INDEPENDENT AUDITOR'S REPORT

Meigs Metropolitan Housing Authority
Meigs County
441 General Hartinger Parkway
Middleport, Ohio 45760

To the Board of Commissioners:

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the Meigs Metropolitan Housing Authority, Meigs County, Ohio (the Authority), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Meigs Metropolitan Housing Authority, Meigs County, Ohio, as of September 30, 2021, and the changes in financial position and cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 13 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the Authority. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's Discussion and Analysis*, and Schedules of Net Pension and Other Post-employment Benefit Liabilities (Assets) and Pension and Other Post-employment Benefit Contributions listed in the Table of Contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Other Information

Our audit was conducted to opine on the Authority's basic financial statements taken as a whole.

The Financial Data Schedules present additional analysis and are not a required part of the basic financial statements.

The Schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 31, 2022, on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

FOR THE YEAR ENDED SEPTEMBER 30, 2021
MANAGEMENT'S DISCUSSION AND ANALYSIS
(UNAUDITED)**

It is a privilege to present for you the financial picture of Meigs Metropolitan Housing Authority. The Meigs Metropolitan Housing Authority's ("the Authority") Management's Discussion and Analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Authority's financial activity, (c) identify changes in the Authority's financial position (its ability to address the next and subsequent year challenges), and (d) identify the single enterprise fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Authority's financial statements, which begin on page 11.

FINANCIAL HIGHLIGHTS

- Total revenues increased by \$53,372 (or 10%) during 2021, and were \$575,713 and \$522,341 for 2021 and 2020, respectively.
- Total operating expenses decreased by \$21,744 (or 4%) during 2021, and were \$502,593 and \$524,337 for 2021 and 2020, respectively.

USING THIS ANNUAL REPORT

The following is a summary of the presentation of the Authority's financial statements:

<p>MD&A Management's Discussion and Analysis</p>
<p>Basic Financial Statements Statement of Net Position Statement of Revenues, Expenses, and Changes in Net Position Statement of Cash Flows Notes to the Basic Financial Statements</p>
<p>Required Supplementary Information Schedule of the Authority's Proportionate Share of the Net Pension Liability Schedule of the Authority's Contributions Schedule of the Authority's Proportionate Share of the OPEB Liability/(Asset) Schedule of the Authority's Contributions</p>

The focus is on the Authority as a single enterprise fund. This format allows the user to address relevant questions, broadens a basis for comparison (year to year or Authority to Authority) and enhances the Authority's accountability.

BASIC FINANCIAL STATEMENTS

The basic financial statements, beginning on page 11, are designed to be corporate-like in that all business type programs are consolidated into one single enterprise fund for the Authority.

These statements include a Statement of Net Position, which is similar to a Balance Sheet. The Statement of Net Position reports all financial and capital resources for the Authority. The statement is presented in the format where assets plus deferred outflows of resources equals liabilities plus deferred inflows of resources and "Net Position." Assets and liabilities are presented in order of liquidity, and are classified as "Current" (convertible into cash within one year), and "Non-current."

The focus of the Statement of Net Position (the "Unrestricted Net Position") is designed to represent the net available liquid (non-capital) assets, net of liabilities, for the entire Authority. Net Position is reported in three broad categories (as applicable):

Net Investment in Capital Assets: This component of Net Position consists of all capital assets (net of accumulated depreciation), reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Position: This component of Net Position consists of restricted assets, when constraints are placed on the asset by creditors (such as debt covenants), grantors, contributors, laws, regulations, etc.

Unrestricted Net Position: This component of Net Position consists of Net Position that does not meet the definition of "Net Investment in Capital Assets," or "Restricted Net Position."

The basic financial statements also include a Statement of Revenues, Expenses, and Changes in Net Position (similar to an Income Statement). This Statement includes Operating Revenues, such as rental income, Operating Expenses, such as administrative, utilities, maintenance, and depreciation, and Non-Operating Revenue and Expenses, such as investment income.

The focus of the Statement of Revenues, Expenses, and Changes in Net Position is the "Change in Net Position."

