DELAWARE CITY SCHOOL DISTRICT DELAWARE COUNTY

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED JUNE 30, 2021

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Delaware City School District (the School District) under programs of the federal government for the year ended June 30, 2021. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C - INDIRECT COST RATE

The School District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

NOTE E - FOOD DONATION PROGRAM

The School District reports commodities consumed on the Schedule at the entitlement value. The School District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Delaware City School District Delaware County 74 West William Street Delaware, Ohio 43015

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Delaware City School District, Delaware County, (the School District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated December 14, 2021 wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the School District.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Efficient • Effective • Transparent

Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Required by Government Auditing Standards
Page 2

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Delaware City School District Delaware County 74 West William Street Delaware, Ohio 43015

To the Board of Education:

Report on Compliance for each Major Federal Program

We have audited the Delaware City School District's (the School District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect each of the Delaware City School District's major federal programs for the year ended June 30, 2021. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the School District's major federal programs.

Management's Responsibility

The School District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the School District's compliance for each of the School District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the School District's major programs. However, our audit does not provide a legal determination of the School District's compliance.

Efficient • Effective • Transparent

Delaware City School District
Delaware County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over
Compliance Required by the Uniform Guidance
Page 2

Opinion on each Major Federal Program

In our opinion, the Delaware City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Delaware City School District (the School District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements. We issued our unmodified report thereon dated December 14, 2021, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the School District. We conducted our audit to opine on the School District's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements.

Delaware City School District
Delaware County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over
Compliance Required by the Uniform Guidance
Page 3

We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

December 14, 2021

To the Citizens and Board of Education of the Delaware City School District:

We are pleased to submit to you the Annual Comprehensive Financial Report (ACFR) of the Delaware City School District (the "District"). This ACFR, which includes an unmodified opinion from the Auditor of the State of Ohio, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rest with the District's management. To the best of our knowledge and belief, this ACFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the independent auditor's report.

This report includes all funds of the District. The District provides a full range of traditional and nontraditional educational programs, services and facilities. These include elementary and secondary curriculum at the general, college preparatory and vocational levels, as well as a broad range of co-curricular and extracurricular activities, special education programs and facilities.

In addition to providing these general activities the District has administrative responsibility for State funds distributed to St. Mary's School, Delaware Christian School and Grace Community School, private schools located within the School District boundaries. In accordance with GASB Statement 24, this responsibility is included in the reporting entity as a special revenue fund. While these organizations share operational and service similarity with the District, all are separate and distinct entities. Because of their independent nature, these organizations' financial statements are not included in this report.

PROFILE OF THE SCHOOL DISTRICT

The District was organized in the late 1800's and is a fiscally independent political subdivision of the State of Ohio. The District is a public school system located in Delaware County. The District's area is approximately 36 square miles in and around the City of Delaware. Also included are portions of Troy, Delaware, and Brown Townships. Located approximately 25 miles north of the downtown area of the City of Columbus, the District is largely suburban in character and has experienced significant growth over the past several years.

The Board of Education (the "Board") of the District is composed of five members elected at large by the citizens of the District. The Board serves as the taxing authority, contracting body, and policy initiator for the operation of the District. The Board is responsible for the adoption of the annual operating budget and the approval of all expenditures of the District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Code.

The District had an enrollment of 5,720 students for the fiscal year end June 30, 2021 compared to 5,707 students for the fiscal year ended June 30, 2020. This makes the District the second largest public school district in Delaware County. These students are housed in 5 elementary schools (grades pre-k to 5), 1 middle school (grades 6 to 8), and 1 comprehensive high school (grades 9 to 12). The age of buildings varies with the oldest built in 1869 and the latest which opened in the fall of 2000. Of the District's 8 instructional buildings, 2 have been built since 1994. Additionally, the District operates an administration building and a transportation compound. The District estimates enrollment to be 5,919; 6,025; and 6,072 for the fiscal years ended June 30, 2022, 2023, and 2024 respectively. The District's enrollment figures do not include students living within the District's attendance area who attend charter schools. In the 2021 fiscal year, the District had 182 students attending 15 different charter schools.

Economic Condition and Outlook

Local Economy - The School District is in the Columbus, Ohio Metropolitan Statistical Area (MSA), which is comprised of the counties of Delaware, Fairfield, Franklin, Licking, Madison, Morrow, Pickaway and Union, and is the thirty-second largest MSA of 362 in the United States at the time of the 2010 census.

The unemployment rate in Delaware County decreased in fiscal year 2021, from 7.5% in June 2020 to 4.6% in June 2021. Employment in the District is diversified with a majority in the service sector. One of the largest employers in the District with approximately 1,113 employees is Delaware County, located within the City of Delaware. Another employer within the City is Grady Memorial Hospital with approximately 1,100 employees. Additionally, the District is home to many small manufacturing companies as a result of State Routes 23, 42, 36 and 37 intersecting the District.

The City of Delaware is aggressive in recruiting new businesses and will make use of all economic incentives to increase the tax base. The city has made use of tax abatements and Tax Increment Financing (TIF) to attract businesses. Through negotiations with the city the District has been reimbursed for property taxes it would have otherwise collected ranging from complete reimbursements to the minimums required by law.

Long-term Financial Planning – The financial forecast of General Fund operations for the next five years demonstrates that the District's fiscal year 2022 ending General Fund cash balance is projected to be approximately at \$16.0 million. Voters approved a 5-year, \$6.2 million Emergency Operating Levy in November 2017, for a period of five years. This levy will need to be renewed by no later than the November 2022 general election in order to maintain a positive cash balance through fiscal year 2024.

The need to ask local taxpayers for additional funding frequently is a result of the challenge posed by the manner in which Ohio funds its school districts. The District had been essentially flat-funded (no increase in state funding) since 2009. The State of Ohio implemented an Evidence Base Funding Model (EBM) in fiscal year 2010 called PASS (Pathway to Student Success) which resulted in a 2% drop in the fiscal year 2011 foundation revenue. In fiscal year 2012 the Bridge formula replaced the PASS model until a new funding mechanism could be formulated. Under the Bridge formula, the District's fiscal year 2013 total state funding is divided by a per pupil costs formula from the ADM count the first full week of October 2012. The Statewide per pupil adjustment amount must be determined by the Department of Education such that the State's total education aid obligation does not exceed the aggregate appropriated amount. A supplemental funding provision for fiscal year 2013 guaranteed to each school district operating funding in an amount

equal to at least the amount of State operating funding (excluding any State Fiscal Stabilization Fund money) the district received for fiscal year 2011 under the Evidence Based Model. In addition. the Department of Education is required to pay an additional amount for high performing schools equivalent to \$17 per student to each school district that is rated as "Excellent with Distinction" or "Excellent" on the annual district and school academic performance report cards. For the 2012-2013 school year, the District was rated as "Excellent with Distinction" and would have maintained this rating for the 2013-14 school year had those designations had been used. A new funding formula was introduced for fiscal years 2014 and 2015, which allowed the District to see an increase in State foundation revenue. The increases were capped at 6.25% and 10.5% for fiscal years 2014 and 2015, respectively, and at 7.50% for fiscal years 2016 and 2017. This formula remained in place through fiscal year 2019, with increases capped at 3% each year of the two-year period. For fiscal year 2018, the District was nearly \$8.1 million into the cap, which means we did not receive 33% of the funds in which the formula says we are entitled. Fiscal year 2019 foundation revenue increased by 2.4% over those received in fiscal year 2018. For fiscal years 2020 and 2021, HB 166 was in place, which suspends the current funding formula, without creating a new one. We received a slight increase in funds for FY2020, but those increases were earmarked as "Student Wellness and Success" funds and were required to be received and expended through a State grant fund. After fiscal year 2021, these funds will become restricted within the General fund. In the Spring of 2021, the School District was impacted by the global pandemic and in May 2020, the State reduced our State Aid 4.7% or \$773,391 for FY2020. This reduction was to be in place again for FY2021 State Aid, however half of the reduction was restored and the remaining half will be restored in FY2022 as part of the Fair School Funding Plan in HB110.

In addition, there is no permanent reimbursement plan to replace tangible tax revenues eliminated through Amended Substitute House Bill 66 passed in June 2005, and possible further eroding of the District's tax base through future legislation. The budget passed in 2009 modified the reimbursement plan for school districts for lost tangible taxes. These reimbursements were to begin to be phased out in 2011, but the reimbursement was extended at 100% for two years to 2014. In fiscal year 2012, the District received approximately \$2.6 million through this reimbursement. The reimbursement dropped to \$1.7 million in fiscal years 2013 and 2014 and was eliminated by fiscal year 2017.

MAJOR INITIATIVES AND ACCOMPLISHMENTS

Accomplishments for 2021

Financial:

- Applied for and received the Certificate of Excellence in Financial Reporting from the Government Finance Officers Association for the eighth consecutive year.
- Applied for and received the Certificate of Excellence in Popular Reporting for the sixth consecutive year.
- Migrated to the web-based State Software Redesign for budgetary and payroll, as well as a web-based version of forecasting software through Forecast5.

Instruction:

- Continued refinement of our Balanced/Comprehensive Literacy Framework Document
- Sheltered Instruction Observation Protocol (SIOP) Job Embedded Professional Development for grade and content level teachers around best practices for working with English Learners.
- Professional learning for building administrators around culturally and linguistically responsive instruction and accompanying instructional rounds.
- Continued Highly qualified professional development provided to all teachers with cluster groupings and serviced learners identified as being gifted
- Created a district wide virtual day of professional learning.

- Created two days of professional learning in the summer known as Summer Academy
- Worked with a consortium of districts known as the Ohio Blended Learning Collaborative (OBC) to develop online professional learning for teachers
- Continued work in blended learning, including the personalization of learning, via our Canvas Learning Management System and job embedded coaching
- Creation of an Online Learning Academy to provide flexible learning opportunities for students
- Continued implementation of a credit recovery program to minimize high school dropouts and increase on time graduation
- Increased Expansion with AmeriCorps for early literacy student engagement
- Third annual Black History Month Program
- Continued to Train staff in Restorative Practices
- Expanded Summer School Opportunities

Facilities:

- Playground improvements and renovations were completed at Smith, Conger and Schultz Elementary Schools.
- Security camera upgrades were completed at Hayes High School.
- Completed construction of new rooms and renovations to selected areas at Carlisle Elementary School, Schultz Elementary School and Dempsey Middle School.

Initiatives for 2022

Financial: The District will be migrating to the web-based State Software Redesign for inventory and capital assets.

Instruction:

- Continued refinement of our Balanced/Comprehensive Literacy Framework Document, specifically multi-sensory approach to phonics-based lessons.
- Continued Implementation of Vertical Instruction Rounds with building and district level administrators
- Continued Implementation and Refinement of our PBIS framework, including reaching 70% in the TFI Tier 1.
- Utilize Teaching and Learning meetings to inform leadership about culturally and linguistically responsive practices
- Creation and implementation of curriculum review and adoption cycles.
- Expanded After School Learning Opportunities
- Onboarding all new hires with two days of Restorative Practices training and two days of Sheltered Instruction training
- Adjustments to our K-12 Assessment Timeline
- Growing our partnership with AmeriCorps by adding a mentor at the high school level for our credit recovery program.

