**NOTES TO THE SCHEDULE OF FEDERAL AWARDS EXPENDITURES  
FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Winton Woods City School District (the District) under programs of the federal government for the year ended June 30, 2025. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position and changes in net position of the District.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

**NOTE C – INDIRECT COST RATE**

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE D - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

**NOTE E – FOOD DONATION PROGRAM**

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Winton Woods City School District  
Hamilton County  
825 Waycross Road, Suite A  
Cincinnati, Ohio 45240

To the Board of Education:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Winton Woods City School District, Hamilton County, Ohio (the District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 18, 2025, wherein we noted the District implemented Governmental Accounting Standards Board (GASB) 101, Compensated Absences.

***Report on Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Financial Reporting And On Compliance And Other Matters  
Required By *Government Auditing Standards*  
Page 2

***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

***Purpose of This Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Winton Woods City School District  
Hamilton County  
825 Waycross Road, Suite A  
Cincinnati, Ohio 45240

To the Board of Education:

### **Report on Compliance for the Major Federal Program**

#### ***Opinion on the Major Federal Program***

We have audited Winton Woods City School District's, Hamilton County, (District) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on Winton Woods City School District's major federal program for the year ended June 30, 2025. Winton Woods City School District's major federal program is identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings.

In our opinion, Winton Woods City School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2025.

#### ***Basis for Opinion on the Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

### ***Responsibilities of Management for Compliance***

The District's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Report on Internal Control Over Compliance***

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, the major fund and the aggregate remaining fund information of Winton Woods City School District, Hamilton County, (District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 25, 2025. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Citizens and Board of Education of the Winton Woods City School District:

I am pleased to present the Annual Comprehensive Financial Report of the Winton Woods City School District (District). This report is for the fiscal year ended June 30, 2025. The report, prepared by the Treasurer's office, includes an opinion from the Auditor of State of Ohio. Responsibility for the accuracy, completeness and fairness of this report rests with the District and more specifically, the Office of the Treasurer. This report was prepared in conformance with generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB) and is representative of the District's continuing commitment to provide meaningful financial information to the citizens of the District. Copies will be available upon request to taxpayers, financial rating services, banking institutions and other interested parties.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the independent auditor's report.

#### **DESCRIPTION OF THE DISTRICT**

The District is located approximately 15 miles north of Cincinnati, Ohio. It serves an area of 13.2 square miles encompassing the City of Forest Park, Village of Greenhills and a small portion of Springfield Township.

The District's enrollment is 3,975 for the 2024-2025 school year. The District projects enrollment to stay consistent future years. The District reorganized for the school year 2022-2023 into new facilities. There is now an Early Childhood Center for PK-K, a South Campus for grades 1-6 and North Campus for grades 7-12. The District also operates a variety of other facilities, including a central administration building, bus garage, maintenance building and several sports fields.

<u>Constructed</u>	<u>School/Address</u>	<u>Enrollment</u>
1957	Early Childhood Center 73 Junefield Avenue Serving PreK - K	421
2021	South Campus 147 Farragut Road Serving Grades 1-6	1,725
2021	North Campus 1231 West Kemper Road Serving Grades 7-12	1,829

The District provides a full range of programs and services for its students. These include elementary and secondary course offerings at the general, vocational and college preparatory levels. Students also can attend off-site career technical programs offered by the Great Oaks Career and Technical Institute. A broad range of co-curricular and extra-curricular activities to complement the students' curricular programs are also offered.

### **ORGANIZATION OF THE DISTRICT**

The Board of Education of the Winton Woods City School District (Board) is composed of five members elected at large by the citizens of the District. The Board serves as the taxing authority, contracting body and policy initiator of the operation of the District. The Board is also responsible for the adoption of the tax budget, the annual operating budget and approves all expenditures of the District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Code. The current Board members, their terms and years on the Board as of June 30, 2025 are:

<u>Board Member</u>	<u>Current Term</u>	<u>Total Years</u>
Ms. Debra Bryant	Jan. 2022 - Dec. 2025	3
Mrs. Angela Knighten	Jan. 2024 - Dec. 2027	2
Dr. Viola Johnson	Jan. 2018 - Dec. 2025	12
Mr. Brandon Smith	Jan. 2022 - Dec. 2025	3
Mr. Bill Speelman	Jan. 2024 - Dec. 2027	2

The Superintendent is the chief executive officer of the District and is responsible directly to the Board for all operations of the District. Mr. Steve Denny was appointed as Superintendent effective May 9, 2024 and his current contract will expire on July 31, 2027.

The Treasurer is the chief financial officer of the District and is directly responsible to the Board for all financial operations, investments, custody of all District funds and assets, and serves as Secretary to the Board. Mr. Randy Seymour was appointed Treasurer effective May 1, 2011 and his current contract will expire July 31, 2026.

All other District employees are responsible to the Superintendent and are employed by the Board upon the recommendation of the Superintendent.

## **ECONOMIC CONDITION AND OUTLOOK**

The District is located in Hamilton County, northwest of Cincinnati. Hamilton County has traditionally had a strong economy with unemployment rates consistently below state and national averages. The area has enjoyed growth during the last several years in retail, business and industrial parks, and recreational facilities, but recent economic events have slowed dramatically any growth. Convenient access to interstate highways I-71 and I-75 and interstate connector I-275 has helped to stabilize the tax base of the District.

The last tax levy was passed in November of 2018. The residents of the District approved a \$4.2 million ten-year substitute levy which replaced the current \$4.2 million emergency levy which would have expired on December 2018. This stabilize the current revenues for a continuing period of time. The State of Ohio has no inflationary effect built into voted property tax levies. Due to no inflationary increases, the District is required to periodically present additional tax levies to the voters.

The District was successful in passing a 6.95 mill bond issue in November of 2016. The bond issue generated \$61.5 million in local funds matched by the state of Ohio Facilities Construction Commission in the amount of \$48.9 million for a total construction project of \$110.4. The District constructed one new elementary school to house grades 1 thru 6 and one new middle/high school to house grades 7 thru 12. The new buildings opened for students for the 2021-2022 school year. The district also renovated an existing building to house P-K and K to serve as an early childhood center for students. The newly renovated early childhood center began serving students for the 2024-2025 school year.

The State's elementary and secondary funding system is currently under a new funding formula to provide for a sound fair funding system for K-12. . The new formula was to be phased in over a six (6) year period. The new funding formula began in 2020-2021 fiscal year and is currently at sixty-seven percent (67%) of full funding. This increased state support by approximately \$3 million for the 2024-2025 fiscal year. When fully phased in, the additional state funding will have increased by approximately \$10.5 million annually. It is anticipated the state will continue to fund the phase in over the next two (2) years. Due to the new funding formula, the District has been able to postpone any additional tax levies. However, in order to continue quality services to students, the district is anticipating a tax levy to begin collections in calendar year 2027. The amount of the levy has yet to be determined.

The District is continually challenged by the responsibility bestowed upon it by the community at large. We are always striving to provide the very best opportunities to every student, while carefully guarding the District's resources.

## **MAJOR CURRENT AND FUTURE INITIATIVES**

### District Goals

The District's three-year vision is as follows:

- Winton Woods City Schools maintains a standard of "Excellence", with the Board, staff, students, parents, and community all contributing to that achievement.

The administration will utilize the following goals as benchmarks in planning for the future of the District.

- To strengthen student achievement.
- To strengthen the District's financial position.
- To strengthen communication and engagement with the community.

