Toledo, Ohio 43604

We have reviewed the *Independent Auditors' Report* of the City of Toledo, Lucas County, prepared by Clark, Schaefer, Hackett & Co., for the audit period January 1, 2020 to December 31, 2020. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Toledo is responsible for compliance with these laws and regulations.

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) includes the federal award activity of the City of Toledo, Ohio (the “City”) under programs of the federal government for the year ended December 31, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (“Uniform Guidance”). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Toledo and is presented on the modified accrual basis of accounting, which is described in Note 1 to the City of Toledo, Ohio's (the City) Comprehensive Annual Financial Report. Such expenditures are recognized following the costs principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

**NOTE C – INDIRECT COST RATE**

The City has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

**NOTE D – SUBRECIPIENTS**

The City passes certain federal awards received from the U.S. Department of Housing and Urban Development to other governments or not-for-profit agencies (subrecipients). As Note B describes, the City reports expenditures of Federal awards to subrecipients on a modified accrual basis. As a direct recipient, the City has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

**NOTE E – HOME INVESTMENT PARTNERSHIPS PROGRAM (HOME) GRANT PROGRAMS WITH REVOLVING LOAN CASH BALANCE**

The current loan balance of the City's local program income account as of December 31, 2020 is \$8,805,627.

**NOTE F – MATCHING REQUIREMENTS**

Certain Federal programs require the City to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The City has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS****INDEPENDENT AUDITORS' REPORT**

To the Honorable Wade Kapszukiewicz, Mayor and Members of City Council  
City of Toledo, Ohio:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Toledo, Ohio (the "City") as of and for the year ended December 31, 2020 and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 30, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a certain deficiency in internal control, described as finding 2020-001 in the accompanying schedule of findings and questioned costs, that we consider to be a material weakness.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **City's Response to the Finding**

The City's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*Clark, Schaefer, Hackett & Co.*

Toledo, Ohio  
June 30, 2021

**REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY UNIFORM GUIDANCE****INDEPENDENT AUDITORS' REPORT**

To the Honorable Wade Kapszukiewicz, Mayor, Members of City Council and the Audit Committee  
City of Toledo, Ohio:

**Report on Compliance for The Major Federal Program**

We have audited the City of Toledo, Ohio's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City's major federal program for the year ended December 31, 2020. The City's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for the City's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the City's compliance.

***Opinion on the Major Federal Program***

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2020.

## **Report on Internal Control Over Compliance**

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of compliance requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We have issued our report thereon dated June 30, 2021, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United State of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Any audit findings that are required to be reported in accordance with 2 CFR 200.516(a)?	None
Identification of major programs:	
• CFDA 21.019 – Coronavirus Relief Fund	
Dollar threshold to distinguish between Type A and Type B Programs:	\$1,557,169
Auditee qualified as low-risk auditee?	No

## Section II – Financial Statement Findings

### Finding 2020-001 – Audit Adjustments

*Condition:* During the course of our audit, we identified audit adjustments which were necessary to correct the current year financial statements. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A deficiency in operation exists when a properly designed control does not operate as designed. In this case, the internal controls over the preparation and review of the City's financial statements did not operate as designed and we consider this a material weakness.

During the course of our audit, we identified misstatements in the financial statements for the year ended December 31, 2020, not initially identified by the City's internal control over financial reporting. Audit adjustments were necessary to correct errors related to taxes receivable and related deferred inflows, to properly record the receivable and expense for the energy special improvement districts, and a restatement of prior year net position related to disposal of fixed assets.

*Recommendation:* We recommend the City continue to enhance its internal controls over financial reporting with steps such as management analysis of the financials compared to prior years to ensure the preparation of reliable financial statements in conformity with generally accepted accounting principles.

*Views of Responsible Officials:* See Corrective Action Plan.

SECTION**

# CITY OF TOLEDO

*Wade Kapszukiewicz*  
*Mayor*

*Melanie Campbell*  
*Acting Director of Finance*

June 30, 2021

Honorable Mayor Wade Kapszukiewicz, Council President Matt Cherry and Members of City Council and Citizens of the City of Toledo, Ohio

As Acting Director of Finance for the City of Toledo, Ohio (the City), I am pleased to present the Comprehensive Annual Financial Report (Annual Report) for the fiscal year ended December 31, 2020.

The report contains basic financial statements, management's discussion and analysis, supplemental financial statements, and other financial and statistical information which provide a complete and full disclosure for all financial aspects material to the City. This Annual Report conforms to Generally Accepted Accounting Principles in the United States of America (GAAP) as set forth by the Governmental Accounting Standards Board (GASB).

The City's management assumes the responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable assurance, rather than absolute assurance, that the financial statements are free of any material misstatements. We believe this data fairly reflects the financial position of the City and the results of its operation.

As part of the annual preparation of the Annual Report, the City is subject to an annual independent audit of its basic financial statements, which serves to strengthen the City's accounting, budgetary, and internal control of its financial and operational systems. The firm of Clark, Schaefer, Hackett & Co., located in the City of Toledo, Ohio, has issued an unmodified ("clean") opinion on the City's financial statements for the year ended December 31, 2020. The independent auditors' report is located at the front of the financial section of this report.

This transmittal letter should be read in conjunction with the Management's Discussion and Analysis, which provides a narrative introduction, overview and analysis of the basic financial statements.

## **PROFILE OF THE GOVERNMENT**

The City was incorporated January 7, 1837 and operates under its Charter adopted in November 1914. The City may exercise all powers of local self-government granted under Article XVIII, Section 3, of the Ohio Constitution, not in conflict with applicable general laws of Ohio. The Charter provides that the City operate under the strong mayor/council form of government.

Legislative authority in the City is vested in a twelve-member Council. Six members of the Council are elected at-large and six from districts, all for overlapping four-year terms. The Council is authorized to enact ordinances and resolutions relating to City services, tax levies, appropriating and borrowing money, licensing and regulating businesses and trades, and other municipal activities. The Council also has authority to fix the compensation of City officers and employees. The Council elects one of its members to serve as the President of Council, its presiding officer.

ONE GOVERNMENT CENTER, SUITE 2050, TOLEDO, OHIO 43604-2284  
Telephone: (419) 245-1648 • FAX: (419) 245-1863

Toledo, the fourth largest city in Ohio, is located on the coast of Lake Erie in Northwest Ohio, approximately 150 miles north of Columbus, 120 miles west of Cleveland, and 50 miles south of Detroit, Michigan. The City’s elevation is approximately 614 feet above sea level. In terms of population, the City is the fourth largest city in the State of Ohio. Census information for 2020 is not available as of the issuance of this Annual Report. Comparative 2020 census population figures will be included in the City’s 2021 Annual Report. Available comparative data for Ohio’s six largest cities is as follows:

City	Area	Population		
		2010	2000	1990
Columbus	227.2 sq miles	787,033	711,470	632,910
Cleveland	77.9 sq. miles	396,815	478,403	505,616
Cincinnati	78.8 sq. miles	296,943	331,285	364,040
Toledo	84.3 sq. miles	287,208	313,619	332,943
Akron	62.4 sq. miles	199,110	217,074	223,019
Dayton	56.3 sq. miles	141,527	166,179	182,044

For financial purposes, this Annual Report is in conformity with the provisions of GASB Statement No. 61, the Financial Reporting Entity, all governmental departments, agencies, institutions, commissions, public authorities and other governmental organizations for which the City has significant accountability. Financial accountability is determined by the City’s financial interdependence. The reporting entity of the City includes the following services as authorized by its charter: public safety, highways and streets, water and sanitation, health and social services, culture and recreation, public improvements, planning and zoning and general administrative services.

**ECONOMIC CONDITION AND OUTLOOK**

The City and the Toledo Metropolitan Statistical Area (MSA) have diverse economies in both their manufacturing and their increasingly important service sectors. Within the Toledo MSA are manufacturers of automobiles and automotive parts, glass, wood products, grain and food products, petroleum, chemicals, machinery, tools, rubber products, plastics, die-castings and solar energy panels. Among the largest service sector employers in the Toledo MSA are health care providers, public higher educational institutions, local governments, public utilities, freight and transportation companies, and financial institutions and retailers.

The City has experienced significant development momentum over the past few years that has resulted in thousands of new jobs and over \$2 billion of capital investment. This momentum has led to national recognition. In March 2021, Site Selection Magazine announced Toledo ranked number one in the nation among mid-sized cities for new business investment. Below is a summary of the major economic development projects driving this momentum.

- In May 2021, the City sold the former 40-acre Textileather property to Stellantis to build a 250,000 square foot vehicle customization facility to support production of the Jeep Wrangler and Gladiator. The \$23 million facility will be owned by Stellantis and leased to a supplier that is expected to employ 300 people with an associated annual payroll of \$12 million. The project started construction in June and is expected to be complete by January 2022.
- In May 2021, Amazon cut the ribbon at its 150,000 square foot delivery station at the former Southwyck Mall property. The City acquired the property in 2014 with the goal of attracting a redevelopment project that would positively impact the Reynolds Road Corridor. After several years of inactivity, the City and its economic development partners began to form a strategy for the site that targeted a large job creation project in the Logistics and Distribution Industry. The site was repositioned and marketed as the City’s largest available pad-ready industrial site. The site’s location within the region and access to major roadways and interstates were major factors in Amazon’s decision to move forward. The company’s delivery station will provide consumer direct delivery services up to a 45-minute radius of the site. Amazon will directly employ 110 employees and will contract with an additional 300 independent contractors for delivery services. The company invested \$25 million in the new facility.

- In January 2021, Libbey Glass LLC announced it would maintain its Toledo operations, add a stemware line and remain headquartered in Downtown Toledo. The company plans to invest \$30 million over the next four years in its Champlain Street facility, which employs 844 workers.
- In February 2021, Bitwise Industries, a Fresno, California-based tech company, announced plans to partner with ProMedica to open a regional office in Toledo's Uptown neighborhood. The company will create 378 full-time equivalent jobs with an annual payroll of \$20,373,000. ProMedica and Bitwise will invest \$30 million to redevelopment the historic Jefferson Center as a new tech hub. Construction is expected to begin in early 2022.
- In February 2021, General Motors announced plans to invest \$75 million at its GM Powertrain Division's Alexis Road transmission plant to increase capacity for 10-speed transmission for the Chevrolet Silverado and GMC Sierra. General Motors currently produces six-speed, eight-speed and ten-speed rear-wheel-drive transmissions and 6-speed front-wheel-drive transmissions at the plant that are used in a variety of GM vehicles, including at least 28 cars, trucks, sport utility vehicles and sports cars. The transmission plant employs 1,500 workers. General Motors' announcement follows one made in September 2020 where the company announced a \$39 million upgrade to enhance the production of eight-speed rear-wheel-drive transmission.
- In June 2021, Cleveland-Cliffs cut the ribbon on its one billion-dollar HBI direct reduction plant. The facility employs 160 full-time equivalent workers and employed 1,100 construction workers. Cleveland-Cliffs' Toledo plant is the most technologically-advanced DR facility in the world. Cleveland-Cliffs is the largest flat-rolled steel producer and largest manufacturer of iron ore pellets in North America.
- Several major job creation projects have occurred within the City's Joint Economic Development Districts (JEDDs), Joint Economic Development Zones (JEDZ) and Municipal Utility Districts (MUD). These special economic development tools allow the City to receive a portion of the income tax revenue that is generated within the specified geographic area.

o City of Toledo-City of Maumee-Monclova Township JEDZ

- In March 2021, the City sold 6.51 acres within the Triad Business Park for \$290,000 to Service Spring. The company purchased the property to expand its existing manufacturing facility to the north. Service Spring will create 20 full-time equivalent jobs and invest \$12 million in expanding the facility. The sale of this property represents the last available city-owned property in the Triad Business Park.

o City of Toledo-Troy Township JEDD

- In May 2021, Peloton Interactive Inc. announced plans for a one million square foot manufacturing plant that will cost \$400 million and employ nearly 2,200 workers with an estimated annual payroll of \$138 million. The company expects production to begin on the Peloton Bike, Bike+, and Peloton Tread in 2023.
- In November 2020, NSG Group announced the start of production for its transparent conductive oxide coated glass for its largest customer First Solar. The new \$265 million, 500,000 square foot glass production facility employs 150 workers.

o City of Toledo-Monclova Township-Swanton Township (Toledo Express Airport JEDD, or TEA JEDD)

- In December 2020, construction finished on the second 105,000 square foot spec building at the 250-acre Land-Air Industrial Park. This completion of this building increases the competitiveness of Northwest Ohio when competing for job creation projects that require speed to market. The first spec building was acquired by Johnson who hired 60 workers.

o City of Toledo-City of Rossford MUD

- In February 2021, one of the nation’s largest industrial developers, Scannell Properties announced it had acquired 200-acres in the Crossroads and will start development by building a 300,000 square foot spec warehouse.
- In November 2020, Amazon opened its 700,000 square foot fulfillment center in Rossford that will employ 1,000 workers.
- In May 2020, Continental Real Estate Companies cut the ribbon on its \$50 million mixed-use project at the Marina District in East Toledo. The project includes a 360-unit upscale apartment complex called Marina Lofts and 60,000 square feet of Class A office space and convenience retail. In addition to the Marina Lofts, Continental is also expected to break ground on the Colony project in early 2022. The Colony project involves the redevelopment of 10-acres of vacant and underutilized property in West Toledo into a \$50 million mixed-use project that will include a 120-room Home2 Suites hotel by Hilton, a 262-unit apartment complex and a commercial building for a new restaurant and retail space. This multi-million-dollar project will have a positive return on investment for the City resulting in more than 300 construction jobs and 86 permanent jobs. The payroll from the construction jobs alone is estimated to generate more than half a million dollars in income taxes for the City, while the permanent jobs are expected to generate \$50,000 annually. In conjunction with this project, there will also be infrastructure upgrades that will improve water redundancy and storm water drainage that will benefit all property owners in surrounding area. This project will create peripheral development momentum similar to what the City is now experiencing in East Toledo near the Marina Lofts project.
- In conjunction with the Marina Lofts project, Metroparks Toledo is redeveloping 67-acres within the Marina District into the Glass City Metropark. This new metropark will be a regional destination with unique amenities such as a lighted sledding hill, a concert knoll for up to 6,000 people, a refrigerated ice-skating ribbon, a splash and play area, a river boardwalk, a fishing platform, an earth-bermed pavilion with seating for 150 people and overnight camping. Phase one of the \$16 million project opened in October 2020 and phase two is expected to break ground in July 2021. Metroparks Toledo, in partnership with the City, also plans to construct a \$200 million project called the Glass City Riverwalk. This project will be a multi-purpose walkway that will traverse both sides of the Maumee Riverfront from the Anthony Wayne Bridge to the Veteran's Glass City Skyway. In September 2020, the U.S. Department of Transportation awarded Toledo Metropolitan Area Council of Governments (TMACOG) a \$23.6 million BUILD grant to support the Glass City Riverwalk project.
- The Windsor Companies, a Columbus developer, announced its plans in April 2020 to construct a 120 to 125-unit apartment complex in the Uptown neighborhood. The project will have a series of two to three-story buildings on 2.8 acres with ground floor commercial space. The project will provide one bedroom and two-bedroom apartments ranging in size from 700 to 1,300 square feet. The developer expects to break ground in late 2021.

The Toledo MSA serves as a major transportation center, and significant employment is provided by transportation industry employers. The City’s economy, historically associated with the glass and automotive industries, has become increasingly diversified. The Toledo MSA remains the home of four of the nation’s largest glass manufacturing companies: Owens-Illinois, Inc., Owens-Corning, Pilkington North America, Inc., and Libbey, Inc., earning the City the title of the “Glass Capital of the World”. Fiat Chrysler Automobiles, General Motors Company and Dana Holding Corporation continue to provide a major automotive industry presence in the Toledo MSA. The Toledo MSA is also one of the larger oil refining centers between Chicago and the eastern seaboard, with BP Oil Co. and Sun Refining and Marketing each operating a major refinery in the MSA. However, private service industries and governmental employers have provided more than three-fourths of the total employment in the Toledo MSA and more than 70% of total payrolls in the County in recent years.

## **MAJOR CITY INITIATIVES**

The City continues to provide a variety of service and development initiatives to meet the needs of its citizens in a most cost-effective and efficient manner. Such initiatives focus on maintaining and improving neighborhoods, public safety, financial position, economic and business development, and water and sewer quality and distribution.

## **ACCOUNTING SYSTEM**

The City's day-to-day accounting records are maintained on GAAP basis. For financial reporting purposes, the accounting records for all governmental funds are reported on a modified accrual basis, whereby revenues are recognized when measurable and available within the business cycle (60 days after year end), and expenditures are recognized when the related fund liability is incurred. The accounting records for the proprietary funds and government-wide financial statements are reported on an accrual basis, whereby revenues are recognized when measurable and earned and expenses are recognized as incurred. The City utilizes the SAP enterprise resource planning (ERP) system, which was implemented in May of 2010.

In November of 2015, the City of Toledo became the first major city in Ohio to participate in the State Treasurer's OhioCheckbook.com. OhioCheckbook.com is a transparency initiative which allows citizens to view the City's individual financial transactions online. The City periodically updates the information.

## **BUDGETING AND LONG-TERM FINANCIAL PLANNING**

The Toledo Charter identifies the City's fiscal year as beginning on January 1st, while requiring that the Mayor prepare a temporary balanced budget estimate on or before November 15th for the following year. A final balanced budget is required to be approved by City Council no later than March 31st.

In 2020, the City's uninsured outstanding general obligation bonds were rated "A2" by Moody's Investors Service with a stable outlook and "A-" with a stable outlook by Standard and Poor's. The City monitors its leeway within the direct debt limitation. The City's legal debt margin information is contained in Table 14 of the Statistical Section.

## **INTERNAL CONTROL**

The management of the City is responsible for establishing and maintaining internal control, designed to provide reasonable but not absolute assurance that the assets of the City are protected from loss, theft, or misuse. Management also ensures that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The design of the internal control also recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of Federal and State financial assistance, the City is responsible for ensuring that adequate internal controls are in place and that the City has complied with applicable laws and regulations related to those programs. The City's internal control structure is periodically evaluated and modified by management to better protect and defend the integrity of the City's financial position.

## **CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING**

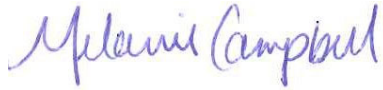

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2019. The certificate is valid for a period of one year. This is the thirty-seventh year since 1982 that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Report. This report must satisfy both GAAP and applicable legal requirements. We believe that our current year report continues to conform to the stringent guidelines and requirement of the program, and the City continues to submit an Annual Report to the GFOA to determine its current eligibility for another certificate.

**ACKNOWLEDGEMENTS**

This report is the result of the continued cooperation and combined services of the elected officials and management of the City. The preparation of the Annual Report could not have been accomplished without the dedicated service of the Division of Accounts staff. Our appreciation is also extended to the entire Department of Finance and the various other departments whose cooperative efforts during the course of this report's preparation made possible its completion on a timely basis.

In closing, we would like to thank the Mayor and Members of Council for their continued leadership and support.

Respectfully submitted,

Melanie Campbell

**FINANCIAL  
SECTION**

**INDEPENDENT AUDITORS' REPORT**

To the Honorable Wade Kapszukiewicz, Mayor and Members of City Council  
City of Toledo, Ohio:

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Toledo, Ohio (the "City") as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Toledo, Ohio, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information and schedules of net pension and OPEB liabilities and pension and OPEB contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, introductory section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

*Clark, Schaefer, Hackett & Co.*

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
**(Unaudited)**

As management of the City of Toledo, Ohio (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2020. We encourage readers to consider the information presented here in conjunction with the letter of transmittal at the front of this report and the City's financial statements, which follow this section.

**Financial Highlights**

Key financial highlights for 2020 are as follow:

- The assets and deferred outflow of resources of the City exceeded its liabilities and deferred inflow of resources at the close of 2020 by \$867.6 million. Of this amount (\$230.1) million is considered unrestricted. The unrestricted net position of the City's business-type activities is \$97.5 million and may be used to meet the on-going obligations of the business-type activities, including water, sewer, utilities administrative service and six nonmajor enterprise funds including Storm Sewer, Property Management, Small Business Development, Municipal Tow Lot, Marina Operations (which has ceased activity), and Toledo Public Power. The unrestricted net position of the governmental activities is (\$327.6) million.
- The City's total net position increased \$82.1 million or 10.5 percent in 2020 (from restated balance – see Note 16). Net position of the governmental activities increased \$39.3 million in 2020 from 2019 (as restated), which represents a 34.0 percent increase from 2019. Net position of the business-type activities increased \$42.8 million or 6.4 percent from 2019.
- The net cost of the City's programs (total expenses less program revenues) increased approximately \$123.9 million. For 2020 and 2019, the net cost of governmental activities was \$194.4 million and \$77.2 million, respectively. For 2020 and 2019, the net cost of business-type activities was (\$39.3) million and (\$46.0) million, respectively.
- At the close of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$116.3 million. The combined fund balance of the governmental funds increased \$48.8 million from 2019.

**Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-Wide Financial Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances in a manner similar to private-sector business.

The *statement of net position* presents information on all of the City's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the four reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenue and expenses reported in this statement for some items will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
**(Continued)**

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees or charges (business-type activities). The governmental activities of the City include general government, public service, public safety, public utilities, community environment, health and parks and recreation. The business-type activities of the City primarily include two enterprise activities: water and sewer funds.

**Fund Financial Statements**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

**Governmental Funds**

*Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 23 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, the Capital Improvements Fund and the Special Assessments Services Fund, all of which are considered to be major funds. Data from the other 20 governmental funds are combined into a single, aggregate presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

**Proprietary Funds**

The City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, storm sewer and utility administration services as well as property management, small business development, tow lot, marina operation and Toledo Public Power. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions including municipal garage, capital replacement, facility operations, storeroom and printshop, information and communication technologies, risk management, workers' compensation activities, and healthcare self-insurance. The services provided by these funds predominantly benefit governmental rather than business-type functions. They have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for water operations, sewer operations, and utility administration; all of which are considered to be major funds of the City. Conversely, all internal service funds are combined into a single, aggregate presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
**(Continued)**

**Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Required Supplementary Information (RSI)**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's General Fund and Special Assessment Services Fund budgets and information regarding the City's proportionate share of the Ohio Public Employees Retirement System's (OPERS) and Ohio Police and Fire Pension Fund (OP&F) net pension liability and other post-employment benefits (OPEB) liability and the City's schedule of contributions to OPERS and OP&F. The City adopts an annual appropriation budget for its General Fund and Special Assessment Services Fund. A budgetary comparison statement has been provided for these funds to demonstrate compliance with their respective budgets.

**Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements and schedules. The combining statements referred to earlier in connection with nonmajor governmental funds, nonmajor enterprise funds, internal service funds and custodial funds are presented immediately following the required supplementary information.

The City has included a special budgetary comparison section for the governmental funds. This includes the general fund, capital improvements fund, special assessment services fund and the nonmajor governmental funds broken out individually to report revenues for the fund as well as expenditures reported by major service area and funds center.

The net pension liability is reported pursuant to Governmental Accounting Standards Board (GASB) Statement 68, "*Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27.*" The net other postemployment benefits (OPEB) liability is reported pursuant to GASB Statement 75, "*Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.*" For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability, and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
**(Continued)**

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability or net OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the City's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

#### Analysis of Net Position

As noted earlier, the net position may serve over time as a useful indicator of a government's financial position. The City's assets and deferred outflow of resources exceeded liabilities and deferred inflow of resources by approximately \$867.6 million at the close of the most recent fiscal year.

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
**(Continued)**

The largest portion of the City's net position (105.2 percent) reflects an investment in capital assets (e.g. land, buildings, improvements other than buildings, machinery and equipment and infrastructure); less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these assets

An additional portion of the City's net position (21.3 percent) represents resources that are subject to use restrictions. The remaining balance of the unrestricted net position (a deficit of 26.5 percent) meets the government's on-going obligations to citizens and creditors. It is important to note that although the total unrestricted net position is a deficit of \$230.1 million the unrestricted net position of the City's business-type activities \$97.5 million may not be used to fund governmental activities. As of the end of the current fiscal year, the City has unrestricted deficit net position related to government type activities of \$327.6 million.

- The overall net position of the City increased \$82.1 million or 10.5 percent in 2020 (from restated balances). The net position for governmental activities increased \$39.3 million or 34.0 percent (from restated balances).
- The net position of business-type activities of the City increased by \$42.8 million or 6.4 percent. The increase in revenue stems from rate increases authorized by City Council that systematically upgrades the public utility infrastructure coupled with cost containment measures.

The following table provides a summary of the change in net position from 2019 to 2020.

**Changes in Net Position**

**Governmental Activities:** Governmental activities increased the City's net position by \$39.3 million. Key elements of the net position are as follows:

- Income tax revenue, which represents 50.5 percent of the City's governmental revenue, finished 2020 \$10.4 million or 5.4 percent lower than the prior year.
- Charges for services decreased by \$8.9 million or 11.1 percent primarily due to decreased charges for services and fines and forfeitures supporting public safety programs. During 2020, public safety expenses received substantial support through the receipt of approximately \$25 million in CARES Act funding. The CARES Act funding accounts for the increase in operating grants and contributions from 2019.
- Capital grants and contributions decreased by \$14.5 million due primarily to decrease in capital improvement grant funding in 2020.
- Public safety expenses increased by \$155.9 million due primarily to fluctuations in the Other Postemployment Benefits (OPEB) expense related to the Ohio Police & Fire Pension Fund (OP&F). Reported amounts for 2019 were significantly lower than historical amounts due to a change in OP&F's OPEB model. Beginning January 1, 2019, OP&F replaced its retiree health care model and current self-insured health care plan with a stipend-based health care model. As a result of the change in OPEB models, OP&F reported a significant decrease in OPEB expense in 2019. The City reports its proportionate share of OP&F OPEB expense. As a result, the City's public safety expense for 2019 were significantly lower than in 2018. The 2020 public safety expense approximates the 2018 public safety expenses of \$205.5 million.

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
**(Continued)**

**Business-Type Activities:** Net position of the City's Business-type activities increased \$42.8 million. Key elements of the changes in net position are as follows:

- Charges for services increased \$2.0 million or 1.00 percent in 2020, resulting from a sewer utility charge rate increase approved by City Council in 2014.
- Expenses were \$7.8 million higher in 2020 versus the previous year due primarily to increased pension and OPEB expenses related to the Ohio Public Employee Retirement System (OPERS).

**Financial Analysis of the Government's Funds**

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

**Governmental Funds**

The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of December 31, 2020, the City's governmental funds reported a combined ending fund balance of \$116.3 million, an increase of \$48.8 million in comparison with the prior year. There is an *unassigned fund balance* deficit of \$37.9 million. The *nonspendable fund balance* of \$8.4 million represents the City's prepaid items and investment in inventory. The \$103.9 million *restricted fund balance* is not available for new spending because it has already been restricted by parties outside of the City or pursuant to enabling legislation. There is a *committed fund balance* of \$15.3 million that is primarily the City's Budget Stabilization Fund of \$13.4 million and assigned fund balance of \$26.6 million for subsequent year appropriations.

**General Fund:** The General Fund is the chief operating fund of the City. At December 31, 2020, the total fund balance of the general fund was \$84.6 million. The fund balance of the City's general fund increased \$38.0 million during 2020. The City's income tax revenue decreased by \$7.7 million or 4.1 percent, due to the timing of collections related to the COVID-19 pandemic. Expenditures decreased \$23.5 million primarily in the area of public safety as the City reported COVID-19 related public safety expenditures in the CARES Act Fund (a nonmajor governmental fund). The General Fund made transfers out of \$40.0 million in 2020 compared to \$42.2 million in 2019.

**Capital Improvement Fund:** The Capital Improvement Fund is used to account for construction, acquisition and major improvements of the City's buildings, infrastructure and parklands. The operating transfers of funds received herein are derived from the income taxes that are earmarked by voters for capital improvement, construction grants and bond sales. At December 31, 2020, total fund balance of the capital improvements fund is \$55.6 million. The fund balance of the Capital Improvements Fund increased \$4.6 million during 2020 mainly due decreased spending on capital projects in 2020 coupled with the issuance of bonds for street, sidewalk, and Levis Square Park improvements.

**Special Assessments Services Fund:** The Special Assessments Services Fund accounts for the proceeds of special assessments levied against property owners benefiting from street cleaning, street lighting, surface treatment, weed cutting, snow removal and tree and ditch maintenance. Costs of assessments are charged to property owners two years after incurred. At December 31, 2020, total fund balance of the Special Assessments Services Fund was a deficit of \$57.9 million, thus decreasing the deficit by \$1.2 million from the prior year.

**Proprietary Funds**

The City's proprietary fund financial statements provide the same information found in the government-wide financial statements, but in more detail.

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
**(Continued)**

The City operates three major enterprise activities: water, sewer, and utility administration. The City also operates six nonmajor enterprise funds: Storm Sewer, Property Management, Small Business Development, Municipal Tow Lot, Marina Operations (no activity during 2020), and Toledo Public Power. These activities are accounted for in separate enterprise funds. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the City intends that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The City reports on its enterprise funds using the full accrual basis of accounting.

**Water:** The total net position of the Water Fund at the end of the year amounted to \$257.0 million, of which \$18.1 million is unrestricted. The net position of the Water Fund increased \$16.4 million or 6.8 percent in 2020. Operating revenues increased by \$3.2 million or 4.1 percent from 2019. Operating expenses increased by \$1.9 million or 3.7 percent, due to increased plant operations costs in the areas of contract services and depreciation expense.

**Sewer:** The total net position of the Sewer Fund at the end of the year amounted to \$384.8 million of which \$48.3 million is unrestricted. The net position of the Sewer Fund increased \$24.1 million or 6.7 percent. Operating revenue increased \$3.8 million or 4.3 percent with help from the scheduled rate increases in 2020. Operating expenses increased by \$3.6 million or 6.7 percent, due to increased plant operations costs in the areas of contract services and depreciation expense.

**Utility Administrative Services:** The total net position of the Utility Administrative Services Fund at the end of the year amounted to \$2.6 million, of which \$2.5 million is unrestricted. The net position of the Utility Administrative Services Fund decreased by \$0.2 million. Operating revenues for fiscal year 2020 decreased by \$3.9 million or 21.7 percent. Operating expenses for fiscal year 2020 increased by \$0.3 million or 2.4 percent.

**Nonmajor:** The total net position of the nonmajor enterprise funds at the end of the year amounted to \$68.3 million of which \$28.6 million is unrestricted. The net position of the nonmajor enterprise funds increased \$2.5 million, or 3.8 percent. Operating revenues for fiscal year 2020 decreased by \$1.1 million or 8.2 percent under comparable revenue in 2019. Operating expenses for fiscal year 2020 decreased \$0.7 million or 6.8 percent under comparable expenses in 2019.

Other factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

### **General Fund Budgetary Highlights**

The City's budgeting process is prescribed by the Ohio Revised Code (ORC). Essentially the budget is the City's appropriations which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the ORC. Therefore, the City's plans or desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity then the appropriations can be adjusted accordingly.

Budgetary information is presented for the General Fund. In the General Fund, the original and final budgeted amount in the area of expenditures and other financing uses, decreased \$11.4 million from \$281.2 million to \$269.8 million. Actual revenues and other financing sources of \$275.8 million were more than final budgeted revenues and other financing sources by \$5.9 million. The other significant change was between the final budgeted expenditures and other financing uses and actual expenditures and other financing uses. Actual expenditures and other financing uses came in \$31.9 million lower than the final budgeted amounts, primarily due to expenditures for public safety being less than budgeted.

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
(Continued)

The following schedule is a summary of comparable General Fund revenue for 2020 and 2019:

**Revenues and Other Financing Sources**  
(Amounts in Thousands)

	2020	Percentage of Total	Increase (Decrease) from 2019	Percentage Change from 2019

Investment Earnings	1,530	0.6%	(660)	-30.1%
Fines and Forfeitures	4,713	1.7%	(4,604)	-49.4%
Other Revenue	552	0.2%	(3,013)	-84.5%
Sale of Capital Assets	-	0.0%	(306)	-100.0%
Transfers In	26,818	9.7%	25,348	1724.4%
<b>Total</b>	<b>\$ 275,754</b>	<b>100.0%</b>	<b>\$ 6,429</b>	

Key elements of the changes in revenues are as follows:

- Income tax revenue decreased primarily due to the negative economic impact of the COVID-19 pandemic.
- Intergovernmental services revenue decreased due to decreased casino revenues.
- Fines and forfeitures revenue decreased due to the suspension of the photo enforcement traffic citation program during the second half of 2020.
- Transfer in increased due to excess BWC rebates transferred from the Workers' Compensation Internal Service Fund and transfers from the Capital Improvement fund authorized by enacted legislation to provide for emergency measures for the immediate preservation of the public peace and health & safety and the timely start of a new police class for 2020.

The 2020 final General Fund total expense budget was \$269.8 million.

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
(Continued)

The following schedule is a summary of comparable General Fund expenditures for 2020 and 2019:

**Expenditures and Other Financing Uses**  
(Amounts in Thousands)

	2020	Percentage of Total	Increase (Decrease) from 2019	Percentage Change from 2019
General Government	\$ 25,253	10.6%	\$ (568)	-2.2%
Public Service	4,557	1.9%	2,631	136.6%
Public Safety	149,666	62.9%	(24,642)	-14.1%
Community Environment	7,122	3.0%	421	6.3%
Health	8,371	3.5%	(433)	-4.9%
Parks and Recreation	2,197	0.9%	(869)	-28.3%
Principal retirement	698	0.3%	27	4.0%
Interest and Fiscal Charges	20	0.0%	(21)	-51.2%
Transfers Out	40,047	16.8%	(2,105)	-5.0%
<b>Total</b>	<b>\$ 237,931</b>	<b>100.0%</b>	<b>\$ (25,559)</b>	

Generally, General Fund expenditures decreased across various functions, as Workers' Compensation and health care costs decreased. Additionally:

- General government decreased primarily due to decreased personnel costs.
- Public safety expenditures decreased primarily due to \$24.6 million of expenditures being paid for from the CARES Act fund (a nonmajor governmental fund) rather than the General Fund in 2020. COVID-19 related expenditures funded by the CARES Act were required to be reported in a separate fund.
- Transfers out decreased due to decreased income tax collections and associated transfer to the Capital Improvement Fund.

**General Fund Balance:** Total fund balance in the General Fund was a positive balance of \$84.6 million. The fund balance is comprised of the following:

- *Nonspendable* – Inventory of \$2.0 million comprised in 2020.
- *Restricted* – This category applies to funds which can only be spent for a specific purpose stipulated by external resource providers or through enabling legislation. The restricted fund balance of the General Fund totaled \$3.9 million in 2020.
- *Committed* - The City maintains a Budget Stabilization Designation to cover unexpected revenue shortfalls and/or expenditure increases. This is classified under the committed category of fund balance and totaled \$13.4 million in 2020. The City did not utilize monies in the Budget Stabilization Designation for expenditures in 2020.
- *Assigned* – The City's assigned fund balance of \$26.6 million represents subsequent year appropriations.
- *Unassigned* – This is the residual classification for the remaining funds that have not been reported in any other classification. In 2020, the unassigned fund balance totaled \$38.8 million.

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
(Continued)

**Capital Asset and Debt Administration**

**Capital assets:** The City's capital assets, net of depreciation for governmental and business-type activities as of December 31, 2020, amounts to \$1.831 billion. This investment in capital assets includes land, buildings, water and sewer distribution systems, improvements, machinery and equipment, park facilities, roads, curbs, gutters, streets, sidewalks and drainage systems. The City has restated capital asset balances of the governmental activities as described in Note 7 and Note 16.

**Capital Assets (Net of Depreciation)**  
(Amounts in Thousands)

	Governmental Activities		Business-Type Activities		Total	
	Restated		2020	2019	2020	Restated
	2020	2019				
Land	\$ 26,040	\$ 26,832	\$ 5,716	\$ 6,225	\$ 31,756	\$ 33,057
Construction in Progress	134,070	222,953	480,387	664,357	614,457	887,310
Building	30,613	30,473	49,876	18,640	80,489	49,113

Total	<u>\$ 530,067</u>	<u>\$ 512,402</u>	<u>\$ 1,300,713</u>	<u>\$ 1,238,239</u>	<u>\$ 1,830,780</u>	<u>\$ 1,750,641</u>

Major capital asset events during 2020 included the following:

- Total investment in capital assets increased \$80.1 million or 4.6 percent (from restated balance).
- Business-type capital assets increased by \$62.5 million or 5.05 percent net of \$25.6 million in current year depreciation expense. The increase is attributed to the City's continued investment into its water and sewer system infrastructure.
- Governmental capital assets increased by \$17.7 million or 3.4 percent (from restated balance) net of \$25.6 million in current year depreciation expense.

Additional information on the City's capital assets can be found in Note 7 of this report.

**Long-Term Debt:** At December 31, 2020, the City had \$1.640 billion of long-term bonds, notes, loans and other obligations outstanding net of unamortized premiums and discounts in governmental and business-type activities. General obligation bonds are supported by the full faith and credit of the City. All assessment obligations issued by the City are general obligations of the City. There were no special assessment bonds outstanding at December 31, 2020. The revenue bonds of the City represent bonds secured solely by specified revenue sources. See Note 9 for further information on the City's long-term debt.

**Notes payable:** In addition to the long-term debt described above and reported in the table below, the City also had \$2,460 in general obligation special assessment notes and \$40,900 in revenue obligation assessed services notes. The general obligation notes were issued to cover capital costs related to constructing and reconstructing sidewalks, including, where necessary, driveway aprons, between certain termini on certain designated streets. The revenue obligation notes were issued to cover capital costs related to City services such as street lighting, street sweeping, snow removal, surface treatment of unimproved streets, leaf pick up and tree planting, and trimming and removal in the public right away. See Note 8 for further information on the City's notes payable obligations.

<b>Total</b>	<b>\$ 600,279</b>	<b>\$ 671,586</b>	<b>\$ 1,040,108</b>	<b>\$ 932,890</b>	<b>\$ 1,640,387</b>	<b>\$ 1,604,476</b>

Total long-term debt outstanding at December 31, 2020 increased \$35.9 million or 2.2 percent as compared to the amount outstanding at December 31, 2019.

On December 31, 2020, the City's bond ratings with Standard & Poor's Corporation and Moody's Investor Services, Inc. were A- and A2, respectively.

The ORC provides two debt limitations that are directly based on tax valuation of all property in a city.

- The net principal amount of both voted and nonvoted debt of a city, excluding certain "exempt debt", may not exceed 10.5 percent of the total tax valuation of all property in the city as listed and assessed for taxation.
- The net principal amount of the nonvoted debt of a city, excluding exempt debt, may not exceed 5.5 percent of that valuation.

**Debt Limitations**

These two limitations are referred to as "direct debt limitations." Without consideration of amounts in the City's bond retirement fund and based on outstanding debt as of December 31, 2020 as well as current assessed valuation, the City's voted and nonvoted nonexempt debt capacities within the direct debt limitations were (amounts in thousands):

	Limitation	Nonexempt Debt Outstanding	Additional Debt Capacity Within Limitation
10.50%	\$ 356,912	\$ 117,820	\$ 239,092
5.50%	\$ 186,954	\$ 117,820	\$ 69,134

**City of Toledo, Ohio**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2020**  
**(Continued)**

Nonvoted general obligation debt issued by the City is also subject to an indirect debt limitation, commonly referred to as the "ten-mill limitation," imposed by a combination of provisions of the Ohio Constitution and the ORC. Under that limitation, nonvoted debt may not be issued unless the ad valorem property tax for the payment of debt service on (a) the bonds (or the bonds in anticipation of which notes are issued), and (b) all outstanding nonvoted general obligation bonds (including bonds in anticipation of which BANs are issued) of the combination of overlapping taxing subdivisions including the City resulting in the highest tax required for such debt service, in any year is 10 mills or less per \$1.00 of assessed valuation.

As of December 31, 2020, the total millage theoretically required by the City and the combination of overlapping taxing subdivisions was estimated to be 7.1415 mills, up from the prior year of 6.5696 mills for the year of the highest potential debt service. The City and the overlapping taxing subdivisions had the highest millage requirements for debt service on nonvoted general obligation debt in any year for their outstanding nonvoted general obligation debt. The remaining 2.8585 mills within the ten-mill limitation was yet to be allocated to debt service and that was available to the City and overlapping subdivisions in connection with the issuance of additional nonvoted general obligation debt.

Additional information regarding the City's outstanding debt can be found in Notes 8 and 9 of the financial statements of this report.

