We have reviewed the *Independent Auditor's Report* of the Lease Revenue Obligations Governed by Ohio Revised Code 154, Franklin County, prepared by Kennedy Cottrell Richards LLC, for the audit period July 1, 2019 through June 30, 2020. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Treasurer of State is responsible for compliance with these laws and regulations.

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the Debt Service Funds (the Funds) as held in the name of the Treasurer of the State of Ohio (the Treasurer) of the Mental Health Facilities, Parks and Recreation Facilities, Cultural and Sports Facilities, Adult Correctional Facilities, Administrative Facilities, Juvenile Correctional Facilities, Highway Safety Facilities, and the Transportation Building lease revenue bonds governed by the Ohio Revised Code Chapter 154 (the Obligations), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Funds basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Treasurer's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Treasurer's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Funds of the Treasurer of the State of Ohio, as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As discussed in Note 1, the financial statements present only the Funds and do not purport to, and do not, present fairly the financial position of the Treasurer of State of Ohio (which is part of the reporting entity of the State of Ohio) as of June 30, 2020, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary Information

Our audit was conducted to opine on the Funds' basic financial statements taken as a whole. The supplementary schedules present additional analysis and are not a required part of the basic financial statements.

The supplementary schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 25, 2020, on our consideration of the Treasurer's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Treasurer's internal control over financial reporting and compliance.

CHAPTER 154 LEASE REVENUE OBLIGATIONS
Management's Discussion and Analysis
As of and For the Fiscal Year Ended June 30, 2020
(UNAUDITED)

This section of the annual financial report for the Chapter 154 Lease Revenue Obligations presents management's discussion and analysis of financial performance for the fiscal year ended June 30, 2020. The management's discussion and analysis section should be read in conjunction with the Chapter 154 Lease Revenue Obligations debt service funds' financial statements, which follow. Chapter 154 refers to a chapter in the Ohio Revised Code (Ohio's statutes) titled, *Financing for Certain Capital Facilities*.

FINANCIAL HIGHLIGHTS

- As of June 30, 2020, total debt service fund assets exceeded liabilities and deferred inflows of resources by \$6.7 million. The total combined ending fund balance, which is restricted for debt service, decreased by \$4.2 million during fiscal year 2020.
- For fiscal year 2020, lease principal payments from state agency-lessees totaled \$200.4 million, and lease interest revenue was reported at \$89.5 million.
- During fiscal year 2020, the Treasurer of State issued \$257.0 million in new bonds with a total premium of \$49.2 million and \$215.3 million in refunding bonds with a total premium of \$9.0 million. In addition, \$204.9 million in bond principal and \$89.7 million in bond interest were paid to bondholders.

OVERVIEW OF THE FUND FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Chapter 154 Lease Revenue Obligations debt service funds' financial statements. The fund financial statements include a Balance Sheet, a Statement of Revenues, Expenditures and Changes in Fund Balances, and accompanying notes.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Governmental fund financial statements have a focus on near-term inflows and outflows of spendable resources and on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The Treasurer of State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All eight of the debt service funds listed below fall under the governmental fund classification:

- Mental Health Facilities Bond Service Fund
- Parks and Recreation Facilities Bond Service Fund
- Cultural and Sports Facilities Bond Service Fund
- Adult Correctional Facilities Bond Service Fund
- Administrative Facilities Bond Service Fund
- Juvenile Correctional Facilities Bond Service Fund
- Highway Safety Facilities Bond Service Fund
- Transportation Facilities Bond Service Fund

Debt service funds, by definition, account for resources accumulated and payments made for principal and interest on long-term debt. The financial statements for the funds listed above can be found on Pages 8 to 10 of this report. The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the fund financial statements. The notes to the financial statements can be found on Pages 11 to 17 of this report.

In addition, supplementary financial information follows the notes. Supplementary financial information, which can be found on Pages 18 to 31, provides additional information that is considered to be useful to certain users of the financial statements.