## **DEPARTMENTAL FOCUS - DEPARTMENT OF TEACHING AND LEARNING**

The Department of Teaching and Learning manages all facets of curriculum, instruction, assessment, and professional development within the Winton Woods City School District. Teaching & Learning also addresses the needs of students in Special Education, Early Childhood Education, Alternative Education, English as a Second Language and Gifted and Talented Education. The Department of Teaching & Learning offers professional guidance, support and resources to staff and stakeholders as we provide a world-class education designed to meet the diverse needs of our learners from pre-kindergarten through grade twelve.

### New and Continued Initiatives in 2025-2026

1. Monitor, via the District Leadership Team (DLT) and the District's State Support Team (SST) consultant, progress on the District's improvement plan. The DLT will meet every month for 1.5 hours, from August through May. This includes developing a Multi-Tiered

System of Support (MTSS) plan for the district. The MTSS plan is in draft form with the expectation of completion this year (2025-2026).

2. Assist building principals in monitoring instruction and teacher and student work through the use of a coaching staff. The District has eleven academic coaches for K-12. These coaches are assisting the Executive Directors with reading curriculum adoptions, math curriculum adoptions, and creating decision rules for secondary subjects. Additionally, we have three data coaches who are responsible for working directly with teachers at grades 1-2, 5-6 and 7-12 in the effort to build the capacity of data-driven decision making. The goal is to assist teachers with data analysis to make strategic instructional data-driven decisions. The District also employs three technology coaches. The academic and technology coaches work with teachers to develop lessons, create assessments, leverage instructional technology, and allocate resources. They help support new teachers. The coaches also attend weekly Teacher Based Team and/or Department meetings, and meet regularly with both the Building Leadership and the Department of Teaching & Learning and Technology.
3. We have applied for and been granted a Comprehensive Literacy State Development (CLSD) grant for a total of \$2,803,500 over four years (FY26-FY29) for grades K-12 to improve reading achievement and integrate literacy strategies to improve student reading and writing across content areas.
4. Adopt a new HQIM mathematics curriculum in grades 6-12. We are currently piloting two curricula, ImagineLearning and Amplify Desmos as well as a new technology resource, Edia. We have also implemented *Zearn* for students in Grades K-8 in mathematics and provide high dosage tutoring in grades 7 and 8 in the tier 2 math class at the middle school. *ExactPath* is used for Tier 1 intervention in mathematics in grades K-12.
5. Continue to implement and partner with the New Tech Network to utilize project-based learning for all Grades K-12.
6. Continue to implement Measures of Academic Progress (MAP) and MAP for Primary Grades (MPG) testing in reading, language and mathematics at Grades K-8. We are implementing Exact Path reading, language arts and math for grades 9-12. Also use of AimsWEB Plus+ as a progress monitoring tool for Grades K-6 in reading and grades 9 and 10 for the tier 2 reading intervention class.
7. Adopted a new HQIM reading curriculum and intervention programs have been adopted at Grades K-6 in reading, such as *SuccessMaker*, *UFly*, and *Spire*. *Lexia* Reading intervention program is used for special education students and English language learners at the high school. *ExactPath* is used for Tier 1 intervention in reading in grades K-12.
8. Continue Positive Behavior Intervention Strategies (PBIS) K-12 and mastery learning strategies to close learning gaps 7-12.

9. Continue to partner with Cincinnati State and Miami University - Hamilton campus to provide opportunities for high school students participating in college credit plus (CCP) courses to graduate with their diploma and associate's degree.
10. Begin work as part of Year 4 of Cohort 2 of the Each Child on Track initiative. The goal is to develop an Early Warning System and implement interventions in order to increase our overall graduation rate over the next 3-5 years. The Early Warning System was developed in 2024-2025 and is in implementation at the high school and spreading to the middle school.
11. Hired a Career Tech Education (CTE) coordinator to bring more opportunities to the district, including the writing of Success Plans (grades 5-12) and Graduation Plans (grades 9-12).

## **FINANCIAL INFORMATION**

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records for general governmental operations are maintained on a cash basis system of accounting as prescribed by the Ohio Auditor of State. Cash basis accounting differs from generally accepted accounting principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB).

### Internal Accounting and Budgetary Controls

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

The District utilizes a fully automated accounting system as well as an automated system of control for fixed assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted within three months.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority for the Board. Budgets are controlled at the fund level. All special revenue, debt service, and capital project governmental funds have an annual appropriated budget. All purchase order requests must be approved by the individual program managers and certified by the Treasurer; necessary funds are then encumbered and purchase orders are released to vendors.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. In addition to interim financial statements, each program manager has access to daily reports showing the status of the budget account for which he or she is responsible. Each program manager may request additional financial reports during the month when necessary.

As an additional safeguard, all employees involved with receiving and depositing funds are covered by a blanket bond and certain individuals in policy-making roles are covered by a separate, higher bond.

The basis of accounting and the various funds utilized by the District are fully described in the notes to the basic financial statements. Additional information on the District's budgetary accounts can also be found in the notes to the basic financial statements.

### Long-Term Financial Planning

The District prepares a five-year forecast outlining operation revenues and expenditures based on current assumptions. In Ohio, the five-year forecast must be filed with the Ohio Department of Education in October of each year, and then revised the following May. The forecast is used as a management tool in determining the operating needs of the District. The five-year forecast provides management with the information needed to seek additional revenue or make reductions in expenditures in order to maintain a positive cash balance. Ohio law prohibits a school district from closing its doors due to lack of funds.

### Relevant Financial Policies

The District prepares financial statements following GASB Statement 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and local Governments." GASB 34 has basic financial statements for reporting on the School District's financial activities as follows:

***Government-wide financial statements*** – These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses.

***Fund financial statements*** – These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the governmental-wide financial statements. Fiduciary and proprietary funds use the accrual basis of accounting.

***Statement of budgetary comparisons*** – These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of this report, management is responsible for preparing a Management's Discussion and Analysis of the District. This discussion follows this letter of transmittal, providing an assessment of the District's finances for 2023 and the outlook for the future.

#### Independent Audit

The State of Ohio requires an annual audit by either the Ohio Auditor of State or by an independent public accounting firm. Ohio Auditor of State's unmodified opinion rendered on the District's basic financial statements, combining statements and individual fund schedules is included in the financial section of this Annual Comprehensive Financial Report.

#### Awards

The District received the coveted Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada (GFOA) for the 2024 Annual Comprehensive Financial Report. This year's report will also be submitted for this award. We feel that the contents of the report are easily readable, efficiently organized and conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. The District believes our current report conforms to the Certificate of Achievement Program requirements and we are submitting it to the GFOA to determine its eligibility for a certificate.

The District will also seek the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2025. The District received the Certificate of Achievement for Excellence in Financial Reporting from ASBO for the 2024 Annual Comprehensive Financial Report. This award certifies that an Annual Comprehensive Financial Report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. This award is granted only after an extensive review of the report by an expert panel of certified public accountants and practicing school business officials.

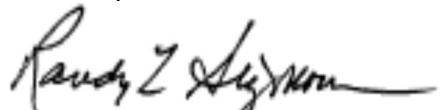

#### Acknowledgments

The preparation of this report was possible by the dedicated service of the Treasurer's office staff and Plattenburg and Associates. Finally, credit must also be given to the Board of Education for maintaining high standards of professionalism in the management of the Winton Woods City School District's finances. The publication of this Annual Comprehensive Financial Report for the District is a major step in reinforcing the accountability of the District to the taxpayers of the community.

