CLEVELAND HEIGHTS-UNIVERSITY HEIGHTS CITY SCHOOL DISTRICT CUYAHOGA COUNTY

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED JUNE 30, 2020

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Cleveland Heights-University Heights City School District (the District) under programs of the federal government for the year ended June 30, 2020. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C - INDIRECT COST RATE

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE E - FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the program that benefitted from the use of those donated food commodities.

Lausche Building, 12th Floor 615 Superior Avenue, NW Cleveland, Ohio 44113-1801 (216) 787-3665 or (800) 626-2297 NortheastRegion@ohioauditor.gov

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Cleveland Heights-University Heights City School District Cuyahoga County 2155 Miramar Boulevard University Heights, Ohio 44118

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, the major fund, and the aggregate remaining fund information of the Cleveland Heights-University Heights City School District, Cuyahoga County, (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 29, 2021, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the District.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Efficient • Effective • Transparent

Cleveland Heights-University Heights City School District Cuyahoga County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Keith Faber Auditor of State Columbus, Ohio

January 29, 2021

Lausche Building, 12th Floor 615 Superior Avenue, NW Cleveland, Ohio 44113-1801 (216) 787-3665 or (800) 626-2297 NortheastRegion@ohioauditor.gov

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Cleveland Heights-University Heights City School District Cuyahoga County 2155 Miramar Boulevard University Heights, Ohio 44118

To the Board of Education:

Report on Compliance for each Major Federal Program

We have audited the Cleveland Heights-University Heights City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could directly and materially affect each of the Cleveland Heights-University Heights City School District's major federal programs for the year ended June 30, 2020. The Summary of Auditor's Results in the accompanying schedule of findings identifies the District's major federal programs.

Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

Efficient • Effective • Transparent

Cleveland Heights-University Heights City School District
Cuyahoga County
Independent Auditor's Report On Compliance With Requirements
Applicable to Each Major Federal Program And On Internal Control Over
Compliance Required by the Uniform Guidance
Page 2

Opinion on each Major Federal Program

In our opinion, the Cleveland Heights-University Heights City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Cuyahoga County
Independent Auditor's Report On Compliance With Requirements
Applicable to Each Major Federal Program And On Internal Control Over
Compliance Required by the Uniform Guidance
Page 3

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the business-type activities, the major fund, and the aggregate remaining fund information of the Cleveland Heights-University Heights City School District (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated January 29, 2021, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the District. We conducted our audit to opine on the District's basic financial statements as a whole. We have not performed any procedures to the audited financial statements subsequent to January 29, 2021. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Keith Faber Auditor of State Columbus, Ohio

SCHEDULE OF FINDINGS 2 CFR § 200.515 JUNE 30, 2020 (Continued)

4. OTHER - FINDING FOR RECOVERY

In addition, we identified the following issue related to a Finding for Recovery. This issue does not impact our GAGAS or Single Audit Compliance and Controls reports.

FINDING NUMBER 2020-001

Finding for Recovery – Prohibited Political Activity

Ohio Rev. Code § 3315.07(C)(1) states: "Except as otherwise provided in division (C)(2) of this section, no board of education shall use public funds to support or oppose the passage of a school levy or bond issue or to compensate any school district employee for time spent on any activity intended to influence the outcome of a school levy or bond election." Ohio Rev. Code § 9.03 (C)(1)(e) prohibits political subdivisions, including school districts, from, among other things, publishing, distributing, or otherwise communicating information that supports the passage of a levy or bond issue.

On November 5, 2019, the Board of Education approved an initial resolution of necessity to obtain certification from the County Auditor to place an additional 7.9 mill operating tax levy on the March 2020 primary ballot. On December 9, 2019, the Board of Education adopted the final resolution to place the question of the levy on the ballot.

The District entered into a consulting agreement dated October 1, 2019 with R Strategy Group (RSG) for the purpose of identifying a polling firm, negotiating a contract for polling services, drafting a public opinion poll directed at likely voters, and aiding in the analysis of data and research. Superintendent Kirby's job duties required that she oversee the business affairs of the District. Specifically, she was required to "oversee the District's business affairs" and "authorize the purchase of...services that are appropriate for the purposes and needs for the school system." The District agreed to pay RSG \$6,000 for these services and to reimburse \$28,675 to RSG for polling services conducted by Lake Research (Lake), totaling \$34,675. The payment was authorized by A. Scott Gainer, Treasurer.

The Superintendent approved the content of the illegal polling questions, of which several asked specifically about the District's proposed tax levy, including if the person being surveyed would vote in favor or against the levy, the specific reason for voting in favor or against the levy, asking about statements people were making about the levy and their opinion on the statements, and asking if there was a convincing reason to vote in favor of a levy. Further discussion and finalization of the illegal polling questions, as well as the actual polling, occurred subsequently to the Board's resolution requesting certification from the County Auditor on November 5, 2019. Lake also submitted a report to District employees/staff regarding the results of the survey, which was titled, "Findings Based on a Survey of 500 Likely March 2020 Primary Voters." The report indicated the sample of survey respondents were generated from a file of registered voters. Five of the six bullet points on the "Strategic Summary" section of the report contained references to voters and their opinions. An additional section of the report was devoted to "Dynamics of Support and Opposition to the Levy."

By utilizing RSG for services relating to the support of a levy campaign, the District made payments in violation of the above Ohio Rev. Code Sections.

CLEVELAND HEIGHTS-UNIVERSITY HEIGHTS CITY SCHOOL DISTRICT CUYAHOGA COUNTY

SCHEDULE OF FINDINGS 2 CFR § 200.515 JUNE 30, 2020 (Continued)

4. OTHER – FINDING FOR RECOVERY (Continued)

FINDING NUMBER 2020-001 (Continued)

Finding for Recovery – Prohibited Political Activity (Continued)

In accordance with the foregoing facts and pursuant to Ohio Rev. Code § 117.28, a Finding for Recovery for public monies illegally expended is hereby issued against R Strategy Group, Elizabeth Kirby, Superintendent, and A. Scott Gainer, Treasurer and his bonding company, Traveler's Casualty and Surety Company of America, jointly and severally, in the amount of \$34,675, and in favor of Cleveland Heights-University Heights City School District's General Fund.

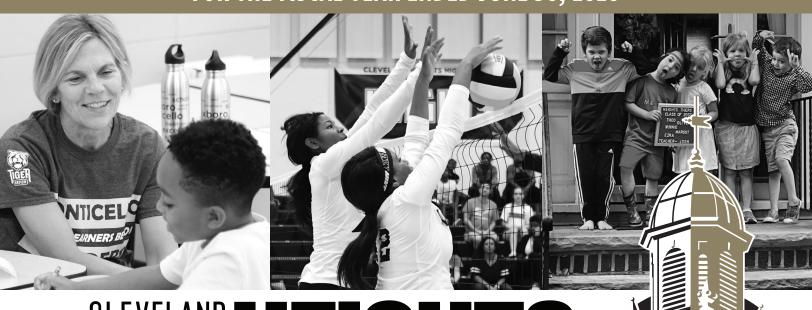

Officials' Response: We did not receive a response from Officials to this finding.

# INTRODUCTORY SECTION

CLEVELAND HEIGHTS
UNIVERSITY HEIGHTS

CITY SCHOOL DISTRICT

**UNIVERSITY HEIGHTS, OHIO** 

A. Scott Gainer Chief Financial Officer

January 29, 2021

Members of the Board of Education and Residents of the Cleveland Heights-University Heights City School District

Dear Board Members and Residents:

Ohio law (Ohio Administrative Code Section 117-2-03(B)) requires that all school districts file annual unaudited financial reports prepared on a GAAP (Generally Accepted Accounting Principles) basis with the Auditor of State within 150 days of the close of each fiscal year unless an extension is received. This report is published to fulfill that requirement for the fiscal year ended June 30, 2020.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that the District has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The Auditor of State of Ohio, Keith Faber, has issued an unmodified ("clean") opinion on the Cleveland Heights-University Heights City School District's financial statements for the year ended June 30, 2020. The Independent Auditor's Report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

### **Profile of the School District**

The Cleveland Heights-University Heights City School District is one of 613 school districts in the State of Ohio and one of 31 school districts in Cuyahoga County. The District provides education to 5,096 students in grades kindergarten through twelve. Additionally, the District provides preschool and adult education services. The District covers approximately 9.6 square miles, serving the cities of Cleveland Heights, University Heights and a small portion of South Euclid, and is located approximately ten miles southeast of downtown Cleveland.

Highli	ghts of the history of the Cleveland Heights-University Heights City School District are as follows:
1901	East Cleveland Township School Board formed (included the hamlet of Cleveland Heights)
1902	Passed issue to build Lee Road School
1903	Cleveland Heights became a village
1904	District renamed Cleveland Heights School District
1905	Expansion of Lee Road School
1906	Roxboro Elementary School built
1907	First graduation at Heights High
1916	Fairfax Elementary School built
1916	New high school built on Lee Road site
1919	Coventry Elementary School built
1922	Noble Elementary School built
1923	Taylor Elementary School built
1924	Boulevard Elementary School built
1925	Oxford Elementary School built
1926	New high school at Cedar and Lee Roads built
1926	Roosevelt Junior High School built
1926	Roxboro Junior High School built
1927	Canterbury Elementary School built
1929	Superior Opportunity School built
1930	Monticello Junior High School built
1942	District became Cleveland Heights-University Heights City School District
1948	Northwood Elementary School built
1949	Belvoir Elementary School built
1953	Millikin Elementary School built
1954	Wiley Junior High School built

- 1964 Board Administration Building opened
- 1972 Bond issue to construct new Coventry, Boulevard, Fairfax, and Taylor school buildings
- 1987 Northwood Elementary School sold
- 1993 Belvoir School renamed Lauree P. Gearity Elementary School
- 2008 Coventry Elementary School closed
- 2013 Wiley Middle School closed
- 2017 High School reopened after renovation

# **Local Economy**

The District serves approximately 46,000 residents of the City of Cleveland Heights and approximately 13,500 residents of the City of University Heights, both inner-ring suburbs of the City of Cleveland. Both communities are primarily residential in nature, with a diverse base of residents. The proximity and easy access of the cities to major cultural, educational, and medical facilities in northeast Ohio typically contributes to climbing property values, a key indicator of a community's economic health and stability where the primary "industry" is housing, although both communities have experienced a significant number of home foreclosures.

State funding of schools continues to change with each biennial budget. In the short-term, State funding to the District has been reduced due to the COVID-19 pandemic. In response to these decreases, the District has engaged in ongoing operating reductions. The District successfully passed a 6.9 mill operating levy in November, 2011 and a 5.5 mill operating levy in November, 2016, and a 4.8 mill operating levy in November, 2020.

### **Economic Condition and Outlook**

The cities of Cleveland Heights and University Heights are primarily residential. It is expected that tax collections will remain relatively constant for the foreseeable future. Student enrollment for the 2011 school year was 5,870. Enrollment for the 2020 school year was 5,096. In addition to uncertain operating costs due to the COVID-19 pandemic, the District has seen significant losses in State funding due to the EdChoice voucher program, which diverts funding from designated public schools for students to attend private schools. The District lost \$7.1 million to these vouchers during the fiscal year, and this number is expected to grow to \$9.2 million in fiscal year 2021.

