

CITY OF NILES
TRUMBULL COUNTY, OHIO

SINGLE AUDIT

FOR THE YEAR ENDED
DECEMBER 31, 2020

OHIO AUDITOR OF STATE
KEITH FABER

88 East Broad Street
Columbus, Ohio 43215
IPARepor@ohioauditor.gov
(800) 282-0370

Members of Council and Mayor
City of Niles
34 West State Street
Niles, Ohio 44446

We have reviewed the *Independent Auditor's Report* of the City of Niles, Trumbull County, prepared by Julian & Grube, Inc., for the audit period January 1, 2020 through December 31, 2020. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Niles is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Keith Faber".

Independent Auditor's Report

City of Niles
Trumbull County
34 W. State Street
Niles, Ohio 44446

To the Members of Council and Mayor:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Niles, Trumbull County, Ohio, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City of Niles' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City of Niles' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Niles' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Niles, Trumbull County, Ohio, as of December 31, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparisons for the general fund and police and fire tax fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As described in Note 24 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the City of Niles. As described in Note 23 to the financial statements, the City of Niles restated beginning net position related to capital assets and the implementation of Governmental Accounting Standards Board Statement No. 83. Our opinions are not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis* and *schedules of net pension and other postemployment benefit assets and liabilities and pension and other postemployment benefit contributions* listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Niles' basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2021, on our consideration of the City of Niles' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Niles' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Niles' internal control over financial reporting and compliance.

City of Niles
Management's Discussion and Analysis
For the Year Ended December 31, 2020
Unaudited

The discussion and analysis of the City of Niles' financial performance provides an overall review of the City's financial activities for the year ended December 31, 2020. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers are encouraged to consider information presented here in conjunction with the additional information contained in the basic financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

Financial highlights for 2020 are as follows:

- The City's overall financial position improved in 2020. Governmental activities net position increased due mainly to an increase in cash and cash equivalents attributable to the issuance of bonds and a decrease in the net pension liability. Business-type activities net position increased due to an increase in cash and cash equivalents attributable to higher charges for services revenues and an increase in capital assets. These increases were partially offset by an increase in the net pension liability.
- In December 2020, the City issued various purpose general obligation bonds for the purchase of a fire truck, street sweeper and backhoe for the fire department, street department and water department, respectively. The City also issued various purpose refunding bonds for the purpose of refunding the 2011 various purpose improvement bonds in order to take advantage of lower interest rates.
- The City implemented GASB Statement No. 83 during the year establishing specific criteria for asset retirement obligations.
- Governmental long-term debt obligations decreased due to the decrease in the net pension liability and the continued pay-down of debt. The decrease was partially offset by an increase in general obligation bonds payable and the net OPEB liability. Business-type long-term liabilities decreased from the prior year due to decreases in the net pension liability and current year debt payments. This was partially offset by increases in the net OPEB liability.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the readers can understand the City of Niles as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole City, presenting both an aggregate view of the City's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the City's most significant funds with all other nonmajor funds presented in total in one column.

Unaudited

Reporting on the City as a Whole

Statement of Net Position and the Statement of Activities

The Statement of Net Position presents information, excluding fiduciary funds, on all the City's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. However, in evaluating the overall position of the City, non-financial factors such as the City's tax base, change in tax laws and the condition of capital assets should also be considered. Both the Statement of Net Position and the Statement of Activities use the accrual basis of accounting that is similar to the accounting method used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

The Statement of Net Position and the Statement of Activities are divided into the following categories:

- Assets
- Deferred Outflows of Resources
- Liabilities
- Deferred Inflows of Resources
- Net Position
- Program Revenues and Expenses
- General Revenues
- Net Position Beginning of Year and Year's End

In the Statement of Net Position and the Statement of Activities, the City is divided into two kinds of activities:

- ◆ Governmental activities - Most of the City's programs and services are reported here including police, fire and rescue, street maintenance, capital improvements and general administration. These services are funded primarily by property and income taxes and intergovernmental revenues including Federal and State grants and other shared revenues.
- ◆ Business-type activities - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The City's water, sewer, electric and para-transit operations are reported here.

Reporting on the Most Significant Funds of the City

Fund Financial Statements A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other State and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Fund financial reports provide detailed information about the City's major funds. The City uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the City's most significant funds. The City's major governmental funds are the general fund and the police and fire tax special revenue fund.

City of Niles
Management's Discussion and Analysis
For the Year Ended December 31, 2020
Unaudited

Governmental Funds Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation.

Proprietary Funds The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City's enterprise funds are the water, sewer, electric and para-transit funds.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City's internal service funds report on City departments' motor fuel and self-insurance programs for employee medical benefits.

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The City's fiduciary funds are a private purpose trust and two custodial funds.

Notes to the Financial Statements The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The City as a Whole

The Statement of Net Position provides an overall view of the City. Table 1 shows a summary of the City's net position for 2020 as they compare to 2019.

The net pension liability (NPL) is one of the largest single liabilities reported by the City at December 31, 2020. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the “employment exchange” – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they receive the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

City of Niles
Management's Discussion and Analysis
For the Year Ended December 31, 2020
Unaudited

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

Governmental activities current and other assets increased over the prior year due mainly to an increase in cash and cash equivalents attributable to the issuance of bonds in December and a significant decrease in the net pension liability. Capital assets increased due to current year additions of construction in progress, land improvements, buildings and improvements, buildings and improvements, equipment, vehicles and infrastructure. The decrease in long-term liabilities can be attributed to a decrease in the net pension liability, which was offset by increases in general obligation bonds payable and the net OPEB liability.

Net position of business-type activities increased from the prior year. Current and other assets increased due to an increase in cash and cash equivalents due to an increase in revenues coupled with a decrease in expenses. The increase in capital assets is attributable to current year additions of all categories and the completion of the wastewater treatment plant upgrades. Long-term liabilities decreased due to a decrease in net pension liability and current year debt payments, which was offset by an increase in the net OPEB liability.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for the current year. Table 2 shows total revenues, expenses and changes in net position for the fiscal years 2020 and 2019.

In 2019, OP&F recognized a change in benefit terms for their OPEB plan. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements. This new model replaced the self-insured health care plan used in prior years. These changes contributed to OPEB expense decreasing from \$846,839 in 2018 to a negative OPEB expense of (\$8,314,299) for 2019. In 2020, the OPEB expense is \$104,201.

Governmental Activities

Governmental program revenues decreased in 2019 due to decreases in all program revenues categories. Interest revenue and income taxes decreased significantly from the prior year. The decreases in these revenue sources are a result of the negative effects of the pandemic on the economy at all levels. These decreases come despite steps taken by City management to ensure future financial stability. Some of these measures include increased fees and fines charged by the City, increasing the income tax rate, switching from an internal income tax department to using Regional Income Tax Agency (RITA) and changing the City's bank account structure to generate more interest revenue. The City continues to seek out additional sources of revenue. These efforts, along with cost cutting measures, led to the City's release from fiscal emergency in 2019.

Funding for governmental activities is derived from several sources, the largest of which is the City's municipal income tax. The revenue collected from the income tax, less funds necessary to cover refunds are receipted into the general fund and the police and fire tax fund.

General government, leisure time activities and community environment expenses decreased due to fewer projects in 2020 as the City employed preventive measures against the pandemic. Security of persons and property expenses returned to more normal levels after being greatly affected in 2019 from OP&F switching to a stipend reimbursement in their healthcare funding, resulting in negative expenses. Transportation expenses increased due to a large amount of community development projects in the prior year.

Unaudited

Business-Type Activities

The City has four business-type operations. They are water, sewer, electric and para-transit operations. The largest source of revenue for business-type operations was charges for services. On the expense side, the largest expense was for contractual services for operations.

The City's Funds

Information about the City's governmental funds begins with the balance sheet. The funds are accounted for using the modified accrual method of accounting. The general fund concluded the year with an increase in fund balance due to a decrease in expenditures, which was offset by a decrease in revenues due to the pandemic. The police and fire tax fund fund balance remained relatively consistent with the prior year. There was a decrease in income taxes, which was offset by a larger transfer from the general fund.

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The water fund's net position increased due to higher charges for services revenue combined with a decrease in expenses from 2019. The sewer fund's net position increased due to an increase in charges for services revenue and an increase in capital assets due to the completion of the wastewater treatment plant upgrades. The electric fund had an increase in net position due to an increase in charges for services revenue combined with a decrease in operating expenses.

General Fund Budgeting Highlights

Budgeting for the operations of the City is done as prescribed by Ohio Revised Code. Essentially the budget is the City's appropriations, which is restricted by the amounts of the anticipated revenues certified by the County Budget Commission in accordance with Ohio Revised Code. In 2020, actual revenues for the general fund were less than final estimated revenues due in large part to lower income taxes, excise taxes and interest revenues collected than expected. The City actively seeks out additional sources of funding to maintain services. Actual expenditures were less than final appropriations due to management's effort to control costs and ensure economic stability going forward.

Capital Assets and Long-Term Obligations

Capital Assets

Total capital assets for the governmental activities, net of accumulated depreciation increased from the prior year as the City made a substantial investment through additions to all categories other than land. Substantial additions were especially made to construction in progress, buildings and improvements and infrastructure.

Total capital assets for the business-type activities, net of accumulated depreciation increased from the prior year. Current year additions included all categories, including the completion of the wastewater treatment plant upgrades. See Note 10 to the basic financial statements for additional information on capital assets.

Long-Term Obligations

During 2020, the City's long-term obligations outstanding decreased due to a decrease in the net pension liability and the continued paydown of debt. These were partially offset by increases in compensated absences and the net OPEB liability. During 2020, the City issued refunding bonds to fully refund the 2011 various purpose general obligation bonds.