**Economic Factors and 2021 Budgets and Rates**

The City of Toledo is committed to controlling costs, putting the highest premium on safety for our citizens and adopting a budget designed to promote both the community's interests and the long-term fiscal stability of the City with steadily growing fund balances. Controlling personnel costs, incarcerations costs, and health care expenses have contributed to a formula of success. Our total General Fund budget for 2021 is \$286.8 million.

**Request for Information**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to show accountability for its public funds. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

**City of Toledo, Ohio**  
**Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position**  
**December 31, 2020**  
**(Amounts in Thousands)**

**Amounts reported for governmental activities in the statement of net position are different because:**

Total fund balances for governmental funds		\$ 116,309
Capital assets used in governmental activities (excluding those reported in the internal service funds) are not financial resources and therefore are not reported in the funds		518,179
Revenue will be collected beyond the 60 day period used in the governmental fund statements. Revenue and the corresponding receivable are included in the government-wide statements		
Special assessments	\$ 56,835	
Income taxes	8,937	
Delinquent property taxes	3,849	
Capital grants	393	
Operating grants	530	
Intergovernmental services/reimbursements	7,683	78,227
Internal service funds are used by the City to account for the financing of goods or services provided by one department or agency to the other City departments or agencies, generally on a cost reimbursement basis. The assets, liabilities, and deferred outflows/inflows of the internal service funds are included in governmental activities in the statement of net position.		19,848
Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities - both current and long-term - are reported in the statement of net position. The City's long-term obligations (excluding those reported in the internal service funds) are:		
General obligation bonds	(115,376)	
Non-taxable revenue bonds	(11,607)	
Compensated absences	(32,157)	
Loans outstanding from state agencies	(6,199)	
Loans outstanding from other sources	(650)	
Accrued interest	(458)	
Landfill closure	(15,863)	(182,310)
The net pension liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in governmental funds (excluding the portion reported in the internal service funds).		
Deferred outflows-pensions	47,352	
Deferred inflows-pensions	(48,753)	
Net pension liability	(320,761)	(322,162)
The net OPEB liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in governmental funds (excluding the portion reported in the internal service funds).		
Deferred outflows-OPEB	30,198	
Deferred inflows-OPEB	(22,425)	
Net OPEB liability	(80,892)	(73,119)
Total net position of governmental activities		\$ 154,972

**City of Toledo, Ohio**  
**Reconciliation of the Statement of Revenues, Expenditures and Changes in Governmental Fund Balances**  
**to the Statement of Activities**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**Amounts reported for governmental activities in the statement of activities are different because:**

Net change in fund balances for governmental funds	\$	48,605	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the costs of these assets, which meet the capitalization requirement, is allocated over their estimated useful lives and reported as depreciation expense (excluding internal service fund activity):			
Capital asset additions	\$	45,309	
Depreciation expense		<u>(24,170)</u>	21,139
In the statement of activities, loss on disposal of capital assets is reported, whereas only proceeds from the sales are reported in the funds.			(1,898)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. The amount of this net effect of the reversal of prior year items against current year accruals:			
Special assessments		(1,434)	
Income taxes		(1,619)	
Delinquent property taxes		187	
Capital grants		163	
Operating grants		431	
Other revenue		(259)	
Intergovernmental services/reimbursements		<u>1,896</u>	(635)
The long-term liability for compensated absences is not recorded in the funds, but is reported in the statement of activities. This amount is the current year change in the liability, reported as an expense in the statement of activities.			(3,693)
The long-term liability for landfill closure is not recorded in the funds, but is reported in the statement of activities. This amount is the current year change in the liability, reported as an expense in the statement of activities			(528)
The issuances of loans and refunding bonds are reported as an other financing financing source in the funds, however, in the statement of activities, they are not reported as revenue as they increase liabilities on the statement of net position.			
Loans		(459)	
Bonds		(16,780)	
Refunding bonds		<u>(4,065)</u>	(21,304)
Repayment of bond, loan, and capital lease principal is an expenditure in the governmental funds, but the repayment reduces liabilities on the statement of net position (excluding internal service funds activity).			13,154
Payment to refunded bond escrow agent for the retirement of bonds is an other financing use in the funds but the payment reduces long-term liabilities on the statement of net position. Deferred charges related to bond refundings are amortized over the life of the issuance in the statement of activities. The following refunding transactions occurred during the year:			
Bonds refunded		4,065	
Deferred charges on refundings		<u>138</u>	4,203
Governmental funds report expenditures for inventory when purchased. However, in the statement of activities, they are reported as an expense when consumed.			216
In the statement of activities, interest is accrued on outstanding bonds and loans, whereas in the funds, an interest expenditure is reported when due.			
Decrease in accrued interest payable		46	
Premiums incurred in the current year		(841)	
Amortization of bond premiums		961	
Amortization of deferred charges of refundings		<u>(138)</u>	28
Internal service funds are used by management to charge costs to individual funds. The net revenue/(expenses) of certain activities of internal service funds is reported with governmental activities.			4,569
Contractually required pension and OPEB contributions are reported as expenditures in the funds; however, the statement of net position reports these amounts as deferred outflows.			
Pension		25,042	
OPEB		<u>457</u>	25,499
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability and net OPEB liability are reported as pension expense and OPEB expense, respectively, in the statement of activities.			
Pension		(41,658)	
OPEB		<u>(8,390)</u>	(50,048)
Changes in net position of governmental activities	\$		<u>39,307</u>

See accompanying notes to the basic financial statements.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The City of Toledo, Ohio (the “City”) was incorporated January 7, 1837 and operates under its Charter adopted in November 1914. The City may exercise all powers of local self-government granted under Article XVIII, Section 3, of the Ohio Constitution, not in conflict with applicable general laws of Ohio. The Charter provides that the City operate under the strong mayor/council form of government.

The Financial Statements of the City have been prepared in conformity with Accounting Principles Generally Accepted in the United State of America (GAAP) as applied to local government units. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The most significant of the City’s accounting policies are described below.

**Reporting Entity**

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the Financial Statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City. The reporting entity of the City includes the following services as authorized by its Charter: Public Safety, Highways and Streets, Water and Sanitation, Health and Social Services, Culture-Recreation, Public Improvements, Planning and Zoning and General Administrative Services.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization’s governing body, and (1) the City is able to significantly influence the programs and services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization’s resources; or (3) the City is legally obligated or has otherwise assumed the responsibility to finance deficits of, or provide financial support to, the organization; or (4) the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves their budget, the issuance of their debt, or the levying of taxes for the organization. The City has one component unit.

**Component Unit**

*Toledo Community Improvement Corporation*

The Toledo Community Improvement Corporation (TCIC) is the City of Toledo’s designated agency and instrumentality for industrial, commercial, distribution and research development. The TCIC board is made up of nine members, all of which are appointed by the City. The TCIC is considered a blended component unit of the City, but there is no financial activity for the 2020 fiscal year, and therefore no activity is reflected in this report.

**Jointly Governed Organizations**

*City of Toledo-City of Rossford MUD*

In February 1992, the City entered into a contract with the City of Rossford to create a Joint Economic Development Zone (JEDZ) under Ohio Rev. Code 715.69. However, on June 5, 2014 this code section was repealed. The entity entered into a new contract under Ohio Rev. Code 714.84(J) to create a Municipal Utility District (MUD). The new agreement is a contract for shared services between two municipalities and is not a separate entity. The purpose of this contract is to facilitate planned, orderly, new and expanded commercial and industrial growth within the region; creating retaining and enhancing employment opportunities for the benefit of the City of Toledo and the City of Rossford and their residents and all of the residents of the region.

The MUD has helped foster successful retail and other developments in the MUD. The agreement results in an income tax that shall be imposed based on the City of Rossford’s Municipal Code at a rate of 2.25%. The City will receive approximately 27.33% of the net revenues generated by this agreement. The City did not receive revenues from the MUD in 2020.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Jointly Governed Organizations (continued)**

*City of Toledo-City of Maumee-Monclova Township*

In October 2003 and amended in 2010, the City entered into a contract with the City of Maumee and Monclova Township to create a JEDZ. The purpose of this contract is to facilitate planned, orderly, new, and expanded commercial and industrial growth within the region; creating retaining and enhancing employment opportunities for the benefit of the City of Toledo, the City of Maumee and Monclova Township, and their residents and all of the residents of the region. The agreement results in an income tax that shall be imposed based on the City of Maumee's Municipal Code at a rate of 1.5%. The City will receive one-fourth of the net revenues generated by this agreement. The City received \$1,127 in revenues from the JEDZ in 2020.

*City of Toledo-City of Sylvania*

In July 2008, the City entered into a revenue sharing contract with the City of Sylvania. The purpose of this contract is to facilitate new and expanded commercial growth or economic development in the State and the City of Sylvania. The agreement results in an income tax that shall be imposed based on the City of Sylvania's Municipal Code at a rate of 1.5%. The City will receive 40% of the net revenues in excess of the baseline revenues established yearly generated by this agreement. The City did not receive revenues from this agreement in 2020.

*City of Toledo-Perrysburg Township*

In October 2008, the City entered into a contract with Perrysburg Township to create a Joint Economic Development District (JEDD). The purpose of this contract is to facilitate economic development; create or preserve jobs and employment opportunities and to improve the economic welfare of the people and businesses located in the State, Township, City and District. The agreement results in a payroll income tax that shall be imposed based on the City's Municipal Code at a rate of 2.25% paid by employees of businesses located in the District. The City will receive the first \$223 of revenues and 50% of the remaining revenues generated by this agreement. The City received \$37 in revenues from the JEDD in 2020.

*City of Toledo-Lake Township*

In August 2009, the City entered into a contract with Lake Township to create a JEDD. The purpose of this contract is to facilitate economic development; create or preserve jobs and employment opportunities and to improve the economic welfare of the people and businesses located in the State, Township, City and District. The agreement results in an income tax that shall be imposed based on the City's Municipal Code at a rate of 2.25%. The City will receive 40% of the net revenues generated by this agreement. The City did not receive revenues from the JEDD in 2020.

*City of Toledo-Troy Township*

In September 2010, the City entered into a contract with Troy Township to create a JEDD. The purpose of this contract is to facilitate economic development; create or preserve jobs and employment opportunities and to improve the economic welfare of the people and businesses located in the State, Township, City and District. The agreement results in an income tax that shall be imposed based on the City's Municipal Code at a rate of 2.25%. The City will receive 40% of the net revenues generated by this agreement. The City received \$471 in revenues from the JEDD in 2020.

*City of Toledo-Monclova Township-Swanton Township (Toledo Express Airport JEDD, or TEA JEDD)*

In October 2015, the City entered into a contract with Monclova and Swanton Townships to create a JEDD at the Toledo Express Airport. The purpose of this contract is to facilitate economic development; create or preserve jobs and employment opportunities and to improve the economic welfare of the people and businesses located in the Townships, the City, the State, and the County. The agreement results in an income tax that shall be imposed based on the City's Municipal Code at a rate of 0.5% for 2016; 1% for 2017, and 1.5% for 2018 and years after. The City will receive one third of the net revenues generated by this agreement. The City received \$101 in revenues from the JEDD in 2020.

**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Jointly Governed Organizations (continued)**

*Incarceration Agreements with Other Governments*

In 1987, Toledo entered into a joint contractual agreement with five counties (Defiance, Fulton, Henry, Lucas and Williams) to form the Corrections Commission of Northwest Ohio (Commission) to oversee the construction and operation of a regional jail. The mission of the Commission was to protect the public, employees and offenders, while operating a cost-effective detention center. In 2016, the City entered into a distinctly separate agreement with Lucas County for incarceration costs formerly associated with the Commission. The agreement called for the City to pay Lucas County for 20 beds specifically reserved for offenders charged under the Toledo Municipal Code. Nearing the end of 2017, the City established an agreement for incarceration costs with Wood County, which reserved 10 beds for the City for offenders charged under the Toledo Municipal Code. In 2020, Toledo paid Wood County \$238 under this agreement. Then in January 2021, the City entered into a new contract with Lucas County, which reserves and guarantees 5 bed for offenders convicted under Toledo Municipal Code at a per diem rate established by the Commission and paid on a quarterly basis. The per diem rate of 2021 is \$71.85.

**Basis of Presentation**

The City's basic Financial Statements consist of Government-Wide Statements, including a Statement of Net Position and Statement of Activities, as well as Fund Financial Statements which provide a more detailed level of financial information. The Government-Wide Statements report all of the assets, deferred outflows, liabilities, deferred inflows, revenues and expenses of the City. Governmental Activities are reported separately from Business-Type Activities. Governmental Activities are normally supported by taxes and intergovernmental revenue whereas Business-Type Activities are normally supported by financially self-sustaining fees and charges for services. Fiduciary Funds of the City are not included in these Government-Wide Financial Statements; however, separate Financial Statements are presented for the Fiduciary Funds.

*Government-Wide Financial Statements:*

The Statement of Net Position and the Statement of Activities display information about the City as a whole. These statements include the financial activities of the primary government, except Fiduciary Funds. The activities of the Internal Service Funds are eliminated to avoid doubling up revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the City that are Governmental and those that are considered Business-Type Activities.

The Statement of Net Position presents the financial condition of the Governmental and Business-Type Activities of the City at year-end.

The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the City's Governmental Activities and Business-Type Activities. Direct expenses are those are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipient of the goods and services offered by the program and (b) grants and contributions that are restricted to meeting the operational and capital requirements of a particular program. Revenues not classified as program revenues, including all taxes, are presented as general revenues.

*Fund Financial Statements:*

During the year, the City segregates transactions related to specific City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund Financial Statements are designed to present financial information of the City at a more detailed level. The focus of Governmental and Enterprise Funds Financial Statements is on Major Funds. Each Major Fund is presented in a separate column. Non-Major Funds are aggregated and presented in a single column. Internal Service Funds are aggregated and presented in a single column on the Proprietary Fund Statements. Fiduciary Funds are reported by type.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Fund Accounting**

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The City's funds are classified as Governmental, Proprietary and Fiduciary.

*Governmental Funds:*

Governmental Funds are those through which most governmental functions typically are financed. Governmental reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various Governmental Funds according to the purposes for which they may or must be used. Current Liabilities are assigned to the fund from which they will be paid. The difference between Governmental Fund Assets, Liabilities and Deferred Inflows is reported as Fund Balance. The following are the City's major Governmental Funds:

*General Fund:* Accounts for all financial resources of the general government, except those required to be accounted for in another fund.

*Capital Improvements Fund:* Accounts for construction, improvements and acquisition of building and infrastructure.

*Special Assessment Services Fund:* Accounts for the proceeds of special assessments (and related note sales) levied against property owners benefiting from the City's services: street cleaning, street lighting, surface treatment, weed cutting, snow removal and tree and ditch maintenance.

Other governmental funds of the City are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets, (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects and (c) financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

*Proprietary Funds:*

Proprietary Fund reporting focuses on changes in net position, financial position and cash flows.

*Enterprise Funds:* Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges.

The City has separate Enterprise Funds for the following major enterprises: water, sewer, and utility administrative services.

*Water:* To account for the operations of the water treatment and distribution systems operated of the City using Lake Erie as the water supply. The Department also provides water services to several areas outside of the City. Revenue is generated by charges set at a level sufficient to cover outstanding debt requirements while providing funds for the operation and maintenance of the water operating and distribution system.

*Sewer:* To account for the operations of the sanitary sewage collection and treatment systems operated of the City. Revenue is generated by charges that are set a level sufficient to provide funds for the costs of operating, maintaining and providing necessary replacements and improvements and for the debt service requirements on outstanding debt.

*Utility Administrative Services:* To provide comprehensive billing, collections and customer services/relations in an efficient, cost-effective and responsive manner to residents, businesses and governmental jurisdictions within the greater Toledo metropolitan areas, as well as administrative support for the Department of Public Utilities. Senior clerks are available to assist with water/sewer service contracts, billing problems, inspections, payment agreements, remote installations and many other customer service needs.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Fund Accounting (continued)**

The other enterprise funds of the City are used to account for storm sewer, property management, small business development, municipal tow lot, marina, and Toledo public power operations.

*Internal Service Funds:* Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, generally on a cost-reimbursement basis. The City's internal service funds account for municipal garage operations, capital replacement, storeroom and printshop services, information technology services, risk management, facility operations, workers' compensation, and healthcare self-insurance.

*Fiduciary Funds:*

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension (and other employee benefit) trust funds, investment trust funds, private purpose trust funds, and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial Funds are used to report fiduciary activities that are not required to be reported in a trust fund.

The City's fiduciary funds are Custodial Funds. Custodial Funds are used to account for building standards fee assessments on both residential permits (1% assessment) and commercial permits (3% assessment) that are collected by the City and remitted to the State of Ohio, an Ohio Environmental Protection Agency (EPA) surcharge related to landfill operations that are collected by the City and remitted to the State of Ohio EPA, fines and fees collected by the Toledo Municipal Court and remitted to other governments (excluding those remitted or due to the City of Toledo), and for special assessments collected for and remitted to various Energy Special Improvement District's and the Downtown Toledo Improvement District.

**Measurement Focus**

*Government-Wide Financial Statements:*

The Government-Wide Financial Statements are prepared using the economic resources measurement focus. All assets, deferred outflow of resources, liabilities and deferred inflow of resources associated with the operation of the City are included on the Statement of Net Position, except Fiduciary Funds. The Statement of Activities presents increases (e.g., revenues) and decreases (e.g., expenses) in net position.

*Fund Financial Statements:*

All Governmental Funds are accounted for using a flow of current financial resources measurement focus. Using this method, only current assets, current liabilities and deferred inflows of resources are generally included on the Balance Sheet. The Statement of Revenue, Expenditures, and Changes in Fund Balance reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the Governmental Activities of the Government-Wide Financial Statements are prepared. Governmental Fund Financial Statements therefore include reconciliations with brief explanations to better identify the relationship between the Government-Wide Statements and the Statements for Governmental Funds.

Like the Government-Wide Statements, all Proprietary Funds are accounted for on a flow of economic resources measurement focus. All assets, deferred outflow of resources, liabilities and deferred inflow of resources associated with the operation of these funds are included on the Statement of Net Position. The Statement of Changes in Fund Net Position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The Statement of Cash Flows provides information about how the City finances and meets the cash flow needs of its Proprietary Activities.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Measurement Focus (continued)**

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues are those revenues that are generated directly from the primary activity of the Proprietary Funds. For the City, these revenues are charges for services for all major and non-major Proprietary Funds and charges for goods and services to other departments provided by the Internal Service Funds. Operating expenses are necessary costs incurred to provide the goods and services that are the primary activity of the fund.

Fiduciary Funds present a statement of net position and a statement of changes in fiduciary net position which reports additions to and deductions from Custodial Funds.

**Basis of Accounting**

Basis of Accounting determines when transactions are recorded in the financial records and reported on the Financial Statements. The Government-Wide as well as the Fiduciary Funds and Proprietary Fund Financial Statements are prepared using the accrual basis of accounting. The Governmental Funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflow of resources and in the presentation of expenses versus expenditures.

*Revenues – Exchange and Non-Exchange Transactions*

Revenue resulting from Exchange Transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. Under the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities for the current fiscal year. For the City, available means expected to be received within sixty days after year-end.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. Under the accrual basis, revenue from income taxes is recognized in the period in which the income is earned (see Note 4). Revenue from property taxes is recognized in the year in which the taxes are levied (see Note 5). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: income tax, state-levied local shared taxes (including gasoline taxes, local government funds and permissive taxes), fines and forfeitures, licenses and permits, interest, grants and rentals.

*Deferred Outflows of Resources and Deferred Inflows of Resources*

In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, see Note 13 and Note 14 for deferred outflows of resources related the City's net pension liability and net OPEB liability, respectively.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Basis of Accounting (continued)**

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2020, but which were levied to finance 2021 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes, but is not limited to, income taxes, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

For the City, see Note 13 and Note 14 for deferred inflows of resources related to the City's net pension liability and net OPEB liability, respectively. This deferred inflow of resources is only reported on the government-wide statement of net position.

*Expenses/Expenditures*

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of Governmental Fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in Governmental Funds.

**Budgetary Information**

Annual budgets are adopted on a GAAP basis for all Governmental Funds, other than Capital Projects Funds, and all Proprietary Funds. On a GAAP basis, revenues are recorded when earned and expenditures are recorded when incurred. Capital projects funds adopt project-length budgets at the time bonds are sold or other funding sources are determined. The City maintains budgetary controls by not permitting expenditures to exceed appropriations at the account for each division within each fund.

