We have reviewed the *Independent Auditors' Report* of the Toledo City School District, Lucas County, prepared by Clark, Schaefer, Hackett & Co., for the audit period July 1, 2019 through June 30, 2020. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Toledo City School District is responsible for compliance with these laws and regulations.

**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS:**

**NOTE A - BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the Toledo City School District (the "District") under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

**NOTE B - SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

**NOTE C - FOOD DISTRIBUTION**

Nonmonetary assistance is reported in the schedule at the entitlement value of the commodities received and disbursed.

**NOTE D - CHILD NUTRITION CLUSTER**

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

**NOTE E - MATCHING REQUIREMENTS**

Certain Federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

**NOTE F - SUBRECIPIENTS**

The District passes certain federal awards received from the U.S. Department of Health and Human Services to other governments or not-for-profit agencies (subrecipients) As Note B describes, the District reports receipts and expenditures of Federal awards to subrecipients when paid in cash. As a subrecipient, the District has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and those subrecipients achieve the award's performance goals.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

**INDEPENDENT AUDITORS' REPORT**

To the Board of Education  
Toledo City School District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Toledo City School District (the "District") as of and for the year ended June 30, 2020 and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 23, 2020.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a certain deficiency in internal control, described as finding 2020-001 in the accompanying schedule of findings and questioned costs, that we consider to be a material weakness.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **District's Response to the Finding**

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY UNIFORM GUIDANCE****INDEPENDENT AUDITORS' REPORT**

To the Board of Education  
Toledo City School District:

**Report on Compliance for Each Major Federal Program**

We have audited the Toledo City School District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

***Opinion on Each Major Federal Program***

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

## **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of compliance requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We have issued our report thereon dated December 23, 2020, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United State of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## Section II – Financial Statement Findings

### **Finding 2020-001 – Audit Adjustments**

*Condition:* During the course of our audit, we identified two misstatements that were material in the aggregate. These misstatements were a result of the Generally Accepted Accounting Principles (GAAP) conversion process and involved cash and intergovernmental receivable. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A deficiency in operation exists when a properly designed control does not operate as designed. In this case, the internal controls over the preparation and review of the District's financial statements did not operate as designed and we consider this a material weakness.

*Recommendation:* We recommend the District continue to enhance its internal controls over financial reporting with steps such as management analysis of the financials compared to prior years to ensure the preparation of reliable financial statements in conformity with generally accepted accounting principles.

*Management's Response:* *The District has established internal controls to monitor all activity on a more frequent basis to ensure accumulated variances are identified and remedied immediately.*

Board of Education Members and Citizens of the Toledo City School District:

As the Superintendent and Treasurer of the Toledo City School District (the District), we are pleased to submit to you this Comprehensive Annual Financial Report (CAFR) of the District. This CAFR, for the year ended June 30, 2020, includes an opinion from Clark, Schaefer, Hackett & Co., conforms to generally accepted accounting principles (GAAP) and is in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA).

Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. This report will provide the taxpayers of the Toledo City School District with comprehensive financial data in a format enabling them to gain an understanding of the School District's financial affairs. Copies will be made available to National Municipal Information Repository (NMSIR), State Information Depository (SID), other financial rating services and other interested parties.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Toledo City School District's MD&A can be found immediately following the report of the independent accountants.

In FY20, the district saw a slight decrease in enrollment. As of June 30, 2020, the School District had 22,841 students (compared to 23,162 as of 2019) enrolled in its 44 K-8 schools, 7 senior high schools and 8 education/specialized learning centers (which provide special curriculums and vocational education and skills programs), making it the fourth largest public school system in the State. For the current academic year the average class size is 29 students (for grades 1 through 8), and the average pupil/teacher ratio 12:6. The average building is ten years old.

The District employs (full- and part-time) 2,305 professional staff members and 1,376 nonteaching and support staff employees. Approximately 57% of the members of the teaching staff have master's degrees, and 1% have doctorates. The District's faculty has an average of 13.30 years' teaching experience. The District also operates a central office facility, a maintenance center, a central kitchen, a warehouse and a transportation depot.

The District is organized into learning communities. Each learning community has its own high school and elementary schools that feed into it. Special facilities and School Assistance Centers also support these learning communities. Three Transformational Leaders work with the schools to provide direction for leadership and school management. In addition, the Curriculum Division works to enhance student learning and to drive school reform efforts. Toledo Public Schools is fortunate to have the support of the Parent Congress, an active parent advisory board that collaborates with the Superintendent on a number of current issues, including: parent involvement across the district and developing greater educational opportunities for students.

The District's high schools are fully accredited by the North Central Association of Colleges and Schools. The District's curriculum offers a wide range of electives and comprehensive courses of study in college preparatory, vocational and physical education programs. A full range of extra-curricular programs and activities is available, beginning in the elementary grades. All District schools have libraries, lunch programs and multipurpose rooms or gymnasiums for student activities.

The Board of Education of the Toledo City School District (the Board) is a five-member body politic and corporate, as defined by Section 3313.02, Ohio Revised Code. The Board serves as the taxing authority, contracting body, policy maker, and ensures that all other general laws of the State of Ohio are followed in the expenditure of the District's tax dollars and approves the annual appropriation resolution.

### **ECONOMIC CONDITIONS AND OUTLOOK**

Over three-fourths of North America's car and truck final assembly plants are within 500 miles of Toledo and 35 percent (35%) of these facilities are within 250 miles. Thirty-six percent (36%) of U.S. and nineteen percent (19%) of Canadian transportation equipment manufacturing are within a 250-mile radius of Toledo. In addition, 33 percent (33%) of the U.S. population resides within 500 miles of Toledo. The Toledo Metropolitan Area offers 25 industrial parks, seven of which are located within the Toledo City School District. Statistics indicate that employment in the Toledo area-manufacturing industries represent only about one-fourth of the available jobs in the area. The majority of work is found in non-manufacturing areas such as service industries, retail trade, and government jobs.

Transportation plays an important role in the Toledo area economy. The Port of Toledo is Ohio's largest and most diversified port and one of the nation's largest shippers of coal and grain. The Port offers a foreign trade zone encompassing 300,000 square feet of covered storage area serviced by ship, rail, and truck. Toledo is one of the nation's largest rail hubs with four major lines serving the area. Intrastate and interstate truck services are provided by more than 100 common carriers, including almost all major truck lines, as well as approximately 30 local cartage companies. Toledo Express Airport offers both general and commercial aviation services.

Lucas County is the home of the Toledo Mud Hens and operates the 10,300 seat Fifth Third Field Stadium, in the Warehouse District. The Mud Hens, a Triple A baseball team, is in the Detroit Tigers farm system. Unfortunately, due to the COVID-19 pandemic, the Mud Hens were unable to play in the 2020 season. However, the park was used as an offsite training ground for Detroit Tigers reserve players.

Lucas County's Huntington Center is a multi-purpose arena in downtown Toledo. The arena is located one block from Fifth Third Field and has a seating capacity of 8,000. The arena is home to the ECHL hockey team the Toledo Walleye, a feeder team to the Detroit Red Wings and Chicago Black Hawks. In addition, the arena hosts numerous concerts and shows annually. Due to the COVID-19 pandemic, all activity at the Huntington Center was cancelled effective March 16, 2020.

In the summer of 2020, Amazon broke ground on a distribution center in South Toledo on the 58.5 acre site of the former Southwyck Mall. The distribution center is expected to create 10 full-time and 110 part-time positions. This is in addition to Amazon building a 640,000 square foot distribution facility in the neighboring suburb of Rossford, Ohio that will add 1,000 full-time jobs in the Toledo MSA. The minimum hourly wage at these facilities will be \$15 an hour.

The area has diverse recreational, cultural, and educational resources. The City of Toledo has over 100 parks ranging from small neighborhood playgrounds to large centralized parks with full recreational facilities including picnic areas, ball diamonds, tennis courts, and swimming pools. The Maumee River and Lake Erie offer many water sport activities such as boating, sailing, water skiing, and fishing. The Area Metropark System has over 11,000 acres in seventeen locations with two more locations currently under development. Local professional sports include the Toledo Mud Hens Baseball Team, the Toledo Walleye Hockey Team, and the Annual LPGA Golf Tournament. There are over 20 public and private golf courses in the area. The Toledo Zoo ranks among the best in the country. Toledo also boasts the world-renowned Toledo Museum of Art, which houses over 700 paintings, 5,000 pieces of glass, and a nationally respected symphony. The Museum also has a glass exhibit, storage, and research center. Continuing and Advanced Education is available at the University of Toledo, University of Toledo Community and Technical College, UT Health Sciences Campus, Bowling Green State University, Owens Community College, and Lourdes University.

### **SIGNIFICANT ACCOMPLISHMENTS FOR THE YEAR**

For most of the 2019-2020 school year, Toledo Public Schools continued its momentum with a number of innovative partnerships and projects. However, due to the coronavirus, district leaders found themselves challenged in ways they never expected as they worked to serve students and their families.

The school year started with the district fulfilling an important commitment to revamp one elementary school in each learning community with a new curriculum focused on STEMM education or science, technology, engineering, math and medicine. Hawkins STEMM Academy went through a makeover that included new furnishings and technology upgrades that promise students an introduction to careers of the future. This transformation led to a more robust partnership between Toledo Public Schools and Metroparks Toledo. Through this relationship, students at Hawkins and the district's Natural Science and Technology Center will be connected to the Toledo Botanical Garden, with the chance to have hands on learning options for those interested in science-related careers.