City of Niles
Management's Discussion and Analysis
For the Year Ended December 31, 2020
Unaudited

The City's overall debt margin was \$20,237,737 and the unvoted legal debt margin was \$7,293,005 at December 31, 2020. For more information about the City's long-term obligations, see Note 12 to the basic financial statements.

Current Financial Issues

From a management and administrative perspective, the City is continuing to examine expenditures to reduce where possible and gain efficiencies as well. Departments are continuing to operate at minimal staffing levels in an effort to reduce overall payroll and benefit costs. Like many other municipalities, the City of Niles faces uncertainty concerning Federal and State revenue sources. The Administration is continually reviewing all programs to determine the most efficient use of funds and resources, to maintain the high level of service to the residents. In 2019, the City was released from fiscal emergency due to management seeking out additional revenue sources and taking cost cutting measures. The City is looking to continue these measures going forward to ensure the City's financial stability for the future. During 2020, the City faced some revenue shortfalls due to the pandemic. However, the City's financial stability remains intact due to careful monitoring and planning by City management.

Contacting the City of Niles's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Giovanna Merlo, City Auditor, City of Niles, 34 West State Street, Niles, Ohio 44446.

*Reconciliation of Total Governmental Fund Balances to
 Net Position of Governmental Activities
 December 31, 2020*

Total Governmental Fund Balances	\$15,091,126
 <i>Amounts reported for governmental activities in the statement of net position are different because</i>	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	24,209,525
Other long-term assets are not available to pay for current-period expenditures and therefore are reported as unavailable revenue in the funds.	
Delinquent Property Taxes	178,844
Hotel Taxes	5,803
Income Taxes	2,499,052
Intergovernmental	631,949
Special Assessments	153,608
Rentals	210
Total	3,469,466
Internal service funds are used by management to charge the costs of insurance and materials and supplies to individual funds. The assets and liabilities of the internal service funds are included as part of governmental activities in the statement of net position.	
Net Position	662,517
Internal Balances	(493,063)
Total	169,454
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.	(12,470)
The net pension asset, net pension liability and net OPEB liability are not due and payable in the current period; therefore, the asset, the liability and related deferred inflows/outflows are not reported in governmental funds.	
Net Pension Asset	6,230
Deferred Outflows - Pension	2,230,184
Deferred Inflows - Pension	(2,287,923)
Net Pension Liability	(14,823,299)
Deferred Outflows - OPEB	1,393,758
Deferred Inflows - OPEB	(1,317,445)
Net OPEB Liability	(3,469,863)
Total	(18,268,358)
Deferred inflows of resources represent deferred gains on refundings, which are not reported in the governmental funds.	(8,332)
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.	
General Obligation Bonds	(4,123,200)
Police and Fire Pension	(279,021)
Compensated Absences	(1,483,156)
Special Termination Benefits Payable	(6,729)
Deferred Outflows Asset Retirement	12,000
Asset Retirement Obligation	(40,000)
Total	(5,920,106)
<i>Net Position of Governmental Activities</i>	\$18,730,305

City of Niles, Ohio
*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended December 31, 2020*

Net Change in Fund Balances - Total Governmental Funds		\$2,997,137
<i>Amounts reported for governmental activities in the statement of activities are different because</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.		
Capital Asset Additions	1,897,952	
Current Year Depreciation	(1,315,677)	
Total		582,275
Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.		
		(261,607)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Delinquent Property Taxes	(5,480)	
Hotel Taxes	5,803	
Income Taxes	(14,373)	
Intergovernmental	(148,321)	
Special Assessments	(27,269)	
Rentals	(1,526)	
Total		(191,166)
The internal service funds used by management are not reported in the City-internal service fund revenue are eliminated. The net revenue (expense) of the internal service funds is allocated among the governmental activities.		
Change in Net Position	66,962	
Internal Balances	(5,822)	
Total		61,140
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.		
Pension	1,234,772	
OPEB	24,138	
Total		1,258,910
Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liabilities are reported as pension/OPEB expense in the statement of activities.		
Pension	(1,831,926)	
OPEB	(294,610)	
Total		(2,126,536)
Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.		
		391,148
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Accrued Interest on Bonds	2,184	
Amortization of Premium	1,319	
Amortization of Deferred Gain on Refunding	70	
Total		3,573
Amortization of deferred outflows related to the asset retirement obligation is reported as an expense in the statement of activities.		
		(1,333)
Some expenses reported in the statement of activities, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Compensated Absences	(79,736)	
Special Termination Benefits Payable	22,594	
Total		(57,142)
Other financing sources, such as the general obligation refunding bonds issued, in the governmental funds that increase long-term liabilities in the statement of net position are not reported as revenues in the statement of activities.		
General Obligation Bonds Issued	(883,000)	
General Obligation Refunding Bonds Issued	(2,053,000)	
Payment to Refunded Bond Escrow Agent	2,030,996	
Total		(905,004)
<i>Change in Net Position of Governmental Activities</i>		\$1,751,395

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Note 1 - Description of the City and Reporting Entity

The City of Niles (the "City") was incorporated under the laws of the State of Ohio in 1865. The City operates under a Council-Mayor form of government. The Mayor is elected to a four-year term. The eight council members serve two-year terms.

Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the City. For the City of Niles, this includes the agencies and departments that provide the following services: police and fire protection, street maintenance and repairs, building inspection, sewer, water and electric.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and 1) the City is able to significantly influence the programs or services performed or provided by the organization; or 2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the budget, the issuance of debt or levying of taxes. The City has no component units.

The City participates in three jointly governed organizations and two joint ventures. They are the Regional Income Tax Agency, Eastgate Regional Council of Governments, the Emergency Management Agency, the Ohio Municipal Electric Generation Agency Joint Venture 5 (JV5) and the Ohio Municipal Electric Generation Agency Joint Venture 2 (JV2), respectively. These organizations are presented in Notes 15 and 16 to the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the City's accounting policies are described below.

Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activities of the internal service funds are eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the City that are governmental and those that are considered business-type.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

The statement of net position presents the financial condition of the governmental and business-type activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the City.

Fund Financial Statements During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of the governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Fund Governmental funds are those through which most governmental functions are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and governmental fund liabilities and deferred inflows of resources is reported as fund balance. The following are the City's major governmental funds:

General fund The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Police and fire tax fund This fund accounts for and reports the restricted revenue received from income tax for police and fire and for various police and fire expenditures.

The other governmental funds of the City account for grants and other resources whose use is restricted, committed or assigned to a particular purpose.

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

Enterprise Fund Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The City has three major enterprise funds.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Water fund This fund accounts for the provision of water treatment and distribution to its residential and commercial users located within the City.

Sewer fund This fund accounts for the provision of sanitary sewer service to the residents and commercial users located within the City.

Electric fund This fund accounts for the operations of providing electric services to customers and to maintain the local electric system of the City.

Other enterprise funds of the City are used to account for the operations of the City's transportation services for users within the City.

Internal Service Fund Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis. The City's internal service funds are a health fund that accounts for vision, dental, prescription drug and hospital/medical claims of the City employees and for fuel reimbursements across all departments.

Fiduciary funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangement that has certain characteristics. The City's only trust fund is a private-purpose trust which accounts for an endowment. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The City's custodial funds are used to account for the amounts collected by the municipal court that are paid to other governments and the collection of gross payroll for respective funds and disbursements of net pay to employees and withholdings to proper vendors.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the City are included on the Statement of Net Position. The Statement of Activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources are generally included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statement for governmental funds.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Like the government-wide statements, all proprietary and fiduciary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of fund net position. In fiduciary funds, a liability to the beneficiaries of fiduciary activity is recognized when an event has occurred that compels the government to disburse fiduciary resources. Fiduciary fund liabilities other than those to beneficiaries are recognized using the economic resources measurement focus.

For the proprietary funds, the statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from private purpose trust and the custodial fund.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; proprietary and fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within thirty-one days of year-end.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned. Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: income tax, state-levied locally shared taxes (including gasoline tax and motor vehicle license fees), interest, fines and forfeitures, grants and fees.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources are reported on the government-wide statement of net position for asset retirement obligations, pension and OPEB. The deferred outflows of resources related to asset retirement obligations is originally measured at the amount of the corresponding liability. This amount is expensed in a systematic and rational manner of the tangible asset's useful life. The deferred outflows of resources related to pension and OPEB are explained in Notes 13 and 14.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes, pension, OPEB, unavailable revenue and gain on refunding. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2020, but which were levied to finance fiscal year 2021 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the City unavailable revenue includes delinquent property taxes, income taxes, hotel taxes, special assessments, rentals and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities found on page 17. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Notes 13 and 14). In addition, deferred inflows of resources include a deferred gain on refunding. A deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is amortized over the shorter of the life of the refunded or refunding debt.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized when they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension asset, net pension/OPEB liability, deferred outflows of resources, and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Budgetary Process

All funds, except custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations ordinance, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount Council may appropriate. The appropriations ordinance is Council's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Council. The legal level of budgetary control has been established by City Council at the function level of expenditures by personal services and all other expenditure categories within each department for all funds pursuant to Ohio Revised Code Section 5705.38(C). Budgetary modifications may only be made by ordinance of the City Council at the legal level of control. The City Auditor has been authorized to allocate appropriations within expenditure categories as appropriated by Council. Budgetary statements are presented beyond the legal level of control for informational purposes only.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the City Auditor. The amounts reported as the original and final budgeted amounts on the budgetary statements reflect the amounts on the original and final amended official certificate of estimated resources when the original and final appropriations were enacted by Council.

The appropriations ordinance is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts on the budgetary statements reflect the first appropriations ordinance for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Council during the year.

Cash and Cash Equivalents

To improve cash management, cash received by the City is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through City records. Interest in the pool is presented as "equity in pooled cash and cash equivalents".

