Board of Trustees Northwestern Water and Sewer District P.O. Box 348 Bowling Green, Ohio 43402

We have reviewed the *Independent Auditor's Report* of the Northwestern Water and Sewer District, Wood County, prepared by James G. Zupka, CPA, Inc., for the audit period January 1, 2019 through December 31, 2019. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Northwestern Water and Sewer District is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Board of Trustees Northwestern Water and Sewer District Bowling Green, Ohio The Honorable Keith Faber Auditor of State State of Ohio

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Northwestern Water and Sewer District, Wood County, Ohio (the District), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Northwestern Water and Sewer District, Ohio's basic financial statements and have issued our report thereon dated July 15, 2020, wherein we noted the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the District.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Northwestern Water and Sewer District, Ohio's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Northwestern Water and Sewer District, Ohio's internal control. Accordingly, we do not express an opinion on the effectiveness of the Northwestern Water and Sewer District, Ohio's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Northwestern Water and Sewer District, Ohio's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees Northwestern Water and Sewer District Bowling Green, Ohio The Honorable Keith Faber Auditor of State State of Ohio

Report on Compliance for Each Major Program

We have audited the Northwestern Water and Sewer District, Wood County, Ohio's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the Northwestern Water and Sewer District, Ohio's major federal program for the year ended December 31, 2019. The Northwestern Water and Sewer District, Ohio's major federal program is identified in the Summary of Auditor's Results Section of the accompanying Schedule of Findings and Ouestioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the Northwestern Water and Sewer District, Ohio's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Northwestern Water and Sewer District, Ohio's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Northwestern Water and Sewer District, Ohio's compliance.

Opinion on Each Major Federal Program

In our opinion, the Northwestern Water and Sewer District, Ohio, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2019.

Report on Internal Control over Compliance

Management of the Northwestern Water and Sewer District, Ohio, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Northwestern Water and Sewer District, Ohio's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Northwestern Water and Sewer District, Ohio's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the Northwestern Water and Sewer District, Ohio, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Northwestern Water and Sewer District, Ohio's basic financial statements. We issued our report thereon dated July 15, 2020, which contained unmodified opinions on those financial statements, wherein we noted the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the District. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The purpose of this report on internal control over compliance is solely to described the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See accompanying notes to the Schedule of Expenditures of Federal Awards.

NORTHWESTERN WATER AND SEWER DISTRICT WOOD COUNTY, OHIO NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS DECEMBER 31, 2019

NOTE 1: BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Northwestern Water and Sewer District, Ohio (the District), under programs of the federal government for the year ended December 31, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3: INDIRECT COST RATE

The District has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4: U.S. DEPARTMENT OF AGRICULTURE WATER AND WASTE DISPOSAL SYSTEMS FOR RURAL COMMUNITIES GRANT

The U.S. Department of Agriculture (USDA) has approved a \$4,833,000 loan to the District for the purpose of financing wastewater collection and treatment in the Village of McComb. The District has received all funds for this loan in 2019. No payments were made on this loan in 2019.

NORTHWESTERN WATER AND SEWER DISTRICT WOOD COUNTY, OHIO SCHEDULE OF FINDINGS AND QUESTIONED COSTS UNIFORM GUIDANCE DECEMBER 31, 2019

1. SUMMARY OF AUDITOR'S RESULTS

2019(i)	Type of Financial Statement Opinion	Unmodified
2019(ii)	Were there any material control weaknesses reported at the financial statement level (GAGAS)?	No
2019(ii)	Were there any significant deficiencies in internal control reported at the financial statement level (GAGAS)?	No
2019(iii)	Was there any reported material noncompliance at the financial statement level (GAGAS)?	No
2019(iv)	Were there any material internal control weaknesses reported for major federal programs?	No
2019(iv)	Were there any significant deficiencies in internal control reported for major federal programs?	No
2019(v)	Type of Major Programs' Compliance Opinions	Unmodified
2019(vi)	Are there any reportable findings under 2 CFR 200.516(a)?	No
2019(vii)	Major Programs (list):	
	Water and Waste Disposal Systems for Rural Communities - CFDA	#10.760
2019(viii)	Dollar Threshold: A/B Program	Type A: \$750,000 Type B: All Others

July 15, 2020

To the Board of Trustees and Citizens Served by The Northwestern Water and Sewer District:

The Comprehensive Annual Report of the Northwestern Water and Sewer District ("The District") for the year ended December 31, 2019, is hereby submitted. This report follows guidelines set forth by the Government Accounting Standards Board (GASB) and Generally Accepted Accounting Principles (GAAP). This report consists of management's representations concerning finances of The District. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with management.

To provide a reasonable basis for making these representations, management of The District has established an internal control framework that is designed both to protect District assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of The District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, The District's comprehensive framework of internal controls has been designed to provide reasonable rather than

absolute assurance that the financial statements will be free from material misstatement. As management, we assert that this financial report is complete and reliable in all material respects, to the best of our knowledge and belief. All disclosures necessary to enable the reader to gain an understanding of The District's activities have been included.

The District is required to undergo an annual audit in conformity with government auditing standards. Information related to this audit, includes the independent auditors' report on internal control over financial reporting and on compliance and other matters.

As part of The District's audit, described earlier, tests were made by The District's external auditors of its internal control structure and compliance with applicable laws and regulations. Although this testing is not sufficient to support a separate opinion on The District's internal control system or its overall compliance with laws, the audit for the year ended December 31, 2019 disclosed no material internal control weaknesses or material violations of laws and regulations.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is intended to compliment MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Included in the accompanying financial statements are all accounts of the Northwestern Water and Sewer District. For accounting purposes, The District is accounted for as a single enterprise fund. The reporting is described in Note 1 to the financial statements.

i

Included at the end of the Statistical Section is a section titled "Continuing Disclosure Requirements". The schedules in this section are in addition to those required by the Government Finance Officers Association and are presented in compliance with the terms of the Continuing Disclosure Agreement in conjunction with the issuance of the Water Resource Improvement and Refunding Revenue Bonds, Series 2002.

PROFILE OF THE DISTRICT

The District is a regional water and sewer district established pursuant to Chapter 6119 of the Ohio Revised Code. The District is operated pursuant to the authority of the Ohio Revised Code which specifically authorizes the formation of such districts.

In 1991, the County of Wood, Ohio, together with five municipalities and 14 townships, petitioned the Court of Common Pleas of Wood County for the establishment of a regional water and sewer district under Chapter 6119, Ohio Revised Code, to assume ownership and operation of the water and sewer facilities owned and operated by the County. The Court created The District on May 18, 1992 and approved a formal plan of operation on September 29, 1993. The District is currently comprised of 13 municipalities and 20 townships.

The District has authority to levy taxes to pay current operating expenses or debt service charges only with a vote of a majority of its electors. The District may submit the question of issuing bonds of The District and levying a tax outside the ten-mill limitation imposed by Article XII, Section 2 of the Ohio Constitution to pay the principal and interest on such bonds to the electors within the territorial limits of The District. The District may also submit to its electors the question of levying a tax in excess of the ten-mill limitation to pay current expenses of The District or to pay any portion of the cost of water resource projects. Such levy may not exceed ten years. The District currently has no plans to submit a bond issue or tax levy to its electors.