**Cash and Cash Equivalents**

Cash balances of the City's Governmental Activities and Governmental Funds are pooled and invested in order to provide improved cash management. Monies for these funds are maintained in this pool. All of the City's depository accounts for the Governmental Activities and Governmental Funds are maintained and reported by the General Fund as "Cash and Cash Equivalents with Treasurer". The Business-type Activities and Proprietary Funds hold their own bank statements and cash is maintained in these respective funds as "Cash and Cash Equivalents with Treasury".

Cash and cash equivalents held by escrow represent amounts held by third parties for debt service requirements and capital lease proceeds remaining to be spent. These amounts are reported as "Cash and Cash Equivalents Held by Escrow Agent".

During 2020, investments were limited to nonnegotiable certificates of deposit (nonnegotiable CD's), Federal Farm Credit Bank (FFCB) securities, Federal Home Loan Bank (FHLB) securities, Federal Home Loan Mortgage Corporation (FHLMC) securities, Federal National Mortgage Association (FNMA) securities, Municipal Bonds, and State Treasury Asset Reserve of Ohio (STAR Ohio). Except for investments in STAR Ohio and nonnegotiable CD's, investments are reported at fair value, which is based on quoted market prices. Investments in STAR Ohio are reported at amortized cost and investments in nonnegotiable CD's are reported at cost.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Cash and Cash Equivalents (continued)**

During 2020, the City invested in STAR Ohio. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The City measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2020, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$100 million, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

For the purposes of the Statement of Cash Flows, the Proprietary Funds consider all highly liquid investments held by Treasurer with an original maturity date of three months or less when purchased, to be Cash Equivalents. In addition, all cash with Treasurer and other cash are also considered to be Cash Equivalents because they are available to the Proprietary Fund on demand.

**Inventory of Supplies**

Inventories are valued at cost in utilizing the First-In, First-Out (FIFO) method for both Governmental Funds and Proprietary Funds and are expensed when used.

**Prepayments**

Payments made to vendors for services that benefit future periods are recorded as prepayments in both government-wide and fund financial statements. A current asset for the prepaid amount is recorded at the time of purchase, and the expenditure is reported in the year in which services are consumed.

**Restricted Assets**

Restricted Assets are those that are legally restricted in use by bond indentures, or other legal instruments.

**Capital Assets**

Capital assets are defined by the government as anything purchased by, donated, or otherwise acquired by the City that has an initial, individual cost of more than \$5,000 (amount not in thousands) and an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. In the case of the initial capitalization of infrastructure assets (i.e., those reported by governmental activities) the City includes all such items regardless of their acquisition date. The City's intangible assets include right of way and computer software. Donated capital assets are recorded at their acquisition value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the lives of the assets are not capitalized. Major outlays for capital assets and improvements are capitalized, as projects are constructed. Interest incurred during the construction phase of proprietary capital assets is included as part of the capitalized value of the assets constructed.

Capital assets, including property, plant, equipment, intangible assets and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City infrastructure consists of bridges, curbs and gutters, lighting, sidewalks, roads, drainage systems and water and sewer lines. All reported capital assets, except land, right of way and construction in progress, are depreciated using the straight line method over the following estimated useful lives, and these estimated useful lives may be periodically adjusted:

**City of Toledo, Ohio**

**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Capital Assets (continued)**

<u>Description</u>	<u>Estimated Useful Life</u>
Auto/Vehicle Equipment	5-15 years
Buildings	20-40 years
Distribution Systems	100 years
Furniture and Fixtures	5-15 years
Infrastructure (Roads, Bridges, Culverts)	20-40 years
Improvements (non-Building)	10-20 years
Intangible Assets	5 years
Machinery and Equipment	5-20 years

The City updated the capital asset policy in 2016 to move the capitalization threshold from \$500 to \$5,000 (amounts not in thousands). Assets depreciated under the previous methodology continue their original depreciation and remain a part of the City's financial statements until disposed.

**Interfund Balances**

On fund financial statements, receivables and payables resulting from the routine lag between the dates interfund goods and services are provided or reimbursable expenditures occur are classified as "due to/from other funds." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as a component of the internal balance reported on the statement of net position.

**Interfund Transactions**

Transfers between Governmental and Business-Type Activities on the Government-Wide Statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in seller funds, and expenditures/expenses in purchaser funds. Flows of cash or goods from one fund to another without a repayment requirement are reported as Interfund transfers. Interfund transfers are reported as other financing sources/uses in Governmental Funds and after non-operating revenues/expenses in Proprietary Funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic Financial Statements.

**Compensated Absences**

The City follows the provisions of Governmental Accounting Standards board No. 16, *Accounting for Compensated Absences*. Vacation and compensatory time benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the city will compensate the employees for the benefits through paid time off or some other means. The City records a liability for accumulated unused vacation and compensatory time when earned for all employees with more than one year of service.

Sick leave benefits are accrued using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the City's past experience of making termination payments.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at the Balance Sheet date, and reduced to the maximum payments allowed by labor contract and/or statute, plus applicable additional salary related payments. City employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated vacation and sick leave at various rates.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Compensated Absences (continued)**

The entire compensated absence liability is reported on the Government-Wide Financial Statements.

On Governmental Fund Financial Statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due during each period upon the occurrence of employee resignations and retirements. For Proprietary Funds, the entire amount of compensated absences is reported as a fund liability.

**Pensions/Other Postemployment Benefits (OPEB)**

For purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

**Accrued Liabilities and Long-Term Obligations**

All payables and accrued liabilities and long-term obligations payable from the Governmental Funds are reported in the Government-Wide Financial Statements and all payables, accrued liabilities and long-term obligations payable from Proprietary Funds are reported on the Proprietary Fund Financial Statements.

In general, once Governmental Fund payables and accrued liabilities are incurred, they are paid in a timely manner and in full from current financial resources and reported as obligations of the funds. However, claims, judgments and compensated absences that will be paid from Governmental Funds are reported as a liability in the Fund Financial Statements only to the extent that they are due for payment during the current year. Bonds, capital leases and long-term loans are recognized as a liability on the Fund Financial Statements when due.

**Debt Insurance Costs, Premiums, Discounts and Deferred Amount on Refunding**

On Government-Wide Financial Statements, prepaid bond insurance costs are deferred and amortized over the term of the bonds using the straight-line method. Unamortized bond insurance costs are reported as a separate line item on the Statement of Net Position as an asset.

Bond premiums and discounts are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds. Bond discounts are presented as a reduction of the face amount of the bonds.

For advance refunding resulting in the defeasance of debt in the Government-Wide Financial Statements and in the Proprietary Funds, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as an addition to or reduction from the face amount of the new debt.

**Fund Balance Classifications**

Fund Balance for Governmental Funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the City is “bound to honor constraints on the specific purposes for which amounts in the fund can be spent” in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Fund Balance Classifications (continued)**

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (ordinance) of the City Council (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. Fund balance commitments are established, modified or rescinded by City Council action through passage of an ordinance.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted nor committed. Assigned Fund Balance includes amounts that have been intended use by City Council. City Council demonstrates its intent for use of assigned amounts through passage of appropriation legislation or resolution.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City considers restricted amounts to have been spent when expenditure is incurred for purposes of which both restricted and unrestricted Fund Balance is available. The City does not have a formal policy for its use of unrestricted Fund Balance amounts; therefore, it considers committed amounts used first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted Fund Balance classification could be used. See Note 12 for further detail on the components of fund balance classifications at year end.

**Estimates**

The preparation of the Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the Financial Statements and accompanying notes. Actual results may differ from those estimates.

**Net Position**

Net Position represents the difference between assets, deferred outflow of resources, liabilities and deferred inflow of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances for any borrowing used for the acquisition, construction or improvement of those assets. Net Position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by the creditors, grantors or laws or regulation of other governments.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Contributions of Capital**

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, grants or outside contributions of resources restricted to capital acquisition and construction, or capital assets that are purchased by a fund and then transferred to another fund.

**NOTE 2 – DEPOSITS AND INVESTMENTS**

The City's investment policy allows for the following types of deposits and investments:

1. Direct obligations of the United States which include, but are not limited to, Treasury certificates, bills, bonds, notes as well as United States Treasury obligations, State and Local Government Series;
2. Bonds, notes, debentures or any other obligation or securities issued by the following Federal Government agencies or instrumentalities: Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank and Federal Home Loan Mortgage Corporation;
3. Written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement is at least equal to 100% of the price at which the repurchase securities are to be repurchased from the City, or such greater percentage as is agreed upon by the seller and the City prior to or upon entering into a particular transaction;
4. Bonds, notes and other negotiable instruments evidencing the obligation of the City to pay money;
5. Bonds, notes and other negotiable instruments of political entities other than the City which are rated at the time of acquisition by Moody's or Standard and Poor's in at least the third highest category when rated with a long term rating or in the highest category when rated with a short term rating;
6. The State Treasurer's investment pool, the State Treasury Asset Reserve of Ohio (STAR Ohio);
7. Demand deposits which are deposited with an institution having all of the qualifications of a depository except that it needs only have an office located in the State rather than in the City and payable on demand of the City. Such deposits may include interest-bearing or non-interest bearing checking accounts, NOW accounts, savings accounts and other similar accounts authorized by the Federal Reserve Bank Board or the Federal Home Bank Board;
8. Non-demand savings accounts which are deposited in an institution having all of the qualifications of a depository except that it need only have an office located in the State rather than in the City that are not payable on demand but, instead, are payable at a certain date;
9. Negotiable or non-negotiable interest-bearing time certificates of deposit representing deposits of the City placed in an institution having all of the qualifications of a Depository except that it need only have an office located in the State rather than in the City;
10. Federally insured certificates of deposit initiated through a Federal Deposit Insurance Corporation member bank or savings and loan association having an office in Lucas County and under an arrangement whereby the full amount of the deposit is allocated among a reciprocal network of participating Federal Deposit Insurance Corporation member banks or savings and loan associations, wherever located, such that full amount of the City's deposit is covered by federal deposit insurance; and

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 2 – DEPOSITS AND INVESTMENTS (continued)**

11. The STAR Plus Federally Insured Cash Account, an investment program offered in conjunction with STAR Ohio under which funds invested through the program are deposited in various federally insured banks, savings banks or savings and loan associations located anywhere in the United States in such a manner that the full amount of the public moneys deposited is covered by federal deposit insurance.

A qualified depository is a bank, trust company or savings and loan association organized under the laws of the State or under the laws of the United States, doing business and situated in the State and:

1. Has an office located in the City which is capable of providing services requested by the City;
2. Has deposits which are insured by the Federal Deposit Insurance Corporation;
3. Has Equity Capital in excess of \$50 million or has been approved by an ordinance of City Council following completion of the appeal process;
4. Carries a holding company Long Term Issuer Default Rating by Fitch of BBB or better; and
5. Provides collateralization as required by the City’s Municipal Code.

An investment must mature within three years from the date of purchase unless matched to a specific obligation or debt of the City. Investments may only be made through specified dealers and institutions. Payments for investments may be made only upon delivery of the securities representing the investments to the Finance Director or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Protection of the deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

**Cash and Cash Equivalents Held by Escrow Agent**

Cash and cash equivalents held by escrow represent amounts held by third parties for debt service requirements and capital lease proceeds remaining to be spent. At December 31, 2020, the City had un-invested cash in the amount of \$39,317 being held by a third-party trustee. In addition, at December 31, 2020, the City had \$191 of restricted investments which are being held by a third-party trustee as fiscal agent for future debt service payments.

**Cash and Cash Equivalents Other**

At December 31, 2020, the amount recorded by the City’s for the Toledo Municipal Courts was \$561. Of this total, \$182, \$86, and \$293, was reported in the City’s General Fund, Nonmajor Governmental Funds, and Custodial Fund, respectively, at December 31, 2020. The bank balance of monies held by the Toledo Municipal Courts was \$989 at December 31, 2020. Of the bank balance, the Federal Depository Insurance Corporation (FDIC) will cover up to \$250 per account with any excess being collateralized through the Ohio Pooled Collateral System (OPCS).

The City maintains various petty cash accounts. The carrying amount of these accounts are reported in the Utility Administrative Services Fund, Water Fund, General Fund, and Nonmajor Governmental Funds are \$591, \$1, \$9, and \$2 respectively.

**Deposits with Financial Institutions**

At December 31, 2020, the carrying amount of all City deposits, including \$17,250 of nonnegotiable certificates of deposit, was \$57,139 and the bank balance was \$59,336. Of the bank balance, the Federal Depository Insurance covers up to \$250 per account. Bank balances not covered by the FDIC were collateralized through the OPCS.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 2 – DEPOSITS AND INVESTMENTS (continued)**

**Deposits with Financial Institutions (continued)**

Custodial credit risk is the risk that, in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City’s investment policy on deposits requires that they be insured by FDIC or collateralized by the financial institution. The City has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the City and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the OPCS, a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102 percent of the deposits being secured or a reduced rate set by the Treasurer of State. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the City to a successful claim by the FDIC.

**Investments**

As of December 31, 2020, the City had the following investments and maturities:

Measurement/ Investment type	Measurement Value	Investment Maturities		
		1 Year or Less	1 to 3 Years	4 to 5 Years
Fair Value:				
FFCB	\$ 29,616	\$ -	\$ 19,117	\$ 10,499
FHLB	25,399	-	3,991	21,408
FHLMC	51,411	-	23,472	27,939
FNMA	33,115	-	7,003	26,112
Municipal Bonds	154,921	38,104	111,434	5,383
Amortized Cost:				
STAR Ohio	195,058	195,058	-	-
Total	\$ 489,520	\$ 233,162	\$ 165,017	\$ 91,341

*Fair Value Measurement:* The City categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City’s investments in federal agency securities (FFCB, FHLB, FHLMC, FNMA) and Municipal Bonds are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

The City follows GASB Statement No. 40, *Deposits and Investment Risk Disclosure*, which requires certain disclosures related to the interest rate, custodial, credit, foreign currency and concentration of credit risks associated with interest-bearing investments.

*Interest Rate Risk* arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The City’s investment policy generally limits security purchases to those that mature within three years of the settlement date unless the maturity is matched with a specific cash requirement which states that the maturity cannot exceed seven years of the settlement date. The City’s investment policy addresses interest risk requiring the consideration of market conditions and cash flow requirements in determining the term of the investments.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 2 – DEPOSITS AND INVESTMENTS (continued)**

**Investments (continued)**

*Custodial Risk* for investments is the risk that, in the event of the failure of the counterparty to a transaction, the City will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The City has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payments for investments prior to the delivery of the securities representing such investments to the Finance Director or qualified trustee.

*Credit Risk* for investments is addressed by the City's investment policy requirement that all investments are authorized by Code and that the portfolio be diversified both by types of investment and issuer. The City's investments in federal agency securities were rated AA+ by Standard & Poor's and Aaa by Moody's. Standard & Poor's has assigned STAR Ohio an AAAM money market rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard service rating.

*Foreign Currency Risk* is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The City's investment policy does not allow for investment in foreign accounts.

*Concentration of Credit Risk* is defined by GASB as five percent or more in the securities of a single issuer. The City's investment policy addresses concentration of credit risk by requiring investments to be diversified to reduce the risk of loss resulting from over concentration of assets in a specific issue or specific class of securities. The City places the following limitations on the amount that can be invested in any one issuer:

1. City funds either invested in certificates of deposit or deposited in non-demand savings accounts with any one depository shall not exceed 10 percent of the aggregate principal amount of the City's investment portfolio.
2. City funds invested in certificates of deposits in a depository may not exceed 10 percent of the equity capital of the depository at any one time.
3. No more than \$10 million may be invested at any one time through repurchase agreements with any one institution.
4. No more than 40 percent of the aggregate principal amount of the City's investment portfolio shall be invested at any one time in STAR Ohio. Within this 40 percent, up to \$15,000 may be further invested through a STAR Plus Federally Insured Cash Account.
5. No obligation of any of the government agencies or instrumentalities shall be purchased if such purchase would cause more than 25 percent of the aggregate principal amount of the City's investment portfolio as of the settlement date to be invested in the obligations of that individual government agency or instrumentality.
6. The maximum aggregate amount that may be invested for a period longer than 3 years for any one fund shall be 25 percent of the lowest total of all outstanding investments for that fund which occurred during the 12 months immediately prior to the purchase of any security with maturity longer than 3 years. Compliance with this limitation shall be determined as of the settlement date only.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 2 – DEPOSITS AND INVESTMENTS (continued)**

**Investments (continued)**

As of December 31, 2020, the City had the following investment concentrations:

<u>Measurement/ Investment type</u>	<u>Measurement Amount</u>	<u>% of Total</u>
Fair Value:		
FFCB	\$ 29,616	6.05%
FHLB	25,399	5.19%
FHLMC	51,411	10.50%
FNMA	33,115	6.76%
Municipal Bonds	154,921	31.65%
Amortized Cost:		
STAR Ohio	<u>195,058</u>	<u>39.86%</u>
Total	<u>\$ 489,520</u>	<u>100.00%</u>

**Reconciliation of Cash and Investments Disclosed to Financial Statements**

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the financial statements as of December 31, 2020:

<u>Cash and Investments per Note</u>	
Carrying Amount of Deposits	\$ 57,139
Investments	489,520
Cash and Cash Equivalents Held by Escrow Agent	39,317
Cash and Cash Equivalents Other	<u>1,164</u>
Total	<u>\$ 587,140</u>
 <u>Cash and investments on Financial Statements</u>	
Governmental Activities	\$ 143,769
Business-Type Activities	443,078
Fiduciary Activities	<u>293</u>
Total	<u>\$ 587,140</u>

Total	<u>\$ 1,182</u>	<u>\$ 222,533</u>	<u>\$ (66,197)</u>	<u>\$ 156,336</u>

Receivables have not been disaggregated on the face of the basic financial statements. The only receivable not expected to be collected within the subsequent year are special assessments which are collected over the life of the assessment (see Note 9).

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 4 – INCOME TAXES**

For 2020, the City levied a Municipal Income Tax of 2.25% on substantially all income earned within the City. The residents of the City are required to pay income tax on the income earned outside of the City; however, the City allows a credit for income taxes paid to another municipality up to 100% of the City's current income tax rate. The City income tax also applies to the net income of businesses located or doing business within the City limits. Of the 2.25% income tax, the first 1.5% is a permanent levy, of which 0.25% is dedicated to capital improvements. The remaining 0.75% was renewed in January 1, 2017 for an additional four years, of which 0.25% is also dedicated for capital improvements. The required transfers to the Capital Improvements Fund for 2020 have been completed.

In November 2020, the City's voters renewed the 0.75% income tax and approved the City to use 0.25% of the 0.75% for operating expenses rather than capital improvements. This allows funds to be transferred from the Capital Improvements Fund to the General Fund through December 31, 2024. In addition, the City voters approved an additional 0.25% income tax for a four-year period, which is dedicated to road improvements. This additional 0.25% income tax becomes effective January 1, 2021 and increases the City's total income tax rate to 2.50%.

Employers within the City are required to withhold income tax on employee compensation and to remit the tax to the City either monthly or quarterly. Corporations and certain individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually. The City administers the collection of income taxes and the assessments of interest and penalties. Income tax proceeds are to be used to pay the cost of administering the tax and recorded in the General Fund.

**NOTE 5 – PROPERTY TAX**

Property taxes include amounts levied against all real and public utility located in the City. Taxes collected from real property taxes (other than public utility) in one calendar year are levied in the preceding calendar year on the assessed value as of January 1 of the preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revaluated every six years.

Real property taxes are payable annually and semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first was due February 6, 2020, with the remainder payable by July 31, 2020.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined at December 31 of the second year preceding the tax collection year, the lien date. Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 34.4 percent of true value. The 2020 public utility property taxes became a lien on December 31, 2019, were levied on October 1, 2020 and will be collected in 2021 with real property taxes. Public utility property taxes are payable on the same dates as real property taxes.

The County Treasurer collected property taxes on behalf of all taxing districts in the County, including the City of Toledo. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2020 and for which there is an enforceable legal claim. In the Government Funds, the current portion receivable has been offset by deferred inflow of resources since the current taxes were not levied to finance 2020 operations and the collection of delinquent taxes has been offset by deferred inflow of resources since the collection of the taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on a modified accrual basis the revenue is reported as a deferred inflow of resources.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 5 – PROPERTY TAX (continued)**

The full tax rate for all City operations for the year ended December 31, 2020 was \$4.40 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2020 property tax receipts were based are as follows:

Public Utility Real and Tangible Personal Property	\$	226,582
Real Property (Other than Public Utility)		<u>3,105,943</u>
Total Assessed Value	\$	<u>3,332,525</u>

*Special Assessment Services, Improvements and Bond Retirement*

The City provides special services primarily for snow removal, leaf pickup, street resurfacing and street lighting. These services are assessed in the real estate tax bills to the benefited property owners. The City pays the actual costs of these services, which are then levied as special assessments and collected two years after the service has been rendered.