The increase in lease principal and unavailable revenue at June 30, 2020 compared to June 30, 2019 is the result of the amount the Treasurer issued in new bonds exceeding the continued payoff of outstanding bond principal,

STATE OF OHIO
CHAPTER 154 LEASE REVENUE OBLIGATIONS
Management's Discussion and Analysis

(UNAUDITED)

The tables that follow compare debt service fund revenues, expenditures, and other financing sources/(uses) reported for fiscal year 2020 with fiscal year 2019 results.

**Revenue
Comparative Analysis**
(Dollars in 000s)

	Fiscal Year 2020	Percent of Total 2020 Revenue	Fiscal Year 2019	Percent Change
Lease Principal from State Agencies.....	\$ 200,400	68.1%	\$ 221,015	-9.3%
Lease Interest from State Agencies.....	89,496	30.4%	94,467	-5.3%
Administrative and Other Fees.....	4,325	1.5%	1,989	117.4%
TOTAL REVENUES.....	\$ 294,221	100.0%	\$ 317,471	

As the above table indicates, 98.5% of debt service fund revenues for fiscal year 2020 were comprised of lease principal and interest from state agencies. Lease interest decreased for fiscal year 2020 primarily due to a decrease in debt service requirements during the year. This occurred because of the varying debt service requirements and savings realized on new and refunding bonds issued in 2019 and 2020. Lease principal decreased for fiscal year 2020 primarily due to varying maturity schedules for the outstanding bonds. The increase in administrative and other fees was attributable to a significant increase in new money and refunding bond issuances.

**Expenditures
Comparative Analysis**
(Dollars in 000s)

	Fiscal Year 2020	Percent of Total 2020 Expenditures	Fiscal Year 2019	Percent Change
Administrative Costs.....	\$ 353	0.1%	\$ 302	16.9%
Bond Issue Costs.....	3,482	1.2%	1,483	134.8%
Debt Service:				
Principal.....	204,935	68.7%	220,820	-7.2%
Interest.....	89,682	30.1%	95,024	-5.6%
TOTAL EXPENDITURES.....	\$ 298,452	100.0%	\$ 317,629	

As the table above shows, 98.8% of total reported expenditures for fiscal year 2020 were for debt service payments (principal and interest). Interest expenditures for fiscal year 2020 were less than fiscal year 2019 by 5.6% due to payments on bonds issued in 2019 and 2020. Principal expenditures for fiscal year 2020 were less than fiscal year 2019 by 7.2%. This decrease is due to varying maturity schedules for the outstanding bonds as well as six refunding bonds issued during fiscal year 2020. The total amount of outstanding bonds increased slightly in fiscal year 2020. Bond issuance costs increased for fiscal year 2020 because of an increase in bond issuances in fiscal year 2020.

The increase in new money bond proceeds (principal and premium) and financing provided to state agencies under leases are the result of five new bond issuances involving 12 series of bonds (six new and six refunding) in 2020 compared to two smaller bond issuances, involving four new series of bonds in 2019. The increase in refunding bond proceeds (principal and interest) and payments to refunding escrow agent are the result of refunding issuances involving six series of bonds during the 2020 fiscal year compared with no refunding issuances in 2019.

BUDGETARY HIGHLIGHTS

None of the debt service funds presented in the fund financial statements is required to have a legally adopted budget, and therefore, no budgetary comparisons have been included in this report.

NOTE 1 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying debt service fund financial statements for the Chapter 154 Lease Revenue Obligations have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles, which are included in the GASB's *Codification of Governmental Accounting and Financial Reporting Standards*. Significant accounting policies are as follows:

A. Reporting Entity

In 1969, the Ohio General Assembly enacted Chapter 154, Ohio Revised Code, pursuant to Section 2i of Article VIII of the Ohio Constitution. This constitutional provision authorizes the issuance of revenue and other obligations, the owners and holders of which are not given the right to have excises or taxes levied by the General Assembly for payment of principal or interest.

The Ohio Public Facilities Commission (Commission) was created at that time and was initially authorized to issue obligations of the State of Ohio to pay costs of capital facilities for (a) state-supported and state-assisted higher education institutions, (b) mental hygiene and retardation, and (c) parks and recreation. Under Section 154.23, Ohio Revised Code, enacted in 1980, the Commission was also authorized to issue obligations to pay costs of capital facilities for the housing of branches and agencies of state government. The General Assembly, however, never granted specific dollar authorization to the Commission to issue obligations for this additional purpose, and in 2000, Section 154.23, Ohio Revised Code, was repealed.