The District may assess real estate for the cost of improvements to the water or sewer system and may issue bonds or notes in anticipation of the collection of such assessments. The District may also issue revenue resource bonds and notes the principal of and interest on which is payable from District revenues is generated from charges for water and/or sewer services.

General provisions regulating The District's budget and appropriation procedures are set forth in the Ohio Revised Code. The President is required to submit The District's operating and capital budgets to the Board of Trustees and they are required to adopt such budgets by March 31 of the year to which they apply.

FACTORS AFFECTING FINANCIAL CONDITION

Local Economy

Wood County is centrally located in the Toledo Trade Area, and is classified as belonging to the Toledo Metropolitan Statistical Area (MSA). The 2019 population of the MSA is estimated to be approximately 626,800, of which the County accounted for approximately 130,696 in 2019. The County is the second largest in the Toledo MSA.

The Wood County economy is composed of three major activities: agriculture, manufacturing, and education. Agriculture has always been an important part of Wood County, both economically and socially.

Manufacturing is another critical component of the Wood County economy. Most manufacturing industries in the county are involved in either the production of food stuffs, automotive parts, and sub-assemblies or machinery. However, the County has seen a diversification of its industrial tax base over the last several years.

Higher education is also of major significance to the Wood County economy. Bowling Green State University, located in the City of Bowling Green, serves as the center of this activity. For the 2018-19 school year, the university had 19,000 students, 900+ full-time faculty as well as 1,352 full and part-time administrative and classified staff. In addition to Bowling Green State University, Wood County is home to Owens Community College. For 2019 Owens had a student enrollment of approximately 8,282 in over 120 program areas by a full-time faculty of 140. Students, faculty, and staff members of both higher education facilities contribute heavily to the economy of Wood County.

Long-Term Financial Planning

In 2009, The District established a strategic architecture that identified a mission statement, three key business drivers and action plans for each of the three business drivers. The action plans became the basis for establishing the 2019 budget. This process will continue in 2020 with results measured and compared to the plan. The main focus of the plan will be on how to continue to grow The District while not providing an undue financial burden on our customers.

The District has begun a program to address inflow and infiltration into its sewer system. A large retention basin has been constructed to hold overflow during peak rain events. Inflow and infiltration is being studied and addressed throughout the system as well.

At year-end, The District had debt outstanding of \$86,111,269. Outstanding bonds of The District are rated Aa3 by Moody's and AA- by Standard & Poor's rating agencies. The District has a MIG-1 rating from Moody's on short-term borrowing. Notes 5 and 6 to the audited financial statements include schedules of debt outstanding and future debt service requirements.

DISTRICT MAJOR INITIATIVES

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Northwestern Water and Sewer District for its Comprehensive Annual Financial Report (CAFR) for the year ending December 31, 2018. This was the sixteenth year that The District has achieved this prestigious award. In

order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Millbury Lateral Repair and Replacement

This project included the rehabilitation of lateral sewer connections throughout the Village of Millbury. These laterals were identified in the Phase 1 Infiltration and Inflow project as having defects contributing to the excessive sewer flows. The Village is located at the confluence of two large creeks that makes it prone to high groundwater and flooding during wet weather. During these times, the sanitary sewers that were mostly constructed in the 1970 to 1980 era, are prone to groundwater infiltration and surface water inflow. This project continued the efforts from Phase 1 to eliminate many of the sources of this extraneous water in the system. The project has resulted in fewer nutrients entering the Lake Erie watershed. The total project cost was approximately \$1,000,000.

Rossford Vernis Street Sanitary Sewer Rehab

The City of Rossford sanitary sewer system in many areas is in very poor condition. Since joining the District in 2012, the District has invested several million dollars to rehabilitate, repair and replace a significant portion of the sanitary sewer system. This project focused on the complete replacement of the gravity sewer to include the lateral connections to the road right of way. The sewers in this area were identified as a significant contributor of storm water into the sanitary system in the City. This has added to sanitary sewer overflows directly to the Maumee River, which contributes a large part of the nutrient loading in the western basin of Lake Erie. The project was completed in 2019 at a cost of \$300,000.

Perrysburg Service Area Inflow and Infiltration Reduction

This project included the rehabilitation of thousands of feet of sanitary sewers, and manholes throughout the Perrysburg Township service area. This project focused on the areas North and East of the City of Perrysburg. The sanitary sewer flows from this area exceed the system capacity during rain events and force the bypassing of the flows from reaching the treatment facility. The sanitary sewers are prone to groundwater infiltration and surface water inflow. This project consisted of testing and grouting every joint in the main line sewers to stop the infiltration. Additionally, this project included open cut repairs and short lining repairs to rehabilitate the sewers. The total project cost was approximately \$1,000,000.

McComb WWTP Replacement

The Village of McComb joined The District in 2016 at which time the Village was already in the design phase of a new wastewater treatment facility. The original facility constructed in 1966 was beyond its useful life and no longer meeting Ohio EPA permit limits. The District upon taking ownership took on the existing facility and ultimately the design of the new facility. The selected treatment option was an Oxidation Ditch treatment process which is known for its ability to handle excessive wet weather flows. This was a major criterion as the Village collection system also sees significant wet weather increases in flow that the current plant could not handle. The new 0.388MGD facility was completed for a total project cost of approximately \$7,600,000.

Homecraft Water Line Interconnection

The Districts greater 100 water system is supplied water from two main pumping facilities fed from the City of Toledo. These facilities surround a portion of the same system known as Homecraft in Northwood Ohio which is served directly from the City of Toledo's system through master meters. This project with the construction of a few thousand feet of waterline permits The District to transfer the source from a direct feed from the City of Toledo to an improved separated system supplied with the redundancy of The Districts greater 100 area water system. Additionally, by maintaining the master meters in place this will permit an additional emergency interconnection between the two systems. The total project cost was approximately \$350,000.

Weston Water Meter Pit Installation and Replacement

The Village of Weston is supplied water by The District through purchase from the city of Bowling Green. The purchase of water rather than the production warrants increased efforts to control water accountability within the system. The Weston system had been determined through water loss analysis to need continued efforts to reduce the water loss. This project was developed to do just that through the installation of meter pits at the road right of way and replace aged service lines from the water main to the pit as is the AWWA recommendation. By relocating the meters from within the homes the overall footage of pipe is reduced and the meter is more readily accessible when needed increasing water accountability. The project cost was approximately \$200,000.

INDEPENDENT AUDIT

Included in this report is an unmodified opinion rendered on the District's financial statements for the year ended December 31, 2019, by James G. Zupka, CPA, Inc., a firm of licensed independent certified public accountants. As part of the preparation of the comprehensive annual financial report, The District subjects its financial statements to an annual audit. The annual audit serves to strengthen The District's accounting, internal, and budgetary controls.