The district's commitment to broadening STEMM academic options for students earned the recognition of Ohio Governor Mike DeWine, who traveled to the Glass City and held a roundtable discussion at Marshall STEMM Academy to discuss the state's focus on STEMM education.

As part of the district's promise to continue offering new Career Technology pathways for high school students, Waite High School hosted a grand opening to highlight its new Construction Academy. The curriculum of this program revolves around welding, carpentry and other key areas in the construction field.

Another highlight for Career Technology included hosting the second annual Career Expo. More than 60 career and technology based employers and community partners participated and encouragingly talked with students who are planning to follow a career path after high school.

Toledo Public Schools is committed to the health and wellbeing of its students and the community it serves. Rogers High School was the first of three high schools in the district to open a community-based health clinic that offers an array of medical services to its students. Sponsored by the Health Partners of Western Ohio, clinics at Waite and Scott high schools are now open and servicing the residents in the areas surrounding each school.

As the need for technology continued to be a priority for TPS, a partnership with LMHA provided a number of families from Jones Leadership Academy of Business, Martin Luther King, Jr. Academy for Boys and Ella P. Stewart Academy for Girls with computers and three months of free Wi-Fi. This generous donation became more beneficial than originally thought during the second semester of the year.

On March 12, 2020, Governor DeWine announced the closure of all schools in the State of Ohio in an attempt to prevent the spread of the coronavirus, or COVID-19. With just four days to plan, Dr. Romules Durant, CEO/Superintendent for Toledo Public Schools, made the decision to close the schools and pivot to remote learning. Realizing that TPS has more than 23,000 families, the district established many innovative ways to continue serving students while removing barriers to learning. Some examples include parking buses from the district's fleet that were equipped with internet in public housing units so students could logon to Chromebooks to complete school assignments. Other outreach efforts included distributing more than 8,000 Chromebooks to students who had no access to technology and providing *grab and go* meals for students and families in need.

As graduation season approached, district leaders knew it was important to provide graduates from the Class of 2020 with a memorable event – one that did not allow them to convene as a class and walk across a stage to receive their diploma. The district produced a virtual graduation ceremony for each of its 10 high schools, including speeches from valedictorians, salutatorians and key community leaders. A drive through event was also held for each high school, which did provide the graduates with a chance to walk across a smaller stage and shake hands with the superintendent. Staff members from across the district participated in these daylong events and added to the pomp and circumstance that the graduates and their families deserved.

The ongoing COVID-19 crisis challenged TPS leaders to find innovative ways to meet the academic needs of students across the district.

### **DEPARTMENT FOCUS**

The Treasurer's Division has continued to show leadership and growth by striving for excellence in developing and implementing sound fiscal management, accounting and reporting standards.

The Ohio Enterprise Zone Act authorizes the City of Toledo (City) and Lucas County (County) to designate areas as Enterprise Zones (EZ's), Community Reinvestment Areas (CRA's) and Tax Incremental Financings (TIF's) and to execute agreements with certain enterprises for the purpose of establishing, expanding, renovating or occupying facilities and hiring new employees and preserving jobs within said zones in exchange for specified local tax incentives. Under the abatement and tax increment financing programs, the City and the County exempt the incremental increase in the value of certain property from ad valorem property taxes in whole or in part for varying periods of time.

In 1995, the School District and the City entered into an agreement pursuant to which the School District is to receive contributions in lieu of taxes from taxpayers granted tax abatements. The Treasurer or his designee is responsible to attend Industrial Development Committee (IDC) meetings held by the City and County to review and approve new tax abatements with local businesses. After approval for abatement, the Treasurer or his designee is also responsible for accounting for all revenue received from the approved company in the form of Contributions in Lieu of Taxes and to report those results to the City of Toledo's or Lucas County's Tax Incentive Review Committee (TIRC) as requested. The TIRC(s) review all tax abatements every calendar year and make recommendations to the City of Toledo's City Council and/or Lucas County Commissioners on the continuation of those incentives. Before March 31 of each year, the TIRC submits a comprehensive annual report to the State of Ohio in accordance with the Ohio Revised Code. The Treasurer or his designee is responsible for forecasting all anticipated revenue from the revenue sharing agreements for inclusion in the District's five year forecast submitted to the Ohio Department of Education in May and October of each year.

The Treasurer, Superintendent and Board President are authorized to enter in School District Payment Agreements outlining the terms of the abatement and the revenue to be received by the District. A separate standardized agreement is executed for each company requesting tax abatement and formalized with a School District Payment Agreement signed by a representative of the abated company, the Treasurer, Superintendent and Board President. The school District payment agreement can be found on the Districts' website through the Board Docs Library. Revenue Sharing Agreements beyond the scope of the standardized agreement must be approved by individual resolution by the Board of Education. All School District Payment Agreements are negotiated to hold the District fiscally harmless had the abatement been granted under applicable laws without the permission of the District.

As of June 30, 2020, there are 27 active abatements with respect to approximately \$94,069,930 of real property in the School District. Four of the abatements, for \$60,298,500 in value, were made pursuant to an agreement requiring the taxpayer to make payments in lieu of taxes to the City in connection with a tax increment financing. The last of those abatements will expire in 2050. The remaining 23 active abatements, aggregating approximately \$33,771,430 for real property, were generally made pursuant to agreements that require the taxpayer to make contributions in lieu of tax payments to the School District. The last of those abatements is to expire in 2036.

**TOLEDO CITY SCHOOL DISTRICT**

**Letter of Transmittal  
For the Fiscal Year Ended June 30, 2020**

The following table shows the amounts of those contributions received by the School District in recent Fiscal Years:

<b>Fiscal Year</b>	<b>Payments</b>
2012	\$564,564
2013	477,977
2014	475,932
2015	510,769
2016	516,375
2017	487,450
2018	672,069
2019	1,219,222
2020	1,244,869
2021(a)	1,262,924

(a) Estimated.

Since the inception of the revenue sharing program, the District has received \$19,253,532 in contributions in lieu of tax payments.

These Agreements promote the economic welfare of our community by creating new jobs, while retaining and preserving existing jobs and employment opportunities, as facilities are established, expanded, renovated or occupied within designated abatement Zones. It is hoped that the success of these Revenue Sharing Agreements will set the stage for future cooperation between government entities.

As of June 30, 2020, the Toledo City School District has underlying debt ratings of A- from Fitch Ratings, A2 from Moody's Investment Service and A+ from Standard and Poor's. Financial information was provided to all external-rating agencies resulting in the District maintaining the above-mentioned ratings. Financial information was also furnished to the Ohio Municipal Advisory Council (OMAC), which has applied for and received the designation of being the State Information Depository (SID) for the State of Ohio. The establishment of SID provides the State with more uniform central distribution of financial information to debt holders and potential bidders of debt for the Toledo City School District.

The District provides annual Continuing Disclosure filings with the appropriate National Municipal Information Repository (NMIR) and SID to keep bondholders of the Ohio School Facilities bond issue abreast of the current financial status of the District.

The Treasurer's Division implemented requirements of the Ohio Legislature as they relate to the mandatory preparation of a Five-Year Revenue and Expenditure Forecast, the multi-year Certification of Estimated Revenues, and the proper identification and appropriation of DPIA Funds. One provision of House Bill 412 requires the Board of Education to submit a Five-Year Financial Forecast to the Ohio Department of Education. The Five-Year Financial Forecast is presented to the Board of Education for adoption each November and May.

An additional provision of the Legislature requires the President of the Board of Education, the Superintendent and the Treasurer to certify that adequate revenue will be available to maintain all personnel, programs, and services essential to the operation of an adequate educational program for the length of each contract up to five years. This certification is attached to all contracts, leases, and other business transactions as required by law. Procedures are in place to ensure compliance.

The Treasurer's Division continues to focus on improving the financial position of the District. The Division has actively studied all possible alternatives to property tax financing, searched for additional revenue sources, and implemented cost saving measures. The Treasurer's Division staff will continue to maintain a high level of service and support, and identify ways to improve communications with their customers. They will continue to improve internal controls, management practices, technology utilization and enhancements, operational efficiencies, and financial processes in order to assure the fiscal integrity of District assets and improve audit results. They will continue to focus on the Board's primary objective of improving educational opportunities for the children in our community.

Other Treasurer goals and objectives that continue to be formulated and put into place include:

- Improve fiscal integrity and accountability of the District by establishing business community "forums"/meetings, developing a "popular annual financial report and budget report as a means to establish board friendly financial reports;
- Improve customer service for all customers – internal and external- from all Treasurer's division Departments;
- Improved communications from, to and between Treasurer's office departments;
- Contribute to District improvement efforts in Leadership Development;
- Contribute to District improvements in effectiveness and efficiency in service delivery;
- Provide and facilitate improved communications, to, from and amongst the Board of Education;
- Develop an "Ethically Conscious" work environment for staff and volunteers;
- Implement policy and operational recommendations pursuant to the investment review by PFM Asset Management, LLC.
- Continually utilize technology to generate cost savings, and
- Participate in legislative and community efforts for school funding and other financial impacts to the District.