Effective on September 14, 2000, Amended Substitute House Bill 640 of the 123rd General Assembly reassigned the issuing authority and functions of the Commission with respect to the obligations to the Ohio Treasurer of State (Treasurer). The Treasurer succeeded the Commission as issuer with all responsibilities and obligations under the bond proceedings relative to the previously issued obligations. Under the authority of this legislation, the Treasurer has the authority to issue obligations only in such amounts as are previously authorized by the General Assembly, and the proceeds are to be applied only to capital improvements designated by or pursuant to action by the General Assembly. The financing arrangements for such obligations for capital improvements so designated involve separate bond proceedings and lease arrangements between the Commission (its only remaining responsibility relating to the obligations) and the respective state agencies, including the Department of Mental Health and Addiction Services and the Department of Developmental Disabilities for mental health facilities, and the Department of Natural Resources for parks and recreation facilities.

Pursuant to House Bill 16 of the 126th General Assembly which became effective on July 1, 2005, all matters relative to the issuance of obligations for the financing of Cultural and Sports Facilities, including all related obligations previously issued by the Ohio Building Authority under Chapter 152, Ohio Revised Code, were transferred to the Treasurer, including the lease agreements with the Cultural Facilities Commission. Subsequent to July 1, 2005, all new issuances of Cultural and Sports Facilities bonds were to be governed by the provisions of Chapter 154, Ohio Revised Code, as previously described above. Effective September 29, 2013, House Bill 59 of the 130th General Assembly abolished the Cultural Facilities Commission and transferred all assets and lease agreements with the Treasurer to the Ohio Facilities Construction Commission.

Amended Substitute House Bill 153, as enacted by the 129th General Assembly and effective January 1, 2012, provided that the Treasurer replace the Ohio Building Authority (the Authority) in all matters relating to the issuance of obligations for the financing of capital facilities for housing branches and agencies of State government. The legislation also provided that the Treasurer succeeds to all of the duties, powers, obligations and functions of the Authority relating to bonds previously issued by the Authority.

CHAPTER 154 LEASE REVENUE OBLIGATIONS
Debt Service Funds
Notes to the Financial Statements
As of and for the Fiscal Year Ended June 30, 2020
(Dollars in 000s)

NOTE 1 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

As part of the Treasurer succeeding in all matters of the Authority, the Treasurer assumed the following:

Community College Intercept Program –In October 2010, the Authority issued \$9,525 of bonds at rates from 1.5% to 6.17%, with payments due through 2035 on behalf of Clark State Community College. In fiscal year 2013, the Treasurer of State issued \$4,125 of bonds at rates from 2.0% to 4.0%, with payments due through 2033 on behalf of Rhodes State College (collectively, the “Colleges”). Since the Colleges are a proprietary component unit of the State of Ohio, its financial statements report the assets and debt financed through the Authority or Treasurer. Accordingly, the Treasurer’s Debt Service Fund financial statements do not include the Colleges’ activity. At June 30, 2020, \$9,985 of College bonds were outstanding.

The Treasurer of State, a constitutional member of the State’s executive branch who is separately elected, is considered to be part of the primary government within the State of Ohio’s financial reporting entity. In addition, the Ohio Public Facilities Commission, a legally separate organization from the State, meets the definition of a component unit of the State of Ohio’s financial reporting entity, since the voting majority of its governing board is composed of state elected and appointed officials, and the Commission provides services entirely, or almost entirely, to the State or otherwise exclusively, or almost exclusively, benefits the State. Consequently, the debt service fund financial statements presented herein are also included in the State of Ohio’s Comprehensive Annual Financial Report (CAFR) and are reported as part of the State of Ohio’s primary government, as explained further in Note 4.

B. Fund Accounting and Basis of Presentation

The Debt Management Section of the Treasurer of State’s Office uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

Transactions related to certain functions or activities are reported in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information about the debt service activities of the Chapter 154 Lease Revenue Obligations at a more detailed level. In governmental accounting, debt service funds are classified as governmental funds.

