

HARRISON COUNTY GENERAL HEALTH DISTRICT HARRISON COUNTY REGULAR AUDIT FOR THE YEARS ENDED DECEMBER 31, 2022-2021

88 East Broad Street Columbus, Ohio 43215 IPAReport@ohioauditor.gov (800) 282-0370

Members of the Board Harrison County General Health District 538 North Main Street Cadiz, Ohio 43907

We have reviewed the *Independent Auditor's Report* of Harrison County General Health District, Harrison County, prepared by Perry & Associates, Certified Public Accountants, A.C., for the audit period January 1, 2021 through December 31, 2022. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Harrison County General Health District is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

INDEPENDENT AUDITOR'S REPORT

Harrison County General Health District Harrison County 538 North Main Street Cadiz, Ohio 43907

To the Board:

Report on the Audit of the Financial Statements

Unmodified and Adverse Opinions

We have audited the financial statements of the Harrison County General Health District, Harrison County, Ohio (the District), which comprises the cash balances, receipts and disbursements for each governmental fund type as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the cash balances, receipts and disbursements for each governmental fund type as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, in accordance with the financial reporting provisions which Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03(C) permit, described in Note 2.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* section of our report, the accompanying financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the District, as of December 31, 2022 and 2021, or the changes in financial position thereof for the years then ended.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Harrison County General Health District Harrison County Independent Auditor's Report Page 2

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 2 of the financial statements, the financial statements are prepared by the District on the basis of the financial reporting provisions of Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03(C), which is an accounting basis other than accounting principles generally accepted in the United States of America (GAAP), to satisfy these requirements. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 2 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the financial reporting provisions Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03(C) permit. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Harrison County General Health District Harrison County Independent Auditor's Report Page 3

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

• conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 9, 2023, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

The notes to the financial statements are an integral part of this statement.

Note 1 – Reporting Entity

The constitution and laws of the State of Ohio establish the rights and privileges of the Harrison County General Health District, Harrison County, as a body corporate and politic. A five-member Board and a Health Commissioner govern the District. The District's services include communicable disease investigations, immunization clinics, inspections, public health nursing services and issues health-related licenses and permits.

The District's management believes these financial statements present all activities for which the District is financially accountable.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation

The District's financial statements consist of a combined statement of receipts, disbursements and changes in fund balances (regulatory cash basis) for all governmental fund types organized on a fund type basis.

Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the District are presented below:

General Fund The general fund accounts for and reports all financial resources not accounted for and reported in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds These funds account for and report the proceeds of specific revenue sources that are restricted to disbursement for specified purposes other than debt service or capital projects. The District had the following significant Special Revenue Fund:

Waste Pollution Control Loan Fund. The waste pollution control loan fund accounts for and reports intergovernmental grants restricted for the purpose of reducing water pollution throughout the county.

Basis of Accounting

These financial statements follow the accounting basis permitted by the financial reporting provisions of Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03 (C). This basis is similar to the cash receipts and disbursements accounting basis. The District recognizes receipts when received in cash rather than when earned, and recognizes disbursements when paid rather than when a liability is incurred. Budgetary presentations report budgetary disbursements when a commitment is made (i.e., when an encumbrance is approved).

These statements include adequate disclosure of material matters, as the financial reporting provisions of Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03 (C) permit.

Budgetary Process

The Ohio Revised Code requires the District to budget each fund annually.

Note 2 – Summary of Significant Accounting Policies (Continued)

Appropriations Budgetary disbursements (that is, disbursements and encumbrances) may not exceed appropriations at the object level of control and appropriations may not exceed estimated resources. The District Board must annually approve appropriation measures and subsequent amendments. Appropriations lapse at year end.

Estimated Resources Estimated resources include estimates of cash to be received (budgeted receipts) plus cash as of January 1. The County Budget Commission must approve estimated resources.

Encumbrances The Ohio Revised Code requires the District to reserve (encumber) appropriations when individual commitments are made. Encumbrances outstanding at year end are canceled, and reappropriated in the subsequent year.

A summary of 2022 budgetary activity appears in Note 3.

Capital Assets

The District records disbursements for acquisitions of property, plant, and equipment when paid. The accompanying financial statements do not report these items as assets.

Accumulated Leave

In certain circumstances, such as upon leaving employment, employees are entitled to cash payments for unused leave. The financial statements do not include a liability for unpaid leave.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District must observe constraints imposed upon the use of its governmental-fund resources. The classifications are as follows:

Nonspendable The District classifies assets as nonspendable when legally or contractually required to maintain the amounts intact. For regulatory purposes, nonspendable fund balance includes unclaimed monies that are required to be held for five years before they may be utilized by the District and the nonspendable portion of the corpus in permanent funds.