ACKNOWLEDGEMENTS

The preparation of this comprehensive annual financial report would not have been possible without the efficient and dedicated services of all of the district departments and their staff. A special acknowledgement goes to Laurie Mooney, Financial Analyst, for her dedication to details in preparing The District's financial information.

Respectfully submitted.

INDEPENDENT AUDITOR'S REPORT

Board of Trustees Northwestern Water and Sewer District Bowling Green, Ohio The Honorable Keith Faber Auditor of State State of Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of the Northwestern Water and Sewer District, Wood County, Ohio (the District), as of and for the years ended December 31, 2019 and December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Northwestern Water and Sewer District, Ohio, as of December 31, 2019 and December 31, 2018, and the changes in its financial position, and its cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the basic financial statements, during 2019, the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the District. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Schedules of Net Pension and Net Other Postemployment Benefit Liabilities and Pension and Other Postemployment Benefit Contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Northwestern Water and Sewer District, Ohio's basic financial statements. The introductory section, the Schedule of Revenue, Expenses, and Changes in Net Position - Budget to Actual (GAAP Basis); the Schedule of Net Position - Information by Division; the Schedule of Revenues, Expenses and Changes in Net Position - Information by Division; and the Schedule of Cash Flows - Information by Division, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Revenue, Expenses, and Changes in Net Position - Budget to Actual (GAAP basis); the Schedule of Net Position - Information by Division; the Schedule of Revenues, Expenses and Changes in Net Position - Information by Division; and the Schedule of Cash Flows - Information by Division are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the above schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical schedules have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 15, 2020, on our consideration of the Northwestern Water and Sewer District, Ohio's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and on the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Northwestern Water and Sewer District, Ohio's internal control over reporting and compliance.

James G. Zupka, CPA, Inc.

Certified Public Accountants

July 15, 2020

The following discussion provides a summary overview of the financial activities of the Northwestern Water & Sewer District (The District) for the year ended December 31, 2019. This information should be read in conjunction with the letter of transmittal and basic financial statements included in this report.

Financial Highlights

- Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$140,139,390 as of December 31, 2019.
- Change in net position was \$3,008,420 in 2019.
- Overall net position increased in 2019 by \$3,008,420, a decrease of \$423,613 was attributable to net investment in capital assets. The remaining change of a net increase of \$3,432,033 was attributable to a \$275,084 increase in restricted net position and \$3,156,949 increase in unrestricted net position.
- Debt increased \$6,350,427. Retirements of debt principal were \$4,666,664 and new issues of debt principal were \$11,017,091.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are the Statements of Net Position, the Statements of Revenues, Expenses, and Changes in Net Position, the Statements of Cash Flows and the accompanying notes to the financial statements. These statements report information about The District as a whole and about its activities. The District is a single enterprise fund using proprietary fund accounting, which means these statements are presented in a manner similar to a private-sector business. The statements are presented using economic resources measurement focus and the accrual basis of accounting.

The Statements of Net Position present the District's financial position and report the resources owned by the District (assets), obligations owed by the District (liabilities), deferred outflows and inflows, and District net position (the difference between assets and liabilities). The Statements of Revenues, Expenses, and Changes in Net Position present a summary of how the District's net position changed during the year. Revenue is reported when earned and expenses are reported when incurred. The Statements of Cash Flows provide information about the District's cash receipts and disbursements during the year. They summarize net changes in cash resulting from operating, investing, and financing activities. The notes to the financial statements provide additional information that is essential to a full understanding of the financial statements.

Financial Analysis of the District's Financial Position and Results of Operations

The tables below provide a summary of The District's financial position and operations. Net position may serve over time as a useful indicator of a government's financial position. The largest portion of The District's net position, \$121.6 million (87%) reflects its investment in capital assets less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although The District's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Certain amounts may vary slightly due to differences caused by rounding to thousands.

Total Net Position	\$	140,139	\$	137,131	\$	137,555	\$	3,008	2.2 %	\$	(424)	(0.3)%

Net position increased by \$3,008 thousand during 2019 and increased by \$2,648 thousand during 2018 (offset by a restatement of beginning net assets due to GASB75). The majority of this change was due to the following:

- Debt, including current portion of long-term debt, increased by \$6,350,427 in 2019 and decreased by \$959,182 in 2018 related to borrowing for construction projects.
- Deferred inflow of resources related to pension decreased by \$3,887,845 in 2019 and deferred inflow increased by \$1,087,993 in 2018.

Net position increased by \$5,805 thousand during 2017. The majority of this change was due to the following:

• Debt, including current portion of long-term debt, increased by \$6,448,749 in 2017 related to borrowing for construction projects.

Utility revenues increased in 2019 due to rate increases. The District purchases bulk water from the City of Toledo. Toledo instituted a multi-year rate increase program which is passed through to the customers of The District served by water purchased from Toledo. Other Operating Expenses increased in 2019 due to incremental increases to general insurance, small equipment and bad debt write offs.

Utility revenues increased in 2018 due to rate increases. The District purchases bulk water from the City of Toledo. Toledo instituted a multi-year rate increase program which is passed through to the customers of The District served by water purchased from Toledo. Other Operating Expenses increased in 2018 due to incremental increases to general insurance, small equipment and bad debt write offs. Beginning Net Position for December 31, 2018, was restated due to the implementation of GASB75.

Capital Assets

At the end of 2019, The District had \$203,427,924 invested in capital assets net of depreciation. This amount represents a net increase of approximately \$5.9 million, or 3.0% over 2018.

Capital Assets at December 31,

(Net of Depreciation, in Thousands)

					Change				
				2019/2	2018	2018/2	2017		
	2019	2018	2017	Amount	Percent	Amount	Percent

Total	\$ 203,42	\$ 197,566	\$ 194,518	\$ 5,862	3.0 %	\$ 3,048	1.6 %		

As indicated by figures in the table above, the majority of capital assets added during the current fiscal year were related to water and sewer lines and construction in progress.

Additional information on The District's capital assets can be found in Note 4.

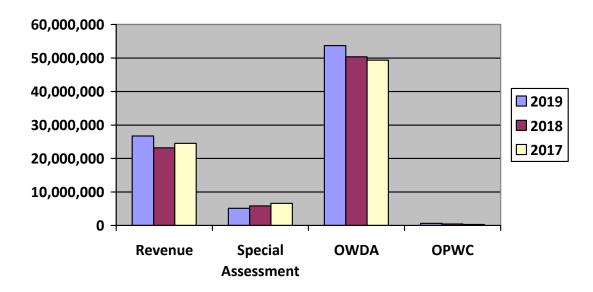

Debt Administration

At December 31, 2019, The District had total debt outstanding of \$86,111,269 compared to \$79,760,842 at December 31, 2018. This represents an increase of \$6,350,427. During 2019, the District issued \$11,017,091 of new debt and repaid \$4,666,664 in principal on outstanding debt. At December 31, 2018, the District had total debt outstanding of \$79,760,842 compared to \$80,720,024 at December 31, 2017. This represents a decrease of \$959,182. During 2018, the District issued \$3,484,823 of new debt and repaid \$4,444,005 in principal on outstanding debt. The District has ratings on its long-term debt of Aa3 from Moody's Investor Service and AA- from Standard and Poor's. This information should be read in conjunction with Notes 5 and 6 to the audited financial statements for more detailed information on long-term debt.