Special assessment notes are issued for the interim financing of various improvements to be assessed from benefiting property owners. These improvements include streets, alleys, sanitary sewers, sidewalks, storm sewers and water lines. Upon completion of the approved projects, the notes are converted to long-term bonds, which are assessed over a 5 or 10 year period depending on the type and cost of the improvement.

**NOTE 6 – TAX INCENTIVE AND ABATEMENT PROGRAMS**

Pursuant to GASB Statement No. 77, *Tax Abatement Disclosures*, the City is required to disclose certain information on its use of tax abatement incentives. A tax abatement incentive, under this Statement, is authorized by the Ohio Revised Code (ORC) and/or the Toledo Municipal Code (TMC) and is an agreement between the City and an individual or entity in which the City promises to forgo tax revenue, while the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the City or the citizens of the City.

The City offers the following tax incentive and abatement programs:

**Community Reinvestment Area**

The Ohio Community Reinvestment Area (CRA) program is an economic development tool available to Toledo under ORC 3735 that is used to provide real property tax exemptions for property owners who construct new buildings or renovate existing properties. CRAs are areas of land in which property owners may receive tax incentives for investing in real property improvements. In order to participate in the CRA program, Toledo petitioned the Ohio Development Services Agency (ODSA) for confirmation of a geographic area in which investment in housing has traditionally been discouraged. Once an area is confirmed by the Director of ODSA, communities may offer real property tax exemptions to taxpayers that invest in that area.

The City determines the type of development to support by specifying the eligibility of residential, commercial or industrial projects. The City grants property tax abatements on improvement projects based on the increase in property valuation resulting from the improvements, for up to fifteen years. Participating properties are subject to annual inspections by the CRA Housing Council/Committee of the Toledo Housing Advisory Commission. As of December 31, 2020, the City had 926 participants in the CRA Program and abated \$256 in property taxes. The CRA program impacts the City's General Fund.

**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 6 – TAX INCENTIVE AND ABATEMENT PROGRAMS (continued)**

**Enterprise Zone Program**

The Enterprise Zone Program is an economic development tool administered by the City of Toledo pursuant to ORC 5709 that provides real and personal property tax exemptions to businesses making investments within an enterprise zone. Enterprise zones are designated areas of land in which businesses can receive tax incentives in the form of tax exemptions on eligible new investment. The Enterprise Zone Program can provide tax exemptions for a portion of the value of new real and personal property investment (when that personal property is still taxable) when the investment is made in conjunction with a project that includes job creation. Existing land values and existing building values are generally not eligible. Businesses may not participate in both the CRA and the Enterprise Zone Programs.

The City determines approval of projects based upon their contribution to the economic welfare of the community, including job creation or retention. Approved projects receive a 100% tax exemption on new real and personal property investment for up to fifteen years, with forty-five percent of the total tax exemption benefit paid to the local school district in which the project is located. Participants are monitored for compliance during the incentive period by the Tax Incentive Review Council. As of December 31, 2020, the City had 2 participants in the Enterprise Zone Program and abated \$77 in real and personal property taxes. The Enterprise Zone Program impacts the City's General Fund.

**Municipal Job Creation Tax Credit (MJCTC)**

Pursuant to ORC 718.15, the City established the MJCTC to create jobs and increase the tax base. Businesses must submit and have their application approved by the State of Ohio's Job Creation Tax Program in order to be eligible under the MJCTC. Businesses must be located within the City of Toledo's State Enterprise Zone or proposed Federal Enterprise Communities Zone and create a minimum of 25 *new*, full-time jobs within three years with hourly wages of at least 150% of the state minimum wage. The tax incentives under the MJCTC include a maximum tax credit of 40% of payroll taxes of eligible full-time employees per year, for up to ten years, for businesses within the State Enterprise Zone. For businesses within the Enterprise Community Zone, the maximum tax credit available is 80% of the total payroll taxes of eligible employees per year, for up to ten years. Participants are monitored for compliance during the incentive period by the Tax Incentive Review Council. As of December 31, 2020, the City had 1 active participating business claiming \$2,137 in aggregate tax credits. The MJCTC program impacts the City's General and Capital Improvement Funds.

**Toledo Expansion Incentive Program**

The purpose of the Toledo Expansion Incentive (TEI) Program is an economic development tool authorized under City of Toledo Ordinance 487-07 and later revised under City of Toledo Ordinance 431-11 to provide significant incentives to attract and grow business in key Standard Industry Classification codes and site locations within the City. The program may be used in conjunction with other financing and incentive programs available through Federal, State, and other local governments. A grant awarded in any one calendar year shall be based upon the amount of growth of an applicant's municipal income taxes actually received and retained by the City during the previous calendar year above specific expected revenue benchmarks as set forth in the TEI Agreement. Approved applicants can receive between 10% - 30% of the growth of yearly municipal income taxes actually paid to and retained by the City based upon the expected revenue benchmarks, up to ten years. An additional 10% grant can be awarded to an entity each year in which it spends at least 15% of its expenses on product research and development activities. As of December 31, 2020, the City had 29 participants and paid \$962 in TEI awards. The TEI program impacts the City's General Fund.

Public Utility	15,226
Community Environment	379
Health	970
Parks and Recreation	1,335
Total Depreciation - Governmental Activities	<u>\$ 25,649</u>

The Department of Housing and Neighborhood Revitalization has purchased land and buildings using Block Grant Funds. The intent of such purchases ultimately is to resell the property for a nominal amount to adjacent property owners or developers for redevelopment purposes. As of December 31, 2020, the Department owned approximately 88 parcels at an estimated historical cost of \$1,672. Due to the uncertainty of the market value or the ability to locate developers, the purchase costs have been recorded as program expenditures in the Block Grant Funds in the year of purchase and revenues from the sale of properties are recorded as Program Revenue in the year of sale.

**(Amounts in Thousands)**

**NOTE 8 – NOTES PAYABLE**

The City's Notes Payable obligations at December 31, 2020 and a schedule of current year activity are as follows:

	Maturity Date	Interest Rate (%)	Original Issue Amount	Balance 1/1/2020	Increase	Decrease	Balance 12/31/2020	Amount Due In One Year
General Obligations:								
Special Assessments 2019	2020	2.50	\$ 1,620	\$ 1,620	\$ -	\$ (1,620)	\$ -	\$ -
Special Assessments 2020	2021	1.20	2,460	-	2,460	-	2,460	2,460
Revenue Obligations:								
Assessed Services 2018	2020	3.35-3.51	20,400	20,400	-	(20,400)	-	-
Assessed Services 2019	2021	2.22-2.79	20,200	20,200	-	-	20,200	20,200
Assessed Services 2020	2022	2.17	20,700	-	20,700	-	20,700	-
				<u>\$ 42,220</u>	<u>\$ 23,160</u>	<u>\$ (22,020)</u>	<u>\$ 43,360</u>	<u>\$ 22,660</u>

The City carries notes in the Special Assessment Improvement Fund (a nonmajor capital projects fund) to cover capital costs related to constructing and reconstructing sidewalks, including, where necessary, driveway aprons, between certain termini on certain designated streets. In 2020, the City retired \$1,620 and reissued \$2,460 of Special Assessment Notes for the purpose of supporting special assessment projects.

The City carries notes in the Special Assessments Services Fund to cover capital costs related to City services such as street lighting, street sweeping, snow removal, surface treatment of unimproved streets, leaf pick up and tree planting, and trimming and removal in the public right away. Costs of assessments are charged to property owners two years after incurred. Assessment notes finance the costs incurred over a two-year period. In 2020, the City retired \$20,400 in special assessment notes for City services that were issued in 2018 and issued \$20,700 in special assessment notes for City services that will mature on December 1, 2022. The \$20,200 of special assessment notes for City services issued in 2019 will mature December 1, 2021.

**NOTE 9 – LONG-TERM OBLIGATIONS (continued)**

**New Bond and Loans Issuances Supporting Governmental Activities**

Series 2020 General Obligation Capital Improvement and Various Purpose Refunding Bonds

On November 16, 2020, the City issued \$20,845 in Series 2020 Capital Improvement and Various Purpose Refunding General Obligation Bonds. The Capital Improvement Bonds portion (\$16,780) was issued to finance the following projects: (1) \$10,555 for Summit Street roadway improvements, (2) \$4,000 for the City’s 2020 street improvement program, (3) \$1,225 for improvements to Levis Square Park, and (4) \$1,000 for the City’s 2020 sidewalk improvement program. The Various Purpose Bonds portion (\$4,065) was issued to advance refund the Series 2010 Street Improvement bonds. The bonds were issued at a \$841 premium which is reported in the General Obligation Debt Service Fund (a nonmajor debt service fund) (\$481), the Capital Improvement Fund (\$360). Bond premiums in excess of issuance costs incurred were deposited in the General Obligation Debt Service Fund (a nonmajor debt service fund). The bonds will be retired from the Capital Improvements Fund.

Proceeds of \$4,203 were deposited into an escrow fund to provide for the retirement of the Series 2010 Street Improvement bonds. The refunded bonds are not included in the City’s outstanding debt since the City has satisfied its obligations through the refunding (in-substance defeased). The assets held in trust as a result of the refunding are not included in the financial statements. The reacquisition price exceeded the net carrying amount of the old debt by \$138. This amount is reflected as interest expense in the Statement of Activities. The refunding was undertaken to reduce the combined total debt service payments over the next 5 years by \$160 and resulted in an economic gain of \$138. The balance of the refunded Series 2010 Street Improvement bonds was \$4,065 at December 31, 2020.

Ohio Public Works Commission (OPWC) loans

During 2020, the City issued six OPWC loans totaling \$459 supporting Governmental Activities. These loans supported the following road improvement projects: Cherry Street from Greenbelt to Summit, South Detroit Avenue – Sherwood to Glendale Avenue, Bancroft Street from I-475 to Holland-Sylvania Road, LaGrange Street from Utica Avenue to Oakland Road, East Central Avenue from Brigham Road to Buckeye Road, and Alexis Road from Talmadge Road to Jackman Road. The loans will be retired from the Capital Improvements Fund.

**New Bond, Note and Loan Issuances Supporting Business-Type Activities**

Series 2020 General Obligation Various Purpose Refunding Bonds

On November 16, 2020, the City issued \$5,580 in Series 2020 Various Purpose Refunding General Obligation Bonds to advance refund Series 2010A Various Improvement Refunding Bonds (Commodore Perry Apartments) (\$3,320) and Series 2010B Various Purpose Refunding Bonds (Hillcrest Apartments) (\$2,260). The bonds were issued at a \$138 premium which is reported in the Property Management Fund (a nonmajor enterprise fund). The bonds will be retired from the Property Management Fund. Proceeds of \$5,729 were deposited into an escrow fund to provide for the retirement of the Series 2010A and Series 2010B Various Purpose Refunding Bonds. The refunded bonds are not included in the City’s outstanding debt since the City has satisfied its obligations through the refunding (in-substance defeased). The assets held in trust as a result of the refunding are not included in the financial statements. The reacquisition price exceeded the net carrying amount of the old debt by \$149. This amount is reflected as interest expense in the Statement of Revenues, Expenses and Changes in Fund Net Position. The refunding was undertaken to reduce the combined total debt service payments over the next 9 years by \$909 and resulted in an economic gain of \$755. The balance of the refunded Series 2010A Various Improvement Refunding Bonds (Commodore Perry Apartments) and Series 2010B Various Purpose Refunding Bonds (Hillcrest Apartments) was \$3,320 and \$2,260, respectively.

Series 2020 Water System Revenue Bonds

On December 17, 2020, the City issued \$78,090 in Series 2020 Water System Revenue Bonds to finance the acquisition of a Automated Meter Reading (AMR)/Advanced Metering Infrastructure (AMI) and Leak Detection System (the “Project”). The Project will modify the City’s existing domestic water meter system to include the replacements of selected water meters, the implementation of AMI, leak detection, and the interface to the existing Department of Public Utilities (DPU) billing system. The Project will improve the system’s infrastructure, reduce operating costs, and provide real-time utility consumption and cost data, improve customer service, and reduce costs and response times for resolving customer issues due to improved system information. The bonds were issued at a \$23,045 premium which is reported in the Water Fund. The bonds will be retired from the Water Fund.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 9 – LONG-TERM OBLIGATIONS (continued)**

**New Bond, Note and Loan Issuances Supporting Business-Type Activities (continued)**

In conjunction with the bond issue, the City issued a Cost Allocation Certificate (CAC) to allocate a portion of the project to the Sewer System. It was determined that the Project benefitted both the both the Water System and the Sewer System. As such, the CAC allocated \$41,645 of the \$78,090 bond proceeds (53.33%) to the Sewer System. The CAC calls for the Sewer System to reimburse the Water System for its proportionate share of future principal and interest payments on the Series 2020 Water Revenue Bonds. In accordance with the CAC, an interfund loan has been reported from the Water Fund to the Sewer Fund for the Sewer Fund's portion of the Project (see Note 11).

Ohio Public Works Commission (OPWC) loans

During 2020, the City issued one OPWC loan totaling \$80 supporting the Sanitary Sewer System. This loan was issued to finance Fassett and Paine CSO Regulator Modifications. This loan will be retired from the Sewer Fund.

Ohio Water Development Authority (OWDA) loans

During 2020, the City issued four OWDA loans totaling \$48,972 supporting the Water System (including \$140 of capitalized interest). The loans in 2020 were issued to finance the following construction and improvement projects: Ozone Treatment Facilities, Collins Park Treatment Plant Basin Upgrades, and Filter and Pipe Gallery Upgrades. These loans will be retired from the Water Fund.

During 2020, the City issued four OWDA loans totaling \$7,602 supporting the Sanitary Sewer System (including \$601 of capitalized interest). The new loans in 2020 were issued to finance the following construction and improvement projects: E3 International Park Storage Pipeline, Downtown Storage Basin, Paine and Fassett Regulator Modifications, and AWT Gateway TWI. These loans will be retired from the Sewer Fund.

**Defeased Debt**

During 2018, the City in-substance defeased \$3,250 of general obligation bonds previously issued for the purchase of the LaSalle property. The City sold the property and used the proceeds to establish an escrow account to make future debt service requirements on the debt. On November 22, 2017 the City authorized an escrow agreement with The Bank New York Mellon Trust Company, N.A. to serve as the trustee of funds that are irrevocably committed to pay for debt service related to the LaSalle property bonds. As of December 31, 2020, the balance of the refunded bonds was \$2,105. Since the bonds are in-substance defeased, neither the refunded bonds or the escrow account are reported on the financial statements.

**General Obligation Bonds**

General obligation bonds are general obligations of the City for which the full faith and credit of the City is pledged for repayment.

**Revenue Obligations Bonds**

Revenue bonds are supported by pledged future revenues, net of specified operating expenses. Revenue bonds do not represent a general obligation debt or a pledge of the full faith and credit or taxing power of the City.

Governmental Activities: The City has issued non-tax revenue bonds to finance projects and refund previously issued bonds. The 2020 principal and interest payments on the non-tax revenue bonds required 2.05% of General Fund net revenues. Principal and interest paid for the current year and total General Fund net revenues were \$1,114 and \$54,415, respectively.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 9 – LONG-TERM OBLIGATIONS (continued)**

**Revenue Obligations Bonds (continued)**

Business-Type Activities: The City has issued revenue bonds to support Water and Sewer operations. The 2020 principal and interest payments on the Water revenue bonds required 63.78% of net revenues. Principal and interest paid for the current year and total net revenues were \$23,430 and \$36,736, respectively. The 2020 principal and interest payments on the Sewer revenue bonds required 2.52% of net revenues. Principal and interest paid for the current year and total net revenues were \$1,305 and \$51,726, respectively.

**Bond Anticipation Notes**

During 2019, the City issued \$30,000 in 2019 Water Bond Anticipation Notes to retire previously issued Series 2018 Water Bond Anticipation Notes issued for continued improvements at the Collins Park Water Treatment plant. The City expects to spend this amount on capital improvements at the Collins Park Water Treatment plant through 2022. The notes mature in 2021 and will be retired from the Water Fund through the issuance of bonds.

**Ohio Public Works Commission**

Ohio Public Works Commission (OPWC) extends both grants and loans to the City. Monies received by the City after the grant commitment has been fulfilled by OPWC are then considered loans. Only the loan portion need be repaid by the City. All OPWC loans are interest free.

OPWC loans are direct borrowings that have terms negotiated directly between the City and the OPWC and are not offered for public sale. In the event of default, the OPWC may (1) charge an 8% default interest rate from the date of the default to the date of the payment and charge the City for all costs incurred by the OPWC in curing the default, (2) in accordance with Ohio Revised Code 164.05, direct the county treasurer of the county in which the City is located to pay the amount of the default from funds that would otherwise be appropriated to the City from such county's undivided local government fund pursuant to ORC 5747.51-5747.53, or (3) at its discretion, declare the entire principal amount of loan then remaining unpaid, together with all accrued interest and other charges, become immediately due and payable.

**Ohio Water Development Authority**

Loans payable to the Ohio Water Development Authority (OWDA) are authorized by the Clean Water Act and authorized by the administration of the Environmental Protection Agency (EPA) to make grants to States to establish a state water pollution control revolving loan program. The amount of these loans outstanding at December 31, 2020 was \$496,223. Of this amount, \$98,083 are obligations incurred to help finance the water distribution system and are to be repaid from charges from water services. Of this amount, \$396,559 are obligations incurred to help finance the sanitary sewage facilities and are to be repaid from charges from sanitary sewer services; \$1,434 are obligations incurred to help finance storm sewer and bio-swale services. The remaining amount of \$147 are obligations incurred to help finance the water pollution control related to the landfill remediation projects at the Stickney/Tyler and Dura locations are to be repaid from general receipts of the City.

OWDA loans are direct borrowings that have terms negotiated directly between the City and the OWDA and are not offered for public sale. In the event of default, the OWDA may declare the full amount of the then unpaid original loan amount to be immediately due and payable and/or require the City to pay any fines, penalties, interest, or late charges associated with the default.

**State Infrastructure Bank Loan**

The City has entered into State Infrastructure Bank loan agreement with the Ohio Department of Transportation (ODOT) pursuant to which ODOT provided to the City a loan totaling \$3,968 to pay costs of certain street improvements in the City's Marina District. The aggregate outstanding principal amount of the City's obligations under the ODOT loan agreement was \$1,734 as of December 31, 2020.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 9 – LONG-TERM OBLIGATIONS (continued)**

**State Infrastructure Bank Loan (continued)**

State Infrastructure Bank loans are direct borrowings that have terms negotiated directly between the City and the ODOT and are not offered for public sale. In the event of default, the ODOT may declare the full amount of the then unpaid original loan amount to be immediately due and payable and/or require the City to pay any fines, penalties, interest, or late charges associated with the default.

**JobsOhio Capital Projects Loan**

In 2015, the City entered into a loan agreement with JobsOhio for \$650 for a term of 15 years at 1% interest (“the loan”). The loan includes deferral of all interest and principal payments for five years. If, by December 31, 2019 Fiat Chrysler Automobiles retains 4,110 existing jobs and \$282 million in payroll while also maintaining and expanding the Wrangler production facility in Toledo, the loan will be forgiven and all obligation of the City for repayment will be released. During 2020, cancellation of the original loan was under review. Subsequent to year-end, on April 27, 2021, JobsOhio cancelled the loan obligation (see Note 19). The forgiveness of this loan will be reflected in the City’s 2021 financial statements.

The JobsOhio loan is a direct borrowing that has terms negotiated directly between the City and JobsOhio and is not offered for public sale. In the event of default, the JobsOhio may declare the full amount of the then unpaid original loan amount to be immediately due and payable and/or require the City to pay any fines, penalties, interest, or late charges associated with the default.

