**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
2 CFR 200.510(b)(6)  
FOR THE YEAR ENDED JUNE 30, 2024**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of West Geauga Local School District (the District) under programs of the federal government for the year ended June 30, 2024. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

**NOTE C – INDIRECT COST RATE**

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE D - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

**NOTE E – FOOD DONATION PROGRAM**

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

West Geauga Local School District  
Geauga County  
8615 Cedar Road  
Chesterland, Ohio 44026

To the Board of Education:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, the major fund, and the aggregate remaining fund information of the West Geauga Local School District, Geauga County, Ohio (the District) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 18, 2024.

***Report on Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Independent Auditor's Report On Internal Control Over  
Financial Reporting And On Compliance And Other Matters  
Required By *Government Auditing Standards*  
Page 2

***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

***Purpose of This Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER

To the Board of Education:

**Report on Compliance for the Major Federal Program**

***Opinion on the Major Federal Program***

We have audited West Geauga Local School District's, Geauga County, Ohio (the District) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on West Geauga Local School District's major federal program for the year ended June 30, 2024. West Geauga Local School District's major federal program is identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings.

In our opinion, West Geauga Local School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2024.

***Basis for Opinion on the Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

### ***Responsibilities of Management for Compliance***

The District's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Report on Internal Control Over Compliance***

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Applicable to the Major Federal Program and on Internal Control Over Compliance

and on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, the business-type activities, the major fund and the aggregate remaining fund information of West Geauga Local School District, Geauga County, Ohio (the District) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 18, 2024. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Citizens and Board of Education Members  
West Geauga Local School District

We are pleased to submit to you the Annual Comprehensive Financial Report (ACFR) for West Geauga Local School District (School District) for the fiscal year ended June 30, 2024. Ohio law (Ohio Administrative Code Section 117-2-03(B)) requires that all school districts file annual audited financial reports with the Auditor of State within 150 days of the close of each fiscal year. This report is published to fulfill that requirement for the fiscal year ended June 30, 2024.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls the School District has established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. The School District's internal control framework is designed to protect the School District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the School District's financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

State statutes require an annual audit by independent accountants. The Auditor of the State of Ohio conducted the School District's 2024 fiscal year audit in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' Government Auditing Standards. The Auditor of State issued an unmodified ("clean") opinion on the School District's financial statements for the fiscal year ended June 30, 2024. The Independent Auditors' Report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it for a complete analysis of this year's financial performance.

## Profile of the School District

West Geauga School District is one of five school districts in Geauga County and one of 607 school districts in the State of Ohio. The School District educates over 2,000 students in grades preschool through twelve. It covers approximately 76 square miles in western Geauga County. All of Chester, Newbury and Russell townships and portions of surrounding townships (Munson, South Russell, and Hunting Valley) are located within its boundaries. The School District currently operates two elementary schools (K-2 and 3-5), one middle school (6-8) and one high school (9-12). Westwood Elementary School was constructed in 1959, Robert B. Lindsey Elementary School in 1965, West Geauga Middle School in 1962, and West Geauga High School in 1954. All schools underwent major renovations in 1996. On June 30, 2020, the Newbury Local School District (Newbury) transferred its operations including a K-12 building and a dormant Elementary School building through a territory transfer. The two Newbury buildings were demolished in 2022 and 2023 but the Newbury land, approximately 39 acres, continues to be held by the School District with portions of the athletic fields and football stadium leased back to the Newbury Township for community use.

Chester, Newbury, and Russell townships are picturesque semi-rural residential communities with most of the residential areas zoned for three to five-acre minimums in Russell Township and one to three-acre minimums in Chester and Newbury Townships. Housing types range from modest single-family homes to multi-million-dollar homes. Residents enjoy the presence of Punderson State Park and four county parks under the Geauga County Parks District umbrella: Bessie Benner Metzenbaum Park and Orchard Hills Park in Chester Township, The Rookery Park in Munson, and The West Woods Nature Center in Russell and Novelty. The School District includes several small commercial districts located at the intersection of State Routes 306 and 87 in Russell Township, Route 87 and Auburn Road in Newbury Township, and around the intersection of State Routes 306 and 322 in Chester Township.

## Organization of the School District

The School District is organized under Sections 2 and 3, Article VI of the Constitution of the State of Ohio. Under such laws, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the School District is vested in the West Geauga Board of Education, consisting of five members elected at large for staggered four-year terms. As of June 30, 2024, current board members were as follows:

Board Member	Term Expires	Position
Christina Sherwood	12/31/2025	President
William Beers	12/31/2027	Vice President
Pamela Claypool	12/31/2027	Member
Kathy Leavenworth	12/31/2027	Member
Mary Michelle Coleman-Walsh	12/31/2025	Member

The Superintendent is the Chief Executive Officer of the School District, responsible to the Board for all educational and support operations. The Superintendent is appointed by the Board for a term not longer than five years and is responsible for administering board policies, providing leadership in all phases of policy formulation and is the chief advisor to the Board on all aspects of educational programming and operations of the schools. Dr. Richard Markwardt has served as the Superintendent since June 2015 with his most recent five-year contract approved for the period of August 1, 2019 through July 31, 2025.

The Treasurer is the Chief Financial Officer of the School District, responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities, acting as custodian of all District funds, preparing the School District's five-year forecast, and investing idle funds as permitted by Ohio law. Ms. Karen Pavlat has served as the Treasurer/CFO since September 2014 with her most recent five-year contract approved for the period of August 1, 2022 through July 31, 2027.

Statutorily, the School District operates under standards prescribed by the Ohio State Board of Education, as provided in Division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code, to provide education services mandated by state and/or federal agencies.

### **Reporting Entity**

West Geauga Local Schools reviewed its reporting entity definition to ensure conformance with generally accepted accounting principles as defined by the Governmental Accounting Standards Board. In evaluating how to define the School District for financial reporting purposes, management considered its relationship with all departments, boards, organizations, and agencies associated with the School District. The School District's major operations include education, student transportation, food services, maintenance of school facilities and student extracurricular activities, including athletics and music. School support organizations are excluded from the reporting entity, because they are fiscally independent of the School District and include West Geauga Athletic Boosters, Wolverine Gridiron Club, West Geauga Band Boosters, West Geauga Parent Teacher Organizations, and the West Geauga Educational Foundation.

The School District is associated with three jointly governed organizations, one Workers' Compensation insurance purchasing pool and one insurance consortium agreement. These organizations are Lake Geauga Computer Association, Ohio Schools Council, West Geauga Joint Recreation Council, Ohio School Boards Association Workers' Compensation Group Rating Plan and Ohio School Benefits Cooperative (OSBC) for healthcare insurance.

A complete discussion of the School District's reporting entity is provided in Notes 1 and 2 of the financial statements.

### **Economic Condition and Future Outlook**

The School District received over 65% of its General Fund revenues from local property tax collections in fiscal year 2024. As such, its long-term financial outlook is heavily dependent on its local tax base. The funding structure of public education in Ohio is such that school districts receive very little revenue growth because of inflationary increases in their tax base. This is the result of House Bill 920, which mandates that any reappraised property increases result in an approximately equal value decrease in millage unless a district falls below the minimum 20 mil floor. As a result, West Geauga Local Schools, as well as school districts throughout Ohio, must place operating levies on the ballot at regular intervals (usually every four to five years) to keep pace with inflation and mandated educational programming and services.

Geauga County underwent a general reappraisal update for tax year 2023, for collection in calendar year 2024, with the School District's property valuations increasing approximately thirty-two (32) percent. With this significant valuation increase, it's effective tax millage fell below the state minimum of 20 mills. When a district falls below the state minimum, the County Auditor, must increase the millage to equal the state minimum, thereby, increasing tax collections for that tax year and offsetting the House Bill 920 reduction factors. Property tax revenue estimates for TY 2023 increased approximately \$5.9 million as a result of the revaluation. Because of this unprecedented growth and the School District falling below the 20-mil floor, the Board of Education voted to suspend \$1 million of the collection of its \$3.7 million emergency levy for

tax year 2023, collection in calendar year 2024. One-half (approximately \$470,000) of the suspended tax collections were reflected in fiscal year 2024, while the reduction of the other half will be reported in fiscal year 2025. In addition, the Tax Budget Commission suspended the School District's \$2.35 million emergency levy for tax year 2024, reducing collections in fiscal years 2025 and 2026.

In June 2023, the Governor signed the current state biennium budget (HB 33) implementing the second phase of the new educational funding model referred to as the Fair School Funding Plan (FSFP). The FSFP was created to reduce Ohio's over reliance on local property taxes to fund schools. It is an input-based model that utilizes research and best practices to estimate the actual cost of educating a child. HB 33 implements the third and fourth years of the six-year phase-in plan of the FSFP. Under the new formula, the District saw a \$263,000 increase in funding for fiscal year 2024 and continued to stay on the "Guarantee," meaning it did not receive less state funding than the prior year. State funding represents approximately 26% of the School District's revenues and is subject to changes in the next biennium budget period starting in fiscal 2026.