## **ACCOUNTING INFORMATION**

**ACCOUNTING SYSTEM** -- The District's accounting system is organized on a fund basis. Each fund is a separate self-balancing accounting entity. The basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds use the accrual basis of accounting. The District has no component units to account for.

**INTERNAL CONTROLS** -- The Treasurer of the District is responsible for establishing an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The Management Team is responsible for assisting with implementation of the established internal controls.

## ***TOLEDO CITY SCHOOL DISTRICT***

---

### ***Letter of Transmittal For the Fiscal Year Ended June 30, 2020***

---

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of cost and benefit requires estimates and judgments by management.

**SINGLE AUDIT** -- As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation and audit by the Treasurer, Management Team and staff of the District.

As a part of the District's single audit, tests are made to determine the adequacy of the internal control structure, including that portion relating to federal financial assistance programs, as well as to verify that the District has complied with applicable laws and regulations.

### **BUDGETARY CONTROLS**

All governmental fund types are subject to annual expenditure budgets. The legal level of budgetary control is at the fund level. The procedures below outline the District's budgetary procedures:

A tax budget of estimated cash receipts and disbursements is submitted to the county auditor as secretary of the county budget commission by January 20 of each year for the fiscal year commencing the following July 1. The District's Board of Education (the Board) adopts the tax budget at its January Organizational Meeting.

The county budget commission certifies its actions to the District by March 1. As part of this certification, the District receives the official certificate of estimated resources which states the projected receipts of each fund. On or about July 1, this certificate is amended to include any unencumbered balances from the preceding year.

An annual appropriations measure is passed upon receipt of the county auditor's final tax revenue estimates, in October or November of each year for the period July 1 to June 30. Unencumbered appropriations lapse at year-end and encumbered appropriations are reported as expenditures in the current year. The Board adopts temporary appropriations at its June Board meeting to cover expenditures until the adoption of the permanent appropriations. The appropriations measure may be amended or supplemented during the year as new information becomes available. Individual buildings and/or departments are given building budgeting funds for instructional supplies, custodial supplies, meeting and mileage expenses, and equipment. Buildings and/or departments may move funds within their budgets with approval of the Superintendent and Treasurer. Appropriations may not exceed estimated resources and expenditures may not exceed appropriations in any fund.

Additionally, the District maintains an encumbrance accounting system as a useful technique of accomplishing budgetary control. Under encumbrance accounting, purchase orders, contracts and other commitments for expenditures of funds are recorded in order to reserve that portion of the applicable appropriation.

### **OTHER INFORMATION**

**Community Schools:** There are twenty-four community schools operating independently within the District's boundaries. Their funding is deducted from the State support the District receives, and transferred to the community schools directly. The amount deducted is per pupil who resides in the District and chooses to attend a community school.

**Independent Audit:** State statutes require an annual audit by independent accountants. The firm of Clark Schaefer Hackett conducted the audit for the Fiscal Year ended June 30, 2020. The Auditor's Audit Opinion is on the Basic Financial Statements. The introductory section and statistical tables are not a required part of the opinion and no opinion is rendered on those sections.

**Awards:** The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the Toledo City School District for its Comprehensive Annual Financial Report (CAFR) for the Fiscal Year ended June 30, 2019. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report (CAFR) that conforms to program standards. A CAFR must satisfy both Generally Accepted Accounting Principles and applicable legal requirements. A Certificate of Achievement award is valid for a period of one year. The Toledo City School District has received a Certificate of Achievement for the past thirty years (1989-2019). We believe our current report continues to conform to the Certificate of Achievement program requirements, and are submitting it to the GFOA for consideration.

The Toledo City School District also received the Association of School Business Officials International Certificate of Excellence in Financial Reporting for its Comprehensive Annual Financial Report for the Fiscal Year ended June 30, 2019. This award certifies that the report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials International. An expert ASBO Panel of Review consisting of Certified Public Accountants and practicing school business officials, grants the award, only after an intensive review of financial reports. Receiving the award is recognition that a school system has met the highest standards of excellence in school financial reporting. A Certificate of Excellence is valid for a period of one year only. This is the eighteenth year the District has received the Certificate of Excellence. We believe our current report continues to conform to the Certificate of Excellence requirements, and we are submitting it to ASBO to determine its eligibility for another certificate.

The Toledo City School District also received the Auditor of State's Award of Distinction for the 2019 fiscal audit.

In addition to awards for financial reporting, the District's Investment Policy was awarded the Certificate of Excellence Association of Public Treasurers of the United States and Canada.

Toledo City School District:

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Toledo City School District (the "District") as of and for the year ended June 30, 2020 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Toledo City School District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of net pension and OPEB liabilities/assets, and pension and OPEB contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, introductory section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2020, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

***Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2020***

***Unaudited***

---

The discussion and analysis of the Toledo City School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

### ***FINANCIAL HIGHLIGHTS***

**Key financial highlights for 2020 are as follows:**

- ❑ Overall, the District's financial position has decreased from 2019 to 2020, with a decrease in net position of \$30,895,332.
- ❑ General revenues accounted for \$407,445,488 in revenue or 85.0% of all revenue. Program specific revenues in the form of charges for services and grants and contributions accounted for \$72,003,726 or 15.0% of total revenues of \$479,449,214. The State Foundation portion of general revenues decreased approximately \$3.7 million from FY19 to FY20. This is attributed to the state budget being cut 20% towards the end of the fiscal year, due to the COVID-19 pandemic.
- ❑ The District had \$510,344,546 in expenses related to governmental activities; only \$72,003,726 of these expenses were offset by program specific revenues in the form of charges for services, grants or contributions. General revenues (primarily taxes totaling \$117,462,730 and unrestricted state and federal revenues totaling \$286,075,629), plus investment earnings and miscellaneous revenues were not adequate to provide for these programs.
- ❑ The assets and deferred outflows of the District exceeded its liabilities and deferred inflows at June 30, 2020 by \$203,635,171 (net position). The District's total net position decreased by \$30,895,332 in fiscal year 2020.
- ❑ As the only major fund, the general fund had \$387,255,749 in revenues, \$384,423,078 in expenditures, \$55,379 in transfers in and \$455,154 in transfers out, resulting in the general fund balance increasing by \$2,432,896 to \$88,288,557. This increase is attributable to operational efficiencies and cost saving measures.

### ***OVERVIEW OF THE FINANCIAL STATEMENTS***

This Annual Report consists of three parts – management's discussion and analysis, the basic financial statements, and an optional section that presents combining statements for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the District:

These statements are as follows:

1. *The Government-Wide Financial Statements* – These statements provide both long-term and short-term information about the District's overall financial status.
2. *The Fund Financial Statements* – These statements focus on individual parts of the District, reporting the District's operations in more detail than the government-wide financial statements.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

### ***Government-wide Statements***

The government-wide statements report information about the District as a whole using accepted methods similar to those used by private-sector companies. The Statement of Net Position includes all of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net-position (the difference between the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources) are one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional nonfinancial factors such as the property tax base, current property tax laws, and student enrollment growth and facility conditions.

The government-wide financial statements of the District falls into one category:

- *Governmental Activities* – All of the District's programs and services are reported here including instruction, support services, non-instructional and extracurricular activities.

### ***Fund Financial Statements***

The fund financial statements provide more detailed information about the District's most significant funds, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

***Governmental Funds*** – Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance

educational programs. The relationship (or difference) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

**Proprietary Funds** – The District uses internal service funds to report activities that provide supplies and services for the District's other programs and activities. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities.

**Fiduciary Funds** – The District is the trustee, or fiduciary, for various student-managed activity programs, various scholarship programs and other items listed as agency and private purpose. It is also responsible for other assets that, due to a trust arrangement can only be used for the trust beneficiaries. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

**Toledo City Schools Governmental Activities**

The net pension liability is reported by the District pursuant to GASB Statement 68, “Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27.” The net OPEB liability/asset is reported by the District pursuant to GASB Statement 75, “Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.” For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District’s actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan’s *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio’s statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability/asset to equal the District’s proportionate share of each plan’s collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees’ past service
2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the “employment exchange” – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

---

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability/asset, respectively, not accounted for as deferred inflows/outflows.

**Governmental Activities**

Net position of the District’s governmental activities decreased \$30,895,332. During the year, the District added two new special revenue funds. One fund is to account for funds that are to be used for dealing with the challenges presented to the District during the current COVID-19 pandemic that the world is dealing with. The increase in total overall revenues can largely be attributed to the federal grant receipted into this fund during the year to be used in dealing with this crisis. These funds and their COVID related expenses also contributed to the increase in overall expenses for the year. In addition, the District received funding from the state in the form of the Student Wellness and Success Fund. The Student Wellness and Success Fund is provided in the State of Ohio’s biennium budget. The District also had very large increase in expenses related to the STRS net pension obligation for the year. The overall decrease in net position can be attributed to the additional expenses related to the COVID crisis and the changes in the net pension and net OPEB liabilities/asset.

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. As an example, a homeowner with a home value at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00. However, the assessed millage cannot be reduced below 20 mills, according to state statutes. Thus, school Districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to voters to maintain a constant level of service.

Property taxes made up 24.50% of revenues for governmental activities for the Toledo City School District in fiscal year 2020. The breakdown of the District’s revenue sources is:

Revenue Sources	2020	Percent of Total
General Grants	\$286,075,629	59.67%
Program Revenues	72,003,726	15.02%
General Tax Revenues	117,462,730	24.50%

**FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS**

The District's governmental funds reported a combined fund balance of \$103,037,881, which is a decrease from last year's total of \$110,924,608. The schedule below indicates the fund balance and the total change in fund balance by fund type as of June 30, 2020 and 2019.