**Landfill Closure and Post-Closure Care Costs**

The City operates the Hoffman Road landfill and accounts for this activity in the General Fund. State and federal regulations require the City to place a final cover on the Hoffman Road site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty (30) years after closure. The closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste. The City records a liability in the Government-Wide Statement of Net Position for the closure and post-closure care costs based on landfill capacity used as of each balance sheet date. A new cell was constructed in 2005 resulting in an increase in capacity; therefore, the landfill can continue to accept solid waste and increase its capacity. Based on the remaining air space and estimated annual tonnage to be taken in, the estimated remaining life of the landfill is 32.4 years.

The \$15,863 reported as landfill closure and post-closure care liability at December 31, 2020 represents the cumulative amount reported to date based on the use of 65.5% of the used capacity of the landfill. The City will recognize the remaining estimated cost of closure and post-closure care of \$8,355 as the remaining used capacity is filled. These amounts are based on what it would cost to perform all closure and post-closure care in 2020 using the worst-case scenario determined by the permit to install. Actual costs may be higher due to inflation, changes in technology, or changes in regulation.

**Pollution Remediation, Water and Sewer Infrastructure Liabilities**

*Toledo Waterways Initiative*

Upon citizen approval in 2002, the City of Toledo launched the Toledo Waterways Initiative (TWI) to eliminate the majority of these overflows and reduce water pollution. TWI will reduce contaminants in the City’s rivers, streams and Lake Erie by building several types of structures to hold, separate or divert storm and waste water during periods of heavy rain and funneling this water for treatment before being returned to the waterways.

As of August 31 2020, the TWI construction program is 100% complete at a cost of \$527 million. The program now enters the Compliance Phase of the program which will initiate a 12-month effort to collect data on all the facilities with the TWI program to assure that all facilities are functioning properly. The City is working with the United States Environmental Protection Agency to determine all parameters required for this post construction effort.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 9 – LONG-TERM OBLIGATIONS (continued)**

**Pollution Remediation, Water and Sewer Infrastructure Liabilities (continued)**

*Collins Park Water Treatment Capital Improvements*

The City is currently implementing a \$500,000 program of water system improvements that began in 2012 and will continue through 2024. The program is based on an Ohio EPA approved General Plan having the following objectives: a) improve treated water quality and provide redundant treatment capacity; b) replace, upgrade, and modernize existing infrastructure; and c) install short and long term Harmful Algae Bloom treatment barriers. Current projects now under construction include new ozone treatment improvements (2021); upgrades to the existing treatment Basins 5 and 6 (2021); rebuild of the existing filters and renovation of equipment and valves in the plant piping galleries (2023); upgrades to the existing treatment Basins 1 through 4 (2023); and improvements to the High Service Pumping Station (2023).

As of May 2021, \$512,990 of financing has been secured for the water system improvements, comprised of municipal revenue bond issuances in 2012, 2013, 2016 and 2018; Ohio Water Development Authority (OWDA) loans in 2012, 2014, 2019 and 2021; and Ohio EPA Water Supply Revolving Loan Application (WSRLA) loans in 2015, 2018 and 2019. Outstanding obligation related to this project are disclosed in the city's debt schedules.

Water rate adjustments effective January 1, 2020 through 2023 have been authorized by City Council to retire existing water system debt. The city will reassess the existing rate structure annually and anticipates future rate adjustments in 2024 through 2027 to retire new water system debt.

**Compensated absences**

Compensated absences will be paid from the fund from which the employees' salaries are paid. In 2020, compensated absences in the Governmental Activities were liquidated at a rate of approximately 85.8 percent from the general fund, 11.2 percent from other governmental funds, and 3.0 percent from the internal service funds. Compensated absences in the Business-Type Activities were liquidated primarily from the Water and Sewer Enterprise Funds.

**Net Pension Liability and Net OPEB Liability**

The City pays obligations related to employee compensation from the fund benefitting from their service. See Notes 13 and 14 for further information.

**NOTE 10 – LEASES AND OTHER COMMITMENTS**

**Operating Leases**

In 1983, the City entered into a non-cancelable long-term lease with the Ohio Department of Administrative Services (the State) for space it occupies at 640 Jackson Street, Toledo Ohio in One Government Center for its administrative operations. The 30-year lease expired on August 1, 2013, and the City and State operated under a month-to-month agreement until a new 5-year lease was signed for the period July 1, 2016 to June 30, 2021. In 2018, the State of Ohio Department of Administrative Services reached an agreement to convey One Government Center to the Toledo-Lucas County Port Authority and the City entered into an amendment to the current lease as requested by the Toledo-Lucas County Port Authority. The amendment has an initial term of ten years commencing on January 1, 2019 and expiring on December 31, 2028. The amendment contains an option for the City to renew the lease for two successive and continuous terms of five years each. During 2020, the City made rental payments totaling \$1,525. The City also leases various facilities and equipment under various operating leases whose expense totaled \$1,415 in 2020. In 2019, the City entered into a renewable equity operating lease agreement with Enterprise Car rentals for 18 vehicles at a cumulative delivered price of \$456 for an average lease term of 1 to 5 years.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 10 – LEASES AND OTHER COMMITMENTS (continued)**

**Capital Leases**

The City is obligated under certain leases accounted for as capital leases. The leased assets and related obligations are accounted for in the capital assets and long-term debt liabilities in the Governmental and Business-Type Activities.

In 2015, the City entered into a tax-exempt lease purchase with PNC Equipment Finance, LLC for the lease of two fire pumper apparatus. Final principal and interest payments on this lease were made in 2020. The 5-year lease is classified as a capital lease and has been included in the capital assets as machinery and equipment in the government wide financial statement at \$940, less accumulated depreciation of \$518.

In 2015, the City entered into a tax-exempt lease purchase with PNC Equipment Finance, LLC for the lease of twenty-one trucks. The 6-year lease is classified as a capital lease and has been included in the capital assets as machinery and equipment in the government wide financial statement at \$4,997, less accumulated depreciation of \$2,748.

In 2015, the City entered into a tax-exempt lease purchase with PNC Equipment Finance, LLC for the lease of forestry equipment. Final principal and interest payments on this lease were made in 2020. The 5-year lease is classified as a capital lease and has been included in the capital assets as machinery and equipment in the government wide financial statements at \$1,324, less accumulated depreciation of \$1,316.

In 2016, the City entered into a lease purchase with Norfolk Southern Railway for the lease of land as part of Toledo Waterways Initiative. The 20-year lease is classified as a capital lease and has been included in the capital assets as land in the government wide financial statements at \$2,967.

Future minimum lease payments on these capital leases together with the present value of the net minimum lease payments as of December 31, 2020 are as follows:

<u>Year</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Total</u>
2021	\$ 348	\$ 141	\$ 489
2022	-	144	144

**(Amounts in Thousands)**

**NOTE 10 – LEASES AND OTHER COMMITMENTS (continued)**

**Other Commitments**

*Energy Special Improvement District*

The City of Toledo and the Toledo-Lucas County Port Authority (Port Authority) have partnered to create an Energy Special Improvement District (District). A non-profit corporation, known as the Toledo Ohio Advanced Energy Improvement Corporation (Corporation), with representatives of the City and the Port Authority, governs the District. The City, the Port Authority and the Corporation entered into an Energy Services Agreement which sets forth a process by which the parties will cooperate with one another to provide certain special energy improvement projects, including energy efficiency improvements to City buildings and facilities. Beginning in calendar year 2014, as part of the agreement, the City has begun a special assessment process whereby the City is assessed on a semi-annual basis.

The initial funding for those energy efficiency improvements is provided by bonds issued by the Port Authority in the approximate amount of \$5,349. Those funds will be loaned to the Corporation for purpose of paying the contractors doing the work and paying the other costs of the various improvements.

The legislation creating the Energy Services Agreement and its amendment commit the City to completing the special assessment process through the passage of an Assessing Ordinance when various energy efficiency improvements are completed and final costs are known.

*Encumbrances*

Outstanding 2020 encumbrances will be funded with 2020 budgetary resources. Outstanding encumbrances for the Year Ended December 31, 2020 were as follows:

<i>Governmental Funds:</i>	
General	\$ 87
Capital Improvements	11,996
Special Assessments Services	144
Nonmajor Governmental	<u>12,516</u>
Total Governmental Funds	<u>24,743</u>
 <i>Enterprise Funds:</i>	
Water	101,432
Sewer	8,495
Utility Administrative Services	5
Nonmajor Enterprise	<u>617</u>
Total Enterprise Funds	<u>110,549</u>
 <i>Internal Service Funds</i>	 <u>89</u>
Total	 <u>\$ 135,381</u>

**NOTE 11 – INTERFUND ACTIVITY**

For the City’s governmental funds and internal service funds, interfund balances are a result of the City holding all governmental activities “Cash and cash equivalents with Treasurer” within the Treasury Fund, which is reported as part of the General Fund under Governmental Accounting Standards Board Statement No. 54. Since the Treasury Fund records all cash transactions, amounts paid by the Treasury Fund result in an interfund payable within other governmental funds. Likewise, amounts received into the Treasury Fund result in an interfund receivable within other governmental funds.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 11 – INTERFUND ACTIVITY (continued)**

For the City’s enterprise funds, interfund balances result from amounts due to/from the utility administrative fund. All utility revenues are deposited into the utility administrative services fund and all enterprise expenses are paid out of this fund’s bank account. Amounts are allocated monthly to the City’s other enterprise bank accounts. However, the timing delay between revenue and expense transactions and their respective allocation result in interfund balances.

The amounts below represent the net balance of amounts due to and due from City funds as of December 31, 2020.

	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>
<i>Governmental Funds:</i>		
General	\$ -	\$ 63,952
Capital Improvements	54,371	-
Special Assessments Services	-	20,561
Nonmajor Governmental	<u>38,591</u>	<u>14,524</u>
Total Governmental Funds	<u>92,962</u>	<u>99,037</u>
<i>Enterprise Funds:</i>		
Water	-	87,730
Sewer	62,494	-
Utility Administrative Services	2,181	-
Nonmajor Enterprise	<u>1,764</u>	<u>140</u>
Total Enterprise Funds	<u>66,439</u>	<u>87,870</u>
<i>Internal Service Funds</i>	<u>28,962</u>	<u>1,456</u>
Total	<u>\$ 188,363</u>	<u>\$ 188,363</u>

The amounts below represent the balance of interfund loans between City funds as of December 31, 2020.

	<u>Interfund Loan Receivable</u>	<u>Interfund Loan Payable</u>
<i>Enterprise Funds:</i>		
Water	\$ 41,645	\$ -
Sewer	<u>-</u>	<u>41,645</u>
Total Enterprise Funds	<u>\$ 41,645</u>	<u>\$ 41,645</u>

During 2020, the City made a \$41,645 interfund loan from the Water Fund to the Sewer Fund to finance the Sewer Fund’s portion of the Automated Meter Reading (AMR)/Advanced Metering Infrastructure (AMI) and Leak Detection System (the Project). To finance the Project, the City issued \$78,090 in Series 2020 water system revenue bonds. In accordance with a Cost Allocation Certificate, \$41,645 was determined to be the Sewer’s portion of the project. The Water fund made an interfund loan to the Sewer Fund. The interfund loan will be paid over the life of the bonds.

<b>Total</b>	<u>\$ 26,818</u>	<u>\$ 40,190</u>	<u>\$ 15,689</u>	<u>\$ 1,332</u>	<u>\$ 84,029</u>

In 2020, the General Fund transferred \$39,727 into the Capital Improvement Fund. This amount represents 2020 income tax collection amounts required and authorized by Toledo Municipal Code, Toledo City Council, and the Mayor.

The \$16,770 transfer from the Workers' Compensation Internal Service Fund to the General Fund represents the return of excess rebates received the Workers' Compensation during 2020.

The \$8,462 transfer from the Capital Improvement Fund to the General Fund was authorized by enacted legislation to provide for (1) emergency measures for the immediate preservation of the public peace and health & safety (\$8,012), and (2) the timely start of a new police class for 2020 (\$450).

The City maintains monies that are committed by City Council for Budget Stabilization to cover unexpected revenue shortfalls and/or expenditure increases. The City did not utilize these monies in 2020. Consistent with its policy of adding to the Budget Stabilization set forth in an ordinance passed by City Council in 1998, the City intends to restore and then increase the committed amount for Budget Stabilization each year by an amount equal to one-half the amount by which actual annual General Fund Revenues exceed actual annual General Fund Expenditures for the prior year. Withdrawals are permitted only when income tax revenues for any calendar year will represent an annual growth rate which is 1.5% or more below the average annual growth rate over an economic cycle. In accordance with Ohio Revised Code Section 5705.13, the Budget Stabilization commitment cannot exceed 5% of the previous year's revenue credited to the General Fund.

**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS**

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

**Net Pension Liability and Net OPEB Liability**

Pensions and OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period.

The net pension liability and the net OPEB liability represent the City’s proportionate share of each pension/OPEB plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan’s fiduciary net position. The net pension/OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost-of-living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City’s obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the City does receive the benefit of employees’ services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability. Resulting adjustments to the net pension/OPEB liability would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require, the retirement systems to provide health care to eligible benefit recipients.

The proportionate share of each plan’s unfunded benefits is presented as a long-term net pension/OPEB liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in due to other governments on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the pension disclosures. See Note 14 for the OPEB disclosures.

**Plan Description - Ohio Public Employees Retirement System (OPERS)**

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. While members (e.g. City employees) may elect the Member-Directed Plan and the Combined Plan, substantially all employee members are in OPERS’ Traditional Pension Plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS’ fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

**Plan Description - Ohio Public Employees Retirement System (OPERS) (continued)**

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Comprehensive Annual Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

<b>Group A</b>	<b>Group B</b>	<b>Group C</b>
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other Groups and members hired on or after January 7, 2013
<b>State and Local</b>	<b>State and Local</b>	<b>State and Local</b>
<b>Age and Service Requirements:</b> Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	<b>Age and Service Requirements:</b> Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	<b>Age and Service Requirements:</b> Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
<b>Traditional Plan Formula:</b> 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	<b>Traditional Plan Formula:</b> 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	<b>Traditional Plan Formula:</b> 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35
<b>Combined Plan Formula:</b> 1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30	<b>Combined Plan Formula:</b> 1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30	<b>Combined Plan Formula:</b> 1% of FAS multiplied by years of service for the first 35 years and 1.25% for service years in excess of 35

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost of living adjustment is 3 percent. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.00%.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

**Plan Description - Ohio Public Employees Retirement System (OPERS) (continued)**

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options.

Beginning in 2022, the Combined Plan will be consolidated under the Traditional Pension Plan (defined benefit plan) and the Combined Plan option will no longer be available for new hires beginning in 2022.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State and Local
<b>2020 Statutory Maximum Contribution Rates</b>	
Employer	14.0 %
Employee *	10.0 %
<b>2020 Actual Contribution Rates</b>	
Employer:	
Pension	14.0 %
Post-employment Health Care Benefits *****	0.0 %
Total Employer	14.0 %
Employee	10.0 %

\* This rate is determined by OPERS' Board and has no maximum rate established by ORC.

\*\*\*\*\* This employer health care rate is for the traditional and combined plans. The employer contribution for the member-directed plan is 4.00%.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City's contractually required contribution for the Traditional Pension Plan was \$10,313 for 2020. Of this amount, \$213 is reported as accrued wages and benefits.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

**Plan Description - Ohio Police & Fire Pension Fund (OP&F)**

Plan Description – City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at [www.op-f.org](http://www.op-f.org) or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member’s average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.00% for each of the next five years of service credit and 1.50% for each year of service credit in excess of 25 years. The maximum pension of 72.00% of the allowable average annual salary is paid after 33 years of service credit (see OP&F Comprehensive Annual Financial Report referenced above for additional information, including requirements for Deferred Retirement Option Plan provisions and reduced and unreduced benefits).

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit, surviving beneficiaries, and statutory survivors. Members participating in the DROP program have separate eligibility requirements related to COLA.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either 3.00% or the percent increase, if any, in the consumer price index over the 12 month period ending on September 30<sup>th</sup> of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013, is equal to 3.00% of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>Police</u>	<u>Firefighters</u>
<b>2020 Statutory Maximum Contribution Rates</b>		
Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %
<b>2020 Actual Contribution Rates</b>		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	<u>0.50 %</u>	<u>0.50 %</u>
Total Employer	<u>19.50 %</u>	<u>24.00 %</u>
Employee	12.25 %	12.25 %

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

**Plan Description - Ohio Police & Fire Pension Fund (OP&F) (continued)**

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$19,186 for 2020. Of this amount, \$363 is reported as accrued wages and benefits.

**Net Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

The net pension liability for OPERS was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2019 and was determined by rolling forward the total pension liability as of January 1, 2019, to December 31, 2019. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

	OPERS - Traditional	OP&F	Total
Proportion of the net pension liability prior measurement date	0.539616%	3.878850%	
Proportion of the net pension liability current measurement date	<u>0.548508%</u>	<u>3.847687%</u>	
Change in proportionate share	<u>0.008892%</u>	<u>-0.031163%</u>	
Proportionate share of the net pension liability	\$ 108,415	\$ 259,201	\$ 367,616
Pension expense	18,242	31,213	49,455

At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS - Traditional	OP&F	Total
<b>Deferred outflows of resources</b>			
Differences between expected and actual experience	\$ -	\$ 9,812	\$ 9,812
Changes of assumptions	5,791	6,362	12,153
Changes in employer's proportionate percentage/difference between employer contributions	2,806	1,631	4,437
Contributions subsequent to the measurement date	<u>10,313</u>	<u>19,186</u>	<u>29,499</u>
Total deferred outflows of resources	<u>\$ 18,910</u>	<u>\$ 36,991</u>	<u>\$ 55,901</u>

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

**Net Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)**

	OPERS - Traditional	OP&F	Total
<b>Deferred inflows of resources</b>			
Differences between expected and actual experience	\$ 1,371	\$ 13,368	\$ 14,739
Net difference between projected and actual earnings on pension plan investments	21,627	12,521	34,148
Changes in employer's proportionate percentage/difference between employer contributions	1,262	9,806	11,068
Total deferred inflows of resources	<u>\$ 24,260</u>	<u>\$ 35,695</u>	<u>\$ 59,955</u>

\$29,499 reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending December 31:	OPERS - Traditional	OP&F	Total
2021	\$ (1,412)	\$ (4,634)	\$ (6,046)
2022	(6,560)	(4,141)	(10,701)
2023	896	3,994	4,890
2024	(8,587)	(11,821)	(20,408)
2025	-	(1,288)	(1,288)
Thereafter	-	-	-
Total	<u>\$ (15,663)</u>	<u>\$ (17,890)</u>	<u>\$ (33,553)</u>

**Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

**Actuarial Assumptions – OPERS (continued)**

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2019, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2019, are presented below.

Wage inflation	3.25%
Future salary increases, including inflation	3.25% to 10.75% including wage inflation
COLA or ad hoc COLA	Pre 1/7/2013 retirees: 3.00%, simple Post 1/7/2013 retirees: 1.40%, simple through 2020, then 2.15% simple
Investment rate of return	
Current measurement date	7.20%
Prior measurement date	7.20%
Actuarial cost method	Individual entry age

In October 2019, the OPERS Board adopted a change in COLA for Post-January 7, 2013 retirees, changing it from 3.00% simple through 2018 then 2.15% simple to 1.40% simple through 2020 the 2.15% simple.

Pre-retirement mortality rates are based on the RP-2014 Employees Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 17.20% for 2019.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic real rates of return were provided by the Board’s investment consultant.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

**Actuarial Assumptions – OPERS (continued)**

For each major asset class that is included in the Defined Benefit portfolio’s target asset allocation as of December 31, 2019, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed income	25.00 %	1.83 %
Domestic equities	19.00	5.75
Real estate	10.00	5.20
Private equity	12.00	10.70
International equities	21.00	7.66
Other investments	13.00	4.98
<b>Total</b>	<b>100.00 %</b>	<b>5.61 %</b>

**Discount Rate** - The discount rate used to measure the total pension liability was 7.20%, post-experience study results, for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan. The discount rate used to measure total pension liability prior to December 31, 2019 was 7.20%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the City’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** - The following table presents the proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.20%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.20%) or one-percentage-point higher (8.20%) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
City's proportionate share of the net pension liability:			
Traditional Pension Plan	\$ 178,814	\$ 108,415	\$ 45,131

**Actuarial Assumptions - OP&F**

OP&F’s total pension liability as of December 31, 2019, is based on the results of an actuarial valuation date of January 1, 2019 and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F’s actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered were withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

**Actuarial Assumptions – OP&F (continued)**

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2019, are presented below.

