## INDEPENDENT AUDITOR'S REPORT

Maysville Local School District  
Muskingum County  
3715 Panther Drive  
Zanesville, Ohio 43701

To the Board of Education:

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Maysville Local School District, Muskingum County, Ohio (the School District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the Table of Contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter***

As discussed in Note 3 to the financial statements, during fiscal year 2020, the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities. Also, as discussed in Note 23 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the School District. We did not modify our opinion regarding these matters.

### ***Other Matters***

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *Management's Discussion and Analysis*, and Schedules of Net Pension and Other Post-employment Benefit Liabilities and Pension and Other Post-employment Benefit Contributions listed in the Table of Contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### *Supplementary and Other Information*

Our audit was conducted to opine on the School District's basic financial statements taken as a whole.

The Schedule of Receipts and Expenditures of Federal Awards (the Schedule) presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The Schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 25, 2021, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Keith Faber  
Auditor of State  
Columbus, Ohio

**Maysville Local School District, Ohio**  
*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2020*  
*Unaudited*

---

The discussion and analysis of the Maysville Local School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

### **Financial Highlights**

Key financial highlights for the fiscal year 2020 are as follows:

- Net position of governmental activities increased \$968,842.
- General revenues accounted for \$18,216,632 in revenue or 67 percent of all revenues. Program specific revenues in the form of charges for services, operating grants, contributions, and interest accounted for \$9,003,526, or 33 percent of total revenues of \$27,220,158.
- The School District had \$26,251,316 in expenses related to governmental activities; only \$9,003,526 of these expenses were offset by program specific charges for services, operating grants, contributions, and interest. General revenues of \$18,216,632 were adequate to provide for these programs.

### **Using this Annual Financial Report**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can first understand the Maysville Local School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities and conditions.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column.

### ***Reporting the School District as a Whole***

#### **Statement of Net Position and Statement of Activities**

While this document contains information about the large number of funds used by the School District to provide programs and activities for students, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2020?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

**Maysville Local School District, Ohio**  
*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2020*  
*Unaudited*

---

These two statements report the School District's net position and changes in the position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the Statement of Net Position and the Statement of Activities, all of the School District's activities are reported as governmental including instruction, support services, operation of non-instructional services, debt service, and extracurricular activities.

***Reporting the School District's Most Significant Funds***

***Fund Financial Statements***

The analysis of the School District's major funds begins on page 12. Fund financial reports provide detailed information about the School District's major fund. The School District uses many funds to account for a multiple of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund and the Permanent Improvement Fund.

***Governmental Funds*** Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

***Proprietary Funds*** Proprietary funds focus on the determination of operating income, changes in net position, financial position, and cash flows.

***Fiduciary Funds*** Fiduciary funds focus on net position and changes in net position.

***The School District as a Whole***

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for 2020 compared to 2019.

**Maysville Local School District, Ohio**

<b>Total Net Position</b>	<u>\$8,094,336</u>	<u>\$7,125,494</u>	<u>\$968,842</u>

The net pension liability (NPL) / net OPEB are two of the largest liabilities reported by the School District at June 30, 2020 and are reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pension – an Amendment of GASB Statement 27" and GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises the accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

**Maysville Local School District, Ohio**  
*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2020*  
*Unaudited*

---

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the School District's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

**Maysville Local School District, Ohio**  
*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2020*  
*Unaudited*

---

In accordance with GASB 68 and GASB 75, the School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB (asset) liability, respectively, not accounted for as deferred inflows/outflows.

Total assets increased \$820,387. Current and other assets increased \$2,346,427, which was mainly due to an increase in cash and cash equivalents in the amount of \$2,440,368. The School District realized an increase in State Foundation through the Student Wellness and Success Funding. The School District also sold property to its two component units. The School District also reflects a net OPEB asset in the amount of \$1,294,632. See Note 13 for more information. The \$1,527,620 decrease in capital assets was mainly due to current year depreciation expenses exceeding current year capital asset purchases. Current year depreciation was in the amount of \$1,338,382, while purchases of capital assets were \$236,161.

Total deferred outflows of resources decreased in the amount of \$1,584,388. This decrease was primarily due to a decrease in the changes of assumptions related to the School District's proportionate share of the net pension.

Total liabilities decreased \$1,292,619. The main reason for the decrease is due to a decrease in the net pension liability in the amount of \$561,689 and a decrease in net OPEB liability in the amount of \$370,095. Current and other liabilities remained fairly consistent from fiscal year 2019 to 2020, reflecting an increase in the amount of \$7,513. Intergovernmental payable increased in the amount of \$6,240, accrued wages and benefits payable increased in the amount of \$42,032, and vacation benefits payable increased in the amount of \$11,179. These amounts were offset by a decrease in accounts payable in the amount of \$26,742 and a decrease in matured compensated absences payable in the amount of \$27,011. Intergovernmental payable reflects an increase due to revenue adjustments on the State Foundation for fiscal year 2020. Accrued wages and benefits payable reflect increases due to an increase in employee wages and increases in insurance costs. Vacation benefits payable increased due to an increase in employee earnings and an increase in unused vacation leave in fiscal year 2020 compared to fiscal year 2019. The net effect between long-term liabilities due within one year and other amounts due in more than one year was a decrease, in total, in the amount of \$368,348. This was primarily due to the payment of \$310,000 on the School Improvement Refunding General Obligation Term Bonds and the amortization of \$10,933 for the bond premium. The School District made capital lease principal payments in the amount of \$120,042 for copiers and buses. Compensated absences payable increased in the amount of \$72,627.

Total deferred inflows of resources decreased \$440,224. This decrease was the net result of three factors; a slight increase in deferred inflows of resources for property taxes, a decrease in deferred inflows of resources related to pension due to changes in proportionate share, and a decrease in deferred inflows of resources related to OPEB due to changes in assumptions.

**Maysville Local School District, Ohio**

Net Position End of Year	<u><u>\$8,094,336</u></u>	<u><u>\$7,125,494</u></u>	<u><u>\$968,842</u></u>

Net position increased by \$968,842 in fiscal year 2020. Overall revenues reflect an increase in the amount of \$662,396. Program revenues decreased in the amount of \$184,716 and general revenues increased in

**Maysville Local School District, Ohio**  
*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2020*  
*Unaudited*

the amount of \$847,112. The decrease in charges for services, in the amount of \$625,573, is largely due to a decrease in State foundation, related to tuition and enrollment. This decrease is offset by an increase in operating grants, contributions, and interest, in the amount of \$440,857, related to an increase in state and federal grants. The increase in general revenue is mostly due to the sale of property to the district's component units, resulting in an increase in gain on sale of capital assets in the amount of \$1,074,601.

The Statement of Activities shows the cost of program services and the charges for services, grants, contributions, and interest earnings offsetting those services. Table 3 shows the total cost of services and the net cost of services. In other words, it identifies the cost of those services supported by tax revenue and unrestricted entitlements.

The dependence upon tax revenues and state subsidies for governmental activities is apparent. For 2020, only 33 percent of the governmental activities performed by the School District are supported through program revenues such as charges for services, grants, contributions, and interest. The remaining 67 percent is provided through taxes and entitlements.

Instructional programs comprise approximately 62 percent of total governmental program expenses and support services are approximately 30 percent of program expenses. The other remaining expenses were in the areas of other non-instructional expenses at 5 percent, and extracurricular activities and interest and fiscal charges at 3 percent of the program expenses of the School District.

---

**The School District Funds**

The School District's major funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues and other financing sources in the amount of \$27,825,829 and expenditures in the amount of \$25,215,780, with an overall increase in fund balance in the amount of \$2,610,049.

The General Fund had \$21,851,209 revenues and \$20,728,644 in expenditures. The fund balance of the General Fund at June 30, 2020, is \$5,338,780, an increase of \$1,122,565 from the prior year. The increase is due to General Fund revenues exceeding General Fund expenditures related to the School District's continued monitoring of spending.

The fund balance of the Permanent Improvement Fund at June 30, 2020, is \$2,750,150, an increase of \$1,378,498 from the prior year due to revenue from interest earned and miscellaneous revenue exceeding regular instruction payments, operation and maintenance payments, and debt service payments being expended during the fiscal year. This increase is also due to the sale of property to the district's component units.

***General Fund Budgetary Highlights***

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. During the course of fiscal 2020, the School District's original and final General Fund appropriations were \$21,831,596. Final appropriations exceeded actual expenditures by \$1,078,933. Budget basis actual revenue was \$21,746,156, compared to an original and final revenue estimate of \$21,857,454. The \$111,298 difference between final revenue estimates and actual revenue was mainly due to intergovernmental revenues being below anticipated amounts. The School District's ending general fund budgetary balance was \$5,995,269.