# **Long-Term Financial Planning**

Financial Highlights - Internal Service Fund - The only internal service fund carried on the financial records of the District is related to the self-insurance fund. This fund accounts for the revenues and expenses related to the provision of medical programs. The internal service funds had a net position of \$5,477,712 at June 30, 2020 compared with a net position of \$4,556,161 at June 30, 2019. The District is meeting its claim liability.

The most recent District five-year forecast indicates a positive cash balance through 2022, with a \$2.4 million deficit beginning in 2023. To compensate for declining property tax revenue and losses from vouchers, the District is continuing to pursue various cost-containment and cost-savings strategies. The District entered into the Expedited Local Partnership Program with the Ohio School Facilities Commission to have a complete evaluation of facilities done in an effort to streamline operations and enhance delivery of instruction and successfully passed a bond issue in November of 2013.

As indicated previously, the District also successfully passed a 6.9 mill operating levy in November 2011 a 5.5 mill operating levy in November 2016, and a 4.8 mill operating levy in November 2020.

### **Relevant Financial Policies**

Statutorily, the District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code, to provide educational services prescribed by State and/or Federal agencies. The Board of Education is made up of five members elected at large, for overlapping four-year terms. The Board of Education elects its President and Vice President annually and appoints two officials: the Superintendent, who serves as the Chief Executive Officer, and the Treasurer, who serves as Chief Financial Officer. A complete organizational chart is included in this Introductory Section.

In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments, and organizations making up the District (the primary government) and its potential component units. Excluded from the reporting entity, because they are fiscally independent of the District, are the City of Cleveland Heights, the City of University Heights, the Parent-teacher Organization, and the parochial and private schools operating within the boundaries of the District.

The District is associated with two organizations, the Ohio Schools' Council and the Cleveland Heights-University Heights Public Library. The Ohio Schools' Council is a jointly governed organization whose relationship to the District is described in Note 16 to the accompanying financial statements. The Cleveland Heights-University Heights Public Library is a related organization and is described in Note 20 to the accompanying financial statements.

A complete discussion of the District's reporting entity is provided in Note 1 of the accompanying financial statements.

The District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Reports from governmental operations are presented on the modified accrual basis whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. Reports of the District's proprietary operations are presented on the accrual basis whereby revenues are recognized when earned and expenses when incurred.

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts a temporary appropriation measure for that fiscal year. By statute, permanent appropriations must be adopted upon receipt from the County Fiscal Officer of an amended certificate of estimated resources based on final assessed values and tax rates. The District adopts the permanent appropriation measure in September.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Fiscal Officer must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates. All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level. All purchase order requests must be approved by the site administrator or central office administrator and be certified by the Treasurer; necessary funds are then encumbered and purchase orders released to the vendors. Those requests, which exceed the available appropriations, are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. On-line inquiry of account balances is available to all budget managers. As an additional safeguard, all employees are covered by a blanket bond and certain individuals in policy making roles are covered by a separate higher limit bond.

The District has a comprehensive cash management program, which consists of expediting receipt of revenues and prudently depositing and investing available cash balances. The available cash of the District's individual funds is combined into a single cash pool and invested according to cash flow projections. The District invests in Money Markets, Negotiable Certificates of Deposit, Government Securities, Commercial Paper and STAR Ohio, an investment pool operated by the Treasurer of the State of Ohio. Interest earned on investments is distributed in accordance with Board of Education authorization. During fiscal year 2020, the District earned \$1,149,119 in investment income of which \$887,131 was credited to the General Fund.

The basis of accounting and the various funds utilized by the District are fully described in Note 1 to the financial statements. Additional information on the District's budgetary accounting can also be found in Notes 1 and 3.

# **Major Initiatives**

The District continues progress on the master facilities plan. The high school was reopened for the 2017-2018 school year. The two middle schools were renovated and reopened for the 2019-2020 school year. The District also recently began a five-year strategic plan refresh, with five goals in the areas of 1) student outcomes, 2) educational approach, 3) parent & community engagement/partnerships/communication, 4) valued professionals & culture of excellence, and 5) operational resources – finances/technology/facilities.

The Board and administration continue to be committed to ongoing fiscal responsibility and accountability, continuing to pursue various cost-containment and cost-savings strategies.

# Awards and Acknowledgements

### Awards

The District was awarded the Government Finance Officers Association in the United States and Canada (GFOA) Certificate of Achievement for Excellence in Financial Reporting (CAFR) for its comprehensive annual financial report for the fiscal year ended June 30, 2019.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

The District has determined that it will apply for the Certificate of Achievement for Excellence in Financial Reporting for its comprehensive annual financial report for the fiscal year June 30, 2020.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The Association of School Business Officials International also awarded a Certificate of Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report for the year ended June 30, 2019. The Association's Panel of Review judged that the District's report substantially conforms to principles and standards of ASBO's Certificate of Excellence Program. This certificate is awarded upon recommendation of the Association's Panel of Review and is valid for a period of one year only.

# Acknowledgements

The publication of the Comprehensive Annual Financial Report enhances the District's accountability to the citizens of the District. The preparation of this report would not have been possible without the assistance and support of the staff of the Treasurer's Office and numerous other District staff members. Our appreciation is also expressed to the firm of Ciuni & Panichi, Inc. for their assistance in preparing this financial report.

Respectfully submitted,

A. Scott Gainer

Chief Financial Officer

Elizabeth Kirby Superintendent

#### INDEPENDENT AUDITOR'S REPORT

Cleveland Heights-University Heights City School District Cuyahoga County 2155 Miramar Boulevard University Heights, Ohio 44118

To the Board of Education:

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the major fund, and the aggregate remaining fund information of the Cleveland Heights-University Heights City School District, Cuyahoga County, Ohio (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Efficient • Effective • Transparent

Cleveland Heights-University Heights City School District Cuyahoga County Independent Auditor's Report Page 2

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the major fund, and the aggregate remaining fund information of the District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### Emphasis of Matter

As discussed in Note 22 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. We did not modify our opinion regarding this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Cleveland Heights-University Heights City School District Cuyahoga County Independent Auditor's Report Page 3

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we will also issue our report dated January 29, 2021, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio

January 29, 2021

Management's Discussion & Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2020

Our discussion and analysis of the Cleveland Heights-University Heights City School District's (the "District") financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the transmittal letter, notes to the basic financial statements and the basic financial statements to enhance their understanding of the District's financial performance.

#### **Financial Highlights**

Key financial highlights for 2020 are as follows:

- In total, net position decreased \$19,451,735. Net position of governmental activities decreased \$20,391,786 from 2019. Net position of business-type activities increased \$940,051 from 2019.
- For governmental activities, general revenues accounted for \$110,862,355, or 88% of all revenues. Program specific revenues in the form of charges for services and grants accounted for \$14,428,073 of total revenues of \$125,290,428.
- The District had \$145,681,632 in expenses related to governmental activities; only \$14,428,073 of these expenses was offset by program specific charges for services and grants. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$110,862,355 which were unable to provide for these programs resulting in a decrease of net position from \$(38,691,950) to \$(59,083,736).
- Governmental activities expenses increased approximately 21% from the prior year due to GASB 68 and GASB 75. Instructional expenses made up 57% of total governmental activities expenses while support services account for 35%. Other expenses rounded out the remaining 8%.
- The District had \$2,368,995 in expenses related to business-type activities; a total of \$3,308,464 was offset by program specific charges for services and grants, which were able to provide for these programs, resulting in an increase of net position from \$(1,695,019) to \$(754,968).
- The District's major governmental fund is the General Fund. The General Fund had \$106,710,028 in revenues and other financing sources and \$118,596,125 in expenditures and other financing uses. The General Fund balance decreased \$11,886,097, from \$23,147,745 to \$11,261,648.

Management's Discussion & Analysis (Unaudited) (continued)

For the Fiscal Year Ended June 30, 2020

## Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a whole, and then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the General Fund is by far the most significant fund and is reported as a major fund.

#### Reporting the School District as a Whole

#### The Statement of Net Position and Statement of Activities

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a manner that helps to answer this question. These statements include all assets and deferred outflows of resources and liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by private sector corporations. All of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the District's net position and changes in it. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors. In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. Governmental activities are the activities where most of the District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation, and extracurricular activities.

#### Reporting the School District's Most Significant Funds

#### Fund Financial Statements

The analysis of the District's major governmental funds begins on page 13. The governmental fund financial statements begin on page 24 and provide detailed information about the major governmental funds and nonmajor governmental funds – not the District as a whole. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's three types of funds, governmental, proprietary and fiduciary, use different accounting approaches as further described in the notes to the financial statements. The District's major governmental fund is the General Fund.

Management's Discussion & Analysis (Unaudited) (continued)

For the Fiscal Year Ended June 30, 2020

#### **Governmental Funds**

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or less financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

#### **Proprietary Funds**

Proprietary funds use the accrual basis of accounting, the same as on the government-wide statements; therefore, the statements will essentially match the business-type activities portion of the government-wide statements.

#### Fiduciary Funds

The District acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in an agency fund. The District's fiduciary activities are reported in a separate statement on page 36. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Management's Discussion & Analysis (Unaudited) (continued)

For the Fiscal Year Ended June 30, 2020

#### The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the District as a whole. The table below provides a summary of the District's net position for 2020 and 2019.

#### **Net Position**

	<u>-</u>	Governmental Activities 2020	Business-Type Activities 2020	Governmental Activities 2019	Business-Type Activities 2019
Assets:

Restricted		11,176,591	2,72,701	16,344,070	-
Unrestricted (deficit)		(97,209,235)	(1,047,429)	(79,946,850)	(1,841,431)
Total net position (deficit)	\$	(59,083,736)	(754,968)	\$ (38,691,950)	\$ (1,695,019)

The District follows Governmental Accounting Standards Board (GASB) Statement 68, Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement 27 and GASB Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which significantly revises accounting for costs and liabilities related to pensions and other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and net OPEB asset.

Management's Discussion & Analysis (Unaudited) (continued)

For the Fiscal Year Ended June 30, 2020

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e., sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability/asset, respectively, not accounted for as deferred inflows/outflows.

Management's Discussion & Analysis (Unaudited) (continued)

For the Fiscal Year Ended June 30, 2020

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2020, the District's liabilities and deferred inflows of resources exceeded the assets and deferred outflows of resources by \$59,838,704. During fiscal year 2020, the District's net position decreased \$19,451,735. The main reason for the deficit net position is a result of the District recording the activity related to GASB 68 and GASB 75. As of June 30, 2020, there is no expectation that the District will be required to increase pension or OPEB funding to cover the net pension or OPEB liabilities.

Total assets decreased by \$21,109,676 primary due to decreases in cash and cash equivalents due to debt payments and permanent improvement and building repairs and maintenance.

Net investment in capital assets for governmental activities reported on the government-wide statements was \$26,948,908 for fiscal year 2020. Capital assets include land, construction in progress, buildings and improvements, furniture, fixtures and equipment and vehicles, and are used to provide services to students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's governmental activities net position, \$11,176,591, represents resources that are subject to external restrictions on how the funds may be used. Of the total restricted governmental activities net position, \$10,414,429 is restricted for capital projects, and \$762,162 is restricted for other purposes. The remaining balance of governmental activities net position \$(97,209,235) is an unrestricted amount available to meet the District's ongoing obligations to students and staff. The negative net position is the result of the net pension/OPEB liability recorded in the current year.