Finally, a Statement of Cash Flows is included, which discloses net cash provided by, or used for operating activities and investment activities.

The Authority's programs that are consolidated into a single enterprise fund are as follows:

Housing Assistance Payments Program-Section 8 – The Authority administers a program of rental assistance payments to private owners on behalf of eligible low-income families under Section 8 of the Housing and Urban Development Act of 1974. The program provides payments covering the difference between the maximum rental on a dwelling unit, as approved by HUD, and the amount of rent contribution by a participating family.

Family Self Sufficiency (FSS) Program – This program is designed to help participants achieve economic independence and self-sufficiency.

Total Net Position	<u>\$ (62,485)</u>	<u>\$ (135,605)</u>	<u>\$ 73,120</u>

MAJOR FACTORS AFFECTING THE STATEMENT OF NET POSITION

Cash decreased by \$2,874 primarily due to expending the remaining (CARES Act) funding received in 2020. Restricted net position decreased \$9,400 due to a decrease in cash balance related to CARES Act funding. Long-Term Liabilities decreased by \$94,324 due to changes in Ohio Public Employees Retirement System (OPERS) net pension and other post-employment benefits liabilities.

The negative net position of the Authority would be reduced to a positive \$17,311 if the Deferred Outflows, Deferred Inflows, Net Pension Liability, and Net OPEB Liability was removed from the Statement of Net Position.

MAJOR FACTORS AFFECTING THE STATEMENT OF REVENUE, EXPENSES, AND CHANGES IN NET POSITION

Government operating grants increased by \$50,110 from fiscal year 2020 to 2021, due to the recognizing of revenue related CARES Act funding and increased government subsidy of rents. Housing Assistance Payments increased during 2021 due to the Authority increasing clients during 2021.

CAPITAL ASSETS

As of year-end, the Authority had \$0 invested in a variety of capital assets (net of accumulated depreciation) as reflected in the following table.

ECONOMIC FACTORS

Significant economic factors affecting the Authority are as follows:

- Federal funding levels of the Department of Housing and Urban Development;
- Local labor supply and demand, which can affect salary and wage rates;
- Local inflationary, recessionary and employment trends, which can affect resident incomes and therefore the amount of rental income;
- Inflationary pressure on utility rates, supplies and other costs; and
- Market rates for rental housing

IN CONCLUSION

Meigs Metropolitan Housing Authority takes great pride in its financial management and is pleased to report on the consistent and sound financial condition of the Authority.

**MEIGS METROPOLITAN HOUSING AUTHORITY
MEIGS COUNTY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2021**

1. DESCRIPTION OF THE HOUSING AUTHORITY AND REPORTING ENTITY

The Meigs Metropolitan Housing Authority (the Authority) is a political subdivision of the State of Ohio, created under Section 3735.01 of the Ohio Revised Code.

The Meigs Metropolitan Housing Authority was established for the purpose of engaging the development, acquisition, and administrative activities of the low-income housing program and other programs with similar objectives. The United States Department of Housing and Urban Development (HUD) has direct responsibility for administering the low-income housing program under the United States Housing Act of 1937, as amended. HUD is authorized to enter into contracts with local housing authorities to make grants to assist the local housing authorities in financing the acquisition, construction, and/or leasing of housing units and to make annual contributions (subsidies) to the local housing authorities for the purpose of maintaining the low-rent character of the local housing program.

DESCRIPTION OF PROGRAMS

A. HOUSING ASSISTANCE PAYMENTS PROGRAM - SECTION 8

The Authority administers a program of rental assistance payments to private owners on behalf of eligible low-income families under Section 8 of the Housing and Urban Development Act of 1974. The program provides payments covering the difference between the maximum rental on a dwelling unit, as approved by HUD, and the amount of rent contribution by a participating family.

B. Family Self Sufficiency (FSS) Program

This program is designed to help participants achieve economic independence and self-sufficiency.

REPORTING ENTITY

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the Authority are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the Authority. For the Authority, this includes general operations and Section 8. Component units are legally separate organizations for which the Authority is financially accountable.