**Capital Assets and Debt Administration**

***Capital Assets***

At the end of fiscal year 2020, the School District had \$24,070,718 invested in land, land improvements, buildings and improvements, furniture and equipment, and vehicles. Table 4 shows fiscal year 2020 balances compared to 2019.

**Table 4 - Capital Assets at June 30, 2020**  
**(Net of Depreciation)**

	Government Activities	
	2020	2019
Land	\$729,742	\$756,108

---

See Note 10 for more detailed information of the School District's capital assets.

**Debt**

At June 30, 2020, the School District had \$739,341 in general obligation bonds (including the bond premium) and capital leases outstanding.

**Table 5 - Outstanding Debt, at Fiscal Year End**

	Governmental Activities 2020	Governmental Activities 2019
School Improvement Refunding		
General Obligation Bonds		
Term Bonds - 2007 - 5.25%	\$685,000	\$995,000
Bond Premium	21,866	32,799
Capital Leases	32,475	152,517
Totals	\$739,341	\$1,180,316

See Note 16 for more detailed information of the School District's debt. The net pension/OPEB liability under GASB 68 and GASB 75 is also reported as a long-term obligation that has been previously disclosed within the management's discussion and analysis.

**Economic Factors**

The School District has experienced increases in net position during fiscal years 2018, 2019, and 2020. The School District's net position increased by \$12,298,253 during fiscal year 2018 due to a decrease in the net pension liability. The School District's net position increased by \$3,021,639 during fiscal year 2019 due to a decrease in the net pension/OPEB liability and an increase in net OPEB asset. The School District's net position increased by \$968,842 during fiscal year 2020 due to a decrease in the net pension/OPEB liability and an increase in gain on sale of capital assets from the sale of property to the district's component units.

Based on the most recent Board-adopted five year forecast, Maysville Local School District is projecting revenues to exceed expenditures for fiscal year 2021 and fiscal year 2022; however, deficit spending is projected for fiscal year 2023, fiscal year 2024, and fiscal year 2025. The Board does not anticipate any layoffs to occur in the upcoming years. As staff retire in the next few years, the Board may not replace those vacated positions unless deemed necessary. The Board of Education and Administration of the School District must maintain careful financial planning and prudent fiscal management in order to maintain the financial stability of the School District.

**Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information contact Lewis Sidwell, Treasurer at Maysville Local School District, 3715 Panther Drive, Zanesville, Ohio 43701. You may also e-mail the treasurer at [lsidwell@laca.org](mailto:lsidwell@laca.org).

**Maysville Local School District, Ohio**  
*Reconciliation of the Governmental Funds Balance Sheet to  
the Statement of Net Position  
June 30, 2020*

<b>Total Governmental Fund Balances</b>		<b>\$9,543,326</b>
<i>Amounts reported for governmental activities in the statement of net position are different because of the following:</i>		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.		24,070,718
Other long-term assets are not available to pay for current-period expenditures and therefore are reported as deferred inflows of resources: unavailable revenue in the funds:		
Delinquent Property Taxes	650,006	
Intergovernmental Revenues	44,816	
Tuition and Fees	67,348	
Extracurricular Revenues	130	762,300
An internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.		(87,219)
Accrued Interest Payable is recognized for outstanding long-term liabilities with interest accrual that are not expected to be paid with expendable available financial resources and therefore are not reported in the funds.		(2,849)
Vacation Benefits Payable is not expected to be paid with expendable available financial resources and therefore are not reported in the funds.		(118,054)
Deferred outflows of resources represent deferred charges on refundings which are not reported in the funds		16,466
Some liabilities are not due and payable in the current period and, therefore, not reported in the funds:		
Refunding General Obligation Bonds Payable	(685,000)	
Premium on Refunding Bonds	(21,866)	
Capital Leases Payable	(32,475)	
Sick Leave Benefits Payable	(1,672,600)	(2,411,941)
The net pension and net OPEB asset/liability is not due and payable in the current period; therefore, the asset, liability and related deferred inflows/outflows are not reported in the governmental funds:		
Net OPEB Asset	1,294,632	
Deferred Outflows - Pension	4,022,069	
Deferred Outflows - OPEB	394,253	
Net Pension Liability	(22,301,144)	
Net OPEB Liability	(2,161,238)	
Deferred Inflows - Pension	(2,376,128)	
Deferred Inflows - OPEB	(2,550,855)	(23,678,411)
Net Position of Governmental Activities		<b>\$8,094,336</b>

*Reconciliation of the Statement of Revenues, Expenditures, and Changes  
in Fund Balances of Governmental Funds to the Statement of Activities  
For the Fiscal Year Ended June 30, 2020*

---

**Net Change in Fund Balances - Total Governmental Funds** \$2,610,049

*Amounts reported for governmental activities in the statement of activities  
are different because*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.

Capital Asset Additions	236,161	
Depreciation Expense	(1,338,382)	(1,102,221)

Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the proceeds and the gain on the sale of capital assets.

Gain on Sale of Capital Assets	1,074,601	
Proceeds from Sale of Capital Assets	(1,500,000)	(425,399)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Delinquent Property Taxes	(170,446)	
Intergovernmental Revenues	(3,124)	
Tuition and Fees	28,737	
Extracurricular Revenues	130	
Miscellaneous	(35,569)	(180,272)

Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

General Obligation Bonds Payable	310,000	
Capital Leases Payable	120,042	430,042

In the statement of activities interest is accrued on outstanding bonds, whereas in governmental funds, interest is expended when due. 3,514

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Vacation Benefits Payable	(11,179)	
Sick Leave Benefits Payable	(72,627)	(83,806)

The amortization of premiums are reported on the statement of activities. 10,933

The refunding difference is allocated as a reduction of expense in the Statement of Activities over the life of the bonds. (8,235)

The internal service fund used by management to charge the costs of insurance to individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities. (97,026)

Contractually required contributions are reported as expenditures in the governmental funds; however, the statement of net position reports these amounts as deferred outflows.

Pension	1,675,087	
OPEB	54,905	1,729,992

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability are reported as pension expense in the statement of activities.

Pension	(2,374,576)	
OPEB	455,847	(1,918,729)

*Change in Net Position of Governmental Activities* \$968,842

See accompanying notes to the basic financial statements

---

**Note 1 – Description of the School District and Reporting Entity**

Maysville Local School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by State statute and federal guidelines.

Maysville Local School District was established in 1956 through the consolidation of the Springfield-Bell Local School District and the South Zanesville Local School District. The School District serves an area of approximately 66 square miles. It is located in Muskingum County, and includes a portion of the City of Zanesville, the Village of East Fultonham, and the Townships of Newton and Springfield. It is staffed by 102 classified employees, 133 certificated full-time teaching personnel, and 15 administrative employees who provide services to 2,118 students (includes preschool and open enrollment students) and other community members. The School District currently operates two instructional buildings, one administrative/preschool building, and one garage.

**Reporting Entity:**

A reporting entity is composed of the primary government, component units, and other organizations that are included to insure the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Maysville Local School District, this includes general operations, food service, preschool, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

**Discretely Presented Component Units.** The component unit information on the Statement of Net Assets and the Statement of Activities identifies the financial data of the School District's Component Units, Foxfire Intermediate School and Foxfire High School. They are reported separately to emphasize that they are legally separate from the School District.

**Foxfire Intermediate School.** The Foxfire Intermediate School is a legally separate community school created under Ohio Revised Code Chapter 3314 and incorporated under Chapter 1702. The Foxfire Intermediate School's mission, under a contractual agreement with the School District (Foxfire Intermediate School's sponsor), is to maximize all students' potential, by the teaching of high academic standards and overall student wellness to increase capabilities by bridging gaps in the best interest of each individual student. The Foxfire Intermediate School serves students who have been unsuccessful in a traditional elementary school setting. In prior years, Foxfire Intermediate School served students in first through eighth grade. At the beginning of fiscal year 2017, Foxfire Intermediate only provided services to students in first through third grade due to a change made by the Ohio Department of Education that now allows fourth through eighth grade to

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

be served through a drop-out, recovery, and prevention school; therefore, students were relocated to Foxfire High School. In fiscal year 2018, the Foxfire Intermediate School added kindergarten. In fiscal year 2020, the Foxfire Intermediate School served students kindergarten through eighth grade. Students in grades fourth through eighth were relocated from Foxfire High School to the Foxfire Intermediate School in fiscal year 2020. This change was made so that Foxfire High School would qualify as a drop-out, recovery, and prevention school again after losing their status in fiscal year 2019 due to the majority of students being under the age of 16.