Management's Discussion & Analysis (Unaudited) (continued)

For the Fiscal Year Ended June 30, 2020

#### Effects of GASB 68

Under GASB 68, pension expense represents additional amounts earned based on a proportionate share of the net pension liability adjusted by a corresponding proportionate share of deferred outflows and inflows. Under GASB 68, the pension expense for 2020 is \$14,825,837, while in 2019 pension expense was \$7,485,765. The District was required to contribute \$8,938,628 and \$8,764,848 during 2020 and 2019, respectively.

#### Effects of GASB 75

Under GASB 75, OPEB expense represents additional amounts earned based on a proportionate share of the net OPEB liability adjusted by a corresponding proportionate share of deferred outflows and inflows. Under GASB 75, the OPEB expense for 2020 is \$(2,352,445), while in 2019 OPEB expense was \$(14,324,203). The District was required to contribute \$162,419 and \$298,453 during 2020 and 2019, respectively.

#### Governmental Activities

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by the levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home was reappraised and its value was increased to \$200,000 (and this inflationary increase in value is comparable to other property owners), the effective tax rate would become 0.5 mills and the owner would still pay \$35.00. Thus, school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to voters to maintain a constant level of service. Property taxes made up 60% of total governmental activities revenues for the District in fiscal year 2020.

Instruction and support services comprise 92% of governmental program expenses. The operation of non-instructional services and interest expense make up the remaining 8% of governmental program expenses. Interest expense was attributable to the outstanding bonds and other borrowings for capital projects. Overall, governmental program expenses increased approximately \$24.8 million which was mainly due to an increase in pension (\$7.3 million) and an increase in OPEB (\$12.0 million) expenses. Regular and special education costs were the most affected as these costs increased \$20.8 million in fiscal year 2020.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services for 2020 and 2019. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

Management's Discussion & Analysis (Unaudited) (continued)

**Governmental Activities** 

The dependence upon tax revenues during fiscal year 2020 for governmental activities is apparent.

1,673,243

145,681,632

1,595,833

131,253,559

#### **Business-Type Activities**

Business-type activities include food service operation, uniform school supplies, and customer services. These programs had revenues and other sources of \$3,309,046 and expenses of \$2,368,995 for fiscal year 2020. This resulted in an increase to net position for the fiscal year of \$940,051.

#### The School District's Funds

Other non-instructional services

Extracurricular activities

Interest and fiscal charges

Total program expenses

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current year, the District's governmental funds reported combined ending fund balances of \$24,061,270, a decrease of \$23,730,953 in comparison with the prior year. Of this total amount, \$(468,738), constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of the fund balance is not available for new spending because it is restricted by external parties, \$13,268,360; has already been assigned, \$10,677,597; or is in a nonspendable form, \$584,051.

The General Fund is the chief operating fund of the District. The District's General Fund balance decreased by \$11,886,097 in fiscal year 2020 due to a decrease in tax and intergovernmental revenues of \$7.4 million.

Management's Discussion & Analysis (Unaudited) (continued)

For the Fiscal Year Ended June 30, 2020

	2020	2019	Percentage
Revenues	Amount	Amount	Change
Taxes	\$ 68,003,667	\$ 73,516,536	(7)%
Interest earnings	887,131	1,220,197	(27)%
Intergovernmental	30,524,069	32,394,514	(6)%
Other revenue and financing			. ,
sources	7,295,161	4,816,491	51%
Total	\$ 106,710,028	\$ 111.947.738	

The table that follows assists in illustrating the expenses of the General Fund.

	2020	2020 2019	
Expenditures by Function	Amount	Amount	Change
Instruction	\$ 76,640,481	\$ 73,071,552	5%
Support services	40,351,989	41,777,941	(3)%
Food service operations	272	284	(4)%
Other non-instructional			
services	30,418	34,817	(13)%
Extracurricular activities	1,170,753	1,211,897	(3)%
Debt service	111,035	118,271	(6)%
Transfers - out	<u>291,177</u>	243,322	20%
Total	\$ <u>118,596,125</u>	\$ <u>116,458,084</u>	

Overall, expenses in the General Fund are up 2% from 2019. The main factors resulting in this fluctuation is an increase in instruction services during 2020.

The fund balance of the other governmental funds decreased \$11,844,856 to \$12,799,622 during the year ended June 30, 2020. The largest expense is for debt service related to payments on the debt taken out to fund the master facilities project.

#### **Proprietary Funds**

The District's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Other factors concerning the finances of these funds have already been addressed in the discussion of the District's business-type activities.

#### General Fund Budget Information

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. During the course of fiscal year 2020, the District amended its budget to reflect the fluctuations of actual revenues received/collected. The District uses a modified site-based budgeting technique which is designed to tightly control site budgets but provide flexibility for site management.

Management's Discussion & Analysis (Unaudited) (continued)

For the Fiscal Year Ended June 30, 2020

The District's General Fund budget was prepared and approved at the fund level for fiscal year 2020. During the course of fiscal year 2020, the total budget was changed multiple times. For the General Fund, final budgeted revenues and other financing sources were \$110,497,690, or \$2,075,475 lower than the original budget. Actual revenues and other financing sources for fiscal year 2020 were \$116,929,784. Actual differed from the final budget mainly due to higher than anticipated collection of taxes and intergovernmental revenue. General Fund original appropriations and other financing uses were \$124,576,349. There was no change to the final budget, which remained at \$124,576,349. The actual expenditures and other financing uses for fiscal year 2020 totaled \$119,785,553, which was \$4,790,796 less than the final budget appropriations. Actual differed from final budget due to lower than anticipated costs associated with regular instruction.

#### **Capital Assets**

The District had \$179,991,782 invested in capital assets net of depreciation, with \$179,699,321 attributed to government activities. Net acquisition for governmental activities totaled \$5,206,964 and depreciation was \$5,162,544. The majority of the additions were for construction in progress related to building renovations and improvements. Detailed information regarding capital asset activities is included in the notes to the basic financial statements (Note 9).

#### **Debt**

At June 30, 2020, the District has \$148,938,673 in outstanding long-term bond debt and of this amount \$1,388,259 is due within one year. The District paid \$6,329,207 in principal on bonds outstanding. The District also has \$18,030,987 of certificates of participation outstanding at June 30, 2020 and of this amount \$480,000 is due within one year. The District has capital leases of \$176,079 outstanding at June 30, 2020, with \$92,131 due within one year. Detailed information regarding long-term debt activity and capital lease obligations activity is included in the notes to the basic financial statements (Notes 14 and 15, respectively).

#### **Economic Factors**

The Board of Education and the administration closely monitor District revenues and expenditures in accordance with its financial forecast. The financial future of the District is not without its challenges. These challenges stem from issues that are local and at the state level. At the local level, the taxpayers must approve additional levies to pay for unfunded mandates as well as continue the programs residents have come to expect as normal operations. At the state level, funding reductions due to the current pandemic and continued expansion of voucher deductions negatively impact operations and require additional budget cuts in the organization to compensate for these losses.

The District is dependent on local taxpayers. The District passed a 6.9 mill operating levy in 2011, a 5.5 mill operating levy in 2016, and a 4.8 mill operating levy in 2020. The Board of Education and administration of the District continue to exercise careful financial planning and prudent fiscal management in order to preserve the financial stability of the District, including closing an elementary school at the end of fiscal year 2007 as well as closing a middle school at the end of fiscal year 2013. The District continues to streamline operations and annually identifies potential budget reductions and opportunities to operate efficiently and effectively.

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities

			24.061.270
Total governmental funds balances		\$	24,061,270
Amounts reported for governmental activities in the Statement of Net Position are different because:			
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.			179,699,321
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred inflows of resources in the funds.			
Property and other taxes	\$	16,619,099	
Investment earnings		19,443	
Tuition		1,470,467	
Grants	_	798,374	
Total			18,907,383
Internal service funds are used by management to charge the costs of certain activities,			
such as insurance to individual funds. The assets and liabilities of the internal service			
funds are included in governmental activities in the Statement of Net Position.			5,477,712
In the government-wide financial statements, interest is accrued on outstanding debt,			
whereas in governmental funds, an interest expenditure is reported when due.			(611,492
The net pension liability and net OPEB liability/asset are not due in the current period; therefore, the liability/asset and related deferred inflows/outflows are not reported in governmental funds:			
Net OPEB asset		6,684,587	
Deferred outflows – pension		21,480,533	
Deferred inflows – pension		(11,500,905)

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

	For the Fiscal	Year Ended	June 30,	2020
--	----------------	------------	----------	------

For the Fiscal Year Ended June 30, 2020			
Net change in fund balances – total governmental funds		\$	(23,730,953)
Amounts reported for governmental activities in the Statement of Activities are different because:			
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays and deprecation differed in the current period.			
Capital outlay Depreciation Total	\$ 5,206,964 (5,162,544		44,420
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.			
Delinquent property and other taxes Investment earnings Tuition Intergovernmental Total	(14,253 (39,763 (88,312 158,100	3) 2)	15,772
Other financing sources in the governmental funds that increase long-term liabilities in the Statement of Net Position.			
Capital lease			(67,635)
Repayment of bond and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.			6,901,548
Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The net revenue (expense) of the internal service funds are reported with governmental activities.			921,551

Continued

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities (continued)

For the Fiscal Year Ended June 30, 2020

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Compensated absences	(610,355)
Early retirement incentive	36,000
Amortization of premium and discount	324,617
Amortization of deferred loss on refunding	(255,651)
Accretion on capital appreciation bonds	(449,234)
Interest expense	2,727
Total	(951,896)

Contractually required contributions are reported as expenditures in governmental funds; however, the Statement of Net Position reports these amounts as deferred outflows.

Pension	8,885,599
OPEB	158,359_
Total	9,043,958

Except for amounts reported as deferred outflows/inflows, changes in net pension/OPEB liability are reported as pension/OPEB expense in the Statement of Activities.

Pension	(14,887,475)
OPEB	2,318,924
Total	(12,568,551)

Change in net position of governmental activities  $$\underline{(20,391,786)}$$

## **Note 1: Summary of Significant Accounting Policies**

#### A. Description of the School District and Reporting Entity

The Cleveland Heights-University Heights City School District (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District operates under a locally elected five-member Board form of government and provides educational services as mandated by state and/or federal agencies. The Board of Education (the "Board") controls the District's thirteen instructional/support facilities staffed by 451 classified employees, 437 certificated full-time teaching personnel and approximately 45 administrators who provide services to 5,096 students and other community members.

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities.

The following non-public schools operate within the District's boundaries: Beaumont High School, Chaviva High School, GESU School, Hebrew Academy of Cleveland, Lutheran East High School, Monarch School, Yeshiva Derech Hatorah, Ruffing Montessori, Reserve School, and Communion of Saints School. Current State legislation provides funding to these non-public schools. These monies are received and disbursed by the District on behalf of the non-public schools by the Treasurer of the District, as directed by the non-public schools. The activity of these monies by the District is reflected in a special revenue fund for financial reporting purposes.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and:

- 1. The District is able to significantly influence the programs or services performed or provided by the organization; or
- 2. The District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to the organization; or the District is obligated for the debt of the organization.

Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes. The District has no component units.

The District is associated with two organizations which are defined as a jointly governed organization and a related organization. The Ohio Schools' Council is a jointly governed organization and the Cleveland Heights-University Heights Library is a related organization. The jointly governed organization is presented in Note 16 and the related organization is presented in Note 20 to the basic financial statements.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

#### **Note 1: Summary of Significant Accounting Policies (continued)**

#### A. Description of the School District and Reporting Entity (continued)

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

## B. Fund Accounting

The District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental, proprietary and fiduciary.

Governmental Funds Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, liabilities and deferred inflows of resources is reported as fund balance. The following is the District's major governmental fund:

General Fund – The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

**Proprietary Funds** Proprietary funds focus on the determination of operating income/loss, changes in net position, financial position and cash flows and are classified as either enterprise or internal service.

*Enterprise Funds* – Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The District does not have any major enterprise funds. The enterprise funds of the District account for food services, uniform school supplies, and customer services.

Internal Service Fund – Internal service funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, or to other governmental units, on a cost-reimbursement basis. The internal service fund accounts for a self-insurance program that provides medical and dental benefits to employees.

**Fiduciary Funds** Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District has no trust funds.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 1:** Summary of Significant Accounting Policies (continued)

## B. Fund Accounting (continued)

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District maintains two agency funds. The first fund accounts for resources that belong to the student bodies of the various schools, accounting for sales and other revenue generating activities. The second fund accounts for activities related to high school tournaments held by the District for the Ohio High School Athletic Association.

#### C. Basis of Presentation

Government-wide Financial Statements The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements except for interfund services provided and used. The internal service fund operating activity is eliminated to avoid overstatement of revenues and expenses. The statements distinguish between governmental and business-type activities of the District.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function.

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

**Fund Financial Statements** Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented as a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 1:** Summary of Significant Accounting Policies (continued)

# C. Basis of Presentation (continued)

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The Statement of Cash Flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

## D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds and fiduciary funds also use the accrual basis of accounting.

**Revenues - Exchange and Non-Exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value to the resource provider in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6).

Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 1: Summary of Significant Accounting Policies (continued)**

## D. Basis of Accounting (continued)

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, grants, investment earnings, and tuition.

*Unearned Revenue* Unearned revenue represents amounts under the accrual and modified accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned. The District does not have any unearned revenue at June 30, 2020.

**Deferred Outflows/Inflows of Resources** In addition to assets, the financial statements that report net position may include a section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources are reported for deferred charges on refunding, pension and OPEB in the Statements of Net Position. The deferred outflows of resources related to pension and OPEB are explained in Note 11 and Note 12.

In addition to liabilities, the statements that report net position may include a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, payments in lieu of taxes, unavailable revenue, OPEB and pension. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2021 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period.

For the District, unavailable revenue includes delinquent property taxes, intergovernmental receivables, and investment income. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported in the Statements of Net Position (Note 11 and 12).

**Expenses/Expenditures** On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 1: Summary of Significant Accounting Policies (continued)**

# E. Budgets

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents are the tax budget, the appropriation resolution, and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate in effect at the time the final appropriations were passed.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be re-appropriated. Cash disbursements plus encumbrances may not legally exceed budgeted appropriations at the legal level of budgetary control for the fund.

## F. Cash and Cash Equivalents

Cash received by the District is pooled for investment purposes. Interest in the pool is presented as "equity in pooled cash and investments" on the financial statements. During fiscal year 2020, investments were limited to money market accounts, negotiable certificates of deposits, commercial paper, United States government securities and notes and State Treasury Asset Reserve of Ohio (STAR Ohio).

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as nonnegotiable certificates of deposits, commercial paper and repurchase agreements are reported at cost.

STAR Ohio, is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 1:** Summary of Significant Accounting Policies (continued)

# F. Cash and Cash Equivalents (continued)

For the fiscal year 2020, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$100 million, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2020 amounted to \$887,131. The amount allocated from the other funds during fiscal year 2020 amounted to \$353,203.

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

# G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2020, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the fiscal year in which services are consumed.

#### H. Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventories consist of donated food, purchased food and materials and supplies held for consumption.

# I. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide Statement of Net Position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value. The District maintains a capitalization threshold of \$5,000 for individual items. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also capitalized.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 1: Summary of Significant Accounting Policies (continued)**

## I. Capital Assets (continued)

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental	Business-Type
	Activities	Activities
Description	Estimated Lives	Estimated Lives
Land improvements	3 - 20 years	N/A
Buildings and improvements	10 - 99 years	N/A
Furniture and equipment	4 - 20 years	5 - 20 years
Vehicles	8 years	N/A

#### J. Interfund Transactions

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivable" or "interfund payable." These amounts are eliminated in the governmental and business-type activities columns of the Statement of Net Position, except for the net residual amounts due between governmental and business-type activities, which are presented as "internal balances."

Deferred inflows of resources and deferred outflows of resources from the change in internal proportionate share related to pension and OPEB items are eliminated in the total column of the entity wide Statement of Net Position.

# K. Compensated Absences

Vacation benefits are accrued as a liability in the government-wide and proprietary fund financial statements as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability in the government-wide and proprietary fund financial statements for accumulated unused vacation time when earned for all employees with more than one year of service and salary related payments, if applicable. Sick leave benefits are accrued as a liability using the termination payment method. An accrual in the government-wide and proprietary fund financial statements for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is an estimate based on the District's past experience of making termination payments. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### L. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 1: Summary of Significant Accounting Policies (continued)**

## L. Accrued Liabilities and Long-term Obligations (continued)

However, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current expendable available financial resources. In general, payments made more than sixty days after year end are considered not to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

#### M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

**Nonspendable:** The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

**Restricted:** Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed: The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be re-deployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the Board, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints are not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned: Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board or a District official delegated that authority by the District Board of Education. Through the District's purchasing policy, the Board has given the Treasurer the authority to constrain monies for intended purposes.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 1: Summary of Significant Accounting Policies (continued)**

## M. Fund Balance (continued)

*Unassigned:* Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

# N. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability/asset, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

#### O. Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those capital assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available. As of June 30, 2020, the District did not have net position restricted by enabling legislation.

#### P. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are sales for food service and uniform school supplies, collection of classroom fees and charges for services for self-insurance programs. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 1:** Summary of Significant Accounting Policies (continued)

## Q. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller's funds and as expenditures/expenses in the purchaser's funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements.

#### R. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

# **Note 2: Change in Accounting Principles**

# Newly Adopted Accounting Pronouncements

For fiscal year 2020, the District implemented the following Governmental Accounting Standards issued by the Governmental Accounting Standards Board (GASB):

GASB Statement No. 90, Majority Equity Interests, an amendment to GASB 14 and 61. This Statement modified previous guidance for reporting a government's equity interest in a legally separate organization. This Statement also provides guidance for reporting a component unit if a government acquires a 100% equity interest in the component unit. The implementation of this GASB pronouncement did not result in any changes to the District's financial statements.

GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. This Statement was issued in May 2020 and extends the effective dates of certain accounting and financial reporting provisions in Statements and Implementation Guides that were first effective for reporting periods beginning after June 15, 2018. The requirements of this Statement were effective immediately and implemented by the District.

GASB Implementation Guide No. 2018-1, *Implementation Guidance Update – 2018*, issued in May 2018, provides guidance that clarifies, explains or elaborates on GASB Statements. The requirements of this Implementation Guide apply to the financial statements of all state and local governments unless narrower applicability is specifically provided for in the pronouncement addressed by a question and answer. These changes were incorporated in the District's 2020 financial statements; however, there was no effect on beginning net position.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 2:** Change in Accounting Principles (continued)

## Newly Issued Accounting Pronouncements, Not Yet Adopted

GASB Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. Activities meeting the criteria should be reported in a fiduciary fund in the basic financial statements. GASB subsequently issued GASB Statement No. 95, which deferred the effective date of this standard to reporting periods beginning after December 15, 2019. The District has not yet determined the impact that this GASB pronouncement will have on its financial statements and disclosures.

GASB Implementation Guide No. 2019-2, *Fiduciary Activities*, issued in June 2019, provides guidance to address issues related to accounting and financial reporting for fiduciary activities in accordance with the requirements of GASB Statement No. 84. GASB subsequently issued GASB Statement No. 95, which deferred the effective date of this standard to reporting periods beginning after December 15, 2019. The District has not yet determined the impact that this GASB pronouncement will have on its financial statements and disclosures.

GASB Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. GASB subsequently issued GASB Statement No. 95, which deferred the effective date of this standard to reporting periods beginning after June 15, 2021. The District has not yet determined the impact that this GASB pronouncement will have on its financial statements and disclosures.

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, issued in June 2018, establishes guidance designed to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period by simplifying accounting for interest cost incurred before the end of a construction period. GASB subsequently issued GASB Statement No. 95, which deferred the effective date of this standard to reporting periods beginning after December 15, 2020. The District has not yet determined the impact that this GASB pronouncement will have on its financial statements and disclosures.

GASB Implementation Guide No. 2019-1, *Implementation Guide Update-2019* and GASB Implementation Guide No. 2019-3, *Leases*, effective dates were also deferred as a result of GABS Statement No. 95. The effective date of these implementation guides are reporting periods beginning after June 15, 2020 and June 15, 2021, respectively. The District has not yet determined the impact that these implementation guides will have on its financial statements and disclosures.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

#### **Note 3:** Budgetary Basis of Accounting

While the District is reporting financial position, results of operations, and changes in fund balances on the basis of GAAP, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

The Statement of Revenues, Expenditures and Changes in Fund Balances – Budget (Non-GAAP) and Actual presented for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 3. Advances in and advances out are operating transactions (budget) as opposed to balance sheet transactions (GAAP).
- 4. Budgetary revenues and expenditures of the Special Trust Fund and Public School Support Fund are classified to the General Fund for GAAP reporting.
- 5. Encumbrances are treated as expenditures (budget) rather than as an assignment of fund balance (GAAP).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

	_	General
GAAP basis	\$	(11,886,097)
Revenue accruals		7,960,540
Advances – in		2,412,300
Expenditure accruals		358,354
Advances – out		(108,745)
Encumbrances		(1,565,281)

the General Fund	_	(26,840)
Budget basis	\$ _	(2,855,769)

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

#### **Note 4: Fund Balances**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on a fund for the major governmental funds and all other governmental funds are presented below:

Fund	_	General	Nonmajor Governmental Funds	Gove	Cotal ernmental Eunds
Nonspendable:					
Inventory and prepaid items	\$ _	584,051	\$	\$	584,051
Restricted for:					
Community activities		=	116,347		116,347

#### **Note 5:** Deposits and Investments

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

## **Note 5:** Deposits and Investments (continued)

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury notes, bills, bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to payment of principal and interest by the United States:
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality, including but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities:
- 3. Written repurchase agreements in securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed two hundred and seventy days in an amount not to exceed forty percent of the interim monies available for investment at any one time; and
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held until maturity.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

## **Note 5:** Deposits and Investments (continued)

Investments may only be made through specified dealers and institutions. Payments for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

# **Deposits**

Custodial Credit Risk is the risk that in the event of bank failure, the District's deposits may not be returned to it.