The School District closely monitors its expenditures and cash reserves to ensure financial resources are sufficient to maintain current and future operations. Inflation is decreasing but price increases from COVID-19 were still persistent in most areas of operations last year. The School District continued to experience labor shortages for substitutes and many non-teaching positions, especially in the transportation department. The School District settled both bargaining unit agreements with three-year contracts implementing raises of 3.2%, 3.3%, and 3.5% in fiscal years 2025, 2026 and 2027, respectively. The final rounds of Federal Elementary and Secondary Schools Emergency Relief Funds (ESSER) and ARP ESSER funds were fully utilized by the end of the 2024 fiscal year thereby increasing supplies and materials cost.

## **Financial Information and Relevant Financial Policies**

### Long-Term Financial Planning

O.R.C. §5705.391 and O.A.C. 3301-92-04 require the School District to submit a five-year forecast of operational revenues and expenditures along with its assumptions to the Ohio Department of Education and Workforce prior to November 30<sup>th</sup> of each fiscal year and then update the forecast between April 1<sup>st</sup> and May 31<sup>st</sup> of each fiscal year. Responsibility for the preparation of the forecast rests with the School Board and the Treasurer/CFO. The forecast is used to ensure the School District does not enter into any contract that it cannot demonstrate its ability to pay for over the life of the contract. A district's five-year forecast also enables the School Board to estimate the timing and amounts of necessary operating levies.

The School District received the majority of its support from the local taxpayers. In addition to its continuing operating levies, it has two fixed amount emergency levies generating approximately \$2.35 million and \$3.7 million annually to maintain current operations. Voters renewed the \$3.7 million emergency levy in November 2016 for a period of ten years. In May 2019, voters also renewed the \$2.35 million emergency levy for an additional ten years.

Of the general operating funds, the School District received approximately 65% of its revenue from local taxes and other local resources and 26% from the State and Federal government sources. The School District ended fiscal year 2024 with \$26 million in unrestricted cash, 236 days' cash on hand, and the latest five-year forecast indicates a positive cash balance through fiscal year 2029 of \$20.9 million, 181 days cash on hand. As a result of its strong financial position and community support, the School District maintained its Moody's Investor Services Aa2 credit rating.

In 2022, the School District reinstated its Master Facilities Planning Committee (MFPC) from 2018 to reassess the existing facilities and its building configuration after the Newbury territory transfer. In February 2024, the MFPC presented its final recommendation to the Board to include building a new middle/high school with an athletic field house and a new K-5 elementary building on one centralized campus. The West Geauga Board of Education agreed with the MFPC's recommendation and is finalizing the total cost and levy timing for the project.

## Financial Policies

Pursuant to Statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all governments in Ohio. The School District adopted and has been in conformance with that system beginning with the financial report for the 1983 fiscal year.

### Internal Accounting and Budgetary Control

In developing the School District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the effectiveness and efficiency of operations, reliability of financial reporting and compliance with laws and regulations. The concept of reasonable assurance is based upon the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes a fully automated accounting system, as well as an automated system of controls for inventory, requisition authorization, timekeeping and payroll processing. These systems, coupled with the manual audit of each voucher prior to payment, provide reasonable assurance that the financial information generated is both accurate and reliable.

Prior to the beginning of each fiscal year, the West Geauga Board of Education adopts an appropriation measure for that fiscal year. By Statute, permanent appropriations must be adopted upon receipt from the county auditor of an amended certificate of estimated resources based on final assessed values and tax rates. Annual appropriations may not exceed the Geauga County Budget Commission's ("Budget Commission") official estimate of resources. The Budget Commission must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates. All disbursements and transfers of cash between funds require appropriation authority from the Board.

Budgets are controlled by management at the object account level within a function and fund. The legal level of control has been established by the Board of Education at the fund level. All purchase order requests must be approved by the appropriate administrator and the Superintendent prior to certification by the Treasurer for issuance. Necessary funds are then encumbered and purchase orders are released to the vendors. Those requests, which exceed the available appropriation, are rejected until additional appropriations are secured.

The accounting system used by the School District provides interim financial reports, which detail fiscal year-to-date expenditures and encumbrances versus the original appropriations plus any additional appropriations made to date. Each account administrator is provided with daily reports indicating the status of the budget accounts for which they are responsible. In addition, an online inquiry is available for each administrative cost center in real time.

The basis of accounting and the various funds utilized by the School District are fully described in Note 2 of the financial statements. Additional information on the School District's budgetary accounting can also be found in Note 2.

## **Awards and Acknowledgement**

### National Award

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting for an Annual Comprehensive Financial Report. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports. To be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized financial report, whose contents conform to program standards. The ACFR must satisfy both generally accepted accounting principles and applicable legal requirements.

The School District was awarded the Certificate of Achievement for its fiscal year 2023 report. We believe that our current report conforms to the award requirements, and we are submitting it to GFOA for consideration.

### Acknowledgements

The publication of this report significantly enhances the School District's accountability to the residents of the West Geauga Local School District. The preparation of this report could not have been possible without the work and dedication of the Treasurer's Office staff and the support of Ciuni and Panichi, Inc. In addition, we would like to thank the administration and the Geauga County Auditor's Office staff for their assistance to in preparing information for the statistical data section of this report.

Finally, sincere appreciation is extended to the members of the West Geauga Board of Education for their continued support.

Respectfully submitted,

## INDEPENDENT AUDITOR'S REPORT

West Geauga Local School District  
Geauga County  
8615 Cedar Road  
Chesterland, Ohio 44026

To the Board of Education:

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the financial statements of the governmental activities, the business-type activities, the major fund, and the aggregate remaining fund information of the West Geauga Local School District, Geauga County, Ohio (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the major fund, and the aggregate remaining fund information of the West Geauga Local School District, Geauga County, Ohio as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Information***

Management is responsible for the other information included in the annual financial report. The other information comprises the [introductory and statistical sections](#) but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we will also issue our report dated December 18, 2024, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2024

---

The discussion and analysis of the West Geauga Local School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2024. The intent of this discussion and analysis is to look at the District's performance as a whole; readers should also review the transmittal letter, the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

***Financial Highlights***

Key financial highlights for 2024 are as follows:

- In total, net position increased \$3,190,880, which represents a 19% increase from fiscal year 2023. Net position of governmental activities increased \$3,191,335 from 2023. Net position of business-type activities decreased \$455 from 2023.

***Using this Annual Comprehensive Financial Report***

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a whole entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor governmental funds presented in total in one column. In the case of the District, the general fund is by far the most significant fund.

***Reporting the District as a Whole***

***Statement of Net Position and the Statement of Activities***

While the basic financial statements contain a large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2024?" The Statement of Net Position and the Statement of Activities answer this question.

**West Geauga Local School District**  
**Geauga County, Ohio**

Management's Discussion and Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2024

---

These statements include all assets and deferred outflows of resources and liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio which restrict revenue growth, facility conditions, required educational programs, and other factors.

In the Statement of Net Position and the Statement of Activities, Governmental Activities include the District's programs and services, including instruction, support services, extracurricular activities and non-instructional services, i.e., food service operations.

***Reporting the District's Most Significant Funds***

***Fund Financial Statements***

Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions; however, these fund financial statements focus on the District's most significant funds. The District's major governmental fund is the general fund.

***Governmental Funds***

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

***Proprietary Funds***

Proprietary funds use the accrual basis of accounting, the same as on the government-wide statements; therefore, the statements will essentially match the business-type activities portion of the government-wide statements.

Management's Discussion and Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2024

---

The District follows Governmental Accounting Standards Board (GASB) Statement 68, *Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement 27* and GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which significantly revises accounting for costs and liabilities related to pensions and other postemployment benefits (OPEB).

For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension/OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB asset/liability to equal the District's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these assets/liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded asset/liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Management's Discussion and Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2024

---

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion.

Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the Statement of Net Position.

Fluctuations in net pension/OPEB liability/asset for the District are due to changes in the retirement systems unfunded liabilities that are passed through to the District's financial statements. All components of pension and OPEB accruals contribute to the fluctuations in deferred outflows/inflows and net pension/OPEB liability/asset and are described in more detail in their respective notes.

At year end, equity in pooled cash and cash equivalents represented 41% of total asset and capital assets represented 21% of total assets. Equity in pooled cash and cash equivalents increased \$4,504,067 from the prior year. This increase was primarily due to an increase in taxes collected during the year. The increase in taxes was due to an increase in assessed values being with 2023 tax collections. Capital assets include land, land improvements, buildings, right to use asset – buildings, right to use asset – equipment, right to use asset – software, furniture and equipment, and vehicles. Net investment in capital assets was approximately \$16 million at June 30, 2024. These capital assets are used to provide services to students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

Deferred outflows decreased from the prior year by \$676,345. This was primarily due to a decrease in deferred outflows related to pension, which decreased \$1.2 million from the prior year.