Outstanding Debt at December 31,

	2019	2018	2017

	·		
Total	\$ 86,111,269	\$ 79,760,842	\$ 80,720,024

Type of Debt by Year

Economic Factors

Based on The District's 2019 budget, sewer rates were increased 1.76% for a customer using 1,000 cubic feet. Water rates were increased 2.2%, effective January 1, 2019 for a customer using 1,000 cubic feet of water. The increases in both water and sewer rates are due in part to the Board of Trustees implementing the policy of including depreciation in rates on a prorated basis over 15 years. The board has directed that rates be reviewed on an annual basis. The District is subject to the general economic slowdown in housing construction seen across the country.

In 2020, the District expects new residential construction to be slow but does expect to see a slight increase in housing construction as new plans are being proposed for additional housing starts.

Contacting The District's Financial Management

This financial report is designed to provide a general overview of the District's finances for all interested parties. Questions and requests for additional information regarding this report should be addressed to the CFO, Northwestern Water & Sewer District, P.O. Box 348, Bowling Green, Ohio 43402, or by telephone at (419) 354-9090.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Northwestern Water & Sewer District (the District) commenced operations on January 1, 1994. The District was created upon approval by the Wood County Court of Common Pleas pursuant to Section 6119 of the Ohio Revised Code for the purpose of supplying water and providing for the collection, treatment, and disposal of waste water to users within and without the District. The District was previously known as the Wood County Sanitary Engineer's Office and was under the control of Wood County (the County). Upon commencement, the County transferred the use of all related assets and liabilities to the District at carrying value.

The District is governed by a nine-member board of trustees (the board), three appointed by the participating municipalities, three by the participating townships, and three by the County Commissioners. Board members serve staggered terms of three years. The board controls the employment of the President of the District, who is responsible for staffing the respective departments and overseeing the day-to-day operations.

The District is authorized to issue revenue bonds and notes to finance the cost of projects which are payable from the revenues of the District. The District is also authorized to levy taxes for the current expenses of the District or for the issuance of bonds upon approval of a majority of the electorate. The District has not exercised these taxing powers. The District may also assess real estate for certain improvements and issue bonds in anticipation of the collection of such special assessments.

As a political subdivision, the District is distinct from, and is not an agency of, the state of Ohio or any other local governmental unit. The District is not subject to federal, state, or local income taxes or sales taxes.

Since the District was formed, several entities have joined, at which time, all water and sewer related assets and debt are assumed by the District. On October 24, 2019, the District passed a resolution to merge Henry County Regional Water and Sewer District into the District, transferring all assets of Henry County Regional Water and Sewer District to the District subsequent to year end.

The nucleus of the financial reporting entity as defined by the Governmental Accounting Standards Board is the "primary government". A fundamental characteristic of a primary government is that it is a fiscally independent entity. In evaluating how to define the financial reporting entity, management has considered all potential component units. A component unit is a legally separate entity for which the primary government is financially accountable. The criterion of financial accountability is the ability of the primary government to impose its will upon the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally dependent on the potential component unit. The criterion was considered in determining the reporting entity. The District does not have financial accountability over any entities.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, whereby revenues and expenses are recognized in the period earned or incurred. All transactions are accounted for in a single enterprise fund.

Measurement Focus

The enterprise fund is accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the District are included on the statements of net position. The statements of revenues, expenses, and changes in net position increases (i.e. revenue) and decreases (i.e. expenses) in net total position. The statements of cash flows provide information about how the District finances and meets the cash flow needs of its enterprise activity.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, and deferred inflows and disclosure of contingent assets and liabilities at the date of financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Budgetary Process

The District is required by law to budget its funds, through adoption of an operating budget by March 31 of each year for the following fiscal year. The operating budget includes estimates for total revenues, total expenses, and debt service requirements for the fiscal year.

Cash and Cash Equivalents

The District considers all highly liquid investments (including restricted assets) with an initial maturity of three months or less to be cash equivalents.

Accounts Receivable - Trade

The District considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is included in the financial statements. When amounts are deemed to be uncollectible, they are expensed in the year in which that determination is made.

Debt Issuance Costs

Debt issuance costs are expensed when incurred.

Special Assessments Receivable

Special assessments receivable include amounts due from property owners that benefited from projects constructed by the District. The District receives proceeds from the property owners through assessments collected by the County over a 20-year period.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

<u>Inventory</u>

Inventory items are valued at cost value using the first-in, first-out (FIFO) method. Inventory consists primarily of water meters and maintenance parts and supplies for the water and sewer lines.

Capital Assets

Capital assets are recorded at cost. Costs that materially add to the productive capacity or extend the life of an asset are capitalized while maintenance and repair costs are expensed, as incurred. Contributed assets are stated at acquisition value at the time of contribution. Capital assets are defined by the District as assets with initial individual cost of \$5,000.

All capital assets are depreciated, excluding land. Depreciation has been provided using the straight-line method over the following estimated useful lives:

	Years
Sewer and Water Lines	50
Buildings, Pumps, and Lift Stations	20 - 40
Machinery and Equipment	10 - 15
Vehicles	5 - 10
Furniture and Fixtures	7 - 12
Computer Equipment	3 - 5
Improvements	10 - 40

Construction in process includes all of the District's costs to develop capital asset projects. The projects are funded through board restriction of assets and construction loans. Interest expense incurred throughout the construction phase of a project is capitalized as part of the cost of the asset under construction to the extent it exceeds interest income on the related invested debt proceeds. The District had minimal capitalized interest for the years ended December 31, 2019 and 2018.

Investments

Investments are stated at fair value.

Pensions and OPEB

For purposes of measuring the net pension liability and other post-employment benefits (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expenses, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Compensated Absences

The District accrues a liability if it is probable that the employee will be compensated through cash payment.

Deferred Outflows and Inflows

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until then. See Notes 8 and 9 for details on the District's deferred outflows of resources related to its net pension liability and net OPEB liability, respectively. See Note 5 for details on the District's deferred outflows of resources related to its loss on debt refunding. In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. See Notes 8 and 9 for detail on the District's deferred inflows of resources related to its net pension liability and net OPEB liability, respectively.

Revenues and Expenses

Operating revenues and expenses result from supplying water and providing for the collection, treatment, and disposal of waste water. Operating revenues consist primarily of user charges for water and sewage services based on water consumption. Operating expenses include the cost of providing these services, including administrative expenses and depreciation on capital assets.