Facilities:

 Additions and renovations to Conger Elementary School and Woodward Elementary Schools.

- Work with other district stakeholders to update the district's strategic plan.
- Continue selected safety and security upgrades and camera repair/replacement in all buildings.

FINANCIAL INFORMATION

Internal Controls

The management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

Budgetary Controls

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the alternative tax budget document, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control required by Ohio Revised Code is at the fund level. The level of budgetary control imposed by the District (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level for all funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and are not reappropriated.

Cash Management

Cash temporarily idle during the year was invested in demand deposits, certificates of deposit, commercial papers, agency securities, and the State Treasury Asset Reserve of Ohio (STAR Ohio). At June 30, 2021, the District had \$16.0 million of pooled investments which produced approximately \$606,809 in interest revenues (after fair value adjustment) for the year, a decrease of 82% over those reported for the prior year. In addition, the District maintains a separate investment portfolio of \$16.8 million related to unspent bond proceeds, issued for school construction and renovations, which produced (\$346,181) of interest revenue (after fair value adjustment) for the year ended June 30, 2021.

Independent Audit

Ohio Revised Code Section 117 requires an annual audit by independent auditors. The Ohio Auditor of State conducted the District's 2021 fiscal year audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"). The auditor's report on the basic financial statements is included in the financial section of this report.

Awards

GFOA Certificate of Achievement - The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting for Annual Comprehensive Financial Reports. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report conforms to the Certificate of Achievement Program requirements, and we are submitting it to the GFOA for their review.

Acknowledgements

Preparation of this report could not have been accomplished without the support and hard work of the staff of the Treasurer's office, Superintendent's office, and the Communication's office. Credit must also be given to the Board of Education. Without their leadership and commitment to excellence this report would not be possible.

Respectfully submitted,

Melissa N. Swearingen Treasurer/CFO

Heidi Kegley Superintendent

INDEPENDENT AUDITOR'S REPORT

Delaware City School District Delaware County 74 West William Street Delaware, Ohio 43015

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Delaware City School District, Delaware County, Ohio (the School District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Efficient • Effective • Transparent

Delaware City School District Delaware County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 22 to the financial statements, the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the School District. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the School District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Delaware City School District Delaware County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2021, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

The discussion and analysis of the Delaware City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the financial statements and notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2021 are as follows:

- Total net position increased by 34.4 percent during fiscal year 2021 due to the increase in total assets and deferred outflows of resource being larger than the overall increase in total liabilities and deferred inflows of resources reported at year-end.
- Total assets of governmental activities increased by \$4.3 million (2.2 percent) from one year prior. The decrease in current and other assets relate to the \$13.0 million decrease in cash and investments reported for fiscal year 2021, which was utilized to finance the construction in progress to school facilities throughout the year which accounts for the increase reported for capital assets. Total liabilities increased \$6.4 million as a result of the increase in the reported net pension liability at the end of the year, partially offset by scheduled debt payments made throughout the year.
- General revenues accounted for \$82.7 million or 90.2 percent of total revenue. Program specific revenues in the form of charges for services, as well as operating grants and contributions account for \$9.0 million or 9.8 percent of total revenues of \$91.7 million. Total revenue reported for fiscal year 2021 increased 32.5 percent from the amount reported for the prior year in which the extended property tax payment dates decreased the amount of property tax receipts available for advance at year end, and therefore revenue, by \$9.7 million reported for the prior year. For the current year, the amount returned to normal as well as the addition property taxes received from significantly increased property values.
- Total program expenses increased by 2.5 percent (nearly \$2.0 million) for the current year resulted primarily from the \$1.1 million increase in pension and OPEB expense recorded for the fiscal year. Instructional expenses increased \$4.7 million over that reported during the prior year as a result of wage and benefit increases, increased personnel and additional equipment necessary to instruct students during the pandemic. Interest and fiscal expense decreased during the current year as the School District recognized a significant increase in capital appreciation bonds in the prior period which did not reoccur in the current period.
- The General Fund, the School District's general operating fund, had an ending fund balance of \$23.0 million or 45.7 percent of the total ending fund balance for governmental funds. The \$22.0 million of unassigned fund balance reported for the General Fund at June 30, 2021 represents 34.0 percent of the disbursements reported for the General Fund for the year.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Delaware City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

Delaware County

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregated view of the School District's finances and a longer-term view of those statements. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. While the General Fund is the general operating fund of the Delaware City School District, individual fund statements are also presented for the Debt Service, Permanent Improvement and Building Funds since the School District considers those to be major governmental funds.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains a large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2021?" The Statement of Net Position and the Statement of Activities answers this question. These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting. This basis of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and the change in that net position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities. The School District does not have any business-type activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's funds begins after the Statement of Activities. The School District uses many funds to account for a multitude of financial transactions. All the funds of the School District can be divided into three categories: governmental, proprietary and fiduciary funds. Some funds are required to be established by State Statute, while many other funds are established by the School District to help manage resources for particular purposes as well as for compliance with various grant provisions. Fund financial statements use different accounting approaches, which are further described in the notes to the financial statements.

Delaware County

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Fund

The School District has one proprietary fund which is an internal service fund established to account for the resources used to pay claims and other expenses associated with the self-insured medical benefits program. This fund is reported using the accrual basis of accounting, just as the district-wide statements and focus on the determination of operating income, the change in net position, financial position, and cash flows. On the district-wide financial statements, the assets and liabilities are included with governmental activities and the net revenue or expense of the internal service fund for the year is allocated amount the participating functions within the governmental activities.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support programs of the School District. The accounting used for fiduciary funds is much like that in the district-wide financial statements.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for 2021 compared to 2020:

TABLE 1 NET POSITION

	2021	2020
Assets:		
Current and other Assets	\$ 100,960,656	\$ 110,488,299
Net OPEB Asset	4,347,145	3,933,621
Capital Assets	98,220,703	84,799,756
Total Assets	203,528,504	199,221,676
Deferred Outflows of Resources:		
Deferred Charge on Refunding	2,088,903	2,290,426
Pension and OPEB	19,212,529	15,783,357
Total Deferred Outflows of Resources	21,301,432	18,073,783
		(Continued)

Delaware County

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

TABLE 1 NET POSITION (Continued)

	2021	2020
Liabilities:		
Current Liabilities	10,623,829	10,594,834
Noncurrent Liabilities:		
Due Within One Year	3,053,297	3,869,420
Due in More than One Year:		
Net Pension Liability	77,613,414	67,180,342
Net OPEB Liability	5,960,586	6,310,017
Other Obligations	100,972,646	103,900,690
Total Liabilities	198,223,772	191,855,303
Deferred Inflows of Resources:		
Property Taxes	35,399,883	42,370,802
Pension and OPEB	8,637,862	9,638,397
Total Deferred Inflows of Resources	44,037,745	52,009,199
Net Position:		
Net Investment in Capital Assets	17,527,756	15,836,193
Restricted	8,929,793	8,286,073
Unrestricted	(43,889,130)	(50,691,309)
Total Net Position	<u>\$ (17,431,581</u>)	\$ (26,569,043)
		(Concluded)

The net pension liability (NPL) is reported pursuant to GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27, and the net OPEB asset/liability is reported pursuant to GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting net OPEB asset and deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability or OPEB asset/liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 required the net pension liability and the net OPEB asset/liability to equal the School District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

Delaware County

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement systems. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net pension liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these assets/liabilities but are outside the control of the local government. In the event the contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB asset/liability, respectively, not accounted for as deferred inflows/outflows.

The amount by which the School District's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources is called net position. As of June 30, 2021, the School District's total net position was a \$17.4 million deficit. With approximately \$17.5 million of net position invested in capital assets, net of related debt, and another \$8.9 million of net position subject to external restrictions upon its use, the remaining, unrestricted net deficit of the School District was \$43.9 million. The decrease in the reported unrestricted deficit for the year resulted primarily from the significant increase in the property taxes revenue reported for the year as a significant portion was reported within deferred inflows of resources in the prior period due to extended payment dates granted. If the amounts related to the net pension and OPEB assets/liabilities calculations are excluded, the unrestricted net position reported by the School District would be a positive \$24.8 million instead of the \$43.9 million deficit currently report. As the operation of the statewide pension plans is outside the control of the School District and varies significantly from year to year based on performance of investments, it is important to know how significant the recognition of these amounts has on the School District's reported net position.

Delaware County

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

Total assets of governmental activities increased by \$4.3 million (2.2 percent) from the amount reported one year prior. Cash and investments decreased during fiscal year 2021 as the School District paid for significant renovations and expansions to facilities funded through the school improvement bond issued in the prior period. Net capital assets increased \$13.4 million over that reported one year prior as the previously mentioned renovations and expansion projects exceeded current year depreciation expense. Total liabilities of the School District increased by \$6.4 million during the current fiscal year. The increase in liabilities (as well as the changes in deferred inflow and outflow of resources) resulted primarily from recognizing the School District's proportionate share of the net pension and OPEB amounts reported by the State-wide retirement systems.

Table 2 shows the changes in net position for fiscal year 2021 as compared to those for fiscal year 2020.

TABLE 2 CHANGES IN NET POSITION

	2021	2020
Revenues		
Program Revenues:

Change in Net Position	9,137,462	(11,383,432)
Net Position, Beginning of Year	(26,569,043)	(15,185,611)
Net Position, End of Year	<u>\$ (17,431,581)</u>	\$ (26,569,043)

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. Property taxes made up 62.9 percent of the total revenue for governmental activities for the School District for fiscal year 2021 compared with 51.1 percent for fiscal year 2020. Property tax revenue increased by 63.0 percent in fiscal year 2021 due to the delay in recognizing property tax revenues as amounts available for advance at end of the prior year returned to normal amounts. Additional property taxes resulted from the 17.8 percent increase in property tax values occurring during the current fiscal year.

Delaware County

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

Program revenues decreased \$235,612, or 2.6 percent, over the amount reported for prior year. The decrease in total program revenue resulted from a significant decrease in student sales and extracurricular revenue (charges for services) being greater than the increase in intergovernmental grants (operating grants) aimed at assisting all school districts address the difficult conditions caused by the pandemic and resulting state of emergency procedures put in place.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services for each function for fiscal year 2021 as compared with fiscal year 2020.