Liabilities decreased \$650,144 due to a decrease in the net pension liability, which decreased \$925,955 from the prior year. This decrease was primarily due to a decrease in the STRS pension liability.

Deferred inflows increased from the prior year by \$4.9 million. This was primarily due to an increase in deferred inflows related to property taxes, which increased \$7.6 million from the prior year. This increase was due to a decrease in tax revenue available as an advance at June 30, 2024 as well as an increase in expected tax collections.

A portion of the District's net position, \$6.3 million, or 32%, represents resources that are subject to external restrictions on how they may be used, with the majority being restricted for capital outlay. The balance of government-wide unrestricted net position had a deficit of \$2.6 million at June 30, 2024.

Management's Discussion and Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2024

---

***Effects of GASB 68 and GASB 75***

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB asset/liability, respectively, not accounted for as deferred inflows/outflows.

Under GASB 68, pension expense represents additional amounts earned based on a proportionate share of the net pension liability adjusted by a corresponding proportionate share of deferred outflows and inflows. Under GASB 68, the pension expense for 2024 is \$1,279,714, while in 2023 pension expense was \$1,860,539. The District was required to contribute \$2,642,143 and \$2,557,529 during 2024 and 2023, respectively.

Under GASB 75, OPEB expense represents additional amounts earned based on a proportionate share of the net OPEB liability adjusted by a corresponding proportionate share of deferred outflows and inflows. Under GASB 75, the OPEB expense for 2024 is \$(453,444), while in 2023 OPEB expense was \$(724,329). The District was required to contribute \$79,577 and \$87,090 during 2024 and 2023, respectively.

***Governmental Activities***

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. It increases as a result of new construction or collection from a new voted levy. Although school districts experience inflationary growth in expenses, tax revenue does not keep pace with the increased expenses due to House Bill 920. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35 annually in taxes. If three years later the home were reappraised and increased to \$200,000 the effective tax rate would become .5 mills and the owner would still pay \$35 and the school district would collect the same dollar value the levy generated in the year it passed. The 10% rollback on all residential/agricultural property and the 2.5% rollback on all owner occupied homes would reduce the amount of taxes paid.

The dependence upon general revenues for governmental activities is apparent. Nearly 90% of governmental activities are supported through taxes and other general revenues; such revenues are 91% of total governmental revenues. The community, as a whole, is by far the primary support for the District's students.

General revenues increased primarily due to an increase in investment earnings. Investment earnings increased due to the market performing better in the current year.

Operating grants contributions decreased in the current year due to a decrease in funding related to federal food subsidies. Grants and entitlements not restricted to specific programs increased in the current year due to changes in the funding from the State and an increase in funding related to homestead and rollback exemptions.

Capital grants decreased in the current year due a decrease in OFCC Safety Grant and ODE School Bus Grant funding.

Management's Discussion and Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2024

---

Regular instruction program expense decreased due to a decrease in pension expense. Extracurricular activities program expense decreased as students had an international trip in 2023.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted state entitlements.

**Table 3**

***Business-Type Activities***

Business-type activities include Café 306, a student run store that sells spirit wear and snacks. This programs had revenues of \$4,249 and expenses of \$4,704 for fiscal year 2024. This resulted in a decrease to net position for the fiscal year of \$455.

***Governmental Funds***

These funds are accounted for using the modified accrual basis of accounting. The net change in fund balances for the fiscal year was an increase of \$328,767 for all governmental funds. The decrease in the general fund was offset by an increase in the nonmajor governmental funds due to transfers between these funds.

***General Fund Budgeting Highlights***

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund. During the course of fiscal year 2024, the District amended its general fund budget. The District uses site-based budgeting and budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

Management's Discussion and Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2024

---

**Original Budget Compared to Final Budget** For the general fund, original budget basis revenues were estimated lower than final budget, mainly in taxes and intergovernmental revenue. Original expenditure appropriations were estimated lower than final budget as appropriations were increased to account for increase in salaries and benefits related to regular education, special education and administration expenditures. There was also an increase in purchase services related to special education and operation and maintenance of plant expenditures.

**Final Budget Compared to Actual Results** There were differences in final budget basis and actual revenues. Final expenditures were lower than the final budget as there was a decrease in purchase services and salaries and benefits related to pupil support and operation and maintenance of plant expenditures.

***Capital Assets***

Management's Discussion and Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2024

---

***Future Outlook***

The District continues to maintain a strong financial position, but it is not without challenges in the future. The current economic outlook anticipates moderate growth, normalizing inflation, a softening labor market and interest rate cuts by the end of calendar year 2024. The District ended fiscal year 2024 with \$25.6 million in unrestricted cash, 239 days' cash on hand, and the latest five-year forecast indicates a positive cash balance through fiscal year 2029.

Property tax collections represent the majority of the District's total school funding. The Geauga County Auditor's Office performed its county-wide sexennial property reappraisal on all real property in 2023 noting an average 32% increase in residential property values in the District. While a 32% increase in property values does not correlate to the same percentage increase in property taxes, residents saw an increase in the teens. In response to this unprecedented increase in property taxes, the Board of Education voted in November 2023 to suspend \$1 million of its \$3.7 million emergency levy for one year. The reduced collections would be split between fiscal years 2024 and 2025. In addition to the November Board action, it also agreed in March 2024 to suspend the second emergency levy of \$2.35 million for tax year 2024, collections split between fiscal years 2025 and 2026. Overall, tax collection percentages were unchanged from the prior year.

The District has two ten-year emergency levies generating \$3.7 million and \$2.35 million annually in revenue, each of which will need to be renewed or replaced by 2027 and 2030, respectively. Even though the District has a positive ending cash balance forecasted for fiscal year 2029, residents will need to pass an increase in local taxes to pay for future operations before fiscal year 2026 to maintain adequate funding for educational programming in fiscal years 2027 and beyond. While taxpayers consistently pass the District's renewal levies, new operating levies are more difficult to approve.

One factor impacting the levy cycle is the District's current Master Facilities Plan, (MFP). Following the territory transfer of Newbury Local Schools, the District updated its facilities plan to focus on centralizing all schools on its main campus by consolidating its six schools. In January 2024, the MFP Committee recommended consolidating all schools on one campus by building a new 6-12 building and renovating the current Middle School as a preK-5 building. The last Newbury school building was demolished in 2023 and if the bond passes, the MFP Committee proposes the demolition of the High School, Westwood Elementary School and Lindsey Elementary School. The Board anticipates voting in January 2025 on whether to place a bond on the ballot in May 2025.

State funding represents another significant financial resource for the District. In its 2021 biennium budget, the Ohio General Assembly adopted a new educational funding formula with a six-year phase-in period. Under the new formula, the District receives state aid on the "guarantee," meaning its current funding was not less than that of the previous year. The second phase was implemented in the 2023 biennium budget with the last two-year phase-in anticipated in the 2025 biennium budget. Risks of declining state funding beyond fiscal year 2024 may exist if the state economy stalls or legislators fail to pass the final phase-in of the new educational funding formula.

Management's Discussion and Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2024

---

While the Federal Reserve cut interest rates by 50 basis points in fall 2024 and has signaled further cuts before yearend, there is still economic uncertainty and changes in the Federal Reserve's fiscal policy that creates unpredictability in the District's future investment income. The District's forecast anticipates a 3% to 3.5% return on investment income over the next five years, however, cash balances will decrease due to future operating deficits.

Inflation and labor shortages post pandemic have lessened but cost pressures this year and beyond continue. Salary and benefit percentage increases start to outpace the revenues percentage increases next year. The District settled new three-year contracts with both certified and classified unions in June 2024 to include 3.3% to 3.5% salary increases. Supplies, purchased services and capital expenditures were still impacted by rising costs throughout fiscal year 2024. The District continues to implement appropriate cost saving measures to mitigate growth in operating expenses and to preserve its fund balance.

In response to the effects of COVID-19 on student learning loss and well-being, the District spent the remaining funds from the three (3) rounds of Federal Elementary and Secondary Schools Emergency Relief Funds (ESSER) and the American Rescue Plan (ARP) ESSER in 2024.

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2024

---

**Note 1 - Description of the District and Reporting Entity**

The West Geauga Local School District (the “District”) operates under a locally elected five member Board form of government and provides educational services as authorized by State or Federal agencies. The Board controls the District’s four instructional facilities.

The District is located in Geauga County, including all of Chester, Russell and Newbury Townships and portions of Munson, and Chagrin, Ohio. The District operates two elementary schools (K-5), one middle school (6-8), and one high school (9-12).