The Authority is financially accountable for an organization if the Authority appoints a voting majority of the organization's governing board and (1) the Authority is able to significantly influence the programs or services performed or provided by the organization or (2) the Authority is legally entitled to or can otherwise access the organization's resources; (3) the Authority is legally obligated or has assumed responsibility to finance the deficits of, or provide fiscal support to, the organization; (4) the Authority is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the Authority in that the Authority approves the budget, the levying of taxes or issuance of debt. The Authority did not have any component units or other related organizations in 2021.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Meigs Metropolitan Housing Authority have been prepared in conformity with accounting principles generally accepted in the United States of America as applies to governmental units. The Governmental Accounting Standards Board is the accepted standard - setting body for establishing governmental accounting and financial reporting principles. The more significant of the Authority's accounting policies are described here.

A. BASIS OF PRESENTATION - FUND ACCOUNTING

The Authority uses funds to report on its financial position and the results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special restrictions or limitations. For financial statement presentation purposes, the various programs of the Authority are grouped into the following fund type:

PROPRIETARY FUND TYPE - Proprietary funds are used to account for the Authority's ongoing activities which are similar to those found in a private sector. The following is the Authority's proprietary fund:

ENTERPRISE FUND - The enterprise fund is used to account for operations 1) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods or services of the general public on a continuing basis be financed or recovered primarily through user charges; or 2) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

B. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund type income statements represent increases (e.g. revenues and other financing sources) and decreases (e.g. expenditures and other financing uses) in total net position.

C. BASIS OF ACCOUNTING

Proprietary fund types use accrual basis of accounting for reporting purposes. Revenues are recognized when they are earned and measurable and expenses are recorded at the time liabilities are incurred, if measurable.

D. BUDGETARY DATA

The Authority is not required to follow the budgetary requirements of the Ohio Revised Code. However, the Authority does maintain a budget for management purposes.

**MEIGS METROPOLITAN HOUSING AUTHORITY
MEIGS COUNTY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2021 (CONTINUED)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of funds deposited in checking accounts. Cash equivalents are stated at cost, which approximates market value.

Unrestricted cash and cash equivalents represents the funds that are used for the general operations and the administrative portion of Section 8 program. Restricted cash and cash equivalents represent funds deposited for participants in the Family Self Sufficiency (FSS) Program, which is designed to help participants achieve economic independence and self-sufficiency and the portion of Section 8 designed to aid low-income families with rent.

For purposes of the Statement of Cash Flows and for presentation on the Statement of Net Position, cash and cash equivalents include all highly liquid debt instruments with an original maturity of three months or less at the time they are purchased.

F. CAPITAL ASSETS

The capital asset values initially were determined by assigning original acquisition costs when such information was available. In cases where information supporting original costs was not available, estimated historical costs were developed. Donated capital assets are capitalized at acquisition value on the date donated.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements which extend the useful life or increase the capacity or operating efficiency of the asset are capitalized at cost.

Enterprise Fund Capital Assets: Capital assets reflected in the enterprise fund are stated at historical cost (or estimated historical cost) and are updated for the cost of additions and retirements during the year. Depreciation has been provided on a straight-line basis over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Improvements	27.5 years
Office Equipment	5 years

G. COMPENSATED ABSENCES

In 1999, the Authority implemented the provisions of GASB Statement No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method.

The liability includes the employees who are currently eligible to receive termination benefits and by those employees for whom it is probable will become eligible to receive payment in the future. The amount is based on accumulated sick leave and employees' wage rates at year-end.

In proprietary funds, compensated absences are expensed when earned. The entire amount of compensated absences is reported as a fund liability.

**MEIGS METROPOLITAN HOUSING AUTHORITY
MEIGS COUNTY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2021 (CONTINUED)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. OPERATING REVENUES and EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the Authority, these revenues are operating grants from HUD, and other miscellaneous revenue.

Operating expenses are those expenses that are expended directly for the primary activity of the proprietary fund. For the Authority, these expenses are primarily administrative, benefits, maintenance and operations, depreciation, and housing assistance payments.

I. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and accompanying notes. Accordingly, actual results could differ from those estimates.

J. PENSIONS and OTHER POST EMPLOYMENT BENEFITS

For purposes of measuring the net pension/OPEB liability or asset, deferred outflows of resources, and deferred inflows of resources related to pension/OPEB, and pension/OPEB expense information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

K. NET POSITION

Net position represents the difference between all other elements of the statement of net position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when constraints placed on its use are externally imposed, including HUD, creditors, grantors, contributions, or laws and regulators of other governments. Unrestricted net position represents the portion of net position not classified as net investment in capital assets or restricted.

The amount reported as restricted net position at fiscal year-end represents the amounts restricted by HUD for future Housing Assistance Payments and amounts from Administration Fee which may be recaptured by HUD. When an expense is incurred for purposes which both restricted and unrestricted Net Position is available, the Authority first applies restricted Net Position.

L. DEFERRED OUTFLOWS

A deferred outflow of resources is a consumption of net position by the Authority that is applicable to a future reporting period.

7. DEFINED BENEFIT PENSION PLAN

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability, to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the Authority's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the Authority's obligation for this liability to annually required payments. The Authority cannot control benefit terms or the manner in which pensions are financed; however, the Authority does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability.

7. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's excess unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in accrued personnel costs on both the accrual and modified accrual bases of accounting.

Plan Description

Plan Description - Authority employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. AUTHORITY employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A	Group B	Group C

7. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State and Local
Statutory Maximum Contribution Rates	
Employer	14.0%
Employee	10.0%
 Actual Contribution Rates	
Employer:	
Pension	14.0%
Post-employment Health Care Benefits	0.0%
Total Employer	14.0%
Employee	10.0%

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Authority's contractually required contribution for the period ended September 30, 2021, 2020, and 2019 were \$8,235 \$6,930 and \$8,119. 91% has been contributed for 2021, and a 100% for 2020 and 2019. Of this amount \$703 is reported as accrued salaries payable.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on the Authority's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

Actuarial Assumptions - OPERS

OPERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of December 31, 2020, are presented below:

Actuarial Information	Traditional Pension Plan

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintain a fully funded status for the benefits provided through the defined benefit pension plans. The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of the December 31, 2020, the best estimates are summarized in the following table:

Asset Class	Target Allocation for 2020	Weighted Average Long-Term Expected Real Rate of Return
		(Arithmetic)
Fixed Income	25.00%	1.32%
Domestic Equities	21.00%	5.64%
Real Estate	10.00%	5.39%
Private Equity	12.00%	10.42%
International Equities	23.00%	7.36%
Other Investments	9.00%	4.75%
Total	100.00%	5.43%

Discount Rate The discount rate used to measure the total pension liability was 7.2%, post experience study results, for the Traditional Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

8. DEFINED BENEFIT OPEB PLAN

Net OPEB Liability or Asset

OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net OPEB liability or asset represents Authority's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability or asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits Authority's obligation for this liability or asset to annually required payments. Authority cannot control benefit terms or the manner in which OPEB are financed; however, Authority's does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability or asset is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability or asset. Resulting adjustments to the net OPEB liability or asset would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Plan Description

Authority's employees participate in the Ohio Public Employees Retirement System of Ohio (OPERS), which is a cost-sharing, multiple-employer retirement plan. OPERS maintains one health care trust, the 115 Health Care Trust (115 Trust), which was established in 2014 to initially provide a funding mechanism for a health reimbursement arrangement (HRA), as the prior trust structure could not support the HRA. In March 2016, OPERS received two favorable rulings from the Internal Revenue Service (IRS) allowing OPERS to consolidate health care assets into the 115 Trust. The 401(h) Health Care Trust (401(h) Trust) was a pre-funded trust that provided health care funding

for eligible members of the Traditional Pension Plan and the Combined Plan through December 31, 2015, when plans funded through the 401(h) Trust were terminated.