Total Expenses	\$	82,549	\$	73,556	\$	80,575	\$	71,346

Total expenses reported by the School District for fiscal year 2021 increased by nearly \$2.0 million, or 2.5 percent, compared to those reported for the prior period. To properly analyze the change in expenses, the reader should remove the effects of recognizing the School District's proportionate share of the pension and OPEB plans from the reported expenses. In the prior year, the School District allocated \$4.1 million (total pension/OPEB expense and deferral of pension contributions) of net expenses to the functional categories based on the pension system activity for the measurement period. For the current fiscal year, the amount allocated to the functional expense categories based on the current measurement period was \$5.2 million, or \$1.1 million swing in total expenses reported. Instructional expenses increased \$4.7 million over that reported during the prior year as wage and benefit increases, increased personnel and additional equipment necessary to instruct students during the pandemic. Interest and fiscal expense decreased during the current year as the School District recognized a significant increase in capital appreciation bonds in the prior period which did not reoccur in the current period.

As shown in Table 3 above, the total net cost of service increased by \$2.2 million compared with those reported for the prior fiscal year, which is virtually the same as the overall change in total expenses reported for the fiscal year.

Unallocated depreciation represents depreciation expense associated with capital assets that are commonly utilized by multiple functional areas, typically school buildings and related improvements. Depreciation expense on specific assets of a functional area is included in the expense reported for those functions.

Delaware County

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

The School District's Funds

Governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$91.8 million and expenditures of \$95.4 million. The net change in fund balance was most significant in the Building Fund, a decrease of \$15.8 million due to ongoing renovation and expansion of facilities within the School District using the proceeds from the general obligation bonds issued during the prior year. The General Fund, the School District's operating fund, reported an increase of \$11.6 million for the current year as the increase in property tax revenue previously discussed had the most significant impact on this fund. Expenditures of the General Fund increased in fiscal year 2021 by approximately \$1.8 million, or 2.9 percent, over those reported for the prior year due to increases in cost of personnel (wages and benefits) and various educational equipment for the year. The ending fund balance of the General Fund was \$23.0 million at June 30, 2021, of which approximately \$22.0 million was reported as unassigned. The ending unassigned fund balance of the general fund at June 30, 2021 represents 34.0 percent of the total general fund expenditures reported for the fiscal year, down from the 16.9 percent at the end of the previous fiscal year.

The remaining major funds are restricted for particular purposes. The Debt Service Fund reported a decrease in fund balance of \$161,723, due to increased debt service payments for the current year. The Permanent Improvement Fund reported an increase in fund balance of \$838,380 for fiscal year 2021 capital expenditures were less due to increased property tax revenue for the current year. The final major fund, the Building Fund, is used to account for construction and/or renovation projects within the School District typically funded through debt proceeds. As previously mentioned, the School District issued \$36.5 million of general obligation bonds during the prior year to finance the construction and renovation of school facilities. These projects were well underway during the current fiscal year which resulted in \$13.4 million being added to construction in progress as well as another \$2.0 million to building and improvements capital assets. These additions account for most of the \$15.8 million current year decrease in fund balance reported for the fund.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

For the General Fund, budget basis revenue was \$66.3 million (excluding other sources) as compared to the original budget estimates of \$62.0 million or a 7.0 percent positive variance. In the original budget, the School District did not anticipate as large of increase in property taxes as was ultimately realized during the year. In addition, additional intergovernmental revenue was received during the course of the year as the State of Ohio continued to provide financial assistance to local governments to deal with operating during the pandemic. As a result, the School District increased its original revenue budget during the year by \$2.8 million. Total actual expenditures on the budget basis (cash outlays plus encumbrances) were \$63.8 million, or 1.4 percent less than what was anticipated in the original budget adopted for the year. Budgeted expenditure amounts increased by 0.8 percent for the General Fund during the fiscal year primarily to adjust certain unanticipated costs associated with dealing with the pandemic.

Actual budgetary fund balance at year end was \$3.0 million more than the ending balance projected in the final budget adopted for the year.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

Capital Assets

At the end of fiscal year 2021, the School District had \$98.2 million invested in land, buildings, furniture and equipment, and vehicles in governmental activities. Table 4 shows fiscal year 2021 balances compared to 2020, however for greater detail readers should review Note 10 to the basic financial statements.

TABLE 4
CAPITAL ASSETS AT JUNE 30

	2021	2020
Land	\$ 4,014,912	\$ 4,014,912
Construction in Progress	17,363,512	3,958,412
Buildings and Improvements	110,792,667	108,821,262
Furniture & Equipment	3,116,760	3,201,215
Vehicles	5,515,892	4,921,732
Less: Accumulated Depreciation	(42,583,040)	(40,117,777)
Total Net Capital Assets	\$ 98,220,703	\$ 84,799,756
1		

Overall, net capital assets increased \$13.4 million from the fiscal year 2020 total net capital assets. The increase in net capital assets resulted from the \$13.4 million addition to construction in progress due to the ongoing facilities renovation and expansion projects previously discussed.

Other significant capital asset acquisitions by the School District during the fiscal year included: nearly \$1.5 million of new HAVC equipment; \$425,000 of new roofing projects; nearly \$812,000 for eight new school busses; and \$56,000 for a new dump truck. Total capital asset additions for the year were valued at \$16.3 million with depreciation expense for the year reported at \$2.9 million.

Cost associated with repair and maintenance of the School District's facilities and other assets that do not extend the useful life of the capitalized item, is included within the plant operation and maintenance function.

Debt Administration

At June 30, 2021, the School District had six general obligation bond issues outstanding with a combined outstanding principal of \$94.8 million, of which \$2.7 million is due within one year. Two of the outstanding bond issues were used to advance refund portions of previously issued bond issues to achieve savings on reduced debt service payments in the future, while the remaining four bond issues provided financing for various school construction and renovation projects over the years. During the current year, the School District made the final payment on 2013 general obligation refunding bonds.

The School District has \$1.3 million in energy conservation notes outstanding at year-end which were used to finance various building improvements throughout the School District. These notes mature in fiscal year 2027 with \$196,820 being due within one year.

Delaware County

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

As permitted by Ohio Revised Code Section 133.06(E), the State of Ohio was declared to be a "special needs" district as it relates to issuing debt for purposes of constructing and renovating classroom facilities. This classification allows the School District to exceed the established voted debt limit, if needed, in an amount not to exceed 12 percent of its taxable values plus an amount by which the State projects the tax valuation to increase during the next ten years.

For more detailed disclosures regarding the School District's debt obligations the reader should refer to Note 15 to the basic financial statements.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information contact the Treasurer's Office at Delaware City School District, 74 West William Street, Delaware, OH 43015 or call (740) 833-1100.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Net Change in Fund Balances - Total Governmental Funds	\$ (3,566,668)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. The following represents the capital asset activity for the year.	
Capital asset acquisition cost 16,310,451	
Current year depreciation (2,875,913)	
Total	13,434,538
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the carrying value of disposed capital assets.	(13,591)
Revenues in the statement of activities that do not provide current	
financial resources are not reported as revenues in the funds.	
Taxes (265,473)	
Intergovernmental 110,130	(155040)
Total	(155,343)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of long-term debt principal consumes the current financial resources of the governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effects of premiums, discounts, deferred charges on refunding when the debt is issued, whereas these amounts are amortized in the statement of activities.	
Repayment of long-term debt 3,671,720	
Current year amortization of bond premium 306,688	
Current year amortization of deferred charge on refunding (201,523)	
Accreted interest on capital appreciation bonds (110,475)	
Total	3,666,410
Some expenses reported in the statement of activities do not require the use of current financial	
resources and therefore are not reported as expenditures in governmental funds.	
Accrued interest payable on long-term debt 9,896	
Compensated absences (123,766)	
Total	(113,870)
Contractually required contributions are reported as expenditures in the governmental funds, however, the statement of net position reports these amounts as deferred outflows.	
Pension 5,692,441	
OPEB157,717	
Total	5,850,158
Except for amounts reported as deferred outflows or inflows, changes in the net pension and OPEB liabilities are reported as pension and OPEB expenses which are allocated to the functions in the statement of activities.	
Pension expense (11,181,823)	
Negative OPEB expense 91,255	
Total	(11,090,568)
Internal service funds are used by management to accumulate sufficient resources to pay health care medical claims as they come due through payroll charges to the individual funds. The net revenue or expense of this fund is allocated among the governmental activities	
on the statement of activities.	 1,126,396
Change in Net Position of Governmental Activities	\$ 9,137,462

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Delaware City School District (School District) operates under a locally-elected five member board form of government and provides educational services mandated by state and, or federal agencies. This Board controls the School District's eight instructional/support facilities staffed by 263 non-certificated employees and 369 certificated employees, including 36 administrative employees, to provide services to a student enrollment of 5,720 students.

The School District was established in 1871 through the consolidation of existing land areas and school districts and is organized under Section 2 and 3, Article VI of the Constitution of the State of Ohio. Under such laws, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the School District is vested in the Board of Education, consisting of five members elected at large for staggered four-year terms.

The School District serves an area of approximately 41 square miles within Delaware County, including all of the City of Delaware, Ohio and portions of surrounding townships. The School District is the second largest in Delaware County in terms of enrollment. It currently operates five elementary schools, one middle school and one comprehensive high school.

Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading.

The primary government consists of all funds and departments, not legally separate from the School District, which provide various services including instruction, student guidance, extracurricular activities, educational media and care and upkeep of grounds and buildings. The operation of each of these activities is directly controlled by the Board of Education.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing body and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations for which the School District approves the budget, the issuance of debt or the levying of taxes.

The School District does not have any component units.

The District is associated with two organizations, which are defined as jointly governed. These organizations include META Solutions and the Delaware Area Career Center. These organizations are presented in Note 18 to the basic financial statements.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Delaware City School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service and fiduciary funds are reported by fund type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary and fiduciary.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Funds

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets less liabilities and deferred inflows of resources is reported as fund balance. The General, Debt Service, Permanent Improvement, and Building Funds are the School District's major funds:

General Fund – The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The general fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Debt Service Fund</u> – The Debt Service Fund is used to account for the accumulation of resources for, and the repayment of, the School District's general obligation debt, including the four school improvement bonds previously approved by voters within the School District's boundaries.

<u>Permanent Improvement Fund</u> – The Permanent Improvement Fund is used to account for financial resources, specifically property and other local taxes generated by the School District's permanent improvement levy, to be used to maintain the School District's facilities, as well as provide for major equipment and instructional material purchases.

<u>Building Fund</u> – The Building Fund is used to account for the resources, received through the issuance of general obligation bonds, which are restricted to significant construction and renovation projects to existing and new school buildings within the School District.

The other governmental funds of the School District account for grants and other resources of the School District whose uses are restricted to a particular purpose.

Proprietary Fund

The proprietary fund focuses on the determination of operating income, the change in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

<u>Internal Service Fund</u> – The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. For the School District, the internal service fund is used to account for the self-insured, employee medical benefits program.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Custodial funds are used to account for fiduciary activity not accounted for within a trust fund. The School District's fiduciary funds include private-purpose trust funds, which account for college scholarships for graduating students, and a custodial fund used to account for State tournament games.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the School District are included on the Statement of Net Position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources along with current liabilities and deferred inflows of resources are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore provide a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Proprietary and fiduciary funds are reported using the economic resources measurement focus.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; as are the internal service and private purpose trust funds. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual bases of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed to be both measurable and available: property taxes available as an advance, grants, investment earnings, tuition, and student fees.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding, pension, and OPEB. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained further in Notes 12 and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources until that time. For the School District, deferred inflows of resources include property taxes, unavailable revenue, pension, and OPEB. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2021, but which were levied to finance fiscal year 2022 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, intergovernmental grants, and student fees. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position (see Notes 12 and 13).