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by:

Eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105% of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102% of the deposits being secured or a rate set by the Treasurer of State.

At year-end, the bank balance of the District's deposits was \$4,839,549. At year-end \$1,383,126 of the District's total bank balance was exposed to custodial credit risk because those deposits were uninsured and uncollateralized. One of the District's financial institution participates in the Ohio Pooled Collateral System (OPCS) and was approved for a reduced collateral floor of 50% resulting in the uninsured and uncollateralized balance. The District also has \$2,789 in petty cash on hand.

#### **Investments**

Investments are reported at fair value. As of June 30, 2020, the District had the following investments:

	Less Than				
_	Fair Value	1 Year	_	1-5 Years	
US Treasury Note \$	1,772,091	\$ 601,782	\$	1,170,309	
Federal Farm Credit Bank (FFCB)	758,663	-		758,663	
Federal National Mortgage Association (FNMA)	504,165	504,165		-	
Negotiable certificates of deposit	5,607,038	4,319,324		1,287,714	
Money market	20,109	20,109		-	
Commercial paper	1,619,292	1,619,292		-	
STAR Ohio	22,398,530	22,398,530	_		
Total portfolio \$ _	32,679,888	\$ <u>29,463,202</u>	\$	3,216,686	

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

## **Note 5:** Deposits and Investments (continued)

## **Investments (continued)**

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2020:

- STAR Ohio is measured at amortized cost, which approximates fair value. At June 30, 2020, the average days to maturity was 41.5 days.
- FFCB and FNMA are measured based on Level 2 inputs, using matrix pricing.
- Negotiable certificates of deposit, US Treasury Note and commercial paper are measured based on Level 2 inputs, using matrix pricing.
- Money market is valued at amortized cost, which approximates fair value.

Interest Rate Risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The District's investment policy addresses interest rate risk requiring that the District's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments, thereby avoiding that need to sell securities on the open market prior to maturity and by investing operating funds primarily in short-term investments. The District investment policy also limits security purchases to those that mature within five years unless specifically matched to a specific cash flow.

Custodial Risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. All financial institutions and broker/dealers who desire to become qualified for investment transactions with the District must meet a set of prescribed standards and be periodically reviewed.

Credit Risk is addressed by the District's investment policy by the requirements that all investments are authorized by Ohio Revised Code and that portfolio be diversified both by types of investment and issuer. The Federal Farm Credit Bank bonds and Federal National Mortgage Association bonds all carry a rating of AA+ by Standard and Poor's. The commercial paper carries a rating of A1 by Standard and Poor's. STAR Ohio carries a rating AAAm by Standard & Poor's and the money market and US Treasury Note carries a rating of AAA by Standard & Poor's. The negotiable certificates of deposit are unrated.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

## **Note 5:** Deposits and Investments (continued)

#### **Investments (continued)**

**Concentration of Credit Risk** is defined by the Governmental Accounting Standards Board as five percent or more in the securities of a single issuer. The District's investment policy requires that no more than twenty-five percent of the District's interim monies shall be invested in either commercial paper notes or bankers' acceptances. The following is the District's allocation as of June 30, 2020:

	Percentage of
Investment Issuer	<u>Investments</u>
US Treasury Note	5.4%
Federal Farm Credit Bank	2.3
Federal National Mortgage Association	1.5
Money market	0.1
Negotiable certificates of deposit	17.2
Commercial paper	5.0
STAR Ohio	68.5

## **Note 6:** Property Taxes

Property taxes are levied and assessed on a calendar year basis while the District's fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar year 2020 represents collections of calendar year 2019 taxes. Real property taxes received in calendar year 2020 were levied after April 1, 2019, on the assessed value listed as of January 1, 2019, the lien date. Assessed values for real property taxes are established by State law at 35% of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2020 represents collections of calendar year 2019 taxes. Public utility real and tangible personal property taxes received in calendar year 2019 became a lien December 31, 2018, were levied after April 1, 2019 and are collected in 2020 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The Cuyahoga County Fiscal Officer collects property taxes on behalf of the District. The County Fiscal Officer periodically advances to the District its portion of the taxes collected. These tax "advances" are based on three-year historical cash flow collection rates and occur eight times annually. Second-half real property tax payments collected by the county by June 30, 2020, are available to finance fiscal year 2020 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 6:** Property Taxes (continued)

Accrued property taxes receivable represents delinquent taxes outstanding and real property, public utility property, and tangible personal property taxes, which became measurable as of June 30, 2020 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the delayed settlement of personal property tax and the amount available as an advance at June 30 were levied to finance current fiscal year operations, which is recognized as revenue. The receivable is therefore offset by a credit to deferred inflows of resources for that portion not levied to finance current year operations. The amount available as an advance at June 30, 2020 was \$5,819,264 for the General Fund, \$455,353 in the Bond Retirement Fund, and \$260,039 in the Permanent Improvement Fund.

The assessed values upon which the fiscal year 2020 taxes were collected are:

	2019		2020			
	Second-Half C	olle	ctions	First- Half Collections		
	Amount	_	Percent	Amount	_	Percent
Agricultural/residential						
and other real estate	\$ 1,092,297,090		98.08% \$	1,082,425,570		97.86%
Public utility	21,381,610	_	1.92	23,613,970	_	2.14
	\$ 1,113,678,700	_	<u>100.00</u> % \$	1,106,039,540	_	<u>100.00</u> %
Tax rate per \$1,000 of						
assessed valuation		\$	154.20		\$	153.60

#### **Note 7: Interfund Transactions**

#### **Interfund Balances**

Interfund transactions for the year ended June 30, 2020 consisted of the following:

Interfund Receivable	Interfund Payable	_	Amount
General Fund	Nonmajor Governmental Funds	\$	324,958

All balances resulted from a time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, or (3) payments between funds are made. As of June 30, 2020, all interfund loans outstanding are anticipated to be repaid during fiscal year 2021.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

## **Note 7: Interfund Transactions (continued)**

#### **Interfund Transfers**

Interfund transfers for the year ended June 30, 2020, consisted of the following:

	_	<u>Transfers</u> – out					
		Nonmajor					
		General Governmental Total					
Transfers – in:							
General	\$	-	\$	13,025	\$	13,025	
Nonmajor governmental		290,595		-		290,595	
Nonmajor enterprise		582			_	582	
Total	\$ _	291,177	\$	13,025	\$ _	304,202	

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

#### **Internal Balances – Changes in Proportionate Share**

The District uses an internal proportionate share to allocate its net pension asset/liability, net OPEB asset/liability and corresponding deferred outflows/inflows of resources and pension and OPEB expense to its various funds. This allocation creates a change in internal proportionate share. The effects of the internal proportionate share are eliminated from the pension and OPEB deferred outflows/inflows of resources in the total column of the entity wide Statement of Net Position.

Eliminations made in the total column include a deferred outflow and a deferred inflow of resources in the amount of \$121,588 related to pension and \$101,523 related to OPEB.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 8:** Receivables

Receivables at June 30, 2020, consisted of taxes, accounts, tuition and intergovernmental grants and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs, and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables follows:

	Amount
Governmental activities:	
Tuition \$	1,470,467
Teachers Union	28,702
Educational Service Center of Northeast Ohio	24,171
Fuel reimbursement	6,286
Cuyahoga County	70,519
Casino tax	70,288
City of South Euclid	84,436
Early childhood education	10,021
Special education cluster	308,726
Carl D. Perkins grant	40,848
Title I grant	572,207
Title III grant	234
Title II-A grant	20,591
Miscellaneous federal grants	71,147
	2,778,643
Business-type activities:	
Department of Education	270,340
Total intergovernmental receivable \$	3,048,983

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 9:** Capital Assets

Capital asset activity for the fiscal year ended June 30, 2020, was as follows:

	Balance at 6/30/19	Additions	Disposals	Balance at 6/30/20
Governmental activities:

# Note 10: Risk Management

## A. Property and Liability

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year 2020, the District contracted with several companies for various types of insurance as follows:

Type of Coverage	Deductible/Limit of Coverage
Property Liability	\$1,000 deductible
	\$348,186,555 limit
Flood and Earthquake Limit	\$50,000 deductible
	\$2,000,000 limit (each)
Crime	\$1,000 deductible
	\$1,000,000 limit
General Liability/Employer's Liability	\$15,000,000 limit
	\$17,000,000 aggregate
Employee Benefits Liability	\$-0- deductible
	\$15,000,000 limit
Educators' Legal Liability	\$5,000 deductible
	\$15,000,000 limit/aggregate
Automobile Liability	\$15,000,000 limit

Settled claims have not exceeded this commercial coverage in any of the past three years.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

## **Note 10:** Risk Management (continued)

## **B.** Workers Compensation

The State of Ohio provides workers' compensation coverage. The District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

# C. Employee Medical Benefits

The District is self-insured for medical, dental, vision and prescription of District employees and their covered dependents. Under the program, the District is obligated for claim payments. Incurred but not reported claims of \$1,722,600 have been accrued in the Self-Insurance Internal Service Fund at June 30, 2020, based on an estimate from a third-party administrator. Individual funds are charged for medical expenses based on an estimate of total cost for the District as prepared by the plan administrator, and are recorded as revenues of the Self-Insurance Internal Service Fund.

The claims liability of \$1,722,600 reported in the Self-Insurance Internal Service Fund at June 30, 2020, is based on an estimate provided by the third-party administrator and the requirements of GASB No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Changes in the Self-Insurance Internal Service Fund's claims liability amount in 2018, 2019, and 2020 are as follows:

						Balance
		Beginning	Current	Claim		at End
	_	of Year	Year Claims	Payments	_	of Year
June 30, 2018	\$	1,794,500	\$ 17,841,271	\$ 17,843,971	\$	1,791,800
June 30, 2019		1,791,800	18,503,391	18,521,091		1,774,100
June 30, 2020		1,774,100	19,155,823	19,207,323		1,722,600

#### **Note 11: Pension Plans**

#### A. Net Pension/OPEB Liability (Asset)

The net pension/OPEB liability (asset) reported on the Statements of Net Position represent a liability (asset) to employees for pensions/OPEB. Pensions/OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions/OPEB are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions/OPEB is a present obligation because it was created as a result of employment exchanges that occurred in the past.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

#### **Note 11: Pension Plans (continued)**

# A. Net Pension/OPEB Liability (Asset) (continued)

The net pension/OPEB liabilities (assets) represents the District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB Statement No. 68 and 75 assumes the liability (asset) is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for OPEB benefits including primarily health care. In most cases, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium.

State statute requires the retirement systems to amortize unfunded pension/OPEB liabilities within 30 years. If the pension/OPEB amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension/OPEB liability on the accrual basis of accounting. Funded benefits is presented as a long-term net pension/OPEB asset. Any liability for the contractually-required contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 12 for the required OPEB disclosures.

#### B. Plan Description - School Employees Retirement System (SERS)

Plan Description – District non-teaching employees participate in SERS, a cost-sharing, multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, Medicare Part B premium reimbursements, and lump sum death benefits. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, standalone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

## **Note 11: Pension Plans (continued)**

## B. Plan Description - School Employees Retirement System (SERS) (continued)

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017*	Members attaining 25 years of service after August 1, 2017
Full benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially reduced benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit Age 60 with 25 years of service credit

^{*}Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2% for the first thirty years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5% and with a floor of 0.0%.

