We have reviewed the *Independent Auditor's Report* of the Berkshire Local School District, Geauga County, prepared by Charles E. Harris & Associates, Inc., for the audit period July 1, 2021 through June 30, 2022. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Berkshire Local School District is responsible for compliance with these laws and regulations.

Notes to the Schedule of Expenditures of Federal Awards
2 CFR 200.510(b)(6)
For the Year Ended June 30, 2022
(Prepared by Management)

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Berkshire Local School District (the District) under programs of the federal government for the year ended June 30, 2022. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position or the cash flows of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D – CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE E – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Berkshire Local School District
Geauga County
14259 Claridon Troy Road, Box 364
Burton, Ohio 44021

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial statement audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Berkshire Local School District, Geauga County, Ohio, (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 21, 2022, wherein we noted the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the District. We also noted the District adopted new accounting guidance in Governmental Accounting Standards Board Statement 87, *Leases*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purposes of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

However, we noted certain matters not requiring inclusion in this report that we reported to the District's management in a separate letter dated December 21, 2022.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Berkshire Local School District
Geauga County
14259 Claridon Troy Road, Box 364
Burton, Ohio 44021

To the Board of Education:

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited the Berkshire Local School District, Geauga County, Ohio's, (the District) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on the District's major federal program for the year ended June 30, 2022. The District's major federal program is identified in the *Summary of Auditor's Results* section of the accompanying Schedule of Findings.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2022.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

The District's management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated December 21, 2022, which contained unmodified opinions on those financial statements. Our opinion also explained the impact of COVID-19 and that the District adopted Governmental Accounting Standard No. 87. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards (Schedule) is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. The Schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this Schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this Schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule is fairly stated in all material respects in relation to the basic financial statements as a whole.

December 21, 2022

Board of Education Members
Berkshire Local School District

We are pleased to submit to you the Annual Comprehensive Financial Report (ACFR) of the Berkshire Local School District (the "School District") for the fiscal year ended June 30, 2022. This ACFR enables the School District to comply with Ohio Administrative Code Section 117-2-03 (B), which requires reporting on a GAAP (Generally Accepted Accounting Principles) basis, and Ohio Revised Code Section 117.38 which requires school districts reporting on a GAAP basis to file an unaudited annual report with the Auditor of State within 150 days of the fiscal year end.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Under Ohio law, regular audits are required to be performed on all financial related operations of the School District. These audits may be done by either the State Auditor's Office or, if the State Auditor permits, an independent public accounting firm. For fiscal year 2022, the School District was audited by Charles E Harris & Associates. Their unmodified opinion is included in the financial section of this ACFR.

Management's discussion and analysis (MD&A) immediately follows the Independent Auditors' Report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

The School District

The Berkshire Local School District is located in eastern Geauga County and encompasses one hundred and fifteen (115) square miles which includes Burton Village and the Townships of Burton, Claridon and Troy. The School District operates under a locally-elected Board form of government. This Board manages the School District's four instructional/support facilities staffed by 48 non-certificated employees, 103 certificated full time teaching personnel and 8 administrative employees to provide services to 1,359 students and other community members.

The School District was established in June 1967 and is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. Under these provisions, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the School District is vested in the Board of Education, consisting of five members elected at-large for staggered four year terms. Statutorily, the School District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 of the Ohio Revised Code to provide services mandated by State and Federal agencies.

The Berkshire Local School District provides a comprehensive array of educational programs and services to students in three buildings:

- Berkshire Junior Senior High School built in 1936, with additions in 1973 and 2002, houses 618 students from grades 7 through 12.
- Burton Elementary School built in 1959, with an addition in 1962, and modular addition in 2009, houses 516 students from grades kindergarten through 6.
- Ledgemont Elementary School built in 1981 houses 225 students from grades kindergarten through 6.

The Burton Elementary School and Ledgemont Elementary School provides general and special education services to children ranging from kindergarten through the sixth grade. The Berkshire Junior High/High School provides general, special education and vocational education services to students ranging from the seventh grade through the twelfth grade. Course offerings, supplemented by extra-curricular opportunities, provide students with the skills necessary to pursue post-high school educational and career goals. All three buildings were sold at auction during fiscal year 2021. The sale was contingent upon a short term lease of the buildings for fiscal year 2022, however, the lease is not an exchange transaction.

The School District's cost-per-pupil is consistently among the lowest for Geauga County school districts. The results of achievement, competency and proficiency testing continue to substantiate the effectiveness of the teaching-learning process in the School District.

The annual budget serves as the foundation for the Berkshire Local School District's financial planning and control. The legal level of control has been established by the Board of Education at fund level for all funds. The Treasurer has been given authority to allocate board appropriations to the function and object levels within each fund. Transfers between funds, however, need special approval from the Board.

Economic Condition and Outlook

The Berkshire Local School District is noteworthy for a variety of reasons. It is rural and includes part of the second largest Amish population in Ohio, yet it is an easy commute to Cleveland, a major metropolitan center. The population contains a relatively high number of senior citizens, testimony to the fact that the region is a safe, desirable place to live. Property values have remained steady despite the unpredictable economy. Several businesses are located in the area such as Great Lakes Cheese Company, Excel Polymers, LLC, Troy Manufacturing, Burton Floral and Garden, and Preston Superstore.

Many smaller run service businesses are located throughout the School District community. Adding to a strong small business base are construction, remodeling, plumbing, landscaping, door service, concrete, paving, hardware, coin-operated laundromat, and water softener businesses owned by people of the community. Professional service businesses such as insurance, attorneys' offices, credit union, banks, and accountants also contribute to the local economy. Many of these have been around for more than twenty years. Kent State Geauga Campus has begun an expansion project to bring more class offerings to the area. Currently they offer associates degrees in arts and sciences, accounting technology, business management technology, and computer technology along with baccalaureate degrees in business management technology and general studies. The commercial base, though growing and changing, is still rather small compared to more densely populated areas and neighboring school districts.

The high school and Burton Elementary building are located in Burton Village, known for its historical atmosphere – a place where history lives. Around the center of town and in the surrounding area are many specialty shops that add to the charm of the Village and to the local economy. These include All Matters, Inc., A.H., Christiansons, Locally Blown Glass, Coffee Corners Antiques, Lu Lu Tru Day Spa, White House Chocolates, and Sunrise Farm Market. After a day of unique shopping, one can take in a good meal at Quintealias Tea Parlor, JC's or Warren's Spirited Kitchen; all are within walking distance of the square and the shops.

Burton is host to Century Village. This museum is open year round sharing a part of history with over twenty historically accurate buildings on sixty-five acres, 20,000 museum artifacts that depict a Western Reserve Village from 1798 to 1900 and a working farm with a sugar bush maintained for making maple syrup. Many events and festivals are held bringing in thousands of visitors to the area each year including music festivals, Civil War reenactments and the Apple Butter Festival. The Great Geauga County Fair,

the oldest fair in Ohio, is held Labor Day weekend and shares the country atmosphere with over 100,000 visitors each year. Many events are real crowd pleasers such as the rooster flying contest (hosted by Dick Goddard), cow milking, the demolition derby, and the battle of the fire departments. Two large antique fairs are held on the fairgrounds every May and September, as are other events throughout the year bringing in many visitors to the area and adding to the local economy.

Ledgemont Elementary is located in Thompson Township which is the birthplace of Charles Martin Hall, the inventor of the commercial method of producing aluminum. Thompson is also home to Thompson Drag Raceway. The raceway was one of the first dragstrips in the nation, and the first dragstrip in Ohio. Famous drivers such as Don Garlits and T.V. Tommy Ivo received their start into the racing business at Thompson. After a day at the raceway, enjoy a delicious meal at Stocker on the Square or visit one of our many wineries such as Maple Ridge Vineyard, Grand River Cellars or St. Joseph Vineyard.

School District Local Funding

The funding structure of public education in Ohio is such that school districts receive very little revenue growth as a result of inflationary increases in their tax base. This is a result of House Bill 920 which mandates that any increases in assessed real property values as a result of reappraisal result in a corresponding decrease in millage rate. This keeps the tax receipts the same as when the levy was first placed on the ballot. As a result, school districts throughout Ohio must place operating funding levies on the ballot at regular intervals to keep pace with inflation and added programming.

School District management will carefully control expenses during the coming years to continue to assure tax levy revenues are adequate and well spent. A one percent tax levy on earned income was approved by voters in May of 2007, with collection beginning in 2008. This levy replaced a .75 percent income tax on all income. Because of cuts in State funding, reduced revenues from the phasing out of the tangible personal property tax and increased costs in health care, bus fuel, and utilities, the School District was forced to return to the ballot for additional operating revenues. The earned income tax levy was the best option for the School District as it has a history of not passing operating levies. The option to change the current income tax levy to an earned income tax levy was just allowed in 2006 and the Board took advantage of this option to continue needed funding for the School District.

During fiscal year 2022, the School District maintained a restrictive budget and monitored costs to end the fiscal year with a conservative balance. The School District has continued to closely monitor expenditures as a result of declining revenue and anticipated revenue losses in the coming years. Various cost cutting measures including sharing transportation arrangements with other nearby districts when feasible. These efforts were made to attempt to keep ahead of the rising cost of utilities and fuel and building maintenance repairs. The School District is striving to maintain a quality education for its students within a tight budget.

Long-Term Planning

Annually, the School District prepares a five-year financial forecast in accordance with State law. The financial forecast is the foundation for the School District's operations and is used as a financial planning tool to assist the School District in determining its ability to meet certain financial obligations and plan future funding needs. The forecast shows revenues and expenditures for the general operating fund for the past three fiscal years and projects revenues and expenditures for the ensuing five-year period. Through a collaborative process, the administration assists the Board of Education in determining and prioritizing the needs of the School District.