	<u>Fund Balance June 30, 2020</u>	<u>Fund Balance June 30, 2019</u>	<u>Increase (Decrease)</u>
General	\$88,288,557	\$85,855,661	\$2,432,896
Other Governmental	<u>14,749,324</u>	<u>25,068,947</u>	<u>(10,319,623)</u>
Total	<u>\$103,037,881</u>	<u>\$110,924,608</u>	<u>(\$7,886,727)</u>

There was a smaller increase in the General Fund balance in the current year when compared to the previous year. Much of this can be attributed to the decrease in intergovernmental funding from both the state and the federal government. The General Fund State Foundation payments decreased due to the 20% overall decrease in the state's budget towards the end of the fiscal year, brought on by the decrease in tax revenues attributed the COVID-19 pandemic.

Part of the decrease to the "Other Governmental" total is attributable to two new special revenue funds, the Student Wellness and Success Fund and the CARES Fund. The Student Wellness and Success Fund was established as part of the state's biennium budget. The CARES Fund was established to account for funds related to the COVID-19 pandemic the world is currently dealing with. There was also an increase in capital expenditures in the Permanent Improvement Fund. These expenditures included parking lot improvements, renovations, and HVAC projects.

During fiscal year 2020 total General Fund revenues decreased by 2.2%. The material make up of this decrease is from a decrease in State and Federal revenue. In 2019, the district received several Federal Medicaid reimbursements that were not received in fiscal year 2020.

During fiscal year 2020 total General Fund expenditures increased by less than 1%. The material make up of this increase is a result of increased salaries and benefits expenditures.

The District's budget is prepared according to Ohio law and is based on accounting for transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. The legal level of control established by the Board of Education is at the fund level.

A final Supplementing/Amending Appropriation Measure was approved prior to the close of the fiscal year.

The following schedule provides a comparison of the original budget estimates compared to the final budget, including other financing sources and uses, estimates for the General Fund:

For financial reporting purposes the District capitalizes all assets in excess of \$5,000. Detailed information regarding capital asset activity is included in the notes to the basic financial statements (Note 10).

*Debt* - At June 30, 2020, the District had \$103,960,000 in General Obligation Bonds outstanding, \$6,460,000 due within one year. The following table summarizes the District's debt outstanding as of June 30, 2020 and 2019:

	2020	2019
Governmental Activities:		
General Obligation Bonds	\$103,960,000	\$110,190,000
Premium on G.O. Bonds	9,925,115	11,046,008
Compensated Absences	23,921,620	19,093,662
Totals	\$137,806,735	\$140,329,670

Under current state statutes, the District's debt issue is subject to a legal limitation based on 9% of the total assessed value of real and personal property. At June 30, 2020, the District's outstanding debt was below the legal limit. Detailed information regarding debt is included in the notes to the basic financial statements (Note 13).

*Management's Discussion and Analysis  
For the Fiscal Year Ended June, 30 2020*

*Unaudited*

---

**ECONOMIC FACTORS**

School Districts are required by Ohio law to prepare, and submit to the State Department of Education each year, a five-year financial forecast. The District submitted its last such annual forecast to the Department in November 2020.

FY20 had an additional two percent increase in salaries for employees in August. The current collective bargaining agreements expired at the end of FY20 with ongoing extensions during negotiations.

As of the November 2020 five-year forecast, the District projects a decreased balance through Fiscal Year 2025.

**Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional information please contact Ryan Stechschulte, Treasurer, at Toledo City School District, 1609 N. Summit Street, Toledo, Ohio 43604.

***Reconciliation of the Statement of Revenues, Expenditures and  
Changes in Fund Balances of Governmental Funds  
To the Statement of Activities  
For the Fiscal Year Ended June 30, 2020***

---

**Net Change in Fund Balances - Total Governmental Funds** \$ (7,886,727)

***Amounts reported for governmental activities in the statement of activities are different because***

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.

Capital Outlay	8,493,754	
Depreciation	<u>(16,949,499)</u>	(8,455,745)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property Taxes	1,490,352	
Intergovernmental	<u>15,228,747</u>	16,719,099

Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows. 30,202,759

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability are reported as pension/OPEB expense in the statement of activities. (64,252,594)

The issuance of long-term debt provides current financial resources to governmental funds, but has no effect on net position. In addition, repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Premiums are reported as revenues when the debt is first issued; however, these amounts are deferred and amortized on the statement of net position.

G.O. Bond Principal Payment	6,230,000	
Amortization of Deferred Loss on G.O. Bonds	(319,980)	
Amortization of Premium on G.O. Bonds	<u>1,120,893</u>	7,030,913

(Continued)

**TOLEDO CITY SCHOOL DISTRICT**

---

Interest is reported as an expenditure when due in the governmental funds but is accrued on outstanding debt on the statement of net position.

Accrued Interest Payable 18,492

Some expenses reported on the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Increase in Compensated Absences Payable (4,827,958)

The internal service funds are used by management to charge the costs of services to individual funds and is not reported in the statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the internal service funds are allocated among the governmental activities.

#### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

##### **A. Reporting Entity**

Toledo City School District, Ohio (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is governed by a locally elected five member Board of Education (the Board) which provides educational services. The Board controls the School District's instructional support facilities staffed by approximately 1,033 noncertified and approximately 2,912 certified teaching personnel and administrative employees providing education to 22,841 students.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *"The Financial Reporting Entity,"* as amended by GASB Statement No. 39 *"Determining Whether Certain Organizations Are Component Units"*, in that the financial statements include all organizations, activities, functions and component units for which the District (the reporting entity) is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing board and either the District's ability to impose its will over the organization or the possibility that the organization will provide a financial benefit to, or impose a financial burden on the District. There were no potential component units that met the criteria imposed by GASB Statement No. 14 to be included in the District's reporting entity. Based on the application of the above criteria for a component unit, and the criteria for defining joint ventures set forth under section J50.102 of the 2004 Codification there are no component units or "Joint Ventures." Based on the foregoing, the reporting entity of the District includes the following services: instructional (regular, special education, vocational), student guidance, extracurricular activities, food service, pupil transportation and care and upkeep of grounds and buildings. The District is the sponsor of the Polly Fox and the Phoenix Academies, both charter schools established under Chapter 3314 of the Ohio Revised Code. These community schools are not considered part of the District.

The accounting policies and financial reporting practices of the District conform to Generally Accepted Accounting Principles as applicable to governmental units. The following is a summary of its significant accounting policies.

##### **B. Basis of Presentation - Fund Accounting**

The accounting system is organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures (expenses). The various funds are grouped into the categories governmental, proprietary and fiduciary.

For the Fiscal Year Ended June 30, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**B. Basis of Presentation - Fund Accounting** (Continued)

***Governmental Funds*** - These are funds through which most governmental functions typically are financed. The acquisition, use and balances of the District's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of "financial flow" (sources, uses and balances of financial resources). The following are the District's major governmental funds:

**General Fund** - This fund is the general operating fund of the District and is used to account for all financial resources except those accounted for in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

***Proprietary Funds*** - The proprietary funds are accounted for on an "economic resources" measurement focus. This measurement focus provides that all assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the balance sheet. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

**Internal Service Funds** - The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District or to other governments on a cost-reimbursement basis. The District uses internal service funds to account for employee health insurance, severance pay, workers' compensation, operations of the computer network of the Department of Education and operations that provide goods and services to other departments within the District.

***Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**B. Basis of Presentation - Fund Accounting** (Continued)

***Fiduciary Funds*** – Fiduciary fund reporting focuses on Net Position and changes in Net Position. The fiduciary category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations or other governments and therefore not available to support the District’s own programs. The District’s trust fund is a private purpose trust that accounts for scholarship programs for students and unclaimed monies. The agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operation. These funds operate on an accrual basis of accounting. The District has two agency funds. One fund is used to account for federal grant monies used for tuition in Toledo Public Schools’ Adult Education programs and the other to account for student activity programs.

**C. Basis of Presentation – Financial Statements**

***Government-wide Financial Statements*** – The statement of Net Position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid “doubling up” revenues and expenses; however, the interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The School District has no activities considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents direct expenses and program revenues for each function or program of the District’s governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. Interfund services provided and used are not eliminated in the process of consolidation. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C. Basis of Presentation – Financial Statements (Continued)**

**Fund Financial Statements** – Fund financial statements report detailed information about the School District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus. The agency funds are custodial in nature (assets equal liabilities) and do not have a measurement focus.

**D. Basis of Accounting**

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

Government-wide, proprietary and fiduciary fund financial statements measure and report all assets, liabilities, revenues, expenses, gains and losses using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds use no measurement focus.

***Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**D. Basis of Accounting (Continued)**

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the District is considered to be 60 days after fiscal year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt which is recognized when due.

Under the modified accrual basis, the following revenue sources are considered susceptible to accrual at year end: property taxes, tuition, grants and entitlements, student fees, and interest on investments.

Current property taxes measurable at June 30, 2020, and which are not intended to finance fiscal year 2020 operations, have been recorded as deferred inflows of resources. Delinquent property taxes measurable and available (received within 60 days) and amounts available as an advance on future tax settlements are recognized as revenue at year end.