Valuation date	1/1/19 with actuarial liabilities rolled forward to 12/31/19
Actuarial cost method	Entry age normal
Investment rate of return	8.00%
Projected salary increases	3.75% - 10.50%
Payroll increases	3.25% per annum, compounded annually, consisting of
	inflation rate of 2.75% plus productivity increase rate of 0.50%
Cost of living adjustments	3.00% simple; 2.20% simple for increases based on the lesser of the increase in CPI and 3.00%

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

<u>Age</u>	<u>Police</u>	<u>Fire</u>
67 or less	77%	68%
68-77	105%	87%
78 and up	115%	120%

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

<u>Age</u>	<u>Police</u>	<u>Fire</u>
59 or less	35%	35%
60-69	60%	45%
70-79	75%	70%
80 and up	100%	90%

The most recent experience study was completed for the five-year period ended December 31, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy and Guidelines. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

**Actuarial Assumptions – OP&F (continued)**

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2019 are summarized below:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Real Rate of Return **</u>
Cash and Cash Equivalents	- %	1.00 %
Domestic Equity	16.00	5.40
Non-US Equity	16.00	5.80
Private Markets	8.00	8.00
Core Fixed Income *	23.00	2.70
High Yield Fixed Income	7.00	4.70
Private Credit	5.00	5.50
U.S. Inflation		
Linked Bonds *	17.00	2.50
Master Limited Partnerships	8.00	6.60
Real Assets	8.00	7.40
Private Real Estate	12.00	6.40
Total	<u>120.00 %</u>	

Note: assumptions are geometric.

\* levered 2x

\*\* numbers include inflation

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return and creating a more risk-balanced portfolio based on the relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.20 times due to the application of leverage in certain fixed income asset classes.

**Discount Rate** - The total pension liability was calculated using the discount rate of 8.00%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.00%. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

**Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.00%), or one percentage point higher (9.00%) than the current rate.

	Current		
	<u>1% Decrease</u>	<u>Discount Rate</u>	<u>1% Increase</u>
City's proportionate share of the net pension liability	\$ 359,243	\$ 259,201	\$ 175,525

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS**

***Net OPEB Liability***

See Note 13 for a description of the net OPEB liability.

**Plan Description - Ohio Public Employees Retirement System (OPERS)**

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Comprehensive Annual Financial Report referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2020, state and local employers contributed at a rate of 14.00% of earnable salary and public safety and law enforcement employers contributed at 18.10%. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care was 0.00% for the Traditional and Combined plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2020 was 4.00%.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City was not required to make a contractually required contribution to OPERS to fund healthcare during 2020.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS (continued)**

**Plan Description - Ohio Police & Fire Pension Fund (OP&F)**

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a new model for health care. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements.

A retiree is eligible for the OP&F health care stipend unless they have access to any other group coverage including employer and retirement coverage. The eligibility of spouses and dependent children could increase the stipend amount. If the spouse or dependents have access to any other group coverage including employer or retirement coverage, they are not eligible for stipend support from OP&F. Even if an OP&F member or their dependents are not eligible for a stipend, they can use the services of the third-party administrator to select and enroll in a plan. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at [www.op-f.org](http://www.op-f.org) or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.50% and 24.00% of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.50% of covered payroll for police employer units and 24.00% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

The Board of Trustees is authorized to allocate a portion of the total employer contributions for retiree health care benefits. For 2020, the portion of employer contributions allocated to health care was 0.50% of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded.

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$457 for 2020. Of this amount, \$9 is reported as accrued wages and benefits.

**Net OPEB Liability, OPEB Expense, and Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB**

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2019 and was determined by rolling forward the total OPEB liability as of January 1, 2019, to December 31, 2019. The City's proportion of the net OPEB liability was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS (continued)**

**Net OPEB Liability, OPEB Expense, and Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB (continued)**

Following is information related to the proportionate share and OPEB expense:

	<u>OPERS</u>	<u>OP&amp;F</u>	<u>Total</u>
Proportion of the net OPEB liability prior measurement date	0.538490%	3.878850%	
Proportion of the net OPEB liability current measurement date	<u>0.546815%</u>	<u>3.847687%</u>	
Change in proportionate share	<u>0.008325%</u>	<u>-0.031163%</u>	
Proportionate share of the net OPEB liability	\$ 75,529	\$ 38,007	\$ 113,536
OPEB expense	\$ 8,728	\$ 3,398	\$ 12,126

At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>OPERS</u>	<u>OP&amp;F</u>	<u>Total</u>
<b>Deferred outflows of resources</b>			
Differences between expected and actual experience	\$ 2	\$ -	\$ 2
Changes of assumptions	11,956	22,220	34,176
Changes in employer's proportionate percentage/difference between employer contributions	1,636	-	1,636
Contributions subsequent to the measurement date	-	457	457
Total deferred outflows of resources	<u>\$ 13,594</u>	<u>\$ 22,677</u>	<u>\$ 36,271</u>
<b>Deferred inflows of resources</b>			
Differences between expected and actual experience	\$ 6,907	\$ 4,087	\$ 10,994
Net difference between projected and actual earnings on OPEB plan investments	3,846	1,749	5,595
Changes of assumptions	-	8,099	8,099
Changes in employer's proportionate percentage/difference between employer contributions	928	2,316	3,244
Total deferred inflows of resources	<u>\$ 11,681</u>	<u>\$ 16,251</u>	<u>\$ 27,932</u>

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS (continued)**

**Net OPEB Liability, OPEB Expense, and Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB (continued)**

\$457 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending December 31, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending December 31:	OPERS	OP&F	Total
2021	\$ 2,417	\$ 1,008	\$ 3,425
2022	1,136	1,008	2,144
2023	3	1,366	1,369
2024	(1,643)	801	(842)
2025	-	1,034	1,034
Thereafter	-	752	752
Total	\$ 1,913	\$ 5,969	\$ 7,882

**Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS (continued)**

**Actuarial Assumptions – OPERS (continued)**

The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation	3.25%
Projected Salary Increases, including inflation	3.25 to 10.75% including wage inflation
Single Discount Rate:	
Current measurement date	3.16%
Prior Measurement date	3.96%
Investment Rate of Return	
Current measurement date	6.00%
Prior Measurement date	6.00%
Municipal Bond Rate	
Current measurement date	2.75%
Prior Measurement date	3.71%
Health Care Cost Trend Rate	
Current measurement date	10.00% initial, 3.50% ultimate in 2030
Prior Measurement date	7.50%, initial 3.25%, ultimate in 2029
Actuarial Cost Method	Individual Entry Age Normal

Pre-retirement mortality rates are based on the RP-2014 Employees Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, if any contribution are made into the plans, the contributions are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made. Health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was 19.70% for 2019.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS (continued)**

**Actuarial Assumptions – OPERS (continued)**

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2019, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	36.00 %	1.53 %
Domestic Equities	21.00	5.75
Real Estate Investment Trust	6.00	5.69
International Equities	23.00	7.66
Other investments	14.00	4.90
Total	<u>100.00 %</u>	<u>4.55 %</u>

**Discount Rate** - A single discount rate of 3.16% was used to measure the OPEB liability on the measurement date of December 31, 2019. A single discount rate of 3.96% was used to measure the OPEB liability on the measurement date of December 31, 2018. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 2.75%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

**Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate** - The following table presents the proportionate share of the net OPEB liability calculated using the single discount rate of 3.16%, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.16%) or one-percentage-point higher (4.16%) than the current rate:

	Current		
	1% Decrease	Discount Rate	1% Increase
City's proportionate share of the net OPEB liability	\$ 98,842	\$ 75,529	\$ 56,864

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS (continued)**

**Actuarial Assumptions – OPERS (continued)**

**Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate -** Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.00% lower or 1.00% higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2020 is 10.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

	<u>1% Decrease</u>	Current Health Care Trend Rate Assumption	<u>1% Increase</u>
City's proportionate share of the net OPEB liability	\$ 73,301	\$ 75,529	\$ 77,730

**Changes between Measurement Date and Reporting Date -** On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and pre-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for pre-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are not reflected in the current year financial statements but are expected to decrease the associated OPEB liability.

**Actuarial Assumptions - OP&F**

OP&F's total OPEB liability as of December 31, 2019, is based on the results of an actuarial valuation date of January 1, 2019 and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS - (Continued)**

**Actuarial Assumptions - OP&F (continued)**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

Valuation Date	January 1, 2019, with actuarial liabilities rolled forward to December 31, 2019
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.00%
Projected Salary Increases	3.75% to 10.50%
Payroll Growth	3.25%
Single discount rate:	
Current measurement date	3.56%
Prior measurement date	4.66%
Cost of Living Adjustments	3.00% simple; 2.20% simple for increases based on the lesser of the increase in CPI and 3.00%

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

<u>Age</u>	<u>Police</u>	<u>Fire</u>
67 or less	77%	68%
68-77	105%	87%
78 and up	115%	120%

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale.

<u>Age</u>	<u>Police</u>	<u>Fire</u>
59 or less	35%	35%
60-69	60%	45%
70-79	75%	70%
80 and up	100%	90%

The most recent experience study was completed for the five-year period ended December 31, 2016.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS - (Continued)**

**Actuarial Assumptions - OP&F (continued)**

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2019, are summarized below:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Real Rate of Return **</u>
Cash and Cash Equivalents	- %	1.00 %
Domestic Equity	16.00	5.40
Non-US Equity	16.00	5.80
Private Markets	8.00	8.00
Core Fixed Income *	23.00	2.70
High Yield Fixed Income	7.00	4.70
Private Credit	5.00	5.50
U.S. Inflation		
Linked Bonds *	17.00	2.50
Master Limited Partnerships	8.00	6.60
Real Assets	8.00	7.40
Private Real Estate	12.00	6.40
<b>Total</b>	<u><u>120.00 %</u></u>	

Note: assumptions are geometric.

\* levered 2x

\*\* numbers include inflation

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.20 times due to the application of leverage in certain fixed income asset classes.

**Discount Rate** - For 2019, the total OPEB liability was calculated using the discount rate of 3.56%. For 2018, the total OPEB liability was calculated using the discount rate of 4.66%. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return of 8.00%. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 2.75% at December 31, 2019 and 4.13% at December 31, 2018, was blended with the long-term rate of 8.00%, which resulted in a blended discount rate of 3.56% for 2019 and 4.66% for 2018. The municipal bond rate was determined using the Bond Buyers General Obligation 20-year Municipal Bond Index Rate. The OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments until 2034. The long-term expected rate of return on health care investments was applied to projected costs through 2034, and the municipal bond rate was applied to all health care costs after that date.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS - (Continued)**

**Actuarial Assumptions - OP&F (continued)**

*Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate* - Net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 3.56%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.56%), or one percentage point higher (4.56%) than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
City's proportionate share of the net OPEB liability	\$ 47,126	\$ 38,007	\$ 30,429

*Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate* - The total OPEB liability is based on a medical benefit that is a flat dollar amount; therefore, it is unaffected by a health care cost trend rate. An increase or decrease in the trend rate would have no effect on the total OPEB liability.

**NOTE 15 – RISK MANAGEMENT**

**Property and Liability**

The City has elected pursuant to ORC §2744.08(A)(2)(a) to use public funds for the purpose of handling third-party property losses and liabilities in lieu of purchasing general municipality liability insurance. Claims activity is accounted for within the Risk Management Fund, which derives revenue on a pro-rata basis from other City funds to cover liability losses. Settled claims have not materially exceeded coverage in any of the last three years, and the City added coverage through new policies in 2020, without significant reduction in coverage from the prior year policies. In addition, the City has the ability to issue general obligation bonds to pay final judgments that may arise.

The liability is reported as a current liability in the Risk Management Internal Service Fund. Changes in the claim liability amount in years 2017 - 2020 follows:

Year	Beginning Balance	Current Year Claims and Change in Estimate	Claims Payments	Ending Balance
2017	\$ 5,500	\$ 657	\$ (657)	\$ 5,500
2018	5,500	1,146	(5,446)	1,200
2019	1,200	688	(688)	1,200
2020	1,200	1,245	(1,245)	1,200

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 15 – RISK MANAGEMENT (continued)**

**Property and Liability (continued)**

The City is fully insured through premium-based insurance policies for all other types of insurance. In 2020, the City contracted with various insurance companies to provide the following coverage:

	<b>Coverage</b> (in Whole Dollars)	<b>Deductible</b> (in Whole Dollars)
Property Policy for the City	\$ 600,000,000	\$ 250,000
Accident/Liability Policy - Intern Program	25,000	-
Accident/Liability Policy - Youth Commission	25,000	-
Accident/Liability Policy - Adult Probation Program	25,000	-
Boat Policy (Swan Creek & Trailer)	1,000,000	1,000
BUSTR/Cleanup for Underground Fuel Tanks	Total cost of cleanup	50,000
Commercial Liability for The Unique Center	1,000,000	5,000
Crime Policy for the City	3,000,000	75,000
Crime Policy for the Toledo Police	1,000,000	50,000
Crime Policy for Toledo Clerk of Courts	3,000,000	50,000
Employee Tool Insurance	211,000	500
Boat Policy (Pacific Skiff)	1,000,000	5,000
Ocean Marine Policy (Hanson/Maurell)	1,000,000	1,000
Ocean Marine Policy (Sounder)	1,000,000	1,000
Ocean Marine Policy (Sea Ark)	1,000,000	500
Ocean Marine Policy (Zodiac)	1,000,000	500
Professional Liability for TMC	10,000,000	-
Toledo Express JEDD	1,000,000	-
Holy Trinity Parking Lot	1,000,000	-
Accident/Liability Policy - TPS Co-op Program	25,000	-
Cyber & Privacy Policy	2,000,000	500,000
Environment/Municipal Golf Courses	1,000,000	10,000
Liquor Liability/Municipal Golf Courses	1,000,000	1,000

**Workers' Compensation**

The City takes advantage of workers' compensation plans offered by the State of Ohio. The current plan is a Group Retrospective Rating Plan and has been in effect since 2016. Group Retrospective Rating is a performance-based incentive program designed to recover a portion of premium for employers that reduce injury rates and lower claims costs. Participating employers receive refunds or pay assessments based on the performance of the group. The 2015 plan, called Merit Rating or an Experience Rating Plan, allows the City to take advantage rebates through the Destination Excellence program, which enabled the City to receive credits for a percentage of premiums paid based on fulfilling the requirements of each program. In contrast to the Individual Retrospective Rating program previously utilized, the Group Retrospective and the Experience plans have no dollar for dollar liability. Claim costs are paid by the Ohio Bureau of Workers' Compensation (BWC), and those costs are used to calculate an annual insurance premium established by BWC.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 15 – RISK MANAGEMENT (continued)**

**Workers’ Compensation (continued)**

The City participated in Individual Retrospective Rating from January 2006 through December 2014 and retains liability for claims over a ten-year period. Claims with a date of injury prior to January 1, 2009 are closed out and have no further liability. In the Retrospective Rating plan, the City agreed to assume a portion of the risk in return for a reduction in premium. The greater the percentage of risk the City assumed, the greater the reduction in the premium. If the City’s loss experience is better than predicted by the experience-rating system, its total obligation will be less than what it would have paid under experience rating. If its experience is worse than predicted, its total obligation will be more than it would have been assessed under experience rating, limited to a maximum premium. The City has assumed the risk of individual claims up to a maximum of \$300,000.

The City has agreed to pay all claims up to a maximum of 150% of what the City would have paid had the City remained an experience-rated risk. Claims exceeding these limits will be paid by the BWC. Ten years after each year the City elected the retrospective plan for workers’ compensation, the City settles reserves (if any) on claims that are still open. The City has established a Workers’ Compensation Internal Service Fund to account for and finance its uninsured risks of loss in the program.

The claims liability of \$1,724 reported at December 31, 2020 was determined after review of the City’s actuarial report provided by a third-party actuary. This estimate complies with GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, as amended by GASB Statement No. 30, Risk Financing Omnibus, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be accrued at the estimated ultimate cost of settling claims. The liability is reported as a current liability in the Statement of Net Position for the Internal Service Funds. The liability decreased in 2017 to reflect the reduction in claim liability, primarily as a result of the sub-contracting of the City’s refuse workers beginning in 2011, additional safety training, better claims management, and the implementation of changes related to worker safety based upon training provided by the Safety Council of Northwest Ohio. The liability is associated with the Individual Retrospective Rating plan, and the City expects this liability to gradually decrease until eliminated entirely in the year 2024, the final year for which the City is required to make a payment to the BWC under the Individual Retrospective Rating Plan.

The liability is reported as a current liability in the Workers’ Compensation Internal Service Fund. Changes in the Workers’ Compensation claim liability amount in 2017 - 2020 were:

Year	Beginning Balance	Current Year Claims and Change in Estimate	Claims Payments	Ending Balance
2017	\$ 7,000	\$ 4,478	\$ (6,478)	\$ 5,000
2018	5,000	3,614	(5,264)	3,350
2019	3,350	4,413	(5,415)	2,348
2020	2,348	4,407	(5,031)	1,724

**Health, Dental, and Prescription Drug Benefits**

The City is self-insured for health, dental and prescription drug benefits. The programs are administered by a third-party, which provides claims review and processing services. The City records a liability for incurred but unreported medical, dental, and prescription drug claims at year-end based upon an actuarial estimate by a third-party actuary. The actuarially determined claims liability is based upon past experience and current claims outstanding.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 15 – RISK MANAGEMENT (continued)**

**Health, Dental, and Prescription Drug Benefits (continued)**

The claims liability of \$4,148 reported at December 31, 2020 was determined after review of the City’s actuarial report provided by a third-party actuary. This estimate complies with GASB Statement No. 10. Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, as amended by GASB Statement No. 30, Risk Financing Omnibus, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be accrued at the estimated ultimate cost of settling claims.

In late 2019, the City established an Internal Service Fund to account for its healthcare self-insurance activities. The Healthcare Self-Insurance Internal Service Fund was established utilizing prescription drugs rebates and stop-loss reimbursements received by the City. Beginning in 2020, the City began utilizing the newly established Healthcare Self-Insurance Internal Service Fund to report all healthcare related self-insurance activities. The actuarially determined claims liability is reported in the Healthcare Self-Insurance Internal Service Fund at December 31, 2020.

The liability is reported as a current liability in the Healthcare Self-Insurance Internal Service Fund. Changes in the claim liability amount for this category in years 2017 - 2020 follows:

<u>Year</u>	<u>Beginning Balance</u>	<u>Current Year Claims and Change in Estimate</u>	<u>Claims Payments</u>	<u>Ending Balance</u>
2017	\$ 3,987	\$ 28,075	\$ (27,933)	\$ 4,129
2018	4,129	26,530	(26,931)	3,728
2019	3,728	29,559	(29,245)	4,042
2020	4,042	29,715	(29,609)	4,148

**NOTE 16 – ACCOUNTABILITY AND COMPLIANCE**

**Change in Accounting Principles**

For 2020, the City has applied GASB Statement No. 95, “Postponement of the Effective Dates of Certain Authoritative Guidance” to GASB Statement Nos. 87 and 89, which were originally due to be implemented in 2020. GASB Statement No. 95 provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. This objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

The following pronouncement is postponed by one year and the City has elected delaying implementation until the fiscal year ended December 31, 2021:

- Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*

The following pronouncements are postponed by eighteen months and the City has elected delaying implementation until the fiscal year ended December 31, 2021:

- Statement No. 87, *Leases*
- Implementation Guide No. 2019-3, *Leases*

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 16 – ACCOUNTABILITY AND COMPLIANCE (continued)**

**Restatement of Net Position**

The City is reporting a prior period adjustment to (1) properly report the disposal of capital assets that occurred in a prior fiscal year in the internal service funds and the governmental activities, and (2) to report a special assessment receivable in the Custodial Funds for special assessments collected for and remitted to various Energy Special Improvement Districts and the Downtown Toledo Improvement District. The prior period adjustment had the following effect on net position as previously reported:

	<u>Governmental Activities</u>	<u>Internal Service Funds</u>	<u>Custodial Funds</u>
Net position at December 31, 2019	\$ 123,401	\$ 23,015	\$ 573
Adjustment to properly report capital asset balances	(7,736)	(7,736)	-
Adjustment to report special assessments receivable	-	-	19,014
Restated net position at January 1, 2020	<u>\$ 115,665</u>	<u>\$ 15,279</u>	<u>\$ 19,587</u>

**Deficit Fund Balances/Net Position**

Fund balances/net position at December 31, 2020 included the following individual fund deficits:

	<u>Deficit</u>
<i>Governmental Funds:</i>	
Special Assessments Services Fund	\$ 57,921
Nonmajor Governmental:	
Special Assessment Improvement Fund	2,957
Jeep Muni Public Improvement TIF	<u>12,002</u>
Total Governmental Funds	<u>72,880</u>
<i>Enterprise Funds:</i>	
Nonmajor Enterprise:	
Property Management Fund	<u>2,491</u>
Total	<u>\$ 75,371</u>

These deficits will be eliminated by future charges for services, reduction of expenditures or future bond sales, where appropriate. The deficit balance in the Special Assessments Services Fund is due primarily to the City's issuance of \$40,900 of special assessment notes which are reported as a fund liability and the reporting of \$20,561 in amounts due to other funds. The special assessment notes are issued for the interim financing of various improvements to be assessed from benefitting property owners. The City pays the actual costs of these services, which are then levied as special assessments and collected two years after the service has been rendered. At December 31, 2020, the City has reported a special assessments receivable in the amount of \$55,820 in the Special Assessments Services Fund.