Restricted Fund balance is restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

Committed The Board can commit amounts via formal action (resolution). The District must adhere to these commitments unless the Board amends the resolution. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed to satisfy contractual requirements.

Assigned Assigned fund balances are intended for specific purposes but do not meet the criteria to be classified as restricted or committed. For regulatory purposes, assigned fund balance in the general fund is limited to encumbrances outstanding at year end.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes amounts not included in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

Note 2 – Summary of Significant Accounting Policies (Continued)

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

For regulatory purposes, limited disclosure related to fund balance is included in Note 10.

Note 3 – Budgetary Activity

2022 Budgeted vs. Actual Receipts								
	Budgeted Actual							
Fund Type		Receipts		Receipts	Variance			
General	\$	868,867	\$	871,886	\$	3,019		
Special Revenue		484,155		485,443		1,288		
Total	\$	1,353,022	\$	1,357,329	\$	4,307		

Budgetary activity for the year ended December 31, 2022, follows:

2022 Budgeted vs. Actual Budgetary Basis Disursements							
Fund Type	Appropriation Authority			Budgetary bursements	Variance		
General	\$	794,147	\$	769,969	\$	24,178	
Special Revenue		551,748		546,066		5,682	
Total	\$	1,345,895	\$	1,316,035		29,860	

Note 4 – Deposits and Investments

As required by the Ohio Revised Code, the Harrison County Treasurer is custodian for the District's deposits. The County's deposit and investment pool holds the District's assets, valued at the Treasurer's reported carrying amount.

Note 5– Intergovernmental Funding and Property Taxes

Intergovernmental Funding

The County apportions the excess of the District's appropriations over other estimated receipts among the townships and municipalities composing the District, based on their taxable property valuations. The County withholds the apportioned excess from property tax settlements and distributes it to the District. The financial statements present these amounts as intergovernmental receipts.

Note 5– Intergovernmental Funding and Property Taxes (Continued)

Property Taxes

Real property taxes become a lien on January 1 preceding the October 1 date for which the taxing authority of the subdivision to whose jurisdiction the District is subject adopts rates. The State Department of Taxation, Division of Tax Equalization, adjusts these rates for inflation. Property taxes are also reduced for applicable non-business, owner occupancy, and homestead exemption credits and/or homestead and rollback deductions. The financial statements include credits and/or deduction amounts the State pays as Other Intergovernmental Receipts. Payments are due to the County by December 31. If the property owner elects to pay semiannually, the first half is due December 31. The second half payment is due the following June 20.

The County is responsible for assessing property and for billing, collecting, and distributing all property taxes on behalf of the District.

Note 6 – Risk Management

Workers' Compensation coverage is provided by the State of Ohio. The District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Commercial Insurance

The District has obtained commercial insurance for the following risks:

- Comprehensive property and general liability; and
- Errors and omissions.

Settled claims have not exceeded insurance coverage in any of the last three years. The District has had no significant change in coverage from last year.

Note 7 – Defined Benefit Pension Plan

Ohio Public Employees Retirement System

The District's employees belong to the Ohio Public Employees Retirement System (OPERS). OPERS is a cost-sharing, multiple-employer plan. The Ohio Revised Code prescribes this plan's benefits, which include postretirement healthcare and survivor and disability benefits.

The Ohio Revised Code also prescribes contribution rates. OPERS members contributed 10% of their gross salaries and the District contributed an amount equaling 14% of participants' gross salaries. The District has paid all contributions required through December 31, 2022.

Note 8 – Postemployment Benefits

OPERS offers a cost-sharing, multiple-employer defined benefit postemployment plan, that includes multiple health care plans including medical coverage, prescription drug coverage, deposits to a Health Reimbursement Arrangement, and Medicare Part B premium reimbursements, to qualifying benefit recipients. The portion of employer contributions allocated to health care for members in the traditional pension plan and combined plan was 0 percent during calendar year 2022. The portion of employer contributions allocated to health care for members in the member-directed plan was 4.0 percent during calendar year 2022.

Note 8 – Postemployment Benefits (Continued)

Effective January 1, 2022, OPERS discontinued the group plans currently offered to non-Medicare retirees and re-employed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses.

Note 9 – Contingent Liabilities

The District may be a defendant in lawsuits. Although management cannot presently determine the outcome of any suit, management believes that the resolution of any matter will not materially adversely affect the District's financial condition. Management is not aware of any pending litigation.