The accrual basis of accounting is utilized for reporting purposes by the government-wide financial statements, proprietary funds and the fiduciary funds. Revenues are recognized when they are earned and expenses are recognized when incurred.

***Revenues – Exchange and Non-exchange Transactions*** – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Budgetary Process**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the Certificate of Estimated Resources and the Appropriation Resolution, all of which are prepared on the budgetary basis of accounting. The Certificate of Estimated Resources and the Appropriation Resolution are subject to amendment throughout the year.

All funds other than agency funds are legally required to be budgeted and appropriated; however, only the general fund and major special revenue funds are required to be reported. The primary level of budgetary control is at the fund level.

Supplemental budgetary modifications may only be made by resolution of the Board of Education.

**1. Estimated Resources**

Prior to April 1, the Board accepts by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final Amended Official Certificate of Estimated Resources issued during fiscal year 2020.

This space intentionally left blank.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Budgetary Process** (Continued)

2. Appropriations

A Temporary Appropriation Measure to control expenditures may be passed on or about July 1 of each year for the period July 1 through September 30. An Annual Appropriation Resolution must be passed by October 1 of each year for the period July 1 through June 30. The Appropriation Resolution establishes spending controls at the fund level. The appropriation resolution may be amended during the year as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources as certified. During the year, several supplemental appropriations were necessary to budget the use of contingency funds. Administrative control is maintained through the establishment of more detailed line-item budgets. The budgetary figures which appear in the "Statement of Revenues, Expenditures, and Changes in Fund Balances-Budget and Actual" are provided on the budgetary basis to provide a comparison of actual results to the final budget, including all amendments and modifications. Pursuant to the provisions of Section 323.17, Ohio Revised Code, an exception to the October 1 filing deadline is permitted when the delivery of a tax duplicate, from the County Auditor, is delayed. For fiscal year 2020 the Board of Education passed the annual certification on June 23, 2019.

3. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be reappropriated.

4. Budgetary Basis of Accounting

The District's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on a cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting. Encumbrances are recorded as the equivalent of expenditures (budgetary basis).

**F. Cash and Investments**

Cash received by the District is deposited in one of three (3) banks with individual fund balance integrity maintained throughout. Monies for all funds are maintained in these accounts or temporarily used to purchase short-term cash equivalent investments, which are stated at cost. In accordance with 2450.106 of the 2004 GASB Codification on reporting cash flows of Proprietary Funds, cash equivalents are defined as investments of the cash management pool and short-term, highly liquid investments that are readily convertible to cash and so near maturity that they present insignificant risk of changes in value because of changes in interest rates. Investments with original maturities of less than three months are considered to meet this definition; otherwise they are shown as "investments" for these funds. At June 30, 2020, there were no investment balances as defined under section 2450.106 of the 2004 GASB Codification.

***Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**F. Cash and Investments (Continued)**

During fiscal year 2020, investment purchases were exclusively limited to Star Ohio, Commercial Paper, Banker's Acceptance, U.S. Treasury Obligations, U.S. Agency Issues, Interest Bearing Savings Accounts, Sweep Accounts, Negotiable Orders of Withdrawals and Money Market Mutual Funds. Except for participating interest earning investments and money market investments that had a remaining maturity of one year or less at the time of purchase and nonparticipating interest earning investments, investments are reported at fair value. All remaining investments are reported at cost. Under existing Ohio Statutes, all investment earnings accrue to the General Fund except those specifically related to certain funds and in accordance with Board Policy, Board Resolution and the Administrative Policy for Investment and Cash Management Activity. The District's investments are affected by fair value change; therefore, they are participating. Interest revenue credited to the General Fund during fiscal year 2020 amounted to \$2,997,111, which includes \$1,065,736 assigned from other funds.

The District has invested funds in the STAR Ohio during 2020. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940 and is rated AAAM by Standard and Poor's Rating Agency. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2020.

The District invests inactive funds for the School Building Support, Vocational Rotary, and Administratively Managed Student Activity Funds and distributes interest earned on these funds to the individual cost centers. The District also invests inactive funds in the Auxiliary Services Program Fund, the School Facilities Maintenance Fund, the Locally Funded Initiatives Fund, the Classroom Facilities Project Fund, the Permanent Improvement Fund, the Employee Benefit Insurance Fund, the Worker's Compensation Fund, and the Severance Fund and distributes interest earned directly to the funds. See Note 5, "Cash, Cash Equivalents and Investments."

From June 30, 2019 to June 30, 2020, the investment portfolio exhibited a decrease in fair value of approximately \$19,159,137 from \$120,754,719 to \$101,595,582, while the average maturity as measured by remaining life decreased by 88 days from 258 days to 170 days; and the average yield decreased by 142 basis points from 1.796% to .374%.

From June 30, 2019 to June 30, 2020, interest earnings receipted on a cash basis for all funds decreased from \$3,269,336 to \$2,985,402. As of June 30, 2020, there were additional interest earnings of \$3,598,098 to be receipted in future months. Interest earnings on a cash basis decreased approximately 9% as fund balances available to invest declined due to the COVID-19 crisis.

**Notes to the Basic Financial Statements

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**G. Inventory**

On the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost, whereas inventories held for resale are reported at lower of cost or market. Cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental funds when purchased.

**H. Capital Assets and Depreciation**

**1. Property, Plant and Equipment - Governmental Activities**

Capital assets generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost (or estimated historical cost for assets not purchased in recent years). These assets are reported in the Government-wide Statement of Net Position, but they are not reported in the Fund Financial Statements. The District follows the policy of not capitalizing assets with a cost of less than \$5,000.

Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value. The District does not possess any infrastructure. Estimated historical costs of capital assets were derived, when information supporting historical costs was not obtainable, by adjusting current replacement cost back to the estimated year of acquisition.

**2. Depreciation**

All capital assets, except for land, are depreciated. Depreciation has been provided using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives (in years)</u>
Land Improvements	20
Buildings	45-100
Furniture, Fixtures and Equipment	5 - 20
Vehicles	5 - 10
Portable Trailers	10 - 20

**I. Long-Term Obligations**

Long-term liabilities are being repaid from the following funds:

<u>Obligation</u>	<u>Fund</u>
General Obligation Bonds	Debt Service Fund
Compensated Absences	General Fund
Net Pension/OPEB Liability	General Fund Special Revenue Funds

***Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**J. Compensated Absences and Salary Related Payments**

The District has implemented the provisions of Section C60 of the 2004 GASB Codification. Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate its employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive severance benefits and those the District has identified as probable of receiving payment in the future and other salary related payments. The amount is based on accumulated sick leave and employee's wage rates at year-end, taking into consideration any limits specified in the District's severance policy. For governmental funds, that portion of unpaid compensated absences that has matured and is expected to be paid using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected in the account "Compensated Absences Payable." In the government wide statement of Net Position, the current portion of "Compensated Absences Payable" is recorded within the "Due within one year" account and the long-term portion of the liability is recorded within the "Due in more than one year" account. Compensated absences are being paid out of the general fund.

**K. Net Position**

Net position represents the difference between assets plus deferred outflows and liabilities plus deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

**L. Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

***Nonspendable*** - The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

***Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**L. Fund Balance** (Continued)

***Restricted*** – The fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

***Committed*** - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education. Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

***Assigned*** - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. Assigned amounts represent intended uses established by policies of the School District Board of Education. Through the District's purchasing policy the Board of Education has given the Treasurer the authority to constrain monies for intended purposes, which are also reported as assigned fund balance.

***Unassigned*** - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned. The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted (committed, assigned and unassigned) resources as they are needed.

The District currently has no policy for minimum fund balance.

**M. Pensions/Other Postemployment Benefits (OPEB)**

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**N. Intergovernmental Revenues**

Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred with the exception of those grants where the grant period extends past June 30. For these grants, prepayment amounts that exceed related expenditures are reported as unearned revenue.

**O. Interfund Activity**

Exchange transactions between governmental funds are eliminated on the government-wide statements.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

**P. Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Q. Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are interfund charges for the internal service funds. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**R. Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2020.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**S. Bond Premiums, Bond Discounts, Gains on Refunding and Issuance Costs**

In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium and discount. Bond issuance costs are expensed. Bond premiums are deferred and accreted over the term of the bonds. Any gain or loss on refunding is allocated over the life of the old debt or the new debt whichever is shorter.

On the governmental fund financial statements, governmental fund types recognize issuance costs, bond premiums, and bond discounts in the current period. The face amount of the debt issue is reported as other financing sources. Premiums and discounts received on debt issuances are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**T. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. For the District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding, for pension and for OPEB. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 11 and 12, respectively.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources until that time. For the District, deferred inflows of resources include property taxes, pension, OPEB and unavailable revenue. On the government-wide statement of net position and governmental funds balance sheet, property taxes that are intended to finance future fiscal periods are reported as deferred inflows. In addition, the governmental funds balance sheet reports deferred inflows which arise only under a modified accrual basis of accounting. Accordingly, the item, unavailable amounts, is reported only in the governmental funds balance sheet. The governmental funds report unavailable amounts for property taxes, investment earnings, grants, and state levied shared taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position explained in Notes 11 and 12, respectively.