Nonoperating revenues and expenses are all revenues and expenses not meeting the definition of operating revenues and expenses. Nonoperating revenues and expenses include revenues and expenses from capital and related financing activities, and investing activities.

Aid in Construction

Certain types of revenues received by the District for which no value is given in return, including derived tax revenues, imposed nonexchange transactions, government-mandated nonexchange transactions, and voluntary nonexchange transactions have been reported as nonoperating revenues. These amounts include system development fees, assets whose construction was financed by special assessments, donations from private sources, and grants for the acquisition of capital assets.

Net Position

Net position represents the difference between assets and deferred outflows of resources compared to liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Restricted net position consists of monies and other resources which are restricted to satisfy debt service requirements as specified in debt agreements. When both unrestricted and restricted funds are available for use, restricted funds are used first.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position (Continued)

The District's board of trustees has designated unrestricted net position of \$6,050,875 and \$5,854,951 as of December 31, 2019 and 2018, respectively, for capital and operating expenditures, and debt service. Such amounts are not restricted, and may be designated for other purposes or eliminated at the discretion of the board.

User Rates and Expenses

The District's sewer and water utility rates are determined in conjunction with periodic rate studies performed by independent third parties. Nondirect expenses are generally allocated based upon management's estimate of costs applicable to the respective divisions. Nondirect expenses were allocated to the sewer and water divisions, 48% and 52% in 2019 and 2018.

Subsequent Event

The United States and the state of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the District. The District's investments of the pension and other employee benefit plan in which the District participates have incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the District's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

NOTE 2 NEWLY ADOPTED STATEMENT ISSUED BY THE GOVERNMENTAL ACCOUNTING STANDARDS BOARD

In 2019, the District adopted the following accounting principles issued by the Governmental Accounting Standards Board:

In November 2016, the GASB issued Statement 83, Certain Asset Retirement Obligations Reporting. The primary objective of This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. This Statement was adopted for the District's year ended December 31, 2019 with no material impact on the District.

In January 2017, the GASB issued Statement 84, *Fiduciary Activities*. The primary objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement was adopted for the District's year ended December 31, 2019 with no material impact on the District.

NOTE 2 NEWLY ADOPTED STATEMENT ISSUED BY THE GOVERNMENTAL ACCOUNTING STANDARDS BOARD (CONTINUED)

In March 2018, the GASB issued Statement 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements.* The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement was adopted for the District's year ended December 31, 2019 with no material impact on the District.

In August 2018, the GASB issued Statement 90, *Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61*. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value. This Statement was adopted for the District's year ended December 31, 2019 with no material impact on the District.

NOTE 3 CASH AND INVESTMENTS

Deposits

State statutes classify monies held by the District into three categories:

- 1. Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District's Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.
- 2. Inactive deposits are public deposits that the District has identified as not required for use within the current two-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.
- 3. Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Deposits (Continued)

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the finance director by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's policy for deposits is collateral is required for demand deposits and certificates of deposit at 105% of all deposits not covered by federal deposit insurance. The collateral is pooled through the Ohio Pooled Collateral System. Under this program, public depositories that pledge a collateral pool using the method prescribed in Ohio Rev. Code § 135.18(A)(2) or Ohio Rev. Code § 135.37(A)(2) shall pledge to the Treasurer of State a single pool of eligible securities for the benefit of all public depositors to secure the repayment of all uninsured public deposits at the public depository; provided that at all times the total fair value of securities so pledged is at least equal to either one hundred 2% of the total amount of all uninsured public deposits or an amount determined by rules adopted by the Treasurer of State that set forth the criteria for determining the aggregate fair value of the pool of eligible securities pledged by a public depository. Such criteria shall include, but are not limited to, prudent capital and liquidity management by the public depository and the safety and soundness of the public depository as determined by a third-party rating organization. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the state and its municipalities, school districts, and district corporations. Obligations pledged to secure deposits must be delivered to a bank other than the institution in which the deposit is made. Written custodial agreements are required. The carrying value of the District's deposits was \$13,610,697 and \$8,986,343 at December 31, 2019 and 2018, respectively. At December 31, 2019, the bank balance of \$14,034,516 was covered by federal depository insurance and \$13,784,516 was covered by collateral held by the pledging financial institution, but not in the name of the District. At December 31, 2018, the bank balance of \$9,132,845 was covered by federal depository insurance and \$8,882,845 was covered by collateral held by the pledging financial institution, but not in the name of the District.

Although the pledging bank has an investment and securities pool used to collateralize all public deposits, which held in the financial institution's name, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC. The deposits not covered by federal depository insurance are considered uninsured and uncollateralized and subject to custodial credit risk.

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Investments

As of December 31, 2019, the District has not established a formal policy relating to interest rate risk. The District's investments and cash equivalents consist of the following:

	2019				
		Maturity	Maturity		
<u>Investments</u>	Fair Value	Less Than 1	1-5 years		
U.S. Treasuries and Federal Agency	_				
Obligations	\$ 8,269,961	\$ 1,764,642	\$ 6,505,319

Investments held by the District at December 31, 2019 and 2018 are presented below, categorized by investment type and credit quality rating as rated by Standard and Poor's. Credit quality ratings provide information about the investments' credit risk, which is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. No deposits were subject to custodial credit risk.

Investments - Restricted	1,245,002	1,231,087
Total	\$ 25,013,118	\$ 18,608,916

The District categorizes its fair value measurements at fair value within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted market prices in active markets for identical assets; Level 2 inputs are significant other observable inputs (quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs such as investments and yield curves, implied volatiles, and credit spreads); Level 3 inputs are significant unobservable inputs.

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Investments (Continued)

As of December 31, 2019 and 2018 the District's investments had the following recurring fair value measurements:

2019				
Level 1	Level 2	Level 3	Total	
\$ -	\$ 8,269,961	\$ -	\$ 8,269,961	
915,507	-	-	915,507	
2,216,953			2,216,953

	\$ - 915,507 2,216,953 \$ 3,132,460 Level 1 \$ - 922,237 2,166,179	Level 1 \$ - \$ 8,269,961 915,507	Level 1 Level 2 Level 3 \$ - \$ 8,269,961 \$ - 915,507 2,216,953 \$ 3,132,460 \$ 8,269,961 \$ - 2018 Level 1 Level 2 Level 3 \$ - \$ 6,534,157 \$ - 922,237 2,166,179	

Concentration of Credit Risk - The District places no limit on the amount it may invest in any one issuer, however state statute limits investments in commercial paper and bankers' acceptances to 25% of the interim monies available for investment at any one time. In 2019, the District's investment in U.S. Treasury Notes represents 18% of the District's total investments. The District's investment in Freddie Mac bonds represents 16% of the District's total investments in 2019. The District's investment in Federal National Mortgage Association notes represents 13% of the District's total investments in 2019. The District's investment in Farm Credit System represents 13% of the District's investments in 2019. The District's investment in STAROhio represents 19% of the District's investments in 2019.