Expenditures/Expenses

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are recorded when the related liability is incurred, if measurable. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year. The costs of accumulated unpaid vacation and sick leave are reported as fund liabilities in the period in which they will be liquidated with available financial resources rather than in the period earned by the employee. Allocation of costs, such as depreciation and amortization, are not recognized in governmental funds.

The accrual basis of accounting utilized on the government-wide financial statements and by internal service and private purpose trust funds recognizes revenues when they are earned, and expenses are recognized at the time they are incurred.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budget Data

All governmental funds are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The Board has established the legal level of control at the individual fund level.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue, are identified by the School District. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2021.

The appropriation resolution is subject to amendment by the Board throughout the school year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

F. Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled in a central bank account. Monies for all funds are pooled in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through the School District's records. Each fund's interest in the pool is presented on the balance sheet as "Equity in Pooled Cash and Cash Equivalents".

During fiscal year 2021, investments were limited to U.S. Treasury securities, federal agency securities, negotiable certificates of deposit, mutual funds, commercial paper, municipal bonds, and STAR Ohio.

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements and nonnegotiable certificates of deposit, are reported at cost.

The School District has invested funds in the State Treasury Assets Reserves of Ohio (STAR Ohio) during fiscal year 2021. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants". The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

For fiscal year 2021, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

The School District has allocated interest according to Ohio statutes. Interest revenue credited to the General Fund during fiscal year 2021 amounted to \$606,809, which includes \$262,248 assigned from other funds.

G. Inventory

On government-wide financial statements, inventories are presented at cost on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental fund types when consumed rather than when purchased.

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2021, are recorded as prepaid items using the consumption method and recording a current asset for the prepaid amount and reflecting the expenditure in the year in which services are consumed.

I. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

J. Capital Assets and Depreciation

General capital assets generally result from expenditures in the governmental funds. These assets are reported within the governmental activities on the government-wide statement of net position but are not reported in the fund statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements throughout the year. Donated capital assets are recorded at the acquisition value as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives.

Description	Estimated Lives
Buildings and Improvements	20 to 50 years
Furniture and Equipment	8 to 20 years
Vehicles	10 years

K. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures or expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources and uses in governmental funds. Repayments from funds responsible for particular expenditures or expenses to the funds that initially paid for them are not presented on the financial statements.

L. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned when both of these conditions are met:

- 1. The employees' rights to receive compensation are attributable to services already rendered.
- 2. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

A liability for sick leave is accrued using the vesting method which states that the School District will estimate its liability based on sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments as specified by the retirement system as well as other employees who are expected to become eligible in the future to receive such payments. The amount is based on accumulated sick and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated sick leave for all employees after fifteen years of current service with the School District.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

M. Pensions/Other Postemployment Benefit (OPEB) Plans

For purposes of measuring the net pension and OPEB assets and liabilities, deferred outflows of resources and deferred inflows of resources related to pension and OPEB, and pension and OPEB expense, information about the fiduciary net position of the retirement systems and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The retirement systems report investments at fair value.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements and in the proprietary fund statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension and OPEB liabilities should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension and OPEB plans' fiduciary net position is not sufficient for payment of those benefits.

O. Net Position

Net position is the residual amount when comparing assets and deferred outflows of resources to liabilities and deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on the use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

P. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

<u>Restricted</u> – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

<u>Committed</u> – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District's governing board. Those committed amounts cannot be used for any other purpose unless the governing board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Assigned</u> – Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by the School District's governing board.

In the general fund, assigned amounts represent intended uses established by the governing board or an official delegated that authority by resolution or by State statute. State statute authorizes the Treasurer to assign fund balance via purchase orders, provided such amounts have been lawfully appropriated.

<u>Unassigned</u> – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

NOTE 3 – UPCOMING CHANGE IN ACCOUNTING PRINCIPLE

For fiscal year 2021, the School District did not implement any Governmental Accounting Standards Board (GASB) Statements which had an effect on these financial statements.

In June 2017, GASB issued Statement No. 87, Leases, which had an original scheduled implementation date for accounting periods beginning after December 1, 2019, which was later extended, through the issuance of GASB Statement No. 95, for an additional eighteen (18) months. GASB Statement No. 87 establishes standards of accounting and financial reporting for leases by lessees and lessors. As of the date of these financial statements, the School District is evaluating the potential impact GASB Statement may have on its financial statements.

NOTE 4 – ACCOUNTABILITY AND COMPLIANCE

Deficit Fund Balances

At June 30, 2021, the following nonmajor special revenue funds reported fund deficits: Elementary & Secondary School Emergency Relief Grant (\$321,492), Title III Grant (\$3), Title I Grant (\$606), and Miscellaneous Federal Grants (\$1,641).

These deficits resulted from adjustments for accrued liabilities. Management expects the deficits, in the funds mentioned above, to be corrected early in the next fiscal year. The General Fund is liable for any deficit in other funds and provides operating transfers when cash is required, not when accruals occur.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 5 – NET POSITION AND FUND BALANCES

Net Position

On the Statement of Net Position, the restricted net position reported for "other purposes" includes the following constraints placed on the net position of the governmental activities:

Student Activities	\$ 501,697
Federal and State Grants	972,699
Local Grants and Other	65,061
Perpetual care:	
Expendable	1,239
Nonexpendable	 4,200
Total Net Position Restricted for Other Purposes	\$ 1,544,896

Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

									Nonmajor		
			Debt	F	Permanent			G	overnmental		
Fund Balances		General	Service	In	nprovement		Building	Funds			Total
Nonspendable for:											
Inventory and Prepaids	\$	351,782	\$ -	\$	-	\$	-	\$	-	\$	351,782
Library and Land Trust								_	4,200		4,200
Total Nonspendable	_	351,782	 	_		_		_	4,200	_	355,982
Restricted for:											
Debt Service		-	6,381,539		-		-		-		6,381,539
Capital Improvements		-	-		3,561,290		16,493,439		-		20,054,729
Library and Land Trust		-	-		-		-		1,239		1,239
Student Activities		-	-		-		-		501,697		501,697
Other Purpose		-	-		-		-		98,192		98,192
State Educational Grants		-	-		-		-		587,291		587,291
Federal Educational Grants		-	 -		-			_	48,941		48,941
Total Restricted	_		 6,381,539		3,561,290	_	16,493,439	_	1,237,360	_	27,673,628
Assigned for:											
School Programs		184,536	-		-		-		-		184,536
Subsequent Expenditures		497,520	 					_			497,520
Total Assigned	_	682,056	 			_		_		_	682,056
Unassigned (Deficit)		22,009,214	 			_		_	(323,742)	_	21,685,472
Total Fund Balances	\$	23,043,052	\$ 6,381,539	\$	3,561,290	\$	16,493,439	\$	917,818	\$	50,397,138

Fund balance restricted for state and federal educational grants represent fund balance that must be spent in accordance within specific grant requirements on educational programs targeted to enhance student learning. Nonspendable fund balance is not reported in the nonmajor governmental funds for materials and supplies inventory as the inventory will ultimate be utilized by the food service fund for sales which are restricted to meet the ongoing food service operations.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 6 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual – General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis for the general fund are as follows:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the fund liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than as an assignment of fund balance (GAAP basis).
- 4. For GAAP reporting purposes, certain funds which are budgeted separately from the general fund, are reported as part of the general fund.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

Net Change in Fund Balance General Fund

GAAP Basis	\$ 11,552,856
Revenue Accruals	(9,131,017)
Expenditure Accruals	(63,476)
Encumbrances	(560,892)
Other Financing Sources	334,242
Change in Fund Balance of Funds Combined	
with General Fund for Reporting Purposes	685,780
Budget Basis	\$ 2,817,493

NOTE 7 – DEPOSITS AND INVESTMENTS

State statutes require the classification of monies held by the School District into three categories.

Active Monies – Those monies required to be kept in a "cash" or "near-cash" status for the immediate use of the district. Such monies must be maintained either as cash in the treasury, in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive Monies – Those monies not required for use within the current five-year period of designation of depositories. Inactive monies may be deposited or invested as certificate of deposit maturing no later than the end of the current period of designation of depositories, or as savings or deposit accounts including, but not limited to, passbook accounts.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 7 - DEPOSITS AND INVESTMENTS (Continued)

Interim Monies – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested in legal securities (see Note 2F).

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements" and amended by GASB Statement No. 40, "Deposit and Investment Risk Disclosure".

Deposits

Custodial credit risk is the risk that in the event of bank failure, the School District's deposits may not be returned to it. The School District does not have a custodial credit risk policy. At fiscal year-end, \$19,136,367 was exposed to custodial credit risk since it was uninsured and collateralized with securities under the Ohio Treasurer's Ohio Pooled Collateral System, but not in the School District's name.

Investments

As of June 30, 2021, the School District's investments consisted of the following:

		Matu		
	Measurement	less than	One to	% of
Investment Type	Value	One Year	Three Years	Portfolio
Commercial Paper	\$ 6,159,968	\$ 6,159,968	\$ -	19.3%
Negotiable CDs	4,200,116	3,792,512	407,604	13.2%
U.S. Treasury Note	10,874,890	7,570,484	3,304,406	34.1%
Federal Agency	4,608,152	1,508,402	3,099,750	14.4%
Municipal Bonds	1,027,121	1,027,121	-	3.2%
Mutual Fund	82,315	82,315	-	0.3%
STAR Ohio	4,935,256	4,935,256		15.5%
Total	\$ 31,887,818	\$ 25,076,058	\$ 6,811,760	

The School District's investment policy permits the purchase of any security specifically authorized by the Ohio Revised Code (the ORC) and includes the following:

Interest Rate Risk – As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the School District's investment policy limits investment maturities to five years or less.

Credit Risk – The School District has no policy limiting investments based on credit risk other than those established in the ORC. The School District's investments had the following credit risk ratings:

	Credit	Rating
Investment Type	Rating	Agency
Commercial Paper	P-1	Moody's
Federal Agency	AA+	Standard Poor's
Municipal Bonds	SP-1+	Standard Poor's
Mutual Fund	AAAm	Standard Poor's
STAROhio	AAAm	Standard Poor's

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 7 - DEPOSITS AND INVESTMENTS (Continued)

Custodial Credit Risk – All investments shall be issued in the name of the School District.

Concentration of Credit Risk – Diversification shall ensure potential losses on individual securities do not exceed the income generated from the remainder of the initial investment.