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

The following debt service funds are presented in separate columns in the fund financial statements:

Mental Health Facilities Bond Service Fund — This fund accounts for the debt service activities of the Mental Health Lease Revenue Bonds issued under the authority of Chapter 154, Ohio Revised Code.

Parks and Recreation Facilities Bond Service Fund — This fund accounts for the debt service activities of the Parks and Recreation Facilities Lease Revenue Bonds issued under the authority of Chapter 154, Ohio Revised Code.

Cultural and Sports Facilities Bond Service Fund — This fund accounts for the debt service activities of the Cultural and Sports Facilities Lease Revenue Bonds issued under the authority of Chapter 154, Ohio Revised Code. These bonds were previously issued by the Ohio Building Authority under Chapter 152 of the Ohio Revised Code.

NOTE 1 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Adult Correctional Facilities Bond Service Fund — This fund accounts for the debt service activities of the Adult Correctional Facilities Lease Revenue Bonds authorized by Chapter 154, Ohio Revised Code. These bonds were previously issued by the Ohio Building Authority under Chapter 152 of the Ohio Revised Code.

Administrative Facilities Bond Service Fund — This fund accounts for the debt service activities of the Administrative Facilities Lease Revenue Bonds authorized by Chapter 154, Ohio Revised Code. These bonds were previously issued by the Ohio Building Authority under Chapter 152 of the Ohio Revised Code.

Juvenile Correctional Facilities Bond Service Fund — This fund accounts for the debt service activities of the Juvenile Correctional Facilities Lease Revenue Bonds authorized by Chapter 154, Ohio Revised Code. These bonds were previously issued by the Ohio Building Authority under Chapter 152 of the Ohio Revised Code.

Highway Safety Facilities Bond Service Fund — This fund accounts for the debt service activities of the Highway Safety Facilities Lease Revenue Bonds authorized by Chapter 154, Ohio Revised Code. These bonds were previously issued by the Ohio Building Authority under Chapter 152 of the Ohio Revised Code.

Transportation Facilities Bond Service Fund — This fund accounts for the debt service activities of the Transportation Facilities Revenue Bonds authorized by Chapter 154, Ohio Revised Code. The transportation facilities bond program was established in House Bill 497 of the 130th General Assembly.

C. Measurement Focus and Basis of Accounting

The debt service funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

The debt service funds use the modified accrual basis of accounting. On a modified accrual basis, revenue, including lease interest, and other financing sources, pertaining to lease principal receipts, are recorded in the fiscal year in which the resources are measurable and become available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenues and other financing sources are considered to be available when they are collectible within 60 days of the fiscal year-end.

In governmental fund financial statements, leases receivable and deferred amounts are used to account for leases. Only the portion of lease receivables that represents other financing sources that are measurable and available is recognized in the debt service funds. The remainder, or the noncurrent portion, of the receivable is deferred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as amortization, are not recognized in the debt service funds.

Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service funds for payments to be made in the subsequent fiscal year, soon after June 30 (i.e., generally within less than one month of year-end).

NOTE 1 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budget

None of the debt service funds presented in the fund financial statements is required to have a legally adopted budget, and therefore, no budgetary comparisons have been included in this report.

E. Leases

Receivables are reported for principal and interest due under lease agreements between the Ohio Public Facilities Commission and the state agencies that are required to make the payments. Lease principal and interest receivable not collectible within 60 days are reported as unavailable revenue. Additional disclosures on lease-related receivables can be found in Note 3.

F. Fund Balance

Fund balance restricted for debt service represents amounts that are legally segregated for debt service.

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements and reported amounts of revenues and expenditures during the reported period. Actual results could differ from those estimates.

NOTE 2 — DEPOSITS

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the Treasurer of State will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. At June 30, 2020 the Treasurer of State's deposits were held by Trustees. The total carrying amount of deposits was \$422. Of the bank balance, \$364 was insured or collateralized.