The City has segregated bank accounts for monies held separately from the City's central bank account as part of a revolving loan fund administered by Mahoning Valley Economic Development Agency. These interest-bearing depository accounts and investments are presented on the financial statements as "cash in segregated accounts" since they are not required to be deposited into the County treasury.

Investment procedures are restricted by the provisions of the Ohio Revised Code. Interest revenue is distributed to the general fund, certain special revenue funds, debt service funds and certain capital projects funds. Interest revenue credited to the general fund during 2020 amounted to \$222,158, which includes \$163,801 assigned from other City funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the City are presented on the financial statements as cash equivalents.

Investment in Joint Venture

The investment in the joint venture is reported using the equity method of accounting. The amounts included in the statements relating to the joint venture are as of December 31, 2020.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2020, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount at the time of purchase and reflecting the expenditure/expense in the year in which the services are consumed.

Restricted Assets

Assets are reported as restricted when limitations on their use change in nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws or other governments or imposed by law through constitutional provisions or enabling legislation. Restricted assets in the general fund represent money set aside for unclaimed monies. Restricted assets in the enterprise funds represent utility deposits held by the City.

Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption.

Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The City was able to estimate the historical cost for the initial reporting of infrastructure by backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are valued at their acquisition values as of the date received. The City maintains a capitalization threshold of ten thousand dollars for infrastructure, zero dollars for land, works of art, computers and computer peripherals and five thousand dollars for all other assets. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of an asset or materially extend an asset's life are not.

All reported capital assets are depreciated except for land, rights of way and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacements. Depreciation for governmental and business-type capital assets is computed using the straight-line method over the following useful lives:

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Land Improvements	20-40 years	N/A
Buildings and Improvements	25-50 years	25-50 years
Machinery and Equipment	N/A	7-30 years
Equipment	7-30 years	N/A
Vehicles	10 years	10 years
Infrastructure	20-50 years	25-50 years

The City’s infrastructure consists of roads, sidewalks, storm sewers, bridges and culverts, dams and does not include infrastructure acquired prior to December 31, 1980.

Interfund Balances

On the fund financial statements, outstanding interfund loans and unpaid amounts for interfund services are reported as “interfund receivables/payables”. Long term interfund loans are reported as “loans receivable” and are classified as nonspendable fund balance which indicates that they do not constitute “available expendable resources” since they are not a component of net current position. Interfund balance amounts are eliminated in the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. The City records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the City has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees’ wage rates at year end, taking into consideration any limits specified in the City’s termination policy. The City records a liability for accumulated unused sick leave for all employees after five years of service.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims, compensated absences and net pension liability that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and long-term loans are recognized as a liability on the governmental fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan’s fiduciary net position is not sufficient for payment of those benefits.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term loans receivable for the general fund.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation (City ordinances).

Enabling legislation authorizes the City to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the City can be compelled by an external party—such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by the highest level of formal action (ordinance or resolution, as both are equally binding) of City Council. Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by City Council, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by City Council. In the general fund, assigned amounts represent intended uses established by City Council or a City official delegated that authority by City Charter or ordinance, or by State Statute. State statute authorizes the Finance Director to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. City Council also assigned fund balance to cover a gap between estimated revenues and appropriations in 2021’s budget.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activities of the proprietary funds. For the City, these revenues are charges for services for water, electric, sewer and para transit programs. Operating expenses are necessary costs incurred to provide the service for the primary activities of the funds. Revenues and expenses not meeting these definitions are reported as nonoperating.

Internal Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental activities are eliminated on the government-wide financial statements. Internal allocations of overhead expenses from one function to another within the same function are eliminated on the statement of activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Net position restricted for other purposes include resources restricted for street and state highway, indigent drivers program, probation and park services. The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Note 3 - Budgetary Basis of Accounting

While the City is reporting financial position, results of operations, and changes in fund balance/net position on the basis of generally accepted accounting principles (GAAP basis), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presented for the general and major special revenue funds are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are as follows:

1. Revenues and other sources are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures and other uses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than restricted, committed or assigned fund balance (GAAP).
4. Advances in are operating transactions (budget) as opposed to balance sheet transactions.
5. Unreported cash represents amounts received but not included as revenue on the budgetary statements, but which are reported on the operating statements prepared using GAAP.
6. Budgetary revenues and expenditures of the unclaimed monies fund are classified to general fund for GAAP Reporting.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund and for the major special revenue fund.

Net Change in Fund Balances

	General	Police and Fire Tax
GAAP Basis	\$1,813,788	\$350,959
Net Adjustment for Revenue Accruals	288,120	113,985
Perspective Difference:		
Unclaimed Monies	(52,444)	0
Beginning Unrecorded Cash	42,452	0
Ending Unrecorded Cash	(80)	0
Net Adjustment for Expenditure Accruals	(66,426)	586,231
Advances In	30,000	0
Adjustments for Encumbrances	(253,537)	(840,455)
Budget Basis	\$1,801,873	\$210,720

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Note 4 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Police and Fire Tax	Other Governmental Funds	Total
<u>Nonspendable:</u>				
Unclaimed Monies	\$92,615	\$0	\$0	\$92,615
Prepays	5,539	24,223	4,252	34,014
Inventory	7,011	153,143	58,295	218,449
Long-term Loans	479,888	0	0	479,888
<i>Total Nonspendable</i>	<u>585,053</u>	<u>177,366</u>	<u>62,547</u>	<u>824,966</u>
<u>Restricted for:</u>				
Police and Fire Protection	0	790,412	665,463	1,455,875
Park and Community Activities	0	0	256,472	256,472
Debt Service Retirement	0	0	1,000	1,000
Street Maintenance	0	0	1,146,812	1,146,812

<i>Total Assigned</i>	<u>402,099</u>	<u>0</u>	<u>0</u>	<u>402,099</u>
Unassigned (Deficit)	9,751,268	0	(107,838)	9,643,430
Total Fund Balances	<u><u>\$10,738,420</u></u>	<u><u>\$967,778</u></u>	<u><u>\$3,384,928</u></u>	<u><u>\$15,091,126</u></u>

Note 5 - Deposits and Investments

The City has chosen to follow State statutes and classify monies held by the City into three categories.

Active deposits are public deposits determined to be necessary to meet current demands upon the City treasury. Active monies must be maintained either as cash in the City treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Inactive deposits are public deposits that Council has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the City can be deposited or invested in the following securities:

1. United States Treasury bills, bonds notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
4. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
5. Bonds and other obligations of the State of Ohio, and, with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain bankers' acceptances (for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met; and
8. Written repurchase agreements in the securities described in (1) or (2) provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The City may also invest any monies not required to be used for a specific period of six months or more in the following:

1. Bonds of the State of Ohio;
2. Bonds of any municipal corporation, village, county, township, or other political subdivision of this State, as to which there is no default of principal, interest, or coupons;
3. Obligations of the City.

Deposits

Custodial Credit Risk for deposits is the risk that in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in possession of an outside party. At year end, \$14,058 of the City's bank balance of \$39,173,538 was exposed to custodial credit risk because those deposits were uninsured and uncollateralized. One of the City's financial institutions participates in the Ohio Pooled Collateral System (OPCS) and was approved for a reduced collateral floor of 50 percent resulting in the uninsured and uncollateralized balance.

The City has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by:

Eligible securities pledged to the City and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

Note 6 - Receivables

Receivables at December 31, 2020, consisted primarily of municipal income taxes, property taxes, intergovernmental receivables arising from entitlements and shared revenues, special assessments and accounts (billings for utility service).

No allowance for doubtful accounts has been recorded because uncollectible amounts are expected to be insignificant. All receivables except property taxes and special assessments are expected to be received within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Property Taxes

Property taxes include amounts levied against all real and public utility property located in the City. Property tax revenue received during 2020 for real and public utility property taxes represents collections of 2019 taxes.

2020 real property taxes were levied after October 1, 2020, on the assessed value as of January 1, 2020, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2020 real property taxes are collected in and intended to finance 2021.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2020 public utility property taxes which became a lien December 31, 2019, are levied after October 1, 2020, and are collected in 2021 with real property taxes.

The full tax rate for all City operations for the year ended December 31, 2020, was \$3.50 per \$1,000 of assessed value. The assessed values of real property and public utility tangible property upon which 2020 property tax receipts were based are as follows:

	<u>Assessed Value</u>
Real Estate	
Residential/Agricultural	\$166,994,060
Commercial Industrial/PU	90,273,160
Public Utility Property	<u>1,627,420</u>
Total Assessed Value	<u><u>\$258,894,640</u></u>

The Trumbull County Treasurer collects property taxes on behalf of all taxing districts in the county, including the City. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real and public utility property taxes and outstanding delinquencies which were measurable as of December 31, 2020, and for which there was an enforceable legal claim. In governmental funds, the portion of the receivable not levied to finance 2020 operations is offset to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

Income Tax

The City levied and collected an income tax of 2.0 percent on substantially all income earned within the City as well as on incomes of residents earned outside the City, allowing a credit of 100 percent of the tax paid to another municipality, not to exceed the City's current tax rate.

The City's income tax ordinance requires half of the income tax revenues to be used to finance the police and fire departments.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

The Regional Income Tax Agency administers and collects income taxes for the City. Payments are remitted monthly net of collection fees of approximately 1.24 percent. Employers within the City are required to withhold income tax on employee compensation and remit the tax to the Regional Income Tax Agency (RITA) either monthly or quarterly. Companies also have the option of filing net profit tax returns directly with the State of Ohio, Department of Taxation. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually.

Any income tax ordinance must be approved by a majority vote at a city election prior to the ordinance becoming effective.