Funding Policy – Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10% for plan members and 14% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14.0% while the funding for Health Care Fund was 0.0%.

The District's contractually required contribution to SERS was \$2,121,141 for fiscal year 2020. Of this amount, \$116,874 is reported as intergovernmental payable.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

#### **Note 11: Pension Plans (continued)**

# C. Plan Description - State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS, a cost-sharing multiple-employer public employee retirement system. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be viewed by visiting www.strsoh.org or by requesting a copy by calling toll-free 888-227-7877.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined (CO) Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60. Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023 when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53% of the 14.00% employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47% of the 14.00% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The CO Plan offers features of both the DB Plan and the DC Plan. In the CO Plan, 12% of the 14% member rate goes to the DC Plan and 2% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the CO Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC plan or CO Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's CO Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS therefore has included all three plan options in the GASB 68 schedules of employer allocations and pension amounts by employer.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

#### **Note 11: Pension Plans (continued)**

# C. Plan Description - State Teachers Retirement System (STRS) (continued)

A DB or CO Plan member with five or more years of credited service, who is determined to be disabled, may qualify for a disability benefit. New members must have at least 10 years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC or CO Plans.

Administrative Expenses – The costs of administering the DB and postemployment health care plans are financed by investment income. The administrative costs of the DC Plan are financed by participant fees.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2020 the employer rate was 14% and the plan members were also required to contribute 14% of covered salary.

The District's contractually required contribution to STRS was \$6,817,487 for fiscal year 2020. Of this amount, \$1,199,560 is reported as intergovernmental payable.

# D. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	_	STRS	_	Total
Proportion of net pension liability prior measurement date	0.420330%		0.403167%		
Proportion of net pension liability current measurement date	0.439391%	-	0.403600%		
Change in proportionate share	0.019061%	=	0.000433%		
Proportionate share of the net pension liability	\$ 26,289,534	\$	89,253,750	\$	115,543,284
Pension expense	\$ 3,073,802	\$	11,752,035	\$	14,825,837

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

#### **Note 11: Pension Plans (continued)**

# D. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Deferred outflows/inflows of resources represent the effect of changes in the net pension liability due to the difference between projected and actual investment earnings, differences between expected and actual actuarial experience, changes in assumptions and changes in the District's proportion of the collective net pension liability. The deferred outflows and deferred inflows are to be included in pension expense over current and future periods. The difference between projected and actual investment earnings is recognized in pension expense using a straight line method over a five year period beginning in the current year. Deferred outflows and deferred inflows resulting from changes in sources other than differences between projected and actual investment earnings are amortized over the average expected remaining service lives of all members (both active and inactive) using the straight line method. Employer contributions to the pension plan subsequent to the measurement date are also required to be reported as a deferred outflow of resources.

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	SERS	STRS	Total
Deferred outflows of resources Differences between expected and				
actual experience Change in assumptions	\$	666,644 -	\$ 726,674 10,484,576	\$ 1,393,318 10,484,576
Changes in proportionate share and difference between District contributions			10,101,670	10,101,070
and proportionate share of contributions		612,118	-	612,118
District contributions subsequent to the measurement date	_	2,121,141	6,817,487	8,938,628
Total deferred outflows of resources	\$ =	3,399,903	\$ 18,028,737	\$ 21,428,640
Deferred inflows of resources Changes in proportionate share and difference between District contributions				
and proportionate share of contributions	\$	738,680	\$ 5,738,262	\$ 6,476,942
Differences between expected and actual experience		-	386,362	386,362
Difference between projected and actual earnings on pension plan investments	-	337,458	4,362,240	4,699,698
Total deferred inflows of resources	\$_	1,076,138	\$ 10,486,864	\$ 11,563,002

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

#### **Note 11: Pension Plans (continued)**

# D. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The District reported \$8,938,628 as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	 SERS	STRS	Total
Fiscal Year Ending June 30:			
2021	\$ 414,624 \$	2,140,580 \$	2,555,204
2022	(380,922)	(1,069,469)	(1,450,391)
2023	(22,456)	(865,795)	(888,251)
2024	 191,378	519,070	710,448
Total	\$ 202,624 \$	<u>724,386</u> \$	927,010

## E. Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2135.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

## **Note 11: Pension Plans (continued)**

## E. Actuarial Assumptions - SERS (continued)

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019 are presented below:

Valuation date June 30, 2019

Actuarial cost method Entry age normal (level percent of payroll)

Actuarial Assumptions:

Investment rate of return 7.50%, net of investments expense

COLA or Ad Hoc COLA

2.50%, on or after April, 1 2018, COLA's for future retirees will be delayed for three years following commencement.

Future salary increases, including inflation 3.50% to 18.20%

Inflation 3.00%

For post-retirement mortality, the table used in evaluating allowances to be paid is the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, with 120% of male rates and 110% of female rates used. The RP-2000 Disabled Mortality Table with 90% for male rates and 100% for female rates set back five years is used for the period after disability retirement.

The most recent experience study was completed June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00%	0.50%
US equity	22.50	4.75
International equity	22.50	7.00
Fixed income	19.00	1.50
Private equity	10.00	8.00
Real assets	15.00	5.00
Multi-asset strategies	10.00	3.00
Total	100.00%	

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

#### **Note 11: Pension Plans (continued)**

## E. Actuarial Assumptions - SERS (continued)

**Discount Rate** The total pension liability was calculated using the discount rate of 7.50%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50%). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50%, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%), or one percentage point higher (8.50%) than the current rate.

	Current					
	1	1% Decrease		Discount Rate		1% Increase
	_	(6.50%)	_	(7.50%)		(8.50%)
District's proportionate share of the						, ,
net pension liability	\$	36,841,036	\$	26,289,534	\$	17,440,779

## F. Actuarial Assumptions - STRS

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	12.50% at age 20 to 2.50% at age 65
Payroll increase	3.00%
Investment rate of return	7.45%, net of investment expenses, including inflation
Discount rate of return	7.45%
Cost-of-living adjustments (COLA)	0.00% effective July 1, 2017

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rate between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

## **Note 11: Pension Plans (continued)**

## F. Actuarial Assumptions - STRS (continued)

Actuarial assumptions used in the June 30, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS's investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long Term Expected
Asset Class	Allocation**	Real Rate of Return*
Domestic equity	28.00%	7.35%
International equity	23.00	7.55
Alternatives	17.00	7.09
Fixed income	21.00	3.00
Real estate	10.00	6.00
Liquidity reserves	1.00	2.25
Total	100.00%	

^{* 10} year annualized geometric nominal returns include the real rate of return and inflation of 2.25%, and does not include investment expenses. Over a 30-year period, STRS's investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** The discount rate used to measure the total pension liability was 7.45% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments of 7.45% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2019.

^{**}Target weights will be phased in over a 24-month period concluding on July 1, 2019.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

## **Note 11: Pension Plans (continued)**

## F. Actuarial Assumptions - STRS (continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45%) or one-percentage-point higher (8.45%) than the current rate:

	Current					
		1% Decrease	]	Discount Rate		1% Increase
		(6.45%)	_	(7.45%)		(8.45%)
District's proportionate share of the						
net pension liability	\$	130,434,412	\$	89,253,750	\$	54,392,210

#### **Note 12: Defined Benefit OPEB Plans**

#### A. Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description – The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 12: Defined Benefit OPEB Plans (continued)**

## A. Plan Description - School Employees Retirement System (SERS) (continued)

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14.0% of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year ended June 30, 2020, 0.0% of covered payroll was made to health care. Active employee members do not contribute to the Health Care Plan. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year ended June 30, 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2.0% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2020, the District's surcharge obligation was \$162,419.

The surcharge, added to the allocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$162,419 for fiscal year 2020. Of this amount \$162,419 is reported as an intergovernmental payable.

# **B.** Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting <a href="https://www.strsoh.org">www.strsoh.org</a> or by calling (888) 227-7877.

Funding Policy — Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For the fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

# **Note 12: Defined Benefit OPEB Plans (continued)**

# C. OPEB Liabilities (Assets), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability (asset) used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability (asset) was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

		SERS		STRS	_	Total
Proportion of net OPEB liability/asset prior measurement date		0.428203%		0.403167%		
Proportion of net OPEB liability/asset current measurement date	_	0.440571%		0.403600%		
Change in proportionate share	_	0.012368%	_	0.000433%		
Proportionate share of the net OPEB liability	\$	11,079,440	\$	-	\$	11,079,440
Proportionate share of the net OPEB asset	\$	-	\$	6,684,587	\$	6,684,587
OPEB expense (reduction of expense)	\$	(21,469)	\$	(2,330,976)	\$	(2,352,445)

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	_	SERS	_	STRS	Total
<b>Deferred outflows of resources</b>					
Differences between expected and					
actual experience	\$	162,637	\$	606,006	\$ 768,643
Change in assumptions		809,227		140,509	949,736
Difference between projected and actual					
earnings on plan investments		26,595		-	26,595
Changes in proportionate share and					
difference between District contributions					
and proportionate share of contributions		259,038		2,496	261,534
District contributions subsequent to the					
measurement date	_	162,419	_		162,419
Total deferred outflows of resources	\$_	1,419,916	\$_	749,011	\$ 2,168,927

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 12: Defined Benefit OPEB Plans (continued)**

# C. OPEB Liabilities (Assets), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (continued)

	_	SERS	_	STRS	Total
Deferred inflows of resources					
Change in assumptions	\$	620,859	\$	7,328,866	\$ 7,949,725
Difference between expected and					
actual experience		2,434,077		340,086	2,774,163
Difference between projected and actual					
earnings on plan investments		-		419,841	419,841

### D. Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### Note 12: Defined Benefit OPEB Plans (continued)

### D. Actuarial Assumptions - SERS (continued)

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2019, are presented below:

Wage inflation	3.00%
Projected salary increases	3.50% to 18.20%, including inflation
Investment rate of return	7.50%
Municipal bond index rate:	
Measurement date	3.13%
Prior measurement date	3.62%
Single equivalent interest rate, net of plan investment	
expense, including price inflation	
Measurement date	3.22%
Prior measurement date	3.70%
Medical trend assumption	
Medicare	5.25% to 4.75%
Pre-Medicare	7.00% to 4.75%

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively.