NOTE 3 — LEASES

The primary sources of payments, as contemplated under the respective bond and note proceedings, for meeting bond interest and principal requirements and establishing and maintaining any funded "required reserve" and meeting any note interest and principal (partial) requirements, are rentals paid to the Treasurer by the following from moneys appropriated for such purposes by the General Assembly:

- Ohio Department of Mental Health and Addiction Services and Ohio Department of Developmental Disabilities – Mental Health Facilities
- Ohio Department of Natural Resources – Parks and Recreation Facilities
- Ohio Facilities Construction Commission – Cultural and Sports Facilities
- Ohio Department of Administrative Services – Administrative Facilities
- Ohio Department of Rehabilitation and Correction – Adult Correctional Facilities
- Ohio Department of Youth Services – Juvenile Correctional Facilities
- Ohio Department of Public Safety – Highway Safety Facilities
- Ohio Department of Transportation – Transportation Facilities

The respective obligations of each of the nine state agencies to make such rental payments pursuant to the respective leases with the Ohio Public Facilities Commission are expressly made subject to the availability of appropriations for such purposes. Each lease terminates when the Treasurer has paid or retired all of the bonds or bond anticipation notes contemplated by that lease for the respective category of facilities.

For the 2020-21 biennium, the 133rd General Assembly appropriated the amounts necessary from the General Revenue Fund to meet the payments required under such leases. The appropriated amounts and the lease amounts paid during fiscal year 2020 are detailed in the schedule, below. Such amounts were paid into the Treasurer's respective Bond Service Funds that are established to receive rental and other payments and to make payments of bond service charges (principal and interest).

	2020-21 Biennium Appropriations	Rent Paid to Treasurer of State
Ohio Department of Mental Health and Addiction Services and Ohio Department of Developmental Disabilities – Mental Health Facilities	\$ 80,129	\$ 36,707
Ohio Department of Natural Resources – Parks and Recreation Facilities	108,328	47,428
Ohio Facilities Construction Commission – Cultural and Sports Facilities	61,773	33,041
Ohio Department of Rehabilitation and Correction – Adult Correctional Facilities	137,738	61,468
Ohio Department of Administrative Services – Administrative Facilities	181,181	83,390
Ohio Department of Youth Services – Juvenile Correctional Facilities	32,432	14,502
Ohio Department of Public Safety – Highway Safety Facilities	3,194	1,575
Ohio Department of Transportation – Transportation Facilities	38,457	16,531

There were additional unappropriated funds available to supplement the rental payments required under the respective bond proceedings for the payment of the lease revenue obligations. These funds were composed of interest earnings, capitalized interest, and original issue premium on bond sales.

The respective bond service accounts under the trust agreements for the bonds are restricted to payments of principal and interest on the bonds issued and outstanding under those respective trust agreements. No debt service reserve funds have been established for the outstanding Chapter 154 lease revenue bonds.

As of June 30, 2020, future payments to be received from the state agencies responsible for making the requisite payments under the lease agreements are detailed in the following schedule by debt service fund.

NOTE 4 — CONSOLIDATION OF DEBT SERVICE FUND BALANCES IN THE STATE OF OHIO'S CAFR

The Ohio Office of Budget and Management will consolidate the accompanying financial statements of the debt service funds in the financial statements presented in the State of Ohio's CAFR as of and for the year ended June 30, 2020.

When the debt service funds' financial statements are consolidated at the state level, the leases receivable, both principal and interest, and unavailable revenue balances will not be reported on the State's balance sheet for governmental funds, since the lease agreements are between organizations included within the State's primary government. The accounting treatment at the state level is in conformity with the guidance provided in Section L20 of the GASB's *Codification of Governmental Accounting and Financial Reporting Standards*.

NOTE 5 — SUBSEQUENT EVENTS

On August 12, 2020, the Treasurer's Office issued Series 2020A Parks and Recreation Facilities Bonds, totaling \$56.3 million. \$2.4 million of the proceeds was used to refund the outstanding balance on the 2011A Parks and Recreation Facilities Bonds. The bonds have an average coupon of 5.00% and a final maturity date of December 1, 2032.

On August 12, 2020, the Treasurer's Office issued Series 2020B Parks and Recreation Facilities Bonds, totaling \$57.0 million. The bonds were sold with a variable interest rate and a final maturity date of December 1, 2040.