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that financial statements of the District are not misleading. The primary government of the District consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, community education and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. The District has no component units.

The District participates in three jointly governed organizations. These organizations are the Lake Geauga Computer Association, the Ohio Schools Council, and the West Geauga Community Joint Recreation District. These organizations are presented in Note 16 to the basic financial statements.

**Note 2 - Summary of Significant Accounting Policies**

The most significant of the District’s accounting policies are described below.

**A. Basis of Presentation**

**Government-wide Financial Statements** The Statement of Net Position and the Statement of Activities display information about the District as a whole. The statements distinguish between governmental and business-type activities of the District.

**West Geauga Local School District  
Geauga County, Ohio**

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2024

---

**Note 2 - Summary of Significant Accounting Policies (continued)**

**A. Basis of Presentation (continued)**

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function.

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

**Fund Financial Statements** Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type. The District has no fiduciary funds.

**B. Fund Accounting**

The District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and proprietary.

**Governmental Funds** Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following is the District's major governmental fund:

**General Fund** The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***B. Fund Accounting (continued)***

The other governmental funds of the District account for grants and other resources whose use is restricted, committed or assigned to a particular purpose.

***Proprietary Funds*** Proprietary funds focus on the determination of operating income/loss, changes in net position, financial position and cash flows and are classified as either enterprise or internal service. The District has no internal service funds.

***Enterprise Funds*** Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The District does not have any major enterprise funds. The District has one enterprise fund which accounts for Café 306.

***C. Measurement Focus***

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the Statement of Fund Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The Statement of Cash Flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

***D. Basis of Accounting***

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds and use the accrual basis of accounting.

***Revenues - Exchange and Non-Exchange Transactions*** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of the fiscal year-end.

**Note 2 - Summary of Significant Accounting Policies (continued)**

**D. Basis of Accounting (continued)**

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 8). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

**Unearned Revenue** Unearned revenue represents amounts under the accrual and modified accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned. The District does not have any unearned revenues at June 30, 2024.

**Deferred Outflows/Inflows of Resources** In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources are reported on the government-wide Statement of Net Position for pension and OPEB. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 13 and 14.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized until that time. For the District, deferred inflows of resources include property taxes, pension, OPEB and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2024, but which were levied to finance fiscal year 2025 operations. These amounts have been recorded as a deferred inflow on both the government-wide Statement of Net Position and governmental fund financial statements.

**D. Basis of Accounting (continued)**

Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District, unavailable revenue may include delinquent property taxes, grants and entitlements and other miscellaneous revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide Statement of Net Position (see Notes 13 and 14).

**Expenses/Expenditures** On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**E. Budgetary Data**

All funds, except custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education (the “Board”) may appropriate. The appropriation resolution is the Board’s authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board at the fund level. The Treasurer has been given authority to allocate Board appropriations to the function and object levels within each fund.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2024.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

***F. Cash and Cash Equivalents***

To improve cash management, all cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through District records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the balance sheet.

During fiscal year 2024, investments were limited to STAR Ohio (the State Treasurer's Investment Pool), money market accounts, negotiable certificates of deposit, U.S. Treasury bonds, Federal Home Loan Bank bonds, and Federal Home Loan Mortgage bonds.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the state to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, *Certain External Investment Pools and Pool Participants*. The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For the fiscal year 2024, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board has, by resolution, identified the funds to receive an allocation of interest. Interest revenue credited to the general fund during fiscal year 2024 amounted to \$1,773,298, which includes \$279,995 assigned from other District funds.

Investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the District are presented on the financial statements as "equity in pooled cash and cash equivalents." Investments with an original maturity of more than three months that are not made from the pool are reported as "investments."

***G. Prepaid Items and Inventory***

Payments made to vendors for services that will benefit periods beyond June 30, 2024 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure is reported in the year in which services are consumed.

Inventories are presented at cost on a first-in, first-out basis and are expensed when used. Inventories consist of goods held for resale.

***H. Capital Assets***

General capital assets are those assets resulting from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported on the fund financial statements. All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at acquisition value as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

The District is reporting right to use assets related to SBITA and leased property and equipment. These assets are amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land improvements	5 – 100 years
Buildings and improvements	10 – 100 years
Furniture and equipment	3 – 50 years
Vehicles	5 – 15 years

***I. Interfund Balances***

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivable" or "interfund payable." These amounts are eliminated in the governmental and business-type activities columns of the Statement of Net Position, except for the net residual amounts due between governmental and business-type activities, which are presented as "internal balances."

***J. Compensated Absences***

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

**West Geauga Local School District  
Geauga County, Ohio**

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2024

---

**Note 2 - Summary of Significant Accounting Policies (continued)**

***J. Compensated Absences (continued)***

Sick leave benefits are accrued as a liability using the termination method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at year end, taking into consideration any limits in the District's termination policy. The District reports a liability for accumulated unused sick leave for classified, certified and administrative employees who will be eligible to retire at the end of the fiscal year.

The entire compensated absence liability is reported on the government-wide financial statements.

In governmental funds, the liability for unpaid compensated absences is the unused reimbursable leave still outstanding following an employee's resignation or retirement. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid.

***K. Pensions and Other Postemployment Benefits (OPEB)***

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

***L. Accrued Liabilities and Long-term Obligations***

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

***M. Leases***

As lessee, the District recognizes lease contracts or equivalents that have a term exceeding one year and the cumulative future payments on the contract exceed \$5,000 that meet the definition of another than short-term lease. Short-term lease payments are expensed when incurred. At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. The District uses a discount rate that is explicitly stated or implicit in the contract. When a readily determinable discount rate is not available, the discount rate is determined using the District's incremental borrowing rate at start of the lease for a similar asset type and term length to the contract. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

As lessor, the District recognizes lease contracts or equivalents that have a term exceeding one year and the cumulative future payments on the contract exceed \$5,000 that meet the definition of another than short-term lease. At the commencement of the lease, the District records a receivable and deferred inflow of the net present value of future expected payments using a discount rate explicitly stated or implicit in the contract. When a readily determinable discount rate is not available, the discount rate is determined using the District's incremental borrowing rate at start of the lease for a similar term length to the contract. Short-term lease receipts and variable lease receipts not included in the measurement of the lease receivable are recognized as income when earned.

***N. Subscriptions***

The District recognizes subscription-based information technology arrangements that have a term exceeding one year and future payments on the contract exceed \$5,000. Short-term subscriptions are expensed as incurred. At the commencement of the subscription arrangement, the District initially measures the subscription liability at the present value of payments expected to be made during the term. The District uses a discount rate that is determined using the District's incremental borrowing rate at start of the subscription arrangement for a similar asset type and term length to the contract. Subsequently, the subscription liability is reduced by the principal portion of payments made. The subscription asset is initially measured as the initial amount of the subscription liability adjusted for payments made at or before the commencement date. Subsequently, the subscription asset is amortized on a straight-line basis over its useful life.

***O. Net Position***

Net position represents the difference between all other elements in the Statement of Financial Position. Net investment in capital assets consists of capital assets and right to use assets, net of accumulated depreciation and amortization, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets and the SBITA and lease liability associated with the right to use assets.

**Note 2 - Summary of Significant Accounting Policies (continued)**

**O. Net Position (continued)**

Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

**P. Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

**Nonspendable** – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

**Restricted** – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or is imposed by law through constitutional provisions.

**Committed** – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be re-deployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the Board, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints are not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

**Assigned** – Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the Board. The Board has by resolution authorized the Treasurer to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year’s appropriated budget.

**Unassigned** – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In nonmajor governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***P. Fund Balance (continued)***

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

***Q. Interfund Activity***

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller's funds and as expenditures/expenses in the purchaser's funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements.

***R. Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

***S. Operating Revenues and Expenses***

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating.

**Note 3 - Change in Accounting Principles**

***Newly Adopted Accounting Pronouncements***

For the fiscal year ended June 30, 2024, the District implemented the following Governmental Accounting Standard issued by the Governmental Accounting Standards Board (GASB):

GASB Statement No. 100, *Accounting Changes and Error Corrections—An Amendment of GASB Statement No. 62*, was issued in June 2022. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The effective date of this standard to reporting periods beginning after June 15, 2023. The implementation of this GASB pronouncement did not result in any changes to the District's financial statements.

**Note 3 - Change in Accounting Principles (continued)**

*Newly Issued Accounting Pronouncements, Not Yet Adopted*

GASB Statement No. 101, *Compensated Absences*, was issued in June 2022. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The District has not yet determined the impact that this GASB pronouncement will have on its financial statements and disclosures.

