

Assisting Local Government in times of fiscal distress

For more than 25 years, the Ohio Auditor of State's office has helped local governments effectively deal with financial, accounting and budgetary issues. These services are even more urgently needed in times of fiscal distress.

Services

Auditor of State Dave Yost offers local governments a wide range of resources:

- Annual reports, GAAP conversion and financial statements
- Fiscal watch and fiscal emergency assistance
- Assistance with financial forecasts
- Reconstruction of financial records
- Reconciliation of books
- Advice about policies and procedures
- Evaluation of internal controls
- Web-GAAP
An internet-based software used to convert year-end cash-basis information into a GAAP conforming financial report.

Clients

All local government entities can take advantage of the services provided by LGS, including:

- School districts
- Townships
- Cities
- Villages
- Counties
- Libraries
- Special districts and other political subdivisions

Publications

The Auditor of State regularly prepares accounting manuals and policy bulletins, which local governments can access online at **www.auditor.state.oh.us**.

These materials help public officials perform their financial management responsibilities and keep them up to date on legal requirements affecting their duties.