Relevant Financial Policies

It is the School District's responsibility to provide essential services for its citizens while managing and safeguarding public funds. Specific policies are key tools that help management make sound financial decisions. The Investment Policy and the Capital Asset Policy are two of these key management tools. An investment policy is necessary for effective cash management and is essential to good fiscal management. This is particularly true as mounting costs and expanding programs have placed ever increasing pressures

on the School District's revenues. Investment returns on funds not immediately required can help to reduce this pressure. Effective cash management of these funds requires an investment policy be well founded and uncompromisingly applied. The Treasurer manages the investment of the School District's funds by adhering to the Investment Policy that has been approved by the Board of Education. Any financial institution that holds School District funds must also agree to the requirements of this policy. This policy details the objectives and rules for the safekeeping of the School District's funds.

The main objective of the capital asset policy is to maintain and safeguard the School District's assets. The policy is implemented to help management control fixed and moveable property for more effective asset accountability and interdepartmental utilization, valuing of assets for insurance coverage (for proof of loss and replacement of assets), financial projections of depreciated assets for use in future capital expenditures and to determine the actual cost of a function of the School District, and asset accountability for increased security of vulnerable equipment.

Major Initiatives

Strategic Planning/Long-term Financial Goals

The School District approved a 3.65 mill bond levy to construct a Pre K through 12 school on Kent State Geauga's campus in May 2018. In October 2018, the School District began the planning process for the new school in conjunction with the Ohio Facilities Construction Commission (OFCC) with Berkshire contributing forty-five percent of building costs and the State of Ohio contributing fifty-five percent. The new building will be operational in August 2022.

The School District expanded their open enrollment policy in 2012 to include students at the Kindergarten through sixth grade levels. For fiscal year 2022, an additional 246 students open enrolled to the School District.

No Child Left Behind Compliance

Unfunded federal mandates require additional extensive diagnostic and achievement testing of students. Berkshire Local School District has complied with such requirements. As such testing is introduced at various grade levels, the School District is working with the assessment instruments provided by the State of Ohio. In addition, Berkshire Local School District teachers are being measured by the No Child Left Behind standard of "highly qualified" in relationship to their teaching assignments.

Federal Projects

The School District files applications for federal funds electronically utilizing the Consolidated Local Plan. This allows the director to coordinate the application to the goals of the Continuous Improvement Plan. The School District continues to apply for all federal funds for which the School District is eligible. This includes the Title IIA Grant allowing for professional development opportunities for teachers, Title IV Grant which serves preschool students, IDEA dedicated to special needs children, the Title I Reading Recovery program to improve the reading for eligible students at the elementary school and ESSER dedicated to provide Covid-19 relief. Student readiness for advancement in each grade has been the primary focus of these services.

Educational Programs and Facilities Improvements

One of the most successful programs instituted in the last ten years is the all day every day kindergarten program. The benefits of this program have moved the Board to consider other options for cost saving measures instead of reverting back to the half-day program. Given the lack of pre-schools in the area, all day programs for kindergarten become even more important.

During the 2022 school year, the School District's curriculum included a wide range of electives and comprehensive courses of study in college preparatory, liberal arts and vocational programs. Advanced placement courses are offered at the high school in Biology, Calculus, Literature and Composition, Language and Composition, Environmental Science, Physics, Statistics, US Government, US History,

World History, Computer Science, Spanish, and Chemistry. College Credit Plus offerings include Algebra for Calculus, Statistics, Modern Math, Spanish, and Computer Science. The high school offers over 180 courses on the main campus with over 50 additional vocational offerings at Auburn Career Center.

The School District regularly assesses the needs of the buildings and what facility improvements are needed for that school year. Minor repairs and updates have been made during the current year.

Awards

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Berkshire Local School District for its annual comprehensive financial report for the fiscal year ended June 30, 2021. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The publication of this report is a significant step toward elevating the professional standards for Berkshire Local School District's financial reporting. We believe it enhances the School District's accountability to the residents and provides all interested parties with a broad historical perspective of the Berkshire Local School District's financial and demographic information. The preparation of this report would not have been possible without the efficient and dedicated service of the Treasurer's Office staff, Jaime Berman and Bonnie Makowski. Assistance from the Geauga County Auditor's staff and outside agencies made possible the fair presentation of statistical data.

Special appreciation is expressed to the Local Government Services' section of the State Auditor Keith Faber's office for assistance in the planning, designing and reviewing of this financial report.

Finally, sincere appreciation is extended to the Board of Education for their support for this project and their continued commitment to providing quality education for the students in our community.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Berkshire Local School District
Geauga County
14259 Claridon Troy Road, Box 364
Burton, Ohio 44021

To the Board of Education:

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Berkshire Local School District, Geauga County, Ohio (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Berkshire Local School District, Geauga County, Ohio as of June 30, 2022, and the respective changes in financial position and its cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matters

As discussed in Note 24 to the financial statements, the financial impact of COVID-19 and ensuing emergency measures will impact subsequent periods of the District. As discussed in Note 25 to the financial statements, the District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. We did not modify our opinion regarding these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of net pension and other post-employment benefit liabilities/assets and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain

limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical section information but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2022, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Berkshire Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2022
Unaudited

The management's discussion and analysis of Berkshire Local School District's (the School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2022. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key Financial Highlights for fiscal year 2022 are as follows:

- Total capital assets increased from fiscal year 2021. The additions to capital assets consisted of the ongoing construction of the school building along with furniture/fixtures. There were corresponding decreases in outstanding fiscal year-end payables that were directly related to the ongoing construction that is close to completion at fiscal year end.
- Total program expenses decreased from fiscal year 2021 from changes in the pension and OPEB systems specific to the total amounts of unfunded liabilities resulting in decreases to the corresponding liabilities as well.
- The School District had additions to the long-term liabilities specific to financed purchases from an electrical transformer and from leases specific to a postage meter. The inclusion of these new liabilities is in compliance with the implementation of GASB 87 for the current year statements.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Berkshire Local School District as a financial whole, or complete operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and the Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate and longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements explain how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the Berkshire Local School District, the general fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While these statements contain information about the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2022?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting, similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

Berkshire Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2022
Unaudited

These two statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader that, for the School District as a whole the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's current property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, all of the School District's activities are classified as governmental. All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, operation of food services and extracurricular activities.

Reporting the School District's Most Significant Funds

The analysis of the School District's major funds begins with the balance sheet. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general fund and the building and classroom facilities capital projects funds.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Fund The School District maintains a proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the School District's various functions. The School District's internal service fund accounts for dental and prescription claims self-insurance. The proprietary fund uses the accrual basis of accounting.

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the School District's programs. These funds use the accrual basis of accounting.

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for 2022 compared to 2021:

Table 1
 Net Position
 Governmental Activities

	2022	2021	Change
Assets			
Current and Other Assets	\$28,999,418	\$52,926,130	(\$23,926,712)
Net OPEB Asset	1,276,533	1,031,428	245,105
Capital Assets	54,934,700	34,366,168	20,568,532
Total Assets	85,210,651	88,323,726	(3,113,075)
Deferred Outflows of Resources			
Deferred Charge on Refunding	50,427	51,903	(1,476)
Pension	4,880,005	3,841,079	1,038,926
OPEB	625,735	627,142	(1,407)
Total Deferred Outflows of Resources	5,556,167	4,520,124	1,036,043
Liabilities			
Current and Other Liabilities	5,361,133	11,256,627	5,895,494
Long-term Liabilities:			
Due Within One Year	446,992	573,573	126,581
Due in More Than One year:			
Net Pension Liability	10,131,758	18,225,506	8,093,748
Net OPEB Liability	1,264,787	1,372,484	107,697
Other Amounts	32,770,668	32,816,982	46,314

Deferred Inflows of Resources			
Property Taxes	6,733,948	6,572,448	(161,500)
Pension	8,014,802	157,738	(7,857,064)
OPEB	2,257,124	2,017,169	(239,955)
Total Deferred Inflows of Resources	17,005,874	8,747,355	(8,258,519)
Net Position			
Net Investment in Capital Assets	27,575,978	16,502,193	11,073,785
Restricted	2,808,229	12,444,396	(9,636,167)
Unrestricted (Deficit)	(6,598,601)	(9,095,266)	2,496,665
Total Net Position	\$23,785,606	\$19,851,323	\$3,934,283

The net pension liability (NPL) is one of the largest liabilities reported by the School District at June 30, 2022. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise

Berkshire Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2022
Unaudited

of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the School District, total assets and deferred outflows of resources exceed total liabilities and deferred inflows of resources by \$23,785,606 in fiscal year 2022 and \$19,851,323 in fiscal year 2021.

A large portion of the School District's net position reflects "Net Investment in Capital Assets" (i.e. land, construction in progress, buildings, improvements, furniture, fixtures, equipment and vehicles) less any related debt to acquire those assets that are still outstanding. The School District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the School District's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

By comparing assets and liabilities, one can see the overall position of the School District has increased as evidenced by the increase in net position. Management continues to diligently plan expenses, staying carefully within the School District's revenues in an effort to maintain the durations between its levy requests. Current assets decreased from reductions to both cash and intergovernmental receivables. The reduction to cash is the direct result of payments for ongoing construction and the reduction to the intergovernmental receivable results from the collection of the Ohio Facilities Construction Commission (OFCC) grant specific to the construction of the school facilities. Capital assets increased from construction in progress on the new school facilities. The current liabilities consist largely of payables associated with the construction that were outstanding at fiscal year-end, accrued interest owed on the OFCC debt bonds and certificates of participation, and accrued wages on employees off for the summer.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for 2022 and 2021.

Governmental Activities

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. It increases as a result of new construction or collection from a new voted levy. Although school districts experience inflationary growth in expenses, tax revenue does not keep pace with the increased expenses due to House Bill 920. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00 and the School District would collect the same dollar value the levy generated in the year it passed. The 10 percent rollback on all residential/agricultural property and the 2.5 percent rollback on all owner occupied homes would reduce the amount of taxes paid.

Thus school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service.

In May 2007, the community approved a one percent income tax levy on all earned income within the School District effective for the 2008 collections. This replaced the .75 percent income tax levy on all income within the School District.