GASB Statement No. 102, *Certain Risk Disclosures*, was issued in December 2023. The requirements of this Statement will improve financial reporting by providing users of financial statements with essential information that currently is not often provided. The disclosures will provide users with timely information regarding certain concentrations or constraints and related events that have occurred or have begun to occur that make a government vulnerable to a substantial impact. As a result, users will have better information with which to understand and anticipate certain risks to a government's financial condition. The District has not yet determined the impact that this GASB pronouncement will have on its financial statements and disclosures.

**Note 5 - Budgetary Basis of Accounting**

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual, is presented for the general fund on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Investment are reported at fair value (GAAP) rather than costs (budget).
3. Expenditures/expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
4. Encumbrances are treated as expenditures (budget) rather than restricted, committed or assigned fund balance (GAAP).
5. Advances in and advances out are operating transactions (budget) as opposed to balance sheet transaction (GAAP).
6. Some funds are included in the general fund (GAAP), but have separate legally adopted budgets (budget). This includes the uniform supplies fund, the adult education fund, the rotary fund, the public school support fund, the other grants fund and the termination benefits fund.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement on a fund type basis for the general fund.

	<u>General</u>
GAAP basis	\$ (5,279,347)
Revenue accruals	4,323,434

Encumbrances	(322,723)

**Note 6 - Deposits and Investments**

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies to be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Time certificates of deposits or saving or deposit accounts including, but not limited to, passbook accounts;
4. Written repurchase agreements in the securities described in (1) or (2) provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;

**Note 6 - Deposits and Investments (continued)**

5. Bonds and other obligations of the State of Ohio; and, with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio);
8. Certain bankers' acceptance (for a period not to exceed 180 days) and commercial paper notes (for a period not to exceed 270 days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met; and,
9. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

***Deposits***

***Custodial Credit Risk*** is the risk that in the event of a bank failure, the District will not be able to recover deposits or collateral securities that are in possession of an outside party.

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by:

Eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

***Deposits (continued)***

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS required the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

At fiscal year-end, the bank balance of the District's deposits was \$525,620. At fiscal year-end \$14,944 of District's total bank balance was exposed to custodial credit risk because those deposits were uninsured and uncollateralized. One of the District's financial institution participates in the Ohio Pooled Collateral System (OPCS) and was approved for a reduced collateral floor of 60% resulting in the uninsured and uncollateralized balance.

***Investments***

Investments are reported as fair value. As of June 30, 2024, the District had the following investments:

	<u>Fair Value</u>	<u>Maturities Less than 1 Year</u>	<u>Maturities More than 1 Year</u>
STAR Ohio	\$ 23,936,491	\$ 23,936,491	\$ -
Money market	602,191	602,191	-
Negotiable certificates of deposit	4,668,635	247,748	4,420,887
U.S. Treasury bonds	499,040	499,040	-
Federal Home Loan Bank (FHLB) bonds	1,707,905	488,405	1,219,500
Federal Home Loan Mortgage (FHLM) bonds	2,268,985	689,351	1,579,634
Total	\$ 33,683,247	\$ 26,463,226	\$ 7,220,021

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as June 30, 2024:

- STAR Ohio is measured at amortized cost, which approximates fair value. At June 30, 2024, the average days to maturity was 46.5 days.
- Money market is valued at amortized cost, which approximates fair value.
- Negotiable certificates of deposit, U.S Treasury bonds, FHLB bonds, and FHLM bonds are measured based on Level 2 inputs, using matrix pricing.

**Note 6 - Deposits and Investments (continued)**

***Investments (continued)***

**Interest Rate Risk** arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. The District's policy indicates that the investments must mature within five years, unless matched to a specific obligation or debt of the District.

**Credit Risk** is addressed by the District's investment policy by the requirements that all investments are authorized by Ohio Revised Code and that portfolio be diversified both by types of investment and issuer. The FHLB bonds, FHLM bonds, and U.S Treasury bonds all carry a rating of AA+/Aaa by Standard and Poor's. STAR Ohio and the money market carry an AAA rating by Standard & Poor's. The negotiable certificates of deposit are unrated.

**Concentration of Credit Risk** The District places no limit on the amount the District may invest in any one issuer. The District's policy is to invest money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds. The following is the District's allocation as of June 30, 2024:

<u>Investment Issuer</u>	<u>Percentage of Investments</u>
STAR Ohio	71%
Money market	2%
Negotiable certificates of deposit	14%
U.S. Treasury bonds	1%
Federal Home Loan Bank (FHLB) bonds	5%
Federal Home Loan Mortgage (FHLM) bonds	7%

**Note 7 - Interfund Balances and Transfers**

***Interfund Balances***

Interfund transactions for the year ended June 30, 2024 consisted of the following:

<u>Interfund receivable</u>	<u>Interfund payable</u>	<u>Amount</u>
General	Nonmajor governmental	\$ 7,960

All balances resulted from a time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, or (3) payments between funds are made. As of June 30, 2024, all interfund loans outstanding are anticipated to be repaid during fiscal year 2025.

Interfund transfers for the year ended June 30, 2024, consisted of the following:

Transfers – in:	<u>Transfers – out</u>
Nonmajor governmental	<u>General</u>
	\$ 6,250,000

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

## Note 8 - Property Taxes

Property taxes are levied and assessed on a calendar year basis while the District's fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the District. Real property tax revenue received in calendar year 2024 represents collections of calendar year 2023 taxes. Real property taxes received in calendar year 2024 were levied after April 1, 2023, on the assessed value listed as of January 1, 2023, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2024 represents collections of calendar year 2023 taxes. Public utility real and tangible personal property taxes received in calendar year 2024 became a lien December 31, 2022, were levied after April 1, 2023 and are collected in 2024 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The District receives property taxes from Geauga County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2024, are available to finance fiscal year 2024 operations. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2024, and for which there is an enforceable legal claim.

**Note 8 - Property Taxes (continued)**

Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources. The amount available as an advance at June 30, 2024 was \$1,816,931 for the general fund and \$84,624 in the permanent improvement fund.

The assessed values upon which the fiscal year 2024 taxes were collected are:

	2023		2024	
	Second-Half Collections		First- Half Collections	
	Amount	Percent	Amount	Percent
Real estate	\$ 902,385,430	94.94%	\$ 1,192,474,690	96.08%

Tax rate per \$1,000 of assessed valuation		\$ 49.68		\$ 47.37

The Board of Education voted in November 2023 to suspend \$1 million of its \$3.7 million emergency levy for one year. The reduced collections would be split between fiscal years 2024 and 2025. In addition to the November Board action, it also agreed in March 2024 to suspend the second emergency levy of \$2.35 million for tax year 2024, collections split between fiscal years 2025 and 2026.

**Note 9 - Receivables**

Receivables at June 30, 2024, consisted of taxes and intergovernmental. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs, and the current fiscal year guarantee of federal funds. **Note 11 - Risk Management**

**A. *Property and Liability***

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. Professional liability insurance is provided by a major carrier and has limits of \$6,000,000 for each occurrence and \$8,000,000 general aggregate coverage, including employee benefit liability limits, qualified school groups, and employers' liability.

Property and fleet insurance is provided by a major carrier. Property insurance includes boiler and machinery coverage with a blanket limit of \$134,907,962 with a \$1,000 deductible. Fleet insurance has a limit of \$6,000,000 with a \$1,000 deductible for comprehensive and \$1,000 for collision coverage.

Settled claims have not exceeded coverage in any of the last three years. There has not been a significant reduction in coverage from the prior year.

***B. Employee Group Health Insurance***

The District participates in the Ohio School Benefits Cooperative, a claims servicing and group purchasing pool composed of over 40 members in twenty-two counties. The Ohio School Benefits Cooperative (OSBC) is created and organized pursuant to and as authorized by Section 9.833 of the Ohio Revised Code. The OSBC's business and affairs are conducted by a nine-member Board of Directors consisting of Educational Service Center superintendents elected by the members of the OSBC. The Muskingum Valley Educational Service Center serves as the fiscal agent for OSBC. The OSBC is an unincorporated, non-profit association of its members and an instrumentality for each member for the purpose of enabling members of the Plan to maximize benefits and/or reduce costs of medical, prescription drug, vision, dental, life, and/or other group insurance coverages for their employees and the eligible dependents, and designated beneficiaries of such employees. Participants pay a \$500 membership fee to OSBC.

The OSBC offers two options to participants. Participants may enroll in the fully-funded joint insurance purchasing program for medical, prescription drug, vision dental and/or life insurance. A second option is available for self-insured participants that provides for the purchase of stop loss insurance coverage through OSBC's third party administrator. The District elected to participate in the joint insurance fully-funded purchasing program. Medical Mutual/Antares is the Administrator of the OSBC. Financial information can be obtained by writing to, Danielle Devoll, Treasurer/CFO of the OSBC, at 205 North 7th Street, Zanesville, 43701.

