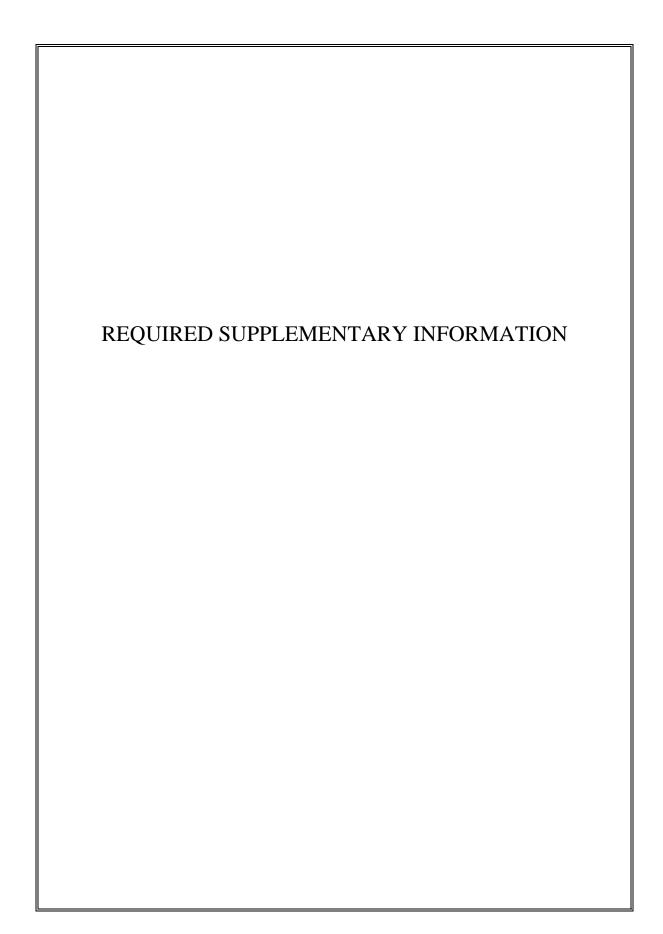

<u>Net investment in capital assets</u> - capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. The Land Bank has no borrowings as of December 31, 2018.

<u>Restricted net position</u> - net position with constraints placed on their use either by (1) external groups such as creditors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. Restricted net position is \$319,284 at December 31, 2018.

<u>Unrestricted net position</u> - all other assets that do not meet the definition of net investment in capital assets or restricted net position.

#### K. Restatement of Net Position

Beginning of year net position has been restated from \$2,043,116 to \$3,130,416 in order to correct the December 31, 2017 materials and supplies inventory balance.

### INDIVIDUAL FUND SCHEDULES FUND DESCRIPTIONS - INTERNAL SERVICE FUNDS

#### INTERNAL SERVICE FUNDS

Internal service funds are used to account for the financing of services provided by one department or agency to other departments or agencies of the County on a cost-reimbursement basis. The following is a description of the internal service funds:

#### **Internal Service Funds**

Gasoline Rotary Fund - To account for revenue received from various departments used to pay for gasoline purchased by the County.

Hospitalization Fund - To account for a medical benefits self-insurance program for employees of the County. Monthly fees are paid and any balance on hand is held until used.

Telephone Rotary Fund - To account for the telephone communication system as well as the corresponding lease payments.

Workers' Compensation Fund - To account for revenues used to provide workers' compensation benefits to employees.

#### FUND DESCRIPTIONS - FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve the measurement of results of operations. The following are the County's fiduciary funds:

#### **Agency Funds**

Undivided Taxes Fund - To account for the collection and distribution of various taxes.

Undivided Sales Taxes Fund - To account for the collection and distribution of sales taxes.

Undivided Payment in Lieu of Taxes Fund - To account for the collection and distribution of payment in lieu of taxes.

Alimony/Support Fund - To account for the collection of alimony and child support payments by the Bureau of Support and the distribution of such monies to the court-designated recipients.

Court Agency Fund - To account for clerk of court auto title fees, and County court, juvenile court and probate court related receipts.

Emergency Management Agency Fund - To account for monies collected from various member subdivisions to finance the operating costs of the Emergency Management Agency.

Community-Based Correctional Facility Fund - To account for the collection and disbursement of monies for the construction and maintenance of the community-based correctional facility.

#### **Notes:**

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal. The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax was phased out beginning in 2006. Both types of general business tangible personal property were assessed at 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009. Beginning in 2007, House Bill 66 switched telephone companies from being public utilities to general business type taxpayers and began a four year phase out of the tangible personal property tax on local and interexchange telephone companies. No tangible personal property taxes were levied or collected in 2009 from general business taxpayers (except telephone companies whose last year to pay tangible personal property tax is 2010).

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Values Table, generated the property tax revenue billed in that year.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.

Real property tax rates for voted levies are reduced so that inflationary increases in values do not generate additional revenue.

Overlapping rates are those of local and county governments that apply to property owners within the County.

- Includes Homestead/Rollback taxes assessed locally, but distributed through the State and reported as Intergovernmental revenue.
- (2) The County does not identify delinquent tax collections by tax year

**Note:** The County's current reporting system does not track delinquency tax collections by tax year. Outstanding delinquencies are tracked in total by the date the parcel is first certified delinquent. Penalties and interest are applied to the total outstanding delinquent balance. The presentation will be updated as new information becomes available.