The Foxfire Intermediate School operates under the direction of a five-member Board of Directors comprised of five community members recommended by the Executive Director after consulting with the Sponsor's superintendent. All governing authority members live and/or work in the Zanesville-Muskingum County community as well as represent the interest of the Muskingum County community. The sponsor is able to impose its will on Foxfire Intermediate School and due to Foxfire Intermediate School's relationship with Maysville Local School District it would be misleading to exclude Foxfire Intermediate School. The Sponsor can suspend the Foxfire Intermediate School's operations for any of the following reasons: 1) Foxfire Intermediate School's failure to meet student performance requirements stated in its contract with the Sponsor; 2) Foxfire Intermediate School's failure to meet generally accepted standards of fiscal management; 3) Foxfire Intermediate School's violation of any provisions of the contract with the Sponsor or applicable state or federal law; 4) Foxfire Intermediate School's failure to be financially sound and/or their financial status adversely impacts the Sponsor's finances; or 5) other good cause. Separately issued financial statements can be obtained from the Foxfire Intermediate School, 2805 Pinkerton Road, Zanesville, Ohio 43701.

**Foxfire High School.** The Foxfire High School is a legally separate community school created under Ohio Revised Code Chapter 3314 and incorporated under Chapter 1702. The Foxfire High School's mission, under a contractual agreement with the School District (Foxfire High School's sponsor), is to help at-risk students meet Ohio's graduation requirements. The Foxfire High School serves as a drop-out, recovery, and prevention school and focuses on ensuring that basic survival needs are met so that students can achieve success in school. The Foxfire High School serves elementary, middle, and high school age students and above who have dropped out or are at risk of dropping out of school. A particular emphasis is placed on assisting parenting and/or pregnant students obtain a high school diploma. In prior fiscal years, Foxfire High School only served students in grades nine through twelve. At the beginning of fiscal year 2017, Foxfire High School began to serve students in grades four through twelve. This change in grades served was due to a change by the Ohio Department of Education which allows a drop-out, recovery, and prevention school to serve grades four through twelve. In December 2018, the Foxfire High School was informed that the drop-out prevention and recovery status was terminated for all of fiscal year 2019 because a majority of the students served were not between the ages 16 and 21. The Foxfire High School made changes to the grades served and reapplied for the drop-out, recovery, and prevention status for fiscal year 2020 and it was granted. The Foxfire High School had to relocate grades fourth through eighth to the Foxfire Intermediate School for fiscal year 2020 in order to get the average age between 16 and 21 years of age.

The Foxfire High School operates under the direction of a five-member Board of Directors comprised of five community members appointed by the Executive Director after consulting with the Sponsor's superintendent. All governing authority members live and/or work in the Zanesville-Muskingum County community as well as represent the interest of the Muskingum County community. The sponsor is able to impose its will on Foxfire High School and due to Foxfire High School's relationship with Maysville Local School District it would be misleading to exclude

---

Foxfire High School. The Sponsor can suspend the Foxfire High School's operations for any of the following reasons: 1) Foxfire High School's failure to meet student performance requirements stated in its contract with the Sponsor; 2) Foxfire High School's failure to meet generally accepted standards of fiscal management; 3) Foxfire High School's violation of any provisions of the contract with the Sponsor or applicable state or federal law; or 4) other good cause. Separately issued financial statements can be obtained from the Foxfire High School, 2805 Pinkerton Road, Zanesville, Ohio 43701.

The School District participates in four jointly governed organizations and three purchasing pools. These organizations are the Licking Area Computer Association, Mid-East Career and Technology Centers, Coalition of Rural and Appalachian Schools, the Ohio Coalition of Equity and Adequacy of School Funding, the Better Business Bureau of Central Ohio Incorporated - Workers' Compensation Group, the Ohio School Benefits Cooperative, and META Solutions. These organizations are presented in Notes 18 and 19 to the general purpose financial statements.

**Note 2 – Summary of Significant Accounting Policies**

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

**Basis of Presentation**

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

***Government-wide Financial Statements*** The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid doubling up revenues and expenses. The statements usually distinguish between those activities of the School District that are governmental (primarily supported by taxes and intergovernmental revenues) and those that are considered business-type activities (primarily supported by fees and charges). The School District has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department, and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

***Fund Financial Statements*** During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

**Fund Accounting**

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

**Governmental Funds** Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources is reported as fund balance. The following is a description of the School District's major governmental funds:

**General Fund** The General Fund accounts for and reports all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose, provided it is expended and transferred according to the general laws of Ohio.

**Permanent Improvement Fund** The Permanent Improvement Fund of the School District is used to account for monies assigned by the Board of Education for the purpose of acquiring, constructing, and improving of such permanent improvements.

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed, or assigned to a particular purpose.

**Proprietary Fund Types** Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

**Internal Service Fund** The Internal Service Fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund accounts for the operation of the School District's self-insurance program for employee medical, surgical, prescription drug, vision, and dental claims.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Fiduciary Fund Type** Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that has certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The School District has one custodial fund which is used to account for Ohio High School Athletic Association (OHSAA) monies.

**Measurement Focus**

**Government-wide Financial Statements** The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (revenues) and decreases (expenses) in total net position.

**Fund Financial Statements** All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary and fiduciary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of fund net position. In fiduciary funds, a liability to the beneficiaries of fiduciary activity is recognized when an event has occurred that compels the government to disburse fiduciary resources. Fiduciary fund liabilities other than those to beneficiaries are recognized using the economic resources measurement focus.

For proprietary funds, the statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from investment trust, private purpose trust funds, and custodial funds.

**Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Revenues - Exchange and Non-Exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within 60 days of fiscal year end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 8). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, tuition, grants, fees, and rentals.

Unearned revenue represents amounts under the accrual and modified accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned. The Self-Insurance Internal Service Fund reports unearned revenue for premiums received from the paying funds prior to the fiscal year the premiums are due.

**Deferred Outflows/Inflows of Resources** In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding and for pension and OPEB plans. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balance to Net Position of Governmental Activities found on page 19. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 12 and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include property taxes, pension and OPEB plans, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2021 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District unavailable revenue includes delinquent property taxes, intergovernmental revenues, tuition and fees, and extracurricular revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

available. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Notes 12 and 13)

**Expenses/Expenditures** On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**Cash and Cash Equivalents**

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District's records. Interest in the pool is presented as equity in pooled cash and cash equivalents on the financial statements.

The School District has segregated bank accounts for the District Managed Activities and Helping Hands Local Grant Special Revenue Funds that are held separate from the School District's central bank account. These depository accounts are presented as "Cash in Segregated Accounts" since they are not deposited into the School District treasury.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the Permanent Improvement Fund during fiscal year 2020 amounted to \$152,681, which includes \$111,518 assigned from other School District funds.

Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months not purchased from the pool are reported as investments.

**Prepaid Items**

Payments made to vendors for services that will benefit periods beyond June 30, 2020, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the fiscal year in which services are consumed.

**Inventory**

Inventories are presented at cost on a first-in, first-out basis and are expensed/expended when used. Inventory consists of expendable supplies held for consumption and purchased and donated food held for resale.

**Capital Assets**

The School District's only capital assets are general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. The School District was able to estimate the historical cost for the initial reporting of capital assets by back trending (i.e., estimating the current replacement cost of the assets to be capitalized and using an appropriate price-index to deflate the costs to the acquisition year or estimated acquisition year). Donated fixed assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land Improvements	15-20 years
Buildings and Improvements	20-40 years
Machinery and Equipment	5-15 years
Furniture and Fixtures	5-20 years
Vehicles	8 years

**Internal Activity**

Transfers within governmental activities are eliminated on the government-wide statements.

Internal allocations of overhead expenses from one program to another or within the same program are eliminated on the Statement of Activities. Payments for interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/ uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

**Restricted Assets**

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either eternally imposed by creditors, contributors, grantors, or laws of other governments or imposed by law through constitutional provisions. See Note 20 for additional information regarding set asides.

**Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for vacation eligible employees with more than one year of service.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for classified and certified employees after ten years of current service with the School District.

The entire compensated absences liability is reported on the government-wide financial statements. On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which these payments will be made.

**Accrued Liabilities and Long-term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net pension is not sufficient for payment of those benefits. Bonds and capital leases are recognized as a liability on the governmental fund financial statements when due.

**Pensions/Other Postemployment Benefits (OPEB)**

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

**Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The classifications are as follows:

**Nonspendable:** The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" includes items that are not expected to be converted to cash. It also includes the long-term amount of loans and notes receivable, prepaids, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

**Restricted:** The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by State constitution or external resource providers. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions or enabling legislation (School District Board of Education resolutions).

Enabling legislation authorizes the School District to assess, levy, charge, or otherwise mandates payment of resources (from external resources providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the School District can be compelled by an external party such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

**Committed:** The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for the use in satisfying those contractual requirements.

**Assigned:** Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by the School District Board of Education. In the General Fund, assigned amounts represent intended uses established by the School District Board of Education or by State statute. State statute authorizes the School District's Treasurer to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The School District's Board of Education assigned fund balance to cover a gap between estimated revenue and appropriations in fiscal year 2021's appropriated budget.