In 2018, the District's investment in U.S. Treasury Notes represents 4% of the District's total investments. The District's investment in Federal Home Loan represents 14% of the District's total investments in 2018. In 2018, the District's investment in Federal Home Loan Bank Notes represents 22% of the District's total investments. The District's investment in Freddie Mac bonds represents 10% of the District's total investments in 2018. The District's investment in Federal Farm Credit Bank notes represents 7% of the District's total investments in 2018. The District's investment in Federal National Mortgage Association notes represents 10% of the District's total investments in 2018. The District's investment in STAROhio represents 23% of the District's investments in 2018. The District's investment in money market mutual funds represents 10% of the District's investments in 2018.

NOTE 4 CAPITAL ASSETS AND DEPRECIATION

Capital asset activity for the year ended December 31, 2019 is as follows:

	Balance - December 31,				Balance - December 31,

In July 2017, the District issued 2017 revenue improvement refunding bonds amounting to \$5,545,000 to advance refund the District's outstanding Revenue bonds, series 2005A and 2008, due December 31, 2017 – 2028 and to pay the cost of issuing the 2017 bonds; interest at 1.96%. Those proceeds were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 2005A and 2008 Bonds. The outstanding balance of the bonds at December 31, 2019 was \$4,225,000. These bonds are considered defeased and are not included as District debt in this financial statement.

In July 2017, the District issued 2017 special assessment refunding bonds amounting to \$2,325,000 to advance refund the District's outstanding special assessment bonds, series 2006A and 2008, due December 31, 2017 – 2027 and to pay the cost of issuing the 2017 bonds; interest at 2.0%. Those proceeds were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 2006A and 2008 Bonds. The outstanding balance of the bonds at December 31, 2019 was \$1,725,000. These bonds are considered defeased and are not included as District debt in this financial statement.

NOTE 6 DEBT SERVICE REQUIREMENTS

The annual principal and interest requirements on all loans outstanding at December 31, 2019 are as follows:

Year Ended December 31,	Principal	Interest	Total
2020	\$ 3,303,870	\$ 1,484,648	\$ 4,788,518
2021	3,011,582	1,406,489	4,418,071

2040-2044	2,012,826	487,534	2,500,360
2045-2049	1,351,114	232,700	1,583,814
2050-2054	720,131	62,055	782,186
2055-2056	124,907	4,782	129,689
Total	\$ 26,672,664	\$ 7,846,268	\$ 34,518,932

At December 31, 2019 and 2018, the District had \$5,350,513 and \$5,075,429, respectively, in cash and cash equivalents and investments restricted in accordance with loan agreements.

NOTE 7 COUNTY DEBT OBLIGATIONS

The County is obligated for loans received from the Ohio Sewer and Rotary Commission (Rotary Commission) for the District's sewer and water line assessments, the collection of which is deferred or exempt pursuant to Section 6103.051 of the Ohio Revised Code. The County is responsible for collecting the assessments when the property no longer meets the exemption criteria. This money must be remitted to the Rotary Commission within one year, even if not collected by the County.

At December 31, 2019 and 2018, \$1,831,419 and \$1,875,901 in loans from the Rotary Commission are outstanding. These amounts have not been reflected in the District's financial statements, since the County is ultimately responsible for the payment of this debt. Further, the District has agreed to advance additional funds, if necessary, to the extent shortfalls exceed the reserve. The County has agreed to remit to the District any balance that may be remaining in this reserve. No withdrawals from the reserve were made during 2019 and 2018, or in prior years on this reserve.

NOTE 8 RETIREMENT PLANS

Net Pension Liability (Asset)

The net pension liability (asset) reported on the Statement of Net Position represents a liability (asset) to employees for pensions. Pensions are a component of exchange transactions between an employer and its employees of salaries and benefits for employee services. Pensions are provided to an employee on a deferred-payment basis as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability (asset) represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

NOTE 8 RETIREMENT PLANS (CONTINUED)

Net Pension Liability (Asset) (Continued)

GASB 68 assumes the liability (asset) is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the state legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability/(asset) on the accrual basis of accounting.

Plan Description – Ohio Public Employees Retirement System (OPERS)

District employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multi-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multi-employer defined benefit pension plan with defined contribution features, while members (e.g. District employees) may elect the member-directed plan and the combined plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

NOTE 8 RETIREMENT PLANS (CONTINUED)

Plan Description – Ohio Public Employees Retirement System (OPERS) (Continued)

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3%.

Funding Policy

The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	2019	2018
Statutory Maximum Contribution Rates:		_
Employer	14.0 %	14.0 %
Employee	10.0	10.0
Actual Contribution Rates:		
Employer:		
Pension	14.0	14.0
Post-Employment Health Care Benefits		-
Total Employer	14.0 %	14.0 %
Total Employee	10.0 %	10.0 %

NOTE 8 RETIREMENT PLANS (CONTINUED)

Funding Policy (Continued)

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payrolls. The District's contractually required contribution was \$633,104 for 2019 and \$615,465 for 2018. All required contributions have been paid.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

The net pension liability (asset) for OPERS for 2019 and 2018 was measured as of December 31, 2018 and 2017, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability (asset) was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense for December 31, 2019 and 2018:

	2019	
	Traditional	Combined
Proportionate Share of the Net Pension Liability (Asset)	\$ 8,691,026	\$ (29,668)
Proportion of the Net Pension Liability (Asset)	0.031733 %	0.026531 %
Pension Expense	2,032,036	9,151
	201	18
	Traditional	Combined
Proportionate Share of the Net Pension Liability (Asset)	\$ 4,751,757	\$ (28,324)
Proportion of the Net Pension Liability (Asset)	0.030289 %	0.020860 %
Pension Expense	1,020,190	4,573

NOTE 8 RETIREMENT PLANS (CONTINUED)

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)</u>

At December 31, 2019 and 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2019			
		<u> </u>	C	ombined
Deferred Outflows of Resources: Differences Between Expected and Actual Experience Changes of Assumptions	\$	401 756,571	\$	6,626

NOTE 8 RETIREMENT PLANS (CONTINUED)

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)</u>

Amounts reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date in the previous table will be recognized as a reduction in the net pension (asset) liability in the subsequent fiscal period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending December 31,	7	Traditional		ombined
2020	\$	848,064	\$	1,920
2021		318,467		643
2022		109,433		778
2023		548,606		2,779
2024		-		(894)
Thereafter				(3,288)
Total	\$	1,824,570	\$	1,938

Actuarial Assumptions

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2018 and 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Traditional	Combined
Wage Inflation	3.25%	3.25%
Future Salary Increases, Including Inflation	3.25% - 10.75%	3.25% - 8.25%
COLA or Ad Hoc COLA	3% Simple	3% Simple
Investment Rate of Return	7.2%	7.2%
	Individual Entry	Individual Entry
Actuarial Cost Method	Age	Age

NOTE 8 RETIREMENT PLANS (CONTINUED)

Actuarial Assumptions (Continued)

Mortality rates were based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006, and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006, and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The total pension liability in the December 31, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all prior periods included in the measurement in accordance with the requirements of GASB 67. In 2016, the board of trustees' actuarial consultants conducted an experience study for the period 2011 through 2015, comparing assumptions to actual results. The experience study incorporates both a historical view and forward-looking projections to determine the appropriate set of assumptions to keep the plan on a path toward full funding. Information from this study led to changes in both demographic and economic assumptions, with the most notable being a reduction in the actuarially assumed rate of return from 7.5% down to 7.2%, for the defined benefit investments.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 2.94% in 2018 and 16.82% for 2017.