The most recent experience study was completed for the five-year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 12: Defined Benefit OPEB Plans (continued)**

### D. Actuarial Assumptions - SERS (continued)

The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00%	0.50%
US equity	22.50	4.75
International equity	22.50	7.00
Fixed income	19.00	1.50
Private equity	10.00	8.00
Real assets	15.00	5.00
Multi-asset strategies	10.00	3.00
Total	100.00%	

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2019 was 3.22%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the State statute contribution rate of 1.50% of projected covered employee payroll each year, which includes a 1.50% payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2029. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2029 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13%, as of June 30, 2019 (i.e., municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.22%) and higher (4.22%) than the current discount rate (3.22%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1% point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

### E. Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2019 actuarial valuation are presented below:

Salary increases Payroll increases Investment rate of return Discount rate of return		at age 20 to 2.50% at age 65 3.00% estment expenses, including inflation 7.45%
Health care cost trends	<u>Initial</u>	<u>Ultimate</u>
1,10 0,10 0,1	£ 070/	4.000/
	• . •	
Medicare	4.93%	4.00%
Prescription drug		
Pre-Medicare	7.73%	4.00%
Medicare	9.62%	4.00%
Pre-Medicare	, , , • , •	

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 12: Defined Benefit OPEB Plans (continued)**

### E. Actuarial Assumptions - STRS (continued)

The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long Term Expected
Asset Class	Allocation**	Real Rate of Return*
Domestic equity	28.00%	7.35%
International equity	23.00	7.55
Alternatives	17.00	7.09
Fixed income	21.00	3.00
Real estate	10.00	6.00
Liquidity reserves	1.00	2.25
Total	100.00%	

^{* 10} year annualized geometric nominal returns include the real rate of return and inflation of 2.25%, and does not include investment expenses. Over a 30-year period, STRS's investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** The discount rate used to measure the total OPEB liability was 7.45% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on health care plan investments of 7.45% was used to measure the total OPEB liability as of June 30, 2019.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45%, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45%) or one percentage point higher (8.45%) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	Current							
	1	% Decrease	]	Discount Rate		1% Increase		
		(6.45%)	_	(7.45%)		(8.45%)		
District's proportionate share of the								
net OPEB asset	\$	5,703,964	\$	6,684,587	\$	7,509,062		

^{**} Target weights will be phased in over a 24-month period concluding on July 1, 2019.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 12: Defined Benefit OPEB Plans (continued)**

### E. Actuarial Assumptions - STRS (continued)

	Current								
	<u>1</u>	% Decrease		Trend Rate		1% Increase			
District's proportionate share of the									
net OPEB asset	\$	7,580,015	\$	6,684,587	\$	5,587,905			

Benefit Term Changes Since the Prior Measurement Date There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

### **Note 13:** Employee Benefits

### A. Compensated Absences

The criteria for determining vacation, personal leave, sick leave, and compensatory time components are derived from negotiated agreements and state laws. Classified employees and administrators earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Each employee earns sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated with no maximum. Upon retirement, payment is made for one-fourth of the first 360 days of total sick leave accumulation plus one-eighth the next 99 days. The entire compensated absence liability is reported on the government-wide financial statements.

### **B.** Early Retirement Incentive

The District offers employees participation in a Retirement Incentive Program. Participation is open to teachers who have been employed by the District for at least ten years and who opt to retire at the end of any school year and have been approved by STRS to receive retirement benefits other than disability retirement with thirty years or fewer of service credit.

Eligible employees must notify the Board of their intention to retire in writing, no later than March 1 of the year they intend to retire. Eligible employees who fulfill the above requirements will receive two equal lump sums of \$12,000, each to be paid as soon after June 30 as practicable in the year of retirement and the following year. Certain classified employees are also eligible to receive a retirement incentive.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 13:** Employee Benefits (continued)

### B. Early Retirement Incentive (continued)

The last installment of the 2018-2019 and the first installment of the 2019-2020 Retirement Incentive Programs were paid prior to June 30, 2020. These payments of \$180,000 were made from the General Fund.

The last installment of the 2019-2020 and the first installment of the 2020-2021 Retirement Incentive Programs will be paid starting in July 2020. These payments of \$204,000 will be made from the General Fund and are reported as a liability in the fund financial statements.

The last installment of the 2020-2021 Retirement Incentive Programs will be completed in July 2021. The payments of \$96,000 will be made from the General Fund and are reported on the government-wide financial statements.

The school improvement bonds will be paid from property taxes. Compensated absences will be paid from the General Fund and various other governmental and enterprise funds as they are paid. The District pays obligations related to employee compensation from the fund benefitting from their service.

During fiscal year 2004, the District was authorized to issue \$5.5 million in Qualified Zone Academy Bonds (QZAB) in accordance with Section 226 of the Taxpayer Relief Act of 1997 (Public Law 105-34), which was used for the rehabilitation and repair portions of the District's facilities. On April 2, 2004, the District issued the \$5.5 million QZAB that matured on April 25, 2020. The entire principal balance of \$5.5 million is due at maturity and the bonds do not bear interest. To satisfy escrow requirements of the program, the District placed \$2.5 million in an escrow account with a local bank. The entire principal balance of \$5.5 million was paid during fiscal year 2020.

During fiscal year 2013, the District issued \$6,750,000 in General Obligation (Unlimited Tax) Library Refunding Bonds for the purpose of refunding Library Improvement Bonds outstanding in order to take advantage of lower interest rates. The interest rates range from 2.00% to 2.25%.

The refunding bonds were sold at a premium of \$199,722. Proceeds and premium of \$6,949,722 and cash reserves of \$170,318 were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded portion of the certificates of participation. As a result, \$6,825,000 of the Series 2002 bonds is considered defeased and the liability for the refunded portion of these bonds has been removed from the District's financial statements. The refunded bonds were called and redeemed in full in December 2012.

On March 4, 2014, the District issued \$134,799,915 in General Obligation (Unlimited Tax) School Improvement Bonds for the purpose of constructing, renovating, remodeling, enlarging, furnishing, equipping and otherwise improving school district buildings and facilities and acquiring, improving and equipping sites for such buildings and facilities. The interest rates range from 1.5% to 19.85%.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 14:** Long - Term Liabilities (continued)

During fiscal year 2018, the District issued \$60,725,000 in General Obligation (Unlimited Tax) School Improvement Bonds for the purpose of partially refunding the 2014 General Obligation (Unlimited Tax) School Improvement Bonds outstanding. The interest rates range from 3.50% to 69.58%. The refunding bonds were sold at a premium of \$9,804,394 and resulted in a loss on refunding of \$8,692,122. Proceeds and premium of \$70,089,641 were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded portion of the Series 2014 bonds. As a result, \$60,725,000 of the Series 2014 bonds is considered defeased and the liability for the refunded portion of these bonds has been removed from the District's financial statements. As of June 30, 2020, the amount of defeased debt outstanding amounted to \$60,725,000. The District decreased its total debt service payments by \$4,936,339 as a result of the refunding. The District also incurred an economic gain (difference between the present value of the old and new debt service payments) of \$4,276,471.

On March 18, 2014 the District entered into a \$21,000,000 lease agreement with the Ohio School Building Leasing Corporation (the "Leasing Corporation") for facility upgrades. The lease is an annual lease subject to renewal for 31 years through December 1, 2043. The Leasing Corporation entered into an agreement with a trustee through which it assigned and transferred rights and interest under the lease to the Huntington National Bank as Trustee. The Trustee issued Certificates of Participation in the lease agreement enabling holders of the Certificates to receive a portion of the semi-annual lease payments. Proceeds from the issuance are mainly being used to make facility upgrades.

The obligation of the District under the lease and any subsequent lease renewal is subject to annual appropriation of the rental payments. Legal title of the facilities remains with the Leasing Corporation until all payments required under the lease have been made. At that time, title will transfer to the District. The annual principal and interest requirements are payable from proceeds from the permanent improvement tax levy. The Certificates of Participation are not a general obligation of the District but are payable only from appropriations in the Bond Retirement Fund by the District for annual lease payments.

The legal debt margin of the District as of June 30, 2020, was \$-0- with an unvoted debt margin of \$1,082,426.

Principal and interest requirements to retire general obligation bonds and library improvement bonds outstanding at June 30, 2020, are as follows:

### **Note 15:** Lease Obligations

The District has entered into capital leases for copier equipment. These leases meet the criteria of a capital lease. Governmental activities capital assets consisting of copier equipment have capital lease balances at June 30, 2020 in the amount of \$176,079. For the copier equipment, the present value of the future minimum payments at the time of acquisition was \$538,434 less accumulated depreciation, \$385,068. Principal payments for all of capital leases in the 2020 fiscal year totaled \$102,341. These amounts are reported as debt service principal expenditures of the General Fund.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 15:** Lease Obligations (continued)

The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the future minimum lease payments as of June 30, 2020:

	Capital
	Leases
2021	\$ 97,959
2022	32,358
2023	32,358
2024	16,512
2025	8,792
Total minimum lease payments	187,979
Less: amounts representing interest	(11,900)
Present value minimum capital lease payments	\$ 176,079

Amortization of capital leases is included in depreciation expense.

The District also has operating leases to assist with parking requirements and storage during the school facilities construction project that is ongoing.

The first lease is for a period of five years and requires monthly payments of \$2,200. This lease was extended for an additional three years in fiscal year 2019. The second lease is for a period of two years and requires monthly payments of \$4,250. The following is a schedule of the future minimum lease payments required under the operating leases at year-end:

	(	Operating
	_	Leases
2021	\$	26,400
2022		26,400
2023		8,800
Total minimum lease payments	\$	61,600

Rent expense related to the operating leases totaled \$56,150 for the year ended June 30, 2020.

### **Note 16:** Jointly Governed Organization

The Ohio Schools' Council (the "Council") is a jointly governed organization among 254 school districts, educational service centers, joint vocational districts and Developmental Disabilities boards. The jointly governed organization was created for the purpose of saving money through volume purchases. Each member supports the Council by paying an annual participation fee. Each member's superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the "Council Board").

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 16:** Jointly Governed Organization (continued)

The Council Board is the policy making authority of the Council. The Council Board meets monthly September to June. The Council Board appoints the Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Council Board and Assembly and carrying out such other responsibilities as designated by the Board. In fiscal year 2020, the District paid \$207,375 to the Council. Financial information can be obtained by contacting William Zelei, the Executive Director of the Ohio Schools' Council at 6393 Oak Tree Blvd, Suite 377, Independence, Ohio 44131.

The School District also participates in the Council's electricity group purchase program. The Council's current program, Power 4 Schools, offerings electric generation savings for Ohio school districts.

The District participates in the Council's prepaid natural gas program. This program allows school districts to purchase natural gas at reduced rates. Constellation New Energy (Formerly Compass) is the natural gas supplier and program manager. There are currently 165 participants in the program. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

### **Note 17: Set-Aside Requirements**

The District is required by State statute to annually set aside in the General Fund an amount on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the changes in the year end set-aside amounts for capital improvements. Disclosure of this information is required by State statute.

Capital

		F
	In	provements
Set-aside reserve balance as of June 30, 2019	\$	-
Qualifying off-sets		(3,246,693)
Current year set-aside requirements		915,207
Qualifying disbursements		(436,870)
Total set-aside reserve balance as of June 30, 2020	\$	(2,768,356)

Although the District had qualifying disbursements during the year that reduced the capital improvements set-aside amount below zero, this amount may not be used to reduce the set-aside requirement for future fiscal years. This negative balance is therefore not presented as being carried forward to future fiscal years.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### Note 18: Contractual Commitments and Other Significant Commitments

At June 30, 2020, the District's significant contractual commitments consisted of:

		Contract		Amount	Remaining
Project	_	Amount	_	Paid	on Contract
Monticello kitchen renovation project	\$	976,075	\$	922,204	\$ 53,871

Other significant commitments include the encumbrances outstanding for the General Fund and Nonmajor Funds were as follows:

	<u>Encumbrances</u>	
General Fund	\$ 907,686	)
Nonmajor Funds	4,414,485	<u>,</u>
Total other significant commitments	\$5,322,171	_

### **Note 19:** Contingencies

### A. Grants

The District receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2020.