Intergovernmental Receivables

A summary of the governmental activities principal items of intergovernmental receivables follows:

	Amounts
Governmental:	
Gasoline Tax and Cents per Gallon	\$413,737
State and Local Government Funds	135,968
Permissive Motor Vehicle License Tax	105,892
Motor Vehicle License Registration	58,868
Homestead and Rollback	47,924
Department of Treasury	3,879
Trumbull County	833
Indigent Drivers Funds	519
State of Ohio	300
Total Governmental Funds	\$767,920

At December 31, 2020 the City had intergovernmental receivables of \$764 in the water enterprise fund for charges to the Mahoning Valley Sanitary District.

Note 7 - Contingencies

Grants

The City received financial assistance from federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the City at December 31, 2020.

Litigation

Several claims and lawsuits are pending against the City. In the opinion of management, any such claims and lawsuits will not have a material adverse effect on the overall financial position of the City at December 31, 2020.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Note 8 - Risk Management

The City is exposed to various risks of loss related to torts; theft, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year, the City contracted with USI Insurance Services for all insurance. The coverage and deductibles are as follows:

Type of Coverage	Coverage	Deductible
<i>General Liability:</i>		
Each Occurrence	\$2,000,000	None
Employee Benefits Liability	1,000,000	\$1,000
Injunctive Relief	Included	None
Sewer Backup Pollution Liability	1,000,000	None
Underground Storage Tank Pollution	55,000	None
Blanket Building	76,998,247	2,500
Blanket Personal Property	30,440,562	2,500
Earthquake/Flood	2,000,000	25,000
Boiler/Machinery	107,438,809	2,500
Cyber Liability	2,000,000	1,000
Inland Marine	1,051,095	1,000
<i>Auto Liability and Physical Damage</i>		
Each Occurrence	2,000,000	None
Uninsured Motorists	1,000,000	None
<i>Law Enforcement Liability</i>		
Each Occurrence	2,000,000	1,000
<i>Wrongful Acts Coverage</i>		
Each Occurrence	2,000,000	1,000

There has been no reduction in coverage from the prior year. Settled claims have not exceeded this commercial coverage in any of the past three years.

The City has elected to provide employee hospital/medical, prescription, dental, and vision insurance benefits through a partially self-insured program. The City established a health insurance internal service fund to account for and finance the cost of this program.

Medical Mutual of Ohio serves as the third party administrator who reviews and processes medical, prescription, dental and vision claims which the City then pays after discounts are applied. The City has stop loss coverage of \$100,000 per individual. The departments are charged an amount annually equal to the estimated costs for the year divided by the number of qualified covered employees.

The claims liability of \$418,379 as estimated by the third party administrator and reported in the health insurance internal service fund at December 31, 2020, is based on the requirements of GASB Statement No. 30 which requires a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The estimate was not affected by incremental claims adjustment expenses and does not include other allocated or unallocated claim adjustment expenses.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Changes in the funds claims liability amount in 2019 and 2020 were as follows:

	Balance at Beginning of Year	Current Year Claims	Claim Payments	Balance at End of Year
2019	\$361,976	\$2,815,928	\$2,825,388	\$352,516
2020	352,516	3,031,054	2,965,191	418,379

Workers' compensation coverage is provided by the State of Ohio. The City pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Note 9 - Other Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Employees earn one to eight weeks of vacation per year, depending upon length of service. Vacation accumulation is limited to one year unless an extension is approved by the Mayor. All accumulated unused vacation time is paid upon termination of employment. Outstanding unused vacation is reflected as compensated absences payable.

Employees earn sick leave at the rate of 4.6 hours for each 80 hours of completed service. There are several sick leave accumulation limits for each bargaining unit based on the hire date of the employee. Upon retirement, an employee will be paid according to the corresponding bargaining unit agreement. There are several severance calculations for each bargaining unit based on the hire date of the employee.

Health and Life Insurance

The City provides health insurance through Aetna to its employees. It also provides life insurance and accidental death and dismemberment insurance to its employees through Hartford Life Insurance.

Retirement Incentive

The City Council offers employees participation in a Retirement Incentive program. Participation was open to employees who have a minimum of ten years of continuous employment with the City and who are eligible to retire under the rules and regulations of the respective pension system. This incentive shall consist of one week salary, at retirement, for each year of completed service with the City. This incentive will be spread over one year. The remaining retirement incentive will be paid out in 2021.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Note 10 - Capital Assets

Capital asset activity for the year ended December 31, 2020, was as follows:

Note 11 – Loan Transactions

On July 7, 2004, the general fund paid \$1,599,623 (\$1,400,000 in principal and \$199,623 in interest) to retire a note of the water fund, while the water fund paid \$165,000 of principal on this note. The water fund intended to repay the general fund the entire \$1,599,623 over an eleven year period beginning in July 2005. The City did not follow this repayment schedule due to financial constraints in the water fund. The repayment began again during 2019. On the fund financial statements, the receivable balance in the general fund at December 31, 2020 is \$639,850 and a corresponding payable is recorded in the water fund. On the government-wide financial statements the amounts are considered a part of the internal balance between the governmental and the business-type activities.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

The following is a schedule of repayment:

Year Ending December 31,	Principal	Interest	Total
2021	\$144,918	\$15,044	\$159,962
2022	148,541	11,421	159,962
2023	152,254	7,709	159,963
2024	156,061	3,902	159,963
Total	<u>\$601,774</u>	<u>\$38,076</u>	<u>\$639,850</u>

Note 12 - Long-Term Obligations

General obligation bonds will be paid from the taxes receipted into the general fund and charges for services revenue in the park special revenue fund and water and sewer enterprise funds.

During 2011, the City issued various purpose general obligation bonds in the amount of \$3,245,000 for improving the City's recreation center. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment. Interest on these bonds is payable annually and the interest rates vary from 0.7 percent to 4.5 percent. The bonds mature on December 1, 2031. Principal and interest payments will be made from the park special revenue fund. In 2020, these bonds were fully refunded by the Various Purpose Refunding Bonds.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

During 2017, the City issued various purpose general obligation bonds in the amount of \$1,600,000 for improving the City's cemetery, safety service building, fire station, municipal building and recreational facilities. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment. Interest on these bonds is payable annually and the interest rate is fixed at 3.996 percent. The bonds mature on November 1, 2027. Principal and interest payments will be made from the general fund.

During 2020, the City issued various purpose general obligation bonds in the amount of \$883,000 for the purchase of a new fire truck and street sweeper. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment. Interest on these bonds is payable semi-annually and the interest rate is fixed at 1.440 percent. The bonds mature on December 1, 2030. Principal and interest payments will be made from the police and fire tax and street special revenue funds.

During 2020, the City issued various purpose general obligation refunding bonds in the amount of \$2,053,000 to refund the various purpose improvement bonds. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment. Interest on these bonds is payable semi-annually and the interest rate is fixed at 1.440 percent. The bonds mature on December 1, 2030. Principal and interest payments will be made from the park special revenue fund.

Net proceeds of \$2,030,996 were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds. As a result, \$2,025,000 is considered defeased and the liability for the refunded bonds has been removed from the City's financial statements. As of December 31, 2020, \$2,025,000 of the defeased bonds are still outstanding.

Although the refunding will result in the recognition of an accounting gain of \$8,402, the City decreased its aggregated debt service payments by \$247,165 as a result of the advance refunding. The City also incurred an economic gain (difference between the present value of the old and new debt service payments) of \$209,349.

During 2011, the City issued \$1,115,000 in general obligation bonds to fund improving the City's water system. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment. Debt service requirements will be paid from user fees generated by the water fund. Interest on these bonds is payable annually and the interest rates vary from 0.7 percent to 4.5 percent. The bonds mature on December 1, 2031. Principal and interest payments will be made from the water fund. In 2020, these bonds were fully refunded by the Various Purpose Refunding Bonds.

During 2020, the City issued various purpose general obligation bonds in the amount of \$132,000 for the purchase of a new backhoe for the water department. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment. Interest on these bonds is payable semi-annually and the interest rate is fixed at 1.440 percent. The bonds mature on December 1, 2030. Principal and interest payments will be made from the water fund.

During 2020, the City issued various purpose general obligation refunding bonds in the amount of \$710,000 to refund the various purpose improvement bonds. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment. Interest on these bonds is payable semi-annually and the interest rate is fixed at 1.440 percent. The bonds mature on December 1, 2030. Principal and interest payments will be made from the water fund.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Net proceeds of \$702,069 were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds. As a result, \$700,000 is considered defeased and the liability for the refunded bonds has been removed from the City's financial statements. As of December 31, 2020, \$700,000 of the defeased bonds are still outstanding.

Although the refunding will result in the recognition of an accounting gain of \$2,878, the City decreased its aggregated debt service payments by \$84,178 as a result of the advance refunding. The City also incurred an economic gain (difference between the present value of the old and new debt service payments) of \$71,804.

During 2011, the City issued \$3,140,000 in general obligation bonds to fund improving the City's wastewater and sewer system. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment. Debt service requirements will be paid from user fees generated by the sewer fund. Interest on these bonds is payable annually and the interest rates vary from 0.7 percent to 4.5 percent. The bonds mature on December 1, 2031. Principal and interest payments will be made from the sewer fund. In 2020, these bonds were fully refunded by the Various Purpose Refunding Bonds.

During 2020, the City issued various purpose general obligation refunding bonds in the amount of \$1,982,000 to refund the various purpose improvement bonds. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment. Interest on these bonds is payable semi-annually and the interest rate is fixed at 1.440 percent. The bonds mature on December 1, 2030. Principal and interest payments will be made from the sewer fund.

Net proceeds of \$1,960,783 were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds. As a result, \$1,955,000 is considered defeased and the liability for the refunded bonds has been removed from the City's financial statements. As of December 31, 2020, \$1,955,000 of the defeased bonds are still outstanding.

Although the refunding will result in the recognition of an accounting gain of \$8,149, the City decreased its aggregated debt service payments by \$237,577 as a result of the advance refunding. The City also incurred an economic gain (difference between the present value of the old and new debt service payments) of \$201,277.