8. DEFINED BENEFIT OPEB PLAN (CONTINUED)

The Voluntary Employees' Beneficiary Association Trust (VEBA Trust) accumulated funding for retiree medical accounts for participants in the Member- Directed Plan through September 30, 2016. The 401(h) Trust and the VEBA Trust were closed as of September 30, 2016 and the net positions transferred to the trust on July 1, 2016. Beginning in 2016, the 115 Trust, established under Internal Revenue Code (IRC) Section 115, is the funding vehicle for all health care plans. The Plan is included in the report of OPERS which can be obtained by visiting www.opers.org or by calling (800) 222-7377.

Funding Policy – Ohio Revised Code Chapter 145 authorizes OPERS to offer the Plan and gives the OPERS Board of Trustees discretionary Authority's over how much, if any, of the health care costs will be absorbed by OPERS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the year ended December 31, 2020, in the Traditional Plan OPERS allocated 0% of employer contributions to post-employment health care.

Net OPEB Liability(Asset)

The net OPEB liability/(asset) was measured as of December 31, 2020, and the total OPEB liability/(asset) used to calculate the net OPEB liability/(asset) was determined by an actuarial valuation as of that date. Authority's proportion of the net OPEB liability/(asset) was based on Authority's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share:

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

A single discount rate of 6% as used to measure the OPEB liability on the measurement date of December 31, 2020. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 2.00%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2120. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through 2120, the duration of the projection period through which projected health care payments are fully funded.

The following table presents the OPEB liability/(asset) calculated using the single discount rate of 6.00%, and the expected net OPEB liability/(asset) if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability(asset). The following table presents the net OPEB liability(asset) calculated using the assumed trend rates, and the expected net OPEB liability(asset) if it were calculated using a health care cost trend rate that is 1.0% lower or 1.0% higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2021 is 8.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

	1% Decrease	Current Discount	1% Increase
Authority's proportionate share of the Net OPEB Liability/(Asset)	\$ (5,402)	\$ (5,273)	\$ (5,130)

The allocation of investment assets within the Health Care portfolio is approved by the Board as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. The System's primary goal is to achieve and maintain a fully funded status for benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2020 and the long-term expected real rates of return.

9. COMPENSATED ABSENCES

Sick leave and vacation policies are established by the Housing Authority Board of Directors. All permanent employees earn 4.6 hours sick leave for each 80 hours of service, 3.1 hours vacation time for each 80 hours of service for employees with 1—7 years of service; and 4.6 hours vacation time for each 80 hours worked for employees with 8—14 years of service. The Executive Director receives 6.2 hours vacation time for every 80 hours of service. Unused sick leave may be accumulated up to 240 hours and is paid to employees at the time of retirement. All permanent employees earn vacation hours based on length of service. Unused vacation leave will be paid to the employees at the time of separation. As of September 30, 2021, \$2,088 of sick leave and vacation was accrued.

10. ECONOMIC DEPENDENCY

The Authority is economically dependent on receiving operating subsidies from the U.S. Department of Housing and Urban Development (HUD).

11. RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets. The Authority owns 6 single family dwellings that are covered by State Farm Insurance, Auto-Owners Insurance, and Ohio Fair Plan coverage. These dwelling coverages include fire, personal liability, and other special form perils with deductibles between \$250 and \$1,000. There have been no insurance settlements that have exceeded insurance coverage in any of the past three years.

The Authority pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs. There was no reduction in coverage from 2020 to 2021.

12. CONTINGENCIES

The Authority received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the Authority. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the Authority at September 30, 2021.

13. COVID-19

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a “Public Health Emergency of International Concern” and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many counties, included the geographical area in which Authority operates. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to amongst other provisions, provide emergence assistance for individuals, families and businesses affected by the coronavirus pandemic. It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to Authority.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Meigs Metropolitan Housing Authority
Meigs County
441 General Hartinger Parkway
Middleport, Ohio 45760

To the Board of Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the business-type activities of the Meigs Metropolitan Housing Authority, Meigs County, Ohio (the Authority), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated May 31, 2022 wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the Authority.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the Authority's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. *A material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Authority's financial statements. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the Authority's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this report is not suitable for any other purpose.