## INDEPENDENT AUDITOR'S REPORT

Winton Woods City School District  
Hamilton County  
825 Waycross Road Suite A  
Cincinnati, Ohio 45240

To the Board of Education:

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Winton Woods City School District, Hamilton County, Ohio (District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Winton Woods City School District, Hamilton County, Ohio as of June 30, 2025, and the respective changes in financial position thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Emphasis of Matter***

As discussed in Note 19 to the financial statements, during 2025, the District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. Our opinion is not modified with respect to this matter.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, required budgetary comparison schedule, schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Information***

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2025, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**Management's Discussion and Analysis**  
**For The Fiscal Year Ended June 30, 2025**  
**(Unaudited)**

---

The management's discussion and analysis of Winton Woods City School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2025. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's performance.

### **Financial Highlights**

Key financial highlights for 2025 are as follows:

- Net position of governmental activities increased \$2,446,301 which represents a 7% increase from 2024.
- General revenues accounted for \$59,869,519 in revenue or 78% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$17,046,726 or 22% of total revenues of \$76,916,245.
- The District had \$74,469,944 in expenses related to governmental activities; \$17,046,726 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$59,869,519 were also used to provide for these programs.

### **Overview of the Financial Statements**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* and *Statement of Activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The General Fund and Debt Service Fund are the major funds of the District.

### **Government-wide Financial Statements**

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the questions, "How did we do financially during 2025?" The *Government-wide Financial Statements* answers this question. These statements include *all assets and deferred outflows*, and *liabilities and deferred inflows* using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in the net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Government-wide Financial Statements, the District presents:

- **Governmental Activities** – The District's programs and services are reported here and include instruction, support services, operation of non-instructional services, extracurricular activities and interest and fiscal charges.

**Fund Financial Statements**

The analysis of the District's major funds is presented in the Fund Financial Statements (see Table of Contents). Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

**Governmental Funds** Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* is reconciled in the financial statements.

**Fiduciary Funds** Fiduciary Funds are used to account for resources held for the benefits of parties outside the government. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

**The District as a Whole**

As stated previously, the Statement of Net Position looks at the District as a whole. Table 1 provides a summary of the District's net position for 2025 compared to 2024:

---

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2025, the District's assets and deferred outflows were more than liabilities and deferred inflows of resources by \$38,234,835.

At year-end, capital assets represented 62% of total assets. Capital assets include land, construction in progress, land improvements, buildings and improvements, furniture and equipment, and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2025, were \$56,444,213. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$16,451,283 represents resources that are subject to external restriction on how they must be used. The external restriction will not affect the availability of fund resources for future use.

Current and Other Assets decreased mainly due to a decrease in restricted cash and investments. Long-Term Liabilities decreased mainly due to a decreased in the net pension liability.

Table 2 shows the changes in net position for fiscal years 2025 and 2024.

### **Governmental Activities**

The District revenues came from mainly two sources. Property taxes levied for general purposes, special revenue purposes, debt service purposes, capital projects purposes and grants and entitlements comprised 74% of the District's revenues for governmental activities.

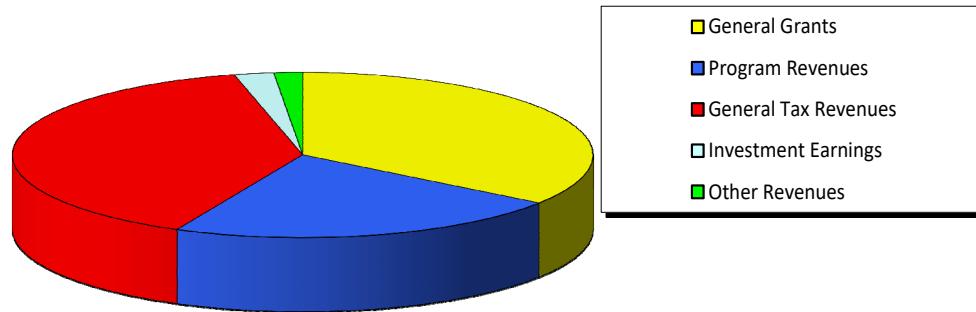

The District depends greatly on property taxes as a revenue source. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenues generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

---

Thus Ohio districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Property taxes made up 39% of revenue for governmental activities for Winton Woods City School District in fiscal year 2025. The District's reliance upon tax revenues is demonstrated in the following graph:

Revenue Sources	2025	Percent of Total
General Grants	\$26,852,873	34.9%
Program Revenues	17,046,726	22.2%
General Tax Revenues	30,089,104	39.1%
Investment Earnings	1,703,776	2.2%
Other Revenues	1,223,766	1.6%
Total Revenues	<u>\$76,916,245</u>	<u>100%</u>

Instruction comprises 54% of governmental program expenses. Support services expenses were 36% of governmental program expenses. All other expenses and interest expense was 10%. Interest expense was attributable to the outstanding bond and borrowing for capital projects.

Grants and Entitlements increased mainly due to an increase in grant monies received in fiscal year 2025 as compared to fiscal year 2024. Property tax revenues increased mainly due to an increase in General Purposes. Total expenses increased from the prior year due mainly to an increase in instruction and operations and maintenance

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

### **The District's Funds**

The District has two major governmental funds: the General Fund and the Debt Service Fund. Assets of the general fund comprised \$48,742,081 (74%) and the Debt Service fund \$7,618,642 (12%) of the total \$65,910,127 governmental funds' assets.

**General Fund:** Fund balance at June 30, 2025 was \$24,470,494 including \$18,467,061 of unassigned balance. The primary reason for the increase in fund balance was due to increased grant revenues received from the state and federal government.

**Debt Service:** Fund balance at June 30, 2025 was \$5,211,822. The primary reason for the increase in fund balance was due to the decrease in supportive services expenses.

### **General Fund Budgeting Highlights**

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. During the course of fiscal year 2025, the District amended its general fund budget numerous times. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. During the course of the year, the District revised the Budget in an attempt to deal with unexpected changes in revenues and expenditures.

For the General Fund, final budget basis revenue was \$62,156,800, compared to original budget estimates of \$60,158,000. The original budgeted amount and the final budgeted amount had a variance of \$1,998,800. Actual budget basis revenues exceeded final budget basis revenues by \$749,371 mainly due to conservative estimates for taxes and intergovernmental revenue. Final budget basis expenditures exceeded actual budget basis expenditures by \$2,504,350 mainly due to overestimates in instruction expenditures.

The District's ending unobligated actual fund balance for the General Fund was \$19,771,661.

**Capital Assets and Debt Administration**

***Capital Assets***

At fiscal year end, the District had \$113,466,710 net of depreciation invested in land, construction in progress, land improvements, buildings and improvements, furniture and equipment, and vehicles. Table 4 shows fiscal year 2025 balances compared to fiscal year 2024:

**Table 4**

Land Improvements	195,211	203,033
Buildings and Improvements	94,907,828	98,112,769
Furniture and Equipment	951,411	1,040,083
Vehicles	896,828	766,186
<b>Total Net Capital Assets</b>	<b>\$113,466,710</b>	<b>\$115,510,273</b>

Overall, capital assets decreased due to current depreciation expense and disposals being more than current additions.

See Note 5 of the Notes to the Basic Financial Statements for further details on the District's capital assets.

***Debt***

At fiscal year end, the District had \$58,123,030 in general obligation bonds and notes payable, \$1,120,000 due within one year. Table 5 summarizes bonds and notes outstanding at year end.

### **For the Future**

Financially, the future of the District is not without challenges. However, the State's elementary and secondary funding system is currently under a new funding formula to provide for a sound fair funding system for K-12. The new formula was to be phased in over a six (6) year period. The new funding formula began in 2020-2021 fiscal year and is currently at sixty seven percent (67%) of full funding. This increased state support by approximately \$3 million for the 2024-2025 fiscal year. When fully phased in, the additional state funding will have increased by approximately \$10.5 million annually. It is anticipated the state will continue to fund the phase in over the next two (2) years. Due to the new funding formula, the District has been able to postpone any additional tax levies. However, in order to continue quality services to students, the district is anticipating a tax levy to begin collections in calendar year 2027. The amount of the levy has yet to be determined.