Amounts grantor agencies pay to the District are subject to audit and adjustment by the grantor, principally the federal government. The grantor may require refunding any disallowed costs. Management cannot presently determine amounts grantors may disallow. However, based on prior experience, management believes any refunds would be immaterial.

Note 10 – Fund Balances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the District had no outstanding encumbrances.

The fund balance of special revenue funds is either restricted or committed. These restricted and committed amounts in the special revenue funds would include the outstanding encumbrances. In the general fund, outstanding encumbrances are considered assigned.

Note 11 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio's state of emergency ended in June, 2021 while the national state of emergency continues. During 2022, the District received COVID-19 funding. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the District. The impact on the District's future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated.

Note 1 – Reporting Entity

The constitution and laws of the State of Ohio establish the rights and privileges of the Harrison General Health District, Harrison County, as a body corporate and politic. A five-member Board and a Health Commissioner govern the District. The District's services include communicable disease investigations, immunization clinics, inspections, public health nursing services and issues health-related licenses and permits.

The District's management believes these financial statements present all activities for which the District is financially accountable.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation

The District's financial statements consist of a combined statement of receipts, disbursements and changes in fund balances (regulatory cash basis) for all governmental fund types organized on a fund type basis.

Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the District are presented below:

General Fund The general fund accounts for and reports all financial resources not accounted for and reported in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds These funds account for and report the proceeds of specific revenue sources that are restricted to disbursement for specified purposes other than debt service or capital projects. The District had the following significant Special Revenue Fund:

COVID Response Supplemental Plan The COVID response supplemental fund accounts for and reports intergovernmental monies for the purpose of providing economic relief from the Coronavirus pandemic.

Basis of Accounting

These financial statements follow the accounting basis permitted by the financial reporting provisions of Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03 (C). This basis is similar to the cash receipts and disbursements accounting basis. The District recognizes receipts when received in cash rather than when earned, and recognizes disbursements when paid rather than when a liability is incurred. Budgetary presentations report budgetary disbursements when a commitment is made (i.e., when an encumbrance is approved).

These statements include adequate disclosure of material matters, as the financial reporting provisions of Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03 (C) permit.

Note 2 – Summary of Significant Accounting Policies (continued)

Budgetary Process

The Ohio Revised Code requires the District to budget each fund annually.

Appropriations Budgetary disbursements (that is, disbursements and encumbrances) may not exceed appropriations at the object level of control and appropriations may not exceed estimated resources. The District Board must annually approve appropriation measures and subsequent amendments. Appropriations lapse at year end.

Estimated Resources Estimated resources include estimates of cash to be received (budgeted receipts) plus cash as of January 1. The County Budget Commission must approve estimated resources.

Encumbrances The Ohio Revised Code requires the District to reserve (encumber) appropriations when individual commitments are made. Encumbrances outstanding at year end are canceled, and reappropriated in the subsequent year.

A summary of 2021 budgetary activity appears in Note 3.

Capital Assets

The District records disbursements for acquisitions of property, plant, and equipment when paid. The accompanying financial statements do not report these items as assets.

Accumulated Leave

In certain circumstances, such as upon leaving employment, employees are entitled to cash payments for unused leave. The financial statements do not include a liability for unpaid leave.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District must observe constraints imposed upon the use of its governmental fund resources. The classifications are as follows:

Nonspendable The District classifies assets as nonspendable when legally or contractually required to maintain the amounts intact. For regulatory purposes, nonspendable fund balance includes unclaimed monies that are required to be held for five years before they may be utilized by the District and the nonspendable portion of the corpus in permanent funds.

Restricted Fund balance is restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

Committed The Board can commit amounts via formal action (resolution). The District must adhere to these commitments unless the Board amends the resolution. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed to satisfy contractual requirements.

Assigned Assigned fund balances are intended for specific purposes but do not meet the criteria to be classified as restricted or committed. For regulatory purposes, assigned fund balance in the general fund is limited to encumbrances outstanding at year end.

Note 2 – Summary of Significant Accounting Policies (continued)

Unassigned Unassigned fund balance is the residual classification for the general fund and includes amounts not included in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The District applies restricted resources first when disbursements are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when disbursements are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

For regulatory purposes, limited disclosure related to fund balance is included in Note 10.

Note 3 – Budgetary Activity

2021 Budgeted vs. Actual Receipts								
		Budgeted						
Fund Type	Receipts		Receipts		Receipts		V	ariance
General	\$	879,396	\$	896,440	\$	17,044		
Special Revenue		785,243	785,243			-		
Total	\$	1,664,639	\$	1,681,683	\$	17,044

	•	Appropriation		Budgetary		
Fund Type	Authority		Disbursements		V	'ariance
General	\$	571,815	\$	582,596	\$	(10,781)
Special Revenue		764,855		757,406		7,449
Total	\$	1,336,670	\$	1,340,002	\$	(3,332)

Note 4 – Deposits and Investments

As required by the Ohio Revised Code, the Harrison County Treasurer is custodian for the District's deposits. The County's deposit and investment pool holds the District's assets, valued at the Treasurer's reported carrying amount.