***C. Workers' Compensation***

The District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

**Note 12 - Other Employee Benefits**

***A. Compensated Absences***

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and state laws. Classified employees earn ten to twenty-two days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers and most administrators do not earn vacation time.

All certified and classified employees earn sick leave at the rate of one and one-fourth days per month. Upon retirement, payment is made to classified employees for one-fourth of their accumulated sick leave with a maximum accumulation of 300 days. Classified employees are paid within 120 days of the retirement date. Upon retirement, payment is made to certified employees for one-fourth of their accumulated sick leave with a maximum accumulation of 300 days. Certified employees have the choice of their payout in one or two payments. The first payment will be within 120 days of the last day of employment and the second payment will be in the following calendar year. Upon retirement, payment is made to administrators for a scheduled percentage based upon their years of service at the District.

***B. Early Retirement Incentive***

The District offers employees participation in a retirement incentive program. Participation is open to those classified employees who opt to retire by the end of the school year in which the employee first becomes eligible under SERS and approved to receive retirement benefits other than disability retirement.

Eligible employees must notify the Superintendent of their intention to retire in writing, no later than March 1st of the year they intend to retire. Eligible employees who fulfill the above requirements will receive a lump sum payment equal to 20% of their base salary within 120 days of retirement. This retirement incentive program ended June 30, 2024.

**Note 13 - Defined Benefit Pension Plans**

***A. Net Pension Liability/Net OPEB Liability (Asset)***

The net pension/OPEB liability (asset) reported on the Statement of Net Position represents a liability (asset) to employees for pensions/OPEB. Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions/OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB Statement No. 68 and 75 assumes the liability (asset) is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for OPEB benefits including primarily health care. In most cases, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium.

**Note 13 - Defined Benefit Pension Plans (continued)**

**A. Net Pension Liability/Net OPEB Liability (Asset) (continued)**

State statute requires the retirement systems to amortize unfunded pension/OPEB liabilities within 30 years. If the pension/OPEB amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension/OPEB liability* on the accrual basis of accounting. Funded benefits is presented as a long-term *net pension/OPEB asset*. Any liability for the contractually-required contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the required pension disclosures. See Note 14 for the required OPEB disclosures.

**B. Plan Description - School Employees Retirement System (SERS)**

Plan Description – District non-teaching employees participate in SERS, a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement, disability and survivor benefits, Medicare Part B premium reimbursements, and lump sum death benefits. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire before August 1, 2017*	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit; or Age 65 with 5 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit; or Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\*Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2% for the first thirty years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

**Note 13 - Defined Benefit Pension Plans (continued)**

***B. Plan Description - School Employees Retirement System (SERS) (continued)***

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. SERS' Retirement Board approved a 2.5% COLA for calendar years 2022, 2023, and 2024.

The defined benefit pension plan includes the Pension Benefits Plan, Death Benefit Fund and Medicare Part B Plan. The Death Benefit Fund pays \$1,000 to a designated beneficiary of a deceased retiree or disability benefit recipient as allowed under ORC Section 3309.50.

Funding Policy – Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10% for plan members and 14% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2024, the allocation to pension, death benefits, and Medicare B was 14.0% while the funding for Health Care Fund was 0.0%.

The District's contractually required contribution to SERS was \$674,989 for fiscal year 2024. Of this amount, \$33,164 is reported as an intergovernmental payable.

***C. Plan Description - State Teachers Retirement System (STRS)***

Plan Description – District licensed teachers and other faculty members participate in STRS, a cost-sharing multiple-employer public employee retirement system. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be viewed by visiting [www.strsoh.org](http://www.strsoh.org) or by requesting a copy by calling toll-free 888-227-7877.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined (CO) Plan. Benefits are established by Ohio Revised Code Chapter 3307.

**Note 13 - Defined Benefit Pension Plans (continued)**

**C. Plan Description - State Teachers Retirement System (STRS) (continued)**

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0.0% upon a determination by its actuary that it was necessary to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective July 1, 2022, a one-time ad-hoc COLA of 3.0% of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2023 as long as they retired prior to July 1, 2018. Effective July 1, 2023, a one-time ad-hoc COLA of 1.0% of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2024 as long as they retired prior to July 1, 2019. Pursuant to Ohio Revised Code 3307.67(E) the STRS Ohio Retirement Board may adjust the COLA upon a determination by the board's actuary that a change will not materially impair the fiscal integrity of the system or is necessary to preserve the fiscal integrity of the system.

Eligibility changes will be phased in until August 1, 2028, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit at any age. Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2028, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 11.09% of the 14.00% employer contributions into an investment account. The remaining 2.91% of the 14.00% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The CO Plan offers features of both the DB Plan and the DC Plan. In the CO Plan, 12% of the 14% member rate goes to the DC Plan and the remaining 2% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the CO Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC plan or CO Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's CO Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS therefore has included all three plan options in the GASB 68 schedules of employer allocations and pension amounts by employer.

A DB or CO Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2023, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC or CO Plans.

Administrative Expenses – The costs of administering the DB and postemployment health care plans are financed by investment income. The administrative costs of the DC Plan are financed by participant fees.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2024, the employer rate was 14% and the plan members were also required to contribute 14% of covered salary.

The District's contractually required contribution to STRS was \$1,967,154 for fiscal year 2024. Of this amount, \$335,288 is reported as an intergovernmental payable.

**D. Net Pension Liability, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions**

The net pension liabilities were measured as of June 30, 2023, and the total pension liabilities used to calculate the net pension liabilities were determined by actuarial valuations as of June 30, 2023. The District's proportion of the net pension liabilities were based on the District's share of contributions to the pension plans relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of net pension liability current measurement date	0.118615%	0.101085%	
Proportion of net pension liability prior measurement date	0.118073%	0.102844%

Pension expense	\$ 426,912	\$ 852,802	\$ 1,279,714

Deferred outflows/inflows of resources represent the effect of changes in the net pension liability due to the difference between projected and actual investment earnings, differences between expected and actual actuarial experience, changes in assumptions and changes in the District's proportion of the collective net pension liability. The deferred outflows and deferred inflows are to be included in pension expense over current and future periods. The difference between projected and actual investment earnings is recognized in pension expense using a straight line method over a five year period beginning in the current year. Deferred outflows and deferred inflows resulting from changes in sources other than differences between projected and actual investment earnings are amortized over the average expected remaining service lives of all members (both active and inactive) using the straight line method. Employer contributions to the pension plan subsequent to the measurement date are also required to be reported as a deferred outflow of resources.

At June 30, 2024 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
<b>Deferred outflows of resources</b>

**E. Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

**Note 13 - Defined Benefit Pension Plans (continued)**

***E. Actuarial Assumptions - SERS (continued)***

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2137.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2023, are presented below:

Valuation date	June 30, 2023
Actuarial cost method	Entry age normal (level percent of payroll)
Actuarial assumptions:	
Investment rate of return	7.00%, net of investment expenses, including inflation
COLA or Ad Hoc COLA	2.00%, on or after April 1, 2018, COLA's for future retirees will be delayed for three years following commencement.
Future salary increases, including inflation	3.25% to 13.58%
Inflation	2.40%

For post-retirement mortality, the table used in evaluating allowances to be paid is the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females. Mortality rates for contingent survivors were based on PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5% for males and adjusted 122.5% for females. Mortality rates for actives is based on PUB-2010 General Amount Weighted Below Median Employee mortality table. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed for the five year period ended June 30, 2020.

**Note 13 - Defined Benefit Pension Plans (continued)**

**E. Actuarial Assumptions - SERS (continued)**

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in the *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	2.00%	0.75%
US equity	24.75	4.82
Non-US equity developed	13.50	5.19
Non-US equity emerging	6.75	5.98
Fixed income/global bonds	19.00	2.24
Private equity	12.00	7.49
Real estate/real assets	17.00	3.70
Private debt/private credit	5.00	5.64
Total	<u>100.00%</u>	

**Discount Rate** The total pension liability was calculated using the discount rate of 7.00% as of June 30, 2023. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.00% for 2023). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members as of June 30, 2023. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability as of June 30, 2023.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%), or one percentage point higher (8.00%) than the current rate.

**F. Actuarial Assumptions - STRS**

The total pension liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actual cost method	Entry age normal
Inflation	2.50%
Salary increases	Varies by service from 2.5% to 8.5%
Payroll increase	3.00%
Investment rate of return	7.00%, net of investment expenses, including inflation
Discount rate of return	7.00%
Cost-of-living adjustments (COLA)	0.00%

Post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2023, valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021.

**F. Actuarial Assumptions - STRS (continued)**

STRS's investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation*</u>	<u>Long Term Expected Real Rate of Return**</u>
Domestic equity	26.00%	6.60%
International equity	22.00	6.80
Alternatives	19.00	7.38
Fixed income	22.00	1.75
Real estate	10.00	5.75
Liquidity reserves	1.00	1.00
Total	<u>100.00%</u>	

\* Final target weights reflected at October 1, 2022.