**Unassigned:** The unassigned fund balance is the residual classification for the General Fund and includes amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report deficit balances.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which the amounts in any of the unrestricted fund balance classifications could be used.

### **Net Position**

Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

**Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence.

**Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Budgetary Data**

All funds, except custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution, and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education (Board) may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. The Treasurer has been authorized to allocate Board appropriations to the function and object level.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statement reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statement reflect the amounts in the final amended certificate of estimated resources in effect at the time the final appropriations were passed by the Board.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

**Premiums**

On the government-wide financial statements, bond premiums are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium. On the governmental fund statements, bond premiums are recorded in the year the bonds are issued. Under Ohio law, premiums on the original issuance of debt are to be deposited to the bond retirement fund to be used for debt retirement and are precluded from being applied to the project fund. Ohio law does allow premiums on refunding debt to be used as part of the payment to the bond escrow agent.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Deferred Charge on Refunding**

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources on the statement of net position.

**Note 3 – Changes in Accounting Principles and Restatements of Fund Balances and Net Position**

The Governmental Accounting Standards Board (GASB) recently issued GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The School District evaluated implementing these certain GASB pronouncements based on the guidance in GASB 95.

For fiscal year 2020, the School District implemented the Governmental Accounting Standards Board’s (GASB) *Implementation Guide No. 2018-1*. These changes were incorporated in the School District’s 2020 financial statements; however, there was no effect on beginning net position/fund balance.

For fiscal year 2020, the School District also implemented GASB Statement No. 84, *Fiduciary Activities* and related guidance from (GASB) *Implementation Guide No. 2019-2, Fiduciary Activities*. GASB Statement No. 84 established specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the School District will no longer be reporting agency funds. The School District reviewed its agency funds and certain funds will be reported in the new fiduciary fund classification of custodial funds, while other funds have been reclassified as governmental funds. These fund reclassifications resulted in the restatement of the School District’s financial statements.

***Restatement of Fund Balances and Net Position***

The implementation of GASB Statement No. 84 had the following effect on fund balance as of June 30, 2019:

	Governmental Funds			Total
	General	Permanent Improvement	Non Major	
Fund Balances, June 30, 2019	\$4,216,215	\$1,371,652	\$1,259,719	\$6,847,586
Adjustments:				
GASB 84	0	0	85,691	85,691
Restated Fund Balances, June 30, 2019	\$4,216,215	\$1,371,652	\$1,345,410	\$6,933,277

The implementation of GASB Statement No. 84 had the following effect on net position as of June 30, 2019:

	Governmental Activities
Net Position June 30, 2019	\$7,039,803
Adjustments:	
GASB 84	85,691
Restated Net Position June 30, 2019	\$7,125,494

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

The implementation of GASB Statement No. 84 had the following effect on fiduciary net position as of June 30, 2019:

	Agency
Net Position June 30, 2019	\$0
Adjustments:	
Assets	(77,097)
Liabilities	77,097
Restated Net Position June 30, 2019	\$0

**Note 4 – Accountability**

The following funds had deficit fund balances / net position as of June 30, 2020:

<b>Special Revenue Fund:</b>	
Title VI-B	(\$9,145)
 <b>Internal Service Fund:</b>	
Self-Insurance	(\$87,219)

The deficit in this special revenue fund and this internal service fund were a result of the application of generally accepted accounting principles. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur. The School District will more closely monitor fund balances in the future.

**Note 5 – Budgetary Basis of Accounting**

While the School District is reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Budget Basis) for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP (modified accrual) basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Prepaid items are reported on the balance sheet (GAAP basis), but not on the budgetary basis.
4. Encumbrances are treated as expenditures for all funds (budget basis) rather than as a commitment or assignment of fund balance for governmental fund types (GAAP basis).
5. Budgetary revenues and expenditures of the public school support fund are reclassified to the General Fund for GAAP Reporting.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

6. Unreported cash, fair market value changes, and negative cash advances to other funds are reported on the “Statement of Revenues, Expenditures and Changes in Fund Balance (GAAP Basis), but not on budgetary basis.”

The following tables summarize the adjustments necessary to reconcile the GAAP and budgetary basis statement for the General Fund:

<u>Net Change in Fund Balance</u>	<u>General</u>
GAAP Basis	\$1,122,565
Net Adjustment for Revenue Accruals	(37,137)
Net Adjustment for Expenditure Accruals	(27,410)
Beginning:	
Unrecorded Cash	1,141
Prepaid Items	68,672
Negative Cash Advances	(22,730)
Ending:	
Unrecorded Cash	(1,188)
Prepaid Items	(74,337)
Negative Cash Advances	1,426
To reclassify excess of revenues and other sources of financial resources over expenditures and other uses of financial resources into financial statement fund types	(14,007)
Adjustment for Encumbrances	(23,502)
Budget Basis	<u><u>\$993,493</u></u>

*This space intentionally left blank.*

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

**Note 6 – Fund Balances**

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented as follows:

<u>Fund Balances</u>	<u>General</u>	<u>Permanent Improvement</u>	<u>Other Governmental Funds</u>	<u>Total</u>
<u>Nonspendable:</u>				
Prepays	\$74,337	\$0	\$42,363	\$116,700
Materials and Supplies				
Inventory	4,400	0	2,421	6,821
<i>Total Nonspendable</i>	<u>78,737</u>	<u>0</u>	<u>44,784</u>	<u>123,521</u>
<u>Restricted for:</u>				
Debt Service	0	0	469,032	469,032
Classroom Facilities Maintenance	0	0	398,327	398,327
Food Service	0	0	326,511	326,511
Student Managed Activities	0	0	61,962	61,962
District Managed Student Activities	0	0	29,442	29,442
Preschool	0	0	3,893	3,893
Local, State, and Federal Grants	0	0	100,726	100,726
<i>Total Restricted</i>	<u>0</u>	<u>0</u>	<u>1,389,893</u>	<u>1,389,893</u>
<u>Committed to:</u>				
Scholarships	0	0	12,628	12,628

*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Note 7 – Deposits and Investments**

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with an qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio).
8. Certain bankers' acceptances (for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if trading requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim moneys available for investment at the time of purchase.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

**Note 8 – Property Taxes**

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property (used in business) located in the School District. Real property tax revenue received in calendar 2020 represents collections of calendar year 2019 taxes. Real property taxes received in calendar year 2020 were levied after April 1, 2019, on the assessed value listed as of January 1, 2019, the lien date. Assessed values for real property taxes are established by State statute at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2020 represents collections of calendar year 2019 taxes. Public utility real property taxes received in calendar year 2020 became a lien December 31, 2018, were levied after April 1, 2019 and are collected with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Muskingum County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2020, are available to finance fiscal year 2020 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

---

Accrued property taxes receivable includes real property and public utility property taxes which were measurable as of June 30, 2020, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations and is reflected as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflow of resources for property taxes.

The amount available as an advance at June 30, 2020, was \$1,859,791. \$1,704,494 was available to the General Fund, \$124,724 was available to the Debt Service Fund, and \$30,573 was available to the Classroom Facilities Maintenance Special Revenue Fund. The amount available as an advance at June 30, 2019, was \$1,762,160. \$1,607,199 was available to the General Fund, \$126,144 was available to the Debt Service Fund, and \$28,817 was available to the Classroom Facilities Maintenance Special Revenue Fund.

On an accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been reported as deferred inflow of resources – unavailable revenue.

The assessed values upon which the fiscal year 2020 taxes were collected are:

	2019 Second- Half Collections		2020 First- Half Collections	
	Amount	Percent	Amount	Percent
Real Estate	\$184,535,580	92.88%	\$185,375,120	91.92%
Public Utility Personal	14,151,780	7.12%	16,305,480	8.08%
Total Assessed Value	\$198,687,360	100.00%	\$201,680,600	100.00%
Tax rate per \$1,000 of assessed valuation	\$39.65		\$39.55	

The decrease in the tax rate per \$1,000 was attributed to a decrease in the amount required for debt retirement.

*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Note 9 – Receivables**

Receivables at June 30, 2020, consisted of property taxes, accounts (tuition and fees, intergovernmental, and miscellaneous), and intergovernmental. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables except property taxes are expected to be received within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year. The delinquent property taxes amounted to \$650,006 as of June 30, 2020.