The deficit balance in the Special Assessment Improvement Fund is due primarily to the City's issuance of \$2,460 of general obligation notes which are reported as a fund liability and the reporting of \$385 in amounts due to other funds. This deficit will be reduced as special assessments are collected to retire the obligations and as transfers are received from the Capital Improvements Fund for amounts not certified in prior years.

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 16 – ACCOUNTABILITY AND COMPLIANCE (continued)**

**Deficit Fund Balances/Net Position (continued)**

The Jeep Muni Public Imp TIF receives payments in lieu of taxes, with its deficit due and payable to the Capital Improvement fund.

The deficit balance in the Property Management Fund is due to the reporting of long-term housing improvement bonds payable as a fund liability. The deficit will be reduced as transfers are received from the Capital Improvement fund to make required debt service payments. Any proceeds from the sale of property for which the bonds were issued may be used to reduce the bond obligation.

**NOTE 17 - CONTINGENCIES**

**Litigation**

The City is a party to various legal proceedings seeking damages or injunctive or other relief generally incidental to its operations for which it reserves resources. Those proceedings are unrelated to any outstanding City debt or the security therefore. The ultimate disposition of those proceedings is not now determinable, but based on the aforementioned will not, in the opinion of the City's Director of Law, have a material adverse effect on any outstanding City debt or the security therefore.

Under current Ohio law, City moneys, accounts and investments are not subject to attachment to satisfy tort judgments against the City in State courts. Current Ohio law also permits the City to reduce its fiscal responsibility in tort liability by deducting all appropriate health benefits, insurance benefits (including uninsured and underinsured motorists' coverage) and/or other benefits which a claimant may be entitled to receive due to injury or other loss. The City does not maintain a policy of liability insurance or a self-insurance fund or participate in any self-insurance program or pool to satisfy tort liability claims. The City has satisfied in the past, and continues to satisfy, its general, motor vehicle, police, fire and emergency medical services tort liability (after deducting amounts available from any available collateral source) by relying on tax receipts and other available City revenues.

Based on historical experience and its evaluation of pending claims, the City believes that the amount available from those sources and unencumbered at December 31, 2020 and at the date of this Statement, is sufficient to meet the claims and judgments that may arise in 2021. In addition, the City has the right to issue general obligation bonds, maturing over a maximum period of 25 years, and notes in anticipation of those bonds, to pay any final judgment which may be entered against it.

**Grants**

In 2020, the City received Federal, State, and Local grants for specific purposes that are subject to review and audit by grantor agencies or their designee. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the City believes such disallowance, if any, would be immaterial.

**NOTE 18 - COVID-19**

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the City. The City's investment portfolio and the pension and other employee benefits plan in which the City participate fluctuates with market conditions, and due to market volatility, the amount of gains or losses that will be realized in subsequent periods, if any, cannot be determined. In addition, the impact on the City's future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated.

During 2020, the City received \$25,082 as an on-behalf of grants and other funding from another government. These amounts are recorded in the CARES Act Fund (a nonmajor governmental fund).

**City of Toledo, Ohio**  
**Notes to the Basic Financial Statements**  
**For the Year Ended December 31, 2020**  
**(Amounts in Thousands)**

**NOTE 19 – SUBSEQUENT EVENTS**

With the passage of Issue 4 on November 3, 2020, Toledo voters supported imposing an additional temporary municipal income tax at a rate of 0.25% for four years beginning on January 1, 2021, to fund road improvements. This brings the total income tax rate to 2.5% and it is estimated that the tax would raise in excess of \$18 million annually for road repairs and reconstruction.

In January 2021, City Council passed legislation authorizing the Mayor to enter into agreements with and accept financial assistance from the State of Ohio, Ohio Public Works Commission (OPWC) in an amount not to exceed \$3,070 for the Anthony Wayne Trail – Glendale to City Limits and authorizing the appropriation and expenditure of said grant and loan proceeds.

In March 2021, Congress passed the American Rescue Plan Act of 2021 (ARP) to provide a combined \$350 billion in assistance to eligible state, local, territorial, and Tribal governments to help turn the tide on the pandemic, address its economic fallout, and lay the foundation for a strong and equitable recovery. This bill provides additional relief to address the continued impact of COVID-19 (i.e., coronavirus disease 2019) on the economy, public health, state and local governments, individuals, and businesses. The city is expected to receive a total of \$180,949 in two installments. The first installment in the amount of \$90,474 was accepted on May 21, 2021, with the balance to be delivered approximately 12 months later.

On April 27, 2021, the JobsOhio forgave the City's \$650 Capital Projects loan as all parameters for forgiveness were deemed to have been met (see Note 9).

### Notes to the Required Supplementary Information

#### PENSION

---

##### OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

*Changes in benefit terms* : There were no changes in benefit terms from the amounts reported for 2014-2020.

*Changes in assumptions* : There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2016. For 2017, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 8.00% down to 7.50%, (b) for defined benefit investments, decreasing the wage inflation from 3.75% to 3.25% and (c) changing the future salary increases from a range of 4.25%-10.05% to 3.25%-10.75%. There were no changes in assumptions for 2018. For 2019, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) the assumed rate of return and discount rate were reduced from 7.50% down to 7.20%. There were no changes in assumptions for 2020.

##### OHIO POLICE AND FIRE (OP&F) PENSION FUND

*Changes in benefit terms* : There were no changes in benefit terms from the amounts reported for 2014-2020.

*Changes in assumptions* : There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2017. For 2018, the following were the most significant changes of assumptions that affected the total pension since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 8.50% down to 8.00%, (b) changing the future salary increases from a range of 4.25%-11.00% to 3.75%-10.50%, (c) reduction in payroll increases from 3.75% down to 3.25%, (d) reduction in inflation assumptions from 3.25% down to 2.75% and (e) Cost of Living Adjustments (COLA) were reduced from 2.60% and 3.00% simple to 2.20% and 3.00% simple. There were no changes in assumptions for 2019-2020.

#### OTHER POSTEMPLOYMENT BENEFITS (OPEB)

---

##### OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

*Changes in benefit terms* : There were no changes in benefit terms from the amounts reported for 2017-2020.

*Changes in assumptions* : There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2017. For 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 4.23% down to 3.85%. For 2019, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.85% up to 3.96%, (b) The investment rate of return was decreased from 6.50% percent down to 6.00%, (c) the municipal bond rate was increased from 3.31% up to 3.71% and (d) the health care cost trend rate was increased from 7.50%, initial/3.25%, ultimate in 2028 up to 10.00%, initial/3.25% ultimate in 2029. For 2020, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 3.96% up to 3.16%, (b) the municipal bond rate was decreased from 3.71% up to 2.75% and (c) the health care cost trend rate was increased from 10.00%, initial/3.25%, ultimate in 2029 up to 10.50%, initial/3.50% ultimate in 2030.

##### OHIO POLICE AND FIRE (OP&F) PENSION FUND

*Changes in benefit terms* : There were no changes in benefit terms from the amounts reported for 2017-2018. For 2019, OP&F changed its retiree health care model from a self-insured health care plan to a stipend-based health care model. There were no changes in benefit terms for 2020.

*Changes in assumptions* : There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2017. For 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date: (a) DROP interest rate was reduced from 4.50% to 4.00%, (b) CPI-based COLA was reduced from 2.60% to 2.20%, (c) investment rate of return was reduced from 8.25% to 8.00%, (d) salary increases were reduced from 3.75% to 3.25% and (e) payroll growth was reduced from 3.75% to 3.25%. For 2019, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.24% up to 4.66%. For 2020, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 4.66% up to 3.56%.

**City of Toledo, Ohio**  
**Notes to the Budgetary Required Supplementary Information**  
**December 31, 2020**

**Annual Budget Process**

Annual budgets are adopted on a GAAP basis for all Governmental Funds, other than Capital Projects Funds, and all Proprietary Funds. On a GAAP basis, revenues are recorded when earned and expenditures are recorded when incurred. Capital projects funds adopt project-length budgets at the time bonds are sold or other funding sources are determined. The City maintains budgetary controls by not permitting expenditures to exceed appropriations at the account for each division within each fund.

The City's budgetary process is as follows:

*Budget*

A certificate of estimated revenue is submitted to the County Auditor, as Secretary of the County Budget Commission, by October 31 of each year for the period January 1 to December 31 of the following year.

*Estimated Resources*

The County Budget Commission certifies its actions to the City by September 1. As part of this certification, the City receives the official certificate of estimated resources, which states the projected revenue of each Fund. Prior to December 31, the City must revise its budget so that the total contemplated expenditure from any fund during the ensuing fiscal year will not exceed the amount stated in the certificate of estimated resources. On or about January 1, the certificate is amended to include any unencumbered balances from the preceding year.

*Appropriations*

A temporary appropriation measure to control disbursements may be passed on or about January 1 of each year for the period from January 1 to March 31. During this period, the administration presents an executive budget that is reviewed by City Council for its revision and approval. Upon completion of City Council's review, the revised executive budget is summarized into an ordinance that is approved by City Council to provide expenditure authority for an appropriated budget. This ordinance receives City Council approval no later than March 31 for the annual period ending December 31. During the year as additional information becomes available, City Council approves transfers, allocations, supplemental appropriations, and the reappropriation of encumbrances carried over from the prior year. Appropriations did not exceed estimated resources and all original appropriation authority resides with City Council. Management retains administrative authority to transfer existing appropriation authority under \$25 within personal services and between other account codes within an organization in a fund.

*Budgetary Level of Control*

The City is required by Ohio Law to establish annual appropriations for all necessary funds. These appropriated budgets affect legal control at various levels for individual funds. Budgetary control is exercised for the General Fund, Special Revenue Funds, and Debt Service Funds at the organizational level distinguishing between personal services and other expenditures. Budgetary control of grant funds is exercised by individual grant for each organization at the personal services and other level. Capital Projects Funds are legislatively controlled by individually approved projects for each organization. Expenditures may not legally exceed appropriations at this level.

**City of Toledo, Ohio**  
**Notes to the Budgetary Required Supplementary Information**  
**December 31, 2020**

**Annual Budget Process (continued)**

*Encumbrances*

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are encumbered and recorded as the equivalent of expenditures on the GAAP budget basis in order to reserve that portion of the applicable appropriations.

*Lapsing of Appropriations*

Unencumbered appropriate balances lapse at year end and revert to their respective funds from which there were originally appropriated, thus becoming available for future appropriation.

**City of Toledo, Ohio**  
**Fund Descriptions - Nonmajor Special Revenue Funds**

***Federal Block Grants***

To account for monies received from the Federal Government under the Community Development Block Grant program.

***Operation Grants***

To account for various non-capital Federal, State, and Local grants including such programs as Federal and State Air Pollution Control, D.W.I. (Driving While Intoxicated) program, Child and Family Health, and WIC (Women, Infants and Children).

***Urban Development Action Grants***

To account for monies received from the Federal Government under the Urban Development Action Grant program. Individual program and grant activity is controlled by use of programmatic computer codes.

***Street Construction Maintenance and Repair***

To account for state-levied and controlled gasoline tax and vehicle license fees remitted to the City by formula for routine street maintenance.

***Cemetery Maintenance***

To account for investment earnings transferred from the non-expendable Cemetery Perpetual Care Fund. Fund monies are used in maintaining the City's five public cemeteries.

***Golf Improvements***

To account for all proper maintenance, operation, improvement and construction of municipal golf courses in the City for which a fee is charged; and all appropriations therefrom shall be made for only such purpose.

***Parkland Replacement***

To account for those proceeds from parkland sales committed by City Council for minor purchases of park property and equipment.

***Cemeteries Property Acquisition Site Development***

To account for monies received for investments, removals and lots in municipal cemeteries and used for the expansion of municipal cemeteries.

***Marina Development***

To account for monies received for operation and improvement of the City's marinas and Boating Education Center.

***Expendable Trusts***

To account for monies donated in trust to the City. Expenditures of the forty-eight individual trust funds in existence as of December 31 controlled by reference to individual trust balances maintained in subsidiary records. Also, to include special revenue source restricted for Municipal Court and Demolition operations.

***Toledo City Parks***

To account for investment earnings on funds contributed from the General Fund Estate Taxes. This fund will provide funding stability to the City's parks and recreation programs.

***Toledo Home Program***

To account for monies received under the National Affordable Housing Act to assist low-income individuals attain home ownership. Individual program and grant activity is controlled by use of programmatic computer codes.

***Right of Way***

To account for monies received from various public utilities for the maintenance of their access to the public right-of-way.

***CARES Act***

To account for federal monies used to combat and prevent the spread of COVID-19.

***Downtown Toledo Parking***

To account for revenues realized under the City's parking agreement with the Toledo Lucas County Port Authority and Park Smart as well as any other parking-related revenues that may also occur. The fund will be used to reinvest in projects, beautification or other items in the service area that would benefit the residents, businesses, and guests to Downtown Toledo.

**City of Toledo, Ohio**  
**Fund Descriptions - Nonmajor Debt Service Funds**

***Jeep Municipal Public Improvement TIF***

This is the Municipal Public Improvement Tax Increment Equivalent fund established by Ordinance 1223-98 on December 8, 1998 that collects payments in lieu of taxes while accounting for the City's costs associated with public improvements associated with the Jeep Project.

***General Obligation***

To account for funds accumulating for the payment of principal and interest of general obligation debt secured by a pledge of the full faith and credit and general taxing power of the City.

***Special Assessment***

Bonds that are long term debt acquired to pay for specific improvement benefits like sidewalks, water and lighting. The property owners who benefited are ultimately responsible for the repayment.

<b>Fund balances (deficit) at end of year</b>	<u>\$ (2,957)</u>	<u>\$ 14,020</u>	<u>\$ 11,063</u>

**City of Toledo, Ohio**  
**Fund Description - Nonmajor Permanent Fund**

***Cemetery Perpetual Care***

To account for revenues from sales of plots in the City's five cemeteries. Investment earnings, if any, from this Fund are credited to the Cemetery Maintenance Fund as directed by legislation.

**City of Toledo, Ohio**  
**Fund Descriptions - Nonmajor Enterprise Funds**

***Storm Sewer***

To account for storm drainage services provided to individual and commercial residents of the City.

***Property Management***

To facilitate accountability and control of certain properties acquired for the purpose of property management. The City accounts for such properties on a capital maintenance basis similar to private business enterprises, to aid in the recovery of on-going costs for the production of income by such properties, and to facilitate management and accounting control.

***Small Business Development***

To account for the assets of the former Small Business Assistance Corporation, which the City of Toledo assumed in 1989.

***Municipal Tow Lot***

To account for the revenues and expenses of the one centralized location for the storage and the subsequent release of vehicles ordered to be impounded by the Toledo Police Department.

***Marina Operations***

To account for the revenues and expenditures of the operations of the downtown marina, which the City of Toledo assumed in 2008.

***Toledo Public Power***

To account for the revenues and expenses of the operations of the distribution of electric power per agreement.

By virtue of Ohio law, certain separate funds are maintained for enterprise debt service and capital improvements. Inasmuch as GASB Statement 1 requires that all such activities be accounted for within the respective Enterprise Fund itself, the City has consolidated the various legally-required funds into categories indicated above for purposes of these financial statements.

**City of Toledo, Ohio**  
**Fund Descriptions - Internal Service Funds**

***Municipal Garage***

To account for the costs of a maintenance facility for automotive equipment used by various City departments. The actual costs of labor and material utilized are reimbursed to this Fund by the user departments.

***Capital Replacement***

To account for interdepartmental charges assessed for the improvement and replacement of the City's capital equipment.

***Storeroom and Printshop***

To account for small supplies consumed by and printing services provided to various City departments. The actual costs of supplies requisitioned and labor and materials utilized are reimbursed to this Fund by the user departments.

***Information Technology***

To account for the costs of data processing services provided to various City departments. The actual costs of materials and services are reimbursed to this Fund by the user departments.

***Risk Management***

To account for the City's insurance program related to property and liability loss exposure. The payment of self-insured losses, insurance in excess of retention levels and related loss financing expenditures are accounted for in this Fund.

***Facility Operations***

To account for the costs of maintenance and repair activities provided to various City departments. The actual costs of materials and services are reimbursed to this Fund by the user departments.

***Workers' Compensation***

To account for the City's participation in a State of Ohio sponsored worker's compensation program. This fund accounts for the payment and allocation of premiums, assessments, and claims to the State Bureau of Workers' Compensation to participating funds.

***Healthcare Self-Insurance***

To account for the City's self-funded medical, dental, and prescription drug plan. This fund was established late in 2019 to report all healthcare related self-insurance activities.

**City of Toledo, Ohio**  
**Fund Descriptions - Custodial Funds**

Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. These funds do not account for the City's own source revenue. The following is a description of the City's custodial funds.

***3% State Surcharge***

To account for a 3% building standards fee assessment on commercial permits collected by the City and remitted to the State.

***1% State Surcharge***

To account for a 1% building standards fee assessment on residential permits collected by the City and remitted to the State.

***Ohio EPA Surcharge***

To account for an Ohio Environmental Protection Agency (EPA) surcharge assessed at the landfill that is collected by the City and remitted to the Ohio EPA.

***ESID and DTID Special Assessments***

To account for special assessments levied and paid to the Downtown Toledo Improvement District (DTID) and various Energy Special Improvement District's (ESID).

***Municipal Court***

To account for bonds and other costs remitted to the Municipal Court pending final disposition of the various cases and payment to third parties, excluding the City. While records of the Municipal Court are the responsibility of a separate elected Clerk of Courts and not the Finance Department, the balances have been included in these financial statements in compliance with GASB Statement No. 61.

## City of Toledo, Ohio

### Statistical Section

This part of the City of Toledo, Ohio's Annual Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health

<b><u>Contents</u></b>	<b><u>Tables</u></b>
<b>Financial Trends</b> These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	<b>226 - 235</b>
<b>Revenue Capacity</b> These schedules contain information to help the reader assess the City's most significant local revenue sources.	<b>236 - 246</b>
<b>Debt Capacity</b> These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	<b>248 - 256</b>
<b>Demographic and Economic Information</b> These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	<b>257 - 258</b>
<b>Operating Information</b> These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	<b>259 - 263</b>

**Sources:** Unless otherwise noted, the information in these schedules is derived from the Annual Report for the relevant year.

**Table 1**  
**City of Toledo, Ohio**

**Notes:**

<sup>1</sup>Represents Tax Collection Years

<sup>2</sup>The Toledo City School District and the Washington Local School District are located entirely within the City of Toledo. Other school districts overlap with but are only partially located in Toledo.

<sup>3</sup>The Penta County Career Center serves and is included as part of the tax rate in the Maumee City School District and the Springfield Local School District.

<sup>4</sup>The Sylvania Joint Recreation District and Olander Park are located in the same taxing district as Sylvania City Schools in the City of Toledo.

Springfield Local School District	3,785	1.86%	70
Sylvania Area Joint Recreation District	5,285	3.21%	170
Washington Local School District	49,240	22.99%	11,320
Total subdivision overlapping debt	<u>395,703</u>		<u>146,257</u>
Total direct and overlapping debt	<u>\$ 573,626</u>		<u>\$ 324,180</u>

General obligation debt may be issued by the City without a vote of the electors, subject to overlapping restrictions. Total debt service charges for any one year of all overlapping debt must not exceed ten mills per \$1.00 of assessed valuation. This indirect debt limitation is imposed by a combination of provisions of the Ohio Constitution and the Ohio Revised Code.

**Note:**

<sup>1</sup> Consists of Governmental Activities bonds (including unamortized premiums), notes, loans, and capital leases (see Table 11).