\*\* 10 year annualized geometric nominal returns include the real rate of return and inflation of 2.25%, and is net of investment expenses. Over a 30-year period, STRS's investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** The discount rate used to measure the total pension liability was 7.00% as of June 30, 2023. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current active and inactive employees members and their beneficiaries are included. Based on those assumptions, STRS's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2023. Therefore, the long-term expected rate of return on pension plan investments of 7.00% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2023.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00%) or one-percentage-point higher (8.00%) than the current rate:

		Current		
	1% Decrease	Discount Rate	1% Increase

**Note 14 - Defined Benefit OPEB Plans**

**A. Plan Description - School Employees Retirement System (SERS)**

Health Care Plan Description – The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS’ Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS’ health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS’ health care coverage. Most retirees and dependents choosing SERS’ health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute.

The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS’ website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS’ Retirement Board reserves the right to change or discontinue any health plan or program. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14.0% of covered payroll to the Health Care Fund in accordance with the funding policy. For the fiscal year ended June 30, 2024, 0.0% of covered payroll was made to health care. Active employee members do not contribute to the Health Care Plan. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For the fiscal year ended June 30, 2024, this amount was \$30,000. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer’s SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2024, the District’s surcharge obligation was \$79,577.

The District’s contractually required contribution to SERS for health care was \$79,577 for fiscal year 2024. Of this amount \$79,577 is reported as an intergovernmental payable.

**B. Plan Description - State Teachers Retirement System (STRS)**

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs, and partial reimbursement of monthly Medicare Part B premiums. Health care premiums were reduced by a Medicare Part B premium credit beginning in 2023. The Plan is included in the report of STRS which can be obtained by visiting [www.strs.org](http://www.strs.org) or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For the fiscal year ended June 30, 2024, STRS did not allocate any employer contributions to post-employment health care.

**C. Net OPEB Liability (Asset), OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEB**

The net OPEB liability (asset) was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. SERS' calculation of the employers' proportionate share is based on actual contributions made to the pension plan plus actual surcharge contributions made to the OPEB plan because the total of these two amounts is most representative of the level of future contributions to the OPEB plan. STRS' calculation of the employers' proportionate share is based on total contributions to the plan for both pension and OPEB. Following is information related to the proportionate share and OPEB expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>

**D. Actuarial Assumptions - SERS**

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. Mortality rates for contingent survivors were based on PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5% for males and adjusted 122.5% for females. Mortality rates for actives is based on PUB-2010 General Amount Weighted Below Median Employee mortality table.

The most recent experience study was completed for the five year period ended June 30, 2020.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2016 through 2020, and was adopted by the Board in 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00% as of June 30, 2023, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

**D.      *Actuarial Assumptions - SERS (continued)***

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, are summarized below:

Measurement date of June 30, 2023:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	2.00%	0.75%
US equity	24.75	4.82
Non-US equity developed	13.50	5.19
Non-US equity emerging	6.75	5.98
Fixed income/global bonds	19.00	2.24
Private equity	12.00	7.49
Real estate/real assets	17.00	3.70
Private debt/private credit	5.00	5.64
Total	<u>100.00%</u>	

**Discount Rate** The discount rate used to measure the total OPEB liability at June 30, 2023 was 4.27%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50% of projected covered payroll each year. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make all projected future benefit payments of current System members by SERS actuaries. The Municipal Bond Index Rate is used in the determination for the June 30, 2023 total OPEB liability. The Municipal Bond Index rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate at June 30, 2023 was 3.86%. At June 30, 2023, the long-term expected rate of return on health care investments was applied to projected costs through the year 2048, and the municipal bond rate was applied to all health care costs after that date.

***Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates*** The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower and higher than the current discount rate. Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are one percentage point lower and higher than the current rate.

	Current		
	1% Decrease (3.27%)	Discount Rate (4.27%)	1% Increase (5.27%)
District's proportionate share of the net OPEB liability	\$ 2,563,025	\$ 2,005,048	\$ 1,565,060
District's proportionate share of the net OPEB liability	\$ 1,473,039	\$ 2,005,048	\$ 2,710,031

***Assumption Changes*** The SERS OPEB discount rate was changed from 4.08% to 4.27% percent, which impacted the annual actuarial valuation for OPEB prepared as of June 30, 2023. The health care trend rates were also updated.

***Benefit Changes*** Effective January 1, 2024, the non-Medicare disability health care subsidy amounts will change to reflect amounts equal to that of service retirees by years of service.

**E. Actuarial Assumptions - STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2023, actuarial valuation are presented below:

Actuarial cost method	Entry age normal	
Salary increases	Varies by service form 2.5% to 8.5%	
Payroll increases	3.00%	
Investment rate of return	7.00%, net of investment expenses, including inflation	
Discount rate of return	7.00%	
Health care cost trends	<u>Initial</u>	<u>Ultimate</u>
Medical		
Pre-Medicare	7.50%	4.14%
Medicare	(10.94%)	4.14%
Prescription drug		
Pre-Medicare	(11.95%)	4.14%
Medicare	1.33%	4.14%

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

The actuarial assumptions used in the June 30, 2023 valuation, are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized below for measurement year 2023:

<u>Asset Class</u>	<u>Target Allocation*</u>	<u>Long Term Expected Real Rate of Return**</u>
Domestic equity	26.00%	6.60%
International equity	22.00	6.80

\* Final target weights reflected at October 1, 2022.

\*\* 10 year annualized geometric nominal returns include the real rate of return and inflation of 2.25%, and is net of investment expenses. Over a 30-year period, STRS's investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** The discount rate used to measure the total OPEB liability was 7.00% as of June 30, 2023. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current active and inactive employees. Therefore, the long-term expected rate of return on health care plan investments of 7.00% was used to measure the total OPEB liability as of June 30, 2023.

**Sensitivity of the District's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate and Health Care Cost Trend Rate** The following table represents the net OPEB asset as of June 30, 2023, calculated using the current period discount rate assumption, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

Amortization of financed purchases is included in depreciation expense. The financed purchases are considered direct placements. The financed purchases are secured by the related equipment.

The overall debt margin for the District at June 30, 2024 was \$107,322,722.

**Note 16 - Jointly Governed Organizations**

**A. *Lake Geauga Computer Association***

The Lake Geauga Computer Association (LGCA) is a jointly governed organization that was formed for the purpose of providing computer services for accounting, grading, scheduling, EMIS and other applications to its nineteen member Districts. Each of the districts supports LGCA based upon a per pupil charge. The executive committee (governing board) consists of the superintendents and treasurers of the member Districts. The degree of control exercised by any participating District is limited to its representation on the governing board. LGCA's continued existence is not dependent on the District's continued participation.

The District paid \$122,467 to LGCA during fiscal year 2024. Effective July 1, 2024, LGCA combined with NEONET. Financial information can be obtained from Lake Geauga Computer Association, 8221 Auburn Road, Concord Township, Ohio 44077-9723.

***B. Ohio Schools Council***

The Ohio Schools Council Association (Council) is a jointly governed organization among districts. The jointly governed organization was formed to bring quality products and services at the lowest possible cost to the member districts. Each district supports the Council by paying an annual participation fee. The Council's Board consists of nine superintendents of the participating districts whose term rotates every year. The degree of control exercised by any district is limited to its representation on the Board. In fiscal year 2024, the District paid \$66,820 to the Council. Financial information can be obtained by contacting Dr. William Zelei, the Executive Director of the Ohio Schools Council at 6393 Oak Tree Boulevard, Suite 377, Independence, Ohio 44131.

***C. West Geauga Community Joint Recreation District***

The West Geauga Community Joint Recreation District (the "Recreation District") is a jointly governed organization. The Board is comprised of nine members: Chester Township, Russell Township and the West Geauga School Board of Education each appoint three trustees. The mission of this board is to acquire and develop land to meet recreational needs of the West Geauga Community. The District's degree of control is limited to its representation on the board. To obtain financial information, write to West Geauga Joint Recreational District, P.O. Box 384, Chesterland, Ohio 44026.

**Note 17 - Contingencies and Significant Commitments**

***A. Grants***

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2024, if applicable, cannot be determined at this time.

***B. Litigation***

The District is unaware of any un-asserted claims pending against it as of June 30, 2024. During the normal course of business, the District is subject to occasional legal proceedings, claims, and contract disputes. In the opinion of management, the eventual outcome of any current proceedings and claims against the District will not materially affect its financial condition or operations.

**C. School Foundation**

District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. ODE has finalized the adjustments and they did not have a significant impact on the District's funding.