All of the District's financial abilities will be needed to meet the challenges of the future. With careful planning and monitoring of the District's finances, the District's management is confident that the District can continue to provide a quality education for our students and provide secure financial future.

Winton Woods City School District, Ohio  
 Reconciliation of the Statement of Revenues, Expenditures, and Changes  
 in Fund Balance of Governmental Funds to the Statement of Activities  
 For the Fiscal Year Ended June 30, 2025

---

Net Change in Fund Balance - Total Governmental Funds \$397,649

Amounts reported for governmental activities in the  
 statement of activities are different because:

Governmental funds report capital asset additions as expenditures.

However, in the statement of activities, the cost of those assets is  
 allocated over their estimated useful lives as depreciation  
 expense. This is the amount of the difference between capital  
 asset additions and depreciation in the current period.

Capital assets used in governmental activities	1,670,357	(2,043,563)
Depreciation Expense	<u>(3,713,920)</u>	
		3,602,888
Governmental funds report district pension and OPEB contributions as expenditures. However in the Statement of Activities, the cost of pension and OPEB benefits earned net of employee contributions is reported as pension and OPEB expense.		
District pension contributions	5,419,356	
Pension expense	<u>(3,068,453)</u>	
District OPEB contributions	175,322	
OPEB expense	<u>1,076,663</u>	
		3,602,888

Revenues in the statement of activities that do not provide  
 current financial resources are not reported as revenues in  
 the funds.

Delinquent Property Taxes	625,234	244,155
Interest	29,290	
Intergovernmental	<u>(410,369)</u>	
		244,155

Repayment of bond and note principal is an expenditure in the  
 governmental funds, but the repayment reduces long-term  
 liabilities in the statement of net position. 1,065,000

In the statement of activities interest expense is accrued when incurred;  
 whereas, in governmental funds an interest expenditure is reported  
 when due. 8,766

Some expenses reported in the statement of activities do not require the  
 use of current financial resources and, therefore, are not reported as  
 expenditures in governmental funds.

Compensated Absences	(859,267)	(828,594)
Amortization of Bond Premium	159,975	
Amortization of Deferred Charge on Refunding	(30,911)	
Bond Accretion	<u>(98,391)</u>	
		(828,594)

Change in Net Position of Governmental Activities \$2,446,301

**Note 1 - Summary of Significant Accounting Policies**

---

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District's accounting policies are described below.

**Description of the District**

The District was chartered by the Ohio State Legislature. In 1853 state laws were enacted to create local Boards of Education. Today, the District operates under current standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code.

The District operates under a locally elected five member Board form of government and provides educational services as authorized by its charter or further mandated by state and/or federal agencies. This Board controls the District's instructional and support facilities staffed by 231 noncertified personnel and 346 certificated full time teaching and administrative personnel to provide services to students and other community members.

It currently operates 1 Early Childhood Campus (grades PreK-K) , 1 South Campus(grades 1-6), and 1 North Campus (grades 7-12).

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

**Reporting Entity**

In accordance with Governmental Accounting Standards Board [GASB] Statement 14, the financial reporting entity consists of a primary government. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments.

There are no component units combined with the District for financial statement presentation purposes, and it is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing body is financially accountable. The District's major operations include education, pupil transportation, food service, and maintenance of District facilities.

The following activity is also included within the reporting entity:

**Nonpublic School**

Within the District boundaries, John Paul II Catholic School is operated through the Catholic diocese. Current state legislation provides funding to this nonpublic school. These monies are received and disbursed by the District on behalf of the nonpublic school by the Treasurer of the District, as directed by the nonpublic schools. These transactions are reported as a governmental activity of the District.

**Winton Woods City School District, Ohio**  
**Notes to the Basic Financial Statements**  
**For The Fiscal Year Ended June 30, 2025**

---

The District is associated with two jointly governed organizations. These organizations are:

**Jointly Governed Organizations:**

Unified Purchasing Cooperative of the Ohio River Valley  
Hamilton Clermont Cooperative Information Technology Center

These organizations are presented in Note 11.

**Measurement Focus**

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government except for fiduciary funds. The interfund services provided and used are not eliminated in the consolidation.

The government-wide statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position. Fiduciary Funds are not included in entity-wide statements.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

**Fund Accounting**

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and fiduciary. The focus of government fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

**Governmental Funds**

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources is reported as fund balance. The following are the District's major governmental funds:

**General Fund** - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

**Debt Service Fund** – The debt service fund is used to account for the accumulation of resources for the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the District is obligated in some manner for the payment.

**Fiduciary Funds**

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The District has a custodial fund to account for activities related to OHSAA athletic events of the District. This fund did not have activity in 2025.

**Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

**Revenues – Exchange and Non-exchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, included property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements,

**Winton Woods City School District, Ohio**  
**Notes to the Basic Financial Statements**  
**For The Fiscal Year Ended June 30, 2025**

---

which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: property taxes available for advance, grants and other taxes.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources include pension, a deferred charge on refunding, and other post employment benefits. These amounts are reported on the government-wide statement of net position. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 7 and 8.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, pension, OPEB, grants and other taxes, revenue in lieu of taxes, and investments. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2025, but which were levied to finance year 2026 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Grants and other taxes and investments have been recorded as deferred inflows on the governmental fund financial statements. For the District, revenue in lieu of taxes include tax incremental financing (TIF). These amounts are deferred and recognized as inflows of resources in the period the amounts become available. TIF's have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Deferred inflows related to pension and OPEB plans are reported on the government-wide statement of net position. For more pension and OPEB related information, see Notes 7 and 8.

**Expenses/Expenditures**

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

**Equity In Pooled Cash and Investments**

Cash received by the District is pooled for investment purposes. Interest in the pool is presented as "Equity in Pooled Cash and Investments" on the financial statements.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as nonnegotiable certificates of deposits and repurchase agreements are reported at cost.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

There were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice is appreciated for deposits and withdrawals of \$100 million or more. STAR Ohio reserves the right to limit the transaction to \$250 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue during fiscal year 2025 amounted to \$1,496,713 credited to the General Fund and \$177,773 credited to Other Governmental Funds.

**Prepaid Items**

Payments made to vendors for services that will benefit periods beyond June 30, 2025 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and expenditure/expense is reported in the year in which services are consumed.

**Capital Assets**

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The District maintains a capitalization threshold of five thousand dollars (\$5,000). The District does not possess any infrastructure. Improvements that add to the value of an asset or materially extend an asset's life are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value.

All reported capital assets are depreciated, except land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is allocated using the straight-line method over the following useful lives:

**Compensated Absences**

The District recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled during or upon separation from employment. Based on the criteria listed, two types of leave qualify for liability recognition for compensated absences – vacation and sick leave. The liability for compensated absences is reported as incurred in the government-wide financial statements. A liability for compensated absences is recorded in the governmental funds only if the liability has matured because of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

The District's policies regarding compensated absences are determined by the state laws and/or negotiated agreements. In summary, the policies are as follows:

<u>Vacation</u>	<u>Certified</u>	<u>Administrators</u>	<u>Non-Certificated</u>
How Earned	Not Eligible	25 days	10-20 days for each service year depending on length of service

**Pensions/Other Postemployment Benefits (OPEB)**

For purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

**Net Position**

Net position represents the difference between assets and outflows of resources, and liabilities and inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Of the District's \$16,451,283 in restricted net position, none were restricted by enabling legislation.