**NOTE 2 – CHANGE IN ACCOUNTING PRINCIPLES**

For 2019, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 95, “Postponement of the Effective Dates of Certain Authoritative Guidance.”

GASB Statement No. 95 provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic by extending the effective dates of certain accounting and financial reporting provisions in Statements and Implementation Guides that were first effective for reporting periods beginning after June 15, 2018. This statement had no effect on beginning net position/fund balance.

**NOTE 3 – FUND BALANCES (Continued)**

***Stabilization Agreement*** - In 2016, the District established, by ordinance, a revenue stabilization reserve in the General Fund and first set aside fund balance in the fund in 2016. Additional funds may be added to the revenue stabilization balance without the consent of the School Board. Amounts in the revenue stabilization reserve are “to provide a contingency available to address unexpected (and thus un-budgeted) expenditures to provide for the interruption or delay in the receipt of revenue; to provide for situations in which revenues are less than those that had been forecast; and to provide for extraordinary conditions beyond the control of the district” and must have the consent of the School Board through an ordinance in order to be used for this purpose. The balance of the revenue stabilization reserve at June 30, 2020 is \$8,500,000.

**NOTE 4 - COMPLIANCE AND ACCOUNTABILITY**

**Fund Deficits** - The fund deficits at June 30, 2020 of \$1,477,333 in the Payroll Liabilities Fund (Internal Service Fund), \$520 in the Race to the Top Fund, \$903,670 in the Special Education Handicapped Fund, \$113,236 in the Vocational Education Fund, \$6,705 in the Title VII Bilingual Education Program Fund, \$2,526,954 in the Title I Fund, \$87,586 in the Preschool Grants for the Handicapped Fund, \$594,144 in the Miscellaneous Federal Grants Fund, \$1,193,398 in the Student Wellness and Success Fund and \$2,275,368 in the CARES Fund (special revenue funds) arise from the recognition of expenditures on the modified accrual basis which are greater than expenditures recognized on the budgetary basis. The deficits do not exist under the budgetary/cash basis of accounting. The General Fund provides transfers when cash is required, not when accruals occur.

**NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS**

***Deposits with Financial Institutions***

At June 30, 2020, the carrying value of all District deposits was \$65,900,149, including cash with fiscal agent. Based on the criteria described in GASB Statement No. 40, Deposits and Investment Risk Disclosures, at June 30, 2020 cash concentration accounts, savings accounts, mutual funds, Star Ohio (State Asset Reserve Fund) and certificates of deposit totaled \$77,254,165. Of this amount, \$76,504,165 was exposed to custodial risk as discussed below, while \$750,000 was covered by Federal Deposit Insurance Corporation.

Custodial risk is the risk that, in the event of a bank failure, the District's deposits may not be returned. Consistent with the requirements of state law, it is the policy of the District to require full collateralization of all District investments and funds on deposit with any depository. All deposits are collateralized in accordance with Ohio Revised Code 135 and the State of Ohio Pooled Collateral Program. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at the Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

Any repurchase agreement with a maturity greater than 30 days requires physical delivery of specific securities to a third party custodian. Repurchase agreement activity maturing 30 days and less are collateralized in accordance with Ohio Revised Code 135 and the State of Ohio Pooled Collateral Program. At June 30, 2020, there were no Repurchase Agreements with a maturity of greater than 30 days.

				<u>70.53%</u>	<u>14.32%</u>	<u>15.15%</u>

Note: The maturity analysis above assumes that callable securities will not be called.  
All Investment securities are assumed to mature on their final stated maturity date.

The Weighted Average Maturity (in Days) of the Entire Investment Portfolio from Purchase Date to Maturity Date is:	374
The Remaining Life (in Days) of the Entire Investment Portfolio From Year End to Maturity Date is:	170
The Average Duration of the Entire Investment Portfolio is:	0.46
The Weighted Average Coupon of the Entire Portfolio is:	0.536%
The Weighted Average Yield of the Entire Portfolio is:	0.374%

A security with less than one (1) year to maturity (based on Remaining Life), is reported at cost, plus or minus, accretion or amortization adjustment. A security with a maturity of more than one (1) year (based on Remaining Life), is reported at adjusted cost, plus or minus, market value adjustment. Star Ohio, Bank Certificates of Deposit and Repurchase Agreements are reported at adjusted cost.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Investments classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Level 3 inputs are significant unobservable inputs.

**Interest Rate Risk**

As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the District's investment policy limits investment portfolio maturities to five years and less. As of June 30, 2020, seventy and one half percent (70.53%) of the investment portfolio matures within one year.

#### **NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)**

##### ***Investment Policy***

The District's investment policy is more restrictive in nature than the requirements of the Ohio Revised Code; providing for safety of principal, liquidity, diversity of portfolio assets while minimizing associated investment risks. The policy is intended to compliment the law and provide guidance to District personnel while administering the daily cash management and investment practices of the District. The policy is reviewed at least annually to incorporate any changes in the Ohio Revised Code; consider recommendations made by the Auditor of State's Office and the Ohio Compliance Supplement; monitor changes in "best practices" published by the Government Finance Officers Association; and reflect any legislative changes on behalf of the Toledo Board of Education. The policy has been reviewed and has received a national certification from the Association of Public Treasurer's Investment Policy Certification Committee.

##### ***Credit Risk***

The District's investments, except for repurchase agreements, savings accounts, sweep accounts, commercial paper, and certificates of deposit, as discussed above were rated AAA and Aaa by Standard & Poor's and Moody's Investor Services respectively. The holdings in the State Treasury Asset Reserve Fund (STAR Ohio) have been assigned an AAAM money market rating by Standard & Poor's. As required by District policy all commercial paper holdings at the time of purchase are rated in the highest class by at least two of the nationally recognized rating services (Standard & Poor's, Moody's Investor Service, or Fitch Rating Services). Combined holdings of Commercial Paper and Banker Acceptances are limited to 30% of total investment portfolio holdings. The mutual fund used to transact third party safekeeping of U.S. Treasury, U.S. Agency, Commercial Paper, Banker's Acceptance securities and select Repurchase Agreement Collateral, has been assigned an AAA rating based on the securities held in the fund. All District holdings in U.S. Agency securities carry the explicit guarantee of the United States government and are rated Aaa by Moody's and AAA by Standard & Poor's rating agencies.

##### ***Concentration of Credit Risk***

In order to avoid an undue concentration of credit risk, the District's investment policy places limits on the amount that may be invested in any one issuer at any one time. The limits are as follows:

- (a) No more than ten percent (10%) of average portfolio outstanding will be invested in Certificates of Deposit of any one Depository at any one time. District Funds invested in Certificates of Deposit of any one Depository may not exceed thirty percent (30%) of the Depository's assets. Only collateralized, non-negotiable Certificates of Deposit, from Depository's approved to hold interim funds, will be considered for purchase. All Certificates of Deposit shall be collateralized as provided in Section 135.18 or 135.181 of the Ohio Revised Code.
- (b) No more than ten percent (10%) of average portfolio outstanding will be invested in Term Repurchase Agreements of any one issuer at any one time. Deliverable collateral consisting of U.S. Government Securities with a fair value equal to at least 105% of principal plus interest of the transaction and with a maturity of five years or less is required for all Term Repurchase Agreement transactions.

**NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)**

- (c) Pooled collateral is acceptable on all district demand deposits. Delivery of collateral is **not** required on demand repurchase agreement activities (i.e. overnight cash management accounts with depositories). Surety bond collateral is acceptable for Certificate of Deposit investments if the insurer is rated in the highest class by a national recognized rating agency.
- (d) No more than five percent (5%) of average portfolio outstanding will be invested in Commercial Paper in any one issuer at any one time.
- (e) No more than five percent (5%) of average portfolio outstanding will be invested in Banker's Acceptances in any one issuer at any one time.

**NOTE 6 - PROPERTY TAXES**

**A. Property Tax**

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half collections are received by the District in the second half of the fiscal year. Second half distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real estate and public utility property, and tangible personal property used in business and located in the District. Real property taxes (other than public utility) collected during 2020 were levied after April 1, 2019 on assessed values as of January 1, 2019, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be reappraised every six years and equalization adjustments made the third year following reappraisal. The last equalization adjustment was completed in 2015. Real property taxes are payable annually or semi-annually. The first payment is due December 31, with the remainder payable by June 20.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property is currently assessed at varying ratios of its true value. Public utility property taxes are payable on the same dates as real property described previously.

The County Treasurer collects property taxes on behalf of all taxing districts in the County including Toledo City School District. The County Auditor periodically remits to the District its portion of the taxes collected. The assessed values for collection in 2020, upon which the 2019 levies were based, were as follows:

	2019 Second Half Collections	2020 First Half Collections
Real Estate	\$2,172,993,570	\$2,178,495,150
Tangible Personal and Public Utility Property	190,981,510	200,743,130
Total Assessed Value	<u>\$2,363,975,080</u>	<u>\$2,379,238,280</u>
Tax rate per \$1,000 of assessed valuation	\$72.85	\$72.85

**B. Tax Abatements**

***Real Estate Tax Abatements***

As of June 30, 2020, the City of Toledo and Lucas County provide tax incentives under three programs: Tax Increment Financing (TIF), Enterprise Zones, and Community Reinvestment Areas (CRA).