A summary of intergovernmental receivables are as follows:

	<u>Amounts</u>
<b><u>Governmental Activities</u></b>	
State Foundation Adjustments	\$47,614
School Employees Retirement System Refund	128,095
Bureau of Workers' Compensation Refund	3,980
Title VI-B	46,278
Title I	118,342
CARES Act	1,599
Miscellaneous Federal	24,034
Total	<u><u>\$369,942</u></u>

*This space intentionally left blank.*

For the Fiscal Year Ended June 30, 2020

**Note 10 – Capital Assets**

Capital asset activity for the fiscal year ended June 30, 2020, was as follows:

	Balance June 30, 2019	Additions	Deletions	Balance June 30, 2020
<b>Nondepreciable Capital Assets</b>				
Land	\$756,108	\$0	(\$26,366)	\$729,742
<b>Depreciable Capital Assets</b>				
Land Improvements	4,634,278	0	(426,612)	4,207,666
Buildings and Improvements	38,922,795	139,543	(1,965,202)	37,097,136
Furniture and Equipment	4,720,346	96,618	(31,490)	4,785,474
Vehicles	1,925,079	0	0	1,925,079
Total at Historical Cost	<u>50,202,498</u>	<u>236,161</u>	<u>(2,423,304)</u>	<u>48,015,355</u>
Less Accumulated Depreciation				
Land Improvements	(2,365,024)	(119,521)	409,076	(2,075,469)
Buildings and Improvements	(17,525,679)	(939,453)	1,598,292	(16,866,840)
Furniture and Equipment	(4,026,904)	(153,346)	16,903	(4,163,347)
Vehicles	(1,442,661)	(126,062)	0	(1,568,723)
Total Accumulated Depreciation	<u>(25,360,268)</u>	<u>(1,338,382) *</u>	<u>2,024,271</u>	<u>(24,674,379)</u>
Depreciable Capital Assets, Net of Accumulated Depreciation	<u>24,842,230</u>	<u>(1,102,221)</u>	<u>(399,033)</u>	<u>23,340,976</u>
Governmental Activities Capital Assets, Net	<u>\$25,598,338</u>	<u>(\$1,102,221)</u>	<u>(\$425,399)</u>	<u>\$24,070,718</u>

\*Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$486,813
Special	185,599
Vocational	29,751
Support Services:	
Pupils	21,890
Instructional Staff	18,560
Administration	93,694
Fiscal	8,642
Operation and Maintenance	84,193
Pupil Transportation	130,540
Extracurricular	134,169
Food Service Operations	144,531
Total Depreciation Expense	<u>\$1,338,382</u>

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Note 11 – Risk Management**

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2020, the School District contracted with Liberty Mutual Insurance – The Netherlands Insurance Company through the Young Insurance Agency, for property, electronic equipment, commercial articles, valuable papers, crime insurance, general liability insurance, fleet insurance, and builder’s risk insurance. Coverage provided is as follows:

Building and Contents-replacement cost (\$2,500 deductible)	\$70,772,898
Employee Benefit Liability:	
Per occurrence	1,000,000
General Aggregate	2,000,000
Personal and Advertising Injury Limit	1,000,000
Fleet Insurance (\$250 Comprehensive/\$500 Collision deductible)	1,000,000
Uninsured/Underinsured Motorists	1,000,000
Commercial Umbrella Liability each occurrence	5,000,000
Commercial Umbrella Liability General Aggregate	5,000,000
Products/Completed Operations Aggregate Limit	2,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from last year.

During fiscal year 2020, the School District participated in the Better Business Bureau of Central Ohio Incorporated - Workers’ Compensation Program (GRP), an insurance purchasing pool (Note 19) in the Group Retrospective Rating Program. The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers’ compensation experience of the participating members is calculated as one experience and a common premium rate is applied to all members in the GRP. Each participant pays its workers’ compensation premium to the State based on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to members that can meet the GRP’s selection criteria. The firm of Sheakley provides administrative, cost control, and actuarial services to the GRP.

Medical, dental, and vision insurance is offered to employees through a Self-Insurance Internal Service Fund. Monthly premiums are paid to the fiscal agent who in turn pays the claims on the School District’s behalf. The claims liability of \$319,392 reported in the Internal Service Fund at June 30, 2019, is based on an estimate provided by the third party administrator. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. The School District purchased an aggregate stop-loss coverage policy that covers individual claims in excess of \$100,000 annually.

Changes in claims activity for the past two fiscal years are as follows:

	<u>Balance at Beginning of Year</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Balance at End of Year</u>
2019	\$310,687	\$3,507,878	\$3,529,314	\$289,251
2020	289,251	3,676,682	3,646,541	319,392

**Note 12 – Defined Benefit Pension Plans**

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

**Net Pension Liability/Net OPEB Liability**

The net pension liability and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the School District’s proportionate share of each pension/OPEB plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan’s fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District’s obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the School District does receive the benefit of employees’ services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan’s unfunded benefits is presented as a *net OPEB asset* or long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 13 for the required OPEB disclosures.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Plan Description - School Employees Retirement System (SERS)**

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2020, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District’s contractually required contribution to SERS was \$393,395 for fiscal year 2020. Of this amount, \$42,605 is reported as an intergovernmental payable.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Plan Description - State Teachers Retirement System (STRS)**

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS’ fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients’ base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five year of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member’s DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member’s defined contribution account or the defined contribution portion of a member’s Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2020 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2020, the full employer contribution was allocated to pension.

The School District's contractually required contribution to STRS was \$1,281,692 for fiscal year 2020. Of this amount, \$261,560 is reported as an intergovernmental payable.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	
Proportion of the Net Pension Liability:			
Prior Measurement Date	0.09026300%	0.08046890%	
Current Measurement Date	0.08381810%	0.07816699%	
Change in Proportionate Share	-0.00644490%	-0.00230191%	
			Total
Proportionate Share of the Net			
Pension Liability	\$5,014,984	\$17,286,160	\$22,301,144
Pension Expense	\$540,792	\$1,833,784	\$2,374,576

*This space intentionally left blank.*

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
<b>Deferred Outflows of Resources</b>			
Differences between expected and actual experience	\$127,169	\$140,738	\$267,907
Changes of assumptions	0	2,030,593	2,030,593
Changes in Proportionate Share and Difference between School District contributions and proportionate share of contributions	7,551	40,931	48,482
School District contributions subsequent to the measurement date	<u>393,395</u>	<u>1,281,692</u>	<u>1,675,087</u>
Total Deferred Outflows of Resources	<u>\$528,115</u>	<u>\$3,493,954</u>	<u>\$4,022,069</u>
<b>Deferred Inflows of Resources</b>			
Differences between expected and actual experience	\$0	\$74,828	\$74,828
Net difference between projected and actual earnings on pension plan investments	64,374	844,854	909,228
Changes in Proportionate Share and Difference between School District contributions and proportionate share of contributions	<u>303,070</u>	<u>1,089,002</u>	<u>1,392,072</u>
Total Deferred Inflows of Resources	<u>\$367,444</u>	<u>\$2,008,684</u>	<u>\$2,376,128</u>

\$1,675,087 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Fiscal Year Ending June 30:			
2021	(\$84,570)	\$693,335	\$608,765
2022	(180,378)	(209,547)	(389,925)
2023	(4,284)	(286,341)	(290,625)
2024	<u>36,508</u>	<u>6,131</u>	<u>42,639</u>
Total	<u>(\$232,724)</u>	<u>\$203,578</u>	<u>(\$29,146)</u>

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented below:

Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
COLA or Ad Hoc COLA	2.5 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

---

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
 Total	 100.00 %	

**Discount Rate** The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan’s fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

**Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan’s net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
School District's proportionate share of the net pension liability	\$7,027,785	\$5,014,984	\$3,326,998

**Actuarial Assumptions - STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation are presented below:

Inflation	2.50 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Discount Rate of Return	7.45 percent
Payroll Increases	3 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

---

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

\* Target weights will be phased in over a 24-month period concluding on July 1, 2019.

\*\* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2019.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

***Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate*** The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of the net pension liability	\$25,261,797	\$17,286,160	\$10,534,375

**Social Security System**

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System / State Teachers Retirement System. As of June 30, 2020, no members of the Board of Education elected Social Security. The Board's liability is 6.2 percent of wages paid.

**Note 13 – Defined Benefit OPEB Plans**

See Note 12 for a description of the net OPEB liability

**Plan Description - School Employees Retirement System (SERS)**

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2020, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer’s SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge.

For fiscal year 2020, the School District’s surcharge obligation was \$54,905.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District’s contractually required contribution to SERS was \$54,905 for fiscal year 2020, which is reported as an intergovernmental payable.