NOTE 8 RETIREMENT PLANS (CONTINUED)

Actuarial Assumptions (Continued)

The allocation of investment assets with the Defined Benefit portfolio is approved by the board of trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The tables below displays the board-approved asset allocation policy for 2018 and 2017 and the long-term expected real rates of return:

	20	2019		
		Weighted Average		
	Target	Long-Term		
	Allocation	Expected Real

Fixed Income Domestic Equities Real Estate Private Equity	Target Allocation For 2017 23.00 % 19.00 10.00 10.00	Weighted Average Long-Term Expected Real Rate of Return 2.20 % 6.37 5.26 8.97		

Discount Rate

The discount rate used to measure the total pension liability was 7.2% in 2018 and 7.5% in 2017. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 8 RETIREMENT PLANS (CONTINUED)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following tables presents the District's proportionate share of the net pension liability (asset) calculated using the current period discount rate assumption of 7.2%, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (6.2%) or one-percentage-point higher (8.2%) than the current rate:

		2019	
	1% Decrease	Current Discount Rate	1% Increase
	(6.20%)	(7.20%)	(8.20%)
District's Proportionate Share of the Net Pension Liability(Asset):			
Traditional Pension Plan	\$ 12,839,172	\$ 8,691,026	\$ 5,243,878
Combined Pension Plan	(9,816)	(29,668)	(44,041)
		2018	
		Current	
	1% Decrease	Discount Rate	1% Increase
	(6.50%)	(7.50%)	(8.50%)
District's Proportionate Share of the Net Pension Liability(Asset):			
Traditional Pension Plan Combined Pension Plan	\$ 8,437,910 832	\$ 4,751,757 (28,324)	\$ 1,678,616 (21,222)

NOTE 9 OTHER POSTEMPLOYMENT BENEFITS

Net OPEB Liability

As described in Note 8, OPERS provides benefits other than pensions, such as health care, that meet the GASB criteria for other postemployment benefit plans.

The net OPEB liability represents the District's proportionate share of the OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of the OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

NOTE 9 OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Net OPEB Liability (Continued)

GASB 75 assumes the OPEB liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The ORC permits, but does not require, the retirement system to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement system may allocate a portion of the employer contributions to provide for these OPEB benefits.

Plan Description - Ohio Public Employees Retirement System (OPERS)

The ORC permits, but does not require OPERS to offer postemployment health care coverage. The ORC allows a portion of the employers' contributions to be used to fund health care coverage. The health care portion of the employer contribution rate for the Traditional Pension Plan and Combined Plan is comparable, as the same coverage options are provided to participants in both plans.

Prior to January 1, 2015, the System provided comprehensive health care coverage to retirees with 10 or more years of qualifying service credit and offered coverage to their dependents on a premium deduction or direct bill basis. Beginning January 1, 2015, the service eligibility criteria for health care coverage increased from 10 years to 20 years with a minimum age of 60, or 30 years of qualifying service at any age. Beginning with January 2016 premiums, Medicare-eligible retirees could select supplemental coverage through the Connector, and may be eligible for monthly allowances deposited to an HRA to be used for reimbursement of eligible health care expenses. Coverage for non-Medicare retirees includes hospitalization, medical expenses, and prescription drugs. The system determines the amount, if any, of the associated health care costs that will be absorbed by the System and attempts to control costs by using managed care, case management, and other programs. Additional detail on health care coverage can be found in the Plan Statement in the OPERS 2018 CAFR.

Participants in the Member-Directed Plan are not eligible for health care coverage offered to benefit recipients in the Traditional Pension Plan and Combined Plan. A portion of employer contributions for these participants is allocated to a retiree medical account. Upon separation or retirement, participants may be reimbursed for qualified medical expenses from these accounts.

With the assistance of the System's actuary and board approval, a portion of each employer contribution to OPERS may be set aside for the funding of postemployment health care coverage. The portion of Traditional Pension Plan and Combined Plan employer contributions allocated to health care was 0% for 2018. The employer contribution as a percentage of covered payroll deposited for Member-Directed Plan health care accounts was 4.0% for 2018.

NOTE 9 OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2019, the District reported a liability for its proportionate share of the net OPEB liability for OPERS. The net OPEB liability was measured as of December 31, 2018. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of those dates. The District's proportion of the net OPEB liability was based on its share of contributions to the respective retirement systems relative to the contributions of all participating entities.

	Measurement Date	_ Net	OPEB Liability	Proportionate Share					
_	December 31, 2018	\$	4,167,222	0.031963000 %					
	December 31, 2017	\$	3,303,660	0.030422498 %					

For the years ended December 31, 2019 and 2018, the District recognized OPEB expense of \$432,887 and \$233,870, respectively.

At December 31, 2019 and 2018, the District reported deferred outflow of resources and deferred inflows of resources related to OPEB from the following sources:

		2019						
		Deferred	С	eferred				
	0	utflows of	In	flows of				
	R	esources	Re	esources				
Differences Between Projected and								
Actual Experience	\$	1,411	\$	11,307				
Changes of Assumption		134,357		-				
Differences Between Projected and								
Actual Investment Earnings		191,043		-				
Change in Proportionate Share		112,186		<u> </u>				
Total	\$	438,997	\$	11,307				
		20	10					
				\ - f l				
	_	Deferred	_	Deferred				
		utflows of esources		flows of

Actual Experience	\$	2,574	\$					
Changes of Assumption	Ψ	240,541	Ψ	_				
Differences Between Projected and		240,541		_				
Actual Investment Earnings		_		246,100				
Total	\$	243,115	\$	246,100				

There are no contributions subsequent to the measurement date because the contribution rate was 0% for 2019 and 2018.

NOTE 9 OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in benefit expense as follows:

Year Ending December 31,	 OPERS
2020	\$ 204,615
2021	93,680
2022	33,154
2023	 96,241
Total	\$ 427,690

Actuarial Assumptions

The total OPEB liability is based on the results of an actuarial valuation using the following key assumptions, applied to all periods included in the measurement:

	OPERS - as of 12/31/18	OPERS - AS OF 12/31/17				
Inflation	3.25%	3.25%				
Colony in arcasas	3.25% - 10.75% (includes	3.25% - 10.75% (includes				
Salary increases	inflation)	inflation)				
Single discount rate of return	3.96%	3.85%				
Investment rate of return	6.00%, net of investment	6.50%, net of investment				
investment rate of return	expenses	expenses				
Health care cost trends	10.0% initial, 3.25% ultimate in	7.50% initial, 3.25% ultimate				
ricalti care cost trends	2029	in 2028				

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 200. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

Projections of health care costs for financial reporting purposes are based on the substantive plan and included the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between the system and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2017, rolled forward to the measurement date of December 31, 2018.