Fair Value Measurement

The School District's investments measured and reported at fair value are classified according to the following hierarchy:

- Level 1 Investments reflect prices quoted in active markets.
- Level 2 Investments reflect prices that are based on a similar observable asset either directly, or indirectly, which may include inputs in markets that are not considered to be active.
- Level 3 Investments reflect prices based upon unobservable sources.

The categorization of investments within the hierarchy is based upon the transparency of the instrument and should not be perceived as the particular investment's risk. The School District had the following reoccurring fair value measurements as of June 30, 2021:

	Measurement	Identical Assets	Observable Inputs	Unobservable Inputs
Investment Type	Value	(Level 1)	(Level 2)	(Level 3)
Commercial Paper	\$ 6,159,968	\$ -	\$ 6,159,968	\$ -
Negotiable CDs	4,200,116	-	4,200,116	-
U.S. Treasury Note	10,874,890	-	10,874,890	-
Federal Agency	4,608,152	-	4,608,152	-
Municipal Bonds	1,027,121	-	1,027,121	-
Mutual Fund (amortized cost)	82,315	-	-	-
STAR Ohio (NAV)	4,935,256			
Total	\$31,887,818	\$ -	\$26,870,247	\$ -

Investments classified in Level 2 of the fair value hierarchy are valued using matrix pricing sources as provided by the investment managers. The School District's investments in Mutual Funds and STAR Ohio are not reported by category as they are reported at amortized cost and net asset value, respectively, instead of at fair value.

NOTE 8 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real and public utility tangible personal property located in the School District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State Law at 35 percent of appraised market value. All property is required to be reevaluated every six years. Public utility property taxes are assessed on tangible personal property at 88 percent of true value (with certain exceptions) and on real property at 35 percent of true value and are levied after April 1 on the value listed as of December 31 of the current year.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 8 - PROPERTY TAXES (Continued)

Real property taxes are payable annually or semi-annually. The first payment is due February 10, with the remainder payable by July 10. The County Treasurer collects property taxes on behalf of all taxing districts in the County, including the Delaware City School District. The County Auditor periodically remits to the School District its portion of the taxes collected. The full tax rate for all School District operations for the year ended June 30, 2021 was \$77.18 per \$1,000 of assessed value. The assessed values upon which the fiscal year 2021 taxes were collected are as follows:

	2021 First	2020 Second
	Half Collections	Half Collections
Agricultural/residential and other real estate property Public utility personal property	\$ 983,045,760 44,263,800	\$ 831,139,760 40,766,180
Total	\$1,027,309,560	\$ 871,905,940

Property taxes receivables represent real and tangible personal property taxes, public utility taxes and outstanding delinquencies that are measurable as of June 30, 2021. Although total property tax collections for the next year are measurable, only the amount available as an advance at June 30 is intended to finance current year operations. For the governmental fund financial statements, the receivable is therefore offset by a credit to deferred inflows of resources for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2021 was recognized as revenue.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis this amount is reported as deferred inflows of resources – unavailable revenue.

NOTE 9 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts, thefts-of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2021, the School District contracted with Liberty Mutual Insurance Company for general liability insurance with a \$1 million single occurrence and a \$3 million aggregate limit and property insurance which holds a \$1,000 deductible per occurrence. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage for any part of the last three years.

On January 1, 2019, the School District began providing employee medical benefits through a self-insured program in which claims are processed by United Health Care, the third-party administrator. The School District purchases stop loss insurance coverage to cover catastrophic medical claims which exceed \$100,000 for individual claims and \$2.0 million in the aggregate. The Board picks up 80% of the monthly medical premiums established. The following table summarizes the actuarially determined claims payable for the past two fiscal years.

	Е	Beginning		Claims		Claims		Claims		Ending		
Fiscal Year	Clai	Claims Payable		Incurred		Incurred		ayable Incurred		Paid	Cla	aims Payable
2021	\$	498,000	\$	6,402,491	9	6,365,491	\$	535,000				
2020		775,000		5,006,463		5,283,463		498,000				

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 10 - CAPITAL ASSETS

A summary of the School District's general capital assets for fiscal year 2021 is as follows:

	Balance			Balance
	June 30, 2020	Additions	Deletions	June 30, 2021
Capital Assets, not being depreciated				
Land	\$ 4,014,912	\$ -	\$ -	\$ 4,014,912
Construction in Progress	3,958,412	15,361,778	(1,956,678)	17,363,512
	7,973,324	15,361,778	(1,956,678)	21,378,424
Capital Assets, being depreciated				
Buildings and Improvements	108,821,262	1,971,405	-	110,792,667
Furniture and Equipment	3,201,215	66,356	(150,811)	3,116,760
Vehicles	4,921,732	867,590	(273,430)	5,515,892
Total Depreciable Capital Assets	116,944,209	2,905,351	(424,241)	119,425,319
Less: Accumulated Depreciation				
Buildings and Improvements	(34,397,956)	(2,352,056)	-	(36,750,012)
Furniture and Equipment	(2,329,465)	(125,896)	137,220	(2,318,141)
Vehicles	(3,390,356)	(397,961)	273,430	(3,514,887)
Total Accumulated Depreciation	(40,117,777)	(2,875,913) *	410,650	(42,583,040)
Depreciable Capital Assets, Net	76,826,432	29,438	(13,591)	76,842,279
Total Capital Assets, Net	\$ 84,799,756	\$ 15,391,216	\$ (1,970,269)	\$ 98,220,703

* - Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$ 27,140
Special	1,209
Support Services:	
Instructional support	2,490
Administration	514
Operation and maintenance of plant	620,395
Pupil transportation	395,023
Central	1,922
Operation of non-instructional services	25,309
Extracurricular activities	44,164
Unallocated depreciation	 1,757,747
Total Depreciation Expense	\$ 2,875,913

Unallocated depreciation is depreciation of the individual school buildings throughout the School District, which essentially serve all functions/programs, and therefore is not included as a direct expense of any function or program but disclosed as a separate expense.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 11 - RECEIVABLES

Receivables at June 30, 2021, consisted of current and delinquent property taxes, accounts (rent and student fees), and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. A summary of the principal items of intergovernmental receivables follows:

General Fund: Miscellaneous amounts due from other governments \$ 14,570 Non-major Governmental Funds: Food Service 148,492 **ESSE** Relief Grant 59,043 Title IV-B 21st Century Grant 114,488 Title VI-B Grant 252,255 Title I School Improvement Grant 76,529 Title III Grant 34,126 270,921 Title I Grant Special Education - Preschool 22,360 Improving Teacher Quality Grant 53,685

NOTE 12 - DEFINED BENEFIT PENSION PLANS

Total Intergovernmental Receivables

Non-major Governmental Funds

Other non-major funds

Net Pension Liability

Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

21,027

1,052,926

1,067,496

The net pension liability represents the School District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the way pensions are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS (Continued)

GASB Statement No. 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for contractually-required pension contributions outstanding at the end of the fiscal year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description –School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to	Eligible to
	Retire on or before	retire on or after
	August 1, 2017 **	August 1, 2017
Full benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or age 57 with 30 years of service credit
Actuarially reduced benefits	Age 60 with 5 years of service credit; or age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or age 60 with 25 years of service credit

^{** -} Members with 25 years of service credit as of August 1, 2017 will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2% for the first 30 years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS (Continued)

Prior to January 1, 2018, on the anniversary of the initial date of retirement, the allowances of all retirees and survivors are increased 3% of the base benefit. On and after January 1, 2018, the allowance of all retirees and survivors may be increased by the annual rate of increase in the CPI-W, measured as of the June preceding the beginning of the applicable calendar year. The annual rate of increase shall not be less than 0% nor greater than 2.5%. COLAs were suspended for calendar years 2018, 2019 and 2020. On and after April 1, 2018, COLAs for future retirees will be delayed for three years following commencement. One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10% of their annual covered salary and the School District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10% for plan members and 14% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, and Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2021, the 14% was allocated to only three of the funds (Pension Trust Fund, Death Benefit Fund and Medicare B Fund).

The School District's contractually required contribution to SERS was \$1,297,950 for fiscal year 2021. Of this amount, \$286,635 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. Members are eligible to retire at age 60 with five years of qualifying service credit, or at age 55 with 26 years of service, or 30 years of service regardless of age. Increases in age and service requirements increase effective August 1, 2015 and will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.53% of the 14% employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47% of the 14% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS (Continued)

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12% of the 14%-member rate goes to the DC Plan and 2% goes the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50 or later.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS Ohio plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS Ohio bearing the risk of investment gain or loss on the account. STRS Ohio therefore has included all three plan options as one defined benefit plan for GASB Statement No. 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2021, plan members were required to contribute 14% of their annual covered salary. The School District was required to contribute 14%; the entire 14% was the portion used to fund pension obligations. The fiscal year 2021 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was approximately \$4,394,491 for fiscal year 2021. Of this amount, \$799,159 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources for Pensions

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportionate share of the net pension liability	\$ 17,763,889	\$ 59,849,525	\$ 77,613,414
Proportion of the net pension liability Change in proportionate share	0.2685716% 0.0235851%	0.2473485% 0.0098454%	
Pension expense	\$ 2,641,122	\$ 8,540,701	\$ 11,181,823

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS (Continued)

At June 30, 2021 the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 SERS	STRS		Total	
Deferred Outflows of Resources: Differences between expected and actual experience	\$ 34,505	\$	134,287	\$	168,792
Net difference between projected and actual earnings on pension plan investments	1,127,647		2,910,489		4,038,136
Change in assumptions	-		3,212,764		3,212,764
Change in School District's proportionate share and difference in employer contributions	829,269		2,332,785		3,162,054
School District contributions subsequent to the measurement date	 1,297,950		4,394,491	_	5,692,441
Total	\$ 3,289,371	\$	12,984,816	\$	16,274,187
Deferred Inflows of Resources: Differences between expected and actual experience	\$ _	\$	382,696	\$	382,696
Change in School District's proportionate share and difference in employer contributions	 _		75,545		75,545
Total	\$ -	\$	458,241	\$	458,241

\$5,692,441 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the year ending June 30, 2022. Other amounts reported as deferred outflows and inflows of resources related to pension will be recognized in pension expense as follows:

	 SERS		STRS	 Total		
Fiscal Year Ending June 30:						
2022	\$ 522,230	\$	2,841,413	\$ 3,363,643		
2023	646,113		1,540,379	2,186,492		
2024	470,028		2,024,665	2,494,693		
2025	 353,050		1,725,627	 2,078,677		
	\$ 1,991,421	\$	8,132,084	\$ 10,123,505		

Actuarial Assumptions – SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS (Continued)

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will consider the employee's entire career with the employer and take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2020, are presented below:

Wage inflation 3.00 percent

Future salary increases, including inflation 3.50 percent to 18.20 percent

COLA or Ad Hoc COLA 2.50 percent

Investment rate of return 7.50 percent of net investments expense, including inflation

Actuarial cost method Entry Age Normal

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set-back for both males and females for active members. Mortality among service retired members and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

The actuarial assumptions used were based on the results of an actuarial experience study for the period ending July 1, 2010 to June 30, 2015 adopted by the Board on April 21, 2016.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS (Continued)

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	2.00%	1.85%
US stocks	22.50%	5.75%
Non-US stocks	22.50%	6.50%
Fixed income	19.00%	2.85%
Private equity	12.00%	7.60%
Real assets	17.00%	6.60%
Multi-asset strategies	<u>5.00%</u>	6.65%
Total	100.00%	

Discount Rate – Total pension liability was calculated using the discount rate of 7.5%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.5%). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.5%, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.5%), or one percentage point higher (8.5%) than the current rate.