The City has entered into contractual agreements for construction loans from the Ohio Water Development Authority (OWDA). Under the terms of this agreement, OWDA will reimburse, advance or directly pay the construction costs of the approved projects. OWDA will capitalize administrative costs and construction interest and then add them to the total amounts of the final loans. The balance of the wastewater treatment plant upgrade loan is \$31,899,871 at December 31, 2020.

The City's outstanding OWDA loan from direct borrowings of \$31,899,871 related to business-type activities contain provisions that in an event of default (1) the amount of such default shall bear interest at the default rate from the due date until the date of payment, (2) if any of the charges have not been paid within 30 days, in addition to the interest calculated at the default rate, a late charge of 1 percent on the amount of each default shall be paid to the OWDA, and (3) for each additional 30 days during which the charges remain unpaid, the City shall continue to pay an additional late charge of 1 percent on the amount of the default until such charges are paid.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

The City has recorded a long-term obligation for the potential stranded cost liability in the electric fund. A debt schedule for the duration of the liability was unavailable at December 31, 2020 (See Note 21 for more detail on the AMPGS Project).

Compensated absences will be paid from the general fund, the police and fire tax, park, street and cemetery special revenue funds, and the water, sewer and electric enterprise funds which are the funds from which the employees' salaries are paid. There is no repayment schedule for the net pension/OPEB liabilities. However, employer pension/OPEB contributions are made from the following funds: general fund, the police and fire tax, park, street and cemetery special revenue funds, and the water, sewer and electric enterprise funds. For additional information related to the net pension/OPEB liabilities see Notes 13 and 14. The OWDA loan will be paid with charges for services revenue in the sewer enterprise fund. The police and fire pension liability represents police and fire pension obligations that will be paid from taxes received in the police and fire tax fund. The asset retirement obligation would be paid from the general fund. The capital lease obligations were paid from the fund that maintains custody of the related assets. These funds were the permissive tax, street and state highway special revenue funds.

The City's overall debt margin was \$20,237,737 and the unvoted legal debt margin was \$7,293,005 at December 31, 2020. Principal and interest requirements to retire long-term obligations outstanding at December 31, 2020, are as follows:

	Governmental Activities			
	General Obligation Bonds		Police and Fire Pension Liability	
	Principal	Interest	Principal	Interest

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Note 13 - Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability (Asset) /Net OPEB Liability (Asset)

The net pension liability (asset) and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the City’s proportionate share of each pension/OPEB plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan’s fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the City’s obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees’ services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan’s unfunded benefits is presented as a *net pension/OPEB asset* or a long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 14 for the required OPEB disclosures.

Plan Description – Ohio Public Employees Retirement System (OPERS)

City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Comprehensive Annual Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Combined Plan Formula: 1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30	Combined Plan Formula: 1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30	Combined Plan Formula: 1% of FAS multiplied by years of service for the first 35 years and 1.25% for service years in excess of 35

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

January 7, 2013, the cost of living adjustment is 3 percent. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options.

Beginning in 2022, the Combined Plan will be consolidated under the Traditional Pension Plan (defined benefit plan) and the Combined Plan option will no longer be available for new hires beginning in 2022.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State and Local
2020 Statutory Maximum Contribution Rates	
Employer	14.0 %
Employee *	10.0 %
 2020 Actual Contribution Rates	
Employer:	
Pension **	14.0 %
Post-employment Health Care Benefits **	0.0
Total Employer	14.0 %
Employee	10.0 %

* Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.

** These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

For 2020, The City's contractually required contribution was \$859,713 for the traditional plan, \$3,474 for the combined plan and \$10,579 for the member-directed plan. Of these amounts, \$91,326 is reported as an intergovernmental payable for the traditional plan, \$373 for the combined plan, and \$1,126 for the member-directed plan.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before after July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit (see OP&F Comprehensive Annual Financial Report referenced above for additional information, including requirements for Deferred Retirement Option Plan provisions and reduced and unreduced benefits).

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit, surviving beneficiaries, and statutory survivors. Members participating in the DROP program have separate eligibility requirements related to COLA.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index over the 12 month period ending on September 30th of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013, is equal to 3 percent of their base pension or disability benefit.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Funding Policy – The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Police	Firefighters
2020 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %
 2020 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	0.50	0.50
 Total Employer	 19.50 %	 24.00 %
 Employee	 12.25 %	 12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City’s contractually required contribution to OP&F was \$967,184 for 2020. Of this amount, \$119,035 is reported as an intergovernmental payable.

In addition to current contributions, the City pays installments on a specific liability the City incurred when the State of Ohio established the statewide pension system for police and fire fighters in 1967. As of December 31, 2020, the specific liability of the City was \$279,021 payable in semi-annual payments through the year 2035.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability (asset) for OPERS was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. OP&F’s total pension liability was measured as of December 31, 2019, and was determined by rolling forward the total pension liability as of January 1, 2019, to December 31, 2019. The City’s proportion of the net pension liability (asset) was based on the City’s share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense of the City’s defined benefit pension plans:

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

	OPERS <u>Traditional Plan</u>	OPERS <u>Combined Plan</u>	<u>OP&F</u>	<u>Total</u>

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2019, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2019, are presented below.

	OPERS Traditional Plan	OPERS Combined Plan
Wage Inflation	3.25 percent	3.25 percent
Future Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation	3.25 to 8.25 percent including wage inflation
COLA or Ad Hoc COLA:		
Pre-January 7, 2013 Retirees	3 percent, simple	3 percent, simple
Post-January 7, 2013 Retirees	1.4 percent, simple through 2020, then 2.15 percent, simple	1.4 percent, simple through 2020, then 2.15 percent, simple
Investment Rate of Return	7.2 percent	7.2 percent
Actuarial Cost Method	Individual Entry Age	Individual Entry Age

In October 2019, the OPERS Board adopted a change in COLA for Post-January 7, 2013 retirees, changing it from 3 percent simple through 2018 then 2.15 simple to 1.4 percent simple through 2020 the 2.15 percent simple.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 17.2 percent for 2019.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic real rates of return were provided by the Board's investment consultant. For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2019, these best estimates are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)</u>
Fixed Income	25.00 %	1.83 %
Domestic Equities	19.00	5.75
Real Estate	10.00	5.20
Private Equity	12.00	10.70
International Equities	21.00	7.66
Other investments	13.00	4.98
Total	<u>100.00 %</u>	<u>5.61 %</u>

Discount Rate The discount rate used to measure the total pension liability was 7.2 percent for the traditional plan and the combined plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the traditional pension plan, combined plan and member-directed plan was applied to all periods of projected benefit payments to determine the total pension liability.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Sensitivity of the City's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate The following table presents the City's proportionate share of the net pension liability (asset) calculated using the current period discount rate assumption of 7.2 percent, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (6.2 percent) or one-percentage-point higher (8.2 percent) than the current rate:

	1% Decrease (6.20%)	Discount Rate (7.20%)	1% Increase (8.20%)
City's proportionate share of the net pension liability (asset)			
OPERS Traditional Plan	\$13,216,040	\$8,013,007	\$3,335,631
OPERS Combined Plan	(12,144)	(20,098)	(25,830)

Actuarial Assumptions – OP&F

OP&F's total pension liability as of December 31, 2019, is based on the results of an actuarial valuation date of January 1, 2019, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered were: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of January 1, 2019, are presented below.

Valuation Date	January 1, 2019, with actuarial liabilities rolled forward to December 31, 2019
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.0 percent
Projected Salary Increases	3.75 percent to 10.5 percent
Payroll Growth	3.25 percent per annum, compounded annually, consisting of Inflation rate of 2.75 percent plus productivity increase rate of 0.5 percent
Cost of Living Adjustments	3.00 percent simple; 2.2 percent simple for increases based on the lesser of the increase in CPI and 3 percent

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Age	Police	Fire
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed for the five year period ended December 31, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2019, are summarized below:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash and Cash Equivalents	- %	1.00 %
Domestic Equity	16.00	5.40
Non-US Equity	16.00	5.80
Private Markets	8.00	8.00
Core Fixed Income *	23.00	2.70
High Yield Fixed Income	7.00	4.70
Private Credit	5.00	5.50
U.S. Inflation Linked Bonds*	17.00	2.50
Master Limited Partnerships	8.00	6.60
Real Assets	8.00	7.40
Private Real Estate	12.00	6.40
Total	120.00 %	

Note: Assumptions are geometric.

* levered 2x

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate The total pension liability was calculated using the discount rate of 8.00 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return of 8.00 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact, the following table presents the net pension liability calculated using the discount rate of 8.00 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.00 percent), or one percentage point higher (9.00 percent) than the current rate.

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
City's proportionate share of the net pension liability	\$17,101,798	\$12,339,268	\$8,355,886

Note 14 - Defined Benefit OPEB Plans

See Note 13 for a description of the net OPEB liability

Plan Description – Ohio Public Employees Retirement System (OPERS)

The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit postemployment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member-directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS Comprehensive Annual Financial Report referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2020, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2020, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2020 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$4,232 for 2020. Of this amount, \$450 is reported as an intergovernmental payable.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a new model for health care. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

A retiree is eligible for the OP&F health care stipend unless they have access to any other group coverage including employer and retirement coverage. The eligibility of spouses and dependent children could increase the stipend amount. If the spouse or dependents have access to any other group coverage including employer or retirement coverage, they are not eligible for stipend support from OP&F. Even if an OP&F member or their dependents are not eligible for a stipend, they can use the services of the third-party administrator to select and enroll in a plan. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.5 percent and 24 percent of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5 percent of covered payroll for police employer units and 24 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

The Board of Trustees is authorized to allocate a portion of the total employer contributions for retiree health care benefits. For 2020, the portion of employer contributions allocated to health care was 0.5 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded.