**Plan Description - State Teachers Retirement System (STRS)**

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians’ fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

The net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District’s proportion of the net OPEB liability (asset) was based on the School District’s share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

	<u>SERS</u>	<u>STRS</u>	
Proportion of the Net OPEB Liability:			
Prior Measurement Date	0.09124320%	0.08046890%	
Current Measurement Date	<u>0.08594110%</u>	<u>0.07816699%</u>	
 Change in Proportionate Share	 <u>-0.00530210%</u>	 <u>-0.00230191%</u>	
			<u>Total</u>

2024	(91,676)	(311,080)	(402,756)
2025	(87,187)	(271,971)	(359,158)
2026	(39,730)	1,514	(38,216)
Total	(\$597,251)	(\$1,614,256)	(\$2,211,507)

**Actuarial Assumptions - SERS**

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2019, are presented below:

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Inflation	3.00 percent
Wage Increases	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	3.13 percent
Prior Measurement Date	3.62 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Measurement Date	3.22 percent
Prior Measurement Date	3.70 percent
Medical Trend Assumption	
Medicare	5.25 to 4.75 percent
Pre-Medicare	7.00 to 4.75 percent

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 12.

**Discount Rate** The discount rate used to measure the total OPEB liability at June 30, 2019 was 3.22 percent. The discount rate used to measure total OPEB liability prior to June 30, 2019, was 3.70 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13 percent, as of June 30, 2019 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

***Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates*** The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.22%) and higher (4.22%) than the current discount rate (3.22%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

	1% Decrease (2.22%)	Current Discount Rate (3.22%)	1% Increase (4.22%)
School District's proportionate share of the net OPEB liability	\$2,623,333	\$2,161,238	\$1,793,818

  

	1% Decrease (6.00 % decreasing to 3.75%)	Current Trend Rate (7.00 % decreasing to 4.75%)	1% Increase (8.00 % decreasing to 5.75%)
School District's proportionate share of the net OPEB liability	\$1,731,589	\$2,161,238	\$2,731,278

**Actuarial Assumptions – STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2019, actuarial valuation are presented below:

Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3 percent
Discount Rate of Return	7.45 percent
Health Care Cost Trends	
Medical	
Pre-Medicare	5.87 percent initial, 4 percent ultimate
Medicare	4.93 percent initial, 4 percent ultimate
Prescription Drug	
Pre-Medicare	7.73 percent initial, 4 percent ultimate
Medicare	9.62 initial, 4 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 12.

**Discount Rate** The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2019.

**Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate** The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of the net OPEB asset	(\$1,104,711)	(\$1,294,632)	(\$1,454,312)
	1% Decrease	Current Trend Rate	1% Increase
School District's proportionate share of the net OPEB asset	(\$1,468,054)	(\$1,294,632)	(\$1,082,234)

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Note 14 – Employee Benefits**

**Compensated Absences**

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Unused vacation time at the end of a fiscal year is not accumulated or carried forward to the next fiscal year. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 249 days for all personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of 62 days.

**Life Insurance**

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Assurant Employee Benefits in the amount of \$25,000 for all employees enrolled.

**Retirement Incentive**

Upon reaching 30 years of retirement credit in the State Teachers Retirement System (STRS), teachers become eligible to receive a \$10,000 retirement bonus (incentive), providing they retire in their 30<sup>th</sup> year. The benefit will be paid in a lump sum payment in January following the effective fiscal year of retirement.

During fiscal year 2020, the School District paid no retirement incentives. At June 30, 2020, no retirement incentives were outstanding, and as a result, no amount was accrued as a liability.

**Note 15 – Capitalized Leases**

In prior years, the School District has entered into capitalized leases for copiers and buses. These leases meet the criteria of a capital lease which is when a lease transfers benefits and risks of ownership to the lessee. Capital lease payments are reflected as debt service expenditures in the basic financial statements. The capitalized lease for the buses was paid off during fiscal year 2020.

The remaining agreement provides for minimum annual lease payments as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$20,634	\$1,534	\$22,168
2022	11,841	250	12,091
Total	<u>\$32,475</u>	<u>\$1,784</u>	<u>\$34,259</u>

Principal payments in fiscal year 2020 totaled \$120,042 in the governmental funds, which includes the capitalized lease payoff for the buses. The remaining capitalized leased assets were originally capitalized in the amount of \$101,269. This amount represents the present value of the minimum lease payments at the time of acquisition.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

Property under Capital Lease	\$101,269
Less: Accumulated Depreciation	<u>(70,889)</u>
Total June 30, 2020	<u><u>\$30,380</u></u>

**Note 16 – Long-Term Obligations**

The changes in the School District’s long-term obligations during fiscal year 2020 were as follows:

	Principal Outstanding 6/30/2019	Additions	Deductions	Principal Outstanding 6/30/2020	Due in One Year
School Improvement Refunding General Obligation Bonds					
Term Bonds - 2007 - 5.25%	\$995,000	\$0	\$310,000	\$685,000	\$330,000
Bond Premium	32,799	0	10,933	21,866	0
Total Long-Term Bonds	<u>1,027,799</u>	<u>0</u>	<u>320,933</u>	<u>706,866</u>	<u>330,000</u>
Net Pension Liability:

Capital Leases	<u>152,517</u>	<u>0</u>	<u>120,042</u>	<u>32,475</u>	<u>20,634</u>
Compensated Absences Payable	<u>1,599,973</u>	<u>77,245</u>	<u>4,618</u>	<u>1,672,600</u>	<u>20,748</u>
Total General Long-Term Obligations	<u><u>\$28,174,455</u></u>	<u><u>\$77,245</u></u>	<u><u>\$1,377,377</u></u>	<u><u>\$26,874,323</u></u>	<u><u>\$371,382</u></u>

*2007 School Improvement Refunding General Obligation Bonds* – The School District had previously issued 2000 School Facilities Improvement General Obligation Bonds for school improvements that were partially refunded through the 2007 School Improvement Refunding General Obligation Bonds. At the date of refunding, \$2,311,754 was deposited in an irrevocable trust to provide for all future debt service payments on the refunded 2000 School Facilities Improvement General Obligation Bonds. As all of the legal steps had been taken to refund the debt, the balance of the outstanding bonds refunded was removed from the School District’s financial statements. On December 1, 2009, the 2007 school improvement refunding general obligation bonds were called and paid in full and the escrow account was closed.

On August 16, 2006, the School District issued \$2,170,000 of School Improvement Refunding General Obligation Bonds that were issued to partially refund the 2000 School Facilities Improvement General Obligation Bonds. The bonds were issued for a sixteen year period with a final maturity at December 1, 2021. The \$2,170,000 School Improvement Refunding General Obligation Bonds were issued at a premium in the amount of \$174,936. The partial advance refunding resulted in a difference between the net carrying amount of the debt and the acquisition price, in the amount of \$131,754. This difference is being reported in the accompanying financial statements as deferred outflows of resources – deferred charge on refunding and is being amortized to interest expense over the life of the bonds using the straight-line method. The fiscal year 2020 amortization of this is \$8,235.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Principal and interest requirements to the 2007 School Improvement Refunding General Obligation Bonds outstanding at June 30, 2020 are as follows:

Fiscal Year Ending June 30,	Principal	Interest
2021	\$330,000	\$27,300
2022	355,000	9,319
Total	<u>\$685,000</u>	<u>\$36,619</u>

The School District's overall legal debt margin was \$17,935,286 with an unvoted debt margin of \$201,681 at June 30, 2020.

Capital leases are paid from the General Fund and the Permanent Improvement Fund. Compensated absences are paid from the fund from which the employees' salaries are paid, which includes the General Fund and the Food Service Special Revenue Fund. The School District pays obligations related to employee compensation from the fund benefitting from their service. There is no repayment schedule for the net pension / OPEB liability. However, employer pension contributions are made from the following funds: General Fund, Food Service, Title VI-B, Title I, and Miscellaneous Federal Grants Special Revenue Funds. For additional information related to the net pension/OPEB liability see Notes 12 and 13.

**Note 17 – Interfund Balances**

Interfund balances at June 30, 2020, consist of the following individual fund receivables and payables:

	<u>Receivable</u>	<u>Payable</u>
Major Fund:		
General Fund	<u>\$1,426</u>	<u>\$0</u>
Other Nonmajor Governmental Funds:		
Title I	0	93
Miscellaneous Federal Grants	0	1,333
Total Other Nonmajor Governmental Funds	<u>0</u>	<u>1,426</u>
Total All Funds	<u>\$1,426</u>	<u>\$1,426</u>

Interfund balances are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorization; to segregate and to return money to the fund from which it was originally provided once a project is completed. The loans made to the Title I and Miscellaneous Federal Grants Special Revenue Funds were made to support the programs, and to cover actual cash deficits, until federal and other monies are received.

**Note 18 – Jointly Governed Organizations**

**Licking Area Computer Association**

The School District is a participant in the Licking Area Computer Association (LACA) which is a computer consortium. LACA is an association which services over twenty-nine school districts, educational service centers, community schools, and non-public schools within the boundaries of Licking, Muskingum, Fairfield, Perry, Knox, and Medina Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of LACA consists of the superintendents from all participating districts. The continued existence of LACA is not dependent on the School District's continued participation and no equity interest exists.