Overall revenues decreased during fiscal year 2022 due mainly to the property taxes and charges for services. Revenue from property taxes decreased in fiscal year 2022 primarily due to the timing of collections from the prior year County-wide reevaluation. The decrease in charges for services is specific to a decrease in tuition from changes in State foundation distributions. A decrease in interest revenue resulted from changes to rates coupled with reductions to cash to invest resulting from the OFCC construction. These decreases were offset by an increase in grants and entitlements not restricted as the School District continues to seek out additional sources of revenues.

The School District actively pursues grants and controls expenses while still maintaining the high academic standards the residents expect of the School District.

Parents continue to have the opportunity to pay for the student's lunch online. Each student uses his/her personal identification number, that accesses his/her account, when visiting the cafeteria.

The largest component of the decrease in program expenses results from changes in assumptions and benefit terms related to the pension and OPEB in the prior year. Increased amortization of the net difference between projected and actual earnings on investment resulted in changes to pension expense decreasing from \$2,123,756 in fiscal year 2021 to \$231,041 in fiscal year 2022 and changes to the OPEB expense decreasing from (\$53,292) in fiscal year 2021 to (\$59,220) in fiscal year 2022.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

The negative amounts indicated in Table 3 should not be construed as something bad; they are merely indicative of whether a particular function of government relies on general revenues for financing or is a net contributor of resources to the School District. Clearly, the six communities that comprise the School District are, by far, the greatest source of financial support for the students of the Berkshire Local School District.

The School District's Funds

Information regarding the School District's major funds begins with the balance sheet. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$29,386,597 and expenditures of \$42,227,947. The general fund increase in fund balance was due to the revenues continuing to outpace expenditures and fund subsidies through careful management planning. The School District passed a bond issue in May 2018 totaling \$28 million to build a new Pre K through 12 building on the Kent State Geauga's campus in Burton. The State of Ohio through the Ohio Facilities Construction Commission has committed \$22.8 million towards the project. As one can see from the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds, property and income taxes from the communities that comprise the School District are two large source revenues, accounting for 44 percent of total governmental revenue. The building and the classroom facilities capital projects funds saw a decrease in fund balance from the School District using available cash to continue on the building construction.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant fund to be budgeted is the main operating fund of the School District, the general fund.

Berkshire Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2022
Unaudited

During the course of fiscal year 2022, the School District amended its general fund budget several times. The School District uses a site-based budgeting system designed to tightly control total site budgets, but provide flexibility for site management.

The School District ended the fiscal year \$305,877 higher than budgeted ending fund balance. This is due in large part to the School District's continued commitment to provide a quality education while still controlling the costs of a quality education.

Capital Assets and Debt Administration

Capital Assets

The School District continued construction on the new building accounting for construction in progress, while completing the sale of the current school buildings during the fiscal year. Additions also included the purchase of furniture and equipment for the opening of the new school building for fiscal year 2023. Ohio law requires school districts to set aside three percent of certain revenues for capital improvements. For fiscal year 2022, this amounted to \$241,076. See Note 11 to the basic financial statements for additional information on the School District's capital assets and Note 22 for additional information regarding required set-asides.

Debt

The School District had previously issued School Facilities Construction and Improvement Bonds in the amount of \$28,000,000 at an interest rate of 3.5 percent. The bonds were issued for a thirty-eight year period with final maturity at October 1, 2056. This bond issue was fully refunded in fiscal year 2021. The School District issued General Obligation Refunding Bonds in the amount of \$26,260,000 at varying interest rates of 2 to 4 percent. The bonds were issued for a thirty-five year period with final maturity at October 1, 2057. The outstanding bond balance as of the end of fiscal year 2022 was \$26,260,000. The School District issued Certificates of Participation in the amount of \$4,000,000 at an interest rate of 4 percent. The certificates were issued for a thirty year period with final maturity at October 1, 2050. The outstanding certificates balance as of the end of fiscal year 2021 was \$4,000,000. The outstanding financed purchases and lease balances as of the end of fiscal year 2022 were \$289,845 and \$4,160, respectively. At June 30, 2022, the School District's overall legal debt margin was \$4,899,774 with an unvoted debt margin of \$384,626. See Note 17 to the basic financial statements for additional information regarding long-term obligations.

School District Outlook

The financial future of the School District is not without its challenges. These challenges are internal and external in nature. The internal challenges will continue to exist as the School District must rely heavily on local property taxes and earned income tax to fund its operations. External challenges continue to evolve as the State's educational funding system is generating zero to minimal growth in funding operations. As the preceding information shows, the School District is heavily reliant on local property taxpayers.

Management must continue to diligently plan expenses, staying carefully within the School District's financial forecast. Additional revenues must not be treated as a windfall to expand programs but as an opportunity to extend the time horizon of the life of the levies.

In December 2016, the Governor signed House Bill 148, as part of House Bill 438, which presented some unique opportunities to the School District. The bill provides classroom facilities assistance to certain school districts resulting from consolidation or merger. Because Berkshire underwent a territory transfer from

Berkshire Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2022
Unaudited

Ledgemont Local Schools in 2015, we qualified for this facility assistance. The Bill provides for up to fifty-five percent funding towards the construction of school facilities. This funding can be used for renovation and new construction. The formula offers schools up to a twenty-five percent reduction due to consolidation and up to ten percent reduction if the school constructs a building on land owned by a State institution. As a result of this formula, the School District's local share of costs will be forty-five percent. In May of 2018, the School District approved a 3.65 mill bond levy to construct a new Pre-K through 12 building. The building is under construction on property owned by Kent State University Geauga in cooperation with the Ohio Facilities Construction Commission with plans to open in August 2022.

The School District has committed itself to financial and educational excellence for many years to come. The School District has received the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting since 2000. Due to budget constraints during fiscal year 2009, the School District decided to forgo publishing an Annual Comprehensive Financial Report (ACFR) for one year and only publish the required Basic Financial Statements. The School District received the GFOA award for its report for fiscal year 2021 and has submitted this report to GFOA for consideration.

In conclusion, the Berkshire Local School District is in a period posing both significant challenges and opportunities. Management is committed to working with all stakeholders to craft solutions that will most effectively use the available resources to continue to provide an excellent education to the students of the School District.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information contact Beth A. McCaffrey, in the Treasurer's Office, at Berkshire Local School District, 14155 Claridon Troy, Burton, Ohio 44021. beth.mccaffrey@berkshireschools.org

*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2022*

Net Change in Fund Balances - Total Governmental Funds (\$12,827,686)

*Amounts reported for governmental activities in the
statement of activities are different because:*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

This is the amount by which capital outlay exceed depreciation in the current period:

Capital Outlay	20,964,452	
Depreciation	<u>(211,488)</u>	
Total		20,752,964

Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. (184,432)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Property Taxes	34,256	
Income Taxes	51,104	
Intergovernmental	(5,391,231)	
Tuition and Fees	<u>(10,307)</u>	
Total		(5,316,178)

Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows:

Pension	1,506,651	
OPEB	<u>52,220</u>	
Total		1,558,871

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability are reported as pension/OPEB expense in the statement of activities:

Pension	(231,041)	
OPEB	<u>59,220</u>	
Total		(171,821)

Other financing sources in the governmental funds that increase long-term liabilities in the statement of net position are not reported as revenues in the statement of activities:

Inception of Financed Purchases	(241,239)	
Inception of Lease	<u>(4,599)</u>	
Total		(245,838)

Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 123,662

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:

Accrued Interest	(48,854)	
Amortization of Premium	43,068	
Amortization of Deferred Charge on Refunding	<u>(1,476)</u>	
Total		(7,262)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:

Compensated Absences	155,603	
Special Termination Benefits	<u>96,400</u>	
Total		<u>252,003</u>

Change in Net Position of Governmental Activities \$3,934,283

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Note 1 - Description of the School District and Reporting Entity

Berkshire Local School District (the “School District”) operates under a locally elected Board form of government and provides educational services as authorized by state and/or federal agencies. This Board controls the School District’s four instructional/support facilities staffed by 48 non-certified employees, 103 certified full time teaching personnel and 8 administrative employees to provide services to 1,359 students and other community members.

The School District was established in 1967 and is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. Under such laws there is no authority for a school district to have a charter or adopt local laws. The legislative power of the School District is vested in the Board of Education, consisting of five members elected at-large for staggered four year terms.

The School District serves an area of approximately 120 square miles. It is located in Geauga County, including all of Burton Village, Burton, Claridon, Montville, Thompson and Troy Townships, Ohio. It currently operates three instructional buildings and one administrative building.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Berkshire Local School District, this includes the agencies and departments that provide the following services: general operations, food service and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization’s resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The School District has no component units.

The School District is associated with three jointly governed organizations, one related organization and one insurance purchasing pool. These organizations are the Auburn Career Center, the Lake Geauga Computer Association, the Ohio Schools Council Association, the Burton Public Library and the Ohio Association of School Business Officials Workers’ Compensation Group Rating Program. These organizations are presented in Notes 19, 20 and 21 to the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District’s accounting policies are described below.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses. These statements usually distinguish between those activities of the School District that are governmental and those that are considered business-type. The School District, however, has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental activity is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

General Fund The general fund is the operating fund of the School District and is used to account for and report all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Building Fund The building fund accounts for and reports bond proceeds restricted for the acquisition, construction or improvement of capital facilities.

Classroom Facilities Fund The classroom facilities fund accounts for and reports grant revenue from the Ohio School Facilities Commission restricted for the construction and equipping of classroom facilities.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Fund Type Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

Internal Service Fund The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund is a self insurance fund that accounts for dental and prescription claims of School District employees.

Fiduciary Fund Type Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into the following four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that has certain characteristics. The School District has a private purpose trust fund which accounts for various college scholarships for students. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The School District's only custodial fund accounts for monies received for athletic tournaments held on behalf of the Ohio High School Athletic Association.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (e.g. revenues) and decreases (e.g. expenditures) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary and fiduciary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of fund net position. In fiduciary funds, a liability to the beneficiaries of fiduciary activity is recognized when an event has occurred that compels the government to disburse fiduciary resources. Fiduciary fund liabilities other than those to beneficiaries are recognized using the economic resources measurement focus.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

For proprietary funds, the statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activity.

Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from investment trust, private purpose trust funds and custodial funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and statements for the proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the fiscal year in which the income is earned and revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 5). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, fees and rentals.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for the deferred charges on refunding, pension and OPEB plans. A deferred charge on refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 15 and 16.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include property taxes, pension and OPEB plans and unavailable revenue. Property taxes represent amounts for which

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

there is an enforceable legal claim as of June 30, 2022, but which were levied to finance fiscal year 2023 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, income taxes, grants and charges for services. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities on page 17. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Notes 15 and 16)

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the School District's records. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

During fiscal year 2022, the School District invested in STAR Ohio, money market accounts, commercial paper, U.S. treasury notes, U.S. treasury bonds, federal home loan bank bonds and federal national mortgage association notes. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For fiscal year 2022, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice for deposits and withdrawals of \$100 million or more is encouraged. STAR Ohio reserves the right to limit the transaction to \$250 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. The fair value of the money market fund is determined by the fund's current share price.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2022 amounted to \$13,653 which includes \$7,792 assigned from other funds. Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or the laws of other governments. Restricted assets in the general fund include amounts for unclaimed monies and amounts required by State statute to be set aside to create a reserve for budget stabilization. See Note 22 for additional information regarding set-asides.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2022, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

Inventory

Materials and supplies inventory is presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventories consist of materials and supplies held for consumption. Inventory held for resale is presented at lower of cost or market and consists of donated and purchased food held for resale.

Capital Assets

The School District’s only capital assets are general capital assets. General capital assets are those assets not specifically related to activities reported in the proprietary fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets (except for intangible right-to-use lease assets which are discussed below) are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The School District was able to estimate the historical cost for the initial reporting of assets by backtrending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of one thousand five hundred dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset’s life are not.

All reported capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives
Buildings and Improvements	21 - 50 years
Furniture and Fixtures	5 - 25 years
Vehicles	8 - 15 years

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

The School District is reporting an intangible right to use asset related to a postage machine. The leased asset is initially measured at the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, these intangible assets are being amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payments in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year-end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for all employees with five years of service with the School District.

The entire compensated absence liability is reported on the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund(s) from which the employees who have resigned or retired will be paid.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the proprietary fund are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits. Bonds and leases are recognized as a liability in the fund financial statements when due.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Unearned Revenue

Unearned revenue represents amounts under the accrual and modified accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because the amounts have not yet been earned. The School District recognizes unearned revenue for intergovernmental revenue from grants received before the eligibility requirements are met.

Internal Activity

Transfers between governmental activities are eliminated on the government wide financial statements. Internal events that are allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues and expenses in the internal service fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the School District Board of Education or a School District official delegated that authority by State statute. State statute authorizes the Treasurer to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The Board of Education has assigned fund balance for uniform school supplies, rotary, public school support, the school improvement model and to cover a gap between estimated revenue and appropriations in fiscal year 2023’s budget.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes included resources which will be used for athletics, special education, and classroom facilities maintenance.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the School District, these revenues are charges for services for self-insurance programs. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. Any revenues and expenses not meeting the definitions of operating are reported as nonoperating.

Bond Premiums

On the government-wide financial statements, bond premiums are deferred and amortized over the term of the bonds using the straight-line method. Bond premiums are presented as an increase of the face amount of the bonds payable. On fund financial statements, bond premiums are receipted in the year the bonds are issued.

Under Ohio law, premiums on the original issuance of debt are to be deposited to the bond retirement fund to be used for debt retirement and are precluded from being applied to the project fund. Ohio law does allow premiums on refunding debt to be used as part of the payment to the bond escrow agent.

Deferred Charge on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources on the statement of net position.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities column of the Statement of Net Position.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds. The Treasurer has been given authority to allocate board appropriations to the function and object levels within each fund.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original and final budgeted amounts in the budgetary statement reflect the amounts in the certificate when the original and final appropriations were passed by the Board of Education.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

Note 3 - Budgetary Basis of Accounting

While the School District is reporting its financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Advances In/Out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
4. Encumbrances are treated as expenditures (budget) rather than as restricted, committed or assigned fund balance (GAAP).

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

5. Budgetary revenues and expenditures of the uniform school supplies fund, special rotary, public school support, school improvement model, unclaimed funds and termination benefit funds are reclassified to the general fund for GAAP reporting.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

Net Change in Fund Balance	
GAAP Basis	\$699,057
Net Adjustment for Revenue Accruals	179,232
Net Adjustment for Expenditure Accruals	(346,569)
Perspective Difference:	
Uniform School Supplies	(587)
Special Rotary	7,010
Public School Support	(631)
Termination Benefit	168,188
Advances In	173,810
Advances Out	(256,909)
Encumbrances	<u>(345,806)</u>
Budget Basis	<u><u>\$276,795</u></u>

Note 4 - Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio); and
8. Certain bankers' acceptances (for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim moneys available for investment at the time of purchase.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At June 30, 2022, \$343,510 of the School District's total bank balance of \$1,040,555 was exposed to custodial credit risk because those deposits were uninsured and uncollateralized. One of the School District's financial institutions participates in the Ohio Pooled Collateral System (OPCS) and was approved for a reduced collateral floor of 50 percent resulting in the uninsured and uncollateralized balance.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the School District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

Investments

As of June 30, 2022, the School District had the following investments:

Measurement/Investment	Measurement Amount	Maturity	Standard & Poor's Rating	Percentage of Total Investments
Net Asset Value (NAV) per share:				
STAR Ohio	\$8,709,946	35.3 Days	AAAm	N/A
Fair Value - Level One Inputs:				
Money Market Accounts	2,421,903	Daily	AAAm	15.22%
Fair Value - Level Two Inputs:				
Commercial Paper	198,822	Less than one year	AAAm	N/A
U.S. Treasury Notes	3,134,804	Less than three years	N/A	19.70
U.S. Treasury Bonds	769,044	Less than three years	N/A	N/A
Federal Home Loan Bank Bonds	579,224	Less than three years	AAAm	N/A
Federal National Mortgage Association Notes	99,749	Less than one year	AAAm	N/A
Total Investments	\$15,913,492			

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the School District's recurring fair value measurements as of June 30, 2022. The money market account is measured at fair value and is valued using quoted market prices (Level 1 inputs). The School District's remaining investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. (Level 2 inputs).

Credit Risk Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The School District has no investment policy that addresses credit risk.

Interest Rate Risk The School District has no investment policy that addresses interest rate risk. State statute requires that an investment mature within five years from the date purchase, unless matched to a specific obligation or debt of the School District, and that an investment must be purchased with the expectation that it will be held to maturity.

Concentration of Credit Risk The School District places no limit on the amount it may invest in any one issuer.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Note 5 - Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property located in the School District. Real property tax revenues received in calendar year 2022 represents collections of calendar year 2021 taxes. Real property taxes received in calendar year 2022 were levied after April 1, 2021, on the assessed value listed as of January 1, 2021, the lien date. Assessed values for real property are established by State law at thirty-five percent of appraised market value. Real property are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in calendar year 2022 represents collections of calendar year 2021 taxes. Public utility real and tangible personal property taxes received in calendar year 2022 become a lien December 31, 2020, were levied after April 1, 2021 and are collected in 2022 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Geauga County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2022, are available to finance fiscal year 2022 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2022 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations are reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes.

The amount available as an advance at June 30, 2022 was \$1,621,493 in the general fund, \$363,317 in the bond retirement fund and \$78,042 in the permanent improvement capital projects fund. The amount available as an advance at June 30, 2021, was \$1,452,618 in the general fund, \$300,819 in the bond retirement fund and \$69,350 in the permanent improvement capital projects fund. The difference was in the timing and collection by the County Auditor.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been reported as deferred inflows of resources unavailable revenue.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

The assessed values upon which the fiscal year 2022 taxes were collected are:

	2021 Second Half Collections		2022 First Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$365,284,070	96.25 %	\$369,667,650	96.11 %
Public Utility Personal	14,231,550	3.75	14,958,210	3.89
Total	\$379,515,620	100.00 %	\$384,625,860	100.00 %
Full tax rate per \$1,000 of assessed valuation	\$55.93		\$55.95	

Note 6 – Tax Abatements

Pursuant to Ohio Revised Code Chapter 5709, Geauga County established a community reinvestment area (CRA) during 2016 to provide property tax abatements to encourage employment growth in the County. The School District’s property taxes had abatements totaling \$424,245 for fiscal year 2022.

Note 7 – Accountability

At June 30, 2022, the title I, latchkey and the ESSER special revenue funds had deficit fund balances of \$10,594, \$8,739 and \$65,566, respectively. These deficits are the result of the recognition of payables in accordance with generally accepted accounting principles as well as short-term interfund loans from the general fund needed for operations until the receipt of grant monies. The general fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

Note 8 - Receivables

Receivables at June 30, 2022, consisted of taxes, accounts (rent, student fees and tuition) and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables, except for delinquent property taxes are expected to be collected within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

A summary of principal items of intergovernmental receivables follows:

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

<u>Governmental Activities</u>	<u>Amounts</u>
ESSER Grant	\$264,682
Foundation Adjustments	43,891
Title I Grant	17,581
Miscellaneous State Grant	8,788
Medicaid	5,295
Drug Free Schools Grant	685
Total	<u>\$340,922</u>

Note 9 - Contingencies

Grants

The School District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2022.

School Foundation

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, ODE adjustments for fiscal year 2022 are finalized with no additional receivables or payables to accrue for the School District.

Litigation

The School District is not party to legal proceedings.