Note 5 – Intergovernmental Funding and Property Taxes

Intergovernmental Funding

The County apportions the excess of the District's appropriations over other estimated receipts among the townships and municipalities composing the District, based on their taxable property valuations. The County withholds the apportioned excess from property tax settlements and distributes it to the District. The financial statements present these amounts as intergovernmental receipts.

Note 5 – Intergovernmental Funding and Property Taxes (Continued)

Property Taxes

Real property taxes become a lien on January 1 preceding the October 1 date for which the taxing authority of the subdivision to whose jurisdiction the District is subject adopts rates. The State Department of Taxation, Division of Tax Equalization, adjusts these rates for inflation. Property taxes are also reduced for applicable non-business, owner occupancy, and homestead exemption credits and/or homestead and rollback deductions. The financial statements include credits and/or deduction amounts the State pays as Other Intergovernmental Receipts. Payments are due to the County by December 31. If the property owner elects to pay semiannually, the first half is due December 31. The second half payment is due the following June 20.

The County is responsible for assessing property and for billing, collecting, and distributing all property taxes on behalf of the District.

Note 6 – Risk Management

Workers' Compensation coverage is provided by the State of Ohio. The District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Commercial Insurance

The District has obtained commercial insurance for the following risks:

- Comprehensive property and general liability; and
- Errors and omissions.

Settled claims have not exceeded insurance coverage in any of the last three years. The District has had no significant change in coverage from last year.

Note 7 – Defined Benefit Pension Plan

Ohio Public Employees Retirement System

The District's employees belong to the Ohio Public Employees Retirement System (OPERS). OPERS is a cost-sharing, multiple-employer plan. The Ohio Revised Code prescribes this plan's benefits, which include postretirement healthcare and survivor and disability benefits.

The Ohio Revised Code also prescribes contribution rates. OPERS members contributed 10% of their gross salaries and the District contributed an amount equaling 14% of participants' gross salaries. The District has paid all contributions required through December 31, 2021.

Note 8 – Postemployment Benefits

OPERS offers a cost-sharing, multiple-employer defined benefit postemployment plan, that includes multiple health care plans including medical coverage, prescription drug coverage, deposits to a Health Reimbursement Arrangement and Medicare Part B premium reimbursements, to qualifying benefit recipients of both the traditional pension and the combined plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 0% during calendar year 2021. The portion of employer contributions allocated to health care for members in the member-directed plan was 4% during calendar year 2021.

Note 9 – Contingent Liabilities

The District may be a defendant in lawsuits. Although management cannot presently determine the outcome of any suit, management believes that the resolution of any matter will not materially adversely affect the District's financial condition. Management is not aware of any pending litigation.

Amounts grantor agencies pay to the District are subject to audit and adjustment by the grantor, principally the federal government. The grantor may require refunding any disallowed costs. Management cannot presently determine amounts grantors may disallow. However, based on prior experience, management believes any refunds would be immaterial.

Note 10 – Fund Balances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the District had none of the above fund balances nor encumbrances.

The fund balance of special revenue funds would be either restricted or committed. These restricted and committed amounts in the special revenue funds would include the outstanding encumbrances. In the general fund, outstanding encumbrances would be considered assigned.

Note 11 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio's state of emergency ended in June, 2021 while the national state of emergency continues. During 2021, the District received COVID-19 funding. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the District. The impact on the District's future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated.

Note 12 – Restatement of Beginning Fund Balance

Beginning fund balance at January 1, 2021 was restated for the District's General Fund due to voided checks.

	 General
Ending Fund Balance, December 31, 2020	\$ 978,407
Voided Checks	 1,206
Beginning Fund Balance, January 1, 2021, Restated	\$ 979,613

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Harrison County General Health District Harrison County 538 North Main Street Cadiz, Ohio 43907

To the Board:

We have audited, in accordance the with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the cash balances, receipts, and disbursements for each governmental fund type as of and for the years ended December 31, 2022 and 2021 and the related notes to the financial statements of the Harrison County General Health, Harrison County, (the District) and have issued our report thereon dated May 9, 2023, wherein we noted the District followed financial reporting provisions Ohio Rev. Code § 117.38 and Ohio Admin. Code § 117-2-03(C) permit.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Harrison County General Health District Harrison County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