		Current	
	1% Decrease	Discount Rate	1% Increase
	(6.50%)	(7.50%)	(8.50%)
School District's proportionate share of			
the net pension liability	\$ 24,334,358	\$ 17,763,889	\$ 12,251,140

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Payroll increases	3.00 percent
Investment rate of return	7.45 percent, net of investment expenses, including inflation
Discount rate of return	7.45 percent
Cost-of-living adjustments (COLA)	0.00 percent

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS (Continued)

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Preretirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disability mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

The actuarial assumptions were based on the results of an actual experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return *
Domestic equity	28.00%	7.35%
International equity	23.00%	7.55%
Alternatives	17.00%	7.09%
Fixed income	21.00%	3.00%
Real estate	10.00%	6.00%
Liquidity reserves	1.00%	2.25%
Total	100.00%	

^{* 10-}year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate – The discount rate used to measure the total pension liability was 7.45% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments of 7.45% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2020.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS (Continued)

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45%) or one-percentage-point higher (8.45%) than the current rate:

		Current	
	1% Decrease (6.45%)	Discount Rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of			
the net pension liability	\$ 85,215,304	\$ 59,849,525	\$ 38,354,140

NOTE 13 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS

Net OPEB Liability (Asset)

The net OPEB liability (asset) reported on the statement of net position represents a liability to (or assets for) employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability (asset) represents the School District's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments, health care cost trend rates and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB Statement No. 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability (asset). Resulting adjustments to the net OPEB liability (asset) would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term net OPEB liability or fully-funded benefits as a long-term net OPEB asset on the accrual basis of accounting. Any liability for contractually-required OPEB contributions outstanding at the end of the fiscal year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 13 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS (Continued)

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB Statement No. 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14% of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2021, there was no portion allocated to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2021, the minimum compensation amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2021, the School District's surcharge obligation was \$157,717.

Plan Description - State Teachers Retirement System (STRS)

Health Care Plan Description - The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B partial premium reimbursements will be continued indefinitely. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 13 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS (Continued)

Funding Policy - Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For the fiscal year ended June 30, 2021, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liability (Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability (asset) was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

		SERS	 STRS	 Total
Proportionate share of the net OPEB asset Proportionate share of the net OPEB liability	\$	5,960,586	\$ 4,347,145	\$ 4,347,145 5,960,586
Proportion of the net OPEB asset/liability Change in proportionate share	-	.2742608% .0233446%	0.2473485% 0.0098454%	
OPEB (negative) expense	\$	93,971	\$ (185,226)	\$ (91,255)

At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	 SERS	 STRS	Total
<u>Deferred Outflows of Resources:</u>			
Differences between expected and			
actual experience	\$ 78,287	\$ 278,545	\$ 356,832
Net difference between projected and actual			
earnings on OPEB plan investments	67,162	152,349	219,511
Change in assumptions	1,016,074	71,760	1,087,834
Difference between employer contributions and			
proportionate share of contributions	854,283	262,165	1,116,448
School District contributions subsequent			
to the measurement date	 157,717	 	 157,717
Total	\$ 2,173,523	\$ 764,819	\$ 2,938,342
			(continued)

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 13 - OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS (Continued)

	 SERS	 STRS	 Total
Deferred Inflows of Resources:			
Differences between expected and			
actual experience	\$ 3,031,375	\$ 865,886	\$ 3,897,261
Change in assumptions	150,132	4,129,056	4,279,188
Difference between employer contributions and			
proportionate share of contributions	 	 3,172	 3,172
Total	\$ 3,181,507	\$ 4,998,114	\$ 8,179,621

\$157,717 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (asset) in the year ending June 30, 2022. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

		SERS		STRS	Total		
Fiscal Year Ending June 30:							
2022	\$	(231,708)	\$	(1,049,309)	\$	(1,281,017)	
2023		(226,848)		(946,187)		(1,173,035)	
2024		(227,639)		(910,008)		(1,137,647)	
2025		(244,590)		(923,396)		(1,167,986)	
2026		(182,195)		(194,329)		(376,524)	
2027	_	(52,721)		(210,066)		(262,787)	
	\$	(1,165,701)	\$	(4,233,295)	\$	(5,398,996)	

Actuarial Assumptions – SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will consider the employee's entire career with the employer and take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 13 - OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS (Continued)

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation, prepared as of June 30, 2020, are presented below:

Investment rate of return, including inflation	7.50% net of investment expense
Wage inflation	3.00%
Future salary increases, including inflation	3.50% to 18.20%
Municipal bond index rate:	
Prior measurement date	3.13%
Measurement date	2.45%
Single equivalent interest rate, net of plan	
investment expense, including price inflation:	
Prior measurement date	3.22%
Measurement date	2.63%
Municipal bond index rate:	
Pre-Medicare	7.00% - 4.75%
Medicare	5.25% - 4.75%

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120% of male rates and 110% of female rates. PR-2000 Disabled Mortality Table with 90% for males rate and 100% for female rates set back five years.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	2.00%	1.85%
US stocks	22.50%	5.75%
Non-US stocks	22.50%	6.50%
Fixed income	19.00%	2.85%
Private equity	12.00%	7.60%
Real assets	17.00%	6.60%
Multi-asset strategies	<u>5.00%</u>	6.65%
Total	<u>100.00%</u>	

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 13 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS (Continued)

Discount Rate – The discount rate used to measure the total OPEB liability at June 30, 2020 was 2.63%. The discount rate used to measure total OPEB liability at June 30, 2019 was 3.22%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and SERS at the state statute contribution rate of 2.00% of projected covered employee payroll each year, which includes a 1.50% payroll surcharge and 0.50% of contributions from basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2035. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2034 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 2.45% as of June 30, 2020 (i.e., municipal bond rate) was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and the Health Care Cost Trend Rates – The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability calculated using the discount rate of 2.63%, as well as what the School District's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.63%) and one percentage point higher (3.63%) than the current rate.

	Current					
	1% Decrease (1.63%)		Di	scount Rate (2.63%)	1% Increase (3.63%)	
School District's proportionate						
share of the net OPEB liability	\$	7,295,609	\$	5,960,586	\$	4,899,245

The following table presents the net OPEB liability calculated using current health care cost trend rates, as well as what the School District's net OPEB liability would be if it were calculated using health care cost trend rates that are one percentage point lower (6.00% decreasing to 3.75%) and one percentage point higher (8.00% decreasing to 5.75%) than the current rates.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 13 - OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS (Continued)

Actuarial Assumptions - STRS

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement:

Salary increases	12.50% at age	12.50% at age 20 to 2.50% at age 65				
Payroll increases	3.00%					
Investment rate of return	7.45%, net of	investment expenses, including inflation				
Discount rate of return	7.45%					
Health care cost trends	<u>Initial</u>	<u>Ultimate</u>				
Medical						
Pre-Medicare	5.00%	4.00%				
Medicare	-6.69%	4.00%				
Prescription Drug						
Pre-Medicare	6.50%	4.00%				
Medicare	11.87%	4.00%				

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2020 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, claim curves were trended to the fiscal year ending June 30, 2021 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

STRS Ohio's investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 13 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS (Continued)

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return *
Domestic equity	28.00%	7.35%
International equity	23.00%	7.55%
Alternatives	17.00%	7.09%
Fixed income	21.00%	3.00%
Real estate	10.00%	6.00%
Liquidity reserves	1.00%	2.25%
Total	100.00%	

^{* 10-}year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate – The discount rate used to measure the total OPEB liability was 7.45% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on OPEB plan assets of 7.45% was used to measure the total OPEB liability as of June 30, 2020.

Sensitivity of the School District's Proportionate Share of the Net OPEB (Asset) to Changes in the Discount Rate and the Health Care Cost Trend Rates – The following table presents the School District's proportionate share of the net OPEB (asset) calculated using the current period discount rate assumption of 7.45%, as well as what the School District's proportionate share of the net OPEB (asset) would be if it were calculated using a discount rate that is one percentage point lower (6.45%) and one percentage point higher (8.45%) than the current rate. Also shown is the net OPEB (asset) as if it were calculated using health care cost trend rates that are one percentage point lower and one percentage point higher than the current health care cost trend rates:

	1% Decrease (6.45%)		Di	Current scount Rate (7.45%)	1% Increase (8.45%)			
School District's proportionate share of the net OPEB asset	\$ 3,782,299		\$	4,347,145	\$	\$ 4,826,397		
	1% Decrease In Trend Rates		T	Current rend Rates	_	% Increase Trend Rates		
School District's proportionate share of the net OPEB asset	\$	4,796,648	\$	4,347,145	\$	3,799,584		

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 14 – OTHER EMPLOYEE BENEFITS

A. Accumulated Unpaid Vacation

School District classified employees earn vacation leave at varying rates based upon negotiated agreements and State laws. In the case of death or retirement, an employee (or his estate) is paid for his unused vacation leave.

B. Accumulated Unpaid Sick Leave

School District employees may accumulate sick leave. Upon retirement, payment is made for one-fourth of the total unused sick leave balance up to a maximum of sixty days for certified and classified employees. As of June 30, 2021, the School District's total obligation for sick leave accrual as a whole was \$2,541,853.

NOTE 15 - LONG-TERM OBLIGATIONS

The activity of the School District's long-term obligations during fiscal year 2021 was as follows:

General Obligation Bonds

The general obligation bond issues will be paid through the debt service fund from property taxes collected by the County Auditor. The School District issued general obligation debt for the following purposes:

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 15 - LONG-TERM OBLIGATIONS (Continued)

- \$8,720,000, issued in fiscal year 2013 and maturing in fiscal year 2021, for the partial advance refunding of \$8,790,000 of refunding general obligation bonds issued in 2004. These bonds are current interest serial bonds.
- \$19,910,000, issued in fiscal year 2014 and maturing in fiscal year 2050, to provide financing for the construction and improvement of certain school facilities of the School District. These bonds are current interest serial bonds. During fiscal year 2020, \$19.8 million of bonds were refunded through the issuance of the 2019 general obligation refunding bonds.
- \$30,000,000, issued in fiscal year 2015 (two different series) and maturing in fiscal year 2046, to provide financing for the construction and improvement of certain school facilities of the School District. These bonds are current interest serial and term bonds.
- \$11,580,000 (series 2015B), issued in fiscal year 2015 and maturing in fiscal year 2026, for the advance refunding of \$8,730,000 and \$2,995,000 in general obligation refunding bonds issued in 2005 and 2006, respectively. These bonds are current interest serial bonds.
- \$36,530,000, issued in fiscal year 2019 and maturing in fiscal year 2054, to provide financing for the construction and improvement of certain school facilities of the School District. These bonds are current interest serial and term bonds.
- \$19,794,972 of taxable bonds issued in fiscal year 2019 and maturing in fiscal year 2050, for the advance refunding of \$19,795,000 of general obligation school improvement and construction bonds issued in 2013. These refunding bonds include current interest, term, and capital appreciation bonds. The capital appreciation bonds have a total maturity value of \$5,150,000 and are scheduled to mature in fiscal year 2021 through 2030. For fiscal year 2021, \$110,475 was accreted and \$445,000 matured; the remaining bond value outstanding at the end of the year was \$4,101,341.