Note 10 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Note 11 – Capital Assets

Capital asset activity for the fiscal year ended June 30, 2022, was as follows:

	Balance July 1, 2021	Additions	Deletions	Balance June 30, 2022
Nondepreciable Capital Assets				
Land	\$110,281	\$0	\$0	\$110,281
Construction in Progress	33,029,248	20,475,050	0	53,504,298
<i>Total Nondepreciable Capital Assets</i>	<u>33,139,529</u>	<u>20,475,050</u>	<u>0</u>	<u>53,614,579</u>
Depreciable Capital Assets				
Buildings and Improvements	560,827	241,239	(553,742)	248,324
Furniture and Fixtures	1,254,780	0	(988,478)	266,302
Vehicles	2,218,381	243,564	(354,347)	2,107,598
Intangible Right to Use Lease - Equipment **	0	4,599	0	4,599
<i>Total at Historical Cost</i>	<u>4,033,988</u>	<u>489,402</u>	<u>(1,896,567)</u>	<u>2,626,823</u>
Less: Accumulated Depreciation/Amortization				
Buildings and Improvements	(443,296)	(17,302)	447,919	(12,679)
Furniture and Fixtures	(986,269)	(35,126)	909,869	(111,526)
Vehicles	(1,377,784)	(158,140)	354,347	(1,181,577)
Intangible Right to Use Lease - Equipment **	0	(920)	0	(920)
<i>Total Accumulated Depreciation/Amortization</i>	<u>(2,807,349)</u>	<u>(211,488) *</u>	<u>1,712,135</u>	<u>(1,306,702)</u>
<i>Depreciable Capital Assets, Net</i>	<u>1,226,639</u>	<u>277,914</u>	<u>(184,432)</u>	<u>1,320,121</u>
<i>Governmental Activities Capital Assets, Net</i>	<u>\$34,366,168</u>	<u>\$20,752,964</u>	<u>(\$184,432)</u>	<u>\$54,934,700</u>

* Depreciation/amortization expense was charged to governmental functions as follows:

Instruction:	
Regular	\$33,140
Support Services:	
Instructional Staff	1,565
Administration	6,721
Fiscal	920
Operation and Maintenance of Plant	7,048
Pupil Transportation	159,885
Extracurricular Activities	2,209
Total Depreciation/Amortization Expense	<u>\$211,488</u>

** Of the current year depreciation/amortization total of \$211,488, \$920 is presented as fiscal expense on the Statement of Activities related to the School District's intangible asset of a postage machine, which is included as an Intangible Right to Use Lease. With the implementation of Governmental Accounting Standards Board Statement No. 87, *Leases*, a lease meeting the criteria of this statement requires the lessee to recognize the lease liability and an intangible right to use asset.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Note 12 - Income Tax

The School District levies a voted tax of 1 percent for general operations on the earned income of residents and of estates. The tax was effective on January 1, 2008, and is a continuing tax. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the School District after withholding amounts for administrative fees and estimated refunds. Income tax revenue is credited to the general fund.

Note 13 - Risk Management

Property and Liability

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2022, the School District participated in the Ohio Schools Council insurance program which contracted with Love Insurance Agency. Love Insurance Agency acts as the carrier and the coverage provided is as follows:

<u>Type of Coverage</u>	<u>Amount</u>
Building and Contents - replacement cost	\$10,632,992
Crime Insurance	100,000
Forgery or Alteration	100,000
Automobile Liability	6,000,000
Uninsured Motorists	1,000,000
General Liability	
Per Occurrence	6,000,000
Total per year	8,000,000
Commercial Umbrella	8,000,000
Builder Risk - Building and Contents	53,594,073

Settled claims have not exceeded this commercial coverage in any of the past three years and there has not been a significant reduction in coverage from the prior year.

Workers' Compensation

For fiscal year 2022, the School District participated in the Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 21). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley UniService provides administrative, cost control and actuarial services to the GRP.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Other Employee Benefits

The School District has elected to provide dental, vision and prescription coverage benefits through a self-insurance program. The School District maintains a self-insurance internal service fund to account for and finance its uninsured risks of loss in this program. Anthem Insurance, located in Cleveland, Ohio, reviews all dental claims which are then paid by the School District. A specific excess loss coverage (stop-loss) insurance policy covers claims in excess of \$125,000 per employee, per year.

The claims liability of \$32,770 reported in the internal service fund at June 30, 2022 is based on an estimate by the third party administrator and on the requirements of Governmental Accounting Standards Board Statement No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Management's expectation is the claims liabilities will be paid within one year. Changes in the fund's claims liability amount for 2021 and 2022 were:

	Beginning of Year	Year Claims	Claim Payments	Balance at End of Year
2021	\$59,724	\$530,597	\$553,303	\$37,018
2022	37,018	480,173	484,421	32,770

Note 14 - Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 325 days for all personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of 75 days.

Life / Medical Insurance

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Anthem. The School District has elected to provide employee medical/surgical benefits through Medical Mutual of Ohio.

Retirement Incentive

The School District Board of Education offers their employees participation in a Retirement Incentive program. The Board shall pay twenty-five percent of the employee's last year's salary as a Retirement Incentive Bonus at or before thirty-five years of service. Thereafter, the Board shall pay ten percent of the employee's last year's salary as a Retirement Incentive Bonus up to thirty-nine years of service. Eligible employees must serve written notice to the Board of their retirement on or before April 30 of the year of their intended retirement. Eligible employees must have been employed in the School District the past twelve years and agree to have severance placed in either a Section 457(b) or a 403(b) plan. The plan chosen depends on the age of the employee. The incentive is not paid until after retirement. The School District had 3 teachers participate in fiscal year 2019, 4 teachers participate in fiscal year 2020, 2 teachers in fiscal year 2021 and 2 classified employees in fiscal year 2022.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Note 15 - Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

The net pension liability and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represents the School District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a *net OPEB asset* or long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 16 for the required OPEB disclosures.

School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. The Retirement Board approved a 0.5 percent COLA for calendar year 2021.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2022, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2022, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District's contractually required contribution to SERS was \$391,563 for fiscal year 2022. Of this amount \$62,142 is reported as an intergovernmental payable.

State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2026, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50 and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2022 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2022, the full employer contribution was allocated to pension.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

The School District's contractually required contribution to STRS was \$1,115,088 for fiscal year 2022. Of this amount \$228,242 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportion of the Net Pension Liability:			
Current Measurement Date	0.06479070%	0.06054458%	
Prior Measurement Date	0.06085790%	0.05868729%	
Change in Proportionate Share	0.00393280%	0.00185729%	
Proportionate Share of the Net			
Pension Liability	\$2,390,589	\$7,741,169	\$10,131,758
Pension Expense	\$12,996	\$218,045	\$231,041

At June 30, 2022, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$231	\$239,165	\$239,396
Changes of assumptions	50,339	2,147,539	2,197,878
Changes in proportionate Share and difference between School District contributions and proportionate share of contributions	175,692	760,388	936,080
School District contributions subsequent to the measurement date	391,563	1,115,088	1,506,651
Total Deferred Outflows of Resources	\$617,825	\$4,262,180	\$4,880,005
Deferred Inflows of Resources			
Differences between expected and actual experience	\$61,998	\$48,521	\$110,519
Net difference between projected and actual earnings on pension plan investments	1,231,223	6,671,406	7,902,629
Changes in Proportionate Share and Difference between School District contributions and proportionate share of contributions	0	1,654	1,654
Total Deferred Inflows of Resources	\$1,293,221	\$6,721,581	\$8,014,802

\$1,506,651 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>

2024	(212,809)	(653,026)	(865,835)
2025	(292,741)	(841,177)	(1,133,918)
2026	<u>(377,911)</u>	<u>(1,252,905)</u>	<u>(1,630,816)</u>
Total	<u>(\$1,066,959)</u>	<u>(\$3,574,489)</u>	<u>(\$4,641,448)</u>

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2021, compared with June 30, 2020, are presented below:

	<u>June 30, 2021</u>	<u>June 30, 2020</u>
Inflation	2.4 percent	3.00 percent
Future Salary Increases, including inflation COLA or Ad Hoc COLA	3.25 percent to 13.58 percent 2.0 percent, on or after April 1, 2018, COLAs for future retirees will be delayed for three years following commencement	3.50 percent to 18.20 percent 2.5 percent
Investment Rate of Return	7.00 percent net of System expenses	7.50 percent net of investment expense, including inflation
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)	Entry Age Normal (Level Percent of Payroll)

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Mortality rates for 2021 were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

Mortality rates for 2020 were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2020.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	2.00 %	(0.33) %
US Equity	24.75	5.72
Non-US Equity Developed	13.50	6.55
Non-US Equity Emerging	6.75	8.54
Fixed Income/Global Bonds	19.00	1.14
Private Equity	11.00	10.03
Real Estate/Real Assets	16.00	5.41
Multi-Asset Strategy	4.00	3.47
Private Debt/Private Credit	3.00	5.28
Total	<u>100.00 %</u>	

Discount Rate The total pension liability for 2021 was calculated using the discount rate of 7.00 percent. The discount rate for 2020 was 7.5 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.00 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.00 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent), or one percentage point higher (8.00 percent) than the current rate.