On August 12, 2020, the Treasurer's Office issued Series 2020D Administrative Facilities Bonds, totaling \$59.0 million, which refunded a portion of the outstanding balance on the 2011A, 2012A, 2012B, 2013A, 2015C, 2016A, 2017A, 2017B, and 2019A Administrative Facilities Bonds. The bonds have an average coupon of 1.32% and a final maturity date of October 1, 2036.

On September 24, 2020, the Treasurer's Office issued Series 2020A Cultural Facilities Bonds, totaling \$44.0 million. The bonds have an average coupon of 5.00% and a final maturity date of October 1, 2030.

On September 24, 2020, the Treasurer's Office issued Series 2020A Juvenile Correctional Facilities Bonds, totaling \$5.5 million, which refunded a portion of the outstanding balance on the 2010D Juvenile Correctional Facilities Bonds. Net Change in Fund Balance per Debt Service Funds'
Statement of Revenues, Expenditures and Changes in Fund Balances **\$ (4,231)**

Amounts reported in the Schedule of Activities is different from the Debt Service Funds' Statement of Revenue, Expenditures and Changes in Fund Balances because:

Lease principal and interest revenues are unavailable revenue in the debt service funds. During the fiscal year, unavailable revenue changed by the following amounts.

Lease Principal	57,610
Lease Interest	<u>(1,111)</u>
	<u>56,499</u>

Increases and decreases in unamortized lease premiums/discounts are not reported in the debt service funds

Unamortized Lease Premium/Discount, Net	18,164

Debt proceeds provide current financial resources to the debt service funds, but issuing debt increases long-term liabilities in the Schedule of Net Position. In the current period, proceeds were received from:

Refunding Bonds	(215,275)
Premiums	(58,202)
Deferred Amount on Refunding	1,071
	<u>(529,366)</u>

Repayments and refundings of long-term debt are reported as expenditures or other financing uses in the debt service funds, but the repayments and refundings reduce long-term liabilities in the Schedule of Net Position. During the fiscal year, these amounts consisted of:

Debt Principal Refundings	214,225
Scheduled Debt Principal Retirements	204,935
	<u>419,160</u>

Some expenses reported in the Schedule of Activities are not reported as expenditures in the debt service funds. Under the modified accrual basis of accounting used for debt service funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Schedule of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. This adjustment combines the changes in the following balances:

Decrease in Bond Interest Payable	806
Amortization of Bond Premiums/Accretion of Bond Discounts, Net	45,574
Amortization of Deferred Refunding Amount	(6,606)

*The interest rates for the Series 2016B, 2016C, and 2019C bonds are set on a weekly basis and the above rates are as of June 30, 2020. The rates are set on Tuesdays, and are effective Wednesday through the following Tuesday (for a total period of 7 days). The rates for the Series 2016B and 2019C bonds are determined by a remarketing agent. The rate for the Series 2016C bonds is established in a bid process that is held on the Clarity Bidrate Alternative Trading System. Subscribers to the Clarity System can submit bids to purchase Series 2016C bonds, and the weekly rate is the lowest interest rate at which the entire principal amount of the Series 2016C bonds would be sold based on the bids submitted.

As of and For the Year Ended June 30, 2020
(Dollars in 000s)

Refunding Issues

During fiscal year 2020, three refunding issues were transacted whereby the Treasurer refunded lease revenue bond issues. The net proceeds of the refunding bonds, after payment of underwriting fees and bond issue costs, were deposited in escrow with a trustee pending the bond's maturity or call date. A resulting economic gain or loss from the refundings represents the difference between the present values of the debt service payments on the old and new debt. Detail on the refunding bond transactions are discussed below.

- A.** On July 9, 2019, the Treasurer refunded portions of two series of previously issued bonds to reduce the State's total debt service payments by issuing \$25,350 of 2019A Adult Correctional Facilities refunding bonds, and \$25,935 of 2019A Administrative Facilities refunding bonds. The overall transaction resulted in an economic gain of \$2,882 and total issuance costs and underwriter's discount of \$412. The refunding resulted in the Treasurer decreasing its total debt service payments over the life of the bonds by \$3,082.