Pursuant to Ohio Revised Code Chapter 5709, the City of Toledo and Lucas County established Community Reinvestment Areas and Enterprise Zones. The City and County authorize incentives through passage of public ordinances, based upon each businesses investment criteria and through a contractual application process with each business. The abatement equals an agreed upon percentage of the additional property tax resulting from the increase in assessed value as a result of the improvements. The amount of the abatement is deducted from the recipient's property tax bill. The establishment of the Community Reinvestment Areas gave the City and County the ability to maintain and expand business located within the City and County and created new jobs by abating or reducing assessed valuation of properties, resulting in abated taxes, from new or improved business real estate and includes major housing improvements in specified areas. The City of Toledo and Lucas County also enter into various contracts with the benefitting business and the Toledo City School District for payments in lieu of taxes when required by Section 5709.82 of the Ohio Revised Code.

The City and County have offered the tax abatements to encourage economic stability, maintain property values, and generate new employment opportunities and population growth.

The City of Toledo had 24 individual agreements under these programs. These abatements reduced the District's property tax revenues by \$2,417,480 in fiscal year 2020.

Lucas County had 3 individual agreements under these programs. These abatements reduced the District's property tax revenues by \$138,642 in in fiscal year 2020.

**NOTE 11 - DEFINED BENEFIT PENSION PLANS**

All of the District's full-time employees participate in one of two separate retirement systems which are cost-sharing, multiple-employer defined benefit pension plans.

**A. Net Pension Liability**

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

**B. Plan Description**

***School Employees Retirement System (SERS)***

Plan Description –District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

**Funding Policy** – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14 percent. No amount was allocated to the Health Care Fund.

**NOTE 11 - DEFINED BENEFIT PENSION PLANS (Continued)**

**B. Plan Description (Continued)**

The District's contractually required contribution to SERS was \$6,355,512 for fiscal year 2020.

***State Teachers Retirement System (STRS)***

***Plan Description*** –District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 27 years of service, or 30 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

**Notes to the Basic Financial Statements

**NOTE 11 - DEFINED BENEFIT PENSION PLANS (Continued)**

**B. Plan Description (Continued)**

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

**Funding Policy** – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2020, the employer rate was 14% and the member rate was 14% of covered payroll. The fiscal year 2020 contribution rates were equal to the statutory maximum rates, and the full employer contribution was allocated to the pension fund.

The District's contractually required contribution to STRS was \$23,391,115 for fiscal year 2020. Of this amount \$4,166,033 is reported as an intergovernmental payable.

**C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities.

**NOTE 11 - DEFINED BENEFIT PENSION PLANS (Continued)**

**D. Actuarial Assumptions**

***School Employees Retirement System (SERS)***

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented below:

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
COLA or Ad Hoc COLA	2.5 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Actuarial Cost Method	Entry Age Normal

For 2019, the mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disable members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed June 30, 2015.

**NOTE 11 - DEFINED BENEFIT PENSION PLANS (Continued)**

**D. Actuarial Assumptions (Continued)**

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

**Discount Rate** - The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

District's proportionate share of the net pension liability	\$132,984,534	\$94,896,934	\$62,955,719

***State Teachers Retirement System (STRS)***

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation, compared with July 1, 2018 are presented below:

	July 1, 2019	July 1, 2018
Inflation	2.50 percent	2.50 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation	7.45 percent, net of investment expenses, including inflation
Discount Rate	7.45 percent	7.45 percent
Payroll Increases	3 percent	3 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	0.0 percent, effective July 1, 2017

For the July 1, 2018 and July 1, 2019 actuarial valuation, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2018 and July 1, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

**Discount Rate** - The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** - The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

**NOTE 12 - DEFINED BENEFIT OPEB PLANS**

**A. Net OPEB Liability (Asset)**

The net OPEB liability (asset) reported on the statement of net position represents a liability (asset) for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability (asset) represents the District’s proportionate share of each OPEB plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan’s fiduciary net position. The net OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District’s obligation to annually required payments. The District cannot control benefit terms or the manner in which OPEB are financed; however, the District does receive the benefit of employees’ services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded OPEB liabilities within 30 years. If the OPEB amortization period exceeds 30 years, each retirement system’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net OPEB liability (asset). Resulting adjustments to the net OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

**B. Plan Description**

***School Employees Retirement System (SERS)***

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS’ Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS’ health care coverage.

**NOTE 12 - DEFINED BENEFIT OPEB PLANS (Continued)**

**B. Plan Description (Continued)**

In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2020, 0.0 percent of covered payroll was contributed to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2020, the District's surcharge obligation was \$456,132.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$456,132 for fiscal year 2020, which is reported as an intergovernmental payable.

***State Teachers Retirement System (STRS)***

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians’ fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

**C. OPEB Liability (Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

The net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability (asset) was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate Share of the Net OPEB Liability (Asset)	\$38,843,394	(\$21,129,522)	\$17,713,872

**D. Actuarial Assumptions**

***School Employees Retirement System (SERS)***

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented below:

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	3.13 percent
Prior Measurement Date	3.62 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Measurement Date	3.22 percent
Prior Measurement Date	3.70 percent
Medical Trend Assumption	
Medicare - Measurement Date	5.25 to 4.75 percent
Pre-Medicare - Measurement Date	7.00 to 4.75 percent
Medicare - Prior Measurement Date	5.375 to 4.75 percent
Pre-Medicare - Prior Measurement Date	7.25 to 4.75 percent

**NOTE 12 - DEFINED BENEFIT OPEB PLANS (Continued)**

**D. Actuarial Assumptions (Continued)**

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %

**NOTE 12 - DEFINED BENEFIT OPEB PLANS (Continued)**

**D. Actuarial Assumptions (Continued)**

**Discount Rate** - The discount rate used to measure the total OPEB liability at June 30, 2019 was 3.22%. The discount rate used to measure the total OPEB liability at June 30, 2018 was 3.70%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00% of projected covered employee payroll each year, which includes a 1.50% payroll surcharge and 0.50% of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13%, as of June 30, 2019 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

**Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount and Health Care Cost Trend Rates** – The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.22%) and higher (4.22%) than the current discount rate (3.22%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

**D. Actuarial Assumptions (Continued)**

***State Teachers Retirement System (STRS)***

The total OPEB liability in the June 30, 2019 and 2018 actuarial valuations was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	June 30, 2019	June 30, 2018
Inflation	2.50%	2.50%
Projected salary increases	12.50% at age 20 to 2.50% at age 65	12.50% at age 20 to 2.50% at age 65
Investment Rate of Return	7.45%, net of investment expenses, including inflation	7.45%, net of investment expenses, including inflation
Payroll Increases	3.00%	3.00%
Cost-of-Living Adjustments (COLA)	0.0%, effective July 1, 2017	0.0%, effective July 1, 2017
Blended Discount Rate of Return	7.45%	7.45%
Health Care Cost Trends	4.93% to 9.62% initial, 4.0% ultimate	(5.23)% to 8% initial, 4.0% ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

**D. Actuarial Assumptions (Continued)**

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return *</u>
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	<u>100.00 %</u>	

\* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

**Discount Rate** - The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2019 and June 30, 2018. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2019.

During fiscal years 2012, 2014 and 2016 the District issued General Obligation Bonds in the amounts of \$52,555,000, \$32,335,000 and \$21,920,000 respectively to finance School Facility Improvement building projects.

**Defeasance of General Obligation Debt**

On May 8, 2019, the District defeased \$7,830,000 of outstanding bonds (the “Series 2012B Bonds”) with an interest rate of 5.00%. The principal amount outstanding on the defeased bonds at June 30, 2019 was \$7,830,000. The District transferred \$8,723,396 from its debt service fund to an irrevocable trust. The trustee was directed to use the \$8,723,396 to purchase Government Obligations (T-Notes). The anticipated earnings from the Government Obligations were determined to be sufficient to pay, when due, the remaining debt service payments. As a result, the old bonds are considered to be defeased and the liability for those bonds has been removed from the statement of net position. This transaction resulted in a net present value savings to the District of \$1,609,484.

The issuance and payment of the District's General Obligation bonds participate in the State of Ohio, Department of Education's (Department) Credit Enhancement Program (Program) pursuant to Section 3317.18 of the Revised Code. At no additional cost to the District, the Program allows the District to decrease its borrowing cost by utilizing the State of Ohio's higher credit rating when issuing debt.

If the District is unable to make its debt charges on the bonds issued, then the Program requires the District to certify to the Department and the Bond Registrar at least 15 business days prior to each date on which debt charges are due on the Bonds the amount that the School District will **not** be able to pay. Otherwise, the School District shall cause same day funds to be on deposit with the Bond Registrar no later than the tenth business day prior to each payment date while the Bonds are outstanding in an amount sufficient and available to pay the debt charges.

If the Department confirms or determines that the District will be unable to make such payment, the Department shall deposit with the Bond Registrar immediately available funds, the lesser of (i) the amount of the Deficiency or (ii) the amount of state education aid, as defined for purposes of Ohio Administrative Code Section 3301-8-01(A), due the School District for the remainder of the State fiscal year. If this amount is insufficient to pay the total debt charges, the Department shall pay to the Bond Registrar each fiscal year thereafter, and until the full amount due the Bond Registrar for unpaid debt charges is paid in full, the lesser of the remaining amount due the Bond Registrar or the amount of state education aid due the District for the fiscal year.