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$22,825 for 2020. Of this amount, \$2,808 is reported as an intergovernmental payable.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2019, and was determined by rolling forward the total OPEB liability as of January 1, 2019, to December 31, 2019. The City's proportion of the net OPEB liability was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

	<u>OPERS</u>	<u>OP&F</u>	
Proportion of the Net OPEB Liability:			
Current Measurement Date	0.03878100%	0.18316940%	
Prior Measurement Date	<u>0.03669500%</u>	<u>0.18369700%</u>	
Change in Proportionate Share	<u>0.00208600%</u>	<u>-0.00052760%</u>	
			<u>Total</u>
Proportionate Share of the Net OPEB Liability	\$5,356,663	\$1,809,298	\$7,165,961
OPEB Expense	\$614,229	\$104,201	\$718,430

At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>OPERS</u>	<u>OP&F</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between expected and actual experience	\$144	\$0	\$144
Changes of assumptions	847,903	1,057,786	1,905,689
Changes in proportion and differences between City contributions and proportionate share of contributions	157,871	0	157,871
City contributions subsequent to the measurement date	<u>4,232</u>	<u>22,825</u>	<u>27,057</u>
Total Deferred Outflows of Resources	<u>\$1,010,150</u>	<u>\$1,080,611</u>	<u>\$2,090,761</u>
Deferred Inflows of Resources			
Differences between expected and actual experience	\$489,892	\$194,572	\$684,464
Changes of assumptions	0	385,589	385,589
Net difference between projected and actual earnings on OPEB plan investments	272,760	83,257	356,017
Changes in proportion and differences between City contributions and proportionate share of contributions	<u>64,563</u>	<u>397,592</u>	<u>462,155</u>
Total Deferred Inflows of Resources	<u>\$827,215</u>	<u>\$1,061,010</u>	<u>\$1,888,225</u>

\$27,057 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

City of Niles, Ohio
Notes to the Basic Financial Statements

2025	0	(6,453)	(6,453)
Thereafter	0	34,308	34,308
Total	\$178,703	(\$3,224)	\$175,479

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation	3.25 percent
Projected Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation
Single Discount Rate:	
Current measurement date	3.16 percent
Prior Measurement date	3.96 percent
Investment Rate of Return	6.00 percent
Municipal Bond Rate:	
Current measurement date	2.75 percent
Prior Measurement date	3.71 percent
Health Care Cost Trend Rate:	
Current measurement date	10.50 percent, initial 3.50 percent, ultimate in 2030
Prior Measurement date	10.00 percent, initial 3.25 percent, ultimate in 2029
Actuarial Cost Method	Individual Entry Age Normal

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, if any contribution are made into the plans, the contributions are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made. Health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was 19.7 percent for 2019.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. For each major asset class that is included in the Health Care portfolio's target asset allocation as of December 31, 2019, these best estimates are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)</u>
Fixed Income	36.00 %	1.53 %
Domestic Equities	21.00	5.75
Real Estate Investment Trust	6.00	5.69
International Equities	23.00	7.66
Other investments	14.00	4.90
Total	<u>100.00 %</u>	<u>4.55 %</u>

Discount Rate A single discount rate of 3.16 percent was used to measure the OPEB liability on the measurement date of December 31, 2019. A single discount rate of 3.96 percent was used to measure the OPEB liability on the measurement date of December 31, 2018. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 2.75 percent. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate The following table presents the City's proportionate share of the net OPEB liability calculated using the single discount rate of 3.16 percent, as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.16 percent) or one-percentage-point higher (4.16 percent) than the current rate:

	1% Decrease (2.16%)	Current Discount Rate (3.16%)	1% Increase (4.16%)
City's proportionate share of the net OPEB liability	\$7,010,054	\$5,356,663	\$4,032,836

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2020 is 10.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

	1% Decrease	Current Health Care Cost Trend Rate Assumption	1% Increase
City's proportionate share of the net OPEB liability	\$5,198,593	\$5,356,663	\$5,512,719

Changes between Measurement Date and Reporting Date

On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and pre-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for pre-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are not reflected in the current year financial statements but are expected to decrease the associated OPEB liability.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Actuarial Assumptions – OP&F

OP&F’s total OPEB liability as of December 31, 2019, is based on the results of an actuarial valuation date of January 1, 2019, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F’s actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee’s entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

Valuation Date	January 1, 2019, with actuarial liabilities rolled forward to December 31, 2019
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.0 percent
Projected Salary Increases	3.75 percent to 10.5 percent
Payroll Growth	3.25 percent
Single discount rate:	
Current measurement date	3.56 percent
Prior measurement date	4.66 percent
Cost of Living Adjustments	3.00 percent simple; 2.2 percent simple for increased based on the lesser of the increase in CPI and 3 percent

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

Age	Police	Fire
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed for the five year period ended December 31, 2016.

The OP&F health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 13.

Discount Rate For 2019, the total OPEB liability was calculated using the discount rate of 3.56 percent. For 2018, the total OPEB liability was calculated using the discount rate of 4.66 percent. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return of 8 percent. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 2.75 percent at December 31, 2019 and 4.13 percent at December 31, 2018, was blended with the long-term rate of 8 percent, which resulted in a blended discount rate of 3.56 percent for 2019 and 4.66 percent for 2018. The municipal bond rate was determined using the Bond Buyers General Obligation 20-year Municipal Bond Index Rate. The OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments until 2034. The long-term expected rate of return on health care investments was applied to projected costs through 2034, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate Net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 3.56 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.56 percent), or one percentage point higher (4.56 percent) than the current rate.

	1% Decrease (2.56%)	Current Discount Rate (3.56%)	1% Increase (4.56%)
City's proportionate share of the net OPEB liability	\$2,243,413	\$1,809,298	\$1,448,579

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate The total OPEB liability is based on a medical benefit that is a flat dollar amount; therefore, it is unaffected by a health care cost trend rate. An increase or decrease in the trend rate would have no effect on the total OPEB liability.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Note 15 - Jointly Governed Organizations

Regional Income Tax Agency

The Regional Income Tax Agency (RITA) is a regional council of governments formed to establish a central collection facility for the purpose of administering the income tax laws of the members and for the purpose of collection income taxes on behalf of each member. RITA currently has approximately 350 members in the council of governments. Each member has one representative to the council of governments and is entitled to one vote on items under consideration. RITA is administered by a nine-member board of trustees elected by the members of the council of governments. The board exercises total control over RITA's operation including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the council. For 2020, the City paid RITA \$131,955 for income tax collection services.

Eastgate Regional Council of Governments

The Eastgate Regional Council of Governments (ERCG) is a jointly governed organization that is committed to fostering cooperative regional efforts in the planning, programming and implementation of public sector activities. ERCG has forty-eight participating members. These include representatives from Trumbull County and Mahoning County, township trustees and officials from participating cities and villages. The operation of ERCG is controlled by a general policy board which consists of a representative from each participant. Each member's degree of control is limited to its representation on the board. Funding comes from each of the participants. For 2020, the City contributed \$7,128 to the Eastgate Regional Council of Governments. For more information contact John R. Getchey, executive director, at 5121 Mahoning Avenue, Youngstown, Ohio 44515.

Emergency Management Agency

The Emergency Management Agency is a jointly governed organization among the thirty-four subdivisions located within Trumbull County that was created to ensure that the State, and the citizens residing in it, are prepared to respond to an emergency or disaster and to lead mitigation efforts against the effect of future disasters. The eight members of the advisory board are appointed by the thirty-four member subdivisions. The degree of control exercised by any participating government is limited to its representation on the Board. The Agency adopts its own budget, authorizes expenditures and hires and fires its own staff. Funding comes from each of the participants. For 2020, the City contributed \$4,046 to the Emergency Management Agency. For more information contact Linda Beil, director, at 1453 Youngstown Kingsville Road, Vienna, Ohio 44473.

Note 16 – Joint Ventures

Ohio Municipal Electric Generation Agency Joint Venture 5 (JV5)

The City is a Financing Participant with an ownership percentage of 10.63 percent and shares participation with forty-one other subdivisions within the State of Ohio in the Ohio Municipal Electric Generation Agency Joint Venture 5 (OMEGA JV5). Financing Participants own undivided interests, as tenants in common, without right of partition in the OMEGA JV5 Project.

Pursuant to the OMEGA Joint Venture JV5 Agreement (Agreement), the participants jointly undertook as Financing Participants, the acquisition, construction, and equipping of OMEGA JV5, including such portions of OMEGA JV5 as have been acquired, constructed or equipped by AMP. OMEGA JV5 was

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

created to construct a 42 Megawatt (MW) run-of-the-river hydroelectric plant (including 40MW of backup generation) and associated transmission facilities (on the Ohio River near the Bellville, West Virginia Locks and Dam) and sells electricity from its operations to OMEGA JV5 Participants.

Also pursuant to the Agreement, each participant has an obligation to pay its share of debt service on the Beneficial Interest Certificates (Certificates) from the revenues of its electric system, subject only to the prior payment of Operating & Maintenance Expenses (O&M) of each participant's System, and shall be on a parity with any outstanding and future senior electric system revenue bonds, notes or other indebtedness payable from any revenues of the System. On dissolution of OMEGA JV5, the net assets will be shared by the financing participants on a percentage of ownership basis. Under the terms of the Agreement each participant is to fix, charge and collect rates, fees and charges at least sufficient in order to maintain a debt coverage ratio equal to 110 percent of the sum of OMEGA JV5 debt service and any other outstanding senior lien electric system revenue obligations. As of December 31, 2020 the City has met their debt coverage obligation.