### B. Litigation

The District is party to legal proceedings. The District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the District.

### C. Foundation Funding

District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2020 have been finalized. The FTE adjustment made by ODE subsequent to year-end were not material to the financial statements.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 20:** Related Organization

The Cleveland Heights-University Heights Public Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the District's Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the District for operational subsidies.

Although the District serves as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate, and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Cleveland Heights-University Heights Public Library at 2345 Lee Road, Cleveland Heights, Ohio 44118.

### **Note 21:** Accountability

The following funds had deficit fund balances/net position at June 30, 2020:

Special Revenue Funds:

\$ 140,668
13,683
138
254,603
35,377
17,038
7,227
4
816,610
\$

The deficits in the special revenue funds are due to timing differences in accruing revenues and expenditures. The deficits in the enterprise fund is due to accrued expenses. The General Fund is liable for any deficit in the funds and provides transfers when cash is required, not when accruals occur.

### **Note 22:** Fiscal Distress

### COVID-19/Fiscal Distress

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. The District's investment portfolio and the investments of the pension and other employee benefit plan in which the District participates fluctuate with market conditions, and due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the District's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

Notes to the Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 22:** Fiscal Distress (continued)

### COVID-19/Fiscal Distress (continued)

In addition to the COVID-19 pandemic, the District has seen significant loss of funding from the State of Ohio due to the Ed Choice Voucher program, which diverts funding from academically struggling public school districts for students to attend private schools. The District lost \$7.1 million during the fiscal year in State Foundation funding that was diverted to private schools through the program. If the current legislation is not changed, the District expects to lose significant amounts of State Foundation funding in the future due to the Ed Choice Voucher program. As a result of the current State funding model and legislation, the need for additional local property taxes at the District is apparent. In the November 2020 general election, the voters of the District approved the passage of an additional 4.8 mil property tax levy that should generate \$5.3 million. While the additional property tax levy and cost cutting measures will alleviate some financial distress conditions through fiscal year 2022, the District will need voters to approve additional property tax levies in the near future, if legislation is not changed related to the Ed Choice Voucher program and if the significant increases to State funding are not received by the District.

### **Note 1:** Net Pension Liability

### Changes in Assumptions – SERS

Beginning in fiscal year 2019, an assumption of 2.5% was used for COLA or Ad Hoc Cola. Prior to 2019, an assumption of 3.0% was used.

Beginning with fiscal year 2017, amounts reported incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2016 and prior are presented below:

	Fiscal Year 2017	Fiscal Year 2016 and Prior
Wage Inflation	3.00%	3.25%
Future Salary Increases,		
including inflation	3.50% to 18.20%	4.00% to 22.00%
Investment Rate of Return	7.50% net of investments	7.75% net of investments
	expense, including inflation	expense, including inflation

Beginning with fiscal year 2017, mortality assumptions use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

### Changes in Assumptions – STRS

Beginning with fiscal year 2019, amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2017 and prior are presented below:

	Fiscal Year 2019	Fiscal Year 2017 and Prior
Inflation	2.50%	2.75%
Projected salary increases	12.50% at age 20 to	12.25% at age 20 to
	2.50% at age 65	2.75% at age 70
Investment Rate of Return	7.45%, net of investment	7.75%, net of investment
	expenses, including inflation	expenses, including inflation
Payroll Increases	3.00%	3.50%
Cost-of-Living Adjustments	0.00%, effective July 1, 2017	2.00% simple applied as follows:
(COLA)		for members retiring before
		August 1, 2013, 2.00% per year;
		for members retiring August 1, 2013,
		or later, 2.00% COLA commences
		on fifth anniversary of retirement date.

Notes to Required Supplementary Information (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 1:** Net Pension Liability (continued)

### Changes in Assumptions – STRS (continued)

Beginning in fiscal year 2019 post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014

Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

### **Note 2:** Net OPEB Liability

### Changes in Assumptions – SERS

Amounts reported for fiscal year 2020 incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Municipal Bond Index Rate:

Fiscal year 2020 3.56%

Fiscal year 2019 3.62%

Fiscal year 2018 3.56%

Fiscal year 2017 2.92%

Single Equivalent Interest Rate, net of plan investment expense, including price inflation

Fiscal year 2020 3.63%

Fiscal year 2019 3.70%

Fiscal year 2018 3.63%

Fiscal year 2017 2.98%

Beginning in fiscal year 2020 the healthcare cost trend rate was updated from 7.25% decreasing to 4.75% to 7.00% decreasing to 4.75%.

Beginning in fiscal year 2019 the healthcare cost trend rate was updated from 7.5% decreasing to 5.0% to 7.25% decreasing to 4.75%.

Notes to Required Supplementary Information (continued)

For the Fiscal Year Ended June 30, 2020

### **Note 2:** Net OPEB Liability (continued)

### Changes in Assumptions – STRS

For fiscal year 2019 the discount rate was increased from the blended rate of 4.13% to the long-term expected rate of return of 7.45% based on the methodology defined under GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)*. Valuation year per capita health care costs were updated.

Also for fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9% to 1.944% per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2018, the discount rate was increased from 3.26% to 4.13% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and the long term expected rate of return was reduced from 7.75% to 7.45%. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

Also for fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1% to 1.9% per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019.

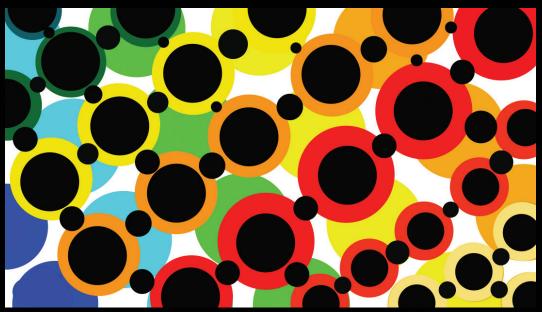

### Changes in Benefit Term Changes – STRS

There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

Combining Statements – Nonmajor Governmental Funds Fund Descriptions

June 30, 2020

### **Nonmajor Special Revenue Funds**

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes. Following is a description of the District's nonmajor special revenue funds:

*Other Grants* This fund is used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

**District Managed Activity** This fund is used to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

**Auxiliary Services** This fund accounts for state funds for the purchase of science and math materials, as well as psychological and other supplemental services at the non-public schools within the District.

**Public School Preschool Grant** This fund accounts for the state revenues which address the educational needs of 4 year olds who are at risk of being poor achievers.

**Data Communication** This fund accounts for restricted state grant monies used for classroom wiring for technology.

**Student Wellness and Success** This fund accounts for restricted state grant monies used to support students' academic achievement through mental health counseling, wraparound services, mentoring and after-school programs.

*Miscellaneous State Grants* This fund represents state monies that support academic and enrichment programs for the student body.

*Elementary and Secondary School Emergency Relief* This fund is represents state monies that are restricted to respond to the COVID-19 pandemic.

**IDEA** (*Flo-Thru*) The purpose of this federal program is to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least-restrictive, alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels.

**Vocational Education** Provides funds to boards of education, training institutions, and the state administering agency for cooperating in development of vocational education programs in the following categories: secondary, post-secondary, adult, disadvantaged and handicapped persons, exemplary programs cooperative education, construction of area vocational schools, ancillary services, research, advisory committees, and work-study projects, including six equity grants.

*Title I Improvement* The purpose of this federal program is to improve student achievement in Title I schools identified for improvement.

Combining Statements – Nonmajor Governmental Funds Fund Descriptions

June 30, 2020

### **Nonmajor Special Revenue Funds (continued)**

Title III This fund accounts for funds to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency. These programs provide structured English language instruction, with respect to the years of study to which the program is applicable, and instruction in the child's native language to the extent necessary to allow a child to achieve competence in English. The instruction incorporates the cultural heritage of these children and of other children in American society. The instruction must, to the extent necessary, be in all courses or subjects of study which will allow a child to meet grade promotion and graduation standards.

**Title I** The purpose of this federal program is to provide financial assistance to state and local education agencies to meet the special needs of educationally deprived children.

**Preschool Disabilities Grant** The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

*Title IIA - Improving Teacher Quality* This fund accounts for funds received to achieve academic achievement by improving teacher quality. This will be accomplished by increasing the number of highly qualified teachers in classrooms.

*Miscellaneous Federal Grants* This fund is used to account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere. A separate cost center must be used for each grant and be approved by the Auditor of State.

### **Nonmajor Capital Projects Funds**

Capital projects funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays including the acquisition or construction of major capital facilities and other capital assets, other than those financed by proprietary fund or for assets that will be held in trust.

**Building Fund** The Building Fund is a capital projects fund that is used to account for the proceeds from the issuance of School Improvement Bonds and Certificates of Participation to be used for the school facility upgrades.

**Permanent Improvement** This fund accounts for all transactions related to the acquiring, constructing, or improving of such permanent improvements as are authorized by Chapter 5705 of the Ohio Revised Code.

### **Nonmajor Debt Service Fund**

**Bond Retirement Fund** This fund provides for the retirement of serial bonds and short-term loans. All revenue derived from general or special levies, either within or exceeding the ten-mill limitation, which is levied for debt charges on bonds or loans shall be paid into this fund.

Combining Statements – Nonmajor Proprietary Funds Fund Descriptions

June 30, 2020

### **Nonmajor Enterprise Funds**

Enterprise funds are established to account for operations that are financed and operated in a manner similar to private sector businesses where the intent is that the expense (including depreciation) of providing goods or services to the general public is primarily or solely financed or recovered through user charges.

Food Services This fund accounts for the provision of food services to the District.

*Uniform School Supplies* This fund accounts for the purchase and sale of necessary supplies, materials, or other school related items.

*Customer Services* This fund accounts for services provided primarily to the general public which are financed or recovered through user charges.

### **Nonmajor Internal Service Fund**

The internal service fund is used to account for the financing of services provided by one department to other departments of the government or to other districts on a cost reimbursement basis.

**Self-Insurance** This fund is to account for the receipt and expenditure of funds for medical and dental claims for employees.

Source: Cuyahoga County Fiscal Officer - Data is presented on a calendar year basis, consistent with the County Fiscal Officer's method of maintaining the information.

Estimated actual values are calculated based on the following percentages:

Real estate is assessed at 35 percent of actual value.

Public utility is assessed at 88 percent of actual value.

Property in Cuyahoga County is reassessed once every three years on average. Tax rates are per \$1,000 of assessed value.

Principal Taxpayers – Real Estate Tax

Source: Cuyahoga County Fiscal Officer - Data is presented on a calendar year basis, consistent with the County Fiscal Officer's method of maintaining the information.

Delinquent collections are presented in the fiscal year collected, consistent with the County Fiscal Officer's method of maintaining the information. District is working with the County to obtain the delinquent collection information by original levy year rather than collection year in future years. At this point the information is not available.

Levy information includes Homestead/Rollback taxes assessed locally but distributed through the state and reported as intergovernmental revenue.

In 2017 the District became eligible for the Community Eligibility Provision. This allows the District to serve breakfast and lunch at no cost to all enrolled students without collection household applications.

Includes other financing uses. Reported on the modified accrual basis of accounting.
 Based upon EMIS information provided to the Ohio Department of Education.
 Information provided by School District's Food Service Department.