The School District covenants and agrees that it will not pledge its state education aid as primary security for other obligations on a parity with the Bonds, unless the projected amount of state education aid to be distributed to the District in the then current fiscal year exceeds the aggregate maximum annual debt service due in that current or any future fiscal year on all outstanding and proposed obligations of the District to which state education aid is pledged as primary security by a ratio of at least 2.5 to 1; provided that this covenant shall not prevent the District from issuing obligations having a claim on state education aid subordinate to that of the Bonds.

**NOTE 13 - LONG-TERM DEBT (Continued)**

If a transfer of state education aid by the Department to the Bond Registrar is required under the terms of the Program, the School District, in conjunction with the Department, will evaluate the District's inability to pay the debt charges and will develop and implement corrective actions to ensure full and timely payment by the District of future debt charges. The District shall present to the Department a written copy of its plan of such corrective actions.

The District has participated in the State of Ohio Department of Education's Credit Enhancement Program in all of its debt issuances since 2003 and has never been unable to make its debt charges to the Bond Registrar within the required timelines.

**NOTE 14 - ENDOWMENTS**

The Toledo City School District has various endowments/trusts whereby the original endowment/trust agreement restricts the principal for specified purposes. Under the terms of the endowment/trust, and consistent with State statutes, the District is authorized to spend the net appreciation from the trust for any disbursements that are consistent with the original trust agreement. At June 30, 2020, accumulated available net appreciation of \$222,985 is reported in restricted Net Position.

**NOTE 15 - RISK MANAGEMENT**

The District is exposed to financial loss resulting from District-caused damage to property or bodily injuries or illness of employees, unemployment compensation benefits to previous employees, and employee health care, prescription drug, dental and life insurance benefits. The Health Insurance Fund, an internal service fund, is used to account for, and finance self-insurance activities. This fund includes prescription drug, dental and health insurance benefits. The District also maintains an Administrative Services - Workers Compensation Fund, which was established under the State of Ohio's retrospective rating plan provisions. These costs are also accounted for in an Internal Service fund.

In accordance with section C50.141 of the 2004 GASB Codification, estimated liabilities are accrued in all Self-Insurance funds for the value of current outstanding claims and claims incurred but not reported (IBNR). Annual actuarial studies are performed for the Health Insurance and Workers Compensation Funds to determine the recommended funding levels for related risk areas. The claims liability of \$6,529,200 (Accrued Wages and Benefits) reported in the Health Insurance Fund and \$72,699 (Intergovernmental Payable) in the Workers Compensation Self-Insurance Fund is based on the requirements of Government Accounting Standards Board Statement 10 as amended by Government Accounting Standards Board Statement 30. This statement requires that a liability for claims be reported if information indicates, prior to the issuance of the financial statements, that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The liabilities are considered current and due within one year.

Changes in the fund's claims liability amount in 2019 and 2020 were:

<u>Fiscal Year</u>	<u>Unpaid Claims Beginning of Fiscal Year</u>	<u>Incurred Claims</u>	<u>Claim Payments</u>	<u>Unpaid Claims Ending of Fiscal Year</u>
2019	\$6,364,149	52,529,994	(52,594,864)	\$6,299,279
2020	6,299,279	54,262,870	(53,960,250)	6,601,899

District property, employee life, and all other insurance coverage's are provided by commercial insurance policies. Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant reduction in insurance coverage from the prior year.

**Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30, 2020**

---

**NOTE 16 – STATUTORY RESERVES**

The District is required by state law to set aside certain general fund revenue amounts, as defined, into various reserves. During the fiscal year ended June 30, 2020, the reserve activity (cash-basis) was as follows:

	<u>Capital Maintenance</u>
Set-aside Balance as of June 30, 2020	\$0
Current Year Set-Aside Requirement	3,923,950
Current Year Offset Credits	(5,643,519)
Qualifying Disbursements	<u>(16,343,796)</u>
Total	<u>(\$18,063,365)</u>
Set-aside Balance Carried Forward to FY 2021	<u><u>\$0</u></u>

Although the District had offsets and qualifying disbursements during the year that reduced the Capital Maintenance set-aside amount below zero, the extra amount may not be used to reduce the Capital Maintenance set-aside requirements of future years. Negative amounts are therefore not presented as being carried forward to the next fiscal year for Capital Maintenance.

**NOTE 17 – SIGNIFICANT COMMITMENTS**

At June 30, 2020 the District had encumbrance commitments in the Governmental Funds as follows:

<u>Fund</u>	<u>Encumbrances</u>
General Fund	\$7,248,185
School Facilities Maintenance Fund	1,172,717
Head Start Fund	2,329,054
Permanent Improvement Fund	<u>1,375,560</u>
Total Governmental Funds	<u><u>\$12,125,516</u></u>

**NOTE 18 - CONTINGENCIES**

**A. Grants**

The District receives financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2020.

**B. Litigation**

The District is a party to several legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects as of June 30, 2020. The District's management is of the opinion that ultimate disposition of these claims will not have a material effect on the financial condition of the District.

**C. COVID-19**

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures impacted the second half of fiscal year 2020 and will impact subsequent fiscal periods of the School District. The impact on the School District's future operating costs, revenues and any recovery from emergency funding, either federal or state, cannot be estimated.

***Special Revenue Funds***

---

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than amounts relating to major capital projects) that are legally restricted to expenditures for specified purposes.

**Food Service Fund**

A fund used to record financial transactions related to food service operations.

**Uniform School Supplies Fund**

A rotary fund provided to account for the purchase and sale of school supplies as adopted by the Board of Education for use in the schools of the District. Profit derived from such sales is to be used for school purposes or activities in connection with the school. (The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are not presented because this fund is reported as part of the General Fund on a GAAP basis.)

**Vocational Rotary Fund**

A fund provided to account for revenue and expenses made in connection with goods and services provided by a school district. Activities using this fund tend to be curricular in nature. As an example, this fund would be used to account for receipts and purchases made in connection with the sale of consumer services provided by vocational education classes such as cosmetology or auto mechanics. This fund is also used to account for "Life Enrichment Programs" offered by a school district. (The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are not presented because this fund is reported as part of the General Fund on a GAAP basis.)

**Adult Education Fund**

A fund provided to account for transactions made in connection with adult education classes.

**School Building Support Fund**

A fund provided to account for specific local revenue sources, other than taxes that are restricted to expenditures for specific purposes approved by board resolution. Such expenditures may include curricular and extracurricular related purchases. (The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are not presented because this fund is reported as part of the General Fund on a GAAP basis.)

**Other Grants Fund**

A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

**School Facilities Maintenance Fund**

A fund provided to account for the proceeds of a levy for the maintenance of facilities.

***Special Revenue Funds***

---

**Administratively Managed Student Activity Fund**

A fund provided to account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corp., and other similar types of activities.

**Auxiliary Services Fund**

A fund used to account for monies that provide services and materials to pupils attending non-public schools within the school district.

**Management Information System Fund**

A fund for hardware and software development, or other costs associated with the requirements of the management information system. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

**Public School Preschool Fund**

A fund to assist school districts in paying the cost of preschool programs for three and four year olds.

**Data Communication Fund**

A fund used to account for monies received for the maintenance of the Ohio Educational Computer Network connections.

**Miscellaneous State Grants Fund**

A fund used to account for money received from the state government which is not classified elsewhere.

**Race to the Top Fund**

To account for monies received to provide either a new program or expansion of an existing program in specific educational areas.

(Continued)

***Special Revenue Funds***

---

**Special Education Handicapped Fund**

Provision of Grants to assist states in the identification of handicapped children, development of procedural safeguards, implementation of less restrictive alternative services patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

**Vocational Education Fund**

Provision of funds to boards of education, teacher training institutions, and the state administering agency for cooperating in development of vocational education programs in the following categories: secondary, post-secondary, adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, construction of area vocational schools, ancillary services, research, advisory committees, and work-study projects. Includes sex equity grants.

**Title VII Bilingual Education Program Fund**

Provision of funds to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational need of children of limited English proficiency.

**Title I Fund**

To provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children.

**Preschool Grants for the Handicapped Fund**

To provide financial assistance to address the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

**Improving Teacher Quality Fund**

A fund used to account for monies to hire additional classroom teachers in grades 1 through 3, to reduce the number of students per teacher.

**Miscellaneous Federal Grants Fund**

A fund used to account for various monies received through state agencies from the federal government or directly from the federal government which is not classified elsewhere.

**Title I School Improvement Stimulus A Fund**

To help schools improve the teaching and learning of children failing, or most at risk of failing to meet State academic achievement standards.

#### **Debt Service Fund**

This fund is used for the accumulation of resources for, and the payment of, long term debt principal and interest.

### ***Capital Projects Fund***

---

The Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary or trust funds.

#### **Permanent Improvement Fund**

A fund used to account for financial resources to be used for the acquisition, construction, or improvement of capital facilities.

#### **Locally Funded Initiative Fund**

This fund is used to account for receipts and expenditures related to special bond funds in the District. Expenditures recorded represent the costs of acquiring capital facilities including real property. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

### ***Permanent Fund***

---

The Permanent Fund is used to account for the financial resources that are legally restricted in that only the earnings, not the principal, may be used to support the District's programs.

#### **Endowments Fund**

A fund used to account for money, securities, or lands which have been set aside as an investment for public school purposes. The income from such a fund may be expended, but the principal must remain intact.