The Agreement provides that the failure of any JV5 participant to make any payment due by the due date thereof constitutes a default. In the event of a default, OMEGA JV5 may take certain actions including the termination of a defaulting JV5 Participant's entitlement to Project Power. Each Participant may purchase a pro rata share of the defaulting JV5 Participant's entitlement to Project Power, which together with the share of the other non-defaulting JV5 Participants, is equal to the defaulting JV5 Participant's ownership share of the Project, in kilowatts ("Step Up Power") provided that the sum of any such increases shall not exceed, without consent of the non-defaulting JV5 Participant, an accumulated maximum kilowatts equal to 25 percent of such non-defaulting JV5 Participant's ownership share of the project prior to any such increases.

OMEGA JV5 is managed by AMP, which acts as the joint venture's agent. During 1993 and 2001 AMP issued \$153,415,000 and \$13,899,981 respectively of 30 year fixed rate Beneficial Interest Certificates (Certificates) on behalf of the Financing Participants of OMEGA JV5. The 2001 Certificates accrete to a value of \$56,125,000 on February 15, 2030. The net proceeds of the bond issues were used to construct the OMEGA JV5 Project. On February 17, 2004 the 1993 Certificates were refunded by issuing 2004 Beneficial Interest Refunding Certificates in the amount of \$116,910,000, which resulted in a savings to the membership of \$34,951,833 from the periods 2005 through 2024. On February 15, 2014, all of the 2004 BIRCs were redeemed from funds held under the trust agreement securing the 2004 BIRCs and the proceeds of a promissory note issued to AMP by OMEGA JV5. This was accomplished with a draw on AMP's revolving credit facility. The resulting balance was \$65,891,509 at February 28, 2014. On January 29, 2016, OMEGA JV5 issued the 2016 Beneficial Interest Certificates ("2016 Certificates") in the amount of \$49,745,000 for the purpose of refunding the promissory note to AMP in full. The outstanding amount on the promissory note had been reduced to \$49,243,377 at the time of refunding as compared to its value at December 31, 2015 of \$49,803,187. The promissory note represented the February 2014 redemption of the 2004 Certificates from funds held under the trust agreement securing the 2004 BIRCs.

The City's net investment and its share of operating results of OMEGA JV5 are reported in the City's electric fund (an enterprise fund). The City's net investment to date in OMEGA JV5 was \$317,612 at December 31, 2020. Complete financial statements for OMEGA JV5 may be obtained from AMP or from the State Auditor's website at www.ohioauditor.gov.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Ohio Municipal Electric Generation Agency Joint Venture 2 (JV2)

The City is a Financing Participant and an Owner Participant with percentages of liability and ownership of 14.65 percent and 11.48 percent, respectively, and shares participation with thirty-five other subdivisions within the State of Ohio in the Ohio Municipal Electric Generation Agency (OMEGA JV2). Owner Participants own undivided interests, as tenants in common, in the OMEGA JV2 Project in the amount of their respective Project Shares. Purchaser Participants agree to purchase the output associated with their respective Project shares, ownership of which is held in trust for such Purchaser Participants. Pursuant to the OMEGA JV2 Agreement (Agreement), the participants jointly undertook as either Financing Participants or Non-Financing Participants and as either Owner Participants or Purchaser Participants, the acquisition, construction, and equipping of OMEGA JV2, including such portions of OMEGA JV2 as have been acquired, constructed or equipped by AMP and to pay or incur the costs of the same in accordance with the Agreement.

Pursuant to the Agreement each participant has an obligation to pay its share of debt service on the Distributive Generation Bonds (Bonds) from the revenues of its electric system, subject only to the prior payment of Operating & Maintenance Expenses (O&M) of each participant's System, and shall be on a parity with any outstanding and future senior electric system revenue bonds, notes or other indebtedness payable from any revenues of the System. Under the terms of the Agreement, each Financing Participant is to fix, charge and collect rates, fees and charges at least sufficient in order to maintain a debt coverage ratio equal to 110 percent of the sum of OMEGA JV2 debt service and any other outstanding senior lien electric system revenue obligations. As of December 31, 2020 the City has met their debt coverage obligation.

OMEGA JV2 was created to provide additional sources of reliable, reasonably priced electric power and energy when prices are high or during times of generation shortages or transmission constraints, and to improve the reliability and economic status of the participants' respective municipal electric utility system. The Project consists of 138.65 MW of distributed generation of which 134.081MW is the participants' entitlement and 4.569MW are held in reserve. On dissolution of OMEGA JV2, the net assets will be shared by the participants on a percentage of ownership basis. OMEGA JV2 is managed by AMP, which acts as the joint venture's agent. During 2001, AMP issued \$50,260,000 of 20 year fixed rate bonds on behalf of the Financing Participants of OMEGA JV2. The net proceeds of the bond issue of \$45,904,712 were contributed to OMEGA JV2. On January 3, 2011, AMP redeemed all of the \$31,110,000 OMEGA JV2 Project Distributive Generation Bonds then outstanding by borrowing on AMP's revolving credit facility. As such, the remaining outstanding bond principal of the OMEGA JV2 indebtedness was reduced to zero, with the remaining principal balance now residing on the AMP credit facility. As of December 31, 2018, the outstanding debt was retired in full leaving the City with no portion outstanding. The City's net investment and its share of operating results of OMEGA JV2 are reported in the City's electric fund (an enterprise fund). The City's net investment in OMEGA JV2 was a deficit \$3,660 at December 31, 2020. Complete financial statements for OMEGA JV2 may be obtained from AMP or from the State Auditor's website at www.ohioauditor.gov.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Note 17 - Interfund Transfers and Balances

Transfers

Transfers made during the year ended December 31, 2020 were as follows:

Transfers To	Transfers From General
Major Funds	
Police and Fire Tax	\$2,761,296
Other Governmental Funds	
Police Pension	390,000
Fire Pension	405,000
Park	300,000
Cemetery	150,000
Capital Projects	374,459
Fire Truck Replacement	80,000
Police Capital Improvements	50,000
Park Capital Improvements	50,000
<i>Total Other Governmental Funds</i>	1,799,459
Enterprise Fund	
Para-Transit	9,633
<i>Total Transfers</i>	\$4,570,388

The general fund transfers to all funds were to provide additional resources for current operations.

Balances

Interfund receivables and payables are due to the timing of the receipts of monies (grant and property taxes) by the nonmajor funds. All interfund balances will be repaid within one year. Interfund balances at December 31, 2020, consist of interfund receivable/payables between the general fund and the cemetery and BRT cleanup special revenue funds in the amounts of \$30,000 and \$32, respectively.

Note 18 – Significant Commitments

Contractual Commitments

As of December 31, 2020, the City had the following contract balances for various projects:

McKees Lane Sewer Construction	\$128,402
Municipal Building Interior and Exterior Repairs	5,307

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end the amount of encumbrances expected to be honored upon performance by the vendor in the next year or soon thereafter were as follows:

Governmental		Business-Type	
General	\$253,537	Water	\$467,751
Police and Fire Tax	840,455	Sewer	405,426
Other Governmental funds	429,132	Electric	559,545
Total	\$1,523,124	Motor Fuel	33,773
		Hospital Self Insurance	661,621
		Total	\$2,128,116

Remaining commitment amounts were encumbered at year end.

Note 19 – Accountability

The following funds had deficit fund balances as of December 31, 2020:

<i>Special Revenue Funds</i>	
Police Pension	\$47,275
Fire Pension	60,531
BRT Clean-up	32

The special revenue funds have deficits caused by the recognition of expenditures on an accrual and modified accrual basis of accounting which are substantially greater than the expenditures recognized on a cash basis. The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur.

Note 20 - Tax Abatement Disclosures

As of December 31, 2020, the City provides tax abatements through Enterprise Zones (Ezone). This program relates to the abatement of property taxes.

Ezone - Under the authority of ORC Sections 5709.62 and 5709.63, the Ezone program is an economic development tool administered by municipal and county governments that provides real and personal property tax exemptions to businesses making investments in Ohio. An Ezone is a designated area of land in which businesses can receive tax incentives in the form of tax exemptions on qualifying new investment. An Ezone's geographic area is identified by the local government involved in the creation of the zone. Once the zone is defined, the local legislative authority participating in the creation must petition the OSDA. The OSDA must then certify the area for it to become an active Enterprise Zone. The local legislative authority negotiates the terms of the Enterprise Zone Agreement (the "Agreement") with the business, which may include tax sharing with the Board of Education. Legislation must then be passed to approve the Agreement. All Agreements must be finalized before the project begins and may contain provisions for the recoupment of taxes should the individual, or entity, fail to perform. The amount of the abatement is deducted from the business's property tax bill.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

The City has entered an agreement to abate property taxes through this program. During 2020, the City's property tax revenues were reduced as a result of these agreements as follows:

<u>Tax Abatement Program</u>	<u>City Taxes Abated</u>
Ezone	<u>\$379</u>

Note 21 – American Municipal Power Generating Station Project

The City is a member of American Municipal Power (AMP) and has participated in the AMP Generating Station (AMPGS) Project. This project intended to develop a pulverized coal power plant in Meigs County, Ohio. The City's share was 40,656 kilowatts of a total 771,281 kilowatts, giving the City a 5.27 percent share. The AMPGS Project required participants to sign "take or pay" contracts with AMP. As such, the participants are obligated to pay any costs incurred for the project. In November 2009, the participants voted to terminate the AMPGS Project due to projected escalating costs. These costs were therefore deemed impaired and participants were obligated to pay costs already incurred. In prior years, the payment of these costs was not considered probable due to AMP's pursuit of legal action to void them. As a result of a March 31, 2014 legal ruling, the AMP Board of Trustees on April 15, 2014 and the AMPGS participants on April 16, 2014 approved the collection of the impaired costs and provided the participants with an estimate of their liability. The City's estimated share at March 31, 2014 of the impaired costs is \$7,042,699. The City received a credit of \$2,365,778 related to their participation in the AMP Fremont Energy Center (AFEC) Project, and another credit of \$1,838,662 related to the AMPGS costs deemed to have future benefit for the project participants, leaving a net impaired cost estimate of \$2,838,259. Because payment is now probable and reasonably estimable, the City is reporting a payable to AMP in its business-type activities and in its electric enterprise fund for these impaired costs. AMP financed these costs on its revolving line of credit. Any additional costs (including line-of-credit interest and legal fees) or amounts received related to the project will impact the City's liability. These amounts will be recorded as they become estimable. The City made payments in 2020 totaling \$231,016, leaving a net impaired cost estimate of \$1,356,751 at December 31, 2020.