**Fund Balance**

In accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting*, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that are constrained for specific purposes that are internally imposed by the government at its highest level of decision making authority, the Board of Education. The formal action that is required to establish (and modify or rescind) a fund balance commitment is a Board Resolution.

Assigned – resources that are intended to be used for specific purposes as approved through the District's formal purchasing procedure by the Treasurer, as established by the board approved purchasing policy.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts which had been restricted, committed or assigned for said purposes.

**Winton Woods City School District, Ohio**  
**Notes to the Basic Financial Statements**  
**For The Fiscal Year Ended June 30, 2025**

---

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivables" and "Interfund Payables". These amounts are eliminated on the governmental activities columns of the statement of net position.

As a general rule the effect on interfund (internal) activity has been eliminated from the government-wide statement of activities. The interfund services provided and used are not eliminated in the process of consolidation.

**Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Note 2 - Equity in Pooled Cash and Investments**

---

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the statement of net position and balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the District into three categories:

Active Monies - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the District. Such monies must by law be maintained either as cash in the District treasury, in depository accounts payable or withdrawable on demand.

Inactive Monies – Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

Interim Monies – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Those held by the District can be deposited or invested in the following securities:

**Winton Woods City School District, Ohio**  
**Notes to the Basic Financial Statements**  
**For The Fiscal Year Ended June 30, 2025**

---

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States.
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities.
3. Written repurchase agreements in the securities listed above provided the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met.
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts.
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
7. The State Treasurer's investment pool (STAR Ohio).
8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

---

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements" and amended by GASB Statement 40, "Deposit and Investment Risk Disclosures".

### **Deposits**

Custodial credit risk for deposits is the risk that in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. As of June 30, 2025, \$2,206,168 of the District's bank balance of \$2,456,168 was exposed to custodial credit risk because it was uninsured and collateralized.

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105% of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 50% of the deposits being secured or a rate set by the Treasurer of State.

### **Investments**

As of June 30, 2025, the District had the following investments:

	<u>Value</u>	<u>Fair Value Hierarchy</u>	<u>Weighted Average Maturity (Years)</u>
US Treasury Note	\$6,483,574	Level 2	1.91
Federal National Mortgage Association	467,213	Level 2	0.15
Federal Home Loan Bank Discount Notes	3,154,927	Level 2	1.58
Federal Farm Credit Bank	3,165,970	Level 2	1.54
Commercial Paper	1,436,650	Level 2	0.35
STAR Ohio	15,432,349	N/A	0.08
Money Market Funds	28,791	N/A	0.00
<b>Total Investments</b>	<b><u>\$30,169,474</u></b>		
Portfolio Weighted Average Maturity			0.80

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Inputs to the valuation techniques used in fair the measurement for Level 2 include quoted prices for similar assets or liabilities in active markets, quoted

**Winton Woods City School District, Ohio**  
**Notes to the Basic Financial Statements**  
**For The Fiscal Year Ended June 30, 2025**

---

prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are significant unobservable inputs. The above table identifies the District's recurring fair value measurements as of June 30, 2025. STAR Ohio is reported at its share price (Net Asset value per share).

**Interest Rate Risk** - In accordance with the investment policy, the District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio.

**Credit Risk** – It is the District's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments, which have a credit quality rating of the top 2 ratings issued by nationally recognized statistical rating organizations. The District's investments in Federal Home Loan Bank – Discount Notes, Federal Home Loan Mortgage Corporation, Federal Farm Credit Bank, US Treasury note, and Federal National Mortgage Association were rated AAA by Standard & Poor's and Fitch ratings and Aaa by Moody's Investors Service. The District's investments in Commercial Paper was rated A-1+ by Standard & Poor's ratings and P-1 by Moody's Investors Service. Investments in STAR Ohio were rated AAAM by Standard & Poor's. Money Market funds were not rated.

**Concentration of Credit Risk** – The District's investment policy requires investments to be diversified to reduce the risk of loss. The District's policy allows investments in U.S. Agencies or Instrumentalities. Regarding the portfolio of investments, the District has invested 2% in Federal National Mortgage Association, the District has invested 22% in US Treasury Note, the District has invested 10% in Federal Home Loan Bank Discount Notes, 10% in Federal Farm Credit Bank, 5% in Commercial Paper, 51% in STAR Ohio, and less than 1% in Money Market Funds.

**Custodial Credit Risk** is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. STAR Ohio is neither registered nor insured.

**Note 3 – Property Taxes**

---

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real and public utility personal (used in business) property located in the District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. The District receives property taxes from Hamilton County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2025, are available to finance fiscal year 2026 operations. The amount available for advance can vary based on the date the tax bills are sent.

**Notes to the Basic Financial Statements**  
**For The Fiscal Year Ended June 30, 2025**

---

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes that became measurable as of June 30, 2025. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2025 taxes were collected are:

	<u>Amount</u>
Agricultural/Residential	
and Other Real Estate	\$729,981,200
Public Utility Personal	<u>33,190,320</u>
Total	<u><u>\$763,171,520</u></u>

**Note 4 – Receivables**

---

Receivables at June 30, 2025, consisted of taxes, accounts, interest, interfund and intergovernmental. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

**School Improvement Bonds:** Series 2017A and 2017B School Improvement Bonds were issued on April 25, 2017 and bear an interest rate ranging from 2%-5%. The bonds mature on November 1, 2053 and November 1, 2043 respectively. Principal and interest are paid from the debt service fund.

**2022 Refunding Bonds:** Series 2022 Classroom Facilities Refunding Bonds were issued on March 29, 2022 and bear an interest rate ranging from 4%-5%. The bonds mature on November 1, 2053. Principal and interest are paid from the debt service fund.

On March 29, 2022 the District issued \$19,750,000 in Current Interest Bonds with an interest rate between 4% and 5% which was used to refund \$20,150,000 of the outstanding 2017 School Improvement Bonds with an interest rates between 2.25% and 4.00%. The net proceeds of \$19,750,000 (after payment of underwriting fees, insurance and other issuance costs) were used to purchase U.S. government securities. Those securities were deposited into an irrevocable trust with an escrow agent to provide all future debt service payments on the bond issues. As a result, \$20,150,000 of the 2017 School Improvement Bonds were considered to be defeased and the related liability for those bonds have been removed from the Statement of Net Position.

The District refunded 2017 School Improvement Bonds to reduce its total debt service payments by \$3,254,996 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$512,679.

**Note 7 - Defined Benefit Pension Plans**

---

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

**Net Pension Liability/Net OPEB Liability (Asset)**

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represent the District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients.

The remainder of this note includes the required pension disclosures. See Note 8 for the required OPEB disclosures.

**Plan Description - School Employees Retirement System (SERS)**

**Plan Description**

District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost-of-living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. The Retirement Board approved a 2.5 percent COLA for calendar year 2024.

### **Funding Policy**

Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2025, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2025, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The District's contractually required contribution to SERS was \$1,528,692 for fiscal year 2025. Of this amount \$141,923 is reported as accrued wages and benefits.

### **Plan Description - State Teachers Retirement System (STRS)**

#### **Plan Description**

District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. The calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of credited service. Effective August 1, 2023, any member can retire with unreduced benefits with 34 years of service credit at any age; or five years of service credit and age 65. Effective June 1, 2025 - July 1, 2027, any member can retire with unreduced benefits with 33 years of service credit at any age; or five years of service credit and age 65. Effective on or after August 1, 2027, any member can retire with unreduced benefits with 34 years of service credit at any age; or five years of service credit and age 65.