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
School District's proportionate share of the net pension liability	\$3,977,353	\$2,390,589	\$1,052,402

Actuarial Assumptions – STRS

Key methods and assumptions used in the June 30, 2021, actuarial valuation compared to those used in the June 30, 2020, actuarial valuation are presented below:

	June 30, 2021	June 30, 2020
Inflation	2.50 percent	2.50 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.00 percent, net of investment expenses, including inflation	7.45 percent, net of investment expenses, including inflation
Discount Rate of Return	7.00 percent	7.45 percent
Payroll Increases	3.00 percent	3.00 percent
Cost-of-Living Adjustments (COLA)	0.0 percent	0.0 percent,

Post-retirement mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2021, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Asset Class	Target Allocation	Long-Term Expected Rate of Return *
Domestic Equity	28.00%	7.35%
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	<u>100.00%</u>	

* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total pension liability was 7.00 percent as of June 30, 2021, and was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2021. Therefore, the long-term expected rate of return on pension plan investments of 7.00 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2021.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00 percent) or one-percentage-point higher (8.00 percent) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
School District's proportionate share of the net pension liability	\$14,496,312	\$7,741,169	\$2,033,087

Changes Between the Measurement Date and the Reporting date In February 2022, the Board approved changes to demographic measures that will impact the June 30, 2022, actuarial valuation. These demographic measures include retirement, salary increase, disability/termination and mortality assumptions. In March 2022, the STRS Board approved benefit plan changes to take effect on July 1, 2022. These changes include a one-time three percent cost-of-living increase (COLA) to be paid to eligible benefit recipients and the elimination of the age 60 requirement for retirement age and service eligibility that was set to take effect in 2026. The effect on the net pension liability is unknown.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Note 16 - Defined Benefit OPEB Plans

See note 15 for a description of the net OPEB liability (asset)

School Employees Retirement System (SERS)

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. The following types of credit purchased after January 29, 1981 do not count toward health care coverage eligibility: military, federal, out-of-state, municipal, private school, exempted, and early retirement incentive credit. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2022, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2022, this amount was \$25,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2022, the School District's surcharge obligation was \$52,220.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$52,220 for fiscal year 2022. Of this amount \$52,220 is reported as an intergovernmental payable.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians’ fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2022, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liability (Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability (asset) was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	SERS	STRS	Total
Proportion of the Net OPEB Liability:			
Current Measurement Date	0.06682860%	0.06054458%	
Prior Measurement Date	0.06315130%	0.05868729%	
Change in Proportionate Share	0.00367730%	0.00185729%	
Proportionate Share of the:			
Net OPEB Liability	\$1,264,787	\$0	\$1,264,787
Net OPEB (Asset)	\$0	(\$1,276,533)	(\$1,276,533)
OPEB Expense	\$26,492	(\$85,712)	(\$59,220)

At June 30, 2022, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$13,482	\$45,453	\$58,935
Changes of assumptions	198,415	81,539	279,954
Changes in proportionate Share and difference between School District contributions and proportionate share of contributions	218,233	16,393	234,626
School District contributions subsequent to the measurement date	52,220	0	52,220
Total Deferred Outflows of Resources	\$482,350	\$143,385	\$625,735
Deferred Inflows of Resources			
Differences between expected and actual experience	\$629,920	\$233,884	\$863,804
Changes of assumptions	173,202	761,545	934,747
Net difference between projected and actual earnings on OPEB plan investments	27,478	353,833	381,311
Changes in Proportionate Share and Difference between School District contributions and proportionate share of contributions	77,262	0	77,262
Total Deferred Inflows of Resources	\$907,862	\$1,349,262	\$2,257,124

\$52,220 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability or an increase in the net OPEB asset in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2023	(\$101,598)	(\$345,225)	(\$446,823)
2024	(101,791)	(336,373)	(438,164)
2025	(121,963)	(331,071)	(453,034)
2026	(103,239)	(144,933)	(248,172)
2027	(39,451)	(49,589)	(89,040)
Thereafter	(9,690)	1,314	(8,376)
Total	(\$477,732)	(\$1,205,877)	(\$1,683,609)

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2021, compared with June 30, 2020, are presented below:

	June 30, 2021	June 30, 2020
Inflation	2.40 percent	3.00 percent
Future Salary Increases, including inflation		
Wage Increases	3.25 percent to 13.58 percent	3.50 percent to 18.20 percent
Investment Rate of Return	7.00 percent net of investment expense, including inflation	7.50 percent net of investment expense, including inflation
Municipal Bond Index Rate:		
Measurement Date	1.92 percent	2.45 percent
Prior Measurement Date	2.45 percent	3.13 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation		
Measurement Date	2.27 percent	2.63 percent
Prior Measurement Date	2.63 percent	3.22 percent
Medical Trend Assumption		
Medicare	5.125 to 4.40 percent	5.25 to 4.75 percent
Pre-Medicare	6.75 to 4.40 percent	7.00 to 4.75 percent

For 2021, mortality rates among healthy retirees were based on the PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Mortality rates for contingent survivors were based on PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5 percent for males and adjusted 122.5 percent for females. Mortality rates for actives is based on PUB-2010 General Amount Weighted Below Median Employee mortality table.

For 2020, mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

The most recent experience study was completed for the five year period ended June 30, 2020.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2015 through 2020, and was adopted by the Board in 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 15.

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2021 was 2.27 percent. The discount rate used to measure total OPEB liability prior to June 30, 2021, was 2.63 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make all projected future benefit payments of current System members by SERS actuaries. The Municipal Bond Index Rate is used in the determination of the SEIR for both the June 30, 2020 and the June 30, 2021 total OPEB liability. The Municipal Bond Index rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate is 1.92 percent at June 30, 2021 and 2.45 percent at June 30, 2020.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.27%) and higher (3.27%) than the current discount rate (2.27%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (5.75% decreasing to 3.40%) and higher (7.75% decreasing to 5.40%) than the current rate.

	1% Decrease (1.27%)	Current Discount Rate (2.27%)	1% Increase (3.27%)
School District's proportionate share of the net OPEB liability	\$1,567,223	\$1,264,787	\$1,023,178

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

	1% Decrease (5.75% decreasing to 3.40%)	Current Trend Rate (6.75% decreasing to 4.40%)	1% Increase (7.75% decreasing to 5.40%)
School District's proportionate share of the net OPEB liability	\$973,782	\$1,264,787	\$1,653,479

Actuarial Assumptions – STRS

Key methods and assumptions used in the June 30, 2021, actuarial valuation and the June 30, 2020 actuarial valuation are presented below:

	June 30, 2021	June 30, 2020
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.00 percent, net of investment expenses, including inflation	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3 percent
Discount Rate of Return	7.00 percent	7.45 percent
Health Care Cost Trends		
Medical		
Pre-Medicare	5.00 percent initial, 4 percent ultimate	5.00 percent initial, 4 percent ultimate
Medicare	-16.18 percent initial, 4 percent ultimate	-6.69 percent initial, 4 percent ultimate
Prescription Drug		
Pre-Medicare	6.50 percent initial, 4 percent ultimate	6.50 percent initial, 4 percent ultimate
Medicare	29.98 initial, 4 percent ultimate	11.87 initial, 4 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2021, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

The non-Medicare subsidy percentage was increased effective January 1, 2022 from 2.055 percent to 2.1 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2022. The Medicare Part D Subsidy was updated to reflect it is expected to be negative in CY 2022. The Part B monthly reimbursement elimination date was postponed indefinitely.

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 15.

Discount Rate The discount rate used to measure the total OPEB liability was 7.00 percent as of June 30, 2021, and was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2021. Therefore, the long-term expected rate of return on health care plan investments of 7.00 percent was used to measure the total OPEB liability as of June 30, 2021.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2021, calculated using the current period discount rate assumption of 7.00 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
School District's proportionate share of the net OPEB asset	(\$1,077,196)	(\$1,276,533)	(\$1,443,049)
	1% Decrease	Current Trend Rate	1% Increase
School District's proportionate share of the net OPEB asset	(\$1,436,302)	(\$1,276,533)	(\$1,078,964)

Changes Between the Measurement Date and the Reporting date In February 2022, the Board approved changes to demographic measures that will impact the June 30, 2022, actuarial valuation. The effect on the net OPEB liability is unknown.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Note 17 - Long Term Obligations

The changes in the School District's long-term obligations during the year consist of the following:

	Principal Outstanding 6/30/2021	Additions	Reductions	Principal Outstanding 6/30/2022	Amount Due in One Year
Governmental Activities					
2021 Certificates of Participation (COPS)					
Series 2021 4%	\$4,000,000	\$0	\$0	\$4,000,000	\$85,000
Premium	116,800	0	3,996	112,804	0
Total 2021 COPS	<u>4,116,800</u>	<u>0</u>	<u>3,996</u>	<u>4,112,804</u>	<u>85,000</u>
2021 General Obligation Refunding Bonds					
Current Interest Serial 4%	4,080,000	0	0	4,080,000	0
Current Interest Term 2.0 to 4.0%	22,180,000	0	0	22,180,000	0
Premium	1,377,211	0	39,072	1,338,139	0

<i>Total Governmental Activities Long-Term Liabilities</i>	<u>\$52,988,545</u>	<u>\$613,906</u>	<u>\$8,988,246</u>	<u>\$44,614,205</u>	<u>\$446,992</u>

The certificates of participation and the general obligation refunding bonds will be paid with property taxes in the permanent improvement capital projects fund and bond retirement debt service fund, respectively. The compensated absences will be paid from the general fund and the food service special revenue funds. The special termination benefits will be paid from the general fund. There is no repayment schedule for the net pension liability and net OPEB liability; however, employer pension and OPEB contributions are made from the general fund. For additional information related to the net pension liability and net OPEB liability see Notes 15 and 16.

Financed Purchases – During fiscal years 2020 and 2022, the School District entered into financed purchases agreements from direct borrowing for busses and an electrical transformer in the amounts of \$179,931 and \$241,239, respectively, to be paid from the general fund and the permanent improvement capital projects fund.

On June 2, 2021, the School District issued \$4,000,000 certificates of participation (COPs), for use in upgrading existing facilities through the Ohio Schools Facilities Project. The COPs issuance included a premium of \$117,799, which will be amortized over the life of the COPs. The certificates were issued at an

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

interest rate of 4.0 percent and for a 30 year period with final maturity on October 1, 2050. The COPs were issued through a series of lease agreements and trust indentures in accordance with Section 3313.375 of the Ohio Revised Code. The COPs have been designated to be “qualified tax exempt obligations” within the meaning of 265(b)(3) of the Ohio Revised Code. In accordance with the lease terms, the project assets are leased to the Buckeye Leasing Services, and then subleased back to the School District. The COPs were issued through a series of annual leases with an initial lease term of twenty-eight days which includes the right to renew for thirty successive one-year terms through fiscal year 2050 subject to annual appropriations. To satisfy the trustee requirements, the School District is required to make annual base rent payments, subject to the lease terms and appropriations, semi-annually. The base rent includes an interest component of 4.0 percent. The Lessee has the option to purchase the Project Facilities and cancel the Agreement, at which time the Project Facilities shall become the property of the Lessee. The School District had \$4,000,000 in unspent proceeds as of June 30, 2022.