Note 22 – Asset Retirement Obligations

The Bureau of Underground Storage Tank Regulations (BUSTR) regulates petroleum and hazardous substances stored in underground storage tanks. These regulations are included in Ohio Administrative Code Section 1301-7-9 and require a City classified as an "owner" or "operator," to remove from the ground any underground storage tank (UST) that is not in use for a year or more. A permit must first be obtained for that year it is not being used. Once the UST is removed, the soil in the UST cavity and excavated material must be tested for contamination. This asset retirement obligation (ARO) of \$40,000 associated with the City's underground storage tanks were estimated by the City engineer. The remaining useful life of the USTs are nine years. The City maintains insurance related to any potential pollution remediation associated with the USTs.

Ohio Revised Code Section 6111.44 requires the City to submit any changes to their sewage system to the Ohio EPA for approval. Through this review process, the City would be responsible to address any public safety issues associated with their wastewater treatment facilities. Any ARO associated with these public safety issues are not reasonably estimable. Currently, there is significant uncertainty as to what public safety items would need to be addressed; therefore, a reliable estimated amount could not be determined.

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Note 23 – Change in Accounting Principle and Restatement of Net Position

Change in Accounting Principle

For 2020, the City implemented the Governmental Accounting Standard Board’s (GASB) Statement No. 83, Certain Asset Retirement Obligations. GASB Statement 83 addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset.

Restatement of Net Position

During 2020, it was determined that capital assets were overstated in the sewer fund. This restatement had the following effect on net position as reported December 31, 2019:

	Enterprise				Internal Service
	Water	Sewer	Electric	Total	
Net Position, December 31, 2019	\$705,682	\$10,648,123	\$25,095,526	\$36,449,331	\$595,555
Adjustment:					
Capital Assets	0	(462,473)	0	(462,473)	0
Restated Net Position, December 31, 2019	\$705,682	\$10,185,650	\$25,095,526	\$35,986,858	\$595,555
			Internal Activity	487,241	
			Restated Net Position, December 31, 2019	\$36,474,099	

The prior restatement along with the implementation of GASB Statement No. 83 had the following effect on net position as of December 31, 2019:

	Governmental Activities	Business-Type Activities
Net Position, December 31, 2019	\$17,005,577	\$36,936,572
Adjustments:		
Capital Assets	0	(462,473)
GASB Statement No. 83	(26,667)	0
Restated Net Position, December 31, 2019	\$16,978,910	\$36,474,099

City of Niles, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2020

Note 24 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the City. The City's investment portfolio fluctuates with market conditions, and due to market volatility, the amount of gains or losses that will be realized in subsequent periods, if any, cannot be determined. In addition, the impact on the City's future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated. Additional funding will be available through the Consolidated Appropriations Act, 2021, passed by Congress on December 21, 2020 and/or the American Rescue Plan Act, passed by Congress on March 11, 2021.

During 2020, the City received \$1,056,512 as an on-behalf of grant from another government. These amounts are recorded in the Coronavirus Relief Special Revenue Fund.

Changes in Assumptions – OPERS Pension– Traditional Plan

Amounts reported beginning in 2019 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in prior years are presented below:

	2019	2018 and 2017	2016 and prior
Wage Inflation	3.25 percent	3.25 percent	3.75 percent
Future Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation	3.25 to 10.75 percent including wage inflation	4.25 to 10.05 percent including wage inflation
COLA or Ad Hoc COLA:			
Pre-January 7, 2013 Retirees	3 percent, simple	3 percent, simple	3 percent, simple
Post-January 7, 2013 Retirees	see below	see below	see below
Investment Rate of Return	7.2 percent	7.5 percent	8 percent
Actuarial Cost Method	Individual Entry Age	Individual Entry Age	Individual Entry Age

The assumptions related COLA or Ad Hoc COLA for Post-January 7, 2013 Retirees are as follows:

COLA or Ad Hoc COLA, Post-January 7, 2013 Retirees:

2020	1.4 percent, simple through 2020 then 2.15 percent, simple
2017 through 2019	3.0 percent, simple through 2018 then 2.15 percent, simple
2016 and prior	3.0 percent, simple through 2018 then 2.80 percent, simple

Amounts reported beginning in 2017 use mortality rates based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

Amounts reported for 2016 and prior use mortality rates based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

City of Niles, Ohio
Notes to the Required Supplementary Information
For the year ended December 31, 2020

Changes in Assumptions – OPERS Pension – Combined Plan

For 2020, the Combined Plan had the same change in COLA or Ad Hoc COLA for Post-January 2, 2013 retirees as the Traditional Plan. For 2019, the investment rate of return changed from 7.5 percent to 7.2 percent.

Changes in Assumptions – OP&F Pension

Amounts reported beginning in 2018 incorporate changes in assumptions used by OP&F in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in 2017 and prior are presented below:

	Beginning in 2018	2017 and Prior
Valuation Date	January 1, 2017, with actuarial liabilities rolled forward to December 31, 2017	January 1, 2016, with actuarial liabilities rolled forward to December 31, 2016
Actuarial Cost Method	Entry Age Normal	Entry Age Normal
Investment Rate of Return	8.0 percent	8.25 percent
Projected Salary Increases	3.75 percent to 10.5 percent	4.25 percent to 11 percent
Payroll Growth	Inflation rate of 2.75 percent plus productivity increase rate of 0.5 percent	Inflation rate of 3.25 percent plus productivity increase rate of 0.5 percent
Cost of Living Adjustments	3.00 percent simple; 2.2 percent simple for increased based on the lesser of the increase in CPI and 3 percent	3.00 percent simple; 2.6 percent simple for increased based on the lesser of the increase in CPI and 3 percent

Amounts reported beginning in 2018 use valuation, mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck/Conduent Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

Age	Police	Fire
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

Amounts reported beginning in 2018 use valuation, mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck/Conduent Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

City of Niles, Ohio
Notes to the Required Supplementary Information
For the year ended December 31, 2020

Amounts reported for 2017 and prior use valuation, rates of death were based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

Changes in Assumptions – OPERS OPEB

Investment Return Assumption:	
Beginning in 2019	6.00 percent
2018	6.50 percent
Municipal Bond Rate:	
2020	2.75 percent
2019	3.71 percent
2018	3.31 percent
Single Discount Rate:	
2020	3.16 percent
2019	3.96 percent
2018	3.85 percent
Health Care Cost Trend Rate:	
2020	10.0 percent, initial 3.5 percent, ultimate in 2030
2019	10.0 percent, initial 3.25 percent, ultimate in 2029
2018	7.5 percent, initial 3.25 percent, ultimate in 2028

Changes in Assumptions – OP&F OPEB

Single Discount Rate:	
2020	3.56 percent
2019	4.66 percent
2018	3.24 percent

Changes in Benefit Terms – OP&F OPEB

For 2019, OP&F recognized a change in benefit terms. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements. This new model replaced the self-insured health care plan used in prior years.

Total U.S. Department of Homeland Security			<u>85,920</u>
Total Federal Financial Assistance			<u>\$ 1,307,879</u>

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS:

- (A) This schedule includes the federal award activity of the City of Niles under programs of the federal government for the year ended December 31, 2020 and is prepared in accordance with the cash basis of accounting. The information on this schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the City of Niles, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City of Niles.
- (B) CFR Section 200.414 of the Uniform Guidance allows a non-federal entity that has never received a negotiated indirect cost rate to charge a de minimis rate of 10% of modified total direct costs to indirect costs. The City has not elected to use the 10% de minimis indirect cost rate.
- (C) The City has established a revolving loan program to provide low-interest loans to businesses that are creating jobs and meet the other program requirements. The Federal Department of Housing and Urban Development (HUD) grants money for these loans to the City passed through the Ohio Department of Development. The initial loan of this money is recorded as a disbursement on the accompanying Schedule of Expenditures of Federal Awards (the Schedule). Loans repaid, including interest, are used to make additional loans. Such subsequent loans are subject to certain compliance requirements imposed by HUD, but are not included as disbursements on the Schedule. At December 31, 2020, the City had \$42,168 in loans outstanding under this program. The City did not issue any loans during the year ended December 31, 2020 and received \$0 in loans repaid.

**Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other
Matters Based on an Audit of Financial Statements Performed in Accordance with
*Government Auditing Standards***

City of Niles
Trumbull County
34 W. State Street
Niles, Ohio 44446

To the Members of Council and Mayor:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Niles, Trumbull County, Ohio, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City of Niles' basic financial statements, and have issued our report thereon dated June 28, 2021, wherein we noted as described in Note 24 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods. In addition, as described in Note 23 to the financial statements, the City of Niles restated beginning net position related to capital assets and the implementation of Governmental Accounting Standards Board Statement No. 83.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Niles' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Niles' internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Niles' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City of Niles' financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Niles' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Niles' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Niles' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each Major Program
and on Internal Control Over Compliance Required by the Uniform Guidance**

City of Niles
Trumbull County
34 W. State Street
Niles, Ohio 44446

To the Members of Council and Mayor:

Report on Compliance for Each Major Federal Program

We have audited the City of Niles' compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Niles' major federal programs for the year ended December 31, 2020. The City of Niles' major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Niles' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Niles' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Niles' compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Niles complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2020.

Report on Internal Control over Compliance

Management of the City of Niles is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Niles' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Niles' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