The LACA constitution states that any school district withdrawing from the Association prior to dissolution forfeits their claim to the Association's capital assets. The School District's total payments to LACA for computer services for fiscal year 2020 were \$124,807. Financial statements for LACA can be obtained from their fiscal agent the Career and Technology Education Center of Licking County, 150 Price Road, Newark, OH 43055.

**Mid-East Career and Technology Centers**

The Mid-East Career and Technology Center is a jointly governed organization providing vocational education services to its fourteen member school districts. The Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one member from each of the participating school district's boards. The board possesses its own budgeting and taxing authority. The continued existence of the Center is not dependent on the School District's continued participation and no equity interest exists. During fiscal year 2020, the School District made no contributions to the Center. To obtain financial information write to the Mid-East Career and Technology Center, Nan Nolder, Treasurer, at 400 Richards Road, Zanesville, Ohio 43701.

**Coalition of Rural and Appalachian Schools**

The Coalition of Rural and Appalachian Schools (CORAS) is a jointly governed organization composed of over 130 school districts and other educational institutions in the 35-county region of Ohio designated as Appalachia. The Coalition is operated by a Board which is composed of seventeen members. One elected and one appointed from each of the seven regions into which the 35 Appalachian counties are divided; and three from Ohio University College of Education. The Coalition provides various in-service training programs for school district administrative personnel; gathers data regarding the level of education provided to children in the region; cooperates with other professional groups to assess and develop programs designed to meet the needs of member districts; and provides staff development programs for school district personnel. The Coalition is not dependent on the continued participation of the School District and the School District does not maintain an equity interest in or financial responsibility for the Coalition. During fiscal year 2020, the School District paid \$445 to the Coalition. The financial information for the Coalition can be obtained from the Executive Director, at 322 McCracken Hall, Ohio University, Athens, Ohio 45701.

**Ohio Coalition of Equity and Adequacy of School Funding**

The Ohio Coalition of Equity and Adequacy of School Funding is organized as a council of governments pursuant to Chapter 167 of the Ohio Revised Code. The Coalition was organized to challenge the constitutionality of the Ohio school funding system. The purpose of the Coalition is to bring about greater equity and adequacy of public school funding in Ohio. The Coalition is governed by a Steering Committee of 90 school district representatives. Though most of the members are superintendents, some treasurers, board members, and administrators also serve. Several persons serve as ex officio members. The Committee exercised total control over the operations of the Coalition including budgeting, appropriating, contracting, and designating management. Each participant's control is limited to its representation on the board. The membership of the coalition includes over 500 school districts throughout the State of Ohio. Member school districts, joint vocational schools, and educational service centers pay annual dues and supplemental dues based on their pupil enrollment. The Coalition is not dependent on the continued participation of the School District and the School District does not maintain an equity interest or financial responsibility for the Coalition. During fiscal year 2020, the School District paid \$1,165 to the Coalition. The fiscal agent for the Coalition is the Muskingum Valley Educational Service Center. Financial information may be obtained from the Ohio Coalition of Equity and Adequacy of School Funding at 100 South Third Street, Columbus, Ohio 43215.

**Note 19 – Purchasing Pools**

**Better Business Bureau of Central Ohio Incorporated - Workers' Compensation Group**

The School District participated in a group retrospective rating plan in calendar year 2019 and calendar year 2020 as established under Section 4123.29 of the Ohio Revised Code. The Better Business Bureau of Central Ohio Incorporated - Workers' Compensation Group (Program), an insurance purchasing pool established through the Better Business Bureau of Ohio, Incorporated. The Program's business and affairs are conducted by the President and CEO of the Better Business Bureau. During fiscal year 2020, the School District paid an enrollment fee of \$896 to the Program to cover the costs of administering the program.

**Ohio School Benefits Cooperative**

The School District participates in the Ohio School Benefits Cooperative, a claims servicing and group purchasing pool comprised of thirty nine members. The Ohio School Benefits Cooperative (OSBC) is created and organized pursuant to and as authorized by Section 9.833 of the Ohio Revised Code. OSBC is governed by a nine member Board of Directors, all of whom must be school district and/or educational service center administrators. The Muskingum Valley Educational Service Center serves as the fiscal agent for OSBC. OSBC is an unincorporated, non-profit association of its members which was created for the purpose of enabling members of the Plan to maximize benefits and/or reduce costs of medical, prescription drug, vision, dental, life and/or other group insurance coverage for their employees, and the eligible dependents and designated beneficiaries of such employees.

Participants pay an initial \$500 membership fee to OSBC. OSBC offers two options to participants. Participants may enroll in the joint insurance purchasing program for medical, prescription drug, vision dental and/or life insurance. A second option is available for self-insured participants that provides for the purchase of stop loss insurance coverage through OSBC's third party administrator. Medical Mutual/Antares is the Administrator of the OSBC. On November 1, 2005, the School District elected to participate in the self-insured purchasing program for medical, prescription drug, dental, and vision coverage.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**META Solutions**

The School District participates in META Solutions, a purchasing pool. META Solutions was created pursuant to Chapter 167 of the Ohio Revised Code. META Solutions is a purchasing pool created to aid school districts with purchasing services and products at discounted rates. META Solutions operates under a Board of Directors consisting of twelve members. The Board of Directors is made up of representatives from member school districts. The Board of Directors exercises total control over the operation of META Solutions including budgeting, appropriating, contracting, and designating management. The School District paid \$640 during fiscal year 2020 for utility billing monitoring services. META memberships became free effective July 1, 2017. Financial information can be obtained from META Solutions at 2100 Citygate Drive, Columbus, Ohio 43219.

**Note 20 – Set-Asides**

The School District is required by State statute to annually set-aside in the General Fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future fiscal years.

The following cash basis information describes the change in the fiscal year end set-aside amounts for capital improvements. Disclosure of this information is required by State statute.

	Capital Improvements Reserve
Set-aside Reserve Balance as of June 30, 2019	\$0
Current Year Set-aside Requirement	375,292
Current Year Offsets	(523,882)
Qualifying Disbursements	(46,999)
Total	(\$195,589)
Set-aside Balance Carried Forward to Future Fiscal Years	\$0

The School District had qualifying disbursements and offsets during the fiscal year that reduced the set-aside amount below zero. The excess in the capital maintenance set-aside may not be carried forward to reduce the set-aside requirement in future fiscal years.

**Note 21 – Significant Commitments**

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

Governmental Funds:	
General Fund	\$23,502
Nonmajor Governmental Funds	27,703
Total	\$51,205

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Note 22 – Contingencies**

**Grants**

The School District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2020.

**School Foundation**

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, ODE adjustments for fiscal year 2020 are have been finalized. The impact of the FTE adjustments have been recorded as a payable on the fiscal year 2020 financial statements.

**Litigation**

The School District is currently not a party to any material legal proceedings.

**Note 23 – COVID-19**

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the School District. The School District's investment portfolio and the investments of the pension and other employee benefit plans in which the School District's participates fluctuate with market conditions, and due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the School District's future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated.

**Note 24 – Related Party Transactions**

During fiscal year 2020, the Foxfire Intermediate School paid the Sponsor \$852,296 for the sponsorship fee, transportation costs, and the purchase of the buildings and land at 2805 Pinkerton Road in Zanesville. As of June 30, 2020, there were no amounts owed by the Intermediate School to the Sponsor.

During fiscal year 2020, the Foxfire High School paid the Sponsor \$904,760 for the sponsorship fee, supplies, utilities, transportation, and the purchase of buildings and land at 2805 Pinkerton Road in Zanesville. As of June 30, 2020, there were no outstanding expenses owed to the Sponsor.

**Note 25 – Foxfire Intermediate School and Foxfire High School Component Units**

**Basis of Presentation**

The Foxfire Intermediate School and the Foxfire High School are accounted for using a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities are included on the statement of net assets. The Foxfire Intermediate School and the Foxfire High School use the full accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and expenses are recognized at the time they are incurred.

**Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The Foxfire Intermediate School and Foxfire High School's financial statements are prepared using the accrual basis of accounting. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. Revenue resulting from nonexchange transactions, in which the Foxfire Intermediate School and Foxfire High School receives value without directly giving equal value in return, such as grants and entitlements, are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Foxfire Intermediate School and Foxfire High School must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Foxfire Intermediate School and Foxfire High School on a reimbursement basis. Expenses are recognized at the time they are incurred.

***Deferred Outflows/Inflows of Resources*** In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the Foxfire Intermediate School and Foxfire High School, deferred outflows of resources are reported on the statement of net position for pension and OPEB plans.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the Foxfire Intermediate School and Foxfire High School, deferred inflows of resources include pension and OPEB plans. These amounts have been recorded as a deferred inflow on the statement of net position. Deferred inflows of resources related to pension and OPEB plans are reported on the statement of net position.