COPs Purchase Option: On or after October 1, 2030, if there is not then existing an Event of Default, or an event which with notice or lapse of time or both could become an Event of Default, which would not be cured or remedied by the payments provided for in this Agreement, the Lessee, upon 30 days prior written notice to the Lessor and Trustee, will have the right to purchase the Project Facilities on any Lease Payment Date and terminate this Agreement by paying to the Trustee as assignee of the Lessor the sum of \$100.00 plus the amount necessary to defease the Indenture as provided in Article IX thereof. Thereafter, upon payment of that purchase price, the Trustee shall convey on behalf of itself and as assignee of the Lessor, all right, title and interest in the Project Facilities and Project Site to the Lessee, and this Agreement shall terminate in accordance with Section 16(b).

On April 21, 2021, the School District issued \$26,260,000 in general obligation serial and term unlimited tax bonds to refund the 2018 general obligation bonds. The bonds were issued at a premium of \$1,386,979 and at varying interest rates of 2.00 to 4.00 percent. The bonds were issued for a 35 year period with final maturity on October 1, 2056. The bonds will be retired through the bond retirement debt service fund. The School District had \$3,231,705 in unspent proceeds as of June 30, 2022. Unspent proceeds are further decreased by contracts and retainage payables recorded in the amounts of \$1,990,333 and \$758,377, respectively.

Net proceeds of \$27,308,272 were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds. As a result, \$27,256,000 of these bonds is considered defeased and the liability for the refunded bonds has been removed from the School District’s financial statements. As of June 30, 2022, \$26,865,000 of the defeased bonds are still outstanding.

The term bonds maturing on October 1, 2056 are subject to mandatory sinking fund redemption at a redemption price of 100 percent of the principal amount to be redeemed, plus accrued interest to the date of redemption, on October 1 in the years and in the respective principal amounts as follows:

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Lease Payable - The School District entered into lease agreements for a postage meter. Due to the implementation of GASB Statement No. 87, this lease has met the criteria of leases thus requiring it to be recorded by the School District. The future lease payments were discounted based on the interest rate implicit in the lease or using the School District's incremental borrowing rate. This discount is being amortized using the interest method over the life of the lease. The lease will be paid from the general fund. A summary of the principal and interest amounts for the remaining lease is as follows:

Fiscal Year Ending June 30	Principal	Interest
2023	\$892	\$77
2024	910	58
2025	929	40
2026	948	21
2027	481	4
Total	\$4,160	\$200

Note 18 – Significant Commitments

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end the amount of encumbrances expected to be honored upon performance by the vendor in the next year or soon thereafter were as follows:

General Fund	\$345,806
Building	6,198,070
Classroom Facilities	1,640,394
Other Governmental Funds	1,071,158
Total	\$9,255,428

Contractual Commitments

At June 30, 2022, the School District's significant commitments consisted of:

Vendor	Contract	Paid	Remaining
Brewer-Garret Co.	\$128,345	\$92,918	\$35,427
ICON Construction Solutions	53,152,117	50,658,254	2,493,863
BSHM Architects, Inc.	4,234,265	3,757,625	476,640
Total	\$57,514,727	\$54,508,797	\$3,005,930

All of the remaining commitments were encumbered at year-end. The amounts of \$1,990,333 and \$758,377 in contracts and retainage payable for governmental activities, respectively, have been capitalized.

Note 19 - Jointly Governed Organizations

Auburn Career Center

The Auburn Career Center is a joint vocational school district which is a jointly governed organization among eleven School Districts. Each participating school district appoints one member to the Auburn Career Center's Board of Education. The students of each participating school district may attend classes offered at the vocational facility. Each participant's control over the operation of the Auburn Career Center is limited to its representation on the Board. Continued existence of the Auburn Career Center is not dependent on the School District's continued participation. Financial information can be obtained from the Auburn Career Center, 8140 Auburn Road, Painesville, Ohio 44077.

Lake Geauga Computer Association

The Lake Geauga Computer Association (the "LGCA") is a jointly governed organization that was formed for the purpose of providing computer services for accounting, grading, scheduling, EMIS and other applications to its eighteen member school districts. Each of the districts supports LGCA based upon a per pupil charge. The executive committee (governing board) consists of the superintendents and treasurers of the member school districts. The degree of control exercised by any participating school district is limited to its representation on the governing board. LGCA's continued existence is not dependent on the School District's continued participation. During fiscal year 2022, the School District paid \$104,072 to LGCA. Financial information can be obtained from the Lake Geauga Computer Association, 8221 Auburn Road, Painesville, Ohio 44077.

Ohio Schools Council Association

The Ohio Schools Council Association (Council) is a jointly governed organization among 126 school districts. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member's superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board is the policy making authority of the Council. The Board meets monthly September to June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. In fiscal year 2022, the School District paid \$72,272 to the Council. Financial information can be obtained by contacting the Executive Director of the Ohio Schools Council at 6373 Oak Tree Boulevard, Suite 377, Independence, Ohio 44131.

The School District participates in the natural gas purchase program. This program allows the School District to purchase natural gas at reduced rates. Constellation has been selected as the supplier and program manager. There are currently 165 participants in the program including the Berkshire School District. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Note 20 - Related Organization

Burton Public Library The Burton Public Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the Berkshire Local School District Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the School District for operational subsidies. Although the School District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Burton Public Library, Clerk/Treasurer, PO Box 427, Burton, Ohio 44021.

Note 21 - Insurance Purchasing Pool

The School District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP) was established through the Ohio Association of School Business Officials (OASBO) as a group purchasing pool. The Executive Director of the OASBO, or his designee, serves as coordinator of the GRP. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

Note 22 - Set Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year end. These amounts must be carried forward to be used for the same purposes in future years. In prior years, the School District was also required to set aside money for budget stabilization. The School District plans to use these monies for construction and renovation.

The following cash basis information describes the change in the fiscal year end set aside amounts for capital acquisition and budget stabilization. Disclosure of this information is required by State statute.

	Budget Stabilization Reserve	Capital Improvements Reserve
Set-aside Reserve Balance as of June 30, 2021	\$39,468	\$0
Current Year Set-aside Requirement	0	241,076
Qualifying Disbursements	0	(930,740)
Totals	\$39,468	(\$689,664)
Set-aside Balance Carried Forward to Future Fiscal Years	\$39,468	\$0
Set-aside Reserve Balance as of June 30, 2022	\$39,468	\$0

The School District has qualifying disbursements during the fiscal year that reduced the set-aside amount to below zero for the capital acquisition set-asides. The extra amount in the capital acquisition set-aside may not be used to reduce the set-aside requirement of future years. This negative balance is therefore not presented as being carried forward to future years. The total reserve balance for the two set-asides at the end of the fiscal year was \$39,468.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

Note 23 – Interfund Transactions

Interfund Transfers

Transfers made during the year ended June 30, 2022 were as follows:

Transfers To	Transfers From		Total
	General	Other Governmental Funds	
Other Governmental Funds	\$125,804	550,000	675,804
Internal Service Fund - Self Insurance	360,000	0	360,000
<i>Total Transfers</i>	<u>\$485,804</u>	<u>\$550,000</u>	<u>\$1,035,804</u>

The transfer from the general fund to the other governmental funds (athletics and music and latchkey special revenue funds) were used to pay for operations of those programs. The transfer from the general fund to the self-insurance fund was used to pay prescription and dental insurance claims. The transfer from the bond retirement to the Other Governmental Funds (permanent improvement) was for debt interest payments.

Interfund Balances

Interfund balances at June 30, 2022, consisted of an interfund receivable/payable between the general fund and other governmental funds of \$221,389. These interfund loans were made to support the programs of the special revenue funds pending the receipt of grant money and a capital projects fund for purchases. There was also an interfund receivable/payable between the internal service fund and the classroom facilities maintenance special revenue fund and the general fund of \$25,966 and \$169,854, respectively. These interfund loans were made for claims payable awaiting chargeback payment from the general fund and for a revenue posting for a prior period. The interfund balances should be repaid within one year.

Note 24 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio’s state of emergency ended in June of 2021 while the national state of emergency continues. During fiscal year 2022, the School District received COVID-19 funding. The financial impact of COVID-19 and the continuing recovery measures will impact subsequent periods of the School District. The impact on the School District’s future operating costs, revenues and additional recovery from funding, either federal or State, cannot be estimated.

Note 25 – Change in Accounting Principle

For fiscal year 2022, the School District implemented Governmental Accounting Standards Board (GASB) Statement No. 87, Leases and related guidance from (GASB) Implementation Guide No. 2019-3, *Leases*.

GASB Statement 87 enhances the relevance and consistency of information of the government’s leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. These changes were incorporated in the School District’s 2022 financial statements; however, there was no effect on beginning net position/fund balance.

Berkshire Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2022

The School District is also implementing *Implementation Guide No. 2020-1*, GASB Statement No. 92 – *Omnibus 2020*, and GASB Statement No. 97 -- *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. Among other items, GASB 97 requires that a Section 457 plan be classified as either a pension plan or an other employee benefit plan depending on whether the plan meets the definition of a pension plan. These changes were incorporated in the School District's 2022 financial statements; however, there was no effect on beginning net position/fund balance.

For the Fiscal Year Ended June 30, 2022

Net Pension Liability

Changes in Assumptions – SERS

Beginning in fiscal year 2022, an assumption of 2.0 percent was used for COLA or Ad Hoc Cola. For fiscal years 2018 through 2021, an assumption of 2.5 percent was used. Prior to 2018, an assumption of 3 percent was used.