Principal and interest requirements to retire the District's long-term general obligation bonds outstanding at June 30, 2021 are shown in the table below.

Fiscal Year	r Serial and Term Bonds			Capital Appre

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 15 - LONG-TERM OBLIGATIONS (Continued)

Long-Term Notes Payable

In December 2012, the School District issued \$2,819,270 of energy conservation notes payable to finance various building improvements throughout the District. These notes carry an interest rate of 2.6625 percent and mature in fiscal year 2027. Debt service payments will be made from the General Fund using savings in utility costs realized as a result of the projects. Principal and interest requirements to retire the long-term notes payable are shown in the table below.

Fiscal Year						
Ended June 30,	Principal		 Interest	 Total		
2022	\$	196,820	\$ 30,991	\$ 227,811		
2023		202,060	25,681	227,741		
2024		207,440	20,229	227,669		
2025		212,970	14,632	227,602		
2026		218,640	8,887	227,527		
2027		224,460	 2,988	 227,448		
Total	\$	1,262,390	\$ 103,408	\$ 1,365,798		

Outstanding Defeased Obligations

At June 30, 2021, \$19,795,000 of the refunded 2013 general obligation bonds, which were refunded during the current fiscal year, remain outstanding pending the call date of June 1, 2023.

Other Long-Term Obligations

The School District pays obligations related to employee compensation (compensated absences and required pension and OPEB plan contributions) from the fund benefitting from their service. If no funds are available within those funds, the general fund will assume responsibility for payment.

Legal Debt Margins

At June 30, 2021, the School District's voted debt limit (9% of assessed valuation) was \$92.5 million while the net outstanding general obligation debt of the School was \$88.6 million, leaving a legal debt margin of \$3.8 million. The School District has been classified by the State of Ohio as a "special needs" district as it relates to issuing debt for purposes of constructing and renovating classroom facilities. This classification allows the School District to exceed the established voted debt limit, if necessary. At the end of the current fiscal year, the School District's unvoted and energy conservation debt margins were \$1.0 million and \$8.0 million, respectively.

NOTE 16 – INTER-FUND TRANSACTIONS

At year end, the following non-major special revenue funds owed the General Fund for deficit positions within the School District's pooled cash and cash equivalents at year end that was covered by the General Fund; Elementary & Secondary School Emergency Relief Grant (\$379,225), Title VI(B) Grant (\$11,973), Title I – School Improvement Grant (\$26,743), Title III Grant (\$1,551), Title I Grant (\$74,941), Preschool Special Education Grant (\$6,792), Improving Teacher Quality Grant (\$1,138), and Miscellaneous Federal Grants (\$5,498). These amounts are reported as interfund payables in the non-major governmental funds with a corresponding interfund receivable in the General Fund. The negative position within the cash pool corrected itself shortly into the subsequent fiscal year when grant funding was received.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 17 - CONTINGENCIES

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2021.

B. Full-Time Equivalency Review

The School District funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the end of the fiscal year. The final results of the enrollment reconciliation process for fiscal year 2021 reported by ODE resulted in no significant adjustments were necessary to the State funding received by the School District.

C. Litigation

The School District is not currently party to any legal proceedings.

NOTE 18 – JOINTLY GOVERNED ORGANIZATIONS

META Solutions

The School District is a member of META Solutions which is an association of public entities throughout Ohio. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts while providing an open marketplace where customer choice is not limited by geography.

The governing board of META Solutions consists of an eight person Board of Directors, with each of the directors elected by a majority vote of all members within each county in META Solutions membership. Financial information can be obtained from Paul Craft, who serves as Chief Executive Officer, at 100 Executive Drive, Marion, Ohio 43302. The School District paid \$434,203 to META Solutions during fiscal year 2021.

Delaware Area Career Center

The Delaware Area Career Center (Career Center) is a distinct political subdivision of the State of Ohio, which provides vocational education. The Career Center operates under the direction of a Board consisting of one representative from each of the five participating school district's Board of Education. The degree of control exercised by the School District is limited to its representation on the Board. The Board possesses its own budgeting and taxing authority. Financial information can be obtained from the Treasurer's Office at 4565 Columbus Pike Road, Delaware, Ohio 43015.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 19 – COMMITMENTS - ENCUMBRANCES

At year end the School District had the following amounts encumbered for future purchase obligations:

	Year-End
Fund	Encumbrances
General Fund	\$ 619,238
Permanent Improvement Fund	438,820
Building Fund	4,712,201
Non-major Governmental Funds	399,185
	\$ 6,169,444

NOTE 20 - SET-ASIDE CALCULATION

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by fiscal year-end or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end and carried forward to be used for the same purposes in future fiscal years.

The following cash basis information describes the change in the fiscal year-end set-aside amount for capital acquisition. Disclosure of this information is required by State statute.

		Capital
	Im	provements
Set-aside Reserve Balance as of June 30, 2020	\$	-
Current Year Set-aside Requirement		987,261
Current Year Offsets		(2,281,761)
Total	\$	(1,294,500)
Balance Carried forward to FY 2022	\$	
Set-aside Reserve Balance June 30, 2021	\$	

Although the School District had qualifying disbursements during the year that reduced the set-aside below zero due to current year offsets, the extra amounts may not be used to reduce the set-aside requirements of future years.

NOTE 21 – TAX ABATEMENTS

Pursuant to GASB Statement No. 77, Tax Abatement Disclosures, the School District is required to disclose certain information on its use of tax abatement incentives. A tax abatement incentive, under this Statement, is an agreement between the local government and an individual or entity in which the local government promises to forgo tax revenue, while the individual or entity promises to take a specific action after the agreement has been entered into that contributes to the economic development or otherwise benefits the local government or the citizens of the local government.

Delaware County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 21 – TAX ABATEMENTS (Continued)

During fiscal year 2021, the School District's property tax revenues were reduced by \$1.2 million and \$0 under Community Reinvestment Area (CRA) and Enterprise Zone (EZ) agreements, respectively, entered into by the City of Delaware. Under Ohio Revised Code Sections 3735 and 5709, the City of Delaware may offer a property tax incentive to an individual or entity for improvements within certain targeted areas of the City. The CRA program abates 100 percent of the additional property tax resulting from the increase in assessed value as a result of the improvements, which are administered as a reduction in the property tax bill, and last for 7 years after the improvements are completed. The EZ program enables property tax abatements to encourage improvements and reinvestment to buildings and unimproved or redeveloped land in the EZ zones following a specific return on investment formula and guidelines. Retail or restaurant project abatements are limited to the Downtown Historic Districts. Commercial and industrial project abatements may not exceed 15 years for CRAs or 10 years for EZs. During fiscal year 2021, the School District received \$112,701 from the City related to property tax revenues lost under these abatement agreements.

NOTE 22 – COVID-19 PANDEMIC

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. Ohio's state of emergency ended in June of 2021 while the national state of emergency continues. During fiscal year 2021, the School District received Coronavirus Aid, Relief, and Economic Security (CARES) Act funding. Additional funding has been made available through the Consolidated Appropriations Act 2021, passed by Congress on December 1, 2020 and/or the American Rescue Plan Act, passed by Congress on March 11, 2021.

During fiscal year 2021, the School District received \$431,580 through the Elementary and Secondary School Emergency Relief Program and \$489,282 through the Coronavirus Relief Fund Program.

The School District's investment portfolio and the investments of the pension and other employee benefit plans in which the School District participates fluctuate with market conditions, and, due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact of the School District's future operating costs, revenues, and the amount of any recovery from emergency funding, either Federal or State, cannot be estimated.

NOTE 23 – SUBSEQUENT EVENT

For fiscal year 2022, School District foundation funding received from the State of Ohio will be funded using a direct funding model. Under this new model, community school, STEM school, scholarship, and open enrollment funding will be directly funded by the State of Ohio to the respective educating schools. For fiscal year 2021 and prior, the amounts related to students who were residents of the School District were funded to the School District who, in turn, made the payment to the educating school. For fiscal year 2021, the School District reported \$2,121,460 in revenue and expenditures related to these programs. This new funding system calculates a unique base cost and unique "per-pupil local capacity amount" for each School District. The School District's core foundation funding is then calculated. Any change in funding will be subject to a phase-in percentage of 16.67% for fiscal year 2022 and 33.33% for fiscal year 2023.

- (1) Information prior to 2014 is not available. The School District will continue to present information for years available until a full ten-year trend is compiled.
- (2) Amounts presented for each year were determined as of the School District's measurement date, which is the prior fiscal year-end.

Notes to Schedule:

Change in assumptions. In measurement year 2017, changes in assumptions were made based upon an updated experience study that was completed for the five-year period ended June 30, 2015. Significant changes included a reduction of the discount rate from 7.75% to 7.50%, a reduction in the wage inflation rate from 3.25% to 3.00%, a reduction in the payroll growth assumption used from 4.00% to 3.50%, reduction in the assumed real wage growth rate from 0.75% to 0.50%, update of the rates of withdrawal, retirement and disability to reflect recent experience, and transition from the RP-2000 mortality tables to the RP-2014 mortality tables for active members and service retired members and beneficiaries.

Changes of benefit and funding terms. In measurement year 2018, post-retirement increases in benefits included the following changes:

- 1. Members, or their survivors, retiring prior to January 1, 2018, receive a COLA increase of 3% of their base benefit on the anniversary of their initial date of retirement.
- 2. Members, or their survivors, retiring on and after January 1, 2018, receive a COLA increase on each anniversary of their initial date of retirement equal to the annual rate of increase in the CPI-W measured as of the June preceding the beginning of the applicable calendar year. The annual rate of increase shall not be less than 0%, nor greater than 2.5%. COLAs are suspended for calendar years 2018, 2019, and 2020.
- 3. Members, or their survivors, retiring on and after April 1, 2018, will have their COLA delayed for three years following their initial date of retirement.

- (1) Information prior to 2014 is not available. The School District will continue to present information for years available until a full ten-year trend is compiled.
- (2) Amounts presented for each year were determined as of the School District's measurement date, which is the prior fiscal year-end.