NOTE 9 OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Discount Rate

A single discount rate of 3.96% was used to measure the OPEB liability on the measurement date of December 31, 2018. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 3.71%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the OPEB plan's fiduciary net position and future contributions were sufficient to finance the health care costs through the year 2031. As a result, the long-term expected rate of return on health care investments was applied to projected costs through 2031, and the municipal bond rate was applied to all health care costs after that date.

A single discount rate of 3.85% was used to measure the OPEB liability on the measurement date of December 31, 2017. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.50% and a municipal bond rate of 3.31%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the heath care fiduciary net position and further contributions were sufficient to finance health care costs through 2034.

NOTE 9 OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Target Investment Allocation and Long-Term Expected Real Rate of Return

The allocation of investment assets within the OPERS Health Care portfolio is approved by the Board as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. The System's primary goal is to achieve and maintain a fully funded status for benefits provided through the defined pension plans. Health care is a discretionary benefit. The tables below display the board-approved asset allocation policy and the long-term expected real rates of return.

	201	9
		Weighted

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the separately issued OPERS financial report.

Payable to the OPEB Plan

The District did not have a payable to the OPEB plan as of December 31, 2019 and 2018.

NOTE 10 COMPENSATED ABSENCES

Vacation, sick leave, and compensatory banked time policies are established by an agreement between the District and the American Federation of State, County and Municipal Employees, for members of the bargaining unit, and by personnel policy for management employees not covered by the labor agreement.

For nonunion employees, these agreements provide for two weeks of paid vacation for 1-4 years of service, three weeks for 4-9 years of service, four weeks for 9-14 years of service, 4.5 weeks for 14-19 years of service, five weeks for 19-24 years of service, and six weeks for over 24 years of service.

For union employees, these agreements provide for two weeks of paid vacation after one year of service, three weeks after five years of service, four weeks after 10 years of service, and five weeks after 20 years of service.

For union personnel, the labor agreement provides for sick leave pay to be credited at a rate of 4.6 hours for each 80 hours "in active pay status." By limiting the use of sick leave during the fiscal year, an employee may receive a bonus.

In the event of termination of employment after 10 consecutive years of service, or due to retirement, such employees are entitled to receive payment for one fourth of their accumulated sick leave, up to a maximum of 120 days. Employees may accrue up to 240 actual hours of work to their compensatory time bank. Employees may take compensatory time off with pay as mutually scheduled or receive the appropriate rate of pay for said time.

Compensated absences activity for the years ended December 31, 2019 and 2018 is as follows:

	Dec	cember 31,		December 31,						
		2018	I	ncrease		ecrease	2019			
Sick Leave Payable	\$ 257,302		\$	19,667	\$	21,788	\$	255,181

Compensatory Time		77,792		176,475		168,969		85,298		
Total	\$	539,371	\$	515,329	\$	470,776	\$	583,924		
	Dec	cember 31,					Dec	cember 31,		
		2017	I	ncrease		ecrease)		2018		
Sick Leave Payable	\$	240,798	\$	42,354	\$	25,850	\$	257,302		
Vacation Pay		210,129		302,623		308,475		204,277		
Compensatory Time		73,020		138,333		133,561		77,792		
Total	\$	523,947	\$	483,310	\$	467,886	\$	539,371		

The District estimates \$353,743 of compensated absences will be paid in 2020.

NOTE 11 INSURANCE

The District maintains comprehensive insurance coverage with private carriers for health, real property, building contents, and vehicles. There were no significant reductions in coverage between 2019 and 2018. There have been no significant reductions in insurance coverage since 2011 and no insurance settlement has exceeded insurance coverage during the last five years.

NOTE 12 COMMITMENTS AND CONTINGENCIES

Grants

The District has received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of District management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at December 31, 2019.

Construction Commitments

At December 31, 2019, the District has construction commitments, on which work has not commenced, totaling approximately \$5,858,937 which will be funded by existing resources or the issuance of new revenue debt. All projects were current at December 31, 2019.

Litigation and Claims

In the normal course of operations, the District may be subject to other litigation and claims. While the outcome of any such matters cannot presently be determined, management believes that their ultimate resolution will not have a material adverse effect on the District's financial position.

Other Pending EPA and Local Health Department Ordered Projects

The District has received various orders for installation of waste water treatment facilities and collection systems within various areas of the District. At December 31, 2019, there are two such ordered areas with preliminary or updated cost estimates totaling \$2.8 million for projects commencing or finishing over the next few years. These projects will be paid for by federal and state financial assistance and by the property owners benefiting from the projects through real estate special assessments and connection fees.

The District had approximately \$3,373,720 at December 31, 2019 in potential receivables related to special assessments that have been deferred by the County. The special assessments were deferred on properties, \$1,831,419 of which would have qualified for loans from the Rotary Commission and Wood County Commissioners pursuant to Section 6103.051 of the Ohio Revised Code, had these funds been available from the Rotary Commission. As these receivables become due and payable only in the event the properties no longer qualify, and therefore collection is uncertain, they have not been reported in the financial statements.

NOTE 13 SEGMENT INFORMATION

Significant financial data for the respective divisions of the December 31, 2019 and 2018 is as follows:

Statement of Net Position

CHANGE IN NET POSITION	\$	8,225,056	\$	5,820,581	\$	9,687,127	\$	3,866,546

Note to Supplementary Information

The District's budget is not prepared on the basis of accounting principles generally accepted in the United States of America (GAAP), the same basis on which its financial statements are prepared. The District is required by law to budget its funds, through adoption of an operating budget by March of each year for the following year. The operating budget includes estimates for total revenues, and debt service requirements for the fiscal year.

The Final Budget varies from the Original Budget due to adjustments made by management. The adjustments were made in an effort to make the balances more representative of the respective areas.

A reconciliation of the annual budget basis revenues and other income in excess of operating expenses to the net income included in the accompanying 2019 financial statements is as follows:

CHANGE IN NET POSITION - GAAP	<u>\$</u>	3,008,420
Principal Payments on Debt		4,666,664
Depreciation		(8,553,476)
GASB 75		(432,887)
GASB 68		(2,359,008)
Change in Net Position - Budgetary Basis Above	\$	9,687,127

NORTHWESTERN WATER & SEWER DISTRICT STATISTICAL SCHEDULES

This part of Northwestern Water & Sewer District's comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information about the District's overall financial health.

CONTENTS	<u>PAGE</u>
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time	S2
Revenue Capacity These schedules contain information to help the reader assess the factors affecting the District's ability to generate its water and sewer sales	S4
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future	S16
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place and to help make comparisons over time and with other governments	S21
Operating Information These schedules contain information about the District's operation and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs	S24
Sources	

Unless stated otherwise, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.