Amounts reported in 2022 incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. These assumptions compared with those used in prior years are presented below:

	Fiscal Year 2022	Fiscal Years 2021-2017	Fiscal Year 2016 and Prior
Wage Inflation	2.4 percent	3.00 percent	3.25 percent
Future Salary Increases, including inflation	3.25 percent to 13.58 percent	3.50 percent to 18.20 percent	4.00 percent to 22.00 percent
Investment Rate of Return	7.0 percent net of system expenses	7.50 percent net of investments expense, including inflation	7.75 percent net of investments expense, including inflation

Amounts reported for 2022 use mortality rates based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

Amounts report for 2017 through 2021 use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

Changes in Assumptions - STRS

Beginning with fiscal year 2022, amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal years 2018-2021 and fiscal year 2017 and prior are presented below:

Berkshire Local School District
Notes to Required Supplementary Information
For the Fiscal Year Ended June 30, 2022

	Fiscal Year 2022	Fiscal Years 2021-2018	Fiscal Year 2017 and Prior
Inflation	2.50 percent	2.50 percent	2.75 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65	12.50 percent at age 20 to 2.50 percent at age 65	12.25 percent at age 20 to 2.75 percent at age 70
Investment Rate of Return	7.00 percent, net of investment expenses, including inflation	7.45 percent, net of investment expenses, including inflation	7.75 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3 percent	3.5 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	0.0 percent, effective July 1, 2017	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

Beginning with fiscal year 2018, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

Net OPEB Liability (Asset)

Changes in Assumptions – SERS

Beginning with fiscal year 2022, amounts reported incorporate changes in assumptions and changes in benefit terms used by SERS in calculating the total OPEB liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2021 and prior are presented below:

	2022	2021 and Prior
Inflation	2.40 percent	3.00 percent
Future Salary Increases, including inflation		
Wage Increases	3.25 percent to 13.58 percent	3.50 percent to 18.20 percent
Investment Rate of Return	7.00 percent net of investment expense, including inflation	7.50 percent net of investment expense, including inflation

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Berkshire Local School District
Notes to Required Supplementary Information
For the Fiscal Year Ended June 30, 2022

Municipal Bond Index Rate:	
Fiscal year 2022	1.92 percent
Fiscal year 2021	2.45 percent
Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Fiscal year 2022	2.27 percent
Fiscal year 2021	2.63 percent
Fiscal year 2020	3.22 percent
Fiscal year 2019	3.70 percent
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent

Changes in Assumptions – STRS

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under *GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

For fiscal year 2022, the discount rate was decreased from 7.45 percent to the long-term expected rate of return of 7.00.

Changes in Benefit Terms – STRS OPEB

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were

Berkshire Local School District
Notes to Required Supplementary Information
For the Fiscal Year Ended June 30, 2022

adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For fiscal year 2021, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

For fiscal year 2022, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2022 premium based on June 30, 2021 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2022 from 2.055 percent to 2.1 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2022. The Medicare Part D Subsidy was updated to reflect it is expected to be negative in CY 2022. The Part B monthly reimbursement elimination date was postponed indefinitely.

Combining and Individual Fund Statements and Schedules

Combining Statements - Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Food Service Fund This fund accounts for and reports charges for services and grant monies restricted for the food service operations of the School District.

Other Grants Fund This fund accounts for and reports for donations restricted to promote community involvement and to support activities between the school and the community.

Athletics and Music Fund This fund accounts for and reports for gate receipts and other revenues from athletic events restricted for all costs (except supplemental coaching contracts) of the School District's athletic program and transportation of the band to and from athletic events.

ONenet Fund This fund accounts for and reports for State monies restricted to assist teachers in improving their technology skills.

Title VI-B Fund This fund accounts for and reports for Federal monies restricted to assist schools in the identification of handicapped children, development of procedural safeguards, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Title I Fund This fund accounts for and reports for Federal monies restricted to assist the School District in meeting the special needs of educationally deprived children.

Title IIA Fund This fund accounts for and reports for Federal monies restricted to improve teacher and principal quality.

Title IID Fund This fund accounts for and reports for miscellaneous Federal monies restricted to assist the School District in providing student support.

Title IV-A Fund This fund accounts for and reports for Federal monies restricted to assist the School District provide student support and academic enrichment.

Elementary Assets Fund This fund accounts for and reports monies committed for the purchases of supplies on behalf of employees of the School District.

Student Activities Fund This fund accounts for and reports resources restricted to the student bodies of the various schools, accounting for sales and other revenue generating activities for which the School District has administrative involvement.

Miscellaneous State Grants Fund This fund accounts for and reports miscellaneous State monies restricted for school safety and security.

Latchkey Fund This fund accounts for and reports contributions and donations restricted for the latchkey operations of the School District.

Classroom Facilities Maintenance Fund This fund accounts for and reports property taxes restricted for the maintenance of facilities.

(continued)

Combining Statements - Nonmajor Governmental Funds

Nonmajor Special Revenue Funds (Continued)

Device Insurance Fund The fund accounts for and reports fees restricted for the replacement of School District owned devices when damaged.

Educational Foundation Fund The fund accounts for and reports restricted revenue donated to the School District for the advancement of School District initiatives.

Leighton Fund The fund accounts for and reports restricted donations used in the purchase of technology for the students as well as enhancements to the library at Ledgemont Elementary.

Longo Scholarship Fund This fund accounts for and reports monies restricted to scholarships awarded by the Longo family.

Student Wellness and Success Fund This fund accounts for and reports monies restricted for student wellness and success initiatives.

Education and Secondary School Emergency Relief (ESSER) Fund This fund accounts for and reports federal monies under the Coronavirus Aid Relief and Economic Security Act restricted to respond to the impact of the Coronavirus Disease 2019 (COVID-19).

Preschool Fund This fund accounts for and reports monies restricted for a preschool program for the School District.

Uniform School Supplies Fund The fund accounts for and reports for the purchase and sale of school supplies for use in the School District. Profits derived from such sales are used for school purposes or activities connected with the school. This fund is included with the general fund for GAAP reporting as it does not have a restricted or committed revenue source.

Special Rotary Fund The fund accounts for and reports for various rotary funds assigned for scholarships and other programs. This fund is included with the general fund for GAAP reporting as it does not have a restricted or committed revenue source.

Public School Support Fund The fund accounts for and reports for school site sales revenue and expenditures for field trips, assemblies, and other activity costs. This fund is included with the general fund for GAAP reporting as it does not have a restricted or committed revenue source.

School Improvement Model Fund The fund accounts for and reports for State monies used for improving student achievement on proficiency tests. This fund is included with the general fund for GAAP reporting as it does not have a restricted or committed revenue source.

Unclaimed Funds Fund The fund accounts for and reports for checks written by the district that have not been presented for payment. This fund is included with the general fund for GAAP reporting as it does not have a restricted or committed revenue source.

Termination Benefit Fund The fund accounts for and reports for transfers from the general fund to pay future termination benefits of school district employees. This fund is included with the general fund for GAAP reporting as it does not have a restricted or committed revenue source.

Combining Statements - Nonmajor Governmental Funds

Nonmajor Debt Service Fund

The Debt Service fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for principal and interest.

Debt Service Fund The fund accounts for and report restricted property taxes for the payment of school improvement general obligation bond, principal, interest and related costs.

Nonmajor Capital Projects Funds

The Capital Projects funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays including the acquisition or construction of major capital facilities and other capital assets, other than those financed by proprietary fund or for assets that will be held in trust.

Permanent Improvement Fund This fund accounts for and reports a tax levy and contributions restricted for the acquisition, construction or improvement of capital facilities.

Capital Improvement Fund This fund accounts for and reports the accumulation of resources assigned for the acquisition, construction or improvement of capital assets under ORC 5705.13 (C).

Statistical Section

Statistical Section

This part of the Berkshire Local School District's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the School District's overall financial health.

Contents	Pages(s)
<i>Financial Trends</i>	<i>S2 – S9</i>
These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.	
<i>Revenue Capacity</i>	<i>S10 – S19</i>
These schedules contain information to help the reader assess the School District's most significant local revenue, property and income taxes.	
<i>Debt Capacity</i>	<i>S20 – S25</i>
These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	
<i>Economic and Demographic Information</i>	<i>S26 – S28</i>
These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place.	
<i>Operating Information</i>	<i>S30 – S41</i>
These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	

Note: On July 1, 2015, Ledgesmont Local School District merged with Berkshire Local School District. Ledgesmont Local School District ceased to exist as of July 1, 2015, and operation of Ledgesmont Local School District were absorbed into Berkshire Local School District.

Sources: Unless otherwise noted, the information in these schedules is derived from the Annual Comprehensive Financial Reports for the relevant year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of a true value for railroad property to 88 percent for electric transmission and distribution property.

For the real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed.

Source: Office of the County Auditor, Geauga County, Ohio

(1) Starting in 2015, this includes the assessed valuation of both Berkshire Local Schools and Ledgemont Local Schools. See S1 for further details.

(1) This is renewed every five years and was last renewed in 2018.

(2) The merger with Ledgemont Local Schools was effective for July 1, 2015, therefore, tax rates will not be effective until January 1, 2016

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.

Real property tax rates for voted levies are reduced so that inflationary increases in value do not generate additional revenue.

Overlapping rates are those of local and county governments that apply to property owners with the School District.

- (1) Includes Homestead/Rollback taxes assessed locally, but distributed through the State and reported as Intergovernmental revenue.
- (2) The 2022 information cannot be presented because all collections have not been made by June 30, 2022.
- (3) The County does not maintain delinquency information by tax year.

Note: We considered modifying the stat table presentation for the subsequent adjustments; however, our current (or the County's) computer system does not provide the information in the manner needed for the modified presentation. Delinquencies are tracked by the date the parcel is first certified delinquent and penalties and interest are applied to the total delinquent balance. We are looking at options to improve the presentation.

(1) Income tax is only collected on the income of residents and on estates.

(2) The School District's income tax rate may only be increased by a majority vote of the School District's residents.

(3) Total tax collected is on a full accrual basis. The merger with Ledgemont Local Schools was effective for fiscal year 2016. See S1 for additional details.

(1) Percentages were determined by dividing the assessed valuation of the political subdivision located within the boundaries of the School District by the total assessed valuation of the subdivision. The valuations used were for the 2021 collection year.

(2) Debt is reported as of December 31, 2021.