2019A Adult Correctional Facilities Bonds – The 2019A Adult Correctional Facilities Bonds, with an average interest rate of 5.00%, refunded \$26,255 in principal, plus interest of the 2009B Adult Correctional Facilities Bonds due on October 1, 2020 through October 1, 2024. The refunded bonds had an average interest rate of 5.00%.

2019A Administrative Facilities Bonds – The 2019A Administrative Facilities Bonds, with an average interest rate of 5.00%, refunded \$26,865 in principal, plus interest of the 2009B Administrative Facilities Bonds due on October 1, 2020 through October 1, 2024. The refunded bonds had an average interest rate of 4.94%.

- B.** On November 5, 2019, the Treasurer refunded portions of three series of previously issued bonds to reduce the State's total debt service payments by issuing \$13,205 of 2019B Juvenile Correctional Facilities refunding bonds, and \$22,270 of 2019B Administrative Facilities refunding bonds. The overall transaction resulted in an economic gain of \$3,313 and total issuance costs and underwriter's discount of \$339. The refunding resulted in the Treasurer decreasing its total debt service payments over the life of the bonds by \$3,602.

2019B Juvenile Correctional Facilities Bonds – The 2019B Juvenile Correctional Facilities Bonds, with an average interest rate of 4.95%, refunded \$14,300 in principal, plus interest of the 2009B, and 2010C Juvenile Correctional Facilities Bonds due on October 1, 2020 through October 1, 2024. The refunded bonds had an average interest rate of 4.52%.

2019B Administrative Facilities Bonds – The 2019B Administrative Facilities Bonds, with an average interest rate of 4.85%, refunded \$25,565 in principal, plus interest of the 2010B Administrative Facilities Bonds due on October 1, 2020 through October 1, 2029. The refunded bonds had an average interest rate of 5.86%.

- C.** On March 10, 2020, the Treasurer refunded portions of six series of previously issued bonds to reduce the State's total debt service payments by issuing \$57,055 of 2020A Adult Correctional Facilities refunding bonds, and \$71,460 of 2020A Administrative Facilities refunding bonds. The overall transaction resulted in an economic gain of \$11,795 and total issuance costs and underwriter's discount of \$858. The refunding resulted in the Treasurer decreasing its total debt service payments over the life of the bonds by \$12,621.

2020A Adult Correctional Facilities Bonds – The 2020A Adult Correctional Facilities Bonds, with an average interest rate of 1.94%, refunded \$53,680 in principal, plus interest of the 2010A, 2011B, and 2014A Adult Correctional Facilities Bonds due on October 1, 2021 through April 1, 2034. The refunded bonds had an average interest rate of 4.98%.

2020A Administrative Facilities Bonds – The 2020A Administrative Facilities Bonds, with an average interest rate of 1.91%, refunded \$67,560 in principal, plus interest of the 2010C, 2011A, and 2013B Administrative Facilities Bonds due on October 1, 2021 through April 1, 2033. The refunded bonds had an average interest rate of 4.92%.

Prior Years' Defeasances

The Treasurer has defeased certain Chapter 154 Lease Revenue Obligations by placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the various trust accounts' assets and liabilities for the defeased bonds are not included in the financial statements of the Chapter 154 Lease Revenue Obligations. The following table details bonds refunded in fiscal years 2020 and prior, which are considered to be defeased and no longer outstanding as of June 30, 2020.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the Debt Service Funds, as held in the name of the Treasurer of State of Ohio (the Treasurer) of the Mental Health Facilities, Parks and Recreation Facilities, Cultural and Sports Facilities, Adult Correctional Facilities, Administrative Facilities, Juvenile Correctional Facilities, Highway Safety Facilities and the Transportation Building lease revenue bonds governed by the Ohio Revised Code Chapter 154 as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Funds' basic financial statements, and have issued our report thereon dated September 25, 2020.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Treasurer's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the Treasurer's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. *A material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Treasurer's financial statements. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the Treasurer's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Independent Auditor's Report on Internal Control
Over Financial Reporting and on Compliance and
Other Matters Required by *Government Accounting Standards*

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Treasurer's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Treasurer's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