**Pensions/Other Postemployment Benefits (OPEB)**

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

**Maysville Local School District, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Capital Assets**

Property and equipment are recorded at cost if purchased or at estimated fair market value at the date of donation. Expenditures for major additions and improvements are capitalized. Minor replacements, maintenance, and repairs are charged to expense as incurred. When property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method. The Foxfire Intermediate School and the Foxfire High School report capital asset depreciation using the straight-line method over the estimated useful life.

The Foxfire Intermediate School's capital assets during fiscal year 2020 consisted of buildings and improvements, land, computer equipment, video equipment, office equipment, and signs valued at \$1,055,090 with accumulated depreciation of \$224,473 and a remaining book value of \$830,617.

The Foxfire High School's capital assets during fiscal year 2020 consisted of classroom and computer equipment, video equipment, signs, athletic equipment, kitchen equipment, furniture, and classroom improvements valued at \$1,620,130 with accumulated depreciation of \$194,311 and a remaining book value of \$1,425,819.

**Change in Accounting Principles**

The Governmental Accounting Standards Board (GASB) recently issued GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The Foxfire Intermediate School and Foxfire High School evaluated implementing these certain GASB pronouncements based on the guidance in GASB 95.

For fiscal year 2020, the Foxfire Intermediate School and Foxfire High School implemented GASB Statement No. 84, *Fiduciary Activities*, and related guidance from (GASB) Implementation Guide No. 2019-2, *Fiduciary Activities*. GASB Statement No. 84 established specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business type activities should report their fiduciary activities. These changes were incorporated in the Foxfire Intermediate School's and Foxfire High School's fiscal year 2020 financial statements; however, there was no effect on beginning net position/fund balance because neither the Foxfire Intermediate School nor Foxfire High School has any fiduciary funds.

For fiscal year 2020, the Foxfire Intermediate School and Foxfire High School also implemented the Governmental Accounting Standards Board's (GASB) *Implementation Guide No. 2018-1*. These changes were incorporated in the Foxfire Intermediate School's and Foxfire High School's 2020 financial statements; however, there was no effect on beginning net position.

**Related Party Transactions**

The Board of Directors of the Foxfire Intermediate School consists of five community members recommended by the Executive Director of the Foxfire Intermediate School after consulting with Maysville Local School District's (Sponsor) Superintendent. The Foxfire Intermediate School is presented as a component unit of the Sponsor. During fiscal year 2020, the Foxfire Intermediate School paid the Sponsor \$852,296 for the sponsorship fee, transportation costs, and the purchase of the buildings and land at 2805 Pinkerton Road in Zanesville. As of June 30, 2020, there were no amounts owed by the Foxfire Intermediate School to the Sponsor.

**Defined Benefit Pension Plans**

**Net Pension Liability**

The Foxfire Intermediate School contractually required contribution to SERS was \$20,170 for fiscal year 2020. Of this amount, \$2,970 is reported as an intergovernmental payable

The Foxfire High School contractually required contribution to SERS was \$112,842 for fiscal year 2020. Of this amount, \$9,739 is reported as an intergovernmental payable.

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Intermediate School's proportion of the net pension liability was based on the Intermediate School's share of contributions to the pension plan relative to the contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

**Foxfire Intermediate School**

	<u>SERS</u>	<u>STRS</u>

*For the Fiscal Year Ended June 30, 2020*

---

**Social Security System**

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System / State Teachers Retirement System. As of June 30, 2020, only one of the Foxfire Intermediate School Board of Education members elected Social Security, while none of the Foxfire High School Board of Education members elected Social Security.

**Postemployment Benefits**

For fiscal year 2020, the Foxfire Intermediate School's surcharge obligation was \$1,133. The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The Foxfire Intermediate School's contractually required contribution to SERS was \$1,133 for fiscal year 2020 and all was reported as an intergovernmental payable.

For fiscal year 2020, the Foxfire High School's surcharge obligation was \$5,882. The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The Foxfire High School's contractually required contribution to SERS was \$5,882 for fiscal year 2020 and all was reported as an intergovernmental payable.

The net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The Intermediate School's proportion of the net OPEB liability (asset) was based on the Intermediate School's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

**Foxfire Intermediate School**

Total	\$706,858	\$175,258

**COVID-19**

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the Foxfire Intermediate School and Foxfire High School. The Foxfire Intermediate School’s and Foxfire High School’s investment portfolio and the investments of the pension and other employee benefit plans in which the Foxfire Intermediate School and Foxfire High School participates fluctuate with market conditions, and due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the Foxfire Intermediate School’s and Foxfire High School’s future operating costs, revenues, and additional recovery from emergency funding, either federal or State, cannot be estimated.

**Subsequent Event**

On August 19, 2020, the Foxfire Intermediate School entered into a purchase order for \$289,954 for restroom renovations with Lepi Enterprises, Incorporated.

**Net Pension Liability**

**Changes in Assumptions – SERS**

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc Cola. Prior to 2018, an assumption of 3 percent was used.

Beginning with fiscal year 2017, amounts reported incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. These assumptions compared with those used in fiscal year 2016 and prior are presented below:

	<u>Fiscal Year 2017</u>	<u>Fiscal Year 2016 and Prior</u>
Wage Inflation	3.00 percent	3.25 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent	4.00 percent to 22.00 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation	7.75 percent net of investments expense, including inflation

Beginning with fiscal year 2017, mortality assumptions use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

**Changes in Assumptions - STRS**

Beginning with fiscal year 2018, amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2017 and prior are presented below:

	<u>Fiscal Year 2018</u>	<u>Fiscal Year 2017 and Prior</u>
Inflation	2.50 percent	2.75 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65	12.25 percent at age 20 to 2.75 percent at age 70
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation	7.75 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3.5 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

**Maysville Local School District, Ohio**  
*Notes to Required Supplementary Information*  
*For the Fiscal Year Ended June 30, 2020*

---

Beginning with fiscal year 2018, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

### **Net OPEB Liability**

#### **Changes in Assumptions – SERS**

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Municipal Bond Index Rate:	
Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Fiscal year 2020	3.22 percent
Fiscal year 2019	3.70 percent
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent

#### **Changes in Assumptions – STRS**

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB *Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

**Maysville Local School District, Ohio**  
*Notes to Required Supplementary Information*  
*For the Fiscal Year Ended June 30, 2020*

---

**Changes in Benefit Terms – STRS OPEB**

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

**MAYSVILLE LOCAL SCHOOL DISTRICT  
MUSKINGUM COUNTY**

**NOTES TO THE SCHEDULE OF RECEIPTS AND EXPENDITURES OF FEDERAL AWARDS  
2 CFR 200.510(b)(6)  
FOR THE YEAR ENDED JUNE 30, 2020**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Receipts and Expenditures of Federal Awards (the Schedule) includes the federal award activity of Maysville Local School District (the School District) under programs of the federal government for the year ended June 30, 2020. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Receipts and expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

**NOTE C – INDIRECT COST RATE**

The School District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE D - SUBRECIPIENTS**

The School District did not provide funds to subrecipients during the audit period.

**NOTE E - CHILD NUTRITION CLUSTER**

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

**NOTE F – FOOD DONATION PROGRAM**

The School District reports commodities consumed on the Schedule at the entitlement value. The School District allocated donated food commodities to the respective programs that benefitted from the use of those donated food commodities.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Maysville Local School District  
Muskingum County  
3715 Panther Drive  
Zanesville, Ohio 43701

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Maysville Local School District, Muskingum County, Ohio (the School District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated February 25, 2021, wherein we noted the School District adopted new accounting guidance in Governmental Accounting Standards Board Statement (GASB) No. 84, *Fiduciary Activities*. We also noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the School District.

### ***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements.

However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Keith Faber  
Auditor of State  
Columbus, Ohio

February 25, 2021

# OHIO AUDITOR OF STATE KEITH FABER

PO Box 828

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Maysville Local School District  
Muskingum County  
3715 Panther Drive  
Zanesville, Ohio 43701

To the Board of Education:

### ***Report on Compliance for the Major Federal Program***

We have audited the Maysville Local School District's, Muskingum County, Ohio (the School District), compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Maysville Local School District's major federal program for the year ended June 30, 2020. The *Summary of Auditor's Results* in the accompanying Schedule of Findings identifies the School District's major federal program.

### ***Management's Responsibility***

The School District's management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### ***Auditor's Responsibility***

Our responsibility is to opine on the School District's compliance for the School District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the School District's major program. However, our audit does not provide a legal determination of the School District's compliance.

### ***Opinion on the Major Federal Program***

In our opinion, the Maysville Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2020.

***Report on Internal Control Over Compliance***

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