Notes to Schedule:

Change in assumptions. In measurement year 2017, changes in assumptions were made based upon an updated experience study that was completed for the five-year period ended June 30, 2016. Significant changes included a reduction of the discount rate from 7.75% to 7.45%, the inflation assumption was lowered from 2.75% to 2.50%, the payroll growth assumption was lowered to 3.00%, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0/25% due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

Change in benefit terms. Effective July 1, 2017, the COLA was reduced to zero.

- (2) Amounts presented for each year were determined as of the School District's measurement date, which is the prior fiscal year-end.

Notes to Schedule:

Change in assumptions. In measurement year 2017, changes in assumptions were made based upon an updated experience study that was completed for the five-year period ended June 30, 2015. Significant changes included a reduction in the rate of inflation from 3.25% to 3.00%, a reduction in the payroll growth assumption from 4.00% to 3.50%, a reduction in assumed real wage growth from 0.75% to 0.50%, an update in rates of withdrawal, retirement and disability, and transitioning to the following mortality tables: RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set back for both active male and female members; RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB (120% of male rates, and 110% of female rates) for service retired members and beneficiaries; and RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement among disabled members.

In measurement year 2018, medical trend rates have been adjusted to reflect premium decreases.

Change in benefit and funding terms. In measurement year 2018, SERS' funding policy allowed a 2.0% health care contribution rate to be allocated to the Health Care fund. The 2.0% is a combination of 0.5% employer contributions and 1.5% surcharge.

2021	0.247349%	(4,347,145)	29,851,093	(14.56%)	182.1%

- (1) Information prior to 2017 is not available. The School District will continue to present information for years available until a full ten-year trend is compiled.
- (2) Amounts presented for each year were determined as of the School District's measurement date, which is the prior fiscal year-end.

Notes to Schedule:

Change in assumption. For measurement year 2017, the discount rate was increased from 3.26% to 4.13% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB), and the long-term expected rate of return was reduced from 7.75% to 7.45%. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For measurement year 2018, the discount rate was increased from the blended rate of 4.13% to the long-term expected rate of return of 7.45% based on the methodology defined under GASB Statement No. 74. Valuation year per capital health care costs were updated.

Change in benefit terms. For measurement year 2017, the subsidy multiplier for non-Medicare benefit recipient was reduced from 2.1% to 1.9% per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019.

For measurement year 2018, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9% to 1.944% per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For measurement year 2019, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For measurement year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2021 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

⁽²⁾ STRS allocated the entire 14% employer contribution rate toward pension benefits.

General Fund

The General Fund is used to account for and report all financial resources, except those required to be accounted for in another fund. The General Fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of the State of Ohio.

Since the Board of Education adopts the annual appropriations for the General Fund at the fund level and the Statement of Revenues, Expenditures, and Changes in Fund Balance – General Fund – Budget (Non-GAAP) and Actual presented in the basic financial statements reports at the functional level within the fund, a separate schedule to demonstrate budgetary compliance with the legal level of control is not necessary.

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes other than debt service or capital projects. The School District has several special revenue funds, none of which are deemed to be major funds.

Food Service

To account for and report the financial transactions related to the restricted food service operation of the School District.

Local and Other Grants

To account for and report the proceeds of specific revenue sources, except for state and federal grants, that are legally restricted to expenditures for a specific purpose.

Student Managed Activities

To account for and report local funds raised by various student groups under the supervision of a District appointed. This fund includes the various student activities financed through sales and fundraising activities by the students, including Student Council, Individual Classes, National Honor Society, and other similar types of activities.

District Managed Student Activities

To account for and report local funds generated to assist student activities, which are managed by District personnel. This fund includes athletic programs and other similar types of activities.

Auxiliary Services

To account for and report monies which provide services and materials to pupils attending non-public schools within the School District.

Data Communications

To account for and report restricted monies for the purpose of accessing the Ohio Education Computer Network.

Student Wellness and Success Grant

To account for and report restricted monies associated with State grant funding passed through to school districts to support student academic achievement through mental health counseling, wraparound services, mentoring and after-school programs.

Miscellaneous State Grants

To account for and report restricted revenues received from state agencies which are not classified elsewhere.

Special Revenue Funds (continued)

Elementary and Secondary School Emergency Relief Grant

To account for and report federal CARES Act monies passed through to local educational agencies from the State to be used to address the impact that COVID-19 has had, and continues to have, on elementary and secondary schools across the Nation.

Title IV Part B 21st Century Grant

To account for and report federal monies restricted for supporting high-quality local before- and after-school programs, primarily for children of high poverty and low academic achievement, focusing on reading, mathematics, positive youth development, and parent and family engagement.

Coronavirus Relief Fund (CRF) Grant

To account for and report federal CARES Act monies passed through to local educational agencies from the State as determined by the Governor's Office to be used to address the impact that COVID-19 has had, and continues to have, on elementary and secondary schools across the Nation.

Title VI(B) Grant

To account for and report restricted monies received under a federal grant to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full education opportunities to handicapped children at the elementary and secondary levels.

Title I – School Improvement Grant

To account for and report monies received under a federal grant, based on a competitive process, to identified schools to implement sustainable, strategic improvement strategies within a broader continuous improvement plan.

Title III Grant

To account for and report federal monies restricted for elementary and secondary school programs designed to assist students to meet grade promotion and graduation standards.

Title I Grant

To account for and report monies received under a federal grant to assist schools in meeting the special needs of educationally deprived children.

Preschool Special Education Grant

To account for and report restricted federal monies received under a federal grant program to improve and expand the services for handicapped children ages three to five years.

Improving Teacher Quality Grant

To account for and report restricted monies received under a federal grant to help improve the quality of educational services delivered to students by district teachers.

Miscellaneous Federal Grants

To account for and report restricted monies received under federal grants which are not classified elsewhere.

Special Revenue Funds (continued)

Delaware Foundation

A fund used to account for and report gifts, donations and other resources provided to the School District without condition or limitations. Funds are to be used for operating or capital costs for programs designed to enhance or promote education at the School District. This fund is budgeted as a special revenue fund, but is included with the General Fund for GAAP reporting as it does not have restricted or committed revenue source.

Public School Support

A fund used to account for and report local revenue sources (other than taxes) generated by the individual school buildings (i.e. sale of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs. This fund is budgeted as a special revenue fund, but is included with the General Fund for GAAP reporting as it does not have restricted or committed revenue source.

After School Childcare

A fund used to account for and report the tuition and fees, and other revenue, generated by the School District's "latch-key" program which provides childcare to students during the hours following the end of the school day. This fund is budgeted as a special revenue fund, but is included with the General Fund for GAAP reporting as it does not have restricted or committed revenue source.

Debt Service Fund

Debt service funds are used to account for and report the accumulation of restricted local property taxes received and the payment of general long-term obligations, specifically the refunding general obligations bonds issued. The School District has one debt service fund which is reported as a major fund.

Capital Project Funds

Capital projects funds are used to account for and report financial resources that are restricted for the financing and acquisition or construction of major capital facilities, such as new school buildings and additions to existing buildings, or for major renovation projects. The School District has two capital projects funds, both of which are reported as major funds.

Permanent Improvement

To account for and report restricted resources, including a local property tax levy, to be used for the acquisition or maintenance of general capital assets.

Building

To account for and report restricted local resources, including proceeds from long-term obligations, related to school construction, additions and renovation projects.

Permanent Fund

Permanent funds are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the School District's programs. The School District has one permanent fund, the Land Grant Fund which accounts for and reports the endowments established to support the School District's library and land lab programs. The original principal of these endowments must be maintained, however the School District may spend the interest earnings as long as those expenditures benefit the operations and maintenance of the land lab or libraries within the School District.

Fiduciary Fund Types Combining and Individual Fund Financial Statements and Schedules

Private-Purpose Trust Funds

Private-purpose trust funds are used to account for assets held by the School District, which have been restricted so that the principal and income of the fund benefit individuals, private organizations, or other governments and are not available to support the operations of the School District. The School District reports two individual private-purpose trust funds.

Scholarship Trust

To account for restricted donations, where the donations themselves may be used, to provide scholarships to selected students graduating from the School District.

Memorial Scholarship Trust

To account for the restricted donations, where the corpus of the donations may not be used, which were provided in memory of individuals to provide scholarship to selected School District students.

Custodial Fund

Custodial funds are used to account for fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. The School District reports one custodial fund. As there is only one fund, no combining statements are provided in this section.

OHSAA Tournament Games

To account for revenue received for hosting tournament games operated by the Ohio High School Athletic Association which are used in facilitating future tournament events for which the School District acts as the fiscal agent.

BACKSIDE OF STATISTICAL SECTION DIVIDER

STATISTICAL SECTION

This part of the Delaware City School District's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

<u>Page</u>

Financial Trends 109

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity 114

These schedules contain information to help the reader assess the affordability of the District's most significant local revenue source, the property tax.

Debt Capacity 123

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

127

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

130

These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the annual financial statements for the relevant year.

(1) - Significant decreases in expenses for 2018 resulted from negative pension and OPEB expense recorded for fiscal year.

Permanent Improvement

^{(2) -} In November 2017, the District passed a five-year, \$6.2 million emergency operating levy, which began collections in calendar year 2018. Decrease in fiscal year 2020 resulted from amounts available for advance at end of fiscal year being significantly less than prior years due to extension of deadline for property tax payments.

^{(1) -} The significant swing in property tax revenue between 2021 and 2020 was due from amounts available for advance at end of fiscal year 2020 being significantly less than prior years due to extension of deadline for property tax payments which resulted in higher fund revenue in 2021.

(c) Tax rates are per \$1,000 of assessed value. The rate represents the weighted average of all the effective (assessed) rates applied by property type.

⁽a) The assessed value of real property is fixed at 35% of true value and is determined pursuant to the rules of the State Tax Commissioner.

⁽b) Assumes public utilities are assessed at true value which is 35%.

Note: Ohio Bond Law sets a limit of 9% for voted debt and 1/10 of 1% for unvoted debt exclusive of certain exemptions and exceptions.

⁽a) - For debt margin calculation, net indebtedness is gross bonded debt of District less balance of General Obligation Bond Retirement fund at end of fiscal year.

(b) - Exempt debt of District would be for tax anticipation notes issued under 133.04(B)(1). The District has not issued any TANs.

* - The District exceeded the bonded debt limit imposed by State statute; however, the School District has been classified by the State of Ohio as a "special needs" district as it relates to issuing debt for purposes of constructing and renovating classroom facilities. See Note 15 to the basic financial statements for further detail.

^{* -} The Performance Index Score reflects the achievement of every tested student. The score is a weighted average of all tested subjects in grades 3-8 and 10. The most weight is given to advanced students (1, 2) and the weights decrease for each performance level. This creates a scale of 0 to 120 points, with 100 being the goal.

^{** -} Obtained from the CUPP report for 2020, latest available information from ODE and Ohio State Report Card for fiscal year 2021

^{*** -} Due to the COVID-19 Pandemic all students received free lunches for the 2020-2021 fiscal year.