In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent upon a determination by its actuary that it was necessary to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective July 1, 2022, an ad-hoc COLA of 3 percent of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2023 as long as they retired prior to July 1, 2018. Effective July 1, 2023, a permanent 1 percent COLA of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2024 as long as they retired prior to July 1, 2019.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits effective August 1, 2023, can retire with 29 years of service credit at any age; or five years of service credit and age 60. Effective June 1, 2025 - July 1, 2027, retirement eligibility for reduced benefits is 28 years of service credit at any age; or five years of service credit and age 60. Effective on or after August 1, 2027, retirement eligibility for reduced benefits is 29 years of service credit at any age; or five years of service credit and age 60.

The DC Plan allows members to place all their member contributions and 11.09 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 2.91 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

---

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

**Funding Policy**

Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2025 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For 2025, the full employer contribution was allocated to pension.

The District's contractually required contribution to STRS was \$3,890,664 for fiscal year 2025. Of this amount \$648,444 is reported as accrued wages and benefits.

**Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

The net pension liability (asset) was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

**Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2137.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2024, and compared with June 30, 2023, are presented below:

	June 30, 2024	June 30, 2023
Inflation	2.40%	2.40%
Future Salary Increases, including inflation	3.25% to 13.58%	3.25% to 13.58%
COLA or Ad Hoc COLA	2.0%, on or after April 1, 2018, COLAs for future retirees will be delayed for three years following commencement	2.00%, on or after April 1, 2018, COLAs for future retirees will be delayed for three years following commencement
Investment Rate of Return	7.00% net of system expenses	7.00% net of system expenses
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. ORC 3309.15 and the SERS Board-adopted Investment Policy govern investment activity. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. **Discount Rate**

The total pension liability for 2024 was calculated using the discount rate of 7.00 percent. The discount rate determination did not use a municipal bond rate. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 20-year amortization period of the unfunded actuarial accrued liability. The actuarially determined contribution rate for fiscal year 2024 was 14 percent. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.00 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability. The annual money-weighted rate of return, calculated as the internal rate of return on pension plan investments, for fiscal year 2024 was 9.31 percent.

**Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.00 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent), or one percentage point higher (8.00 percent) than the current rate.

**Actuarial Assumptions – STRS**

Key methods and assumptions used in the June 30, 2024, actuarial valuation compared to those used in the June 30, 2023, actuarial valuation are presented below:

	June 30, 2024	June 30, 2023
Inflation	2.50%	2.50%
Salary increases	From 2.50% to 8.50% based on service	From 2.50% to 8.50% based on service

Payroll Increases	3.00 percent	3.00%
Cost-of-Living Adjustments (COLA)	0.0%, effective July 1, 2017	0.0%, effective July 1, 2017

Post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024, valuation are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	26.00%	6.90%
International Equity	22.00	7.70
Alternatives	19.00	9.10
Fixed Income	22.00	4.50
Real Estate	10.00	5.10
Liquidity Reserves	1.00	2.40
Total	<u><u>100.00%</u></u>	

\* Final target weights reflected at October 1, 2022.

\*\* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.4 percent, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate**

The discount rate used to measure the total pension liability was 7.00 percent as of June 30, 2024. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on pension plan investments of 7.00 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2024.

**Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00 percent) or one-percentage-point higher (8.00 percent) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
District's proportionate share of the net pension liability	\$57,786,270	\$35,821,446	\$17,242,979

**Changes Between the Measurement Date and the Report Date**

At the April 2025 STRS Board meeting, they approved the following change:

1. Beginning July 1, 2025, approve a 1.5% cost-of-living increase be paid to eligible benefit recipients on their anniversary date in fiscal year 2026; and
2. Temporarily make thirty-two years of service credit the minimum requirement for unreduced benefits and adjust the years of service credit required for reduced retirement benefits to twenty-seven or more years of service credit at any age for the period effective June 1, 2025 through May 1, 2030, then temporarily make thirty-three years of service credit the minimum requirement for unreduced benefits and adjust the years of service credit required for reduced retirement benefits to twenty-eight or more years of service at any age from June 1, 2030 through May 1, 2032, with a return to a minimum of thirty-four years of service credit (twenty-nine years or more for reduced retirement benefits) effective June 1, 2032 going forward.

Any effect on the net pension liability is unknown.

**Plan Description - School Employees Retirement System (SERS)**

**Health Care Plan Description**

The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible

individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. The following types of credit purchased after January 29, 1981, do not count toward health care coverage eligibility: military, federal, out-of-state, municipal, private school, exempted, and early retirement incentive credit. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

The Health Care program is financed through a combination of employer contributions, recipient premiums, investment returns, and any funds received on behalf of SERS' participation in Medicare programs. The System's goal is to maintain a health care reserve account with a 20-year solvency period in order to ensure that fluctuations in the cost of health care do not cause an interruption in the program. However, during any period in which the 20-year solvency period is not achieved, the System shall manage the Health Care Fund on a pay-as-you-go basis.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

**Funding Policy**

State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2025, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2025, this amount was \$30,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2025, the District's surcharge obligation was \$175,322.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$175,322 for fiscal year 2025.

**Plan Description - State Teachers Retirement System (STRS)**

**Plan Description**

The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Health care premiums were reduced by a Medicare Part B premium credit beginning in 2023. the Plan is included in the report of STRS which can be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

Medicare Part D is a federal program to help cover the costs of prescription drugs for Medicare beneficiaries. This program allows STRS Ohio to recover part of the cost for providing prescription coverage since all eligible STRS Ohio health care plans include creditable prescription drug coverage.

**Funding Policy**

Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2025, STRS did not allocate any employer contributions to post-employment health care.

**Net OPEB Liabilities (Assets), OPEB Expense (Income), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

The net OPEB liability (asset) was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability (asset) was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share:

**Actuarial Assumptions – SERS**

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

rates for actives is based on PUB-2010 General Amount Weighted Below Median Employee mortality table. Mortality rates are projected using a fully generational projection with Scale MP-2020.

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2016 through 2020, and was adopted by the Board on April 15, 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. As of June 30, 2024:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (geometric)
Cash	3.00 %	0.97 %
US Equity	22.00	4.68
Non-US Equity Developed	12.00	4.96
Non-US Equity Emerging	6.00	5.66
Fixed Income/Global Bonds	18.00	2.38

Private Debt/Private Credit	5.00	5.86
Total	<u><u>100.00 %</u></u>	

**Discount Rate**

The discount rate used to measure the total OPEB liability at June 30, 2024, was 4.88 percent. The discount rate used to measure total OPEB liability prior to June 30, 2024, was 4.27 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be depleted in 2059 by SERS' actuaries. The Fidelity General Obligation 20-year Municipal Bond Index Rate was used in the determination of the single equivalent interest rate for both the June 30, 2023, and the June 30, 2024, total OPEB liability. The Municipal Bond Index Rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate was 3.93 percent at June 30, 2024, and 3.86 percent at June 30, 2023.

**Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates**

The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.88%) and higher (5.88%) than the current discount rate (4.88%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.40%) and higher (8.00% decreasing to 5.40%) than the current rate.

	1% Decrease (3.88%)	Current Discount Rate (4.88%)	1% Increase (5.88%)

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

Healthy retirees post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024, valuation are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **

Fixed Income	22.00	4.50
Real Estate	10.00	5.10
Liquidity Reserves	1.00	2.40
<b>Total</b>	<b><u>100.00%</u></b>	

\* Final target weights reflected at October 1, 2022.

\*\* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.4 percent, and is net of investment expenses. Over a 30-year period, STRS investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

**Discount Rate**

The discount rate used to measure the total OPEB liability was 7.00 percent as of June 30, 2024. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on health care plan investments of 7.00 percent was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2024.