**D. Other Significant Commitments**

At June 30, 2024, the District's significant contractual commitments consisted of:

Vendor	Contract Amount	Amount Paid	Remaining on Contract
Weatherproofing Technologies, Inc.	\$ 161,659	\$ -	\$ 161,659
CHI Corporation	69,637	-	69,637

Total outstanding commitments	<u>\$ 409,605</u>	<u>\$ 6,351</u>	<u>\$ 403,254</u>

Other significant commitments include the encumbrances outstanding for the general fund and nonmajor funds were as follows:

	Encumbrances
General Fund	\$ 259,781
Nonmajor Funds	<u>120,313</u>
Total other significant commitments	<u>\$ 380,094</u>

**Note 18 - Set-Asides**

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for acquisition and construction of capital improvements. Amounts not spent by year-end, or offset by similarly restricted resources received during the year, must be held in cash at year-end and carried forward to be used for the same purposes in future years.

**Note 18 - Set-Asides (continued)**

The following cash basis information describes the change in the year end set-aside amounts for capital improvement. Disclosure of this information is required by State statute.

	<u>Capital Improvements</u>
Set-aside reserve balance as of June 30, 2023	\$ -
Qualifying off-sets	(938,455)
Current year set-aside requirements	459,525
Qualifying disbursements	(373,534)
Total set-aside reserve balance as of June 30, 2024	<u>\$ (852,464)</u>

Although the District had offsets during the fiscal year that reduced the set-aside amount to below zero, this amount may not be used to reduce the set aside requirement for future years. The negative balance is, therefore, not presented as being carried forward to future years.

**Note 19 - Lease and Subscription Payables**

The District entered into a contract with the Geauga County Board of Development Disabilities for use of space in the Metzenbaum transportation garage facilities. The lease is for a period of thirty years and requires monthly payments of \$9,548 as well as two-thirds of the transportation monthly operating costs which consists of variable costs. For the year ended June 30, 2024, the District paid \$170,247 in operating costs.

The District entered into a contract with the Synovia for use of transportation equipment. The lease is for a period of 36 months and requires monthly payments of \$1,426.

These contracts meet the definition of a lease under GASB Statement No. 87. A summary of the principal and interest amounts are as follows:

#### Note 1 - Net Pension Liability

##### Changes in Assumptions – SERS

Beginning in fiscal year 2022, an assumption of 2.0% was used for COLA or Ad Hoc Cola. Beginning in fiscal year 2018, an assumption of 2.5% was used. Prior to 2018, an assumption of 3.0% was used.

Beginning with fiscal year 2022, amounts reported incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. Assumptions are compared to those used in prior fiscal years below:

	<u>Fiscal Year 2024-2022</u>	
Wage inflation	2.40%	
Future salary increases, including inflation	3.25% to 13.58%	
Investment rate of return	7.00% net of investments expense, including inflation	
	<u>Fiscal Year 2021-2017</u>	<u>Fiscal Year 2016 and Prior</u>
Wage Inflation	3.00%	3.25%
Future Salary Increases, including inflation	3.50% to 18.20%	4.00% to 22.00%
Investment Rate of Return	7.50% net of investments expense, including inflation	7.75% net of investments expense, including inflation

Beginning with fiscal year 2022, mortality assumptions use mortality rates that are based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females. Beginning with fiscal year 2017, mortality assumptions use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

##### Changes in Assumptions – STRS

Amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. The current assumptions used compared to those used in prior fiscal years are presented below:

#### **Note 1 - Net Pension Liability (continued)**

##### **Changes in Assumptions – STRS (continued)**

For fiscal year 2019 through 2022, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Postretirement disabled mortality rates are based on the RP-2014. Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2018, post-retirement mortality rates for healthy retirees are based on the RP-2014 annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

Combining Statements – Nonmajor Governmental Funds

---

**Nonmajor Special Revenue Funds**

The Special Revenue Funds are used to account for the proceeds of specific sources (other than amounts relating to expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. With the implementation of GASB No. 54, the uniform school supplies, adult education, rotary, public school support, other grants and termination benefits special revenue funds have been classified with the general fund for GAAP reporting purposes. However, these funds have their own legally adopted budgets. As a result, an Individual Fund Schedules of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Basis) and Actual have been presented for these funds. The title of each special revenue fund is descriptive of the activities accounted for therein. The special revenue funds are:

**Food Service Fund** To account for all revenues and expenditures related to the provision of food services, including breakfast and lunch, for the District students and staff.

**Special Trust Fund** This fund accounts for monies from local donations for the purpose of scholarships for students.

**Education Foundation Fund** This fund accounts for local monies received for specific grant requests made by staff members to the Educational Foundation.

**Student Managed Activities Fund** This fund accounts for student activity programs which have student participation in the activity and have students involved in the management of the program.

**District Managed Activities Fund** This fund accounts for gate receipts and other revenues from athletic events and all costs (except supplemental coaching contracts) of the District's athletic program and transportation of the band to and from athletic events.

**Auxiliary Services Fund** This fund accounts for State monies used to provide services and materials for pupils attending non-public schools within the District.

**Data Communications Fund** This fund accounts for State monies appropriated for Ohio Educational Computer Network Connections.

**SchoolNet Professional Development Fund** This fund accounts for a limited number of professional development subsidy grants.

**Miscellaneous State Grants Fund** This fund accounts for other State grants which are not required to be accounted for in a separate fund.

**Elementary and Secondary School Emergency Relief Fund** This fund accounts for emergency relief grants to the District related to the COVID-19 pandemic.

**Title VI-B Fund** This fund accounts for Federal monies used to assist schools in the identification of handicapped children, development of procedural safeguards, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

**West Geauga Local School District  
Geauga County, Ohio**

Combining Statements – Nonmajor Governmental Funds

---

**Nonmajor Special Revenue Funds (continued)**

**Title III Limited English Proficiency Fund** To account for funds used to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency. These programs provide structured English language instruction, with respect to the years of study to which the program is applicable, and instruction in the child's native language to the extent necessary to allow a child to achieve competence in English. The instruction must incorporate the cultural heritage of these children and of other children in American society. The instruction must be, to the extent necessary, in all courses or subjects of study which will allow a child to meet grade promotion and graduation standards.

**Title IVA – Student Supports and Academic Enrichment** This fund accounts for funds received to provide all students with access to a well-rounded education, improve school conditions for student learning, and improve the use of technology in order to improve the academic achievement and digital literacy of all students.

**Title I Fund** To account for federal funds for services provided to meet special educational needs of educationally deprived children.

**Improving Teacher Quality Fund** This fund accounts for Federal monies to hire additional classroom teachers in grades 1-3, so that the number of students per teacher will be reduced.

**Miscellaneous Federal Grants Fund** This fund accounts for other Federal grants which are not required to be accounted for in a separate fund.

**Uniform School Supplies Fund** To account for the purchase and sale of school supplies as adopted by the Board of Education for resale to students of the District. This fund is combined with the General Fund for GASB 54 financial reporting purposes.

**Adult Education Fund** This fund accounts for transactions made in connection with adult education classes. This fund is combined with the General Fund for GASB 54 financial reporting purposes.

**Rotary Fund** This fund accounts for monies from local sources which provides for field trips for the students. This fund is combined with the General Fund for GASB 54 financial reporting purposes.

**Public School Support Fund** This fund accounts for school site sales revenue and expenditures for field trips, assemblies, and other activity costs. This fund is combined with the General Fund for GASB 54 financial reporting purposes.

**Other Grants Fund** This fund accounts for monies received to promote community involvement and to support activities between the District and community. This fund is combined with the General Fund for GASB 54 financial reporting purposes.

(1) Real property is reappraised every six years with a State mandated update of the current market value in the third year following each appraisal.

(2) The assessed value of real property (including public utility real property) is 35% of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25% of true value for railroad property to 88% for electric transmission and distribution property.

(3) Includes the assessed valuation of both Newbury LSD and West Geauga LSD.

(4) Includes minerals.

Data is presented on a calendar year basis because that is the manner in which the information is maintained by the County Auditors.

- (1) Includes Homestead/Rollback taxes assessed locally, but distributed through the State and reported as Intergovernmental Revenue.
- (2) Represents collection year. 2024 information cannot be presented because all collections have not been made by June 30.
- (3) This amount cannot be calculated based on other information in this statistical table because of retroactive additions and reductions which are brought on in one lump sum.
- (4) This amount includes penalties and interest. The amounts are not easily accessible to report at this time.

Note: Geauga County collects property taxes on a calendar year basis, therefore, the above data has been presented on a calendar year basis. The county does not identify delinquent collections by the year for which the tax was levied. Thus the "total collection" represents the total collections for the year instead of total collections of a particular tax year. As a result, "Percent of total tax collections to total levy" can exceed 100% in any particular year.

The County and School District requires additional time to identify and implement an efficient system to report these amounts. This system will consider the value and need of providing these amounts to the users of the Financial Statements, materiality and compliance in accordance with the GASB.