**Sensitivity of the Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate**

The following table represents the net OPEB asset as of June 30, 2024, calculated using the current period discount rate assumption of 7.00 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

**Changes Between the Measurement Date and the Report Date**

At the May 2025 STRS Board meeting, the Board approved the following change: Increasing the health care subsidy for twenty-seven years of service to the maximum subsidy minus the subsidy for three years of service for anyone who retires between August 1, 2023, and July 1, 2032, effective June 1, 2025 through July 1, 2032. After that the maximum subsidy for Healthcare Plan participants who retire August 1, 2032 or later will align with the eligibility for unreduced pensions, and all others eligible for subsidies receive one less year of subsidy for each year below the minimum years of service required to receive unreduced subsidy at any age. Any effect on the net OPEB asset is unknown.

**Note 9 - Contingent Liabilities**

---

**Grants**

The District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2025, if applicable, cannot be determined at this time.

**Litigation**

The District's attorney estimates that all other potential claims against the District not covered by insurance resulting from all other litigation would not materially affect the financial statements of the District.

**Note 10 - Risk Management**

---

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to students and employees, acts of terrorism and natural disasters. During the current fiscal year, the District contracted with Liberty Mutual Insurance Company for general liability, property, auto, boiler and machinery insurance. Liberty Mutual is an AM Best A-rated (Strong) insurance carrier and is the sixth largest insurance provider in the world. Liberty Mutual also ranks We also rank 86<sup>th</sup> on the Fortune 100 list of largest corporations in the US based on 2022 revenue. Further, the district also contracts with Crum & Forster Insurance for cyber threat insurance coverage including cyber liability, cybercrime, breach response and business loss. Crum & Forster is an AM Best and S&P A-rated carrier.

The District maintains a commercial liability policy with limits of \$1,000,000 each occurrence and \$3,000,000 aggregate. An excess liability umbrella coverage in the amount of \$10,000,000 also provides additional protection. Commercial Property insurance coverage has a \$10,000 deductible with a \$191,611,406 blanket building & business personal property limit. Professional liability is protected by Liberty Mutual Insurance Company with a \$5,000 deductible and limits of \$1,000,000 for each wrongful act and a \$1,000,000 annual aggregate. Vehicles are covered by Liberty Mutual Insurance Company with a \$2,500 deductible for comprehensive and a \$2,500 deductible for collision.

Public officials' bond insurance is provided by Travelers Casualty and Security Company of America. The Treasurer is covered by a bond in the amount of \$50,000. The Superintendent, Executive Director of Accountability and Business Affairs, and Board President are covered by bonds in the amount of \$20,000 each.

For fiscal year 2025, the District provided employee medical/surgical benefits through Anthem.

There have been no material reductions in insurance coverage. The amounts of settlement did not exceed insurance coverage for any of the past three fiscal years.

**Note 11 - Jointly Governed Organizations**

---

**Hamilton Clermont Cooperative Information Technology Center**

The School District is a participant in the Hamilton Clermont Cooperative Information Technology Center (HCC) which is a computer consortium. HCC is an association of public school districts within the boundaries of Hamilton and Clermont Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of HCC consists of the superintendents and/or treasurers of the participating members. HCC is not accumulating significant financial resources nor is it experiencing fiscal stress that may cause an additional financial benefit to or burden on members in the future.

**Unified Purchasing Cooperative of the Ohio River Valley**

The Unified Purchasing Cooperative of the Ohio River Valley was organized to benefit members with a more economically sound purchasing mechanism for products and services. The Board of Directors is elected from among the active members. Each of the members share in a percentage of equity based on the resources provided. The Hamilton County Educational Service Center is the fiscal agent for the Cooperative. Financial information can be obtained from the Director at 1007 Cottonwood Drive, Loveland, Ohio 45140.

**Note 12 - Required Set-Asides**

---

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year end or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year end set-aside amounts for capital acquisition. Disclosure of this information is required by State statute.

*This Space Intentionally Left Blank*

**Winton Woods City School District, Ohio**

	<u>Capital Acquisition</u>
Set Aside Reserve Balance as of June 30, 2024	\$0
Current Year Set Aside Requirements	941,096
Qualified Disbursements	(836,859)
Current Year Offsets	<u>(104,237)</u>
Set Aside Reserve Balance as of June 30, 2025	<u><u>\$0</u></u>

Qualifying disbursements for capital activity during the year exceeded the amount required for the set-aside. Negative amounts are therefore not presented as being carried forward to the next fiscal year for the capital acquisition set-aside.

**Note 13 – Accountability**

---

The following fund had a deficit fund balance/net position at June 30, 2025:

<u>Fund</u>	<u>Deficit</u>
<hr/>	
Other Governmental Funds:	
IDEA Part-B Special Education	\$22,374
Improving Teacher Quality	5,248
IDEA Preschool Handicapped	580
Title I	51,095

The deficit in these other governmental funds resulted from adjustments for accrued liabilities. Management expects the deficits in these funds to be corrected in early fiscal year 2025. The General Fund is liable for any deficit in these funds and provides transfers when cash is required, not when the accruals occur.

**Note 14 - Interfund Transactions**

---

Interfund transactions at fiscal year end, consisted of the following interfund receivable and interfund payable:

	Interfund	
	Receivable	Payable
General Fund	\$179,077	\$0
Other Governmental Funds	0	179,077
	<u>\$179,077</u>	<u>\$179,077</u>

Transfer in and out and interfund balances are made to provide operating cash as needed.

**Note 15 - Fund Balances**

---

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

---

**Note 16 – Construction and Other Commitments**

---

**Construction Commitments**

At year end, the District's construction commitments were as follows:

Project	Contractual Commitment	Expended	Remaining Commitment
Intermediate School/Early Childhood Center Renovation	\$12,418,442	\$12,243,575	\$174,867
<b>Total</b>	<b>\$12,418,442</b>	<b>\$12,243,575</b>	<b>\$174,867</b>

Based on timing of when contracts are encumbered, contractual commitments identified above may or may not be included in the following outstanding encumbrance commitments disclosed in this note.

**Notes to the Basic Financial Statements**  
**For The Fiscal Year Ended June 30, 2025**

---

**Other Commitments**

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

<u>Description</u>	<u>Remaining Commitment</u>
General	\$156,595
Other Governmental	<u>679,028</u>
Total	<u><u>\$835,623</u></u>

**Note 17 – Tax Abatements entered Into By Other Governments**

---

Other governments entered into property tax abatement agreements with property owners under the Ohio Community Reinvestment Area (“CRA”) and Enterprise Zone Agreement (“EZA”) programs with the taxing districts of the District. The CRA program is a directive incentive tax exemption program benefiting property owners who renovate or construct new buildings. Under this program, the other governments designated areas to encourage revitalization of the existing housing stock and the development of new structures. The EZA program is an economic development tool administered by municipal and county governments that provides real and personal property tax exemptions to businesses making investments in the community. Within the taxing districts of the District, The City of Forest Park has entered into CRA and EZA agreements. Under these agreements the District's property taxes were reduced by \$1,078,783. The District received no payments associated with the forgone property tax revenue.

**Note 18– Related Party Disclosures**

---

The District has evaluated its financial transactions, arrangements, and relationships in accordance with the requirements of the U.S. Department of Education (34 CFR §668.23(d)(1)) and Auditor of State Technical Bulletin 2025-001, which extend beyond the disclosure requirements of GASB Codification Section 2250, Related Party Transactions.

Management has determined that, for the fiscal year ended June 30, 2025, the District had no related party relationships, related entities, related party transactions, or related party outstanding balances that are required to be disclosed. Accordingly, no related party disclosures are presented in these financial statements.

**Note 19 – Implementation of New Accounting Principles**

---

**New Accounting Principles**

For fiscal year 2025, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 101, Compensated Absences, GASB Statement No. 102, Certain Risk Disclosures, and GASB Implementation Guide No. 2025-1.

GASB Statement No. 102 addresses the variety of risks that state and local governments face that could negatively affect the level of service they provide or their ability to meet obligations as they come due.

**Winton Woods City School District, Ohio**  
**Notes to the Basic Financial Statements**  
**For The Fiscal Year Ended June 30, 2025**

---

Although governments are required to disclose information about their exposure to some of those risks, essential information about other risks that are prevalent among state and local governments is not routinely disclosed because it is not explicitly required. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The implementation of GASB Statement No. 102 did not have an effect on the financial statements of the District.

GASB Implementation Guide No. 2025-1 includes providing clarity on a range of accounting issues for state and local governments. These topics under GASB Implementation Guide No. 2025-1 provisions were implemented and did not have an effect on the financial statements of the District.

GASB Statement No. 101 sets out to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The implementation of GASB Statement No. 101 had the following effect on net position as reported June 30, 2024, by opinion unit affected:

<u>Government-Wide</u>	
<u>Governmental</u>	
<u>Activities</u>	
Net Position-Beginning of Year, as Previously Presented	\$41,427,638
Change in Accounting Principle- Adoption of GASB 101	<u>(5,639,104)</u>

**Note 1 – Budgetary Process**

---

All funds, except custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriations resolution and the certificate of estimated resources which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the Board of Education may appropriate. The appropriation resolution is Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Board. The legal level of control has been established by Board at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the fiscal year 2025.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Board during the year.

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as an assignment of fund balance for governmental fund types and expendable trust funds (GAAP basis).
4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.
5. Some funds are reported as part of the general fund (GAAP basis as opposed to the general fund being reported alone (budget basis).

**Note 2 - Net Pension Liability**

**School Employees Retirement System (SERS)**

**Changes in Benefit Terms:**

2025: Effective August 1, 2024, HB 33 established a Contribution-Based Benefit Cap (CBBC). Under this provision, a member's retirement allowance (and any survivor benefit derived from that allowance) will be limited if the calculated benefit under the statutory formula exceeds the CBBC amount.

2023-2024: There were no changes in benefit terms since the prior measurement period.

2022: Cost of Living Adjustments (COLA) increased from 0.50% to 2.50%.

2020-2021: There were no changes in benefit terms from the amounts reported for this fiscal year.

2019: With the authority granted the Board under Senate Bill 8, the Board has enacted a three year COLA delay for future benefit recipients commencing benefits on or after April 1, 2018.

2018: SERS changed from a fixed 3.00% annual increase to a Cost of Living Adjustments (COLA) based on the changed in the Consumer Price Index Index (CPI-W), with a cap of 2.50% and a floor of 0.00%.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

**Changes in Assumptions:**

2023-2025: The following changes of assumptions affected the total pension liability since the prior measurement date:

(1) Cost of Living Adjustments (COLA) was increased from 2.00% to 2.50% for calendar years 2025, 2024 and 2023.

2022: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.00% to 2.40%,
- (2) Payroll growth assumption was reduced from 3.50% to 1.75%,
- (3) Assumed real wage growth was increased from 0.50% to 0.85%,
- (4) Cost of Living Adjustments (COLA) was reduced from 2.50% to 2.00%,
- (5) The discount rate was reduced from 7.50% to 7.00%,

---

- (6) Rates of withdrawal, compensation, participation, spouse coverage assumption, retirement, and disability were updated to reflect recent experience, and,
- (7) Mortality among active members, service retirees and beneficiaries, and disabled members were updated.

2018-2021: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2017: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.25% to 3.00%,
- (2) Payroll growth assumption was reduced from 4.00% to 3.50%,
- (3) Assumed real wage growth was reduced from 0.75% to 0.50%,
- (4) Rates of withdrawal, retirement and disability were updated to reflect recent experience,
- (5) Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females,
- (6) Mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates,
- (7) Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement, and
- (8) The discount rate was reduced from 7.75% to 7.50%.

2014-2016: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

**State Teachers Retirement System (STRS)**

**Changes in Benefit Terms:**

2025: In March 2024, the Board adopted a change in the service retirement eligibility requirements for both unreduced and actuarially reduced benefits. This change is effective for retirements beginning June 1, 2024. The change allows for unreduced retirement at 34 years of service indefinitely (was previously set to increase to 35 years beginning August 1, 2029). The change also allows for an actuarially reduced retirement at any age with 29 years of service.

2019-2024: There were no changes in benefit terms from the amounts reported for these fiscal years.

2018: STRS decreased the Cost of Living Adjustment (COLA) to zero.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

**Changes in Assumptions:**

2025: Retirement rates were extended to younger ages intended to ensure that the ranges in retirement eligibility impacted participants at such ages. Demographic assumptions were changed based on the actuarial experience study for the period July 1, 2015 through June 30, 2021.

2024: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for this fiscal year.

2023: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) Post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table:
  - a. Adjusted 110.0% for males, projected forward generationally using mortality improvement scale MP-2020
- (2) Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table:
  - a. Adjusted 95.0% for females, projected forward generationally using mortality improvement scale MP-2020
- (3) Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table:
  - a. Projected forward generationally using mortality improvement scale MP-2020
- (4) Projected salary increases changed from 2.50% to 12.50% to 2.50% to 8.50%

2022: There were changes in assumptions since the prior measurement date, which the discount rate was adjusted to 7.00% from 7.45%.

2019-2021: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2018: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The long term expected rate of return was reduced from 7.75% to 7.45%,
- (2) The inflation assumption was lowered from 2.75% to 2.50%,
- (3) The payroll growth assumption was lowered to 3.00%,
- (4) Total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation,
- (5) The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016, and
- (6) Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

2014-2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

## **MAJOR DEBT SERVICE FUND**

### **Fund Description**

**Debt Service** – To account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

The District has only one Debt Service Fund for the current fiscal year. The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance are included in the Basic Financial Statements. The Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual (Non-GAAP Budgetary Basis) follows this page.

## **NONMAJOR GOVERNMENTAL FUNDS**

### **Special Revenue Funds**

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

### **Capital Projects Funds**

The Capital Projects Funds is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

## **NONMAJOR CAPITAL PROJECTS FUNDS**

### **Fund Descriptions**

**Permanent Improvement** - To account for all transactions related to the acquiring, constructing, or improving of the infrastructure of buildings and grounds through permanent improvements.

**Building** - A fund used to account for the receipts and expenditures related to all specific bond funds in the district. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

**Classroom Facilities Fund** - This Classroom Facilities Fund is used to account for monies received and expended in connection with contracts entered into by the school district and the Ohio Facilities Construction Commission for the building and equipping of classroom facilities. The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance are included in the Basic Financial Statements. The Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual (Non-GAAP Budgetary Basis) follows this page.

## **OTHER GENERAL FUND**

With the implementation of GASB Statement No. 54, certain funds that the District prepares legally adopted budgets for no longer meet the definition to be reported as Special Revenue funds and have been included with the General Fund in the governmental fund financial statements. The District has only presented the budget schedules for these funds.

### **Fund Description**

**Public School Support** - To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

(1) Hamilton County Auditor property tax records are maintained on a calendar year basis

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in businesses in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax is being phased out beginning in 2006. The listing percentage is 12.5 percent for 2007, 6.25 percent for 2008, and zero for 2009.

The tangible personal property values associated with each year are the values, that when multiplied by the applicable rates, generate the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemption before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.
